5 that your brother signed?
6 A. I'm not sure. I don't know.
7 Q. Prior to the petition date, did
8 you or Dugaboy ever ask anybody to see any
9 promissory note that your brother had
10 signed in favor of Highland?
11 A. I don't believe we asked.
12 Q. Prior to the petition date, did
13 you or Dugaboy ever make any effort to try
14 to obtain any promissory note that your
15 brother signed in favor of Highland?
16 A. No, I don't think so.
17 Q. Do you know how many promissory
18 notes your brother signed in favor of
19 Highland?
20 A. Totally? No.
21 Q. Okay. I am going to ask similar
22 questions now regarding the corporate
23 entities.
24 Do you understand that Highland
25 has what are referred to as affiliates?

1 N. Dondero
2 A. Yes.
3 Q. Okay. And do you have an
4 understanding of the term "affiliates" as
5 it relates to Highland?
6 A. Yes.
7 Q. What's your understanding of the
8 term "affiliates" as it relates to
9 Highland?
10 A. Companies that are associated
11 with Highland.
12 Q. And what does it mean to be
13 associated with Highland?
14 MS. DEITSCH-PEREZ: Object to the
15 form.
16 MR. MORRIS: Withdrawn.
17 BY MR. MORRIS:
18 Q. What do you mean when you say
19 that affiliated companies are those that
20 are associated with Highland?
21 A. They're under the Highland
22 umbrella.
23 Q. Is it your understanding that
24 affiliated companies are controlled by your
25 brother?

1 N. Dondero
2 MS. DEITSCH-PEREZ: Object to the
3 form.
4 A. I'm sorry, John?
5 MS. DEITSCH-PEREZ: There's some
6 noise. We can hear somebody talking.
7 Someone probably needs to mute.
8 MR. MORRIS: Give me one second.
9 It might be me. We'll see.
10 I apologize for that if it was me
11 anyway.
12 Can I have last question read
13 back please.
14 THE REPORTER: Sure.
15 (Question was read back as
16 follows:
17 "QUESTION: Is it your
18 understanding that affiliated companies
19 are controlled by your brother?")
20 A. Yes.
21 Q. Okay. And are you aware -- with
22 that understanding of the term if
23 "affiliates," are you aware that from time
24 to time, Highland provided loans to certain
25 of its affiliates?

1 N. Dondero
2 A. I'm not sure. Of Highland loans?
3 Okay. I'm not sure, John.
4 Q. Prior to the petition date, did
5 you or Dugaboy know whether Highland ever
6 made a loan to an affiliate, as you've
7 defined it?
8 A. Yes, there were loans made.
9 Q. Okay. And how did you learn that
10 there were loans made by Highland to its
11 affiliates?
12 A. Jim and I had discussed the loans
13 that were made.
14 Are we talking about certain
15 ones, John?
16 Q. I'm just talking generally at the
17 moment.
18 How did you learn whatever
19 information you have, and we'll get into
20 the details, but how did you learn that
21 Highland made loans to affiliates?
22 A. From Jim.
23 Q. Okay. Did you have any source of
24 information other than your brother on the
25 question of whether Highland made loans to

1 N. Dondero
2 affiliates?
3 A. Not that I'm aware of.
4 Q. Were you and Dugaboy generally
5 aware that when Highland made loans to its
6 affiliates, the affiliates gave Highland
7 promissory notes in return?
8 A. Yes.
9 Q. Okay. And how did you learn
10 that?
11 A. In conversation.
12 Q. And would those be conversations
13 that you had with Jim?
14 A. Correct.
15 Q. Did you have conversations with
16 anybody else on the topic of whether or not
17 the affiliates gave Highland promissory
18 notes in exchange for loans?
19 A. Not that I recall.
20 Q. Prior to the petition date, did
21 you or Dugaboy ever see a promissory note
22 that was signed on behalf of any affiliate?
23 A. I don't recall.
24 Q. Prior to the petition date, did
25 you or Dugaboy ever ask anybody to see any

1 N. Dondero
2 promissory note that was signed in favor of
3 Highland by one of its affiliates?
4 A. Not that I recall, John.
5 Q. Prior to the petition date, did
6 you or Dugaboy make any effort to try to
7 obtain any promissory note that was
8 executed by a Highland affiliate in favor
9 of Highland?
10 A. I don't believe so.
11 Q. Do you know if Highland ever
12 forgave any obligations under any
13 promissory note that was signed on behalf
14 of any affiliate?
15 A. I have no idea.
16 Q. Did you or Dugaboy ever ask
17 anybody whether Highland had ever forgiven
18 any loan that was given to an affiliate?
19 A. Did we -- I'm sorry, John, can
20 you repeat the question, please?
21 Q. Yes.
22 Did you or Dugaboy ever ask
23 anybody prior to the petition date whether
24 Highland had ever forgiven in whole or in
25 part any loan that it made to an affiliate?

1 N. Dondero
2 A. No, because it was my assumption
3 that that was common practice.
4 Q. Okay. And what was that
5 assumption based on?
6 A. Conversations that I either had
7 with Jim or overheard.
8 Q. Okay. Do you have anything to
9 add about the practice that you haven't
10 already testified to?
11 Withdrawn.
12 Does the practice that you're
13 referring to, is that the same practice
14 that you have identified earlier with
15 respect to loans that were made to officers
16 and employees?
17 A. That's correct, John.
18 Q. Okay. So did you have any source
19 of information other than your brother that
20 you can identify right now concerning the
21 practice of forgiving loans to affiliates?
22 A. Not at this time.
23 Q. Can you identify any loan that
24 Highland ever made to an affiliate that was
25 forgiven?

1 N. Dondero
2 A. Not that I recall.
3 Q. Did you or Dugaboy ever ask
4 anybody to identify any loan that it ever
5 made to an affiliate that was forgiven in
6 whole or in part?
7 A. Can you restate that, John?
8 Q. Sure.
9 Did you or Dugaboy ever ask
10 anybody to identify a loan that was made by
11 Highland to an affiliate that was forgiven
12 in whole or in part?
13 A. Not that I remember.
14 Q. Can you or Dugaboy identify today
15 any affiliate that obtained a loan from
16 Highland that Highland forgave?
17 A. Not that I know of.
18 Q. Did you or Dugaboy ever take any
19 steps to confirm what your brother told you
20 about the practice of forgiving loans?
21 A. Did we take any steps?
22 Q. Did you do anything?
23 A. Not that I am aware of, no.
24 Q. Did you ever see any document
25 that concerned or related to the practice

1 N. Dondero
2 your brother described for you whereby
3 Highland forgave loans to affiliates?
4 A. I do not recall, John, no.
5 Q. Did you ever ask to see any
6 documents that reflected the practice your
7 brother described?
8 A. I never asked.
9 Q. Give me one second.
10 Have you ever heard of an entity
11 called Highland Capital Management Services
12 Inc.?
13 A. Yes.
14 Q. Can we refer to that entity as
15 HCMS?
16 A. Okay.
17 Q. Is HCMS an affiliate --
18 withdrawn.
19 Did you and Dugaboy understand
20 that HCMS was an affiliate of Highland's
21 prior to the petition date?
22 A. Yes.
23 Q. And how did you come to
24 understand that HCMS was an affiliate of
25 Highland prior to the petition date?

1 N. Dondero
2 A. Because it's another one of Jim's
3 companies.
4 Q. And how did you learn that that
5 was another one of Jim's companies?
6 A. I don't remember how I learned
7 it. It's under the Highland umbrella.
8 Q. And when you say that it's one of
9 "Jim's companies," what do you mean by
10 that?
11 A. The beneficial owner.
12 Q. And how did you learn that your
13 brother was the beneficial owner of HCMS?
14 MS. DEITSCH-PEREZ: Object to the
15 form. That's not what she said. She
16 said he is a beneficiary owner --
17 MR. MORRIS: You can object to
18 the question. I appreciate it.
19 BY MR. MORRIS:
20 Q. And you can answer it.
21 MS. DEITSCH-PEREZ: Don't
22 misstate what she said, please.
23 MR. MORRIS: All you do is get to
24 object to the question, please. Don't
25 coach the witness.

1 N. Dondero
2 MS. DEITSCH-PEREZ: I'm not
3 coaching the witness.
4 You want to have the court
5 reporter read it back.
6 BY MR. MORRIS:
7 Q. Can you please answer my
8 question, please?
9 A. How did I learn that Jim was a
10 beneficial owner --
11 Q. Sure.
12 A. -- of the company?
13 I would assume from Jim.
14 Q. Okay. Do you have any reason to
15 believe your source of information was
16 anybody other than Jim?
17 A. I don't know, John.
18 Q. Okay. Do you know the nature of
19 HCMS's business?
20 A. No.
21 Q. Did you or Dugaboy ever ask
22 anybody what the nature of HCMS's business
23 was?
24 A. No, not that I recall.
25 Q. Did you or Dugaboy ever make any

1 N. Dondero
2 effort to determine what HCMS's business
3 was?
4 A. Not that I recall.
5 Q. Did you or Dugaboy ever know --
6 withdrawn.
7 Did you or Dugaboy ever have any
8 information concerning HCMS's financial
9 condition?
10 A. No, not that I'm aware of.
11 Q. Did you or Dugaboy ever ask
12 anybody for information concerning HCMS's
13 financial condition?
14 A. No.
15 Q. Did you or Dugaboy ever make any
16 independent effort to try to determine what
17 HCMS's financial condition was?
18 A. Not that I recall.
19 Q. Do you or Dugaboy know whether
20 any agreements exist between HCMS and
21 Highland other than any promissory notes?
22 A. I don't know.
23 Q. Did you or Dugaboy ever ask
24 anybody whether any agreements existed
25 between Highland and HCMS other than

1 N. Dondero
2 promissory notes?
3 A. I don't know. No, I don't
4 believe so.
5 Q. I appreciate your patience. I
6 do.
7 A. That's okay.
8 Q. Did you or Dugaboy ever make any
9 effort to try to learn whether any
10 agreements existed between Highland and
11 HCMS other than promissory notes?
12 A. I don't believe so.
13 Q. Did you or Dugaboy know prior to
14 the petition date whether Highland ever
15 provided any services to HCMS?
16 A. I don't know.
17 Q. Did you or Dugaboy ever ask
18 anybody prior to the petition date whether
19 Highland ever provided any services to
20 HCMS?
21 A. I don't believe it was asked.
22 Q. Did you or Dugaboy ever made any
23 effort prior to the petition date to learn
24 whether Highland provided any services to
25 HCMS?

1 N. Dondero
2 A. Not that I am aware of, John.
3 Q. Do you know if HCMS -- withdrawn.
4 Did you or Dug -- withdrawn.
5 Did you or Dugaboy know prior to
6 the petition date whether HCMS ever
7 rendered any services to Highland?
8 A. I wouldn't --
9 MS. DEITSCH-PEREZ: Object to the
10 form.
11 A. I wouldn't know.
12 MR. MORRIS: Can I have the
13 question read back?
14 THE REPORTER: Sure.
15 (Question was read back as
16 follows:
17 "QUESTION: Did you or Dugaboy
18 know prior to the petition date whether
19 HCMS ever rendered any services to
20 Highland?"
21 "ANSWER: I wouldn't know.")
22 BY MR. MORRIS:
23 Q. Did you or Dugaboy ever ask
24 anybody prior to the petition date whether
25 HCMS ever rendered any services to

1 N. Dondero
2 Highland?
3 A. I don't believe so, John.
4 Q. Did you or Dugaboy make any
5 effort prior to the petition date to
6 determine whether HCMS ever rendered any
7 services to Highland?
8 A. I don't think so.
9 Q. Do you know if Highland ever
10 loaned any money to HCMS?
11 MS. DEITSCH-PEREZ: Asked and
12 answered.
13 MR. MORRIS: You can answer.
14 A. Oh, answer it again?
15 Q. If I asked it, I apologize, but
16 go ahead, yeah.
17 MS. DEITSCH-PEREZ: I thought you
18 asked about promissory notes. If I'm
19 wrong, I apologize.
20 MR. MORRIS: That's okay.
21 A. Yeah, I'm sorry. Okay. So not
22 including any notes?
23 Q. Yeah, let me ask a different
24 question. I'm not asking about promissory
25 notes.

1 N. Dondero
2 A. Okay.
3 Q. I'm asking whether prior to the
4 petition date, you or Dugaboy were aware of
5 any loans that Highland made to HCMS?
6 A. Okay. I'm aware of the ones that
7 are in question.
8 Are you speaking of others?
9 Q. I am asking broadly at this time.
10 Are you generally aware that
11 Highland loaned --
12 A. Yes.
13 Q. -- money to HCMS prior to the
14 petition date?
15 A. Yes, I am generally aware.
16 Q. Okay. Did you and Dugaboy know
17 how many loans Highland made to HCMS prior
18 to the petition date?
19 A. Yes, I believe.
20 Q. And how many loans did Highland
21 make to HCMS prior to the petition date, to
22 the best of your knowledge?
23 A. At least five.
24 Q. And are those the loans that are
25 reflected in the five promissory notes that

1 N. Dondero
2 are the subject of the lawsuit against
3 HCMS?
4 A. Correct.
5 Q. Okay. Are you aware of any loans
6 that Highland ever made to HCMS that are
7 not subject to the lawsuit?
8 A. I'm not -- I'm not aware, John.
9 Q. Did you ever ask -- withdrawn.
10 Did you or Dugaboy ask at any
11 time whether Highland had ever made any
12 loans to HCMS that weren't reflected in the
13 promissory notes that are the subject of
14 the lawsuits?
15 A. I don't believe we ever asked.
16 Q. Do you know who authorized
17 Highland to make the loans to HCMS that
18 you're aware of?
19 A. Okay. I'm sorry, once again,
20 John, the question?
21 Q. Did you or Dugaboy know prior to
22 the petition date who authorized Highland
23 to make the loans to HCMS that are the
24 subject of the promissory notes that you
25 referred to?

1 N. Dondero
2 A. Who authorized?
3 Q. Yes.
4 A. I don't know.
5 Q. Do you recall if you or Dugaboy
6 asked anybody at any time prior to the
7 petition date who authorized Highland to
8 make the loans to HCMS?
9 A. I don't believe that was asked.
10 Q. Okay. Do you have any
11 information as to whether HCMS intended to
12 pay back each of the loans that are the
13 subject of the promissory notes at the time
14 the loans were given to them by Highland?
15 MS. DEITSCH-PEREZ: Objection.
16 No foundation.
17 A. John, can you just say the
18 question again, please?
19 Q. Sure.
20 Did you or Dugaboy have any
21 information prior to the petition date as
22 to whether HCMS intended to repay the loans
23 that are the subject of the promissory
24 notes that you identified?
25 A. No.

1 N. Dondero
2 Q. Okay. Did you or Dugaboy ever
3 ask anybody prior to the petition date
4 whether HCMS had intended to repay the
5 loans at the time and times that it
6 obtained them from Highland?
7 A. Okay, John, can you ask that
8 again?
9 Q. Sure.
10 Did you or Dugaboy ever ask
11 anybody whether HCMS intended to repay the
12 loans at the time HCMS obtained them from
13 Highland?
14 A. I don't believe we asked their
15 intent.
16 Q. Okay.
17 MS. DEITSCH-PEREZ: Whenever --
18 we've been going about another hour.
19 So whenever is good for you, John.
20 MR. MORRIS: Okay. I'm going to
21 finish up this section here.
22 BY MR. MORRIS:
23 Q. Do you or Dugaboy have any
24 knowledge as to why Highland made the loans
25 to HCMS?

1 N. Dondero
2 A. Only assumptions.
3 Q. Okay. I don't want assumptions.
4 I want information.
5 A. Then I don't -- then I don't
6 know.
7 Q. Okay. Do you or Dugaboy ever ask
8 anybody why Highland made the loans to HCMS
9 that are the subject of the promissory
10 notes you referred to?
11 A. No.
12 Q. Did you or Dugaboy ever make any
13 effort to try to determine why Highland
14 made the loans to HCMS?
15 A. No, not that I remember.
16 Q. Did you or Dugaboy know prior to
17 the petition date what HCMS did with the
18 proceeds of the loans that it obtained from
19 Highland?
20 A. I don't know, John.
21 Q. Did you or Dugaboy ever ask
22 anybody at any time prior to the petition
23 date what HCMS did with the proceeds of the
24 loans that it obtained from Highland?
25 A. No.

1 N. Dondero
2 Q. Did you or Dugaboy ever make any
3 effort to determine what HCMS did with the
4 proceeds of the loans that it obtained from
5 Highland?
6 A. No.
7 Q. You're aware that HCMS issued
8 promissory notes in favor of Highland in
9 exchange for the loans, correct?
10 A. Correct.
11 Q. Prior to the petition date, did
12 you ever see any promissory note that was
13 issued by HCMS in favor of Highland?
14 A. Prior to October of '19?
15 Q. Correct.
16 A. I don't recall.
17 Q. Do you recall whether you or
18 Dugaboy asked at any time prior to the
19 petition date to see promissory notes that
20 were executed on behalf of HCMS in favor of
21 Highland?
22 A. I don't know.
23 Q. Do you recall whether you or
24 Dugaboy made any effort at any time prior
25 to the petition date to obtain copies of

1 N. Dondero
2 promissory notes that were issued by HCMS
3 in favor of Highland?
4 A. I don't believe so.
5 Q. Prior to the petition date, were
6 you and Dugaboy aware of the terms of the
7 promissory notes that HCMS issued in favor
8 of Highland?
9 MS. DEITSCH-PEREZ: Object to the
10 form.
11 A. Can you be more specific? Just
12 the terms of the loan, John?
13 Q. Yes.
14 Did you and Dugaboy know the
15 terms of the loans that were reflected in
16 the promissory notes?
17 A. I believe so, yes.
18 Q. Okay. And who gave you the
19 information regarding the terms of the
20 loans that HCMS obtained from Highland?
21 A. Jim.
22 Q. Do you remember anything about
23 the terms of the loans that HCMS obtained
24 from Highland?
25 A. Regarding -- you mean the term?

1 N. Dondero
2 There's 30-year. There's demand.
3 Q. You tell me.
4 You described five promissory
5 notes, I think, that were executed by HCMS
6 in favor of Highland, right?
7 A. That's correct.
8 Q. Okay. And I believe you
9 testified that you didn't see those notes
10 prior to the petition date, correct?
11 A. Right. Well, yeah, I'm a little
12 vague on the date; but, yes, I don't
13 believe I saw them prior to -- so right,
14 prior to the petition date, correct.
15 Um-hmm.
16 Q. But did you or Dugaboy --
17 withdrawn.
18 Did you and Dugaboy have an
19 understanding of the terms of the notes
20 prior to the petition date?
21 A. Yes. From what I understand, my
22 recollection is several of them were
23 demand, and one was 30-year.
24 Q. And do you have an understanding
25 of what it means -- of what a demand notice

1 N. Dondero
2 is?
3 MS. DEITSCH-PEREZ: Object to the
4 form.
5 A. Payable upon demand.
6 Q. Okay. So you knew prior to the
7 petition date that certain of the notes
8 issued by HCMS to Highland were demand
9 notes; is that right?
10 A. Yes.
11 Q. Okay.
12 MR. MORRIS: All right. I'm
13 happy to take a break now. Hopefully
14 it won't be as long as the last one.
15 But we can go off the record.
16 THE VIDEOGRAPHER: The time is
17 12:00 p.m. We are going off the
18 record.
19 (Recess is taken.)
20 (Patrick Daugherty not in
21 attendance at this time.)
22 THE VIDEOGRAPHER: The time is
23 12:16. Back on the record.
24 BY MR. MORRIS:
25 Q. Ms. Dondero, did you communicate

1 N. Dondero
2 with anybody during your break regarding
3 any aspect of your testimony?
4 A. No, sir.
5 Q. Okay. Have you ever heard of an
6 entity called HCRE Partners LLC?
7 A. Yes, sir.
8 Q. Do you understand that HCRE is an
9 affiliate of Highland?
10 A. I do.
11 Q. Okay. And what was the -- what
12 is the basis of your understanding that
13 HCRE -- withdrawn. I should have put a
14 time frame on this.
15 Is it your understanding that
16 HCRE was an affiliate of Highland prior to
17 the petition date?
18 A. Yes, sir.
19 Q. And what is the basis for your
20 understanding?
21 A. They were under the Highland
22 umbrella prior to October of '19.
23 Q. And to the best of your
24 knowledge, does HCRE fit the definition of
25 affiliate that you provided earlier today?

1 N. Dondero
2 MS. DEITSCH-PEREZ: Objection.
3 A. Yes.
4 Q. Do you know the nature of HCRE's
5 business?
6 A. I believe it's real estate.
7 Q. Do you or Dugaboy have any
8 information about the nature of HCRE's
9 business other than it's real estate?
10 A. No.
11 Q. Did you or Dugaboy ever ask
12 anybody what the nature of HCRE's business
13 was?
14 A. No.
15 Q. Did you or Dugaboy ever make any
16 effort to ascertain the nature of HCRE's
17 business?
18 A. Not that I recall.
19 Q. Did you or Dugaboy know whether
20 HCRE had any agreements with Highland prior
21 to the petition date?
22 MS. DEITSCH-PEREZ: Object to the
23 form.
24 MR. MORRIS: Withdrawn.
25 BY MR. MORRIS:

1 N. Dondero
2 Q. Do you or Dugaboy know whether
3 HCRE had any agreements with Highland prior
4 to the petition date other than the
5 promissory notes?
6 A. Other than the promissory notes,
7 no.
8 Q. Did you or Dugaboy ever ask
9 anybody at any time prior to the petition
10 date whether HCRE had any agreements with
11 Highland other than the promissory notes?
12 A. No.
13 Q. Did you or Dugaboy make any
14 effort prior to the petition date to
15 ascertain whether any agreements existed
16 between Highland and HCRE other than the
17 promissory notes?
18 A. Not that I recall.
19 Q. Do you know -- withdrawn.
20 Did you or Dugaboy know prior to
21 the petition date whether HCRE had ever
22 rendered any services to Highland?
23 MS. DEITSCH-PEREZ: Object to the
24 form.
25 A. I don't know.

1 N. Dondero
2 Q. Did you or Dugaboy ever ask
3 anybody prior to the petition date whether
4 HCRE ever rendered any services to
5 Highland?
6 A. I don't believe so.
7 Q. Did you or Dugaboy make any
8 effort to ascertain prior to the petition
9 date whether HCRE ever rendered any
10 services to Highland?
11 MS. DEITSCH-PEREZ: Object to the
12 form.
13 A. I'm sorry, John, can you repeat
14 that, please, the question?
15 Q. Did you or Dugaboy make any
16 effort prior to the petition date to
17 determine whether or not HCRE had ever
18 provided any services to Highland?
19 MS. DEITSCH-PEREZ: Object to the
20 form.
21 A. I don't believe so.
22 Q. Are you aware -- withdrawn.
23 Did you or Dugaboy know prior to
24 the petition date whether Highland had ever
25 loaned any money to HCRE?

1 N. Dondero
2 A. Yes.
3 Q. And were the loans that you're
4 aware of reflected in promissory notes?
5 A. Correct.
6 Q. And are those the promissory
7 notes that are the subject of one of the
8 litigations?
9 A. Yes, sir.
10 Q. Are you aware of any loans that
11 Highland ever made to HCRE that are not the
12 subject of one of the promissory notes in
13 the lawsuits?
14 A. I'm not aware of any.
15 Q. Did you ever ask anybody whether
16 Highland had ever made any loans to HCRE
17 that were not reflected in the promissory
18 notes that are the subject of the lawsuit?
19 A. Not that I recall.
20 Q. Did you or Dugaboy know prior to
21 the petition date who authorized Highland
22 to make the loans to HCRE?
23 MS. DEITSCH-PEREZ: Object to the
24 form.
25 A. Sorry, John, could you say the

1 N. Dondero
2 question again, please?
3 Q. Sure.
4 Did you or Dugaboy know prior to
5 the petition date who authorized Highland
6 to make the loans to HCRE?
7 MS. DEITSCH-PEREZ: Object to the
8 form.
9 A. I don't know.
10 Q. Did you or Dugaboy ever ask
11 anybody prior to the petition date who
12 authorized Highland to make the loans to
13 HCRE that are reflected in the promissory
14 notes you referred to?
15 MS. DEITSCH-PEREZ: Object to the
16 form.
17 A. No.
18 Q. Did you or Dugaboy ever make any
19 effort to ascertain who had authorized
20 Highland to make the loans to HCRE that are
21 reflected in the promissory notes you
22 referred to?
23 A. Not that I recall.
24 Q. Did you or Dugaboy have any
25 information prior to the petition date as

1 N. Dondero
2 to whether HCRE intended to repay the loans
3 that are reflected in the promissory notes
4 at the time the loans were made?
5 MS. DEITSCH-PEREZ: Object to the
6 form.
7 A. John, I'm sorry, did I have any
8 information if they intended to pay their
9 loans?
10 Q. At the time that they obtained
11 the loans, yes.
12 A. I have no reason to think they
13 wouldn't pay their loans --
14 Q. Okay.
15 A. -- at the time they were made,
16 correct.
17 Q. You're not aware of any facts
18 that suggest that HCRE didn't intend to
19 repay the loans at the time they obtained
20 them, right?
21 A. Correct.
22 Q. Prior to the petition date, did
23 you or Dugaboy have any information in
24 regard to the purpose of the loans that
25 Highland gave to HCRE that were reflected

1 N. Dondero
2 in the promissory notes?
3 A. No, no idea.
4 Q. Did you or Dugaboy attempt to
5 obtain prior to the petition date any
6 information concerning the purpose of the
7 loans that were made by Highland to HCRE
8 that were reflected in the promissory
9 notes?
10 A. I don't believe so.
11 Q. Did you or Dugaboy make any
12 effort to ascertain the purpose of the
13 loans that Highland made to HCRE?
14 A. I don't believe so.
15 Q. Did you or Dugaboy know prior to
16 the petition date what HCRE did with the
17 proceeds of the loans that it obtained from
18 Highland in exchange for the promissory
19 notes?
20 A. We don't know.
21 Q. Did you or Dugaboy ever ask
22 anybody what HCRE did with the proceeds of
23 the loans that it obtained from Highland in
24 exchanged from the promissory notes?
25 A. I don't believe we did.

1 N. Dondero
2 Q. Did you or Dugaboy ever make any
3 effort prior to the petition date to
4 ascertain what HCRE did with the proceeds
5 of the loans that it obtained from Highland
6 that are reflected in the promissory notes?
7 A. No.
8 Q. Did you ever see -- withdrawn.
9 Did you or Dugaboy ever see prior
10 to the petition -- withdrawn. Not good.
11 Too many questions.
12 Did you or Dugaboy -- withdrawn.
13 Prior to the petition date, did
14 you or Dugaboy ever see any promissory note
15 that was executed by HCRE in favor of
16 Highland?
17 A. Not that I recall.
18 Q. Prior to the petition date, did
19 you or Dugaboy ever ask anybody to see any
20 promissory note that was issued by HCRE in
21 favor of Highland?
22 A. Not that I recall.
23 Q. Prior to the petition date, did
24 you or Dugaboy make any effort to try to
25 obtain any promissory note that was ever

1 N. Dondero
2 executed on behalf of HCRE in favor of
3 Highland?
4 A. No.
5 Q. Prior to the petition date, did
6 you and Dugaboy know the terms of any of
7 the promissory notes that were issued by
8 HCRE to Highland?
9 A. Yes.
10 Q. And how did you learn of the
11 terms of the notes?
12 A. From Jim.
13 Q. And what did Jim tell you about
14 the terms of the notes that were issued by
15 HCRE to Highland?
16 A. He mentioned the 30-year demand,
17 the dates, the amounts.
18 Q. Okay. Did you do -- withdrawn.
19 Did you or Dugaboy take any steps
20 to try to corroborate what your brother
21 told you concerning the terms of the notes
22 that were issued by HCRE to Highland?
23 A. Not that I recall.
24 Q. Okay. Did you have any source of
25 information for the terms of the notes

1 N. Dondero
2 other than what your brother gave to you?
3 A. I don't believe so.
4 Q. Okay. Last one. NexPoint.
5 Are you familiar with an entity
6 called NexPoint Advisors LP?
7 A. Yes.
8 Q. Can we refer to that entity as
9 NexPoint?
10 A. Yes.
11 Q. Is it your understanding that
12 NexPoint was an affiliate of Highland's
13 prior to the petition date, as you've used
14 the term "affiliate"?
15 A. Um-hmm. Yes.
16 Q. And what's the basis for your
17 understanding that prior to the petition
18 date, NexPoint was an affiliate of
19 Highland?
20 A. Because Jim is a beneficial
21 owner.
22 Q. Is it your understanding that Jim
23 is a beneficial owner of all of the
24 defendants in each of the promissory note
25 lawsuits?

Page 130

1 N. Dondero
2 MS. DEITSCH-PEREZ: Object to the
3 form.
4 THE WITNESS: Can I answer?
5 BY MR. MORRIS:
6 Q. Yes.
7 A. Yes, that is my belief, John.
8 Q. Do you have any reason to believe
9 Jim is not a beneficial owner of any
10 corporate defendant in any of the lawsuits?
11 A. No, I have no reason to believe
12 that.
13 Q. Prior to the petition date, did
14 you or Dugaboy know the nature of
15 NexPoint's business?
16 A. I'm not really sure.
17 Q. Do you know the nature of
18 NexPoint's business today?
19 A. I'm not sure.
20 Q. Did you or Dugaboy ever ask
21 anybody at any time what the nature of
22 NexPoint's business was?
23 A. I don't believe we did.
24 Q. Did you or Dugaboy make any
25 effort at any time to try to learn what the

Page 131

1 N. Dondero
2 nature of NexPoint's business was?
3 A. Not that I recall.
4 Q. Did you or Dugaboy know prior to
5 the petition date whether NexPoint had any
6 agreements with Highland?
7 MS. DEITSCH-PEREZ: Object to the
8 form.
9 MR. MORRIS: I apologize. I'll
10 make the same qualification.
11 BY MR. MORRIS:
12 Q. Did you and Dugaboy know prior to
13 the petition date whether NexPoint and
14 Highland had any agreements together other
15 than the promissory notes?
16 A. I'm not aware of any.
17 Q. Okay. Did you or Dugaboy ask
18 anybody at any time prior to the petition
19 date whether any agreements existed between
20 NexPoint and Highland other than the
21 promissory notes?
22 A. No, not that I'm aware of.
23 Q. Did you or Dugaboy ever make any
24 effort prior to the petition date to
25 determine whether any agreements existed

Page 132

1 N. Dondero
2 between Highland and NexPoint other than
3 the promissory notes?
4 A. Not that I'm aware of.
5 Q. Did you or Dugaboy know prior to
6 the petition date whether NexPoint ever
7 rendered any services to Highland?
8 MS. DEITSCH-PEREZ: Object to the
9 form.
10 A. I don't know.
11 Q. Did you or Dugaboy ever ask
12 anybody at any time prior to the petition
13 date whether NexPoint had ever rendered any
14 services to Highland?
15 MS. DEITSCH-PEREZ: Object to the
16 form.
17 A. I'm sorry, John. Can you repeat
18 the question, please?
19 Q. Sure.
20 Did you and Dugaboy ask anybody
21 at any time prior to the petition date
22 whether NexPoint had ever rendered any
23 services to Highland?
24 A. Not that I'm aware of.
25 Q. Did you and Dugaboy make any

Page 133

1 N. Dondero
2 effort prior to the petition date to
3 determine whether or not NexPoint had ever
4 rendered any services to Highland?
5 A. Not that I'm aware of.
6 Q. Are you aware that Highland made
7 loans to NexPoint from time to time?
8 A. I don't know.
9 Q. Did you ever see any -- do you
10 know whether -- withdrawn.
11 Prior to the petition date, were
12 you and Dugaboy aware of any promissory
13 notes that NexPoint had issued in favor of
14 Highland?
15 MS. DEITSCH-PEREZ: You mean
16 other than what's at issue here? Just
17 generally?
18 MR. MORRIS: I'm starting with
19 the general, yeah.
20 A. I'm not aware of.
21 Q. Are you aware of any promissory
22 notes that NexPoint ever issued in favor of
23 Highland?
24 A. I'm not aware of any.
25 Q. Do you know whether there are any

1 N. Dondero
2 promissory notes that NexPoint issued that
3 are the subject of this lawsuit?
4 A. Yeah. John, can we back up a
5 question?
6 Q. Absolutely.
7 A. Are you talking about the notes
8 -- yeah, please.
9 Are you talking about the notes,
10 part of this proceeding or are you not?
11 Q. I'm starting -- that's okay. Let
12 me --
13 A. Because obviously there is the
14 NexPoint promissory note that we are
15 talking about. When I answered the way I
16 did, it was regarding others that I'm not
17 aware of. I'm aware of the one obviously
18 in this proceeding.
19 Q. Okay. Thank you for the --
20 A. Does that clarify?
21 Q. It does. It is helpful. Thank
22 you very much.
23 Other than the one -- how many
24 NexPoint notes do you understand are the
25 subject of these litigations?

1 N. Dondero
2 A. One.
3 Q. Okay. Other than that one note,
4 are you aware of any other promissory notes
5 that NexPoint ever issued in favor of
6 Highland?
7 MS. DEITSCH-PEREZ: Object to the
8 form.
9 A. No, I'm not aware of any other.
10 Q. Did you ask anybody -- withdrawn.
11 Did you or Dugaboy ask anybody
12 prior to the petition date whether NexPoint
13 had issued any other promissory notes in
14 favor of Highland other than the one that's
15 the subject of the lawsuit?
16 A. I don't believe so.
17 Q. Did you or Dugaboy know prior to
18 the petition date whether Highland had made
19 any loan to NexPoint other than the loan
20 that's reflected in the promissory note?
21 MS. DEITSCH-PEREZ: Object to the
22 form.
23 A. I'm not aware of any.
24 Q. Do you know how much the
25 promissory -- do you know the principal

1 N. Dondero
2 amount of -- withdrawn.
3 Do you know the -- withdrawn.
4 Did you and Dugaboy know the
5 principal amount of NexPoint's promissory
6 note prior to the petition date?
7 A. Yes.
8 Q. And how did you learn that?
9 A. From Jim.
10 Q. And what did Jim tell you that
11 you can recall?
12 A. 30 million thereabouts, in that
13 neighborhood.
14 Q. Do you know how many principal
15 was owed as of the petition date?
16 A. It's paid down by, oh, about a
17 third, so it's somewhere 22, 23 million, I
18 believe, in that ballpark.
19 Q. Okay. And how did you learn that
20 NexPoint had paid down the principal to
21 that ballpark?
22 A. I'm not sure.
23 Q. Do you recall when you learned
24 that NexPoint had paid down the principal
25 to that ballpark?

1 N. Dondero
2 A. Not exactly.
3 Q. Okay. But you are aware that
4 NexPoint paid approximately 7 to 8 million
5 dollars in principal on the note that's the
6 subject of the lawsuit, correct?
7 MS. DEITSCH-PEREZ: Object to the
8 form.
9 A. Yes, it was somewhere in that
10 ballpark. Sure.
11 Q. Okay. Did you and Dugaboy know
12 prior to the petition date who authorized
13 Highland to make the loan to NexPoint?
14 MS. DEITSCH-PEREZ: Object to the
15 form.
16 A. No, I don't know.
17 Q. Did you or Dugaboy prior to the
18 petition date ask anybody who had
19 authorized Highland to make the $30 million
20 loan to NexPoint?
21 A. Not that I recall.
22 Q. Did you or Dugaboy make any
23 effort prior to the petition date to
24 determine who had authorized Highland to
25 make the $30 million loan to NexPoint?

Page 138

1 N. Dondero
2 A. Not that I recall.
3 Q. Do you have any reason to believe
4 that NexPoint did not intend to pay all
5 principal and interest due under the
6 promissory note at the time that it
7 obtained the loan from Highland?
8 A. I have no reason to believe they
9 weren't intending to pay.
10 Q. Did you have any reason to
11 believe -- withdrawn.
12 Do you or Dugaboy have any reason
13 to believe that Highland wasn't not
14 expecting to get repaid all principal and
15 interest due under the loan at the time it
16 made the loan?
17 MS. DEITSCH-PEREZ: Object to the
18 form. Actually, can somebody --
19 Annette, could you read that
20 back? There were a double negative or
21 two.
22 MR. MORRIS: Okay. Let me
23 rephrase the question. That's fine.
24 That's fine.
25 BY MR. MORRIS:

Page 139

1 N. Dondero
2 Q. Do you have any reason to believe
3 that Highland didn't intend to get repaid
4 all principal and interest due under the
5 NexPoint note at the time it made the loan?
6 A. I have no reason to believe that
7 I didn't think that they weren't to get
8 repaid at the time the notes were
9 initiated.
10 Q. Okay. Did you or Dugaboy know
11 prior to the petition date what the purpose
12 of the $30 million loan was?
13 A. I don't know.
14 Q. Did you or Dugaboy ever ask
15 anybody prior to the petition date what the
16 purpose of the $30 million loan was?
17 A. I don't believe so.
18 Q. Did you or Dugaboy make any
19 effort prior to the petition date to
20 ascertain what the purpose of the $30
21 million loan was?
22 A. I don't believe so.
23 Q. Do you or Dugaboy -- withdrawn.
24 Did you or Dugaboy know prior to
25 the petition date what NexPoint did with

Page 140

1 N. Dondero
2 the proceeds of the loan?
3 A. No, I don't know.
4 Q. Did you or Dugaboy ever ask
5 anybody prior to the petition date what
6 NexPoint did with the proceeds of the loan?
7 A. We did not.
8 Q. Did you or Dugaboy know prior to
9 the petition date that the $30 million loan
10 was a rollup of previously existing loans
11 that Highland had made to NexPoint?
12 MS. DEITSCH-PEREZ: Object to the
13 form.
14 A. I was not aware of that.
15 Q. Are you aware today that the $30
16 million loan was a roll up of previously
17 existing notes?
18 A. I didn't, no.
19 Q. Did you ever see the promissory
20 note that was issued by NexPoint in favor
21 of Highland that's the subject of one of
22 these notes -- litigations?
23 A. I don't remember. That was in
24 '17, correct, John?
25 Q. I'm just asking if -- let me ask

Page 141

1 N. Dondero
2 a different question.
3 A. Yeah, I don't --
4 Q. Okay. Did you or Dugaboy see the
5 promissory note prior to the
6 commencement -- no.
7 Did you or Dugaboy prior to the
8 petition date ever see the promissory note
9 that NexPoint issued in favor of Highland
10 in the principal amount of approximately
11 $30 million?
12 A. I don't recall.
13 Q. Do you recall if you or Dugaboy
14 ever asked anybody prior to the petition
15 date to see the $30 million promissory note
16 that NexPoint issued in favor of Highland?
17 A. I don't believe so.
18 Q. Did you or Dugaboy make any
19 effort prior to the petition date to obtain
20 a copy of the $30 million promissory note
21 that NexPoint issued in favor of Highland?
22 A. I don't recall.
23 Q. Were you and Dugaboy aware at any
24 time prior to the petition date of the
25 terms of the promissory note that NexPoint

1 N. Dondero
2 issued in favor of Highland?
3 A. 30-year.
4 Q. It was a 30-year note?
5 A. Um-hmm.
6 Q. Do you recall anything else about
7 that note?
8 A. I believe it was 2017.
9 Q. Okay.
10 A. And the amounts we already
11 discussed.
12 Q. Do you know who determined that
13 the promissory note would be a 30-year
14 term?
15 A. I do not.
16 Q. Do you know who on behalf of
17 Highland agreed to accept a 30-year note
18 from NexPoint?
19 MS. DEITSCH-PEREZ: Object to the
20 form.
21 A. I don't know, John.
22 Q. Did you or Dugaboy make an effort
23 at any time prior to the petition date to
24 determine whether or not a 30-year term was
25 appropriate?

1 N. Dondero
2 MS. DEITSCH-PEREZ: Object to the
3 form.
4 A. No.
5 Q. Did you or Dugaboy ask anybody at
6 any time prior to the petition date whether
7 a 30-year term was appropriate?
8 MS. DEITSCH-PEREZ: Object to the
9 form.
10 A. Not that I recall.
11 Q. Did you or Dugaboy know prior to
12 the petition date whether the $30 million
13 note was the subject of any negotiation
14 between NexPoint and Highland?
15 MS. DEITSCH-PEREZ: Object to the
16 form.
17 A. I didn't know.
18 Q. Did you or Dugaboy ask anybody at
19 any time prior to the petition date whether
20 the $30 million note was subject to
21 negotiation?
22 A. Subject to negotiation? Can you
23 elaborate? What negotiation?
24 Q. Are you aware of anybody on
25 behalf of Highland suggesting that the term

1 N. Dondero
2 of the note should be something other than
3 30 years?
4 A. No. Changing that term, no, I'm
5 not familiar.
6 Q. Okay. Let's switch topics and
7 I'll cover this topic and then we can take
8 a lunch break.
9 I'd like to turn now to the
10 limited partnership agreement, the LP
11 agreement as I think we've defined it. And
12 I'm going to ask my colleague to put up on
13 the screen -- I don't think it's in the
14 binder that I gave you.
15 MS. DEITSCH-PEREZ: Yes, it is.
16 MR. MORRIS: Oh, is it?
17 MS. DEITSCH-PEREZ: It is?
18 MR. MORRIS: What number is it?
19 MS. DEITSCH-PEREZ: It is number
20 2, it looks like.
21 MR. MORRIS: So we'll put it up
22 on the screen and then you can look at
23 the hard copy.
24 MS. DEITSCH-PEREZ: Okay. Is
25 there a particular page you want to

1 N. Dondero
2 turn to?
3 MR. MORRIS: Let's just start
4 with this.
5 BY MR. MORRIS:
6 Q. Do you understand --
7 MS. DEITSCH-PEREZ: Hang on a
8 minute. One second.
9 Okay. We're good. We've got it.
10 BY MR. MORRIS:
11 Q. Okay. Are you looking at the
12 document that is Exhibit 4 that's attached
13 to the document that's been denoted as
14 number 2?
15 MS. DEITSCH-PEREZ: Yes.
16 Turn to the page before the one
17 that says --
18 THE WITNESS: Oh, okay.
19 A. So page 4 of 37?
20 Q. Yes.
21 (Document review.)
22 A. Okay.
23 Q. All right.
24 A. Okay. Go ahead.
25 Q. At the top, do you see it says

1 N. Dondero
2 Document 63-4 in the middle?
3 A. Yes, I do.
4 Q. And you're at page 2 of 37,
5 correct?
6 A. Correct.
7 Q. Okay. Do you understand that
8 this is the document we defined earlier as
9 the LP agreement?
10 A. Yes, sir.
11 Q. Have you seen this document
12 before now?
13 A. Yes.
14 Q. Do you recall when you saw this
15 document for the first time?
16 A. Shortly after it was made, when I
17 was trustee.
18 Q. Okay. Do you recall the
19 circumstances under which you saw the LP
20 agreement for the first time?
21 A. No, I don't remember the
22 circumstance.
23 Q. Do you have a copy of the LP
24 agreement in your personal possession?
25 Like other than right now, did you have it

1 N. Dondero
2 before today or before I sent it?
3 A. Yes.
4 Q. Okay. Do you recall when you
5 first obtained a copy of the LP agreement?
6 A. The very first time?
7 Q. Yeah.
8 A. I don't know specifically, John.
9 Q. Can we go to the document -- the
10 page that's marked 32 of 37?
11 MS. DEITSCH-PEREZ: 2 of 37?
12 THE WITNESS: 32 of 7 -- 32 of
13 37.
14 MS. DEITSCH-PEREZ: Thank you.
15 (Document review.)
16 BY MR. MORRIS:
17 Q. And is that your signature there?
18 MR. MORRIS: If we can get page
19 32 of 37 up on the screen.
20 (Document review.)
21 BY MR. MORRIS:
22 Q. And is that your signature there,
23 ma'am?
24 A. Well, on the paper copy, it is.
25 Oh, there it is. Yes.

1 N. Dondero
2 Q. Okay.
3 MR. MORRIS: And I apologize La
4 Asia, but can we go now to Section
5 3.10?
6 We're going to mark it. This one
7 is Exhibit 2. Don't worry that we are
8 going out of order. They're premarked.
9 So this document we're going to mark as
10 Exhibit 2.
11 (N. Dondero Exhibit 2, Amended
12 Complaint for (1) Breach of Contract,
13 (II) Turnover of Property, (III)
14 Fraudulent Transfer, and (IV) Breach of
15 Fiduciary Duty, marked for
16 identification, as of this date.)
17 MS. DEITSCH-PEREZ: Did I miss
18 Exhibit 1?
19 MR. MORRIS: No.
20 MS. DEITSCH-PEREZ: Okay.
21 BY MR. MORRIS:
22 Q. Do you see Section 3.10? Do you
23 have that in front of you?
24 A. Yes.
25 Q. Have you seen that provision of

1 N. Dondero
2 the LP agreement before?
3 A. Yes.
4 Q. Do you recall when you first read
5 or you first saw Section 3.10?
6 A. On the day I probably signed it.
7 Q. All right. I don't want you to
8 speculate. I want you to search your
9 memory.
10 A. Okay.
11 Q. Do you recall when you saw
12 Section 3.10 for the first time?
13 A. The first time I saw the
14 document.
15 Q. Okay. Do you recall the
16 circumstances under which you reviewed
17 Section 3.10?
18 A. Prior to signing the document.
19 Q. Do you see there is a reference
20 in the document in Section 3.10 to majority
21 interest?
22 A. Yes, sir.
23 Q. Do you have an understanding of
24 what that term means?
25 A. Class A shareholders -- limited

1 N. Dondero
2 partners. I apologize.
3 Q. And what is the basis for that
4 understanding?
5 A. Because the class A limited
6 partners is the majority interest. Holds
7 -- I'm sorry, holds the majority interest.
8 Q. And did you ever discuss that
9 with anybody at any time?
10 MS. DEITSCH-PEREZ: And I'm going
11 to direct her to ask exclude any
12 discussions with lawyers. So other --
13 MR. MORRIS: Let me rephrase the
14 question. Let me rephrase the
15 question.
16 BY MR. MORRIS:
17 Q. Did you ever discuss the
18 definition of majority interest with
19 anybody at any time prior to the petition
20 date?
21 A. I don't recall.
22 Q. Do you believe that Dugaboy holds
23 a majority interest, as that term is used
24 in Section 3.10?
25 A. Yes, I do believe that.

1 N. Dondero
2 Q. And did you believe that prior to
3 the petition date?
4 A. Yes.
5 Q. What was the basis for your
6 belief prior to the petition date that
7 Dugaboy held a majority interest?
8 A. I was told that Dugaboy held the
9 majority interest.
10 Q. And who told you that Dugaboy
11 held the majority interest?
12 A. Melissa Schroth.
13 Q. Do you recall when Ms. Schroth
14 told you that?
15 A. Shortly after I became trustee.
16 Q. And can you tell me who Melissa
17 Schroth is?
18 A. Melissa is a financial assistant
19 with Jim.
20 Q. And you communicated with
21 Ms. Schroth on a regular basis prior to the
22 petition date; is that fair?
23 A. Correct.
24 Q. Do you know, is Ms. Schroth a
25 lawyer?

1 N. Dondero
2 A. I don't believe so.
3 Q. Do you know anything about her
4 background or expertise?
5 A. Accounting, I believe.
6 Q. Did you ever do anything to
7 corroborate what Ms. Schroth told you about
8 Dugaboy being a majority interest?
9 A. I had no reason to disbelieve
10 her.
11 Q. But you didn't do anything to
12 corroborate that; is that right?
13 A. I did not, sir.
14 Q. Did you seek any advice from
15 anybody to ascertain whether what
16 Ms. Schroth told you was accurate?
17 A. I don't recall.
18 Q. Okay. Do you see at the end of
19 Section 3.10, there is a reference to NAV
20 trigger period?
21 A. Yes.
22 Q. Do you have an understanding --
23 withdrawn.
24 Did you have an understanding
25 prior to the petition date of what a NAV

1 N. Dondero
2 trigger period was?
3 A. No.
4 Q. Did you ever ask anybody prior to
5 the petition date what a NAV trigger period
6 was?
7 A. I don't believe so.
8 Q. Did you or Dugaboy make any
9 effort prior to the petition date to
10 ascertain whether a NAV trigger period had
11 occurred?
12 A. I don't believe so.
13 Q. Did you or Dugaboy ever know
14 prior to the petition date whether in fact
15 a NAV trigger period had ever occurred?
16 A. I don't think so.
17 Q. All right.
18 MR. MORRIS: I think if it's okay
19 with you guys, now might be a nice time
20 to take a lunch break.
21 I prefer that it not be too
22 extended. Would it be okay if we came
23 back at the bottom of the hour?
24 THE WITNESS: 1:30, would that be
25 okay?

1 N. Dondero
2 MR. MORRIS: Yeah, 1:30 Central.
3 Is that good?
4 THE WITNESS: That would be
5 great. Thank you.
6 MR. MORRIS: Thanks so much.
7 THE VIDEOGRAPHER: The time is
8 12:54. We're going off the record.

4 THE VIDEOGRAPHER: The time is
5 1:35. We are back on the record.
6 * * *
7 N A N C Y D O N D E R O, resumed and
8 testified as follows:
9 EXAMINATION BY (Cont'd.)
10 MR. MORRIS:
11 Q. Ms. Dondero, are you ready to
12 proceed?
13 A. I am.
14 MR. MORRIS: Are you Deborah?
15 MS. DEITSCH-PEREZ: (Nodding.)
16 MR. MORRIS: Okay. Thank you.
17 BY MR. MORRIS:
18 Q. Can you hear me okay?
19 A. Yes, sir.
20 Q. Okay. I've switched from my
21 phone to my computer. Somehow it worked.
22 Now I wanted to make sure you can hear me.
23 Ms. Dondero, did you speak to
24 anybody during the break about the
25 substance of your testimony?

1 N. Dondero
2 A. No, sir.
3 Q. Did you speak to anybody during
4 the break regarding the substance of this
5 deposition in any way?
6 A. No, sir.
7 Q. Okay. When we left, we had just
8 looked at Section 3.10 of the LP agreement.
9 Do you remember that?
10 A. Yes.
11 Q. Is there anything about the LP
12 agreement that you -- withdrawn.
13 Is there anything that you or
14 Dugaboy don't understand about Section 3.10
15 of the LP agreement?
16 MS. DEITSCH-PEREZ: Object to the
17 form.
18 BY MR. MORRIS:
19 Q. You can answer.
20 A. No.
21 Q. Is there any aspect of Section
22 3.10 that you and Dugaboy thinks is
23 ambiguous?
24 MS. DEITSCH-PEREZ: Object to the
25 form.

1 N. Dondero
2 A. No.
3 Q. Let's switch gears now and let's
4 talk about the oral agreement that's been
5 referred to in this litigation.
6 I'd like to put up on the screen
7 a document that you don't have a hard copy
8 of, or at least I didn't give it to you,
9 and that would be the Amended Complaint
10 that was served by Highland against you and
11 your brother and Dugaboy.
12 MR. MORRIS: And that document
13 we're marking for purposes of the
14 deposition as Exhibit No. 31.
15 (N. Dondero Exhibit 31, Defendant
16 James Donder's Answer to Amended
17 Complaint, marked for identification,
18 as of this date.)
19 MR. MORRIS: Can we put that on
20 the screen, please, and turn to
21 paragraph 82?
22 Actually, stop right there.
23 BY MR. MORRIS:
24 Q. Ms. Dondero, have you ever seen,
25 if we can scroll up -- and, again, this is

1 N. Dondero
2 consistent with what I explained to you at
3 the beginning of the deposition.
4 I don't mean to rush you. I
5 think you should take all the time you need
6 to look at this document if you want to,
7 but my first question is simply whether you
8 have ever seen this document before. And
9 if you need to see more of it, just let me
10 know.
11 (Document review.)
12 A. Can you scroll to the next page,
13 John, please?
14 Q. Sure.
15 (Document review.)
16 MS. DEITSCH-PEREZ: I have a hard
17 copy here I could give the witness.
18 Do you want me to do that?
19 MR. MORRIS: Sure.
20 BY MR. MORRIS:
21 Q. And just for clarity,
22 Ms. Dondero, this is the Amended Complaint
23 that Highland served to collect on the
24 notes that were issued by your brother.
25 A. Okay.

1 N. Dondero
2 MS. CANTY: John, I'm sorry. 31
3 is actually the answer to the Amended
4 Complaint.
5 MR. MORRIS: I'm sorry. I
6 apologize that. Let me restate that.
7 Exhibit 31 is the answer,
8 Mr. Dondero's answer to the Amended
9 Complaint.
10 MS. DEITSCH-PEREZ: All right.
11 So what are you asking if she has seen?
12 I was going to hand her the complaint.
13 MR. MORRIS: It's my mistake,
14 Deborah. If we can go back to -- if we
15 can go back to the top.
16 Let me start this over.
17 BY MR. MORRIS:
18 Q. Do you see, Ms. Dondero, that
19 this is defendant James Dondero's answer to
20 Amended Complaint?
21 A. Yes, I see that.
22 Q. Have you ever seen your brother's
23 answer to the Amended Complaint?
24 A. I don't remember if I've seen
25 this or not. Deborah just gave me a hard

1 N. Dondero
2 copy. Can I have a quick minute to glance
3 over it?
4 Q. Sure. Take your time. And let
5 me know at the top of it, what the docket
6 number is.
7 A. Certainly.
8 Docket No. DOC 83 --
9 Q. Okay. Perfect.
10 A. -- filed on December 3rd.
11 Is that it?
12 Q. Yes. So we are looking at the
13 same thing.
14 MR. MORRIS: And this document is
15 going to be marked as Exhibit 31.
16 A. Okay.
17 Q. All right. Have you seen this
18 document before?
19 A. I think so.
20 Q. Okay.
21 MR. MORRIS: I'm going to ask, La
22 Asia go to paragraph 82.
23 A. Okay.
24 Q. Do you seep paragraph 82 is up on
25 the screen?

1 N. Dondero
2 A. Yes, sir.
3 Q. So I'm going to read a portion of
4 it to you beginning at the very top, okay?
5 I just want you to follow along
6 with me.
7 Paragraph 82 says in part,
8 "Plaintiff's claims are barred in whole or
9 in part because prior to the demands for
10 payment, plaintiff agreed that it would not
11 collect the notes upon fulfillment of
12 condition subsequent. Specifically,
13 sometime between December of the year in
14 which each note was made and February the
15 following year, Defendant Nancy Dondero, as
16 representative for a majority of the Class
17 A shareholders of plaintiff agreed that
18 plaintiff would forgive the notes if
19 certain portfolio companies were sold for
20 greater than cost or on a basis outside of
21 defendant James Dondero's control. The
22 purpose of this agreement was to provide
23 compensation to defendant James Dondero,
24 who was otherwise underpaid compared to
25 reasonable compensation levels in the

1 N. Dondero
2 industry through the use of forgivable
3 loans, a practice that was standard at
4 HCMLP and in the industry."
5 Have I read that correctly?
6 A. Um-hmm, yes.
7 Q. Okay. To the best of your
8 knowledge, is the portion of paragraph 82
9 that I just read true and accurate?
10 A. Yes. Correct.
11 Q. Are you aware, as Dugaboy's
12 30(b)(6) witness, that HCRE, HCMS, and
13 NexPoint all make the same allegation in
14 defense?
15 A. Yes.
16 Q. So is it your testimony that the
17 statement that I just read from paragraph
18 82 applies to the promissory notes issued
19 by HCRE, HCMS, and NexPoint, and that are
20 the subject of the lawsuits?
21 A. Yes.
22 Q. So it's your testimony that you
23 entered into oral agreements with your
24 brother between December and the year each
25 note was made, and February of the

1 N. Dondero
2 following year, pursuant to which plaintiff
3 agreed that plaintiff would forgive the
4 notes if certain portfolio companies were
5 sold for greater than cost or on a basis
6 outside of James Dondero's control,
7 correct?
8 A. That is correct.
9 Q. Can we refer to each of the oral
10 agreements that you entered into with your
11 brother concerning the promissory notes
12 that are described in paragraph 82 as an
13 agreement and collectively as the
14 agreements?
15 A. Certainly.
16 MS. DEITSCH-PEREZ: Okay. And
17 just, John, just so I don't have to
18 object each time, when you say "you,"
19 you're talking about Dugaboy?
20 MR. MORRIS: I'm talking about
21 both unless I say otherwise. But thank
22 you for pointing that out.
23 MS. DEITSCH-PEREZ: Okay.
24 MR. DRAPER: John, just so you
25 know, to the extent that -- hold on.

1 N. Dondero
2 I'm muted.
3 To the extent Deborah raises an
4 objection for the "you," Nancy, as a
5 trustee, I'm not going to say anything,
6 but my objection is a follow-on for the
7 same thing, for the same reasons.
8 MR. MORRIS: Okay. I appreciate
9 that, Douglas.
10 So I'm going to ask the question
11 again.
12 BY MR. MORRIS:
13 Q. Is it your testimony that you, as
14 the trustee of The Dugaboy Investment
15 Trust, entered into oral agreements with
16 your brother between December and the year
17 each note was made and February of the
18 following year, pursuant to which plaintiff
19 agreed that plaintiff would forgive the
20 notes if certain portfolio companies were
21 sold for greater than cost or on a basis
22 outside of James Dondero's control?
23 A. That is correct.
24 Q. Okay. And can we refer to each
25 of the oral agreements that are the subject

1 N. Dondero
2 of paragraph 82 individually as an
3 agreement and collectively as the
4 agreements?
5 A. Um-hmm. Yes.
6 Q. Is that a yes?
7 A. Yes. That is a yes. Sorry.
8 Q. And do you and Dugaboy understand
9 that the phrase "plaintiff" in paragraph 82
10 refers to Highland?
11 A. Yes.
12 Q. And do you and Dugaboy understand
13 that Dugaboy, as the representative of a
14 majority of the Class A shareholders of
15 Highland is the actual entity that entered
16 into the agreements on behalf of Highland?
17 A. Yes.
18 Q. And you are the trustee of
19 Dugaboy today, correct?
20 A. Correct.
21 Q. And you were the trustee of
22 Dugaboy at the time each of the agreements
23 referred to in paragraph 82 was entered
24 into, correct?
25 A. Correct.

1 N. Dondero
2 Q. And you personally caused Dugaboy
3 to enter into each agreement that is
4 referred to in paragraph 82, correct?
5 MS. DEITSCH-PEREZ: Object to the
6 form.
7 BY MR. MORRIS:
8 Q. You can answer.
9 MS. DEITSCH-PEREZ: I'm sorry,
10 John, can you repeat the question,
11 please?
12 BY MR. MORRIS:
13 Q. You personally caused Dugaboy to
14 enter into each of the agreements that's
15 referred to in paragraph 82, correct?
16 MS. DEITSCH-PEREZ: Object to the
17 form.
18 A. Correct.
19 Q. What is Dugaboy?
20 A. The trust, the living
21 maintenance, education, and health trust.
22 Q. Do you know when it was formed?
23 A. 2010.
24 Q. Have you been the trustee of the
25 Dugaboy Trust since the time it was

1 N. Dondero
2 created?
3 A. No.
4 Q. Who preceded you as trustee, to
5 the best of your knowledge?
6 A. I don't know.
7 Q. Did you ever ask anybody who
8 preceded you as trustee of The Dugaboy
9 Investment Trust?
10 A. Did I ever ask who was the
11 trustee prior to --
12 Q. Yes.
13 A. I did not.
14 Q. Okay. Do you recall when you
15 became the trustee of the Dugaboy Trust?
16 A. October 2015.
17 Q. Did somebody appoint you to be
18 trustee of the Dugaboy Trust?
19 A. By "appoint," do you mean asked
20 me to be?
21 Q. Okay. Let me restate the
22 question.
23 A. Sorry.
24 Q. Do you know how you became the
25 trustee of the Dugaboy Trust?

1 N. Dondero
2 A. Jim had asked me to.
3 Q. Did Jim ask you to be the Dugaboy
4 trustee at around the same time that you
5 became the trustee?
6 A. That's correct.
7 Q. Prior to accepting Jim's --
8 withdrawn.
9 Did you agree to become the
10 trustee at the Dugaboy Trust in response to
11 Jim's request?
12 A. Yes, sir.
13 Q. Okay. Before you accepted the
14 appointment as trustee of the Dugaboy
15 Trust, did you obtain any information about
16 the purpose of the Dugaboy Trust?
17 A. Yes.
18 Q. What information do you recall
19 obtaining before you agreed to serve as the
20 trustee at the Dugaboy Trust?
21 A. The purpose of the trust is to
22 provide health, education, maintenance,
23 lifestyle for the beneficiaries, who is my
24 brother, for as long as he lives and then
25 his children and subsequent generations.

1 N. Dondero
2 Q. Is your brother the sole
3 beneficiary of the Dugaboy Trust during his
4 lifetime?
5 A. Yes.
6 Q. Did you make any independent
7 decisions with respect to the Dugaboy
8 Trust?
9 A. Of course.
10 Q. Do you know if the Dugaboy Trust
11 owned an interest in Highland at the time
12 Dugaboy entered into each of the agreements
13 referred to in paragraph 82?
14 A. Okay. I'm sorry. Say that
15 again, John.
16 Q. Do you know whether Dugaboy owned
17 an interest in Highland at the time each
18 agreement was entered into?
19 MS. DEITSCH-PEREZ: Other than
20 what she's already testified to?
21 A. Other than it being a major Class
22 A shareholder, John? A limited partner.
23 Q. I'm sorry, it's a little bit of a
24 different question.
25 A. Okay.

1 N. Dondero
2 Q. You entered into more than one
3 agreement with your brother; is that right?
4 A. That's correct.
5 Q. How many agreements did you enter
6 into with him?
7 A. Okay. How many notes or how many
8 agreements -- you mean, per -- one per year
9 for three years covering 13 notes.
10 Q. So there's three annual
11 agreements that you recall? Do I have that
12 right?
13 A. Correct.
14 Q. And was Dugaboy's interest in
15 Highland the same at each moment that you
16 entered into each of the three agreements?
17 A. I'm sorry?
18 Q. Do you know whether -- do you
19 know whether Dugaboy's interest in Highland
20 changed at all between the time that you
21 entered into each of the three agreements
22 that you just referred to?
23 A. I don't know. I don't think so.
24 Q. Did you ever ask anybody at any
25 time prior to the petition date if

1 N. Dondero
2 Dugaboy's interest in Highland changed at
3 any time during the period in which you
4 were entering into these agreements on
5 behalf of Dugaboy?
6 A. No.
7 And, John, can I back up for a
8 second?
9 Q. Sure.
10 A. Just in answer to one of my
11 questions when I said that I had three
12 conversations with Jim. That pertained to
13 this procedure. That's my answer for this
14 scope.
15 Q. Right.
16 A. Okay. Just so we're on the same
17 page. Okay. Okay.
18 Q. And do you recall -- we'll get to
19 it.
20 All right. So you entered into
21 three agreements.
22 Do I have that right?
23 A. Correct.
24 Q. And do you recall when you
25 entered into each one of the three

1 N. Dondero
2 agreements?
3 A. To the best of my recollection,
4 it was around the holidays.
5 Q. Do you remember the year you
6 entered into the first agreement?
7 A. It would have been either been
8 the tail end of '17, beginning of '18.
9 Q. And would the second agreement be
10 the tail of '18, the beginning of '19?
11 A. Correct, sir.
12 Q. And would the third one be the
13 tail of '19 and the beginning of '20?
14 A. Either/or. Correct. Um-hmm.
15 Q. Okay. And when we say late in
16 each year, is paragraph 82 correct, to the
17 best of your knowledge, that it was either
18 December of the year or the following
19 January or February?
20 A. Correct.
21 Q. So it's your recollection that as
22 the trustee of The Dugaboy Investment
23 Trust, you entered into an agreement
24 pursuant to 3.10 of the LP agreement in
25 either December 2019 or January or February

1 N. Dondero
2 of 2020?
3 A. Yes.
4 Q. Okay. So you entered into that
5 third agreement after the petition date.
6 Do I have that right?
7 A. That's correct.
8 Q. Do you recall that there came a
9 time in January of 2020 when your brother
10 relinquished control of Highland in favor
11 of an independent board?
12 A. January of '20, yes. Um-hmm.
13 Q. Do you recall if the agreement
14 that you entered into in late 2019 or early
15 2020 occurred before or after your brother
16 surrendered control of Highland?
17 A. I believe it was before.
18 Q. So sometime in December of 2019
19 or prior to the date in January when your
20 brother surrendered control, you and your
21 brother entered into the third in the
22 series of three oral agreements that are
23 referred to in paragraph 82, correct?
24 A. Correct.
25 Q. Okay. Do you recall what the

1 N. Dondero
2 terms of each of the oral agreements was?
3 A. They were all the same, the
4 agreements. Obviously for different notes.
5 But the terms were that the notes would be
6 forgiven if any of the three portfolio
7 companies that we discussed earlier,
8 Trussway, Cornerstone, MGM, would monetize
9 at a higher value, and then the notes would
10 be forgiven and considered deferred
11 compensation.
12 Q. And when you say a higher value,
13 did you understand at the time you entered
14 into the agreements what higher value
15 meant?
16 A. Yes.
17 Q. Okay. What does higher value
18 mean in the context of the agreements that
19 you entered into with your brother?
20 A. Higher than the purchase price.
21 Q. So do I have this correct that if
22 one of the three portfolio companies was
23 sold for a value that exceeded the cost by
24 at least one dollar, then all of the notes
25 that were subject to the agreements would

1 N. Dondero
2 be forgiven?
3 A. That's correct.
4 Q. Okay. Can you identify the
5 promissory notes that were the subject of
6 each of the three agreements?
7 A. I don't understand by identified,
8 John. In your book or --
9 Q. Are you able to list for me the
10 promissory notes --
11 A. Sure --
12 Q. Let me finish the question,
13 please.
14 Are you able to list for me the
15 promissory notes that were the subject of
16 each of the three agreements?
17 A. In 2017, there were four notes:
18 One to NexPoint, two to HCRE, I believe,
19 and one to HCMS. I don't have specifics,
20 but I believe the four of them originally
21 totaled somewhere near 60 million, in that
22 ballpark, when they were originally set up.
23 That was 2017.
24 MS. DEITSCH-PEREZ: John, we have
25 a list.

1 N. Dondero
2 Do you want her to do this from
3 memory or do you want her to look --
4 MR. MORRIS: I don't. I'm going
5 to try it a different way, Deborah.
6 MS. DEITSCH-PEREZ: Okay.
7 BY MR. MORRIS:
8 Q. Is there -- did the three oral
9 agreements with your brother --
10 A. Yes?
11 Q. -- cover all of the promissory
12 notes that are subject of the lawsuits in
13 which are a defendant?
14 A. Yes.
15 Q. Do you know if any of the three
16 agreements you entered into with your
17 brother cover any promissory notes that are
18 not the subject of the lawsuits in which
19 you are a defendant?
20 MS. DEITSCH-PEREZ: Object to the
21 form.
22 A. I don't believe they do.
23 Q. Okay. So to the best of your
24 knowledge, as the person who caused Dugaboy
25 to enter into these agreements on behalf of

1 N. Dondero
2 Highland, you do not believe that your
3 agreements covered any promissory note that
4 is the subject of the lawsuits that have
5 been commenced against you, correct?
6 MS. DEITSCH-PEREZ: Wait. Can
7 you -- I think you -- can you have the
8 court reporter read it back so you can
9 hear it? Because either I heard it
10 wrong or you misspoke, I think.
11 THE REPORTER: I can read it
12 back, if you'd like.
13 MR. MORRIS: Sure.
14 MS. DEITSCH-PEREZ: Yeah,
15 Annette, can you read it back?
16 THE REPORTER: Sure.
17 (Question was read back as
18 follows:
19 "QUESTION: Okay. So to the best
20 of your knowledge, as the person who
21 caused Dugaboy to enter into these
22 agreements on behalf of Highland, you
23 do not believe that your agreements
24 covered any promissory note that is the
25 subject of the lawsuits that have been

1 N. Dondero
2 commenced against you, correct?")
3 MR. MORRIS: All right. Let me
4 ask the question again. Let me ask the
5 question again.
6 MS. DEITSCH-PEREZ: Okay.
7 BY MR. MORRIS:
8 Q. Ms. Dondero, as the person who
9 caused Dugaboy to enter into the agreements
10 described in paragraph 82 on behalf of
11 Highland, do you have any reason to believe
12 that those agreements related to any
13 promissory notes that are not the subject
14 of the lawsuits that have been commenced
15 against you and Dugaboy?
16 A. No.
17 Q. Okay.
18 A. I believe they include the notes
19 that we've been referring to, that we've
20 been talking to about all day, John.
21 Q. Okay. Did you or Dugaboy ever
22 make a list of the promissory notes that
23 were the subject of each agreement --
24 withdrawn.
25 Prior to the petition date, did

1 N. Dondero
2 you or Dugaboy ever make a list of the
3 promissory notes that were the subject of
4 each agreement?
5 MS. DEITSCH-PEREZ: Object to the
6 form.
7 A. I don't recall.
8 Q. You have no recollection of you
9 or Dugaboy ever writing down the promissory
10 notes that were the subject of any of the
11 three oral agreements that Dugaboy entered
12 into with your brother, correct?
13 A. I don't believe I did.
14 Q. And you don't believe Dugaboy did
15 either, right?
16 MS. DEITSCH-PEREZ: Object to the
17 form.
18 A. Correct.
19 Q. Are you or Dugaboy aware of
20 anything in writing that identifies --
21 withdrawn.
22 Are you and Dugaboy aware of
23 anything that was written prior to the
24 petition date that identified the
25 promissory notes that were the subject of

1 N. Dondero
2 each agreement that was entered into?
3 A. Am I aware of anything that was
4 written down not by me?
5 Q. Right.
6 A. Nothing that I can recall at this
7 time.
8 Q. How do you know that the
9 promissory notes that are the subject of
10 the lawsuits against you were all subject
11 to the oral agreements that you entered
12 into on behalf of Dugaboy with your
13 brother?
14 A. Of the 13 notes in total, we
15 discussed 4 and 17; 6 and 18; and 3 in 19,
16 and that's total, if I'm not mistaken, the
17 13 notes in question.
18 Q. Okay. Now neither you nor
19 Dugaboy ever saw any of the notes prior to
20 the petition date, correct?
21 MS. DEITSCH-PEREZ: Object to the
22 form.
23 A. That's correct.
24 Q. And neither you nor Dugaboy are
25 aware of any writing that was created prior

1 N. Dondero
2 to the petition date that identified the
3 promissory notes that were the subject of
4 the agreements between Dugaboy and your
5 brother, correct?
6 A. That is correct.
7 Q. So are you basing your belief
8 that the agreements covered only the
9 promissory notes that are the subject of
10 the lawsuits on your memory or on anything
11 else?
12 MS. DEITSCH-PEREZ: Object to the
13 form.
14 MR. MORRIS: Withdrawn.
15 BY MR. MORRIS:
16 Q. What is the basis for your belief
17 that the agreements covered the promissory
18 notes that are the subject of each -- of
19 the lawsuits against you and Dugaboy?
20 A. Because I remember what we
21 discussed.
22 Q. So you have a memory. You
23 remember that three to four years ago, you
24 can remember the promissory notes that were
25 the subject of your first agreement even

1 N. Dondero
2 though you never saw the notes? Do I have
3 that right?
4 A. I remember the amount. I don't
5 remember all the specifics from that many
6 years ago, John, but I do remember the
7 amount per each year, and I knew that there
8 were 13 in total.
9 Q. Who identified the notes that
10 would be the subject of the agreements? Do
11 you recall?
12 A. In what context who identified
13 them?
14 Q. Well, the agreement was entered
15 into twin in your capacity as the trustee
16 of Dugaboy and your brother, correct?
17 A. Correct.
18 Q. As between you and your brother,
19 did one of you identify the notes that
20 would be the subject of the agreements?
21 A. Yes, that would be --
22 Q. And who identified -- okay. And
23 who was that?
24 A. Jim.
25 Q. And during these three

1 N. Dondero
2 conversations, did he describe for you the
3 notes that were going to be the subject of
4 the conversation?
5 A. Yes.
6 Q. I apologize. I withdraw the
7 question.
8 Did your brother describe for you
9 the notes that were going to be the subject
10 of each agreement?
11 A. Yes.
12 Q. Do you have any basis for knowing
13 which agreements -- no. Withdrawn.
14 Do you have any basis for knowing
15 which notes are the subject of the
16 agreements other than what your brother
17 told you in the three -- in the
18 conversations that led to the three
19 agreements?
20 A. No, I don't believe so.
21 Q. Did your brother explain to you
22 why he selected these notes that are the
23 subject of the lawsuits for inclusion in
24 the agreements?
25 A. Not that I recall.

1 N. Dondero
2 MR. MORRIS: I'd like to put up
3 on the screen a document that's been
4 marked as Exhibit 43.
5 (N. Dondero Exhibit 43,
6 Promissory Note, Bates-stamped
7 D-CNL000550 through 551, marked for
8 identification, as of this date.)
9 BY MR. MORRIS:
10 Q. And do you see, Ms. Dondero, that
11 this is a promissory note dated January 18,
12 2018, in the amount of $7,900,000?
13 MR. MORRIS: And if we can scroll
14 to the bottom so we could see the
15 signature.
16 BY MR. MORRIS:
17 Q. Do you see that that's been
18 signed by your brother?
19 A. I see that.
20 Q. Have you ever seen this
21 particular promissory note before?
22 MR. MORRIS: And we can go back
23 to the top.
24 (Document review.)
25 A. It doesn't look familiar, John.

1 N. Dondero
2 Q. This note is not a note that's
3 subject to your agreement with your
4 brother, correct?
5 A. Correct.
6 Q. Do you know why?
7 A. I do not.
8 Q. And Highland has not sued anybody
9 to collect under this note, to the best of
10 your knowledge, correct?
11 MS. DEITSCH-PEREZ: Object to the
12 form.
13 A. I --
14 BY MR. MORRIS:
15 Q. Withdrawn.
16 Are you aware of any lawsuit that
17 has been commenced by Highland to collect
18 under this note?
19 A. I am not aware of any.
20 Q. When you entered into these
21 agreements, did you have any understanding
22 that the agreement would cover all of the
23 notes that were executed by your brother or
24 by other entities under the Highland
25 umbrella?

Page 186

1 N. Dondero
2 MS. DEITSCH-PEREZ: Object to the
3 form.
4 A. John, can you repeat the
5 question, please?
6 Q. Sure.
7 At the time that you entered into
8 the agreements, did you have any
9 understanding that the agreements would
10 cover all notes executed by your brother,
11 NexPoint, HCRE and HCMS?
12 A. Yes.
13 Q. Okay. Was it your understanding
14 that all promissory notes would be covered?
15 MS. DEITSCH-PEREZ: Do you mean
16 all of the ones at issue here or all,
17 like, including --
18 MR. MORRIS: No.
19 MS. DEITSCH-PEREZ: Object to the
20 form.
21 MR. MORRIS: I thought I was
22 clear, but I'll try it one more time.
23 MS. DEITSCH-PEREZ: Please.
24 BY MR. MORRIS:
25 Q. Was it your understanding that

Page 187

1 N. Dondero
2 when you entered into each of these
3 agreements, that the agreements would cover
4 every promissory note that was executed by
5 your brother, by NexPoint, by HCMS, and by
6 HCRE, irrespective of whether it wound up
7 being part of the lawsuit?
8 A. My understanding for the
9 agreement I had with Jim is just for these
10 13 notes.
11 Q. Okay. So there may be other
12 notes that Jim or NexPoint or HCRE or HCMS,
13 there may be other notes that they
14 executed, but if there are, they were not
15 the subject of any of your agreements with
16 your brother, correct?
17 MS. DEITSCH-PEREZ: Object to the
18 form.
19 You mean any of the agreements
20 that she's been testifying here today?
21 MR. MORRIS: Yes. We've defined
22 agreements, so unless there is a
23 question, unless somebody wants to
24 revisit the definition, we've defined
25 it.

Page 188

1 N. Dondero
2 MS. DEITSCH-PEREZ: Okay. Got
3 it. No.
4 A. Um-hmm.
5 Q. When you say "um-hmm," what could
6 you mean?
7 A. I'm sorry, John. The
8 conversation got me away from the question.
9 I'm sorry. I'm sorry.
10 MS. DEITSCH-PEREZ: It's my
11 fault.
12 THE WITNESS: I'm sorry.
13 A. Go ahead, John.
14 MR. MORRIS: Can I have the last
15 question read back, please.
16 THE REPORTER: Sure.
17 (Question was read back as
18 follows:
19 "QUESTION: Okay. So there may
20 be other notes that Jim or NexPoint or
21 HCRE or HCMS, there may be other notes
22 that they executed, but if there are,
23 they were not the subject of any of
24 your agreements with your brother,
25 correct?")

Page 189

1 N. Dondero
2 A. Correct.
3 Q. Okay.
4 A. I'm only speaking for these 13.
5 Q. Okay. Do you recall whose idea
6 it was to enter into each of the
7 agreements?
8 A. It was Jim's suggestion.
9 Q. Okay. And did he call you to
10 make the suggestion?
11 A. Yes. At least one, if not two of
12 the agreements were verbal or at least
13 started verbally. And one I remember was
14 in person.
15 Q. Okay. Did you ever have any
16 concerns that your brother might have a
17 conflict of interest since he controlled
18 both the borrower and the lender under each
19 of these transactions?
20 MS. DEITSCH-PEREZ: Object to the
21 form.
22 A. No.
23 Q. Did it ever occur to you that
24 your brother might have a conflict of
25 interest since he controlled both the

1 N. Dondero
2 borrower and the lender in each of these
3 transactions?
4 MS. DEITSCH-PEREZ: Object to the
5 form.
6 A. I'm sorry, I thought I answered.
7 No.
8 Q. Yeah, the first question was
9 whether you had any concerns. And the
10 second question was did it ever occur to
11 you.
12 Did you understand that?
13 A. I did.
14 It didn't occur to me, and I
15 didn't have any concern.
16 Q. Okay. And I think you just
17 mentioned that your recollection is that
18 two of the agreements were reached on the
19 telephone, and one was reached in person;
20 is that right?
21 A. That's correct.
22 Q. Okay. The agreement that was
23 reached in person, where were you?
24 A. Florida.
25 Q. Where at?

1 N. Dondero
2 A. My house in Vero Beach.
3 Q. Was anybody else present during
4 this discussion?
5 A. Jim's kids, underage. My father,
6 who's elderly. Family.
7 Q. Do you have any reason to believe
8 that anybody was aware of the substance of
9 the discussion that you had with your
10 brother concerning the agreement?
11 A. No.
12 Q. The two other conversations that
13 you had on the phone, do you recall whether
14 any person participated in those
15 discussions other than your brother and
16 yourself?
17 A. No one else participated.
18 Q. Out of the three agreements that
19 you entered into, do you recall whether it
20 was the first, second, or third that was
21 entered into during a face-to-face meeting?
22 A. To the best of my recollection,
23 it would have been the end of '18,
24 beginning of '19.
25 Q. Were there any conversations --

1 N. Dondero
2 withdrawn.
3 So there were three agreements;
4 is that correct?
5 A. Through this discussion?
6 Q. Yes.
7 A. There are three agreements, yes.
8 Q. And all three agreements are oral
9 agreements, correct?
10 A. They're all oral. One in person
11 and two on the phone, yes.
12 Q. Okay. Were there any
13 communications concerning the scope or term
14 or terms of the proposed agreement that
15 took place before the day on which the
16 agreements were entered into?
17 MS. DEITSCH-PEREZ: Object to the
18 form.
19 BY MR. MORRIS:
20 Q. I just want to know if there were
21 any conversations or communications that
22 occurred prior to the entry of the three
23 agreements.
24 A. There could have been, John.
25 Q. I know there could have been.

1 N. Dondero
2 I'm asking what you remember.
3 A. I don't -- at this time, I don't
4 know.
5 Q. Okay. Do you have any reason to
6 believe, as you sit here right now, that
7 there were any communications that occurred
8 prior to the three days in which you
9 entered into the three oral agreements?
10 A. There could have been.
11 Q. I appreciate that. I'm asking if
12 you have any recollection of any such
13 communications.
14 A. I'm not sure at this time, John.
15 Q. Were any of the oral agreements
16 ever the subject of negotiation?
17 A. I don't understand what you're
18 asking.
19 Q. Why don't you tell me what the
20 conversations were that led to each of the
21 agreements to the best that you can recall.
22 A. The conversations with my brother
23 that took place towards the end of each of
24 the years that we're discussing, they
25 started as general conversations about

Page 194

1 N. Dondero
2 business, about work. And Jim would bring
3 up the loans that were done earlier in the
4 year.
5 He had stated in the conversation
6 that he thought he was undercompensated for
7 the work that he does and the time that he
8 puts in. And he wanted those loans to be
9 forgiven if any of the three portfolio
10 companies that we talked about monetized at
11 a higher value.
12 Q. And you agreed with that?
13 A. Well, it was -- yes, I did agree
14 with that proposal. I thought it was a
15 win-win for everybody.
16 Q. Did you ever propose any
17 alternative to the proposal that your
18 brother made that you just described?
19 A. I did not.
20 Q. Can you identify any provision of
21 any of the agreements that you negotiated
22 with your brother?
23 A. I didn't negotiate, but Jim had
24 concern, and rightfully so, that he would
25 put in the work and the time and the effort

Page 195

1 N. Dondero
2 to increase the value of any of those
3 portfolio companies and that factors that
4 you mention you beyond his control might
5 cause them to be sold at a value under the
6 price that was paid for them and this deal
7 would not happen.
8 So hence, that part of the deal
9 came up, but I don't know if I'd consider
10 it a negotiation.
11 MR. MORRIS: Okay. I'm going to
12 move to strike.
13 BY MR. MORRIS:
14 Q. And I'm just going to ask you if
15 you can identify any provision of any of
16 the agreements that you recall being the
17 subject of negotiation?
18 A. I don't recall any part being a
19 negotiation.
20 Q. Who identified the portfolio
21 companies that were the subject of each
22 agreement?
23 A. Jim.
24 Q. Did you ask your brother why he
25 selected those companies?

Page 196

1 N. Dondero
2 A. No.
3 Q. Do you know why your brother
4 selected those companies?
5 A. I do not.
6 Q. Did you ever suggest that
7 different portfolio companies should be
8 used?
9 A. I did not.
10 Q. Did you ask him if Highland had
11 any other portfolio companies?
12 A. I don't know.
13 Q. And your brother is the person
14 who proposed that all of the notes would be
15 forgiven if one of the three portfolio
16 companies was sold for greater than cost;
17 is that right?
18 A. That's correct.
19 Q. Do you know whether your brother
20 had a duty to maximize value at the time
21 that you entered into the agreements with
22 him?
23 A. I don't know.
24 Q. Did you ever ask anybody prior to
25 entering into any of the agreements whether

Page 197

1 N. Dondero
2 your brother already had a duty to maximize
3 value?
4 A. I did not.
5 Q. Did you ever make a
6 counterproposal to the term of the
7 agreement that said all of the notes would
8 be forgiven if one of the portfolio
9 companies was sold for greater than cost?
10 A. I'm sorry, John. Once again, the
11 question, please?
12 Q. Sure.
13 Did you or Dugaboy ever make a
14 counterproposal to the provision in the
15 agreements that all of the notes would be
16 forgiven if one of the portfolio companies
17 was sold above cost?
18 A. Wasn't that his proposal? Jim's
19 proposal?
20 Q. It was his proposal. I think
21 you've testified to that. And I'm asking
22 you if you or Dugaboy ever made a
23 counterproposal with respect to that
24 particular provision?
25 A. No.

1 N. Dondero
2 Q. Did you ever consider requiring a
3 higher threshold other than having a sale
4 above cost for the triggering of the
5 condition subsequent?
6 A. No.
7 Q. Was there any part of your
8 brother's proposal that you rejected?
9 A. No.
10 Q. Was there any part of your
11 brother's proposal that Dugaboy rejected?
12 A. No.
13 Q. Is there any aspect of any of the
14 agreements that incorporates a proposal or
15 idea that you or Dugaboy made?
16 MS. DEITSCH-PEREZ: Object to the
17 form.
18 A. No.
19 Q. Now do you recall that paragraph
20 82 also provides that all of the notes
21 would be forgiven if any of the portfolio
22 companies was sold on a basis out of Jim
23 Dondero's control?
24 A. Yes.
25 Q. Whose idea was it to include that

1 N. Dondero
2 provision in the agreement?
3 A. I thought I already stated that.
4 That Jim had concerns. That was Jim's
5 proposal.
6 Q. Okay. Did you or Dugaboy reject
7 that proposal?
8 A. We did not.
9 Q. Did you push back on that
10 proposal at all?
11 A. No.
12 Q. Did either you or Dugaboy make
13 any counterproposal to that aspect of the
14 agreement?
15 A. No.
16 Q. Do you understand that James
17 Seery is in control of the portfolio
18 companies subject to the agreement?
19 MS. DEITSCH-PEREZ: Object to the
20 form.
21 A. I didn't know that.
22 Q. Are you aware that your brother
23 no longer controls the portfolio companies
24 that were the subject of the agreement?
25 A. Yes.

1 N. Dondero
2 Q. So you're aware that somebody
3 other than your brother may sell Highland's
4 interest in the portfolio companies; is
5 that right?
6 A. Correct.
7 Q. So under the agreements that you
8 caused Dugaboy to enter into on behalf of
9 Highland, all of the notes that were
10 subject to the agreements will be forgiven
11 at the moment somebody other than your
12 brother sells one of the portfolio
13 companies.
14 Do I have that right?
15 A. I'm sorry, John. Once again?
16 Q. Okay. I just want to understand,
17 you know, the import of the agreements that
18 you've described. So let me try again.
19 Under the agreements that you
20 caused Dugaboy to enter into on behalf of
21 Highland, all of the notes that are subject
22 to the agreements will be forgiven the
23 moment that any of those three portfolio
24 companies are sold.
25 Do I have that right?

1 N. Dondero
2 A. Correct, you have that right.
3 Q. Why did you agree, as the trustee
4 of Dugaboy, that all of the notes subject
5 to the agreements would be forgiven if any
6 of the subject portfolio companies was sold
7 on a basis outside of your brother's
8 control?
9 A. I agreed to that provision of the
10 agreement because -- and I believe I stated
11 this -- Jim had concerns about doing the
12 work and the effort and putting the time in
13 to build up any one of those three
14 portfolio companies and then having
15 somebody outside of his control sell it for
16 less than a monetized value that would
17 allow the notes to be forgiven.
18 Q. But there's no component of the
19 agreement that will avoid the forgiveness
20 of the notes depending on the price at
21 which the assets were sold, correct?
22 A. John, there's no provision of the
23 agreement what?
24 Q. If somebody were to sell the
25 portfolio assets for a substantial price

1 N. Dondero
2 above cost --
3 A. Above cost?
4 Q. Above cost.
5 -- would the notes still be
6 forgiven?
7 A. Yes, of course.
8 Q. And if the portfolio companies
9 are sold at a price substantially below
10 cost, will the notes still be forgiven?
11 A. They will if they're sold by
12 somebody that's not my brother, that's not
13 Jim.
14 Q. Okay.
15 A. If somebody comes in or -- who
16 did you say, that gentleman that now has
17 control of them, if he decides to sell them
18 below cost, the notes are still forgiven.
19 Q. And if he decides to sell them
20 above cost, the notes are forgiven, right?
21 A. That is correct, but Highland
22 would benefit.
23 Q. How does Highland benefit because
24 some third party sells the assets?
25 A. Okay. That's not what I said.

1 N. Dondero
2 But to answer your question, they
3 wouldn't -- if it got sold for less than
4 the value of them, then Highland wouldn't
5 benefit. But that wouldn't be in Jim's
6 control.
7 Q. Did you expect Highland to
8 benefit if the portfolio companies were
9 sold on a basis outside of Mr. Dondero's
10 control?
11 A. I have no idea, John.
12 Q. Did you have any idea -- did you
13 or Dugaboy have any idea when you entered
14 into the agreement if Highland would
15 benefit from the sale of the portfolio
16 companies on a basis outside of
17 Mr. Dondero's control?
18 A. I wouldn't know that.
19 Q. Okay. Now if Jim sold one of
20 those portfolio companies for a dollar
21 above cost, all of the notes would have
22 been forgiven, correct?
23 A. Correct.
24 Q. And did he have the ability to
25 sell any of the portfolio companies at the

1 N. Dondero
2 time you entered into the agreements?
3 MS. DEITSCH-PEREZ: Object to the
4 form.
5 MR. MORRIS: Withdrawn.
6 BY MR. MORRIS:
7 Q. Did you and Dugaboy understand
8 that Mr. Dondero had the ability to sell
9 any of the portfolio companies at the time
10 you entered into the agreements?
11 A. Yes.
12 Q. Okay. If your brother --
13 A. That was my understanding.
14 Q. Okay. And if your brother sold
15 one of those portfolio companies for a
16 dollar above cost, what benefit would
17 Highland receive if the consequence of that
18 was the forgiveness of more than $60
19 million in principal amount of promissory
20 notes?
21 MS. DEITSCH-PEREZ: Object to the
22 form.
23 A. John?
24 Q. Yes?
25 A. Oh.

1 N. Dondero
2 Q. You can answer.
3 A. That hasn't happened in a
4 hypothetical. I don't have an opinion on
5 that.
6 Q. Well, you entered into the
7 agreements, did you not?
8 A. I did.
9 Q. And you agreed on behalf of
10 Dugaboy on behalf of the plaintiff that if
11 Jim sold one of the portfolio companies at
12 a dollar above cost, all of the notes would
13 be forgiven, correct?
14 A. I entered into the agreement for
15 Dugaboy that if, you're right, any of the
16 portfolio companies monetized higher,
17 right, the notes would be forgiven. But --
18 and I thought about your scenario, but I
19 also thought about it could be $100
20 million. We don't know. This is all
21 hypothetical.
22 Q. It's actually not hypothetical
23 because the term of your agreement was that
24 he could have sold any of the three
25 portfolio companies at a dollar above cost

1 N. Dondero
2 and received in return the forgiveness of
3 all of these notes, right?
4 A. Correct.
5 Q. Okay. As the trustee of Dugaboy
6 who entered into the agreement on behalf of
7 Highland, what benefit would there be to
8 Highland if the portfolio companies were
9 sold at any price less than the aggregate
10 principal amount of the notes?
11 A. Less than?
12 Q. Let's say it was sold for $50
13 million above cost, then Highland would
14 have had to forgiven more than $60 million
15 of notes, correct?
16 A. Correct.
17 Q. How would Highland benefit by
18 having an asset sold $50 million above cost
19 where the consequence was that they would
20 forgive more than $50 million of money that
21 was owed to it?
22 A. Well, I looked at it differently,
23 John. And I thought it benefitted Highland
24 at the time because money didn't come out
25 of Highland's balance sheets to increase

1 N. Dondero
2 Jim's salary. They received interest in
3 payment on the loans. We don't know when
4 and if the trigger is going to come into
5 play that the loans would be forgiven.
6 Even as we sit here today, 20-plus million
7 has been paid on the loan.
8 Q. Can you explain why your brother
9 is making payments on demand notes after
10 entering into the agreements with you?
11 A. It's my limited understanding
12 that he's made payments when whatever
13 entity needs money.
14 Q. And what is the basis for that
15 understanding?
16 A. Common sense. I don't know,
17 John.
18 THE WITNESS: And I hate to do
19 this, but I know when you -- can you
20 come to a place of a break in the near
21 future whenever is convenient in your
22 questions there, please?
23 MR. MORRIS: Sure.
24 BY MR. MORRIS:
25 Q. What is the basis for saying that

1 N. Dondero
2 your brother paid back loans at times that
3 Highland needed the money -- withdrawn.
4 Is it your testimony that your
5 brother made payments against the loans
6 after entering into the agreements with you
7 because Highland needed the money?
8 A. That's my belief, John.
9 Q. Okay. And what is the basis for
10 that belief?
11 A. I don't have one except I know
12 how my brother works.
13 Q. Do you know that your brother
14 caused the borrowers under the promissory
15 notes to make payments against those notes
16 after entering into the agreements with
17 you?
18 A. I do not.
19 Q. Did you ever ask anybody?
20 A. I did not.
21 Q. And I think we covered this
22 earlier, but I just want to try and cover
23 it quickly before we take the break.
24 At the time you entered into each
25 of the agreements, neither you nor Dugaboy

1 N. Dondero
2 had any understanding of the nature of
3 Highland's interest in each of the
4 portfolio companies, correct?
5 A. That would be correct, yes.
6 Q. And at the time the three
7 agreements were entered into, neither you
8 nor Dugaboy had any understanding as to
9 Highland's cost for acquiring its interest
10 in each of the three portfolio companies,
11 correct?
12 A. Yes, that is correct.
13 Q. And at the time each of these
14 three agreements were entered into, neither
15 you nor Dugaboy had any information as to
16 the value of Highland's interest in any of
17 the portfolio companies, correct?
18 MS. DEITSCH-PEREZ: Object to the
19 form.
20 MR. MORRIS: You can answer.
21 A. I'm sorry, John, can you repeat
22 the question, please?
23 Q. At the time that you entered into
24 each of these three agreements, neither you
25 nor Dugaboy had any information concerning

1 N. Dondero
2 the value of Highland's interest in the
3 three portfolio companies, correct?
4 MS. DEITSCH-PEREZ: Object to the
5 form.
6 A. That's correct, John.
7 Q. And at the time that you entered
8 into these three agreements, neither you
9 nor Dugaboy knew whether the value of
10 Highland's interest in the three portfolio
11 companies was more or less than the cost of
12 acquisition, correct?
13 A. That's correct.
14 MR. MORRIS: We can take that
15 break now if you'd like.
16 MR. DRAPER: John, this is
17 Douglas.
18 How much more do you think you
19 have?
20 THE VIDEOGRAPHER: The time is
21 2:41. We are going off the record.
22 (Recess is taken.)
23 THE VIDEOGRAPHER: The time is
24 2:57. We are back on the record.
25 MR. MORRIS: Can we put back up

1 N. Dondero
2 paragraph 82 from Mr. Dondero's answer
3 to the Amended Complaint?
4 (Document review.)
5 BY MR. MORRIS:
6 Q. Ms. Dondero, can you hear me?
7 A. Yes.
8 Q. Okay. Do you see in the middle
9 of paragraph 82 it talks about the purpose
10 of the agreement?
11 A. Um-hmm.
12 Q. And do you see where it says that
13 Jim Dondero, quote, "was otherwise
14 underpaid compared to reasonable
15 compensation levels in the industry"?
16 A. I see that.
17 Q. At the time that you caused
18 Dugaboy to enter into the three agreements
19 on behalf of Highland, did you believe that
20 James Dondero was underpaid compared to
21 reasonable compensation levels in the
22 industry?
23 A. Yes, I believed what he told me.
24 Q. Okay. Did you have any basis for
25 believing that he was underpaid compared to

1 N. Dondero
2 reasonable compensation levels in the
3 industry other than what your brother told
4 you?
5 A. No.
6 Q. Okay. Did Dugaboy have any basis
7 for believing that your brother was
8 underpaid compared to reasonable
9 compensation levels in the industry other
10 than what your brother said?
11 A. Not that I'm aware of.
12 Q. Prior to entering into each of
13 these three agreements, did you or Dugaboy
14 make any effort to ascertain whether your
15 brother was underpaid compared to
16 reasonable compensation levels in the
17 industry?
18 A. Not that I remember.
19 Q. At the time that you entered into
20 these agreements, neither you nor Dugaboy
21 knew the total compensation package that
22 Mr. Dondero received from Highland in any
23 calendar year, correct?
24 A. John, can you ask that question
25 again, please?

1 N. Dondero
2 Q. Yes. I'd be happy to.
3 At the time that you caused
4 Dugaboy to enter into each of the three
5 agreements that you've described, neither
6 you nor Dugaboy made any effort to
7 determine your brother was underpaid
8 compared to reasonable compensation levels
9 in the industry, correct?
10 A. That's correct.
11 Q. And at the time that you caused
12 Dugaboy to enter into the agreements,
13 neither you nor Dugaboy knew how much
14 compensation your brother received from
15 Highland in any particular year, correct?
16 MS. DEITSCH-PEREZ: You mean the
17 exact number?
18 MR. MORRIS: I mean general
19 number. Any number.
20 A. Okay. I think we spoke about
21 this earlier. I had a general number on
22 salary.
23 Q. Correct.
24 And now I'm asking about total
25 compensation, including deferred

1 N. Dondero
2 compensation, including any profit sharing,
3 including any distributions, total
4 compensation, right?
5 Do you see that this is referring
6 not to salary but to compensation?
7 A. I do.
8 Q. Okay.
9 A. And I would not have known that.
10 Q. Okay. So let me ask the question
11 again just to make sure it's clear.
12 At the time that you caused
13 Dugaboy to enter into each of these three
14 agreements, neither you nor Dugaboy knew
15 what Mr. Dondero's compensation was from
16 Highland for any particular year, correct?
17 A. Correct.
18 Q. And at the time that you caused
19 Dugaboy to enter into the three agreements,
20 neither you nor Dugaboy ever asked anybody
21 what Mr. Dondero's compensation was from
22 Highland for any particular year, correct?
23 A. Correct.
24 Q. And at the time you caused
25 Dugaboy to enter into these three

1 N. Dondero
2 agreements, neither you nor Dugaboy made
3 any effort to try to ascertain what
4 Mr. Dondero's compensation from Highland
5 was in any particular year, correct?
6 A. That's correct.
7 Q. Okay. Did you or Dugaboy ever
8 conduct any analysis of what reasonable
9 compensation levels in the industry were?
10 A. Not that I recall.
11 Q. Did Mr. Dondero ever tell you
12 what he thought reasonable compensation
13 levels were in the industry?
14 A. John, I vaguely remember him
15 throwing out examples of other people in
16 his position and the astronomical money
17 that they make. I just don't remember
18 their names or the companies.
19 Q. Okay. Did you or Dugaboy make
20 any effort at any time prior to entering
21 into the three agreements to determine what
22 reasonable compensation levels were in the
23 industry?
24 A. No.
25 Q. Did you or Dugaboy reach any

1 N. Dondero
2 conclusions prior to entering into the
3 agreements as to whether Mr. Dondero was
4 underpaid compared to reasonable
5 compensation levels in the industry?
6 A. The first part of that, John?
7 The first part of your question?
8 Q. Did you or Dugaboy reach any
9 conclusions prior to entering into the
10 three agreements as to whether your brother
11 in fact was underpaid compared to
12 reasonable compensation levels in the
13 industry?
14 A. Yes, I came to the conclusion
15 that he was based on what he told me.
16 Q. Okay. And you had no other
17 information upon which you relied to reach
18 your conclusion that he was underpaid
19 except for the information that your
20 brother provided to you, correct?
21 A. That's correct.
22 Q. Okay. And other than -- okay.
23 MR. MORRIS: We can take that
24 down. Thank you.
25 BY MR. MORRIS:

1 N. Dondero
2 Q. Ms. Dondero, do you know if the
3 terms of any of the agreements were ever
4 reduced to writing?
5 A. I didn't put them in writing.
6 That's all I can speak to.
7 Q. Have you ever seen the terms of
8 any of the agreements in writing?
9 A. I have not.
10 Q. Did anyone ever tell you that the
11 terms of the agreements were written down
12 anywhere?
13 A. Not that I recall.
14 Q. Did you or Dugaboy ever ask
15 anyone if the terms of the agreements were
16 written down anywhere?
17 A. Not that I remember.
18 Q. Did you believe that these
19 agreements were important at the time that
20 you caused Dugaboy to enter into them?
21 A. Yes.
22 Q. Why did you think that these
23 agreements were important?
24 A. I think I thought they were
25 important because they gave Highland the

1 N. Dondero
2 chance to motivate and get Jim -- or give
3 Jim an extra incentive to make the
4 portfolio companies into something really
5 magnanimous, which would have been great
6 for Highland and Jim.
7 Q. When you entered into the
8 agreements, did you intend that they would
9 be binding on Highland?
10 A. That was my belief, yes.
11 Q. Did it ever occur to you that you
12 might want to write down the terms of these
13 important agreements?
14 A. Honestly, it didn't come to mind,
15 no.
16 Q. Did you ever tell anybody in the
17 world prior to the petition date that you
18 had entered into these three agreements
19 with your brother?
20 A. Besides Melissa, who knew, I
21 don't remember anyone else offhand that I
22 would have discussed them with.
23 Q. How did Melissa know?
24 A. Pardon?
25 Q. Are you referring to Melissa

1 N. Dondero
2 Schroth?
3 A. Correct.
4 Q. Why do you think that she knew?
5 A. I have a vague memory of
6 discussing it with her.
7 Q. What do you remember about that
8 vague memory?
9 A. It was in regards to Dugaboy.
10 She is one of my main contact people, and I
11 think it was more a recap conversation.
12 Q. And what did she say?
13 A. She just listened, made a note, I
14 assume, made a mental note.
15 Q. Do you recall, did this occur in
16 a telephone conversation?
17 A. Yes, I believe it did.
18 Q. Okay. Do you recall when that
19 conversation took place?
20 A. I do not.
21 Q. Do you recall if it was before or
22 after the petition date?
23 A. I do not.
24 Q. Did she ask any questions?
25 A. Not that I recall.

1 N. Dondero
2 Q. Did you tell her which notes were
3 the subject of the agreements?
4 A. The conversation was not that
5 detailed.
6 Q. Well, if she didn't ask any
7 questions and she didn't say anything that
8 you recall in response, can you recall
9 everything you said to Ms. Schroth during
10 this conversation?
11 A. I don't remember, John, the
12 specifics.
13 Q. Do you remember anything about
14 the conversation at all?
15 A. I just remember them coming up in
16 conversation.
17 Q. You remember what coming up?
18 A. The forgiveness of the loan.
19 Q. Did she indicate to you that she
20 knew about it already?
21 A. I don't remember.
22 Q. Did she express any surprise at
23 what you told her?
24 A. No, but I do remember her saying
25 it was the great motivator.

1 N. Dondero
2 Q. And you don't think your brother
3 was otherwise motivated to sell one of
4 three assets at a dollar above cost,
5 correct?
6 A. I never said --
7 MS. DEITSCH-PEREZ: Object to the
8 form.
9 A. I didn't say that.
10 Q. Well, but that's what the
11 agreement permitted, correct, that the
12 notes would be forgiven if he sold an asset
13 at a dollar above cost, right?
14 MS. DEITSCH-PEREZ: Object to the
15 form.
16 A. John, at the time I entered into
17 the agreement, I believe that they would be
18 a motivator, an increased motivator.
19 You met my brother, right? You
20 know he's motivated.
21 Q. It never would have occurred to
22 me that he needed more motivation, but
23 maybe that's just my view.
24 A. It's increased motivation when
25 there's money on the line.

1 N. Dondero
2 Q. But how does it motivate him when
3 he can recover the benefits of the
4 agreement regardless of how much above cost
5 the asset is sold?
6 A. Okay. I'm sorry, John, one more
7 time, please, the question?
8 Q. How does it motivate him when he
9 will reap the benefits of the agreement if
10 he sells -- withdrawn.
11 How does he get motivated under
12 an agreement whereby he will get the
13 benefit of the forgiveness of over $60
14 million of notes without regard to how much
15 above cost he sells one of three assets?
16 A. Okay. John, when I entered into
17 these, he was still at the helm of
18 Highland.
19 Q. Correct.
20 A. So if he would have monetized
21 them at a really high value, he would have
22 benefitted from his interest, beneficial
23 interest in Highland.
24 Q. Under the terms of the agreement,
25 are you able to identify how Mr. Dondero

1 N. Dondero
2 would have been motivated whether --
3 withdrawn.
4 It doesn't matter under the
5 agreements that you entered into on behalf
6 of Dugaboy how much above cost the assets
7 are sold before Mr. Dondero could reap the
8 benefits of the agreement, correct?
9 A. Correct.
10 Q. And you could have, but you
11 didn't, demand that the notes would be
12 forgiven only if he sold the assets at --
13 I'm just going to pick a number -- 50
14 percent more than cost, right?
15 A. Anything is possible.
16 Q. But you didn't -- anything is
17 possible, but the fact is that neither you
18 nor Dugaboy made any proposal that would
19 tie the benefits that Mr. Dondero wanted to
20 the amount of gain that was to be recovered
21 on behalf of Highland, correct?
22 A. Correct. I didn't look at it the
23 way you are, correct.
24 Q. And so when you speak of
25 motivation under the terms of the agreement

1 N. Dondero
2 that you entered into on behalf of
3 Highland, Mr. Dondero would be indifferent
4 whether the asset was sold at 1 percent
5 above cost, at 10 percent above cost, more
6 than the face amount of the promissory
7 note, right? There's no relationship
8 between the gain to Highland and the
9 benefit to Mr. Dondero, correct?
10 A. You mean now when he's not at the
11 helm of Highland, John?
12 Q. No, I mean -- no. Let me try
13 again.
14 At the moment you entered into
15 the agreement --
16 A. Right.
17 Q. -- if a subsequent event
18 occurred, you and your brother knew that he
19 would receive more than $6 million in value
20 through the forgiveness of the notes,
21 correct?
22 A. Correct.
23 Q. But at the time that you entered
24 into the agreements, neither you nor your
25 brother knew what the economic benefit to

1 N. Dondero
2 Highland would be because the asset hadn't
3 been sold yet, correct?
4 A. Correct.
5 Q. And it wasn't in the hands of a
6 third party, correct?
7 A. Correct.
8 Q. Okay. And I think you may have
9 testified to this earlier. If you did, I
10 apologize. But do you know the aggregate
11 amount that's due under each of the notes
12 that are subject to the agreements that you
13 entered into on behalf of Dugaboy?
14 A. As of today's value or --
15 Q. Let's start with today's value.
16 A. Okay. The amount owed I believe
17 per the lawsuit for all of them is just
18 north of 50 million.
19 Q. And were you aware at the time
20 you entered into the agreements, the
21 aggregate principal amount that was still
22 due on the notes that were subject to the
23 agreement?
24 A. When I entered into the three
25 agreements?

Page 226

1 N. Dondero
2 Q. Yes.
3 A. The total for '17, '18, and '19
4 combined was in the ballpark of 72 million,
5 I believe.
6 Q. And the difference between the
7 principal amount that was due at the time
8 that you entered into the agreements and
9 the principal amount that's due today is
10 the payments that were made in the
11 intervening period.
12 Do I have that right?
13 A. I'm assuming payments and
14 interest, sir, yes.
15 Q. Okay. If the assets are sold
16 now, what benefit will Highland receive
17 relative to the forgiveness of the notes?
18 MS. DEITSCH-PEREZ: Object to the
19 form.
20 BY MR. MORRIS:
21 Q. The assets are now in the hands
22 of a third party, right?
23 A. Um-hmm. Correct.
24 Q. Okay. And is it your
25 understanding that if a third party sells

Page 227

1 N. Dondero
2 the assets that irrespective of the price
3 at which it sold, the moment it's sold, the
4 notes will be forgiven?
5 A. That is my understanding.
6 Q. So that if a third party were to
7 sell the asset -- withdrawn.
8 So at the time that you entered
9 into the agreements on behalf of Dugaboy,
10 neither you nor Dugaboy had any
11 understanding of what Highland's economic
12 recovery would be if a third party sold any
13 of the portfolio companies, correct?
14 A. I wouldn't have known the future.
15 That is correct.
16 Q. Did you and Dugaboy -- withdrawn.
17 Did you and Dugaboy believe at
18 the time that you entered into the
19 agreements that Highland received
20 reasonably equivalent value in exchange for
21 the agreements?
22 MS. DEITSCH-PEREZ: Object to the
23 form.
24 A. John, I repeat, I thought at the
25 time I entered into the agreement, there

Page 228

1 N. Dondero
2 was a -- that it was a good deal for both
3 Jim and Highland, a win-win situation. I
4 think we discussed this already.
5 Q. Okay. But you didn't know the
6 price at which Mr. Dondero would sell the
7 asset that was subject to the condition
8 subsequent, correct?
9 A. John, correct, but I know my
10 brother, and he's a financial guru, and I
11 trusted in the fact that he would make them
12 into something great.
13 Q. Okay. But neither you nor
14 Dugaboy could predict whether Highland
15 would receive from the sale of the assets
16 more or less than the principal and
17 interest due under the notes, correct?
18 A. You are correct; I could not
19 predict what would happen.
20 Q. Okay. Did Mr. Dondero express
21 any reason to you why he thought the notes
22 should be forgiven if the assets were sold
23 by somebody other than himself?
24 A. Okay. I'm sorry, John. Again?
25 Q. Did Mr. Dondero give you any

Page 229

1 N. Dondero
2 reason as to why he believed he was
3 entitled to the forgiveness of the notes
4 simply because the assets were sold by
5 somebody other than himself?
6 A. I believe we touched on this
7 already, but I will repeat it.
8 His concern was that he put the
9 time and effort and energy into the three
10 portfolio companies and then some element
11 beyond his control could come in and sell
12 them at a loss after he had done all the
13 work. And if we didn't have that provision
14 in, his notes wouldn't be forgiven.
15 Q. Did you ask him why he was
16 concerned that some element beyond his
17 control were to intervene to prevent him
18 from selling the assets?
19 A. I did not.
20 Q. Did you ask him why that was even
21 a possibility at the time that you entered
22 into these three agreements?
23 A. I did not. But knowing my
24 brother, he looks at all sides of every
25 situation.

1 N. Dondero
2 Q. Okay. The notes that were issued
3 by HCMS, HCRE, and NexPoint, can we refer
4 to those for the next set of questions as
5 the corporate notes?
6 A. Okay.
7 MS. DEITSCH-PEREZ: Can you read
8 that back?
9 MR. MORRIS: Sure.
10 BY MR. MORRIS:
11 Q. Can we call the notes that were
12 executed on behalf of HCMS, HCRE, and
13 NexPoint as the corporate notes?
14 MS. DEITSCH-PEREZ: You're
15 including HCMFA in this?
16 MR. MORRIS: No, I never said
17 that.
18 MS. DEITSCH-PEREZ: I thought you
19 did. That's why I said -- I think you
20 misspoke, but can you ask the question
21 again.
22 MR. MORRIS: I don't think so. I
23 don't think so, but I'll say it for a
24 third time.
25 BY MR. MORRIS:

1 N. Dondero
2 Q. Can we call the notes executed on
3 behalf of HCMS, HCRE, and NexPoint as the
4 corporate notes?
5 MS. DEITSCH-PEREZ: Okay. Thank
6 you. I think I was hearing S as F.
7 Sorry.
8 BY MR. MORRIS:
9 Q. Is that okay, Ms. Dondero?
10 A. Yes, that's fine. Thank you.
11 Q. Okay. And under the agreements,
12 were the corporate notes to be forgiven as
13 compensation to your brother or as
14 compensation to the corporate obligors, the
15 corporate borrowers?
16 A. Deferred compensation for Jim.
17 Q. So let me get this right.
18 HCMS, HCRE, and NexPoint each
19 borrow money from Highland and give
20 Highland promissory notes in return.
21 Do I have that right?
22 A. I'm sorry, John. Just one more
23 time, the question, please?
24 Q. Each of HCMS, HCRE, and NexPoint
25 borrowed money from Highland and gave

1 N. Dondero
2 promissory notes in return, correct?
3 A. Yes. That's my understanding.
4 Q. And under the agreement that you
5 entered into on behalf of Dugaboy, those
6 corporate notes would be forgiven as
7 compensation to your brother upon the
8 condition -- upon the fulfillment of
9 conditions subsequent, correct?
10 A. That is correct.
11 Q. So that the forgiveness of the
12 corporate notes was, in your mind, the same
13 thing as giving compensation to your
14 brother, correct?
15 MS. DEITSCH-PEREZ: Object to the
16 form.
17 A. They would be considered deferred
18 compensation.
19 Q. And they would be considered
20 compensation to your brother, not
21 compensation to the borrowers under each of
22 the corporate notes, correct?
23 A. That's how I understood it, yes.
24 Q. Okay. So in your mind, when you
25 entered into these agreements, it didn't

1 N. Dondero
2 matter whether the notes were executed by
3 your brother or any of these three
4 corporate obligors; the cancellation of the
5 notes would be a direct benefit for
6 compensation purposes only to your brother,
7 correct?
8 MS. DEITSCH-PEREZ: Object to the
9 form.
10 THE WITNESS: Do I still answer?
11 BY MR. MORRIS:
12 Q. Yes.
13 A. Yes, John, that's how I
14 understood it.
15 Q. Thank you.
16 A. Certainly.
17 Q. Now the compensation that was the
18 subject of these agreements, that wasn't to
19 compensate him for past services, was it?
20 MS. DEITSCH-PEREZ: Object to the
21 form.
22 MR. MORRIS: Withdrawn.
23 BY MR. MORRIS:
24 Q. The compensation that was subject
25 to the agreement was for services that

1 N. Dondero
2 would be rendered in the future, correct?
3 MS. DEITSCH-PEREZ: Object to the
4 form.
5 BY MR. MORRIS:
6 Q. You can answer.
7 A. Well, in the future from what
8 date?
9 Q. From the date that the agreements
10 were entered into.
11 A. Correct. Yes. From the date,
12 yes.
13 Q. The agreement was that the notes
14 would be forgiven based on a condition
15 subsequent, right?
16 A. Yes. So a future date from when
17 we entered them, um-hmm.
18 Q. So something had to happen in the
19 future in order for your brother to get the
20 benefit of the bargain, right?
21 A. Correct.
22 Q. Because if it was compensation
23 for services rendered in the past, you just
24 give him the money, right?
25 A. So true.

1 N. Dondero
2 MS. DEITSCH-PEREZ: Object to the
3 form.
4 BY MR. MORRIS:
5 Q. Let me ask another question, a
6 different question, Ms. Dondero, and just
7 try to finish this up.
8 Pursuant to the agreement that
9 you entered into on behalf of Dugaboy, the
10 notes would only be forgiven if some future
11 event occurred, correct?
12 A. Right, the monetization of one of
13 the three portfolio companies, correct.
14 Um-hmm.
15 Q. The forgiveness of the notes was
16 not for services rendered in the past,
17 correct?
18 MS. DEITSCH-PEREZ: Object to the
19 form.
20 A. That is correct.
21 Q. Okay. Do you know if Dugaboy
22 ever issued any promissory notes in favor
23 of Highland?
24 A. I know there are loans between
25 Dugaboy and Highland.

1 N. Dondero
2 Q. And do you know who made the loan
3 and who received the loan or loans?
4 A. I believe Dugaboy was the
5 borrower. The loan with Highland, it was
6 in 2017. And if my memory serves me right,
7 it was 23, 24 million.
8 Again, going by memory, John,
9 because I really wasn't prepared for this
10 line of questioning, but I believe there is
11 an earlier loan between the two of them.
12 Q. And did you -- I apologize. I
13 didn't mean to step on your words.
14 Are you finished?
15 A. Oh, no. I am. Thank you.
16 Q. Okay. Were you the trustee of
17 the Dugaboy Trust at the time the loans you
18 just described were obtained from Highland?
19 A. The one that I mentioned that I
20 remembered the -- I believe it's close to
21 or around 24 million, in May of '17, I was
22 obviously. I became trustee in October of
23 '15.
24 The other one, I'm not positive
25 on, John, the date and the amount. I just

1 N. Dondero
2 know of another one.
3 Q. Now the Dugaboy trust is, I think
4 as you've described it, a trust for
5 education and health and lifestyle
6 purposes, right?
7 A. And maintenance, correct.
8 Q. Do you know why Dugaboy needed to
9 borrow 23 to 24 million dollars from
10 Highland in 2017?
11 A. I'd be speculating. I don't know
12 for sure, but I believe it was for real
13 estate.
14 Q. And did you -- do you recall
15 executing any documents on behalf of
16 Dugaboy in connection with the loan that it
17 obtained from Highland?
18 A. Not that I recall, John, right
19 now.
20 Q. Do you know who authorized
21 Highland -- withdrawn.
22 Did you ever have any
23 conversations with anybody at any time
24 concerning Dugaboy's 23 to 24 million
25 dollar loan that it obtained from Highland

1 N. Dondero
2 in around 2017?
3 MS. DEITSCH-PEREZ: I'm going to
4 object. This is neither one of the
5 Dugaboy topics and it's beyond the --
6 it doesn't pertain to the four
7 adversary proceedings. So it's not
8 fair to ask the witness about things
9 she's not had the occasion to refresh
10 herself on.
11 MR. MORRIS: Okay.
12 MR. DRAPER: John, I let this go
13 on behalf of Dugaboy a little bit just
14 for background information, but now
15 we're sort of bordering on specifics of
16 a transaction that is --
17 MR. MORRIS: I am -- go ahead,
18 Douglas. I'm sorry.
19 MR. DRAPER: -- that is not in
20 dispute in this litigation. It is not
21 within your 30(b)(6) designation. And
22 so it's fundamentally unfair to put
23 this witness through a memory test for
24 no purpose whatsoever that servers
25 nothing to do with this litigation.

