ORDER

On January 25, 2023, the undersigned will hear argument on one motion and two claim objections docketed at ECF Nos. 2657, 2661, and 2663. In preparing for the hearing, the undersigned will review all papers submitted on those specific applications. In light of the undersigned’s recent assignment to the case solely for the purpose of resolving these applications and the undersigned’s lack of broader first-hand familiarity with the main bankruptcy case, the Court invites, but does not require, any party in interest to file a letter, not to exceed three single-spaced pages, describing the case’s and applications’ general background, and identifying any other portions of the record the parties believe the undersigned should be aware of prior to the January 25 hearing. Any such submission shall be filed on or before January 11, 2023.

It is so ordered.
