Payment for Order Flow Disclosure

The SEC (as well as FINRA) requires that all broker-dealers inform their customers when a new account is opened, and on an annual basis thereafter, of payment for order flow practices (compensation received for placing orders through specialists on national securities exchanges, over-the-counter market makers, alternative trading systems, and ECN's (collectively, "market centers")). Consistent with the overriding principle of best execution, ETS routes orders to various market centers. ETS receives remuneration (generally in the form of per share cash payments or through profit sharing arrangements) for routing orders in securities to particular market centers for execution. Such remuneration is considered compensation to ETS, and the source and amount of any compensation received in connection with your transaction will be disclosed to you upon written request. ETS, absent instructions from you to the contrary, takes a number of factors into consideration in determining where to route customers' orders, including the speed of execution, price improvement opportunities (executions at prices superior to the then prevailing inside market), automatic execution guarantees, the availability of efficient and reliable order handling systems, the level of service provided, the cost of executing orders, whether it will receive cash or non-cash payments for routing order flow and reciprocal business arrangements.

Trades noted as "AVG PRICE SHOWN-DETAILS ON REQ" are executed through an average price account. The price shown may represent an average of multiple executions or may represent a single execution at the price indicated. Details regarding trades done in an average price account are available upon request.