1 N. Dondero
2 MR. MORRIS: Okay. Number one, I
3 agree that it's not a 30(b)(6) topic.
4 Number two, I agree that I'm not
5 asking her these questions in her
6 capacity as the Dugaboy trustee. I'm
7 asking them in her individual capacity.
8 So I don't think you have any grounds
9 to object any longer, Mr. Draper.
10 And number three, I think all of
11 this goes to credibility. And it goes
12 to everything we've been talking about
13 today.
14 And so I'm going to continue to
15 ask my questions. And if at any time
16 you want to direct the witness not to
17 answer, you know, we'll deal with it.
18 Okay?
19 MR. DRAPER: Okay. So if I
20 understand what you just said, just so
21 the record is clear, this is not
22 30(b)(6) questions to the witness. In
23 fact, these are questions to the
24 witness in her individual capacity and
25 will not serve as a 30(b)(6) answer on

1 N. Dondero
2 batch of Dugaboy, correct?
3 MR. MORRIS: I thought I was
4 quite clear, but, yes, Douglas, that is
5 correct.
6 MR. DRAPER: Great. Thank you.
7 MR. MORRIS: Yep.
8 BY MR. MORRIS:
9 Q. Okay. So Ms. Dondero, do you
10 recall any conversations you ever had at
11 any time concerning the 23 or 24 million
12 dollars that Dugaboy borrowed from
13 Highland?
14 A. Not at this time.
15 Q. Okay. You mentioned that you
16 believed that the money was used for the
17 acquisition of real estate.
18 Do I have that right?
19 MS. DEITSCH-PEREZ: Object to the
20 form.
21 A. Yes.
22 Q. And was that for the acquisition
23 of Jim's house in Colorado?
24 A. I don't know.
25 Q. Do you know if your brother

1 N. Dondero
2 acquired a house in Colorado in or around
3 2017?
4 A. I know he acquired a house in
5 Colorado. The time frame, I'm not certain
6 of.
7 Q. Do you know that he paid more
8 than $20 million for a house in Colorado?
9 A. No.
10 Q. Was the loan that Dugaboy
11 obtained from Highland subject to any of
12 the three agreements that you entered into
13 as the trustee of Dugaboy?
14 A. Any of the three agreements we've
15 been discussing?
16 Q. Yes.
17 A. No.
18 Q. Did you ever ask Jim why the
19 Dugaboy note wasn't included in the
20 agreements?
21 A. I did not.
22 Q. But you knew Dugaboy note existed
23 at the time you entered into the
24 agreements, correct?
25 MS. DEITSCH-PEREZ: Object to the

1 N. Dondero
2 form.
3 A. At the time I entered into the
4 agreements, I don't know, John.
5 Q. So at the time you entered into
6 these three agreements, you don't recall
7 whether you knew that Dugaboy had obtained
8 a 23 to 24 million dollar loan from
9 Highland.
10 Do I have that right?
11 A. I don't know as I sit here now.
12 What I knew then, I don't remember.
13 Q. But you do remember the specific
14 identity of each promissory note that was
15 the subject of each of these three
16 agreements, correct?
17 A. When I refreshed my memory, sure.
18 Q. Do you know if Dugaboy ever
19 entered into any agreement on behalf of
20 Highland other than the three oral
21 agreements that you described today?
22 A. Dugaboy has entered into a lot of
23 agreements with Highland.
24 Q. All right. Let me restate the
25 question.

1 N. Dondero
2 Did Dugaboy ever, ever -- ever,
3 ever. Let me try again.
4 Did Dugaboy ever enter into any
5 agreements pursuant to Section 3.10 of the
6 LP agreement other than the three
7 agreements that you've mentioned today?
8 A. Oh --
9 MS. DEITSCH-PEREZ: Were there
10 any before these, John? Before?
11 MR. MORRIS: I don't care if it's
12 before or after. So let me ask again.
13 BY MR. MORRIS:
14 Q. As the trustee of Dugaboy, are
15 you aware of any agreement Dugaboy has ever
16 entered into pursuant to Section 3.10 of
17 the LP agreement other than the three
18 agreements that you have described today?
19 A. Not that I'm aware of,
20 compensation.
21 Q. Can we put up your discovery
22 responses, which I think is document No. 25
23 in your pile.
24 MS. DEITSCH-PEREZ: The notebook.
25 MR. ELMS: 25.

1 N. Dondero
2 THE WITNESS: What is it?
3 MR. ELMS: Tab 25.
4 THE WITNESS: Tab 25. Okay.
5 (Document review.)
6 BY MR. MORRIS:
7 Q. Have you seen this document
8 before, ma'am?
9 A. Just one second. I'm getting
10 there.
11 Q. Sure. Take your time.
12 A. Okay.
13 (Document review.)
14 A. Yes. Yes, I believe I have.
15 Q. Can you turn to page 15?
16 (Witness complies.)
17 Q. Is that your signature?
18 A. It is.
19 Q. And did you review this document
20 before you signed it?
21 A. I did.
22 Q. Did you have an opportunity to
23 consult with counsel before you signed it?
24 A. I did.
25 Q. Did you in fact consult with

1 N. Dondero
2 counsel before signing it?
3 A. I did.
4 Q. And you reviewed this document in
5 connection with your preparation for
6 today's deposition, correct?
7 A. Correct.
8 Q. As you sit here now, do you know
9 of anything in the objections and responses
10 that is wrong or inaccurate?
11 (Document review.)
12 A. I don't see anything, John. I
13 don't believe so.
14 Q. As you sit here right now, do you
15 have any reason to amend these objections
16 and responses to make them more complete or
17 more precise?
18 A. Not at this time.
19 Q. Can you turn to page 9, please?
20 (Witness complies.)
21 Q. Do you see in request for
22 admissions No. 7 and 8, you were asked to
23 admit, and I'm going to summarize, that no
24 document was created prior to the
25 commencement of the adversary proceeding

1 N. Dondero
2 that reflects -- let's just take them one
3 at a time. Let me withdraw that.
4 Looking at No. 7, do you see that
5 you denied having sufficient knowledge or
6 information to admit or deny the request?
7 A. Yes.
8 Q. Okay. Would you agree that as
9 you sit here right now, you are not aware
10 of any document that was created prior to
11 the commencement of the adversary
12 proceeding that reflects or memorializes
13 the terms of the agreement?
14 A. Yes.
15 Q. Okay. And turning to No. 8, do
16 you see for that one, you also responded by
17 saying you lack sufficient information to
18 admit or deny the request?
19 A. Yes, I do.
20 Q. Would you agree with me that it
21 would be fair to say that as you sit here
22 today, you are not aware of any document
23 that was created prior to the commencement
24 of the adversary proceeding concerning the
25 existence of the agreement?

1 N. Dondero
2 A. That's correct; I'm not aware of
3 any.
4 Q. Okay. Can we go to Interrogatory
5 No. 5?
6 MS. DEITSCH-PEREZ: So page 12 to
7 13. No, no, where you were. We were
8 in Tab 25.
9 THE WITNESS: Tab 25. What page
10 now?
11 MR. ELMS: Page 13.
12 MS. DEITSCH-PEREZ: Page 13. The
13 number is on page 12, but then --
14 MR. ELMS: He's asking you at the
15 very top there.
16 THE WITNESS: Oh.
17 (Document review.)
18 BY MR. MORRIS:
19 Q. And do you see that Interrogatory
20 No. 5 asked you to identify every document
21 and communication you reviewed in
22 connection with your decision to enter into
23 the agreement?
24 A. Yes.
25 Q. Okay. And you said that you

1 N. Dondero
2 either reviewed or discussed with your
3 brother the LP agreement and the Dugaboy
4 Trust documents.
5 Do you see that?
6 A. Yes.
7 Q. Do you have any recollection of
8 actually reviewing the LP agreement before
9 entering into any of the agreements that
10 you've described?
11 A. I don't recall.
12 Q. You may or you may not, but do
13 you have a recollection of discussing it
14 with your brother?
15 A. I don't recall, John.
16 Q. Do you recall reviewing Section
17 3.1 before you entered into any of the
18 three agreements?
19 A. I don't know when that review
20 took place.
21 Q. Do you recall whether the review
22 took place in connection with your entry on
23 behalf of Dugaboy into any of the three
24 agreements?
25 A. I don't know the time frame,

1 N. Dondero
2 John.
3 Q. Did you confer with anybody --
4 withdrawn.
5 Did you or Dugaboy confer with
6 anybody other than your brother before you
7 caused Dugaboy to enter into the three
8 agreements?
9 A. No, not that I'm aware of.
10 Q. Did you or Dugaboy seek any legal
11 advice before entering into any of the
12 three agreements?
13 A. No.
14 Q. Do you have any recollection of
15 actually reviewing the Dugaboy Trust
16 documents before entering into any of the
17 three agreements?
18 A. I have reviewed the trust
19 documents, John. I don't know what time
20 frame.
21 Q. Okay. I appreciate that.
22 A. Sure.
23 Q. I'm sorry, did I cut you off?
24 A. Oh, no. I'm sorry. I was just
25 answering you. Thank you.

1 N. Dondero
2 Q. Okay. So take a look at
3 Interrogatory No. 6 below.
4 Do you see that?
5 A. Yes.
6 Q. And your response was, "Other
7 than generally approving compensation,
8 including the agreements at issue in this
9 notes proceeding, none."
10 Do you see that?
11 A. I do.
12 Q. What does "Other than generally
13 approving compensation" refer to?
14 A. Well, "Other than generally..."
15 I'm assuming it means the
16 forgiveness of the loan, "Other than
17 generally approving compensation."
18 Q. Okay. So let's look at the
19 Interrogatory. This Interrogatory
20 specifically says that "Other than the
21 agreement" --
22 A. Okay.
23 Q. -- "identify every agreement you
24 ever entered into as a representative of a
25 majority of Class A shareholders of

1 N. Dondero
2 plaintiff."
3 Do you see that?
4 A. I do.
5 Q. Are you aware of any agreement
6 that you ever entered into as a
7 representative of a majority of Class A
8 shareholders of plaintiff other than the
9 agreements that you've identified?
10 A. No.
11 Q. Okay. And were you, in your
12 capacity as the trustee of Dugaboy --
13 withdrawn.
14 Did you, in your capacity as
15 trustee of Dugaboy, approve compensation
16 for any affiliate of Strand other than the
17 three agreements that you entered into that
18 you've described today?
19 A. Not that I'm aware of.
20 Q. Okay. So generally approving
21 compensation, does that have any meaning at
22 all other than the three agreements that
23 you entered into that you've described
24 today?
25 A. No.

1 N. Dondero
2 MR. MORRIS: Can we put up --
3 withdrawn. Hold on.
4 BY MR. MORRIS:
5 Q. Before we take this down, did
6 Dugaboy provide -- withdrawn.
7 Did Dugaboy approve any
8 compensation for Jim Dondero other than the
9 three agreements that you've described
10 today?
11 A. I do not believe so since I've
12 been trustee.
13 MR. MORRIS: Can we put up
14 Exhibit No. 26, please, which would
15 have been Dugaboy's discovery
16 responses?
17 (N. Dondero Exhibit 26, Defendant
18 the Dugaboy Investment Trust's
19 Objections and Responses to Plaintiff's
20 Request for Admission, Interrogatories,
21 and Requests for Production, marked for
22 identification, as of this date.)
23 BY MR. MORRIS:
24 Q. And that was No. 26 in the
25 binder.

1 N. Dondero
2 A. Okay. Um-hmm.
3 Q. Have you seen this document
4 before?
5 A. I believe so, yes.
6 Q. And can you turn to page 14?
7 A. Yes.
8 Q. Is that your signature?
9 A. It is.
10 Q. And did you review this document
11 before you signed it?
12 A. I did.
13 Q. And did you have an opportunity
14 to consult with counsel before you signed
15 it?
16 A. I did.
17 Q. And did you in fact consult with
18 counsel before you signed it?
19 A. I did.
20 Q. As you sit here right now, in
21 your capacity as the trustee of the Dugaboy
22 Trust, do you know of anything in the
23 objections and responses that is wrong or
24 inaccurate?
25 (Document review.)

Page 254

1 N. Dondero
2 A. I don't see anything that needs
3 to be changed.
4 Q. As you sit here right now, as the
5 trustee of the Dugaboy Trust, do you have
6 any reason to amend your objections or
7 responses to make them more complete or
8 more precise?
9 A. I have no reason at this time,
10 John.
11 Q. Okay. I think I have kind of the
12 same questions that I just asked you about
13 your discovery responses, but let's see.
14 Can we turn to page 8, which
15 again has responses to request for
16 admission No. 7 and 8?
17 A. Okay.
18 Q. And if you take a look request
19 for admission No. 7 and the response, can
20 you just read the that to yourself and tell
21 me when you're finished?
22 (Witness complies.)
23 A. I'm done.
24 Q. Okay. Would your response be
25 accurate as follows: Dugaboy is not aware

Page 255

1 N. Dondero
2 of any document that was created prior to
3 the commencement of the adversary
4 proceeding that reflects or memorializes
5 the terms of the agreement?
6 A. That is correct.
7 Q. Okay. Moving to request for
8 admission No. 8, the same thing, can you
9 just read the request and the response to
10 yourself and let me know when you're
11 finished?
12 (Witness complies.)
13 A. I'm done, John.
14 Q. Okay. Would it be fair to
15 interpret your response as follows:
16 Dugaboy is not aware of any document that
17 was created prior to the commencement of
18 the adversary proceeding concerning the
19 existence of the agreement?
20 A. Correct.
21 Q. Okay. And let's go to
22 Interrogatory No. 5.
23 Are your answers in your capacity
24 as -- and if you want me to go through it
25 again, I'm happy to do it, but I just need

Page 256

1 N. Dondero
2 to know in the first instance, is there any
3 difference -- will your answers concerning
4 Interrogatory No. 5 be any different in
5 your capacity as the Dugaboy trustee than
6 they were in your individual capacity?
7 A. Let me read it, John.
8 Q. Take your time.
9 (Document review.)
10 A. It's the same as the one earlier.
11 Q. Okay. And finally, let's just
12 look at Interrogatory No. 6. Please take a
13 look at that and the response and let me
14 know if your answers in your capacity as
15 the trustee of the Dugaboy Trust would
16 differ in any way from the answers that you
17 gave pertaining to Interrogatory No. 6 in
18 your individual capacity.
19 A. No, it's the same.
20 Q. Okay.
21 MR. MORRIS: So the time right
22 now is 4:57 Eastern, I guess 3:57 your
23 time. I'm done with my outline, but I
24 just want to check my notes to see if I
25 have anything left.

Page 257

1 N. Dondero
2 Douglas, you'll be happy to know
3 that I do expect to finish well in
4 advance of 4:30 Central time. So why
5 don't we just take a break and we'll
6 come back at, I guess, 4:10 Central
7 time?
8 THE WITNESS: Okay.
9 THE VIDEOGRAPHER: The time is
10 3:57. We are going off the record.
11 (Recess is taken.)
12 THE VIDEOGRAPHER: The time is
13 12:15. We are back on the record.
14 MR. MORRIS: This is John Morris.
15 I have no further questions of this
16 witness at this time.
17 Does anybody else have any
18 questions?
19 MS. DEITSCH-PEREZ: Reserve for
20 trial.
21 MR. MORRIS: So are we in
22 agreement that we can close the record
23 right now?
24 MR. DRAPER: Yes.
25 MR. MORRIS: Thank you very much

1 N. Dondero
2 everybody. Ms. Dondero, thank you.
3 THE VIDEOGRAPHER: The time is
4 4:16. This concludes today's
5 deposition, Monday, October 18, 2021.
6 (Time noted: 4:16 p.m.)
7

6 COUNTY OF PALM BEACH)
7
8 I, ANNETTE ARLEQUIN, a Notary
9 Public within and for the State of New
10 York, do hereby certify:
11 That NANCY DONDERO, whose
12 deposition is hereinbefore set forth,
13 was duly sworn by me, and that the
14 transcript of such depositions is a
15 true record of the testimony given by
16 such witness.
17 I further certify that I am not
18 related to any of the parties to this
19 action by blood or marriage; and that I
20 am in no way interested in the outcome
21 of this matter.
22 IN WITNESS WHEREOF, I have hereunto
23 set my hand this 18th day of October, 2021.

1 DALLAS, TEXAS - JANUARY 24, 2024 - 9:32 A.M.

2 THE CLERK: All rise. The United States Bankruptcy
3 Court for the Northern District of Texas, Dallas Division, is
4 now in session, The Honorable Stacey Jernigan presiding.

5 THE COURT: Good morning. Please be seated. All
6 right. We have a video hearing this morning in certain
7 Highland Capital Management matters. We're not going to do an
8 appearance roll call because we've started a new, I think,
9 more efficient system where we just have people log in their
10 appearance when they come onto the video WebEx. And so we're
11 going to rely on that.

12 All right. So we have two matters. One has been long-
13 scheduled. It's Highland's motion for a bad faith finding and
14 attorneys' fees against NexPoint Real Estate Partners in
15 connection with proof of claim litigation. So we have that
16 set.

17 And then we had an expedited motion to stay a contested
18 matter set by Highland. Highland is wanting to stay any
19 litigation on a newly-filed motion by Hunter Mountain
20 Investment Trust to sue Mr. Seery in the Delaware Chancery
21 Court or Delaware state court system.

22 I'm thinking it probably makes sense to consider that
23 expedited motion for a stay first. Does anyone on the line
24 disagree with that sequence?

25 MR. MORRIS: Your Honor, this is John Morris from

1 Pachulski for Highland. I don't disagree with it. I was
2 prepared to handle the other matter first, simply because it
3 was filed first, but I defer to the Court if that's the
4 Court's wishes.
5 THE COURT: Well, I'm just thinking it's probably the
6 shorter matter and there may be folks who will drop off, I
7 don't know, maybe.
8 MR. MORRIS: Oh. Then that makes sense.
9 THE COURT: Okay. All right. Well, I'll hear what
10 Highland wants to say first, please.
11 MR. MORRIS: Okay. Good morning, Your Honor. Before
12 I get to that, just a couple of housekeeping matters. I don't
13 mean to be the policeperson here, but there are, at least
14 showing on my screen, a number of participants just by phone
15 number. There's somebody who's identified as Participant. It
16 may be that the Court has the information as to the identity
17 of these folks, but I thought the purpose was to disclose the
18 identity of anybody who's attending this hearing.
19 So I see, for example, phone numbers beginning with 202 or
20 312. There's somebody who's listed, at least on my screen, as
21 "Participant." I don't think that was the intent of the rule.
22 And, again, I don't mean to be the policeperson here.
23 Somebody just joined with a telephone number beginning 469.
24 If I'm mistaken, you know, please just correct me, but I
25 thought the idea was that there would be transparency as to

1 who was here.
2 THE COURT: Okay. The idea is, because of national
3 rules at the Administrative Office of the Courts, post-
4 September 21, 2023, because of so-called anti-broadcasting
5 rules, if you're a participant in the case you may watch by
6 video a court proceeding, but if you're not a participant you
7 can only listen in, audio.
8 So it may be that those that you're seeing is just, you
9 know, they may have chosen to use the term Participant, but
10 they may be only audio. Of course, it seems less --
11 MR. MORRIS: Okay.
12 THE COURT: -- significant when we don't have human
13 beings taking the witness stand in the courtroom.
14 So, Mike, can you answer, are the anonymous people, are
15 they all audio?
16 THE CLERK: No. They're not. Not -- excuse me. Let
17 me do this, Judge.
18 Okay. Anyone with a number, you need to identify yourself
19 for the Court. I see a 202, a 312, and a 469 and 703. If you
20 cannot identify yourself, we will have to expel you from the
21 hearing.
22 THE COURT: And, again, --
23 (Inaudible interruption.)
24 THE COURT: Again, if you aren't identified, you're
25 going to be expelled from the WebEx. You can always call in,

1 audio, but you -- not my rule. A rule from Washington, DC.
2 So, does anyone at this point want to identify themselves?
3 (No response.)
4 THE COURT: Okay. Hearing no identification, they'll
5 be expelled. And then, again, if they want to call in, they
6 can call in, but no video WebEx.
7 All right. Any other housekeeping matters?
8 MR. MORRIS: Just one other, Your Honor. It's with
9 some very mixed feelings that I report to the Court that our
10 star paralegal, Aja Cantey, has left us. She has moved on to
11 become the head bankruptcy paralegal at Paul Weiss. You know
12 how much I rely on my paralegals. But my sadness has been
13 assuaged a bit by Andrea Bates, who joined us recently. She
14 is on the line today. She'll be assisting me in today's
15 hearing.
16 I just wanted to, you know, let the Court knows that there
17 has been a change, that we have supreme confidence in Ms.
18 Bates, who joins us from Skadden Arps.
19 THE COURT: Okay.
20 MR. MORRIS: And I just -- I just didn't want there
21 to be any surprises there.
22 THE COURT: All right. Thank you for announcing
23 that.
24 MR. SANJANA: Your Honor, I'm sorry to interrupt.
25 Your Honor?

1 THE COURT: Yes?
2 MR. SANJANA: I'm sorry to interrupt.
3 THE COURT: Who is this?
4 MR. SANJANA: Hi. This is Jason Sanjana at Reorg --
5 this is Jason Sanjana at Reorg Research. I was the 202
6 number. And I just wanted to -- I was always on audio, and
7 I'm on audio now.
8 THE COURT: Okay.
9 MR. SANJANA: But I was on mute until now. So, --
10 THE COURT: Okay.
11 MR. SANJANA: -- I just wanted to let you know that.
12 THE COURT: Okay.
13 MR. SANJANA: But it may have been appearing as on
14 WebEx for you, but it isn't.
15 THE COURT: Okay. All right. I appreciate you
16 clarifying that for us, Jason.
17 Okay. Anything else?
18 MR. MORRIS: No, Your Honor.
19 THE COURT: All right. Well, we had this motion to
20 stay the contested matter of Hunter Mountain wanting relief
21 from the gatekeeper provision to sue Mr. Seery in Delaware.
22 So I'll hear what Highland has to say with regard to its
23 motion for a stay.
24 MR. MORRIS: Okay. Thank you, Your Honor. John
25 Morris; Pachulski Stang Ziehl & Jones; for Highland Capital

1 Management. We're here today on Highland's motion for a very
2 limited stay of Hunter Mountain's motion for leave to sue Mr.
3 Seery.
4 I have a short deck to use to assist in today's
5 presentation, and I would ask Ms. Bates to put that up on the
6 screen.
7 While we're waiting for that, just so it's clear, the
8 motion was originally filed at Docket No. 4013.
9 THE COURT: Okay.
10 MR. MORRIS: And, you know, as an overarching theme
11 here, the basis for the stay is that the issues in the motion
12 for leave pertaining to whether or not Hunter Mountain is a
13 beneficiary under the Claimant Trust Agreement are the very
14 issues that are going to be -- that have been fully briefed
15 and that are going to be argued just three weeks from now in
16 connection with Highland's motion to dismiss Hunter Mountain's
17 valuation complaint.
18 And I think that the easiest thing to do here, Your Honor,
19 if we can -- if we could go to the next slide, is just to
20 think about what's -- what the pleadings are. What's the
21 relief that is being requested and what's the basis for the
22 relief?
23 And so you'll see -- and this is in our motion -- but I
24 find it helpful to actually focus on exactly what the
25 complaint is. The complaint that we're seeking to stay

1 includes four or five causes of action. You'll find up on the
2 screen Paragraph 35 of the proposed complaint. It follows the
3 heading Roman Numeral V, Causes of Action. And this is the
4 basis for the complaint. It's solely relying on Delaware
5 corporate law, Section 3327 of the Delaware corporate law.
6 And that law allows, you know, certain people the ability to
7 seek the removal of the Trustee.
8 As set forth in Hunter Mountain's own pleading, under
9 Section 3327, relief can be sought only if it's in accordance
10 with the governing instrument, and Hunter Mountain is not
11 making that claim here, or by a trustor, another officeholder,
12 or a beneficiary. There's no contention that Hunter Mountain
13 is a trustor, there's no contention that it's a court, there's
14 no contention that it's another officeholder.
15 Therefore, under Hunter Mountain's complaint that they
16 seek to file to remove Mr. Seery, they must be a beneficiary.
17 This Court must determine that Hunter Mountain is a
18 beneficiary. That's what their complaint says, and there
19 really can't be any dispute about that because each of the
20 causes of action uses the very highlighted language that
21 follows from the statute that they're relying upon.
22 And let's compare that with Hunter Mountain's motion --
23 complaint for valuation information. So if we can go to the
24 next slide. They have three causes of action in that lawsuit,
25 and every one of those causes of action also requires a

1 determination that Hunter Mountain is a beneficiary under the
2 Claimant Trust Agreement.
3 The first cause of action can be found in Paragraphs 82 to
4 88, and it demands disclosure of trust assets and an
5 accounting. They claim that they need the information, quote,
6 to determine whether their claimant -- contingent Claimant
7 Trust interests may vest into Claimant Trust interests.
8 You know, for me, Your Honor, that's already a --
9 shouldn't they know they're not beneficiaries? They have
10 already conceded in Paragraph 83 that they are not holders of
11 Claimant Trust interests but merely have unvested contingent
12 Claimant Trust interests.
13 But beyond that, as the Court knows from prior litigation,
14 only Claimant Trust beneficiaries have rights to obtain
15 information, and those rights are severely limited.
16 So you have a concession that Hunter Mountain is not a
17 Claimant Trust beneficiary. You have a document that's been
18 adopted by this Court, approved by this Court, approved by the
19 Fifth Circuit Court of Appeals, that expressly gives only
20 Claimant Trust beneficiaries very limited information rights.
21 And Hunter Mountain here seeks to ignore all of that.
22 They don't care that they're not a Claimant Trust
23 beneficiary. They don't care that they're seeking more than
24 even Claimant Trust beneficiaries are entitled to. They don't
25 care that they're seeking information that they have no right

1 to receive.

2 But the whole premise of Count One is dependent on whether

3 they're a Claimant Trust beneficiary, which is the exact same

4 issue that has to be decided in the motion to remove Mr.

5 Seery.

6 The second cause of action is for declaratory judgment on

7 the value of the trust assets. That can be found in

8 Paragraphs 89 to 92. And, you know, these are their words.

9 This isn't my -- these aren't my words. This isn't argument.

10 This is just asking the Court to read Hunter Mountain's own

11 pleading. And it depends -- the second cause of action

12 depends on whether the Defendants have been compelled to

13 provide the information about the Claimant Trust assets. The

14 Court can't make a declaratory judgment unless Highland has

15 been compelled to provide the information. But for the

16 reasons I just discussed, Highland can't be compelled to

17 provide any information to Hunter Mountain or Dugaboy because

18 they're not Claimant Trust beneficiaries.

19 For the same reasons, the third cause of action, which

20 seeks declaratory judgment regarding the nature of the

21 Plaintiffs' interests, you know, there's a whole host of

22 reasons why these causes of action are deficient and why the

23 motion to dismiss ought to be granted, but I'll save that for

24 February 14th. The point now is that, just like the second

25 cause of action, they seek a determination that the Claimant

1 Trust interests are likely to vest, an advisory opinion if
2 I've ever heard of one. But be that as it may, it -- still,
3 it's an acknowledgement that they're not Claimant Trust
4 beneficiaries.
5 And so, in both cases, in both lawsuits, the central
6 question is, is Hunter Mountain a Claimant Trust beneficiary?
7 If we can go to the next slide, let's look at the
8 briefing, because there's really no dispute about this.
9 There's no dispute about it at all. Look at Highland's motion
10 to dismiss the valuation complaint. Right up in Paragraph 2,
11 we say explicitly: Despite holding only unvested contingent
12 trust interests with no rights in the Claimant Trust,
13 Plaintiffs stubbornly seek financial information regarding
14 Claimant Trust assets. This is the basis for the motion to
15 dismiss, that they're not Claimant Trust beneficiaries.
16 And it's not as if this is the only place in the pleading
17 where this is discussed. If you go to Docket No. 14 in this
18 adversary proceeding, as you can see in the footnote, there's
19 an extensive analysis that explains why Plaintiffs have no
20 rights to financial information, precisely because they're not
21 Claimant Trust beneficiaries.
22 And it's not as if Hunter Mountain says we're wrong, it's
23 not an issue. They know it's an issue, and they go to great
24 lengths to address it.
25 If we can go to the next slide. This is from their

1 opposition to the motion to dismiss. In Paragraph 10, they
2 say the Claimant Trust Agreement evidences an intent that
3 Plaintiffs become Claimant Trust beneficiaries when Claimant
4 Trust assets are sufficient to pay all lower-ranked claims in
5 full, with interest. Again, their pleading, not mine. And it
6 shows that they understand the hurdle they have to come --
7 Now, there's lots of other stuff in these pleadings
8 regarding other theories for why these claims fail, but all of
9 them fail if they're not a Claimant Trust beneficiary.
10 And I'd ask the Court to pay particular attention to
11 Paragraphs 40 to 52 in Hunter Mountain's pleading in
12 opposition to the motion to dismiss. As you can see in the
13 footnote, they have an extensive legal argument as to why
14 Plaintiffs are allegedly -- why Plaintiffs allegedly, quote,
15 have a legal right to obtain the information they seek.
16 That's the same issue that's got to be decided in the motion
17 for leave to sue Mr. Seery.
18 And what's really interesting, Your Honor, is not only do
19 they make the argument in opposition to the motion to dismiss,
20 they basically cut-and-pasted -- I credit Mr. Demo for helping
21 me out; he pointed this out to me this morning, so I want to
22 give credit where credit is due -- they cut-and-pasted the
23 exact same argument in their motion for leave to sue Mr.
24 Seery. So if you just compare Paragraphs 41 to 46 of Hunter
25 Mountain's opposition to Highland's motion to dismiss the

1 valuation complaint to Paragraphs 31 to 37 of Hunter
2 Mountain's motion for leave to sue Mr. Seery, you'll see
3 they're making the exact same argument as to why they contend
4 they're a Claimant Trust beneficiary.
5 Again, don't take our word for it. This isn't argument.
6 This is just looking at their own pleading. Right? They're
7 saying in both cases they're Claimant Trust beneficiaries.
8 They're fighting it, right? They know they have to get over
9 that hurdle, because if they don't they can't pursue these
10 claims.
11 If we can go to the next slide. You've got Highland's
12 reply. Again, extensive discussion. It's the very first
13 point in the very first paragraph, under the Trust Act,
14 whether a party is a beneficiary: Here, a Claimant Trust
15 beneficiary is determined by the plain language of the
16 governing trust -- here, the Claimant Trust Agreement.
17 And, again, if you take a look at the footnote, our reply
18 in Paragraphs 5 through 9 provides further argument as to why
19 Plaintiffs are not beneficiaries of the Claimant Trust under
20 the plan, the Claimant Trust Agreement, or under applicable
21 law.
22 So I think it's pretty clear from the pleadings, it's
23 pretty clear from the parties' positions, it's pretty clear
24 from the Delaware law that Hunter Mountain relies upon to move
25 Mr. Seery, Section 3327, that the causes of action in that

1 proposed complaint and the causes of action in Hunter
2 Mountain's valuation complaint all depend on whether or not
3 Hunter Mountain is a beneficiary under the plan, under the
4 Claimant Trust Agreement, and under Delaware law. And all of
5 those issues are going to be argued in just three weeks. All
6 of those issues are going to be decided by the Court
7 thereafter.
8 If we can go to, yeah, this next slide. So, yesterday,
9 Hunter Mountain filed its response to the motion for a stay.
10 And I just want to address some of the arguments that were
11 made.
12 You know, the first argument that they made concerned the
13 legal standard. They said, oh, Highland didn't use the proper
14 legal standard. We disagree. This isn't a motion for
15 injunctive relief. It's not a motion for a stay pending
16 appeal. It's a motion asking the Court to prudently police
17 its own docket.
18 And here's, here's the irony, Your Honor. Again, don't
19 take my word for it. Take Ms. Deitsch-Perez and her clients'
20 word for it. Because just last year, in connection with their
21 motion for a stay pending the mediation, in a pleading that
22 was filed on 4/20, they said that the Court has the discretion
23 to issue a stay. They relied on *Clinton v. Jones*, exactly as
24 Highland has done to seek a stay in this case. Okay? So the
25 very standard and the case citation that they criticize today

1 is the very standard and case citation that they relied upon
2 last April.
3 And here, it gets even better. Because Ms. Deitsch-Perez,
4 on behalf of her client, Hunter Mountain, joined in Dugaboy
5 and Mr. Dondero's motion for a stay. She and her client
6 personally adopted the very standard that they're criticizing
7 today. You can't make this stuff up.
8 The standard is the right standard. The Court certainly
9 has the discretion to police its own docket.
10 The second point that they make is that, you know, they'll
11 be really prejudiced without a stay. I say it's the exact
12 opposite. Everybody will be prejudiced without a stay. The
13 Court will be prejudiced. Highland will be prejudiced. Mr.
14 Dondero. Hunter Mountain. All of us will be prejudiced
15 because we will wind up litigating the exact same issue twice.
16 We will expend further resources. And of greatest concern to
17 us is that we might wind up with inconsistent results.
18 There's no question that -- I shouldn't say there's no
19 question. In all likelihood, a decision will be had on
20 Highland's motion to dismiss the valuation complaint in short
21 order, since argument is scheduled just three weeks from now
22 and the matter is fully briefed. And as Your Honor knows,
23 that -- if we prevail and the Court finds, as it's indicated
24 in prior rulings, that Hunter Mountain is not a Claimant Trust
25 beneficiary and has no rights to this information, and they

1 appeal that, that'll get assigned to a particular district
2 judge.
3 If the stay is denied and we proceed with the litigation
4 of the Hunter Mountain complaint that seeks to remove Mr.
5 Seery and we prevail on that one, that'll go to a different
6 judge, in all likelihood, since there's more than, I think,
7 two dozen judges in the District Court. They'll be on
8 completely separate tracks. And you run the -- you run the
9 real risk -- I mean, actually, it's not a real risk, from our
10 point, given the substance -- but you definitely run the risk
11 of inconsistent decisions.
12 So I know, and I'll close in a moment with some comments
13 about the wisdom of this whole exercise, but I know -- I know
14 how much Mr. Dondero, you know, wants to challenge Mr. Seery.
15 But that doesn't -- that doesn't make it the efficient thing
16 to do. It doesn't make it the fair thing to do, when we're
17 litigating the exact same issues right now.
18 The third, the third notion, the third argument they make
19 is really they attempt to rewrite their complaint. They try
20 to suggest that the issues are not identical. They suggest
21 that, you know, they've got theories of breach of fiduciary
22 duty and good faith and fair dealing. You know what, Your
23 Honor? You just have to go back to Paragraph 35 of the
24 proposed complaint. That are the legal theories of their
25 case. And to the extent that there's a notion of fiduciary

1 duty in there, it is predicated on Section 337. In fact, it's
2 predicated -- if you'll give me just one moment -- it's
3 predicated on Section 337 -- 3327(1): The officeholder has
4 committed a breach of trust.
5 It's not a stand -- there is no standalone breach of
6 fiduciary duty claim, nor could there be. Because as the
7 Court is likely aware, there's a very specific provision in
8 the trust agreement that's been affirmed by this Court, the
9 District Court, the Fifth Circuit, that specifically
10 disclaimed any fiduciary duty to anybody but a Claimant Trust
11 beneficiary. So you couldn't have a standalone breach of
12 fiduciary duty claim. It just doesn't exist.
13 So they can try if they want to characterize their claims
14 however they want. They should be held to the pleading that
15 they filed. It's the one that we'll be defending if the
16 motion for stay is denied or if the Debtor sees the light of
17 day.
18 But I do want to close with just some general observations
19 about this. Right? They want to -- they suggest, you know,
20 Highland wants to avoid the suit to remove Mr. Seery. No, we
21 don't. What we want to do is the right thing here. There is
22 no dispute that neither Mr. Dondero, Mr. Patrick, or Hunter
23 Mountain serve on the Claimant Trust Board. They have no
24 personal knowledge of anything concerning the Claimant
25 Oversight Board. And Hunter Mountain's proposed complaint

1 cites no facts concerning the governance of the Claimant
2 Oversight Board.
3 Instead, they seek to file another complaint, borne out of
4 grievances, based on rank speculation, untenable inferences,
5 and fabricated tales, lacking in common sense, frankly, that
6 is woefully ignorant of the evidence that has already been
7 admitted against it.
8 According to Hunter Mountain, the Claimant Trust Board is
9 missing in action. They have abandoned their fiduciary duty.
10 They have ceded control of the Claimant Trust to Mr. Seery to
11 do what he wishes, even if it's acting against Stonehill and
12 Farallon's own interests. Right? The complaint said, oh, Mr.
13 Seery is arbitrarily withholding distributions so he can
14 supposedly enrich himself by getting the same salary that this
15 Court approved it'll be four years ago in July.
16 You can't make this stuff up, Your Honor. The whole
17 premise doesn't make any sense at all. Why doesn't it make
18 any sense at all? Because Mr. Dondero [sic] is accountable.
19 He is fully accountable. He's accountable for the Claimant
20 Oversight Board and he is accountable to every holder of an
21 actual vested claimant beneficial interest in the trust. He
22 owes them fiduciary duties. Hunter Mountain is not in that
23 group. But Mr. Seery is most definitely accountable to the
24 people who had allowed claims and the people today who are
25 Claimant Trust beneficiaries.

1 And here's the thing. Hunter Mountain knows that the
2 Claimant Oversight Board is not missing in action. Hunter
3 Mountain knows that Mr. Seery is not acting unilaterally. How
4 does it know that? Because we had a trial last June. And
5 during that trial -- you can find this at Docket No. --
6 MS. DEITSCH-PEREZ: Your Honor? I -- Your Honor, I
7 regret --
8 THE COURT: Stop.
9 MS. DEITSCH-PEREZ: -- interrupting.
10 THE COURT: Okay. What do you want to say, Ms.
11 Deitsch-Perez?
12 MS. DEITSCH-PEREZ: I regret interrupting Mr. Morris,
13 but this is not an evidentiary hearing and Mr. Morris is now
14 testifying to things that are not in his pleadings. It's just
15 not a fair way to proceed and the Court should not allow it.
16 Thank you.
17 THE COURT: Okay.
18 MR. MORRIS: If I may, Your Honor, just to --
19 THE COURT: Go ahead.
20 MR. MORRIS: We received a response -- we received a
21 response yesterday --
22 THE COURT: Uh-huh.
23 MR. MORRIS: -- that accused Highland of filing this
24 motion for the stay in order to avoid having this heard. I'd
25 like to -- all I'm doing is responding to the very argument

1 that they made yesterday.

2 THE COURT: Okay. You may respond. I overrule that

3 objection.

4 MR. MORRIS: Thank you. So, and this is all really

5 important, because there's evidence in the record at Exhibits

6 39, 40, and 41 that were admitted last June that show a very

7 active, responsible Claimant Oversight Board fulfilling their

8 fiduciary duties in negotiating an incentive compensation

9 package for Mr. Seery. And they want to file a complaint

10 that says the Claimant Oversight Board has abandoned its

11 responsibilities, that they're missing in action.

12 And I want to be really careful here. I want to -- I

13 want to really be transparent here, frankly. Stonehill and

14 Farallon are two of the biggest claimholders. They both hold

15 seats on the board. Does it make any sense at all that they

16 would allow Mr. Seery to do all this at their own expense if

17 they didn't think it was justified?

18 This is very important, Your Honor. No one who holds a

19 valid, vested claim in the Claimant Trust, who is a Claimant

20 Trust beneficiary, not one of them is complaining about Mr.

21 Seery's management. Not one of them is complaining about his

22 decisions concerning reserves. Not one of them is

23 complaining about whether he has or hasn't made distributions

24 or how much he's distributing. Not one of them has suggested

25 to the Court that Mr. Seery is acting unlawfully. Nobody

1 holding a claim, a vested claim in the trust is complaining
2 about anything. The only person complaining is Mr. Dondero,
3 the same person who has been the sole source of litigation
4 since the effective date.
5 He and his counsel should be careful for what they wish
6 for. If Highland's motion for a stay is denied, Highland
7 will respond to the motion and will serve another Rule 11
8 motion, just as it did when Mr. Dondero filed his ridiculous
9 lawsuit claiming that my firm actually represented him
10 personally back in 2019. Your Honor may have seen how this
11 ended. It ended with the withdrawal of that motion. And
12 this motion will head for the same result.
13 And I say all of this, Your Honor, because I want to be
14 respectful. I want to make sure everybody's eyes are wide
15 open. I want to ensure everybody understands that we're not
16 seeking a stay here because we're afraid of anything. And I
17 want everybody to know that if the stay is denied or this
18 motion is ever heard, that the first thing that's going to
19 happen is there will be a response and a Rule 11 motion,
20 because it has no basis in law and it has no basis in fact.
21 Highland seeks a stay not to avoid a hearing on the merits
22 but because it makes no sense to keep litigating the same
23 issue over and over again. We are not the same. The stay
24 should be granted.
25 Thank you, Your Honor.

1 THE COURT: I have two follow-up questions. First,
2 I think I heard you say February 14th is when the Court --
3 MR. MORRIS: Yes.
4 THE COURT: -- is set to have a hearing on the
5 motion to dismiss the complaint seeking valuation. Correct?
6 MR. MORRIS: Yes.
7 THE COURT: And --
8 MR. MORRIS: Yes, Your Honor.
9 THE COURT: And your motion for a stay here is
10 'Please stay hearing this latest Hunter Mountain motion to
11 file a complaint until not only this Court has ruled on the
12 February 14th matter but until all levels of appeals have
13 been exhausted on that.' Am I correct about your request?
14 MR. MORRIS: Yes, Your Honor.
15 THE COURT: Okay. And my second question: When Ms.
16 Deitsch-Perez started objecting to your argument, I think you
17 were alluding to a trial this Court had on Hunter Mountain's
18 motion to sue Farallon and Stonehill as well as Mr. Seery
19 with regard to what I'll call claims purchasing activity. Is
20 that what you were alluding to?
21 MR. MORRIS: It was, Your Honor.
22 THE COURT: Okay.
23 MR. MORRIS: And I was alluding to it for the very
24 singular purpose of pointing out that there was evidence
25 admitted into the record against Hunter Mountain that shows

1 the Claimant Oversight Board fulfilling its fiduciary duties
2 and doing exactly what this Court would expect the Claimant
3 Oversight Board would do.
4 And I point that out only to contrast that evidence,
5 which has already been admitted, with allegations in the
6 proposed complaint that somehow the Claimant Oversight Board
7 has ceded control to Mr. Seery and they're missing in action.
8 It's just -- they know it's not true. They have the
9 evidence.
10 THE COURT: Okay. And I said two follow-up
11 questions, but I actually have this additional question.
12 This was on my brain, this -- I couldn't remember what month
13 -- the trial, where I ruled on whether Hunter Mountain should
14 be granted leave to sue Farallon and Stonehill and Mr. Seery.
15 This was on my brain because, you know, I've issued a lot of
16 opinions during the Highland case, but I remembered writing
17 extensively on whether Hunter Mountain had standing back in
18 connection with that motion. And in fact, I'm going to hold
19 it up.
20 MR. MORRIS: Yep.
21 THE COURT: I wrote a 105-page opinion -- which I
22 don't know if anyone besides my law clerk and I read it,
23 because it's not entertaining -- but I wrote a 105-page
24 opinion denying Hunter Mountain -- different lawyer at the
25 time, not Ms. Deitsch-Perez -- denying Hunter Mountain leave

1 to sue what I'll call the Claims Purchasers -- Farallon,
2 Stonehill, as well as Mr. Seery. They wanted to sue Mr.
3 Seery for breach of fiduciary duty. And I had multiple
4 reasons for denial, but lack of standing was one of those
5 reasons.
6 And I went and printed the opinion yesterday to refresh
7 my memory, did I rule on this already? I thought I ruled on
8 this already. And 23 pages of my 105-page opinion deals with
9 the lack of standing of Hunter Mountain. Twenty-three pages,
10 and 85 footnotes, by the way, within that 23 pages, so it's a
11 very dense 23 pages. I went through constitutional standing
12 and I went through prudential standing, and I said Hunter
13 Mountain failed under both tests.
14 So this is a very longwinded question: What I'm hearing
15 you argue, Mr. Morris, is I'm going to rule one way or
16 another on February 14th, and then there will likely be
17 appeals, so let's don't have to reinvent the wheel. But is
18 there something about my opinion, my 105-page opinion, that
19 isn't -- I mean, have I already addressed this, or is there
20 something I missed in that opinion regarding standing? Has
21 something changed? This was August 2023.
22 So maybe it's not fair to ask you, because this was more
23 the Claims Purchasers' lawyers' fight, right, and Mr.
24 Seery's, more than --
25 MR. MORRIS: Right.

1 THE COURT: -- the Reorganized Debtor? They were
2 the ones who briefed it and argued it. So maybe it's not
3 something that you bothered to read in detail. But I feel
4 like I've ruled on this. And --
5 MR. MORRIS: So, --
6 MS. DEITSCH-PEREZ: Your Honor, may --
7 THE COURT: First Mr. Morris, and then I'll let you,
8 Ms. Deitsch-Perez.
9 MR. MORRIS: So, a couple of observations, Your
10 Honor.
11 THE COURT: Uh-huh.
12 MR. MORRIS: First of all, I read every word that
13 Your Honor wrote, --
14 THE COURT: I'm sorry.
15 MR. MORRIS: -- as I do for all judicial.
16 THE COURT: Okay.
17 MR. MORRIS: Yeah, right?
18 Second of all, this issue was addressed by the Court. It
19 was addressed pretty extensively. It was addressed further,
20 frankly, on -- there was a subsequent post-trial motion by
21 Hunter Mountain challenging that very finding --
22 THE COURT: The motion for reconsideration.
23 MR. MORRIS: -- and it challenged that very finding.
24 THE COURT: Uh-huh.
25 MR. MORRIS: That's right. It challenged that very

1 finding based on the same *pro forma* balance sheet that's at
2 -- that we're saying kind of moots this whole exercise, at
3 least the valuation proceeding.
4 But I'm sure Your Honor is not aware of it, but Hunter
5 Mountain has appealed that decision, and they are
6 challenging, you know, every word, I think, in your order.
7 Every word in seven interlocutory orders that preceded it.
8 And unlike the resolution of the issue that will be had
9 on February 14th, where Hunter Mountain's lack of beneficial
10 ownership in the Claimant Trust is front and center, that
11 issue is one of a very, very long laundry list of issues that
12 are going to the District Court. And we have no reason to
13 believe, we have no -- right? It's one of a million issues,
14 and there's no certainty at all that the District Court is
15 ever going to get to that issue. Right? We don't know how
16 they're going to -- it's just starting now. I don't even
17 think the opening brief -- I think the opening brief might
18 have been filed a day or two ago. I'll start looking at that
19 shortly.
20 But, so that's why we didn't think that was particularly
21 relevant. We did note that in our footnote. I mean, we did
22 point out that this -- that, you know, there is an appeal of
23 the Hunter Mountain decision of last June. But given the
24 girth of the appeal and the number of matters that are being
25 adjudicated, you know, I wouldn't -- we're not here saying

1 you should stay the latest Hunter Mountain motion in order to
2 get a result there, because it doesn't seem, you know, maybe
3 they address it, maybe they don't. There's no way to say
4 because it's just not -- it's just buried in there. It's
5 buried in the laundry list.
6 Another thing I'll say is that you did, you did address
7 it. You did address it pretty comprehensively. But we have
8 new pleadings, you know, with arguably some new shades of
9 argument. But the motion for leave to remove Mr. Seery is
10 based solely on Section 3327 of the Delaware law, which turns
11 right back to the terms of the Claimant Trust.
12 I'm sure that we're going to wind up at the same spot,
13 whether it's through res judicata, collateral estoppel. I
14 mean, I think we've made a number of these arguments already.
15 But the point here is, why do we have to litigate these
16 issues for a third time?
17 THE COURT: Okay. Thank you.
18 All right. Ms. Deitsch-Perez, I'll hear from you.
19 MS. DEITSCH-PEREZ: Okay. And Mr. Aigen is going to
20 pull up a PowerPoint.
21 Just to -- and go to Slide 2. But just to jump ahead, the
22 motion for leave is predicated on Delaware Code 3327, and it
23 has in it a number of criteria for why a trustee should be
24 removed. The issues are entirely different than in a
25 valuation proceeding, and a Delaware court may well have a

1 different view of what a beneficiary is for the purpose of
2 Delaware Code 3327 and the importance of making sure that
3 Delaware trustees are not hostile or unable to act.
4 I'm also going to jump ahead and answer one of the -- what
5 Mr. Morris added in his last slide, which was new, claiming
6 that, oh, no, it's perfectly clear that the Oversight Board is
7 on the job, so really you, as an equitable matter, you
8 shouldn't worry about this, because Mr. Seery is supervised.
9 One, that's not in his pleadings. But more importantly,
10 he's mixing apples and oranges, because the evidence in the
11 former trial had to do with approving his compensation. The
12 issue in the motion for leave to bring a suit to remove Mr.
13 Seery is the fact that the Claimant Trust structurally does
14 not -- it gives Mr. Seery complete discretion over the issue
15 of moving money into the indemnity subtrust. It's an entirely
16 different issue than the issue that was raised in the trial in
17 June, and Mr. Morris should and probably does know that, and
18 so has been -- well, his comment was misleading at best.
19 THE COURT: Okay. Different --
20 MS. DEITSCH-PEREZ: But let's take a look at --
21 THE COURT: Different causes of action, different
22 theories, but still it boils down to whether Hunter Mountain
23 is a Claimant Trust beneficiary, right?
24 MS. DEITSCH-PEREZ: Or whether it will be treated as
25 a Claimant Trust beneficiary, --

1 THE COURT: Okay.
2 MS. DEITSCH-PEREZ: -- which is an additional basis.
3 THE COURT: I don't know what that distinction, where
4 it comes from.
5 MS. DEITSCH-PEREZ: The distinction is that the
6 parties cannot waive, in Delaware, the duty of good faith and
7 fair dealing. And so if Mr. Seery is taking actions that
8 prevent or attempt to prevent the Class 10 and 11 from
9 becoming beneficiaries, then under Delaware law he would not
10 be able to raise a lack of that status as a defense under
11 3327.
12 THE COURT: You're talking about the cause of action
13 --
14 MS. DEITSCH-PEREZ: And so if --
15 THE COURT: Stop. You're talking about the cause of
16 action and defenses thereto. We're talking about standing,
17 which, as I mentioned, 23 pages, 85 footnotes, the last time
18 Hunter Mountain wanted to sue Mr. Seery and Farallon and
19 Stonehill. Some of it was constitutional standing, but a few
20 pages was standing under Delaware law, and I said not a
21 Claimant Trust beneficiary. Okay?
22 Regardless of what the causes of action and theories are,
23 Hunter Mountain has to be a Claimant Trust beneficiary.
24 MS. DEITSCH-PEREZ: Or --
25 THE COURT: I've written on that extensively already,

1 and it sounds like I'm going to have to write on it one way or
2 another extensively after February 14th.
3 Why should we not stay this new motion to file a new
4 lawsuit, rather than reinvent the wheel again? Maybe it's
5 going to be different --
6 MS. DEITSCH-PEREZ: Your Honor, --
7 THE COURT: -- with the valuation motion versus what
8 I wrote in Summer 2023. I don't know. I haven't started
9 looking at the pleadings in depth. But what is illogical --
10 MS. DEITSCH-PEREZ: Your Honor?
11 THE COURT: -- about this? I mean, this is, again,
12 it's about judicial resources, efficiency, parties' resources.
13 Why on earth would --
14 MS. DEITSCH-PEREZ: No, Your Honor, what it --
15 THE COURT: Go ahead.
16 MS. DEITSCH-PEREZ: The reason is there's a reason
17 that the Supreme Court has a very high standard to stay other
18 judicial proceedings. So not only must the applicant make a
19 showing of likelihood of success, but the issue is whether
20 they will be irreparably harmed by not having a stay and
21 whether another party would be harmed by having a stay.
22 And here, because Highland seeks to stay this matter for
23 years, if it turns out in the end that Your Honor's decision
24 is overturned and Hunter Mountain is found to have standing,
25 it will be too late to do anything about it if the cases are

1 not allowed to proceed in tandem.

2 Parties have a right to have their cases heard. The fact

3 that there are similar issues means at some point there may be

4 res judicata or collateral estoppel that deals with it. But

5 there's not a rule that only one case can go forward.

6 Under Highland's theory, virtually Hunter Mountain could

7 not bring any claims, anymore, ever. And that's not the law.

8 Hunter Mountain is entitled to have this decided.

9 It may well be that Your Honor thinks there's no

10 difference because of 3327 and is going to rule the same way.

11 We don't think that that's correct. We think we will convince

12 you that because Hunter Mountain is moving under 3327, there

13 is a difference in standing. And in any event, that it should

14 go to a Delaware court for that determination to be made. But

15 if Your Honor stays this proceeding, --

16 THE COURT: And by the way, by the way, what does the

17 Trust Agreement say about where things get litigated?

18 MS. DEITSCH-PEREZ: Delaware law says that you --

19 that --

20 THE COURT: I asked what the Trust Agreement said.

21 MS. DEITSCH-PEREZ: Delaware law --

22 THE COURT: I asked what the trust agreement said,

23 because it would trump, right? A contractual agreement would

24 --

25 MS. DEITSCH-PEREZ: No. That's the -- exactly. It

1 doesn't trump. Under Delaware law, and we cite a case for
2 this, it's in the brief, a venue provision in an agreement
3 does not override having matters of Delaware internal affairs
4 decided in Delaware. So, no, the Trust Agreement does not
5 automatically override Delaware law.
6 And so this goes back to the *Landis* -- the standard for
7 stay under *Landis*. Who's harmed? Which harm is irreparable?
8 Because Highland seeks to stay this matter for years. And
9 Your Honor knows how long the Fifth -- the District Court and
10 the Fifth Circuit have been taking to get to rulings. It
11 could be one, two, two and a half, three, if it goes up to the
12 Supreme Court. It could be years. And by that time, Mr.
13 Seery will have continued doing the very things that the
14 complaint seeks to challenge. That's not fair.
15 I understand there may be a tiny amount of additional
16 work. Mr. Morris says this is all the same. Well, if it's
17 all the same, then he's already done the work. And if Your
18 Honor is convinced it's all the same, well, then you cut-and-
19 paste the old opinion and put it down and the parties could go
20 forward with their appeals.
21 The prior standing decision is up on appeal. The parties
22 are entitled to go forward and have -- and have their judicial
23 process. There is -- the amount of money Highland spends on
24 these matters, such as bringing -- bringing the sanctions
25 claim against Mr. Ellington and then suddenly dropping it in

1 the middle, it defies belief that their -- the real interest
2 here isn't conserving resources. If in fact these are
3 duplicative matters, then it will be easy enough to write them
4 up.
5 And because Highland waited two weeks after the motion to
6 leave was filed and only a week before its response was due,
7 is it really credible that it hasn't already largely written
8 its response? Was it so sure that this Court would do as it
9 asked that it didn't bother to respond, that it set a hearing
10 for a date after its response was due? That seems improbable,
11 Your Honor. I certainly hope that they've gotten this largely
12 written.
13 But in any event, we've given them -- they asked for and
14 we've given them an additional week to write up its response
15 to the motion to leave. I'd ask that the Court allow this to
16 proceed, because Highland simply doesn't meet the standard,
17 the very, very high standard for a motion to stay here.
18 THE COURT: All right.
19 MR. MORRIS: If I may, just a few comments, Your
20 Honor?
21 THE COURT: Very briefly. Two minutes. Because I
22 thought this was going to be a short matter, and we've been
23 going --
24 MR. MORRIS: Yeah.
25 THE COURT: -- fifty minutes. Five-oh minutes. So,

1 go ahead.
2 MR. MORRIS: Yeah. Okay. Just, it's not the exact
3 same thing. It has the exact same legal gating issue: Are
4 they a beneficiary?
5 If the Court denies the stay -- and I assure the Court, I
6 haven't written one word of this thing yet -- but if the Court
7 denies the stay, we are going to be in major litigation. We
8 reserve the right to take discovery. There will be an
9 evidentiary hearing, of that I'm absolutely certain, when we
10 get to that point, as appropriate under the gatekeeping order
11 that's been adopted by this Court. So it will be expensive,
12 it will be time-consuming, and it will ultimately yield
13 absolutely nothing for the Movants here.
14 You know, we didn't set the date for today. Ms. Deitsch-
15 Perez is exactly wrong about that. The Court set the date for
16 today. We filed an emergency motion a week ahead of time.
17 It's not like we waited until the last second. Right?
18 So I just, I take offense with all of that. I take
19 offense to the reference to the Ellington sanctions motion.
20 That got resolved because Mr. Ellington finally said he wasn't
21 going to sue Mr. Seery. Had he done that when we asked him a
22 hundred times before that, we never would have filed the
23 motion. He refused to do it. That's why the motion was
24 filed. And it was resolved -- not withdrawn, but resolved --
25 only after Mr. Ellington and his lawyer finally said they

1 weren't going to sue Mr. Seery.
2 So, you know, facts matter, Your Honor. Facts are very
3 important to me. And I want to make sure that the factual
4 record is a hundred percent accurate.
5 The fact of the matter is, at the end of the day, the
6 Court should grant the stay. You know, if Hunter Mountain
7 really wanted Mr. Dondero [sic] out, they should have included
8 it in their complaint last summer and they shouldn't be
9 allowed to come up with new claims that aren't even in the
10 proposed complaint that's on file right now. There is no
11 claim for breach of the duty of good faith and fair dealing.
12 There isn't. And so they don't get to come here and argue
13 against the stay based on a pleading that has yet to be filed.
14 The Court should grant the stay.
15 THE COURT: All right.
16 MS. DEITSCH-PEREZ: Your Honor?
17 THE COURT: No. I'm done. I've heard enough.
18 I am going to grant a stay. It's going to be slightly
19 different from what is requested here. I'm going to grant a
20 -- well, I'm going to grant a stay on this newest HMIT motion
21 to sue Mr. Seery until at least the time I rule on the
22 valuation motion, the motion to dismiss the valuation
23 complaint. Okay? So it's argued February 14th. We know how
24 this case works. I get voluminous submissions. I try to
25 carefully go through them and make a careful ruling. And so

1 will I get a ruling out in April? That's just a wild guess,
2 okay, but it's probably a reasonable guess.
3 So what I envision doing is having something like a status
4 conference/scheduling conference shortly after I rule on the
5 motion to dismiss the valuation complaint and decide, are we
6 going to continue the stay to let maybe any appeals -- in
7 fact, I'll probably set a status/scheduling conference shortly
8 after the deadline for a notice of appeal. And we'll see, is
9 there an appeal pending, what's going on big-picture, should I
10 continue the stay? Okay? So I'm not saying it's going to be
11 a two- or three-year stay, but I'm saying it's going to be at
12 least an until-later-this-year stay, and we'll see where
13 things stand in this case.
14 Now, let me give you a couple of reasons. I don't think
15 the four-prong TRO standard test applies here: Irreparable
16 harm; likelihood of success on the merits; balancing the
17 parties' interests; the public interest. I don't feel the
18 need to make that evaluation here because I do think this is
19 just policing the Court's own docket, which of course any
20 court has the discretion to police its own docket, in the
21 interest of judicial economy and reducing expense. And so I
22 am going to elaborate on that and why I'm exercising my
23 discretion as such.
24 As I've alluded to a couple of times, August 25, 2023,
25 Docket Entry No. 3903, this Court issued a 105-page opinion in

1 what I would call a very similar context, if not squarely down
2 the middle of the fairway the same context. And the context,
3 for the record, was Hunter Mountain, through a different
4 attorney -- not Ms. Deitsch-Perez, a different attorney --
5 filed a motion for leave to sue Mr. Seery and Farallon and
6 Stonehill, Claims Purchasers, for different causes of action.
7 One of them was breach of fiduciary duty by Mr. Seery, I note,
8 but there were different causes of action.
9 As I've noted here, and I'm saying this for the record in
10 case there's an appeal of this order granting stay today, in
11 the 105-page opinion that I issued denying Hunter Mountain
12 leave to file the lawsuit against Mr. Seery and the Claims
13 Purchasers, I did spend 23 pages, dense pages with 85
14 footnotes, explaining why I thought in that context Hunter
15 Mountain has no constitutional standing as well as no
16 prudential standing to sue Mr. Seery and the Claims
17 Purchasers.
18 I note that the prior lawyer for Hunter Mountain, not Ms.
19 Deitsch-Perez, gave very little oral argument or written
20 argument on that. In fact, as I remember, he said, The person
21 aggrieved standard is what applies and we're a person
22 aggrieved.
23 And the Fifth Circuit as well as the U.S. Supreme Court
24 seem to love the topic of standing. Okay? And I thought we
25 needed a very thorough discussion of standing, okay, because I

1 thought, more likely than not, that's going to be the first
2 issue -- of course, because it could be bear on subject matter
3 jurisdiction -- that's going to be the first issue that a
4 District Court, the Fifth Circuit, even the U.S. Supreme Court
5 is going to focus on. So, 23 pages, 85 footnotes.
6 Now, there may be more or different things to say when we
7 have the motion to dismiss on the valuation complaint. Okay?
8 (Echoing.)
9 THE COURT: Please turn off your speakers, whoever
10 that is.
11 I will note that Delaware law, that would be the narrower
12 question of prudential standing, right? And in my 23 pages, I
13 actually spent more time on constitutional standing than
14 prudential standing. And as Mr. Morris notes, the 105-page
15 opinion is chock-full of other stuff besides standing. Okay?
16 Colorability of the claim that Hunter Mountain wanted to bring
17 and what is the standard the Court should apply under the
18 gatekeeping provision. Okay? So, lots of other things.
19 Yes, it may be years before a higher court rules or
20 different courts rule. And it may be slightly nuanced and
21 different for the valuation thing. But I don't know why
22 anyone would reasonably think I would go down this trail a
23 third time for the same party. Okay? I went down it *ad*
24 *nauseam* August 25, 2023. It sounds like I'm going to go down
25 it *ad nauseam* again February 14th and thereafter, as I decide

1 what to do.

2 As far as abuse of discretion, I think my bosses -- the

3 District Court, the Fifth Circuit, the Supreme Court -- would

4 want to slap my hand if I didn't grant the stay. It's not

5 just judicial economy to me, it's not just efficiency of the

6 parties, but it's my bosses. It's the District Court, the

7 Fifth Circuit. Why are you going to make us look at this yet

8 again? Okay?

9 Maybe I'll have something different to say. Maybe I'll

10 have something more to say in connection with the valuation

11 motion. I don't know. And that's why I'm leaving open the

12 possibility that we're going to have a status conference after

13 I've ruled, after notices of appeal may have been filed, and

14 we'll figure out, do I go forward with this motion for leave?

15 I'll have a better idea, is there something new and different

16 at this point?

17 But there is no way any responsible court would go forward

18 a third time considering Hunter Mountain's standing under

19 Delaware law, under constitutional law, as a Claimant Trust

20 beneficiary. Okay? There's no way any reasonable court would

21 do that, with it twice having been teed up. Okay?

22 So that is the ruling of the Court. We will put it on our

23 tickler system to set a status conference on whether to

24 continue a stay in place after I've ruled on the valuation

25 motion to dismiss.

1 All right. Please upload an order, Mr. Morris, that
2 reflects that.
3 MR. MORRIS: Okay. And just so there's no ambiguity,
4 any further briefing on the motion for leave is also
5 suspended? Is that right?
6 THE COURT: Correct. Yes. Correct. And, again, --
7 MR. MORRIS: All right.
8 THE COURT: -- I just want to say one more thing,
9 actually, for the record. Not whining to anyone, but it's
10 going to sound like whining. I checked yesterday, and I'm not
11 even sure my numbers are perfectly accurate, it may be more
12 than this, but I counted in the Highland case I have issued 13
13 -- well, there are 13 published opinions from this Court. And
14 then if you go back to *Acis*, which was, one might say, a
15 precursor to Highland, there were five more published
16 opinions. And that's not even counting Reports and
17 Recommendations to the District Court, of which there are many
18 more, probably close to a dozen. And then I've heard -- I've
19 heard; I've never checked it -- that there were something like
20 55 appeals. And that was I think about a year ago someone
21 announced that in court.
22 So, again, I mean, this is not just about the parties,
23 although I care about the parties and the lawyers. This is
24 about judicial efficiency. This is overwhelming to the
25 system, so to speak. Okay? And so, again, I think it would

1 be an abuse of discretion for sure if I didn't grant the
2 motion to stay.
3 All right. I've said enough. And with that, we'll go on
4 to Highland's motion for a bad faith finding and attorneys'
5 fees against I call it HCRE, but I guess it's changed its name
6 a long time ago to NexPoint Real Estate Partners, LLC. All
7 right. Mr. Morris, are you presenting that?
8 MR. MORRIS: I am, Your Honor. Thank you very much.
9 John Morris, Pachulski Stang, for Highland.
10 We're here on this hearing, Your Honor, to argue
11 Highland's motion for a bad faith finding for an award of
12 attorneys' fees in connection with the proof of claim and the
13 prosecution of the proof of claim by HCRE.
14 The motion was originally filed at Docket 3851, and if Ms.
15 Bates can put up the next deck, I'll walk the Court through
16 this. This is pretty straightforward.
17 The starting point, the starting point here, Your Honor,
18 as it ought to be, is HCRE's claim. And if we could just,
19 yeah, go to this page. What I've put up on the screen here,
20 or what Ms. Bates has put up on the screen, is a slide that
21 shows two pieces of evidence, two documents that were admitted
22 into evidence in this matter. The first is HCRE's proof of
23 claim, and the second is HCRE's response to Highland's
24 objection to that proof of claim. And these documents are
25 critical (chiming) because it sets forth the entire basis for,

1 you know, for this litigation.

2 In the proof of claim, HCRE said, among other things, that

3 it contends that all or a portion (chiming) of Highland's

4 interest in an entity called SE Multifamily, quote, does not

5 belong to the Debtor. Or may be property of (garbled).

6 So this is the proof of claim. They're saying all or a

7 portion of Highland's interest in SE Multifamily isn't

8 Highland's. Right? But Your Honor knows that that's just a

9 statement without regard to how they get there. A proof of

10 claim -- and this is really simple, and it's why this motion,

11 I think, is pretty simple -- a proof of claim has to have some

12 basis in the law. Somebody could have a breach of contract.

13 Somebody could have a slip and fall. There could be a

14 personal injury case against the Debtor. There could be a

15 claim for breach of fiduciary duty or other tortious conduct.

16 But there's got to be a legal theory on which a claimant is

17 seeking to recover against the Debtor.

18 And the claimant here, HCRE, set forth those legal

19 theories in their response. And that's the box that's below

20 it. And it's based on the very agreement that's at issue, the

21 Amended and Restated (garbled) LLC Agreement for SE

22 Multifamily. It says, After reviewing the documentation,

23 HCRE, quote, believes the organizational documents relating to

24 SE Multifamily Holdings, LLC improperly allocates the

25 ownership percentages -- so that's the issue -- of the members

1 thereto due to mutual mistake, lack of consideration, and
2 failure of consideration. And these are the legal theories.
3 They claim to reform, rescind, or modify the agreement.
4 Again, not argument, don't accept anything I say, just
5 accept what HCRE says. These are their pleadings. They told
6 the Court that they believed that Highland didn't have a right
7 to its interest in SE Multifamily. They told the Court that
8 they believed the document improperly allocated the
9 percentages. They told the Court that Highland provided no
10 consideration. They told the Court that they had claims for
11 reformation, to rescind the agreement, or to modify the
12 agreement. That's the whole basis for this litigation.
13 If we could go to the next slide. Because let's just look
14 at some very simple terms of the agreement. This is
15 unambiguous. Right? And this is an agreement that's drafted
16 by Highland, by HCRE, all under Mr. Dondero's control.
17 Everybody's rowing in the same direction. The testimony here
18 was consistent, not only among Highland and HCRE witnesses
19 but also, and very, very importantly, BH Equities. Right?
20 We haven't spent a lot of time talking about BH Equities, but
21 that evidence is in the record. BH Equities testified up,
22 down, and sideways that the agreement was consistent with its
23 intent, that it was fully aware that Highland had only put in
24 $49,000, that Highland was getting a 46.0 percent interest.
25 Right?

1 But in addition to BH Equities, Mr. Dondero, and we'll
2 talk about this more in a moment, and Mr. McGraner testified
3 to the same thing. And how could they not? Just look at
4 these provisions. The first box is Schedule A to the
5 agreement. It says, right, in contrast to the $291 million
6 that was credited to HCRE Partners -- they actually didn't
7 put in any of that; that's what the testimony showed --
8 Highland actually put in $49,000. But these are the
9 percentages that they wrote.
10 And Your Honor will recall that in the 48 hours before
11 the document was signed -- this is evidence in the record;
12 I'm sorry I don't have citations to the specific exhibits --
13 but there's a back-and-forth in emails between Freddy Chang,
14 I believe it was, and BH Equities about Schedule A and about
15 the contributions.
16 And so none of this is an accident. And it's not just
17 stated in Section -- ii Schedule A. It's set forth --
18 Highland's interest was set forth in Section 1.7, in Section
19 6.1A, in Section 9.3E, which is the liquidation provision.
20 Right? This was the waterfall in the event of a liquidation.
21 So these are the plain, unambiguous, uncontested terms of the
22 agreement that everybody agreed to when the document was
23 signed.
24 We can go to the next slide.
25 Despite that, Mr. Dondero swore under the penalty of

1 perjury that the proof of claim was true and correct.
2 Remember, the proof of claim said that this really wasn't
3 Highland's interest in SE Multifamily. I don't understand
4 how he could do that, given the plain terms of the agreement.
5 But his testimony was short and precise and unambiguous. It
6 can be found at Pages 55 to 59. It's quoted there -- it's
7 cited there in the footnote. If you just read those four
8 pages, Your Honor.
9 And Your Honor cited to this pretty extensively on Pages
10 4 and 5 of the Court's decision in this matter. I've
11 summarized just some of the Court's findings. It's not the
12 Court's findings; it's Mr. Dondero's admissions. He didn't
13 -- he didn't personally do any due diligence of any kind to
14 make sure that Exhibit A was truthful and accurate before he
15 authorized it to be filed. He filed it.
16 He didn't review or provide comments to the proof of
17 claim or Exhibit A before it was filed. He didn't review the
18 applicable agreements or any documents before signing the
19 proof of claim. He had no idea whose -- where the genesis of
20 the proof of claim was, who at HCRE worked with or who
21 provided information to Bonds Ellis to allow Bonds Ellis to
22 prepare the proof of claim. He had no information about what
23 information was given to Bonds Ellis to formulate the proof
24 of claim. He didn't know whether Bonds Ellis ever
25 communicated with anybody the real estate group regarding the

1 proof of claim.
2 He also testified that he never specifically asked
3 anybody in the real estate group if the proof of claim was
4 truthful and accurate before he authorized it to be filed.
5 He didn't check with any member of the real estate group to
6 see whether or not they believed the proof of claim was
7 truthful and accurate. He failed to -- he admitted he failed
8 to do anything to make sure the proof of claim was truthful
9 and accurate before he authorized his electronic signature to
10 be affixed and have it filed on behalf of HCRE.
11 That's bad faith, Your Honor. You can't rely on some
12 vague process or say 'I'm just relying on others,' because if
13 that's the case, that's what I -- that's we said in our
14 reply, that's the very important person defense, right? He's
15 too busy, he just relies on others, he just signs stuff, and
16 he's got no obligation to do anything. How do you sign
17 something under the penalty of perjury in that milieu?
18 If the Court doesn't grant our motion here, it will be
19 sending a signal that people can sign proofs of claim with no
20 knowledge of the substance of the claim, with no knowledge of
21 whether the claim is valid, with no knowledge as to whether
22 or not the Court should take the time to adjudicate a
23 disputed claim.
24 That's what will happen. Right? That will be the
25 signal, that very important people are absolved of the

1 responsibility of doing basic due diligence before signing a
2 proof of claim.
3 I think the signing of the proof of claim, the filing of
4 the proof of claim, given what we know now, in particular
5 what we know now, is bad faith.
6 And I know that HCRE in their opposition said, oh, well,
7 you know, Mr. McGraner did stuff. I would urge the Court to
8 look at Pages 109 to 112 of the transcript, because Mr.
9 McGraner kind of distanced himself from the proof of claim.
10 He said he didn't authorize it, he didn't approve the filing.
11 He said he never gave any documents to Mr. Sauter. He never
12 discussed the proof of claim with Mr. Dondero or anybody at
13 Bonds Ellis. He didn't provide any comments to the proof of
14 claim. He deferred to counsel. He didn't know if Mr. Sauter
15 gave any documents to Bonds Ellis. He never gave the
16 information to Bonds Ellis. He never discussed it with
17 anybody but D.C. Sauter. Right?
18 So the two people, the only two people who are authorized
19 to act on behalf of HCRE did absolutely nothing to make sure
20 that there was at least a modicum of credibility, at least
21 some basic level of diligence, at least some good-faith basis
22 to assert that this interest that Highland has in SE
23 Multifamily could be subject to challenge. Right? They did
24 nothing.
25 If we can go to the next slide.

1 And then, as Your Honor will recall, they tried to
2 withdraw the proof of claim. Right? That in and of itself
3 we contend was an act of bad faith, and it was an act of bad
4 faith for multiple reasons. There's no dispute that they
5 tried to -- they filed their motion to withdraw the proof of
6 claim immediately after taking Highland's depositions but
7 immediately before I was about to depose their witness. It's
8 a naked attempt to try to procure a patently unfair
9 litigation advantage, particularly in light of the fact that
10 HCRE was simultaneously trying to preserve its claims for
11 another day.
12 If they had just -- and Your Honor made this point at the
13 hearing, right? Just say unequivocally you're done with
14 this. They couldn't do it. They tried to save it for
15 another day.
16 And so the withdrawal of -- a motion to withdraw the
17 proof of claim we're not saying is always bad faith. Look at
18 what I say in the title of this slide. Under these
19 circumstances, when you file it after taking discovery but
20 before subjecting your people to discovery, and when you try
21 to preserve your claims for another day, the Court properly
22 denied that motion for leave to withdraw the proof of claim.
23 And it stunk. And Your Honor I think rightly questioned
24 whether or not this was, you know, a threat to the integrity
25 of the bankruptcy system and the claims process, whether or

1 not this amounted to gamesmanship.
2 But it didn't end there. In closing argument, HCRE
3 persisted with its attempt to try to preserve their claim.
4 This is bad faith. They continued down the exact same path.
5 They told the Court in closing argument at Pages 180 to 181
6 of the transcript, quote, They want you to make findings that
7 we can't raise any of these other issues, decisions, et
8 cetera, going forward. That's not proper on proofs of claim.
9 Going forward. They wanted to preserve this issue for the
10 future.
11 But this issue is their proof of claim. This issue is
12 based on the legal theory set forth in Paragraph 5 of HCRE's
13 response to the objection, the response that says they have
14 claims for rescission, to rescind, to modify the agreement.
15 Right? That's the whole legal theory of it. But they wanted
16 Your Honor to simply say the proof of claim is gone but you
17 all can go pursue another day the legal theories that
18 underlied the entire process.
19 That's (garbled), Your Honor. That's what this is all
20 about, the claims process. You have a claim. You have legal
21 theories on which the claim is based. If your claim is
22 denied or if the objection to the claim is sustained, done.
23 They wouldn't have it. It's why the proof of -- it's why the
24 motion withdraw was denied and why the Court should find that
25 their attempt to preserve these claims for the future is bad

1 faith.
2 And the interesting thing, Your Honor, is this is
3 (chiming) one of the very few rulings in the case that Mr.
4 Dondero didn't appeal. I think even he acknowledges, like,
5 like, this is just not -- that he didn't -- he didn't want
6 this seeing the light of day in the District Court.
7 If we can go to the next slide. And this really
8 amplifies the bad faith in filing the proof of claim. It's
9 the testimony about the nature of the claim. And again, I --
10 we talk about this exhaustively in our papers, and so I
11 haven't cited to everything, but this is just some of the
12 nuggets from, you know, the testimony that's out there.
13 Right?
14 Consideration. Mr. McGraner testified that Highland
15 bankrolled HCRE's business. Your Honor can take judicial
16 notice that Highland loaned millions of dollars to HCRE.
17 Right? Those are part of the Notes Litigation that HCRE is
18 now strenuously trying to avoid repaying in its appeal.
19 Right? They're appealing that to the Fifth Circuit and
20 they're trying -- right? We bankrolled the business, we
21 shouldn't have our interest, and they don't want to pay the
22 money back. It really -- this is *chutzpa*, where I'm from.
23 Right?
24 Going on to the question of consideration -- because,
25 again, this is in Paragraph 5 of the pleading -- there's the

1 admission that HCRE didn't have the financial wherewithal to
2 close on the Key Bank loan by itself and it needed Highland
3 to provide capital -- flexibility by co-signing on the loan.
4 Right? Couldn't have done the deal without Highland, but
5 they want to take the interest away from us. Bankrolled the
6 whole project, but they want to take the deal away from us.
7 They include Highland in order to provide tax benefits,
8 but they want to take the deal away from us. Both Mr.
9 Dondero and Mr. McGraner were very clear that tax benefits
10 was one of the reasons Highland was in this. And if Your
11 Honor will recall, in the closing argument, I pointed Your
12 Honor to just one of the tax returns that showed something
13 like $30-plus million in income was allocated to Highland in
14 order to shelter it from taxes. Right? I don't know that
15 there's anything illegal about it. I take no opinion about
16 it. Right? I have no view on it. But *The Little Engine*
17 *That Could* that put in the $49,000 was suddenly stuck with
18 $31 million of income. I'll wait to hear an explanation as
19 to why Highland was included in the deal and whether taxes
20 were a part of it.
21 Mr. McGraner also testified just --
22 (Audio cuts out.)
23 THE COURT: Okay. What happened?
24 MR. MORRIS: (begins speaking)
25 THE COURT: Okay. Mr. Morris, we lost your sound

1 for about 20 seconds, so if you could kind of repeat the last
2 20 seconds.
3 MR. MORRIS: Sure. So I'll try and summarize. On
4 the consideration piece, they know there was consideration.
5 They pursued a claim based on lack of consideration, but in
6 the first point there's an admission about Highland having
7 both bankrolled the whole operation, and in the second point
8 there's the admission from Mr. McGraner that the deal would
9 never have gotten done without Highland's financial
10 wherewithal. And Mr. Dondero and Mr. McGraner admitted that
11 there were tax benefits. And Your Honor saw those tax
12 benefits, right? In my closing argument, I pointed to just
13 one of the tax returns showing that Highland -- I called it
14 *The Little Engine That Could*, who put in the $49,000, somehow
15 got -- somehow got $31 million of income assigned to it.
16 Right?
17 This was not an accident. Highland was there for tax
18 reasons. Again, I take no view as to the propriety of that
19 at this time, but the notion that there was no consideration
20 is just -- it was ridiculous then, and their admissions show
21 that it was ridiculous.
22 The next bullet point shows Mr. McGraner's admissions
23 that on March 15, 2019, the deadline was approaching to amend
24 the original LLC agreement to admit BH Equities and to have
25 it retroactive to the prior August. He admitted that he

1 reviewed the draft Schedule A, which is what we looked at,
2 right? It showed $49,000 and a 46.06 percent interest for
3 Highland. He saw that it unambiguously showed Highland
4 making a $49,000 contribution, getting the 46.06 percent
5 interest. He believed Schedule A reflected his understanding
6 of the terms between Highland and HCRE, and he knew of no
7 obligation that Highland had to make any future capital
8 contributions. I've cited to all of the testimony very
9 specifically.
10 Mr. McGraner admitted that the allocation of the interest
11 in Schedule A was consistent with the parties' negotiation of
12 the waterfall and other provisions in the amended LLC
13 agreement, that HCRE understood it accurately reflected the
14 parties' intent.
15 How do you (garbled) proof of claim saying you have to
16 reform, rescind, modify the agreement, when all of this is in
17 your head? How do you do that in good faith? They both
18 admitted that Schedule A reflected the parties' intent at the
19 time it was signed.
20 It's the last bullet point that's really the head
21 scratcher. What happened is Mr. Dondero, who also caused
22 Highland to file for bankruptcy, didn't like the consequences
23 of his decision. Nothing happened here, as I said in my
24 closing argument, that doesn't happen in every bankruptcy
25 case. The assets of the Debtor are marshaled for distribution

1 to the creditors. Highland's interest in HCRE is an asset of
2 the estate. HCRE challenged Highland's title to that asset.
3 That's what this litigation is about. And the only reason
4 they challenged the title is because they didn't like the
5 consequences of Mr. Dondero's decision to file Highland for
6 bankruptcy.
7 That's not good faith. If that were good faith, every
8 equity owner of every business would be able to claw back
9 everything they'd given to a company, every loan that they'd
10 given to a company, every -- like, they can't do that. That's
11 not what the law -- there's no basis for that theory.
12 Finally, just deal with the attorneys' fees issues
13 quickly. You know, the challenges to our fees are both petty
14 and baseless, frankly. They said we should have avoided
15 discovery. I don't know how you say that. We shouldn't have
16 taken depositions. They took depositions, and we shouldn't
17 have done that? We should have gone to trial where they had
18 discovery and we didn't? That doesn't make a lot of sense to
19 me, and I can't imagine it would make sense to any objective
20 participant.
21 They claim our legal fees are *per se* excessive. The total
22 legal fee is less than five percent of the value of Highland's
23 interest in SE Multifamily, not according to us but according
24 to Mr. Dondero's family trust, Dugaboy. They told this Court
25 in -- on June 30, 2022, I think, in the very first motion for

1 information, that Highland's interest in SE Multifamily was
2 $20 million. So we spent less than five percent of the value
3 of that to get good, clean title. I don't think that's
4 excessive by any means, particularly with the amount of hoops
5 we were required to jump through.
6 Unidentified timekeepers. They say three people were not
7 identified. It was a *de minimis* amount of money. We've
8 addressed that in the brief.
9 Travel time. You know, again, an even more *de minimis* --
10 I think that's right -- a more *de minimis* amount of money,
11 less than $10,000 for me and Ms. Winograd to go to Dallas. We
12 billed out at half-time. They admit it. And ironically, you
13 know, our compensation for nonworking travel time was part of
14 the agreement that was authorized when Mr. Dondero was still
15 the head of Highland. I don't know how you criticize that
16 today when it's part of Mr. Dondero's own agreement.
17 Finally, they take issue with Mr. Adler's relatively
18 modest invoice. I think he charged $700 an hour. He
19 (garbled) 30 hours or something in August 2022 as we were
20 preparing for depositions. Mr. Dondero and Mr. McGraner have
21 admitted that tax issues were a driving force in including
22 Highland in this. And if you look at the Amended and Restated
23 LLC Agreement in the section that comes after Section A, there
24 is a multipage tax analysis that I can't possibly get my head
25 around. I'm not a tax lawyer. And we needed some help to

1 understand kind of what the tax implications were.
2 I think, under the circumstances, the need for the tax
3 services was completely warranted, and the amounts here are
4 relatively modest to the whole. You know, it's 30-some-odd
5 hours in connection with depositions at a $700 hourly rate,
6 when my firm doesn't provide tax advice.
7 So, you know, Your Honor, I think I'm done. I think
8 there's multiple reasons for finding the bad faith here. This
9 proof of claim should never have been filed. You know, if
10 they wanted to withdraw it, they shouldn't have taken our
11 depositions and they should have given us a clean bill of
12 health without trying to reserve some right to bring future
13 challenges to our title to the asset.
14 And once we got to the trial, it became clear that there's
15 absolutely no basis for the claim, that through the admissions
16 there is no question that the document reflected the intent of
17 parties. Highland provided more than adequate consideration
18 for its interest. It continues to hold its interest today.
19 It continues, you know, to receive its allocation of income.
20 And there's a reason for all of that.
21 And for those reasons, Your Honor, I think the time has
22 come to start holding people to account here. You know, we
23 did it, as I mentioned, with the Rule 11 on the motion for
24 leave to sue us. We were able to get rid of that. I think
25 the Court really needs to try to bring some discipline to this

1 process instead of allowing people -- instead of allowing Mr.
2 Dondero and those working at his direction to just file things
3 irresponsibly, without basis of fact, you know, just -- just
4 because.
5 It's not a thing. You know, that's not what this Court
6 ought to be doing. It's not what I ought to be doing. It's
7 not what I want to be doing, I'll tell you that right now.
8 And so I think there's a real need for a bad faith finding in
9 this particular case. I think there's a real need for there
10 to be consequences of putting the Court and the Reorganized
11 Debtor through this process. Because this -- if Mr. Dondero
12 had only searched his own memory, if he had only asked Mr.
13 McGraner, hey, did the agreement actually reflect the intent
14 of the parties, how could this ever have gotten filed? That's
15 all he had to do, was ask himself the question. All he had to
16 do was ask Mr. McGraner. Right? We wouldn't be here, Your
17 Honor.
18 And for those reasons, we ask the Court to find that this
19 whole filing and prosecution of this claim was in bad faith
20 (chiming), that we should get an award of attorneys' fees.
21 THE COURT: All right.
22 MR. MORRIS: Thank you.
23 THE COURT: A couple of follow-up questions. Thank
24 you. I think you just answered this question with your
25 closing comment, that you think there was bad faith in both

1 the filing and the prosecution.
2 So, as I understand it, the filing of the proof of claim
3 itself you say is bad faith because you say it was a baseless
4 proof of claim, and it was signed without any due diligence on
5 the part of the person who signed it, Mr. Dondero? And then
6 we obviously had months of prosecution, if you will,
7 litigation, after Highland's objection. And then the timing
8 of the withdrawal I would say is kind of a third thing I hear
9 being argued, correct?
10 MR. MORRIS: Yeah. I would just summarize it this
11 way. The filing of the proof of claim itself was bad faith
12 for all of the reasons that I've stated. The motion to
13 withdraw under these circumstances was also bad faith because
14 they did it after taking discovery and tried to protect their
15 own witnesses from discovery while trying to preserve the
16 claims. They wanted to assert them at another day. Counsel
17 said it in his closing. You know, going forward. That's what
18 he said. And then the third thing is the substance. There is
19 no basis to reform the contract. There's, like, there's no
20 factual basis for the claim itself.
21 THE COURT: Okay. And my last question -- famous
22 last words, my last question -- if I were to award attorneys'
23 fees here, I'm looking at sort of a summary page for
24 Pachulski's fees. I'm looking at Docket 2852-6. I think this
25 was an Exhibit F to that motion.

1 So, I always use timelines in my life. While HCRE filed
2 its proof of claim on April 8, 2020, and then Highland
3 objected to it in an omnibus pleading on July 30, 2020,
4 Pachulski has started the clock running, so to speak, August
5 21st. So, to the extent there were fees incurred, looking at
6 this, after the proof of claim was filed, 2020, thereafter I
7 note HCRE filed a response to the objection October 19, 2020,
8 then the move to disqualify Wick Phillips, dah, dah, dah, dah,
9 dah, April 14, 2021.
10 I had understood you weren't billing time for the
11 disqualification motion, but in fact it looks like you're only
12 asking for time starting August 2021, correct?
13 MR. MORRIS: That's right. My intent -- and I think
14 we started the clock then because that's -- you know, we may
15 have filed an omnibus objection, I think we did file, and
16 we're not including time for that. So that's when -- that's
17 when the fees started to become incurred.
18 THE COURT: Okay.
19 MR. MORRIS: And if I made a mistake anywhere, I
20 apologize, Your Honor, but the intent was certainly to
21 include, consistent with Your Honor's prior order, every
22 minute of time that was expended in connection with the
23 disqualification motion.
24 THE COURT: Okay. I just --
25 MR. MORRIS: Okay. I'm reminded, actually, I'm

1 actually reminded that August 7th was also the effective date,
2 so that's probably why we used that date.
3 THE COURT: Okay. Understood. Understood.
4 All right. I think those are all my questions, so I will
5 hear from HCRE, or NexPoint Real Estate, I think they may
6 prefer to be called. Who is making the argument there?
7 THE CLERK: He's on mute, Judge.
8 THE COURT: Okay. You're on mute. Is it Mr.
9 Gameros?
10 THE CLERK: Yes.
11 THE COURT: Okay. Mr. Gameros, you're on mute.
12 MR. GAMEROS: No, I'm not. There we go.
13 THE COURT: Okay. Here we go.
14 MR. GAMEROS: Sorry. Good morning, Your Honor.
15 THE COURT: Good morning.
16 MR. GAMEROS: Bill Gameros for NexPoint Real Estate.
17 I'm going to hopefully show a PowerPoint. Let's see. I just
18 want to make sure that this is showing. Can everyone see it?
19 THE COURT: Not yet.
20 MR. GAMEROS: All right. Nope. How about that? No.
21 THE COURT: We're not here on our court equipment.
22 Do others -- Mr. Morris, do you see it?
23 MR. MORRIS: I do not, Your Honor.
24 THE COURT: Okay.
25 MR. GAMEROS: Let me try it this way. I'm sorry.

1 THE COURT: We do not -- oops, now something is
2 starting to happen. Or was. For a --
3 MR. GAMEROS: How about now?
4 THE COURT: Here we go. Oh.
5 MR. GAMEROS: Is it showing now?
6 THE COURT: Oh, here we go. We have it now, yes.
7 MR. GAMEROS: All right. I'm sorry about that, Your
8 Honor.
9 THE COURT: Okay.
10 MR. GAMEROS: Hate to waste the Court's time.
11 THE COURT: No problem.
12 MR. GAMEROS: All right. We're here in response to
13 HCMLP's motion for a bad faith finding and attorneys' fees.
14 First, what are they asking for? Over $800,000 in fees to
15 defend a singular proof of claim that had for it as actions
16 six short depositions, not lengthy, limited written discovery,
17 and a single-day evidentiary hearing.
18 NREP only has one matter before this Court, the proof of
19 claim. It has discrete ownership. You've already seen that
20 from Mr. Morris's slides. BH Equities. Mr. McGraner actually
21 has a remote interest in it. There are a bunch of folks that
22 have interests in it, so it's a discrete ownership structure.
23 And it's not a vexatious litigant. It didn't appeal when
24 the Court denied and overruled the proof of claim. It hasn't
25 done anything else.

1 It didn't file its claim in bad faith. We're going to go
2 through that with some detail. It's never conducted itself in
3 bad faith in front of this Court in any step in the process.
4 But most importantly today, Your Honor, two things.
5 First, there's not a single case cited in Mr. Morris's slide
6 deck, and it's -- there's none cited for a very simple reason.
7 There is no authority regarding fees for an alleged bad faith
8 proof of claim under 105. We couldn't find it. We looked for
9 it. It hasn't happened. There's no authority for it. He
10 hasn't showed you any, and the authorities that he had showed,
11 there's none in his slide, but we're going to go through them
12 in detail, Your Honor, there's no basis to award attorneys'
13 fees.
14 I think intellectually the Court should look at this as a
15 two-step process. First, is the proof of claim and its
16 prosecution done in bad faith? I think the answer is going to
17 be a resounding no. But if the Court thinks there is a bad
18 faith -- is bad faith activity, the second step is what fees
19 are possibly awardable.
20 First, it's styled as a bad faith finding. You look at
21 when the proof of claim was filed and the process that got
22 there. Your Honor, in our response brief, we provide detailed
23 citations to the trial transcript that says a variety of
24 things, including Bonds Ellis never talked to Mr. Dondero,
25 but, contrary to what Mr. Morris told you this morning, Mr.

1 McGraner did. So there are folks at NREP that were working
2 with Bonds Ellis when they filed the proof of claim.
3 But he did so, candidly, with one of the best bankruptcy
4 -- that NREP filed its proof of claim with one of the best
5 bankruptcy shops in the Metroplex is telling. They wanted to
6 do it, and they wanted to do it right, and they hired very
7 competent counsel to do that.
8 These two cases I think are important. It's not just if
9 there's a mistake in the proof of claim, you don't sanction
10 them. And just beating the proof of claim. Is not enough if
11 they lose. Undenied authority. And I think it's telling
12 here.
13 This Court has seen a lot of litigation on proofs of
14 claim. Objections to all of them, with a host of settlements.
15 That just didn't happen here, but that doesn't make those
16 prior proofs of claim in bad faith, even though they would
17 like you to think that that's true. It's not true and it's
18 not fair. It's also not right.
19 How did they do it? First, they hired Bonds Ellis. And
20 part of that process was Bonds Ellis did the drafting. Mr.
21 Dondero testified as to how he signed it and the basis on
22 which he signed it. Because despite all the derision from
23 HCMLP about the process and not believing in it, the reality
24 is the process exists, it's what happened, it's what was done,
25 and they coordinated with counsel in its filing.

1 Just because it's not enforceable, for whatever reason,
2 doesn't make it sanctionable.
3 What were they trying to accomplish? They did try to
4 reallocate. They wanted a reallocation because HCMLP only put
5 in a tiny amount of capital and it wasn't providing any
6 services.
7 I don't think it's in dispute that the bankruptcy case has
8 been adversarial. I sat through the prior hour this morning.
9 Mr. Morris made reference to it during this particular motion
10 as well. But it also made the amendment impractical. Not in
11 dispute.
12 Importantly, Your Honor, in your opinion disallowing the
13 claim and sustaining HCMLP's objection, you didn't find that
14 it was done in bad faith, and Mr. Morris asked you to do it
15 several times at trial. Quite frankly, Your Honor, this
16 ground has been plowed. We don't need to plow it again. The
17 chance for the bad faith finding was last year. He didn't get
18 what he wanted, so now he's taking a second swing at this
19 particular piñata, and it's not right.
20 But look what happened in the reply brief. These are what
21 are items of bad faith. Bad motive, animus, ill will. That's
22 *Yorkshire*. That's the surreptitious bankruptcy filing.
23 *Brown*. First, not bad faith. What happens in *Brown*, of
24 course, it's a home case, a loan servicer looking to
25 foreclose. And the sanction itself was tiny. Not $800,000.

1 It was a small sanction. And this Court, you, Your Honor,
2 specifically looked at that case in the past.
3 *Page* (phonetic) (garbled). Intentional, deceitful, bad
4 faith, theft. That is not what happened here. Not even
5 close.
6 *Lopez*. They don't discuss *Lopez* again. They never
7 mention it. Why? Because *Lopez* has the 'but for' test in it
8 for fees. But this case, unlike *Lopez*, which had multiple
9 motions to compel, had none.
10 Your Honor, this case had one hearing before the
11 evidentiary trial. A scheduling conference. I'm sorry, it
12 had two. The motion to withdraw, which we believe should have
13 been granted. Your Honor didn't grant it. I understand the
14 Court's ruling. We didn't appeal it. I'm not appealing it
15 right now. But we did try to withdraw the proof of claim.
16 But *Lopez* finds bad faith under 105 for discovery abuse. It
17 doesn't even apply to these facts.
18 So, looking at the Court's inherent powers, it's not a
19 standard fee application under the Code, that matters, but
20 most importantly, they've got to provide a causal link for
21 'but for.' *Lopez* tells you that. *Hagar* in the Supreme Court
22 tells you that.
23 What happens instead at the motion to withdraw, Mr. Morris
24 tells you he wants to win on the merits. The difference in a
25 withdrawn proof of claim and a disallowed proof of claim is

1 zero. There would have been no difference at all. Nothing
2 has changed. Except for the 'but for' causation analysis on
3 fees. They spent over $375,000 to get there.
4 I mentioned it in the reply brief. It's on the slide.
5 The *Johnson* factors. Completely absent from their reply
6 brief. They genuflect at it in the initial motion. But me
7 telling you the *Johnson* factors, Your Honor, is like telling
8 you the standard for summary judgment. You don't want to hear
9 it.
10 However, eight out of twelve *Johnson* factors do not favor
11 this particular fee app. Time and labor required for
12 everything after the withdrawal. Not required.
13 Novelty and difficulty. It's a proof of claim. It's
14 neither novel nor difficult.
15 Preclusion of other employment. There's no evidence of
16 that.
17 The customary fee for work in the community. Candidly,
18 it's against it. Eight hundred grand for fighting a proof of
19 claim is pretty stout.
20 Time limitations. There were none.
21 The amount involved and the results obtained. Candidly,
22 Your Honor, almost twice the fees for the same outcome.
23 Undesirability of the case. No evidence of that.
24 And awards in similar cases. Here, Your Honor, the
25 absence of 105 cases for proofs of claim, there are no

1 comparable awards. And I think that's important.
2 What is the standard you should be using in assessing
3 whether to use your 105 powers? Clear and convincing, Your
4 Honor. Your Honor needs to have a firm belief or conviction
5 that this was done with malice, ill intent, bad faith, et
6 cetera. That's not here.
7 Why do you know that? Mr. McGraner had his deposition
8 taken. He showed up at trial. Mr. Dondero had his
9 deposition. Showed up at trial. At no instance were they
10 running away from testifying. Quite the contrary. They came
11 to court, they answered Mr. Morris's questions, they answered
12 my questions. If Your Honor had questions, they would have
13 answered them, too.
14 They took this very seriously. This wasn't some slapdash
15 proof of claim. They were really trying to get something
16 accomplished.
17 Fees. Your Honor, this is the fee table. I turned it
18 sideways. It's in our response to the motion. I think it's
19 absolutely shocking. The number of hours that were expended
20 and the fees that were expended, the cumulative total -- this
21 is just for selected timekeepers, not everybody -- but I'd
22 point Your Honor to the very bottom, post-motion to withdraw.
23 If they had just said yes, we'll take the win, they wouldn't
24 have had to spend $350,000 for these selected timekeepers,
25 over $375,000 with the rest. That is a clear failure of the

1 'but for' test in *Lopez* and the cases that it cites.

2 So, our conclusion, Your Honor. First, the reply doesn't
3 change anything. They don't give you any new authority or any
4 basis to award sanctions or bad faith analysis, if for no
5 other reason than the record is already closed. You've seen
6 this all before. And when asked repeatedly for a bad faith
7 finding, you didn't give it to them. No bad faith in the
8 filing of the claim.

9 The requested fees are reasonable and necessary. Your
10 Honor, so they flunk the *Johnson* factors. They fail the 'but
11 for' test.

12 Respectfully, Your Honor, their motion should be denied.
13 If it's not going to be denied, we would like an opportunity
14 to file supplemental briefing addressing the new authorities
15 in the reply brief. Your Honor, I don't think we need to go
16 there. I think you should deny it outright.

17 Subject to questions from the Court, that concludes my
18 presentation.

19 THE COURT: All right. A few follow-up questions.
20 In arguing about the size of the potential fees if I get to
21 bad faith, you've had a little bit of a theme of: It was just
22 a proof of claim, it was not difficult, and this was not some
23 "slapdash proof of claim." So you emphasize not reasonable
24 fees for addressing the proof of claim, and you also stress
25 can't find any authority where attorneys' fees have been

1 allowed for having to defend against a proof of claim.
2 Here's what I want you to address. Here is what is going
3 through my brain here. This wasn't a proof of claim where,
4 oops, they actually paid our invoice, we're not really owed
5 this amount, sorry, mistake. It's not a situation where you
6 filed a $105,000 proof of claim and in fact only $97,000 was
7 due and owing. And I just use those as very common examples
8 we see in the Bankruptcy Court.
9 This was, while not a liquidated amount, while not an
10 amount used in the proof of claim, it was basically a
11 multimillion-dollar issue, right? And I don't know if it was
12 a tens-of-millions-of-dollar issue or more than that, but it
13 was a multimillion-dollar issue, right?
14 MR. GAMEROS: Yes, Your Honor, I understand that.
15 THE COURT: I mean, that's stating the obvious,
16 right, because you're saying that Highland wasn't really
17 entitled to a 46-percent-whatever ownership interest in
18 Multifamily, it would be something much, much lower than that.
19 Okay. So I think we had in the record Mr. Dondero says the
20 equity interest is worth $20 million. And we know there was a
21 Key Bank loan of up to $500 million-plus. I mean, the proof
22 of claim seeking reformation was ultimately a many-
23 multimillion-dollar claim, if the theory prevailed, right?
24 MR. GAMEROS: That's right, Your Honor. It could
25 have been.

1 THE COURT: Okay. So, again, assuming I get to the
2 bad faith finding, I mean, shouldn't I look at these fees in
3 that context? I mean, it wasn't just a proof of claim; it was
4 a potentially multimillion dollar hit to the estate, a bundle
5 of value that wouldn't be there for the creditors. Is that
6 fair, or no?
7 MR. GAMEROS: Your Honor, I think it's blending some
8 issues in a way that I don't think are appropriate. I think
9 for analyzing whether or not it's a bad faith filing or bad
10 faith prosecution, you have to look to see ill motive, animus,
11 et cetera, and that's not present here. Instead, --
12 THE COURT: Yes. I'm just saying --
13 MR. GAMEROS: -- you've got Mr. Dondero --
14 THE COURT: I'm just saying assuming I get there.
15 And I totally recognize I've got to look at the overall facts
16 of the filing of the claim, of the prosecution, of the
17 withdrawal. I have to look at all that to see do we have bad
18 faith.
19 But assuming I get there, you've challenged the
20 reasonableness. And it wasn't just some proof of claim. It's
21 a complicated proof of claim, right? It's potentially a multi
22 --
23 MR. GAMEROS: Your Honor, I understand that.
24 THE COURT: Okay, go ahead.
25 MR. GAMEROS: I'm sorry for interrupting, Your Honor.

1 Go ahead.
2 THE COURT: Oh, I'm just saying it was pretty darn
3 complicated, the proof of claim. It wasn't quantified. And
4 even though it wasn't quantified, it was clearly a
5 multimillion dollar claim being asserted at the end of the
6 day, the ownership interest that HCRE was trying to challenge.
7 MR. GAMEROS: That's the position, Your Honor. And
8 they looked at that particular position at the time of filing
9 and said the capital wasn't right, and their response to the
10 objection lays out the different legal arguments. That's
11 exactly what happened.
12 THE COURT: Okay. My next question is I think you're
13 arguing that because I did not specifically find bad faith in
14 my opinion -- I'm in the mood to talk about lengthy opinions
15 today; it was a 39-page opinion, with 127 footnotes,
16 disallowing the proof of claim -- because I did not make a
17 finding of bad faith there, I'm somehow precluded at this
18 juncture. Am I hearing your argument correctly?
19 MR. GAMEROS: Your Honor, I didn't say precluded. I
20 just said we don't need to plow that ground again.
21 THE COURT: Well, --
22 MR. GAMEROS: I think you left the door open for this
23 particular motion.
24 THE COURT: Uh-huh.
25 MR. GAMEROS: And that's what you did in your

1 opinion. And I just think you were asked repeatedly to make a
2 bad faith finding, and at the time when you ruled disallowing
3 the proof of claim, you didn't do it. You didn't say bad
4 faith.
5 THE COURT: Okay.
6 MR. GAMEROS: That's all.
7 THE COURT: Okay. And then I guess my last question
8 is you said if they, Highland, if they had just said yes, take
9 the win, we wouldn't have all these fees. But I really want
10 to drill down. Would that really have been a win, or would it
11 have been a temporary stand-down? I mean, I begged you all to
12 wrap it all up with language in connection with the withdrawal
13 of the proof of claim. You know, agreed you weren't going to
14 raise this issue again. And your client wouldn't let you do
15 that.
16 So is it really fair to say, if they had just said yes and
17 taken the win, we wouldn't have had these fees, when it
18 appeared very likely that it was going to be new litigation in
19 a different forum? What is your response to that?
20 MR. GAMEROS: Your Honor, we're looking back at what
21 happened with hindsight, and I think if we're going to see the
22 maybe-bad we should also see the maybe-good.
23 What's happened, in hindsight? Zero. Nothing. NREP
24 hasn't done anything. Its proof of claim was disallowed last
25 year, and nothing else has happened.

1 I think what really happened at the hearing and the motion
2 to withdraw and what we were hearing from Highland, candidly,
3 is they wanted to put a pin in that's our number forever,
4 can't talk about it, don't want to do that. And the agreement
5 allows for amendment.
6 And that was what we were hung up on. What if we need to
7 amend this thing in the future? We don't want to be stuck
8 with a 46 percent number that we can never get away from. And
9 that was the problem. That was it.
10 THE COURT: All right. Thank you, Mr. Gameros.
11 Any rebuttal, Mr. Morris?
12 MR. GAMEROS: Thank you, Your Honor.
13 MR. MORRIS: I do. I'll be brief. It's exactly a
14 $20 million issue. It's not millions of dollars. It's
15 exactly $20 million. As I like to say, don't take my word for
16 it, take Mr. Dondero's word for it.
17 In Dugaboy's pleading that was filed under seal on June
18 30, 2022, he included his analysis of the value of Highland's
19 assets. I don't want to go through them all, but I'm happy to
20 report that he valued Highland's interest in SE Multifamily in
21 that document that he represented to the Court was worth $20
22 million. So, from our perspective, we were fighting to get
23 good, clean title to a $20 million asset. That's Point #1.
24 Point #2, of course, the Court has inherent power under
25 105 to enter orders of this type. I -- honestly, you know,

1 the cases are what the cases are. So there's never been a
2 case exactly like this. You know what? I've been doing this
3 for a while. I've never seen a proof of claim as baseless as
4 this one.
5 So the whole concept of the 'but for' thing, I'll talk
6 about in a minute, but there's no question that the Court has
7 the power to enter orders of this type, and I don't even think
8 counsel disputes that.
9 I do want to address the notion that we asked the Court
10 repeatedly for a bad faith finding and the Court declined to
11 do it. That's because this Court does its job and does its
12 job well. And I understood Your Honor when you denied it
13 without prejudice. It was telling. And apparently counsel
14 got the signal, too, that you want to make sure that, before
15 you enter an order of that type, that HCRE has due process.
16 And that's why it's denied without prejudice. Because I was
17 raising the issue for the first time at the podium, and you
18 reluctantly, properly, prudently decided that probably isn't
19 fair. And so you wanted to make sure that this thing was
20 fully briefed. And it's been briefed, and that's why we're
21 here today, not because you made a decision back in November
22 of 2022 that there was no bad faith, but simply that you
23 wanted to make sure that HCRE had a full opportunity to
24 address the charge.
25 Getting to the 'but for' issue. But for the filing of,

1 frankly, a fraudulent, baseless proof of claim, Highland would
2 have more than $800,000 in its pocket today.
3 But for the filing of a motion to withdraw that sought an
4 unfair litigation advantage while trying to preserve for the
5 future more challenges to Highland's clear and good title to
6 this asset, Highland would have more money in its pocket.
7 But for the conduct of a trial, the taking of depositions,
8 and all of the rest of it, we wouldn't be here today.
9 Highland would have more than $800,000 in its pocket.
10 The notion that we should have taken the win, frankly, is
11 offensive. That we should have just allowed them. He wants
12 the benefit of the $300,000 on the theory that we should have
13 allowed him to take our depositions, not take their
14 depositions, and fight another day. I just -- I'm speechless.
15 I'll just leave it at that. The argument speaks for itself.
16 No motive? They had no motive here? They don't have ill
17 will? They showed up at the hearing? Goodness, I hope that
18 doesn't absolve them from filing a proof of claim with no
19 basis in fact or law. Of course they showed up at the
20 hearing. They would have been in contempt of court at that
21 point had they not.
22 The only reason, apparently, they filed the proof of claim
23 is because they didn't like the unintended consequences of the
24 Highland bankruptcy that Mr. Dondero filed. In what world, in
25 what courtroom, under what law, is that a good faith basis for

1 pursuing a proof of claim, because you don't like the
2 unintended consequences of your own decisions? That's bad
3 motive right there. To try to deny a debtor a $20 million
4 asset because you didn't like the way it turned out.
5 Mr. Dondero, Mr. McGraner, HCRE were perfectly happy for
6 Highland to have a 46.06 percent interest in exchange for a
7 $49,000 contribution right up until the day they filed that
8 proof of claim. Maybe until the day they filed for
9 bankruptcy. I didn't ask that particular question.
10 It's not good faith to come to this Court, to file a proof
11 of claim, to go through all of this, because you don't like
12 the consequences of your own decision.
13 The Court really needs to ask itself whether or not it
14 wants to sanction this. Whether it wants to allow litigants,
15 claimants, to file proofs of claim with no due diligence, no
16 basis in fact, no basis in law. I don't think the Court
17 should do that. I think the bad faith finding is easy,
18 frankly.
19 And with respect to our legal fees, they are what they
20 are. The notion that this was overstaffed is kind of crazy.
21 It was me, Ms. Winograd, and Ms. Cantey. We billed, the three
22 of us, more than 82 percent of the total fee. And if you take
23 out Mr. Adler, it's probably close to if not in excess of 90
24 percent of it. It is what it is.
25 My rates are higher than some of the attorneys Mr. Dondero

1 hires. It is what it is. He knew about that when he hired
2 us. They're market rates. Clients from east coast to west
3 coast, from north to south, pay those rates every day, with
4 bankruptcy court approval. I'm sorry if he doesn't like to
5 pay those kinds of rates at this point in time, but they are
6 what they are and my client is entitled to get reimbursed for
7 this bad faith conduct.
8 I have nothing further, Your Honor.
9 THE COURT: Okay. Thank you.
10 Well, no surprise, we'll take this under advisement and
11 issue a written opinion and order.
12 No surprise, I'm going to say like I always say, we'll get
13 to this as soon as our calendar will allow, but I'm not going
14 to promise a date on that.
15 Obviously, I'm going to be refreshing my memory, going
16 back and studying the memorandum opinion and order I issued
17 sustaining Highland's objection to this proof of claim and
18 going back and looking at the transcript from that hearing
19 that was submitted.
20 And I say this a lot, that timelines matter a heck of a
21 lot to me and they reveal a heck of a lot. And I will be
22 studying the timeline here and considering its significance.
23 Some of the important facts that will matter here are that
24 the HCRE proof of claim, again, was filed timely in this case.
25 April 8, 2020. It was signed by Mr. Dondero as the

1 representative of HCRE.
2 The evidence I do remember is that Mr. Dondero was
3 president and sole manager of HCRE and he had signed the
4 limited liability agreement for SE Multifamily Holdings, I
5 think is the name of the entity. He had signed the agreement
6 for both Highland and HCRE. There was an original LLC
7 agreement and there was also an amended LLC agreement.
8 And again, I always think timelines -- again, I've said it
9 a million times -- are very revealing. This was not a very
10 ancient transaction, a very old transaction, in the Highland
11 universe. The evidence I saw -- and again, I always create a
12 timeline -- was that it was actually August 23, 2018 that this
13 SE Multifamily entity was created, and then it was sometime
14 early first quarter of 2019 where there was an amendment of
15 the LLC agreement that brought in the BH entity and its six
16 percent interest. And then, of course, it was October 2019
17 when the bankruptcy was filed.
18 Again, why am I mentioning this? I'm mentioning it
19 because this was fairly recent in Highland history that this
20 whole SE Multifamily transaction, Project Unicorn, was done.
21 And that matters to me because I would think memories should
22 have been fresh relative to a lot of other things we've looked
23 at during this case. And so that really is weighing on my
24 brain here with regard to the bad faith possibility on the
25 filing of the proof of claim and the prosecution. It, in my

1 view, could have been a quick process, doing the due diligence
2 and assembling, you know, is there a good faith basis for this
3 proof of claim or not. And that concerns me. That concerns
4 me.
5 It, as I recall hearing the evidence, looked like, oh my
6 goodness, look at the consequences now of this bankruptcy, and
7 Highland falling out of the status of being a friendly partner
8 with HCRE. We don't like this. We don't like this and we
9 want to change this.
10 So, again, I'm sort of thinking out loud here. I'm sort
11 of revealing where I'm leaning right now. It seems like this
12 was a recent-enough transaction where someone could have
13 assembled information pretty quickly and figured out if there
14 was any basis to argue reformation.
15 And I never did have a clear idea why they would pack up
16 their marbles and want to go home if there was some evidence.
17 And again, the Bankruptcy Rules require the Court to enter an
18 order whether withdrawal should be permitted or not. I very
19 much wanted this to go away, and then there wasn't --
20 wordsmithing could not come up with a sentence everyone would
21 agree on to make it go away.
22 So I will, again, be drilling down on the evidence here as
23 to whether we have bad faith, but that's some of the timeline
24 and evidence I'm going to be drilling down on here.
25 I think *The Little Engine That Could* was the phrase Mr.

1 Morris argued. I remember very well the evidence was that
2 Highland put in $49,000 to get its membership interest in SE
3 Multifamily Holdings, but I already heard that it was required
4 ultimately to be a cosigner on a $500 million loan from Key
5 Bank. It provided resources, at least until some point during
6 the bankruptcy, to SE Multifamily. And again, the tax benefit
7 of absorbing the income from the entity, which, again, it's
8 nothing to sneeze at here.
9 All of that I think was addressed pretty thoroughly in my
10 earlier opinion, but again, I'm going to go back and look at
11 it and the evidence and give you a thorough ruling one way or
12 another on the indicia of bad faith as well as the
13 reasonableness of fee-shifting.
14 All right. It sounds like I'm going to see you on
15 February 14th, or some of you, and so I shall see you then.
16 We're adjourned.
17 THE CLERK: All rise.
18 MR. GAMEROS: Your Honor?
19 THE COURT: I'm sorry?
20 MR. GAMEROS: Your Honor?
21 THE COURT: Yes.
22 MR. GAMEROS: Yeah, I'm sorry. I did ask, if you
23 weren't going to deny it outright, if I could file a brief
24 surreply. Is that allowed?
25 THE COURT: No. I've got enough on briefing on this.

1 Thank you.

2 MR. GAMEROS: All right. Thank you.

DALLAS DIVISION**

In re: HIGHLAND CAPITAL MANAGEMENT, L.P., Reorganized Debtor.	Chapter 11 Case No. 19-34054-sgj11

PSZJ'S AMENDED OPPOSITION TO MOTION OF JAMES D. DONDERO AND STRAND ADVISORS, INC. FOR LEAVE TO FILE ADVERSARY COMPLAINT [DOCKET NO. 3981]

Pachulski Stang Ziehl & Jones LLP ("**PSZJ**"), restructuring counsel to Highland Capital Management, L.P., the reorganized debtor in this chapter 11 case ("**Highland**"), files this opposition (the "**Opposition**") to the *Motion of James D. Dondero and Strand Advisors, Inc. for Leave to File Adversary Complaint* [Docket No. 3981] (the "**Motion for Leave**"). The Motion for Leave should be denied for the reasons stated below.

ABA Model Code of Professional Responsibility 26

I. INTRODUCTION[1]

1. In the latest chapter of their ongoing campaign to interfere with Highland's reorganization plan and harass their adversaries by initiating frivolous litigation, James Dondero and Strand Advisors, Inc. (together, "**Movants**") seek leave under the "gatekeeper" provision of the *Fifth Amended Plan of Reorganization of Highland Capital Management, L.P. (as Modified)* (the "**Plan**") to commence an adversary proceeding against PSZJ by filing the complaint attached to the Motion for Leave (the "**Proposed Complaint**"). The Proposed Complaint contains a single count of breach of fiduciary duty. That claim is based entirely on the allegation that PSZJ began representing Movants in September 2019 at the same time PSZJ commenced representing Highland as its restructuring counsel and that PSZJ violated its fiduciary duty to the Movants by fulfilling its fiduciary duty to the estate. Movants' newly-manufactured allegation that they had an attorney-client relationship—asserted essentially for the first time more than four years after PSZJ began representing Highland—is a frivolous fabrication, is being made to harass PSZJ and interfere with Highland's reorganization; and lacks any evidentiary support.[2]

2. The indisputable evidence conclusively establishes that PSZJ has always represented Highland alone, and never Mr. Dondero or Strand. Such evidence includes, among other things, (a) PSZJ's written Retention Agreement with Highland (as contrasted against the absence of any agreement with either Movant) and Employment Application under Bankruptcy Code § 327(a) and Bankruptcy Rule 2014, and (b) Movants' years-long silence about PSZJ's

---

[1] Capitalized terms used but not defined in this Introduction have the meanings given to them below.

[2] Contemporaneously with the filing of this Opposition, PSZJ served a letter and draft motion under Bankruptcy Rule 9011(c) to Movants and their counsel demanding the withdrawal of the Motion for Leave for violating Bankruptcy Rule 9011(b)(1)–(3). If the Motion for Leave is not withdrawn, PSZJ will move for sanctions against Movants and their counsel under Bankruptcy Rule 9011(c).

supposed representation of them despite dozens of matters in which PSZJ represented Highland adversely to them.[3]

3. Movants' factual allegations are a recent invention and will never be corroborated by competent or credible evidence. Movants allege that PSZJ advised them (or Highland) that Highland could easily restructure its affairs in chapter 11 and emerge quickly with its business, operations, and corporate governance intact. In fact, the indisputable documentary evidence establishes that ***PSZJ provided the exact opposite advice***. Before the Petition Date, PSZJ advised Highland, in writing, of certain material risks associated with a chapter 11 filing, including that (a) Highland's "existing management could be replaced or its authority could be modified or limited" through the appointment of a chapter 11 trustee or conversion of the case to one under chapter 7 and (b) Highland's "choice of venue in Delaware could be rejected in favor of a transfer of venue to Dallas, Texas." Movants' related argument that they would have remained in control had PSZJ not recommended to Highland the corporate governance settlement is false. The indisputable record shows that if Highland and the Committee had not agreed to the Independent Board, the Court would have appointed a chapter 11 trustee divesting Movants of their control positions with Highland.

4. Beyond lacking any evidentiary support, Movant's claim is frivolous as a matter of law for several reasons. First, Movants waived their claim that they had an attorney-client relationship with PSZJ and that PSZJ had a conflict of interest by failing to raise it until now.

[3] Particularly damning are four separate letters (one of which was sent by Movants' counsel just three months ago) sent over a two-year period to the Executive Office of the United States Trustee (the "**EOUST**") on Mr. Dondero's behalf, each of which (a) included a laundry list of serious but false allegations against Highland and its fiduciaries, but (b) excluded any allegation that PSZJ (i) violated Bankruptcy §327(a) and Bankruptcy Rule 2014 by failing to disclose its alleged attorney-client relationships with Mr. Dondero and Strand, or (ii) breached its fiduciary duty to the Movants by fulfilling its fiduciary duty to Highland. Indeed, contrary to the allegations in the Proposed Complaint, Movants' counsel told the EOUST that Mr. Dondero retained PSZJ to "file a Chapter 11 bankruptcy petition on Highland's behalf." *See* ¶¶ 28–31 below.

Despite having every incentive to do so, they did not raise their claim when Highland filed its application to retain PSZJ, which attested to PSZJ's disinterestedness; they did not raise their claim in any of the dozens of contested matters, adversary proceedings, and appeals in which PSZJ was adverse to them; and they did not raise their claim in any of the four letters sent to the EOUST. Movants will never be able to credibly explain why they waited until December 2023 to seek authority to file an action alleging that PSZJ served as their counsel in late 2019 and early 2020, and never previously sought relief despite PSZJ's representation of Highland in matters adverse to them *for years*. In fact, Movants' utter failure to seek relief until now proves that the claim is fabricated and is being pursued in bad faith.

5. Second, Movants' claim is barred by the two-year statute of limitations applicable to malpractice actions. Movants' attempt to repackage their purported malpractice claim as a breach of fiduciary duty claim to avoid the running of the statute of limitations fails as a matter of law.

6. Third, Movants' claim is barred by *res judicata*. Movants' prayer for relief seeks to compel PSZJ to disgorge fees received from Highland under this Court's order approving those fees on a final basis. Movants should have raised their claim that PSZJ represented them and was not disinterested during the final fee application process; if proven, that claim would most certainly have affected the Court's final compensation order. They remained silent on that issue, even as their affiliates objected to PSZJ's final fee application on other, unrelated grounds.

