Hi John,

Sounds good, we'll put this on hold until 5/31 and after I hear back from you. We do have the disconnect for cross connect: CYX.SFO1-A.50.1347588-001.08.20165215. This is for Lumen copper connection: DAS1.SC4 GE 8/3. You'll want to put in the circuit disconnect request with Lumen when you are ready, and we will wait until you've turned the circuit down with Lumen before we remove the physical cross connect.

I will follow up with you at the end of May to see if things are still on track. Please reach out if anything changes.