This Court has previously held that, for purposes of determining whether a claim is "colorable" under the "gatekeeper" provision, the putative claimant must make "a prima facie case that is proposed claims are ***not without foundation***, are ***not without merit***, and are ***not being***

***pursued for any improper purpose such as harassment*.**"[4] Because Movants cannot possibly satisfy that standard, the Court should deny the Motion.

II. STATEMENT OF FACTS

7. Movants' contention that they retained PSZJ to provide them individually with legal advice in September 2019 when Highland retained PSZJ is a recent fabrication contradicted by considerable documentary evidence and Movants' own consistent, four-year course of conduct. The facts below are indisputable.

A. Highland's Prepetition Retention of PSZJ

8. On September 29, 2019, Highland contacted PSZJ regarding a potential chapter 11 filing to forestall the confirmation of an arbitration award in Redeemer's favor. PSZJ prepared a *Retention Agreement* and exchanged drafts with Isaac Leventon, Highland's Assistant General Counsel.[5] The *Retention Agreement* provides, among other things:

> Based on the information, [*sic*] the Firm has received to date, it is not aware of any current or past relationship with another party interested in the subject matter of this representation that would constitute a conflict of interest, nor does the Firm itself have an interest in the subject matter of the representation …. The Firm will utilize the list to comply with the applicable provisions of the Bankruptcy Code and Bankruptcy Rules to be sure that the firm is 'disinterested' and is in a position to make all required disclosures to a Bankruptcy Court. … The Firm is being engaged by the Client, being the individual(s), entity or entities for which appear below signature blocks (other than the signature block for the Firm). **Unless reflected by a separate agreement, the Firm's representation of the Client does not include the representation of others, including individual officers, directors, partners, shareholders or employees of the Client**.…

[4] Docket No. 3903 at 91 (emphasis in original).

[5] Mr. Leventon provided written comments to the draft Retention Agreement.

Exhibit 1 at 6-7 (emphasis added).[6] On October 1, 2019, Scott Ellington, a licensed, practicing lawyer and Highland's General Counsel, signed the *Retention Agreement* on Highland's behalf in his capacity as the Secretary of Strand, Highland's general partner:

T. Effective Date.

This Agreement will govern all legal services performed by the Firm on behalf of Client commencing with the date the Firm first performed services. The date at the beginning of this Agreement is for reference only. Even if this Agreement does not take effect, Client will be obligated to pay the Firm the reasonable value of any services the Firm may have performed for Client.

THE PARTIES HAVE READ AND UNDERSTOOD THE FOREGOING TERMS AND AGREE TO THEM AS OF THE DATE THE FIRM FIRST PROVIDED SERVICES. IF MORE THAN ONE CLIENT SIGNS BELOW, EACH AGREES TO BE LIABLE, JOINTLY AND SEVERALLY, FOR ALL OBLIGATIONS UNDER THIS AGREEMENT.

CLIENT SHOULD SEEK INDEPENDENT COUNSEL TO ADVISE IT CONCERNING THIS AGREEMENT.

Dated: October 1, 2019

By: Strand Advisor, Inc., general partner
By: Scott Ellington, Secretary

Highland and PSZJ are the only signatories to the *Retention Agreement* and Highland funded a $500,000 retainer to PSZJ for its representation of Highland.[7] No "separate agreement" between PSZJ and any other person or entity concerning Highland's contemplated bankruptcy filing was ever contemplated, discussed, drafted, or executed.

9. If Mr. Ellington believed or was informed that PSZJ also represented Strand and Mr. Dondero, it is inconceivable that he would have signed an agreement indicating unequivocally

[6] Citations to "Exhibits __" refer to the exhibits attached to the *Declaration of Hayley R. Winograd in Support of PSZJ's Opposition to Motion of James D. Dondero and Strand Advisors, Inc. for Leave to File Adversary Complaint,* filed contemporaneously with this Opposition.

[7] Highland asked PSZJ whether entities other than Highland could contribute to the retainer being requested by PSZJ. PSZJ unequivocally told Highland that the full retainer needed to come from Highland and not any affiliated entities.

that PSZJ's only client was Highland. It is also inconceivable that neither Mr. Ellington nor Mr. Leventon, in their capacities as Highland's General and Assistant General Counsel, respectively, would have failed to review the *Retention Agreement* with Mr. Dondero, Highland's president, or inform him of the substance of that document.

10. There is no retention agreement between PSZJ and Mr. Dondero or between PSZJ and Strand. There is no document or written communication that establishes, reflects, or even refers to an attorney-client relationship between PSZJ and either Mr. Dondero or Strand. Nor is it alleged that Mr. Dondero or Strand ever paid PSZJ a penny—PSZJ was paid entirely by its sole client in this matter, Highland.[8] And there will never be any evidence that PSZJ believed that it was entering into an attorney-client relationship with any entity or individual other than Highland. Movants haven't even alleged that such evidence exists.

B. PSZJ Advises Highland of Significant Risks a Chapter 11 Filing Would Entail

11. Movants' theory of the case is that PSZJ advised them to file chapter 11 to resolve the claim of Redeemer and that the chapter 11 would ensure that Movants would retain control of Highland. The reality is that PSZJ advised Highland to try to settle with Redeemer to *avoid* chapter 11. On October 2, 2019, PSZJ provided Highland with a memorandum (the "**October 2 Memo**") that warned Highland of potential adverse consequences a chapter 11 filing might have on Highland's business and operations, and on Movants' ability to retain control of Highland. **Exhibit 2**. The contents and significance of the October 2 Memo are discussed further below.

[8] There will be no evidence that PSZJ ever rendered an invoice to Mr. Dondero or Strand or that either of them ever compensated PSZJ for services allegedly rendered.

C. Highland Commences Its Chapter 11 Case and Files an Application to Employ PSZJ as General Restructuring Counsel

12. On October 16, 2019 (the "**Petition Date**"), Highland filed its voluntary chapter 11 petition in the Bankruptcy Court for the District of Delaware (the "**Delaware Bankruptcy Court**"). **Exhibit 3**. Mr. Dondero signed the petition (under penalty of perjury) on Highland's behalf in his capacity as President of Strand, Highland's general partner.[9]

13. On December 4, 2019, the Delaware Bankruptcy Court entered an order transferring venue of Highland's chapter 11 case to this Court.

14. Before the chapter 11 case was transferred to this Court, Highland filed the *Debtor's Application Pursuant to Section 327(a) of the Bankruptcy Code, Rule 2014 of the Federal Rules of Bankruptcy Procedure and Local Rule 2014-1 for Authorization to Employ and Retain Pachulski Stang Ziehl & Jones LLP as Counsel for the Debtors and Debtors in Possession Nunc Pro Tunc to the Petition Date* [Docket No. 70] (the "**Employment Application**"). **Exhibit 4**. The Employment Application specifically represented:

> ***PSZ&J has not represented the Debtor [sic], its creditors, equity security holders, or any other parties in interest, or its respective attorneys, in any matter relating to the Debtor or its estate.*** Further, to the best of the Debtor's knowledge, PSZ&J does not hold or represent any interest adverse to the Debtor's estate, PSZ&J is a "disinterested person" as that phrase is defined in section 101(14) of the Bankruptcy Code ….[10]

15. The Employment Application was signed on Highland's behalf by Frank Waterhouse, Highland's Chief Financial Officer, in his capacity as the Treasurer of Strand, Highland's general partner. [11] Movants did not challenge, oppose, or question the accuracy of these

---

[9] Docket No. 3 at 4.

[10] Docket No. 70 at 5-6 (emphasis added).

[11] The Employment Application and the Bankruptcy Court's order approving the Employment Application were each served on Strand. Docket No. 70 at 28 and Docket No. 185, respectively. These documents were also served on The Dugaboy Investment Trust and Hunter Mountain Investment Trust, entities controlled by Mr. Dondero. *Id*.

representations. Movants' failure to do so is inconceivable if Movants believed that PSZJ also represented Movants.

16. Nor did Movants ever challenge or raise any concern regarding the three verified statements Jeffrey Pomerantz filed with the Bankruptcy Court under Bankruptcy Rule 2014 in support of the Employment Application (on October 29, 2019, on November 26, 2019, and on March 22, 2021, collectively, the "**Pomerantz Statements**"),[12] each of which affirmatively represented that PSZJ was "disinterested" and that PSZJ has never represented any Highland affiliate, officer, equity holder, partner, or subsidiary. **Exhibit 5**. Movants never raised the issue of their supposed attorney-client relationship with PSZJ or PSZJ's alleged "conflict of interest" until now, more than four years after the first Pomerantz Statement was filed.

D. Mr. Dondero Agrees to Cede Control of Highland to the Independent Board to Avoid the Appointment of a Chapter 11 Trustee

17. Because of significant misgivings about Mr. Dondero's ability to function as an estate fiduciary, Highland's official committee of unsecured creditors (the "**Committee**") and the U.S. Trustee both threatened to seek appointment of a chapter 11 trustee to manage Highland's bankruptcy case. To avoid appointment of a trustee, Mr. Dondero and Highland entered into an agreement with the Committee that: (a) removed Mr. Dondero from all managerial control positions at Highland; (b) appointed an independent board (the "**Independent Board**") at Strand to manage the chapter 11 case; and (c) implemented operating protocols that, among other things,

[12] Mr. Pomerantz has led PSZJ's engagement by Highland since it began. The first Pomerantz Statement was included in the Employment Application and was served on Strand and other Dondero-related entities. *See* n. 11 above. The second Pomerantz Statement was also served on Strand and other Dondero-related entities. *See* Docket No. 178 at 26 and 30. The third Pomerantz Statement [Docket No. 2079] was served on Mr. Dondero (through his counsel, Bonds Ellis) and other Dondero-related individuals and entities, including Scott Ellington and Isaac Leventon (each of whom was terminated by Highland for cause and was fully aligned with Mr. Dondero), The Dugaboy Investment Trust, Hunter Mountain Investment Trust, Highland Capital Management Advisors, L.P., and NexPoint Advisors, L.P. *See* Docket No. 2125.

generally required Committee approval of most asset sales or transfers. The Bankruptcy Court approved the settlement on January 9, 2020.[13]

18. Not satisfied, the U.S. Trustee continued to press its motion for the appointment of a chapter 11 trustee.[14] On January 21, 2020, following an evidentiary hearing, the Bankruptcy Court denied the U.S. Trustee's motion precisely because Mr. Dondero had already ceded all control positions to the Independent Board as part of the corporate governance settlement.[15]

E. Mr. Dondero Retains Bonds Ellis as His Personal Counsel

19. On March 6, 2020, Mr. Dondero's personal bankruptcy counsel, Bonds Ellis Eppich Schafrer Jones LLP ("**Bonds Ellis**"), filed a notice of appearance noting "their representation of Mr. James Dondero in the above styled and numbered cause …." **Exhibit 7**. Presumably, Mr. Dondero would have had no need to retain Bonds Ellis if PSZJ was his counsel in Highland's bankruptcy case, as he now alleges.[16] Neither Bonds Ellis nor Mr. Dondero ever

---

[13] Docket No. 339.

[14] Docket No. 271.

[15] At the hearing on January 21, 2020, the Court said:

> The U.S. Trustee relies on the strict wording that, quote, The Court shall order the appointment of a trustee for cause, including fraud, dishonesty, incompetence, or gross [mis]management of the affairs of the debtor by current management, either before or after the commencement of the case, or similar cause. The Court believes this statutory provision is aimed at problems or malfeasance with current management. All of this has been fixed. It's a very different scenario than when this case was filed…. Again, this was a complete overhaul. The facts and timing are such today that Mr. Dondero is no longer current management. Current management are the words used in Section 1104…. A new board and new management are not only a pragmatic solution, but this Court concludes are totally within the parameters and the provisions and overall structure of Chapter 11…. ***I approved the new governance structure pursuant to Sections 363 and 105, and now we don't have the cause that 1104 refers to***.

Transcript of Proceedings Before the Honorable Stacey G.C. Jernigan, United States Bankruptcy Judge, January 21, 2020, *In re Highland Capital Management, L.P.,* Case No. 19-34054-sgj-11 (**Exhibit 6**) at 115:3 – 116:19 (emphasis added). *See also* the Court's order confirming the Plan, Docket No. 1943 at 13 ("Suffice it to say the settlement and ***the appointment of the independent directors changed the entire trajectory of the case and saved the Debtor from the appointment of a trustee***.") (emphasis added).

[16] Had Mr. Dondero actually believed that PSZJ was his counsel before then, he would have discharged PSZJ when he engaged Bonds Ellis. Of course, Mr. Dondero did nothing of the kind precisely because there was no attorney-client relationship to discharge.

informed PSZJ (or anyone else) that Bonds Ellis was substituting in as counsel for Mr. Dondero. Neither Bonds Ellis nor Mr. Dondero ever asked PSZJ to turn over Mr. Dondero's client files. Neither Bonds Ellis (a firm of bankruptcy experts who presumably know what "disinterested" means in the Bankruptcy Code) nor Mr. Dondero informed PSZJ that it could not continue to represent Highland because a conflict of interest supposedly existed.[17]

20. Mr. Dondero relied on his own counsel to advance his personal interests in the chapter 11 case.[18] Mr. Dondero had his own counsel in the nearly countless array of litigations where Highland (represented by PSZJ) and Mr. Dondero were directly adverse to one another. Never—not once over the course of more than four years—did Mr. Dondero or Strand raise a concern about PSZJ's representing Highland in matters adverse to Movants and their affiliates, let alone seek to disqualify PSZJ from doing so on the ground that PSZJ previously represented Movants. To offer but a few of the more notable examples:

a. On January 7, 2021, Highland, represented by PSZJ, moved to hold Mr. Dondero in contempt of court for violating the Court's temporary restraining order entered in Adv. Proc. No. 20-03190-sgj; on June 7, 2021, following an evidentiary hearing during which PSZJ vigorously cross-examined Mr. Dondero, the Court held Mr. Dondero in contempt of court [Adv.

[17] This is not the first time Mr. Dondero has attacked lawyers when he didn't get what he wanted. *See James Dondero vs. Bonds Ellis Eppich Schafer Jones LLP, et al.*, Docket No. DC-22-08142 (Tex. Dist. Ct. July 15, 2022) (a suit for alleged malpractice). Parsons McEntire McCleary PLLC commenced that suit on Mr. Dondero's behalf. Significantly, the complaint in that lawsuit (**Exhibit 8**) includes a litany of items Mr. Dondero alleges Bonds Ellis failed to raise, yet the complaint is devoid of any mention of Bonds Ellis having failed to raise the issue of PSZJ suffering from some sort of conflict of interest or having committed malpractice. On information and belief, Mr. Dondero and entities controlled by him have entered into tolling agreements with other law firms with respect to alleged malpractice claims they threatened to pursue.

[18] After the unfortunate passing of former bankruptcy judge D. Michael Lynn, Mr. Dondero retained new counsel to represent him in the chapter 11 case, Stinson LLP ("**Stinson**"). Like Bonds Ellis, Stinson never raised PSZJ's alleged conflict of interest or breach of fiduciary duty, nor, until now, did any of the other myriad law firms representing Mr. Dondero's interests.

Proc. Docket No. 190]. Bonds Ellis represented Mr. Dondero in these proceedings but never raised any "conflict of interest" issue concerning PSZJ's supposed representation of Mr. Dondero.

b. On April 27, 2021, Highland, represented by PSZJ, moved to hold Mr. Dondero and others in contempt of court for violating the "gatekeeper" orders; on August 4, 2021, following an evidentiary hearing during which PSZJ vigorously cross-examined Mr. Dondero, the Court held Mr. Dondero and others in contempt of court [Docket No. 2660]. Bonds Ellis represented Mr. Dondero in these proceedings but never raised any "conflict of interest" issue concerning PSZJ's supposed representation of Mr. Dondero.

c. In January 2021, Highland, represented by PSZJ, commenced five related adversary proceedings seeking to collect over $60 million of demand promissory notes owed by Mr. Dondero and four of his entities. In December 2021, Highland moved for partial summary judgment and, following argument in April 2022, the Court recommended partial summary judgment in Highland's favor, ruling that Mr. Dondero's alleged "oral agreement" defense couldn't pass the "straight-face test," citing "a complete lack of evidence" supporting it. Stinson represented Mr. Dondero in these proceedings but never raised any "conflict of interest" issue concerning PSZJ's supposed representation of Mr. Dondero.

d. On March 31, 2021, after Highland discovered that former employees under Mr. Dondero's direction caused certain of Highland's controlled entities to fraudulently transfer some $300 million in face amount of cash and securities to avoid UBS's judgment before the Petition Date, UBS filed an adversary complaint seeking a restraining order against Highland. Following discovery,[19] Highland, represented by PSZJ, consented to a permanent injunction the

[19] During discovery, Highland learned, among other things, that Mr. Dondero secretly used a Cayman Islands entity to indemnify six Highland employees in June 2020 while Highland's bankruptcy case was pending.

Court granted on August 23, 2022, following a hearing during which the Court said it would assess the evidence to determine whether a criminal referral of Mr. Dondero, among others, was warranted. Mr. Dondero participated in discovery, was aware of the damaging evidence being marshalled against him, but never raised any "conflict of interest" issue concerning PSZJ's supposed representation of him.

e. In January 2021, Dondero-controlled entities referred to as the "Advisors" filed an application for allowance of an approximately $14 million administrative expense claim. The Dondero entities were represented by Munsch Hardt Kopf & Harr, P.C. ("**Munsch Hardt**"). Highland responded with a countervailing breach of contract claim against the Advisors. After a two-day trial during which PSZJ vigorously examined Mr. Dondero on Highland's behalf,[20] the Court granted Highland's breach of contract claim and denied the Advisors' administrative expense claim. Again, no "conflict of interest" issue was raised concerning PSZJ's supposed representation of Mr. Dondero.

f. The highly litigious proceedings concerning confirmation of the Plan—which permanently extinguished the roles of Mr. Dondero and his affiliates in Highland—could not have been more adverse to Movants' interests. Yet at no time during the confirmation proceedings and trial—during which Mr. Dondero and numerous other entities he controlled objected to confirmation on so many grounds that the Fifth Circuit Court of Appeals characterized their arguments as a "bankruptcy-law blunderbuss"[21]—did either Movant ever raise the issue of a

[20] During cross-examination, Mr. Dondero was forced to admit that, in the spring of 2020, after having supposedly ceded control of Highland, he paid $10 million to certain then-Highland employees without disclosing those payments to the Independent Board or this Court.

[21] *NexPoint Advisors, L.P. v. Highland Cap. Mgmt., L.P. (In re Highland Cap. Mgmt., L.P.),* 48 F.4th 419, 432 (5th Cir. 2022).

conflict of interest or breach of fiduciary duty on PSZJ's part.[22] If there was ever a conflict on PSZJ's part, one would certainly have expected Movants and their phalanx of attorneys to raise that issue then. They did not—thereby corroborating the fact that there was no issue to raise.

g. In March 2023, Highland, the Claimant Trust, Mr. Seery, and others opposed a motion brought by Hunter Mountain Investment Trust ("**HMIT**"), another of Mr. Dondero's entities, for leave to file a complaint alleging insider claims trading and breach of fiduciary duty. After a trial in June 2023 during which Mr. Dondero was forced—under cross-examination by PSZJ—to admit to, among other things, insider trading and lying about Amazon's December 2020 agreement to meet MGM's offer price, the Court denied HMIT's motion and adopted the Gatekeeper Colorability Test described further below. PSZJ represented Highland and the Claimant Trust in opposing the motion, and no one raised any "conflict of interest" issue.[23]

21. Although the foregoing is obviously not an exhaustive list of litigated matters involving Mr. Dondero and his affiliates, PSZJ has indisputably represented Highland—and only Highland—in every litigated matter against Mr. Dondero and his affiliates since the Independent Board was installed in January 2020. During that time, PSZJ deposed Mr. Dondero and cross-examined him at trial more than a dozen times, and in each instance, Mr. Dondero was represented and defended by counsel other than PSZJ. At no time did Mr. Dondero mention the existence of a

[22] In the contested Plan confirmation proceedings, Mr. Dondero was represented by Bonds Ellis, and his affiliated entities were represented by Heller Draper & Horn LLC, K&L Gates LLP, and Munsch Hardt, all experienced bankruptcy practitioners who presumably know that PSZJ was required to be "disinterested" at all times.

[23] The evidence adduced during the hearing established that HMIT exists solely for Mr. Dondero's personal benefit. Significantly, Mr. Dondero's personal counsel at Stinson, Deborah Deitsch-Perez, simultaneously represents HMIT and sat in the courtroom during PSZJ's cross-examination of Mr. Dondero yet never said a word about any supposed "conflict of interest" or breach of fiduciary duty. *See*, *e.g.*, Adv. Pro. 23-03038-sgj, Docket No. 1.

disabling attorney-client relationship or conflict of interest, nor did his counsel ever move to disqualify PSZJ from representing Highland on that basis.[24]

F. The Court Approves PSZJ's Application for Final Compensation, Over the Objection of NexPoint Advisors, L.P., Which Is Owned and Controlled by Mr. Dondero

22. Movants had a golden opportunity to raise the issue of PSZJ's alleged representation of Movants and the resulting conflict when PSZJ filed its final application for approval of fees and expenses under Bankruptcy Code § 330 (the "**Final Fee Application**"). **Exhibit 9**. Yet, as they did throughout Highland's bankruptcy case, Movants remained silent on the issue.[25]

23. Although Movants failed to object to PSZJ's Final Fee Application, NexPoint Advisors, L.P. ("**NexPoint**")—another entity owned and controlled by Mr. Dondero—did so. NexPoint was represented in that matter by Jain Law & Associates PLLC and Schwartz Law PLLC and raised numerous objections to the Final Fee Application—but PSZJ's alleged prior and conflicting representation of Movants or violation of Bankruptcy Code §327(a) and Bankruptcy Rule 2014 were not among them.[26]

G. Strand's Counsel Seeks a Turnover of Its Books and Records but Is Informed that PSZJ Never Represented Strand

24. The Plan went effective on August 11, 2021. Under the Plan, Highland was reorganized and all partnership interests, including Strand's, were terminated. Concurrently,

[24] Even now Movants do not seek to disqualify PSZJ from representing Highland in the future; they just seek "damages" and the "[d]isgorgement of fees." *See* Proposed Complaint at 20 (Prayer for Relief).

[25] This failure lies at the heart of the *res judicata* defense below and further supports the waiver defense.

[26] Following a contested hearing held on November 17, 2021 (the "**Fee Hearing**"), this Court overruled NexPoint's objections and entered an order granting PSZJ's Final Fee Application (the "**Final Fee Order**"). NexPoint's appeals to the District Court and the Fifth Circuit Court of Appeals were dismissed for lack of standing. *NexPoint Advisors, L.P. v. Pachulski Stang Ziehl & Jones, L.L.P. (In re Highland Capital Mgmt., L.P.),* 74 F.4th 361 (5th Cir. 2023).

HCMLP GP LLC became reorganized Highland's new general partner, and Strand was removed as Highland's general partner. The members of the Independent Board also resigned.

25. On February 3, 2022, Strand's counsel, Amy Ruhland (the same lawyer who signed the Motion for Leave as Movants' counsel), emailed Mr. Pomerantz a letter (the "**Ruhland Letter**"), demanding that PSZJ turn over its "client file" regarding Strand and essentially assuming that PSZJ had been counsel to Strand, even conjuring up an engagement letter between PSZJ and Strand that never existed. On February 11, 2022, Mr. Pomerantz responded to the Ruhland Letter with a one-sentence email: "In response to your February 3, 2022 letter, please be advised that Pachulski Stang Ziehl & Jones (the 'Firm') acted solely as counsel to Highland Capital Management L.P. during Highland's chapter 11 bankruptcy case and has never represented Strand Advisors, Inc." **Exhibit 10** (including the Ruhland Letter).

26. Ms. Ruhland dropped the matter. Neither Ms. Ruhland nor anyone else representing Strand or Mr. Dondero ever responded to Mr. Pomerantz. Again, it was only in the Motion for Leave, a draft of which was provided to PSZJ on November 28, 2023—almost *22 months* after Mr. Pomerantz's February 3, 2022, email—that Strand directly alleged (rather than assumed, as Ms. Ruhland did in the Ruhland Letter) that PSZJ ever acted as Strand's counsel. Not surprisingly, the Motion for Leave does not mention (let alone attach) any retainer agreement between PSZJ and Strand, despite Ms. Ruhland's earlier reference to one. No such agreement exists.

H. Dondero's Lawyers File Substantial But False Allegations of Wrongdoing with the United States Trustee but Never Mention an Attorney-Client Relationship Between Movants and PSZJ or Allege that PSZJ was Not "Disinterested"

27. Between October 11, 2021, and September 8, 2023, Mr. Dondero and entities he controls caused four separate letters (collectively, the "**EOUST Letters**") to be sent to the EOUST in Washington, D.C. **Exhibit 11**. In general, the EOUST Letters detailed Mr. Dondero's

contentions of "serious abuses of the bankruptcy process" including alleged breaches of fiduciary duties and a lack of transparency.[27]

28. The last of the EOUST Letters was sent on September 8, 2023 - just before the parties were supposed to mediate their disputes by Amy Ruhland - the attorney who signed the Motion for Leave. Ms. Ruhland not only failed to raise any issues concerning alleged "conflicts of interest" or "breaches of fiduciary duty," she tacitly acknowledged to the EOUST that Mr. Dondero hired PSZJ to represent Highland, and Highland alone: "Mr. Dondero (who was then the acting CEO and sole director of Highland's general partner, Strand Advisors, Inc. ("Strand")), in consultation with counsel, determined that an orderly restructuring was in Highland's best interest. Accordingly, ***he retained [PSZJ] to file a Chapter 11 bankruptcy petition on Highland's behalf***."[28].

29. The other three EOUST Letters were written by Douglas Draper and Davor Rukavina, respectively, attorneys who regularly practice bankruptcy law and presumably know that Bankruptcy Code § 327(a) and Bankruptcy Rule 2014 require a debtor's counsel to be "disinterested." Yet none of the EOUST Letters even suggest that PSZJ: (a) failed to disclose the existence of a conflicting attorney-client relationship with Mr. Dondero and Strand; (b) violated Bankruptcy Code § 327(a) and Bankruptcy Rule 2014 because PSZJ was, in fact, "interested" based on the supposed attorney-client relationship with the Movants; or (c) breached their fiduciary duty to the Movants by fulfilling their fiduciary duty to Highland.

---

[27] The EOUST Letters collectively cover nearly 75 single-spaced pages (excluding hundreds of pages of exhibits) and set forth a litany of serious but fabricated or grossly misleading allegations against Highland and its fiduciaries. Because the EOUST Letters were not filed in any court, neither Bankruptcy Rule 9011 nor Rule 11 of the Federal Rules of Civil Procedure apply. But other laws do, and Highland and its fiduciaries (who are now falsely accused of wrongdoing) reserve all rights to address these spurious and malicious allegations at a time and in a manner of their choosing. Notably, the EOUST has never contacted Highland or its fiduciaries concerning any aspect of the EOUST Letters.

[28] **Exhibit 11** at 2 (emphasis added).

30. The failure of Mr. Draper, Mr. Rukavina, and Ms. Ruhland to press any of these matters is particularly noteworthy because (a) Mr. Dondero should have been highly motivated to identify another area of alleged wrongdoing (one that would certainly fall within the EOUST's purview), and (b) each of the EOUST Letters included an overview of the circumstances concerning the commencement of Highland's bankruptcy case and/or the appointment of the Independent Board where these matters would have been directly relevant.[29]

III. MOVANTS' CLAIM IS NOT COLORABLE

A. The Gatekeeper Colorability Test

31. This Court recently articulated the standard of "colorability" under the Plan's gatekeeper provision (the "**Gatekeeper Colorability Test**") as follows:

> The court concludes that the appropriate standard to be applied in making its "colorability" determination in ***this*** bankruptcy case, in the exercise of its gatekeeping function pursuant to the two Gatekeeper Orders and the Gatekeeper Provision in ***this*** Plan, is a broader standard than the "plausibility" standard applied to Rule 12(b)(6) motions to dismiss. It is, rather, a standard that involves an ***additional level of review***—one that places on the proposed plaintiff a burden of making a prima facie case that its proposed claims are ***not without foundation***, are ***not without merit***, and are ***not being pursued for any improper purpose such as harassment***. Additionally, this court may, and should, take into consideration its ***knowledge*** of the ***bankruptcy proceedings*** and ***the parties*** and any additional evidence presented at the hearing on the Motion for Leave.[30]

Movant's proposed claim does not satisfy any part of the Court's Gatekeeper Colorability Test. The allegations concerning an "implied" attorney-client relationship between PSZJ and Movants lack any evidentiary support and are directly contradicted by Movants' consistent course of conduct; the alleged breach of fiduciary duty claim based on that alleged relationship is meritless for multiple reasons. The claim is being pursued to harass PSZJ and, by extension, Highland and

---

[29] *See* **Exhibit 11** (Ruhland 9/8/23 letter) at 4; **Exhibit 11, Ex. A** (Draper 10/11/21 letter) at 2; **Exhibit 11, Ex. B** (Rukavina 11/3/21 letter) at 2; **Exhibit 11, Ex. C** (Rukavina 5/11/22 letter) at 5–7.

[30] Docket No. 3903 at 91 (emphasis in original).

the Claimant Trust, and—like so many other coordinated actions by Mr. Dondero and his counsel—to undermine Highland and frustrate the Plan's implementation.

B. PSZJ Never Had an Attorney-Client Relationship with Either Movant

(1) *No Express Attorney-Client Relationship Existed*

32. The Motion for Leave and the Proposed Complaint depend on the simple issue of whether an attorney-client relationship between PSZJ and either Movant ever existed. It didn't. Conspicuously absent from both the Motion for Leave and the Proposed Complaint is any allegation that a written agreement or other document or recorded communication exists to establish an express attorney-client relationship between PSZJ and either Movant. There never was one.

33. PSZJ and Highland signed binding contracts, executed documents, and communicated by email regarding PSZJ's retention with one goal: to establish an attorney-client relationship between PSZJ and Highland (and only Highland). Movants said nothing before (or after) the Bankruptcy Court approved the Employment Application about their having an attorney-client relationship with PSZJ and accepted without objection the Pomerantz Statements, which included the unchallenged assertions that PSZJ never represented any Highland affiliate, officer, equity holder, partner, or subsidiary.

34. Even when Mr. Dondero's personal counsel, Bonds Ellis, filed a notice of appearance, Movants said nothing about some sort of dual representation or conflict of interest at any point—not when pitched litigation ensued between Highland and Mr. Dondero, not when Mr. Dondero opposed confirmation of the Plan, not in any of the several dozen appeals Mr. Dondero and his entities have pursued over the last four years, not when Mr. Dondero's lawyers wrote four letters to the EOUST complaining about supposed "abuses of the bankruptcy process," and not even when NexPoint objected to the Final Fee Application. On this record, there is simply no way

that any court applying Texas law could reasonably conclude that PSZJ ever had an attorney-client relationship with either Movant.

(2) *No Implied Attorney-Client Relationship Existed*

35. Because no express attorney-client relationship ever existed between PSZJ and either Movant, Movants must establish that an "implied" attorney-client relationship existed under Texas law. "In determining whether a contractual relationship can be implied, we use an objective standard, looking at what the parties said and did for some manifestation that **both** parties intended to create an attorney-client relationship, and do not consider their unstated, subjective beliefs."[31]

36. Movants haven't identified any evidence - or even alleged the existence of any evidence - that PSZJ ever intended to create an attorney-client relationship with either of them or that either Movant intended to create an attorney-client relationship when *Highland* retained PSZJ. PSZJ never said or did anything that would have reasonably led either Movant to believe that PSZJ represented it. In fact, *all* of PSZJ's actions and *all* of PSZJ's representations to the Bankruptcy Court—about which Movants said nothing, ever—provide no evidence of an implicit attorney-client relationship between PSZJ and either Movant and instead lead inexorably to the conclusion that PSZJ represented Highland and only Highland.[32] The documentary evidence proves that there never was such a relationship and that no one—neither PSZJ nor even the Movants—ever conducted themselves in a manner that would evince the legally-required *mutual* belief that PSZJ represented Movants.

[31] *Kennedy v. Gulf Coast Cancer & Diagnostic*, 326 S.W.3d 352, 357-58 (Tex. App. 2010) (emphasis added).

[32] As this Court knows, Mr. Dondero is perfectly willing to fabricate stories even in the face of an avalanche of contrary documentary evidence: recall Mr. Dondero's uncorroborated tale concerning a series of secret oral agreements with his sister to forgive over $60 million in promissory notes that caused this Court to invoke the "sham affidavit" rule.

37. Any subjective and previously undisclosed beliefs about the alleged relationship held by Movants—beliefs contradicted by all the documentary evidence and their own lengthy, uninterrupted, and inexplicable silence—are legally irrelevant.[33] "Texas law is clear that one party's subjective beliefs are not evidence of an implied attorney-client relationship."[34] If, as Texas courts uniformly hold, Movants' subjective beliefs are not evidence of an attorney-client relationship, then no such evidence exists. The lack of an attorney-client relationship is fatal to Movants' claim for breach of fiduciary duty. The Movant's claim is not colorable—and the Motion for Leave must fail—on that basis alone.

C. PSZJ Owed No Fiduciary Duty to Either Movant Because No Attorney-Client Relationship Between Them Existed

38. An attorney has a fiduciary duty only when an attorney-client relationship is created.[35] The corollary is that attorneys never owe fiduciary duties to non-clients because no attorney-client relationship exists. "A fiduciary duty is an extraordinary one and will not be lightly created. The mere fact that one subjectively trusted the other does not, alone, indicate that he reposed confidence in the other in the sense demanded by fiduciary relations, because something apart from the transaction itself is necessary."[36]

---

[33] Assuming for the sake of argument only that Movants actually held such subjective beliefs and those beliefs were relevant, Movants' primary allegation is that PSZJ had "engag[ed] in numerous discussions with Mr. Dondero personally" and advised him to take certain actions to benefit Highland. Mr. Dondero was the CEO of PSZJ's sole client, Highland. If a debtor's counsel forms a personal attorney-client relationship with a debtor's CEO simply by discussing the debtor's bankruptcy case with that CEO, then no counsel could ever be "disinterested" under § 327(a) and would always be in breach of its duties to the debtor and its estate.

[34] *Kiger v. Balestri*, 376 S.W.3d 287, 291 (Tex. App. 2012); *see also Belliveau v. Barco, Inc.*, 987 F.3d 122, 133 (5th Cir. 2021) ("courts 'determine whether a[n] [attorney-client] contract can be implied using an objective standard ... and ... do not consider [the parties'] unstated, subjective beliefs'") (quoting *Span Enterprises v. Wood*, 274 S.W.3d 854, 858 (Tex. App. 2008)); *In re DISH Network, LLC*, 528 S.W.3d 177, 185 (Tex. App. 2017) ("A court cannot consider a client's or attorney's unspoken subjective beliefs about the relationship").

[35] *See, e.g.*, *Willis v. Maverick,* 760 S.W.2d 642, 645 (Tex. 1988).

[36] *Thompson v. Vinson & Elkins,* 859 S.W.2d 617, 623 (Tex. App. 1993).

39. The parallels between the *Thompson* case and the present Motion for Leave are instructive. The court in *Thompson* explained that "the record indicates that V & E's involvement with the trust itself was in representing one of the trustees, Johnson. [A written retention agreement existed between V&E and Johnson only.] Although a fiduciary relationship may exist between the beneficiary of a trust and a trustee, under the facts presented here, no fiduciary relationship exists between the beneficiary of a trust and the attorney representing a trust."[37] Here, the attorney-client relationship between PSZJ and Highland certainly created a fiduciary duty running from PSZJ to Highland but not to Highland's general partner (Strand) or the general partner's owner (Mr. Dondero).

40. The Proposed Complaint's single count for breach of fiduciary duty fails because it is predicated entirely on the existence of an attorney-client relationship between Movants and PSZJ. Movants' unstated, subjective belief—which is contrary to all the documentary evidence and their inconsistent conduct—is insufficient, as a matter of law, to create an attorney-client relationship.

D. Texas Law Does Not Permit Plaintiffs to a Recast Malpractice Claim as a Fiduciary Duty Claim Simply to Avoid the Shorter Malpractice Claim Statute of Limitations

41. Even if Movants could allege a colorable claim for breach of fiduciary duty (they can't), Texas law prohibits clients from "fracturing" a malpractice claim into an additional breach of fiduciary duty claim. Yet that is exactly what Movants attempt here for the transparent and legally improper purpose of avoiding the applicable statute of limitations.[38]

---

[37] *Id.* at 623–24.

[38] The Proposed Complaint contains this self-serving provision:

> In the alternative, Plaintiffs specifically plead that all limitations periods (i) have been tolled during the bankruptcy period due to the inability to assert certain claims; (ii) tolled during the applicable discovery period during which Plaintiffs could not, in the exercise of reasonable diligence, discover the true nature of Pachulski's wrongdoing and/or (iii) equitably tolled.

42. "Legal malpractice is not the only cause of action under which a client can recover from her attorney. Texas law, however, does not permit a plaintiff to divide or fracture her legal malpractice claims into additional causes of action."[39] When a plaintiff's claim for breach of fiduciary duty is based on the same operative facts giving rise to a malpractice claim, Texas law does not permit the fiduciary duty claim to proceed when the malpractice claim cannot. "Breach of fiduciary duty by an attorney most often involves the attorney's failure to disclose conflicts of interest, failure to deliver funds belonging to the client, placing personal interests over the client's interests, improper use of client confidences, taking advantage of the client's trust, engaging in self-dealing, and making misrepresentations."[40] Here, Movants base their breach of fiduciary duty claim entirely on PSZJ's alleged conflict of interest. But, as the Court in *Goffney* noted, these "allegations in support of [the] breach of fiduciary duty claim constitute no more than a claim for

---

Movants' argument that any statute of limitations should be equitably tolled because they "could not, in the exercise of reasonable diligence, discover the true nature of Pachulski's wrongdoing" is absurd. "[E]quitable tolling requires (1) that the plaintiff pursued his rights diligently and (2) some **extraordinary circumstances** stood in his way." *Martin v. Grehn,* 546 F. App'x. 415, 420 (5th Cir. 2013) (emphasis added). Equitable tolling is applied only "sparingly." *Id.* (quoting *Granger v. Aaron's, Inc.,* 636 F.3d 708, 712 (5th Cir. 2012)). Movants bear the burden to justify a claim for equitable tolling. *Martin,* 546 F. App'x. at 420. Movants admit that they became adverse to Highland (and, by extension, Highland's counsel, PSZJ) soon after the Independent Board was appointed in January 2020, and litigation between Mr. Dondero and his affiliated parties commenced in or around October 2020, more than three years ago. The Plan was confirmed, divesting Movants of their interests in Highland in February 2021 and it became effective in August 2021. Movants will never be able to credibly explain why they waited years to assert their purported breach of fiduciary duty claim against PSZJ. Movants have no defense to the application of Texas's two-year statute of limitations on malpractice.

[39] *Goffney v. Rabson*, 56 S.W.3d 186, 190 (Tex. App. 2001). In *Goffney,* the court held that the plaintiff's breach of fiduciary duty claims were "essentially legal malpractice claims." Because plaintiff had previously lost the right to pursue malpractice, the plaintiff's breach of fiduciary duty claim was likewise no longer viable. *See also Cuyler v. Minns,* 60 S.W.3d 209, 216 (Tex. App. 2001) ("we find that Cuyler's claims for breach of contract and breach of fiduciary duty represent an impermissible fracturing of her claim for legal malpractice. 'If a lawyer's error or mistake is actionable, it should give rise to a cause of action for legal malpractice with one set of issues which inquire if the conduct or omission occurred, if that conduct or omission was malpractice and if so, subsequent issues on causation and damages.' *Sledge v. Alsup,* 759 S.W.2d 1, 2 (Tex. App. 1988); *see also Ross v. Arkwright Mut. Ins. Co.,* 892 S.W.2d 119, 133-134 (Tex. App.—Houston [14th Dist.] 1994, no writ) (discussing state's public policy against splintering claims). We find that all these claims arise from the same set of facts and circumstances as the alleged malpractice; since summary judgment on that alleged malpractice was proper, summary judgment on these claims was proper. *See Smith v. Heard,* 980 S.W.2d 693, 697 (Tex. App.—San Antonio 1998, pet. denied)").

[40] *Goffney*, 56 S.W.3d at 193.

legal malpractice …. [T]hese allegations do not amount to self-dealing, deception, or misrepresentations in Goffney's legal representation … to support a separate cause of action for breach of fiduciary duty."[41]

43. Movants' proposed breach of fiduciary duty claim is based on the type of alleged conflict of interest that would give rise to a malpractice claim under Texas law and cannot be "fractured" into a breach of fiduciary duty claim, especially when the malpractice claim is no longer viable. The statute of limitations for legal malpractice in Texas is two years,[42] shorter than the four-year statute of limitations applicable to breach of fiduciary duty claims.[43] Just as the *Goffney* court would not permit the plaintiff to resurrect a lost malpractice claim by recasting it as a breach of fiduciary duty claim, Movants can't do so here. Even charitably pushing back the accrual of such a claim to March 2020, when Mr. Dondero's counsel filed its notice of appearance, the applicable statute of limitations for a malpractice claim against PSZJ would have expired in March 2022, almost two years ago.

E. The Colorability Standard Cannot Be Met

44. Under this Court's precedent, to be "colorable" a claim must not be (i) without foundation, (ii) without merit, or (iii) pursued for an improper purpose such as harassment. The Proposed Complaint and the Motion for Leave fail to satisfy any of the elements.

---

[41] *Id.* at 194 (cleaned up) ("Because Rabson's breach of fiduciary duty claim is actually a claim for legal malpractice, which Rabson abandoned prior to trial, she may not recover for breach of fiduciary duty"). Similarly, one could suppose that a breach of fiduciary duty claim would lie if PSZJ had a conflict it didn't disclose to its client. But, here, Mr. Dondero necessarily knew of the alleged conflict because he was the party or controlled each party to the alleged conflict (*i.e.*, Mr. Dondero personally, Strand (which Mr. Dondero owned and controlled as President) and Highland (which Mr. Dondero controlled as President and CEO)), making PSZJ's supposed failure to disclose the conflict to the Bankruptcy Court would-be malpractice, not a breach of fiduciary duty.

[42] TEX. CIV. PRAC. & REM. CODE § 16.003(a).

[43] TEX. CIV. PRAC. & REM. CODE § 16.004.

45. **The Claim Lacks Foundation.** Movants' claim for breach of fiduciary duty lacks any foundation. Movants neither offer any evidence nor even allege that evidence exists that approaches the type of objective indicia of a mutual belief in the formation of an attorney-client relationship's formation that Texas law requires. Rather, Movants allege nothing but the type of secret, subjective, uncommunicated belief Texas courts disregard. In contrast, the Retention Agreement, the Employment Application, and the Pomerantz Statements, reinforced by Movants' multi-year silence about any supposed attorney-client relationship with PSZJ even as it repeatedly represented Highland against Movants, establishes that such a relationship never existed.

46. **The Claim Lacks Merit.** For the myriad reasons set forth above, Movants' claim also lacks any merit. A claim without merit is not colorable under this Court's established standard.

47. **The Claim Is Being Pursued for an Improper Purpose.** The Motion for Leave is the latest in a series of attempts by Mr. Dondero and his affiliates to interfere with the implementation of the Plan,[44] this time seeking to undermine Highland's ability to rely on PSZJ to litigate with Mr. Dondero and his affiliates. Had Movants actually believed that PSZJ represented them beginning in September 2019—instead of inventing the claim that it did so years later as a pretext for more litigation—they would have raised these claims long ago. Rather, running out of options after having lost on almost every issue in the more than three dozen appeals to the District Court, and more than a dozen appeals to the Fifth Circuit Court of Appeals (so far), Mr. Dondero now has pivoted to attacking Highland's long-time counsel with a frivolous lawsuit alleging that PSZJ violated fiduciary duties to Mr. Dondero by advancing the estate's interests rather than Mr. Dondero's parochial desires. The Motion for Leave and the Proposed Complaint

[44] Such interference takes several forms, among them: (a) preventing distributions to real creditors (unlike Movants) by necessitating cash reserves for ceaseless defensive litigation against Mr. Dondero and his entities; (b) distracting Highland's and the Creditor Trust's management by making them frequent targets of frivolous litigation; and (c) reducing recoveries to creditors by forcing the Creditor Trust to pay lawyers to defend it at every turn.

are yet another attempt to harass Highland and interfere with the implementation of the Plan, precisely the improper motive this Court used as an example when articulating its Gatekeeper Colorability Test.

F. Movants Have Waived Their Claim

48. Waiver is the knowing and intentional relinquishment of a known right.[45] Movants claim to have had an implied attorney-client relationship with PSZJ as early as September 2019. Although Movants would have had to know of this supposed attorney-client relationship if it actually existed, they never asserted, disclosed it, or contended that a "conflict of interest" arose from PSZJ's continued representation of Highland against them. Movants had every incentive and opportunity to raise this issue in the chapter 11 case and with the EOUST, but stayed silent. As a result of this inaction, they have waived any conflict-of-interest claim arising from the alleged attorney-client relationship with PSZJ.

49. After PSZJ started pursuing matters directly against Mr. Dondero on Highland's behalf in the fall of 2020—for example, by successfully seeking and obtaining two orders of contempt against him; deposing him multiple times; successfully objecting to every claim filed by him and entities he controls; and successfully suing him and his sister to collect on demand notes—Movants could have asserted their alleged rights arising from the supposed attorney-client relationship with PSZJ, and should have done so if such rights actually existed, but never did.

50. Neither Movant objected to the Employment Application on the basis that it incorrectly stated that PSZJ represented no one in relation to this case but Highland—or on any other ground. Neither Movant challenged the veracity of the three Pomerantz Statements. Neither

[45] *See, e.g.*, *Van Den Broeke v. Bellanca Aircraft Corp.,* 576 F.2d 582, 584 (5th Cir. 1978).

Movant raised the supposed conflict of interest issue in objections to PSZJ's Final Fee Application or in the EOUST Letters.

51. When a litigant is given ample and numerous opportunities to raise a ripe objection and doesn't, the objection is waived.[46] "It is well settled that a former client who is entitled to object to an attorney representing an opposing party on the ground of conflict of interest but who knowingly refrains from asserting it promptly is deemed to have waived that right."[47] "A motion to disqualify should be made with reasonable promptness after a party discovers the facts which lead to the motion."[48] A party waives an objection to a former client conflict "where the delay in moving for disqualification is for an extended period of time, or where it is done on the eve of

[46] *See, e.g., Gidner v. JPMorganChase Bank N.A. (In re Gidner),* 2013 Bankr. LEXIS 4273, *26 (Bankr. N.D. Tex. October 11, 2013)) (quoting *U.S. v. Shanbaum*, 10 F.3d 305, 310-11 (5th Cir. 1994)) ("If a party does not raise a claim or a defense in the prior action, that party thereby waives its right to raise that claim or defense in the subsequent action."); *First Union Commer. Corp. v. Nelson, Mullins, Riley & Scarborough (In re Varat Enters.),* 81 F.3d 1310 (4th Cir. 1996) (citing *In re Simmons*, 765 F.2d 547 (5th Cir. 1985)) ("a confirmed plan of reorganization acts like a contract that is binding on all of the parties, debtor and creditors alike … a party in interest's failure to object to a claim … prior to confirmation of the debtor's reorganization plan may operate as a waiver, barring the party from asserting the objection later"); *Dodson v. Huff (In re Smyth),* 2001 U.S. App. LEXIS 30164, *16, n.9 (5th Cir. August 7, 2001) (appellant "may well have waived" claims for malpractice by not raising them until well after a professional's final fee order was entered).

[47] *Cinco Bayous, LLC v. Samson Expl., LLC*, 2020 U.S. Dist. LEXIS 265754, at *24 (E.D. Tex. Aug. 17, 2020) (quoting *Pendergest-Holt v. Certain Underwriters at Lloyd's of London*, No. 2010 U.S. Dist. LEXIS 155196, at *5-6 (S.D. Tex. July 30, 2010); *Tr. Corp. of Mont. v. Piper Aircraft Corp*., 701 F.2d 85, 87 (9th Cir. 1983)); *see Cox v. Am. Cast Iron Pipe Co*., 847 F.2d 725, 729 (11th Cir. 1988) ("A failure to make a timely objection [to a violation of Canon 4] may also result in a waiver"); *In re Corrugated Container Antitrust Litig*., 659 F.2d 1341, 1348-49 (5th Cir. 1981) (a client may waive an objection regarding a violation of ABA Model Code of Professional Responsibility canons); *Redd v. Shell Oil Co.*, 518 F.2d 311, 315 (10th Cir. 1975) ("lawyer conflict of interest problems ought to be brought up long before the date of trial").

[48] *Cox*, 847 F.2d at 729 (quoting *Jackson v. J.C. Penney Co*., 521 F. Supp. 1032, 1034-35 (N.D. Ga. 1981)); *Pendergest-Holt*, 2010 U.S. Dist. LEXIS 155196, 2010 WL 11661414, at *5-6.

trial."[49] Timing matters. Waiting too long to claim malpractice—especially when circumstances (like the ones present here) tend to indicate that the delay is a strategic ploy—waives the claim.[50]

52. Here, neither Mr. Dondero nor Strand ever contended that PSZJ had a conflict of interest until now, despite countless opportunities to do so if such conflict actually existed. Consequently, Movants long ago waived the sole claim asserted in the Proposed Complaint. That claim is, accordingly, without merit and not colorable.[51]

G. As a Result of the Allowance of the Final Fee Application by a Final Order, Movant's Claim Is Barred by *Res Judicata*

53. The Proposed Complaint is barred by *res judicata* as a result of the allowance of the Final Fee Application by the Final Fee Order. *Res judicata* applies where "(1) the parties are identical or in privity; (2) the judgment in the prior action was rendered by a court of competent jurisdiction; (3) the prior action was concluded by a final judgment on the merits; and (4) the same claim or cause of action was involved in both actions."[52] "[T]he critical question for *res judicata*

---

[49] *Pendergest-Holt*, 2010 U.S. Dist. LEXIS 155196, 2010 WL 11661414, at *5-6 (quoting *Abney v. Wal-Mart*, 984 F. Supp. 526, 530 (E.D. Tex. 2007)) (plaintiff waived claim after waiting one year after learning of potential conflict before filing motion to disqualify; motion filed one month before trial)); *Microsoft Corp. v. Commonwealth Sci. & Indus*., No. 2007 U.S. Dist. LEXIS 91550, 2007 WL 4376104 at *9 (E.D. Tex. Dec. 13, 2007) (waiver appropriate when movant waited two years to file motion to disqualify after it knew or should have known about [a conflict of interest], and even waited six months after movant claims that [the] conflict [of interest] arose).

[50] *Atasi Corp. v. Seagate Tech*., 847 F.2d 826, 832 (Fed. Cir. 1988) (waiver appropriate "when a motion to disqualify is used in an abusive manner as part of litigation tactics").

[51] Movants can show no damages in any regard. The October 2 Memo advised Highland (and, of course, Mr. Dondero in his capacity as Highland's CEO and ultimate decision-maker) of certain risks of filing chapter 11 that Mr. Dondero now assert as the basis for his damages. Mr. Dondero cannot contend that he was damaged because "Pachulski neither disclosed nor counseled Plaintiffs that the interests of HCMLP might become adverse to Plaintiffs in the future" (Motion for Leave at 11) when the October 2 Memo summarized the exact risks that Mr. Dondero claims caused his harm. ***Further, regardless of what happened to Highland, Mr. Dondero had no direct economic interest in the estate and Strand has only an infinitesimally small and deeply subordinated economic interest***. Unless Mr. Dondero is willing to finally admit that he was Highland's alter ego, he cannot allege that the loss of Highland caused him any harm; he had no direct interest in it.

[52] *Houston Pro. Towing Ass'n v City of Houston*, 812 F.3d 443, 447 (5th Cir. 2016) (internal quotations omitted); *see also Comer v. Murphy Oil USA*, 718 F.3d 460, 467 (5th Cir. 2013) (same); *Dodson*, 2001 U.S. App. LEXIS 30164, at *5 (citing *Osherow v. Ernst & Young, LLP (In re Intelogic Trace, Inc.)*, 200 F.3d 382, 386 (5th Cir. 2000)) (same).

purposes is whether the party could or should have asserted the claim in the earlier proceeding."[53] All elements of *res judicata* are satisfied here.

54. **Identical Parties/Privity.** At the time of the Fee Hearing, Mr. Dondero controlled Strand and NexPoint. NexPoint objected to the Final Fee Application. There is privity.[54] Moreover, Movants were also parties-in-interest in Highland's chapter 11 case and could have objected to PSZJ's fees on their own behalf.[55]

55. **Jurisdiction/Final Judgment.** This Court indisputably had core jurisdiction to issue the Final Fee Order, and it was a final judgment on the merits of the Final Fee Application.[56]

56. **Same Claim.** To determine whether a claim is the "same claim," the Fifth Circuit applies "the transactional test of the Restatement (Second) of Judgments. The critical issue is … whether the two actions under consideration are based on 'the same nucleus of operative facts.'"[57] As in *Osherow*, this Court allowed PSZJ's fees under § 330.[58] "The compensation allowable under [§ 330] is subject to the provisions of sections 326, 328, and 329…."[59] Section 328(c) requires denial of fees if the professional is not "a disinterested person, or represent[ed] … an interest

---

[53] *Osherow*, 200 F.3d at 383.

[54] *See, e.g., Sacks v. Tex. S. Univ.*, 83 F.4th 340, 345-46 (5th Cir. 2023) (finding privity "(1) where the non-party is a successor in interest to a party's interest in property; (2) where the non-party controlled the prior litigation; and (3) where the non-party's interests were adequately represented by a party to the original suit").

[55] *Dodson*, 2001 U.S. App. LEXIS 30164 at *1-3, 5-6 (finding *all* creditors barred by *res judicata* from subsequently bringing malpractice claims against an estate professional when they failed to object at the final fee hearing). Strand's senior officers, including Mr. Ellington and Mr. Waterhouse (through their personal counsel Baker McKenzie), Mr. Dondero (through his counsels Stinson and DLA Piper), and Strand itself (through its counsel DLA Piper, including Ms. Ruhland) were all served with the Final Fee Application via the Court's ECF system on October 8, 2021.

[56] *See* 28 U.S.C. § 157(a); 11 U.S.C. § 330.

[57] *Osherow*, 200 F.3d at 386 (citations omitted).

[58] *Id.* (finding that a state court malpractice claim against an estate professional was barred by *res judicata* because § 330 required a determination as to the quality of services provided).

[59] 3 COLLIER ON BANKRUPTCY ¶ 330.01.

adverse to the estate ....”[60] Movants' allegations of conflict of interest and resulting claims for breach of fiduciary duty thus arose from the "same nucleus of operative facts" as the matters necessarily adjudicated at the Fee Hearing.

57. Finally, Movants "could and should" have asserted their claim that they had an attorney-client relationship with PSZJ that might give rise to a conflict of interest on its part in opposition to the Final Fee Application. Movants knew of PSZJ's alleged conflict at the time of the Fee Hearing—*all* allegations arose well before then[61]—and, like in *Osherow*, Movants could have fully litigated their alleged claim at the Fee Hearing.[62]

58. Movants, through NexPoint, objected to PSZJ's fees at the Fee Hearing but said nothing about an alleged attorney-client relationship or conflict of interest. Now, two years later and after their appeals regarding the Final Fee Order have been exhausted, Movants seek to pry open a back door to object to PSZJ's fees again. Movants are barred from doing so by *res judicata*.

[60] 11 U.S.C. § 328(c); *see also In re Digerati Techs., Inc.*, 537 B.R. 317, 369 (Bankr. S.D. Tex. 2015) ("In the Fifth Circuit, failure to make required disclosures to a bankruptcy court can be grounds for total denial of a fee application .... Indeed, in *Delta Oil*, the Fifth Circuit denied all fees after finding that the professional failed to disclose an interest that would have been disqualifying").

[61] In fact, PSZJ included in the Final Fee Application a summary of the very actions alleged in the Proposed Complaint to have harmed Movants as further justification for the requested fee award.

[62] *Osherow*, 200 F.3d at 389-90 (finding that the fee hearing could have been converted to an adversary to adjudicate the malpractice claims or otherwise stayed to allow the malpractice claim to be adjudicated); *see also Charitable DAF Fund, L.P. v. Highland Cap. Mgmt., L.P. (In re Highland Cap. Mgmt., L.P.)*, 2022 Bankr. LEXIS 659, at *20-21 (Bankr. N.D. Tex. Mar. 11, 2022) (recognizing *Osherow* "barred claims that could have been asserted at a fee hearing").

IV. CONCLUSION

59. For the reasons stated above, the sole claim underlying the Proposed Complaint and the Motion for Leave is not colorable and should not be permitted to proceed under the Plan's gatekeeper provision. PSZJ respectfully requests that the Court deny the Motion for Leave and grant PSZJ any additional relief regarding the Motion for Leave that the Court deems just and proper under the circumstances.

Re: **In re Highland Capital Management, L.P.,**
Case No. 19-34054-sgj11

Dear Amy:

Earlier today, my firm, Pachulski Stang Ziehl & Jones LLP ("**PSZJ**"), filed its opposition (the "**Opposition**") to the *Motion of James D. Dondero and Strand Advisors, Inc. for Leave to File Adversary Complaint* (the "**Motion for Leave**"), which you and your firm filed at Docket No. 3981 in Highland Capital Management, L.P.'s ("**Highland**") bankruptcy case.

For the reasons set forth in the Opposition, the Motion for Leave asserts a frivolous and fabricated claim against PSZJ that: (a) lacks any foundation, merit, or evidence to support it; (b) is directly contradicted by a mountain of publicly available information as well as your own letter to the Executive Office of the United States Trustee; (c) is barred as a matter of law by waiver, the statute of limitations, and *res judicata*; (d) was filed for no purpose other than to harass PSZJ and, by extension, Highland and the Claimant Trust; and (e) could never meet the Gatekeeper Colorability Test.

For the reasons set forth in the attached *Motion for Sanctions Under Bankruptcy Rule 9011* (the "**Sanctions Motion**"), which incorporates the Opposition by reference, we believe you and your firm failed to conduct "an inquiry reasonable under the circumstances" and have signed a pleading that violates Bankruptcy Rule 9011(b)(1)-(3).

PACHULSKI
STANG
ZIEHL &
JONES

If the Motion for Leave is not withdrawn with prejudice on or before January 16, 2024—21 days after the date of this letter—PSZJ will file and prosecute the Sanctions Motion and will seek to have it heard simultaneously with the Motion for Leave.

Sincerely,

PACHULSKI STANG ZIEHL & JONES LLP

John A. Morris

Counsel for Pachulski Stang Ziehl & Jones LLP

IN THE UNITED STATES BANKRUPTCY COURT
FOR THE NORTHERN DISTRICT OF TEXAS
DALLAS DIVISION

In re: HIGHLAND CAPITAL MANAGEMENT, L.P., Reorganized Debtor.	Chapter 11 Case No. 19-34054-sgj11

PSZJ'S MOTION FOR SANCTIONS UNDER BANKRUPTCY RULE 9011

Pachulski Stang Ziehl & Jones LLP ("**PSZJ**"), restructuring counsel to Highland Capital Management, L.P., the reorganized debtor in this Chapter 11 case ("**Highland**"), moves the Court for an order imposing sanctions (the "**Sanctions Motion**") on Amy L. Ruhland ("**Ms. Ruhland**") and her law firm, Reichman Jorgensen Lehman & Feldberg LLP ("**RJLF**"), under Rule 9011 of the Federal Rules of Bankruptcy Procedure (the "**Bankruptcy Rules**"). This Court should sanction Ms. Ruhland and RJLF (collectively, "**Dondero's Counsel**") for the reasons set forth below.

I. PRELIMINARY STATEMENT[1]

1. James Dondero has spent years making threats, launching frivolous litigation, filing baseless claims, and asserting contrived defenses against Highland and its fiduciaries to extract revenge and to otherwise frustrate the implementation of Highland's Plan.[2] He has been enabled by a cast of lawyers and law firms, too long to list, who—presumably against their better judgment—have been willing to assert meritless legal and factual contentions in exchange for compensation because there have been no consequences for doing so. That must end.

2. The Motion for Leave has crossed all boundaries and violates multiple sections of Rule 9011. The foundation of the Proposed Complaint—that PSZJ represented Mr. Dondero personally as well as Highland's general partner, Strand, and breached its fiduciary duty to them by fulfilling its fiduciary duties to Highland—is directly contradicted by documentary evidence and by four years of conduct by Mr. Dondero and Strand that is wholly irreconcilable with the newly-contrived claim that PSZJ acted as their counsel and owed them some duty. And Dondero's Counsel apparently knows it.

3. Just three months ago, Dondero's Counsel explicitly told the Executive Office of the United States Trustee that PSZJ only represented Highland in its bankruptcy case.[3] In the

---

[1] This Court has jurisdiction over this case and this contested matter under 28 U.S.C. §§ 157(b) and 1334. Venue is proper in this district under 28 U.S.C. §§ 1408 and 1409.

[2] Capitalized terms not defined in this Sanctions Motion have the meanings ascribed to them in *PSZJ's Opposition to Motion of James D. Dondero and Strand Advisors, Inc. for Leave to File Adversary Complaint* (the "**Opposition**") that was filed on December 26, 2023, at Docket No. __. This Sanctions Motion was served on Dondero's Counsel on the same day PSZJ filed the Opposition and is being filed now because Dondero's Counsel refused to withdraw the Motion for Leave within the 21-day period prescribed under Rule 9011(c)(1)(A).

[3] On the eve of mediation, Highland learned that Dondero's Counsel sent a 24-page letter to the EOUST on September 8, 2023, in which they presented a litany of serious but demonstrably false allegations against Highland and its fiduciaries. This letter attached as exhibits three earlier letters sent to the EOUST on Mr. Dondero's behalf, all of which are directly relevant to PSZJ's waiver claim (*see* Opposition ¶¶ 28–31). The three earlier EOUST Letters are also directly relevant to this Sanctions Motion because they should have caused Dondero's Counsel to investigate why all of them purportedly addressed "serious abuses of the bankruptcy process" but none of them ever complained about any supposed "conflict of interest" on PSZJ's part or alleged that PSZJ violated Bankruptcy Code

background section of their EOUST Letter, Dondero's Counsel noted that "Mr. Dondero (who was then the acting CEO and sole director of Highland's general partner, Strand Advisors, Inc. ("Strand")), in consultation with counsel, determined that an orderly restructuring was in Highland's best interest. Accordingly, ***he retained [PSZJ] to file a Chapter 11 bankruptcy petition on Highland's behalf***." **Exhibit** 9 (emphasis added).[4] If this admission were not enough (and it is), Dondero's Counsel never informed the EOUST of Mr. Dondero's subjective belief that PSZJ represented him and Strand since 2019 and had violated its fiduciary duties by acting against their interests. In sum, Movants' claim is so untethered to the facts and the law that any responsible lawyer who engaged in any reasonable diligence should have refused to bring it—and for Dondero's Counsel to try to advance it just weeks after sending the EOUST Letter is beyond the pale.

4. Rule 9011 requires every attorney to certify "that to the best of the person's knowledge, information, and belief, formed after an inquiry reasonable under the circumstances," the pleading is not filed for an improper purpose; the claims and legal contentions are warranted under the law; and the factual allegations have or will have evidentiary support. Regrettably, Dondero's Counsel failed to comply with these basic but fundamental obligations.

5. As Highland's Opposition (and supporting documentation) and the years-long, consistent conduct of Mr. Dondero and Strand prove, PSZJ never represented any person or firm in this bankruptcy case other than Highland. No allegations are made, and no evidence exists, to

---

§327(a) or Bankruptcy Rule 2014 by being "interested" as a result of its supposed attorney-client relationship with Movants.

[4] Citations to "Exhibits __" refer to the exhibits attached to the *Declaration of Hayley R. Winograd in Support of PSZJ's Opposition to Motion of James D. Dondero and Strand Advisors, Inc. for Leave to File Adversary Complaint* filed at Docket No. __.

support an "implied" attorney-client relationship. And the sole claim for breach of fiduciary duty is plainly barred by waiver, the statute of limitations, and *res judicata*.

6. Imposing Rule 9011 sanctions is an extreme remedy. But the filing of the baseless Motion for Leave and Proposed Complaint is extreme conduct of the type that Rule 11 was enacted to deter and, if not deterred, sanction. For the reasons set forth below, that is exactly what is required to force otherwise reputable lawyers to act professionally and ethically and refuse to file pleadings that make no objective sense merely because Mr. Dondero demands that they do so. Dondero Counsel's has plainly violated Rule 9011 and must be held to account.

II. BASIS FOR SANCTIONS[5]

7. Bankruptcy Rule 9011(b) ("**Rule 9011**"), the equivalent of Rule 11(b) of the Federal Rules of Civil Procedure ("**Rule 11**"),[6] provides in pertinent part:

> (b) **Representations to the Court.** By presenting to the court (whether by signing, filing, submitting, or late advocating) a … written motion, … an attorney … is certifying that to the best of the person's knowledge, information, and belief, formed after an inquiry reasonable under the circumstances,—
>
> (1) it is not being presented for any improper purpose, such as to harass or to cause unnecessary delay or needless increase in the cost of litigation;
>
> (2) the claim[ ] … and [ ] legal contentions therein are warranted by existing law or by a nonfrivolous argument for the extension, modification or reversal of existing law or the establishment of new law;
>
> (3) the allegation and other factual contentions have evidentiary support or, if specifically so identified, are likely to have evidentiary support after a reasonable opportunity for further investigation or discovery …

An attorney's compliance with Rule 11 (and, therefore, Rule 9011) is "measured by an objective, not subjective, standard of reasonableness under the circumstances … 'An attorney's good faith

[5] PSZJ incorporates the Opposition by reference as if fully set forth in this Sanctions Motion.

[6] Bankruptcy Rule 9011 closely parallels Rule 11 such that caselaw interpreting Rule 11 applies to the interpretation of Bankruptcy Rule 9011. *See, e.g., In re Pratt,* 524 F.3d 580, 586 (5th Cir. 2008). "Rule 9011" and "Rule 11" are used interchangeably in this Motion.

is [not] enough to protect him from rule 11 sanctions.'"[7] An attorney's obligation to ensure that a reasonable inquiry into the facts has been made and that "the motion is not interposed for purposes of delay, harassment, or increasing costs of litigation" is a "continuing obligation to review and reevaluate his position as a case develops."[8]

8. The factors this Circuit has considered to determine whether an attorney has made a reasonable inquiry into the facts and applicable law sufficient to satisfy Rule 11 include:[9]

1. the **time** available to the signer for investigation;
2. the extent of the attorney's **reliance** upon his client for the factual support for the document;
3. the **feasibility** of pre-filing investigation;
4. whether the signing attorney accepted the case from another member of the bar or forwarding attorney;
5. the **complexity** of the factual and legal issues; and
6. the extent to which development of the factual circumstances underlying the claim **requires discovery**.[10]

9. Analyzing each of these factors in the context of the Motion for Leave, Dondero's Counsel clearly failed to make the reasonable inquiry required by Rule 9011.

a. ***First***, Dondero's Counsel had, at a minimum, nearly two years to investigate the alleged facts and legal bases underlying the Proposed Complaint. Ms. Ruhland was advised of PSZJ's position that it "acted solely as counsel to Highland Capital Management L.P. during Highland's chapter 11 bankruptcy case and has never represented Strand Advisors, Inc." in an e-mail dated February 11, 2022, written in response to her demand that PSZJ turn over its "client file" regarding Strand. *See* Opposition ¶ 26. Ms. Ruhland never responded to Mr.

---

[7] *Thomas v. Capital Sec. Services, Inc.,* 836 F.2d 866, 873 (5th Cir. 1988) (*en banc*) (citations omitted). The *Thomas* case remains the seminal, guiding case from the Fifth Circuit on applying Rule 11 following the rule's significant amendment in 1983. Rule 11 has not been materially amended since *Thomas.*

[8] *Id.* at 874.

[9] *Childs v. State Farm Mut. Auto. Ins. Co.,* 29 F.3d 1018, 1026 (5th Cir. 1994) (citing *Thomas*) (emphasis added).

[10] *Id.*

Pomerantz and, as far as PSZJ could tell, dropped the matter until raising it just before filing the Motion for Leave.[11] Thus, Ms. Ruhland had nearly *two years* to conduct a reasonable inquiry, a task made both more critical and easier by Mr. Pomerantz's unequivocal statement in February 2022 that PSZJ had never represented Strand. Moreover, she had added reason to conduct an inquiry, since the information she was given that led her to think that there was an engagement letter between PSZJ and Strand proved to be false. Whatever "time available" for the reasonable inquiry the Fifth Circuit would deem adequate, nearly two years cannot possibly be close to the line.[12] And, it appears that Ms. Ruhland did not investigate anything during that time as the Proposed Complaint does not reference any evidence other than Mr. Dondero's "belief" that PSZJ represented him and Strand.

b. ***Second***, Ms. Ruhland apparently relied primarily (if not exclusively) on Mr. Dondero's own story in preparing the Proposed Complaint, while ignoring the absence of any corroborating written evidence—including a written engagement letter between PSZJ and either Mr. Dondero or Mr. Strand—and failing to take into account substantial, consistent, publicly-available contrary evidence including (a) the Employment Application and the Pomerantz Statements, (b) Mr. Dondero's years-long silence in the face of contentious, adversarial litigation between PSZJ (acting solely on behalf of Highland, the Claimant Trust, and Mr. James P. Seery, Jr. in his official capacity for Highland and the Claimant Trust) and Mr.

---

[11] Before filing the Motion for Leave, Ms. Ruhland asked PSZJ whether it would consent to a tolling agreement, copying another lawyer, Jeffrey Tillotson of Dallas-based Tillotson Johnson Patton ("**Mr. Tillotson**"), who had never appeared in the Highland bankruptcy case. For many reasons, PSZJ declined to enter into a tolling agreement and expressly reserved the right to seek sanctions and/or sue for malicious prosecution if Movants followed through. *See* Motion for Leave, Ex. B (e-mail from John Morris to Amy Ruhland dated November 30, 2023). A few days later, Dondero's Counsel filed the Motion for Leave without Mr. Tillotson—who presumably thought better of signing on to an obviously meritless motion.

[12] Compare, for example, *In re Disciplinary & Sanction Proceedings Against Gillig,* 807 F. Supp. 2d 604, 622 (N.D. Tex. 2011), in which at attorney, Cleveland, was not sanctioned because "Cleveland had been retained for only ten days before the response to [the] motion … was due; and had approximately three days between the day he received copies of the documents in the file and the day the response in opposition to the motion … was due."

Dondero and his affiliates; (c) the Final Fee Application and Fee Hearing where the alleged conflict would have been directly relevant to the Bankruptcy Court's decision to enter the Final Fee Order; and (d) her own statements made in and absent from the EOUST Letter. In these circumstances, Dondero's Counsel's unquestioning reliance on unsubstantiated (and facially absurd) representations of a man with a richly-earned reputation for unrestrained litigiousness and fabrication cannot be considered reasonable for purposes of Rule 9011. *Compare, e.g., Seawright v. Charter Furniture Rental, Inc.*:[13]

> [Plaintiff's attorney] Johnson argues that "at the outset, it was reasonable to believe that other issues, such at [sic] the Defendant's knowledge of Mr. Seawright's roommate's illness, would have been developed favorably to Plaintiff through discovery." This is simply not true. [Defendant's] counsel notified [Plaintiff's] former counsel … thirteen months before Johnson filed suit, that Seawright's perception that he was fired because [Defendant] thought he was HIV-positive was utterly groundless. [Defendant] never wavered from that position, and [Defendant] told [Plaintiff] and Johnson again and again and again that its management had no knowledge of Seawright's true relationship with [his roommate], had no knowledge that [the roommate] died of AIDS, and had believed in good faith [Plaintiff's] elaborate deception about the situation. Cutting through Johnson's self-serving justification of her pre-filing "investigation," Johnson clearly filed this lawsuit based on nothing more than her client's speculation and their presumption that there is a lot of "talk" in a small office.

Here, Dondero's Counsel likewise relied on Mr. Dondero's "elaborate deception about the situation" and filed the Motion for Leave "based on nothing more than her client's speculation," which stood in stark contrast to (a) four years' worth of court filings, (b) PSZJ's frequent, consistent statements to the Bankruptcy Court that it represented Highland, and only Highland; (c) more than three years' worth of litigation in this Court, the District Court, and the Fifth Circuit Court of Appeals in which PSZJ consistently represented Highland adversely to Mr. Dondero and Strand, and in which they just as consistently never mentioned their alleged

[13] 39 F. Supp. 2d 795, 806–07 (N.D. Tex. 1999).

representation by PSZJ or any conflict of interest stemming from that representation;[14] and (d) the statements made (and not made) in the EOUST Letter. Dondero's Counsel's reliance on Mr. Dondero's "beliefs" is especially egregious since—as Dondero's Counsel knew or should have learned in the two years before filing the Motion for Leave—***one party's subjective beliefs cannot form the basis of an "implied" attorney-client relationship under Texas law***. Opposition ¶¶ 36–38.

c. ***Third***, a pre-filing investigation was easily feasible given that substantial information was publicly available that flatly contradicted Mr. Dondero's contentions. Moreover, Dondero's Counsel also could have—and should have if they wanted to fulfill their obligations under Rule 9011—asked (a) Dondero's Other Lawyers (*see* n.14 above) why none of them ever asserted a conflict or sought to disqualify PSZJ,[15] and (b) Mr. Dondero why he omitted from his extensive malpractice suit against Bonds Ellis any claim or allegation that they negligently failed to seek PSZJ's disqualification on the grounds of a "conflict of interest." *See* Exhibit 9. Dondero's Counsel cannot credibly argue that a reasonable inquiry was infeasible over the last two years.[16] And, it bears repeating that Ms. Ruhland never bothered to respond to Mr. Pomerantz's unequivocal statement in February 2022 that PSZJ never represented Strand.

[14] A quick review of the docket shows that Mr. Dondero and his affiliates have been represented over the years by Bonds Ellis, Stinson, Heller Draper & Horn, LLC, K&L Gates LLP, Munsch Hardt Kopf & Harr, P.C., and Sbaiti & Company (among other firms, collectively, "**Dondero's Other Lawyers**")—none of whom ever contended that PSZJ previously represented Mr. Dondero or Strand or asserted that PSZJ had a conflict of interest or should be disqualified on that basis. Didn't Dondero's Counsel wonder why? Did Dondero's Counsel even bother to ask or did they just blindly accept Mr. Dondero's story?

[15] If Dondero's Other Lawyers knew about Mr. Dondero's newly announced belief concerning PSZJ's alleged representation of him and Strand and did nothing about it, then PSZJ's waiver defense becomes even stronger (and those lawyers themselves may have committed malpractice). If they did not know about Mr. Dondero's belief, then it becomes even more certain that Movants' claim is fabricated and is being pursued to harass PSZJ and interfere with the implementation of Highland's Plan. Either way, Dondero's Counsel had an affirmative duty to inquire given the available and contrary facts.

[16] Relying on "good faith" alone without reasonably reviewing relevant and available documents is grounds for sanctions. *See, e.g, generally, Insurance Benefit Adm'rs, Inc. v. Martin,* 871 F.2d. 1354 (7th Cir. 1989).

d. ***Fourth***, Dondero's Counsel has been "on the case" regarding PSZJ's supposed representation of Strand since at least February 2022, and there is no evidence that Dondero's Counsel inherited this matter from other counsel (*e.g.,* a notice of substitution of counsel was never filed).

e. ***Fifth***, there is nothing complex about determining whether PSZJ was or was not counsel to the Movants, especially not for Ms. Ruhland, an experienced trial lawyer, managing partner of RJLF's Austin office, and formerly a partner in a large and sophisticated law firm, DLA Piper. Surely Dondero's Counsel understands the basics of forming an attorney-client relationship under Texas law and the implications of how PSZJ's sworn statements and those of Strand's officers concerning PSZJ's sole representation of Highland (*e.g.*, the Retainer Agreement, the Employment Application, the Pomerantz Statements, and the Final Fee Application) conflicted with Mr. Dondero's story. Whether an attorney-client relationship has been formed cannot fairly be regarded as a complex issue for Ms. Ruhland, the author of the *Attorney-Client Privilege Answer Book* published by the Practising Law Institute, and a member of the Board of the Texas General Counsel Forum.[17]

f. ***Sixth***, nothing about the fundamental allegation that PSZJ was somehow counsel to either Mr. Dondero or Strand in late 2019 and early 2020 requires discovery as part of the reasonable inquiry mandated by Rule 9011. Dondero's Counsel already had access to enough evidence establishing that Movants' claim is meritless and barred by obvious defenses: Mr.

[17] Under Rule 9011, Dondero's Counsel also had a duty to conduct a reasonable inquiry into PSZJ's obvious defenses such as waiver, the statute of limitations, and *res judicata*. "[T]he 'reasonableness' of the rules requires a party to consider 'whether any obvious affirmative defenses bar the case.' *White v. General Motors Corp.,* 908 F.2d 675, 682 (10th Cir.1990), *cert. denied,* 498 U.S. 1069, 111 S. Ct. 788, 112 L. Ed. 2d 850 (1991)." *FDIC v. Calhoun,* 34 F.3d 1291, 1299 (5th Cir. 1994). The Proposed Complaint's suggestion that if the statute of limitations expired grounds exist to support "equitable tolling" shows that Dondero's Counsel was aware of the statute of limitations defense PSZJ raised in its Opposition. But the claim that equitable tolling might apply here is so utterly devoid of merit that it should be sanctionable in its own right.

FDIC v. Calhoun, 34 F.3d 1291, 1299, 1994 U.S. App. LEXIS 28971, *20, 30 Fed. R. Serv. 3d (Callaghan) 868

Dondero's story; the absence of any written evidence corroborating Mr. Dondero's story, including the lack of any engagement agreement between PSZJ and Mr. Dondero or Strand or other document referring to any attorney-client relationship between PSZJ and the Movants; PSZJ's receipt of payment only from Highland in connection with the chapter 11 case; Mr. Pomerantz's email responding to Ms. Ruhland's letter in February 2022 and Ms. Ruhland's conspicuous silence to that e-mail; PSZJ's unchallenged representations under penalty of perjury in the Pomerantz Statements; PSZJ's representations in the Employment Application and Final Fee Application; the failure of Mr. Dondero and Strand to raise the issue of PSZJ's alleged representation of them or the conflict of interest that would have resulted from that representation in any of the multiple litigations in which PSZJ represented Highland against Mr. Dondero or Strand, or in opposition to the Final Fee Application; the failure to address the "conflict of interest" question or PSZJ's alleged violation of Bankruptcy Code §327(a) or Bankruptcy Rule 2014 in any of the EOUST Letters; or Mr. Dondero's failure to contend that Bonds Ellis committed malpractice by not seeking PSZJ's disqualification. No "discovery" was needed for Dondero's Counsel to understand that their clients' contentions, lacking supporting evidence or other substantiation, were contradicted by four years' worth of documentary evidence, court filings, and their clients' own conduct (and silence). Everything Dondero's Counsel needed to know to spark a reasonable inquiry into the veracity of the factual allegations at the heart of the Motion for Leave was already known or was readily available to Dondero's Counsel. This was never a situation in which a suit had to be filed simply to obtain discovery to substantiate a good-faith belief in the merits of a claim.[18]

---

[18] *See, e.g., Seawright,* 39 F. Supp. 2d at 806 ("Johnson argues that 'at the outset, it was reasonable to believe that other issues … would have been developed favorably to Plaintiff through discovery.' This is simply not true."; calling Johnson's justification of her pre-filing investigation "self-serving" and placing the word "investigation" in derisive quotation marks).

10. Dondero's Counsel prepared, signed, and filed a Motion for Leave (and the Proposed Complaint) without ever engaging in the type of reasonable inquiry Rule 11 requires. If Dondero's Counsel had made reasonable inquiry, they would have readily seen how utterly baseless and meritless the Motion for Leave and Proposed Complaint were, and how hopeless their efforts to satisfy the Gatekeeper Colorability Test would prove when the Motion for Leave saw the light of day. That reasonable inquiry also would have engendered a strong suspicion that Mr. Dondero was attempting to manipulate his lawyers into filing an action based on a recently-fabricated story contradicting obvious reality as part of his years-long, vindictive litigation assault on Highland, the Creditor Trust, their management and their professionals that had already resulted in numerous meritless, unsuccessful motions, objections, and appeals up and down the federal court system. Instead, Dondero's Counsel either looked the other way or chose not to look at all.

11. Bankruptcy Rule 9011 applies not only to the signing of a pleading, but also to the continued advocacy of a meritless position contained within a pleading.[19] "As the Advisory Committee Notes to Rule 11 explained, a litigant's Rule 11 obligations include reaffirming to the court and advocating positions contained [in pleadings] after learning that they cease to have merit."[20] Having had an opportunity to consider the Opposition and supporting documentation, and having still failed to withdraw the Motion for Leave, additional sanctions should be imposed for continuing to advocate meritless, evidentiarily unsupportable, frivolous, and harassing positions in this Court.

[19] *See* FED. R. BANKR. P. 9011(b) ("By presenting to the court (whether by signing, filing, submitting, **or later advocating**) …") (emphasis added).

[20] *Theokary v. Abbatiello* (*In re Theokary*), 468 B.R. 729, 746 (Bankr. E.D. Pa. 2012) (citing *Turner v. Sunguard Bus. Sys. Inc.*, 91 F.3d 1418, 1422 (11th Cir. 1996)).

III. CONCLUSION

12. For the reasons stated above, PSZJ respectfully requests that the Court impose sanctions under Rule 9011 because the Motion for Leave and Proposed Complaint (a) is not warranted by existing law or by a nonfrivolous argument for the extension, modification or reversal of existing law or the establishment of new law; (b) the allegations and factual contentions are not warranted by the evidence and never will be; and (c) were filed for an improper purpose, such as to harass and interfere with Highland's implementation of the Plan. PSZJ also respectfully requests that the Court grant any additional relief the Court deems just and proper under the circumstances.

Subject: Highland: Request to Extend Time to File Rule 11 Motion (TIME SENSITIVE)

Amy:

Thank you for your call and for letting me know that you and your firm will not move forward with Mr. Dondero and Strand's motion for leave to sue PSZJ (the "Motion").

We have considered your request that PSZJ refrain from filing the Rule 11 motion for seven (7) days but decline to do so.

We therefore reiterate what we have told you for a couple of weeks: PSZJ will file the Rule 11 motion tomorrow if your Clients' Motion is not withdrawn by 11:59 p.m. Central Time today.

Regards,

John

EXHIBIT 15

IN THE UNITED STATES BANKRUPTCY COURT
FOR THE NORTHERN DISTRICT OF TEXAS
DALLAS DIVISION

In Re: HIGHLAND CAPITAL MANAGEMENT, L.P., Debtor.	**Case No. 19-34054-sgj-11** Chapter 11 Dallas, Texas Monday, August 8, 2022 9:30 a.m. Docket
UBS SECURITIES, LLC, et. al., Plaintiffs, v. HIGHLAND CAPITAL MANAGEMENT, LP, Defendant.	**Adversary Proceeding 21-3020-sgj** HIGHLAND CAPITAL MANAGEMENT, L.P.'S MOTION TO WITHDRAW ITS ANSWER AND CONSENT TO JUDGMENT FOR PERMANENT INJUNCTIVE RELIEF [169]

TRANSCRIPT OF PROCEEDINGS
BEFORE THE HONORABLE STACEY G.C. JERNIGAN,
UNITED STATES BANKRUPTCY JUDGE.

APPEARANCES:

For Plaintiff UBS Securities, LLC:	Andrew Clubok Shannon Elizabeth McLaughlin LATHAM & WATKINS, LLP 555 Eleventh Street, NW, Suite 1000 Washington, DC 20004-1304 (202) 637-2335
For Plaintiff UBS Securities, LLC:	Kathryn (Katie) George LATHAM & WATKINS, LLP 330 North Wabash Avenue, Suite 2800 Chicago, IL 60611 (312) 876-6567

25 Proceedings recorded by electronic sound recording;
transcript produced by transcription service.

1 DALLAS, TEXAS - AUGUST 8, 2022 - 9:47 A.M.
2 THE COURT: 21-3020. Mr. Clubok, I saw you out there
3 earlier. Are you appearing for UBS?
4 MR. CLUBOK: Yes. Good morning, Your Honor. Andrew
5 Clubok; Latham & Watkins; on behalf of UBS. And I'm here also
6 with my colleagues Kathryn George and Shannon McLaughlin.
7 THE COURT: Okay. Thank you.
8 All right. For the Debtor, Mr. Morris, are you appearing?
9 MR. MORRIS: Yes. Good morning, Your Honor. John
10 Morris; Pachulski Stang Ziehl & Jones. I'm joined by my
11 colleagues Jeffrey Pomerantz and Greg Demo for the reorganized
12 Highland Capital Management, LP. And we have today with us
13 Mr. Seery, who will present some live testimony today.
14 THE COURT: Okay. Good morning to all.
15 All right. The Committee was an intervenor, I believe, in
16 this adversary. Is there any appearance by the Committee? Or
17 I should -- well, --
18 MR. MORRIS: I think that was before the effective
19 date, Your Honor.
20 THE COURT: That was --
21 MR. MORRIS: Yeah.
22 THE COURT: I guess we have no Committee anymore.
23 The Liquidating Trustee. I don't know if the Liquidating
24 Trustee stepped in the shoes of the Committee.
25 (No response.)

1 THE COURT: Okay. Anybody I've missed?
2 MR. SODERLUND: Your Honor, this is -- good morning,
3 Your Honor. This is Eric Soderlund with Ross & Smith. We
4 represent nonparties to this adversary: Scott Ellington,
5 Isaac Leventon, Katie Lucas, J.P. Sevilla, Matt DiOrio, and
6 Stephanie Vitiello. We're just monitoring the hearing, but I
7 did want to make an appearance and let the Court know we're
8 here.
9 THE COURT: Okay. Thank you.
10 All right. Well, if there are no other appearances, Mr.
11 Clubok, you may proceed.
12 MR. CLUBOK: Thank you, Your Honor. Technically, I
13 think --
14 THE COURT: Oh, actually, let me -- it's Highland's
15 motion to withdraw --
16 MR. CLUBOK: Yeah.
17 THE COURT: -- its answer, so I was thinking
18 Plaintiff go first, but actually it makes more sense for
19 Highland to go first. So, go ahead.
20 MR. CLUBOK: Yes.
21 MR. MORRIS: Thank you, Your Honor. Again, John
22 Morris from Pachulski Stang for Highland.
23 We're here today on Highland's motion to withdraw its
24 answer and to consent to the judgment that has been requested
25 by UBS.

1 We thought it was very important, Your Honor, to create an
2 evidentiary record to enable the Court to rule on that motion.
3 As Your Honor will recall, at the time this adversary
4 proceeding was commenced, Highland had just recently
5 discovered and had shared with UBS certain facts that it had
6 identified with respect to the transfer of certain assets that
7 appeared to belong to entities against which UBS had obtained
8 a judgment.
9 And at the time the action was commenced, the Reorganized
10 Debtor -- I guess at that time it was really still the Debtor
11 -- did not feel that it had sufficient personal knowledge in
12 order to address the merits of the allegations that were made.
13 And so we specifically told the Court and all parties in
14 interest that we felt we needed a fulsome evidentiary record.
15 And having concluded that, Mr. Seery on behalf of the
16 Reorganized Debtor seeks to terminate this litigation and
17 confess to judgment.
18 I've got a brief opening statement that I'd like to make,
19 but before I do that, Your Honor, there has been one
20 meaningful development since we last met with the Court that
21 I'm going to defer to Mr. Clubok to report at this time.
22 THE COURT: All right. Mr. Clubok?
23 MR. CLUBOK: Yes, Your Honor. Sometimes we --
24 development is a euphemism for something bad, but in this case
25 it's something good. And that is we, on Friday morning,

1 reached a memorandum of understanding with Sentinel that we
2 believe will ultimately result in several papers that we will
3 be -- that will be submitted to the Court I believe through
4 the 9019 process, hopefully in a matter of weeks.
5 Now, that's going to resolve a large portion of what we're
6 doing here today, but really it sort of highlights the fact
7 that what UBS has always wanted in this proceeding is for the
8 Court to issue a permanent injunction so that all of these
9 assets are frozen, the ones we know about now and probably the
10 ones we keep finding. Every time we turn around, we find a
11 new one. By permanent, we mean until a court orders the
12 disposition through a proceeding or pursuant to a settlement.
13 So this new news from Friday is good, and it really sets
14 the table for this proceeding so that we can do this once and
15 for all, ideally, where the Court hopefully agrees with what
16 apparently Highland agrees, there should be an injunction,
17 that we've met the standard, assuming we can present the
18 evidence to you. And I would note that public interest is a
19 factor, too, so that's another reason why we just want to make
20 sure we have a full evidentiary record.
21 We will not then need to repeat this record, we can then
22 use the same record and refer to it for the expected 9019
23 process, and we can be very efficient.
24 Also, in light of that and in light of other stipulations
25 we've reached, I just wanted to advise the Court we do think

1 we can have a relatively streamlined process here. For
2 example, I am going to defer my opening statement and just let
3 Mr. Morris make his opening statement and his presentation,
4 and I'll defer until the back half.
5 We've also agreed to stipulate to I believe all of the
6 exhibits on each other's lists. If Your Honor would like me
7 to specifically read out the numbers, I can do that for
8 housekeeping. If it's more convenient, just very quickly I
9 can identify the exhibits, at least on UBS's list, and then
10 Mr. Morris can add his as well, so we don't have to keep doing
11 that as Mr. Seery testifies.
12 THE COURT: All right. Thank you for that report.
13 Let's go ahead and get the exhibits on the record before we do
14 anything else.
15 Mr. Morris, it looks like you had, at Docket No. 176,
16 Exhibits 1 through 10 designated. Is that correct?
17 MR. MORRIS: That's correct. And with Mr. Seery
18 available to testify, we'd also respectfully move into
19 evidence his declaration, which can be found at Docket No.
20 170.
21 THE COURT: All right. So I'm hearing, Mr. Clubok,
22 no objection to that?
23 MR. CLUBOK: No objection, Your Honor.
24 THE COURT: So the declaration at 170, as well as the
25 10 exhibits at 176, will be admitted.

1 (Defendant's Exhibits 1 through 10 and the declaration of
2 James Seery are received into evidence.)
3 THE COURT: And then turning to UBS's exhibit list,
4 UBS at Docket 177 had it looks like 41 or 42 exhibits,
5 including the declaration of Mr. Seery. There's no objection,
6 Mr. Morris, to all of those coming in?
7 MR. CLUBOK: Your Honor, briefly, we did file an
8 amended --
9 THE COURT: Oh.
10 MR. CLUBOK: -- exhibit list this morning that we
11 have -- that we have provided in advance to Mr. Morris. It's
12 obviously not made its way to you yet. It's Docket No. 179.
13 And we -- if you haven't gotten hard copies yet, you won't
14 need them for the purpose of this hearing, but you'll have
15 them shortly if you don't have them yet. We have extra for
16 the relevant exhibits that we'll put up on the screen each
17 time we refer to them.
18 THE COURT: All right. So, are they filed on the
19 docket or did you deliver hard copies?
20 MR. CLUBOK: Yes. I believe both, Your Honor. It's
21 179. I have Docket 179.
22 THE COURT: Okay. I'm pulling it up.
23 MR. CLUBOK: And the hard copies, I guess -- maybe
24 the hard copies haven't yet been delivered, but they're on
25 their way and you should get them by -- by the end of the

1 hearing.
2 THE COURT: Okay.
3 MR. CLUBOK: Or shortly thereafter.
4 THE COURT: Bear with me.
5 (Pause.)
6 THE COURT: Okay. There they are. 179. Okay. It
7 looks like you've added some exhibits, so we're now up through
8 51 exhibits. Is that correct?
9 MR. CLUBOK: I believe that's right, Your Honor. I
10 can -- just because there's a couple of gaps, maybe if it
11 would help I can just read the numbers of the ones that we
12 wish to move into -- for the record, so the record's clean,
13 I'll just read off the numbers?
14 THE COURT: Okay.
15 MR. CLUBOK: So, we -- UBS would like to move into
16 evidence Exhibits 1 through 12, Exhibits 14 through 23,
17 Exhibits 25 through 35, Exhibits 37 through 53. And with the
18 one caveat being, Your Honor, that some of those exhibits are
19 deposition transcripts. For those, we have designated the
20 portions that we'd like to move into evidence through
21 highlighting. And you'll, if you haven't already, you'll be
22 receiving those as well. And so it's the -- for the
23 deposition transcripts of those exhibits I just identified,
24 it's the highlighted or designated portions.
25 THE COURT: Okay.

1 MR. CLUBOK: And all this has been shared with
2 Highland.
3 THE COURT: Very good. And Mr. Morris, do you
4 confirm you're okay with those coming in?
5 MR. MORRIS: I do. I just want to make a very brief
6 note that the reason we have no objections to the exhibits
7 today isn't because we don't have views as to the evidentiary
8 rules. We actually exchanged exhibit lists on Thursday before
9 they were filed with the Court. Highland did object to a
10 number of exhibits that were on UBS's proposed exhibit list
11 and they withdrew them. And so that's really the reason why
12 there is no objection today, is because we actually took the
13 time to meet and confer and to go through any evidentiary
14 concerns prior to today.
15 So, with that background, Highland has no objection.
16 THE COURT: Okay. So these UBS exhibits named will
17 be admitted.
18 (UBS Securities, LLC's Exhibits 1 through 12, 14 through
19 23, 25 through 35, and 37 through 53 are received into
20 evidence.)
21 THE COURT: All right. Well, are we ready for
22 opening statements? Mr. Morris?
23 MR. MORRIS: Yes, Your Honor.
24 THE COURT: You may proceed.
25 MR. MORRIS: Thank you very much.

1 OPENING STATEMENT ON BEHALF OF THE DEFENDANT
2 MR. MORRIS: Good morning, Your Honor. John Morris;
3 Pachulski Stang; for Highland.
4 We're here today on Highland's motion to withdraw its
5 answer and to confess to judgment. And I want to just cover
6 certain facts that we believe will be reflected in the record
7 and to share with Your Honor certain perspectives that we
8 have.
9 The facts here I think are largely not in dispute. They
10 concern the August 2017 transfer of assets from certain funds
11 that were under the control of James Dondero to a Cayman
12 Islands putative insurance company that was owned by Mr.
13 Dondero and Mr. Ellington.
14 The evidence will show that the funds that transferred
15 their assets to Mr. Dondero's -- at Mr. Dondero's direction
16 were defendants in a lawsuit that was brought by UBS in New
17 York and that the transfers were effectuated immediately after
18 the New York court denied the Highland entities' motion for
19 summary judgment.
20 The evidence will show that the Debtor's independent board
21 was unaware of these transfers until they were uncovered in
22 late January and early February 2021, and that the reason for
23 the transfers was unknown until that time by the independent
24 board precisely because certain former Highland employees
25 actively and intentionally worked to conceal them.

1 I don't have a PowerPoint presentation today, Your Honor.
2 I want to just look at three documents. The first one is an
3 insurance policy. And the reason for the transfers ostensibly
4 was to purchase what is called after-the-fact insurance. And
5 what's on the screen now is Highland's Exhibit 1. And if we
6 can go to the first page, you'll see that it's an email from
7 Isaac Leventon to someone named Chris Dunn. It's dated
8 October 2017. So this is just a few months after the court in
9 New York has denied summary judgment, and it follows on the
10 heels of an analysis that was prepared that I think is at UBS
11 Exhibit No. 7, an analysis of settlement options and
12 optionality following that decision.
13 Mr. Leventon attaches an insurance policy. He labels it
14 privileged. He says that all communications related to the
15 project are privileged.
16 You know, Your Honor, he's attaching an insurance policy.
17 I know of no basis to assert any privilege of any kind, but
18 this is the litigation team, if Your Honor will recall, that
19 was found to be subject to the crime fraud exception in
20 Delaware. It's the team that was found by the arbitration
21 panel in Redeemer, the Redeemer arbitration, to have engaged
22 in misleading conduct.
23 Again, it's troubling to find this document. And here's
24 the thing, Your Honor. You may be aware that UBS took
25 numerous depositions in this case. This particular document

1 wasn't uncovered -- actually, no, I'm confusing it with a
2 different document. So this document is sent by Mr.
3 Ellington, and he attaches the insurance policy.
4 If we could go to Page 19 of 20 of the PDF, and let's just
5 see exactly what this policy is. It's to insure certain
6 funds. These are the funds that are the Defendants in the UBS
7 action. The appointed representative is Paul Lackey, an
8 attorney now with the Stinson firm. Mr. Lackey is the
9 representative here. It's a policy that was effective as of
10 August 1, 2017. And it specifically covers the UBS action.
11 You'll see below, Your Honor, that it's supposed to be for
12 a $100 million policy with a premium of $25,000. $25 million.
13 So think about it. The New York court comes out with its
14 decision. They transfer all the assets from the Defendants
15 other than Highland to Mr. Dondero's captive insurance company
16 in the Cayman Islands. And they don't tell anybody.
17 And if we can go to the next page, you can just see Mr.
18 Dondero's signature on behalf of the various entities. And
19 the important point for us here, Your Honor, as the Debtors,
20 the former Debtors, the reorganized Highland, is that Highland
21 CDO Opportunity Master Fund is one of the insureds here, and
22 they're signing the document -- it's being signed by Highland
23 CDO Opportunity Fund GP, its general partner; Highland CDO
24 Opportunity GP, LLC, its general partner; and Highland Capital
25 Management, LP, its sole member.

1 So the acts that are being undertaken here, unbeknownst to
2 the independent board, Mr. Seery, and the postpetition
3 professionals, is that there was a transaction back in August
4 of 2017 in which the assets of the Defendants were put beyond
5 the reach of UBS.
6 The $25 million insurance payment premium was funded at
7 the same time, if we can go to Exhibit 2, with what's called a
8 purchase agreement. This purchase agreement, you can see,
9 Your Honor, is dated as of August 7, 2017. It's between
10 Sentinel Reinsurance and the two funds that were Defendants.
11 It is through this agreement that the funds transferred their
12 assets to Sentinel.
13 Sentinel is, I think I mentioned, a Cayman -- right, no
14 dispute about these facts -- is a Cayman Islands entity owned
15 by Mr. Dondero and Mr. Leventon.
16 And if we could go to Pages 4 and 5, we'll see again Mr.
17 Dondero signing on behalf of all of the Highland entities.
18 MR. SODERLUND: Your Honor, this is Eric Soderlund.
19 I just want to interrupt here. I think Mr. Morris said that
20 Sentinel was owned by Mr. Leventon.
21 THE COURT: Actually, I heard the same --
22 MR. SODERLUND: I don't think that's true.
23 THE COURT: I heard the same thing. Did you mean
24 Ellington?
25 MR. MORRIS: Right. Thank you. I did mean

1 Ellington.
2 THE COURT: Okay.
3 MR. MORRIS: Thank you so much.
4 THE COURT: Thank you.
5 MR. MORRIS: Appreciate the clarification. We -- I
6 do need to get this right.
7 So, you can see that Mr. Dondero is signing on behalf of
8 all of the Highland entities on Pages 4 and 5.
9 And if we can go down to Pages 7 and 8, you'll see
10 attached is a schedule. And what's really interesting, Your
11 Honor, is that if you add up the assets that are being
12 transferred to Sentinel, they don't equal $25 million. They
13 equal something approaching $300 million. And there will be
14 other evidence in the record that shows the fair market value
15 at the time was over $100 million.
16 In other words, the Defendants in the UBS action, the
17 evidence, and there really can never be a dispute about this,
18 transferred what appears to be all of their assets, with a
19 value in excess of what the benefit is under the so-called
20 insurance policy.
21 Why are these issues -- we can take this down now. Why
22 are these issues important, Your Honor? At Mr. Dondero's
23 direction, the funds were left judgment-proof. The only
24 assets it apparently had was this insurance policy.
25 This became critical in the spring of 2020, postpetition,

1 when the New York court entered judgments against the two
2 funds in amounts in excess of $500 million each. So those
3 judgments early in 2020 were for over a billion dollars. But
4 these transfers by these Defendants were never disclosed to
5 the board.
6 The evidence will show and Mr. Seery will testify and the
7 documents will corroborate his testimony that the transfers
8 were not only never disclosed, but that the independent board
9 relied specifically on Scott Ellington and Isaac Leventon to
10 learn about the UBS claim, to determine the defenses that the
11 Debtor asserted. And as Your Honor will recall, in 2020 the
12 Debtor spent enormous time, money, and effort, as the Court
13 did, defending against the claims against Highland. We took
14 -- we didn't really have an interest in the claims against
15 these two funds, but as to Highland at that point we had no
16 reason to believe that Highland had been engaged in any
17 wrongdoing, and we litigated accordingly. That's why this is
18 all so terribly important, Your Honor.
19 The evidence will show that, at the independent board's
20 direction, the Debtor's professionals pressed the Debtor's
21 employees for information relating to the funds' assets, only
22 to be effectively stonewalled.
23 I don't want to take the time to go through all of the
24 emails, but at Exhibits 5, 6, and 7 there is evidence in the
25 record that will show the Court -- to me, it just, you know,

1 it jumps out -- the answers that were given, you know, to Mr.
2 Demo and DSI's dogged and persistent inquiries. And you'll
3 see, Your Honor, that these employees did nothing but
4 obfuscate, engage in misdirection, and feign ignorance as to
5 basic matters. We just had a judgment entered for over a
6 billion dollars, and nobody told us about the transfer of
7 these assets in 2017, or the existence of the insurance
8 policy.
9 And we think that we know why. Because -- and this is the
10 document that we uncovered after the depositions, so nobody
11 has ever been asked about this -- but we found a document late
12 last year that's called an indemnification agreement. It's a
13 secret indemnification agreement between these employees and
14 Sentinel, and it was dated June 18, 2020. It is hard to think
15 of a document that could convey a consciousness of guilt more
16 than an indemnification agreement entered into weeks after the
17 New York court enters a billion-dollar judgment against
18 Defendants who have transferred all of their assets to the
19 indemnitor. Hard to imagine.
20 Mr. Dondero does not act alone. We've spent two years
21 talking about Mr. Dondero. Mr. Dondero does not act alone.
22 He is assisted by a group of loyalists who do his bidding in
23 exchange for substantial compensation and protection.
24 June 2020. At the very moment that Mr. Dondero is making
25 those $10 million of payments that he admitted to in open

1 court back in April, his insurance company is also
2 indemnifying Highland employees. And the source of the
3 indemnity are the assets that have been -- that were
4 transferred in 2017 from these Defendants to Sentinel.
5 Let's look at the indemnity agreement. It's Exhibit 9 on
6 the Debtor's exhibit list. And you'll see, Your Honor, in
7 Exhibit 9, if we could just scroll down, you can see that it's
8 sent to an entity called SAS Asset Recovery. You'll see in
9 the emails that I cited to earlier that Mr. Demo and DSI asked
10 numerous questions of the indemnitees, unknown to them at the
11 time, about what SAS was, and they all said they had no idea.
12 And yet this is an agreement dated June 18, 2020, on behalf of
13 Sentinel Reinsurance, where they -- where Sentinel indemnifies
14 six individuals.
15 And the language is startling, Your Honor, because while
16 Mr. Ellington has an ownership interest and Matthew DiOrio is
17 a director of Sentinel, the other signatories to this
18 indemnity agreement, to the best of our knowledge, have
19 absolutely no formal relationship with Sentinel in any way,
20 shape, or form, and yet Sentinel is thanking them for their
21 efforts, including as an agent in connection with the
22 preparation of documents and reports and, quote, other
23 activities as requested by Sentinel.
24 Postpetition, undisclosed, and it's issued at the time
25 huge payments of money are being made after the New York court

1 has issued its judgment and as Mr. Demo and DSI began -- begin
2 making very substantial inquiries as to the location of these
3 assets.
4 If we could go to Page 5, please. I want the Court to be
5 aware of the names of the signatories to this indemnity
6 agreement. We have Matthew DiOrio. Next page. Stephanie
7 Vitiello. Next page. Katie Irving. Next page. Isaac
8 Leventon. Next page. Scott Ellington. Next page. J.P.
9 Sevilla.
10 Your Honor, those six individuals are all over Exhibits 5,
11 6, and 7, the emails where Mr. Demo and DSI and Mr. Seery are
12 trying their hardest to find out whatever information they can
13 about SAS, Sentinel, and the assets of these two funds. These
14 are the six people who signed the indemnity, and they're the
15 six people are responding to the inquiries with no meaningful
16 factual information.
17 The transfers and the cover-ups have substantially harmed
18 the Debtor. The actions taken in 2017, in our view, were
19 plainly wrongful. They left Defendants judgment-proof. They
20 transferred assets to the Cayman Islands. They supposedly
21 paid over a hundred million dollars for a hundred-million-
22 dollar policy.
23 The Debtors spent significant time, money, and efforts,
24 substantial resources. They stand accused all the time of, oh
25 my god, they're spending so much money. Think about what --

1 and Mr. Seery is going to testify to this -- about how much
2 time, money, and effort went to defending against UBS's claim
3 against Highland. The mediation where we didn't have this
4 information. The motion for partial summary judgment. The
5 3018 proceeding. Right? And we finally got to a settlement
6 with them without this information.
7 The damage caused to the Debtor and the independent board.
8 We sat there and we made representations to the Court. You
9 know, in hindsight, they were not accurate. They just
10 weren't. And they weren't accurate. They weren't accurate to
11 UBS, they weren't accurate to the mediators, they weren't
12 accurate to the Court, because we just didn't know. We didn't
13 know anything about the policy. We didn't know anything about
14 the asset transfers. Substantial damage. Chasing nothing.
15 Most critically, Your Honor, it deprived the Debtor of
16 currency to settle its claim with UBS on favorable terms, and
17 that is the greatest damage of all. Highland was forced to
18 renegotiate its settlement with UBS because, based on Mr.
19 Dondero's signature under the Highland Capital name back in
20 2017, and based on the conduct of those six employees,
21 Highland had liability where it believed there was none. And
22 consequently, it had to -- had to increase very substantially,
23 by tens of millions of dollars, the allowed claim with UBS.
24 And then -- and then stand as a Defendant in these
25 proceedings.

1 We've been damaged hard. This is not -- this is not the
2 way the process is supposed to work. The massive transfer of
3 assets that leave Defendants judgment-proof. Undisclosed and
4 secret indemnity agreements that in and of itself constitutes
5 a massive breach of duty. The cover-up that immediately
6 followed the execution of the indemnity agreement.
7 We are just bankruptcy lawyers, Your Honor. Our duty is
8 only to maximize recovery for creditors. We're not
9 prosecutors. We're not the SEC. We're not the U.S. Trustee's
10 Office. We're not the Texas Committee of Attorney Discipline.
11 There's only so much that we can do. We'll continue to do our
12 jobs, and we're not presenting everything that we have here
13 today, and our investigation continues. But if nobody is held
14 accountable for this type of conduct, then the system is
15 broken. And I hope that's not the case.
16 So, we had expected Sentinel and its owners to intervene
17 and defend their conduct in this matter, but they chose not
18 to, although I'm grateful that their attorney or at least the
19 attorney of the individuals are here.
20 I do want to point out just one clarification. And Mr.
21 Clubok or Mr. Seery may correct me. But the directors at
22 Sentinel today who authorized the entry into the MOU are new
23 directors, and Mr. DiOrio and the others resigned as the heat
24 was being turned up last spring. They were replaced by new
25 directors. And that's, in our opinion -- this is not fact --

1 in our opinion, that's what enabled Sentinel to reach this
2 agreement that Mr. Clubok described.
3 But make no mistake. We don't pretend that we know where
4 all assets are. We don't pretend that we know the value of
5 the assets that may have been transferred. But based on the
6 evidence that Mr. Clubok and his team adduced during this
7 adversary proceeding, the Debtor, Highland, does not believe
8 it can defend against the claim, and therefore is prepared to
9 withdraw its answer and confess to the permanent injunction
10 that was sought by UBS.
11 That's all I have.
12 THE COURT: All right. Well, Mr. Clubok, I
13 understood you were waiving your opening statement, correct?
14 MR. CLUBOK: Yes, Your Honor.
15 THE COURT: Okay.
16 MR. CLUBOK: I'll defer it to my presentation.
17 THE COURT: All right. Mr. Morris, you may call your
18 first witness.
19 MR. MORRIS: With that, we'll call James Seery.
20 THE COURT: All right. Welcome back, Mr. Seery.
21 MR. SEERY: Good morning, Your Honor.
22 THE COURT: Please raise your right hand.
23 (The witness is sworn.)
24 THE COURT: All right. Thank you. Mr. Morris?
25 JAMES SEERY, DEFENDANT'S WITNESS, SWORN

1 DIRECT EXAMINATION
2 BY MR. MORRIS:
3 Q Good morning, Mr. Seery. Can you hear me okay?
4 A I can, yes.
5 Q Okay.
6 A Apologies on my end. There is some construction in the
7 background. If it interferes, please let me know. I'll try
8 to speak loudly.
9 Q Okay.
10 MR. MORRIS: Your Honor, we're not going through
11 every fact, and I actually don't even plan to share with Mr.
12 Seery any particular exhibits, so that we can try to get
13 through this fairly quickly. But if Your Honor has any
14 particular questions, of course, feel free to interrupt.
15 BY MR. MORRIS:
16 Q Mr. Seery, can you please just describe at a general level
17 your involvement with the Highland bankruptcy, including the
18 timing and titles that you've obtained?
19 A Yes. In the beginning of 2020, January 9th, I was
20 appointed as an independent director by the Court. Prior to
21 that, I didn't have any involvement with Highland. Prior to
22 2008, the business I ran at Lehman did business with Highland,
23 but between 2008 and 2020 I had no involvement whatsoever with
24 Highland. Was appointed as an independent director on January
25 9th, working with John Dubel and Russ Nelms, who were also

1 appointed as independent directors. And then in July, I
2 believe, of 2020, I was appointed by the Court as the interim
3 CEO and CRO of Highland Capital.
4 Q Okay. Did there come a time that you learned of the UBS
5 claim in this case?
6 A Yes. I learned of the UBS claim before I was even
7 appointed as an independent director. UBS had gotten a
8 decision prior to judgment in I believe November of 2019.
9 Prior to my apartment, I did diligence, and one of the
10 diligence items was to read that decision.
11 Subsequently, in I believe it was February of 2020, UBS
12 obtained an actual judgment against the two subsidiaries, both
13 indirect, but CDO Funds, which was a little bit more direct
14 subsidiary fund of Highland's, managed by Highland, and SOHC,
15 which was a direct subsidiary of HFP, which is Highland
16 Financial Partners, an indirect subsidiary of Highland.
17 Q And after being appointed, did the independent board do
18 any work to try to understand, you know, the merits and
19 potential defenses of the UBS claim?
20 A Absolutely. This was one of the critical issues in the
21 case. This, as I said, was a billion-dollar judgment against
22 subsidiaries, and the question was, was Highland liable?
23 There was really no question that the subsidiaries were
24 liable. There was already a decision and a judgment in
25 February. But was Highland going to be liable for that

1 decision?

2 UBS had theories, and we -- me, specifically -- did

3 hundreds of hours' worth of research and work around the

4 claims, and I'm sure my fellow directors read and analyzed

5 documents similar to the way that I did.

6 Q And did Mr. Leventon and Mr. Ellington make any

7 presentations to the board concerning the UBS claim?

8 A Yes. Mr. Leventon was the point person at Highland

9 managing the UBS litigation. He had been, as he described to

10 me directly on my first day, one of his chief jobs and one of

11 the reasons he was hired was to help manage the UBS

12 litigation. He reported directly to Mr. Ellington, who was

13 the general counsel and an officer of the general partner of

14 Highland. Mr. Ellington described himself as the person

15 chiefly responsible for all negotiations with UBS.

16 So, everything to do with the underlying transaction, the

17 ten years of litigation, and the various stops and starts in

18 potential settlements was encompassed by the knowledge held by

19 Mr. Ellington and Mr. Leventon.

20 Q Can you describe for the Court kind of your understanding

21 of the structure of the Highland legal department, the

22 hierarchy and who reported to whom and who was there?

23 A Yes. The legal department at Highland was a large group,

24 headed by Mr. Ellington as general counsel.

25 Mr. Leventon was responsible for all litigation.

1 Mr. Sevilla was a senior attorney who handled
2 predominantly transactions.
3 Mr. DiOrio was not an attorney but worked in the legal
4 department.
5 Ms. Irving was not an attorney but worked in the legal
6 department.
7 In addition, tangentially, or dotted-line, I think,
8 basically report, the CCO, Thomas Surgent, was connected to
9 the legal department.
10 And Tim Cournoyer was a transaction lawyer in the legal
11 department.
12 Other lawyers had come in and out, and there was a
13 paralegal, Helen Kim.
14 Stephanie Vitiello was also an attorney in the legal
15 department.
16 But that was the core group when I became an independent
17 director.
18 Q And I think you mentioned this at a very high level, but
19 how did the board educate -- how did the board interact with
20 the Highland legal group to educate itself on the merits of
21 the UBS claim against Highland, the potential defenses that
22 there was? Just give us a sense of, you know, what the
23 interaction was and what the interface was.
24 A Well, day-to-day -- and right at the beginning of the
25 case, as I say, a critical issue -- a ton of time spent with

1 Mr. Leventon going through every aspect of the case.
2 In addition, as I mentioned earlier, I read every document
3 related to the transaction and every one of the court
4 decisions that had been previously issued. Many of those
5 raised questions, and I'd address those generally to Mr.
6 Leventon as the point person.
7 There came a time in January or early February, pre-COVID,
8 so on the premises of Highland, that there was at least one,
9 possibly two, multi-hour meetings about the UBS litigation.
10 Mr. Leventon led those discussions, really educating myself as
11 the lead director, but also Mr. Nelms and Mr. Dubel as
12 independent directors about this critical issue.
13 Very specifically, Mr. Leventon provided a detailed
14 PowerPoint deck which he went through. And I recall it
15 because it'll come up later on with another deck that we found
16 from 2017 that had an unusual font, one that you typically
17 don't seem in PowerPoints. So Mr. Leventon presented that and
18 walked through every step of the transaction, what in his
19 view, or at least what he communicated to us, had happened,
20 how the subsidiaries were set up, his statements that they
21 were special purpose entities and that they had no assets, and
22 how the litigation then unfolded after the default in 2000 --
23 late 2008, early 2009.
24 Q And based on the review that you've described and your own
25 due diligence, based on the facts that you had at the time,

1 did the independent board form a view as to its perception of
2 the merits of UBS's claim against Highland Capital Management,
3 LP?
4 A Yes. I and the rest of the board, based upon the -- both
5 the documents we reviewed and the description of the
6 circumstances and the litigation provided to us by Mr.
7 Leventon primarily and Mr. Ellington and the other people in
8 the legal department -- and I should just, as an aside, say
9 the ones in that meeting are Sevilla, DiOrio, Irving,
10 Ellington, Leventon, nobody else. I don't recall Stephanie
11 Vitiello being in that particular meeting or meetings. But
12 our view that we developed from those -- from that work and
13 from the independent work we did was that Highland didn't have
14 any liability for the UBS judgments. It was clear that the
15 subsidiaries did, and the underlying documents made clear that
16 they were responsible to UBS. But our perspective from that
17 work and the information we received from the legal department
18 was that UBS was reaching, its claims were only against subs
19 that never had any assets, and that Highland should not be
20 held responsible for any of the damages from the transaction.
21 Q And do you recall, at around the time of the mediation in
22 the summer of 2020, did UBS press their informational requests
23 for documents concerning the assets of the funds? Do you
24 recall that at all?
25 A Yes, they did. They actually started earlier, and we took

1 the perspective initially that we didn't need to provide any
2 documents to them because we were going to really move for
3 summary judgment. We took a very aggressive posture in
4 respect of that position.
5 When we came to the mediation, there was a slightly
6 different structure and relationship in that you're trying to
7 work towards an understanding, so you really weren't able,
8 between the parties and the mediators, you know, you weren't
9 really able to say, we're not going to give you anything, so
10 we took the perspective that we should just turn over
11 everything because we've got nothing to hide.
12 And UBS took that very directly and made pretty
13 substantial discovery requests on us with respect to their
14 claim and the mediation, particularly with respect to the
15 underlying assets that they claimed that the CDO Fund and SOHC
16 had and wanted to know what happened to them. And the
17 Highland legal department, as previously described, led by
18 Leventon, said they didn't exist and there were no assets.
19 Q Did they in fact, though, identify, I think, two assets?
20 A Ultimately, --
21 Q (overspoken) and the Multi-Strat?
22 A Ultimately, they identified, and this was Mr. Leventon,
23 cash that had been used for -- purportedly used for legal
24 fees. And it was a significant amount. And that was a bit
25 startling, because previously we'd been told there was no --

1 there were no assets there, so it was startling that all of a
2 sudden, well, there was cash, but it was spent. And we
3 pressed Mr. Leventon on that.
4 In addition, they identified interests in -- potential
5 interests in an entity called Greenbrier. And that was a very
6 confusing description from Mr. Leventon, and it didn't make a
7 lot of sense. But if there was an asset in CDO Fund or SOHC
8 that was owned and had value, then it should have been
9 incumbent on Highland to discover that asset and use that
10 asset in settlement, because, from our perspective, if there
11 was anything in those subsidiaries, we should turn it over to
12 UBS and try to use that to settle the litigation, because it
13 would never come to Highland since these entities had
14 judgments in excess of a billion dollars against them.
15 Q All right.
16 MR. MORRIS: Your Honor, just so the record is clear,
17 the emails that relate to these issues can be found at
18 Exhibits 5 and 6. They're from August 2020.
19 THE COURT: Okay.
20 BY MR. MORRIS:
21 Q And do you recall, in the fall, based on the information
22 that the independent board had at the time, that the Debtor
23 proceeded with their motion for summary judgment and their
24 3018 hearing with UBS?
25 A Yes. And previous to that, we'd gone through the

1 mediation with two experienced mediators. It was a very
2 intense experience. Aggressive from both our side and UBS's
3 side. So we had gone through that mediation.
4 We had endeavored during the mediation to provide
5 discovery around this Greenbrier and any other assets. Both
6 Mr. Leventon and Mr. Ellington made very specific
7 representations to me and to the board and to our counsel
8 regarding lack of assets and the ability to find any assets
9 and that there was really nothing there.
10 So we went through the mediation and were unable to
11 resolve anything with UBS. The parties were incredibly far
12 apart. And we decided to move for summary judgment. And that
13 became a very tall order because of the complexity of the
14 claims and the complexity of the underlying litigation.
15 We dug in really hard on that, and ultimately had a
16 hearing both with respect to summary judgment -- partial
17 summary judgment as well as with respect to estimating UBS's
18 claim.
19 Q And as the calendar rolled towards the end of the year, do
20 you recall that the Debtor was preparing for confirmation?
21 A Yes. We had developed the monetization plan in the late
22 fall of 2020. We were at the same time trying to structure
23 potential settlements with the creditors. We took the
24 perspective with respect to UBS that it was unlikely we were
25 going to get a settlement. And so as we moved forward with

1 the plan, when looking at it, can see there's a lot of
2 mechanisms that basically assumed that we won't be settled
3 with UBS. They'll be on an oversight board, but that
4 ultimately we're going to be litigating with them to determine
5 what their claim could be.
6 Q I'm not testifying, but I do remember there was an awful
7 lot going on in January 2021. Did you and the independent
8 board ultimately reach an agreement in principle with UBS on
9 the resolution of their claim?
10 A Yes. And coming into -- your statement about January 2021
11 is absolutely correct. But it really went through the fourth
12 quarter and then January 2021.
13 As the Court will recall, we had a number of hearings in
14 December of 2020 that were intense: contempt, injunction,
15 preliminary to the plan process, disclosure statement. There
16 were depositions. There were challenges -- there were
17 significant challenges to Highland's management of both its
18 assets and managed fund assets.
19 We discovered some significant problems with what we
20 thought was going on in the legal department at that juncture,
21 which led to the termination of Mr. Ellington and Mr. Leventon
22 on January 5, 2021. And then January 2021 was chockful of
23 hearings from contempt to HarbourVest to preliminary
24 injunction, and ultimately confirmation at the beginning of
25 February.

1 Q Did the termination of Mr. Leventon in particular have any
2 impact on the independent board and management's ability to
3 access information?
4 A Well, both Mr. Leventon and Mr. Ellington then opened up
5 -- which we probably could have done before -- but opened up
6 our access to their email accounts. And in respect of Mr.
7 Leventon, an interesting thing happened when I went to send
8 him his termination notice. Microsoft Outlook thankfully
9 filled an entity called SAS Management into the address bar.
10 And I didn't know what SAS Management was. I had no
11 familiarity with it. It wasn't something I'd seen. So I
12 tasked outside counsel, Mr. Demo, as well as DSI, Mr. Romey,
13 to figure out what SAS was and why that was showing up for Mr.
14 Leventon. That led us to do reviews of their email, and
15 particularly Mr. Leventon, a significant amount of information
16 that we developed over the next several months.
17 Q And did you instruct my colleague, Mr. Demo, and DSI to
18 continue to pursue, you know, any information relating to SAS?
19 A Absolutely. What we did was we -- at the same time we
20 were doing this, we were trying to settle with UBS. One of my
21 fellow directors was really leading that. I didn't think
22 there was much chance of settling with them, primarily because
23 I thought there was no way to bridge the gap. And frankly, I
24 was of the firm, firm view that Highland shouldn't have any
25 liability because the allegations that Highland had prevented

1 UBS from recovering on its judgments really didn't have any
2 basis based on the facts that I had at the time.
3 But as we continued to look at what SAS might be and
4 whether that was an asset of the Debtor and what it meant to
5 the Debtor, whether Debtor employees were involved, we started
6 finding more and more information about other assets and other
7 dealings with respect to UBS.
8 We did find that this SAS entity had been around for quite
9 some time. It was, in essence, a secret entity. The legal
10 department -- Ellington, Leventon, Sevilla, Vitiello, I
11 believe, Irving, DiOrio -- all had SAS, my recollection is all
12 had SAS Management emails. They were stored on a separate
13 server so we couldn't uncover those. We could only find
14 things that were sent to the SAS server.
15 Q And did any of those individuals share with you or the
16 Debtor's professionals any substantive information concerning
17 SAS at the time?
18 A None at all. What we did do, though, is because we could
19 then use SAS to search through the entire Highland databank,
20 we did find -- let's see how to describe it; we have a
21 colloquial term that I won't use -- but charts that showed the
22 ownership of SAS and the -- and that led to the ownership of
23 Sentinel. And we didn't know what Sentinel was, but one of
24 our outside professionals recalled Sentinel is a redeemer out
25 of the Multi-Strat fund. So that got us looking at who is

1 Sentinel and who owns Sentinel.
2 The records were ultimate beneficial owner, what they call
3 UBOs, but because of the requirements of the Cayman
4 authorities, ultimately Mr. Ellington and Mr. Leventon -- Mr.
5 Dondero had to produce their passports and information to show
6 the ultimate beneficial owners, but they're never actually
7 listed as Mr. Ellington and Mr. Dondero. They're only listed
8 on the charts as UBO 1 and UBO 2.
9 And that shows a whole bunch of different entities,
10 including SAS. And apparently, Ms. Irving worked on a lot of
11 this stuff in the Caymans for either SAS or for these other
12 entities, notwithstanding being a full-time employee of
13 Highland in the legal department.
14 Q Was -- do you recall if Matt DiOrio was involved in
15 responding to the requests of you and your team in January and
16 early February 2021?
17 A Yes. So, after Mr. Leventon's termination, Mr. DiOrio was
18 tasked by Mr. Demo and Mr. Romey to help figure out what SAS
19 was, what Sentinel was, and any information regarding these
20 Cayman entities.
21 He professed ignorance. We now know that he was a
22 director at the time of his protestations of no knowledge.
23 And in addition, he, with respect to other people on the email
24 chain, texted some and said, I've got this, notwithstanding
25 that he didn't produce any information, even though he had

1 been directly asked for it.
2 Q When you say that --
3 MR. MORRIS: Ms. Canty, can you put up Exhibit 10?
4 It's just a text message. I just want to make sure the Court
5 understands the context for Mr. Seery's testimony.
6 But Your Honor, while she's doing that, I would just point
7 the Court to Highland's Exhibits 7 and 8, which are other
8 lengthy email strings from late January 2021 where, at Mr.
9 Seery's direction, the Debtor's professionals were seeking
10 information about these matters.
11 And if we could just scroll down here, what's on the
12 screen now is Exhibit 10, Your Honor.
13 BY MR. MORRIS:
14 Q Mr. Seery, can you just describe for the Court what your
15 understanding of this text message is?
16 A See if I can see it. This is a text message from DiOrio
17 to Thomas Surgent. Thomas, as I said, is in the legal
18 department tangentially, but is really the CCO. This is Mr.
19 DiOrio telling Mr. Surgent, I've got the request, you don't
20 have to worry about it.
21 And so that led to a number of obfuscating emails as well
22 as a failure to respond and significant delays. Ultimately,
23 when -- and I'm not sure if this was before Mr. DiOrio was
24 terminated or after he was terminated, as soon as we went to
25 Mr. Surgent directly, he quickly provided the documents --

1 searched for them and found the documents that we needed on
2 the Highland system.
3 Q Okay. So let's --
4 MR. MORRIS: We can take that down now. Thank you
5 very much.
6 BY MR. MORRIS:
7 Q Let's just go to the next step. What does the independent
8 board learn in late January or early February -- withdrawn.
9 Did there come a time when the independent board made a
10 disclosure to UBS?
11 A Yes. So, as we were doing this work in January and early
12 February -- and remember, as I said earlier, this is while
13 there's probably five to ten hearings going on that are
14 crucial in the case. I'm giving multiple depositions. We're
15 trying to figure out assets. We're terminating employees.
16 We're negotiating or attempting to negotiate a transition
17 agreement for the businesses. It was incredibly busy.
18 But we came across this Sentinel entity, and we came
19 across the fact that it was a redeemer in Multi-Street, and
20 then ultimately led us to find the after-the-event insurance
21 policy, this ATE policy, which I'm not an insurance expert but
22 I know enough that it's not really a thing. There's after-
23 the-event policies that typically cover attorneys' fees in a
24 loser-pays jurisdiction. There's no such thing as a policy
25 where you go to an insurance company and take $100 million

1 worth of assets and buy $100 million worth of coverage. It
2 doesn't provide you any benefit. It's not a thing.
3 Q So, we did --
4 A But my point -- sorry, John, I digressed. We have -- we
5 have the contempt, we have all these different things going
6 on, and we're finding different information. And we find out
7 about this policy as negotiations at the same time is going on
8 with UBS to try to reach a settlement on their claim. And
9 that was directed by one of the other directors as this was
10 going on.
11 And recall that the policy was purchased by CDO Fund and
12 SOHC. As I said, SOHC is an indirect subsidiary. So is CDO
13 Fund. But CDO Fund was controlled by Highland. Highland
14 controlled the GP. Highland controlled SOHC. That policy was
15 the only asset -- I mean, CDO Fund. That's the only asset of
16 CDO Fund. Highland's control of that is a valuable asset of
17 Highland, but it's been hidden from Highland. Completely
18 hidden.
19 We discover it. We had reached a settlement with UBS
20 while we were doing this work, but we didn't -- we hadn't
21 discovered this, all of this information. I think we
22 announced the settlement with UBS at the -- at the
23 confirmation hearing. I think it was on February 2nd. And
24 later on in the month, as we were working on documenting that
25 settlement -- and documenting a settlement with UBS and the

1 Latham team is not an easy thing. Not because they're not
2 good to their word; they're just (audio gap), as maybe I am.
3 And so that getting that deal documented was taking a while.
4 And we discovered this information, and I couldn't go forward
5 with a deal with UBS, knowing the information I had without
6 sharing that information with them, because it would have been
7 fraudulent, in my opinion.
8 And so we told them we're not going to enter the
9 settlement agreement. They were a bit shocked. And we told
10 them, well, we need to tell you why. And then we laid out the
11 information to them, which initially set them back to figuring
12 out what they wanted to do, and then ultimately came back to
13 the table to renegotiate the settlement agreement with them.
14 Q And as a result of the information that the Debtor shared
15 with UBS, did UBS and the Debtor renegotiate the deal that
16 they had presented to the Court at the confirmation hearing?
17 A We did. And the dates on that are March 21 into April.
18 So we've got a decent amount of information. Not everything,
19 but we've got a decent amount of information that maybe some
20 of their allegations about Highland interfering with their
21 judgment activities was true. And we renegotiated that
22 settlement, upping the claims by about $50 million, the
23 allowed claims that they would get.
24 Q Why did the independent board decide to share this
25 information with UBS at the time that it did? Why not just

1 take the deal that you had?
2 A Well, number one, first and foremost, we're fiduciaries.
3 And we're fiduciaries to the estate. Our job is not to
4 defraud the creditors. It's to fight hard to make sure that
5 legitimate claims are allowed but that illegitimate claims are
6 kept out. And we thought, both myself and the other
7 directors, that we couldn't enter into a settlement in good
8 faith when we have knowledge that the underlying facts that
9 the counterparty were relying on were untrue and that we'd
10 provided a lot of that information to them. We had
11 represented to them that there were no assets based upon the
12 information we had been given by Leventon and Ellington in
13 particular.
14 Q Do you recall that right around the time the parties
15 presented their proposed settlement to the Court UBS also
16 commenced this action?
17 A Yeah. I think it was -- it was probably the next day.
18 Q Uh-huh.
19 A And recall that all of this is while the transfer took
20 place two years prior to filing. All of this cover-up. All
21 of this misdirection. All of the expenditure and the
22 additional damages that Highland suffers is postpetition by
23 officers and attorneys at Highland. In-house senior attorneys
24 on the payroll full-time at Highland.
25 Q After the action was commenced -- withdrawn. Did the --

1 did Highland agree to temporary and preliminary injunctive
2 relief?
3 A I believe we agreed to the temporary preliminary
4 injunction. But we had not yet settled the action completely.
5 Q And why is that? Why did the Debtor agree to the
6 temporary relief but not the permanent relief?
7 A Well, the information that we had certainly justified at
8 least a preliminary injunction, in our opinions, because there
9 were -- we didn't have all the information, but it was very
10 clear that there had been material asset transfers and that
11 funds were going to continue to run through the assets that
12 either Highland had or Highland managed that would continue to
13 flow to this Cayman entity.
14 And those funds had flowed during the case. And in fact,
15 during the case, some of these same individuals, during the
16 bankruptcy case, moved assets around in the Caymans. It
17 wasn't as if they'd forgotten about them.
18 So we felt that at least a preliminary injunction to keep
19 the status quo and prevent further leakage of assets and
20 protect potentially liability for Highland was appropriate.
21 That subsequently led us to do additional work, and we really
22 didn't have enough at that time to just agree to consent to
23 the judgment.
24 Q And with respect to discovery, are you aware of any
25 additional documents that were uncovered after the action was

1 commenced?
2 A Yes. UBS commenced discovery, both document discovery and
3 depositions. And while discovery in the Caymans is not
4 usually that easy, or any foreign jurisdiction, in my
5 experience, the manager, the accounting manager for Sentinel
6 was actually a U.S. entity called Beecher Carlson. And UBS
7 and Latham did a significant amount of discovery with respect
8 to those entities, both depositions and documents, many of
9 which we've seen, one of which you alluded to today which we
10 didn't know about prior to that, which is this indemnification
11 agreement from June 2020.
12 And by the way, that indemnification agreement has been
13 used. Sentinel paid Baker & McKenzie fees, Sentinel paid Ross
14 & Smith fees, from what we've seen and what we've seen in the
15 depositions. I think it was prior to the indemnification,
16 there's hundreds of thousands of dollars of hit to the policy
17 from personal expenses of Scott Ellington postpetition run
18 through Sentinel.
19 So we learned about the indemnification. We learned about
20 the payments. We learned about more of the transfers. We
21 learned about attempts during the case to move assets out of
22 Sentinel, calling them worthless. And it became very clear
23 that this was a really organized, orchestrated attempt to hide
24 these assets from the estate and prevent Highland as the
25 Debtor from controlling a CDO Fund asset that really would

1 have changed the dynamic of the case completely. We wouldn't
2 have been spending tens of millions of dollars fighting with
3 UBS, thousands of hours fighting with UBS, if we could have
4 used an insurance policy or the assets to help arrange a
5 settlement.
6 Q There was a suggestion early on after this adversary
7 proceeding was commenced, I think it was in the context of a
8 motion to quash, that maybe this is a friendly litigation and
9 it's not really adversarial. Do you have a view as to whether
10 or not this has been an arm's length adversary proceeding?
11 A Everything with UBS and with Latham & Watkins is very
12 arm's length. This is a pretty aggressive group. And I say
13 that respectfully. I don't say that in a negative way at all.
14 It's been that way from the start. And even in this
15 litigation post our settlement with UBS, we have a number of
16 material disputes regarding costs, regarding the breadth of
17 the depositions and the discovery they want from us. They're
18 pretty exhaustive. And we have worked through a number of
19 those disputes, but it has not been easy. It's certainly
20 arm's length.
21 Q All right. Finally, Mr. Seery, why are we making this or
22 why is the Reorganized Debtor making this motion now?
23 A We have spent a tremendous amount of time and money on
24 disputes with UBS, both prior to settlement and with respect
25 to this lawsuit. From what we see now -- and I'm sure we

1 don't know everything; we continue to do work -- there is no
2 benefit to the estate, the reorganized entity, from continuing
3 to fight this dispute. I don't think we have a good faith
4 basis to do so.
5 And to the extent that the injunction, a permanent
6 injunction subsequent -- subject to a resolution can help
7 finally resolve the issues with Sentinel -- as you mentioned,
8 Mr. Morris, the directors at Sentinel are new directors.
9 There has -- we've spent a lot of time working with the
10 parties with respect to our claims from CDO Fund under the
11 policy, a mediation in that action as well. And if that
12 resolution can get done, that'll be of benefit to Highland and
13 all of the respective parties.
14 MR. MORRIS: I have nothing further, Your Honor.
15 THE COURT: All right. Mr. Clubok, any questions?
16 MR. CLUBOK: A very brief follow-up, Your Honor, just
17 to clarify a couple of points.
18 THE COURT: Okay.
19 MR. CLUBOK: May I proceed?
20 THE COURT: You may
21 MR. CLUBOK: Okay.
22 CROSS-EXAMINATION
23 BY MR. CLUBOK:
24 Q Mr. Seery, I want to take you back to the document
25 requests that UBS made once we had gotten to the point where

1 you had made it clear to both UBS and to your team that you
2 were going to provide whatever information you had.
3 A This was around the summer of 2020, prior to the
4 mediation, or as we were going through the mediation?
5 Q Exactly.
6 A Okay.
7 Q Exactly. Okay. And just to orient you, I would like to
8 put up what we've marked as Exhibit 57. Exhibit 57 was not
9 previously marked explicitly, but it is a deposition exhibit.
10 You'll recognize it, Mr. Seery and Mr. Morris. It was
11 Deposition Exhibit 69 to your deposition, Mr. Seery. And we'd
12 like to mark it, for the purpose of this hearing, Exhibit 57.
13 This was UBS's first request for production of documents to
14 Debtor Highland Capital Management, which is I think what
15 you're referring to. Do you recognize that document?
16 A I do, yes.
17 Q Okay. And I'm going to specifically turn your attention
18 to Request No. 8. Request No. 8 asked for all documents
19 pertaining to the assets and liabilities of HFP, CDO Fund, and
20 SOHC, including but not limited to -- and then there's a
21 number of subparts. Do you see that?
22 A Yes.
23 Q And if we can turn -- and, actually, in the very first
24 one, A, you can see it talks about consolidating standalone
25 financial statements from December 2007 through December 2019,

1 or the most recent period available. Do you see that?
2 A Yes.
3 Q And there's a number of other requests, but --
4 THE COURT: Mr. Clubok, let me interrupt a minute.
5 Do you have an exhibit up on the screen? I am not seeing it.
6 But I can pull it up off the docket if you tell me again which
7 one it is.
8 MR. CLUBOK: I'm sorry. Exhibit 57. It's showing up
9 on my screen. Ms. George has put it up. Does it not show up
10 on your screen, Your Honor? Oh.
11 THE COURT: No. Do you know what -- just a moment.
12 (Pause.)
13 MR. CLUBOK: If I may, Mr. Morris, can you see it?
14 THE COURT: Okay. Yes. We're -- the court reporter
15 informs me we have --
16 MR. MORRIS: I can.
17 THE COURT: -- something frozen on -- where we're
18 supposed to get the document. She's called IT. But I can
19 pull it up on the ECF, I hope. So, you said 57? No?
20 MR. CLUBOK: Well, unfortunately, Your Honor, this is
21 the one exhibit that we didn't explicitly mark in our amended
22 179. It is referred to because it was an exhibit to the
23 deposition of Mr. Seery.
24 THE COURT: Okay.
25 MR. CLUBOK: So we didn't individually mark this one.

1 So I'll just narrate it. I don't think you need to see it.
2 THE COURT: Okay. Okay.
3 MR. CLUBOK: You can confirm later.
4 THE COURT: Okay.
5 MR. CLUBOK: It is -- Exhibit 57 is the -- is UBS's
6 first request for production of documents to Debtor Highland
7 Capital Management. And it is a series of requests -- I'm
8 sorry, is the first official request, or I should say the
9 first document request, but I think even before this we had
10 exchanged information requests as well.
11 BY MR. CLUBOK:
12 Q Is that correct, Mr. Seery?
13 A That's correct. Do you recall the date on this document,
14 Mr. Clubok?
15 Q This particular document is dated September 28, 2020. So
16 this would have been the formal document request that
17 encapsulated our discussions that were either communicated
18 more informally or as information requests.
19 A That's my recollection. I think this would have been
20 during the mediation. I think the first session had already
21 happened, and there was discussion informally or during the
22 mediation that this would have been a document request. My
23 recollection is it's more from UBS to more formally
24 crystallize requests that had been made during the mediation
25 -- during and before the mediation.

1 Q All right.
2 MR. CLUBOK: And by the way, Your Honor, I do see
3 that this is Bankruptcy Docket 1345, I believe, if that's
4 helpful.
5 THE COURT: Okay. Could you repeat the number again?
6 MR. CLUBOK: 1345.
7 THE COURT: Okay.
8 BY MR. CLUBOK:
9 Q Mr. Seery, I just want to -- I want to direct your
10 attention to, in particular, Subparts I and J. And this, in
11 Subpart I, if we can hopefully get it on the screen, but if
12 not I'll read it, it asks for a monthly roll-forward of the
13 itemized asset listing and corresponding values requested
14 above from December 31, 2007 through August 31, 2020 or the
15 most recent period available. Here we go. And we now have it
16 on the screen, hopefully, and I just read part of Subpart I.
17 Up on the screen.
18 Also, Subpart J asked for all activity associated with the
19 itemized assets requested in Items H and I. For each one, a
20 transaction listing of all related parties or affiliated
21 transactions, including date and amount of transaction, et
22 cetera.
23 Do you see that?
24 A Yes.
25 Q In a nutshell, these requests and the prior requests that

1 we had been discussing for the months leading up to that, in
2 sum and substance is it fair to say that you understood that
3 what UBS was looking for was the complete financial picture of
4 the assets that these funds -- namely, HFP, CDO, and SOHC --
5 had from the time of the original dispute through the present?
6 A Yeah. I think that's fair.
7 Q And that was, in fact, very clear to you, that that's what
8 UBS was asking for in a paraphrased nutshell?
9 A Yes.
10 Q Okay. And it's true that you tasked your in-house legal
11 team with coming up with a substantive -- or, identifying the
12 information that could form the response to these requests?
13 A Yeah, that's true, with -- with outside counsel as well.
14 Q Right. But you in particular tasked Mr. Leventon and Mr.
15 Ellington in the first instance for identifying that
16 information to provide to your outside counsel to be provided
17 to UBS, correct?
18 A Yeah. I think that's fair. They were working together,
19 though. It was going to be -- Ellington and Leventon had
20 access to the systems and the ability to get the information.
21 How to present it and making sure that it was compliant with
22 discovery requests would have been more of an outside counsel
23 task.
24 Q Now, prior to getting these requests, even, or maybe when
25 you initially got these requests, Mr. Ellington and Leventon

1 had advised you, in words or substance -- I'm not quoting
2 them, but I want to get the gist of what they said -- that, in
3 fact, these entities had lost all of their value during the
4 financial crisis of 2008 and the years thereafter, correct?
5 A That's correct.
6 Q And they told you that these entities had basically no
7 remaining value at all, no assets left at all. Correct?
8 A That's correct. Even more than that, initially, these
9 were described to us as shell entities. The only assets they
10 would have had were assets that were moving in and out of the
11 UBS warehouse. So it was -- they weren't going to be entities
12 that ever were, as described to us, asset -- entities that
13 held any sort of material assets at all.
14 And then subsequent to the financial crisis, the
15 information they gave us was that there was no -- there was no
16 -- there were no assets there.
17 Q Yes. It wasn't just that there was a net negative value;
18 it was that there were no assets at all, supposedly. Correct?
19 A Correct.
20 Q And yet when UBS pressed harder for information about
21 assets, eventually Mr. Leventon started to disclose that in
22 fact there were at least some assets in these entities, and
23 specifically CDO Fund. Correct?
24 A That's correct. As I mentioned earlier, he showed us a
25 spreadsheet with expenditures, millions of dollars of

1 expenditures for legal fees, which was surprising based upon
2 the fact that if these -- the prior statements that these
3 assets had no value, or these entities had no value, how,
4 then, did they have cash to spend millions of dollars on legal
5 fees?
6 Q But even when he -- and by the way, it came as a surprise
7 to you to learn that, in fact, instead of zero assets, there
8 were at least some assets remaining, correct?
9 A That's correct.
10 Q And then even when Mr. Ellington disclosed that additional
11 information, he never disclosed anything about the hundreds of
12 millions of face value in assets that had been transferred out
13 of these funds just a few years prior. Correct?
14 A That's right. Yes. It was never disclosed to either me
15 or my independent -- fellow independent board members, or, to
16 my knowledge, to counsel or outside consultants.
17 Q Okay. Mr. Seery, I just want to end with a clarification
18 of your role and why this injunction is proper. It's correct
19 to say that Highland is the portfolio manager of an entity
20 we've been calling Multi-Strat, correct?
21 A That's correct. I'm not sure if under the docs it's
22 called portfolio manager or collateral manager, but Highland
23 is that entity, yes.
24 Q And as the CEO, you are responsible for directing the
25 efforts of Highland with respect to its role as the manager of

1 Multi-Strat, correct?
2 A That's correct, yes.
3 Q And just -- I think the Court has heard these names below
4 -- the entity that we're calling Multi-Strat has also been
5 called Credit Opportunities in the past? That's
6 interchangeable for purposes of this proceeding; is that
7 correct?
8 A Yeah. But there's a number of different Credit
9 Opportunity-type funds that Highland has had over the years,
10 but you'll see that in a number of the documents before the
11 name was changed to Multi-Strat.
12 Q Okay. And with respect to CDO Fund, it is fair to say
13 that Highland Capital Management had control of CDO Fund as a
14 director and as a direct owner of the CDO Funds through its
15 general partner, correct?
16 A Yeah, through the general partner interest, yes. So,
17 Highland owns CDO Funds GP, which can direct CDO Fund. I
18 believe we had LP units as well, but there were also third-
19 party limited partners in that entity pre-financial crisis.
20 Q And with respect to Multi-Strat, in addition to acting as
21 Multi-Strat's investment manager, Highland Capital also is the
22 indirect hundred-percent owner of Multi-Strat's general
23 partner as well, correct?
24 A Of the GP, that's correct, and we own about roughly 55 to
25 60 percent of the LP interests.

1 Q And finally, Mr. Seery, you knows there's a TRO or
2 temporary restraining order already issued by the Court in
3 connection with this proceeding?
4 A Yes. And we've adhered to that order.
5 Q But absent having that order, you would have had -- you
6 would have felt obligated previously to transfer funds that
7 are currently being restrained by this order, correct?
8 A That's correct. Our perspective of the documents and the
9 role of the collateral manager is that, at least with respect
10 to Multi-Strat, but also with respect to funds that we turn
11 over to trustees on certain CLOs, which then flow to -- could
12 flow to Sentinel without the TRO, those would have flowed,
13 those funds.
14 Q Okay. Thank you, Mr. Seery.
15 MR. CLUBOK: I have nothing further.
16 THE COURT: All right.
17 MR. MORRIS: No redirect, Your Honor.
18 THE COURT: Okay. Then I have a couple of questions.
19 EXAMINATION BY THE COURT
20 THE COURT: I just want to make sure I understand the
21 relevance of this line of questioning about Multi-Strat. I
22 remember Multi-Strat. There was an adversary proceeding that
23 I just had in front of me last week, a motion to dismiss. So
24 I remember what it is. It was a fund that, among other
25 things, or maybe it mainly owned the viaticals. But I'm

1 trying to understand the significance of Multi-Strat to these
2 two funds we're talking about right now.
3 THE WITNESS: So, I'll be happy to walk you through,
4 Your Honor. Multi-Strat, when the case started, owned certain
5 life policies.
6 THE COURT: Right.
7 THE WITNESS: It owned some other assets as well, and
8 it owned a lot of MGM. The life policies -- and it's not fair
9 to call them a portfolio. They are -- they were eleven
10 policies on eight lives. When the case started, the premiums
11 on those policies were substantial, and we didn't have the
12 funds to make payments. Multi-Strat didn't, and Highland
13 didn't, with the Committee's involvement, other than an
14 initial payment and to keep the policies alive, didn't have
15 the funds to invest in Multi-Strat.
16 So Multi-Strat ran an auction and sold those policies
17 above the market value. So it was a full, open auction, it
18 was a successful auction, and it was sold for more than the
19 values that had been maintained by Highland prior to the
20 filing.
21 As an aside, or there's two asides, one is part of the
22 reason you had to get rid of the -- or sell the Multi-Strat
23 policies was that they were security for a loan to NexBank.
24 And so that loan had to get paid off to free up value to
25 Multi-Strat. Multi-Strat is a separate fund that Highland

1 manages that, in addition, fast forward, no one -- there
2 hasn't been an event on those policies since we sold them in
3 the first quarter of 2020. That means no one passed away up
4 until at least a month or so ago, and premiums would have been
5 in excess of $22 million by now, which Multi-Strat didn't
6 have. So that's the life policy part of that.
7 In addition, as I said, Multi-Strat owned other assets,
8 including MGM. Also, some of that was secured or provide
9 security to NexBank for a loan that Multi-Strat had taken out
10 previously.
11 The reason Multi-Strat took out a loan, my recollection
12 is, a number of investors in Multi-Strat had tried to redeem.
13 Most of those were offshore investors in either Australia or
14 Japan, and basically Highland told them, Thanks for your
15 redemption, but we're not paying you. We're not closing the
16 fund down. And the documents allowed those redeemed interests
17 to sit out there, and they basically functioned like non-
18 cumulative preferred, meaning they didn't increase in interest
19 rate but they had a fixed claim.
20 Amongst those redeemers was Sentinel. And so when we
21 learned about the Sentinel involvement, we didn't really know
22 who Sentinel was, one of our outside advisors said, They're
23 one of the redeemers in Multi-Strat. That got us looking even
24 further.
25 But Multi-Strat's involvement in this litigation, or the

1 UBS litigation, relates to some fraudulent conveyances that
2 UBS alleged that happened back in 2009, 2008-2009, where
3 Multi-Strat and other funds were making contributions in to
4 try to support the UBS transaction from the Highland
5 perspective, and then when it looked like that transaction
6 wasn't going to work out, a bunch of those assets went back
7 out.
8 There was a so-called -- it was very oddly named -- but
9 basically a note transaction. A bunch of assets went in,
10 Multi-Strat and other entities got a note, and then there was
11 basically -- I forget what they called it, but it wasn't a --
12 they didn't call it satisfaction. It was basically they
13 ripped up the trade and gave the assets back. And UBS had
14 issues with that.
15 So when we sold the life policies, it was actually very
16 difficult, because one of the buying entities had done their
17 diligence and they saw that UBS had a claim against Multi-
18 Strat, and unless we could get a stipulation with UBS we
19 weren't going to be able to sell those policies. If we
20 weren't able to sell those policies, we didn't have the money
21 to pay the premiums, they would have expired worthless. So we
22 cut an initial deal with UBS.
23 So they -- they've been in and around the Multi-Strat for
24 14 years. And ultimately Multi-Strat settled with UBS for
25 $18-1/2 million. That was in the original UBS settlement.

1 THE COURT: Okay.
2 THE WITNESS: When we learned of all the Sentinel
3 issues and these transfers, UBS took the position that we
4 should start over and we took the position that, no, based on
5 what we see, we've -- Multi-Strat has settled, but these other
6 allegations relate more to Highland liability, CDO and SOHC
7 liability, not to Multi-Strat liability.
8 So that $18-1/2 million piece didn't change. The extra
9 $50 million in claims was just claims against Highland, not
10 against Multi-Strat. And Multi-Strat has subsequently settled
11 its issues with UBS by paying the $18-1/2 million. It had
12 previously sold the life policies, freeing up the liens from
13 NexBank and paid off NexBank. And it subsequently made
14 distributions and redeemed all of the redeemers save Sentinel.
15 That money is set aside because of the TRO.
16 And some day there will be more about Multi-Strat and the
17 attempts to, according to the Multi-Strat investors, rip them
18 off for their interests, redeemed interests. And we do have
19 signed documents evidencing that. But we'll get to that
20 another day.
21 THE COURT: All right.
22 MR. MORRIS: Your Honor, if I may, can I just ask a
23 --
24 THE COURT: Go ahead.
25 MR. MORRIS: -- question or two, a follow-up

1 question?
2 REDIRECT EXAMINATION
3 BY MR. MORRIS:
4 Q Mr. Seery, just to make this clean, does Sentinel have a
5 redemption interest in Multi-Strat?
6 A Yes.
7 Q And does Highland control Multi-Strat?
8 A Yes.
9 Q And is the TRO or now the permanent injunction designed to
10 prevent Highland from paying anything to Sentinel on account
11 of its redemption interest?
12 A That's my understanding, yes.
13 Q Okay.
14 MR. MORRIS: Your Honor, does that clear it up for
15 you?
16 THE COURT: It does. And I think probably some of
17 this was explained to me way back when I --
18 MR. MORRIS: Yeah.
19 THE COURT: -- was presented with the 9019 settlement
20 with UBS. But, shockingly, I'm a little -- I was a little
21 fuzzy on the Multi-Strat part of that.
22 MR. MORRIS: There's a lot.
23 THE COURT: Mr. Seery, --
24 MR. CLUBOK: Your Honor, may I ask just one -- may I
25 ask just one follow-up question, just to tie this up in a bow,

1 to make it extra clear? There's one other element to this --
2 THE COURT: All --
3 MR. CLUBOK: -- that I just want to make sure is
4 clean.
5 THE COURT: All right. You may.
6 RECROSS-EXAMINATION
7 BY MR. CLUBOK:
8 Q And Mr. Seery, that redemption interest that is currently
9 on the books as being in favor of Sentinel, that is one of the
10 assets that was transferred by CDO Fund to purportedly buy
11 this so-called insurance policy, correct?
12 A Part of that is. It has multiple parts. It's all covered
13 in the memorandum of understanding. But the big piece of it
14 is, yes.
15 Q Thank you.
16 THE COURT: All right. And another loose end I want
17 to tie up.
18 EXAMINATION BY THE COURT
19 THE COURT: I just want to be clear on the $100
20 million of market value of transferred assets. I think I
21 heard that they were not all transferred in August 2017.
22 There had even been some transfer of value postpetition. Is
23 that correct?
24 THE WITNESS: So, the transaction was structured so
25 that all of the assets would transfer in 2017. The value --

1 the face amount of those is north of $300 million. The fair
2 market value, according to a Highland tax memorandum, we
3 didn't value it in 2 -- as of -- we didn't retroactively look
4 back and try to put a value on it. But according to a
5 Highland tax memorandum written by one Shawn Raver, is north
6 of $100 million.
7 The -- all of the assets didn't -- didn't effectively
8 transfer. It looks like certificates were lost in transit,
9 which just doesn't happen very often, but in this case it
10 seems to. So some of the assets didn't transfer.
11 So, pre- and postpetition, while that was going on,
12 Highland employees were advising the trustees for those assets
13 -- these are Highland-managed CLOs where there's a trustee in
14 place, and the assets are preferred shares in the CLOs -- when
15 those preferred shares were due cash, they would go to the
16 trustee. The trustee would see that CDO Fund still owned the
17 asset because the transfer didn't make it all the way to
18 Sentinel, and the trustee would deposit those into a CDO Fund
19 account. Highland employees were directing that those pre-
20 and some postpetition, that those assets -- those accounts be
21 swept to Sentinel.
22 MR. MORRIS: Your Honor, if I may, I think that --
23 Mr. Clubok, it would be helpful here. I think some of the
24 documents that they have admitted into evidence relates to
25 these postpetition transfers. So Mr. Seery can correct me if

1 I'm wrong -- and I'll call this argument -- that there are
2 certain assets, including Greenbrier, that didn't make their
3 way, even though they were intended to make their way to
4 Sentinel, did not because their certificates were lost. And
5 as, you know, that assets and any other that didn't actually
6 make its way as intended, as they generated income, it was the
7 income and other dividends or distributions that those
8 interests received that were then transferred to Sentinel. Do
9 I have that right, Mr. Seery?
10 THE WITNESS: Yes, you have. That's correct.
11 MR. MORRIS: Yeah.
12 THE COURT: Okay. That's all the follow-up I had.
13 Anything else of Mr. Seery?
14 MR. MORRIS: No, Your Honor. Highland at this point
15 rests.
16 THE COURT: Okay. Thank you, Mr. Seery.
17 MR. MORRIS: I'll turn the podium over to Mr. Clubok.
18 Yeah.
19 THE WITNESS: Thank you, Your Honor.
20 THE COURT: Thank you.
21 (The witness is excused.)
22 THE COURT: Mr. Clubok, any more evidence from UBS?
23 MR. CLUBOK: Yes, Your Honor. We do have evidence.
24 This is where we have probably a good 45 minutes. I don't
25 know if you want to take a break or if you want me to just

1 launch into it.
2 THE COURT: Oh, okay. I appreciate getting that time
3 estimate. We will go ahead and take -- let's make it a 10-
4 minute break, please.
5 THE CLERK: All rise.
6 (A recess ensued from 11:18 a.m. until 11:31 a.m.)
7 THE CLERK: All rise.
8 THE COURT: All right. Please be seated. Thank you.
9 We're back on the record in UBS v. Highland, Adversary 21-
10 3020. Mr. Clubok, are you ready to proceed?
11 (No response.)
12 THE COURT: All right. You must be on mute.
13 MR. CLUBOK: Sorry. Thank you.
14 THE COURT: Okay. Gotcha.
15 MR. CLUBOK: Your Honor, can you see the title page
16 of the presentation we're about to walk through?
17 THE COURT: I can. Thank you.
18 MR. CLUBOK: Terrific. Okay. I will be -- you know,
19 again, for efficiency's sake, we can call the first few
20 minutes the opening, if you'd like. But really I just want to
21 get right to presenting the evidence for our part of this
22 proceeding.
23 OPENING STATEMENT ON BEHALF OF THE PLAINTIFF
24 MR. CLUBOK: Your Honor, again, Andrew Clubok, Latham
25 & Watkins, on behalf of UBS.

1 Your Honor, we start with how did we get here. And you've
2 heard this before. But UBS had a $1 billion judgment. And
3 very specifically, the judgment that I spent so much time that
4 Mr. Seery has alluded to that really was the impetus of a lot
5 of discovery initially was specifically against two entities,
6 approximately 50 percent to each. About $531 million, the
7 judgments against Defendant Highland CDO Opportunity Master
8 Fund, which we've often shorthanded as CDO Fund, and about
9 $510 million against Defendant Highland Special Opportunities
10 Holding Company, which we often call SOHC.
11 These judgments were the product of a so-called Phase I of
12 the New York litigation that UBS instituted back in 2009
13 against Highland Capital Management and some of these other
14 funds.
15 Phase II was supposed to take on Highland Capital
16 Management and the other Defendants' liabilities, but
17 restructuring intervened, and as a result those proceedings
18 were stayed and Your Honor knows the rest.
19 We have, as Your Honor knows, settled with most of the
20 Defendants, but there was one important Defendant remaining,
21 and that was the parent company of Highland Special
22 Opportunities Holdco. That SOHC is a hundred-percent
23 subsidiary of Highland Financial Partners.
24 And just recently, after a damages inquest and other
25 proceedings in New York -- well, this was the total judgment,

1 the $1.042 [billion] that Your Honor is familiar with, before
2 additional interest -- but recently we obtained a judgment in
3 the so-called Phase II portion of what remains in New York,
4 and amongst other judgments, most importantly for the purpose
5 of today, is that we have now obtained a judgment against
6 Highland Financial Partners as an alter ego of the Defendant
7 SOHC. So HFP is responsible for that same $510 million, plus
8 additional interest.
9 And I'm getting a request to annotate, but I guess I have
10 to hit approve, too. Which is fine with me.
11 In any event, the HFP alter ego judgment is now also
12 completed.
13 As was well known, and you'll see that, in particular, Mr.
14 Dondero, Mr. Ellington, and their associates all have
15 anticipated for years that one day SOC's liabilities, SOHC's
16 liabilities, would also be HFP's liabilities, as they now
17 officially are.
18 Sorry. I've got this request to annotate that has created
19 some curious issues here.
20 (Pause.)
21 MR. CLUBOK: A moment, Your Honor.
22 (Pause.)
23 MR. CLUBOK: Well, unfortunately, I -- someone asked
24 me if I could annotate. I'm going to try to annotate. Okay.
25 There we go.

1 In any event, we start with the judgments. Then the next
2 thing to know about, as you've heard a little bit, is there
3 was this so-called ATE, or after-the-event policy. And
4 Exhibit 1 is a copy of this so-called policy. As you can see,
5 the insurer is Sentinel Reinsurance. The legal action that
6 this policy was aimed at, the only one identified in the
7 policy, is the New York action, the *UBS Securities v.*
8 *Highland Capital Management* and others. The limit of
9 indemnity was intended to be $100 million. And the premium
10 was identified as $25 million.
11 Well, Your Honor, you heard a lot about how the ultimate
12 consideration for this policy exceeded even the coverage
13 limits of $100 million. But, of course, that's -- you don't
14 pay for an insurance policy with the coverage limits, you pay
15 for it with a premium, and this premium was supposedly set at
16 $25 million. So the transfer of assets, which you've heard
17 already testimony exceeded $100 million and had a face value
18 of $300 million, far exceeded the so-called premium limit.
19 And, of course, exceeded the limit of indemnity itself.
20 The policy is fairly straightforward, fairly simple. It
21 said that the insurer agrees to indemnify the insured in
22 respect to any legal liability occurring during the period of
23 insurance, up to and including but not exceeding the limit of
24 indemnity, provided that either the Court or any Appellate
25 Court makes an order of liability relating to the legal action

1 that's insured. Notably, also if there was a settlement would
2 be another way that the policy would be triggered.
3 As you've seen, this policy was signed by James Dondero in
4 his -- what has become the typical fashion that we've seen in
5 which he signs on behalf of every relevant Highland-related
6 entity. Here, he signs for all the insureds, which are
7 identified as CDO Opportunity Master Fund, Highland CDO
8 Holding Company, which we'll come back to, and then Highland
9 Special Opportunities Holding Company.
10 At the same time, there was an asset transfer, a so-called
11 purchase agreement whereby all of these funds, and other funds
12 at Highland, pooled their assets and transferred them all to
13 Sentinel, supposedly so that Sentinel could purchase them, so
14 that in turn these Highland funds could then pay the supposed
15 $25 million premium.
16 And then the premium, as set forth in Exhibit 2, was
17 agreed to be all of the assets listed in Schedule A hereto as
18 a hundred percent payment of the premium. And Schedule A,
19 which you saw briefly during Mr. Morris's presentation,
20 identified every single asset from CDO Fund, from SOHC, from
21 HFP, and also from some other entities that we'll talk more
22 about in a moment.
23 One thing of note of these assets, and I'll just point out
24 because Your Honor asked about it, is that there is the so-
25 called Multi-Strat asset. Remember, Multi-Strat was then

1 called Credit Opportunities CDO Limited Partnership Interest.
2 You can see that CDO Fund, this is the Highland CDO
3 Opportunity Master Fund asset, so CDO Fund, which is the
4 entity -- one of the entities that we have over a half-
5 billion-dollar judgment directly against now, had this
6 interest in what was then called Credit Opportunities but is
7 now known as Multi-Strat. That is the interest that is now
8 currently the subject of the restraining order, and had not
9 the restraining order entered, those monies would have
10 already, as Mr. Seery testified, been distributed on to
11 Sentinel.
12 Just like with the insurance policy, with the asset
13 transfer agreement, Mr. Dondero just signs on behalf of
14 everybody. You will see all the transferors he signs on
15 behalf of.
16 It turns out, or as known from the get-go, that this was a
17 massive overpayment. Remember, the aggregate purchase price
18 paid by Sentinel for these assets was $25 million. That was
19 what the premium supposedly was set for -- was set as at the
20 outset.
21 At this time, and this is according to a tax memo that
22 Shawn Raver wrote, you know, about a year later when he's
23 trying to evaluate the tax consequences of the Sentinel
24 acquisition of -- notably of HFP/CDO Opportunity Assets,
25 you'll note even internally they describe this not as SOHC and

1 CDO Fund assets but as HFP CDO Fund assets. This is when they
2 were challenging alter ego at that time, and they continued to
3 challenge alter ego right up until we got the judgment. But
4 you can see that internally they certainly treated it as an
5 HFP liability, not an SOHC liability.
6 In any event, you'll note that the purchase price for the
7 assets was $25 million, but the aggregate fair market value of
8 the assets on the date of the transaction was $105 million and
9 change. So, from the get go, they're paying, you know, more
10 than quadruple the premium price, and more even than the
11 limits of coverage.
12 As you noted, as Mr. Seery testified already, this was
13 from his deposition, we're here because Highland Capital
14 Management controls Multi-Strat in two ways, both as indirect
15 hundred-percent owner, also as investment manager, and also
16 controlled CDO Fund.
17 And then we're here because Your Honor, having entered a
18 TRO, otherwise it may have already been too late to stop a lot
19 of this.
20 So, what now? What now is that UBS asks for what it's
21 always asked for, is an ultimate -- a permanent injunction.
22 And we set forth in our response to this motion -- and,
23 really, this is what we've asked for from the get go -- this
24 requires a slightly different form of order than what Highland
25 submitted, but I hope that after they hear the rest of this

1 evidence they will agree that our form of order is
2 appropriate.
3 By permanent, as you can see in our order, it means not
4 permanent for the rest of time, but permanent until either a
5 court adjudication of what actually happened here or a
6 settlement agreement. And we now hope that the latter will be
7 what triggers it, at least for the assets that we now know
8 about.
9 So, what are the factors? Obviously, success on the
10 merits. Irreparable injury. Weighing of harms. And the
11 public interest. And these are the familiar factors recently
12 articulated in the *Environmental Texas Citizen Lobby* case from
13 the Fifth Circuit, 824 F.3d 507.
14 So, let's talk about success on the merits. Why will UBS
15 win? Not just likely to, but will win on the merits if we
16 proceed?
17 There's really two ways for UBS to prevail here. You
18 could look at it either way. Either the policy was just pure
19 fraud and everything needs to be unwound. Or the policy was
20 valid, valid, but there was about an $80 million
21 (indecipherable) overpayment. In other words, it may well be
22 fair that a $25 million ATE policy could have purchased a $100
23 million -- a $100 million after-the-event coverage at that
24 time. As we've seen, they didn't pay $25 million. They paid
25 $105 million.

1 So these are two different theories that both result in
2 effectively the same place.
3 Now, we're not claiming simply constructive fraud, or we
4 wouldn't be claiming simply constructive fraud at the end of
5 the day. This is -- this goes into actual fraud. And as a
6 result, we're going to go through the factors, the so-called
7 badges of fraud. And these badges are from New York
8 precedent. And they are from the *Matter of Gard Enter. v.*
9 *Block*, most recently articulated, 2012 N.Y. Misc. LEXIS 4175.
10 But they very much overlap with the badges of actual fraud
11 that Texas and the Fifth Circuit have identified very recently
12 in the *Matter of Alabama & Dunlavy*, 983 F.3d 766. That's a
13 Fifth Circuit 2020 case.
14 These particular ones that we have on the screen on Slide
15 12 are the actual ones identified from -- by New York, and we
16 think New York law applies because the fraud was conducted
17 through the Bank of New York and was directed at the New York
18 proceedings. However, you could also argue that Texas law
19 applies because clearly the continuing fraud that continued
20 even after the restructuring has affected this bankruptcy.
21 So, under either way of looking at it -- and normally you
22 don't need to, of course, show each one of these; you show
23 some of these -- you'll see that literally every one of these,
24 and every one to the extent it's slightly articulated
25 differently in Texas, have all been demonstrated by the

1 evidence that we've obtained. So we're going to briefly walk
2 through those.
3 We begin with knowledge of the claim. This is obvious.
4 That the timing -- and by the way, a lot of these factors
5 overlap, because it's like one factor is whether you had
6 knowledge of a claim in anticipation of a transfer. Another
7 is suspicious timing of a transfer. So some of these, as you
8 can see, overlap.
9 But certainly knowledge of the claim. In March of 2017,
10 UBS had defeated all or virtually all of Highland and the
11 Funds' arguments on summary judgments. And they had a host of
12 supposed defenses on liability that they claimed they were
13 going to win on summary judgment. They were, I believe, all
14 or virtually all overruled. That ultimately was appealed, and
15 in New York you can take interlocutory appeals much more
16 liberally than other jurisdictions, so they were able to delay
17 the trial for another year through interlocutory appeal of the
18 denial of summary judgments.
19 This is the world they were facing in March of 2017. In a
20 very thorough opinion, Justice Friedman and the Supreme Court
21 of New York had overruled their -- rejected their summary
22 judgment claims.
23 So remember that date, March -- that's March 2017.
24 So we asked Mr. Leventon, let's start with liability and
25 then we'll talk about damages. Did you ever give a

1 recommendation that UBS was likely to win on its breach of
2 contract claim against CDO Fund and SOHC in Phase I?
3 Answer, Yes, I did.
4 Question, What was that recommendation?
5 Answer, That liability was likely to be found.
6 Question, Who did you make that to?
7 Answer, I don't recall. It certainly would have been --
8 well, I don't recall who it was.
9 Question, You said certainly would have been.
10 And then he answered, No, I believe it probably was Mr.
11 Ellington and Mr. Dondero.
12 Later in his deposition he was asked, How many times did
13 you have discussions with Mr. Dondero in which you expressed
14 your view that liability was likely to be determined against
15 CDO Fund and SOHC? He claimed he didn't recall. And then he
16 said, Well, it would have been more than one and probably less
17 than five.
18 Likewise, Mr. Ellington testified. We asked him, You said
19 a number of times that it didn't surprise you at all about the
20 size or the magnitude of the damages verdict, correct?
21 He answered, Correct.
22 Question, And you had warned Mr. Dondero, in words or
23 substance, that this was likely to occur before the verdict
24 came, correct?
25 Answer, Yes.

1 So, not only did they obviously know about the claim, but
2 they had, you know, the individuals, Mr. Ellington and Mr.
3 Leventon, who were tasked with responding to the claim and
4 running the litigation in-house, had formed opinions about the
5 likely loss and had shared those with each other and certainly
6 with Mr. Dondero.
7 In the course of purchasing this after-event, you know,
8 so-called after-the-event policy, they were asked by Beecher
9 Carlson -- you're going to find out that Beecher Carlson is
10 the managing -- insurance managing agent for Sentinel. And
11 they were asked at some point, well, you know, what's up with
12 these claims? Or can you give us an analysis of them? And
13 there's an email exchange between Mr. Leventon and then Mr.
14 Sevilla, who at the time was another former assistant general
15 counsel in the Highland legal department. And in that
16 exchange, which they prepared to be able to send on to
17 Sentinel's representative, Mr. Leventon notes, The claims
18 against CDO Fund and HFP and affiliates are very strong. They
19 are guaranty claims. The Defendants' primary responsibility
20 will be to contest the amount of damages.
21 And they note that it's $686 million at that time from
22 February of 2009, accumulating interest. And obviously the
23 billion-dollar judgment, much of it is interest. And they
24 noted how CDO Fund was a guarantor of 49 percent. And, again,
25 by the way, HFP/Affiliates are 51 percent guarantors.

1 At this time, they were insisting, demanding, putting on
2 evidence in court that supposedly HFP and SOHC were not at all
3 alter egos, that they were not related, they shouldn't be
4 treated as one. But internally, when they wanted to pool the
5 assets of HFP and SOHC to purchase this so-called policy, and
6 then when they wanted to justify it to Beecher, they're always
7 talking about it as if -- as if it's HFP, as one unified alter
8 ego.
9 So that's just a -- one of the many sort of side let's
10 just say issues that are uncovered by this whole series of
11 events.
12 In any event, that's our main story. At that point, and
13 the next thing to see or badge of fraud is the transferor's
14 inability to pay.
15 Well, at this time, these funds, the HFP and CDO Funds,
16 who are the main Defendants, HFP through its alter ego, SOHC,
17 at that time, were insolvent. And they were insolvent -- at
18 least, they had declared to their investors they were
19 insolvent back in 2009. And check -- and look at this. This
20 is the HFP letter that went to its investors in 2009: Due to
21 events and circumstances described in this letter, we've
22 concluded that as of December 31, 2008, it's likely that all
23 future inflows of cash to HFP will be used to pay creditors
24 and there is no prospect of return to holders of HFP.
25 So, first of all, they're telling their holders of HFP,

1 hey, all we've got left are creditors. And by the way, other
2 documents, and we've submitted them into the record
3 (indecipherable) and they're talked about in the depositions,
4 the only major creditor left is UBS. If UBS's claim had
5 really been denied or if they had prevailed, HFP would have
6 actually finished in the black, not in the red.
7 So they're telling their investors, hey, we can't pay you,
8 we're insolvent because we have this giant claim to UBS. Of
9 course, they've never paid a single penny to UBS. HFP has not
10 directly.
11 Meanwhile, CDO Fund, the same thing. They're telling
12 their investors, yes, we're also insolvent. And explained to
13 their investors, of, look, all of the Fund's available assets
14 will be distributed to the Fund's remaining (indecipherable)
15 and counterparties and other senior and trade creditors in an
16 orderly liquidation.
17 Of course, that doesn't happen. None of CDO Funds -- and
18 you've seen the CDO Funds that were belatedly identified to
19 Mr. Seery in 2020, and you've also seen that lengthy list of
20 funds or assets that CDO Fund had back in 2017. They
21 obviously had this post-2009. They have told their investors,
22 hey, everything we've got left is going to be distributed to
23 our creditors, but instead we know now that they've funneled
24 it to Mr. Dondero and Mr. Ellington's Cayman entity.
25 Another badge of fraud. Suspicious timing in anticipation

1 of litigation. This plan was all hatched -- remember, March
2 '17 is when they lost summary judgment. This plan is hatched
3 just a few weeks later, in April of '17. And this is the so-
4 called settlement analysis that sort of lays out the scheme.
5 And this is a document that I believe was prepared by Mr.
6 Leventon and Ms. Vitiello, at Mr. Ellington's direction, I
7 believe. And it's Exhibit 7 in the record.
8 And it notes -- this is why they were trying to justify
9 why they should do this ATE policy. And they say, well, if
10 UBS wins, Highland is going to lose all the assets again in
11 HFP and CDO Fund.
12 And by the way, of particular note, the one asset they
13 made particular note of: HFP assets include a $32 million DAF
14 note payable. Put a pin in that. And remember, why are they
15 so intently concerned? Of all the $300 million of face value
16 assets, the one that gets particular attention in this
17 presentation is a $32 million DAF note payable.
18 That note, by the way, we now have come to learn, is an
19 entity which Your Honor is familiar with, I think it's been
20 called CLO Holdco or CLO entity, and it's also known as the
21 DAF. That note was owed to CDO Fund because of a prior
22 transfer, probab... you know, of -- or I do know that we're --
23 I'm sure we'll dig into. And so they're holding this $32
24 million note that the DAF owes them, and they note that, if
25 Highland doesn't settle, Highland is going to lose all the

1 assets, including that particular $32 million DAF note.
2 It's also noted that Highland will face years of
3 fraudulent transfer claims through the Highland structure, and
4 HCMLP will face clawback of $9 million and liability to
5 backstop HFP CDO Fund for up to $1.2 billion.
6 This was the view of the legal department. Obviously,
7 never shared with us during the litigation, but we've come to
8 understand never shared with Mr. Seery or with Mr. Morris,
9 right? Their team, right? This is -- this is all -- this
10 document is uncovered after Mr. DiOrio is fired, after
11 everyone is fired, I believe, related to this, and then they
12 happen to find this document either on a desk or through that
13 email search that you heard about.
14 Side note. If Highland were to win, you can see below,
15 then it would show that HFP is solvent. That would have
16 reduced -- reversed the tax write-off and would have perhaps
17 exposed them to tax fraud or to at least a massive payment for
18 prior taxes.
19 So, a lot going on here. But, again, let's get back to
20 the direct impact on UBS and then, later, Highland.
21 So, this is the settlement analysis that was prepared to
22 support this whole ATE scheme. And here's the structure
23 that's laid out. Okay. And this is before the actuaries have
24 gone to work. This is before they've put together the actual
25 documents. This is April of 2017, when the scheme is first

1 hatched. And it says, Step 1. HFP -- once again, HFP, CDO
2 Fund -- will buy a $100 million ATE policy from Sentinel. The
3 ATE premium will be all assets in HFP CDO Fund.
4 It doesn't say, gee, we'll go find out what the premium
5 is, or we'll go check with an actuary and see what it should
6 be, or we'll price this thing out and find out what the
7 likelihood is of buying such a helpful insurance policy at
8 this time. Nope. It's just, The premium is going to be
9 whatever assets are left that we can round up. That's the
10 plan from the get go. And it's suspiciously timed right after
11 summary judgment has been lost in anticipation of trial.
12 The close relationship amongst the parties who devised
13 this plan. Mr. Ellington -- that's putting it mildly. Mr.
14 Ellington is the one who devised the plan. Says the idea --
15 we asked him, Who had the idea? He said, I had that initial
16 conversation with Mr. Leventon because it was my idea.
17 Question, It was your idea to have Sentinel issue an
18 insurance policy with respect to the UBS litigation that was
19 then pending in New York, correct?
20 Answer, Yes.
21 This is from Mr. Leventon's deposition transcript, 86:21
22 through 87:6, which has been marked and included as part of
23 the designations for Mr. Ellington.
24 Mr. Leventon was then asked, Who made the decision to
25 obtain the policy? So, Mr. Ellington had come up with the

1 idea, but of course, we all know who's the ultimate decider at
2 Highland.
3 Mr. Leventon says, My understanding is that it was Mr.
4 Dondero who made that decision.
5 What's that understanding based on?
6 That was communicated to him by Mr. Ellington.
7 When?
8 Back around the time, probably right after the policy was
9 implemented.
10 Of course, there is a very close relationship, because
11 Dondero and Ellington own several. This is Mr. Ellington.
12 This is a -- this is an org chart for Sentinel. And you can
13 see it was notarized -- this was produced to Sentinel back in
14 -- or provided, I believe, to the regulators in the Caymans in
15 January of 2018.
16 So this is the way things looked back at the end of '17
17 when these actions were taken. And you can see that Mr.
18 Ellington has a 30 percent ownership interest in Sentinel,
19 although he was only given a 9 percent vote. Mr. Dondero had
20 a 70 percent ownership interest ultimately through a bunch of,
21 you know, intermediary entities, but yet a 91 percent vote in
22 how Sentinel would be operated.
23 And that's it. These are the two so-called UBOs or
24 ultimate beneficial owners. Sometimes they're listed on org
25 charts as UBO 1 and UBO 2. But UBO 1 and UBO 2 are simply Mr.

1 Ellington and Mr. Dondero, who collectively own a hundred
2 percent of Sentinel.
3 Remember, this is the scheme. We're going to pool all of
4 HFP and CDO Fund's assets, whatever they amount to, send them
5 off to Sentinel, supposedly for this hundred-million-dollar
6 ATE policy.
7 And this was Beecher Carlson. Again, it's Sentinel's
8 insurance manager. He was deposed in these proceedings. And
9 we asked, Was it common that employees of Highland Capital
10 would do things on behalf of Sentinel? This goes, again, to
11 whether there's a close relationship between HCM and Sentinel.
12 Mr. Carlson -- or Mr. Adamczak, who is the representative, the
13 corporate representative of Beecher Carlson, says, Well, a
14 captive insurance company does not generally have any
15 employees, so all of the employees are typically from a
16 sponsoring organization. In this case, it was Highland
17 Capital that was the sponsoring organization.
18 Now, when you look at the deposition transcripts, you can
19 see that, one by one, the former Highland employees denied to
20 various degrees their involvement with Sentinel. Meanwhile,
21 though, Sentinel has no employees, and it was these Highland
22 former employees who did everything for Sentinel while they
23 were being paid by Highland.
24 But, again, this just -- for purposes of this factor, this
25 just goes to the close relationship between HCM and Sentinel.

1 Obviously, Mr. Dondero, who ultimately controls HCM, also
2 ultimately controlled Sentinel. You've got Mr. Ellington.
3 And then you've got all of the Highland former employees doing
4 the work of Sentinel.
5 Here is an example of each of the key figures who were at
6 Highland who've now been fired. Mr. DiOrio. He was the
7 former managing director of Sentinel, but he was also a
8 Sentinel director. And that included right up until after
9 even he was fired by Highland and finally tendered his
10 resignation. But he was made a director in the wake of this
11 transaction.
12 Mr. Sevilla. He was the former assistant general counsel
13 at Highland. And he was described by Mr. DiOrio as the point
14 person, I guess, for things that had to happen with Sentinel.
15 He helped with the formation. He, as I understand it, he was
16 part of the team. And he's also described as the point person
17 by everybody except for Mr. Sevilla, who disavows the same
18 kind of involvement that everyone else said he had and that
19 the documents show he had.
20 Then you've got Mr. Leventon. He was another former
21 assistant general counsel.
22 By the way, all these folks are in the legal department.
23 They have fiduciary duties. They're all in the legal
24 department, and they presumably have fiduciary duties
25 throughout, and they're all, as you can see, right in the

1 thick of this.
2 Mr. -- the corporate representative of Beecher Carlson
3 talked about how Mr. Leventon, each year-end, would work with
4 Sentinel's actuaries to determine the scenarios for the
5 outcome of the case -- he's talking about the UBS litigation
6 -- with the end goal being to determine what the loss,
7 ultimate loss would end up being that Sentinel would record in
8 their financial statements.
9 So Mr. Leventon is working hand-in-glove with Sentinel
10 from the time the policy is issued -- even before; you know,
11 he was one of the drafters of that memo -- but certainly for
12 years after, including after the restructuring. Of course,
13 with never a word to Mr. Seery or his outside counsel.
14 And then you have Katie Irving. She was a former managing
15 director. She's, again, one of these people who, in her
16 deposition, tried to effectively say she really didn't have
17 much to do with Sentinel. But at the Beecher deposition, they
18 noted that she was someone who had been knowledgeable of all
19 the activities centered around Sentinel, and she attended
20 multiple meetings between Sentinel and CIMA, which is the
21 regulatory authority in the Caymans. She had traveled to the
22 Cayman Islands several times for these meetings, yet somehow
23 it's all apparently slipped her mind when she was being
24 examined or asked about this kind of information directly or
25 indirectly by Mr. Seery and his team.

1 Back to the Beecher Carlson representative. In terms of
2 the unusualness of the transaction, Beecher has lots of
3 insurance companies that they help manage. We asked if they
4 have any other clients that issue ATE policies. Answer is no.
5 Sentinel is the only one.
6 Just how many ATE policies did Sentinel actually produce?
7 Just the one.
8 Just the one we're looking at here?
9 Correct.
10 So this is very outside the ordinary course of business.
11 And here's why. At the time of the transaction -- this is the
12 financials at the end of 2016. Remember, the transaction is
13 summer of 2017. Things haven't changed much for Sentinel in
14 those few months.
15 (Interruption.)
16 MR. CLUBOK: That's -- the total assets are $19
17 million. Okay?
18 A VOICE: Sorry. I didn't mean to get --
19 THE COURT: I'm sorry. Who's speaking?
20 MR. CLUBOK: Okay.
21 THE COURT: Who is that voice?
22 MR. MORRIS: I think that was one of ours, Chris, I
23 think you went off mute.
24 THE COURT: Okay.
25 MR. CLUBOK: That's okay.

1 THE COURT: Continue.
2 MR. CLUBOK: That's fine. Back on Slide 30. Slide
3 30 is UBS Exhibit 9, and that's from Sentinel's financial
4 statements year end of 2016. And you can see that as December
5 2016 Sentinel's total assets were only about $19 million. So
6 how are they issuing a $100 million ATE policy in good faith?
7 Well, the only way to even try to justify it is if you get
8 more than $100 million in transfers, which we know they
9 ultimately did. But, again, this just shows how unusual and
10 outside the ordinary course of business this whole transaction
11 was, even for Sentinel, even if someone were to try to portray
12 it as just a, you know, normal insurance company, just your
13 everyday normal captive insurance company in Highland run by
14 Mr. Dondero and Mr. Ellington.
15 You can see the total cash was only about $5.8 million.
16 And of course, the policy doesn't -- isn't supposed to pay off
17 the claim in cash and prizes. It's supposed to pay just cash.
18 But they only had about less than $6 million on the balance
19 sheet at the time.
20 Unusualness of the case, case, is another factor that
21 indicates fraud. And of course, we asked -- this is the
22 former chief accounting officer, Mr. Stoops. At Mr. Sevilla's
23 instructions, did you transfer all the assets of the relevant
24 funds?
25 Answer, Yes. That is my recollection.

1 And in that instruction, he wanted all funds or all assets
2 transferred, regardless of the value of those assets?
3 Yes. That's right.
4 Mr. Ringheimer, who was the former management or manager
5 of operations, I guess, is his title at Highland, he was
6 asked, To the extent there's a transfer of all of the funds of
7 a particular entity, would you say it was common while you
8 were at Highland for Highland to transfer all of the assets
9 out of a Highland entity?
10 Answer, I don't believe I -- so, I have seen funds wind
11 down before, but I don't believe I've seen another transfer
12 like this before.
13 Then we asked, Do you recall what the urgency was for
14 executing a transfer that day?
15 Answer, I do not.
16 Never communicated to you why it was urgent?
17 Answer, If they did, I don't remember.
18 And remember, you've already heard testimony that it was
19 done in such haste that some of the assets weren't even
20 properly transferred.
21 Use of dummies. This is a -- you know, it's always hard
22 to unpack how Highland -- entities. But if you look at
23 Exhibit 1, you will note three insureds. CDO Fund and SOHC,
24 which you would expect, but also, oddly, CDO Holding Company.
25 When you look at the Defendants, though, you don't see CDO

1 Holding Company. That was not one of the Defendants in the
2 litigation, and yet somehow they're becoming an insured
3 pursuant to this policy. That's curious.
4 Meanwhile, who paid for the insurance? There are six
5 entities who paid for the insurance, and three of them are the
6 insureds. That's double-curious, right?
7 And so all of this just adds to the suspiciousness of this
8 whole transaction.
9 So, what about the consideration? Well, obviously, you've
10 heard a lot. It was inadequate. This was, going back to that
11 settlement analysis that was done, you know, hastily a few
12 weeks after summary judgment was lost, out there it was
13 identified that HFP CDO Fund would send all their assets, and
14 they said, parentheses, $94 million, as the ATE premium, and
15 that would let them write a $100 million ATE policy for UBS
16 liability. They had roughly estimated that there was about
17 $94 million left between HFP and CDO Fund, and that would
18 justify this $100 million policy.
19 Well, it turns out that the aggregate purchase price paid
20 was actually $25 million. Okay? So the premium gets set at
21 $25 million, for other curious reasons. And meanwhile, the
22 aggregate fair market value of all the assets -- because the
23 plan was always to transfer all the assets, regardless of the
24 value -- turns out to be $105 million. So that original plan,
25 transfer all the assets to get us $100 million, that never

1 changed, even though it turned out the assets were worth more
2 than $100 million and the so-called premium had to be set at
3 $25 million.
4 Now, the Cayman Islands Monetary Authority, CIMA, found
5 this suspicious. And they asked about it. And here you'll
6 see, they catch Sentinel in a complete lie. This is a report
7 that was done May 19th, when they're saying -- they're asking
8 for information about what happened here. And they say, Those
9 changed with Licensee's governance could not explain the basis
10 upon which the investments had been valued on or about August
11 20 -- August 1, 2017 for the purpose of premium settlement.
12 And this is Page 78819, Bates label, that is, of UBS Exhibit
13 11. Sort of a question/answer. It's like CIMA will say,
14 Well, here's the question we raised, and then they will say,
15 Well, how did management respond? And this is how management
16 responded when CIMA raised this question. They said, you
17 know, basically, how'd you set the policy? How'd you set the
18 premium? And management -- this is management's comments, was
19 that, At the time the ATE policy was drafted, premium had been
20 established at $25 million based on a pricing study conducted
21 by Licensee's actuary.
22 So they told CIMA, Hey, no problem, we had an actuary set
23 the price, and $25 million was the price. Let alone the
24 overage of payment, but at least $25 million was supposedly
25 the premium price pursuant to this actuary.

1 Well, CIMA didn't just take their word for it. They
2 continued their investigation, and this is how CIMA in this
3 report, Exhibit 11, responds to this management comment. They
4 say, Well, on April 4, 2019, the Authority held a telephone
5 interview with Mr. Jason Stubbs of Risk International, the
6 Licensee's actuary. During the interview, Mr. Stubbs informed
7 the Authority he was not involved in the determination of
8 premium pricing for the Licensee to any extent at all.
9 It goes on to say, The Authority notes with concern that
10 the management's assertion that the ATE policy premium of $25
11 million was established based on a pricing study conducted by
12 the Licensee's actuary contradicts the actuary's position.
13 So the actuary is basically outing them for having just
14 simply lied to CIMA.
15 But you still -- even all that is suspicious, but the
16 problem is we know the assets were worth way more than $25
17 million. And by June of 2018, there was already questions
18 being raised. And Mr. Adamczak at Beecher Carlson had written
19 an email to J.P. Sevilla and Matt DiOrio, copied one of his
20 colleagues, and he said, Look, the problem is the premium was
21 only $25 million, creating a ding on the transaction. This is
22 from Exhibit 12. Because there is no return of overpayment of
23 premium, it gives rise to the question, is this an arm's
24 length transaction?
25 This is the managing agent for Sentinel raising these

1 concerns.
2 So what do they do? They change -- they change the
3 policy. And this is -- this is way after the fact. This ends
4 up being in 2018. This is like June of 2018. Remember, this
5 is about a year after the policy which was -- it was issued in
6 2017.
7 And what they do is they just say, you know what, let's
8 just adjust the premium. Now let's say the premium is $68
9 million. Okay? And now let's say that the limit of indemnity
10 is down to $91 million. Okay? Remember, previously, they had
11 a fair market value of $105 million. They've now got the fair
12 market value supposedly down to $68 million. P.S., because
13 they're now treating that note from DAF as worthless, amongst
14 other things.
15 But they say, Well, the premium is $68 million. We had
16 said if it was a $25 million premium, we at Sentinel would
17 have to take a gain on that difference. Well, what if we just
18 after-the-fact changed the premium up to match exactly the
19 supposed new fair market value, and then lower the limit of
20 indemnity at the same time down to $91 million?
21 So they cook up this scheme, they do it. Of course, they
22 forget to have the insureds sign it, which is, again, a series
23 of, I would say, fully unusual transactions. And this is, you
24 know, again, a year after. So they're just continuing to do
25 things to dig deeper into this hole.

1 We asked Mr. Adamczak, Is this something you've done
2 before in other policies, changed the premium to reflect
3 assets transferred?
4 Answer, This is the first situation like this we've seen
5 where there are assets that were taken in as opposed to cash.
6 And have you ever seen anything like it since?
7 I have not.
8 Beecher Carlson is a nationally renowned, you know, large
9 entity that works with insurance companies, I believe, you
10 know, all over the world, I think, but certainly they have
11 many clients. They've never seen anything like this. And
12 certainly it has never been done before by Sentinel.
13 So, again, this goes to how it's an unusual transaction,
14 and also it goes to the fact that this is not just one mistake
15 or one event but a whole series of things in a pattern.
16 By the way, he was asked, Did any one of the insureds
17 actually agree with the policy premium increasing by three
18 times without increasing the coverage amount?
19 He said, I'm not aware if that was presented to the
20 insureds.
21 Now, we know that a couple of those individuals at
22 Highland Capital Management were in the mix on this, but it
23 was never formally presented, I guess, to the insureds.
24 Somebody at Highland just said, Yeah, go ahead and do this.
25 Then, in 2019 -- and note, this is Exhibit 15, the date of

1 this is December 31, 2019, months after the bankruptcy in this
2 case has opened. And then what happens? There's an asset
3 transfer agreement because Sentinel had this collection of
4 assets that they want to get out of even Sentinel and
5 basically to transfer all these assets to another Dondero/
6 Ellington-affiliated entity -- I believe it was to Sebastian
7 Clark, allegedly -- all of these assets for $3. That's in
8 December of 2019.
9 Now, this is -- you know, they've already moved the assets
10 from CDO Fund, HFP, and Sentinel in 2017. They disposed of
11 some of them in other ways, but some they still have in the
12 Caymans. And what they do is they hustle or try to hustle and
13 get them out after the restructuring to an entity connected or
14 owned by Ellington for $3.
15 You'll note that amongst these assets there's that $32
16 million CLO Holdco also known as the DAF note. Remember the
17 one that they had so much emphasis on when they originally
18 hatched the scheme, that they were really worried that this
19 note could ultimately end up in the hands of UBS if UBS were
20 to prevail? Well, they now try to double-transfer it away.
21 After, by the way -- here's another asset. Aberdeen.
22 This is an interest in a CLO. We now know this is -- millions
23 of dollars, I believe, are currently restrained in connection
24 with this Aberdeen asset by the New York court. But, again,
25 they're just transferring all these assets, supposedly for $3.

1 Why? Well, Mr. Adamczak said they were told they were
2 worthless. And we asked, Who told you they were worthless?
3 And he said, That direction would have come from Matt DiOrio.
4 This is December of '19, after the bankruptcy.
5 Then we asked, Well, as part of the valuation service the
6 Valuation and Research Corp. had done, had they determined
7 these assets were worthless? Had this VRC group, this -- the
8 group that previously they had used to try to give them at
9 least some argument of fair market value. Mr. Adamczak said,
10 Well, they -- VRC had not been engaged to perform valuations
11 on those investments, and it was discussed that if those
12 investments were worthless there's no point in obtaining a
13 valuation.
14 So just think about that. And this is his deposition at
15 276, Line 17, through 277, Line 6.
16 Basically, Matt DiOrio says, Hey, these assets are
17 worthless. Transfer them to this entity for $3. And they
18 say, Well, shouldn't we have VRC value them? And DiOrio
19 basically says, No need to value them. I told you they're
20 worthless. Why spend money valuing them when I've already
21 told you they're worthless? Even though they include a $32
22 million note payable by the DAF and they include at least
23 other assets that we know are worth millions of dollars. We
24 asked if Beecher had done anything independent, and they
25 explained that had no way of confirming anything.

1 Now, luckily, those assets had been transferred back to
2 Sentinel. And, luckily, the current directors, I believe, did
3 listen to our arguments, and also had, I think, some pretty
4 sharp instructions from CIMA. And as a result, those assets
5 or those purported transfers have been unwound and those
6 assets have been returned to Sentinel.
7 But this just shows the danger and risk that at every --
8 every opportunity, these individuals will try to keep moving
9 these assets and try to keep evading them from judgment.
10 And by the way, this has happened before. Mr. Seery was
11 testifying a little bit about what started all this. This --
12 Slide 43 just has a compilation from UBS Exhibit 52, which
13 just showed the asset transfer or the fraudulent transfer that
14 we alleged back in 2009.
15 And for UBS, this is just déjà vu all over again, because
16 what we alleged in the New York case was, at the time, there
17 was a whole bunch of assets that were pooled into HFP and then
18 distributed to the winds right after default was declared in
19 the contract and at the outset of this litigation.
20 Actually, after UBS had sued Highland, a couple months
21 later they did this, you know, then face value of a couple
22 hundred million dollars in assets that we had argued was
23 fraudulently transferred.
24 What we see now happened in 2017 was basically the follow-
25 on to that, like, everything that was left, let's put it all

1 together and send all that to Sentinel. So, to us, it is a
2 pattern. And it is, as I said, déjà vu all over again.
3 And back then, just like in 2017, of course, Mr. Dondero
4 signed on behalf of everybody. That's the typical pattern.
5 That's the series of continued fraudulent transfers that had
6 been -- UBS, but also really speak to what we've seen from
7 Highland in connection with many of the creditors.
8 Sentinel again looked at all of this -- later, and they
9 say, with respect to some of the other practices, they say
10 that, Those charged with the Licensee and licensing at
11 Sentinel governance could not explain the basis upon which the
12 investments have been valued in August 2017.
13 They also couldn't explain the reason why the information
14 that was relied on to value the investments for the purpose of
15 premium couldn't be readily provided to the auditors upon
16 request, considering that the policy inception and the
17 financial statements on it was only a few months apart.
18 CIMA also noted, and this is Exhibit 11 at Bates 78819,
19 that those charged with governance could not explain why the
20 premium was adjusted without a commensurate adjustment to the
21 indemnity limit provided or why the initial pricing was
22 subsequently deemed not sufficient.
23 And they say, In addition, in any case, to amend an
24 insurance policy to artificially inflate the premium amount to
25 equal the value of investments transferred to the licensee

1 without any justifiable business purpose and economic
2 substance is, at the very least, questionable.
3 In sum, the above matters cast significant doubt on the
4 economic substance and business purpose of the transactions
5 relating to the ATE coverage.
6 According to CIMA, it was Sentinel's own lawyers. They
7 hired a lawyer in Cayman to look at this, and they tried to
8 get some help -- this was back in 2017 -- to just effectuate
9 this plan once it had been cooked up. And even back then the
10 Cayman lawyer noted, Has any thought been given as to the
11 legal validity of such a transfer, bearing in mind that these
12 assets will then be put beyond the reach of the Plaintiffs in
13 the U.S. litigation against the Fund. Obviously, the last
14 thing you want to find is that the "premium" has to be
15 returned or set aside as some unlawful preference or similar.
16 Obviously, an issue for U.S. counsel, but just thought I
17 should raise it. Well, you can imagine U.S. counsel at the
18 time in 2017 did nothing, but this was obviously flagged by
19 their Cayman counsel.
20 So, one factor that I skipped over but you've heard a lot
21 about is the secrecy. And, really, the secrecy is a -- just
22 sort of it wraps everything up. You know, we know the
23 bankruptcy was in October 2019. We know that we got a
24 decision that notified the world or at least notified Highland
25 and Mr. Dondero and even Mr. Seery before he became a director

1 that there was this looming $1 billion judgment.
2 It was first issued as a decision. It was not made public
3 so that the parties could have some time to try to negotiate
4 settlement, which we -- you heard testimony in other
5 proceedings that we started to with Mr. Ellington.
6 So Highland obviously had received it from the Court and
7 knew all about the billion-dollar judgment.
8 February 10th, it -- I'm sorry, the billion-dollar then-
9 decision.
10 By February 10, 2020, it is reduced to a judgment for
11 Phase I. And yet from 2019 until the beginning of 2021,
12 everyone -- all these ex-employees of Highland now who knew
13 about this actively concealed it.
14 And of course, we start with Mr. Dondero. This is Mr.
15 Ellington saying, Did you ever tell Mr. Dondero that there was
16 an insurance policy issued by Sentinel that could potentially
17 satisfy the judgment?
18 That was kind of an obvious question.
19 Ellington said, Well, I didn't need to tell Mr. Dondero.
20 He was aware of it since the inception.
21 And, of course, Mr. Dondero signed it. So it just goes
22 without saying Exhibit 1 shows that Dondero knew about it.
23 And, of course, Mr. Dondero never said anything about it
24 throughout, as you can see by his deposition.
25 Meanwhile, though, Mr. Sevilla also covered it up. We

1 asked Mr. DiOrio about Mr. Sevilla's role, and as we noted, he
2 was the point person for things that happened on Sentinel. He
3 knew everything about Sentinel.
4 We asked Mr. Sevilla, in his deposition transcript, 278,
5 Line 20, to 279, Line 3: So, between the time the independent
6 board was appointed and your departure from the company, did
7 you ever disclose to any of the members of the independent
8 board that you were aware the existence of a Sentinel
9 insurance policy ostensibly provided for coverage for the loss
10 of the UBS litigation?
11 Answer, no.
12 Mr. Leventon. Mr. Leventon doesn't just omit information,
13 he -- well, you'll see for yourself. This is one of the
14 documents where he had been tasked with tracking the assets
15 through on SOHC. He says, this is Exhibit 16, and in one of
16 his emails to Mr. Seery and to Mr. Demo and others, he claims
17 he had been tracking the assets through an SOHC and CDO Fund.
18 He was putting together a report with supporting
19 documentation. And he claims that there's just this small
20 account of cash and a few worthless securities.
21 Now, he's claiming he's tracking the assets through.
22 Okay. He knows what happened to the assets of SOHC and CDO
23 Funds. He helped devise the scheme to transfer them in 2017
24 to Sentinel. He has also been, every year, talking to
25 Sentinel or their actuaries about the prospects of the

1 litigation. And yet when Mr. Seery, Mr. Demo, and others task
2 him with tracking the assets, he just, you know, says what's
3 there, doesn't ever mention this. You know, this would be, at
4 a minimum, a material omission.
5 I think if you read the documents and you look in Exhibit
6 16, you'll see things that are even more concerning. This is
7 not an accidental omission.
8 This is the list he provides, without identifying at all
9 that there is, in fact, all of this other -- all these other
10 assets that were transferred and a $10 million supposed
11 insurance policy just available for the asking.
12 And he was asked, Well, you knew there was a schedule that
13 showed Sentinel having an interest in Multi-Strat that
14 specifically said, parentheses, from Highland CDO Fund. There
15 was a schedule that showed that.
16 And he said, Well, I think that's fair. December 2017, I
17 think that's fair.
18 And we asked, Well, when you were tasked with helping
19 trace the assets of CDO Fund and HFP, you even talked to Mr.
20 Ellington, in words or substance, about whether or not you
21 should mention Sentinel, correct?
22 And this is an email exchange that Mr. Ellington had had
23 with Mr. Leventon back in December of 2017. This is Exhibit
24 46. This showed -- this is of Highland Credit Opportunities.
25 In other words, the Multi-Strat list of -- of interests in

1 Multi-Strat.
2 And you can see, back in the end of 2017, it was
3 identified, the first one on the list is an interest of
4 Sentinel in Credit Opportunities, also called Multi-Strat.
5 Okay. That's the interest that right now is being restrained
6 by Your Honor's order. And this interest was being -- was on
7 the books as being settled but it said right in their
8 document, parentheses, from Highland CDO Fund, because it had
9 only been transferred a few months ago, in August. Right?
10 So Leventon and Ellington know this. They know that
11 Sentinel has an asset that came from CDO Fund. Of course, not
12 just because of this document. This is just one of many. But
13 back then -- and, again, if you look at those documents, Mr.
14 Leventon was asked, You never told anyone at the Pachulski
15 firm that assets of CDO Fund held with respect to Multi-Strat
16 may have been transferred to Sentinel, correct? And he says
17 yes, that's correct. Just never -- never mentioned it.
18 We asked, What was the information you had about the
19 assets of SOHC and CDO Fund from March of 2009 to the present
20 that you chose not to provide to the Pachulski firm? He says,
21 Answer, I knew that there had been a transaction in 2017
22 sometime with respect to an after-the-event insurance policy
23 with Sentinel.
24 Then we asked, Did you ever disclose the existence of this
25 policy to any of the independent directors?

1 Answer, I never discussed with them one way or the other.
2 This is all while he has been tasked with, as Mr. Seery
3 put it, generally speaking, to trace the assets from 2009
4 through the present.
5 Mr. Ellington goes even further. He really tries to
6 divert things. And you'll see in an email exchange where he
7 jumps in and tries to cloud the issue by using a phrase he's
8 used over and over again as he explains so-called ghost funds.
9 This is an August 15, 2020 exchange that's got Mr. Ellington,
10 Mr. Demo, Mr. Leventon, Mr. Seery, and others on it. And this
11 is Exhibit 17.
12 Mr. Ellington jumps in. If you read the Exhibit 17,
13 you'll see how he jumps in and he says, Look, stop, stop all
14 this. You know, basically, he says, There's not much more to
15 do.
16 He goes, I have personally discussed at length this
17 situation with the head of KPMG Cayman Islands and he
18 expressed to me there are currently more than 6,000 ghost
19 funds such as these target entities -- the target entities, of
20 course, are not just random funds out of the so-called 6,000
21 ghost funds, but CDO, SOHC, HFP -- stemming from the 2008
22 crisis that do not have directors, custodians, administrators,
23 bank accounts, et cetera, that sit dormant, and, capital, NO
24 ONE, capital letters, knows what they truly retain, et cetera.
25 He then said, I know that UBS is aware of the situation,

1 and I know Andy Clubok -- that's me -- knows of this
2 situation, the so-called situation of everything being ghost
3 funds because I've personally discussed it with him several
4 dozen times, including as recently as this year.
5 He goes on to say, Oh, this process is a Herculean task.
6 He and I just spent 100 hours, or excess of 100 hours, trying
7 to piece together everything they can to create a true and
8 accurate document record, based record, of what happened with
9 these target entities.
10 He is affirmatively telling Mr. Seery, Mr. Demo, and
11 others that, you know, not just waiving those funds and trying
12 to trick them with that, but claiming that he is doing
13 everything with Leventon to piece together everything they can
14 to create a true and accurate document, at least record of
15 what happened to these entities. And the simple thing that
16 happened to those entities, the most important thing, frankly,
17 the only really relevant thing, is that all of their assets
18 were transferred or tried to be transferred in 2017 to
19 Sentinel.
20 Now, by the way, some of those assets weren't transferred.
21 So CDO Fund still had some accounts and still did have some
22 assets, even when Mr. Ellington is claiming this. So the
23 whole thing is, you know, inaccurate, but, frankly, just a
24 downright -- well, I won't characterize it. I think it speaks
25 for itself.

1 We deposed Mr. Ellington in this proceeding. This is at
2 Deposition Transcript 83, Line 15, to 84:24. I asked him, Did
3 you ever tell me that there was an insurance policy issued by
4 Sentinel that potentially could satisfy that judgment?
5 Answer, No.
6 Did you ever tell Mr. Seery anything at all about the
7 insurance policy that was issued by Sentinel with respect to
8 the UBS litigation in New York?
9 Answer, No.
10 Question, Did you tell Mr. Nelms, Judge Nelms, anything at
11 all about the insurance policy that was issued by Sentinel
12 with respect to the UBS litigation in New York?
13 Answer, No.
14 Mr. Leventon was asked, Well, did you, in words or
15 substance, ever ask Mr. Ellington whether you should disclose
16 the policy?
17 And we got kind of a hard-to-understand answer, but it's
18 Leventon Deposition Transcript 154, 217. The gist of it is
19 Ellington told him not to.
20 The answer specifically says, So, the conversation was, is
21 the policy relevant to the task I'm working on? And the
22 answer, Mr. Ellington said he didn't believe that it was and
23 therefore didn't need to be included as material because part
24 of that past.
25 And then I asked, You know, you've been in conversations

1 with Mr. Seery. I don't talk to Mr. Seery hardly ever. So is
2 there any other thing that any other -- anything else that I
3 should know of or -- or any other reason, you know, outside of
4 my task that I should include in the materials, and Scott said
5 no. Okay?
6 Basically, this is a very narrowly defined -- it's an
7 effort by Mr. Leventon to somehow define his task down so
8 narrowly that he and Mr. Ellington could somehow have a
9 conversation and believe in good faith, while they are lawyers
10 working for the estate that's in bankruptcy, that somehow this
11 is something they should affirmatively not disclose to Mr.
12 Seery and his team.
13 And then we get to Mr. DiOrio. And Mr. DiOrio tried and
14 tried to hide it, but ultimately I believe it was his
15 documents that left -- were left behind or that were found
16 that helped unravel the scheme. But back in January of '21,
17 when he was still here, he repeatedly lied to Highland
18 Capital.
19 This is an email exchange from January 28, '21. Remember,
20 Mr. DiOrio is a Sentinel director at that time. Okay? He's
21 getting paid exclusively by Highland Capital Management, but
22 on Highland Capital Management time he has this side gig of
23 being a Sentinel director. And he's asked -- he was asked to
24 figure out what are the -- what are the assets that didn't
25 make its way to actually be transferred. There's an asset

1 that's called Greenbrier. It's an interest in a CLO. And
2 with respect to that particular asset, he claims he was
3 working to reissue physical certificates, he'll keep everyone
4 in the loop on the timing. Does not appear to be a swift
5 process, but we're moving forward. The shares are still
6 registered to Hare & Co., with CDO Opportunity Fund as
7 beneficial owner.
8 So this is one of those assets where they, just because of
9 the haste, had not -- not competently effectuated the transfer
10 as they tried to do.
11 He talks about how BONY has a custody account in CDO
12 Opportunity Fund's name, and been receiving past waterfall
13 payments.
14 By the way, I think this has amounted to over $10 million,
15 and these have been ultimately now paid to UBS and we're
16 continuing to get it as part of the prior settlement
17 agreement, but, you know, obviously only because it was
18 identified at the last minute.
19 Anyway, Mr. DiOrio says, Well, these certificates were
20 transferred in error in 2017 by Carter Chisholm, who no longer
21 works at HCM. Now, Mr. DiOrio knows exactly what happened
22 with these transfers, okay, but he just kind of gives this
23 weird answer, it was transferred in error.
24 And then Mr. Demo says, Okay, but do we have any
25 visibility into who Sentinel Reinsurance is? Who owns them?

1 What do they do? Et cetera.
2 Because this is about the time, as Mr. Seery testified,
3 that it's all kind of starting to unravel. They've seen a
4 ledger that showed that Sentinel actually had some interest in
5 Multi-Strat, and that's kind of weird, and it sparked some
6 memory, and certainly they really start fussing Mr. DiOrio,
7 who is a director of Sentinel. And Mr. Demo asks him this
8 January 27, 2021. This is Exhibit 18. What does Mr. DiOrio
9 say? He says, It's a nondebtor, non-affiliate reinsurance
10 company, but I do not know who or how it's owned. That's what
11 he tells Mr. Demo and the others. Okay?
12 Now, we asked him about that, and we said, Well, you knew
13 it was owned in part by Dondero?
14 Yes.
15 And you knew it was owned at least in part by Mr.
16 Ellington?
17 This is when he gets under oath. His deposition
18 transcript at Page 336, Lines 3, to 338, Line 1.
19 He said, yeah, he knew it when he told them that he
20 didn't.
21 And we say, Well, he asked -- talking about Mr. Demo --
22 who owns Sentinel Reinsurance, right?
23 Answer, Yes.
24 Okay. And you didn't tell him Mr. Dondero and Mr.
25 Ellington owned part of it, right?

1 Right.
2 Question, Well, why didn't you just explain this to Mr.
3 Demo?
4 Answer, I wanted as little to do with Pachulski as
5 possible, so I answered the questions and waited for the next
6 one.
7 Okay? Now, to be sure, he wasn't under oath in Exhibit
8 18, I guess. But he's a member of the legal department, he's
9 a Sentinel director, he's working for the bankruptcy estate at
10 that time, and he just flat lies. There's no getting around
11 it. And then when we're talking under oath, he admits the lie
12 and, you know, basically just didn't want to -- didn't want to
13 have anything to do with Pachulski, I guess.
14 Well, that's when luckily Mr. Seery now stepped in. And
15 seeing all of this, I think he fires the last of these
16 individuals who were still there. And then just, you know,
17 weeks later makes a claim on behalf of CDO Fund to Sentinel
18 for that $100,000 million, which, of course, he clearly would
19 have done, and his deposition testimony reflects this, from
20 the get go had he known about it, since we had a judgment and
21 the insurance policy was intended to benefit UBS.
22 So that's secrecy.
23 Turning back to the factors, I'll run through the rest of
24 these quickly. Transfers retain control. Well, of course.
25 It is the case that Beecher had been servicing Sentinel --

1 throughout the time that Beecher worked for Sentinel, Dondero
2 and Ellington were the ultimate beneficial owners, called
3 UBOs. Mr. Adamczak testified to that on Pages 22, 24, and 25
4 of his deposition.
5 He was asked, What's the role of the ultimate beneficial
6 owner? And as he understood it, the ultimate person would
7 call the shots for the captive. And we asked him if that was
8 true with respect to Dondero and Ellington, that they were the
9 ones ultimately calling the shots. He said, To the best of
10 our knowledge, that's correct.
11 Everything that was done -- remember, Sentinel doesn't
12 have employees, so everything is either done by a Highland
13 employee working for Sentinel or being executed by Beecher,
14 which is sort of the agent that executes stuff. And they just
15 did everything that Dondero and Ellington told them.
16 So, with all of that, where has this money gone? Okay?
17 At least the money that has not been restrained. Where has
18 some of the other money gone? And you heard a little bit
19 about this, but I am sure you can't -- will not believe some
20 of this.
21 Basically, the transferors, and that's Dondero and
22 Ellington, retained control and have used that money that they
23 transferred out of CDO Fund and HFP and all the others as
24 their own personal piggybank. Here is just a sampling of some
25 of the expenses that have been approved since that transfer.

1 And by the way, these are post-bankruptcy, November of 2019
2 through January of 2020 expenses that, unbeknownst to Mr.
3 Seery and our understanding is unbeknownst to the Pachulski
4 firm, were just being authorized by Mr. DiOrio and others
5 post-bankruptcy with money out of Sentinel that should have
6 been used to pay UBS's judgment.
7 First of all, here's an expense report from January 15,
8 2020 through January 19, 2020. It's UBS Exhibit 19. And in
9 there you will see Ellington expenses for a London and Paris
10 trip of over $78,000. At least one of these trips, I think
11 it's this one, or maybe others, he went with his girlfriend.
12 There are some emails that we have submitted that are in the
13 records that show her, like, talk about which restaurants she
14 wants to dine at, what hotels they want to stay in. All
15 that's in the exhibits to the depositions. One of the -- one
16 of the visits they did was a place called Sexy Fish. Sounds
17 good. This is all being charged to Sentinel, okay?
18 Then there's another expense report to Toronto, $97,000.
19 Interesting. There, they spent about $12,000 at the Rebel
20 nightclub. Okay? Again, this is all instead of using the
21 money to satisfy the judgment.
22 Meanwhile, there's another one. This is December of 2019.
23 Scott Ellington. A $318,000 expense report. Okay. Now, this
24 is before Mr. Seery has been appointed but post-bankruptcy.
25 And I'm sure that the Pachulski firm had no idea about this.

1 A huge expense on this one was the Sapphire. This is a trip
2 to Las Vegas. Somehow they spent $318,000 in Las Vegas. And
3 there's five entries that total, you know, something like
4 almost $50,000 or something to Sapphire. So we said, Well,
5 what's Sapphire? This is Sapphire. And you can see inside
6 72, there's a picture, and we've hidden strategically some of
7 it.
8 But we asked Mr. Adamczak, the corporate representative of
9 Beecher Carlson, at Page 101, Lines 15, to 102, What did you
10 understand Sapphire to be?
11 He answered, A typical Las Vegas strip club.
12 Question, Did you look at that at the time when they
13 submitted $318,000 in expenses?
14 Answer, Yes.
15 And did you ask Mr. DiOrio specifically about that?
16 Answer, I did.
17 Question, And his answer was that it was business
18 development?
19 Answer, They were all business development. This is how
20 they do business.
21 Question, They being who?
22 Answer, Highland Capital.
23 Okay? By the way, the business is, on one day, or one
24 evening, December 16, 2019, as you can see, $9,800, $9,800,
25 $9,000, all being supposedly conducted at the Sapphire strip

1 club.

2 Back in the day, this was looked at. And you can see on
3 some of these emails. Remember, you heard about this SAS
4 Management server that's apparently been hidden from the
5 Highland -- from the Debtor? Sarah Goldsmith to Matt DiOrio
6 says that she was submitting the attached expense
7 reimbursement on behalf of Scott Ellington. Ms. Goldsmith, I
8 think, was his assistant. Subject to an approval by the
9 directors, please instruct reimbursement to Scott Ellington
10 for this total travel expenses of $318,000.

11 Mr. DiOrio forwards that on to Beecher Carlson and just
12 says, Hey, guys, Please submit the attached expenses for
13 approval and reimbursement.

14 By the way, as a heads up, settlement talks are cranking
15 up, but okay.

16 Internally at Beecher Carlson -- and this finally gets
17 their attention. They mostly just do what they're told, but
18 internally Mr. Adamczak emails with his colleague and says,
19 Nice. What the hell is going on with these expenses? I
20 question how much, quote, business development is actually
21 being done. Did you look at this?

22 Well, we asked, What raises concern? He said, The fact
23 there was $318,000 worth of expenses at first, but there was a
24 significant amount of that that seemed to be club-related. We
25 asked if the directors approved it. He said, Ultimately, but

1 they also questioned it.

2 Oh, by the way, these are not the current directors. As

3 Mr. Morris noted, the current directors are new, and those are

4 the ones we're dealing with now. These were Mr. DiOrio and

5 his two other colleagues back then.

6 They were asked -- they requested the nature of these

7 expenses and then specifically inquired whether all or both of

8 the UBOs would be okay with running these expenses through the

9 captive as business development. That was their only

10 question. Are the UBOs -- that is, Dondero and Ellington --

11 going to be okay with running these expenses through the

12 captive?

13 Who did they ask? Matt DiOrio. What did he answer? That

14 it was appropriate.

15 And I just clarified, So he was saying it's appropriate

16 because the UBOs said it was appropriate?

17 Answer, To my knowledge, yes.

18 No justification other than, Hey, if Dondero and Ellington

19 said it's okay, at least according to DiOrio, it must be okay.

20 That's not it, though. It wasn't just a mod... you know,

21 relatively, I guess, when you consider the total amount of

22 expenses. There's also dividend payments. And on Slide 77,

23 you see that we've uncovered at least a total of $8.9 million

24 dividend payments that were paid to Mr. Dondero and Mr.

25 Ellington's entities that they owned, that they're the

1 intermediaries to them as the ultimate beneficial owners.
2 Here is an example of a payment that was made in April of
3 2020 -- again, unbeknownst I think at the time, I'm sure at
4 the time, to Mr. Seery. And this is out of Sentinel's money.
5 It's supposed to be -- you know, they don't even have a
6 hundred million in cash at that time, and yet they're
7 dividending up to Mr. Dondero and Mr. Ellington. There is an
8 approval of the payment, of course. It's done by Matt DiOrio
9 and his -- and then two colleagues, as the Sentinel director
10 at the time, in April 24, 2020. This is Exhibit 47. A total
11 of $6.4 million. And you can see it's divided up. About $4.4
12 million goes to Main Spring, Limited. This is Exhibit 21.
13 That's a Dondero entity. And you can see there's -- Exhibit
14 22 shows the wire transfer to another entity called Montage of
15 about $1.9 million. That's the Ellington-affiliated entity.
16 So, the grand total of about $6.4 million gets distributed
17 70/30, as we've seen in the ownership interest, to entities
18 controlled, respectively, by Mr. Dondero and Mr. Ellington, as
19 set forth in Exhibits 21 and 22.
20 That's not all, of course. Even in 2021, in January of
21 2020 -- sort of the last gasp before they get found out,
22 there's another dividend payment. Again, approved by Mr.
23 DiOrio. January 11, 2021. This is -- this is all during a
24 time when they're not telling anything to Mr. Seery or Mr.
25 Demo or the others about Sentinel. And yet Mr. DiOrio is

1 hustling dividend payments up to Dondero and Ellington. And
2 you can see Exhibits 48 and 23 show how the money ultimately
3 gets transferred, you know, even, you know, as late as the
4 spring of 2021.
5 Finally, Sentinel money. Mr. Morris talked about this.
6 And I guess there's a lawyer on the -- on the -- in the
7 proceedings today that maybe intends to try to benefit from
8 Sentinel's money as well.
9 In June 2021, Beecher Carlson was given a request for
10 expense approval for Ross & Smith of about $75,000. This,
11 according to Mr. DiOrio, was all in order and should be
12 settled. Mr. DiOrio represents -- this is June of 2021, after
13 he's been fired by Highland. He says, The company identified
14 a group of former employees, my -- former employees, okay?
15 Sentinel had no employees. And by the way, many of these
16 people testified under oath that not only were they not
17 employees, but they hardly did anything at all with Sentinel.
18 Yet Mr. DiOrio is claiming that the company had identified a
19 group of former employees, myself included -- presumably, he's
20 talking about former Sentinel employees; there's no reason why
21 Sentinel would be indemnifying former Highland employees. But
22 in any event, he says, It relates to our defense with today's
23 hearing that I mentioned.
24 Now, they're not a part of this hearing. To the extent
25 Sentinel -- Sentinel insurance doesn't go to Mr. DiOrio for

1 trying to avoid deposition testimony or something, and that's,
2 by the way, what that hearing was.
3 Your Honor may not remember that date. We do. It was
4 June 24, 2021. This is an entry that shows that that hearing
5 that day was the motion we had to make to compel the
6 deposition testimony, because at the time all of these former
7 Highland employees were fighting having to come provide all of
8 this testimony you've now seen. You would never have seen
9 much of what we presented today had this motion to compel not
10 been granted. And they charged $75,000 to fight it.
11 Now, we asked for fees at the time. And we understand why
12 Your Honor didn't award fees, but -- we can understand that.
13 But it sort of put us flat. Not only did they not pay our
14 fees for having to move to compel, they depleted Sentinel
15 further, which owes us, at the time, owes us quite a bit of
16 money, for the privilege of trying to stop us from finding out
17 all of the evidence here.
18 So, and I say that it's UBS's money at Sentinel because
19 the New York courts say so. The New York courts have held
20 that insurance policies may constitute debts against which a
21 money judgment may be enforced under Article 52 of the New
22 York CPLR, and a judgment debtor can enforce the subject debt
23 arising from the court's final judgment against the judgment
24 debtor's insurer, pursuant to Article 52 of the CPLR. So,
25 really, this money really ultimately should go to UBS. It

1 should not be allowed to continue to be paid for this
2 indemnification or for any other purpose, et cetera.
3 At the end of the day, even if the policy were valued, or
4 valid, UBS would be owed at least $100 million, even if it was
5 a totally valid thing. But in fact, UBS is owed the $100
6 million plus the $80 million for the fraudulent transfer, for
7 a total of over $180 million.
8 So that's how we get to success on the merits. The
9 others, I really don't need to go much through.
10 I think, you know, irreparable injury. In brief, there's
11 case law that makes it clear that the irreparable injury
12 element is satisfied when the defendants would dissipate the
13 frozen assets, and if the defendants were to dissipate or
14 transfer these assets out of the jurisdiction, the District
15 Court would not be able to grant the effective remedy. That's
16 from the Fifth Circuit, *Janvey v. Alguire*, 647 F.3d 585.
17 There's similar law in the Ninth Circuit: *Johnson v.*
18 *Couturier*, 572 F.3d 1067.
19 And, again, Mr. Seery, as you heard him testify live, but
20 this is from his deposition, made it clear that he really had
21 no choice. Without the TRO, this money probably would have
22 been already transferred to Sentinel and gosh knows what would
23 have happened.
24 The weighing of harms. Well, this adversary proceeding,
25 of course, as Mr. Morris said, we kind of expected maybe

1 Sentinel or maybe Mr. DiOrio or someone to intervene. No one
2 did. So the proceeding is between UBS and Highland. There is
3 huge harm to UBS if the injunction is not granted.
4 The other party is Highland, because Highland -- you know,
5 there's certainly no benefit to Highland, and instead what
6 Highland will face is more litigation, costs, and a fraud,
7 which, of course, Highland doesn't want. And that's why I
8 think Highland -- not only is there no harm to Highland to
9 granting the relief, but Highland wants to cut these
10 proceedings short. And that's fine with us, as long as we
11 were able to present this evidence, as long as it doesn't cut
12 short the ability to get the full order that we've requested.
13 So, I think the weighing of harms is easy.
14 And finally I end with the public interest. Your Honor,
15 there is no harm to the public interest if the Court does
16 enjoin fraudulent behavior. That is the only way that we can
17 prevent harm to the public interest. You have seen a pattern,
18 a series, you know, it's tacked on to other things you've seen
19 in connection with these proceedings. But the prevention of
20 unjust enrichment by means of fraud or misappropriation, even
21 if it was affecting "only private entities," is in the general
22 public interest.
23 Of course, here, all of these things impact not just UBS,
24 it affects the other creditors of the estate. It affects the
25 Court's time. And certainly, I think as Mr. Morris put it,

1 it's just the signal that it sends to allow this to go
2 unchecked would be terrible.
3 So it's many issues of concern that we haven't even dived
4 into as much as we could, including testimony that is
5 questionable, I'll say, at best, and various transfers and
6 information that was not provided to the Court and its
7 representatives. And, of course, these proceedings, I suspect
8 there will be issues for someone else for another day to deal
9 with.
10 But for us, we just ask that the Court enter the
11 injunction as we have suggested with the minor edits to the
12 version that Mr. Morris and his colleagues submitted. The
13 public interest will be served by that.
14 And I'll end with, you know, why are we still here? We're
15 still here because UBS still has that over billion-dollar
16 judgement. And, in fact, because of interest, that judgment
17 has grown by about $116 million, okay, while we've been
18 dealing with all of this. While we could've maybe gotten a
19 significant portion, maybe could've settled, et cetera, but
20 it's now up to over $1.1 billion.
21 And how much total has UBS been paid by the judgment
22 debtors? About $14 million. By the way, the $14 million is
23 those assets that we caught at the last second that were
24 ineffectually tried to -- transferred, even though they tried
25 to be. But that's all that UBS has recovered from the actual

1 judgment debtors. And that's why we're still here, that's why
2 we have to stay here, and that's why we should be entitled to
3 continue to make sure that this Court's injunctive power
4 protects UBS's ability to continue in its efforts.
5 Thank you for your patience. I appreciate it.
6 THE COURT: All right. I'm going to ask you a couple
7 of follow-up questions. I've heard today that once Highland's
8 independent directors, Strand's, discovered all of this, the
9 Sentinel policy and the transfer of assets, they immediately
10 notified UBS. And one of the results was the settlement that
11 had originally been struck between UBS and Highland was
12 increased with $50 million more to go to UBS. Could you just
13 elaborate on that? Before this was all discovered, the
14 settlement that had been negotiated that was going to be
15 presented to the Bankruptcy Court involved how much of an
16 allowed claim that would be paid out of the estate and any
17 other relevant components?
18 MR. MORRIS: Mr. Clubok, I have those numbers if you
19 don't have them handy.
20 THE COURT: Okay. Or Mr. Morris.
21 MR. CLUBOK: Thank you. I was just going to -- so I
22 would appreciate that.
23 MS. MORRIS: So, at the confirmation hearing, the
24 proposed settlement was a Class 8 general unsecured claim for
25 $50 million, a $25 million Class 9 subordinated general

1 unsecured claim, and a cash payment of $18-1/2 million from
2 Multi-Strat.
3 After the disclosure of this information, the Class 8
4 claim was increased by $15 million, from $50 to $65 million,
5 and the Class 9 subordinated general unsecured claim was
6 increased by $35 million, from $25 to $60 million. And the
7 Multi-Strat cash payment remained the same.
8 So, just to summarize, the Class 8 claim went up by $15
9 million and the Class 9 claim went up by $35 million.
10 THE COURT: Okay. And just another refresher of my
11 memory. The global mediation that happened in this case, it
12 was summer 2020, the global mediation before former Judge
13 Gropper and Sylvia Mayer. So I know UBS technically did not
14 settle during that mediation, but it came about, you know, a
15 few weeks or months after. But there had been participation
16 by UBS and the Debtor in that mediation. And, again, this was
17 summer 2020, before anyone knew about this Sentinel insurance
18 policy, correct?
19 MR. CLUBOK: That's correct, Your Honor, but also, as
20 you note, the mediation started in the summer of 2020. We
21 were, prior to doing that mediation, in anticipation of that
22 mediation, asking for all this financial information. To Mr.
23 Seery's credit, as he testified, he said, Hey, we'll get it to
24 you. We -- that's fair. And he said, I'll tell my folks to
25 get whatever you need, or words to that effect.

1 We didn't settle in the first round when some others did,
2 but we had continuing mediation sessions into the fall. And I
3 believe, I don't have the exact dates, but I believe UBS then
4 had follow-on continuing discussions with Judge Gropper or Ms.
5 Mayer in, you know, I want to say October, September/October
6 time frame. And that's when we're still in the mediation, we
7 believe or we've been told at that time, oh, you've got all
8 the information about the assets now, because in the first
9 mediation we didn't have it, so that's why I said, hey, we
10 can't settle. By the time we had that second set of sessions
11 with Judge Gropper and Ms. Mayer, then we had been given all
12 the information, as we now know, because Mr. Leventon, Mr.
13 Ellington, and others told Mr. Seery and Mr. Morris and his
14 team, hey, this is everything.
15 So, with that in hand, that's when we reached this initial
16 settlement that Mr. Morris described to you. And then, you
17 know, as we're working through it and we'd gotten that -- I
18 think we finally got to that settlement by the end of the
19 year, by the end of 2020. But then, luckily, as we continued
20 to press for information, and then in January a lot of this
21 gets uncovered. In fact, before we had finalized that
22 settlement per those discussions, this was all uncovered. And
23 so that's what caused us to, then, say, well, --
24 THE COURT: I'm just mainly trying to be clear. And
25 I'm just thinking through all the time and attorneys' fees

1 that were incurred related to this UBS claim and what was a
2 fair and equitable settlement, without anyone having the
3 benefit of the knowledge about this Sentinel transaction.
4 MR. CLUBOK: For sure. And my point is it started
5 August, but we worked all the way -- I think maybe it was even
6 close to Christmas. I feel like it was very much at the end
7 of the year when we finally got a settlement, and all that was
8 on the fiction of the belated production of some of the
9 assets, which then we get to January and it's like ah, gee, we
10 have to start over again. And you know, it's all those months
11 of attorneys' fees and time and et cetera, all because or
12 largely because this information was hidden from Mr. Seery,
13 Mr. Morris, and his colleagues.
14 THE COURT: Okay. My last question for you. We
15 heard a little bit of testimony from Mr. Seery about the
16 after-the-fact insurance policy and whether that's a thing or
17 not. That's our new phrase in this case, "Is this really a
18 thing or not?" it seems like.
19 What is your view of this? I mean, I'm certainly
20 generally aware. I think Mr. Seery said, you know, in
21 jurisdictions where there's a loser-pay concept as opposed to
22 the American rule there is a concept such as this, I guess, to
23 at least pay defense costs. But what is your take on this,
24 you know, fake or real insurance policy?
25 MR. CLUBOK: So, so a slightly different take. It's

1 a little more nuanced. There is certainly something called an
2 after-the-event insurance policy that is not -- it would be
3 common for some insurers to issue those policies. Sometimes
4 it's call judgment insurance. And basically what happens is
5 that, you know, let's say your company gets hit with some
6 lawsuit, maybe it's an environmental potential liability, so
7 it's now known that, you know, you are alleged to have leaked
8 chemicals onto somebody's property. So, a claim is filed.
9 Normally, obviously, you can't buy insurance to insure against
10 something right after you find out about it, but there are
11 companies, I understand, insurers, that will say, okay, you've
12 already been sued; I'm going to now insure you against the
13 judgment. Now, the premium might be very high, and we have
14 to, you know, price it the right way. But, you know, you have
15 a, you know, if you have a billion dollar claim, if you want a
16 billion dollar judgment, the premium might be, you know, $250
17 million, or you have a $100 million claim, you know, it could
18 be a $100 million claim, and so maybe the premium could be $25
19 [million]. Let's look at the strengths and weaknesses, we'll
20 price it out, et cetera.
21 There is a market that I'm very loosely describing. I'm
22 not an insurance expert. I'm not testifying here. But my
23 understanding is that is a market and you could theoretically
24 get it.
25 What is in the record here is that these guys came up with

1 this idea that -- probably because they had heard there's
2 something like this -- and they start with the proposition,
3 okay, all the assets, hundred million coverage, let's backdoor
4 figure out how to work it out.
5 They then ask Beecher Carlson to "shop it" to see if they
6 could get a policy. And Beecher Carlson, there's extensive
7 testimony in this, I'm not sure we submitted every bit, but we
8 could if we needed to, basically said, yeah, we shopped around
9 and no -- no insurance would have done it for anything like
10 that. There would have been a very different premium. They
11 would have had to do lots of due diligence. It would have
12 been a whole different process.
13 They said some of them agreed to just look into it as a
14 favor to Beecher Carlson, but they were never going to write a
15 policy. And so there was some -- something suspect. Some of
16 the individuals said, oh, this looks very legitimate. We
17 priced it around. Now, one of -- some of them said, oh, we
18 priced it around. There's other testimony that some of it's
19 been designated by us that I didn't cover today for purpose of
20 time that say, yeah, but no other insurer would -- no other
21 insurer would do it at this price. Right?
22 Which just shows it's not -- even if it's a thing,
23 theoretically, this particular transaction is not arm's
24 length. Obviously, they grossly overpaid. They did it in a
25 way that was very highly irregular for any insurance company.

1 And they -- and for Sentinel, it was the one and only ATE
2 policy they ever tried to issue.
3 So, yes, it's a thing. That's why they -- there's enough
4 there that they, in some of their deposition testimony, can
5 sort of say, this is a legitimate thing. And that's why, you
6 know, if we take them at their word, it's perfectly legitimate
7 to have a hundred -- you know, had they told us, hey, we spent
8 $25 million and we got in a $100 million insurance policy, we
9 probably would have said, that sounds okay. You know.
10 Had they told us we shipped away $300 million face-value
11 assets that were worth at least $105 million and then we're
12 going to buy $100 million policies and we're going to hide it
13 from you and never pay out on it, that wouldn't be so good.
14 And that's the difference between a thing that's legit and a
15 thing that is let's just say highly irregular.
16 THE COURT: Okay. All right. I just wanted to be
17 educated on that point. I realize what the real beef is here,
18 the nondisclosure.
19 MR. CLUBOK: Did I give you the information you
20 needed?
21 THE COURT: What?
22 MR. CLUBOK: I'm sorry. Did I give you what you
23 needed --
24 THE COURT: Yes, you did.
25 MR. CLUBOK: -- on that?

1 THE COURT: All right. Thank you.
2 MR. CLUBOK: Okay.
3 THE COURT: Was there anything else? I think you
4 rested, correct?
5 MR. CLUBOK: I assume Mr. Morris -- I don't know if
6 there's going to be "closing arguments." I don't need any if
7 Mr. Morris is comfortable with standing on the record, unless
8 there's final --
9 MR. MORRIS: I've got about three minutes, Your
10 Honor, if I may.
11 THE COURT: All right. Go ahead, Mr. Morris.
12 CLOSING ARGUMENT ON BEHALF OF THE DEFENDANT
13 MR. MORRIS: Number one, I don't think anybody could
14 fairly call this insurance policy a legitimate thing, and you
15 know that from two undisputed facts. Number one, it was never
16 disclosed, and number two, nobody ever made a claim until Jim
17 Seery did. So nobody ever tried to recover the assets and
18 nobody ever disclosed the existence of the policy. It is not
19 a thing.
20 Number two, at Slide 79 of Mr. Clubok's presentation,
21 you'll see a transfer of $6.4 million to an entity called Main
22 Spring. You'll see that that transfer was made in the spring
23 of 2020, and we believe, Your Honor, that that $6.4 million
24 was part of the $10 million that Mr. Dondero referred to in
25 April in open court when he testified that he had caused $10

1 million to be paid to Highland's insiders.
2 So, think about that. They transfer the money to
3 Sentinel. That money was from the Defendants that UBS was
4 suing. And then they use that money to pay the insiders at
5 the same time they're signing the indemnity agreement. At the
6 exact same moment.
7 Your Honor, I told you that Mr. Seery and the Debtor and
8 the independent board agreed to the preliminary injunction but
9 could not agree to a permanent injunction because they didn't
10 have personal knowledge of all the facts. We knew of the
11 existence of the policy, but Mr. Clubok's presentation and the
12 work done by his team show exactly the justification, the
13 rationale, and the common sense that Mr. Seery and the
14 independent board showed in not rushing to a conclusion here.
15 The evidence that Mr. Clubok presented today was unknown
16 to the Debtor, was unknown to the independent board, and we
17 thank them for their diligence and for their work.
18 At the end of the day, Your Honor, to borrow a phrase the
19 Court has used before, this is not a garden-variety commercial
20 dispute. This is not a garden-variety fraudulent transfer
21 action. This is not a garden-variety breach of fiduciary
22 duty. This is fraud, plain and simple, compounded by the
23 failure, the intentional -- knowing, intentional failure to
24 disclose post-bankruptcy.
25 We'd respectfully request that the Court grant the motion.

1 THE COURT: All right.
2 MR. CLUBOK: Your Honor, if I may.
3 THE COURT: You may.
4 MR. CLUBOK: Very briefly. I just --
5 THE COURT: Go ahead.
6 CLOSING ARGUMENT ON BEHALF OF THE PLAINTIFF
7 MR. CLUBOK: Sorry. Yeah, as a housekeeping matter,
8 I would like to offer our presentation as a demonstrative
9 exhibit reflective of the evidence. We will provide you with
10 a hard copy. It refers to, obviously, many of the exhibits
11 that we submitted, and it'll be up to the Court's convenience,
12 I think. I think we've -- we've given a copy to Mr. Morris
13 ahead of time. I think there's no objection to that being
14 submitted to Your Honor.
15 I would just like to, you know, end by saying, you know,
16 we started the proceedings, we appreciate, we understand
17 certainly why Highland wanted to stop the bleeding and stop
18 spending money on this proceeding, and so that -- we have no
19 issue with that.
20 We would ask that -- we provided a redline that makes mild
21 edits that I think -- dare I hope, Mr. Morris, that, per
22 agreement, can and should be made to the proposed order. They
23 submitted one and we submitted a slightly proposed -- one
24 which also referred to a consideration of the evidence that we
25 anticipated being able to present today, and most importantly,

1 now that we've presented that evidence today, I think that
2 justifies a modest change in the order along the lines to that
3 effect.
4 I see Mr. Morris nodding, so hopefully that means he
5 agrees.
6 MR. MORRIS: It does. We hadn't heard the evidence
7 before, Your Honor. I'd never seen Mr. Clubok's presentation.
8 I didn't know quite what he was going to do today. And that's
9 the reason why we had a slight dispute over some of the
10 language.
11 But based on the evidence that I heard, you know, if we
12 could take one last review of it and confirm, but I have no
13 reason to believe that we'll have any objection.
14 THE COURT: All right. And you have no objection to
15 the PowerPoint being part of the record, Mr. Morris?
16 MR. MORRIS: Not as -- not as a demonstrative
17 exhibit, Your Honor, --
18 THE COURT: Okay.
19 MR. MORRIS: -- which is, I think, what Mr. Clubok
20 said.
21 THE COURT: All right. Well, Mr. Clubok, if you
22 could send it to Traci Ellison, with copy to counsel, I will
23 make that part of the record. It's always, I think, easier to
24 understand a transcript, if anyone's looking at it after the
25 fact, if they have the PowerPoint in the Court file to cross-

1 reference.

2 Well, it's been, for lack of a better term, an amazing day
3 of evidence. The Court believes the evidence is overwhelming
4 to justify the granting of an injunction here. And as was
5 stated early on, it's been phrased in terms of it being a
6 permanent injunction, but as I understand it, the injunction
7 sought would be to enjoin disbursement, disposition of the so-
8 called transferred assets until a further order of a court of
9 competent jurisdiction with regard to fraudulent transfer
10 litigation or other litigation over the Sentinel matters or a
11 settlement with Sentinel.

12 Certainly, the four prongs for an injunction have been met
13 here.

14 I believe the relief is necessary to avoid immediate and
15 irreparable harm to the UBS entities.

16 I believe UBS has made a very strong showing of likely
17 success on the merits here with regard to these transfers of
18 assets being fraudulent and with regard to a potential showing
19 of insolvency or inability of the transferors to pay debts as
20 they become due, and as a result of the transfers,
21 consideration for the transfers appears to have been
22 inadequate.

23 Secrecy of the transaction.

24 Certainly, there are all of these indicia of fraud
25 suggesting UBS would succeed on the merits.

1 The balance of equities certainly tip in favor of UBS
2 here. Injury to it would appear to outweigh any damages that
3 the injunction would cause Highland. And such relief would
4 serve the public interest.
5 So, the Court reserves the right to supplement in a more
6 fulsome form of order, but, again, the motion of the Debtor to
7 withdraw its answer disputing this relief is granted, and I
8 think judgment for this injunctive relief is also appropriate
9 at this juncture.
10 I said that it's been an amazing day of evidence. It's
11 been amazing. It's been exhausting. It's been troubling.
12 You know, I think it was, Mr. Morris, you who said at the
13 beginning today that, you know, Debtor-in-Possession counsel
14 is not a prosecutor, it's not the SEC, it's not the State Bar
15 disciplinary agency. And, you know, your goal for your client
16 is always to maximize value for creditors and get a good
17 overall result for all parties in interest affected by the
18 bankruptcy.
19 I could say something similar right now that I, you know,
20 I oversee these things. I apply the Bankruptcy Code to
21 motions filed and different relief sought and grant relief
22 where appropriate that is designed to help companies or people
23 get a fresh start and help creditors get paid what they're
24 justly owed.
25 But this evidence today, I am, unfortunately, duty-bound

1 to do more than just sign the judgment and order that's
2 submitted to me and forget about it. I'm just letting you
3 know that referrals will likely be made to the State Bar
4 disciplinary agencies regarding the attorneys' activities that
5 I've heard about. And, you know, it's not a good day in court
6 when I'm looking at 18 U.S.C. during the middle of evidence,
7 but I'm just going to let observers who -- I don't who all is
8 on the WebEx today. I don't have all the little boxes on my
9 screen to know. But 18 U.S.C. Section 3057: Any judge having
10 reasonable grounds for believing that violation of laws of the
11 United Stated relating to insolvent debtors has been committed
12 or that an investigation should be had in connection therewith
13 shall report to the appropriate United States Attorney all the
14 facts and circumstances of the case, the names of the
15 witnesses, and the offense or offenses believed to have been
16 committed. And there are different provisions of Title 18
17 that I'm very, very concerned may be implicated.
18 So, I'm duty-bound to go back and carefully look at some
19 of the exhibits that have been submitted today. And, again,
20 I'm not the U.S. Attorney and I'm not a criminal judge. I
21 don't plan on combing over everything as, you know, a grand
22 jury would do. But if I think there is enough there, I will
23 be making a referral to the U.S. Attorney.
24 Again, the nondisclosure, the potential cover-up here is
25 beyond troubling. And, you know, I'm duty-bound to do what

1 I've got to do if the exhibits look as damning as, you know,
2 on further reflection in chambers, as they did sitting here on
3 the bench today.
4 So, you know, I regret, I regret this greatly, but, you
5 know, I'm just letting people know that it's a potential
6 consequence of what I've heard today.
7 All right. Anything else? All right.
8 MR. MORRIS: No, Your Honor. Thank you.
9 THE COURT: Thank you. We stand adjourned.

1 DALLAS, TEXAS - DECEMBER 4, 2023 - 1:39 P.M.

2 THE CLERK: All rise. The United States Bankruptcy
3 Court for the Northern District of Texas, Dallas Division, is
4 now in session, The Honorable Stacey Jernigan presiding.

5 THE COURT: Good afternoon. Please be seated. All
6 right. We are here in Highland Capital. We have certain
7 motions to hold certain parties in contempt of the Court's
8 gatekeeping orders. So we're going to start out by getting
9 appearances from lawyers in the courtroom, please.

10 MR. LEVY: Josh Levy from Willkie Farr & Gallagher on
11 behalf of Jim Seery.

12 THE COURT: Okay.

13 MR. LEVY: I'm joined by my colleague Mark Stancil.

14 THE COURT: Thank you.

15 MR. MORRIS: Good afternoon, Your Honor. John
16 Morris; Pachulski Stang Ziehl & Jones; for Highland Capital
17 Management, LP. I've got my colleague Hayley Winograd here
18 with me, and Mr. Seery, Highland's CEO, is in the courtroom
19 today.

20 THE COURT: Okay. Good afternoon.

21 MR. LEE: Good afternoon, Your Honor. Jim Lee from
22 Vinson & Elkins, along with Michael Lee from Vinson & Elkins.
23 We represent two law firms that have been charged with this
24 motion. One is the Lynn Pinker firm. Representing Lynn
25 Pinker, we have Mr. Michael Hurst, a named partner, and then

1 Chris Akin, who serves as general counsel. And the other is
2 The Pettit Firm, and Julie Pettit is present as well.
3 THE COURT: Okay. Thank you.
4 MR. LEE: Thank you, Your Honor.
5 MS. HARTMAN: Good afternoon, Your Honor. Michelle
6 Hartman; Baker McKenzie; on behalf of Scott Ellington. He has
7 appeared voluntarily today, without subpoena. With me in the
8 courtroom is Reese Griffin and Deb Dandeneau, also from Baker
9 McKenzie.
10 THE COURT: Okay. Thank you. Ms. Hersh, you're
11 approaching?
12 MS. HERSH: Good afternoon, Your Honor. Susan Hersh
13 here on behalf of Russell Nelms and John Dubel. Mr. Nelms is
14 in the courtroom with us here today. I'm local counsel with
15 Hogan Lovells. Richard Wynne is on the phone as well as Mr.
16 Dubel.
17 THE COURT: Thank you.
18 MS. HERSH: Thank you.
19 THE COURT: All right. I think that's all the
20 courtroom lawyer appearances. Anyone on the WebEx who is
21 wanting to appear in this matter?
22 MS. LAMBERT: Lisa Lambert for the United States
23 Trustee.
24 THE COURT: Thank you. Any others?
25 MR. WYNNE: Good afternoon, Your Honor. Richard

1 Wynne of Hogan Lovells. As Ms. Hersh said, I'm counsel for
2 Russell Nelms and for John Dubel, and will be appearing --
3 will be making a short opening statement for them.
4 THE COURT: Okay. Thank you.
5 Any other lawyer appearances?
6 All right. Before we begin, I want to explain something
7 with regard to people on the video. My Court Reporter/
8 Judicial Support Specialist, Mike, was asking some questions,
9 and I want to explain his questions.
10 We had some rule changes about video court on September
11 21st, and that came from Washington, the Administrative Office
12 of the Courts. And what we were told is that after September
13 21st the relaxed COVID rules were going to be changed so that,
14 while the Court always has some discretion in allowing video
15 court, the general rule was going to be that only parties in
16 interest and their lawyers can watch a court proceeding by
17 video. Okay?
18 So if you're not a party in interest or a lawyer for -- or
19 a professional, I should say, for a party in interest -- in
20 other words, if you're just a member of the public who's
21 curious or media, then the new rule is that you can only
22 listen in, you can't watch by video. So I know there's a way
23 on WebEx where you can just listen in, not watch by video. So
24 that's during non-evidence.
25 But when evidence is being presented, a member of the

1 public or media is not even supposed to listen. Okay? You
2 can come here and be live in the courtroom.
3 So I don't know if that's crystal clear to everyone, but
4 basically, if you're on the WebEx, you can watch all you want
5 if you're a party in interest or if you're a professional for
6 a party in interest in the Highland matter. But if you're a
7 member of the public or media, as of September 21st you can
8 only listen in, not watch. And then if a witness takes the
9 witness stand, you need to be cut off.
10 We've pretty much been just doing the honor system on
11 that, as well as I think a lot of other courts. And so that's
12 pretty much what I've instructed Mike to do here. Ask in the
13 beginning, and then now you know the rules, and so the Court
14 reserves the right to do what it thinks it needs to do if it
15 thinks there's a rulebreaker out there. But I just wanted to
16 be clear why we were asking the questions and what the new
17 rules of the road are on video court. I don't know if you're
18 hearing that in other courts or not, but that's the new rule
19 as of September 21st.
20 All right. With that out of the way, I'll hear any
21 opening statements --
22 MR. LEE: Your Honor?
23 THE COURT: -- or housekeeping matters.
24 MR. LEE: Yes. Your Honor, I do have procedural or
25 housekeeping matters I'd like to address before we open.

1 THE COURT: Okay.
2 MR. LEE: If I may. Thank you, Your Honor. Again,
3 for the record, Jim Lee of Vinson & Elkins.
4 A couple things. One, there was a late-filed joinder by
5 Mr. Daugherty in this matter, who is not a protected party,
6 could not have had any basis for bringing the motion that
7 Movants have brought. It was filed at the eleventh hour, even
8 though this motion has been on file for two and a half months.
9 And we believe it was done solely for the purpose of trying to
10 prejudice Mr. Ellington and the law firms that represent him.
11 They attached more than 700 pages of exhibits, yet they never
12 filed a witness and exhibit list. And as I appreciate this
13 Court's rules as well as the Local Rules, those cannot be
14 admissible.
15 So, for that reason alone, as well as the purpose behind
16 their filing it, two things. One is we would object and move
17 to strike the joinder, and two is we want to make certain that
18 Mr. Daugherty does not testify.
19 So, to that extent, not knowing whether there are other
20 nonparty witnesses in the courtroom or not, we would invoke
21 the rule out of an abundance of caution.
22 So, basically, a two-pronged comment there, Your Honor.
23 First, we move to strike Mr. Daugherty's joinder as untimely,
24 inappropriate, and not supported by a witness or exhibit list,
25 even though -- and the exhibits attached are not supported by

1 affidavit, making them all rank hearsay anyway. We think it
2 was done solely to prejudice us, and we'd ask the Court to
3 strike it.
4 And then, secondly, we would like to invoke the rule.
5 And then I do have a third, once the Court addresses
6 those.
7 THE COURT: Okay. Well, let me take these in steps.
8 First, well, let me ask. Has anyone named Patrick Daugherty
9 as a witness on the witness list?
10 MR. LEE: Not that I've seen, Your Honor.
11 MS. HARTMAN: No, Your Honor.
12 MR. MORRIS: We have not, Your Honor. I don't see
13 any reason why we should be precluded from calling him on
14 rebuttal if we chose, but we did not put him on our witness
15 list.
16 MR. LEE: Well, if that's the case, then we would
17 invoke the rule, because counsel is just indicating he may be
18 a rebuttal witness.
19 THE COURT: Okay. Thoughts about whether it's
20 appropriate to invoke the rule?
21 MR. MORRIS: I would say, Your Honor, I have
22 absolutely no intention of calling Mr. Daugherty. The thought
23 never occurred to me until Mr. Lee raised the issue just now.
24 But I, you know, as far as I understand, the rule is, if
25 somebody puts on their case and you want to call a rebuttal

1 witness, that, you know, it's rebuttal, you don't have to
2 disclose. I mean, I just don't want my hands to be tied
3 unfairly. I have no intention of calling him, but I've got to
4 hear their case.
5 THE COURT: Okay.
6 MR. LEE: With that statement of his position, Your
7 Honor, then we invoke the rule because there's a potential he
8 could testify, and he should not be in here hearing the other
9 testimony.
10 THE COURT: All right. Well, let me carry that for a
11 moment.
12 We have a lawyer standing up. I don't know if your Mr.
13 Daugherty's lawyer or not.
14 MR. RAYSHELL: I am, Your Honor. Drake Rayshell.
15 THE COURT: Do you want to speak at the podium and --
16 MR. RAYSHELL: Sure.
17 THE COURT: -- respond however you want to respond?
18 MR. RAYSHELL: Thank you, Your Honor. Drake Rayshell
19 on behalf of Patrick Daugherty from Gray Reed.
20 We're just here in attendance today. Our joinder was
21 filed in support of Movants' briefing, but no intent to
22 participate in the hearing other than listen to the happenings
23 that are going on today.
24 He wasn't identified as a witness on any of the witness or
25 exhibit lists. We came to the hearing with the intention that

1 we'd just sit in the gallery and pay attention to the
2 proceeding.
3 And with that said, as far as their motion to strike, same
4 argument. And just to be concise, Your Honor, there were two
5 exhibits that we attached there that we believe the Court
6 could take judicial notice of, as they were state court
7 filings, just to establish the argument that Respondents were
8 actually on notice of a couple of the motions that they claim
9 they were not.
10 THE COURT: All right. Well, here's what I'm going
11 to do. I'm going to first grant the motion to strike.
12 MR. RAYSHELL: Okay.
13 THE COURT: Okay? It was late-filed, among other
14 reasons. Your 700 pages of attachments didn't have any
15 declaration. And I haven't, by the way, read it. It came in,
16 I think, after hours Thursday night, maybe.
17 MR. RAYSHELL: It --
18 THE COURT: I was out of town at an ABI conference in
19 Arizona --
20 MR. RAYSHELL: Okay.
21 THE COURT: -- Thursday through Saturday. So --
22 MR. RAYSHELL: Understood.
23 THE COURT: -- I haven't read it, if anyone's worried
24 about I've got anything in my brain that I read. So I will
25 strike it.

1 With regard to the attempt to invoke the rule, I'm going
2 to deny that. No one has named him on a witness list, and
3 I've heard no one intends to call him.
4 Now, it is possible that he could be called as a rebuttal
5 witness to impeach. I think it would be probably limited to
6 only impeachment evidence. But I'm not going to exclude him
7 from the courtroom based on that probably-remote possibility.
8 I just, I think he has a right to be in the courtroom and hear
9 something that's going to involve him to some extent.
10 So I deny that motion to have him excluded from the
11 courtroom.
12 MR. LEE: Your Honor? Your Honor, thank you. I
13 appreciate what you've just said with respect to Mr.
14 Daugherty. But I want to invoke the rule generally. So to
15 the extent there are any witnesses who intend to testify that
16 are not parties, then they would need to leave the courtroom
17 as well.
18 I don't know if there are. I just want to do it as a
19 procedural protection.
20 THE COURT: All right. Well, let's talk about who's
21 been named as a witness. I think Mr. Ellington was on
22 somebody's witness list.
23 MR. LEE: And he's a party.
24 THE COURT: And he's a party. And I think there was
25 a lawyer. Was Ms. Deitsch-Perez --

1 MR. MORRIS: Yeah. We won't be calling her, Your
2 Honor.
3 THE COURT: You won't be calling her?
4 MR. MORRIS: I'm just calling -- we're just calling
5 Scott Ellington.
6 THE COURT: Scott Ellington?
7 MR. MORRIS: Let me be transparent. We're just
8 calling Scott Ellington.
9 THE COURT: Okay.
10 MR. LEE: Very well.
11 THE COURT: And I don't --
12 MR. LEE: We only have our two parties named, so --
13 THE COURT: Okay.
14 MR. LEE: -- I think we're fine, then.
15 THE COURT: We're fine, then.
16 MR. LEE: Unless there's some undisclosed, and then
17 we'll fight about that.
18 THE COURT: Okay.
19 MR. LEE: All right. Fine. Thank you, Your Honor,
20 for that. And I had --
21 MR. RAYSHELL: May I be dismissed, Your Honor?
22 THE COURT: You may.
23 MR. LEE: I had one other I'll call it a procedural
24 or a housekeeping matter. The Court mentioned that we were
25 here on motions for contempt, but what was noticed for today

1 and what I appreciate was whether or not a show cause hearing
2 should be scheduled and a show cause order entered. That's
3 what the notice of hearing says, that's what the proposed
4 order submitted in connection with the motion says, and
5 that's what the motion is entitled.
6 So, to my knowledge, the Court has never entered a show
7 cause order up to this point in time, and I thought we were
8 down here to argue about whether the Court should or not.
9 THE COURT: Okay. Mr. Morris, do you want to
10 address that?
11 MR. LEVY: That -- that's right, Your Honor. We
12 filed a motion for order to show cause, and that's what we're
13 here for, is an order to show cause for why they should not
14 be sanctioned. So, I don't think the parties disagree on
15 this issue.
16 THE COURT: Okay. So let's make sure we're all
17 clear. So, you, like Mr. Lee, envision a two-part hearing,
18 so I would potentially come back if --
19 MR. MORRIS: No. No. No. I -- respectfully, Your
20 Honor, we're here for a trial on the merits. That's what we
21 scheduled. That's what the hearing is. That's why we're all
22 here and that's why we -- who would do that? I mean, I'm
23 hearing this for the first time right now.
24 MR. LEE: Well, --
25 MR. MORRIS: I'm hearing this for the first time

1 right now. Your Honor did not sign the order to show cause.
2 No doubt about it. But we all consented to be here, with
3 exhibit lists, with -- I mean, if he wants to do it twice, I
4 hear a lot of complaints, I'll do it twice. If he wants to
5 do that twice. Because I don't think the -- I do not think
6 that would be efficient from any concept. I think if Your
7 Honor gets to the point where Your Honor believes that the
8 order to show cause is appropriate, I think that -- that is a
9 trial on the merits as far as I'm concerned.
10 THE COURT: Okay.
11 MR. LEE: Your Honor, I accept that that's
12 presumptuous to think we'll be here twice, because we don't
13 think, once the Court hears the evidence, you're going to
14 enter a show cause order.
15 So maybe the evidence would be the same, and I'm not
16 disputing that, but I only know what they noticed and what
17 their motion said, and I know that, in prior matters, this
18 Court has issued a show cause order and then held a contempt
19 hearing.
20 THE COURT: Okay. Well, I'm going to hear evidence
21 today on what's happening and whether or not that is contempt
22 of the Court's gatekeeping orders. If I find that there is
23 contempt of the Court's gatekeeping orders, I mean, maybe
24 we'll come back for what is an appropriate sanction. I mean,
25 --

1 MR. MORRIS: And I would just point out, Your Honor,
2 in the pleading filed by Mr. Lee at Docket 3957, he concludes
3 by saying, "Finally, Movants' request for this Court to hold
4 the state court law firms in contempt under 11 U.S.C. § 105
5 is unwarranted." And he goes on. So, you know, he knew full
6 well what was happening today.
7 THE COURT: Okay.
8 MR. LEE: I don't dispute that we will be trying the
9 same matters, Your Honor.
10 THE COURT: Okay.
11 MR. LEE: It was just the way it was done
12 procedurally, and I'm just trying to play by the rules.
13 THE COURT: Okay. Well, I guess I have a lot of
14 reactions. I don't think due process has been denied to
15 anyone. The motion has been on file since September 13th.
16 We're now at December 4th.
17 I think it was quite clear what the argument was, what
18 the evidence might be. And, again, if I were to find
19 contempt of the gatekeeping orders, I might very well say
20 we'll come back for part two to have you each put on evidence
21 or counter-evidence about what an appropriate sanction might
22 be, whether it's reimbursement of attorneys' fees or what.
23 But we're going forward on the contempt issue and the
24 evidence and argument regarding what's happened and whether
25 it violates the gatekeeping order. All right?

1 MS. HARTMAN: Excuse me, Your Honor.
2 THE COURT: Yes.
3 MS. HARTMAN: We have a courier outside with
4 documents. May I be excused --
5 THE COURT: Oh, certainly.
6 MS. HARTMAN: -- temporarily to go get the
7 documents?
8 THE COURT: Okay. Thank you. Thank you.
9 All right. Well, shall we move to opening statements?
10 MR. LEVY: Yes, Your Honor. And one very small
11 housekeeping matter before we get started. The parties have
12 met and conferred about our respective exhibit and witness
13 lists, and none of the parties have objections to any of the
14 exhibits that have been proffered.
15 THE COURT: Okay.
16 MR. LEVY: So, on behalf of the Movants, we would
17 move our exhibits into evidence.
18 THE COURT: All right. So, could I get confirmation
19 there is no objection?
20 MR. LEE: No objection here, Your Honor.
21 MS. HARTMAN: No objection, Your Honor.
22 THE COURT: All right. So those will be admitted.
23 While I pull up the docket, why don't you tell me for the
24 record at what docket entry those are filed.
25 MR. LEVY: Our witness and exhibit list is Docket

1 Entry 3977.
2 THE COURT: Okay. 3977. All exhibits located there
3 are admitted.
4 (Movants' exhibits are received into evidence.)
5 THE COURT: Okay. What about the others?
6 MR. LEE: Your Honor, if I may.
7 THE COURT: Uh-huh.
8 MR. LEE: Your Honor, sort of that same agreement,
9 the Law Firms' witness and exhibit list and attachments are at
10 Docket 3976.
11 THE COURT: Okay.
12 MR. LEE: And we move their admission in toto.
13 THE COURT: Okay. Could I get confirmation no
14 objection?
15 MR. LEVY: No objection, Your Honor.
16 MS. HARTMAN: No objection, Your Honor.
17 THE COURT: All right.
18 MR. LEE: And Your Honor, if I may approach, I have a
19 hard copy for the Court --
20 THE COURT: Okay.
21 MR. LEE: -- because I know you like it. And I'm
22 also going to be using this notebook, so I'll go ahead and
23 give it to you.
24 THE COURT: Okay. Terrific.
25 MR. LEE: Thank you.

1 THE COURT: All right. So, for the record, all
2 exhibits at Docket 3976 are admitted.
3 (Law Firms' exhibits are received into evidence.)
4 THE COURT: Okay. And yes?
5 MS. HARTMAN: And Your Honor, with regard to Mr.
6 Ellington, the exhibits are at Docket 3978, and they consist
7 of SE 1 to SE 10. And we'd move for those to be admitted as
8 well.
9 THE COURT: Okay. Could I get confirmation these are
10 not objected to?
11 MR. LEVY: No objection.
12 MS. HARTMAN: Your Honor, we have a copy for you as
13 well.
14 THE COURT: Okay. Terrific.
15 Mr. Lee, no objection?
16 MR. LEE: Oh, no objection.
17 THE COURT: Okay.
18 MR. LEE: I apologize, Your Honor.
19 THE COURT: Okay. All exhibits at Docket Entry 3978
20 are also admitted.
21 (Scott Ellington's exhibits are received into evidence.)
22 MR. LEVY: We understand Your Honor already received
23 a copy of our exhibits. Is that correct? If not, we have it
24 for you.
25 THE COURT: I do have them. It's 1 through 39. Let

1 me make sure I've got them all. 1 through 39?
2 MR. LEVY: Yes. Yes.
3 THE COURT: Yes, I've got those. Now I'm going to
4 have Mr. Ellington's. Okay.
5 Apologies for the occasional noise. They are doing
6 construction in our chambers next door, so you may hear
7 banging occasionally. I hope not, but we'll do our best to
8 keep them under control.
9 OPENING STATEMENT ON BEHALF OF JAMES P. SEERY
10 MR. LEVY: So, I'm Josh Levy from the law firm of
11 Willkie Farr & Gallagher, as I announced earlier, on behalf of
12 Jim Seery. You will also be hearing from Mr. Wynne on behalf
13 of Mr. Dubel and Mr. Nelms, who's on WebEx today. And you'll
14 also be hearing from Mr. Morris on behalf of Highland and the
15 Claimant Trust.
16 And we're seeking to hold Scott Ellington and his counsel,
17 The Pettit Law Firm and Lynn Pinker Hurst & Schwegmann, in
18 civil contempt for violating all three of this Court's
19 gatekeeper orders because they are using the stalking action
20 against Patrick Daugherty in the Texas state court as a
21 vehicle to pursue claims against Highland and Mr. Seery
22 without this Court's leave.
23 All three elements required for a civil contempt filing
24 are satisfied here. Under the gatekeeper orders, Ellington
25 and his counsel may not pursue a claim or cause of action

1 against Seery and Highland as protected parties without this
2 Court's leave. There is no dispute that the gatekeeper orders
3 are in effect. There is no dispute that the gatekeeper orders
4 prohibit Mr. Ellington and his counsel from pursuing claims
5 against Seery and Highland without this Court's leave.
6 There are two questions before the Court today. One, what
7 constitutes pursuit of a claim or cause of action under the
8 gatekeeper orders? And two, did Mr. Ellington and his counsel
9 violate the gatekeeper orders by doing so?
10 For the first question, we posit that pursuing a claim or
11 cause of action means seeking evidence or making court filings
12 for the purpose of developing a claim or cause of action
13 against a protected party. And as Mr. Morris will explain,
14 Mr. Ellington and his counsel have clearly done so. Mr.
15 Ellington and his counsel did not seek Your Honor's leave to
16 take any of the discovery or make any of the court filings at
17 issue today. This violates the gatekeeper orders.
18 Finally, this is not a motion we bring lightly. We tried
19 for months to avoid bringing it. We were even prepared to
20 permit Mr. Seery to sit for a deposition in the stalking
21 action while objecting to questions we thought violated the
22 gatekeeper order. But as the evidence today will show, Mr.
23 Ellington and his counsel have point-blank admitted, in emails
24 and in sworn declarations, that they are using discovery in
25 the stalking actions to pursue purported conspiracy and quid

1 pro quo claims against Highland and Seery. And they have
2 already provided correspondence about that discovery in the
3 stalking action to parties in this bankruptcy case, which have
4 used them to bring claims and motions against Seery.
5 And with that, I turn it over to Mr. Wynne and to Mr.
6 Morris.
7 THE COURT: Okay.
8 MR. LEVY: Yes.
9 THE COURT: I'm already asking questions. That's not
10 a good sign.
11 MR. LEVY: Of course.
12 THE COURT: You said what's at issue here is what is
13 pursuit of a claim under the gatekeeping orders, which I
14 wholeheartedly agree that's primarily what's at issue today.
15 You said it's your position that pursuit of a claim could be
16 seeking evidence or making a court filing for purposes of
17 developing a claim. Did I get your quote correctly?
18 MR. LEVY: Yes, that's right.
19 THE COURT: Okay.
20 MR. LEVY: And what -- the filings for you in closing
21 arguments, that'll have that written out for you.
22 THE COURT: Okay.
23 MR. LEVY: So don't need to worry about getting that
24 down.
25 THE COURT: Okay. I did nevertheless. Okay. Thank

1 you. Who's next? Mr. Morris?
2 MR. MORRIS: Mr. Wynne is going to go next.
3 MR. LEVY: Yes.
4 MR. MORRIS: He's on the WebEx.
5 THE COURT: Oh, I'm sorry. Okay. You all were tag-
6 teaming for Mr. Seery. Go ahead.
7 OPENING STATEMENT ON BEHALF OF RUSSELL NELMS AND JOHN DUBEL
8 MR. WYNNE: Thank you, Your Honor. It's Richard
9 Wynne of Hogan Lovells, again, on behalf of Mr. Nelms --
10 THE COURT: For Mr. Nelms?
11 MR. WYNNE: -- and Mr. Dubel.
12 THE COURT: Uh-huh.
13 MR. WYNNE: I apologize, Your Honor, for not being
14 there today in person. I wasn't able to travel. And Mr.
15 Dubel is actually also on the WebEx but not -- was not able to
16 be there today.
17 Your Honor, the focus of most of the papers filed and the
18 reason why I wanted to do an opening statement was because
19 there's voluminous evidence that has been filed really
20 relating to Mr. Seery and Highland and the actions and the
21 investigation that directly affected them. But I'm here to
22 speak for the two former independent directors, Mr. Nelms and
23 Mr. Dubel, who have been I would call it collateral damage and
24 the subjects of an improper campaign of harassment as
25 ostensible third-party witnesses.

1 All of the evidence that I'd like to discuss today is
2 contained in my declaration that Highland filed in the
3 original motion. That's Docket No. 3914. And it's been
4 admitted as Seery Documents 30 to 39.
5 And Highland and Mr. Seery did discuss some of that in
6 their memorandum, but I'd like to really call the Court's
7 attention to some specific items that we think are very
8 important.
9 And I also want the Court to know that, notwithstanding
10 what we think have been some violations of the gatekeeper
11 order over the past year, we have really not rushed into court
12 in order to claim those. We've tried to work those things
13 out. We tried to work a lot of things out. But we think that
14 a violations just have become too willful and too blatant, and
15 it's all based on documentary evidence.
16 First, Your Honor, Mr. Dubel and Mr. Nelms had to hire
17 counsel, us, to represent them with respect to these matters.
18 We also had to engage not only co-counsel here in Texas, Ms.
19 Hersh, who's in the courtroom, but we've previously had to
20 engage co-counsel in New Jersey because Mr. Ellington filed a
21 lawsuit against Mr. Dubel seeking damages and a contempt
22 finding for him for supposedly not responding to a subpoena, a
23 subpoena that was, in any event, improperly served, and that
24 complaint was dismissed.
25 But Mr. Dubel was actually sued by Mr. Ellington, and we

1 think that was a very clear gatekeeper violation. But because
2 we were able to get it dismissed, we did not bring that to the
3 Court's attention before.
4 I'd like to walk through sort of the chronology, because I
5 know that, you know, there's -- I think I have three very
6 large binders, and I know the Court has those, and tell you
7 how this all developed.
8 First, on November 12, 2022, Mr. Nelms was personally
9 served with a document subpoena from Mr. Ellington, seeking
10 documents relating to his -- the Daugherty state court case
11 where Mr. Ellington was suing Mr. Daugherty.
12 Mr. Nelms wrote to counsel, Michael Hurst. Told counsel
13 that he had no responsive documents, that he didn't know Texas
14 state court procedures, but to let him know -- to let Mr.
15 Nelms know if Mr. Hurst needed him to do anything else. Mr.
16 Nelms ended the email saying, "If you require an affidavit
17 that recites in substance what I have communicated above,
18 please let me know." The simple response he got from Mr.
19 Hurst was, "Thanks, Russ," and there was effectively no
20 further follow-up.
21 These emails are attached as Exhibit 2 to my declaration,
22 Your Honor, if you want to take a look at them.
23 Mr. Nelms then at some point told Mr. Dubel about this,
24 and Mr. Dubel assumed that they would ask him next or subpoena
25 him, so he took the initiative to do his own document search

1 and he sent a similar email to Mr. Hurst on December 5, 2022.
2 That's also contained -- that's the first email in Exhibit 2
3 to my declaration.
4 Mr. Dubel never received a response. This was back last
5 December. And he, frankly, assumed that the matter was over.
6 The facts that I'm now talking about, Your Honor, are
7 contained in the certification that we filed by Mr. Dubel in
8 the New Jersey state court. Specifically, Paragraphs 10 to
9 13, which are Exhibit 7 to my declaration. We had to file
10 that certification in response to the order to show cause that
11 was issued by the New Jersey state court in the lawsuit by Mr.
12 Ellington.
13 So, without ever responding to Mr. Dubel's December 5th
14 email, apparently, according to the papers, Mr. Ellington, on
15 January 17th, sued Mr. Dubel in state court for supposedly
16 ignoring a properly-served subpoena, seeking damages, a
17 finding of contempt, and an order directing Mr. Dubel to
18 appear and provide responsive documents.
19 When Mr. Dubel received these papers -- I think he got
20 them in February by FedEx -- we became involved. And the
21 first thing we did was try to reach out to counsel and get the
22 matter dropped. To me, this seemed to be a relatively simple
23 exercise. Mr. Ellington's counsel, by responding to Mr.
24 Nelms' email --
25 MR. LEE: Your Honor?

1 MR. WYNNE: -- with simply a "Thanks, Russ" and --
2 MR. LEE: Excuse me, Your Honor.
3 THE COURT: Okay. Hang on.
4 MR. LEE: I need to object. He's testifying, Your
5 Honor. He's supposed to be making an opening argument. He's
6 testifying to things he did.
7 THE COURT: All right. Response?
8 MR. LEE: And I don't think that's appropriate for an
9 opening.
10 THE COURT: Your response, Mr. Wynne?
11 MR. WYNNE: I'm really summarizing just the evidence
12 that's in my declaration, Your Honor, and the emails. So I'll
13 -- I will try to refrain from adding any -- anything that
14 might be considered testimony --
15 THE COURT: Okay. I'll overrule the objection --
16 MR. WYNNE: -- as we go through.
17 THE COURT: -- as summarizing the evidence to be
18 shown.
19 MR. WYNNE: As part of -- Your Honor, as -- we
20 engaged with counsel in various emails. Those are in the
21 exhibits. We offered to have Mr. Dubel provide a declaration
22 that he had no responsive documents or knowledge about the
23 matters in the lawsuit. We were not able to get that lawsuit
24 to be withdrawn, so we did engage New Jersey counsel, as
25 reflected in Mr. Dubel's certification that's Exhibit 7 to my

1 declaration. And ultimately, because Mr. Dubel was really --
2 was not properly served, they did ultimately agree to dismiss
3 the lawsuit, and that was dismissed.
4 What I would like to point out, however, with respect to
5 this was that the complaint that Mr. Ellington and his counsel
6 filed in New Jersey, which the complaint is attached as
7 Exhibit 8 to my declaration, Paragraph 7 of that complaint has
8 the following statement that I think they should have known
9 was completely baseless. It states, "Upon information and
10 belief, Daugherty has provided Defendant, Mr. Dubel, with
11 information regarding Plaintiff, Plaintiff's assets,
12 Plaintiff's family, and Plaintiff's home, including videos and
13 surveillance footage, and Defendant is still in possession of
14 such information."
15 I believe that that false statement was undoubtedly relied
16 upon by the New Jersey court that issued the order to show
17 cause against Mr. Dubel. And while ultimately the lawsuit was
18 dropped, at that point, when that statement was filed in
19 January, they already had the correspondence in Exhibit 2.
20 They knew that Mr. Dubel had said he had no information, just
21 like Mr. Nelms, but they went ahead and actually filed a
22 lawsuit against Mr. Dubel, and we think that's a clear
23 violation of the gatekeeper order.
24 Many months later, Your Honor, without contacting me or
25 Mr. Nelms again, he was yet personally served yet again with

1 another document subpoena on June 14, 2023, with a deposition
2 and document request for the following week. This is
3 contained in Exhibit 3 of my declaration.
4 Again, Your Honor, we engaged with counsel to try to get
5 that -- those emails are included in Exhibit 4 of my
6 declaration. We actually had to file a motion to quash the
7 subpoena in order to -- because the date was not something
8 that we could comply with. And that's the Texas state court
9 procedure. You first file a motion to quash if there's a
10 procedural issue with a date, and you later, if you need to,
11 file a motion for a protective order.
12 The email summarizing that back-and-forth is in Exhibit 4
13 of my declaration. Those emails show that we informed Mr.
14 Ellington's counsel that Mr. Nelms had no relevant documents
15 and that in fact he had no knowledge relating to the events
16 referenced in the lawsuit. We offered to provide a
17 declaration to that effect.
18 We then tried to negotiate for a limited deposition of Mr.
19 Nelms, to limit it in time and scope, limit it in scope to the
20 allegations raised in the *Ellington v. Daugherty* lawsuit. And
21 we had a -- we even sent them, on June 30, 2023, we sent them
22 a copy of the gatekeeper order because we wanted to make sure
23 that they were appraised of it. We think they probably knew
24 about it earlier, but we wanted to make sure that we did that.
25 And that's in Exhibit -- as well in Exhibit 4.

1 Subsequently, Your Honor, we were provided with some
2 additional information from -- I don't remember; I think it
3 was from Mr. Morris and from Highland -- and we found out that
4 there had been literally thousands of pages produced in the
5 *Ellington v. Daugherty* lawsuit. We found out that Mr.
6 Daugherty -- we got a copy of his deposition transcripts. We
7 found out that he had in fact testified that he had not ever
8 discussed any of these matters with Mr. Nelms. And we
9 informed Mr. Ellington's counsel about this on July 21, 2023.
10 We had an exchange of emails, which are in Exhibit 4 of my
11 declaration, with Ms. Pettit. I think mostly Ms. Pettit. And
12 it really was through that that we found out that the
13 deposition that they were seeking was really not limited to
14 the -- to the *Ellington v. Daugherty* lawsuit, but it really
15 had much broader, much broader issues that they were trying to
16 do. And it appeared to us that they were trying to use that
17 to pursue other claims, as Mr. Levy asserted.
18 The next item, Your Honor, that I'd like to draw your
19 attention to is that on July 27th we let Ms. Pettit know that
20 she had some of her key facts wrong. She, for example, in one
21 of her emails, thought that Mr. Nelms had been on the Highland
22 board when the Daugherty settlement was approved, and in fact
23 Mr. Nelms' role with Highland had completely ended when the
24 plan went effective, which was in August 2021. He was not on
25 the post-confirmation board, nor was Mr. Dubel. He had no

1 role with Highland post-confirmation, post-the effective date,
2 and he didn't approve the Highland-Daugherty settlement, which
3 was signed in November 2021 and then presented to this Court
4 for approval.
5 We informed Ms. Pettit about those facts. The email is in
6 Exhibit 4, --
7 MR. LEE: Your Honor?
8 MR. WYNNE: -- Page 1.
9 THE COURT: Just a moment, Mr. Wynne. I think I've
10 got another objection.
11 MR. LEE: I am not trying to be obstreperous. But he
12 is essentially reciting his declaration. This is an opening
13 statement, and all we're hearing is a litany of evidence. And
14 I, again, think he's testifying from the podium. I don't
15 think it's appropriate.
16 THE COURT: All right. Mr. Wynne, are all of the
17 items that you're talking about in evidence? I mean, are
18 there pieces of evidence, --
19 MR. WYNNE: Yes, Your Honor.
20 THE COURT: -- not just your declaration and
21 attachments, but --
22 MR. MORRIS: May I just -- may I just help the Court
23 and Mr. Wynne out here? Mr. Wynne's declaration was admitted
24 into evidence as Exhibit 30. For convenience, we broke out
25 the exhibits that were attached to his declaration separately.

1 Mr. Wynne attached nine exhibits. Those exhibits are Exhibits
2 31 through 39. So everything that Mr. Wynne is talking about
3 -- and this is what opening statements I thought were supposed
4 to do -- is to preview the evidence that's in the record for
5 the Court and that the Court is going to hear.
6 So if you just take a look at Exhibits 30 to 39, you'll
7 find that everything Mr. Wynne is describing is now in
8 evidence before the Court.
9 THE COURT: Okay. If that is the case, then I think
10 the objection should be overruled. This is just summarizing
11 evidence that I've admitted. So I'll allow it.
12 MR. WYNNE: Thank you, Your Honor. I appreciate Mr.
13 Morris saying pretty much exactly what I was going to say.
14 So, thank you.
15 Your Honor, going back to the timeline -- and the reason
16 why I'm doing this, Your Honor, is because I really don't want
17 the facts of what we perceive to be significant violations of
18 the gatekeeper order with respect to Mr. Nelms and Mr. Dubel
19 to be lost, because most of what I think you're going to hear
20 for the rest of the day is going to be relating to Highland
21 and Mr. Seery. But I very much just wanted to provide a brief
22 summary. And Your Honor, I'm probably three-quarters of the
23 way through.
24 THE COURT: Okay.
25 MR. WYNNE: So I'd appreciate the Court's time.

1 Your Honor, going back to -- we informed Ms. Pettit that
2 she had her facts wrongs on July 27, 2023. We let her know
3 that, as I said, Mr. Nelms had no role in approving the
4 Daugherty settlement that Highland entered into. And so even
5 though she was in our view attempting to pursue claims, Mr.
6 Nelms still had no knowledge or involvement with that.
7 Without replying to that email, what happened next was
8 that Mr. Nelms was personally served yet again on August 22nd.
9 And Your Honor, I find that just offensive. We were engaged
10 with counsel. We had said we would agree to accept service of
11 counsel -- of process. And here Mr. Nelms has been subjected
12 to basically three process servers. The first time, I can
13 understand that, but to have him be personally served
14 repeatedly I think is pure harassment.
15 We again had to now move to quash in state court. We did
16 that. We were not able to effectively resolve the issues with
17 counsel, so we moved for a protective order. That motion for
18 a protective order is still pending. It's scheduled for a
19 hearing on January 4th, as the subpoena to Mr. Nelms has to
20 this day not been withdrawn.
21 Your Honor, I'd like to draw your attention next to the
22 email we received from Mr. Ellington's counsel, Ms. Pettit, on
23 September 5, 2023. This listed a number of deposition topics.
24 We were again trying to work out a consensual but limited
25 exam. We asked for the exact topics. And in that September

1 5th email, which is part of my declaration, she responded. If
2 Your Honor -- Exhibit 6 to my declaration, on Page 2, has the
3 list of topics. And I think these lists of topics themselves,
4 I'd love to specifically call the Court's attention to them,
5 to Topic 7 to 11, which we think show how clearly this was
6 being used to pursue claims against Highland, against Mr.
7 Seery, and potentially against either Mr. Nelms or Mr. Dubel
8 or both.
9 Topic 7 was "Any meetings or communications between any
10 representative of the Highland bankruptcy estate and Mr.
11 Daugherty and/or his representatives related in any way to
12 Ellington."
13 Topic 8 was "Any instructions or approval by Nelms or
14 others, whether explicit or tacit, provided to Mr. Daugherty
15 with respect to Mr. Daugherty's so-called investigation of Mr.
16 Ellington or the stalking allegations in this case."
17 Topic 9 was "Any consideration provided to Daugherty with
18 respect to Mr. Daugherty's so-called investigation of Mr.
19 Ellington or the stalking in this case, including but not
20 limited to the treatment of Mr. Daugherty's proof of claim in
21 the Highland bankruptcy."
22 Topic 10 was the process for approval of Mr. Daugherty's
23 proof of claim with respect to the settlement announced on the
24 record in the Highland bankruptcy on February 2, 2021.
25 And Topic 11 was the ordinary process for negotiation and

1 settlement of material proofs of claim in the Highland
2 bankruptcy.
3 Your Honor, these -- these topics have little or nothing
4 to do with the state court case, if we look at the complaint,
5 but everything to do with the type of potential claims that I
6 think the gatekeeper order was designed, in our view, to
7 protect the protected parties. This was simply using third-
8 party subpoenas against Mr. Nelms and Mr. Dubel as a fishing
9 expedition to look to see if they could pursue claims against
10 Highland, against Mr. Seery, and I guess potentially against
11 Mr. Nelms or Mr. Dubel if they acted negligently or some other
12 way.
13 With that, Your Honor, I wanted to specifically provide
14 that. Obviously, I'm happy to answer any questions that you
15 have. But I can turn it over to Mr. Morris if Your Honor has
16 no questions.
17 THE COURT: Okay. No questions. Thank you.
18 MR. WYNNE: Thank you, Your Honor.
19 OPENING STATEMENT ON BEHALF OF THE REORGANIZED DEBTORS
20 MR. MORRIS: Good afternoon, Your Honor.
21 THE COURT: Good afternoon.
22 MR. MORRIS: John Morris; Pachulski Stang Ziehl &
23 Jones; for Highland.
24 I just want to preview for you some of the evidence that
25 is now in the record, because we may hear some testimony

1 today, but at the end of the day there is proof by clear and
2 convincing evidence that the breach of the gatekeeper has
3 occurred in the documents themselves.
4 And, you know, one of the things I would encourage the
5 Court to do is to look at the before and the after, because
6 something happened, and I don't know if we'll have here an
7 explanation of what happened, but something happened whereby
8 Mr. Ellington and his lawyers went from being focused on Mr.
9 Daugherty and the allegations in the state court petition to
10 being focused on Mr. Nelms, Mr. Dubel, Mr. Seery, and Highland
11 and what they were doing and whether they were engaged in a
12 conspiracy and what was happening in this courtroom. Right?
13 So the starting point has to be their petition. And Your
14 Honor, I don't know if you have the binder in front of you. I
15 don't know if you want to follow along. But Exhibit 2 is the
16 petition. And it's really -- it's well done. I have no idea
17 if, you know, what's -- what's credible and not credible. I
18 don't know what's true or not true. It's not our case. We've
19 had no involvement in it. But it's really clear. And it's
20 allegations, factual allegations that Mr. Ellington is making
21 against Mr. Daugherty where he alleges that Mr. Daugherty
22 engaged in a pattern of harassment that caused Mr. Ellington
23 and his family members to reasonably fear for their safety.
24 That's the standard of stalking.
25 And the other claim that they brought was invasion of

1 privacy by intrusion, that Mr. Daugherty went someplace that
2 was intrusive. That's the complaint.
3 Mr. Seery is not mentioned. Highland is not mentioned.
4 Mr. Daugherty's bankruptcy claim is not mentioned. There's no
5 mention of a quid pro quo. It has nothing to do with this
6 case. I think we can stipulate to that. I think that's
7 clear. In fact, we kind of did stipulate to that, because
8 when Mr. Daugherty removed that petition to this Court, Your
9 Honor had a whole hearing. Like, what's this complaint about?
10 And so if you turn to Exhibit 3, you'll find Mr.
11 Ellington's reply where his lawyers at Baker & McKenzie
12 represented, among other things, if you look in Paragraph 4 at
13 the bottom, "The state court action does not even mention the
14 Daugherty settlement." That's a fact. Remains true today.
15 At the end, they stated that, "The Daugherty settlement has no
16 bearing on the merits of Ellington's stalking and invasion of
17 privacy claims." That's what they told you. They said,
18 please send this back to state court because the Daugherty
19 settlement with the Highland estate had no bearing on the
20 merits of the stalking claim.
21 In Paragraph 12, they told Your Honor, "The state court
22 action is independent of the administration of the bankruptcy
23 and has no impact on the already-resolved Daugherty
24 settlement."
25 These are the representations they made to this Court.

1 These are the representations this Court relied upon in
2 concluding to remand. And we can find that in Exhibit 4,
3 which is excerpts of the transcript of the hearing on the
4 motion to remand. And it's really -- this is really
5 important, because the last thing Your Honor said, at the
6 bottom of Page 33 continuing to the top of Page 34: "In
7 coming into today's hearing, the only possible hook, if you
8 will, if you want to call it a hook, for the Bankruptcy Court
9 or Federal Court jurisdiction was if this somehow implicated
10 the gatekeeping order that was dangled out in the pleadings;
11 or if it involved the interpretation, implementation, or
12 execution of the confirmed plan or confirmation order; or if
13 the estate was somehow going to be impacted. I just didn't
14 find, based on the evidence or argument, any of these things
15 implicated."
16 That was the Court's conclusion. And you reached that
17 conclusion based on Mr. Ellington's representations to the
18 Court. Remember, before and after. Everybody's on the same
19 page. We took absolutely no position in the case. I think
20 somebody put the whole transcript in here. You'll see, I
21 think it was Mr. Demo, stood up at the very beginning -- it
22 was virtual, so I don't know if he was standing or not -- but
23 he appeared virtually and he said, we take no position, we
24 don't care. Right?
25 So, fast forward. What happens next? Ms. Pettit -- maybe

1 she'll explain -- notwithstanding everything that was said to
2 Your Honor, six months later serves more than a dozen
3 subpoenas on everybody involved in the Highland bankruptcy
4 case. And you can find that in her declaration at Exhibit 27.
5 Always keep the petition -- Mr. Ellington's petition in
6 mind. What was that case about? It was about Mr. Daugherty
7 allegedly engaging in harassing conduct that caused Mr.
8 Ellington to fear for his safety, and that he was intrusive,
9 he was invading privacy by intrusion.
10 Look at Ms. Pettit's declaration. Paragraph 23. I just
11 -- it's wild. In October, they served more than a dozen
12 subpoenas. In Subparagraphs B and K, you'll see the
13 independent directors were served. In Subparagraphs J and M,
14 you'll see former Committee members were served. In
15 Subparagraphs F and G, you'll see Committee counsel. Matt --
16 Matt Clemente and Paige Montgomery were served with subpoenas.
17 You'll see that Marc Kirschner, the Litigation Trustee, in H
18 was served with a subpoena. UBS's counsel, Andy Clubok, was
19 served with a subpoena. I was served with a subpoena. You'll
20 see that in D. And of course, I don't know why he didn't make
21 it on the list, but Mr. Seery was served with a subpoena.
22 A petition for stalking that has no mention of the
23 Highland bankruptcy, somehow anybody involved in the Highland
24 bankruptcy, I guess except for Your Honor, has been served
25 with a subpoena. Before and after.

1 Let's take a look at Mr. Seery's subpoena. It's at
2 Exhibit 7. This is the original subpoena that was served on
3 Mr. Seery. And if you take a look at Page 4, you'll find that
4 all of those topics actually were kind of reasonable. They
5 all relate to Mr. Daugherty's conduct. They all relate to the
6 allegations that he engaged in harassing and stalking conduct.
7 They want to know what Mr. Daugherty gave to Mr. Seery. Did
8 he give him pictures? Did he give him videos? Did he -- did
9 he give him videos of Sara Bell (phonetic)? Did he give him
10 videos of, you know, anybody else?
11 We didn't object. Mr. Seery didn't get personal counsel.
12 We produced some documents. Right? We didn't object. And if
13 we had taken a deposition on those topics, probably wouldn't
14 have been a problem.
15 But that's not what happened. What happened? For
16 whatever reason, and now we get to the after, in June, the
17 following June, six months later, they serve a second
18 subpoena. And that's at Exhibit 8. And you'll see in Exhibit
19 8 Topics 1 through 6 are the exact same, but now they have
20 added three new topics: 7, 8, and 9. And I don't want to
21 belabor the point in my opening, but I think, fairly read,
22 Your Honor, I think it's easy to say that those topics have
23 nothing to do with Mr. Daugherty. They have nothing to do
24 with the stalking action. They have to do with Mr. Seery and
25 Highland's conduct in this courtroom in this bankruptcy case.

1 They are basically looking for information as to whether or
2 not Mr. Seery was conspiring with Mr. Daugherty.
3 Now, we are not here today to talk about the merits of
4 these allegations. If they ever bring a gatekeeper motion,
5 we'd be delighted to do that. The only purpose of today's
6 hearing is to find out whether the Defendants, the
7 Respondents, were pursuing claims against Mr. Seery. And here
8 you have three deposition topics that, indisputable, clear --
9 beyond clear and convincing, this is beyond a reasonable
10 doubt, have absolutely nothing to do with the allegations in
11 the petition, but they certainly have everything to do with
12 Mr. Seery and his conduct in this courtroom in this bankruptcy
13 case.
14 So what happens? He's got to retain counsel. Here comes
15 Willkie Farr. You know, another cost to the estate. Remember
16 one of the things you said, Your Honor, when you remanded is,
17 I don't see how this has an impact on the estate. It's had a
18 huge impact on the estate. Mr. Nelms and Mr. Dubel have to
19 hire Hogan Lovells. Mr. Seery had to go get independent
20 counsel to deal with this. It's had a huge effect on the
21 estate.
22 So, so they serve this subpoena. And if you go to Exhibit
23 9, you'll see that, with Willkie on the scene, they object.
24 And I don't want to go through all of the emails. Your Honor
25 can do that, you know, as time permits. But I do want to

1 point out that on the very first page Mr. Levy attaches --
2 because this is an element of contempt -- he attaches the
3 confirmation order, the Seery retention order, the January
4 settlement order. Right? So that -- so that Ms. Pettit, Mr.
5 Hurst, everybody's on notice of the gatekeeper. And he says
6 it explicitly. Number 3: "We understand that John Morris,
7 counsel for Highland, copied here, wants to attend the
8 deposition and potentially raise objections under the
9 gatekeeper orders entered by the Bankruptcy Court, which I've
10 attached."
11 Nobody can come here today and say, I didn't know, I
12 didn't know. Everybody knew. Everybody knew exactly what was
13 happening. The debate continues.
14 But here's the thing. Scott Ellington's lawyers had
15 already reached the conclusion that Mr. Seery engaged in
16 wrongful conduct. And what they were trying to do -- and
17 clear and convincing evidence because it's in writing -- what
18 they were trying to do was obtain evidence to prove that Mr.
19 Seery did something wrong, that he was conspiring with Mr.
20 Daugherty and that he was otherwise breaching his duty. And
21 we'll get to that in a moment, because that's -- that's the
22 Russell Nelms piece.
23 So why do I say that? Exhibit 12, Your Honor. Again, a
24 lot of emails in here. I just want to point to Ms. Pettit's
25 email on Page 2, where she writes to Mr. Stancil, "The

1 production provided by Mr. Daugherty, Mr. Seery, and others in
2 this matter suggest the factual conclusion that the Highland
3 estate provided Mr. Daugherty with additional settlement
4 consideration in exchange for information on Mr. Ellington."
5 They have already concluded that there was a quid pro quo.
6 I know Your Honor is familiar with that term from earlier this
7 year. Here's the new quid pro quo. This one is between --
8 allegedly between Mr. Daugherty and Mr. Seery. Nothing to do
9 with the complaint. Right? But this is what they're trying
10 to get discovery on, is they want to -- they want to prove
11 this quid pro quo.
12 She goes on: "We believe that Mr. Daugherty and Mr.
13 Seery's communications regarding settlement of Mr. Daugherty's
14 proof of claim in the Highland bankruptcy case are relevant to
15 the factual issues that would be tried in this matter."
16 Exactly the opposite of what they told you earlier.
17 Exactly the opposite of what they told you -- what Mr.
18 Ellington's lawyers told you on the motion to remand. Now
19 it's highly relevant. Absolutely nothing in the petition
20 about it, and they know that. They know it has nothing to do
21 with the petition.
22 And that's why Ms. Pettit concludes by saying, "While we
23 do not believe it's necessary, we can always amend our live
24 petition as needed to give you comfort that you are producing
25 relevant and responsive materials."

1 They never amended their petition. Why would they?
2 Because if they did, somebody would probably remove it back to
3 this court, and then Your Honor would be in a very different
4 position than you were in March of 2022 when you remanded.
5 They haven't -- they want to stay in state court and use that
6 proceeding to develop evidence to support their conclusion
7 that Mr. Seery has conspired with Mr. Daugherty. It's on the
8 page.
9 Mr. Nelms. Where does he come in? If you go to Exhibit
10 34, you'll see more documentary evidence that proves that the
11 purpose of the discovery was to obtain evidence that would
12 support their claims against Mr. Seery. Look at Exhibit 34.
13 You'll see at the bottom of Page 3 a lawyer from Hogan Lovells
14 writes to Ms. Pettit, and she tells him, reminds him, in the
15 middle of that first paragraph, that "Daugherty testified that
16 he didn't recall ever speaking with Judge Nelms. In light of
17 this testimony, what is your basis for thinking that Judge
18 Nelms has any relevant information to the stalking
19 allegations?" And she provides an incredibly long response.
20 And we would urge the Court to study this response.
21 But I just want to focus on a couple of points. On Page
22 -- her response begins on Page 2. It continues at the top of
23 Page 3. You'll see -- it actually begins at the bottom of
24 Page 1. You'll see it's from Ms. Pettit to Mr. McNally and
25 others, including Mr. Wynne. It's dated July 25th. And at

1 the bottom of Page 2 she says explicitly, "We do believe
2 Daugherty left Judge Nelms" -- "While we do believe Daugherty
3 left Judge Nelms -- was left in the dark regarding Daugherty's
4 stalking, what is significant, that all of this happened
5 during the time Judge Nelms was on the board, and Jim Seery
6 and Andy Clubok did not -- did know about Mr. Daugherty's
7 inappropriate investigation. In fact, not only were they
8 aware, but according to Daugherty, Seery himself told
9 Daugherty he appreciated the investigation."
10 And this last line is really the tell. The last line is
11 where you see Ms. Pettit thinking out loud. This is -- this
12 is the admission. "We want to depose Judge Nelms on whether,
13 as we expect, Seery and Clubok kept him in the dark regarding
14 stalking."
15 Does that have any -- would that fact be at all relevant
16 to a claim against Mr. Daugherty? If -- let's just assume Mr.
17 Seery knew about the stalking. And let's assume that he
18 didn't tell Mr. Nelms. You're going to drag Mr. Nelms into
19 court to try to prove the negative, that Mr. Seery didn't tell
20 him? How does that establish a claim against Mr. Daugherty?
21 It doesn't.
22 What they're trying to do is establish somehow -- again,
23 if there's ever a gatekeeper motion, we'll address the merits
24 then -- but clearly what they're trying to establish is that
25 Mr. Seery breached his duty to the board. He didn't inform

1 -- he didn't keep the board informed.
2 And they go further. He didn't -- he didn't -- not only
3 didn't he inform the board of the stalking, but he didn't
4 inform the board of the quid pro quo, the alleged quid pro
5 quo. Has nothing to do with whether Scott Ellington was
6 afraid of Mr. Daugherty. Nothing to do with it, right?
7 Because that's what the stalkings say. I'm afraid. I'm
8 afraid.
9 Does the fact that Russ Nelms was never told by Mr. Seery
10 that Mr. Seery knew of the stalking or engaged in a quid pro
11 quo, how does that have anything to do with this? It doesn't.
12 They're pursuing claims.
13 But Ms. Pettit goes on. And at the bottom, you know, at
14 the top of the next page, Page 3, this is Mr. Ellington here.
15 The last sentence at the top: "Given the board's role in
16 approving settlement of material proofs of claim in the
17 bankruptcy, Ellington believes that Judge Nelms should have
18 been made aware of Daugherty's actions, if not by Daugherty,
19 then certainly by Jim Seery and Andy Clubok." That's Mr.
20 Ellington's point. That's his lawyer telling Jim -- Russ
21 Nelms' lawyer that the reason we want to depose Mr. Nelms is
22 to develop evidence against Mr. Seery for failing to tell you.
23 Nothing to do with Pat Daugherty.
24 There's a lot more in there. I don't want to belabor the
25 point. The fact of the matter is, at the end of the day, Your

1 Honor, if they had done what they told this Court they were
2 going to do, and that is pursue claims against Mr. Daugherty
3 for stalking, and if they wanted to take evidence from Mr.
4 Seery or from my client about the stalking, no problem. No
5 gatekeeper violation. Absolutely not.
6 But when you persistently seek evidence to try to buttress
7 your own conclusions that Mr. Seery has engaged in wrongful
8 conduct, that is the pursuit of claims, and that's where the
9 trigger comes in. When you harass John Dubel and you -- and
10 you -- he actually got sued. It's Exhibit 38. There's the
11 lawsuit. It's Exhibit 38. They sued Mr. Dubel, even after
12 they told -- he told them he had no documents. They go to
13 Russ Nelms' house three times to serve him with subpoenas in
14 order to have him testify that Jim Seery didn't tell him about
15 the stalking, that Jim Seery didn't tell him about the alleged
16 quid pro quo.
17 Other than commencing an action, other than filing a
18 lawsuit, I don't believe I could think of a more compelling
19 case for pursuit. The purpose of the exercise, the purpose of
20 the discovery, was to obtain evidence to validate their
21 theories that Mr. Seery engaged in wrongdoing. That's what
22 the evidence shows in the documents, and we'll see where we go
23 with the testimony, Your Honor.
24 Thank you very much.
25 THE COURT: Thank you. Ms. Hartman, are you going

1 next?
2 MS. HARTMAN: Yes, Your Honor.
3 THE COURT: I heard from my courtroom deputy you
4 might be having ability issues, so --
5 MS. HARTMAN: Thank you, Your Honor.
6 THE COURT: -- did you --
7 MS. HARTMAN: I'm good.
8 THE COURT: Are you good? Okay.
9 MS. HARTMAN: Although Mr. Griffin may have to carry
10 some things for me.
11 THE COURT: Okay.
12 MS. HARTMAN: Your Honor, may I approach?
13 THE COURT: You may.
14 OPENING STATEMENT ON BEHALF OF SCOTT ELLINGTON
15 MS. HARTMAN: Your Honor, Michelle Hartman on behalf
16 of Scott Ellington. And then Jim Lee will also have part of
17 an opening with regard to his clients as well.
18 I want to briefly discuss the state court action timeline,
19 the then and now, as Mr. Morris said, go through some
20 misquotations from the pleading, and then talk briefly about
21 the legal authority.
22 As this Court is aware, Mr. Ellington's state court action
23 is filed solely against Daugherty. It seeks damages and
24 permanent injunction against Mr. Daugherty individually. As
25 you heard Mr. Morris say, there's no mention of Mr. Seery in

1 this complaint.

2 Almost two years since filing, Mr. Ellington has not

3 sought to add them as parties. Not sought to bring any claims

4 or causes of action against any board members or Mr. Seery.

5 And in fact, the deadline to amend the pleadings and join

6 additional parties has passed.

7 Briefly on the state court action, Mr. Ellington filed his

8 petition in the 101st, this was before Judge Staci Williams,

9 seeking actual and equitable relief.

10 Daugherty removed this action from the state court to this

11 court a week later. Your Honor heard oral argument and then

12 remanded the matter.

13 Mr. Morris discussed some quotations from the hearing on

14 that motion to remand, including statements that the

15 settlement action had no bearing on the state court action and

16 the state court action is independent of the Daugherty

17 settlement. We stand by those, we still believe those to be

18 the case, but I'll address them in the -- in the course of the

19 argument as well and answer any questions.

20 May 15, 2022, following remand, Mr. Ellington served his

21 discovery. There's no mention of the Bankruptcy Court, no

22 mention of Mr. Seery in that discovery.

23 What happened was, on July 11, 2022, three days before Mr.

24 Daugherty's deposition, he produced communications between

25 himself and Mr. Seery that relate to the stalking efforts,

1 which Mr. Daugherty throughout his deposition referred to as
2 his investigation.
3 Daugherty's deposition testimony -- and you can see a bit
4 of it here -- confirms that he texted Mr. Seery often
5 concerning what he called his investigation of Mr. Ellington
6 and his family. And you can see the quote here, stating that
7 he had multiple text messages, that there were additional text
8 messages with Mr. Seery that involved his investigation.
9 He went through during that deposition other individuals
10 that he had sent his investigative evidence to, including Mr.
11 Clubok, Mr. Clemente, and others.
12 So the people that were subpoenaed or sent discovery
13 requests on were those that Mr. Daugherty mentioned in his
14 deposition. This is not something that Mr. Ellington started
15 off the bat in terms of discovery. This came up through Mr.
16 Daugherty's deposition, when he started mentioning this
17 investigation.
18 September 8, 2022, Mr. Ellington specifically requests
19 that Mr. Daugherty produce communications with Mr. Seery
20 regarding stalking. He responds that he will produce. And
21 then Mr. Ellington serves third-party subpoenas. So you can
22 see that it's after Mr. Daugherty's deposition.
23 January 3, 2023, Mr. Seery produced over 18,000 pages of
24 documents in response to the subpoena, and he agreed to a
25 deposition. He never sought to quash the subpoena before

1 Judge Williams. He never requested any kind of protective
2 order, even that would limit the discovery material just to
3 that lawsuit. He responds without any suggestion that a
4 subpoena requires a gatekeeper order of this Court.
5 Moving on, February 16, 2023, Mr. Seery's counsel informs
6 Mr. Ellington's counsel that his iPhone was set to
7 automatically delete text messages after one year,
8 notwithstanding that there were preservation letters sent to
9 Mr. Seery more than two years ago.
10 Shortly thereafter, within a month, Mr. Ellington's
11 counsel and Kirschner sent a letter to Mr. Seery's counsel
12 asking for clarification of his deletion of text messages.
13 The response was sent on March 10, 2023, when Mr. Morris
14 agreed or admitted, confirmed that the auto-delete setting had
15 been recently suspended. And you can see this on the email
16 exchange between Shelly Naughtin (phonetic) and Mr. Morris
17 from the state court actions.
18 It's important because this is the one piece of evidence
19 they point to in terms of what came from the state court
20 action that somehow worked its way into a Bankruptcy Court
21 matter. And they specifically cite to the DAF's imaging
22 motion. This is not evidence. This is a counsel's discussion
23 that is then confirmed in letters with regard to spoliation,
24 with regard to text messages being deleted. It's counsel-to-
25 counsel discussion.

1 July 14, 2023, approximately two weeks before the agreed-
2 upon deposition date for Mr. Seery, so this is in the state
3 court action, there was no request, but a supplement from Mr.
4 Seery was made, producing additional documents. And some of
5 them were redacted almost in their entirety.
6 The deposition was put off because of that, because we
7 wanted the unredacted or Mr. Ellington's counsel in the state
8 court action wanted the unredacted text messages. Mr.
9 Ellington's counsel filed a motion to compel Daugherty -- not
10 Mr. Seery -- to produce those redacted text messages. And you
11 can see the state court's order of September 1, 2023. And it
12 states on it, the heading is "Order Granting Fourth Motion to
13 Compel."
14 So Mr. Daugherty was required, and you can see it there,
15 to produce unredacted text messages regarding Ellington and
16 the stalking issues.
17 Less than two weeks after that state court's order is when
18 we received the motion in this case.
19 It's important because there are no outstanding written
20 discovery requests right now on Mr. Seery. He has already
21 complied with those. He has already produced 18,000
22 documents, and then additional documents. This order here
23 relates to Mr. Daugherty. There was no motion to compel filed
24 against Mr. Seery. It was filed against Mr. Daugherty. And
25 that's what Judge Williams' order relates to.

1 The depo at some point will need to be rescheduled, but
2 there is no outstanding request, which is why this motion for
3 sanctions was odd to us.
4 A couple of points that -- from the pleadings that I want
5 to make sure we clear up. Mr. Ellington has not said that he
6 intends to pursue claims against the Movants. That is not in
7 our pleading. It's stated over and over in the reply brief,
8 and it's really taken out of context in a bad way. You can
9 see a couple of the quotes here. This is the reply at one:
10 "Ellington does not, because he cannot, deny that he intends
11 to use the third-party discovery to file a future claim
12 against Seery."
13 That was not said. When you look at what actually is in
14 our brief, it says, "Even giving credit to Movants'
15 unsupported speculation that Ellington intends to use a third-
16 party discovery to file a future claim against Seery, there is
17 still no violation of the gatekeeper orders." They've cut-
18 and-paste in a way that's just wrong, Your Honor.
19 Same thing with the second misquote. "Ellington does not
20 deny that he 'intends to use a third-party discovery to file a
21 future claim against Seery.'" That was never said and there
22 is no current intention to file any claims against Mr. Seery.
23 Turning to another misquote. Here, you can see where the
24 Movants state, "Ellington tries to minimize this conduct as
25 simply having an intent to pursue claims or causes of action

1 against Seery in the future, but serving subpoenas and filing
2 motions in a stalking action to challenge the bankruptcy
3 process is conduct, not just intent."
4 When you look at the actual quote, that's not what it said
5 at all. "Movants argue that having an intent to pursue claims
6 or causes of action against Seery in the future also violates
7 the gatekeeper orders. However, even the expression of an
8 intent to pursue a claim, of which there is no evidence here,
9 is not sufficient to constitute the actual pursuit of claim."
10 They've taken what we've said and completely turned it on its
11 head.
12 The other sort of quote-mining that we see from the
13 responses is listed here. You can just look at that last
14 sentence from what's in the Movants' reply at Paragraph 14.
15 They say, "By acknowledging that Daugherty's motives are
16 relevant to the stalking action, they put the lie to any
17 theory of relevance based on Daugherty's motives."
18 I don't completely understand that, but want to make sure
19 that this Court understands that Mr. Ellington didn't bring up
20 the Daugherty settlement. That came from Daugherty's counsel.
21 And we'll show you exactly where it came from. But this is
22 the actual quote. I'm looking at the second paragraph. "To
23 the extent that the redacted messages related to negotiations
24 between Daugherty and Seery, communications regarding the
25 Daugherty settlement would be relevant, not so Ellington could

1 challenge the settlement in the bankruptcy case or bring some
2 claims against Seery, as Movants suggest, but so Ellington
3 could obtain materials related to Daugherty's apparent motive
4 in stalking -- in stalking Ellington and also assign a value
5 to his damages in the state court action."
6 And we'll go to, later in the presentation, the temporary
7 injunction. But this is where the Daugherty settlement came
8 up. Over objection of Ellington's counsel. You have
9 Daugherty's counsel say, look, we're not stalking Ellington to
10 harass or intimidate him or his family. We're doing it so
11 that we can -- as part of an investigation so that we can
12 report on it. We're doing it for investigation purposes,
13 rather than to harass or intimidate, which is what the statute
14 requires.
15 So it is actually Mr. Daugherty's counsel that brought
16 this up as a defense to motive. So if they're going to bring
17 it up, yes, we'd like to investigate it, not to bring claims
18 but because we get to challenge that in some way.
19 Briefly, it is Movants here that are flip-flopping. And
20 Your Honor will remember the Hunter Mountain case, where
21 Hunter Mountain sought leave of Court pursuant to the
22 gatekeeper orders to file a complaint. And these are from the
23 Movants' opposition. They very clearly talk about the Rule
24 202 proceeding and how discovery went forward for
25 approximately two years before the motion to leave. And all

1 of that, as they state, were related to the same trades that
2 ultimately were the subject of the revised proposed complaint.
3 That's what we're having here. You've got discovery.
4 What they've said in these previous cases is what Your Honor
5 has held in her decisions, that discovery is not pursuing a
6 claim.
7 The same thing with regard to deference to the state
8 court. When you look at that Hunter Mountain case and you go
9 back to the transcript, these are the Movants saying very
10 clearly that the Court should look at what the state court
11 does, what the state court said with regard to discovery in
12 that Hunter Mountain matter and the Rule 202 petition.
13 What they're doing here is flip-flopping that and now
14 saying what Judge Williams said with regard to the redaction
15 of those text messages to Daugherty, a nonprotected party,
16 should be thrown out, and this Court should instead be the
17 umpire.
18 One thing to focus on is intent. We heard a lot about
19 that in the opening presentation, what Mr. Ellington might
20 intend to do. There is no present intent to bring any claims
21 against Mr. Seery, and the deadline for joinder has passed.
22 Nonetheless, intent is not the question with regard to the
23 gatekeeper motion, and no court has relied on intent in terms
24 of violating gatekeeping.
25 This motion has no basis in fact or law. There's no

1 before or after. On the motion to remand, we didn't think
2 this had anything to do with the settlement. We still don't
3 think that it should. And Mr. Ellington has no desire to
4 attack the settlement. In fact, the appeals have passed and
5 it has been resolved. There is nothing with regard to that in
6 terms of objection of the Daugherty settlement. It was
7 brought up by Mr. Daugherty's counsel in the context of
8 attacking motive, a defense to his motive, as to why he -- why
9 he stalked.
10 Now, Mr. Morris may say that he doesn't see that as
11 relevant. We may say we don't see it as relevant. But Judge
12 Williams has allowed it to come in, so we obviously get to
13 develop that on the other side in terms of attacking that
14 motive, just with regard to the settlement and not for
15 objecting to it or in any way, collateral or otherwise,
16 attacking the settlement.
17 THE COURT: Did I misread or misunderstand something
18 in the pleadings? I thought somewhere I read that you all
19 agree motive doesn't matter for purposes of establishing the
20 evidence of civil stalking in Texas.
21 MS. HARTMAN: No, Your Honor, we -- we believe that
22 if there's an intent to harass, an intent to harass -- and let
23 me show you at least what is argued. If we can turn to Slide
24 18. So, this is Movant -- tricky flicker here -- Movants'
25 argument on alleged backdoor efforts to challenge the

1 Daugherty settlement. This is where it came up. Mr.
2 Ellington is not seeking discovery to challenge or overturn
3 the Daugherty settlement, and there's no evidence of this. So
4 you can see with regard to the temporary injunction Mr. York
5 starts talking about the bankruptcy process and this
6 investigation. Ms. Pettit objects on the basis of relevance.
7 Ultimately, the Court allowed further argument, and you can
8 see what Mr. York -- this is Mr. Daugherty's counsel -- says.
9 "The reason this is relevant goes to the purpose and intent
10 for why Mr. Daugherty engaged in the investigation activities
11 he engaged in, not because he was attempting to intimidate,
12 harass, or threaten Mr. Ellington."
13 So whether we think it's relevant or not, part of it has
14 come in under the state court's order with regard to Mr.
15 Daugherty's ability to challenge his motive. And so that's
16 why this settlement agreement came in, not in terms of
17 objecting to the settlement agreement, but in terms to this
18 motive.
19 I don't know if I answered your question head on, Your
20 Honor, but that's where it came in, and she did allow it in
21 terms of motive.
22 THE COURT: Okay. Well, you've answered my question,
23 --
24 MS. HARTMAN: Okay.
25 THE COURT: -- but I'm still very confused, by the

1 way, about this whole issue of motive and intent, whether it
2 has to be established under the stalking statute.
3 MS. HARTMAN: So, looking at the gatekeeper orders,
4 Your Honor, and this was discussed earlier, but you see claim
5 or cause of action, and I think this was your question at the
6 very beginning of the Movants' presentation. Are we talking
7 about discovery here or are we talking about a claim or cause
8 of action? You can see that it lists examples that give rise
9 to a right to relief that may apply to the injunction, and it
10 specifically lists claim or cause of action six times.
11 Nowhere in that is there any mention of discovery.
12 The main case that is relied on by the Movants is the
13 *Charitable DAF* case. And you'll remember, Your Honor, this is
14 the case that went up to Judge Starr with regard to leave to
15 amend. The complaint named Seery as a potential party. I
16 believe mentioned him more than 50 times with regard to the
17 complaint. Charitable DAF then sought leave to amend the
18 complaint to add Seery. And Judge Starr as well as this Court
19 discussed pursuing a claim, party must try or seek to bring
20 that claim. And one thing that Judge Starr noted is that,
21 under the Local Rules, an amended complaint would be
22 immediately filed by the Clerk of Court once leave would be
23 granted. And that, here, the contemnors tried to and in fact
24 took every action necessary on their part to bring the claim
25 against Seery.

1 By contrast here, Ellington has not taken any action
2 necessary to add Mr. Seery. It's been almost two years. He's
3 not amended. He's not sought leave to amend. He's not even
4 tried to do so. If that ever were the case, we'd be before
5 Your Honor. But I will represent to the Court that there is
6 no current intention to bring Mr. Seery -- bring claims
7 against Mr. Seery.
8 Mr. Seery also responded to the subpoena request for
9 documents -- this was almost a year ago -- and agreed to a
10 deposition in state court without seeking to quash.
11 So we kept going back to, at least on our side, what
12 should we have done such that we wouldn't be here either being
13 asked to show cause or to be held in contempt? And here's
14 where you find it, in the Claimant -- in the Movants' reply.
15 This is what they're asking this Court to do. They're asking
16 the Court to move back from motion to leave, to instead draw a
17 line between permissible discovery and impermissible
18 discovery. And you see three quotes here, and they're the
19 full sentence, not taken out of context. "Respondents
20 conflate legitimate third-party discovery in a stalking
21 action, which Seery has provided without objection, with
22 impermissible discovery they now seek concerning the
23 bankruptcy process and Daugherty's settlement."
24 Goes on to say, "Movants have never argued that discovery
25 constitutes a claim or action. They argue that seeking

1 discovery to challenge alleged conduct in the bankruptcy
2 settlement process constitutes pursuing a claim or cause of
3 action."
4 And you can see the third one: "Serving subpoenas and
5 filing motions in a stalking action to challenge the
6 bankruptcy process is conduct, not just intent, which is why
7 it violates the gatekeeper provision and gatekeeper orders."
8 So, effectively, we're supposed to, with regard to
9 discovery, make a determination whether it's permissible or
10 impermissible. Otherwise, we might violate the gatekeeper
11 injunction. That's what they want now. That's where they're
12 asking for the line to go, from motion to leave all the way
13 back to discovery if it's impermissible. No case supports
14 that.
15 Two arguments, one we've already talked about a little bit
16 with regard to the Daugherty settlement. There is no
17 challenge here under this bucket of impermissible discovery.
18 There is no intention to challenge the Daugherty settlement.
19 As Your Honor knows, a hearing was held on the Daugherty
20 settlement, Mr. Ellington's objection, which were nonmonetary
21 and mainly related to the observer status, was overruled.
22 Appeals were exhausted. It was never appealed. And we will
23 stipulate that there is no intention to challenge the
24 Daugherty settlement.
25 THE COURT: Let me interrupt you there.

1 MS. HARTMAN: Sure.
2 THE COURT: You'll stipulate to that, but as I
3 understood it from pleadings, you wouldn't stipulate to never
4 bringing claims against Seery, Nelms, and Dubel?
5 MS. HARTMAN: That's true, Your Honor. In terms of
6 it because it's more along -- and that's advice of counsel, I
7 will say, on us. It's more along the lines above of a
8 release. And what we will say is there is no intention to
9 bring claims against Mr. Seery now.
10 I don't feel comfortable telling my client at no time in
11 the future will you ever not bring a claim. Of course we will
12 stipulate that if that ever were the case, we would be before
13 this Court, and we'd better have a really good reason to do
14 it. I'm not even sure that we could if we wanted to now in
15 terms of statute of limitations. But there is no intention
16 to.
17 It's just to, with regard to bringing a claim rather than
18 challenging a settlement that's already been fully resolved.
19 I see those as two different things, and there's not been any
20 kind of -- for a release, anything offered with regard to
21 that. But, again, we have nothing that we're -- we're ever
22 planning to bring a claim. We have no evidence to support a
23 claim right now. We have no current intention of bringing a
24 claim. We didn't raise this. Mr. Daugherty raised it in
25 terms of the deposition and in the temporary injunction

1 hearing. It's not like we left this Court and went and said,
2 okay, let's go now and bring some subpoenas against Mr. Seery.
3 The record is very clear that it came up in the context of
4 that deposition. We have no idea of this claimed
5 investigation that Mr. Daugherty discusses. We don't know if
6 it's even true, but we want to be able to attack it in terms
7 of motive.
8 THE COURT: Okay. But, still, your client won't
9 agree, I'll never bring a claim against Mr. Seery, Nelms, or
10 Dubel? And this would never, as I understand, have been
11 brought today if he would have agreed to that.
12 MS. HARTMAN: Well, that was brought up in the
13 context of pleadings. That was never -- nobody ever came to
14 us and said, okay, two weeks after Judge Williams enters an
15 order, all of a sudden we're going to be hauled into court?
16 They didn't come to us and say, you can resolve this right
17 now. They stated that in the reply. Never called us to
18 discuss it or anything like that.
19 I don't feel comfortable in terms of my client under
20 duress just saying, well, then stipulate right now. I have no
21 idea what evidence is out there. I think we might be able to
22 negotiate something, but I don't think there's ever been a
23 real offer with regard to that.
24 And we certainly do want the discovery, if for nothing
25 else because we want -- we have these redacted texts. There's

1 an order from the Court, and it's based on Mr. Daugherty
2 making a production, not Mr. Seery.
3 But what we will say is that there's no present intention
4 to bring any claim against Mr. Seery. And just like we stood
5 by the representations to the Court the last time we were
6 here, take them very seriously, including as a lawyer, and I
7 wouldn't be saying there's no intention to sue Mr. Seery if I
8 didn't believe it.
9 THE COURT: Okay.
10 MS. HARTMAN: So, in sum, Your Honor, the Movants
11 improperly seek to have this Court decide state court
12 discovery disputes. If there is any issue with regard to use
13 in another matter, a protective order can certainly handle
14 that. It was never requested that there be any protective
15 order. There's been no shuffling of these text messages
16 amongst counsel. There's no evidence of that whatsoever.
17 The one thing that they point to is this deletion of
18 texts. But that was a big deal, and it didn't come out in the
19 context of some document, some Bates-labeled document. It was
20 in the context of counsel-to-counsel discussions, where it was
21 discovered and revealed that Mr. Seery had deleted text
22 messages and not properly, we think, preserved his text
23 messages.
24 And, again, within less than a month, a letter was sent in
25 the Kirschner matter with regard to that. That was six months

1 ago. We never heard anything about that there is any kind of
2 flow between the state court action to the Kirschner matter.
3 Nothing like that. This was the facts that came out. We were
4 very surprised about that there could have been possible
5 deletion of text messages. That is the only thing they can
6 point to.
7 And I would submit that that's a good thing if it did come
8 out, and it's going to come out anyway, because in the
9 Kirschner matter, that was right when things were very hot in
10 March of 2023 and we had been asking for these text messages
11 in the Kirschner matter.
12 So the answer is the same whether it's in the state court
13 or in the Kirschner matter, that there is possible deletion of
14 text messages.
15 MR. MORRIS: Your Honor, forgive me. I rise just to
16 adopt Mr. Lee's admonition against testifying in argument.
17 Absolutely none of this is in the record.
18 THE COURT: Response?
19 MS. HARTMAN: Sure. This is in the record, and it's
20 actually Movants' exhibit. This is a declaration that
21 includes -- and you can see at the bottom that this is Mr.
22 Morris's email where he states, talking about Mr. Seery's
23 iPhone, "While it is backed up to iCloud, the backup does not
24 contain deleted items, whether deleted manually or as part of
25 automatic settings." And the entire email, which, again, was

1 proffered into evidence by Mr. Morris, discusses the automatic
2 deletion of those text messages.
3 THE COURT: Okay. I overrule the objection.
4 MS. HARTMAN: To finish, Your Honor, there are five
5 binding decisions of this Court and the Fifth Circuit and the
6 District Court, all discussing this gatekeeper injunction.
7 And in all of them, it discussed a claim, a claim or cause of
8 action.
9 The closest is Judge Starr's decision, but in that
10 decision there's a motion for leave to amend. Once that's
11 granted, that's the last thing necessary to bring a claim.
12 And it's also, under the Local Rules, automatic or self-
13 effectuating, that once it's granted it automatically would be
14 filed.
15 Next point. In over --
16 THE COURT: I don't know what point you're trying to
17 make from Judge Starr's opinion.
18 MS. HARTMAN: So, from Judge Starr's opinion, that
19 talked specifically throughout the entire decision about a
20 claim or cause of action. There's never a discussion of
21 discovery being a violation of the gatekeeper injunction.
22 Serving a subpoena or having that discovery be a violation of
23 the subpoena.
24 THE COURT: Okay. Well, maybe I didn't read it
25 thoroughly enough, but I thought there was just simply a

1 discussion at the very beginning of that opinion about how
2 there was a complaint that mentioned Seery fifty times and
3 then there was quickly filed thereafter a motion for leave to
4 amend. And he said that was enough to be pursuing a claim.
5 MS. HARTMAN: Your --
6 THE COURT: He never talked about discovery. He
7 addressed a slippery-slope argument that CLO Holdco's lawyer
8 made, like, gosh, under Highland and Seery's interpretation of
9 pursuing a claim, even if there's communications with a client
10 about maybe pursuing a claim, or legal research by lawyers
11 about maybe pursuing a claim, under that slippery slope that
12 would be pursuing a claim. And he goes no, you know, it's not
13 that far.
14 MS. HARTMAN: Yeah. Your --
15 THE COURT: Okay?
16 MS. HARTMAN: Yeah. Your recollection --
17 THE COURT: He didn't say anything about discovery,
18 though, right?
19 MS. HARTMAN: Your recollection is spot on. What I'm
20 pointing to, we've got it quoted here, is just throughout that
21 he says bring a claim. And we have several quotes from that
22 where he specifically says claim. You're right, it's in the
23 negative in terms of just not stating discovery.
24 THE COURT: Uh-huh.
25 MS. HARTMAN: But it goes at length to talk about how

1 this is the last thing possible before a claim would be filed.
2 And even goes to the Local Rules, saying, if it's granted, the
3 Clerk automatically files it. That's in contrast to a
4 subpoena, which in our mind is very far from a claim.
5 THE COURT: Okay.
6 MS. HARTMAN: And then Your Honor's decision in the
7 *A&M* case with regard to the Rule 202 proceeding, talking about
8 an investigatory tool and simply too inchoate to constitute a
9 removable cause of action. We again see that as on point in
10 terms of similar to a subpoena in terms of a Rule 202
11 proceeding and very different than a claim or cause of action,
12 which does not exist here.
13 Thank you, Your Honor.
14 THE COURT: Thank you. All right. I guess we have
15 one more. Mr. Lee?
16 MR. LEE: Thank you, Your Honor. Your Honor, may I
17 approach your clerk?
18 THE COURT: You may.
19 MR. LEE: I gave you one, but I hadn't --
20 THE COURT: Yes.
21 OPENING STATEMENT ON BEHALF OF THE LAW FIRMS
22 MR. LEE: Your Honor, again, for the record, Jim Lee.
23 I'm representing the two law firms that are the -- two of the
24 three Respondents.
25 Your Honor, two things at the outset. One is that I did

1 not confer with counsel for Mr. Ellington in connection with
2 any of this. So if I'm redundant from her well-presented
3 facts and arguments, then I apologize in advance. We did not
4 coordinate. So I may in fact cover some things that she did
5 as well.
6 But let me start by addressing a question that the Court
7 had that I think I can answer. And the Court's question, if I
8 understood it, was that your understanding was that proof of
9 motive was not necessary, a necessary element of stalking.
10 And I would agree with that. But that, although it's not
11 required to prove stalking, what it is very relevant to is
12 punitive damages. And potentially actual damages. And it's
13 relative to punitive damages because it can go to the
14 possibility of a bad-faith motive.
15 Now, that's not necessary to prove motive. You either
16 prove stalking happened or it didn't happen. But when you
17 start assessing damages, especially punitive damages in regard
18 to if stalking is found to have occurred, then it is very
19 material whether or not, for example, Mr. Daugherty was
20 motivated by financial gain and that's part of why he
21 undertook this so-called investigation.
22 When disclosures were made about certain things, including
23 the production of a substantial number of text messages by Mr.
24 Seery's counsel on a voluntary basis, after they had already
25 entered into an agreement about how his deposition would

1 proceed, it became apparent to my clients that there was a lot
2 Mr. Daugherty had not produced, and therefore they were
3 compelled, as zealous attorneys, to go investigate that. They
4 needed to do more discovery.
5 That was what started this litany of events that you've
6 been hearing about. And I'll talk about that more in a
7 minute. But where I want to go and spend a little time on the
8 front end is really what these gatekeeping orders were
9 intended to accomplish. And these aren't the first
10 gatekeeping orders I've encountered in almost 50 years of
11 practice. They are very common, especially in bankruptcies
12 and in bankruptcy plans.
13 And essentially is I've always seen, both in their intent
14 and in their application, they are a shield. They are to
15 prevent, among other things, frivolous litigation, to give
16 this Court control of the docket, to protect under the Barton
17 Doctrine perceived officers, and I know that is more than a
18 trustee these days. Those are the intended purposes of
19 gatekeeping orders and why they're pretty common practice.
20 Well, let's look, if you don't mind -- and it's on the
21 screen -- but this is in that little handout. However you
22 prefer to look is fine with me, Your Honor. But I'm going to
23 start with the confirmation order, because it really subsumes
24 the two prior orders. As the Court remembers, the very first
25 order was specific to the general partner, and then it was

1 expanded further. And essentially those were subsumed into
2 what was drafted into the confirmation order.
3 And at Paragraph 76, it talks about the fact that enjoined
4 parties first seek approval of this Bankruptcy Court before
5 they may commence an action against protected parties. As we
6 stand here today, no action has been commenced by my client's
7 client, Mr. Ellington, by -- against any of these protected
8 parties.
9 Further, elsewhere in the confirmation order, in Paragraph
10 8(a), it talks again about not doing so without the Bankruptcy
11 Court first determining, after notice and hearing, that such
12 claim or cause of action represents a colorable claim -- a
13 colorable claim; I want to emphasize that again -- of any
14 kind, including, and then it has the litany of negligence, bad
15 faith, et cetera.
16 Well, Your Honor, how could a party who seeks discovery
17 know, pursuant to this language, that they needed to come to
18 this Court before making discovery requests of any protected
19 party, not as a party in litigation but to that protected
20 party as a third-party witness? How could they know they
21 needed to do that, number one? And how could they demonstrate
22 to you that their claim was colorable when they're not
23 asserting a claim at all? They are seeking discovery.
24 Let's flip the page to the next. And what I did here,
25 Your Honor, I went back, and I think as any good lawyer would

1 do, I read your opinions, as well as what Judge Starr did, but
2 I read your opinions in several matters where there had been
3 consideration by this Court of contempt.
4 And here's, in the *In re Highland*, this is what we have
5 commonly called the *Charitable DAF Fund* litigation, with which
6 I know the Court is most familiar. And you describe the
7 gatekeeping provisions. They're specific provisions requiring
8 parties to seek Bankruptcy Court approval before filing
9 lawsuits against the persons controlling the Debtor. There is
10 no mention of discovery, and I don't believe that the Court
11 expected anybody who was ever going to seek discovery of a
12 protected party to have to come here first and ask for
13 permission.
14 And you say elsewhere in that very opinion, "These
15 gatekeeping protections require litigants to obtain the
16 Bankruptcy Court's approval before suing certain protected
17 parties in control of the Debtors." Again, suing. No mention
18 of taking discovery.
19 And again elsewhere in that very same opinion Your Honor
20 says, "To support a contempt finding in the context of an
21 order alleged to have been violated, the order must delineate
22 definite and specific mandates that the defendants violated."
23 Where is there a mention in either the two initial orders
24 or the bankruptcy plan's orders that you can't take discovery
25 of a protected party as a third-party witness unless you first

1 come to the Court? It's not there. And therefore it is not
2 definite and specific enough to preclude the conduct that
3 Movants are now complaining about.
4 The Fifth Circuit, on the next -- well, you have one other
5 I want to talk to you before I go to the Fifth Circuit, quite
6 frankly, Your Honor, because in the *HMIT* case, you also
7 characterized these gatekeeping provisions. And I know the
8 Court's very familiar. I'm not trying to beat you up with
9 your own language. The point I'm just trying to make is that
10 not only if you look at the language of the order, but if you
11 looked at this Court's opinions as to the purpose and extent
12 of the order, you would not know that discovery was prohibited
13 absent prior approval of this Court.
14 In fact, what you say is the intent is to screen and
15 prevent bad-faith litigation. And Your Honor, discovery is
16 simply not litigation. It's the same reason the 202 cases
17 that are specifically intended to investigate prospective
18 claims are found by the courts not to be litigation
19 themselves.
20 So the Fifth Circuit says the same thing. Before any
21 lawsuit is filed. There has been no lawsuit filed by Mr.
22 Ellington or by my clients on behalf of Mr. Ellington.
23 So my argument is pretty simple. Plain language of the
24 orders does not prohibit the conduct that they are trying to
25 say constitutes pursuit of a claim. And we are at a far end

1 of the spectrum from what the end-around was in *DAF*, where, as
2 this Court stated earlier, Mr. Seery was mentioned fifty times
3 and there was a stated intent through a motion for leave to
4 sue him.
5 And if the orders do not specifically prohibit discovery,
6 they run afoul of something else, and that's the United States
7 Supreme Court decision in *Taggart*. That's on the next page,
8 Your Honor. And essentially what *Taggart* says is if you want
9 to charge somebody with civil contempt, there can't be fair
10 ground of doubt as to what the wrongful conduct is. And I
11 submit to you -- and they -- stated differently, as the Court
12 says -- there is no objectively-reasonable basis for
13 concluding that the creditor's conduct might be lawful under
14 the order.
15 Well, in this case, I submit to you there is a very
16 reasonably -- objectively-reasonable basis for these law firms
17 concluding that your order did not require prior approval
18 before they could take third-party discovery. And that's all
19 they've done to this point. They can dress it up any way they
20 want to, but you can look at what is done and they're
21 complaining about deposition notices and subpoenas to testify
22 and document production things. Those are all discovery, as
23 you and I both know that.
24 But let me put it a little differently. Back to that
25 specificity thing that I argue is lacking here. Curiously,

1 Mr. Morris just said, both in his papers and here today, that
2 discovery in and of itself does not require prior approval of
3 this Court, and therefore the taking of discovery is not
4 pursuit of a claim. But certain discovery, they now argue,
5 is. They point to three or four different specifics, and
6 we'll address those in testimony and in argument. But they --
7 if you look at the motion, they've got three or four different
8 events that they claim constitute that, one of which was the
9 matter that was addressed earlier concerning the use of an
10 email from Mr. Morris disclosing that his client had not been
11 preserving texts but had an automatic redaction feature on his
12 iPhone.
13 That's not discovery, number one. And number two, it was
14 brought to this Court's attention. In two instances. One
15 instance was in what is the so-called imaging motion. So this
16 Court, there's no end-around there. It was brought to this
17 Court. And more importantly, Your Honor, it's a motion. It's
18 not an adversary proceeding. It's not a claim. It's a motion
19 asking for preservation of text messages and forensic
20 assistance in that respect.
21 The point here is how were my clients to know what
22 discovery was permissible and what discovery required them to
23 come first to you before they could seek it? And I submit to
24 you that if you look at the face of the gatekeeping orders --
25 and I use it collectively for the first two and the plan --

1 there is nothing that says specifically this kind of discovery
2 is okay and this kind of discovery requires prior approval of
3 the Court. But that's exactly what the Movants are arguing
4 here today.
5 And the Movants apparently want to be the arbiter of that.
6 They want to tell you, we've decided this crossed the line.
7 The other stuff was fine. We produced tens of thousands of
8 pages of documents without objection. We thought all that was
9 good. We had conferences with them about having the
10 deposition and setting parameters for it. But now all of a
11 sudden certain other discovery, oh, that's violative of the
12 rule. It violates the gatekeeping orders.
13 *Taggart* says that doesn't work. It has to be clear on the
14 face of the order, and you can't hold parties in contempt if
15 it's not. And I submit that's exactly where we are here.
16 And let me draw your attention next, Your Honor, to the
17 last page. Well, and more importantly, let me -- let me just
18 think about it as a practical matter. Having been a trial
19 lawyer for almost 50 years, I can tell you I wouldn't know
20 from reading those orders -- and I can assure you I have read
21 them so many times I can't count -- I wouldn't know, one,
22 whether I had to come to you for approval of discovery just
23 because it was a protected party that was the witness, not a
24 party to the litigation but just a witness; and further, how
25 could I know or discern what you would consider did require me

1 to come to you and other discovery that was not germane and so
2 I didn't?
3 And therein lies the rub. It has to be an all-or-nothing
4 thing for you to find contempt. They can't just pick and
5 choose what conduct they want to attack.
6 So let's look at this last page of that little
7 demonstrative I have, Your Honor. And this is -- this is
8 compelling to me, Your Honor. This is from an exchange with
9 Mr. Levy and my clients in connection with Mr. Seery's
10 deposition in the stalking action. This goes back to July the
11 13th. And on July the 13th, he writes, "Thanks, Laura." She
12 was -- she was the one who received it, and then my clients
13 were copied recipients. "We agree to accept service. Thanks
14 also to Michael and Julie" -- my clients -- "for the
15 productive call on Jim Seery's deposition. To summarize where
16 we landed. Time limits. It's going to be four hours.
17 Attendance. John Morris." Recall, John Morris does not
18 represent Mr. Seery. It's Mr. Levy. But, "John Morris can
19 attend the deposition and can instruct the witness not to
20 answer questions on privilege grounds or as he deems
21 appropriate under the Bankruptcy Court's gatekeeper orders."
22 My clients agreed to a protocol being put in place for Mr.
23 Seery's deposition that allowed Mr. Morris to serve as the
24 protector, to make decisions and instruct the witness not to
25 answer if he thought it got into the realm of the gatekeeping

1 order.
2 How can that be evidence of a violation of the gatekeeping
3 order when my clients are doing everything possible to
4 accommodate this, including allowing Mr. Morris to attend when
5 he otherwise has no right to be there?
6 And then let's look at the topics. Here's the next thing
7 that's really critical. "We agree to limit the deposition to
8 the topics noticed. We also agree to exchange objections to
9 the topics by email, and you reserve the right to challenge
10 these objections in a motion after the deposition. Here are
11 our objections."
12 So the three topics that you heard counsel talk about that
13 were so offensive, they objected to them, and under this
14 protocol he can instruct the witness not to answer. And now
15 they're saying this supports contempt? I don't think so. I
16 don't think so at all, Your Honor. That protocol shows that
17 there was an effort to bend over backwards to accommodate
18 these concerns, and something -- you talk about the before and
19 after? Let me tell you, something changed, too. And I'm
20 going to tell you what changed. You're going to see that many
21 of the things they allege that took place -- I'm not going to
22 go into them all now because a lot of them have been touched
23 on and I know we've run on for opening -- but I'm going to put
24 on evidence that shows you a lot of these alleged conducts did
25 not happen or are situations like the one I just pointed out

1 to you, where they are contrary to what really occurred.
2 But what's more important in my mind is, besides the no
3 evidence aspect of this thing, what was supposed to happen? I
4 mean, what really was supposed to occur when they found out
5 that Mr. Daugherty had not disclosed evidence because Mr.
6 Seery was producing, although redacted, texts between the two
7 of them?
8 What they did, as any good trial lawyer would do, they
9 tried to get them from Mr. Daugherty. And the state court
10 granted their motion.
11 Now, here's the interesting thing. And this is where I'm
12 going to tell you about the before and after. All of the
13 things they complain about took place months ago. The use of
14 the email describing the deletion of Seery's iPhone texts,
15 that was filed in March in this court. The use of that one
16 email again was used in support of the HMIT motion for leave
17 filed in this court, and that was back in June. They don't
18 file a motion for sanctions then. They didn't file one back
19 when they agreed to this deposition on July 13th. They didn't
20 file one in June when HMIT used it. But when did they file
21 it? They filed it within two weeks of the state court judge
22 ordering Mr. Daugherty to produce unredacted texts with Mr.
23 Seery. That was the triggering event.
24 And I submit to you, Your Honor, that's because they
25 didn't want to do it. They didn't want those documents

1 produced. Instead of going to the state court, which would
2 have been appropriate, and seeking a protective order, instead
3 of going to the state court and offering to have those text
4 messages reviewed *in camera* by the state court judge handling
5 that litigation, they came running to you, and they used a
6 motion for sanctions to get here. And in that motion for
7 sanctions, they asked you to make an *in camera* review of these
8 text messages, even though that is state court discovery hook,
9 line, and sinker. And I submit that's what caused this to all
10 of a sudden happen. And the rest of it is being used to try
11 to create bad looks and bad arguments against these and bad
12 conduct, but it's not there.
13 One, they acted appropriately. They were zealous
14 advocates for their client. And the other is the orders just
15 don't preclude discovery, and there's no way they could know
16 if it precluded some but not other discovery.
17 And I want to just take a minute, Your Honor, to also talk
18 about a lot of stuff that was raised by Mr. Wynne. I was a
19 little surprised by that, I've got to be honest with you,
20 because in spite of all this egregious behavior that he went
21 on for quite a period of time describing, he never, never
22 sought to file a motion for contempt against Mr. Ellington or
23 his lawyers.
24 This motion gets filed back in September. I think it was
25 September 13th. Mr. Wynne doesn't file anything then. You

1 don't hear from Russ Nelms then. You don't hear from Mr.
2 Dubel then. And then on the eve of this hearing they file a
3 joinder that says simply, "Me, too." Nothing new, nothing
4 different. Now, granted, Mr. Wynne had given a declaration to
5 support the original motion, but all of a sudden he's here
6 carrying the torch, and he's never done any of the things that
7 you would expect, such as file the motion. He didn't join in
8 early on. He wasn't a movant.
9 And so I think that we've got to kind of look at the fact
10 that when he loosely uses the term they're suing my clients,
11 and he says they already sued them in New Jersey, well, in New
12 Jersey, that's how you deal with motions to compel. You file
13 a complaint up there. It wasn't done by my clients. It was
14 done by lawyers in New Jersey.
15 My clients have never sued Mr. Dubel. They've never sued
16 Judge Nelms. In fact, they've never sued any of these three
17 Movants.
18 So I know I've gone long-winded, but I think it was
19 important to let the Court know that there's two sides to this
20 story. And I think the motivation here has been to use the
21 gatekeeping orders as a sword and not the shield this Court
22 intended.
23 Thank you, Your Honor.
24 THE COURT: I'm going to ask you a question.
25 MR. LEE: Sure, Your Honor.

1 THE COURT: And I want to hear the evidence, but I
2 asked Ms. Hartman this, and I'm going to ask you as well. You
3 know very well bankruptcy judges always want pragmatic
4 solutions where we can get them.
5 MR. LEE: Absolutely.
6 THE COURT: So what seemed like a very pragmatic
7 solution here was if Ellington would agree he's not going to
8 pursue a claim, using the literal words of the gatekeeping
9 order, he's not going to pursue a claim against Seery, Nelms,
10 or Dubel, then we'll sit for your deposition, we won't fight
11 this, we'll do discovery. What was so --
12 MR. LEE: What was --
13 THE COURT: -- wrong with that?
14 MR. LEE: What --
15 THE COURT: Why wouldn't he agree to that, if this
16 was really about getting discovery concerning his stalking,
17 civil stalking lawsuit?
18 MR. LEE: The implication that you've received from
19 counsel is just inaccurate. There was never -- and my client
20 will testify that there was never such an offer made. And it
21 was first mentioned in the reply brief filed in this matter.
22 THE COURT: Okay. So, what, November-ish was the
23 very first time it was mentioned?
24 MR. LEE: The reply brief I guess was November. I
25 can't remember the exact date. And that was a statement made

1 in there that that -- you know, why haven't they done that?
2 And I think my answer is I can't speak obviously for my
3 clients, who then are in a representative capacity here, as to
4 what would happen in the future. But as far as for current
5 stuff that's known, there's not happening. The pleading -- I
6 mean, the amended deadline is passed in the state court
7 action. None of them have been named. They're not even
8 mentioned, as counsel said.
9 THE COURT: But a new lawsuit could be filed.
10 MR. LEE: How?
11 THE COURT: Well, I don't know. There's a deposition
12 and document discovery and something is plucked out of
13 something --
14 MR. LEE: Well, --
15 THE COURT: -- in there and a lawsuit is filed.
16 MR. LEE: Then let's speculate on that, Your Honor.
17 I'm glad to go there with you. Let's assume that all of a
18 sudden in discovery it comes out that there was some
19 misconduct by one of these protected parties. Your
20 gatekeeping order says you can't sue unless you come and get
21 permission from Judge Jernigan. Isn't that already in place?
22 And it's kind of hard --
23 THE COURT: Well, here's the pragmatic bankruptcy
24 judge again. If your client had been willing to say, we're
25 not going to sue, we will put in writing we're never going to

1 pursue a claim, we're just trying to get discovery regarding
2 the stalking litigation and we'll put in writing we're never
3 going to pursue a claim, then these guys would not have had to
4 hire Willkie Farr and Susie Hersh and Hogan Lovells, and guess
5 who is paying for those lawyers?
6 MR. LEE: I appreciate that, Your Honor.
7 THE COURT: There are indemnification agreements in
8 place, and the value of this estate is going on every day. I
9 care about that.
10 It's almost like I've got two broad issues here. Was the
11 gatekeeping order violated, but are you interfering with this
12 bankruptcy estate's reorganization and impairing its value?
13 I'm not sure that's before me today, but I sure am troubled by
14 it.
15 MR. LEE: Well, here, let me try to -- because you
16 hit a couple of different things.
17 THE COURT: I hit two or three things.
18 MR. LEE: And let me try to go there. First and
19 foremost, I represent only the two law firms. So those law
20 firms could agree that they're not going to bring claims and
21 it doesn't get to where the Court is trying to go. So I
22 can't, even if my clients were willing to say that, they could
23 always go get other lawyers or do something of that nature, so
24 that's a difficult question for me to answer in the way I know
25 the Court wants to know.

1 THE COURT: Uh-huh.

2 MR. LEE: That's, that's a Mr. Ellington decision.

3 The second thing is -- and it's important -- is based on

4 what we're going to testify to, they didn't -- a couple of

5 things. They never came with this proposal. The first I knew

6 about it was a rhetorical statement in their reply, why

7 haven't they done this?

8 THE COURT: Okay.

9 MR. LEE: Most importantly, and it's going to come

10 out in the evidence, but it's in our papers as well: They had

11 this agreement that I pointed out to you in July 13th on how

12 this deposition was going to proceed. Then when it was --

13 and, and here's another point. A day later, Mr. Seery

14 supplements his document production, a day after the July

15 13th. He voluntarily produces substantially more information.

16 And that's when it becomes very apparent that Mr. Daugherty

17 hasn't been forthcoming with his discovery.

18 They -- my clients therefore make the prudent decision,

19 we're going to put off Mr. Seery's deposition and try to go

20 get these, and they filed a motion to compel against Mr.

21 Daugherty.

22 Then, in September, when the judge in the state court

23 enters that order, all of a sudden this gets filed. These

24 lawyers don't call and have a conference in advance to say,

25 hey, we're intending to file this, we don't think you're

1 allowed to do this. They -- and more importantly, I think, is
2 that when they -- the lawyers I represent asked to see a copy
3 of the motion and to discuss it in advance, the response was,
4 we're not obligated to give it to you.
5 Now, is that an effort to come to a resolution like this
6 Court wanted to see? No. They were using this as an
7 intimidation factor to get these lawyers to back off, because
8 two days later Mr. Daugherty would have had to produce
9 documents under the state court order, and they didn't want
10 that to happen. So they came running here.
11 So I guess I've got to throw back to the Court: Where
12 have they been, as stewards of this estate, trying to come up
13 with these resolutions with us?
14 THE COURT: Well, they showed me where someone
15 offered for Mr. Nelms, he'll just give you a declaration and
16 affidavit --
17 MR. LEE: And I'll -- can I address that?
18 THE COURT: -- swearing he never had any
19 conversations.
20 MR. LEE: Sure.
21 THE COURT: And I think the same thing was offered
22 for Dubel. And --
23 MR. LEE: Can I address that, Your Honor?
24 THE COURT: Yes.
25 MR. LEE: As a trial lawyer, the problem with that is

1 you can't get a declaration -- I mean, here we got them in by
2 agreement, but they're hearsay. And if Mr. Daugherty wanted
3 to object to the declarations, there's no way my clients could
4 get them into evidence in the state court action. They'd have
5 to take a deposition to do it. It's nothing more than playing
6 by the rules.
7 THE COURT: Okay. Do you dispute that your clients
8 never responded, though, for many months, to that offer, we'll
9 give you an affidavit?
10 MR. LEE: I'm not -- I'm not knowledgeable one way or
11 the other on that, --
12 THE COURT: Okay. Okay.
13 MR. LEE: -- Your Honor, so I'm not even going to
14 speculate.
15 THE COURT: Okay.
16 MR. LEE: I just don't know.
17 THE COURT: Okay. All right. Well, again, --
18 MR. LEE: Anything else for me, Your Honor?
19 THE COURT: No. I'm just bringing up my --
20 MR. LEE: No, I --
21 THE COURT: -- pragmatic concerns, why did we ever
22 have to be here?
23 MR. LEE: Your Honor, --
24 THE COURT: And that's really what my questions are
25 about.

1 MR. LEE: I would --
2 THE COURT: It feels like there was a way we never
3 had to be here.
4 MR. LEE: I would have hoped we would never have to
5 be here either, Your Honor.
6 THE COURT: Okay. Well, --
7 MR. LEE: Anything else for me?
8 THE COURT: No. I'm --
9 MR. LEE: All right. Thank you.
10 THE COURT: Thank you.
11 MR. LEE: Thank you for allowing me the time.
12 THE COURT: I'm ready to hear the evidence, but Mr.
13 Morris, I guess you're dying to say something.
14 MR. MORRIS: Yeah. Can we just take a short break?
15 THE COURT: Oh. Okay. That's a good thing to be
16 dying to say. We'll take a ten-minute break and come back.
17 THE CLERK: All rise.
18 (A recess ensued from 3:46 p.m. until 3:59 p.m.)
19 THE CLERK: All rise.
20 THE COURT: Okay.
21 A VOICE: Your Honor, we're working on something that
22 I think will make your life a lot easier. Can we have a few
23 more minutes?
24 THE COURT: Um, --
25 A VOICE: A lot easier.

1 THE COURT: A lot easier?
2 A VOICE: Yes, ma'am.
3 THE COURT: Okay. Well, if you mean a lot easier, --
4 A VOICE: I mean, --
5 THE COURT: -- not just a little easier, --
6 A VOICE: Oh, no. Way easier.
7 (Laughter.)
8 A VOICE: A lot easier.
9 THE COURT: Okay.
10 A VOICE: I wouldn't sell it if it wasn't worth
11 buying.
12 MR. LEE: I apologize, Your Honor.
13 THE COURT: Okay.
14 MR. LEE: We're actually having dialogue. So if you
15 could give us a little more time, that'd be great.
16 THE COURT: Okay. Well, should I come back in 15
17 minutes?
18 A VOICE: That would be great.
19 MR. LEE: That'd be great.
20 THE COURT: Okay.
21 MR. LEE: Thank you, Your Honor.
22 A VOICE: Thank you, Your Honor.
23 THE CLERK: All rise.
24 (A recess ensued from 4:00 p.m. until 4:45 p.m.)
25 THE CLERK: All rise.

1 (Discussion.)
2 THE COURT: Okay. For the people on the WebEx, you
3 probably figured this out a long time ago, but we've been in
4 recess. The lawyers have been out in the hallway trying to
5 work something out. And I've been getting the five more
6 minutes, five more minutes request. Okay. Do we have
7 everyone?
8 A VOICE: They are harmonizing two competing --
9 THE COURT: Okay.
10 A VOICE: Two Word documents are being harmonized in
11 the hall right now.
12 THE COURT: Okay. So we're on the record in
13 Highland. Let's get an announcement about what's happening.
14 MR. MORRIS: Good afternoon, Your Honor. John
15 Morris; Pachulski Stang Ziehl & Jones; for Highland Capital
16 Management.
17 Counsel for the Movants and counsel for the Respondents
18 have been engaged in good-faith negotiations to resolve this
19 motion in its totality. And when I say the Movants, I don't
20 just mean Willkie and my firm, but Hogan Lovells is involved.
21 We're drafting kind of terms that we, you know, hope to
22 present to the Court.
23 But there are a lot of parties involved, and I know, you
24 know, we've taken probably a half hour, maybe a little bit
25 more than that, so far. And I would just ask the Court's

1 indulgence to allow us to finish the process, because people
2 are working hard.
3 THE COURT: Okay. Yes. My only concern is am I
4 going to hear in 30 minutes everything's fallen apart, we now
5 need --
6 MR. MORRIS: I'm optimistic, --
7 THE COURT: -- three hours of evidence.
8 MR. MORRIS: -- Your Honor.
9 THE COURT: Okay.
10 MR. MORRIS: I give no guarantees, but I'm --
11 MR. LEE: I am as well.
12 MR. MORRIS: I'm optimistic.
13 MR. LEE: I think it's wordsmithing at this point.
14 MR. MORRIS: Yeah.
15 MR. LEE: Conceptually, I think we're there.
16 THE COURT: Okay.
17 MR. LEE: It's, you know, it's never over 'til the
18 fat lady sings, --
19 MR. MORRIS: Right.
20 MR. LEE: -- but we're getting real close to the end
21 of the opera.
22 THE COURT: Okay. All right. Well, you know, let's
23 not keep my staff, who doesn't get overtime, --
24 MR. LEE: Yeah.
25 THE COURT: -- here too, too late.

1 MR. LEE: Yes, ma'am.

2 THE COURT: So I'm just going to hang out and wait

3 for you all to come and notify Mike that --

4 MR. LEE: Is that -- thank you.

5 THE COURT: Okay.

6 MS. HARTMAN: Thank you, Your Honor.

7 MR. LEE: We'll do that. Thank you, Your Honor.

8 THE COURT: Okay. Thank you.

9 THE CLERK: All rise.

10 (A recess ensued from 4:48 p.m. until 5:49 p.m.)

11 THE CLERK: All rise.

12 THE COURT: Okay. Please be seated. We're back on

13 the record in Highland. I just know you've got something good

14 to tell me. But if you don't, we're coming back tomorrow

15 morning.

16 (Discussion.)

17 A VOICE: Excuse me one second, Your Honor. I'm

18 going to get Michelle Hartman. I think she's got the final.

19 THE COURT: Okay.

20 MR. LEE: The scrivener.

21 A VOICE: Yeah. It was on her laptop.

22 (Pause.)

23 THE COURT: All right. Again, we're back on the

24 record in Highland. We have taken a break regarding the

25 contested matter we had set today on contempt motions against

1 Scott Ellington and counsel. Do we have a resolution of this
2 matter?
3 MS. HARTMAN: Yes, Your Honor.
4 THE COURT: Okay.
5 MR. LEE: Do you want to read it off of --
6 MS. HARTMAN: I think John was going to --
7 MR. LEE: Oh, you're going to do it? I was just
8 saying your screen may be bigger than the phones. It may be
9 easier to read off the laptop. You got it? Okay.
10 MR. MORRIS: Good afternoon, Your Honor.
11 THE COURT: Uh-huh.
12 MR. MORRIS: For the record, John Morris; Pachulski
13 Stang Ziehl & Jones; for Highland Capital Management.
14 I just want to make sure Mr. Wynne is on the line and can
15 hear me.
16 THE COURT: Mr. Wynne, I see your name up there. Are
17 you there? There he is.
18 MR. WYNNE: Yes, Your Honor. I'm on the line and I
19 can hear Mr. Morris.
20 THE COURT: Good.
21 MR. MORRIS: Perfect. So, thank you so much for not
22 only the break but the encouragement to go out in the hall and
23 do something that we don't do often enough in the Highland
24 case. And I do want to thank counsel for the Respondents for
25 their efforts. It was good faith. And I think we've come to

1 an agreement.
2 THE COURT: Okay.
3 MR. MORRIS: In fact, I know that we have. The best
4 you can do among two dozen lawyers in an hour. It's not easy.
5 But here goes.
6 THE COURT: It's been an hour and forty-five minutes,
7 --
8 MR. MORRIS: Yeah.
9 THE COURT: -- but who's counting?
10 (Laughter.)
11 A VOICE: Time flies, Your Honor. You know time
12 flies.
13 THE COURT: I know. And I only mention that just
14 because we have staff here --
15 MR. MORRIS: Yeah.
16 THE COURT: -- who they don't get paid overtime. We
17 have security guards. I think maybe they get paid overtime,
18 but it's like, you know, the Government.
19 MR. MORRIS: We are grateful.
20 THE COURT: So I'm --
21 MR. MORRIS: We are grateful.
22 THE COURT: -- an adult. I can handle it.
23 MR. MORRIS: Yeah.
24 THE COURT: But I feel bad imposing on others.
25 MR. MORRIS: Yeah. It's all in the name of justice.

1 THE COURT: That's right.
2 MR. MORRIS: Because this is justice.
3 THE COURT: That's right.
4 MR. MORRIS: In exchange for dismissal with prejudice
5 of the motion to show cause to be held in civil contempt for
6 violating the gatekeeper provision and gatekeeping orders that
7 was filed at Bankruptcy Docket 3910, which I'll refer to as
8 the "Motion," that was filed by Highland Capital Management,
9 LP, Highland Claimant Trust, and James P. Seery, Jr., who are
10 collectively referred to as the "Movants," and together with
11 Mr. Dubel and Mr. Nelms, the "Highland Parties," are waiving
12 any other sanctions, recovery of fees, or any other relief
13 related thereto and for (1) the production of previously-
14 redacted text messages in unredacted form; (2) production of
15 any other documents not previously produced that are
16 responsive to any previously-served request for production of
17 documents served on Mr. Seery in the state court action, with
18 the production of any such documents, including the
19 previously-redacted text messages in unredacted form, to
20 constitute the completion of document discovery from any of
21 the Highland Parties; (3) Mr. Seery's agreement to sit for one
22 deposition in connection with the state court action, which
23 deposition shall last no longer than seven hours in a single
24 day; (4) provision of admissible declarations by Judge Nelms
25 and Mr. Dubel in lieu of any depositions by either of them,

1 with the subpoenas to Judge Nelms and Mr. Dubel to be deemed
2 withdrawn upon execution of the declarations, Scott B.
3 Ellington ("Mr. Ellington"), and together with the Highland
4 Parties, the "Parties," stipulate and agree -- stipulates and
5 agrees that he shall not bring any claims or commence any
6 cause of action against any of the Highland Parties related to
7 information provided in and/or discovery produced by any of
8 the Highland Parties in the state court action, with Ellington
9 agreeing and acknowledging that he will not authorize any
10 entities owned or controlled by him to bring any claims or
11 commence any cause of action against any of the Highland
12 Parties related to information provided in and/or discovery
13 produced by any of the Highland Parties in the state court
14 action.
15 For the avoidance of doubt, this agreement is by and
16 between Ellington and the Highland Parties only, and nothing
17 herein shall prevent Ellington from pursuing discovery, causes
18 of action, claims, or any other proceeding of any kind
19 against, among others, Patrick Daugherty.
20 To the extent discovery is permitted pursuant to this
21 agreement, the Highland Parties agree to cooperate in such
22 discovery and not to interfere with Daugherty's discovery
23 obligations in the state court action.
24 Pursuant to Rule 11 of the Texas Rules of Civil Procedure,
25 the Parties agree that information produced in the state court

1 action shall be treated as confidential and shall not be
2 disclosed except to a party in the state court action and its
3 agents, including its attorneys who are of record in the state
4 court action, and that such discovery shall be used solely for
5 purposes of the state court action.
6 That completes the written agreement between the parties.
7 I do want to point out I've got Mr. Daugherty's counsel here,
8 and the declarations of Mr. Dubel and Mr. Nelms that are
9 referenced in what I just read have been typed out by counsel
10 for Mr. Ellington, they've been shown to Mr. Daugherty and his
11 counsel, and Mr. Daugherty and his counsel have no objection
12 to those declarations coming into evidence in the state court
13 action.
14 Do I have that right?
15 A VOICE: That's correct, Your Honor.
16 MR. MORRIS: Yeah.
17 THE COURT: Okay. Well, I would like each and every
18 lawyer for each and every party to confirm --
19 MR. MORRIS: Uh-huh.
20 THE COURT: -- they agree with what you just read
21 into the record. So I'll start with the various what you
22 called Highland Party lawyers.
23 MR. LEVY: Confirmed --
24 THE COURT: The lawyer for Mr. Seery first?
25 MR. LEVY: Confirmed for Mr. Seery. Yes, Your Honor.

1 THE COURT: Okay. Confirmed for Mr. Seery.
2 For Mr. Nelms and Mr. Dubel?
3 MR. WYNNE: Your Honor, Richard Wynne. Yes, I can
4 confirm that with -- I just want to make sure that we're clear
5 on a few things. We saw a four-point declaration that we've
6 agreed to for both Mr. Nelms and Mr. Dubel. That's
7 acceptable.
8 It doesn't precisely say that, but assuming that -- and
9 Mr. Morris sent that to us, and it's fine.
10 But the -- there is still pending the motion for
11 protective order on January 4th and a motion to quash that we
12 had filed in Texas relating to the subpoena. So I'm assuming
13 that counsel for Mr. Ellington will confirm that, upon signing
14 that declaration that we've been -- the form we've been
15 provided, that those -- they'll withdraw the subpoena and
16 those motions will come off calendar. I just want to make
17 sure that that's clear.
18 THE COURT: Okay.
19 MR. WYNNE: I think it is understood by everyone, but
20 I wanted to clarify that.
21 THE COURT: Okay.
22 MR. HURST: I can confirm that on behalf of Mr.
23 Ellington in the state court proceeding.
24 THE COURT: Okay. I don't know if you could hear,
25 but Mr. Hurst just confirmed yes on behalf of Ellington.

1 Okay.
2 MR. WYNNE: I heard that, then. Thank you, Your
3 Honor.
4 THE COURT: Okay. All right. Now we'll hear from
5 counsel for the state court lawyers. Mr. Lee?
6 MR. LEE: Yes. Your Honor, just one point. The Law
7 Firms are actually not parties to this agreement. It's Mr.
8 Ellington. So what we would like, based on the dismissal
9 that's part of this agreement, is for the Court to make a
10 determination that the relief sought in the motion as against
11 the Law Firms is denied as moot in light of this settlement.
12 MR. MORRIS: Denied as moot. No problem, Your Honor.
13 THE COURT: Okay.
14 MR. MORRIS: Moot -- moot because of the settlement
15 that was reached.
16 MR. LEE: Yes.
17 MR. MORRIS: Yeah.
18 MS. HARTMAN: And Scott.
19 MR. LEE: Huh?
20 MS. HARTMAN: And Scott.
21 MR. LEE: Well, I'm going to -- I thought you wanted
22 -- I can -- I would also -- the same thing for Mr. Ellington,
23 but I thought she would address it. But obviously the same
24 request.
25 THE COURT: Okay. Well, the very first thing I heard

1 you say was dismissal with prejudice of the contempt motion,
2 and I interpret that to mean it all --
3 MR. MORRIS: Yes. I think --
4 THE COURT: -- goes away for good.
5 MR. MORRIS: I think they just want some comfort that
6 the Court is making an affirmative statement that the -- that
7 the complaint is being -- or the motion is being dismissed.
8 MR. LEE: That the relief sought is moot now in light
9 of --
10 MR. MORRIS: You know, as moot in light of the
11 settlement. I don't know.
12 MR. LEE: It's just a comfort order.
13 THE COURT: Okay.
14 MR. LEE: Thank you, Your Honor.
15 THE COURT: Well, then I'll give you the comfort --
16 MR. LEE: Thank you.
17 THE COURT: -- that I consider it moot. And I'm not
18 going to *sua sponte* raise it or whatever people might be
19 worried about. But, okay. Anything? Ms. Hartman, you're
20 rising. Anything that you can think of we need to address?
21 MS. HARTMAN: No, Your Honor. I just wanted to
22 confirm as to Mr. Ellington that we are in agreement as well.
23 THE COURT: Okay. Okay. Very good. Well, I guess
24 we've covered it, and I really appreciate not having to --
25 it's not that I'm trying to avoid the work. But as I said, we

1 all want pragmatic solutions, and this just seemed like a
2 situation where we could avoid a 108-page ruling that said
3 something someone wasn't going to like and then would appeal.
4 So anyway, very good. I'll be looking, I presume, tomorrow
5 for this written form of order. And I thank you all for
6 working this out.
7 MR. MORRIS: Great. Thank you, Your Honor.
8 MR. LEE: Thank you for your tolerance with the
9 extensions.
10 MS. HARTMAN: Thank you to your staff.
11 MR. LEE: Yeah.
12 (Proceedings concluded at 6:00 p.m.)

NEXPOINT
HOSPITALITY TRUST

FOR IMMEDIATE RELEASE

NOT FOR DISSEMINATION TO U.S. NEWS WIRE SERVICES OR DISSEMINATION IN THE UNITED STATES

NexPoint Hospitality Trust Announces Undertaking Regarding Amendments to COVID Loans

DALLAS and TORONTO, June 26, 2023 –NexPoint Hospitality Trust ("NHT" or the "REIT"), (TSX-V: NHT.U) announced today that, at the request of the TSX Venture Exchange, it has provided an undertaking to amend the convertible promissory notes issued to NexPoint Real Estate Opportunities, LLC and Highland Income Fund (the "**Lenders**") during the COVID-19 pandemic (the "**COVID Loans**") to (i) reduce the conversion term to five years from the date of issuance; (ii) establish a minimum acceptable conversion price based on market prices at the time of each particular advance; and (iii) remove the conversion of interest, such that only principal under the COVID Loans is convertible. For one of the COVID Loans, in an amount of US$8.5 million advanced on February 22, 2022, the REIT has agreed to amend the loan to remove the conversion feature altogether. As each of the Lenders is a related party of the REIT under Multilateral Instrument 61-101 – *Protection of Minority Security Holders in Special Transactions* ("**MI 61-101**"), in order to enter into the amendments to the COVID Loans, the REIT has undertaken to seek disinterested unitholder approval at its 2023 annual and special meeting of unitholders.

The COVID Loans were in the aggregate amount of US$56,165,000. The proceeds from the COVID Loans were used to fund the REIT's operating expenses and interest and principal payments on outstanding indebtedness during the COVID 19 pandemic to allow the REIT to continue as a going concern.

About NHT
NexPoint Hospitality Trust is a publicly traded real estate investment trust, with its Units listed on the TSX Venture Exchange under the ticker NHT.U. NHT is focused on acquiring, owning and operating well-located hospitality properties in the United States that offer a high current yield and in many cases are underperforming assets with the potential to increase in value through investments in capital improvements, a market-based recovery, brand repositioning, revenue enhancements, operational improvements, expense inefficiencies, and exploiting excess land or underutilized space. NHT owns 10 branded properties sponsored by Marriott, Hilton, Hyatt, and Intercontinental Hotels Group, located across the U.S. NHT is externally advised by NexPoint Real Estate Advisors VI, L.P.

Neither TSX Venture Exchange nor its Regulation Services Provider (as that term is defined in policies of the TSX Venture Exchange) accepts responsibility for the adequacy or accuracy of this release.

Appendix “E” Board Charter E-1

Appendix “F” Audit Committee Charter F-1

NOTICE OF ANNUAL AND SPECIAL MEETING OF UNITHOLDERS

NOTICE IS HEREBY GIVEN that an annual and special meeting (the "**Meeting**") of the holders of trust units ("**Unitholders**") of NexPoint Hospitality Trust ("**NHT**" or the "**REIT**") will be held virtually via live webcast on October 12, 2023 at 10:00 a.m. (Toronto time), for the following purposes:

1. **TO RECEIVE** and consider the financial statements of NHT for the year ended December 31, 2022, and the report of the auditor thereon;

2. **TO ELECT** members of the board of trustees of NHT for the ensuing year;

3. **TO APPOINT** the auditor of NHT for the ensuing year and to authorize the board of trustees of NHT to fix the remuneration of the auditor;

4. **TO CONSIDER**, and if deemed advisable, to pass an ordinary resolution (in the form attached as Appendix "A" to the accompanying information circular) approving the amended and restated deferred unit plan of the REIT, which resolution, in order to be effective, must be passed by the affirmative vote of a simple majority of the votes cast by the disinterested Unitholders, excluding the votes cast by such Unitholders that are required to be excluded pursuant to TSXV Policy 4.4 – *Security Based Compensation* ("**TSXV Policy 4.4**");

5. **TO CONSIDER**, and if deemed advisable, to pass an ordinary resolution (in the form attached as Appendix "C" to the accompanying information circular) approving and ratifying the grant of 1,295,668 deferred units to NHT's independent trustees on September 11, 2023;

6. **TO CONSIDER**, and if deemed advisable, to pass an ordinary resolution (in the form attached as Appendix "D" to the accompanying information circular) approving certain amendments to the convertible promissory notes issued by the REIT between June 2021 and September 2022, which resolution, to be effective, must be passed by an affirmative vote of a simple majority of the votes cast by the Unitholders, excluding the votes cast by such Unitholders that are required to be excluded pursuant to Multilateral Instrument 61 - 101 – *Protection of Minority Security Holders in Special Transactions* ("**MI 61-101**"); and

7. **TO TRANSACT** such other business as may properly come before the Meeting or any adjournment thereof.

The information circular contains details of the matters to be considered at the Meeting. No other matters are contemplated, however, any permitted amendment to or variation of any matter identified in this notice may properly be considered at the Meeting. The Meeting may also consider the transaction of such other business as may properly come before the Meeting or any adjournment thereof.

The Meeting will be held in a virtual-only format, which will be conducted via live webcast over the internet. Unitholders will have an equal opportunity to participate at the Meeting regardless of their geographic location. Unitholders who choose to attend the Meeting will do so by accessing a live webcast of the Meeting via the internet by visiting https://virtual-meetings.tsxtrust.com/1546 (password: nexpoint2023). Unitholders will be able to listen to the Meeting live and submit questions while the Meeting is being held. Unitholders who are unable to attend the virtual Meeting are requested to sign, date and return the form of proxy or voting instruction form received in accordance with the instructions provided.

If you wish to appoint a proxyholder other than the management nominees identified in the form of proxy or voting instruction form, be it yourself or a third party, you must carefully follow the instructions in the attached information circular and on your form of proxy or voting instruction form. These instructions include the additional step of registering such proxyholder with our transfer agent, TSX Trust Company, after submitting the form of proxy or voting instruction form, as applicable. Failure to register the proxyholder with our transfer agent will result in the proxyholder not receiving a control number. Without a control number, the proxyholder will not be able to participate in or vote at the virtual Meeting. It is the responsibility of the Unitholder to register their proxyholder

with TSX Trust Company in advance of the Meeting by completing and returning a "Request for Control Number" form, by no later than 10:00 a.m. (Toronto time) on October 10, 2023 or, if the Meeting is postponed or adjourned, by no later than 48 hours (excluding Saturdays, Sundays and statutory holidays in the Province of Ontario) prior to the time of such postponed or adjourned meeting. The "Request for Control Number" form is available at https://www.tsxtrust.com/control-number-request.

If you are a Registered Holder (as defined in the information circular), you must vote your proxy before Tuesday, October 10, 2023 at 10:00 a.m. (Toronto time), or, if the Meeting is postponed or adjourned, by no later than 48 hours (excluding Saturdays, Sundays and statutory holidays in the Province of Ontario) prior to the time of such postponed or adjourned meeting, in order for such vote to be valid at the Meeting. Voting by proxy will not prevent you from voting online at the Meeting if you attend the virtual Meeting but will ensure that your vote will be counted if you are unable to attend.

Included with this letter is a form of proxy for use by Registered Holders. Whether or not you intend to attend the Meeting, you are requested to complete, sign, date and return the enclosed form of proxy. To be valid, proxies must be signed and deposited with TSX Trust by mail to P.O. Box 721, Agincourt, ON M1S 0A1, Attention: Proxy Department; by facsimile to 1-416-595-9593; or electronically online with your 12-digit Control Number at www.meeting-vote.com, by no later than 10:00 a.m. (Toronto time) on Tuesday, October 10, 2023, or, if the Meeting is adjourned or postponed, at least 48 hours prior to such adjourned or postponed Meeting (excluding Saturdays, Sundays and statutory holidays in the Province of Ontario).

Unitholders who hold their units through a nominee such as a broker, an intermediary, a trustee or other person (each, an "**Intermediary**"), or who otherwise do not hold their units in their own name ("**Beneficial Holders**") should note that units held by such Intermediaries on behalf of a Beneficial Holder can only be voted at the direction of the Beneficial Holder. Existing regulatory policy requires Intermediaries to seek voting instructions from Beneficial Holders in advance of unitholder meetings. Intermediaries have their own mailing procedures and provide their own return instructions to Beneficial Holders, which should be carefully followed by Beneficial Holders in order to ensure that their units are voted at the Meeting. The information circular provides additional information relating to the matters to be dealt with at the Meeting and forms part of this notice.

If you have any questions or need assistance with the completion and delivery of your proxy or voting instruction form, please contact TSX Trust Company by phone at 416-682-3860 or 1-800-387-0825 (toll-free in North America), or by e-mail at proxyvote@tmx.com.

The financial statements for the year ended December 31, 2022 and the report of the auditor thereon are available on the SEDAR website at www.sedarplus.ca.

Unitholders of record at the close of business on August 28, 2023 (the "**Record Date**") are entitled to notice of, and to vote at, the Meeting.

DATED at Toronto, Ontario this 11th day of September, 2023.

BY ORDER OF THE BOARD OF TRUSTEES

"James Dondero"

Chair of the Board of Trustees
NexPoint Hospitality Trust

NEXPOINT
HOSPITALITY TRUST

MANAGEMENT INFORMATION CIRCULAR

Unless otherwise indicated herein, or the context otherwise requires, "**NHT**" or the "**REIT**" refers to NexPoint Hospitality Trust, including its direct and indirect subsidiaries. Unless otherwise indicated herein, all dollar amounts are stated in U.S. dollars and references to dollars or "**$**" are to U.S. currency. The board of trustees of NHT is referred to herein as the "**Board**" or the "**Trustees**", and a "**Trustee**" means any one of them.

This management information circular (the "**Information Circular**") is furnished in connection with the solicitation of proxies by or on behalf of management of NHT, for use at the annual and special meeting (the "**Meeting**") of holders ("**Unitholders**") of trust units ("**Units**") of NHT scheduled to be held on Thursday, October 12, 2023 virtually via live webcast at 10:00 a.m. (Toronto time), and at all postponements or adjournments thereof, for the purposes set forth in the accompanying notice of the Meeting (the "**Notice of Meeting**"). Unitholders of record at the close of business on August 28, 2023 (the "**Record Date**") will be entitled to vote at the Meeting.

The Meeting will be held in a virtual-only format, which will be conducted via live webcast over the internet. Unitholders will have an equal opportunity to participate at the Meeting regardless of their geographic location. A summary of the information Unitholders will need to attend the Meeting online is provided below under "*Attending and Voting at the Virtual Meeting*".

Except as otherwise stated in this Information Circular, the information contained herein is given as of September 11, 2023.

PROXY SOLICITATION AND VOTING

Solicitation of Proxies

The solicitation of proxies is being made by or on behalf of management. It is expected that the solicitation will be primarily by mail, but proxies may also be solicited personally, by telephone or other form of correspondence. NHT will bear the cost in respect of the solicitation of proxies for the Meeting and will bear the legal, printing and other costs associated with the preparation of the Information Circular. NHT will also pay the fees and costs of intermediaries for their services in transmitting proxy-related material in accordance with National Instrument 54-101 — *Communication with Beneficial Owners of Securities of a Reporting Issuer* ("**NI 54-101**"). This cost is expected to be nominal.

Appointment of Proxies

Unitholders will receive a form of proxy or voting instruction form (the "**Form of Proxy**") for use in connection with the Meeting. The persons named in such Form of Proxy are currently Trustees or officers of NHT. **A Unitholder who wishes to appoint some other person to represent him, her or it at the Meeting may do so by crossing out the persons named in the Form of Proxy and inserting such person's name in the blank space provided in the Form of Proxy or by completing another proper Form of Proxy. Such other person need not be a Unitholder of NHT.**

The Unitholder must also follow the additional step of registering such proxyholder with our transfer agent, TSX Trust Company, after submitting the Form of Proxy. Failure to register the proxyholder with our transfer agent will result in the proxyholder not receiving a control number. Without a control number, the proxyholder will not be able to participate in or vote at the virtual meeting. It is the responsibility of the Unitholder to register their proxyholder with TSX Trust Company in advance of the Meeting by completing and returning a "Request for Control Number" form no later than 10:00 am (Toronto time) on October 10, 2023 or, if the Meeting is postponed or adjourned, by no later than 48 hours (excluding Saturdays, Sundays and statutory holidays) preceding the time of such adjourned

meeting (the "**Proxy Deadline**") The "Request for Control Number" form is available at https://www.tsxtrust.com/control-number-request.

The document appointing a proxy must be in writing and completed and signed by a Unitholder or his or her attorney authorized in writing or, if the Unitholder is a corporation, under its corporate seal or by an officer or attorney thereof duly authorized. Instructions provided by a Unitholder must be in writing and completed and signed by the Unitholder or his or her attorney authorized in writing or, if the Unitholder is a corporation, under its corporate seal or by an officer or attorney thereof duly authorized. Persons signing as officers, attorneys, executors, administrators, and trustees or similarly otherwise should so indicate and provide satisfactory evidence of such authority.

Revocation of Proxies

Proxies given by Unitholders for use at the Meeting may be revoked at any time prior to their use by depositing an instrument in writing executed by the Unitholder or by his or her attorney authorized in writing or, if the Unitholder is a corporation, under its corporate seal or by an officer or attorney thereof duly authorized. Revocations of proxies must be deposited in one of the manners indicated on the Form of Proxy not later than two business days prior to the Meeting or any adjournment thereof at which the proxy is to be used.

Only Registered Holders (as defined below) have the right to revoke a proxy. Beneficial Holders (as defined below) who wish to change their vote must make appropriate arrangements with their respective dealers or other intermediaries.

Voting of Proxies

The persons named in the Form of Proxy will vote, or withhold from voting, the Units in respect of which they are appointed, on any ballot that may be called for, in accordance with the instructions of the Unitholder as indicated on the Form of Proxy. In the absence of such specification, such Units will be voted at the Meeting as follows:

- **FOR the election of those persons listed in this Information Circular as the proposed Trustees for the ensuing year;**
- **FOR the appointment of Frazier & Deeter, LLC, as auditor of NHT for the ensuing year and to authorize the Board to fix the auditor's remuneration;**
- **FOR the approval of the resolution adopting an amended and restated deferred unit plan for the REIT;**
- **FOR the approval of the resolution approving and ratifying the grant of 1,295,668 deferred units to the REIT's independent trustees on September 11, 2023; and**
- **FOR the approval of the resolution approving the amendments to the convertible promissory notes issued by the REIT between June 2021 and September 2022.**

For more information on these issues, please see the section entitled "*Matters to be Considered at the Meeting*" in this Information Circular.

The persons appointed under the Form of Proxy are conferred with discretionary authority with respect to amendments to or variations of matters identified in the Form of Proxy and the Notice of Meeting and with respect to other matters which may properly come before the Meeting. In the event that amendments or variations to matters identified in the Notice of Meeting are properly brought before the Meeting, it is the intention of the persons designated in the Form of Proxy to vote in accordance with their best judgment on such matter or business. As at the date of this Information Circular, the Trustees know of no such amendments, variations or other matters.

Quorum

The quorum at the Meeting or any adjournment thereof shall be individuals deemed to be present at the virtual Meeting in person or represented by proxy, not being less than two in number and such persons holding or representing by proxy in aggregate not less than 25% of the total number of outstanding Units.

INFORMATION FOR BENEFICIAL HOLDERS OF SECURITIES

Information set forth in this section is very important to persons who do not hold Units in their own name. A Unitholder who beneficially owns Units (a "**Beneficial Holder**") that are registered in the name of an intermediary (such as a securities broker, financial institution, trustee, custodian or other nominee who holds securities on behalf of the Beneficial Holder or in the name of a clearing agency in which the intermediary is a participant) should note that only proxies or instructions deposited by securityholders whose names are on the records of NHT as the registered holders of Units ("**Registered Holders**") can be recognized and acted upon at the Meeting.

Units that are listed in an account statement provided to a Beneficial Holder by a broker are likely not registered in the Beneficial Holder's own name on the records of NHT. Such Units are more likely to be registered in the name of CDS Clearing and Depository Services Inc. ("**CDS**") or its nominee.

Applicable regulatory policy in Canada requires brokers and other intermediaries to seek voting instructions from Beneficial Holders in advance of securityholder meetings. Every broker or other intermediary has its own mailing procedures and provides its own return instructions, which should be carefully followed by Beneficial Holders in order to ensure that their Units are voted at the Meeting. Often, the form of proxy supplied to a Beneficial Holder by its broker is identical to that provided to registered securityholders. However, its purpose is limited to instructing the registered securityholder how to vote on behalf of the Beneficial Holder. Most brokers now delegate responsibility for obtaining instructions from clients to Broadridge Investor Communications Solutions ("**Broadridge**"). Broadridge typically prepares a machine-readable voting instruction form, mails those forms to the Beneficial Holders and asks Beneficial Holders to return the proxy forms to Broadridge. Broadridge then tabulates the results of all instructions received and provides appropriate instructions representing the voting of the securities to be represented at the Meeting. A Beneficial Holder receiving a Broadridge voting instruction form cannot use that voting instruction form to vote Units directly at the Meeting. The voting instruction form must be returned to Broadridge well in advance of the Meeting in order to have the Units voted. Proxy-related materials will not be sent by NHT directly to "non-objecting beneficial owners" under NI 54-101. NHT intends to pay for intermediaries to deliver proxy-related materials to "objecting beneficial owners" and Form 54-101F7 (the request for voting instructions), in accordance with NI 54-101.

Although Beneficial Holders may not be recognized directly at the Meeting for the purposes of voting Units registered in the name of CDS or their broker or other intermediary, a Beneficial Holder may attend the Meeting as proxy holder for the Registered Holder and vote their Units in that capacity. **Beneficial Holders who wish to attend the Meeting and indirectly vote their own Units as proxy holder for the Registered Holder should enter their own names on the Form of Proxy provided to them and return the same to their broker or other intermediary (or the agent of such broker or other intermediary) in accordance with the instructions provided by such broker, intermediary or agent well in advance of the Meeting. Beneficial Holders can only be validated and indirectly vote their own Units as proxy holder for the Registered Holder by completing the Form of Proxy provided to them and returning the same to their broker or other intermediary in accordance with the instructions provided.**

ATTENDING AND VOTING AT THE VIRTUAL MEETING

Attendance

NHT is holding the Meeting in a virtual-only format, which will be conducted via live webcast. Unitholders will not be able to attend the Meeting in person. Unitholders will be able to attend, participate and submit questions online at the virtual Meeting via live webcast. Unitholders will also be able to vote prior to the Meeting by completing their Form of Proxy.

The Meeting can be accessed as a Unitholder or as a guest at the following URL: https://virtual-meetings.tsxtrust.com/1546 (password: nexpoint2023).

If you attend the Meeting online, it is important that you are connected to the internet at all times during the Meeting in order to participate. It is your responsibility to ensure connectivity for the duration of the Meeting. You should allow 30 minutes prior to the start of the Meeting to check in online.

Registered Holders

Registered Holders can vote Units held in their name as the Unitholder of record online at the Meeting or by proxy. To vote Units personally, Registered Holders must submit the Form of Proxy appointing themselves as proxyholder by the Proxy Deadline. However, even if you plan to attend the Meeting, NHT recommends that you vote your Units in advance, so that your vote will be counted if you later decide not to attend the Meeting. Voting by proxy can be completed by returning the Form of Proxy.

Included with this circular is a Form of Proxy for use by Registered Holders. Whether or not you intend to attend the Meeting, you are requested to complete, sign, date and return the enclosed form of proxy. To be valid, proxies must be signed and deposited with TSX Trust by mail to P.O. Box 721, Agincourt, ON M1S 0A1, Attention: Proxy Department; by facsimile to 1-416-595-9593; or electronically online with your 12-digit Control Number at www.meeting-vote.com, by no later than 10:00 a.m. (Toronto time) on Tuesday, October 10, 2023 or, if the Meeting is adjourned or postponed, at least 48 hours prior to such adjourned or postponed Meeting (excluding Saturdays, Sundays and statutory holidays in the Province of Ontario). The chair of the Meeting may waive, without notice, the time limit for deposit of proxies.

If a Registered Holder does not wish to attend and vote at the Meeting online (or have another person attend and vote on his or her behalf), the Form of Proxy must be completed, signed and returned in accordance with the instructions on the form.

Registered Holders can attend and vote online during the Meeting at the following URL: https://virtual-meetings.tsxtrust.com/1546 (password: nexpoint2023) by selecting “I have a control number”, entering your 12-digit control number, which can be located on your Form of Proxy, and entering the password: “nexpoint2023” (case sensitive).

Beneficial Holders

Beneficial Holders can vote their Units online at the Meeting or by proxy. Beneficial Holders will receive from their intermediary a Form of Proxy for the number of Units beneficially owned. **Beneficial Holders who wish to attend the Meeting and indirectly vote their own Units as proxy holder for the Registered Holder should enter their own names on the Form of Proxy provided to them and return the same to their broker or other intermediary (or the agent of such broker or other intermediary) in accordance with the instructions provided by such broker, intermediary or agent well in advance of the Meeting. Beneficial Holders can only be validated and indirectly vote their own Units as proxy holder for the Registered Holder by completing the Form of Proxy provided to them and returning the same to their broker or other intermediary in accordance with the instructions provided.**

However, even if you plan to attend the Meeting, NHT recommends that you vote your Units in advance, so that your vote will be counted if you later decide not to attend the Meeting. Beneficial holders should follow the instructions on the form they receive and contact their intermediaries promptly if they need assistance. Beneficial Holders can vote by accessing the following URL: https://virtual-meetings.tsxtrust.com/1546 (password: nexpoint2023) and entering the 12-digit control number printed on the Form of Proxy and following the instructions on the screen.

If a Beneficial Holder does not wish to attend and vote at the Meeting online (or have another person attend and vote on his or her behalf), the Form of Proxy must be completed, signed and returned in accordance with the directions on the form.

VOTING SECURITIES AND PRINCIPAL HOLDERS THEREOF

Units

NHT is authorized to issue an unlimited number of Units. The Units are listed and posted for trading on the TSX Venture Exchange (the "**TSXV**") under the symbol "NHT.U". No Unit has any preference or priority over another. Each Unit represents a Unitholder's proportionate undivided beneficial ownership interest in NHT and confers the right to one vote at any meeting of Unitholders and to participate *pro rata* in any distributions by NHT.

As of the date hereof, there were 29,352,055 Units outstanding.

Class B Units

NHT Operating Partnership, LLC (the "**OP**"), the operating partnership of NHT, has class B units ("**Class B Units**") outstanding. Class B Units do not carry a voting right with respect to matters put before Unitholders of NHT for a vote. However, the Class B Units are, in all material respects, economically equivalent to the Units on a per unit basis, subject to certain customary anti-dilution adjustments. The holders of Class B Units are entitled to receive distributions from the OP on the same per unit basis as holders of Units.

After Class B Units have been issued for at least 12 months (subject to acceleration in certain circumstances), holders of such Class B Units, acting individually, have the right to cause the OP to redeem all or a portion of such Class B Units for a cash payment to be paid by the OP. The OP shall not be obligated to satisfy such redemption right if NHT Holdings, LLC ("**NHH**") elects to purchase the Class B Units in exchange for a cash payment or equivalent value in Units, as determined by NHH (and NHT, indirectly) in its sole discretion. If NHH elects to redeem such Class B Units for the equivalent value in Units, NHT will generally deliver (indirectly) one Unit for each Class B Unit redeemed (subject to customary anti-dilution adjustments). As of the date hereof, there were 205,597 Class B Units outstanding.

Eligibility for Voting

At the Meeting, each Unitholder of record at the close of business on the Record Date will be entitled to one vote for each Unit held on all matters proposed to come before the Meeting. Any Unitholder who was a Unitholder on the Record Date shall be entitled to receive notice of and vote at the Meeting or any adjournment thereof, even though he, she or it has since that date disposed of his, her or its Units, and no Unitholder becoming such after that date shall be entitled to receive notice of and vote at the Meeting or any adjournment thereof or to be treated as a Unitholder of record for purposes of such other action.

Principal Unitholders

To the knowledge of NHT and its executive officers, the only person or company that beneficially owned, directly or indirectly, or exercised control or direction over, voting securities of NHT carrying 10% or more of the voting rights attached to all outstanding Units of NHT as of the date hereof, was:

Name	Number of Units Owned, Controlled or Directed[1]	Percentage of Outstanding Units	Number of Class B Units Owned, Controlled or Directed	Percentage of Outstanding Units (determined as if all Class B Units are redeemed for Units)[2]
James Dondero[3]	21,170,538	72.13%	0	71.62%

Notes:

(1) The number of Units beneficially owned includes any Units over which the person has sole or shared voting power or investment power. No person has any right to acquire additional Units through the exercise of any stock option or other right. Unless otherwise indicated, each person has sole investment and voting power (or shares such power with his or her spouse) over the Units set forth in the table.

(2) The percentages shown are based on 29,352,055 Units and 205,597 Class B Units Outstanding as of the date hereof.

(3) Includes 13,571,131 Units owned by NexPoint Real Estate Opportunities, LLC, 5,394,662 Units owned by The Dugaboy Investment Trust, 1,045,848 Units owned by NHT Holdco, LLC, 1,068,519 Units owned by Governance RE Ltd. and 90,378 Units owned by NexPoint Real Estate Advisors, L.P.; each of which is directly or indirectly controlled by, or acting jointly and in concert with, James Dondero.

Management of NHT understands that the Units registered in the name of CDS are beneficially owned through various dealers and other intermediaries on behalf of their clients and other parties. The names of the Beneficial Holders of such Units are not known to NHT. Except as set out above, NHT and its executive officers have no knowledge of any person or company that beneficially owns, directly or indirectly, or exercises control or direction over 10% or more of the outstanding Units of NHT.

Voting Results

Voting results of the Meeting will be filed on SEDAR at www.sedarplus.ca following the Meeting.

MATTERS TO BE CONSIDERED AT THE MEETING

1. Financial Statements

The financial statements of NHT for the year ended December 31, 2022, and the auditor's report thereon will be placed before the Unitholders at the Meeting. No formal action will be taken at the Meeting to approve the financial statements. If any Unitholder has questions regarding such financial statements, such questions may be brought forward at the Meeting.

2. Election of Trustees

The present term of office of each Trustee of NHT will expire upon the election of Trustees at the Meeting. It is proposed that each of the persons whose name appears below be elected as a Trustee of NHT to serve until the close of the next annual meeting of Unitholders or until his or her successor is elected.

Advance Notice Policy

NHT's amended and restated declaration of trust dated March 27, 2019 (as subsequently amended by the first amendment to the amended and restated declaration of trust dated September 16, 2020, and further amended by the second amendment to the amended and restated declaration of trust dated October 25, 2021, the "**Declaration of Trust**") contains an advance notice policy (the "**Advance Notice Policy**") which requires a nominating Unitholder to provide notice to the Trustees of proposed Trustee nominations not less than 30 days prior to the date of the applicable annual meeting (being not later than September 12, 2023 for the purposes of the Meeting). This advanced notice period is intended to give NHT and its Unitholders sufficient time to consider any proposed nominees. A copy of the Declaration of Trust, which sets out the Advance Notice Policy, is available on the SEDAR website at www.sedarplus.ca.

Majority Voting Policy

The Board has adopted a majority voting policy (the "**Majority Voting Policy**") in Trustee elections that applies at any meeting of Unitholders where an uncontested election of Trustees is held, including at the Meeting. Pursuant to this policy, if the number of proxy votes withheld for a particular Trustee nominee is greater than the votes in favour of such nominee, the Trustee nominee shall immediately tender his or her resignation to the Chair of the Board following the Meeting. Following receipt of a resignation submitted pursuant to this policy, the compensation, governance, and nominating committee of the Board (the "**Compensation, Governance and Nominating Committee**") shall consider whether or not to accept the offer of resignation and shall recommend to the Board whether or not to accept it. With the exception of special circumstances that would warrant the continued service of the applicable Trustee on the Board, the Compensation, Governance and Nominating Committee shall accept and recommend acceptance of the resignation by the Board. Within 90 days following the Meeting, the Board shall make

its decision, on the Compensation, Governance and Nominating Committee's recommendation. Following the Board's decision on the resignation, the Board shall promptly disclose, via press release (a copy of which shall be provided to the TSXV), its decision as to whether or not to accept the Trustee's resignation offer, including the reasons for rejecting the resignation offer, if applicable. A Trustee who tenders his or her resignation pursuant to the Majority Voting Policy will not be permitted to participate in any meeting of the Board or the Compensation, Governance and Nominating Committee at which the resignation is considered. In the event of a "contested election", where the number of nominees for trustee exceeds the number of trustees to be elected, subject to applicable law, the voting method to be applied for purposes of electing trustees at the meeting will be determined by the Chair of the meeting in his or her sole discretion.

Nominees

Pursuant to an investor rights agreement among NHT and certain Unitholders of NHT who are principals and affiliates of NexPoint Real Estate Advisors VI, L.P. (collectively, the "**NexPoint Holders**") dated March 29, 2019 (the "**Investor Rights Agreement**"), the NexPoint Holders are granted the right to nominate two Trustees (such nominees are subject to election together with the remaining Trustees at annual meetings of Unitholders) subject to the NexPoint Holders owning, in the aggregate, 20% or more of the then-outstanding Units (determined as if all Class B Units are redeemed for Units), such number being reduced to one nominee if the NexPoint Holders own, in the aggregate, less than 20% but 10% or more of the then-outstanding Units (determined as if all Class B Units are redeemed for Units). Upon the NexPoint Holders' aggregate ownership falling below 10%, the NexPoint Holders will not have any Board nomination rights. Notwithstanding the foregoing, where the Board is comprised of four or fewer Trustees, as long as the NexPoint Holders own, in the aggregate, 10% or more of the then-outstanding Units (determined as if all Class B Units are redeemed for Units), the NexPoint Holders are granted the right to nominate a maximum of one Trustee. For so long as the NexPoint Holders have nomination rights under the Investor Rights Agreement, the Board of Trustees will be restricted from nominating more than five Trustees. For clarity, this restriction does not affect the ability of a Unitholder to nominate Trustees in accordance with the terms of the Declaration of Trust or applicable law. The Investor Rights Agreement is available on the SEDAR website at www.sedarplus.ca.

As of the Record Date, the Board was comprised of four Trustees and the NexPoint Holders owned, in the aggregate, 29.7% of the outstanding Units (determined as if all Class B Units are redeemed for Units) and are therefore entitled to nominate one Trustee at the Meeting. Currently, James Dondero, who serves on the Board pursuant to the NexPoint Holders' nomination right, is nominated for re-election pursuant to the NexPoint Holders' nomination right at the Meeting.

The persons named in the Form of Proxy, if not expressly directed to the contrary in such Form of Proxy, intend to vote for the election, as Trustees, of the proposed nominees whose names are set out below. It is not contemplated that any of the proposed nominees will be unable to serve as a Trustee but, if that should occur for any reason prior to the Meeting, the persons named in the Form of Proxy reserve the right to vote for another nominee at their discretion. Each nominee elected as a Trustee will hold office until the close of the next annual meeting of the Unitholders or until his or her successor is elected or appointed. The Declaration of Trust provides for the Board to consist of a minimum of one and a maximum of nine Trustees. The Board currently has four Trustees and it is proposed that four Trustees be elected at the Meeting.

About the Nominees

The following information sets forth the names of, and certain other biographical information for, the four individuals proposed to be nominated for election as Trustees at the Meeting.

JAMES DONDERO	**Principal Occupation**
Age: 60	Mr. Dondero serves as a Trustee of NHT and is Chair of the Board. He is a member of NHT's Audit Committee and Compensation, Governance and Nominating Committee. Mr. Dondero also serves as NHT's Chief Executive Officer. He is the President of NexPoint

Location: Dallas, Texas, USA Trustee Since: February 2019 Status: **NOT INDEPENDENT**	Advisors, LP, which he founded in 2012. Mr. Dondero has over 30 years of experience investing in credit and equity markets and has helped pioneer credit asset classes with portfolio management experience ranging in several asset classes, including real estate securities, corporate securities and direct lending. Mr. Dondero received a B.S. in Commerce (Accounting and Finance) from the University of Virginia, and is a Certified Public Accountant, Certified Managerial Accountant and a Chartered Financial Analyst.

Notes:

(1) Includes 13,571,131 Units owned by NexPoint Real Estate Opportunities, LLC, 5,394,662 Units owned by The Dugaboy Investment Trust, 1,045,848 Units owned by NHT Holdco, LLC, 1,068,519 Units owned by Governance RE Ltd. and 90,378 Units owned by NexPoint Real Estate Advisors, L.P.; each of which is directly or indirectly controlled by, or acting jointly and in concert with, James Dondero.

(2) These amounts were determined by multiplying the number of Units or Profits LTIP Units (as defined below) (as applicable) by the closing price of the Units on September 8, 2023, being $0.50 per Unit.

(3) NHT's unit ownership policy provides that each Trustee has within the later of five years from the date of (i) the policy and (ii) becoming a Trustee to comply with the guidelines therein. NHT's unit ownership policy also provides that, for the purposes of the policy, the value of Units held is calculated using the higher of the cost base and current market price.

NEIL LABATTE	**Principal Occupation**
Age: **66** Location: Toronto, Ontario, Canada Trustee Since: December 2018 Status: **INDEPENDENT**	Mr. Labatte serves as a Trustee of NHT and is Lead Trustee of the Board. Mr. Labatte currently serves on the boards of BSR Real Estate Investment Trust (where he serves as Chair) and Triovest Inc. (a Canada-wide diversified private real estate investment and management corporation). He was previously a director of Skyline Investments Inc. (Tel Aviv Stock Exchange), Jack Nathan Medical Corp. (TSXV) and Pomeroy Hotels (a private entity). He also previously served as a director for HealthLease Properties REIT, Alpha Peak and Holloway Lodging Corporation, all current or former TSX-listed entities. Mr. Labatte is the former President and Chief Executive Officer of the Legacy Hotels REIT. He became President in 1999 and Chief Executive Officer in 2003, holding both titles until the Legacy Hotels REIT was sold in September 2007. He also served as a trustee of the Legacy Hotels REIT from April 2003 until September 2007. Mr. Labatte joined Fairmont Hotels & Resorts in 1997 as Vice President Acquisitions, and from October 2001 to December 31, 2004 served as Senior Vice President, Real Estate and was a member of the organization's Executive Committee. Mr. Labatte possesses over 35 years of experience within the real estate sector.

	For four years prior to joining Fairmont Hotels & Resorts, Mr. Labatte was a founder, principal and board member of AEW Mexico Company, a Dallas, Texas private equity real estate investment management company formed with one of the largest institutional real estate private equity companies in the United States. For the 12 years prior to the formation of AEW Mexico Company, he was involved in the hotel and real estate sectors in the capacity of investment banker and consultant. Mr. Labatte received his B.Sc. and M.Sc. in Finance from the University of Utah. Mr. Labatte played professional hockey with the St. Louis Blues and Salt Lake Golden Eagles from 1977-1982. He was previously Co-Chairman of the NHL Alumni Association.

Notes:

(1) The Board may fix a maximum portion of the Trustee Fees (as defined below) payable to the independent Trustees to be paid in the form of Deferred Units (as defined below) in lieu of cash, subject to the election of the independent Trustees. The Trustee Fees payable to Mr. Labatte in respect of fiscal 2020 and 2019 were $93,000 and $47,250 respectively. Mr. Labatte elected to receive such fees in the form of Deferred Units. The Board, on the recommendation of the Compensation, Governance and Nominating Committee, matched 100% of the total value of Trustee Fees that Mr. Labatte elected to receive in the form of Deferred Units. Due to various blackout periods observed by NHT, the Deferred Units awardable in respect of the Trustee Fees were awarded on June 28, 2021. On December 13, 2021, in consideration of Mr. Labatte's service and performance during the COVID-19 pandemic, and to encourage Mr. Labatte to participate in the future growth of the REIT, Mr. Labatte was granted 105,000 Deferred Units which vested immediately. In respect of fiscal 2021, the total value of Trustee Fees payable to Mr. Labatte was $88,500, of which $56,250 was paid in cash and the remaining $32,250 was to be paid in Deferred Units. In respect of fiscal 2022 and fiscal 2023 (as of June 30, 2023), $90,750 and $50,000 of Trustee Fees were payable to Mr. Labatte. Mr. Labatte elected to receive such fees in the form of Deferred Units. Due to various blackout periods observed by NHT and certain restrictions on granting security based compensation to insiders pursuant to TSXV Policy 4.4, on September 11, 2023, the REIT conditionally granted 692,000 Deferred Units to Mr. Labatte in respect of his remaining portion of 2021 Trustee Fees, 2022 Trustee Fees and 2023 Trustee Fees (accrued as of June 30, 2023). The Board, on the recommendation of the Compensation, Governance and Nominating Committee, matched 100% of the total value of Trustee Fees that Mr. Labatte elected to receive in the form of Deferred Units. As of the date hereof, Mr. Labatte holds 972,312 Deferred Units.

(2) These amounts were determined by multiplying the number of Units or Deferred Units (as applicable) by the closing price of the Units on September 8, 2023, being $0.50 per Unit.

(3) NHT's unit ownership policy provides that each Trustee has within the later of five years from the date of (i) the policy and (ii) becoming a Trustee to comply with the guidelines therein. NHT's unit ownership policy also provides that, for the purposes of the policy, the value of Units held is calculated using the higher of the cost base and current market price.

GRAHAM SENST	Principal Occupation
Age: **74** Location: Toronto, Ontario, Canada Trustee Since: February 2019 Status: **INDEPENDENT**	Mr. Senst serves as a Trustee of NHT. He is also the Chair of NHT's Audit Committee and a member of NHT's Compensation, Governance and Nominating Committee. Mr. Senst served as President of the Institute of Canadian Real Estate Investment Managers until its sale in August 2012. Prior to this role, Mr. Senst served as Managing Director of KingSett Capital Real Estate Income Fund and as an Executive Vice President of Bentall Capital and Penreal Capital Management. Mr. Senst also served as an Executive Vice President of Bentall Investment Management. Prior to joining Bentall in April 2003, Mr. Senst served as Vice President of Real Estate for the OMERS Administration Corp. (also known as Ontario Municipal Employees Retirement System). Mr. Senst has many years of senior real estate investment experience as a Vice President with a major Ontario pension fund and other Canadian financial institutions. Prior to joining OMERS, Mr. Senst served as Vice President of Real Estate at a Subsidiary of Mackenzie Financial Corporation, where he developed debt and equity investment products for various Mackenzie funds. Mr. Senst served as the Vice President of Corporate Real Estate at both Canada Trust and Truscan Realty. He served as a Member of the Advisory Board at KingSett Capital Income Fund, Morgan Stanley Real Estate Fund IV and Soros Real Estate Investors, C.V. and as a trustee of Residential Equities Real Estate Investment Trust (ResREIT). He also served as a Director of Oxford Properties Group, Inc. Mr. Senst served as a trustee of Milestone Apartments Real Estate Investment Trust (including as the Chair of the Investment Committee) and Partners REIT (including as the Chair of the Audit Committee). He is currently a trustee of BSR Real Estate Investment Trust. Mr. Senst holds an Honours of Business Administration and a Masters of Business Administration from the Ivey School of Business at the University of Western Ontario in London, Ontario and is a 2011 graduate of the Institute of Corporate Directors.

In respect of fiscal 2021, the total value of Trustee Fees payable to Mr. Senst was $83,500, of which $53,333 was paid in cash and the remaining $30,167 was to be paid in Deferred Units. In respect of fiscal 2022 and fiscal 2023 (as of June 30, 2023), $70,750 and $37,500 of Trustee Fees were payable to Mr. Senst. Mr. Senst elected to receive his 2022 Trustee Fees in the form of Deferred Units, and his accrued 2023 Trustee Fees (as of June 30, 2023) in cash. Due to various blackout periods observed by NHT and certain restrictions on granting security based compensation to insiders pursuant to TSXV Policy 4.4, on September 11, 2023, the REIT conditionally granted 403,668 Deferred Units to Mr. Senst in respect of his remaining portion of 2021 Trustee Fees and 2022 Trustee Fees. The Board, on the recommendation of the Compensation, Governance and Nominating Committee, matched 100% of the total value of Trustee Fees that Mr. Senst elected to receive in the form of Deferred Units. As of the date hereof, Mr. Senst holds 673,043 Deferred Units.

(2) These amounts were determined by multiplying the number of Units or Deferred Units (as applicable) by the closing price of the Units on September 8, 2023, being $0.50 per Unit.

(3) NHT's unit ownership policy provides that each Trustee has within the later of five years from the date of (i) the policy and (ii) becoming a Trustee to comply with the guidelines therein. NHT's unit ownership policy also provides that, for the purposes of the policy, the value of Units held is calculated using the higher of the cost base and current market price.

JERRY PATAVA	**Principal Occupation**
Age: 69 Location: Toronto, Ontario, Canada Trustee Since: August 2022 Status: **INDEPENDENT**	Jerry Patava serves as a Trustee of NHT. Previously, he served as the Chair of Great Gulf Group from January 2020 to January 2023, and Chief Executive Officer from July 2007 to January 2020. He also served as a Board member and Chair of Ashton Woods USA LLC from February 2009 to December 2022. Before joining Great Gulf and affiliates, he served as Executive Vice President and Chief Financial Officer of Fairmont Hotels & Resorts Inc. and as a trustee and Executive Vice President, Chief Financial Officer, and Treasurer of Legacy Hotels Real Estate Investment Trust. From 1990 to 1998, he was Vice President and Treasurer of Canadian Pacific Limited. Prior thereto, he was a Vice President and Director of RBC Dominion Securities. Mr. Patava has more than four decades of experience in real estate and finance. He has served on numerous public and private boards of directors in North America and internationally across a broad spectrum of industries including energy, newspapers and infrastructure. He is currently a member of the Fiera Capital Corporation Independent Review Committee. Mr. Patava holds a Bachelor of Arts from the University of Toronto and a Master of Business Administration from York University.

Notes:

(1) The Board may fix a maximum portion of the Trustee Fees payable to the independent Trustees to be paid in the form of Deferred Units in lieu of cash, subject to the election of the independent Trustees. The Trustee Fees payable to Mr. Patava in respect of fiscal 2022 and fiscal 2023 (as of June 30, 2023) is US$20,000 and US$30,000 respectively. Mr. Patava elected to receive such fees in the form of Deferred Units. The Board, on the recommendation of the Compensation, Governance and Nominating Committee matched 100% of the total value of Trustee Fees that Mr. Patava elected to receive in the form of Deferred Units. Due to various blackout periods observed by NHT and certain restrictions on granting security based compensation to insiders pursuant to TSXV Policy 4.4, on September 11, 2023, the REIT conditionally granted 200,000 Deferred Units to Mr. Patava in respect of his remaining portion of his 2022 Trustee Fees and 2023 Trustee Fees (accrued as of June 30, 2023). The Board, on the recommendation of the Compensation, Governance and Nominating Committee, matched 100% of the total value of Trustee Fees that Mr. Patava elected to receive in the form of Deferred Units. As of the date hereof, Mr. Patava holds 200,000 Deferred Units.

(2) These amounts were determined by multiplying the number of Units or Deferred Units (as applicable) by the closing price of the Units on September 8, 2023, being $0.50 per Unit.

(3) NHT's unit ownership policy provides that each Trustee has within the later of five years from the date of (i) the policy and (ii) becoming a Trustee to comply with the guidelines therein. NHT's unit ownership policy also provides that, for the purposes of the policy, the value of Units held is calculated using the higher of the cost base and current market price.

Corporate Cease Trade Orders or Bankruptcies

Other than as set forth below, during the past 10 years, no nominee proposed for election has been a director, chief executive officer or chief financial officer of any company that:

(a) was subject to a cease trade order or similar order or an order that denied the company access to any exemption under securities legislation for a period of more than 30 consecutive days while the nominee was acting in such capacity; or

(b) was subject to a cease trade order or similar order or an order that denied the company access to any exemption under securities legislation for a period of more than 30 consecutive days that was issued after the nominee ceased to act in such capacity and which resulted from an event that occurred while the nominee was acting in such capacity.

During the past 10 years, no nominee proposed for election has been a director or executive officer of any company that, while the nominee was acting in such capacity, or within a year of the nominee ceasing to act in such capacity, became bankrupt, made a proposal under any legislation relating to bankruptcy or insolvency or was subject to or instituted any proceedings, arrangement or compromise with creditors or had a receiver, receiver manager or trustee appointed to hold its assets.

Mr. Dondero, on the date outlined below, was an executive officer of Highland Capital Management, L.P. ("**HCMLP**"). On October 16, 2019, HCMLP announced that it had filed a petition in the United States Bankruptcy Court for the District of Delaware, seeking voluntary Chapter 11 protection. HCMLP filed a plan of reorganization, which was approved by the United States Bankruptcy Court for the Northern District of Texas in February 2021 and subsequently became effective on August 11, 2021. As part of its plan of reorganization, HCMLP appointed a litigation trustee, whose sole purpose was to investigate, prosecute, settle, or otherwise resolve claims of HCMLP's estate.

Mr. Labatte, on the date outlined below, was a director and/or officer of Talon International Inc. and several affiliated entities, including Talon International Development Inc., TFB Inc., 2263847 Ontario Limited and 2270039 Ontario Limited. On November 1, 2016, such corporations became parties to a receivership order from the Ontario Superior Court of Justice (Commercial List) appointing a court-appointed receiver of certain assets of such entities used in relation to the Trump International Hotel & Tower in Toronto, Ontario. The sale of such assets to various third parties was facilitated through the receivership process.

Personal Bankruptcies

No nominee proposed for election has, within the 10 years prior to the date of this Information Circular, become bankrupt or made a proposal under any legislation relating to bankruptcy or insolvency, or been subject to or

instituted any proceedings, arrangement or compromise with creditors, or had a receiver, receiver manager or trustee appointed to hold the assets of the nominee.

Penalties or Sanctions

No nominee proposed for election has been subject to any penalties or sanctions imposed by a court relating to securities legislation or by a securities regulatory authority or has entered into a settlement agreement with a Canadian securities regulatory authority or been subject to any other penalties or sanctions imposed by a court or regulatory body that would likely be considered important to a reasonable investor making an investment decision.

Unless otherwise instructed, the persons named in the enclosed Form of Proxy intend to vote such Form of Proxy FOR the election, as Trustees, of the proposed nominees set out above.

3. Appointment of Auditors

The audit committee of NHT (the "**Audit Committee**") recommends to the Unitholders that Frazier & Deeter, LLC be appointed as the independent auditor of NHT, to hold office until the close of the next annual general meeting of the Unitholders or until its successor is appointed, and that the Trustees be authorized to fix the remuneration of the auditor. Frazier & Deeter, LLC has been the auditor of NHT since February 25, 2021.

Unless otherwise instructed, the persons named in the enclosed Form of Proxy intend to vote such Form of Proxy FOR of the appointment of Frazier & Deeter, LLC as auditor of NHT to hold office until the next annual general meeting of Unitholders and the authorization of the Board to fix its remuneration.

4. Approval of Amended and Restated Deferred Unit Plan

On August 11, 2023, the Board approved (subject to disinterested Unitholder approval) the amendment and restatement of the REIT's deferred unit plan dated June 30, 2022 (the "**Deferred Unit Plan**") to: (i) remove the Insider Participation Limits (as defined below); and (ii) amend the definition of "Trustee" to explicitly exclude James Dondero, Chief Executive Officer of the REIT, as a participant thereunder (the "**Amended and Restated Deferred Unit Plan**").

The purpose of the Deferred Unit Plan is to enhance the ability of the REIT and any of its subsidiaries to attract, motivate and retain non-employee Trustees of the REIT ("**Participants**"), to reward such persons for their sustained contributions, and to encourage such persons to take into account the long-term performance of the REIT. A deferred trust unit of NHT ("**Deferred Unit**") is an award of a notional investment in the Units reflected on an unfunded, book-entry account maintained by NHT. For a summary of the current terms of the Deferred Unit Plan, see below under "*Compensation – Deferred Unit Plan*".

Under the current Deferred Unit Plan, there are certain restrictions (the "**Insider Participation Limits**") on the granting of Deferred Units to Participants and the issuance of Units to Insiders (as such term is defined in the TSXV Corporate Finance Manual, as such manual may be amended, supplemented or replaced from time to time (the "**TSXV Corporate Finance Manual**") of the REIT.

NHT wishes to amend and restate the Deferred Unit Plan to remove the following Insider Participation Limits:

(a) The maximum aggregate number of Units that are issuable pursuant to all Security Based Compensation Arrangements of the REIT granted or issued to Insiders (as a group) shall not exceed 10% of the issued and outstanding Units at any point in time, subject to the requisite disinterested Unitholder approval required by the TSXV; and

(b) The maximum aggregate number of Units that are issuable pursuant to all Security Based Compensation Arrangements of the REIT granted or issued in any 12 month period to Insiders (as a group) shall not exceed 10% of the issued and outstanding Units, calculated as at the date any

such security based compensation award is granted or issued to any Insider, subject to the requisite disinterested Unitholder approval required by the TSXV.

Given the prior issuances of Profits LTIP Units under the omnibus equity incentive plan of NHT (the "**Omnibus Plan**") and Deferred Units under the Deferred Unit Plan, the Insider Participation Limits, if maintained, would severely curtail the REIT's ability to grant Deferred Units to the independent Trustees. The Board believes it is important to maintain the ability to issue Deferred Units to the independent Trustees in order to align their interests with those of the Unitholders.

The Amended and Restated Deferred Unit Plan was conditionally approved by the TSXV on August 30, 2023, subject to the satisfaction of certain conditions, including obtaining disinterested Unitholder approval.

Disinterested Unitholder Approval

The amendment to remove the Insider Participation Limits requires "disinterested unitholder approval" per TSXV Policy 4.4. As a result, the resolution approving the Amended and Restated Deferred Unit Plan (the "**Amended Deferred Unit Plan Resolution**") will require the approval by a majority of the votes cast by all Unitholders at the Meeting, present in person or by proxy at the Meeting, excluding the votes attaching to the Units beneficially owned by the Trustees eligible to participate under the Deferred Unit Plan and their "associates" and "affiliates" (as defined in TSXV Policy 4.4).

For the purposes of the disinterested unitholder approval requirement of TSXV Policy 4.4, any votes attaching to Units held by Neil Labatte, Graham Senst and Jerry Patava (the "**Interested Parties**") will be excluded in determining whether disinterested Unitholder approval for the Amended Deferred Unit Plan Resolution is obtained. As of the Record Date, the Interested Parties do not hold any Units.

NHT's disinterested Unitholders will be asked to consider and, if deemed advisable, pass the Amended Deferred Unit Plan Resolution in the form set out in Appendix "A" to this Information Circular. Unitholders are encouraged to review the proposed Amended and Restated Deferred Unit Plan attached as Appendix "B" to this Information Circular. In the event that disinterested Unitholder approval of the Amended Deferred Unit Plan Resolution is not obtained at the Meeting, the current Deferred Unit Plan will remain in full force and effect.

The Board has unanimously approved the Amended and Restated Deferred Unit Plan and recommends that the Unitholders vote FOR the Amended Deferred Unit Plan Resolution. Unless otherwise instructed, the persons named in the enclosed Form of Proxy intend to vote such Form of Proxy FOR the Amended Deferred Unit Plan Resolution.

5. Approval of Previous Grant of Deferred Units

In accordance with TSXV Policy 4.4 and the terms of the REIT's Deferred Unit Plan, the REIT conditionally granted 1,295,668 Deferred Units to independent Trustees of the REIT on September 11, 2023 (the "**Prior DSU Grant**"). The Prior DSU Grant is in excess of Insider Participation Limits (as described above) and is subject to ratification by Unitholders at the Meeting (in addition to approval of the Amended and Restated Deferred Unit Plan). At the Meeting, Unitholders will be asked to approve by ordinary resolution the ratification of the Prior DSU Grant (the "**Prior DSU Grant Resolution**").

The Prior DSU Grant will require "disinterested unitholder approval" pursuant to the TSXV policies. As a result, the Prior DSU Grant Resolution will require the approval by a majority of the votes cast by all Unitholders at the Meeting, present in person or by proxy at the Meeting, excluding the votes attaching to the Units beneficially owned by the Trustees eligible to participate under the Deferred Unit Plan and their "associates" and "affiliates" (as defined in TSXV Policy 4.4).

For the purposes of the disinterested unitholder approval requirement of TSXV Policy 4.4, any votes attaching to the Interested Parties will be excluded in determining whether disinterested Unitholder approval for the Prior DSU Grant Resolution is obtained. As of the Record Date, the Interested Parties do not hold any Units.

NHT's disinterested Unitholders will be asked to consider and, if deemed advisable, pass the Prior DSU Grant Resolution in the form set out in Appendix "C" to this Information Circular. In the event that disinterested Unitholder approval of the Prior DSU Grant Resolution is not obtained at the Meeting, the Prior DSU Grant will be terminated.

The Board has unanimously approved the Prior DSU Grant and recommends that the Unitholders vote FOR the Prior DSU Grant Resolution. Unless otherwise instructed, the persons named in the enclosed Form of Proxy intend to vote such Form of Proxy FOR the Prior DSU Grant Resolution.

6. Approval of Amendments to COVID Loans

Background and Purpose of COVID Loans

The REIT received 32 loans from entities controlled or managed by James Dondero between June 2021 and September 2022 in the aggregate amount of US$56,165,000 (the "**COVID Loans**"). The proceeds from the COVID Loans were principally used to fund the REIT's operating expenses, interest and principal payments on outstanding indebtedness during the COVID-19 pandemic to allow the REIT to continue as a going concern.

A portion of the proceeds from the COVID Loans were also used to fund certain acquisitions aimed at improving the REIT's financial condition. Prior to 2021, the REIT's portfolio was primarily focused on the business travel market. However, throughout 2021 and early 2022, the REIT observed that leisure travel was beginning to recover from the pandemic at a significantly faster rate than the business travel market. At that time, although the REIT continued to be in significant financial distress, it determined that its future financial condition could be significantly improved if it could replace some of its hotels focused on the business travel market with hotels focused on the leisure travel market. The REIT believed that shifting its asset mix in this manner would generate positive cash flow for the REIT more quickly than would be the case with its existing portfolio, thereby putting the REIT in a stronger position to recover from the COVID-19 pandemic. As a result, in February 2022, the REIT used certain of the proceeds from the COVID Loans to acquire two hotel properties focused on the leisure travel market. Shortly thereafter, the REIT commenced a marketing process to sell five of its hotel properties which primarily catered to the business travel market.

Each of the COVID Loans is unsecured, has a 20-year term and bears interest at interest rates ranging from 2.25% per year to 7.5% per year (which were market interest rates at the time of their issuance). The principal and interest owing under the COVID Loans is convertible into Class B Units of the OP, at the option of the holder at any time, based on the value of a Class B Unit at the time of conversion.

The COVID Loans were provided by funds managed or controlled by Mr. Dondero, the REIT's controlling Unitholder. Mr. Dondero, through the entities he manages or controls, holds an approximate 72.13% interest in the outstanding Units of the REIT. As a result, the REIT treated the COVID Loans as a "related party transaction" under MI 61-101, which subjects the COVID Loans to the formal valuation (the "**Formal Valuation Requirement**") and minority approval requirements set forth in Part 5 of MI 61-101 (the "**Minority Approval Requirement**"), unless an exemption was available.

Exemption from Formal Valuation Requirement

As a TSXV-listed issuer, the REIT relied upon the exemption from the Formal Valuation Requirement in Section 5.5(b) of MI 61-101 (the "**Specified Markets Exemption**"), which provides that an issuer is exempt from the formal valuation requirements if its securities are not listed on the Toronto Stock Exchange, the Aequitas NEO Exchange Inc., the New York Stock Exchange, the American Stock Exchange, the NASDAQ Stock Market, or a stock exchange outside of Canada and the United States other than the Alternative Investment market of the London Stock Exchange or the PLUS markets operated by PLUS Markets Group plc.

Exemption from Minority Approval Requirement

At the time the COVID Loans were issued, the REIT relied upon the exemption under Section 5.7(1)(a) of MI 61-101. In addition, the REIT had available, and relied upon, the exemption in Section 5.7(1)(e) of MI 61-101 (the "**Financial Hardship Exemption**") to exempt the REIT from the Minority Approval Requirement. The Financial Hardship Exemption was available to the REIT based on the following criteria:

(i) The REIT was in serious financial difficulty.

As a hospitality REIT that owned 11 hotel properties across the United States at the beginning of the COVID-19 pandemic, the global response to the COVID-19 pandemic had a devastating impact on the REIT's operations. In April 2020, occupancy declined from an average of 75.1% across the REIT's portfolio to a low of 12.5%. In May 2020, a going concern note was included in the REIT's annual financial statements, highlighting the REIT's serious financial difficulties and possible risk of bankruptcy.

(ii) The COVID Loans were designed to improve the financial position of the REIT.

As a result of the COVID-19 pandemic, the REIT experienced material decreases in revenues, results of operations and cash flows. The impact to the global economy caused by the response to the COVID-19 pandemic also negatively impacted the REIT's ability to obtain new financing. The COVID Loans were advanced, in most cases, in critical moments to principally fund the REIT's ongoing operating expenses and to satisfy interest and principal payments due on third party debt. In certain situations, the proceeds from the COVID Loans were used to fund acquisitions designed to improve the financial condition of the REIT. Without the COVID Loans, the REIT would likely not have been able to continue its operations as a going concern.

(iii) The COVID Loans were not subject to court approval under bankruptcy or insolvency law.

At the time of the COVID Loans, the REIT was not subject to court oversight or approval under any bankruptcy or insolvency laws.

(iv) The REIT had two independent trustees in respect of the COVID Loans.

During the time that the COVID Loans were advanced to the REIT, the REIT had two independent trustees, namely Neil Labatte and Graham Senst. The independent trustees did not participate in the COVID Loans, were free from any interest in the COVID Loans, and were unrelated to the entities managed or controlled by Mr. Dondero that provided the COVID Loans.

(v) The REIT's board of trustees, acting in good faith, determined, and at least two-thirds of the independent trustees, determine that subparagraphs (i) and (ii) apply, and that the terms of the COVID Loans were reasonable in the circumstances of the REIT.

After carefully considering and reviewing all the factors surrounding the REIT, Mr. Labatte and Mr. Senst determined that: (i) the REIT was in serious financial difficulty; (ii) the COVID Loans would improve the financial condition of the REIT; and (iii) the terms of the COVID Loans were fair and reasonable in the circumstances of the REIT.

Amendments to COVID Loans

The COVID Loans were filed with the TSXV at various points during 2021 and 2022, as loan submissions pursuant to TSXV Policy 5.1 – *Loans, Loan Bonuses, Finder's Fees and Commissions* ("**Policy 5.1**").

Although the REIT believed that the COVID Loans were properly subject to Policy 5.1 and was not informed of any alternative treatment of the COVID Loans at the time of the filings, in December 2022, the TSXV advised the REIT that the COVID Loans were required to be treated as "Convertible Securities" under TSXV Policy 4.1 – *Private Placements* rather than loans under Policy 5.1. Due to this determination, the TSXV required the following

amendments (the "**Amendments**") to the COVID Loans: (i) either the conversion feature be removed or limited to five years from the date of issuance of the COVID Loan; (ii) the conversion feature be limited to the principal amount of the COVID Loan (rather than the principal amount including interest); and (iii) the conversion price be fixed at a price equal to the market price of the REIT's Units on the TSXV at the time of the issuance of the COVID Loan.

If the Amendments are implemented, only the principal amount of each of the COVID Loans will be convertible into Class B Units for five-year terms ending between July 1, 2026 and September 30, 2027; however, the term of the COVID Loans shall remain as 20 years from their date of issuance. Any conversion of principal or interest of the COVID Loans into Class B Units or Units after the expiry of the 5-year conversion window will be subject to the approval of the Trustees and the TSXV. For one COVID Loan for an amount of US$8.5 million, the conversion right will be removed altogether. In addition, if the Amendments are implemented, the COVID Loans with conversion rights will be for an aggregate amount of US$47,665,000 and the conversion price for the principal outstanding will be fixed at prices ranging from US$1.60 to US$2.50 in satisfaction of the requirements of the TSXV. Accordingly, to the extent the Amendments are implemented, a maximum number of 21,075,012 Class B Units or Units will be issuable upon conversion of the COVID Loans.

The Board, having undertaken a thorough review of, and having: (i) considered the terms of the Amendments to the COVID Loans; (ii) considered the need to comply with the requirements of the TSXV in order to maintain a listing for the Units, and (iii) consulted with its legal advisors, concluded that the Amendments are in the best interests of the REIT and agreed to pursue the approval of the Amendments. The REIT has obtained the requisite approval from the entities that provided the COVID Loans to implement the Amendments. However, as the Amendments constitute a "related party transaction" under MI 61-101, the REIT must receive "minority approval" of the Amendments under MI 61-101, as more particularly described below. If the Amendments are not approved at the Meeting, the REIT will engage with the TSXV to seek alternative solutions to the satisfy the TSXV listing requirements; however, there can be no assurance that a satisfactory solution will be found, and if a solution is not found, the TSXV may halt trading in the Units, suspend trading in the Units and/or initiate a delisting review of the REIT's Units as, absent the Amendments, the REIT would not be in compliance with TSXV listing requirements.

Minority Approval under MI 61-101

The REIT is a reporting issuer in certain of the provinces of Canada and, accordingly, is subject to applicable securities laws of such provinces, including MI 61-101. MI 61-101 is intended to regulate certain transactions which raise the potential for conflicts of interest, including related party transactions, to ensure that all securityholders of an issuer are treated in a manner that is fair and that is perceived to be fair.

The Amendments constitute a "related party transaction" within the meaning of MI 61-101, as the Amendments have the effect of amending the terms of the COVID Loans, which are securities of the REIT beneficially owned or over which control is exercised by Mr. Dondero (a "related party" of the REIT because of the fact that Mr. Dondero beneficially owns or controls Units of the REIT that carry more than 10% of the voting rights attached to all of the REIT's issued and outstanding Units). The Amendments are not subject to the formal valuation requirements of Section 5.4 of MI 61-101, as the Specified Markets Exemption is available to the REIT (see above under *"Matters to be Considered at the Meeting – 6. Approval of Amendments to COVID Loans - Exemption from Formal Valuation Requirement"*).

MI 61-101 requires that a related party transaction be subject to "minority approval" (as defined in MI 61-101) of every class of "affected securities" of the issuer, in each case voting separately as a class. As such, the resolution approving the Amendments to the COVID Loans (the "**Amended COVID Loans Resolution**") will require the affirmative vote of at least a majority of the votes cast by the Unitholders (the "**Minority Unitholders**"), present in person or represented by proxy at the Meeting, excluding the votes attached to the Unitholders that are beneficially owned or over which control or direction is exercised by Mr. Dondero, and any "related party" of the REIT within the meaning of MI 61-101 (subject to the exceptions set out therein) and any person acting jointly or in concert with the foregoing in respect of the Amended COVID Loans Resolution. The full text of the Amended COVID Loans Resolution is set forth in Appendix "D" to this Information Circular.

For purposes of the minority approval requirements of MI 61-101, to the knowledge of the REIT after reasonable inquiry, the votes attached to the 21,170,538 Units beneficially owned, directly or indirectly, or over which control or direction is exercised by Mr. Dondero, or his "related parties" or "joint actors" (as defined in MI 61-101) (such entities, the "**Interested Unitholders**"), representing, as of the Record Date, approximately 72.13% of the issued and outstanding Units, will be excluded in determining whether minority approval for the Amended COVID Loans Resolution is obtained.

As of the Record Date, the Units to be excluded for the purposes of minority approval requirement are set out below:

Unitholder(1)	Number of Units Owned, Controlled or Directed	Percentage of Outstanding Units(2)
NexPoint Real Estate Opportunities, LLC	13,571,131	46.24%
The Dugaboy Investment Trust	5,394,662	18.38%
NHT Holdco, LLC	1,045,848	3.56%
Governance RE Ltd	1,068,519	3.63%
NexPoint Real Estate Advisors, L.P.	90,378	0.31%

Notes:

(1) The percentages shown are based on 29,352,055 Units outstanding as of the date hereof.

(2) Each of the Unitholders listed above is directly or indirectly controlled by, or acting jointly and in concert with, James Dondero.

The Board has unanimously approved the Amendments to the COVID Loans (with James Dondero declaring his interest in the Amendments and abstaining from voting) and recommends that the Unitholders vote FOR the Amended COVID Loans Resolution. Unless otherwise instructed, the persons named in the enclosed Form of Proxy intend to vote such Form of Proxy FOR the Amended COVID Loans Resolution.

Additional Information Required by MI 61-101

(i) Trading Price and Volume

The Units are listed on the TSXV under the symbol "NHT.U". The following table sets out the monthly reported high and low trading prices and trading volumes of the Units on the TSXV for the periods indicated:

TSXV Trading Summary of Units			
Period	**High ($)**	**Low ($)**	**Volume (#)**
August, 2023	$0.50	$0.50	750
July, 2023	$0.50	$0.50	1,500
June, 2023	$0.50	$0.50	1,500
May, 2023	$1.00	$1.00	227
April, 2023	N/A	N/A	0
March, 2023	$1.50	$1.00	20,200
February, 2023	$1.50	$1.50	3,800

The closing price of the Units on the TSXV on September 8, 2023, being the last trading day prior to the date of this Information Circular, was $0.50. The closing price of the Units on the TSXV on June 23, 2023, being the last trading day prior to the public announcement of the Amendments to the COVID Loans, was $1.00.

(ii) Ownership of Securities of the REIT

The following table sets forth the number, designation and the percentage of outstanding Units or Deferred Units beneficially owned or over which control or direction is exercised by each trustee and officer of the REIT:

Names and Relationship with the REIT	Ownership or control over Units or Deferred Units of the REIT(1)
JAMES DONDERO Chief Executive Officer, Trustee, Chair of the Board	21,170,538 Units 72.13%
NEIL LABATTE Trustee	972,312 Deferred Units 3.31%(2)
GRAHAM SENST Trustee	673,043 Deferred Units 2.29%(3)
JERRY PATAVA Trustee	200,000 Deferred Units 0.68%(4)
JESSE BLAIR III Executive Vice President, Head of Lodging	98,639 Units 0.34%
BRIAN MITTS Chief Financial Officer & Corporate Secretary	-
PAUL RICHARDS Vice President, Asset Management	-
MATTHEW MCGRANER Chief Investment Officer	875,846 Units 2.98%

Notes:

(1) The percentages shown are based on 29,352,055 Units outstanding as of the date hereof.

(2) Determined as if the 972,312 Deferred Units were redeemed for 972,312 Units.

(3) Determined as if the 673,043 Deferred Units were redeemed for 673,043 Units.

(4) Determined as if the 200,000 Deferred Units were redeemed for 200,000 Units.

(iii) Material Changes in the Affairs of the REIT and Other Material Facts

Except as described or referred to in this Information Circular, NHT is not aware of any material fact concerning the securities or any other matter not previously generally disclosed and known to NHT which would reasonably be expected to affect the decision of Unitholders to accept or reject the Amended COVID Loans Resolution. Except as described or referred to in this Information Circular or as otherwise publicly disclosed, NHT has no current plans or proposals to make any material change in its business, corporate structure, management or personnel.

(iv) Previous Purchases and Sales of Securities

No securities of the REIT were purchased or sold by the REIT during the twelve months preceding the date of the Amendments.

COMPENSATION

Overview

The Compensation, Governance and Nominating Committee oversees compensation programs and related governance matters. NHT's senior management team consists of individuals employed by NexPoint Real Estate Advisors VI, L.P. (the "**Advisor**") (or an affiliate thereof). The Advisor provides advisory services to NHT pursuant to the Amended and Restated Advisory Agreement by and among NHT, NHH and the Advisor dated March 29, 2019 (the "**Advisory Agreement**"), for which NHT pays the Advisor certain fees (the "**Advisory Fee**"). On April 29, 2020, in light of developments related to the outbreak of COVID-19 and corresponding impact on the hospitality industry, the Advisor agreed to waive the Advisory Fee and certain expenses provided for in the Advisory Agreement until operations of NHT and NHH stabilized. On November 25, 2020, the Advisor reinstated the Advisory Fee, however, the Advisor agreed to defer payment of the Advisory Fee until NHT is cash flow positive and can sustain the payments. The Advisor did not collect any fees for the year ended December 31, 2022. However, in August 2023, the REIT commenced repayment of a portion of the accrued Advisory Fees. See below under "*Advisory and Management Agreements*".

The following discussion describes the significant elements of NHT's executive compensation program. The Chief Executive Officer, Chief Financial Officer, Chief Information Officer, Executive Vice President, Head of Lodging and Vice President, Asset Management are referred to herein as the "**named executive officers**" in accordance with applicable Canadian securities laws. The named executive officers are employees of the Advisor (or an affiliate thereof) and the Advisor has sole responsibility for determining the compensation of the named executive officers, other than with respect to the granting of Unit-based compensation, which is the responsibility of the independent Trustees. NHT does not have any employment agreements with members of senior management and does not pay any cash compensation to any individuals serving as officers. A portion of the compensation paid to those employees of the Advisor is attributable to time spent on the activities of NHT.

Principal Elements of Compensation

The compensation of the named executive officers includes three principal elements: (a) base salary which will be paid by the Advisor; (b) discretionary cash bonuses which will be paid by the Advisor; and (c) long-term incentives, which may consist of restricted equity units, performance-based awards, Deferred Units, options, membership units of the OP designated as "Profits LTIP Units" or other equity-based incentive compensation awards granted under the Omnibus Plan and/or the Deferred Unit Plan, each as described in further detail below.

Base Salaries

Base salaries are intended to provide an appropriate level of fixed compensation that will assist in employee retention and recruitment. Base salaries are determined on an individual basis, taking into consideration the past, current and potential contribution to NHT's success, the position and responsibilities of the named executive officers and competitive industry pay practices for other real estate investment trusts and companies of comparable size. Base salaries are paid by the Advisor or its affiliates, not NHT.

Annual Cash Bonuses

Annual cash bonuses are discretionary and are not awarded pursuant to a formal incentive plan. Annual cash bonuses are awarded based on qualitative and quantitative performance standards and reward the performance of the named executive officer individually. The determination of NHT's performance may vary from year to year depending on economic conditions and conditions in the real estate industry, and may be based on measures such

as Unit price performance, the meeting of financial targets against budget, the meeting of acquisition objectives and balance sheet performance. Individual performance factors vary, and may include completion of specific projects or transactions and the execution of day-to-day management responsibilities. Annual cash bonuses are paid by the Advisor or its affiliates, not NHT.

Long-Term Compensation Plans

Grants of (i) equity-based incentive awards under the Omnibus Plan (which may include restricted equity units, performance-based awards, Deferred Units, Profits LTIP Units and other awards convertible, exercisable or exchangeable into or otherwise based on Units), and (ii) Deferred Units under the Deferred Unit Plan are used to align the interests of the named executive officers more closely with the interests of the Unitholders, since they are tied to NHT's financial and Unit trading performance and vest or accrue over a number of years. The Board, acting on the recommendation of the Compensation, Governance and Nominating Committee, may designate individuals eligible to receive grants of equity-based incentive awards. In determining grants of such awards, an individual's performance and contributions to NHT's success, relative position, tenure and past grants will be taken into consideration.

Deferred Unit Plan

The following is a summary of the terms of the REIT's current Deferred Unit Plan dated June 30, 2022. The Deferred Unit Plan allows for the grant of Deferred Units to Participants.

The REIT intends to amend and restate its Deferred Unit Plan, subject to obtaining the approval of disinterested Unitholders and the TSXV. Readers are advised to review the proposed amendments to the Deferred Unit Plan above under *"Matters to be Considered at the Meeting– 4. Approval of Amended and Restated Deferred Unit Plan*", along with the full text of the proposed Amended and Restated Deferred Unit Plan appended hereto as Appendix "B".

Authorized Units

The maximum number of Deferred Units reserved for issuance under the Deferred Unit Plan at any time is 2,844,256 (representing approximately 9.7% of NHT's outstanding Units as of the date hereof). As of the date hereof, 1,295,668 Deferred Units have been granted under the Deferred Unit Plan which are subject to approval by Unitholders pursuant to the Prior DSU Grant Resolution. Pursuant to the TSXV policies, the number of Units issuable pursuant to all of NHT's security based compensation arrangements in aggregate is a fixed specified number of Units up to a maximum of 20% of NHT's issued and outstanding Units as at the date of implementation of the Deferred Unit Plan. NHT currently maintains one other security based compensation plan, the Omnibus Plan, which allows for the grant of various equity-based awards to eligible participants. The maximum number of Units that are available for issuance under the Omnibus Plan is 3,026,155 (representing approximately 10.3% of NHT's outstanding Units as of the date hereof).

If any Deferred Unit granted under the Deferred Unit Plan is terminated, surrendered, forfeited, expired or is cancelled, new Deferred Units may thereafter be granted covering such Units, subject to any required prior approval by the TSXV or other stock exchange upon which the Units are then listed. At all times, the REIT will reserve and keep available a sufficient number of Units to satisfy the requirements of all outstanding Deferred Units granted under the Deferred Unit Plan.

Administration

The Deferred Unit Plan will be administered by the Board and the Compensation, Governance and Nominating Committee. The administration of the Deferred Unit Plan shall be subject to and performed in conformity with all applicable laws, regulations, orders of governmental or regulatory authorities and the requirements of any stock exchange on which the Units are listed. Should the Compensation, Governance and Nominating Committee, in its sole discretion, determine that it is not desirable or feasible to provide for the redemption of Deferred Units in Units, including by reason of any such laws, regulations, rules, orders or requirements, it shall notify the Participants of

such determination and on receipt of such notice each Participant shall have the option of electing that such redemption obligations be satisfied by means of a cash payment by the REIT equal to the Average Market Price (as defined below) of the Units that would otherwise be delivered to a Participant in settlement of Deferred Units on the redemption date (less any applicable withholding taxes). Each Participant shall comply with all such laws, regulations, rules, orders and requirements, and shall furnish the REIT with any and all information and undertakings, as may be required to ensure compliance therewith.

Granted and Elected Deferred Units

Participants may be awarded Deferred Units, each of which is economically equivalent to one Unit, from time to time at the discretion of the Board on recommendation of the Compensation, Governance and Nominating Committee ("**Granted DUs**"). Participants may also, subject to the terms of the Deferred Unit Plan, elect to receive up to 100% of his or her annual retainer (including fees for serving as Chair of the Board or a committee of the Board) and meeting fees for a calendar year otherwise payable in cash ("**Trustee Fees**") in the form of Deferred Units ("**Elected DUs**" and, together with the Granted DUs, shall all be considered Deferred Units for purposes of the Deferred Unit Plan).

The number of Deferred Units granted at any particular time pursuant to the Deferred Unit Plan will be equal to (i) the elected amount in respect of Trustee Fees, as determined by a Trustee, divided by the Average Market Price of a Unit on the award date, plus (ii) the Granted DUs, if any, granted to such Trustee. "**Average Market Price**" of a Unit means the volume weighted average price of the Units traded on the TSXV, for the five trading days immediately preceding such date (or, if such Units are not then listed and posted for trading on the TSXV, on such stock exchange on which the Units are listed and posted for trading as may be selected for such purpose by the Board); provided that, for so long as the Units are listed and posted for trading on the TSXV, the Average Market Price shall not be less than the market price, as calculated under the policies of the TSXV and provided, further, that with respect to Deferred Units issued to a U.S. taxpayer, such Participant and the number of Units subject to such issuance shall be identified by the Board prior to the start of the applicable five trading day period. In no event shall the Average Market Price be less than the Discounted Market Price (as such term is defined in the TSXV Corporate Finance Manual).

Under no circumstances shall Deferred Units be considered Units nor entitle a Participant to any rights as a Unitholder, including, without limitation, voting rights, distribution entitlements (other than as set out below) or rights on liquidation.

Whenever cash distributions are paid on the Units, additional Deferred Units will be credited to the Participant's Deferred Unit account ("**Additional DUs**"). The number of such Additional DUs to be credited to a Participant's Deferred Unit account in respect of a cash distribution paid on the Units shall be calculated by dividing the amount which is equal to the aggregate distributions that would have been paid to such Participant if the Deferred Units in the Participant's Deferred Unit account had been Units divided by the Average Market Price on the distribution payment date. Deferred Units credited to a Participant shall count towards a Trustees' ownership requirements as prescribed from time to time by the Board. For greater certainty, any Additional DUs shall count toward the limits set forth in Article 11 of the Deferred Unit Plan. Where an award of Additional DUs would be prohibited by the limits set forth in Article 11 of the Deferred Unit Plan, the REIT may make a cash distribution to the applicable Participant in lieu of Additional DUs.

Vesting

Elected DUs granted to Trustees pursuant to the terms of the Deferred Unit Plan will vest immediately upon grant (including any Additional Deferred Units issued pursuant to Elected DUs credited to a Participant's account in connection with cash distributions as described above).

Granted DUs granted to Trustees pursuant to the terms of the Deferred Unit Plan will vest on the first anniversary of the date of grant (including any Additional Deferred Units issued pursuant to Granted DUs credited to a Participant's account in connection with cash distributions as described above).

The Board may, in its discretion, at any time, subject to applicable law or the requirements of the TSXV or any other stock exchange upon which the Units are listed and any other Unitholder or other approval which may be required, permit the acceleration of vesting of any or all Deferred Units or waive termination of any or all Deferred Units, in the manner and on the terms as may be authorized by the Board.

Redemption and Termination

Except with respect to Participants that are U.S. taxpayers, the Deferred Units (or a portion thereof) shall be redeemable by the Participant (or, where the Participant has died, his or her estate) on or after the date (the "**Termination Date**") on which the Participant ceases to be a Trustee, provided any such redemption date is not later than one year following the date the Participant ceases to be a Trustee. For greater certainty, in the event that a Participant (or his or her estate) has not redeemed his or her Deferred Units prior to the date that is one year following the Termination Date, such Deferred Units shall be automatically redeemed on the date that is one year following the Termination Date without any action required on the part of the Participant (or his or her estate). If the Compensation, Governance and Nominating Committee terminates the Deferred Unit Plan, Deferred Units previously credited to Participants shall remain outstanding and in effect and shall be settled subject to and in accordance with the applicable terms and conditions of the plan in effect immediately prior to the termination.

For Participants that are Canadian residents and are not U.S. taxpayers, each vested Deferred Unit credited to a Participant's Deferred Unit account will be redeemed automatically on the date on which the Participant files a written notice of redemption in the prescribed form with the Chief Financial Officer of the REIT (the "**Redemption Date**") for (i) one fully paid and non-assessable Unit issued from treasury to the Participant or as the Participant may direct, (ii) if so elected by the Participant, a cash payment, subject to the approval of the Board, or (iii) a combination of Units and cash as contemplated by paragraphs (i) and (ii) above.

For Participants that are U.S. taxpayers, each vested Deferred Unit credited to a Participant's Deferred Unit account will be redeemed automatically on the date of the Trustee's Separation from Service for (i) one fully paid and non-assessable Unit issued from treasury to the Participant or as the Participant may direct, (ii) if so elected by the Participant, a cash payment, subject to the approval of the Board, or (iii) a combination of Units and cash as contemplated by paragraphs (i) and (ii) above. "**Separation from Service**" has the meaning given to such phrase in U.S. Treasury Regulation § 1.409A-1(h).

Any cash payments made by the REIT to a Participant in respect of Deferred Units to be redeemed for cash shall be calculated by multiplying the number of Deferred Units to be redeemed for cash by the Average Market Price per Unit as at the Redemption Date or date of the Trustee's Separation from Service, as applicable.

No fractional Units will be issued pursuant to the redemption of Deferred Units. At the time of redemption, fractional Deferred Units shall be rounded down, and no payment shall be made to the Participant with respect to the fractional Deferred Units standing to the Participant's credit after the maximum number of whole Units due to such Participant have been issued by the REIT.

Upon payment in full of the value of the vested Deferred Units and the forfeiture of the unvested Deferred Units, the Deferred Units shall be cancelled.

Notwithstanding anything else in Article 10 of the Deferred Unit Plan, in the event of the death of a Participant, all previously awarded Deferred Units shall be redeemable only within one year after such death, and then only by the person or persons to whom the Participant's rights under the Deferred Units shall pass by the Participant's will or the laws of descent and distribution.

Change in Control

In the event of certain consolidations, mergers or similar transactions of NHT, certain sales or other disposition of NHT's Units, certain liquidation events or sales or dispositions of all or substantially all of NHT's assets, the Board may provide for the conversion, exercise or exchange of outstanding awards for new awards, or, if no equivalent

awards are available, for the accelerated vesting or delivery of Units under awards, or for a cash-out of outstanding awards.

Adjustments

In the event of any Unit distribution, Unit split, combinations or exchange of Units, merger, consolidation, spin-off or other distribution of NHT's assets to the Unitholders (other than normal cash distributions), or any other similar change affecting the Units, the account of each Participant and the Deferred Units outstanding under the Deferred Unit Plan shall be adjusted in such manner, if any, as the Board may in its discretion deem appropriate to reflect the event. However, no amount will be paid to, or in respect of, a Participant under the Deferred Unit Plan or pursuant to any other arrangement, and no additional Deferred Units will be granted to such Participant to compensate for a downward fluctuation in the price of the Units, nor will any other form of benefit be conferred upon, or in respect of, a Participant for such purpose.

Restrictions on Grants of Deferred Units

The following restrictions are placed on grants of Deferred Units under the current Deferred Unit Plan:

- the maximum aggregate number of Units issuable to insiders (as a group) pursuant to all security based compensation arrangements of NHT shall not exceed 10% of NHT's issued and outstanding Units at any point in time, subject to the requisite disinterested Unitholder approval required by the TSXV;

- the maximum aggregate number of Units issuable pursuant to all security based compensation arrangements of NHT granted or issued in any 12 month period to insiders (as a group) shall not exceed 10% of NHT's issued and outstanding Units, calculated as at the date any such security based compensation award is granted or issued to any Insider, subject to the requisite disinterested Unitholder approval required by the TSXV;

- the maximum aggregate number of Units issuable pursuant to all security based compensation arrangements of NHT granted or issued in any 12 month period to any one person (and any entities that are wholly owned by that person) shall not exceed 5% of the issued and outstanding Units, calculated as at the date any security based compensation award is granted or issued to the person, subject to the requisite disinterested Unitholder approval required by the TSXV;

- no Deferred Unit may be granted if such grant would have the effect of causing the total number of Units subject to Deferred Units to exceed the total number of Units reserved for issuance under the Deferred Unit Plan; and

- the aggregate fair market value on the date of grant of Units issuable pursuant to all security based compensation arrangements of NHT granted or issued to any non-employee Trustee shall not exceed $200,000 per annum; provided that such limits shall not apply to awards (including Deferred Units) taken in lieu of any Trustee Fees and a one-time initial grant to a Trustee upon such Trustee joining the Board.

The REIT intends to amend and restate the current Deferred Unit Plan to remove the first two restrictions listed above, as described above under *"Matters to be Considered at the Meeting– 4. Approval of Amended and Restated Deferred Unit Plan*".

Amendments

The Deferred Unit Plan provides that Unitholder approval is not required for any amendment to the Deferred Unit Plan except for any amendment or modification that:

- results in any increase in the number of Deferred Units issuable under the plan; or

- permit Deferred Units granted under the plan to be transferable or assignable other than for normal estate settlement purposes.

Without limiting the general amendment powers described above and for greater certainty, Unitholder approval is not required for amendments to the Deferred Unit Plan:

- for the purpose of making formal, minor or technical modifications to any of the provisions of the plan, including amendments of a "housekeeping" nature;
- to correct any ambiguity, defective provisions, error or omission in the provisions of the plan;
- to amend the vesting provisions of the Deferred Units, except for decreasing the vesting term of Granted DUs to less than one year from the award date; or
- any other amendment that does not require unitholder approval under applicable laws or the rules of the TSXV.

provided, however, that no such act shall diminish any rights accrued in respect of grants of Deferred Units made prior to the effective date of such amendment.

Omnibus Equity Incentive Plan

NHT adopted the Omnibus Plan on March 29, 2019. All equity and equity-based awards made or granted, including future grants to be made to named executive officers of NHT, are made under the Omnibus Plan. The Omnibus Plan provides eligible participants with compensation opportunities that encourage ownership of Units, enhance NHT's ability to attract, retain and motivate executive officers and other key members of management and incentivizes them to increase the long-term growth and equity value of NHT in alignment with the interests of Unitholders. The material features of the Omnibus Plan are summarized below.

Administration and Eligibility

The Omnibus Plan is administered by the Compensation, Governance and Nominating Committee. The Compensation, Governance and Nominating Committee has the authority to, among other things, determine eligibility for awards to be granted, determine, modify or waive the type or types of, form of settlement (whether in cash, Units or otherwise) of, and terms and conditions of, awards, to accelerate the vesting or exercisability of awards, to adopt rules, guidelines and practices governing the operation of the Omnibus Plan as the Compensation, Governance and Nominating Committee deems advisable, to interpret the terms and provisions of the Omnibus Plan and any award agreement, and to otherwise do all things necessary or appropriate to carry out the purposes of the Omnibus Plan.

Key officers and any employees of NHT, independent Trustees and key employees of the Advisor and its respective affiliates who, in the opinion of the Compensation, Governance and Nominating Committee, have dedicated significant time and attention to the affairs and business of NHT will be eligible to participate in the Omnibus Plan.

Authorized Units

Subject to adjustment, the maximum number of Units that are available for issuance under the Omnibus Plan is 3,026,155, representing 20% of the issued and outstanding Units of NHT at the time the Omnibus Plan was adopted, or such greater number as may be determined by the Board and approved by the Unitholders and, if required, by any relevant stock exchange or other regulatory authority; all of which may be delivered in satisfaction of restricted equity units, performance-based awards, Deferred Units, Profits LTIP Units or any other applicable award, awarded under the Omnibus Plan. Units issued under the Omnibus Plan may be Units held in treasury or authorized but unissued Units of NHT not reserved for any other purpose. Units subject to an award that for any reason expires

without having been exercised, is cancelled, forfeited or terminated or otherwise is settled without the issuance of Units, will again be available for grant under the Omnibus Plan.

The following table summarizes certain information as of December 31, 2022 regarding compensation plans of NHT under which equity securities are authorized for issuance.

Plan Category	Number of securities to be issued upon exercise of outstanding options, warrants and rights (#)	Weighted-average exercise price of outstanding options, warrants and rights ($)	Number of securities remaining available for future issuance under equity compensation plans (excluding securities reflected in first column) (#)
Equity compensation plans approved by securityholders – Deferred Unit Plan[(1)]	N/A	N/A	2,844,256
Equity compensation plans not approved by securityholders – Omnibus Plan[(2)]	2,141,562	N/A	884,593

Notes:

(1) The Deferred Unit Plan was adopted by NHT's Unitholders on June 30, 2022. The maximum number of Deferred Units reserved for issuance under the Deferred Unit Plan at any time is 2,844,256. As of December 31, 2022, no Deferred Units have been issued under the Deferred Unit Plan. At the Meeting, Unitholders will be asked to approve and ratify the grant of 1,295,668 Deferred Units to the independent Trustees pursuant to the Amended and Restated Deferred Unit Plan.

(2) The Omnibus Plan was adopted in connection with NHT's initial public offering on March 29, 2019. On June 28, 2021, NHT issued an aggregate of 339,687 Deferred Units, in lieu of Trustee Fees earned since January 1, 2019, to the independent Trustees of NHT. Further, on December 13, 2021, NHT issued an additional 210,000 Deferred Units to the independent Trustees and 2,475,000 Profits LTIP Units to officers of NHT and employees of the Advisor based on the performance of the Board and management during the COVID-19 pandemic and to further incentivize each group to continue delivering value to NHT's Unitholders. As of December 31, 2022, there were 2,141,562 awards outstanding under the Omnibus Plan and 884,593 awards remaining that may be granted.

Types of Awards

The Omnibus Plan provides for awards of restricted equity units, performance-based awards, Deferred Units, Profits LTIP Units and other awards convertible, exercisable or exchangeable into or otherwise based on the Units. Eligibility distribution equivalents may also be provided in certain circumstances in connection with an award under the Omnibus Plan.

- Restricted Equity Units. A restricted equity unit award is an award denominated in notional units that entitles the participant to receive Units or cash measured by the value of the Units in the future. The delivery of Units or cash under a restricted equity unit award may be subject to the satisfaction of performance conditions or other vesting conditions.

- Performance Awards. A performance award is an award the vesting, settlement or exercisability of which is subject to specified performance criteria.

- Deferred Units. A Deferred Unit is an award of a notional investment in the Units reflected on an unfunded, book-entry account maintained by NHT. Deferred Units may be subject to performance conditions or other vesting conditions. Deferred Units may be settled in Units, cash measured by the value of a Unit, or a combination thereof.

- Profits LTIP Units. A Profits LTIP Unit is an award of a membership unit of the OP which qualifies as a profits interest for U.S. federal income tax purposes. Subject to certain exceptions set forth in the LLC Agreement of the OP, Profits LTIP Units are treated as Class B Units, with all of the rights, privileges

and obligations attendant thereto, except the right to vote in respect of matters put before members of the OP.

- Other Awards. Other awards are awards that are convertible into, exercisable or exchangeable for, or otherwise based on Units.

Vesting

The Compensation, Governance and Nominating Committee has the authority to determine the vesting schedule applicable to each award, and accelerate the vesting or exercisability of any award.

Change in Control

In the event of certain consolidations, mergers or similar transactions of NHT, certain sales or other disposition of NHT's Units, certain liquidation events or sales or dispositions of all or substantially all of NHT's assets, the Compensation, Governance and Nominating Committee may provide for the conversion, exercise or exchange of outstanding awards for new awards, or, if no equivalent awards are available, for the accelerated vesting or delivery of Units under awards, or for a cash-out of outstanding awards.

Adjustments

In the event of an extraordinary distribution, securities based distribution, stock split or combination (including a reverse stock split) or any recapitalization, business combination, merger, consolidation, spin-off, exchange of Units, liquidation or dissolution of NHT or other similar transaction affecting the Units, the Board will make adjustments as it determines in its sole discretion to the number and kind of Units available for issuance under the Omnibus Plan, the annual per-participant Unit limits, the number, class, exercise price (or base value), performance objectives applicable to outstanding awards and any other terms of outstanding awards affected by such transaction. The Compensation, Governance and Nominating Committee may also make adjustments of the type described in the preceding sentence to take into account distributions and events other than those listed above if it determines that adjustments are appropriate to avoid distortion in the operation of the Omnibus Plan.

Restrictions on Grants of Awards

The following restrictions are placed on grants of awards under the Omnibus Plan:

- the aggregate number of Units issuable to insiders shall not exceed 10% of NHT's total issued and outstanding Units;

- the aggregate number of Units issuable to insiders within any 12-month period shall not exceed 10% of NHT's total issued and outstanding Units;

- the aggregate number of Units reserved for issuance pursuant to awards granted to any one person (and any companies wholly owned by that person) in a 12-month period shall not exceed 5% of NHT's total issued and outstanding Units calculated on the date an award is granted to the person (unless the approval of disinterested Unitholders is obtained);

- the aggregate number of Units reserved for issuance pursuant to awards granted to any one consultant within any 12-month period shall not exceed 2% of the issued and outstanding Units calculated on the date an award is granted to the person;

- the aggregate number of Units reserved for issuance pursuant to awards granted within any 12-month period to all persons retained to provide investor relations activities must not exceed 2% of the issued and outstanding Units calculated on the date an award is granted to the person, provided that no

awards other than options shall be issuable to any person retained to provide investor relations activities;

- the aggregate fair value on the date of grant of all options granted to any one non-employee Trustee shall not exceed $200,000 per annum; and

- the aggregate fair market value on the date of grant of all awards granted to any one non-employee Trustee shall not exceed $200,000 per annum; provided that such limits shall not apply to (A) awards taken in lieu of any Trustee fees, and (B) a one-time initial grant to a Trustee upon such Trustee joining the Board.

Termination and Amendments

The Compensation, Governance and Nominating Committee may amend the Omnibus Plan or outstanding awards, or terminate the Omnibus Plan as to future grants of awards, except that the Compensation, Governance and Nominating Committee will not be able to alter the terms of an award if it would affect materially and adversely a participant's rights under the award without the participant's consent. Unitholder approval is required for any amendment to the Omnibus Plan that increases the number of Units available for issuance under the Omnibus Plan or the individual award limitations specified therein (except with respect to certain adjustments as described above), modifies the class of persons eligible for participation in the Omnibus Plan, extends the term of any award granted beyond its original expiration date, permits an award to be exercisable beyond 10 years from its grant date (except where an expiration date would have fallen within a blackout period of NHT), permits awards to be transferred other than for normal estate settlement purposes, or deletes or reduces the range of amendments which require approval of the Unitholders, or to the extent required by law.

Compensation Risk

The Compensation, Governance and Nominating Committee considers the implications of the risks associated with NHT's compensation policies and practices as part of its responsibility to ensure that the compensation for the Trustees and the named executive officers align the interests of the Trustees and named executive officers with Unitholders and NHT as a whole. NHT's insider trading policy prohibits all officers and Trustees of NHT from selling "short" or selling "call options" on any of NHT's securities and from purchasing financial instruments, such as prepaid variable forward contracts, equity swaps, collars or units of exchange funds that are designed to hedge or offset a decrease in the market value of equity securities granted to such executive officers and Trustees as compensation or held directly or indirectly by such person.

Unit Ownership Policy

NHT has established Unit ownership guidelines (the "**Unit Ownership Policy**") for the Trustees and executive officers of NHT to further align the interests of Trustees and executive officers with those of the Unitholders. The Unit Ownership Policy establishes minimum equity ownership levels for each Trustee and executive officer of NHT to be achieved within the later of five years from the date of (i) the policy, and (ii) becoming a member of senior management or a Trustee, as applicable. The Unit Ownership Policy provides for the following guidelines.

Participant	Target Equity Ownership Level
Chief Executive Officer	5 times annual base salary OR $5,000,000 (if no annual base salary)
Chief Financial Officer **Chief Investment Officer** **Executive Vice President, Head of Lodging** **Vice President, Asset Management**	1.5 times annual base salary

Participant	Target Equity Ownership Level
Trustees	3 times annual cash retainer (excluding retainers paid in respect of Board or Committee Chair roles)

Each Trustee and executive officer is required to continue to hold such minimum ownership levels for as long as they serve as a Trustee or executive officer of NHT. Awards granted under the Omnibus Plan are included in determining an individual's equity ownership value.

Compensation – Trustees

Individual Trustees add value to the Board and to NHT by bringing skills, knowledge and experiences that complement those of their colleagues, so that collectively, the Board provides diversity and balance in views and perspectives, ensuring a challenging and thoughtful exchange with management. Trustee attendance at meetings is mandatory and, additionally, there is an expectation that all Trustees will be available as needed outside of meetings. Board membership is reviewed annually to ensure the right mix and skills are present.

Trustee compensation is structured to recognize Trustees for their skills, knowledge, experiences and attention in overseeing the governance of NHT, and to align with Unitholders' interests. The Compensation, Governance and Nominating Committee reviews Trustee compensation and recommends any changes to the Board to ensure that Trustee compensation is competitive.

In respect of January 1, 2022 to March 31, 2022, the Trustee compensation framework was as follows:

Annual Board Retainer	
Non-management Trustee	$25,000
Meeting Fees	
Per Board or Committee Meeting	$1,500
Chair Retainers	
Lead Trustee	$10,000
Audit Committee Chair	$15,000
Compensation, Governance and Nominating Committee Chair	$10,000
Travel and Expenses	
Reasonable Travel and ancillary expenses	Reimbursed

On the recommendation of the Compensation, Governance and Nominating Committee, the Board changed the Trustee Fees payable to the independent Trustees of the REIT. The new Trustee compensation framework was effective April 1, 2022 and is as follows:

Annual Board Retainer	
Non-management Trustee	$40,000
Committee Fees	
Compensation, Governance and Nominating Committee	$10,000
Audit Committee	$10,000
Chair Retainers	
Lead Trustee	$25,000
Audit Committee Chair	$15,000
Compensation, Governance and Nominating Committee Chair	$15,000

Travel and Expenses	
Reasonable Travel and Ancillary Expenses	Reimbursed

The Trustees do not receive any additional remuneration for acting as directors on the boards of any of NHT's subsidiaries. Trustees who are also members of management do not receive any remuneration for their role as a Trustee. Trustees have the option to elect to receive up to 100% of all fees that are otherwise payable in cash (i.e. annual board retainer fee, meeting fees and additional retainers) in the form of Deferred Units.

NHT, on recommendation from the Compensation, Governance and Nominating Committee, will determine whether, and to what extent, NHT will match up to 100% of the total value of the fees that a Trustee elects to receive in the form of Deferred Units. Accordingly, the number of Deferred Units to be awarded to a Trustee is equal to (i) the value of all fees that the Trustee elects to receive in the form of Deferred Units plus any additional Deferred Units pursuant to NHT's obligation to match as contemplated by the Omnibus Plan, (ii) divided by the volume weighted average trading price of a Unit on the TSXV for the five trading days prior to the date of the award. Trustees must complete an election form to receive Deferred Units in lieu of the cash component of their fees (i) in the case of an existing Trustee, no later than December 31 of the year preceding the applicable grant year; and (ii) in the case of a newly appointed or elected Trustee, within 30 days of such appointment or election with respect to compensation paid for services to be performed after such date. Elections are irrevocable for the year in respect of which they are made.

In respect of fiscal 2021, the total value of Trustee Fees payable to the independent Trustees was $172,000 ($88,500 of which was payable to Mr. Labatte and $83,500 of which was payable to Mr. Senst). Mr. Labatte and Mr. Senst elected to receive $56,250 and $53,333, respectively in cash, with the remaining amounts to be paid in Deferred Units (the "**2021 Deferred Units**").

In respect of fiscal 2022, the total value of Trustee Fees payable to the independent Trustees was $181,500 ($90,750 of which was payable to Mr. Labatte, $70,750 of which was payable to Mr. Senst, and $20,000 of which was payable to Mr. Patava). Mr. Labatte, Mr. Senst and Mr. Patava elected to receive the full amount of their 2022 Trustee Fees in Deferred Units (the "**2022 Deferred Units**").

In respect of fiscal 2023, the total value of Trustee Fees that have accrued as of June 30, 2023 is $117,500 ($50,000 of which is payable to Mr. Labatte, $37,500 of which is payable to Mr. Senst and $30,000 of which is payable to Mr. Patava). Mr. Labatte and Mr. Patava elected to receive the full amount of their 2023 Trustee Fees (accrued as of June 30, 2023) in Deferred Units (the "**2023 Deferred Units**"), while Mr. Senst has elected to receive $37,500 in cash.

The 2021 Deferred Units, 2022 Deferred Units and 2023 Deferred Units (collectively, the "**Outstanding Trustee Fees**") have yet to be paid due to the Insider Participation Limits in the REIT's current Deferred Unit Plan. The Outstanding Trustee Fees were conditionally granted to the independent Trustees on September 11, 2023 and are subject to (i) the REIT obtaining disinterested Unitholder approval of the Amended and Restated Deferred Unit Plan (see above under *"Matters to be Considered at the Meeting– 4. Approval of Amended and Restated Deferred Unit Plan*") and (ii) the approval and ratification by Unitholders of the Prior DSU Grant (see above under *"Matters to be Considered at the Meeting–5. Approval of Previous Grant of Deferred Units*").

NHT, on recommendation from the Compensation, Governance and Nominating Committee, will determine whether, and to what extent, NHT will match up to 100% of the total value of the fees that a Trustee elects to receive in the form of Deferred Units. The REIT's current policy is to provide 100% matching for Deferred Units issued to the Trustees in lieu of their fees. Accordingly, the number of Deferred Units to be awarded to a Trustee is equal to (i) the value of all fees that the Trustee elects to receive in the form of Deferred Units plus any additional Deferred Units pursuant to NHT's obligation to match as contemplated by the Omnibus Plan, (ii) divided by the volume weighted average trading price of a Unit on the TSXV for the five trading days prior to the date of the award. Trustees must complete an election form to receive Deferred Units in lieu of the cash component of their fees (i) in the case of an existing Trustee, no later than December 31 of the year preceding the applicable grant year; and (ii) in the case of a newly appointed or elected Trustee, within 30 days of such appointment or election with respect to compensation

paid for services to be performed after such date. Elections are irrevocable for the year in respect of which they are made.

Table of Compensation Excluding Compensation Securities

The following table sets out information concerning the compensation paid by (i) the Advisor (or its affiliates) to the named executive officers in fiscal 2022 and 2021 in respect of the services provided by such officers to NHT and (ii) NHT to the Trustees; in each case, excluding compensation securities:

Name and Position	Year	Salary, consulting fee, retainer or commission ($)	Bonus ($)	Committee or meeting fees ($)	Value of perquisites ($)	Value of all other compensation ($)	Total compensation ($)[1]
James Dondero CEO, Trustee	2022	$100,000	$100,000	–	–	–	$200,000
	2021	$100,000	$100,000	–	–	–	$200,000
Brian Mitts CFO	2022	$75,000	$75,000	–	–	–	$150,000
	2021	$75,000	$75,000	–	–	–	$150,000
Matthew McGraner CIO	2022	$150,000	$150,000	–	–	–	$300,000
	2021	$150,000	$150,000	–	–	–	$300,000
Jesse Blair III Executive VP, Head of Lodging	2022	$150,000	$200,000	–	–	–	$350,000
	2021	$150,000	$150,000	–	–	–	$300,000
Paul Richards VP, Asset Management	2022	$50,000	$75,000	–	–	–	$125,000
	2021	$50,000	$75,000	–	–	–	$125,000
Neil Labatte[2] Trustee	2022	–	–	–	–	–	–
	2021	$26,250	–	$30,000	–	–	$56,250
Graham Senst[3] Trustee	2022	–	–	–	–	–	–
	2021	$23,333	–	$30,000	–	–	$53,333
Jerry Patava[4] Trustee	2022	–	–	–	–	–	–
	2021	–	–	–	–	–	–

Notes:

(1) All compensation for James Dondero (Chief Executive Officer), Brian Mitts (Chief Financial Officer), Matthew McGraner (Chief Investment Officer), Jesse Blair III (Executive Vice President, Head of Lodging) and Paul Richards (Vice President, Asset Management) is paid by the Advisor or its affiliates, and there is no reimbursement by NHT for such compensation. Messrs. Dondero, Mitts, McGraner, Blair and Richards act in a variety of capacities for the Advisor and their respective affiliates, and NHT, and accordingly, the total compensation that each such individual receives from the Advisor is not disclosed in this table, since total compensation is not solely attributable to the services that he will provide to NHT. The allocation of the total compensation disclosed in this table was determined by the Advisor solely for the purposes of this table, based on the time spent by each such individual in connection with NHT-related services during fiscal 2022 and 2021.

(2) The Board may fix a maximum portion of the Trustee Fees payable to the independent Trustees to be paid in the form of Deferred Units in lieu of cash, subject to the election of the independent Trustees. The trustee fees payable to Mr. Labatte in respect of fiscal 2020 and 2019

were $93,000 and $47,250 respectively. Mr. Labatte elected to receive such fees in the form of Deferred Units. The Board, on the recommendation of the Compensation, Governance and Nominating Committee matched 100% of the total value of Trustee Fees that Mr. Labatte elected to receive in the form of Deferred Units. Due to various blackout periods observed by NHT, the Deferred Units awardable in respect of the Trustee Fees were awarded on June 28, 2021. On December 13, 2021, in consideration of Mr. Labatte's service and performance during the COVID-19 pandemic, and to encourage Mr. Labatte to participate in the future growth of the REIT, Mr. Labatte was granted 105,000 Deferred Units which vested immediately. In respect of fiscal 2021, the total value of Trustee Fees payable to Mr. Labatte was $88,500, of which $56,250 was paid in cash and the remaining $32,250 was to be paid in Deferred Units. In respect of fiscal 2022 and fiscal 2023 (as of June 30, 2023), $90,750 and $50,000 of Trustee Fees were payable to Mr. Labatte. Mr. Labatte elected to receive such fees in the form of Deferred Units. Due to various blackout periods observed by NHT and certain restrictions on granting security based compensation to insiders pursuant to TSXV Policy 4.4, on September 11, 2023, the REIT conditionally granted 692,000 Deferred Units to Mr. Labatte in respect of his remaining portion of 2021 Trustee Fees, 2022 Trustee Fees and 2023 Trustee Fees (accrued as of June 30, 2023). The Board, on the recommendation of the Compensation, Governance and Nominating Committee, matched 100% of the total value of Trustee Fees that Mr. Labatte elected to receive in the form of Deferred Units. As of the date hereof, Mr. Labatte holds 972,312 Deferred Units

(3) The Board may fix a maximum portion of the Trustee Fees payable to the independent Trustees to be paid in the form of Deferred Units in lieu of cash, subject to the election of the independent Trustees. The Trustee Fees payable to Mr. Senst in respect of fiscal 2020 and 2019 were $88,000 and $43,500 respectively. Mr. Senst elected to receive such fees in the form of Deferred Units. The Board, on the recommendation of the Compensation, Governance and Nominating Committee matched 100% of the total value of Trustee Fees that Mr. Senst elected to receive in the form of Deferred Units. Due to various blackout periods observed by NHT, the Deferred Units awardable in respect of the Trustee Fees were awarded on June 28, 2021. On December 13, 2021, in consideration of Mr. Senst's service and performance during the COVID-19 pandemic, and to encourage Mr. Senst to participate in the future growth of the REIT, Mr. Senst was granted 105,000 Deferred Units which vested immediately. In respect of fiscal 2021, the total value of Trustee Fees payable to Mr. Senst was $83,500, of which $53,333 was paid in cash and the remaining $30,167 was to be paid in Deferred Units. In respect of fiscal 2022 and fiscal 2023 (as of June 30, 2023), $70,750 and $37,500 of Trustee Fees were payable to Mr. Senst. Mr. Senst elected to receive his 2022 Trustee Fees in the form of Deferred Units, and his accrued 2023 Trustee Fees (as of June 30, 2023) in cash. Due to various blackout periods observed by NHT and certain restrictions on granting security based compensation to insiders pursuant to TSXV Policy 4.4, on September 11, 2023, the REIT conditionally granted 403,668 Deferred Units to Mr. Senst in respect of his remaining portion of 2021 Trustee Fees and 2022 Trustee Fees. The Board, on the recommendation of the Compensation, Governance and Nominating Committee, matched 100% of the total value of Trustee Fees that Mr. Senst elected to receive in the form of Deferred Units. As of the date hereof, Mr. Senst holds 673,043 Deferred Units.

(4) Mr. Patava was appointed to the Board on August 31, 2022. The Board may fix a maximum portion of the Trustee Fees payable to the independent Trustees to be paid in the form of Deferred Units in lieu of cash, subject to the election of the independent Trustees. The Trustee Fees payable to Mr. Patava in respect of fiscal 2022 and fiscal 2023 (as of June 30, 2023) is US$20,000 and US$30,000 respectively. Mr. Patava elected to receive such fees in the form of Deferred Units. The Board, on the recommendation of the Compensation, Governance and Nominating Committee matched 100% of the total value of Trustee Fees that Mr. Patava elected to receive in the form of Deferred Units. Due to various blackout periods observed by NHT and certain restrictions on granting security based compensation to insiders pursuant to TSXV Policy 4.4, on September 11, 2023, the REIT conditionally granted 200,000 Deferred Units to Mr. Patava in respect of his remaining portion of his 2022 Trustee Fees and 2023 Trustee Fees (accrued as of June 30, 2023). The Board, on the recommendation of the Compensation, Governance and Nominating Committee, matched 100% of the total value of Trustee Fees that Mr. Patava elected to receive in the form of Deferred Units. As of the date hereof, Mr. Patava holds 200,000 Deferred Units.

Advisory and Management Agreements

Advisory Agreement

Pursuant to the Advisory Agreement, subject to the overall supervision of the Board, the Advisor manages the day-to-day operations of, and provides investment management services to NHT. As consideration for the Advisor's services, NHT pays to the Advisor an Advisory Fee at an annualized rate of 1.00% of REIT Asset Value (as defined therein), less certain fee waivers and adjustments, together with reimbursement of certain general and administrative expenses. The Advisory Agreement has an initial term of two years. Following the initial term, the Advisory Agreement will continue in full force and effect, subject to early termination, so long as such continuance is approved at least annually by (i) the board of managers of NHH, and (ii) either (a) the Board or (b) a vote of the Unitholders.

On April 29, 2020, in light of developments related to the outbreak of COVID-19 and corresponding impact on the hospitality industry, the Advisor agreed to waive the Advisory Fee and certain expenses provided for in the Advisory Agreement until operations of NHT and NHH stabilized. On November 25, 2020, the Advisor reinstated the Advisory Fee, however, the Advisor agreed to defer payment of the Advisory Fee until NHT is cash flow positive and can sustain the payments. The Advisor did not collect any fees for the year ended December 31, 2022. However, in August 2023, the REIT commenced repayment of a portion of the accrued Advisory Fees.

Hotel Management Agreements

NHT's hotel properties are operated pursuant to hotel management agreements (the "**Hotel Management Agreements**") between the affiliates of Aimbridge Hospitality Holdings, LLC (collectively, the "**Manager**"), a professional third-party hotel management company, and the taxable subsidiaries of NHT ("**TRS Entities**") that lease the properties from the OP and its subsidiaries. The Hotel Management Agreements require the TRS Entities to pay a base fee to the Manager calculated as a percentage of hotel revenues generated by the hotel operations. In addition, the Hotel Management Agreements sometimes provide that the Manager can earn an incentive fee for meeting certain performance metrics. Neither NHT nor any of its affiliates has any ownership or economic interest in the Manager engaged by the TRS Entities.

GOVERNANCE PRACTICES

A summary of the responsibilities and activities and the membership of each of NHT's Board committees is set out below. National Policy 58-201 – *Corporate Governance Guidelines* establishes corporate governance guidelines that apply to all public companies. NHT has reviewed its own corporate governance practices in light of these guidelines. In certain cases, NHT's practices comply with the guidelines, however, the Board considers that some of the guidelines are not suitable for NHT at its current stage of development and, therefore, these guidelines have not been adopted. The Board is committed to sound corporate governance practices in the interest of its Unitholders. NHT will continue to review and implement corporate governance guidelines as the business of NHT progresses.

In accordance with the corporate governance guidelines set out under National Instrument 58-101 – *Disclosure of Corporate Governance Practices* ("**NI 58-101**"), the following is a summary of the governance practices of NHT.

Composition of Board of Trustees and Independence

The Board is comprised of four Trustees, a majority of whom are independent Canadian residents. Pursuant to NI 58-101, an independent Trustee is one who is free from any direct or indirect relationship which could, in the view of the Board, be reasonably expected to interfere with a Trustee's independent judgment. NHT has determined that Neil Labatte (Lead Trustee), Graham Senst and Jerry Patava are independent under NI 58-101, and that James Dondero, NHT's Chief Executive Officer, is not independent. All of the trusteeships and directorships of the Trustees with other public entities are disclosed in the biographical information for each Trustee set out under "*Matters to be Considered at the Meeting – 2. Election of Trustees*".

The independent Trustees hold *in-camera* sessions at the conclusion of each regularly scheduled Board and committee meeting. The Lead Trustee of the Board conducts the *in-camera* sessions of the Board and the Chair of each committee conducts the *in-camera* sessions of its committee, as applicable, without management or the other non-independent Trustees present.

Nomination of Trustees

Other than the NexPoint Holders' nominees nominated pursuant to the Investor Rights Agreement, all Board nominees are nominated by the Compensation, Governance and Nominating Committee, who make such nominations after considering the mix of skills and experience it believes are necessary to further NHT's goals. The written charter of the Compensation, Governance and Nominating Committee sets out the committee's responsibilities with respect to nominating Board member candidates, which include to: (i) review annually the competencies, skills and personal qualities of the Board, in light of current and expected future needs; (ii) seek individuals qualified (in the context of the needs of NHT) to become members of the Board; (iii) review and recommend to the Board, the membership and allocation of Board members to the various committees of the Board; and (iv) consider the level of diversity on the Board.

The Compensation, Governance and Nominating Committee will seek prospective candidates who are independent, have recognized functional and industry experience, sound business judgement, high ethical standards, time to

devote to the Board and the ability to contribute to the Board's diversity (with respect to gender, experience, geography, ethnicity and age).

Trustees elected at an annual meeting are elected for a term expiring at the close of the subsequent annual meeting and are eligible for re-election. Trustees appointed by the Trustees between meetings of Unitholders in accordance with the Declaration of Trust are appointed for a term expiring at the close of the next annual meeting and are eligible for election or re-election, as the case may be.

Effective August 31, 2022, upon recommendation of the Compensation, Governance and Nominating Committee, after considering the benefits of a larger Board with new skillsets and experiences, the Board approved the appointment of Jerry Patava as Trustee. Mr. Patava's extensive experience in the hospitality industry and in public company governance will significantly contribute to the Board.

Term Limits

NHT does not impose term limits on its Trustees, as it takes the view that term limits are an arbitrary mechanism for removing Trustees that can result in valuable, experienced Trustees being forced to leave the Board solely because of length of service. NHT is committed to ensuring that its Board is comprised of individuals with appropriate skill sets.

Board Mandate

The mandate of NHT's Board is one of stewardship and oversight of NHT and its business. In fulfilling its mandate, the Board has adopted a written charter setting out its responsibility for, among other things, (i) participating in the development of and approving a strategic plan for NHT; (ii) supervising the activities and managing the investments and affairs of NHT; (iii) approving major decisions regarding NHT; (iv) defining the roles and responsibilities of management; (v) reviewing and approving the business and investment objectives to be met by management; (vi) assessing the performance of and overseeing management; (vii) reviewing NHT's debt strategy; (viii) identifying and managing risk exposure; (ix) ensuring the integrity and adequacy of NHT's internal controls and management information systems; (x) succession planning; (xi) establishing committees of the Board, where required or prudent, and defining their mandate; (xii) maintaining records and providing reports to Unitholders; (xiii) ensuring effective and adequate communication with Unitholders, other stakeholders and the public; (xiv) determining the amount and timing of distributions to Unitholders; and (xv) acting for, voting on behalf of and representing NHT as a holder of interests of certain of its subsidiaries. A copy of the Board's written charter is attached to this Information Circular as Appendix "E".

Position Descriptions

Chair of the Board, Lead Trustee and Committee Chairs

The Board has adopted a written position description for the Chair of the Board and the Lead Trustee (for instances where the Chair of the Board is not independent within the meaning of NI 58-101), which sets out the Chair's and the Lead Trustee's key responsibilities, including, as applicable, duties relating to setting Board meeting agendas, chairing Board and Unitholder meetings, Trustee development and communicating with Unitholders and regulators. The Board has also adopted a written position description for each of the committee chairs which sets out each of the committee chair's key responsibilities, including duties relating to setting committee meeting agendas, chairing committee meetings and working with the respective committee members and management to ensure, to the greatest extent possible, the effective functioning of the committee.

Chief Executive Officer

The Board has adopted a written position description and mandate for the Chief Executive Officer of NHT which sets out the key responsibilities of the Chief Executive Officer. The primary functions of the Chief Executive Officer are to

lead management of the business and affairs of NHT, to lead the implementation of the resolutions and the policies of the Board and to communicate with Unitholders and regulators.

Orientation and Continuing Education

New Trustees

When new Trustees are elected to the Board, they can be expected to participate in an orientation program. The orientation program will familiarize new Trustees with NHT's business and operations, including structure, operations, and risks. They will be briefed on the role of the Board, its committees and the contributions individual Trustees are expected to make. New Trustees can also be expected to receive an orientation package containing all committee mandates and charters, copies of NHT's policies and other background information on NHT's business, operations and risks.

Continuing Education

NHT's continuing education program for its Trustees involves the ongoing evaluation by the Compensation, Governance and Nominating Committee of the skills and competencies of existing Trustees. The Board is currently comprised of highly qualified and experienced Trustees with impressive levels of skill and knowledge. The Trustees are seasoned business executives, directors or professionals with considerable experience, including as directors or trustees of other public companies. The Compensation, Governance and Nominating Committee continually monitors the composition of the Board and will recommend the adoption of a formal continuing education program should it be determined to be necessary.

Ethical Business Conduct

NHT has adopted a written code of business conduct and ethics (the "**Code of Conduct**") that applies to all Trustees, officers, and management of NHT and its subsidiaries. The objective of the Code of Conduct is to provide guidelines for maintaining the integrity, reputation, honesty, objectivity and impartiality of NHT and its subsidiaries. The Code of Conduct addresses compliance with laws, rules and regulations, conflicts of interest, corporate opportunities, protecting NHT's assets, confidentiality, information protection, competition and fair dealing with securityholders, gifts and entertainment, payments to government personnel, lobbying, discrimination and harassment, health and safety, accuracy of records and reporting and use of e-mail and Internet services. As part of the Code of Conduct, any person subject to the Code of Conduct is required to avoid or fully disclose interests or relationships that are harmful or detrimental to NHT's best interests or that may give rise to real, potential, or the appearance of, conflicts of interest. The Board has the ultimate responsibility for the stewardship of the Code of Conduct.

In order to ensure compliance with the Code of Conduct, NHT personnel are encouraged to talk to supervisors, managers or other appropriate personnel about observed illegal or unethical behavior and when in doubt about the best course of action in a particular situation. Employees may report violations of the Code of Conduct anonymously. It is the policy of NHT not to allow retaliation for reports of misconduct by others made in good faith. It is, at the same time, unacceptable to file a report knowing it is false.

Board Committees

The Board has established two committees: the Audit Committee and the Compensation, Governance and Nominating Committee.

Audit Committee

The Audit Committee consists of four Trustees, all of whom are persons determined by NHT to be financially literate within the meaning of National Instrument 52-110 – *Audit Committees* ("**NI 52-110**"), and a majority of whom are persons determined by NHT to be Independent Trustees within the meaning of NI 52-110.

The Audit Committee is currently comprised of Graham Senst (Chair), Neil Labatte, Jerry Patava and James Dondero. Mr. Senst, Mr. Labatte and Mr. Patava have been determined by NHT to be independent and are residents of Canada. Each of the Audit Committee members has an understanding of the accounting principles used to prepare financial statements and varied experience as to the general application of such accounting principles, as well as an understanding of the internal controls and procedures necessary for financial reporting. For details regarding the relevant education and experience of each member of the Audit Committee, see "*Matters to be Considered at the Meeting – 2. Election of Trustees*".

The Board has adopted a written charter for the Audit Committee, which sets out the Audit Committee's responsibilities. A copy of the Audit Committee's written charter is attached to this Information Circular as Appendix "F". The Audit Committee has direct communication channels with the Chief Financial Officer and the external auditors of NHT to discuss and review such issues as the Audit Committee may deem appropriate.

Part 6 of NI 52-110 exempts issuers listed on the TSXV from the requirements of Parts 3 (Composition of the Audit Committee) and 5 (Reporting Obligations) of NI-52-110. As a result, all of the members of the Committee are not required to be independent within the meaning of NI 52-110; however, NHT is required to provide on an annual basis, the disclosure regarding its Audit Committee made in this Information Circular.

Audit Committee Oversight

At no time since the commencement of NHT's most recently completed financial year was a recommendation of the Audit Committee to nominate or compensate an external auditor not adopted by the Board.

Reliance on Certain Exemptions

At no time since the commencement of NHT's most recently completely financial year has NHT relied on the exemption in section 2.4 of NI 52-110 (De Minimis Non-Audit Services), or an exemption from NI 52-110, in whole or in part, granted under Part 8 of NI 52-110.

Pre-approval Policies and Procedures

The Audit Committee has adopted specific policies and procedures for the engagement of non-audit services as described in the Audit Committee's written charter.

External Auditor Service Fees (By Category)

The aggregate fees billed by NHT's external auditors in the last two fiscal years for audit fees are as follows:

Financial Year Ending	Audit Fee	Audit Related Fees	Tax Fees	All Other Fees
2022	$284,000	$0	$172,200	$0
2021	$298,000	$0	$162,769	$0

Compensation, Governance and Nominating Committee

The Compensation, Governance and Nominating Committee must be comprised of at least three Trustees, a majority of whom must be persons determined by the Board to be independent Trustees and a majority of whom must be residents of Canada. The Compensation, Governance and Nominating Committee is charged with reviewing, overseeing and evaluating the compensation, corporate governance and nominating policies of NHT. The Compensation, Governance and Nominating Committee is currently comprised of Neil Labatte (Chair), Graham Senst, Jerry Patava and James Dondero. Mr. Senst, Mr. Labatte and Mr. Patava have been determined by NHT to be independent within the meaning of NI 52-110 and are residents of Canada.

INDEBTEDNESS OF TRUSTEES AND OFFICERS

None of the Trustees, executive officers, employees, former executive officers or former employees of NHT or any of its subsidiaries, and none of their respective associates, is or has at any time since the beginning of the most recently completed financial year been indebted to NHT or any of its subsidiaries or another entity whose indebtedness is the subject of a guarantee, support agreement, letter of credit or other similar agreement or understanding provided by NHT or any of its subsidiaries.

INTERESTS OF CERTAIN PERSONS OR COMPANIES IN MATTERS TO BE ACTED UPON

Other than as disclosed herein, none of the Trustees or executive officers of NHT who have been a Trustee or executive officer at any time since the beginning of NHT's last financial year, none of the proposed nominees for election as Trustees of NHT, and no associate or affiliate of any of the foregoing, has any material interest, direct or indirect, by way of beneficial ownership of securities or otherwise, in any matter to be acted upon at the Meeting.

INTEREST OF INFORMED PERSONS IN MATERIAL TRANSACTIONS

Other than as set forth in this Information Circular and below, to the knowledge of the Trustees of NHT, no informed person (as defined in National Instrument 51-102 – *Continuous Disclosure Obligations*) of NHT, no proposed Trustee of NHT and no known associate or affiliate of any such informed person or proposed Trustee, since the commencement of the year ended December 31, 2022, has or has had any material interest, direct or indirect, by way of beneficial ownership of securities or otherwise, in any transaction which has or would materially affect NHT or any of its subsidiaries.

In connection with NHT's initial public offering, NHT acquired its portfolio of 11 hotel properties, in part, from certain principals and affiliates of the Advisor, including James Dondero (the "**Initial Contribution**"). Details of the Initial Contribution are set forth in NHT's final initial public offering prospectus dated March 27, 2019 available on the SEDAR website at www.sedarplus.ca.

On March 29, 2019, NHT entered into the Advisory Agreement with the Advisor, an entity affiliated with certain named executive officers, including James Dondero. The Advisory Agreement is available on the SEDAR website at www.sedarplus.ca.

NexPoint Real Estate Opportunities LLC ("**NREO**"), an entity indirectly controlled by James Dondero, loaned NHT an aggregate of $2,643,000 evidenced by two promissory notes dated as of January 8, 2019 and one promissory note dated as of May 6, 2019 for general working capital purposes (the "**Advance**"). The Advance carried an interest rate of 2.06% per annum and matured on January 8, 2020.

On December 27, 2019, NREO, redeemed 13,370,573 Class B Units and received 13,370,573 Units as consideration (the "**Redemption**"). Following the Redemption, NREO distributed 13,370,573 Units as a dividend to NexPoint Strategic Opportunities Fund, an entity indirectly controlled by James Dondero. The early warning report related to the Redemption is available on the SEDAR website at www.sedarplus.ca.

On February 10, 2020, NHT completed a non-brokered private placement offering, pursuant to which certain existing unitholders of NHT purchased an aggregate of 850,705 Units (the "**Private Placement**") for aggregate gross proceeds of $4,253,525. Certain subscribers in the Private Placement are directly or indirectly controlled by certain named executive officers, including James Dondero and Jesse Blair. A news release containing the particulars of the Private Placement is available on the SEDAR website at www.sedarplus.ca.

On October 14, 2020, NHT entered into an indemnification agreement with, *inter alia*, the Advisor pursuant to which the Advisor or funds advised by it or its affiliates agreed to fully fund two settlement payments totaling $4,750,000 (the "**Settlement Payments**") and indemnify NHT and its subsidiaries for any losses incurred in relation to the settlement agreement executed on October 14, 2020 with Condor Hospitality Trust Inc. ("**Condor**") following Condor's termination of the parties' previously announced merger agreement. In exchange for funding the

Settlement Payments, a subsidiary of NHT agreed to issue $4,750,000 principal amount of promissory notes to the entities funding the Settlement Payments.

On March 30, 2020, NHT announced that one of its subsidiaries had, between November 2020 and January 2021, issued convertible notes (the "**Notes**") in the aggregate principal amount of US$5.4 million to an affiliate of NHT's Advisor for general working capital purposes. The Advisor is affiliated with certain named executive officers, including James Dondero. The Notes carry an interest rate of 2.25% per annum, and are convertible into Class B Units at the option of the noteholder in its sole discretion. Any conversion of the Notes is subject to any required approval of the TSXV.

Between June 2021 and September 2022, the REIT received 32 loans from entities controlled or managed by James Dondero in the aggregate amount of US$56,165,000 (the "**COVID Loans**"). The TSXV has requested that the REIT make certain amendments to the COVID loans. See "*Matters to be Considered at the Meeting – 6. Approval of Amendments to COVID Loans*" for a description of the COVID Loans.

OTHER BUSINESS

The Trustees are not aware of any matters intended to come before the Meeting other than those items of business set forth in the Notice of Meeting accompanying this Information Circular. If any other matters properly come before the Meeting, it is the intention of the persons named in the Form of Proxy and voting instruction form to vote in respect of those matters in accordance with their judgment.

ADDITIONAL INFORMATION

Financial information is provided in NHT's financial statements and NHT's MD&A for the year ended December 31, 2022. Copies of NHT's financial statements for the year ended December 31, 2022, together with the auditors' report thereon, the MD&A and this Information Circular are available upon written request to NHT (at NexPoint Hospitality Trust 300 Crescent Court, Suite 700, Dallas, Texas 75201 USA, Attention: Brian Mitts, Chief Financial Officer). NHT may require payment of a reasonable charge if the request is made by a person who is not a Unitholder. These documents and additional information relating to NHT may also be found on the SEDAR website at www.sedarplus.ca and on NHT's website at www.nexpointhospitality.com.

APPROVAL OF TRUSTEES

The foregoing contains no untrue statement of a material fact and does not omit to state a material fact that is required to be stated or that is necessary to make a statement not misleading in light of the circumstances in which it was made.

The contents of this Information Circular and its distribution to Unitholders have been approved by the Board of Trustees.

BY ORDER OF THE BOARD OF TRUSTEES

Dated: September 11, 2023

"James Dondero"

Chair of the Board
NexPoint Hospitality Trust

APPENDIX "A"
RESOLUTION REGARDING APPROVAL OF AMENDED AND RESTATED DEFERRED UNIT PLAN

BE IT RESOLVED THAT:

1. The Amended and Restated Deferred Unit Plan of the REIT, in the form substantially set forth in Appendix "B" to the REIT's Information Circular dated September 11, 2023, is hereby confirmed, ratified and approved.

2. Any one or more trustees or officers of the REIT are hereby authorized and directed to execute, deliver, register and file in the name and on behalf of the REIT, any certificates, instruments, agreements, notices, affidavits, supporting material and other documents, and to obtain any required consents, approvals and to do any other acts and things as in the opinion of such person(s) may be necessary or desirable to give full effect to the above resolutions, to facilitate all matters relating to those resolution and to allow the execution and delivery of any and all such other agreements, documents and instruments and the performance or causing the performance of any and all such other acts and things to be conclusive evidence of such determination.

APPENDIX “B”
AMENDED AND RESTATED DEFERRED UNIT PLAN

NEXPOINT HOSPITALITY TRUST

AMENDED AND RESTATED DEFERRED UNIT PLAN

September 11, 2023

NEXPOINT HOSPITALITY TRUST
AMENDED AND RESTATED DEFERRED UNIT PLAN

ARTICLE 1
PURPOSE

1.01 The purpose of this Plan is to advance the interests of NexPoint Hospitality Trust (the "**REIT**") by enhancing the ability of the REIT and any of its Subsidiaries to attract, motivate and retain Trustees of the REIT to reward such persons for their sustained contributions and to encourage such persons to take into account the long-term corporate performance of the REIT.

1.02 This Plan amends and restates the Deferred Unit Plan of the REIT dated June 30, 2022.

ARTICLE 2
DEFINITIONS

The following terms used in this Plan have the meanings set out below:

(a) "**Additional Deferred Units**" has the meaning ascribed thereto in Section 8.03;

(b) "**Advisor**" means NexPoint Real Estate Advisors VI, L.P., or any subsequent external advisor to the REIT hired to perform similar services;

(c) "**Affiliate**" has the meaning given to such term in the TSXV Corporate Finance Manual, as such manual may be amended, supplemented or replaced from time to time;

(d) "**Applicable Withholding Taxes**" means any and all taxes and other source deductions or other amounts that the REIT or a Subsidiary is required by law to withhold from any amounts to be paid or credited under the Plan;

(e) "**Average Market Price**" at any date in respect of the Units shall be the volume weighted average price of the Units on the TSXV, for the five trading days immediately preceding such date (or, if such Units are not then listed and posted for trading on the TSXV, on such stock exchange on which the Units are listed and posted for trading as may be selected for such purpose by the Board); provided that, for so long as the Units are listed and posted for trading on the TSXV, the Average Market Price shall not be less than the market price, as calculated under the policies of the TSXV and provided, further, that with respect to a Deferred Unit issued to a U.S. taxpayer, such Participant and the number of Units subject to such issuance shall be identified by the Board prior to the start of the applicable five trading day period. In the event that such Units are not then listed and posted for trading on any Exchange, the Average Market Price shall be the fair market value of such Units as determined by the Board in its sole discretion and, with respect to an Award made to a U.S. taxpayer, in accordance with Section 409A of the Code. In no event shall the Average Market Price be less than the Discounted Market Price (as such term is defined in the TSXV Corporate Finance Manual, as such manual may be amended, supplemented or replaced from time to time);

(f) "**Award Date**" means the date upon which the Deferred Units are granted;

(g) "**Board**" means the Board of Trustees of the REIT;

(h) "**Business Day**" means a day on which there is trading on the TSXV or such other stock exchange on which the Units are then listed and posted for trading, and if none, a day that is not Saturday or Sunday or a national legal holiday in Ontario;

(i) "**Change in Control**" means the occurrence of any one or more of the following events:

(i) any transaction at any time and by whatever means, whether or not the REIT is a party thereto, pursuant to which any Person or any group of two or more Persons acting jointly or in concert (other than the REIT or a wholly-owned Subsidiary) hereafter acquires the direct or indirect "beneficial ownership" (as defined in the *Securities Act* (Ontario)) of, or acquires the right to exercise Control or direction over, securities of the REIT representing more than 50% of the then issued and outstanding voting securities of the REIT, including, without limitation, as a result of a take-over bid, an exchange of securities, an amalgamation of the REIT with any other entity, an arrangement, a capital reorganization or any other business combination or reorganization;

(ii) the sale, assignment or other transfer of all or substantially all of the consolidated assets of the REIT to a Person other than a wholly-owned Subsidiary or subsidiary of NHT Operating Partnership, LLC;

(iii) the approval by the REIT's unitholders of a complete dissolution or liquidation of the REIT, other than in connection with the distribution of assets of the REIT to one or more Persons which were wholly-owned Subsidiaries prior to such event;

(iv) the occurrence of a transaction requiring approval of the REIT's unitholders whereby the REIT is acquired through consolidation, merger, exchange of securities, purchase of assets, amalgamation, statutory arrangement or otherwise by any other Person (other than a short form amalgamation or exchange of securities with a wholly-owned Subsidiary); or

(v) individuals who comprise the Board as of the last annual meeting of unitholders of the REIT (the "**Incumbent Board**") for any reason ceasing to constitute at least a majority of the members of the Board, unless the election, or nomination for election by the REIT's unitholders, of any new trustee was approved by a vote of at least a majority of the Incumbent Board, and in that case such new trustee shall be considered as a member of the Incumbent Board;

provided that, notwithstanding clauses (i), (ii), (iii) and (iv) above, a Change in Control shall be deemed not to have occurred pursuant to clauses (i), (ii), (iii) and

(iv) above if immediately following the transaction set forth in clause (i), (ii), (iii) and (iv) above: (A) the holders of securities of the REIT that immediately prior to the consummation of such transaction represented more than 50% of the combined voting power of the then outstanding securities eligible to vote for the election of trustees of the REIT hold (x) securities of the entity resulting from such transaction (including, for greater certainty, the Person succeeding to assets of the REIT in a transaction contemplated in clause (ii) above) (the "**Surviving Entity**") that represent more than 50% of the combined voting power of the then outstanding securities eligible to vote for the election of directors or trustees of the Surviving Entity, or (y) if applicable, securities of the entity that directly or indirectly has beneficial ownership of 100% of the securities eligible to elect directors or trustees of the Surviving Entity (the "**Parent Entity**") that represent more than 50% of the combined voting power of the then outstanding securities eligible to vote for the election of directors or trustees of the Parent Entity, and (B) no Person or group of two or more Persons, acting jointly or in concert, is the beneficial owner, directly or indirectly, of more than 50% of the voting power of the Parent Entity (or, if there is no Parent Entity, the Surviving Entity) (any such transaction which satisfies all of the criteria specified in clauses (A) and (B) above being referred to as a "**Non-Qualifying Transaction**" and, following the Non-Qualifying Transaction, references in this definition of "Change in Control" to the "REIT" shall mean and refer to the Parent Entity (or, if there is no Parent Entity, the Surviving Entity) and, if such entity is a company or a trust, references to the "Board" shall mean and refer to the board of directors or trustees, as applicable, of such entity).

Notwithstanding the foregoing, for purposes of any Deferred Unit that constitutes "deferred compensation" (within the meaning of Section 409A of the Code), the payment of which would be accelerated upon a Change in Control, a transaction will not be deemed a Change in Control for Awards granted to any Participant who is a U.S. taxpayer unless the transaction qualifies as "a change in control event" within the meaning of Section 409A of the Code;

(j) "**Control**" means:

(i) when applied to the relationship between a Person and a corporation, the beneficial ownership by that Person, directly or indirectly, of voting securities or other interests in such corporation entitling the holder to exercise control and direction in fact over the activities of such corporation;

(ii) when applied to the relationship between a Person and a partnership, limited partnership, trust or joint venture, means the contractual right to direct the affairs of the partnership, limited partnership, trust or joint venture; and

(iii) when applied in relation to a trust, the beneficial ownership at the relevant time of more than 50% of the property settled under the trust, and

the words "**Controlled by**", "**Controlling**" and similar words have corresponding meanings; provided that a Person who controls a corporation, partnership, limited partnership or joint venture will be deemed to Control a corporation, partnership,

limited partnership, trust or joint venture which is Controlled by such Person and so on;

(k) "**Code**" shall mean the *United States Internal Revenue Code* of 1986, as amended from time to time and any successor thereto;

(l) "**Compensation Committee**" means the Compensation, Governance and Nominating Committee of the Board;

(m) "**Deferred Unit**" means a bookkeeping entry, equivalent in value to a Unit, credited to a Participant's Deferred Unit Account in accordance with the terms and conditions of the Plan and for greater certainty consists of both Granted DUs and Elected DUs;

(n) "**Deferred Unit Account**" has the meaning ascribed thereto in Section 8.02;

(o) "**Elected Amount**" means such portion of the Trustee Fees as an Electing Person elects to receive in Elected DUs;

(p) "**Elected DUs**" has the meaning ascribed thereto in Section 6.01;

(q) "**Electing Person**" has the meaning ascribed thereto in Section 6.02;

(r) "**Election Notice**" has the meaning ascribed thereto in Section 6.02;

(s) "**Exchange**" means the TSXV and any other exchange on which the Units are or may be listed from time to time;

(t) "**Granted DUs**" has the meaning ascribed thereto in Section 5.02;

(u) "**Insider**" has the meaning given to such term in the TSXV Corporate Finance Manual, as such manual may be amended, supplemented or replaced from time to time;

(v) "**Officer**" means an executive or senior management employee of the REIT or any of its Subsidiaries;

(w) "**Participant**" has the meaning ascribed thereto in Section 5.01;

(x) "**Person**" means an individual, sole proprietorship, partnership, unincorporated association, unincorporated syndicate, unincorporated organization, trust, body corporate, and a natural person in his or her capacity as trustee, executor, administrator or other legal representative;

(y) "**Plan**" means this Amended and Restated Deferred Unit Plan;

(z) "**Redemption Date**" has the meaning ascribed thereto in Section 10.02;

(aa) "**REIT**" has the meaning ascribed thereto in Article 1;

(bb) "**RTO**" has the meaning ascribed thereto in the TSXV Corporate Finance Manual.

(cc) "**Security Based Compensation Arrangement**" means an option, option plan, employee unit purchase plan, long-term incentive plan or any other compensation or incentive mechanism involving the issuance or potential issuance of Units to one or more directors, Trustees or Officers of the REIT or any Subsidiary, current or past full-time or part-time employees of the REIT or any Subsidiary, Insiders or service providers or consultants of the REIT or any Subsidiary including a Unit purchase from treasury by one or more Trustees, Officers, directors or officers of any Subsidiary, current or past full-time or part-time employees of the REIT or any Subsidiary, Insiders or service providers or consultants of the REIT or any Subsidiary which is financially assisted by the REIT or any Subsidiary by way of a loan, guarantee or otherwise;

(dd) "**Section 409A of the Code**" shall mean Section 409A of the Code, the U.S. Treasury Regulations promulgated thereunder as in effect from time to time, and related guidance as may be amended from time to time;

(ee) "**Separation from Service**" shall have the meaning given to such phrase in U.S. Treasury Regulation § 1.409A-1(h);

(ff) "**Subsidiary**" means any entity Controlled by the REIT;

(gg) "**Trustee**" means a non-employee trustee of the REIT, which for the purposes of determining Participants under the Plan, shall exclude James Dondero, Chief Executive Officer of the REIT;

(hh) "**Trustee Fees**" means the annual cash retainer (including fees for serving as Chair of the Board or a committee of the Board) and meeting fees payable by the REIT to a Trustee in a calendar year for service on the Board;

(ii) "**TSXV**" means the TSX Venture Exchange;

(jj) "**Unit**" means a trust unit of the REIT; and

(kk) "**Unitholder**" means a holder of Units.

ARTICLE 3
CONSTRUCTION AND INTERPRETATION

3.01 The effective date of the Plan is August [●], 2023. The Plan shall be governed and interpreted in accordance with the laws of the Province of Ontario and the laws of Canada applicable therein.

3.02 If any provision of the Plan or part hereof is determined to be void or unenforceable in whole or in part, such determination shall not affect the validity or enforcement of any other provision or part hereof.

3.03 In the Plan, references to any gender include all genders; reference to the singular shall include the plural and vice versa, as the context shall require.

3.04 Headings wherever used herein are for reference purposes only and do not limit or extend the meaning of the provisions herein contained.

ARTICLE 4
ADMINISTRATION

4.01 The Plan shall be administered by the Board and Compensation Committee.

4.02 The Compensation Committee is authorized, subject to the provisions of the Plan, to establish such rules and regulations as it deems necessary for the proper administration of the Plan, and to make determinations and take such other action in connection with or in relation to the Plan as it deems necessary or advisable. Each determination or action made or taken pursuant to the Plan, including interpretation of the Plan, shall be final and conclusive for all purposes and binding on all parties, absent manifest error.

4.03 The REIT will be responsible for all costs relating to the administration of the Plan.

4.04 The Compensation Committee may review and confirm the terms of the Plan from time to time and the Board may, upon recommendation of the Compensation Committee and subject to applicable stock exchange rules, amend or suspend the Plan in whole or in part as well as terminate the Plan without prior notice as it deems appropriate; provided, however, that any amendment to the Plan including an amendment that would increase the maximum amount of $200,000 referred to in Section 11.04, result in any increase in the number of Deferred Units issuable under the Plan will be subject to the approval of Unitholders.

Notwithstanding the foregoing and for greater certainty, the Board may at any time and from time to time, without Unitholder approval, amend any provision of the Plan, including, without limitation:

(a) for the purpose of making formal, minor or technical modifications to any of the provisions of the Plan, including amendments of a "housekeeping" nature;

(b) to correct any ambiguity, defective provision, error or omission in the provisions of the Plan;

(c) to amend the vesting provisions of the Deferred Units, except for decreasing the vesting term of Granted DUs to less than one year from the Award Date; or

(d) any other amendment that does not require unitholder approval under applicable laws or the rules of the TSXV;

provided, however, that no such act shall diminish any rights accrued in respect of grants of Deferred Units made prior to the effective date of such amendment.

If the Compensation Committee terminates the Plan, Deferred Units previously credited to Participants shall remain outstanding and in effect and shall be settled subject to and in accordance with the applicable terms and conditions of the Plan in effect immediately prior to the termination.

4.05 Unless otherwise determined by the Compensation Committee, the Plan shall remain an unfunded obligation of the REIT and the rights of Participants under the Plan shall be general unsecured obligations of the REIT.

4.06 A Participant shall be solely responsible for all federal, provincial, state and local taxes resulting from his or her participation in the Plan. In this regard, the REIT shall be able to deduct from any payments hereunder (whether in the form of securities or cash) or from any other remuneration otherwise payable to a Participant any Applicable Withholding Taxes or to require the Participant, as a condition to receiving entitlements under the Plan, to make arrangements satisfactory to the REIT to enable the REIT to satisfy its withholding obligations. Each Participant agrees to indemnify and save the REIT harmless from any and all amounts payable or incurred by the REIT or any of its Subsidiaries if it is subsequently determined that any greater amount should have been withheld in respect of Applicable Withholding Taxes.

ARTICLE 5
PARTICIPATION AND REGULAR GRANTS

5.01 Individuals who are *bona fide* Trustees of the REIT are participants in the Plan ("**Participants**").

5.02 Participants may be awarded Deferred Units from time to time at the discretion of the Board, on the recommendation of the Compensation Committee ("**Granted DUs**").

5.03 Nothing herein contained shall be deemed to give any person the right to be retained as a Trustee, Officer, employee or service provider of the REIT and its Subsidiaries.

ARTICLE 6
ELECTIONS BY TRUSTEES

6.01 Subject to Section 6.02, a Participant may, subject to the conditions stated herein, elect to receive up to 100% of his or her Trustee Fees otherwise payable in cash, in the form of Deferred Units ("**Elected DUs**" and together with the Granted DUs, shall all be considered Deferred Units). The Award Date for Elected DUs shall be the date that a Participant would have received the Trustee Fees otherwise payable in cash.

6.02 Each Participant that elects to receive Elected DUs (each, an "**Electing Person**") will be required to file a notice of election in the form of Schedule A-1 hereto (the "**Election Notice**") with the Chief Financial Officer of the REIT: (i) in the case of an existing Trustee, by December 31st in the year prior to the year to which such election is to apply; and (ii) in the case of a newly appointed Trustee, within 30 days of such appointment with respect to compensation paid for services to be performed after such date. If no election is made within the foregoing time frames, the Trustee shall be deemed to have elected not to receive any Elected DUs and to be paid his or her Trustee Fees entirely in cash.

6.03 Subject to Section 6.04, the election of a Trustee to be an Electing Person shall be deemed to apply to such proportion of the Trustee Fees set out in the Election Notice, payable to the Trustee subsequent to the filing of the Election Notice, and such Trustee is not required to file another Election Notice.

6.04 Each Electing Person is entitled once per calendar year to terminate his or her Election Notice by filing with the Chief Financial Officer of the REIT a notice in the form of Schedule A-2 hereto electing to terminate the receipt of Elected DUs. Such election shall be effective 30 days following receipt. Thereafter, any portion of such Trustee's Trustee Fees otherwise payable in cash and payable or paid in the same calendar year and, subject to complying with Section 6.02, all subsequent calendar years shall be paid in cash. For greater certainty, to the extent a Trustee terminates his or her Election Notice, he or she shall not be entitled to become an Electing Person again until the calendar year following the year in which the termination notice is delivered. For an Electing Person who is a U.S. taxpayer, his or her Election Notice may not be revoked or moedified with respect to the Elected DUs for any calendar year for which it is effective. The U.S. taxpayer Electing Person may terminate or modify his or her Election Notice with respect to compensation paid for services to be performed after such date by filing a new Election Notice before the first day of the calendar year to which such termination or modification applies.

ARTICLE 7
DEFERRED UNITS

7.01 Under no circumstances shall Deferred Units be considered Units nor entitle a Participant to any rights as a Unitholder, including, without limitation, voting rights, distribution entitlements (other than in accordance herewith) or rights on liquidation.

7.02 One Deferred Unit is economically equivalent to one Unit.

7.03 Elected DUs granted to Trustees pursuant to the terms of this Plan will vest immediately upon grant (including any Additional Deferred Units issued pursuant to Elected DUs credited to a Participant's account in connection with cash distributions pursuant to Section 8.03). Granted DUs granted to Trustees pursuant to the terms of this Plan will vest on the first anniversary of the Award Date (including any Additional Deferred Units issued pursuant to Granted DUs credited to a Participant's account in connection with cash distributions pursuant to Section 8.03).

ARTICLE 8
DEFERRED UNIT GRANTS AND ACCOUNTS

8.01 The number of Deferred Units (including fractional Deferred Units) granted at any particular time pursuant to this Plan will be equal to (i) the Elected Amount (in dollars) in respect of Trustee Fees which a Trustee has determined to take in the form of Deferred Units, as determined by a Trustee pursuant to an Election Notice (as contemplated by Section 6.02), divided by the Average Market Price of a Unit on the Award Date, plus (ii) the Granted DUs, if any, granted to such Trustee.

8.02 An account, to be known as a "**Deferred Unit Account**" shall be maintained by the REIT for each Participant and will be credited with grants of Deferred Units received by a Participant from time to time.

8.03 Whenever cash distributions are paid on the Units, additional Deferred Units will be credited to the Participant's Deferred Unit Account ("**Additional Deferred Units**"). The number of such Additional Deferred Units to be credited to a Participant's Deferred Unit Account in respect of a cash distribution paid on the Units shall be calculated by dividing the amount which is equal to the aggregate distributions that would have been paid to such Participant if the Deferred Units in the Participant's Deferred Unit Account had been Units divided by the Average Market Price on the distribution payment date.

8.04 For greater certainty, the number of Deferred Units credited to a Participant's Deferred Unit Account shall count towards that Participant's ownership requirements as prescribed from time to time by the Board.

8.05 For greater certainty, any Additional Deferred Units shall count toward the limits set forth in Article 11. Where an award of Additional Deferred Units would be prohibited by the limits set forth in Article 11, the REIT may make a cash distribution to the applicable Participant in lieu of Additional Deferred Units.

ARTICLE 9
ADJUSTMENTS AND EVENTS AFFECTING THE REIT

9.01 In the event of any Unit distribution, Unit split, combinations or exchange of Units, merger, consolidation, spin-off or other distribution of the REIT's assets to the Unitholders (other than normal cash distributions), or any other similar change affecting the Units, the account of each Participant and the Deferred Units outstanding under the Plan shall be adjusted in such manner, if any, as the Board may in its discretion deem appropriate to reflect the event. However, no amount will be paid to, or in respect of, a Participant under the Plan or pursuant to any other arrangement, and no additional Deferred Units will be granted to such Participant to compensate for a downward fluctuation in the price of the Units, nor will any other form of benefit be conferred upon, or in respect of, a Participant for such purpose.

9.02 Except as may be set forth in an award agreement or other written agreement between the REIT or a subsidiary of the REIT and the Participant, subject to applicable law or the requirements of the TSXV or any other stock exchange upon which the Units are listed and any Unitholder or other approval which may be required:

(a) Notwithstanding anything else in this Plan, the Board may, without the consent of any Participant, take such steps as it deems necessary or desirable, to ensure the preservation of the economic interests of the Participants in, and to prevent the dilution or enlargement of, any Deferred Units granted under the Plan, including to cause (i) the conversion or exchange of any outstanding Deferred Units into or for, rights or other securities of substantially equivalent value (or greater value), as determined by the Board in its discretion, in any entity participating in or resulting from a Change in Control (provided that for any Participant that is a resident of Canada for the purposes of the Tax Act, any such securities will be shares of a

corporation or units of a "mutual fund trust" (for the purposes of the Tax Act) and any such rights will be rights to acquire shares of a corporation or units of a "mutual fund trust", in any case of an entity that does not deal at arm's length with the REIT (for the purposes of the Tax Act) at the time such shares, units or rights are issued or granted); (ii) outstanding Deferred Units to vest and become exercisable, realizable, or payable, or restrictions applicable to a Deferred Unit to lapse, in whole or in part, prior to or upon consummation of a Change in Control, take-over bid, RTO or other similar transaction and, to the extent the Board determines, terminate upon or immediately prior to the effectiveness of such Change in Control, take-over bid, RTO or other similar transaction; or (iii) any combination of the foregoing. In taking any of the actions permitted under this Section 9.02(a), the Board will not be required to treat all Deferred Units similarly in the transaction. For greater certainty, the Board cannot cause any Participant that is a resident of Canada for the purposes of the Tax Act to receive anything other than shares of a corporation or units of a "mutual fund trust", or rights to acquire such shares or units, in any case of an entity that does not deal at arm's length with the REIT (for the purposes of the Tax Act) at the time such shares, units or rights are issued or granted.

(b) It is intended that any actions taken under this Section 9.02 will comply with the requirements of Section 409A of the Code with respect to Awards granted to U.S. taxpayers. For the avoidance of doubt, to the extent that there is a conflict in this Plan with Section 409A of the Code, Section 409A of the Code shall control.

9.03 Notwithstanding anything else in this Plan, the Board may, in its discretion, at any time, subject to applicable law or the requirements of the TSXV or any other stock exchange upon which the Units are listed and any Unitholder or other approval which may be required, permit the acceleration of vesting of any or all Deferred Units or waive termination of any or all Deferred Units, in the manner and on the terms as may be authorized by the Board; provided, that any such acceleration or waiver comply with the requirements of Section 409A of the Code with respect to Deferred Units granted to U.S. taxpayers.

ARTICLE 10
REDEMPTION AND TERMINATION OF DEFERRED UNITS

10.01 Except with respect to Participants that are U.S. taxpayers, the Deferred Units (or a portion thereof) shall be redeemable by the Participant (or, where the Participant has died, his or her estate) on or after the date (the "**Termination Date**") on which the Participant ceases to be a Trustee, provided any such redemption date is not later than one year following the date the Participant ceases to be a Trustee. For greater certainty, in the event that a Participant (or his or her estate) has not redeemed his or her Deferred Units prior to the date that is one year following the Termination Date, such Deferred Units shall be automatically redeemed on the date that is one year following the Termination Date without any action required on the part of the Participant (or his or her estate).

10.02 For Participants that are Canadian residents and are not U.S. taxpayers, each vested Deferred Unit credited to a Participant's Deferred Unit Account will be redeemed automatically on the date on which the Participant files a written notice of redemption in the form of Schedule B

hereto with the Chief Financial Officer of the REIT (the "**Redemption Date**") for (i) one fully paid and non-assessable Unit issued from treasury to the Participant or as the Participant may direct, (ii) if so elected by the Participant, a cash payment, subject to the approval of the Board, or (iii) a combination of Units and cash as contemplated by paragraphs (i) and (ii) above.

10.03 For Participants that are U.S. taxpayers, each vested Deferred Unit credited to a Participant's Deferred Unit Account will be redeemed automatically on the date of the Trustee's Separation from Service for (i) one fully paid and non-assessable Unit issued from treasury to the Participant or as the Participant may direct, (ii) if so elected by the Participant, a cash payment, subject to the approval of the Board, or (iii) a combination of Units and cash as contemplated by paragraphs (i) and (ii) above.

10.04 Any cash payments made under this Article 10 by the REIT to a Participant in respect of Deferred Units to be redeemed for cash shall be calculated by multiplying the number of Deferred Units to be redeemed for cash by the Average Market Price per Unit as at the Redemption Date or date of the Trustee's Separation from Service, as applicable.

10.05 No fractional Units will be issued pursuant to the redemption of Deferred Units. At the time of redemption fractional Deferred Units shall be rounded down, and no payment shall be made to the Participant with respect to the fractional Deferred Units standing to the Participant's credit after the maximum number of whole Units due to such Participant have been issued by the REIT.

10.06 Upon payment in full of the value of the vested Deferred Units and the forfeiture of the unvested Deferred Units, the Deferred Units shall be cancelled.

10.07 Notwithstanding anything in this Article 10, in the event of the death of a Participant, all previously awarded Deferred Units shall be redeemable only within the one year after such death, and then only by the person or persons to whom the Participant's rights under the Deferred Units shall pass by the Participant's will or the laws of descent and distribution.

ARTICLE 11
NUMBER AND VALUE OF UNITS

11.01 The maximum number of Units reserved for issuance under this Plan at any time shall be 2,844,256. Notwithstanding the above, subject to applicable law or the requirements of the TSXV or any other stock exchange upon which the Units are listed and any Unitholder or other approval which may be required, the Board may, in its discretion, amend this Plan to increase such limit without notice to Participants, subject to Unitholder approval. If any Deferred Unit granted under this Plan is terminated, surrendered, forfeited, expired or is cancelled, new Deferred Units may thereafter be granted covering such Units, subject to any required prior approval by the TSXV or other stock exchange upon which the Units are listed. At all times, the REIT will reserve and keep available a sufficient number of Units to satisfy the requirements of all outstanding Deferred Units granted under this Plan.

11.02 The maximum aggregate number of Units that are issuable pursuant to all Security Based Compensation Arrangements of the REIT granted or issued in any 12 month period to any one person (and any entities that are wholly owned by that person) shall not exceed 5% of the

issued and outstanding Units, calculated as at the date any security based compensation award is granted or issued to the person, subject to the requisite disinterested Unitholder approval required by the TSXV.

11.03 No Deferred Unit may be granted if such grant would have the effect of causing the total number of Units subject to Deferred Units to exceed the total number of Units reserved for issuance pursuant to the exercise of Deferred Units as set forth in Section 11.01.

11.04 The aggregate fair market value on the Award Date of Units that are issuable pursuant to all Security Based Compensation Arrangements of the REIT granted or issued to any Trustee shall not exceed $200,000 per annum; provided that such limits shall not apply to awards (including Deferred Units) taken in lieu of any Trustee Fees and a one-time initial grant to a Trustee upon such Trustee joining the Board.

ARTICLE 12
ASSIGNMENT

12.01 In no event may the rights or interests of a Participant under the Plan be assigned, encumbered, pledged, transferred or alienated in any way, except to the extent that certain rights may pass to a beneficiary or legal representative upon death of a Participant, by will or as required by law.

12.02 Rights and obligations under the Plan may be assigned by the REIT to a successor in the business of the REIT.

ARTICLE 13
COMPLIANCE WITH APPLICABLE LAWS

13.01 The administration of the Plan shall be subject to and performed in conformity with all applicable laws, regulations, orders of governmental or regulatory authorities and the requirements of any stock exchange on which the Units are listed. Should the Compensation Committee, in its sole discretion, determine that it is not desirable or feasible to provide for the redemption of Deferred Units in Units pursuant to the provisions of Article 10, including by reason of any such laws, regulations, rules, orders or requirements, it shall notify the Participants of such determination and on receipt of such notice each Participant shall have the option of electing that such redemption obligations be satisfied by means of a cash payment by the REIT equal to the Average Market Price of the Units that would otherwise be delivered to a Participant in settlement of Deferred Units on the Redemption Date (less any Applicable Withholding Taxes). Each Participant shall comply with all such laws, regulations, rules, orders and requirements, and shall furnish the REIT with any and all information and undertakings, as may be required to ensure compliance therewith.

13.02 The REIT intends that the Plan and all Deferred Units be construed to avoid the imposition of additional taxes, interest, and penalties pursuant to Section 409A of the Code. Notwithstanding the REIT's intention, in the event any Deferred Unit is subject to such additional taxes, interest or penalties pursuant to Section 409A of the Code, the Board or the Compensation Committee, as applicable, may, in their sole discretion and without a Participant's prior consent, amend the Plan, adopt policies and procedures, or take any other actions (including amendments,

policies, procedures and actions with retroactive effect) as are necessary or appropriate to (a) exempt the Plan and/or any Deferred Unit from the application of Section 409A of the Code, (b) preserve the intended tax treatment of any such Deferred Unit, or (c) comply with the requirements of Section 409A of the Code, including without limitation any such regulations, guidance, compliance programs, and other interpretative authority that may be issued after the date of the grant. In no event shall the REIT or any of its Affiliates be liable for any additional tax, interest or penalties that may be imposed on a Participant under Section 409A of the Code or any damages for failing to comply with Section 409A of the Code. To the extent a Participant who is a U.S. taxpayer is a "specified employee" within the meaning of U.S. Treasury Regulation § 1.409A-1(i) upon the Participant's Separation from Service, any amount payable upon such Separation from Service pursuant to a redemption under Article 10 will be delayed to the earliest Business Day following the end of the sixth month period from the date of such Participant's Separation from Service. Notwithstanding any provision in the Plan to the contrary, the timing of redemptions set forth in Article 10 with respect to U.S. taxpayers may be modified by the Compensation Committee as provided in U.S. Treasury Regulation § 1.409A-3(j)(4)(ix) with respect to the termination of a deferred compensation arrangement.

ARTICLE 14
NON-RECOURSE

14.01 Obligations created hereunder and any liability which arises in any manner whatsoever and of or in connection with this Plan are not personally binding upon, nor shall resort be had to, nor shall recourse or satisfaction be sought from, the private property of any trustee or officer of the REIT, any holder of units of the REIT, or annuitants under a plan of which a holder of units of the REIT acts as a trustee or carrier, but only the property of the REIT from time to time or a specific portion thereof shall be bound.

SCHEDULE A-1
NEXPOINT HOSPITALITY TRUST
DEFERRED UNIT PLAN (THE "PLAN")

ELECTION NOTICE

All capitalized terms used herein but not otherwise defined shall have the meanings ascribed to them in the Plan.

Pursuant to the Plan, I hereby elect to receive ____% of my Trustee Fees otherwise payable in cash, as applicable, in the form of Deferred Units in lieu of cash.

I confirm that:

a) I have received and reviewed a copy of the terms of the Plan and agreed to be bound by them.

b) I recognize that when Deferred Units credited pursuant to this election are redeemed in accordance with the terms of the Plan, income tax and other withholdings as required will arise at that time. Upon redemption of the Deferred Units, the REIT will make all appropriate withholdings as required by law at that time.

c) The value of Deferred Units is based on the value of the Units of the REIT and therefore is not guaranteed.

The foregoing is only a brief outline of certain key provisions of the Plan. For more complete information, reference should be made to the Plan's text.

Date: ________________________________ ________________________________
(Name of Participant)

____
(Signature of Participant)

SCHEDULE A-2
NEXPOINT HOSPITALITY TRUST
DEFERRED UNIT PLAN (THE "PLAN")

ELECTION TO TERMINATE RECEIPT OF ELECTED DEFERRED UNITS

All capitalized terms used herein but not otherwise defined shall have the meanings ascribed to them in the Plan.

Notwithstanding my previous election in the form of Schedule A-1 to the Plan, I hereby revoke my previous election, such that no portion of the Trustee Fees otherwise payable in cash, as applicable, accrued after the date hereof shall be paid in Deferred Units in accordance with the terms of the Plan.[1]

I understand that the Deferred Units already granted under the Plan will remain outstanding and shall be redeemable only in accordance with the Plan.

I confirm that I have received and reviewed a copy of the terms of the Plan and agree to be bound by them.

Date: ______________________________ ______________________________
(Name of Participant)

____
(Signature of Participant)

Note: An election to terminate receipt of Elected DUs can only be made by a Participant once in a calendar year.

---

[1] To be modified for U.S. taxpayers such that the election only applies to future fees earned starting with the next calendar year.

SCHEDULE B

NEXPOINT HOSPITLAITY TRUST
DEFERRED UNIT PLAN (THE "PLAN")

REDEMPTION NOTICE FOR CANADIAN RESIDENTS

All capitalized terms used herein but not otherwise defined shall have the meanings ascribed to them in the Plan.

I hereby advise NexPoint Hospitality Trust (the "**REIT**") that I wish to redeem __________ of the Deferred Units credited to my account under the Plan in accordance with the terms of the Plan in the form of **[_______ Units of the REIT and $_____ in cash]**.

Date: ________________________________ ______________________________________
(Name of Participant)

____
(Signature of Participant)

Note: If the redemption notice is signed by a beneficiary or legal representative, documents providing the authority of such signature should accompany this notice.

APPENDIX "C"
RESOLUTION REGARDING APPROVAL AND RATIFICATION OF PRIOR DSU GRANT

BE IT RESOLVED THAT:

1. The conditional issuance of 1,295,668 Deferred Units to the independent Trustees on September 11, 2023 on the terms and conditions set out in the Deferred Unit Plan, are ratified, confirmed and approved.

2. Any one or more trustees or officers of the REIT are hereby authorized and directed to execute, deliver, register and file in the name and on behalf of the REIT, any certificates, instruments, agreements, notices, affidavits, supporting material and other documents, and to obtain any required consents, approvals and to do any other acts and things as in the opinion of such person(s) may be necessary or desirable to give full effect to the above resolutions, to facilitate all matters relating to those resolution and to allow the execution and delivery of any and all such other agreements, documents and instruments and the performance or causing the performance of any and all such other acts and things to be conclusive evidence of such determination.

APPENDIX "D"
RESOLUTION REGARDING APPROVAL OF AMENDMENTS TO COVID LOANS

BE IT RESOLVED THAT:

1. The Amendments to the COVID Loans, as more particularly described in the REIT's Information Circular dated September 11, 2023, are hereby approved and authorized.

2. Any one or more trustees or officers of the REIT are hereby authorized and directed to execute, deliver, register and file in the name and on behalf of the REIT, any certificates, instruments, agreements, notices, affidavits, supporting material and other documents, and to obtain any required consents, approvals and to do any other acts and things as in the opinion of such person(s) may be necessary or desirable to give full effect to the above resolutions, to facilitate all matters relating to those resolution and to allow the execution and delivery of any and all such other agreements, documents and instruments and the performance or causing the performance of any and all such other acts and things to be conclusive evidence of such determination.

APPENDIX "E"
BOARD CHARTER

NEXPOINT HOSPITALITY TRUST

CHARTER OF THE BOARD OF TRUSTEES

(the "Charter")

ADOPTED MAY 28, 2019

1. Purpose

The purpose of this Charter is to set out the mandate and responsibilities of the board of trustees (the "**Board**") of NexPoint Hospitality Trust (the "**REIT**"). By approving this Charter, the Board confirms its responsibility for the stewardship of the REIT and its affairs. This stewardship function includes responsibility for the matters set out in this Charter. The responsibilities of the Board described herein are pursuant to, and subject to, the provisions of applicable statutes and the Declaration of Trust of the REIT and do not impose any additional responsibilities or liabilities on the trustees at law or otherwise.

2. Composition

The Board shall be constituted with a majority of individuals who qualify as "independent" as defined in National Instrument 58-101 – *Disclosure of Corporate Governance Practices* ("**NI 58-101**"), provided, however, that if at any time a majority of the trustees are not independent because of the death, resignation, bankruptcy, adjudicated incompetence, removal or change in circumstance of any trustee who was an independent trustee within the meaning of NI 58-101, this requirement shall not be applicable for a period of 60 days thereafter, during which time the remaining trustees shall appoint a sufficient number of trustees who qualify as "independent" to comply with this requirement.

Pursuant to NI 58-101, an independent trustee is one who is free from any direct or indirect relationship which could, in the view of the Board, be reasonably expected to interfere with a trustee's independent judgment.

In the event the chair of the Board (the "**Chair**") is not independent, the independent trustees will select one of the independent trustees to be appointed as the lead trustee of the Board for such term as the independent trustees may determine (the "**Lead Trustee**"). If the REIT has a non-executive Chair who is independent, then the role of the Lead Trustee will be filled by the non-executive Chair. The Lead Trustee or non-executive Chair will chair regular meetings of the independent trustees and assume other responsibilities that the independent trustees as a whole have designated.

3. Responsibilities of the Board of Trustees

The Board is responsible for the stewardship and oversight of the REIT and in that regard shall be specifically responsible for:

(a) participating in the development of and approving a strategic plan for the REIT;

(b) supervising the activities and managing the investments and affairs of the REIT;

(c) approving major decisions regarding the REIT;

(d) defining the roles and responsibilities of management;

(e) reviewing and approving the business and investment objectives to be met by management;

(f) assessing the performance of and overseeing management;

(g) issuing securities of the REIT for such consideration as the Board may deem appropriate, subject to applicable law;

(h) reviewing the REIT's debt strategy;

(i) identifying and managing risk exposure;

(j) ensuring the integrity and adequacy of the REIT's internal controls and management information systems;

(k) succession planning;

(l) establishing committees of the Board, where required or prudent, and defining their mandate;

(m) establishing and maintaining procedures and policies to ascertain trustee independence;

(n) maintaining records and providing reports to unitholders;

(o) ensuring effective and adequate communication with unitholders, other stakeholders and the public;

(p) determining the amount and timing of distributions to unitholders; and

(q) acting for, voting on behalf of and representing the REIT as a holder of interests in NHT Intermediary, LLC and, indirectly, interests in NHT Holdings, LLC and the Class A Units of NHT Operating Partnership, LLC.

It is recognized that every trustee in exercising powers and discharging duties must act honestly and in good faith with a view to the best interest of the REIT. Trustees must exercise the care, diligence and skill that a reasonably prudent person would exercise in comparable circumstances. In this regard, they will comply with their duties of honesty, loyalty, care, diligence, skill and prudence.

In addition, trustees are expected to carry out their duties in accordance with policies and regulations adopted by the Board from time to time, the current Trustees' Regulations being annexed as Schedule A to the REIT's Declaration of Trust.

It is expected that management will co-operate in all ways to facilitate compliance by the Board with its legal duties by causing the REIT and its subsidiaries to take such actions as may be

necessary in that regard and by promptly reporting any data or information to the Board that may affect such compliance.

4. Expectations of Trustees

The Board has developed a number of specific expectations of trustees to promote the discharge by the trustees of their responsibilities and to promote the proper conduct of the Board.

(a) ***Commitment and Attendance***. All trustees are expected to maintain a high attendance record at meetings of the Board and the committees of which they are members. Attendance by telephone or video conference may be used to facilitate a trustee's attendance.

(b) ***Preparation for Meetings***. All trustees are expected to review the materials circulated in advance of meetings of the Board and its committees and should arrive prepared to discuss the issues presented. Trustees are encouraged to contact the Chair of the Board (the "**Chair**"), the Chief Executive Officer and any other appropriate executive officer(s) of the REIT to ask questions and discuss agenda items prior to meetings.

(c) ***Participation in Meetings***. Each trustee is expected to be sufficiently knowledgeable of the business of the REIT, including its financial statements, and the risks it faces, to ensure active and effective, and candid and forthright participation in the deliberations of the Board and of each committee on which he or she serves.

(d) ***Loyalty and Ethics***. In their roles as trustees, all members of the Board owe a duty of loyalty to the REIT. This duty of loyalty mandates that the best interests of the REIT take precedence over any other interest possessed by a trustee. Trustees are expected to conduct themselves in accordance with the REIT's Code of Business Conduct and Ethics.

(e) ***Other Board Memberships and Significant Activities***. The REIT values the experience trustees bring from other boards on which they serve and other activities in which they participate, but recognizes that those boards and activities also may present demands on a trustee's time and availability and may present conflicts or legal issues, including independence issues. Each member of the Board should, when considering membership on another board or committee, make every effort to ensure that such membership will not impair the member's time and availability for his or her commitment to the REIT. Trustees should advise the Chair, the Lead Trustee and the Chief Executive Officer before accepting membership on other public company boards or any audit committee or other significant committee assignment on any other board, or establishing other significant relationships with businesses, institutions, governmental units or regulatory entities, particularly those that may result in significant time commitments or a change in the member's relationship to the REIT.

(f) ***Personal Conduct***. Trustees are expected to: (i) exhibit high standards of personal integrity, honesty and loyalty to the REIT; (ii) project a positive image of

the REIT to news media, the financial community, governments and their agencies, unitholders and employees; (iii) be willing to contribute extra efforts, from time to time, as may be necessary including, among other things, being willing to serve on committees of the Board; and (iv) disclose any potential conflict of interest that may arise with the affairs or business of the REIT and, generally, avoid entering into situations where such conflicts could arise or could reasonably be perceived to arise.

(g) ***Confidentiality***. The proceedings and deliberations of the Board and its committees are confidential. Each member of the Board will maintain the confidentiality of information received in connection with his or her service as a trustee.

5. Meetings

The Board will meet not less than four times per year: three meetings to review quarterly results and one meeting prior to the issuance of the annual financial results of the REIT. The Board shall meet periodically without management present to ensure that the Board functions independently of management. At each Board meeting, unless otherwise determined by the Board, an in-camera meeting of independent trustees will take place, which session will be chaired by the Chair of the Board or the Lead Trustee in the event that the Chair is non-independent. In discharging its mandate, the Board and any committee of the Board will have the authority to retain and receive advice from outside financial, legal or other advisors (at the cost of the REIT) as the Board or any such committee determines to be necessary to permit it to carry out its duties.

The Board appreciates having certain members of senior management attend each Board meeting to provide information and opinion to assist the trustees in their deliberations. Management attendees who are not Board members will be excused for any agenda items which are reserved for discussion among trustees only.

6. Board Meeting Agendas and Information

The Chair, in consultation with management, will develop the agenda for each Board meeting. Agendas will be distributed to the trustees before each meeting, and all trustees shall be free to suggest additions to the agenda in advance of the meeting.

Whenever practicable, information and reports pertaining to Board meeting agenda items will be circulated to the trustees in advance of the meeting. Reports may be presented during the meeting by members of the Board, management and/or staff, or by invited outside advisors. It is recognized that under some circumstances, due to the confidential nature of matters to be discussed at a meeting, it will not be prudent or appropriate to distribute written materials in advance.

7. Measures for Receiving Unitholder Feedback

All publicly disseminated materials of the REIT shall provide for a mechanism for feedback of unitholders.

8. Telephone Board Meetings

A trustee may participate in a meeting of the trustees or in a committee meeting by means of telephone, electronic or such other communications facilities as permit all persons participating in the meeting to communicate with each other and a trustee participating in such a meeting by such means is deemed to be present at the meeting.

While it is the intent of the Board to follow an agreed meeting schedule as closely as possible, it is felt that, from time to time, with respect to time sensitive matters telephone board meetings may be required to be called in order for trustees to be in a position to better fulfill their legal obligations. Alternatively, management may request the trustees to approve certain matters by unanimous written consent.

9. Expectations of and Access to Management

Management shall be required to report to the Board at the request of the Board on the performance of the REIT, new and proposed initiatives, the REIT's business and investments, management concerns and any other matter the Board or its Chair or the Lead Trustee may deem appropriate. In addition, the Board expects management to promptly report to the Chair any significant developments, changes, transactions or proposals respecting the REIT or its subsidiaries. All members of the Board should be free to contact management at any time to discuss any aspect of the REIT's business. Trustees should use their judgement to ensure that any such contact is not disruptive to the operations of the REIT. The Board expects that there will be frequent opportunities for members of the Board to meet with management in meetings of the Board and committees, or in other formal or informal settings.

10. Access to Outside Advisors

The Board may, in its sole discretion, retain and obtain the advice and assistance of such advisors as it deems necessary to fulfil its duties and responsibilities under this Charter. The Board may set the compensation and oversee the work of such advisors to be paid by the REIT.

11. Communications Policy

The Board shall approve the content of the REIT's major communications to unitholders and the investing public including any Annual Report, Management Information Circular, Annual Information Form and any prospectuses which may be issued. The Audit Committee shall review and recommend to the Board the approval of the quarterly and annual financial statements (including the Management Discussion & Analysis) and press releases relating to financial matters. The Board also has responsibility for monitoring all of the REIT's external communications. However, the Board believes that it is generally the function of management to speak for the REIT in its communications with the investment community, the media, customers, suppliers, employees, governments and the general public. The Board will appoint the Lead Trustee, or another independent, non-executive trustee, to be available to unitholders with concerns should communications with management fail to resolve the issue or such contact is inappropriate.

The Board shall have responsibility for reviewing the REIT's policies and practices with respect to disclosure of financial and other information including insider reporting and trading. The

Board shall approve and monitor the disclosure policies designed to assist the REIT in meeting its objective of providing timely, consistent and credible dissemination of information, consistent with disclosure requirements under applicable securities law. The Board shall review the REIT's policies relating to communication and disclosure on an annual basis.

12. Internal Control and Management Information Systems

The Board has responsibility for the integrity of the REIT's internal control and management information systems. All material matters relating to the REIT and its business require the prior approval of the Board, subject to the Board's ability to delegate such matters to, among others, the REIT's Audit Committee, Compensation, Governance and Nominating Committee and management. Management is authorized to act, without Board approval, on all ordinary course matters relating to the REIT's business subject to any management authority guidelines adopted by the Board.

The Audit Committee has responsibility for ensuring internal controls are appropriately designed, implemented and monitored and for ensuring that management's financial reporting is complete and accurate, even though management may be charged with developing and implementing the necessary procedures.

13. Delegation of Powers

The trustees may establish one or more committees and may delegate to such committees any of the powers of the Board. The trustees may also delegate powers to manage the business and affairs of the REIT to such of the officers of the REIT as they, in their sole and absolute discretion, may deem necessary or desirable to appoint, and define the scope of and manner in which such powers will be exercised by such persons as they may deem appropriate.

The Board retains responsibility for oversight of any matters delegated to any trustee(s) or any committee of the Board, to management or to other persons.

14. Board Effectiveness

The Board shall review and, if determined appropriate, approve the recommendations of the applicable committee of the Board, if any, concerning formal position descriptions for the Chair of the Board and for each committee of the Board, the Lead Trustee and for the Chief Executive Officer, provided that in approving a position description for the Chief Executive Officer, the Board shall consider the input of the Chief Executive Officer and shall develop and approve corporate goals and objectives that the Chief Executive Officer is responsible for meeting (which may include goals and objectives relevant to the Chief Executive Officer's compensation, as recommended by the applicable committee of the Board, if any).

The Board shall review and, if determined appropriate, adopt a process recommended by the applicable committee of the Board, if any, for reviewing the performance and effectiveness of the Board as a whole, the committees of the Board and the contributions of individual trustees on an annual basis.

15. Education and Training

The Board will provide newly elected trustees with an orientation program to educate them on the REIT, their roles and responsibilities on the Board or Committees, as well as the REIT's internal controls, financial reporting and accounting practices. In addition, trustees will, from time to time, as required, receive: (a) training to increase their skills and abilities, as it relates to their duties and their responsibilities on the Board; and (b) continuing education about the REIT to maintain a current understanding of the REIT's business, including its operations, internal controls, financial reporting and accounting practices.

16. No Rights Created

This Charter is a broad policy statement and is intended to be part of the Board's flexible governance framework. While this Charter should comply with all applicable law and the REIT's constating documents, this Charter does not create any legally binding obligations on the Board, any Committee, any trustee or the REIT.

APPENDIX "F"
AUDIT COMMITTEE CHARTER

NEXPOINT HOSPITALITY TRUST

CHARTER OF THE AUDIT COMMITTEE
(the "Charter")

ADOPTED MAY 28, 2019 AND AMENDED APRIL 28, 2020

1. General

A. Purpose

The Audit Committee (the "**Committee**") is a committee of the board of trustees (the "**Board**") of NexPoint Hospitality Trust (the "**REIT**"). The members of the Committee and the chair of the Committee (the "**Chair**") are appointed by the Board on an annual basis (or until their successors are duly appointed) for the purpose of overseeing the REIT's financial controls and reporting and monitoring whether the REIT complies with financial covenants and legal and regulatory requirements governing financial disclosure matters and financial risk management.

2. Composition

(1) The Committee should be comprised of a minimum of three trustees, and a maximum of five trustees.

(2) The Committee must be constituted as required under National Instrument 52-110 — *Audit Committees*, as it may be amended or replaced from time to time ("**NI 52-110**").

(3) All members of the Committee must (except to the extent permitted by NI 52-110) be independent (as defined by NI 52-110), and free from any relationship that, in the view of the Board, could be reasonably expected to interfere with the exercise of his or her independent judgment as a member of the Committee.

(4) All members of the Committee must (except to the extent permitted by NI 52-110) be financially literate (which is defined as the ability to read and understand a set of financial statements that present a breadth and level of complexity of accounting issues that are generally comparable to the breadth and complexity of the issues that can reasonably be expected to be raised by the REIT's financial statements).

(5) Any member of the Committee may be removed or replaced at any time by the Board and shall cease to be a member of the Committee on ceasing to be a trustee. The Board may fill vacancies on the Committee by election from among the Board. If and whenever a vacancy shall exist on the Committee, the remaining members may exercise all powers of the Committee so long as a quorum remains.

3. Limitations on Committee's Duties

In contributing to the Committee's discharge of its duties under this Charter, each member of the Committee shall be obliged only to exercise the care, diligence and skill that a reasonably prudent person would exercise in comparable circumstances. Nothing in this Charter is intended or may be construed as imposing on any member of the Committee a standard of care or diligence that is in any way more onerous or extensive than the standard to which any member of the Board may be otherwise subject.

Members of the Committee are entitled to rely, absent actual knowledge to the contrary, on (i) the integrity of the persons and organizations from whom they receive information, (ii) the accuracy and completeness of the information provided, (iii) representations made by management of the REIT ("**Management**") as to the non-audit services provided to the REIT by the external auditor, (iv) financial statements of the REIT represented to them by a member of Management or in a written report of the external auditors to present fairly the financial position of the REIT in accordance with applicable generally accepted accounting principles, and (v) any report of a lawyer, accountant, engineer, appraiser or other person whose profession lends credibility to a statement made by any such person.

4. Meetings

The Committee should meet not less than four times annually. The Committee should meet within 60 days following the end of the first three financial quarters of the REIT and shall meet within 120 days following the end of the fiscal year of the REIT. A quorum for the transaction of business at any meeting of the Committee shall be a majority of the members of the Committee or such greater number as the Committee shall by resolution determine. The Committee shall keep minutes of each meeting of the Committee. A copy of the minutes shall be provided to each member of the Committee.

Meetings of the Committee shall be held from time to time and at such place as any member of the Committee shall determine upon two day's prior notice to each of the other Committee members. The members of the Committee may waive the requirement for notice. In addition, each of the Chief Executive Officer, the Chief Financial Officer and the external auditor shall be entitled to request that the Chair call a meeting.

The Committee may ask members of Management and employees of the REIT (including, for greater certainty, its affiliates and subsidiaries) or others (including the external auditor) to attend meetings and provide such information as the Committee requests. Members of the Committee shall have full access to information of the REIT (including, for greater certainty, its affiliates, subsidiaries and their respective operations) and shall be permitted to discuss such information and any other matters relating to the results of operations and financial position of the REIT with Management, employees, the external auditor and others as they consider appropriate.

The Committee or its Chair should meet at least once per year with Management and the external auditor in separate sessions to discuss any matters that the Committee or either of these groups desires to discuss privately. In addition, the Committee or its Chair should

meet with Management quarterly in connection with the REIT's interim financial statements.

The Committee shall determine any desired agenda items.

5. Committee Activities

As part of its function in assisting the Board in fulfilling its oversight responsibilities (and without limiting the generality of the Committee's role), the Committee will have the power and authority to:

A. Financial Disclosure

(1) Review, approve and recommend for Board approval the REIT's interim financial statements, including any certification, report, opinion or review rendered by the external auditor and the related management's discussion & analysis and press release.

(2) Review, approve and recommend for Board approval the REIT's annual financial statements, including any certification, report, opinion or review rendered by the external auditor, the annual information form, and the related management's discussion & analysis and press release.

(3) Review and approve any other press releases that contain financial information and such other financial information of the REIT provided to the public or any governmental body as the Committee requires.

(4) Satisfy itself that adequate procedures have been put in place by Management for the review of the REIT's public disclosure of financial information extracted or derived from the REIT's financial statements and the related management's discussion & analysis.

(5) Review any litigation, claim or other contingency and any regulatory or accounting initiatives that could have a material effect upon the financial position or operating results of the REIT and the appropriateness of the disclosure thereof in the documents reviewed by the Committee.

(6) Receive periodically Management reports assessing the adequacy and effectiveness of the REIT's disclosure controls and procedures.

B. Internal Control

(1) Review Management's process to identify and manage the significant risks associated with the activities of the REIT.

(2) Review the effectiveness of the internal control systems for monitoring compliance with laws and regulations.

(3) Have the authority to communicate directly with the internal auditor if one is present.

(4) Receive periodical Management reports assessing the adequacy and effectiveness of the REIT's internal control systems.

(5) Assess the overall effectiveness of the internal control and risk management frameworks through discussions with Management and the external auditors and assess whether recommendations made by the external auditors have been implemented by Management.

C. Relationship with the External Auditor

(1) Recommend to the Board the selection of the external auditor and the fees and other compensation to be paid to the external auditor.

(2) Have the authority to communicate directly with the external auditor and arrange for the external auditor to be available to the Committee and the Board as needed.

(3) Advise the external auditor that it is required to report to the Committee, and not to Management.

(4) Monitor the relationship between Management and the external auditor, including reviewing any Management letters or other reports of the external auditor, discussing any material differences of opinion between Management and the external auditor and resolving disagreements between the external auditor and Management.

(5) If considered appropriate, establish separate systems of reporting to the Committee by each of management and the external auditor.

(6) Review and discuss on an annual basis with the external auditor all significant relationships they have with the REIT, Management or employees that might interfere with the independence of the external auditor.

(7) Pre-approve all non-audit services (or delegate such pre-approval, as the Committee may determine and as otherwise permitted by applicable securities laws) to be provided by the external auditor.

(8) Review the performance of the external auditor and recommend any discharge of the external auditor when the Committee determines that circumstances warrant.

(9) Periodically consult with the external auditor out of the presence of Management about (a) any significant risks or exposures facing the REIT, (b) internal controls and other steps that Management has taken to control such risks, and (c) the fullness and accuracy of the financial statements of the REIT, including the adequacy of internal controls to expose any payments, transactions or procedures that might be deemed illegal or otherwise improper.

(10) Review and approve any proposed hiring of current or former partners or employees of the current (and any former) external auditor of the REIT.

D. Audit Process

(1) Review the scope, plan and results of the external auditor's audit and reviews, including the auditor's engagement letter, the post-audit management letter, if any, and the form of the audit report. The Committee may authorize the external auditor to perform supplemental reviews, audits or other work as deemed desirable.

(2) Following completion of the annual audit and quarterly reviews, review separately with each of Management and the external auditor any significant changes to planned procedures, any difficulties encountered during the course of the audit and, if applicable, reviews, including any restrictions on the scope of work or access to required information and the cooperation that the external auditor received during the course of the audit and, if applicable, reviews.

(3) Review any significant disagreements among Management and the external auditor in connection with the preparation of the financial statements.

(4) Where there are significant unsettled issues between Management and the external auditor that do not affect the audited financial statements, the Committee shall seek to ensure that there is an agreed course of action leading to the resolution of such matters.

(5) Review with the external auditor and Management significant findings and the extent to which changes or improvements in financial or accounting practices, as approved by the Committee, have been implemented.

(6) Review the system in place to seek to ensure that the financial statements, management's discussion & analysis and other financial information disseminated to regulatory authorities and the public satisfy applicable requirements.

E. Financial Reporting Processes

(1) Review the integrity of the REIT's financial reporting processes, both internal and external, in consultation with the external auditor.

(2) Periodically consider the need for an internal audit function, if not present.

(3) Review all material balance sheet issues, material contingent obligations and material related party transactions.

(4) Review with Management and the external auditor the REIT's accounting policies and any changes that are proposed to be made thereto, including all critical accounting policies and practices used, any alternative treatments of financial information that have been discussed with Management, the ramification of their use and the external auditor's preferred treatment and any other material communications with Management with respect thereto. Review the disclosure and

impact of contingencies and the reasonableness of the provisions, reserves and estimates that may have a material impact on financial reporting.

F. General

(1) Inform the Board of matters that may significantly impact on the financial condition or affairs of the business.

(2) Respond to requests by the Board with respect to the functions and activities that the Board requests the Committee to perform.

(3) Periodically review this Charter and, if the Committee deems appropriate, recommend to the Board changes to this Charter.

(4) Review the public disclosure regarding the Committee required from time to time by NI 52-110.

(5) The Committee may at its discretion retain independent counsel, accountants and other professionals to assist it in the conduct of its activities and to set and pay (as an expense of the REIT) the compensation for any such advisors.

(6) Review in advance, and approve, the hiring and appointment of the REIT's Chief Financial Officer and any other senior officers responsible for financial reporting.

(7) Perform any other activities as the Committee or the Board deems necessary or appropriate.

6. Complaint Procedures

(1) Anyone may submit a complaint regarding conduct by the REIT or its employees or agents (including its external auditor) reasonably believed to involve questionable accounting, internal accounting controls, auditing or other matters. The Chair will have the power and authority to oversee treatment of such complaints.

(2) Complaints are to be directed to the attention of the Chair.

(3) The Committee should endeavour to keep the identity of the complainant confidential.

(4) The Chair will have the power and authority to lead the review and investigation of a complaint. The Committee should retain a record of all complaints received. Corrective action may be taken when and as warranted.

EXHIBIT 19

IN THE MATTER OF
HIGHLAND CAPITAL MANAGEMENT, L.P.

- and -

IN THE MATTER OF
NEXPOINT HOSPITALITY TRUST

APPLICATION
OF HIGHLAND CAPITAL MANAGEMENT, L.P.

(In connection with a transactional proceeding under Rule 16 and
Under Subsection 127(1) of the *Securities Act*, RSO 1990, c S.5)

A. ORDERS SOUGHT

The applicant, Highland Capital Management, L.P., requests that the Tribunal make the following orders:

1. an order pursuant to s. 127(1)(5) of the *Securities Act* requiring NexPoint Hospitality Trust ("**NHT**") to amend its Notice of Annual and Special Meeting of Unitholders and Management Information Circular filed September 21, 2023 (the "**Information Circular**") to address the deficiencies in the Information Circular outlined in this application, and to provide Staff with a copy of the amended information circular at least five business days before it is sent to NHT's unitholders;

2. an order requiring NHT to postpone the annual and special meeting of unitholders, currently scheduled for October 12, 2023, to a date not earlier than 21 calendar days after the date the amended information circular is sent to NHT's unitholders;

3. an order pursuant to s. 127(1)(2) of the *Securities Act* requiring NHT to cease trading of its securities, or the securities of NHT Operating Partnership LLC, with any entities controlled or managed by James Dondero until such time that NHT complies with clauses 1 and 2 above;

4. an order requiring NHT to exclude the votes attached to units owned by Liberty CLO HoldCo, Ltd. and Highland Dallas Foundation in determining minority approval at the 2023 annual and special meeting of the unitholders;

5. an order, if required, granting standing to the applicant to bring this application pursuant to s. 127 of the *Securities Act*;

6. an order for an expedited hearing to be held before October 12, 2023; and

7. such further and other relief as the Capital Markets Tribunal may deem just.

B. GROUNDS

The grounds for the request are:

8. In this application, a significant minority unitholder, the applicant, requires the Capital Markets Tribunal's assistance to correct a seriously deficient information circular that asks NHT's unitholders to approve amendments to over $56 million USD worth of convertible loans.

The parties

9. The applicant, Highland Capital Management, L.P. ("**Highland**"), is an investment advisory firm based in Texas. It owns 7.25% of NHT's units. In October 2019, Highland filed for bankruptcy in the US.

10. NHT is an Ontario real estate investment trust ("**REIT**") established in 2019. It currently trades on the TSX Venture Exchange (the "**TSXV**") at $0.25 USD per unit. It is a reporting issuer in Ontario and Alberta.

11. As disclosed in its prospectus, NHT's assets were held indirectly through NHT Operating Partnership LLC ("**OP**"), a limited liability company formed in Delaware, and NHT owned all Class A Units in OP through two wholly owned subsidiaries, NHT Intermediary LLC and NHT Holdings LLC.

12. James Dondero, Graham Senst, Jerry Patava, and Neil Labatte are NHT's trustees. Dondero, through various entities, owns 72.13% of NHT's units. Numerous court

decisions in Highland's bankruptcy proceedings have recognized that Dondero directly and indirectly owns, controls, and directs various entities, including unitholders of NHT.

13. Under the Limited Liability Corporation Agreement between NHT, OP, and NHT Holdings LLC, Class B Units in OP are redeemable after one year of their issuance for units in NHT at the discretion of NHT Holdings LLC. Dondero is the manager of NHT Holdings LLC.

NHT enters into related party transactions

14. From 2019 to 2022, NHT disclosed that it has entered into over $82 million USD worth of convertible notes with entities affiliated with Dondero (the "**Convertible Notes**"). None of the Convertible Notes was subjected to minority approval when they were entered into. NHT has provided very little information about the notes to its unitholders.

15. NHT's financial statements provide very few details about the terms of the Convertible Notes. They included a stock description of the Convertible Notes, disclosing that they are convertible to Class B units of OP at the election of NHT subject to TSXV approval, they mature in 20 years "in most cases", and they were used for general corporate and working capital purposes.

16. NHT's financial statements also vaguely and apparently inconsistently describe the interest rates of the Convertible Notes. NHT's Q3 2022 financial statement disclosed that the notes "bear interest at an annual rate ranging between 1.82% to 7.50% while outstanding". NHT's Q1 2023 financial statement disclosed that the notes "have rates ranging from 1.93% to 7.50% while outstanding". There is no explanation as to why the lowest interest rate in the range rose from 1.82% in Q3 2022 to 1.93% in Q1 2023.

17. NHT published multiple news releases about the Convertible Notes in 2021 and 2022. Each news release disclosed that the Convertible Notes constituted a related party transaction under Multilateral Instrument 61-101 – *Protection of Minority Security Holders in Special Transaction*s ("**MI 61-101**"). The news releases disclosed that these notes were exempt from the formal valuation and minority approval requirements under s. 5.7(1)(a) of MI 61-101 because the fair market value of each note did not exceed 25%

of NHT's market capitalization when they were entered into. The news releases did not disclose any other reason for why there was no minority vote for the notes.

18. However, according to NHT's own disclosures, the Convertible Notes that NHT entered into in Q1 2022 total over 25% of its market capitalization in that quarter.

NHT undertakes to amend the Convertible Notes

19. On June 26, 2023, NHT announced via news release that NHT had undertaken, at the request of the TSXV, to amend the terms of $56,165,000 USD worth of the Convertible Notes issued to NexPoint Real Estate Opportunities LLC and Highland Income Funds during the COVID-19 pandemic (which NHT now refers to as the "**COVID Loans**" in the news release and Information Circular) as follows:

    a. Reduce the conversion term to five years from the date of issuance;

    b. Establish a minimum acceptable conversion price based on market prices at the time of each particular advance; and

    c. Remove the conversion of interest.

20. NHT also disclosed in this news release that the conversion terms of one $8.5 million USD note will be removed altogether. The removal of conversion terms of the $8.5 million USD note would result in outstanding Convertible Notes in the amount of approximately $74 million USD.

21. Since the notes are a related party transaction, this news release announced that MI 61-101 requires that NHT seek minority approval of the amendments at the upcoming annual and special meeting of the unitholders.

22. Article 9.3 of NHT's Declaration of Trust requires that NHT's trustees deliver notices of all meetings of the unitholders to each unitholder no less than 21 days before the meeting.

Highland requests information from NHT

23. Highland has requested information from NHT about the Convertible Notes and upcoming vote, but these requests have largely gone unsatisfied.

24. On July 11, 2023, Highland's counsel sent NHT's counsel a letter requesting more information about the Convertible Notes so that it could be fully informed about them for the upcoming vote. The letter requested, among other things, the terms of the original notes, the terms of the proposed amended notes, minutes of meetings and resolutions of the trustees, and correspondence between NHT and the TSXV related to the TSXV's requested amendments. Highland relied on Article 18.12 of NHT's Declaration of Trust, which stated that the unitholders have the right to examine any documents or records which the trustees determine should be available for inspection.

25. NHT's counsel responded on July 17, 2023, and refused to provide access to these documents.

26. On July 28, 2023, NHT set the date for the annual general and special meeting of the unitholders as October 2, 2023. On August 31, 2023, the meeting date was amended to October 12, 2023.

27. On September 18, 2023, Highland's counsel sent another letter to NHT's counsel outlining its concerns about NHT's inclusion of Liberty CLO HoldCo, Ltd. and Highland Dallas Foundation as minority unitholders entitled to vote on the amendments, in view of the US Bankruptcy Court of the Northern District of Texas's having recognized that Dondero may indirectly direct or control these entities. The letter requested that NHT include in its upcoming information circular any information that the trustees have obtained in inquiring about the control and direction of these entities. As described below, this information, however, was not included in the Information Circular.

The Information Circular is released and is deficient

28. On September 21, 2023, NHT released the Information Circular. The Information Circular specified that NHT received 32 loans from entities controlled or managed by

Dondero between June 2021 and September 2022 in the aggregate amount of $56,165,000 USD. According to the Information Circular, each of these loans is unsecured, has a 20-year term and bears interest at rates ranging from 2.25% per year to 7.5% per year. The Information Circular notes that the principal and interest owing under the COVID Loans is convertible into Class B units of OP based on the value of a Class B unit at the time of conversion. The Information Circular provided that the Convertible Notes were principally used to fund NHT's operating expenses and loan repayments, but they were also used to acquire two hotel properties focused on the leisure travel market to modify NHT's asset mix.

29. The Information Circular discloses for the first time that the Convertible Notes are convertible at the option of the holder at any time. All previous NHT disclosures have described the Convertible Notes as convertible at the option of NHT.

30. Although NHT had consistently disclosed that these notes were exempted from MI 61-101's minority approval requirement under s. 5.7(1)(a) of MI 61-101 due to their being less than 25% of NHT's market capitalization, the Information Circular disclosed for the first time that NHT also relied upon the financial hardship exemption under s. 5.7(1)(e) of MI 61-101. The Information Circular explained that, at the time the notes were issued, NHT's trustees determined that the REIT was in serious financial difficulty and the notes were designed to improve its financial position.

31. The Information Circular also disclosed that the loans were filed with the TSXV at various points during 2021 and 2022 under TSXV Policy 5.1 – Loans, Loan Bonuses, Finder's Fees and Commissions. However, according to the Information Circular, the TSXV advised NHT in December 2022 that these loans were required to be treated as "Convertible Securities" under TSXV Policy 4.1 – Private Placements, and, as a result, the TSXV required amendments to the notes. NHT never disclosed the TSXV's recategorization of the Convertible Notes until the Information Circular.

32. The Information Circular disclosed that if the amendments are implemented, a maximum number of 21,075,012 Class B units will be issuable upon conversion of the notes.

33. The Information Circular also disclosed that:

> The Board, having undertaken a thorough review of, and having: (i) considered the terms of the Amendments to the COVID Loans; (ii) considered the need to comply with the requirements of the TSXV in order to maintain a listing for the Units, and (iii) consulted with its legal advisors, concluded that the Amendments are in the best interests of the REIT and agreed to pursue the approval of the Amendments.
>
> …
>
> If the Amendments are not approved at the Meeting, the REIT will engage with the TSXV to seek alternative solutions to the [*sic*] satisfy the TSXV listing requirements; however, there can be no assurance that a satisfactory solution will be found, and if a solution is not found, the TSXV may halt trading in the Units, suspend trading in the Units and/or initiate a delisting review of the REIT's Units as, absent the Amendments, the REIT would not be in compliance with TSXV listing requirements.

34. The Information Circular disclosed that the units of NexPoint Real Estate Opportunities, Dugaboy, NHT Holdco, LLC, Governance Re Ltd, and NexPoint Real Estate Advisors, LP will be excluded from the minority vote. The Information Circular did not exclude Liberty CLO HoldCo, Ltd and Highland Dallas Foundation as voters and did not provide reasons for not doing so.

35. On September 29, 2023, NHT announced via news release that 817,905 units held by Liberty CLO Holdco, Ltd. through NHT Holdco, LLC will also be excluded from voting on the proposed amendments.

The Information Circular breaches securities law

36. S. 5.3(3) of MI 61-101 outlines the requirements of an information circular, which shall include, among other things:

    a. a description of the background to the transaction;

    b. a discussion of the review and approval process adopted by the board of directors and the special committee, if any, of the issuer for the transaction, including a discussion of any materially contrary view or abstention by a director and any material disagreement between the board and the special committee;

c. disclosure of the number of votes attached to the securities that, to the knowledge of the issuer after reasonable inquiry, will be excluded in determining whether minority approval for the related party transaction is obtained; and

d. the identity of the holders of securities specified in subparagraph (c) together with their individual holdings.

37. The companion policy to MI 61-101 identifies other pieces of information in relation to a related party transaction that should be disclosed, including the trustees' "reasonable beliefs as to the desirability or fairness of the proposed transaction" and the material factors on which the beliefs are based, including the background of the trustees' deliberations.

38. The Information Circular makes significant material omissions and breaches these standards of disclosure. It does not provide sufficient detail about the Convertible Notes to enable Highland and other minority shareholders to make an informed decision on how to vote on the proposed amendments.

39. The unitholders can cast an informed vote on the amendments only if they know about the fairness of the proposed amendments. However, the trustees do not disclose in the Information Circular their reasonable beliefs as to the desirability or fairness of the amendments to the Convertible Notes. Nor do the trustees disclose in reasonable detail the material factors on which their beliefs about the proposed amendments are based. Instead, the Information Circular contains a list of vaguely described factors, with no elaboration on why or how these factors allowed the trustees to conclude that the amendments are "in the best interests of the REIT".

40. To cast an informed vote, the unitholders also need to know if the proposed amendments are the best terms for NHT. The Information Circular does not describe how the specific terms of the amendments were agreed to with the TSXV or the lenders; nor does it explain why, under the proposed amendments, at least one note would have its conversion terms removed altogether. The Information Circular does not at all discuss the trustees' deliberations about the amendments.

41. The unitholders also need to know the implications of approving or rejecting the amendments in order to make an informed vote. However, the Information Circular does not disclose how the notes will affect NHT in the future and there is no discussion about the impact of the notes' potential conversion on NHT's financial status. There is no discussion in the Information Circular about the likelihood that some or all of the notes will be converted. There is also no discussion about whether it would be beneficial for NHT to have the notes converted or pay back the notes in full.

42. The Information Circular also does not discuss NHT's options in the instances that the amendments are not approved. There is no discussion on possible alternative solutions, how they could affect NHT, or whether the trustees have engaged with the TSXV on available options.

43. To make an informed decision on how to vote, the unitholders need to know the TSXV's views on the amendments. The Information Circular is silent on why the Convertible Notes are being amended so long after the TSXV first advised NHT that they must be amended, or why the TSXV requested the amendment so long after their issuance. There is no description of any negotiations or discussions between NHT and the TSXV on the appropriate policy treatment or discussion on whether the TSXV provided options for amendments or demanded a single set of specified amendments.

44. The Information Circular does not provide an explanation for why only $56 million USD worth of notes are being amended when NHT has entered into over $82 million USD worth of Convertibles Notes in total. NHT's financial statements have never uniquely described any group of Convertible Notes such that they would be treated differently by the TSXV. If there will be future similar amendments to the rest of the Convertible Notes, that is a significant piece of information that would inform the unitholders on how to vote.

45. There is no further explanation on why the trustees and their advisors did not believe that the COVID Loans were to be treated as "convertible securities" under TSXV Policy 4.1 – Private Placements when they have been described as "convertible notes" in NHT's financial statements since 2020. This initial mischaracterization places the unitholders of

NHT in a difficult position since they are now forced to approve amendments to Convertible Notes that were already issued without minority approval, at the risk of delisting by the TSXV.

46. To make an informed decision on how to vote on the amendments to Convertible Notes that have already been issued, the unitholders need disclosure on why the Convertible Notes were not subjected to minority approval at the time they were issued. However, the Information Circular does not even provide basic information about the notes, such as who the lenders are, the amounts of the notes, each note's rate of interest, when they were entered into, or their purposes. Without this information, unitholders are unable to determine whether the Convertible Notes are potentially connected transactions under s. 5.7(1)(a) of MI 61-10 such that the notes would not qualify for the market capitalization exemption in that provision.

47. The Information Circular also does not discuss why the Convertible Notes are suddenly also exempted from MI 61-101's minority approval requirement under the financial hardship exemption in s. 5.7(1)(e) of MI 61-101. Before the Information Circular, NHT consistently disclosed only that the Convertible Notes were exempt under the market capitalization exemption in s. 5.7(1)(a) of MI 61-101. NHT had never made reference to the financial hardship exemption and the Information Circular provides no information on why the trustees are retroactively applying this exemption.

48. If Dondero-affiliated entities are included as minority unitholders for voting purposes, this would defeat the purpose of MI 61-101's minority approval requirements and would render Highland's vote meaningless. The Information Circular does not provide any commentary on the inclusion of Liberty CLO HoldCo, Ltd. and Highland Dallas Foundation as minority unitholders, even though Highland had objected to their inclusion and requested that information relevant to any inquiries made by the trustees regarding the control or direction over these parties be included in the Information Circular.

49. The Information Circular also contains inadequate disclosure regarding how the conversion right can be exercised. While NHT's financial statements and news releases have consistently disclosed that the Convertible Notes are convertible at the option of

NHT, the Information Circular—for the first time—describes the Convertible Notes as convertible "at the option of the holder at the time". This change in the exercise of the conversion is not included as one of the three amendments for which NHT is seeking minority approval, suggesting that the change may already have been made.

50. Changing the exercise of the conversion from being at the option of NHT to being at the option of the Dondero-affiliated lenders consolidates Dondero's control over the Convertible Notes. Rather than needing the approval of NHT's independent trustees to convert the notes, Dondero can now seek to convert them at his will to his benefit. The Information Circular does not draw attention to this significant change, only briefly mentioning it among numerous other facts about the Convertible Notes, and it does not disclose any additional information about this change.

51. The Information Circular may also contain misrepresentations. The Highland Opportunities and Income Fund ("**HFRO**") disclosed in its US securities filings that it held a secured promissory note with OP for over $42 million USD maturing February 14, 2027.

52. The only entry in NHT's Q2 2023 financial statements that could accommodate the HFRO secured loan is the entry for the Convertible Notes. If this is true, NHT's Information Circular would contain a misrepresentation since it describes the COVID Loans as unsecured and having a 20-year term. NHT unitholders require additional disclosure to reconcile the HFRO secured note with NHT's Information Circular.

53. All of the above information is vital to enable Highland to vote on the amendments. NHT currently trades at $0.25 USD per unit and the TSXV lists its market capitalization as $7,338,014 USD with 29,352,055 outstanding units. The approval of over $52 million USD of convertible notes with Dondero-affiliated parties, which may result in the conversion of 21,075,012 units, poses a significant risk of dilution for Highland's shares and could drastically consolidate Dondero's control of NHT. NHT's trustees must provide much more disclosure in its Information Circular before asking NHT's unitholders to approve this significant transaction.

54. The Information Circular should be amended to include the following information to allow the unitholders to make an informed decision on how to vote on the amendments to the COVID Loans:

   a. Copies of all executed agreements, including any amendments or assignments, for the Convertible Notes;

   b. Details about the COVID Loans and Convertible Notes, and their terms, including:

      i. the amount of each note;

      ii. the date each note was entered into;

      iii. the terms of each note;

      iv. the identity of the lender of each note;

      v. the intended purpose of the proceeds of each note;

      vi. the terms related to the convertibility of each note;

      vii. all assignments of each note, if any; and

      viii. all proposed and executed amendments to each note;

   c. The reasonable beliefs of the NHT trustees on the desirability or fairness of the amendments, including:

      i. the background of the trustees' deliberations regarding the amendments;

      ii. the review and approval process adopted by the trustees regarding the amendments;

      iii. a description of how the trustees and the TSXV or NHT's lenders agreed to the specific terms of the amendments, including any alternative amendments proposed by the TSXV;

iv. a discussion on whether the terms of the amendments are the best terms that NHT could negotiate;

v. the reason for the complete removal of the conversion terms from one $8.5 million USD note;

vi. an analysis of whether it is in the best interests of NHT to remove the conversion terms from the $8.5 million USD note; and

vii. all other material factors on which the trustees based their beliefs regarding the Convertible Notes;

d. The implications of approving the proposed amendments, including:

i. a description of how the notes and their conversion will affect NHT in the future, including its financial status;

ii. the likelihood that the notes will be converted; and

iii. an analysis on whether it is beneficial for the Convertible Notes to be converted or be paid back in full;

e. The implications of not approving the proposed amendments, including:

i. alternative options available if the amendments are not approved at the annual and special meeting of the unitholders; and

ii. the details of any discussions or negotiations between NHT and the TSXV about these alternative options;

f. The details of any discussions or negotiations between NHT and the TSXV on the appropriate policy treatment of the Convertible Notes, including:

i. the reason why the TSXV has requested the amendments so long after the notes were issued;

ii. the reason why the TSXV requested an amendment of only $56 million USD worth of notes when NHT entered into over $82 million USD worth of notes;

iii. the reason why the trustees and their advisors did not believe the notes should be treated as "convertible securities" under TSXV Policy 4.1 when they first filed them with the TSXV; and

iv. the reason why NHT is attempting to amend the notes now when the TSXV advised NHT of the required treatment of the notes in December 2022;

g. An explanation of NHT's exemptions from minority approval, including:

i. an explanation as to why NHT is now relying on the financial hardship exemption under s. 5.7(1)(e) of MI 61-101 when it has never referenced this exemption before issuing the Information Circular; and

ii. an analysis related to the conclusion that the market capitalization exemption in s. 5.7(1)(a) of MI 61-101 was available, including clarification on whether the notes were connected transactions under MI 61-101; and

h. An explanation of the inclusion of Liberty CLO HoldCo Ltd. and Highland Dallas Foundation as minority unitholders, including information relevant to any inquiries made by the trustees regarding the control or direction over these parties.

The meeting should be postponed

55. In order that NHT may make the required amendments to the Information Circular, the annual and special meeting of unitholders, currently scheduled for October 12, 2023, should be postponed to a date not earlier than 21 calendar days after the date the amended information circular is sent to NHT's unitholders.

Highland should be granted standing to bring this application

56. This application involves both past and possible future conduct regulated by Ontario securities law, namely the contents of the Information Circular and how it impacts the validity of the vote scheduled for October 12, 2023.

57. This application is not purely enforcement in nature.

58. Highland seeks future-looking relief, namely the amendment of the Information Circular so that it can vote on the proposed amendments with adequate information.

59. This Tribunal has the authority to order an amendment of an information circular under s. 127 of the *Securities Act*.

60. Highland, as one of the few minority unitholders of NHT, is directly affected by the lack of disclosure in NHT's Information Circular.

61. It is therefore in the public interest to hear this application.

Highland requests an expedited hearing

62. Because the annual and special meeting of the unitholders is currently scheduled for October 12, 2023, Highland requests a hearing of this application before that date.

C. EVIDENCE

The applicant intends to rely on the following evidence at the hearing:

63. The affidavit of James P. Seery, Jr., to be affirmed; and

64. Such further and other evidence as this Tribunal may permit.

NEXPOINT
HOSPITALITY TRUST

FOR IMMEDIATE RELEASE

NOT FOR DISSEMINATION TO U.S. NEWS WIRE SERVICES OR DISSEMINATION IN THE UNITED STATES

NexPoint Hospitality Trust Issues Clarifying and Supplemental Disclosure

DALLAS and TORONTO, October 19, 2023 -- NexPoint Hospitality Trust ("**NHT**" or the "**REIT**") (TSX-V: NHT.U) has received requests for (i) clarification regarding its previous disclosure relating to the approximate US$87 million of convertible loans provided by entities controlled or managed by James Dondero primarily during the COVID-19 pandemic (the "**Loans**"); and (ii) supplemental disclosure to its management information circular dated September 11, 2023 (the "**Circular**") regarding the process undertaken with the TSX Venture Exchange (the "**TSXV**") whereby the TSXV requested amendments to the Loans issued between June 2021 and September 2022 in the aggregate amount of US$56,165,000 (the "**COVID Loans**").

Clarification Regarding Previous Disclosure

As a result of the COVID-19 pandemic, the REIT experienced material decreases in revenues, results of operations and cash flows. The impact to the global economy caused by the response to the COVID-19 pandemic also negatively impacted the REIT's ability to obtain new financing. The Loans were advanced, in most cases, in critical moments to principally fund the REIT's ongoing operating expenses and to satisfy interest and principal payments due on third party debt. In certain situations, the proceeds from the Loans were used to fund acquisitions designed to improve the financial condition of the REIT. Without the Loans, the REIT would likely not have been able to continue its operations as a going concern.

Each of the Loans was unsecured, had a 20-year term and bore interest at rates ranging from 1.82% per year to 7.5% per year (which were market interest rates at the time of their issuance). Of those Loans, the COVID Loans bore interest at rates ranging from 2.25% per year to 7.5% per year. As of June 30, 2023, approximately US$83 million of the Loans remained outstanding. From the time of issuance to the present, the holder of the Loans has had the right to convert the principal and interest owing under the Loans into class B units (the "**Class B Units**") of NHT Operating Partnership, LLC (the "**OP**") on the basis of the market price of the REIT's trust units (the "**Units**") at the time of conversion.

Previous disclosure of the REIT stated that the Loans were, subject to approval of the TSXV, convertible at any time at the election of the REIT into Class B Units. The REIT wishes to clarify and correct this earlier disclosure. The Loans are, and have always been, only convertible into Class B Units at the option of their respective holder. However, if any of the Loans are converted by their respective holders into Class B Units and the holder then elects to redeem those Class B Units, the REIT may elect to satisfy the redemption by issuing Units to the holder. Any issuance of Units or repayment of the Loans in Units would be subject to the approval of the TSXV.

NEXPOINT
HOSPITALITY TRUST

Supplemental Disclosure to Circular

As disclosed in the Circular, the COVID Loans were filed with the TSXV at various points during 2021 and 2022, as loan submissions pursuant to TSXV Policy 5.1 – *Loans, Loan Bonuses, Finder's Fees and Commissions* ("**Policy 5.1**"). The REIT filed in this manner as the Loans were not, as described above, convertible by the holder into publicly traded Units (Units were only issuable at the election of the REIT, subject to TSXV approval) and therefore, based on the guidance in Policy 5.1, were subject to filing under Policy 5.1.[1] As a result of filing under Policy 5.1, since any issuance of Units on a redemption of Class B Units received by a holder of the COVID Loans was subject to TSXV approval, the REIT believed its position was consistent with the requirements and guidance of Policy 5.1. The REIT commenced filing on this basis in early 2021 and these filings were not questioned until December 2022, when the TSXV advised the REIT that it believed the COVID Loans were required to be treated as "Convertible Securities" under TSXV Policy 4.1 – *Private Placements* ("**Policy 4.1**") rather than loans under Policy 5.1. While all the Loans were filed with the TSXV, the TSXV only raised this issue with respect to the COVID Loans; it did not raise it with respect to the other Loans. Following this notification, the REIT engaged with the TSXV and presented support for its filings under Policy 5.1, but ultimately the TSXV concluded that Policy 4.1 should apply. Due to this determination and in order to satisfy the requirements of Policy 4.1, the TSXV required the following amendments (the "**Amendments**") to the COVID Loans (which amendments would bring the COVID Loans into compliance with the terms expressly prescribed by Policy 4.1 for convertible securities): (i) either the conversion feature be removed or limited to five years from the date of issuance of each COVID Loan (which represents the maximum length of the conversion period); (ii) the conversion feature be limited to the principal amount of the COVID Loan (rather than the principal amount plus interest); and (iii) the conversion price be fixed at a price equal to the market price of the REIT's Units on the TSXV at the time of the issuance of such COVID Loan.

There was no negotiation with the TSXV regarding the substance of the Amendments as the TSXV's position was simply that the COVID Loans had to be amended to comply with Policy 4.1. The REIT worked expeditiously to obtain consent to the Amendments from each of the lenders (the "**Lenders**") under each of the COVID Loans. With the Lenders' cooperation and desire to ensure the REIT's compliance with TSXV policies, the Lenders agreed to implement the Amendments. However, the REIT was not in a position to negotiate these amendments with the Lenders – it was seeking the cooperation of the Lenders to adjust the conversion provisions or remove them altogether to satisfy the TSXV policies. For one COVID Loan, the Lender agreed to remove the conversion right altogether. For the remaining COVID Loans, the Lenders opted to limit the conversion period to five years. The REIT did not enter into any other agreement, beyond the Amendments themselves, with the Lenders in connection with the Amendments. In that

[1] Policy 5.1 provides as follows: "…For the purposes of this Policy, the term "loan" will include any form of debt instrument issued by an Issuer that is not convertible into Listed Shares."

NEXPOINT
HOSPITALITY TRUST

circumstance, the board of trustees of the REIT (the "**Board**") determined that the concessions obtained from the Lenders were fair and reasonable.

The Board undertook a thorough review of the terms of the Amendments to the COVID Loans and concluded that the Amendments were in the best interests of the REIT. As described in the Circular, the Board: (i) considered the terms of the Amendments to the COVID Loans; (ii) considered the need to comply with the requirements of the TSXV in order to maintain a listing for the Units; and (iii) consulted with its legal advisors, to reach this conclusion. In considering the terms of the Amendments under (i) above, the REIT and the Board considered that the Amendments would provide a clear benefit to the REIT and unitholders (including minority unitholders) by (i) shortening the time period in which the conversion right can be exercised from 20 years to five years (or removing the conversion right altogether); (ii) fixing conversion prices for the COVID Loans at prices greater than the current market price; and (iii) reducing the amount convertible from principal and interest to only principal. As a result of the Amendments, the potential dilution of the REIT's unitholders would be materially reduced. Further, as failure to implement the Amendments would potentially result in the delisting of the Units, the Board determined that the Amendments were in the best interests of unitholders due to the likely adverse impact of delisting on the liquidity and value of the Units.

The REIT, Mr. Dondero, and the trustees and officers of the REIT, conducted reasonable inquiries pursuant to Section 8.1(2) of Multilateral Instrument 61-101 – *Protection of Minority Security Holders in Special Transactions* to determine the units to be excluded from the minority approval vote on the Amendments.

About NexPoint Hospitality Trust

NexPoint Hospitality Trust is a publicly traded real estate investment trust, with its Units listed on the TSX Venture Exchange under the ticker NHT.U. NHT is principally focused on acquiring, owning and operating well-located hospitality properties in the United States that offer a high current yield and in many cases are underperforming assets with the potential to increase in value through investments in capital improvements, a market-based recovery, brand repositioning, revenue enhancements, operational improvements, expense inefficiencies, and exploiting excess land or underutilized space. NHT owns 9 branded properties sponsored by Marriott, Hilton, Hyatt, and Intercontinental Hotels Group, located across the U.S. NHT is externally advised by NexPoint Real Estate Advisors VI, L.P.

Neither TSX Venture Exchange nor its Regulation Services Provider (as that term is defined in policies of the TSX Venture Exchange) accepts responsibility for the adequacy or accuracy of this release.

VIA EMAIL (complianceanddisclosure@tsxventure.com)

Dear Mr. Sanghera,

Re: NexPoint Hospitality Trust

We are Canadian counsel to Highland Capital Management, L.P. ("**Highland**"), a minority unitholder of NexPoint Hospitality Trust ("**NHT**"). We write this letter to draw your attention to three potential breaches of TSXV policies in relation to NHT's having entered into over $82 million in convertible notes with related parties.[1] While NHT has undertaken to amend $56 million of the convertible notes at the request of the TSXV, $26 million of the notes remain unamended and potentially remain in breach of TSXV Policy 4.1. Additionally, NHT inaccurately described the notes in its news releases contrary to TSXV Policy 3.3, and did not obtain minority approval of these notes as may have been required by TSXV Policy 5.9.

Currently, NHT is trading on the TSXV at $0.25 per unit with a market capitalization of $7,338,014. Conversion of the notes therefore poses a significant risk of dilution to NHT's minority unitholders.

Background of the convertible notes

NHT is a real estate investment trust (a "**REIT**") that began listing on the TSXV in March 2019.[2] According to NHT's Interim Consolidated Financial Statements for Q2 2023, NHT has $82,723,000 in convertible notes outstanding as of June 30, 2023.[3] These notes were entered into with entities controlled or managed by James Dondero (who is NHT's CEO and one of its trustees), starting in January 2019 through to the end of 2022. NHT consistently disclosed that these notes were exempted from the minority approval requirements under section 5.7(1)(a) of MI 61-101 ("**MI 61-101**") for related party transactions because the notes did not exceed 25% of NHT's market capitalization at the time they were entered into.[4]

---

[1] All dollar amounts are USD.
[2] NHT Prospectus, dated March 27, 2019, **TAB 1**.
[3] NHT Interim Consolidated Financial Statements for Q2 2023, **TAB 2**, p. 23 ["**Q2 2023**"].
[4] See NHT News Releases dated March 30, 2021 (**TAB 3**), April 8, 2022 (**TAB 4**), May 27, 2022 (**TAB 5**), and November 14, 2022 (**TAB 6**).

The notes are described as maturing in 20 years "in most cases" and being convertible into Class B units of NHT's operating partnership (the "**OP**"),[5] which indirectly holds NHT's assets.[6] When the notes were originally disclosed throughout 2021 and 2022—including as recently as NHT's 2022 audited annual financial statements filed on April 4, 2023[7]—the loans were consistently described as being convertible at the option of NHT. For example, NHT's news release on March 30, 2021 described the notes as convertible "at the option of NHT *in its sole discretion*" [emphasis added],[8] and its Q2 2022 financial statements described the notes as "convertible at any time *at the election of the Company* into Class B Units" [emphasis added].[9]

However, in NHT's Q1 2023 financial statements, the description of the loans changed for the first time to "convertible at any time *at the election of the holders* into Class B Units" [emphasis added].[10] This deliberate change in the disclosure suggests that NHT became aware of the misleading disclosure in previous news releases and financial statements, but NHT made the change without any explanation and without any acknowledgement that it was in fact a change to the disclosure.

The TSXV's required amendments

In a June 26, 2023 news release, NHT announced that, at the request of the TSXV, it had undertaken to amend $56,165,000 of the convertible notes.[11] NHT also disclosed that MI 61-101 required minority approval of the amendments. On August 31, 2023, NHT set the 2023 annual and special meeting of the unitholders for October 12, 2023.[12]

In its Management Information Circular filed on September 21, 2023 (the "**Information Circular**"), NHT further disclosed that the TSXV required amendments to 32 of the convertible notes issued between June 2021 and September 2022 in the aggregate amount of $56,165,000.[13] The Information Circular explained that, although NHT initially filed the convertible notes with the TSXV under TSXV Policy 5.1 – *Loans, Loan Bonuses, Finder's Fees and Commissions,* the TSXV advised NHT in December 2022 that the notes were required to be treated as "Convertible Securities" under TSXV Policy 4.1 – *Private Placements*. The Information Circular disclosed that "due to this determination, the TSXV required the following amendments":[14]

(i) either the conversion feature be removed or limited to five years from the date of issuance of the loan;
(ii) the conversion feature be limited to the principal amount of the loan; and

(iii) the conversion price be fixed at a price equal to the market price of the REIT's units on the TSXV at the time of the issuance of the loan.

Highland's application for additional information on the convertible notes

Highland did not believe that the Information Circular provided sufficient disclosure to allow it to make an informed vote on the proposed amendments. Highland therefore commenced an application to the Capital Markets Tribunal seeking an amended information circular.

In response to Highland's application, NHT moved the meeting to October 26, 2023. Also in response to the application, NHT issued a news release on October 19, 2023 with additional information on the convertible notes.[15] The next day, Highland withdrew its application to the Capital Markets Tribunal. The news release disclosed two key pieces of information.

First, NHT clarified and corrected its earlier disclosure. It disclosed that:

> Previous disclosure of the REIT stated that the Loans were, subject to approval of the TSXV, convertible at any time at the election of the REIT into Class B Units. The REIT wishes to clarify and correct this earlier disclosure. The Loans are, and have always been, only convertible into Class B Units at the option of their respective holder. However, if any of the Loans are converted by their respective holders into Class B Units and the holder then elects to redeem those Class B Units, the REIT may elect to satisfy the redemption by issuing Units to the holder.

The news release does not explain why the previous disclosure did not properly describe the conversion rights, or why NHT failed to correct the misleading disclosure until Highland's application forced the issue.

Second, NHT disclosed that it had initially filed the convertible notes under TSXV Policy 5.1 because the convertible notes were convertible into units of the OP, rather than NHT's "publicly traded units". NHT cited that TSXV Policy 5.1 defined "loan" as excluding "any form of debt instrument issued by an Issuer that is not convertible into Listed Shares". This is an extremely narrow interpretation of TSXV Policy 5.1 that the TSXV clearly rejected as it required amendments to $56 million of the notes to bring them into compliance with Policy 4.1.

The remaining $26 million in convertible notes may breach Policy 4.1

Highland has serious concerns about the more than $26 million in convertible notes that have not been subjected to the TSXV's required amendments (the "**Unamended Notes**").

As described above, NHT issued over $82 million in convertible notes, but the TSXV required amendments to only just over $56 million worth of the notes. NHT has never disclosed that the Unamended Notes differ in any significant way from the convertible notes that the TSXV required to be amended. Nor has NHT offered any explanation as to why the Unamended Notes were not subject to the same amendments as the other notes. The Unamended Notes therefore likely also violate the

[15] NHT News Release, dated October 19, 2023, **TAB 13**.

requirements of TSXV Policy 4.1. If so, they should be subject to the same amendments as the other $56 million in notes.

Without being subject to amendments to bring about compliance with Policy 4.1, the $26 million in Unamended Notes could be converted at the holders' option at the current NHT unit market price of $0.25, which is a fraction of the unit market price when these notes were issued. This conversion could lead to an additional 104 million units being issued, when the total number of outstanding units is currently only 29,352,055. The Unamended Notes pose a significant risk of dilution for Highland and other minority unitholders. The required amendments would help to mitigate this risk and provide NHT's minority unitholders with the protection that Policy 4.1 intends.

Highland requests that the TSXV review the Unamended Notes, including any amendments to or assignments of those notes, to determine whether amendments are required to bring about compliance with TSXV Policy 4.1.

NHT may have breached TSXV Policy 3.3 – Timely Disclosure

TSXV Policy 3.3 requires accurate disclosure in news releases. Section 3.8(g) of the policy requires reporting issuers to immediately disclose "the borrowing or lending of a significant amount of funds" and section 8.3 states that "The responsibility for the adequacy and accuracy of the content of news releases rests with the directors of an Issuer."[16]

NHT has confirmed that its previous disclosures about its convertible notes are not accurate, as described above. To repeat, NHT disclosed on October 19, 2023 that:[17]

> Previous disclosure of the REIT stated that the Loans were, subject to approval of the TSXV, convertible at any time at the election of the REIT into Class B Units. The REIT wishes to clarify and correct this earlier disclosure. The Loans are, and have always been, only convertible into Class B Units at the option of their respective holder.

We note that under TSXV Policy 3.3 the TSXV has several remedies available to it, up to and including removal of the trustees.[18] We bring this potential breach of the policy to the TSXV's attention for its consideration and possible investigation.

NHT may have breached TSXV Policy 5.9 – Protection of Minority Security Holders in Special Transactions

TSXV Policy 5.9 adopts Multilateral Instrument 61-101 – *Protection of Minority Security Holders in Special Transactions* ("**MI 61-101**").[19] Under section 5.6 of MI 61-101, NHT is required to obtain minority approval for related party transactions, subject to certain exemptions. NHT has consistently disclosed that the convertible notes were exempt from the requirement for minority approval because the fair market value of the transactions did not exceed 25% of NHT's market capitalization at the time they were entered into. However, section 5.5(iii) of MI 61-101 states that the fair market values of "connected transactions" shall be aggregated in determining whether the tests for this exemption are

---

[16] TSXV Policy 3.3 – Timely Disclosure.
[17] NHT News Release, dated October 19, 2023, **TAB 13**.
[18] TSXV Policy 3.3 – Timely Disclosure, s. 12.
[19] TSXV Policy 5.9 – Protection of Minority Security Holders in Special Transactions, s. 2.2.

met.[20] MI 61-101 defines "connected transactions" as "two or more transactions that have at least one party in common, directly or indirectly…and are negotiated or completed at approximately the same time."

NHT's convertible notes appear to be connected transactions. NHT consistently entered into convertible notes with entities affiliated with Dondero between 2019 and 2022, and it disclosed that these notes were all entered into for the purpose of funding NHT's operating expenses. These convertible notes together have far exceeded 25% of NHT's market capitalization—in Q1 2022 alone, NHT entered into $22,925,000 of convertible notes, which was more than 25% of NHT's market capitalization in the same period.

It appears that minority approval may have been required before NHT entered into the convertible notes, even though such approval was not sought. Highland requests that should NHT file any new convertible notes for the TSXV's review, the TSXV consider as part of its review whether minority approval was required, and, if so, obtained.

If we can be of any assistance we would be pleased to discuss this matter further.

Sincerely,

POLLEY FAITH LLP

Jeffrey Haylock

No securities regulatory authority has expressed an opinion about these securities and it is an offence to claim otherwise. This prospectus constitutes a public offering of these securities only in those jurisdictions where they may be lawfully offered for sale and therein only by persons permitted to sell such securities. These securities have not been, and will not be, registered under the United States Securities Act of 1933, as amended, or any state securities laws and, subject to certain exceptions, may not be offered or sold in the United States or to U.S. persons.

PROSPECTUS

Initial Public Offering March 27, 2019

NEXPOINT HOSPITALITY TRUST

US$4,588,500
917,700 Units

This prospectus qualifies the distribution to the public (the "**Offering**") of 917,700 trust units (each, a "**Unit**") of NexPoint Hospitality Trust (the "**REIT**"), a newly-created, unincorporated, open-ended real estate investment trust established under the laws of the Province of Ontario. In addition, this prospectus qualifies the distribution of 3,452,014 Units to certain persons in consideration for their indirect contribution of ownership interests in NHT Intermediary, LLC ("**US Holdco**"), which entity will be acquired by the REIT on or prior to closing of the Offering ("**Closing**"). NexPoint Real Estate Advisors VI, L.P. (the "**Advisor**") will manage the REIT and its subsidiaries. The REIT, indirectly through NHT Holdings, LLC ("**NHI**"), will own its properties through its subsidiary, NHT Operating Partnership, LLC (the "**OP**"). The REIT and NHI each intend to elect to be taxed as a real estate investment trust under the U.S. Internal Revenue Code of 1986, as amended (the "**Code**"), commencing with its taxable year ending December 31, 2019. In order for NHI, and thus the REIT, to qualify as a real estate investment trust for U.S. federal income tax purposes under the Code, the properties will be leased to taxable subsidiaries of the REIT (the "**TRS Entities**") which will in turn contract with eligible independent contractors (as defined in the Code) to manage the day-to-day operations of the hotels. The property managers for each of the hotels in the Initial Portfolio (as defined below) are affiliates of Aimbridge Hospitality Holdings, LLC (collectively, the "**Manager**"). The Advisor gives the REIT access to an experienced management team in the public and private real estate investment trust market, with an extensive track record and network of industry relationships, as well as a management platform with deep knowledge of the REIT's current assets and markets and target markets. The Advisor's team has over 100 combined years of combined experience in real estate acquisitions, dispositions, financing, rehab implementation and specific experience in hospitality, including the REIT's strategy. The Manager is a recognized leader in the hospitality space and as of September 30, 2018, manages over 812 hotel properties comprised of approximately 98,000 rooms across all segments of the hospitality space including select-service and extended stay properties. See "Management and Franchise Agreements".

The REIT and its subsidiaries have been formed to acquire, own, renovate and operate a portfolio of income-producing hotel properties located in the United States. The REIT will initially indirectly own a portfolio of 11 hotel properties located throughout the continental United States. See "The Initial Portfolio" and the "Contribution of the Initial Portfolio". The REIT's portfolio will generate cash flow in U.S. dollars and the distributions made on the Units will be denominated in U.S. dollars.

The objectives of the REIT are to: (a) provide unitholders of the REIT (the "**Unitholders**") with an opportunity to invest in an initial portfolio of extended-stay, select-service and efficient full-service hotels located in attractive U.S. markets and competitively positioned to outperform the industry as a whole; (b) provide Unitholders with predictable, sustainable and growing tax efficient cash distributions; (c) enhance the value of the REIT's assets and maximize the long-term value of the Units through active asset and property management programs and procedures; and (d) expand the asset base of the REIT and increase the REIT's Core FFO (as defined below) per Unit primarily through acquisitions and improvements of its properties, including the Initial Portfolio, using targeted and strategic capital expenditures. See "Objectives of the REIT".

The REIT intends to adopt a distribution policy, as permitted under the Declaration of Trust, pursuant to which it will make *pro rata* quarterly cash distributions to Unitholders initially equal to, on an annual basis, approximately 65% to 80% of estimated Core FFO (as defined below) and initially expected to be approximately 65% of Core FFO.

Price US$5.00 per Unit

	Price to the Public[(1)(2)]	Agent's Fee	Net Proceeds[(3)]
Per Unit	US$5.00	US$0.50	US$4.50
Total	US$4,588,500	US$458,850	US$4,129,650

Notes:

(1) In addition to the Offering, this prospectus also qualifies the distribution of 3,452,014 Units to certain persons in consideration for their indirect contribution of ownership interests in US Holdco. The consideration for the sale of such Units will be membership interests of US Holdco. No Agent's fee is payable in connection with such distribution.

(2) The price of the Units (the "**Offering Price**") was established by negotiation among the REIT, the Promoter and the Agent.

(3) Before deducting expenses of the Offering estimated to be approximately $3,600,000 which, together with the Agent's fee, will be paid from the proceeds of the Offering.

There is no market through which the Units may be sold and, if a market for the Units does not develop or is not sustained, purchasers may not be able to resell Units purchased under this prospectus. This may affect the pricing of the Units in the secondary market, the transparency and availability of trading prices, the liquidity of the Units and the extent of issuer regulation. See "Risk Factors". The TSX Venture Exchange (the "TSXV") has conditionally approved the listing of Units under the symbol "NHT" (the "Listing"). Listing is subject to the REIT fulfilling all of the requirements of the TSXV, including the distribution of Units to a minimum number of public securityholders. See "Plan of Distribution".

As of the date of this prospectus, the REIT does not have any of its securities listed or quoted, has not applied to list or quote any of its securities, and does not intend to apply to list or quote any of its securities, on the Toronto Stock Exchange, Aequitas NEO Exchange Inc., a U.S. marketplace (as defined in National Instrument 41-101 – *General Prospectus Requirements*), or a marketplace outside Canada and the United States of America ("other than the Alternative Investment Market of the London Stock Exchange or the PLUS markets opened by PLUS Markets Group plc.").

A return on a Unitholder's investment in Units is not comparable to the return on an investment in a fixed income security. The recovery of a Unitholder's initial investment is at risk, and the anticipated return on a Unitholder's investment is based on many performance assumptions. Although the REIT intends to make distributions from Core FFO to Unitholders, these distributions may be reduced or suspended. The actual amount distributed will depend on numerous factors including the financial performance of the REIT's properties, debt covenants and other contractual obligations, working capital requirements and future capital requirements, all of which are subject to a number of risks. The market value of the Units may decline if the REIT is unable to meet its Core FFO targets in the future, and that decline may be material. See "Non-IFRS Measures". **An investment in the Units involves a number of risks and it is important to consider the particular risk factors described in the "Risk Factors" section of this prospectus, which may affect the REIT, its business and the hotel industry, and therefore the availability of funds necessary to make distributions to a purchaser of Units.**

Because the REIT will be treated as a real estate investment trust for U.S. federal income tax purposes, distributions paid by the REIT to Canadian investors that are made out of the REIT's current or accumulated earnings and profits (as determined under U.S. federal income tax principles) generally will be subject to U.S. withholding tax at a rate of 30%, which may be reduced to 15% for investors that qualify for benefits under the United States-Canada Income Tax Convention (1980, as amended) (the "**Treaty**"), provided that the required form evidencing eligibility for such benefits is filed with the REIT or the appropriate withholding agent. To the extent a Canadian investor is subject to U.S. withholding tax in respect of distributions paid by the REIT on the Units out of the REIT's current or accumulated earnings and profits, the amount of such tax generally will be eligible for foreign tax credit or deduction treatment, subject to the detailed rules and limitations under the *Income Tax Act* (Canada) (the "**Tax Act**"). So long as the Units continue to be regularly traded on an established securities market, distributions with respect to Units in excess of the REIT's current and accumulated earnings and profits that are distributed to Canadian investors that have not owned (or been deemed to own) more than 10% of the outstanding Units generally will not be subject to U.S. withholding tax, although there can be no assurances that withholding on such amounts will not be required. The composition of distributions for U.S. federal income tax purposes may change over time, which may affect the after-tax return to Unitholders. Qualified residents of Canada that are tax-exempt entities

established to provide pension, retirement or other employee benefits (including trusts governed by a RRSP, a RRIF or a DPSP, but excluding trusts governed by a TFSA, an RESP or a RDSP (each as defined below)) may be eligible for an exemption from U.S. withholding tax. The foregoing is qualified by the more detailed summary in this Prospectus. See “Certain Canadian Federal Income Tax Considerations” and “Certain U.S. Federal Income Tax Considerations”. See also “Risk Factors – Tax-Related Risk Factors”.

The after-tax return from an investment in Units to Unitholders subject to Canadian federal income tax will depend, in part, on the composition for Canadian federal income tax purposes of distributions paid by the REIT, portions of which may be fully or partially taxable or may constitute tax deferred returns of capital (i.e., returns that initially are non-taxable but which reduce the adjusted cost base of the Unitholders’ Units). The composition of distributions for Canadian federal income tax purposes may change over time, thus affecting the after-tax return to Unitholders. See “Distribution Policy”, “Certain Canadian Federal Income Tax Considerations” and “Risk Factors – Tax-Related Risk Factors”.

Raymond James Ltd. (the “**Agent**”), conditionally offers the Units to be issued under the Offering, subject to prior sale, if, as and when issued by the REIT and accepted by the Agent in accordance with the conditions contained in the Agency Agreement (as defined below) and subject to the approval of certain legal matters on behalf of the REIT by Goodmans LLP and Baker & McKenzie LLP (with respect to U.S. tax matters only), and on behalf of the Agent by Blake, Cassels & Graydon LLP. Subscriptions will be received subject to rejection or allotment in whole or in part and the right is reserved to close the subscription books at any time without notice. Closing is expected to occur on March 29, 2019 but in any event no later than April 12, 2019. Registrations and transfers of Units will be effected electronically through the non-certificated inventory (“**NCI**”) system administered by CDS Clearing and Depository Services Inc. (“**CDS**”). Beneficial owners of Units will not be entitled to receive physical certificates evidencing their ownership of Units. See “Plan of Distribution” and “Declaration of Trust — Non-Certificated Inventory System”. **The Agent may offer the Units at lower prices than stated above. See “Plan of Distribution”.**

NexPoint Real Estate Advisors VI, L.P., which has acted as promoter (the “**Promoter**”), is organized under the laws of a foreign jurisdiction and resides outside Canada. James Dondero, Brian Mitts, Matthew McGraner, Jesse Blair III and Paul Richards are executive officers of the REIT and reside outside Canada. Although such Promoter, non-resident trustees and non-resident persons executing a prospectus certificate have appointed GODA Incorporators, Inc., 333 Bay Street, Suite 3400, Toronto, Ontario M5H 2S7, as its agent for service of process in Ontario, it may not be possible for investors to enforce judgments obtained in Canada against such Promoter, trustees or persons. See “Risk Factors” and “Enforcement of Judgments Against Foreign Persons”.

The REIT is not a trust company and is not registered under applicable legislation governing trust companies as it does not carry on or intend to carry on the business of a trust company. The Units are not “deposits” within the meaning of the *Canada Deposit Insurance Corporation Act* (Canada) and are not insured under the provisions of that statute or any other legislation.

MEANING OF CERTAIN REFERENCES

In this prospectus, except where otherwise indicated or the context otherwise requires, it is assumed that the transactions described under "The Contribution of the Initial Portfolio" have been completed.

References to the "REIT" in this prospectus includes its subsidiaries, unless the context otherwise requires. Unless otherwise indicated, all dollar amounts in this prospectus are stated in U.S. dollars and references to dollars or "$" are to U.S. currency and references to Canadian dollars or "C$" are to Canadian currency.

Certain terms used in this prospectus are defined under "Glossary".

References to "management" in this prospectus means the persons acting in the capacities of the REIT's Chief Executive Officer ("**CEO**"), Chief Financial Officer ("**CFO**") and Chief Investment Officer ("**CIO**"). Any statements in this prospectus made by or on behalf of management are made in such persons' capacities as officers of the REIT or the Advisor and not in their personal capacities.

ELIGIBILITY FOR INVESTMENT

In the opinion of Goodmans LLP, counsel to the REIT, based on the current provisions of the Tax Act, and subject to the provisions of any particular plan, provided that the REIT qualifies at all times as a "mutual fund trust" (as defined in the Tax Act) or the Units are listed on a "designated stock exchange" (as defined in the Tax Act, which includes the TSXV), the Units will be a qualified investment for trusts governed by a registered retirement savings plan ("**RRSP**"), registered education savings plan ("**RESP**"), registered retirement income fund ("**RRIF**"), deferred profit sharing plan ("**DPSP**"), registered disability savings plan ("**RDSP**") and a tax-free savings account ("**TFSA**") (collectively, "**Exempt Plans**").

Notwithstanding the foregoing, if the Units are a "prohibited investment" (as defined in the Tax Act) for a trust governed by a TFSA, RRSP, RRIF, RESP or RDSP, the holder, annuitant or subscriber thereof will be subject to a penalty tax as set out in the Tax Act. The Units will not be a prohibited investment for a TFSA, RRSP, RRIF, RESP or RDSP provided the holder, annuitant or subscriber (as the case may be) of such registered plan deals at arm's length with the REIT, for purposes of the Tax Act, and does not have a "significant interest" (as defined for the purposes of the prohibited investment rules in the Tax Act) in the REIT. Generally, a holder, annuitant or subscriber will have a significant interest in the REIT if the holder, annuitant or subscriber and/or persons not dealing at arm's length with the holder, annuitant or subscriber, for the purposes of the Tax Act, own, directly or indirectly, 10% or more of the fair market value of the Units. In addition, the Units will not be a "prohibited investment" if the Units are "excluded property" as defined in the Tax Act for trusts governed by a TFSA, RRSP, RRIF, RESP or RDSP. Prospective purchasers who intend to hold their Units in their TFSAs, RRSPs, RRIFs, RESPs or RDSPs should consult their own tax advisors regarding their particular circumstances.

MARKET AND INDUSTRY DATA

This prospectus includes market and industry data and forecasts that were obtained from third party sources, industry publications and publicly available information as well as industry data prepared by management on the basis of its knowledge of the hotel industry in which the REIT will operate (including management's estimates and assumptions relating to the industry based on that knowledge). Some data and other information are also based on management's good faith estimates, which are derived from its review of proprietary and independent research, and independent sources. Management's knowledge of the United States hotel industry has been developed through its experience and participation in the industry. Management believes that its industry data is accurate and that its estimates and assumptions are reasonable, but there can be no assurance as to the accuracy or completeness of this data. Third party sources generally state that the information contained therein has been obtained from sources believed to be reliable, but there can be no assurance as to the accuracy or completeness of included information. Although management believes it to be reliable, the REIT has not independently verified any of the data from management or third party sources referred to in this prospectus, or analyzed or verified the underlying studies or surveys relied upon or referred to by such sources, or ascertained the underlying economic assumptions relied upon by such sources.

RELIANCE

Unless otherwise stated, the information contained in this prospectus is accurate only as of the date of this prospectus. The REIT's business, financial condition, results of operations and prospects may have changed since the date of this prospectus.

This prospectus contains summary descriptions of certain material agreements of the REIT. See "Material Contracts". The summary descriptions disclose attributes of such agreements material to an investor in Units but are not complete and are qualified in their entirety by reference to the terms of the material agreements, which will be filed with the Canadian securities regulatory authorities and made available electronically on SEDAR at www.sedar.com. Investors should read the full text of such material agreements.

NON-IFRS MEASURES

In this prospectus, the REIT uses certain non-IFRS financial measures, which include core funds from operations ("**Core FFO**"), earnings before interest, taxes, depreciation and amortization ("**EBITDA**"), funds from operations ("**FFO**"), net operating income ("**NOI**") and net operating income margin ("**NOI Margin**"). These terms are not measures recognized under International Financial Reporting Standards ("**IFRS**") and do not have standardized meanings prescribed by IFRS. Management believes that these measures are helpful to investors because they are widely recognized measures of a real estate investment trust's performance and provide a relevant basis for comparison among real estate entities.

"**Core FFO**" means FFO with certain adjustments which are either not likely to occur on a regular basis or are otherwise not representative of the ongoing operating performance of the REIT's portfolio. Core FFO adjusts FFO to remove items such as losses on extinguishment of debt and modification costs (includes prepayment penalties incurred and the write-off of unamortized deferred financing costs and fair market value adjustments of assumed debt related to the retirement of debt and costs incurred in connection with a debt modification that are expensed), casualty-related expenses and recoveries, the amortization of deferred financing costs incurred in the current period, and the non-controlling interests related to these items.

"**Debt**" means the total principal amounts outstanding by the REIT under mortgages payable, mezzanine debt and term preferred equity which under IFRS is accounted for as a liability, and for greater certainty excludes the Class B OP Units.

"**Debt to Gross Real Estate Value Ratio**" is calculated by dividing Debt, which consists of the total principal amounts outstanding under mortgages payable, mezzanine debt and term preferred equity which under IFRS is accounted for as a liability, by Gross Real Estate Value.

"**EBITDA**" means earnings before interest, taxes, depreciation and amortization.

"**FFO**" means net income (loss) and comprehensive income (loss) calculated in accordance with IFRS, excluding: (i) depreciation of depreciable real estate assets and amortization of customer relationships and intangible assets arising from a business combination; (ii) gains (or losses) from sales of hotel properties and equipment; (iii) deferred income tax expense (recovery); (iv) impairment losses or reversals recognized on land and depreciable real estate properties; (v) transaction costs expensed as a result of the purchase of a hotel property being accounted for as a business combination; (vi) fair value adjustments to certain financial instruments; and (vii) the non-controlling interests in respect of the above. FFO has been prepared consistently with the definition presented in the White Paper on funds from operations prepared by the Real Property Association of Canada for all periods presented.

"**Gross Real Estate Value**" means, at any time, the fair value of the real estate held by the REIT, before accounting for depreciation, as determined by the most recent appraisal, plus unrestricted cash.

"**Mortgage Debt to Gross Real Estate Value Ratio**" is calculated by dividing principal amounts outstanding under mortgages payable by Gross Real Estate Value.

"**NOI**" means total revenues from properties (being the sum of revenues from rooms, food and beverage and other revenue) less hotel operating expenses as presented in the combined statements of income prepared in accordance with IFRS.

"**NOI Margin**" means NOI divided by the total revenues from properties as presented in the combined statements of income prepared in accordance with IFRS.

"**Non-Room Revenues**" means ancillary revenues generated by a hotel property, such as food and beverage, parking, telephone and other guest service revenues.

Core FFO, Debt, Debt to Gross Real Estate Value Ratio, EBITDA, FFO, Gross Real Estate Value, Mortgage Debt to Gross Real Estate Value Ratio, NOI, NOI Margin and Non-Room Revenues should not be construed as alternatives to net income and comprehensive income determined in accordance with IFRS as indicators of the REIT's performance. The REIT's method of calculating Core FFO, Debt, Debt to Gross Real Estate Value Ratio, EBITDA, FFO, Gross Real Estate Value, Gross Real Estate Value, Mortgage Debt to Gross Real Estate Value Ratio, NOI, NOI Margin and Non-Room Revenues may differ from other issuers' methods and accordingly may not be comparable to measures used by other issuers.

SELECT INDUSTRY TERMS

In this prospectus, the REIT uses certain terms commonly used in the hotel and lodging industry, including the following:

"**Average Daily Rate**" or "**ADR**" represents hotel room revenues (excluding Non-Room Revenues and taxes) divided by the total number of rooms sold in a given period, divided by the number of days in the period.

"**Occupancy**" means the total number of room nights sold divided by the total number of room nights available at a hotel or group of hotels.

"**Revenue per Available Room**" or "**RevPAR**" means hotel room revenue divided by total number of room nights available to guests for a given period. RevPAR does not include Non-Room Revenues. Management uses RevPAR to identify trend information with respect to room revenues from comparable properties and to evaluate hotel performance. RevPAR is a commonly used performance measure in the hotel industry. RevPAR changes that are driven predominantly by changes in occupancy have different implications for overall revenue levels and incremental profitability than do changes that are driven predominantly by changes in average room rates.

FORWARD-LOOKING STATEMENTS

This prospectus contains "forward-looking information" as defined under Canadian securities laws (collectively, "**forward-looking statements**") which reflect management's expectations regarding objectives, plans, goals, strategies, future growth, results of operations, performance and business prospects and opportunities of the REIT. The words "plans", "expects", "does not expect", "scheduled", "goals", "seek", "strategy", "future", "estimates", "intends", "anticipates", "does not anticipate", "projects", "believes" or variations of such words and phrases or statements to the effect that certain actions, events or results "may", "will", "could", "would", "should", "might", "likely", "occur", "be achieved" or "continue" and similar expressions identify forward-looking statements. In addition, any statements that refer to expectations, intentions, projections or other characterizations of future events or circumstances contain forward-looking statements. Statements containing forward-looking information are not historical facts but instead represent management's expectations, estimates and projections regarding future events or circumstances.

Some of the specific forward-looking statements in this prospectus include, but are not limited to, statements with respect to the following:

- the closing of the other transactions expected to occur on or prior to Closing, which are described in this prospectus;

- the listing of the Units on the TSXV;
- the intention of the REIT to pay, preserve, protect and grow Unitholders' distributions;
- the ability of the REIT to execute its growth strategies;
- the REIT's competitive position within its industry;
- expectations regarding laws, rules and regulations applicable to the REIT;
- the expected tax treatment of the REIT and of the REIT's distributions to Unitholders;
- the expected industry and demographic trends; and
- the expected increase in NOI/EBITDA based on the renovation of 1,012 rooms to be renovated throughout the Initial Portfolio.

Such forward-looking statements are qualified in their entirety by the inherent risks, uncertainties and changes in circumstances surrounding future expectations which are difficult to predict and many of which are beyond the control of the REIT, including that the transactions contemplated herein are completed.

Forward-looking statements are necessarily based on a number of estimates and assumptions that, while considered reasonable by management of the REIT as of the date of this prospectus, are inherently subject to significant business, economic and competitive uncertainties and contingencies. The REIT's estimates, beliefs and assumptions, which may prove to be incorrect, include the various assumptions set forth herein, including, but not limited to, the REIT's future growth potential, results of operations, future prospects and opportunities, demographic and industry trends, no change in legislative or regulatory matters, future levels of indebtedness, the tax laws as currently in effect, the continuing availability of capital and the current economic conditions.

When relying on forward-looking statements to make decisions, the REIT cautions readers not to place undue reliance on these statements, as forward-looking statements involve significant risks and uncertainties. Forward-looking statements should not be read as guarantees of future performance or results and will not necessarily be accurate indications of whether or not the times at or by which such performance or results will be achieved. A number of factors could cause actual results to differ, possibly materially, from the results discussed in the forward-looking statements, including, but not limited to, the factors discussed under "Risk Factors".

Certain statements included in this prospectus may be considered a "financial outlook" for purposes of applicable Canadian securities laws, and as such, the financial outlook may not be appropriate for purposes other than this prospectus. All forward-looking statements are based only on information currently available to the REIT and are made as of the date of this prospectus. Except as expressly required by applicable Canadian securities laws, the REIT assumes no obligation to publicly update or revise any forward-looking statement, whether as a result of new information, future events or otherwise. All forward-looking statements in this prospectus are qualified by these cautionary statements.

EXCHANGE RATE INFORMATION

The properties comprising the Initial Portfolio are located in the United States. The REIT discloses all financial information contained in this prospectus in U.S. dollars. The following table sets forth, for the periods indicated, the high, low, average and period-end indicative rates of exchange for US$1.00, expressed in Canadian dollars, published by the Bank of Canada.

	Nine months ended September 30	Year ended December 31		
	2018[1]	2017[1]	2016[2]	2015[2]
	($)	($)	($)	($)
Highest rate during the period	1.3310	1.3743	1.4589	1.399
Lowest rate during the period	1.2288	1.2128	1.2544	1.1728
Average rate for the period	1.2876	1.2986	1.3248	1.2787
Rate at the end of period	1.2945	1.2545	1.3427	1.384

Notes:

(1) 2018 and 2017 data from the Bank of Canada reflects the daily average exchange rates.

(2) 2016 and 2015 data from the Bank of Canada reflects the noon exchange rates.

On March 26, 2019, the daily average rate of exchange posted by the Bank of Canada for conversion of U.S. dollars into Canadian dollars was $1.00 equals C$1.3386.

PROSPECTUS SUMMARY

The following is a summary of the principal terms of the prospectus and should be read together with the more detailed information and financial data and statements contained elsewhere in this prospectus. For an explanation of certain terms and abbreviations used in this prospectus, please refer to the "Glossary" section of this prospectus.

Overview

NexPoint Hospitality Trust (the "**REIT**") is a newly-created, unincorporated, open-ended real estate investment trust established pursuant to a declaration of trust (the "**Declaration of Trust**") under the laws of the Province of Ontario. The REIT has been created for the purpose of acquiring a portfolio of 11 hospitality assets located in the United States (the "**Initial Portfolio**"), to raise capital to acquire additional U.S. located hospitality assets that meet its investment objectives and criteria and to own, renovate and operate its portfolio of income-producing hotel properties. The REIT is externally managed by NexPoint Real Estate Advisors VI, L.P. (the "**Advisor**"), which has been formed for the purpose of managing the REIT and its subsidiaries.

The REIT will indirectly wholly-own NHT Holdings, LLC ("**NHI**"), a newly formed Delaware limited liability company. The REIT and NHI each intend to elect to be treated as a real estate investment trust under U.S. tax laws, commencing with its taxable year ending December 31, 2019. Substantially all of NHI's business will be conducted through NHT Operating Partnership, LLC (the "**OP**"), the REIT's operating partnership, which is a newly formed Delaware limited liability company. The REIT will own its properties through the OP and its subsidiaries. In order for NHI, and thus the REIT to qualify as a real estate investment trust for U.S. federal income tax purposes under the U.S. Internal Revenue Code of 1986, as amended (the "**Code**"), each of the REIT's properties will be leased to taxable REIT subsidiaries which will, in turn, engage eligible independent contractors (as defined in the Code), affiliates of Aimbridge Hospitality Holdings, LLC (the "**Manager**"), to manage the day-to-day operations of the hotels.

The Advisor gives the REIT access to an experienced management team and extensive network of industry relationships, as well as a management platform with deep knowledge of the assets and markets. The Advisor is an affiliate of various entities managed by the principals and officers of the Advisor, which manage approximately $4.5 billion of real estate investments as of October 31, 2018. The Advisor's team has over 100 years of combined experience in real estate acquisitions, dispositions, financing, rehab implementation and specific experience in hospitality, including the REIT's strategy. Over the past five years, the Advisor's team has closed $5.5 billion of U.S. real estate transactions across multiple property types including: multifamily, hospitality, single family rental, storage, health care, office and retail. The team also externally manages, through an affiliate of the Advisor, a publicly traded REIT, NexPoint Residential Trust, which focuses on class B multifamily assets with a value-enhancing opportunity located in high growth cities in the Southeastern and Southwestern United States. Since listing of NexPoint Residential Trust on the New York Stock Exchange on April 1, 2015, the Advisor's team has delivered a return of 216.2% to shareholders (inclusive of reinvested dividends) through February 25, 2019. The structure and history of NexPoint Residential Trust is very similar to that of the REIT in that the Initial Portfolio was acquired through private entities that were later aggregated into a real estate investment trust and then listed on a public exchange.

Objectives of the REIT

The objectives of the REIT are to: (a) provide Unitholders with an opportunity to invest in an initial portfolio of extended-stay, select-service and efficient full-service hotels located in attractive U.S. markets and competitively positioned to outperform the industry as a whole; (b) provide Unitholders with predictable, sustainable and growing tax efficient cash distributions; (c) enhance the value of the REIT's assets and maximize the long-term value of the Units through active asset and property management programs and procedures; and (d) expand the asset base of the REIT and increase the REIT's Core FFO per Unit primarily through acquisitions and improvements of its properties, including the Initial Portfolio, using targeted and strategic capital expenditures. See "Objectives of the REIT".

Investment Opportunity

The REIT intends to achieve its investment objectives by acquiring hotel properties that will offer a high current yield and in many cases are underperforming assets with the potential to increase in value through investments in capital improvements, a market-based recovery, brand repositioning, revenue enhancements, operational improvements, expense inefficiencies, and exploiting excess land or underutilized space. The Advisor plans to target markets that have a stable yet

growing and reliable demand base and limited present and future competitive supply growth. The REIT expects that its hotel properties will be located in areas that it believes exhibit strong economic attributes such as job growth, strong business or transitory travel and leisure travel. Select-service and extended stay hotel properties, which the REIT expects to comprise a majority of its portfolio, typically do not include amenities provided in full-service hotel properties; therefore, select-service and extended stay hotel properties primarily derive their revenues from hotel room rentals and, to a lesser extent, from restaurants, meeting space and other similar income streams. Extended-stay hotel properties are generally high-quality, residential style hotels that offer a package of services and amenities for extended-stay business and leisure travelers. The REIT may also opportunistically invest in efficient full-service hotel properties, although it does not expect such properties to comprise a substantial portion of its portfolio in the long-term. Full-service hotel properties generally provide a full complement of guest amenities including restaurants, large meeting facilities, concierge, and room service, porter service or valet parking. The REIT may also originate or make investments in debt related to targeted hotel properties.

See “Investment Opportunity”.

Investment Highlights

The following describes the investment highlights of the Offering.

Access to Hospitality Assets Located in the United States on a Tax Efficient Basis

Management believes that the United States real estate market is one of the most dynamic, stable and liquid real estate markets in the world. The ability for Canadian investors to access hospitality assets located in the U.S. is difficult as investing directly in real estate investment trusts domiciled in the U.S. is a tax inefficient avenue for exposure to this important asset class. Currently, there are very few alternatives domiciled in Canada that invest primarily in hospitality properties located in the U.S. Using the REIT’s structure whereby it is taxed as a U.S. real estate investment trust but is domiciled in Canada, the REIT offers a tax efficient way for Canadian investors to gain exposure to U.S. hospitality assets.

Attractive Asset Class with Favorable Fundamentals

Hospitality properties offer the shortest duration leases of any real estate sector which offers the ability to adjust pricing of rooms immediately to meet market demand, which should provide an inflation hedge during periods of economic expansion. The REIT believes its strategy of targeting older properties in need of capital improvements that can be repositioned to generate higher revenues will work in all market cycles and produce high current returns to investors. The REIT expects to benefit from the increase in overall economic activity, increased discretionary spending and business and leisure travel in the U.S. as well as benefit from its ability to adjust its operations to weather an economic downturn and provide consistent relative returns through all economic cycles.

Unique, Internal Growth Strategy Offering a Total Return Profile

Management believes that the REIT’s strategy of buying older properties that need capital improvements, a market-based recovery, brand repositioning, revenue enhancements, operational improvements, expense inefficiencies, and exploiting excess land or underutilized space, gives it the opportunity to generate high current yield as well as capital appreciation over time. In executing this value-add strategy, management believes the REIT can generate Core FFO growth and superior total returns to investors within the Initial Portfolio, irrespective of whether the REIT acquires additional hotels.

Attractive and Stable Yield

The REIT intends to pay a quarterly cash distribution, representing approximately 65% of the REIT’s Core FFO and to increase the REIT’s dividend over time such that the REIT pays out annually 65% to 80% of its Core FFO.

Sizeable Quality Portfolio with Embedded Growth Opportunity

The Initial Portfolio is comprised of 11 properties located throughout the U.S. in the select-service and extended stay hospitality categories. Each property has a long-term franchise agreement with Marriott, Hilton or InterContinental Hotels Group sponsored brands. The REIT believes each property in the Initial Portfolio has the opportunity to generate outsized market share improvements and topline increases as leading select-service or extended stay hotels in their respective

submarkets. In addition to organic growth, the REIT is expected to realize additional embedded growth from its capital improvement strategy.

Attractive External Growth Strategy

In addition to executing an internal growth strategy, the REIT expects to capitalize on a pipeline of target hospitality investments requiring funding for capital improvements or brand repositioning that exist in the U.S. market by utilizing its ability to raise new capital as a publicly traded entity. The REIT believes it will be able to react more quickly and more opportunistically in its investment program as compared to private investors or funds. Additionally, the Offering, and potential future offerings, will allow the REIT to avoid the lengthy and time consuming private fundraising process, which will increase the time available to focus on investment and asset management activity for the REIT.

Management Team Aligned with Shareholders

Members of the management team will be aligned with shareholders through a significant ownership percentage in the REIT. At Closing, the management team will directly or indirectly own or exercise control or direction over approximately 71.1% of the REIT and 38.2% of the combined equity of the REIT and OP (determined as if all Class B OP Units are redeemed for Units), assuming the Offering is fully subscribed.

See “Investment Highlights” and “Risk Factors”.

Growth Strategies

The REIT intends to grow in three ways. First, through organic growth expected from favorable economic and demographic fundamentals within its existing markets. Second, the REIT believes the Initial Portfolio will provide opportunities for further embedded, internal growth through value-enhancing initiatives such as the REIT’s capital improvement and renovation program. Third, the REIT believes there are ample assets that fit its strategy and intends to pursue a disciplined external growth strategy by acquiring well located hospitality properties that it believes have the potential to generate higher yields and growth prospects through the REIT’s capital improvement program.

To find hotel properties that best meet its selection criteria for investment, the Advisor’s property acquisition team will study regional demographics and market conditions, interview local brokers and operators, and utilize its network of external real estate professionals to gain the practical knowledge that studies sometimes lack. The property acquisitions team will also work with various property managers and affiliates to tap into their vast network and broad market exposure. Additionally, where the REIT believes it gives it a comparative advantage, it will partner with firms that have an expertise in the property class and geographic area where it is seeking to acquire properties. An experienced commercial construction engineer will inspect the structural soundness and the operating systems of each building, and an environmental firm will investigate environmental issues to ensure each property meets its quality specifications. The Advisor’s management team will emphasize thorough market research, local market knowledge, underwriting discipline, and risk management in evaluating potential investments.

See “Growth Strategies”.

Initial Portfolio

The Initial Portfolio consists of 11 properties comprised of 1,607 rooms. The Initial Portfolio is located across six major metropolitan statistical area (“**MSA**”) markets in five states in the continental United States.

The following table highlights certain information about the Initial Portfolio as at September 30, 2018:

Brand	Location	Chain Scale	Service Scale	Location Segment	Year Built/Last Renovation	Rooms
Hilton						
Hilton Garden Inn	Dallas, Texas	Upscale	Select-Service	Urban	1995/2016	240
DoubleTree	Beaverton, Oregon	Upscale	Limited-Service	Suburban	1997/2016[(1)]	98
DoubleTree	Bend, Oregon	Upscale	Full-Service	Suburban	1998/2013[(1)]	117
DoubleTree	Olympia, Washington	Upscale	Full-Service	Suburban	2000/2016[(1)]	102
DoubleTree	Tigard, Oregon	Upscale	Limited-Service	Suburban	1996/2016[(1)]	101

Total Rooms:						**1,607**

Note:

(1) Currently undergoing renovations.

Description of the Initial Portfolio

Hilton Garden Inn Dallas Market Center

The hotel is centrally located and proximate to many of the region's major demand generator's including Dallas Love Field and several medical facilities in the Dallas Medical District. The hotel is also within walking distance to the more than five million square foot Dallas Market Center and one of the largest convention hotels in the southwest United States, the 1,600 room Hilton Anatole. The hotel is an upscale class, select-service hotel that was most recently renovated in 2016 to upgrade décor, flooring, furniture, bathrooms and fixtures in all rooms and for general improvements to common areas.

DoubleTree Beaverton

The hotel benefits from its strategic positioning in the heart of "Silicon Forest", a high-technology industry cluster in Oregon. The hotel is situated near corporate headquarters or a major presence of several consumer brands such as Nike, Adidas, Intel, IBM, and Columbia Sportswear. The hotel is also proximate to downtown Portland. The hotel is an upscale

class, limited-service hotel that is currently undergoing renovations to upgrade bathroom facilities and fixtures in all rooms and to update common areas.

DoubleTree Bend

The hotel is situated in an idyllic scenic setting that provides year round recreational activities, a high standard of living, as well as becoming renowned for its industries that include software and high-technology, bioscience, outdoor recreation products, aviation, manufacturing, and craft brewing and distilling. The hotel is located in the heart of downtown Bend within walking distance to numerous shops, restaurants, bars and breweries and a short drive to the Mount Bachelor Ski Resort. The hotel is an upscale class, full-service hotel that is currently undergoing renovations to upgrade bathroom facilities and fixtures in all rooms and to update common areas.

DoubleTree Olympia

The hotel is located at a waterfront location less than one mile north of the capital building in the capital of Washington State, in Thurston County. The hotel benefits greatly from a diverse demand base, an expanding port facility, a vibrant arts scene, recreational activities, and the steady influence of the state government. The hotel is an upscale class, full-service hotel that is currently undergoing renovations to upgrade bathroom facilities and fixtures in all rooms and to update common areas.

DoubleTree Tigard

The hotel benefits from its strategic positioning in the heart of "Silicon Forest", a high-technology industry cluster in Oregon. The hotel is situated in the heart of nearly 8.6 million square feet of office within three miles and is proximate to downtown Portland. The hotel is an upscale class, limited-service hotel that is currently undergoing renovations to upgrade bathroom facilities and fixtures in all rooms and to update common areas.

DoubleTree Vancouver

The hotel is proximate to Portland International Airport as well as the various corporate and leisure demand generators of Vancouver, Washington and Portland, Oregon, which includes over 3.3 million square feet of office space and a 450 bed medical facility within three miles. The hotel is an upscale class, limited-service hotel that is currently undergoing renovations to upgrade bathroom facilities and fixtures in all rooms and to update common areas.

Homewood Suites Plano

The hotel is conveniently located off of Preston Road, in an affluent suburb of Dallas, with more than 60 million square feet of office in the Far North Dallas submarket. Management believes this hotel will benefit from its proximity to a growing market within the United States. The hotel is a midscale class, select-service hotel that was most recently renovated in 2018 to upgrade décor, flooring, furniture, bathrooms and fixtures in all rooms and for general improvements to common areas.

Homewood Suites Addison

Located along the highly trafficked Belt Line Road in Dallas' "Platinum Office Corridor", the hotel benefits from the dense surrounding concentration of office, restaurant, and entertainment venues. Within a three mile radius of the hotel is approximately 31 million square feet of office and over 13 million square feet of retail. The hotel is an upper midscale class, select-service hotel that was most recently renovated in 2018 to upgrade décor, flooring, furniture, bathrooms and fixtures in all rooms and for general improvements to common areas.

Homewood Suites Las Colinas

The hotel is centrally located within Las Colinas' urban center, providing access to more than 2,000 companies (including five fortune 500 headquarters) within the 12,000 acre master-planned submarket as well as one of the nation's busiest airports, DFW International Airport. The hotel is a midscale class, select-service hotel that was most recently

renovated in 2018 to upgrade décor, flooring, furniture, bathrooms and fixtures in all rooms and for general improvements to common areas.

Marriott St. Petersburg

The hotel is situated less than a mile from Raymond James Ltd., one of the larger employers in the greater Tampa Bay MSA as well as a variety of corporate and leisure demand generators including Tampa International Airport and the world class beaches of Clearwater. Management of the REIT believes this hotel presents a variety of value add opportunities related to institutionalizing management and completion of several capital improvement projects that will drive rates and improve the properties RevPAR penetration and further enhance operating margins due to the properties lean and efficient layout. The hotel is an upper upscale class, full-service hotel that was renovated in 2010.

Holiday Inn Express Nashville

The hotel is located within walking distance of several of Nashville's numerous tourist destinations and demand generators, including the Country Music Hall of Fame & Museum, Bridgestone Arena and Music City Center. In addition, starting in 2019 Amazon will be opening a logistics hub adjacent to the hotel that is expected to create an estimated 5,000 new jobs in the city of Nashville. The hotel is currently undergoing a rehabilitation that management of the REIT believes will help to fully realize a materially improved competitive position that leverages its central location and strong in-place cash-flow. Management believes that this rehabilitation will make the hotel an attractive destination for visitors, residents, and businesses driven by the city's distinct culture, tourist attractions, highly desirable tax incentives, and employment opportunities. The hotel is an upper midscale class, select-service hotel that is currently undergoing renovations to upgrade décor, flooring, furniture, bathrooms and fixtures in all rooms and for general improvements to common areas.

See "The Initial Portfolio".

Renovation Status of the Initial Portfolio

The following is a discussion of the renovations on the Initial Portfolio that have been performed, are currently under way or are scheduled to begin in the near term:

Hilton Garden Inn Dallas Market Center

The HGI Property was acquired by a subsidiary of NREO in December 2014. The plan upon acquisition was to do an extensive renovation on the property, which began in July 2015. NREO spent $5.6 million or $23,333 per room, completing the renovations in December 2015. During the renovation, the décor was upgraded, flooring, furniture and bathroom fixtures were replaced (other than guestroom showers) in all rooms to conform to the then required brand standards and general improvements were made to common areas. No major renovation is anticipated on the HGI Property until the next required property improvement plan ("**PIP**"), which is estimated to be in 3 – 5 years. The estimated cost will be $9,600 per room or $2.3 million. The year following completion of the renovation, RevPAR and occupancy each increased 14.9%, which exceeded underwritten projections.

DoubleTree Portfolio

The DoubleTree Portfolio was acquired by a subsidiary of NREO in May 2018 and included five DoubleTree properties located in the Pacific Northwest of the United States. The plan upon acquisition was to do an extensive renovation on each property, which began in October 2018. The REIT anticipates spending an additional $8.6 million or $16,667 per room to complete the renovation, which will be funded by the mezzanine debt secured at the acquisition and cash flow from operations. As of February 28, 2019, approximately $2.3 million has been funded under the mezzanine debt reserved for approved PIP expenses and approximately $3.4 million remains available to fund ongoing renovations at the DT Portfolio. It is estimated the renovations will be completed in May 2019. During the renovation the furniture and bathroom fixtures are being replaced in all rooms and a significant portion of the bathtubs are being converted to showers to conform to the currently required brand standards, changes in guest preferences. In addition general improvements are being made to common areas. Following completion of the current renovation, no major renovations are anticipated on the DoubleTree Portfolio until the next required PIP, which is estimated to be in 6 - 8 years. The estimated cost will be $10,000 – 15,000 per room or $7.7 million.

Homewood Suites Portfolio

The Homewood Suites Portfolio was acquired by HCBH 11611 Ferguson, LLC in May 2017. The plan upon acquisition was to do an extensive renovation on the Portfolio, which began in June 2017 and was completed in May 2018. The renovation cost $12.2 million or $34,542 per room. During the comprehensive renovation, the décor was upgraded, flooring, furniture and bathroom fixtures were replaced in all rooms to conform to the then required brand standards and changing consumer tastes, and general improvements were made to common areas. Following completion of the renovation, no major renovation is anticipated on the Homewood Suites Portfolio until the next required PIP, which is estimated to be in approximately 6 years. The estimated cost will be $10,000 - $15,000 per room or $5.3 million. In the period following completion of the renovation, RevPAR and occupancy have been trending upward and the properties are regaining a competitive position in their respective sub-markets.

Marriott St. Petersburg

The Marriott St. Petersburg was acquired by Meritage Residential Partners LLC in September 2018. The prior owner completed an extensive renovation in 2010 to bring the property into compliance with the then current brand standards. The plan upon acquisition was to do an extensive renovation on the portfolio, which is estimated to begin in 2019 and be completed in 2020. Capital expenditures of $7.0 million or $33,400 per room have been budgeted for the renovation, which will be funded by cash flow from operations and capital previously contributed by NREO. During the renovation, the décor will be upgraded, flooring, furniture and bathroom fixtures will be replaced in all rooms to conform to the currently required brand standards and general improvements will be made to common areas. Case goods are expected to be replaced in 2022 and should be the only major renovation is anticipated on the St. Petersburg Property until the next required PIP, which is estimated to be in 6 - 8 years. The estimated cost will be $6,000 - $10,000 per room or $1.3 million - $2.1 million.

Holiday Inn Express Nashville

The Holiday Inn Express Nashville was indirectly acquired by NHT Holdco, LLC in January 2019. At the time of acquisition, the prior owner was undertaking a PIP program in furtherance of a partially completed process commenced in the prior year to bring the hotel décor, furniture, fixtures and common areas up to the current brand standards. After acquisition, the prior owner is completing the PIP renovations as agreed to in the purchase agreement. At closing of the acquisition, the prior owner paid $3 million to fund the remaining renovation costs and capped NHT Holdco, LLC's exposure to overruns per the purchase agreement. The renovations are expected to be completed in 2019. Subsequent to completion of the renovation, no major renovation is anticipated on the Nashville Property until the next required PIP, which is estimated to be in 8 years. The estimated cost will be $10,000 - $15,000 per room or $4.3 million.

Future Anticipated Renovations

Pursuant to the franchise agreements between the REIT and various hotel brands under which the REIT operates its properties, the REIT is required to undertake periodic PIP programs to conform the properties to the then current brand standards mandated by each brand. PIPs are not generally prescribed on a set timeline but rather are required when a property's current décor, furniture and fixture package falls materially outside of the current brand standards. The REIT estimates that PIPs will be required generally 6 - 8 years after completion of the prior PIP. Because each brand develops its own standards that continuously change, it is impossible to accurately estimate the cost of a future PIP. However, the REIT believes that for the brands the REIT operates, costs will be approximately $15,000 per room at the high end. Once a PIP is required, the REIT will generally have approximately 24 months to complete the required upgrades. Furthermore, because of the extensive renovations done recently, in progress, or to be completed in the next 12 months, the anticipated time frame for future PIPs are 4 years at the earliest and will be required to be completed in 6 years, based on the REIT's best estimate with currently available information.

The REIT employs several mechanisms to fund the required periodic PIPs. First, 4% of gross revenue is generally reserved annually for each property. Cash reserved for future PIP expenditures is reflected on the statement of financial position as restricted cash, or as a receivable. In addition to funding reserves for future PIP expenditures, the REIT anticipates having additional free cash flow after payment of the dividend that may be used to fund PIPs. Additionally, depending on the state of debt markets at the time the PIP is required, it is possible the REIT may refinance certain mortgages and take out additional cash to fund the PIP.

In addition to periodically required PIPs, each property requires capital expenditures for ongoing repairs and maintenance. These costs are usually expensed as incurred, unless the repair is of a nature such that it is extending the life of a component of the property, in which case it is capitalized. Ongoing repair and maintenance expenses are budgeted annually and capital is reserved throughout the year to fund these expenditures.

See "Renovation Status of the Initial Portfolio".

Assessment and Valuation of the Initial Portfolio Properties

The REIT has retained JLL Valuation & Advisory Services, LLC (the "**Appraiser**") to provide an independent opinion as to the aggregate market value of the Initial Portfolio. The Appraiser estimated the prospective market value at stabilization of each hotel property in the Initial Portfolio, which takes into account the completed and ongoing renovation projects. The estimated total aggregate value upon stabilization is approximately $383.7 million, representing a value per room of approximately $238,768.

See "Assessment and Valuation of the Initial Properties".

Debt Strategy and Indebtedness

The REIT plans to use leverage in the portfolio to help increase returns and yields to Unitholders. The REIT will seek to maintain a debt profile consisting of various sources of low cost capital, including debt from regional and national banks, insurance companies, and non-bank lenders. Each of the properties in the Initial Portfolio is encumbered. Immediately following Closing, management anticipates the REIT's Debt will consist of (i) $184.2 million of secured mortgage loans, implying a Mortgage Debt to Gross Real Estate Value Ratio of approximately 50% and (ii) $73.3 million of mezzanine debt, implying a total Debt to Gross Real Estate Value of approximately 70%. Longer-term, the REIT intends to target and maintain a Mortgage Debt to Gross Real Estate Value Ratio of between 40% to 50% in order to maximize returns while minimizing leverage risk. The ratio of Debt to the aggregate appraised value of the Initial Portfolio upon stabilization (being $383.7 million) is approximately 67%.

Lender	Interest Rate/Spread	Amortization Period (Years)	Maturity Date[3]	Number of Encumbered Properties	Principal Amount Outstanding as of February 28, 2019 ($)[9]
Societe Generale	5.12%	30	July 1, 2026	1[4]	69,842,343
Acore Capital Mortgage, LP[7]	3.45%[1]	30	March 1, 2022	5[5]	88,000,000
ACRC Lender LLC[8]	3.45%[2]	30	May 9, 2021	5[6]	64,653,944
Acore Capital Mortgage, LP	6.25%[2]	N/A	January 8, 2020	5[5]	35,000,000
Total Mortgage and Mezzanine Loans				**11**	**$257,496,287**

Notes:

(1) Variable based on one-month LIBOR plus the noted spread.

(2) Variable based on one-month LIBOR plus the noted spread. LIBOR floor of 2.25%.

(3) Does not include extension options which apply for a majority of the mortgage loans.

(4) Secured by Holiday Inn Express Nashville.

(5) Secured by Marriott St. Petersburg, Hilton Garden Inn Dallas Market Center, Homewood Suites Plano, Homewood Suites Addison and Homewood Suites Las Colinas.

(6) Secured by DoubleTree Beaverton, DoubleTree Bend, DoubleTree Olympia, DoubleTree Tigard and DoubleTree Vancouver.

(7) The loan with Acore Capital Mortgage is separated into two different loans: 1) $59,400,000 mortgage (Note A) and 2) $28,600,000 mezzanine (Note B).

(8) The loan with ARC Lender LLC is separated into three different loans: 1) $55,000,000 mortgage, 2) $7,365,000 mezzanine debt (Note A) and 3) $5,700,000 mezzanine debt (Note B) that is to be used for approved PIP expenses. As of February 28, 2019, $2,288,944 has been funded under the facility reserved for approved PIP expenses and $3,411,056 remains available to fund ongoing renovations at the DT Portfolio.

(9) The REIT has recorded gross deferred financings costs of $5,371,450 that is not reflected in this balance. If the deferred financing costs were netted against the principal balances of mortgages and mezzanine debt, as required by IFRS, the net balance would be $252,124,837.

As of the date of this prospectus: (i) the mortgage in favour of Societe Generale is guaranteed by the OP; (ii) the mortgage in favour of Acore Capital Mortgage, LP is guaranteed by NexPoint Real Estate Advisors, L.P. and NHT Holdco, LLC; (iii) the mortgage in favour of ACRC Lender LLC is guaranteed by NREO; and (iv) the preferred equity in favour of Acore Capital Mortgage, LP in the amount of is guaranteed by The Dugaboy Investment Trust. The mortgage loans are non-recourse debt and as a result, the corresponding guarantees are effective only upon the occurrence of certain non-recourse carve-outs and the preferred equity is guaranteed on a full-recourse basis. It is anticipated that following Listing, the REIT will replace NHT Holdco, LLC as the guarantor of the mortgage in favour of Acore Capital Mortgage, LP.

Following Closing, the REIT's mortgage debt will have a weighted average maturity of 3.60 years and a weighted average interest rate of 6.10% based on a one-month LIBOR rate of 2.49% (as of February 28, 2019).

See "Debt Strategy and Indebtedness".

Governance and Management of the REIT

The REIT will be externally managed by the Advisor under the Advisory Agreement (as defined below). In order for NHI, and thus the REIT, to qualify as a real estate investment trust for U.S. federal income tax purposes under the Code, the day-to-day operations of the REIT's hotel properties must be managed by an eligible independent contractor (as defined in the Code). The entities through which the REIT owns the hotel properties will lease the hotel properties to one or more TRS Entities, which will enter into Hotel Management Agreements (as defined below) with the Manager, pursuant to which the Manager will operate and manage the REIT's hotel properties. The TRS Entities will also enter into franchise agreements (as described below).

The following table sets forth the name, municipality of residence, positions held with the REIT and principal occupation of the trustees of the REIT (the "**Trustees**"):

Name	Position with the REIT	Principal Occupation
NEIL LABATTE .... Toronto, Ontario, Canada	Lead Trustee and chair of the Compensation, Governance and Nominating Committee	President and CEO Global Dimension Capital, Inc.
JAMES DONDERO .... Dallas, Texas, U.S.A.	Trustee, Chair and Chief Executive Officer	Chief Executive Officer, NexPoint Hospitality Trust
GRAHAM D. SENST .... Toronto, Ontario, Canada	Trustee and chair of the Audit Committee	Trustee, BSR Real Estate Investment Trust

The following table sets forth the name, municipality of residence and positions held with the REIT of each executive officer of the REIT on Closing:

Name and Municipality of Residence	Office with the REIT
JAMES DONDERO... Dallas, Texas, USA	Chief Executive Officer
BRIAN MITTS... Dallas, Texas, USA	Chief Financial Officer, Executive Vice President-Finance, Treasurer and Corporate Secretary
MATTHEW MCGRANER .... Dallas, Texas, USA	Chief Investment Officer
JESSE BLAIR III .... Dallas, Texas, USA	Executive Vice President, Head of Lodging
PAUL RICHARDS .... Dallas, Texas, USA	Vice President, Asset Management

See “Governance and Management of the REIT”.

On or prior to Closing, the REIT and the Advisor (or an affiliate thereof) will enter into certain agreements governing the relationships among such parties following Closing. These agreements are described below.

Management and Franchise Agreements

Advisory Agreement

Pursuant to an amended and restated advisory agreement (the “**Advisory Agreement**”), subject to the overall supervision of the board of trustees of the REIT (the “**Board**”) and the board of managers of NHI, as applicable, the Advisor will manage the day-to-day operations of, and provide investment management services to, the REIT and NHI. Under the terms of the Advisory Agreement, the Advisor will:

- find, present and recommend to the Board investment opportunities consistent with the REIT’s investment policies and objectives;
- execute investments on behalf of the REIT and NHI, provided that the Advisor shall obtain the prior approval of (i) the Board and (ii) any particular committee of the Board or the board of managers of NHI specified by the Board, in connection with any investment for which the cash and/or equity consideration paid by the REIT or any subsidiary of the REIT is equal to or exceeds the lesser of (a) 10% of the aggregate of the book value of the equity of the REIT plus the value of the Class B OP Units, each as reflected on the most recent statement of financial position of the REIT or (b) $25,000,000;
- identify, evaluate, negotiate and recommend to the Board the structure of the REIT’s investments (including performing due diligence);
- evaluate and negotiate the terms of dispositions within the discretionary limits and authority granted by the Board;
- review and analyze financial information for each underlying property of the REIT’s portfolio;
- within the discretionary limits and authority as granted by the Board, identify, evaluate, negotiate and recommend to the Board financing and funding opportunities with banks or other lenders;
- subject to the overall supervision of the Board, manage the REIT’s capital improvement program including determining when to execute the program at each property;
- close, monitor and administer the investments made by the REIT;
- maintain the accounting and financial records of the REIT and its subsidiaries (including NHI) and file required information with the Ontario Securities Commission upon approval of the Board;
- perform investor-relations functions; and
- manage Canadian and U.S. regulatory compliance, including making all required filings and preparing all documents, data and analysis required for regulatory filings, including all documents necessary for continuous disclosure requirements pursuant to applicable stock exchange rules and securities laws.

As consideration for the Advisor’s services, the REIT will pay to the Advisor an advisory fee at an annualized rate of 1.00% of REIT Asset Value, less certain fee waivers and adjustments, resulting in an advisory fee on the Initial Portfolio of approximately 0.58% of REIT Asset Value at the time of Listing, paid monthly (the “**Advisory Fee**”), together with reimbursement of certain general and administrative expenses. Additionally, an omnibus equity incentive plan (the “**Omnibus Plan**”) will be put in place pursuant to which restricted equity units, performance-based awards, deferred trust units, units of the OP designated as “Profits LTIP Units” and other awards convertible, exercisable or exchangeable into or

otherwise based on the Units may be granted to Trustees, officers of the REIT and employees of the Advisor. The Omnibus Plan implemented and effective on the date of the listing of the Units on the TSXV (the "**Listing**") will reserve a maximum of 3,026,155 Units for issuance, representing 20% of the issued and outstanding Units of the REIT following completion of the Listing. Grants under the Omnibus Plan may be awarded by Independent Trustees of the Board at their discretion.

Pursuant to the Advisory Agreement, and subject to certain exceptions including expenses associated with a future debt or equity raise or unusual expenses related to litigation or other unusual activity, the REIT shall not incur annual general and administrative expenses (inclusive of the Advisory Fee and other compensation expenses paid to the Advisor and including compensation from Omnibus Plan grants) in excess of 1.5% of REIT Asset Value for any calendar year or portion thereof, provided that this cap will not apply to legal, accounting, financial, due diligence and other service fees incurred in connection with a future debt or equity raise, extraordinary litigation, mergers and acquisitions and other events outside the REIT's or NHI's ordinary course of business or any out-of-pocket acquisition or due diligence expenses incurred in connection with the acquisition or disposition of real estate assets (the "**Total G&A Cap**") and the Advisor shall backstop and shall be liable for any general and administrative expenses in excess of such Total G&A Cap.

The Advisory Agreement will have an initial term of two years. Following the initial term, the Advisory Agreement will continue in full force and effect, subject to early termination, so long as such continuance is approved at least annually by (i) the board of managers of NHI, and (ii) either (a) the Board or (b) a vote of the Unitholders. The REIT will have the right to terminate the Advisory Agreement on 60 days' written notice without payment of a termination fee in the case of a breach of the Advisory Agreement by the Advisor; provided that no such notice shall be required in the event of fraud, misappropriation of funds, gross negligence, general assignment for the benefit of creditors or bankruptcy of the Advisor. The REIT will be permitted to terminate the Advisory Agreement without cause or due to a change in control of the REIT with 180 days' written notice to the Advisor. In the event of termination (other than termination for cause) or non-renewal of the Advisory Agreement (including if the services provided pursuant to the Advisory Agreement are internalized), the Advisor will be entitled to compensation equal to three times the Advisory Fee paid to the Advisor over the last 12 months subject to a cap at 7.5% of the combined equity value of the REIT and the OP on a consolidated basis, as of the date the Advisory Agreement is terminated, calculated by multiplying the aggregate number of outstanding Units and Class B OP Units by the volume weighted average price of Units over the prior 30 day period of the Units on the TSXV, provided, however, if the Advisory Agreement is terminated prior to the one year anniversary of the date of the Advisory Agreement, the Advisory Fee will be annualized for such 12-month period based on such Advisory Fee earned by the Advisor during such period.

The Advisor will have the right to terminate the Advisory Agreement upon default or the general assignment for the benefit of creditors or bankruptcy by the REIT. Principals of the Advisor and its affiliates and subsidiaries, (collectively, "**NexPoint**"), as applicable, shall grant to the REIT and its subsidiaries the right to continue the use of the "NexPoint" name and logo and related marks and designs under a non-exclusive, royalty-free license agreement entered into on or prior to Closing. NexPoint will be permitted to terminate the license at any time on 180 days' written notice following any date on which the Advisor ceases to be the Advisor for the REIT.

See "Management and Franchise Agreements – Advisory Agreement".

Hotel Management Agreements

Because the REIT and NHI are prohibited from operating the hotel properties pursuant to certain U.S. tax laws relating to its qualification as a real estate investment trust, the OP and its subsidiaries will lease the hotel properties to the TRS Entities. Moreover, such U.S. tax laws require all of the REIT's hotel properties to be operated pursuant to hotel management agreements (the "**Hotel Management Agreements**") between the Manager, a professional third-party hotel management company, and the TRS Entities that lease the property from the OP and its subsidiaries. The Hotel Management Agreement will require the TRS Entities to pay a base fee to the Manager calculated as a percentage of hotel revenues generated by the hotel operations. In addition, the Hotel Management Agreements will on occasion provide that the Manager can earn an incentive fee for EBITDA, gross operating profit or an owner's priority return over certain thresholds.

The terms of the REIT's Hotel Management Agreements initially range from one to five years with various extension and termination provisions. The Hotel Management Agreements for the DoubleTree hotels in the Initial Portfolio were entered into in May 2018 and may be terminated on 60 days' notice by the hotel owner without payment of a termination fee. The Hotel Management Agreements for the Homewood Suites hotels in the Initial Portfolio were entered into in May 2017 and may be terminated without cause upon 60 days' notice after June 1, 2019 by the hotel owner without

payment of a termination fee. The Hotel Management Agreement for Hilton Garden Inn Dallas Market Center was entered into in December 2014 and may be terminated on 90 days' notice by the hotel owner without payment of a termination fee. The Hotel Management Agreement for Marriott St. Petersburg was entered into in September 2018 and may be terminated on 60 days' notice by the hotel owner after April 30th, 2019 without payment of a termination fee. The Hotel Management Agreement for Holiday Inn Express Nashville was entered into in January 2019 and may be terminated on 60 days' notice by the hotel owner after January 2020 without payment of a termination fee. Termination fees under the Hotel Management Agreements are generally equal to 2.5% of annual gross revenue generated by the applicable hotel.

The TRS Entities may employ hotel managers in the future other than the Manager. Neither the REIT nor any of its affiliates has any ownership or economic interest in the Manager engaged by the TRS Entities. If in the future, the REIT or any of its affiliates have an ownership stake in a hotel manager engaged by the TRS Entities, the ownership will be limited such that the hotel manager still qualifies as an eligible independent contractor as defined by the Code, allowing the REIT (and NHI) to maintain its ability to qualify as a real estate investment trust for federal U.S. tax purposes.

See "Management and Franchise Agreements – Hotel Management Agreement".

Franchise Agreements

All of the REIT's hotel properties will operate under franchise agreements with Marriott, Hilton or InterContinental Hotels Group brands. The REIT believes that the public's perception of the quality associated with a branded hotel is an important feature in its attractiveness to guests. Franchisors provide a variety of benefits to franchisees, including centralized reservation systems, national advertising, marketing programs and publicity designed to increase brand awareness, loyalty programs, training of personnel and maintenance of operational quality at hotels across the brand system.

The terms of the REIT's franchise agreements initially range from 10 to 20 years with various extension provisions. The expiry dates of the franchise agreements range from December 2029 to December 2039, subject to earlier extension. The Each franchisor receives franchise fees ranging from 2% to 6% of each hotel property's room revenue, and some agreements require that the REIT pay marketing fees of up to 4.5% of room revenue. In addition, some of these franchise agreements require that the REIT deposit into a reserve fund for capital expenditures up to 4% of the hotel property's gross or room revenues depending on the franchisor to ensure the REIT complies with the franchisors' standards and requirements. The REIT also pays fees to its franchisors for services such as reservation and information systems.

The previous owner of the Marriott St. Petersburg property was in default of certain covenants in the franchise agreement in respect of such property. Upon the acquisition of Marriott St. Petersburg, the current owner of the property executed a new franchise agreement with the franchisor. The previous franchise agreement is no longer in force or effect and the REIT does not have any exposure to liability under the previous franchise agreement. Each of the franchisees is in material compliance with its respective franchise agreement.

See "Management and Franchise Agreements – Franchise Agreements".

Investor Rights Agreement

Pursuant to an investor rights agreement (the "**Investor Rights Agreement**") to be entered into on Closing, certain unitholders of the REIT who are principals and affiliates of the Advisor (the "**NexPoint Holders**") will be granted the right to nominate two Trustees (such nominees will be subject to election together with the remaining Trustees at annual meetings of Unitholders) subject to the NexPoint Holders owning, in the aggregate, 20% or more of the then-outstanding Units, such number being reduced to one nominee if the NexPoint Holders own, in the aggregate, less than 20% but 10% or more of the then-outstanding Units (in each case, determined as if all Class B units of the OP ("**Class B OP Units**") are redeemed for Units). Notwithstanding the foregoing, where the Board is comprised of four or less Trustees, the NexPoint Holders will be entitled to nominate a maximum of one Trustee pursuant to the Investor Rights Agreement. On Closing, the Board will be comprised of three Trustees and it is expected that NexPoint Holders will own, in the aggregate, 38.2% of the outstanding Units (determined as if all Class B OP Units are redeemed for Units). Therefore the NexPoint Holders will be entitled to nominate one Trustee so long as the total number of Trustees equals three and two Trustees if the total number of Trustees increases to five or more. In no event will NexPoint Holders be entitled to nominate Trustees where a majority of the Trustees are not deemed to be independent.

Certain transactions involving the REIT and/or the OP will require the consent of the NexPoint Holders, provided that the NexPoint Holders own, in the aggregate, 33% or more of the Units (determined as if all Class B OP Units are redeemed for Units).

The Investor Rights Agreement will provide the NexPoint Holders with a piggy-back registration right to require the REIT to include Units (including Units issuable upon the redemption of Class B OP Units) held by the NexPoint Holders in any future offering undertaken by the REIT by way of prospectus that it may file with applicable Canadian securities regulatory authorities. In addition, the Investor Rights Agreement will provide the NexPoint Holders with a demand registration right to require the REIT to use reasonable commercial efforts to file one or more prospectuses with applicable Canadian securities regulatory authorities, qualifying Units held (or issuable upon the redemption of Class B OP Units) by the NexPoint Holders for distribution, provided that such demand registration right may only be exercised by one designee on behalf of the NexPoint Holders.

The Investor Rights Agreement will provide that the NexPoint Holders, for so long as they continue to own, in the aggregate, at least 10% of the outstanding REIT Units (determined as if all Class B OP Units are redeemed for Units), shall have pre-emptive rights to purchase Units, Class B OP Units or such other securities as are being contemplated for issuance by the REIT, the OP or one of their subsidiaries to maintain their *pro rata* ownership interest in the REIT. The pre-emptive rights will not apply to certain excluded issuances.

For so long as the NexPoint Holders own, in the aggregate, directly or indirectly, 20% or less of the outstanding Units (determined as if all Class B OP Units are redeemed for Units), each of the NexPoint Holders will be obligated to, upon the written request of the REIT, exercise their respective redemption right in respect of the Class B OP Units then held by the NexPoint Holders if the REIT enters into certain transactions involving the (i) the transfer, directly or indirectly, of all or substantially all of its assets to a third party; and (ii) the winding up, dissolution or termination of the REIT, or exchange of Units for securities of a third party issuer or successor issuer.

For so long as the NexPoint Holders own, in the aggregate, directly or indirectly, at least 10% of the outstanding Units (determined as if all Class B OP Units are redeemed for Units) the NexPoint Holders will have tag-along rights that will apply in respect of any sale by the REIT of its interest in the OP.

See “Investor Rights Agreement”.

Restrictions on Ownership and Transfer of the Units

The Declaration of Trust contains restrictions on ownership and transfer of the Units that are intended to assist the REIT in qualifying as a real estate investment trust for U.S. federal income tax purposes. In particular, the Declaration of Trust prohibits any person from actually, beneficially or constructively owning more than 6.2% of the Units, subject to any exemption granted by the Board. In addition, in order for the REIT to comply with its U.S. federal income tax withholding obligations under the *Foreign Investment in Real Property Tax Act of 1980* (“**FIRPTA**”), the Declaration of Trust provides that certain non-U.S. persons that otherwise would own more than 5% of the Units are subject to notice requirements and transfer restrictions. These ownership limits and transfer restrictions may delay or impede transfers of Units. See “Declaration of Trust — Restrictions on Ownership and Transfer” for a more detailed discussion of these ownership limits and transfer restrictions. In addition, a non-U.S. person that holds or has held, actually or constructively, more than 10% of the outstanding Units, as determined for U.S. federal income tax purposes, may be subject to additional U.S. taxes under FIRPTA in respect of their investment in Units. See “Certain U.S. Federal Income Tax Considerations”.

OFFERING SUMMARY

Offering:	917,700 Units.
Amount:	US$4,588,500
Price:	US$5.00 per Unit.
Use of Proceeds:	The net proceeds of the Offering are estimated to be approximately $3,600,000 after deduction of the Agent's fee and will be used to fund a portion of the expenses of the Offering.
Unit Attributes:	The REIT is authorized to issue an unlimited number of Units. Each Unit represents a proportionate undivided beneficial ownership interest in the REIT. Each Unit is transferable and entitles the holder thereof to: (i) an equal participation in distributions of the REIT; (ii) rights of redemption; and (iii) one vote at all meetings of unitholders. See "Declaration of Trust".
Retained Interest:	Immediately following Closing, principals and affiliates of the Advisor will own or indirectly or directly exercise control or direction over approximately 71.1% of the REIT and 38.2% of the combined equity of the REIT and OP (determined as if all Class B OP Units are redeemed for Units)
Distribution Policy:	The REIT initially intends to adopt a distribution policy pursuant to which the REIT will make quarterly cash distributions to Unitholders equal to, on an annual basis, approximately 65% of estimated Core FFO. Pursuant to this distribution policy, distributions will be paid to Unitholders of record at the close of business on the applicable distribution record date determined by the Trustees from time to time.
Risk Factors:	An investment in Units is subject to a number of risk factors that should be carefully considered. Cash distributions by the REIT are not guaranteed and will be based, in part, upon the financial performance of the REIT's properties, which is susceptible to a number of risks. These risks, and other risks associated with an investment in Units, include but are not limited to those related to the hotel and real estate industries, as well as the REIT and its business. See "Risk Factors" and the other information included in this prospectus for a discussion of the risks that an investor should carefully consider before deciding to invest in Units.

THE REIT

Overview

NexPoint Hospitality Trust (the "**REIT**") is a newly-created, unincorporated, open-ended real estate investment trust established pursuant to the Declaration of Trust under the laws of the province of Ontario. The registered and head office of the REIT is located at 333 Bay Street, Suite 3400, Toronto, Ontario M5H 2S7. The REIT has been created for the purpose of acquiring, owning and operating a portfolio primarily consisting of select-service and extended stay income-producing hotel properties located in the United States.

The REIT will indirectly own a portfolio of 11 hotel properties located across the U.S. (the "**Initial Portfolio**"). All of the 11 hotels in the Initial Portfolio are franchised with: Hilton Hotels under the following brands: (i) DoubleTree (five hotels); (ii) Homewood Suites (three hotels); (iii) Hilton Gardens Inn (one hotel); InterContinental Hotels Group under the Holiday Inn Express brand (one hotel); or Marriott under the Marriott brand (one hotel).

Subject to the overall supervision of the Board, the REIT will be managed by the Advisor, which provides expertise across the full spectrum of real estate investment management, including acquisitions, financing and asset management, and the Manager, which provides expertise in hotel operations, sales and marketing, construction, information technology, accounting and human resource management.

The REIT will own its properties through its subsidiary, NHI. The REIT and NHI each intend to elect to be taxed as a real estate investment trust under the U.S. Internal Revenue Code of 1986, as amended (the "**Code**"), commencing with its taxable year ending December 31, 2019. If the REIT and NHI each qualify as a real estate investment trust for U.S. federal income tax purposes, the REIT and NHI generally will not be subject to U.S. federal income tax on income that it distributes. If the REIT and/or NHI fail to qualify as a real estate investment trust in any taxable year, the REIT and/or NHI will be subject to U.S. federal income tax on its taxable income at regular corporate rates. In order for NHI, and thus the REIT, to be eligible to elect to be taxed as a real estate investment trust under the Code, the properties will be leased to TRS Entities, which will in turn contract with the Manager, an eligible independent contractor (as defined in the Code), to manage the day-to-day operations of the hotels. The TRS Entities are subject to income tax at regular corporate rates. Accordingly, the net effect of the leases to the TRS Entities is that a portion of the net operating cash from the properties is subject to U.S. federal and state corporate income tax.

The Advisor

The Advisor is a recently formed Delaware limited partnership that was formed specifically to be Advisor to the REIT. The Advisor gives the REIT access to an experienced management team and extensive network of industry relationships, as well as a management platform with deep knowledge of the assets and markets. The Advisor is an affiliate of various entities managed by the principals and officers of the Advisor, which manage approximately $4.5 billion of real estate investments as of October 31, 2018. The Advisor's team has over 100 years of combined experience in real estate acquisitions, dispositions, financing, rehab implementation and specific experience in hospitality, including the REIT's strategy. Over the past five years, the Advisor's team has closed $5.5 billion of U.S. real estate transactions across multiple property types including: multifamily, hospitality, single family rental, storage, health care, office and retail. The team also externally manages, through an affiliate of the Advisor, a publicly traded REIT, NexPoint Residential Trust, which focuses on class B multifamily assets with a value-enhancing opportunity located in high growth cities in the Southeastern and Southwestern United States. Since listing of NexPoint Residential Trust on the New York Stock Exchange on April 1, 2015, the Advisor's team has delivered a return of 216.2% to shareholders (inclusive of reinvested dividends) through February 25, 2019. The structure and history of NexPoint Residential Trust is very similar to that of the REIT in that the Initial Portfolio was acquired through private entities that were later aggregated into a real estate investment trust and then listed on a public exchange. In its capacity as the advisor to the REIT, the Advisor will:

- find, present and recommend to the Board investment opportunities consistent with the REIT's investment policies and objectives;

- execute investments on behalf of the REIT and NHI, provided that the Advisor shall obtain the prior approval of (i) the Board and (ii) any particular committee of the Board or the board of managers of NHI specified by the Board, in connection with any investment for which the cash and/or equity consideration paid by the REIT or any subsidiary of the REIT is equal to or exceeds the lesser of (a) 10% of the aggregate of the book value of the equity of the REIT plus the value of the Class B OP Units, each as reflected on the most recent statement of financial position of the REIT or (b) $25,000,000;

- identify, evaluate, negotiate and recommend to the Board the structure of the REIT's investments (including performing due diligence);

- evaluate and negotiate the terms of dispositions within the discretionary limits and authority granted by the Board;

- review and analyze financial information for each underlying property of the REIT's portfolio;

- within the discretionary limits and authority as granted by the Board, identify, evaluate, negotiate and recommend to the Board financing and funding opportunities with banks or other lenders;

- subject to the overall supervision of the Board, manage the REIT's capital improvement program including determining when to execute the program at each property;

- close, monitor and administer the investments made by the REIT;

- maintain the accounting and financial records of the REIT and its subsidiaries (including NHI) and file required information with the Ontario Securities Commission upon approval of the Board;

- perform investor-relations functions; and

- manage Canadian and U.S. regulatory compliance, including making all required filings and preparing all documents, data and analysis required for regulatory filings, including all documents necessary for continuous disclosure requirements pursuant to applicable stock exchange rules and securities laws.

The Manager

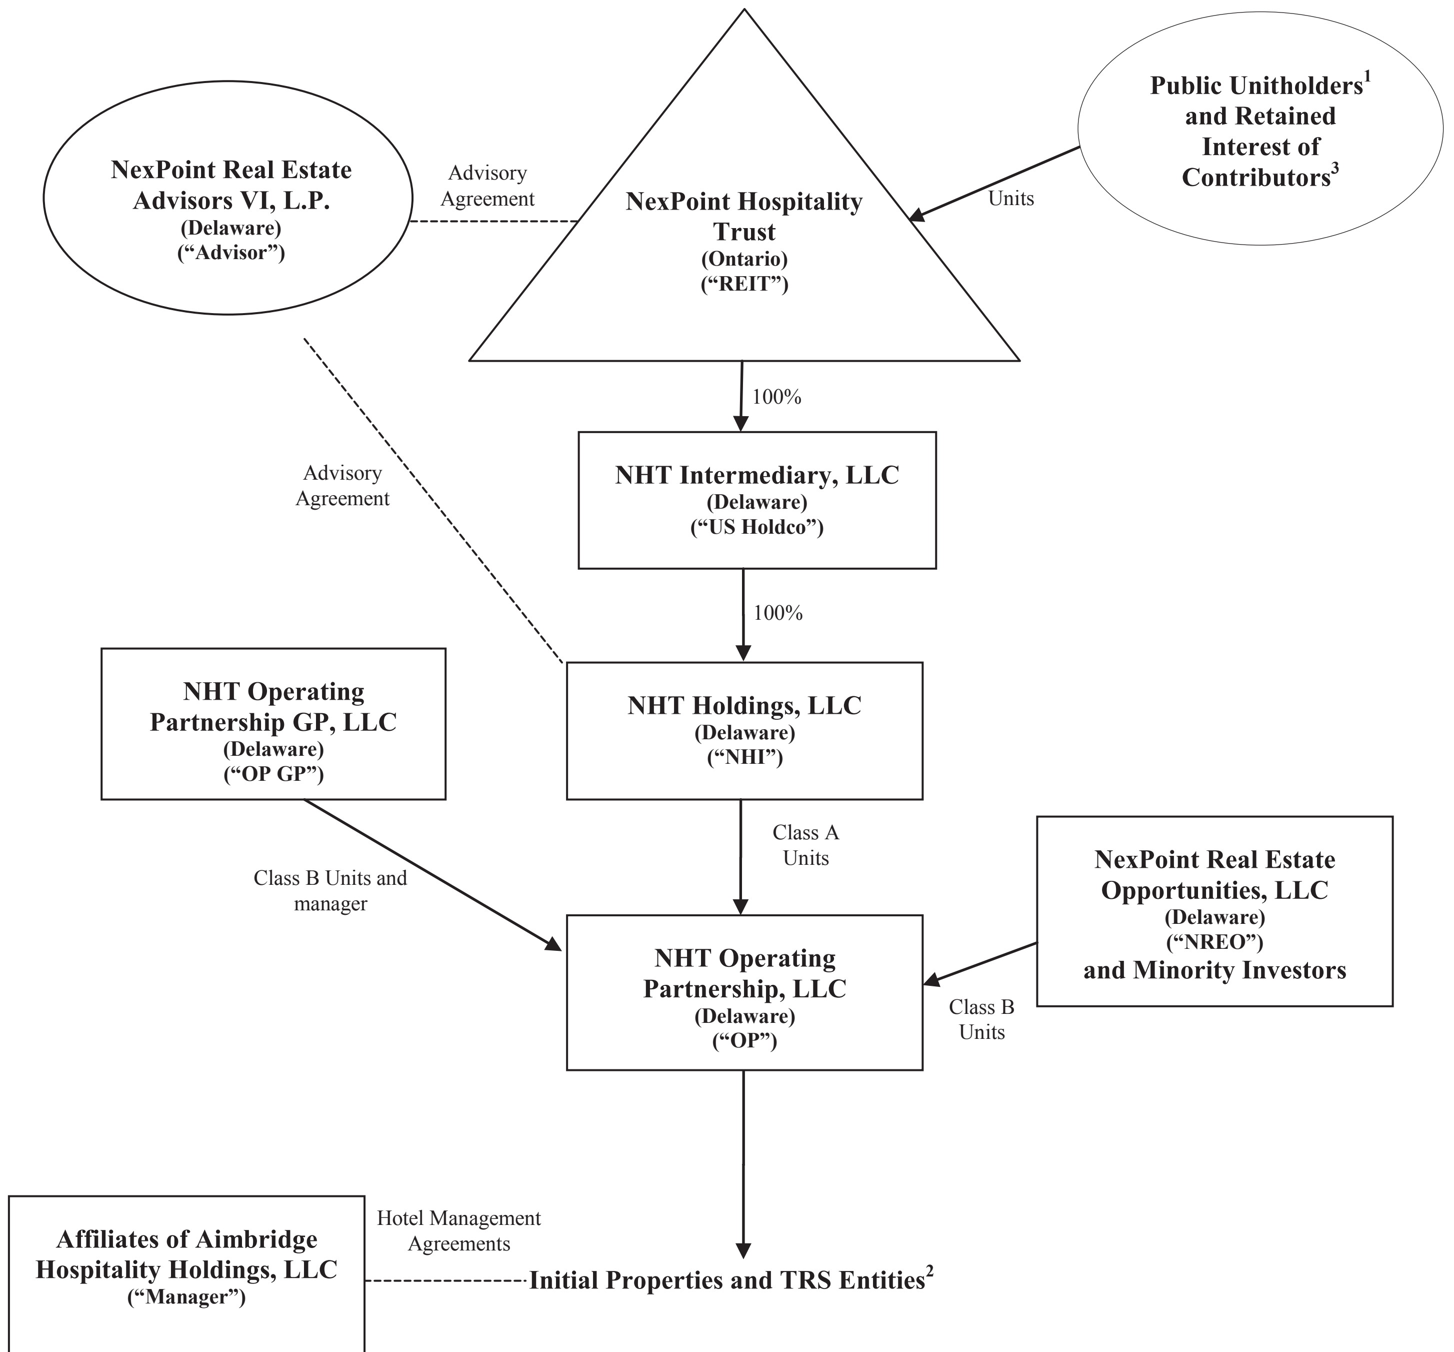
The Manager is a recognized leader in the hospitality space and manages over 812 hotel properties comprised of approximately 98,000 rooms across all segments of the hospitality space from full-service hotels to select-service and extended stay brands. See "Management and Franchise Agreements". The Manager operates across a full spectrum of property types including resorts, franchise branded, independent luxury, boutique, and lifestyle hotels. The Manager provides management, asset management, development, renovation and consulting services and has its corporate headquarters in Plano, Texas with regional offices in Chicago, San Clemente and San Juan. The Manager also offers investors the experience required to manage a diverse portfolio of hotels and resorts throughout the United States and the Caribbean.

The Manager brings together an experienced team of hospitality executives offering creative solutions to accomplishing the goals and objectives of each and every owner. The Manager understands the real estate and operational components of the industry and with its dedicated and highly accomplished team have the unique ability to continuously drive value. The executive team at the Manager is comprised of veteran hoteliers. Averaging over 26 years of hospitality experience, the senior executives focus on maximizing returns to partners by utilizing a unique blend of experience, resources, and relationships.

LEGAL STRUCTURE

The following chart sets out the simplified organizational structure of the REIT immediately following Closing:

Structure Chart



Notes:

(1) It is anticipated that upon the Closing, the public will hold an approximate 28.9% ownership interest in the REIT.

(2) Initial Properties will be owned by Subsidiaries of NHT Operating Partnership, LLC. The properties are leased to the TRS Entites, which have engaged the Manager to manage the day-to-day operations pursuant to Hotel Management Agreements.

OBJECTIVES OF THE REIT

The objectives of the REIT are to:

(a) provide Unitholders with an opportunity to invest in an initial portfolio of extended-stay, select-service and efficient full-service hotels located in attractive U.S. markets and competitively positioned to outperform the industry as a whole;

(b) provide Unitholders with predictable, sustainable and growing tax efficient cash distributions;

(c) enhance the value of the REIT's assets and maximize the long-term value of the Units through active asset and property management programs and procedures; and

(d) expand the asset base of the REIT and increase the REIT's Core FFO per Unit primarily through acquisitions and improvements of its properties, including the Initial Portfolio, using targeted and strategic capital expenditures.

INVESTMENT OPPORTUNITY

The REIT intends to achieve its investment objectives by acquiring hotel properties that will offer a high current yield and in many cases are underperforming assets with the potential to increase in value through investments in capital improvements, a market-based recovery, brand repositioning, revenue enhancements, operational improvements, expense inefficiencies, and exploiting excess land or underutilized space. The Advisor plans to target markets that have a stable yet growing and reliable demand base and limited present and future competitive supply growth. The REIT expects that its hotel properties will be located in areas that it believes exhibit strong economic attributes such as job growth, strong business or transitory travel and leisure travel. Select-service and extended stay hotel properties, which the REIT expects to comprise a majority of its portfolio, typically do not include amenities provided in full-service hotel properties; therefore, select-service and extended stay hotel properties primarily derive their revenues from hotel room rentals and, to a lesser extent, from restaurants, meeting space and other similar income streams. Extended-stay hotel properties are generally high-quality, residential style hotels that offer a package of services and amenities for extended-stay business and leisure travelers. The REIT may also opportunistically invest in efficient full-service hotel properties, although it does not expect such properties to comprise a substantial portion of its portfolio. Full-service hotel properties generally provide a full complement of guest amenities including restaurants, large meeting facilities, concierge, and room service, porter service or valet parking. The REIT may also originate or make investments in debt related to targeted hotel properties.

Generally, for each property the REIT may seek a capital event, which may include a sale of the property or a refinancing of a mortgage or other debt in respect of the property, within three to five years after the original acquisition date of a property. In pursuing a liquidity event for a property, the REIT will take into consideration the prohibited transaction tax rules under the Code. Management's primary goals of shareholder friendly capital allocation may potentially include a liquidity event involving the sale of assets, the entire company, a merger into an existing publicly traded real estate investment trust or other publicly traded vehicle, or a listing of its shares on a national securities exchange.

INVESTMENT HIGHLIGHTS

The following describes the investment highlights of the Offering.

Access to Hospitality Assets Located in the United States on a Tax Efficient Basis

Management believes that the United States real estate market is one of the most dynamic, stable and liquid real estate markets in the world. The ability for Canadian investors to access hospitality assets located in the U.S. is difficult as investing directly in real estate investment trusts domiciled in the U.S. is a tax inefficient avenue for exposure to this important asset class. Currently, there are very few alternatives domiciled in Canada that invest primarily in hospitality properties located in the U.S. Using the REIT's structure whereby it is taxed as a U.S. real

estate investment trust but is domiciled in Canada, the REIT offers a tax efficient way for Canadian investors to gain exposure to U.S. hospitality assets.

Attractive Asset Class with Favorable Fundamentals

Hospitality properties offer the shortest duration leases of any real estate sector which offers the ability to adjust pricing of rooms immediately to meet market demand, which should provide an inflation hedge during periods of economic expansion. The REIT believes its strategy of targeting older properties in need of capital improvements that can be repositioned to generate higher revenues will work in all market cycles and produce high current returns to investors. The REIT expects to benefit from the increase in overall economic activity, increased discretionary spending and business and leisure travel in the U.S. as well as benefit from its ability to adjust its operations to weather an economic downturn and provide consistent relative returns through all economic cycles.

Unique, Internal Growth Strategy Offering a Total Return Profile

Management believes that the REIT's strategy of buying older properties that need capital improvements, a market-based recovery, brand repositioning, revenue enhancements, operational improvements, expense inefficiencies, and exploiting excess land or underutilized space, gives it the opportunity to generate high current yield as well as capital appreciation over time. In executing this value-add strategy, management believes the REIT can generate Core FFO growth and superior total returns to investors within the Initial Portfolio, irrespective of whether the REIT acquires additional hotels.

Attractive and Stable Yield

The REIT intends to pay a quarterly cash distribution, representing approximately 65% of the REIT's Core FFO and to increase the REIT's dividend over time such that the REIT pays out annually 65% to 80% of its Core FFO.

Sizeable Quality Portfolio with Embedded Growth Opportunity

The Initial Portfolio is comprised of 11 properties located throughout the U.S. in the select-service and extended stay hospitality categories. Each property has a long-term franchise agreement with Marriott, Hilton or InterContinental Hotels Group sponsored brands. The REIT believes each property in the Initial Portfolio has the opportunity to generate outsized market share improvements and topline increases as leading select-service or extended stay hotels in their respective submarkets. In addition to organic growth, the REIT is expected to realize additional embedded growth from its capital improvement strategy.

Attractive External Growth Strategy

In addition to executing an internal growth strategy, the REIT expects to capitalize on a pipeline of target hospitality investments requiring funding for capital improvements or brand repositioning that exist in the U.S. market by utilizing its ability to raise new capital as a publicly traded entity. The REIT believes it will be able to react more quickly and more opportunistically in its investment program as compared to private investors or funds. Additionally, the Offering, and potential future offerings, will allow the REIT to avoid the lengthy and time consuming private fundraising process, which will increase the time available to focus on investment and asset management activity for the REIT.

Management Team Aligned with Shareholders

Members of the management team will be aligned with shareholders through a significant ownership percentage in the REIT. At Closing, the management team will directly or indirectly own or exercise control or direction over approximately 71.1% of the REIT and 38.2% of the combined equity of the REIT and OP (determined as if all Class B OP Units are redeemed for Units).

GROWTH STRATEGIES

The REIT intends to grow in three ways. First, through organic growth expected from favorable economic and demographic fundamentals within its existing markets. Second, the REIT believes the Initial Portfolio will provide opportunities for further embedded, internal growth through value-enhancing initiatives such as the REIT's capital improvement program. Third, the REIT believes there are ample assets that fit its strategy and intends to pursue a disciplined external growth strategy by acquiring well located hospitality properties that it believes have the potential to generate higher yields and growth prospects through the REIT's capital improvement program.

To find hotel properties that best meet its selection criteria for investment, the Advisor's property acquisition team will study regional demographics and market conditions, interview local brokers and operators, and utilize its network of external real estate professionals to gain the practical knowledge that studies sometimes lack. The property acquisitions team will also work with various property managers and affiliates to tap into their vast network and broad market exposure. Additionally, where the REIT believes it gives it a comparative advantage, it will partner with firms that have an expertise in the property class and geographic area where it is seeking to acquire properties. An experienced commercial construction engineer will inspect the structural soundness and the operating systems of each building, and an environmental firm will investigate environmental issues to ensure each property meets its quality specifications. The Advisor's management team will emphasize thorough market research, local market knowledge, underwriting discipline, and risk management in evaluating potential investments.

Organic Growth from Favourable Economic and Demographic Fundamentals

The REIT believes the current macroeconomic environment, demographic trends, historical average supply growth, cost of new brand required programming and new construction costs, favorable debt capital markets, and current market conditions will continue to create attractive opportunities to acquire hotel properties at prices that are generally discounts to replacement cost, provide potential for significant long-term value appreciation and generate attractive yields for its Unitholders. Given the conditions of the current economic environment in the markets where the REIT is focused and the experience of the Advisor and its network, the REIT expects to be well-positioned to capitalize on these opportunities to create an attractive investment portfolio that will maximize Unitholder yields and total returns.

Internal Growth Through Value-Enhancing Initiatives

The REIT has 1,012 rooms that are currently undergoing some level of renovation throughout seven of the hotels in the Initial Portfolio (DoubleTree Beaverton ("**DT Beaverton**"), DoubleTeee Bend ("**DT Bend**"), DoubleTree Olympia ("**DT Olympia**"), DoubleTree Tigard ("**DT Tigard**"), DoubleTree Vancouver ("**DT Vancouver**" and together with DT Beaverton, DT Bend, DT Olympia and DT Tigard, the "**DT Portfolio**"), Marriott St. Petersburg (the "**St. Pete Property**") and Holiday Inn Express Nashville (the "**Nashville Property**")). Management expects the properties to begin realizing an increase in NOI and EBITDA within six months of completion of the renovations at each property. Management anticipates that the REIT will benefit from value-enhancing renovations by driving outsized market share growth relative to each asset's competitive market within 12-36 months of completion. Assets coming out of the value-enhancing initiatives are less reliant on growth from local market conditions, and are dependent on generating organic growth from new found competitiveness in local markets. As new acquisitions are made in the future, a similar program will generally be implemented at each newly acquired property. Management anticipates that the renovations will enable newly acquired properties to increase in NOI and EBITDA.

Four of the properties in the Initial Portfolio (Hilton Garden Inn Dallas Market Center (the "**HGI Property**"), Homewood Suites Addison ("**HS Addison**"), Homewood Suites Las Colinas ("**HS Las Colinas**") and Homewood Suites Plano ("**HS Plano**" and together with HS Addison and HS Las Colinas, the "**HWS Portfolio**")) underwent extensive renovation programs prior to the date of this prospectus, encompassing 595 rooms. The HGI Property completed its renovation program in December 2015 and the HWS Portfolio completed their renovation program in May 2018.

Once all ongoing improvements at the hotel properties in the Initial Portfolio are completed, the strategy described under this heading "Internal Growth Through Value-Enhancing Initiatives" will no longer be applicable to the Initial Portfolio.

External Growth Through Acquisitions

Seek Properties Meeting the REIT's Investment Criteria

The REIT's strategy will focus primarily on acquiring existing select-service and extended stay hotel properties, and on an opportunistic basis, full-service hotel properties, that are classified in the "upper upscale", "upscale" and "upper-midscale" chain scales of the hospitality industry, as defined by Smith Travel Research, Inc. ("**STR**"), and operated under widely recognized brands such as Marriott, Hilton, Hyatt, Starwood Hotels & Resorts and the InterContinental Hotels Group. Chain scale segments are a method by which branded hotels are grouped by STR based on the actual average room rates. The REIT expects that its hotel properties offer a high current yield and/or be underperforming assets with the potential to increase in value through investments in capital improvements, a market-based recovery, brand repositioning, revenue enhancements, operational improvements, expense inefficiencies, and exploiting excess land or underutilized space. The Advisor plans to target markets that have a varied stable and/or growing and reliable demand base and/or limited present and future supply growth. The REIT expects that its hotel properties will be located in areas that it believes exhibit strong economic features. Select-service and extended stay hotel properties, which it expects to comprise a majority of its portfolio, typically do not include amenities provided in full-service hotel properties; therefore, select-service and extended stay hotel properties primarily derive their revenues from hotel room rentals and, to a lesser extent, from restaurants, meeting space and other similar income streams. Extended-stay hotel properties are generally high-quality, residential style hotels that offer a package of services and amenities for extended-stay business and leisure travelers. The REIT may also opportunistically invest in full-service hotel properties, although it does not expect such properties to comprise a substantial portion of its portfolio. Full-service hotel properties generally provide a full complement of guest amenities including restaurants, large meeting facilities, concierge, and room service, porter service or valet parking. The REIT may also originate or make investments in debt related to targeted hotel properties.

The REIT's Opportunistic Investment Strategy

Hotel properties can provide investors with an attractive blend of current cash flow, opportunity for capital appreciation, and can mitigate inflationary impacts through shorter duration commercial rents. Growth in the United States hotel Revenue per Available Room, or RevPAR, has historically been closely correlated with macroeconomic trends, including growth in United States gross domestic product ("**GDP**"), corporate profitability, capital investments, consumer confidence and employment. Therefore, as the United States economy continues to strengthen, the REIT anticipates RevPAR growth, along with related growth in property operating income and valuations, to culminate in an overall improvement of hotel industry fundamentals over the course of its investments.

Focusing on Hotel Properties with a Value-Enhancing Component

The operationally intense nature of hotel assets presents opportunities to employ a variety of strategies to enhance value, including strategic capital expenditures and repositioning, brand and management changes, revenue and expense management. For a majority of the hotel properties it acquires, the REIT intends to execute a value-add strategy, whereby the REIT acquires assets underperforming its full potential in high-demand markets, remedy operational and/or managerial inefficiencies, implement sophisticated revenue optimization strategies, invest additional capital to improve the competitiveness of the assets, and reposition the properties to increase occupancies, average daily rates, and resale value. The REIT expects its value-add component to consist, on average, of investments of $10,000 to $25,000 per room in the first 24 months of ownership, in an effort to add value to the asset's exterior and interior. The REIT's value-add strategy is to primarily target hotel properties that will provide both current income and capital appreciation.

Market Research

The Advisor's acquisition team will originate, underwrite, research, diligence, and finance each acquisition utilizing both real-time market data and the transactional knowledge and experience of the network of professionals of the Advisor.

Local Market Knowledge

The Advisor, either directly through its relationships with real estate professionals in the area or through its property managers, will develop information concerning the locality of the property to assess its competitive position.

Underwriting Discipline

The Advisor will follow a disciplined process to evaluate a potential investment in terms of its income-producing capacity and prospects for capital appreciation, which will include a review of property fundamentals (including expense structure, occupancy rates, and property capital expenditure), capital markets fundamentals (including cap rates, interest rates and holding period) and market fundamentals (including rental rates, concession and occupancy levels at comparable properties), as well as projected Occupancy and Average Daily Rates, which when multiplied together equal Revenue per Available Room, or RevPAR. The Advisor will strive to verify all assumptions by third-party research from credible sources, to the extent practical, in order to ensure consistency in the underwriting approach. In addition, the Advisor will perform stress tests on each acquisitions by reducing RevPAR growth assumptions and increasing the interest rate in its assumptions prior to acquiring each asset.

Risk Management

Risk management is a fundamental principle in the Advisor's construction of the portfolio. The REIT intends to acquire and in the management of each investment, diversify the portfolio by investment size, geographic location, and interest rate risk critical to controlling portfolio-level risk.

When evaluating potential acquisitions and dispositions, the Advisor generally will consider the following factors as applicable:

- strategically targeted markets;
- income levels and employment growth trends in the relevant market;
- demand growth characteristics supported by demographic indicator;
- supply of undeveloped or developable real estate, local building costs and construction costs;
- the age, location, construction quality, condition and design of the property;
- the current and projected cash flow of the property and the ability to increase cash flow;
- the potential for capital appreciation of the property;
- purchase price relative to the replacement cost of the property;
- the potential for economic growth and the tax and regulatory environment of the community in which the property is located;
- the rental demand by hotel guests for similar hotel properties in the vicinity;
- significant barriers to entry in the market, such as scarcity of development sites, regulatory hurdles, high room per development costs, availability of hotel franchise, and long lead times for new development;
- the prospects for liquidity through sale, financing or refinancing of the property;
- the benefits of integration into existing operations;

- the benefits from the brand to which the property is associated;
- potential return on investment initiatives, including redevelopment, rebranding, redesign, expansion and change of management;
- competition from existing hotel properties and properties under development and the potential for the construction of new hotel properties in the area; and
- potential for opportunistic selling based on demand and price of high quality assets.

THE U.S. LODGING INDUSTRY

Introduction

The lodging sector generated approximately $208 billion of industry revenues in 2017, according to data provided by STR. As of 2017, the U.S. lodging sector comprised of approximately 55,000 hotels with more than five million rooms. Over the past 15 years, lodging sector revenue has grown at a compound annual growth rate ("**CAGR**") of 4.4% while the number of hotel rooms has grown at a CAGR of 1.9%. As of August 31, 2018, STR reports that the trailing 12 month average for room night demand stood at 1.88 billion room nights sold through July 2018. Additionally, STR notes that demand growth in the U.S. lodging market is strong and that absolute changes are actually getting stronger, which led to an updated U.S. RevPAR forecast for full year 2018 and 2019 of 3.2% and 2.6% respectively. STR expects the demand increase to continue to be a source of record rooms sold, resulting in the highest occupancies ever recorded for the U.S., which is projected to allow hoteliers to realize pricing power above the consumer price index.

Generally, lodging industry performance is highly correlated with macroeconomic conditions in the U.S. Fluctuations in lodging demand and, therefore, financial and operating performance, are caused largely by general economic and local market conditions, which affect levels of business and leisure travel. In particular, macroeconomic trends relating to GDP growth, corporate profits, capital investments and employment growth are some of the primary drivers of lodging demand. Lodging supply growth is typically driven by overall lodging demand, as extended periods of strong demand growth tend to encourage new hotel development. However, the pace of supply growth is typically influenced by several additional factors, including the availability and cost construction financing, construction costs and other local market considerations. As of August 31, 2018, new supply in the U.S. is actually forecast to fall to the long-term average of 1.9%.

The U.S. lodging market is the largest in the world and in 2016 accounted for approximately 50% of transaction volume globally. Since 2012, at least $170 billion of merger and acquisition transactions have been completed in the United States with private equity investors and foreign capital accounting for approximately 60% of buyers. 2018 is expected to be another strong year for transaction volume with a significant amount of debt and equity capital seeking transactions. The U.S. lodging market is characterized as a highly liquid market with a significant amount of capital from a diverse investor base comprised of private equity, public real estate investment trusts, private developers, hotel franchisors and operators and offshore investors.

U.S. Lodging Industry Segmentation Descriptions

Chain scale segmentation is a grading system used to group branded hotels based on actual average room rates. Hotels are classified along a scale ranging from highest actual average room rate to lowest actual average room rate. Independent hotels, regardless of actual average room rate, are included in a separate chain scale category. Chain scale segments are defined as: luxury, upper upscale, upscale, upper midscale, midscale, economy and independent.

Luxury

Luxury hotels offer the highest quality amenities and personalized services to guests. These hotels cater primarily to business travelers and first class leisure travelers and are generally situated in urban locations. Amenities typically include one or more restaurants, a lounge/bar area, banquet and conference facilities, full-

service business centers, spa and fitness centers and boutique retail stores. Services offered by luxury hotels include room service, concierge, valet, shoe shine, laundry, dry cleaning services and local transportation. Examples of hotels within this chain scale include Fairmont, Four Seasons, InterContinental and Ritz-Carlton. Luxury hotels are also distinguished by unique investment characteristics including lower cap rates and cash yields and a higher proportion of investor returns being realized in the form of capital appreciation.

Upper Upscale

The upper upscale lodging segment consist of hotels that cater to both business travelers who do not require luxury hotel amenities and leisure travelers who desire greater amenities than those typically found in midscale hotels. Hotels in this segment are typically capable of hosting blocks of group travelers (defined as parties needing 10 or more guestrooms), and offer meeting space and food and beverage options, and, as a result, have diversified demand segments and revenue streams. Additionally, the upper upscale hotel amenities and price point cater precisely to the large and fast growing market in the U.S. of corporate travelers, which customer type primarily consists of Fortune 1000 and similar companies and is characterized with burgeoning lodging demand and significant corporate profits. The upscale and upper upscale hotel segments typically include full-service hotels in both urban and suburban locations. Examples of hotels within this chain scale include Embassy Suites, Marriott, Westin, Hyatt and Hilton.

Upscale Hotels

Similar to the upper upscale tier, the upscale lodging segment consists of hotels that cater to both business and leisure travelers who desire a premier product. With a few exceptions, hotels in this segment typically are of the select-service variety and do not cater to group customers. This results in a larger portion of revenue derived from rooms business relative to the upper upscale segment. Additionally, the upscale hotel amenities and price point caters to discerning but price conscious corporate travelers. The upscale segment consists primarily of hotels in both urban and suburban markets. Examples of full-service hotels within this chain scale include DoubleTree and Crowne Plaza, and examples of limited-hotels within this chain scale include Hilton Garden Inn, Homewood Suites, Aloft, Hyatt Place and Staybridge Suites.

Midscale (Including Upper Midscale)

Midscale and upper midscale lodging segments are primarily comprised of hotels offering both studio and one bedroom suites designed for both business and leisure travelers. Midscale and upper midscale hotel rooms often contain both a living/work area and a sleeping area. Additional amenities may include limited fitness areas, guest laundry facilities and a local diner or restaurant. The midscale segment comprises the largest portion of hotel rooms in the United States. Examples of hotels within this chain scale include Holiday Inn, Best Western and Howard Johnson (upper midscale) and Comfort Inn, Fairfield Inn and Hampton Inn (midscale).

Economy

The economy lodging segment is almost exclusively comprised of hotels with inexpensive room rates and a very limited offering of additional services or amenities. The segment is comprised of two primary user bases: industrial and leisure customers. Industrial customers are primarily comprised of corporate accounts seeking accommodations for work crews in rural or remote locations and generally sign multi-year contracts. Leisure customers are typically price conscious travelers seeking basic accommodations, often near transportation routes. Examples of hotels within this chain scale include Oak Tree Inn, Motel 6 and Super 8.

Independent

Independent hotels are independently owned and operated and not associated with any hotel brand or banner. Independent hotels have the flexibility to provide special and personalized services typically not provided by branded hotels. Independent hotels typically are found in locations which require unique customer service offerings and do not require the marketing support of a major brand. Examples of hotels within this chain scale include High Peaks Resort, the Shorecrest Hotel and the Virgin Hotel.

Lodging Industry Franchising

Branded hotels represent approximately 75% of all hotel rooms in the United States lodging market. Hotel owners enter into franchise agreements to brand their hotels with franchisors such as Hilton, Marriott and International Hotels Group with a goal of servicing demand from business and leisure travelers with strong brand awareness. These business and leisure travelers are often attracted with loyalty program incentives and hotel franchisors focus on maximizing customer retention rates. Strong affiliation and long term franchise agreements with premier hotel brands often increase a hotel's operational and financial performance through improved occupancy and reduced income volatility. As a result, franchised hotels have greater market competitiveness and increased liquidity leading to greater interest from institutional investors and, consequently, higher valuations. Hotel franchisors also offer reservation systems, corporate partnerships to attract group customers and transient business travelers, marketing programs and training programs to ensure a similar first-rate guest experience regardless of location.

Service Level Segmentation

Service level segmentation is a classification system used to group hotels with different product and service offerings to guests. Hotels are typically grouped into full-service and select-service categories.

While chain scale and service levels of hotels do not directly correlate, management believes that upper upscale and luxury chain scales are predominantly comprised of full-service hotels, and lower chain scales (upscale, midscale and economy) are predominantly comprised of select-service hotels.

Full-Service Hotels

Full-service hotels are generally comprised of upper upscale or luxury hotels and provide a full suite of amenities, including food and beverage services for both individuals and groups comprised of restaurant style dining, room service and banquet services for large gatherings such as business meetings or conferences. Management believes that offering a full suite of food and beverage amenities is essential for group customers, business travelers and first class leisure travelers. These services cannot be replicated by other lodging alternatives such as Airbnb and select-service hotels. As a result, full-service hotels are able to differentiate themselves from other lodging accommodations which find themselves in direct competition with Airbnb. Full-service hotels are also more attractive lodging investments due to the higher levels of group reservations, increased booking visibility and diverse revenue streams. With higher replacement costs than select-service hotels, new supply in full-service hotels is limited, placing upward pressure on RevPAR. Management believes that full-service assets have the benefit of diversified revenue streams which helps insulate full-service hotels from new lodging inventory supplied by select-service hotels and Airbnb.

Select-Service Hotels

Select-service or limited-service hotels can belong to any chain scale segmentation but are most often seen in the upscale, midscale or economy lodging segments. Select-service hotels typically have rooms-only operations with limited additional amenities and services. Although select-service hotels may offer amenities such as a continental breakfast, they typically do not have dedicated food and beverage departments and do not have restaurant style dining, room service or banquet services. Select-service hotels often have higher margin operations given the limited array of services offered but lower levels of overall profitability resulting from typically having lower levels of group customers and higher levels of transient leisure customers, resulting in lower booking visibility and shorter booking windows often making it difficult to maximize revenue. Select-service hotels often face competition from Airbnb, especially in downtown urban markets, given the similarity of product offerings, including basic sleeping accommodations and the lack of a dedicated food and beverage department. Select-service hotels typically generate more than 95% of total revenues from rooms.

Customer Segmentation

Customer segmentation is a classification system that groups customers based on their booking preferences and characteristics. The main difference between the different customer segments is the ability to increase visibility and forward bookings to reduce volatility. Customer segmentation categories include: transient, group and contract.

- ***Transient***. Transient customers include both business and leisure travelers and typically include rooms sold to individuals or groups occupying less than 10 rooms per night.

- ***Group***. Group customers include both business and leisure travelers who reserve rooms in blocks of 10 or more rooms per night and are often sold pursuant to a master signed agreement. Group customers are generally part of defined groups (i.e., corporate, tour operator or religious institution) and often use the meeting, conference and banquet facilities.

- ***Contract***. Contract customers typically refer to corporations with long term contracts with specified room and rental rate commitments for extended periods of time with guaranteed payments regardless of use. Contract customers include airline crews, railroad employees and other travel intensive oriented industries.

Location Segmentation

Location segmentation is a classification system that groups hotels based on their physical location in any given market. Location categories include: urban, suburban, airport, interstate/motorway, resort, and small metro/town. Urban and suburban hotels comprise approximately 57% of total U.S. hotel market share and are popular location segments for institutional investors. Suburban hotels have several attractive investment characteristics compared to urban hotels, including stronger RevPAR performance over the past three, five and seven years, respectively. RevPAR in suburban markets has outperformed urban markets in part because supply growth has been approximately 1.1% lower in suburban markets on a compounded annual basis over the last three years, resulting in approximately 3.6% greater total supply growth in urban markets relative to suburban markets over that period. Management believes that the suburban markets of the Initial Portfolio further insulate the assets from Airbnb, which is primarily concentrated in urban markets.

THE INITIAL PORTFOLIO

The REIT will indirectly own an 11-property portfolio located in five states in the United States across six major MSA markets and four brands.

Initial Portfolio

The following table highlights certain information about the Initial Portfolio as at September 30, 2018:

Brand	Location	Chain Scale	Service Scale	Location Segment	Year Built/Last Renovation	Rooms
Hilton						
Hilton Garden Inn	Dallas, Texas	Upscale	Select-Service	Urban	1995/2016	240
DoubleTree	Beaverton, Oregon	Upscale	Limited-Service	Suburban	1997/2016[(1)]	98
DoubleTree	Bend, Oregon	Upscale	Full-Service	Suburban	1998/2013[(1)]	117
DoubleTree	Olympia, Washington	Upscale	Full-Service	Suburban	2000/2016[(1)]	102

(1) Currently undergoing renovations.

Description of the Initial Portfolio

Hilton Garden Inn Dallas Market Center

The hotel is centrally located and proximate to many of the region's major demand generator's including Dallas Love Field and several medical facilities in the Dallas Medical District. The hotel is also within walking distance to the more than five million square foot Dallas Market Center and one of the largest convention hotels in the southwest United States, the 1,600 room Hilton Anatole. The hotel is an upscale class, select-service hotel that was most recently renovated in 2016 to upgrade décor, flooring, furniture, bathrooms and fixtures in all rooms and for general improvements to common areas.

DoubleTree Beaverton

The hotel benefits from its strategic positioning in the heart of "Silicon Forest", a high-technology industry cluster in Oregon. The hotel is situated near corporate headquarters or a major presence of several consumer brands such as Nike, Adidas, Intel, IBM, and Columbia Sportswear. The hotel is also proximate to downtown Portland. The hotel is an upscale class, limited-service hotel that is currently undergoing renovations to upgrade bathroom facilities and fixtures in all rooms and to update common areas.

DoubleTree Bend

The hotel is situated in an idyllic scenic setting that provides year round recreational activities, a high standard of living, as well as becoming renowned for its industries that include software and high-technology, bioscience, outdoor recreation products, aviation, manufacturing, and craft brewing and distilling. The hotel is located in the heart of downtown Bend within walking distance to numerous shops, restaurants, bars and breweries and a short drive to the Mount Bachelor Ski Resort. The hotel is an upscale class, full-service hotel that is currently undergoing renovations to upgrade bathroom facilities and fixtures in all rooms and to update common areas.

DoubleTree Olympia

The hotel is located at a waterfront location less than one mile north of the capital building in the capital of Washington State, in Thurston County. The hotel benefits greatly from a diverse demand base, an expanding port facility, a vibrant arts scene, recreational activities, and the steady influence of the state government. The hotel is an

upscale class, full-service hotel that is currently undergoing renovations to upgrade bathroom facilities and fixtures in all rooms and to update common areas.

DoubleTree Tigard

The hotel benefits from its strategic positioning in the heart of "Silicon Forest", a high-technology industry cluster in Oregon. The hotel is situated in the heart of nearly 8.6 million square feet of office within three miles and is proximate to downtown Portland. The hotel is an upscale class, limited-service hotel that is currently undergoing renovations to upgrade bathroom facilities and fixtures in all rooms and to update common areas.

DoubleTree Vancouver

The hotel is proximate to Portland International Airport as well as the various corporate and leisure demand generators of Vancouver, Washington and Portland, Oregon, which includes over 3.3 million square feet of office space and a 450 bed medical facility within three miles. The hotel is an upscale class, limited-service hotel that is currently undergoing renovations to upgrade bathroom facilities and fixtures in all rooms and to update common areas.

Homewood Suites Plano

The hotel is conveniently located off of Preston Road, in an affluent suburb of Dallas, with more than 60 million square feet of office in the Far North Dallas submarket. Management believes this hotel will benefit from its proximity to a growing market within the United States. The hotel is a midscale class, select-service hotel that was most recently renovated in 2018 to upgrade décor, flooring, furniture, bathrooms and fixtures in all rooms and for general improvements to common areas.

Homewood Suites Addison

Located along the highly trafficked Belt Line Road in Dallas' "Platinum Office Corridor", the hotel benefits from the dense surrounding concentration of office, restaurant, and entertainment venues. Within a three mile radius of the hotel is approximately 31 million square feet of office and over 13 million square feet of retail. The hotel is an upper midscale class, select-service hotel that was most recently renovated in 2018 to upgrade décor, flooring, furniture, bathrooms and fixtures in all rooms and for general improvements to common areas.

Homewood Suites Las Colinas

The hotel is centrally located within Las Colinas' urban center, providing access to more than 2,000 companies (including five fortune 500 headquarters) within the 12,000 acre master-planned submarket as well as one of the nation's busiest airports, DFW International Airport. The hotel is a midscale class, select-service hotel that was most recently renovated in 2018 to upgrade décor, flooring, furniture, bathrooms and fixtures in all rooms and for general improvements to common areas.

Marriott St. Petersburg

The hotel is situated less than a mile from Raymond James Ltd., one of the larger employers in the greater Tampa Bay MSA as well as a variety of corporate and leisure demand generators including Tampa International Airport and the world class beaches of Clearwater. Management of the REIT believes this hotel presents a variety of value add opportunities related to institutionalizing management and completion of several capital improvement projects that will drive rates and improve the properties RevPAR penetration and further enhance operating margins due to the properties lean and efficient layout. The hotel is an upper upscale class, full-service hotel that was renovated in 2010.

Holiday Inn Express Nashville

The hotel is located within walking distance of several of Nashville's numerous tourist destinations and demand generators, including the Country Music Hall of Fame & Museum, Bridgestone Arena and Music City

Center. In addition, starting in 2019 Amazon will be opening a logistics hub adjacent to the hotel that is expected to create an estimated 5,000 new jobs in the city of Nashville. The hotel is currently undergoing a rehabilitation that management of the REIT believes will help to fully realize a materially improved competitive position that leverages its central location and strong in-place cash-flow. Management believes that this rehabilitation will make the hotel an attractive destination for visitors, residents, and businesses driven by the city's distinct culture, tourist attractions, highly desirable tax incentives, and employment opportunities. The hotel is an upper midscale class, select-service hotel that is currently undergoing renovations to upgrade décor, flooring, furniture, bathrooms and fixtures in all rooms and for general improvements to common areas.

Overview of Hilton Hotels

Hilton Hotels is an established and leading family of hotel brands in the U.S. lodging industry with over 5,500 hotels across 15 brands in 109 countries encompassing approximately 82 million loyalty customers. Hilton's brands are widely recognized and trusted by consumers across the globe. Hilton has strict franchisee requirements to ensure high quality, consistency and best-in-class service across its portfolio. Long-term franchise agreements allow owners and operators to leverage Hilton's advertising and marketing programs, reservation systems and the guest loyalty programs ensuring the ability to maximize operational and financial performance. Hotel customers trust that each hotel will provide the same first-rate experience, staff will be polite and well trained and the product offering will be consistent. Hilton has meticulously curated and consistently reviews and researches each of its brands to maximize the experience of existing customers and attract new customers looking for a dependable experience. As a result of these strong customer relationships, Hilton brands out penetrate their competitive hotel peers sets across the globe with a 14% global RevPAR premium compared to competitors.

Hilton Honors Guest Loyalty Program

Hilton Hotels maintains a powerful guest loyalty program under the brand name Hilton Honors. The Hilton Honors guest loyalty program generates significant repeat business and rewards guests with loyalty points for each night's stay at any of Hilton's 5,500+ hotels worldwide. Members can redeem these loyalty points with Hilton Hotels or with nearly 130 other corporate partners including airlines, car rental companies and credit card providers. Hilton Honors members represented approximately 60% of Hilton's system-wide occupancy and contributed over $40 billion of hotel-level revenues to Hilton franchised hotels in 2018.

Hilton Brands

Hilton Garden Inn

Hilton Garden Inn is the "laid-back sophisticated" brand offering heartfelt service and award winning amenities, by Hilton. The brand currently enjoys 805 hotels in 41 countries.

DoubleTree

DoubleTree by Hilton prides itself on caring about the little details that have a big impact, from welcoming guests with its signature, warm DoubleTree Cookie to serving the communities around them.

DoubleTree by Hilton continues to rapidly expand, with a footprint in enticing gateway cities — from New York City and Madrid to Boston and Turin. These properties offer unique, contemporary accommodations and full-service, upscale facilities, which includes restaurants and lounges, room service, health clubs, and meeting and banquet space. DoubleTree by Hilton is a fast growing global portfolio of 543 upscale hotels with more than 127,000 rooms and 43 countries.

Homewood Suites

Homewood Suites by Hilton offers a unique approach to longer stays allowing guests to stay in their routine while traveling for business or leisure. Every room is a spacious studio, one, and two bedroom suites featuring a full kitchen with a full-size refrigerator, microwave, and stove top, so guests can cook a meal without leaving their suite. A free, full hot breakfast is served daily, along with free drinks (for those of legal drinking age),

and bites Monday through Thursday. Additional amenities include free Wi-Fi, fitness center, business center, sport courts, swimming pools, and complimentary grocery shopping service – everything guests need while traveling, whether they stay a day, a month, or longer. The brand has 474 hotels in three countries and territories.

Overview of Marriott Brands

Marriott is a leading global lodging company with more than 6,500 properties in 127 countries and territories. In 2016, Marriott acquired Starwood Hotels & Resorts, making them the largest global lodging company in the world.

Marriott Guest Loyalty Program

Marriott maintains three guest loyalty programs under the names Marriott Rewards, The Ritz-Carlton Rewards and SPG. The three guest loyalty programs share a single, unified program with one set of benefits so that travelers have the ability to earn and redeem rewards across different hotel brands. Collectively, the guest loyalty programs cover 29 distinct hotel brands.

Marriott Brands

Marriott

Marriott provides sophisticated spaces and experiences. This flagship brand currently features over 567 open properties with 202,166 rooms worldwide. Marriott intends to open an additional 160 hotels representing approximately 46,088 anticipated new rooms.

Overview of InterContinental Hotels Group

InterContinental Hotels Group is a leading multinational hospitality company. Its diverse portfolio includes 13 differentiated brands. As one of the largest hospitality companies in the world, InterContinental Hotels Group has over 5,500 hotels with over 825,000 rooms. InterContinental Hotels Group intends to grow its portfolio, with plans to open over 1,800 additional hotels.

InterContinental Hotels Group Guest Loyalty Program

InterContinental Hotels Group maintains a guest loyalty program under the name IHG Rewards Club. The IHG Rewards Club has more than 100 million members enrolled worldwide and is an effective tool for driving customers to InterContinental Hotels Group brands and generating brand loyalty. Members are seven times more likely to book through low cost direct booking channels and in 2017 provided more than 21% more revenue per stay than non-members.

InterContinental Hotels Group Brands

Holiday Inn Express

Holiday Inn Express features simple and engaging amenities. The brand currently offers approximately 2,685 hotels, representing over 274,000 rooms. It is anticipated that InterContinental Hotels will open and additional 786 hotels under the Holiday Inn Express brand.

RENOVATION STATUS OF THE INITIAL PORTFOLIO

The following is a discussion of the renovations on the Initial Portfolio that have been performed, are currently under way or are scheduled to begin in the near term:

Hilton Garden Inn Dallas Market Center

The HGI Property was acquired by a subsidiary of NREO in December 2014. The plan upon acquisition was to do an extensive renovation on the property, which began in July 2015. NREO spent $5.6 million or $23,333 per room, completing the renovations in December 2015. During the renovation, the décor was upgraded, flooring, furniture and bathroom fixtures (other than guestroom showers) were replaced in all rooms to conform to the then required brand standards and general improvements were made to common areas. No major renovation is anticipated on the HGI Property until the next required property improvement plan ("**PIP**"), which is estimated to be in 3 – 5 years. The estimated cost will be $9,600 per room or $2.3 million. The year following completion of the renovation, RevPAR and occupancy each increased 14.9%, which exceeded underwritten projections.

DoubleTree Portfolio

The DoubleTree Portfolio was acquired by a subsidiary of NREO in May 2018 and included five DoubleTree properties located in the Pacific Northwest of the United States. The plan upon acquisition was to do an extensive renovation on each property, which began in October 2018. The REIT anticipates spending an additional $8.6 million or $16,667 per room to complete the renovation, which will be funded by the mezzanine debt secured at the acquisition and cash flow from operations. As of February 28, 2019, approximately $2.3 million has been funded under the mezzanine debt reserved for approved PIP expenses and approximately $3.4 million remains available to fund ongoing renovations at the DT Portfolio. It is estimated the renovations will be completed in May 2019. During the renovation the furniture and bathroom fixtures are being replaced in all rooms and a significant portion of the bathtubs are being converted to showers to conform to the currently required brand standards, changes in guest preferences. In addition general improvements are being made to common areas. Following completion of the current renovation, no major renovations are anticipated on the DoubleTree Portfolio until the next required PIP, which is estimated to be in 6 - 8 years. The estimated cost will be $10,000 – 15,000 per room or $7.7 million.

Homewood Suites Portfolio

The Homewood Suites Portfolio was acquired by HCBH 11611 Ferguson, LLC in May 2017. The plan upon acquisition was to do an extensive renovation on the Portfolio, which began in June 2017 and was completed in May 2018. The renovation cost $12.2 million or $34,542 per room. During the comprehensive renovation, the décor was upgraded, flooring, furniture and bathroom fixtures were replaced in all rooms to conform to the then required brand standards and changing consumer tastes, and general improvements were made to common areas. Following completion of the renovation, no major renovation is anticipated on the Homewood Suites Portfolio until the next required PIP, which is estimated to be in approximately 6 years. The estimated cost will be $10,000 - $15,000 per room or $5.3 million. In the period following completion of the renovation, RevPAR and occupancy have been trending upward and the properties are regaining a competitive position in their respective sub-markets.

Marriott St. Petersburg

The Marriott St. Petersburg was acquired by Meritage Residential Partners LLC in September 2018. The prior owner completed an extensive renovation in 2010 to bring the property into compliance with the then current brand standards. The plan upon acquisition was to do an extensive renovation on the portfolio, which is estimated to begin in 2019 and be completed in 2020. Capital expenditures of $7.0 million or $33,400 per room have been budgeted for the renovation, which will be funded by cash flow from operations and capital previously contributed by NREO. During the renovation, the décor will be upgraded, flooring, furniture and bathroom fixtures will be replaced in all rooms to conform to the currently required brand standards and general improvements will be made to common areas. Case goods are expected to be replaced in 2022 and should be the only major renovation is anticipated on the St. Petersburg Property until the next required PIP, which is estimated to be in 6 - 8 years. The estimated cost will be $6,000 - $10,000 per room or $1.3 million - $2.1 million.

Holiday Inn Express Nashville

The Holiday Inn Express Nashville was indirectly acquired by NHT Holdco, LLC in January 2019. At the time of acquisition, the prior owner was undertaking a PIP program in furtherance of a partially completed process commenced in the prior year to bring the hotel décor, furniture, fixtures and common areas up to the current brand standards. After acquisition, the prior owner is completing the PIP renovations as agreed to in the purchase

agreement. At closing of the acquisition, the prior owner paid $3 million to fund the remaining renovation costs and capped NHT Holdco, LLC's exposure to overruns per the purchase agreement. The renovations are expected to be completed in 2019. Subsequent to completion of the renovation, no major renovation is anticipated on the Nashville Property until the next required PIP, which is estimated to be in 8 years. The estimated cost will be $10,000 - $15,000 per room or $4.3 million.

Future Anticipated Renovations

Pursuant to the franchise agreements between the REIT and various hotel brands under which the REIT operates its properties, the REIT is required to undertake periodic PIP programs to conform the properties to the then current brand standards mandated by each brand. PIPs are not generally prescribed on a set timeline but rather are required when a property's current décor, furniture and fixture package falls materially outside of the current brand standards. The REIT estimates that PIPs will be required generally 6 - 8 years after completion of the prior PIP. Because each brand develops its own standards that continuously change, it is impossible to accurately estimate the cost of a future PIP. However, the REIT believes that for the brands the REIT operates, costs will be approximately $15,000 per room at the high end. Once a PIP is required, the REIT will generally have approximately 24 months to complete the required upgrades. Furthermore, because of the extensive renovations done recently, in progress, or to be completed in the next 12 months, the anticipated time frame for future PIPs are 4 years at the earliest and will be required to be completed in 6 years, based on the REIT's best estimate with currently available information.

The REIT employs several mechanisms to fund the required periodic PIPs. First, 4% of gross revenue is generally reserved annually for each property. Cash reserved for future PIP expenditures is reflected on the statement of financial position as restricted cash or as a receivable. In addition to funding reserves for future PIP expenditures, the REIT anticipates having additional free cash flow after payment of the dividend that may be used to fund PIPs. Additionally, depending on the state of debt markets at the time the PIP is required, it is possible the REIT may refinance certain mortgages and take out additional cash to fund the PIP.

In addition to periodically required PIPs, each property requires capital expenditures for ongoing repairs and maintenance. These costs are usually expensed as incurred, unless the repair is of a nature such that it is extending the life of a component of the property, in which case it is capitalized. Ongoing repair and maintenance expenses are budgeted annually and capital is reserved throughout the year to fund these expenditures.

ASSESSMENT AND VALUATION OF THE INITIAL PORTFOLIO

Independent Appraisal

The REIT retained JLL Valuation & Advisory Services, LLC (the "**Appraiser**") to provide an independent opinion as to the aggregate market value of the Initial Portfolio on a portfolio basis (the "**Appraisal**"). The Appraisal was prepared in conformance with the guidelines and recommendations set forth in the Uniform Standards of Professional Appraisal Practice, the requirements of the Code of Professional Ethics and Standards of Professional Appraisal Practice of the Appraisal Institute, Title XI of the *Financial Institution Reform, Recovery and Enforcement Act of 1989*, revised June 7, 1994, and applicable state appraisal regulations. The Appraisal defines "market value", in accordance with Code of Federal Regulations, Title 12, Chapter I, Part 34.42g, as "the most probable price which a property should bring in a competitive and open market under all conditions requisite to a fair sale, the buyer and seller each acting prudently and knowledgeably, and assuming the price is not affected by undue stimulus". Implicit in the definition of market value is the consummation of a sale as of a specified date and the passing of title from seller to buyer under conditions whereby: (i) buyer and seller are typically motivated; (ii) both parties are well informed or well advised, and acting in what they consider their best interests; (iii) a reasonable time is allowed for exposure of each individual Initial Portfolio in the open market; (iv) payment is made in terms of cash in U.S. dollars or on terms of financial arrangements comparable thereto; and (v) the price represents the normal consideration for the property sold, unaffected by special or creative financing or sales concessions granted by anyone associated with the sale.

Based on the Appraisal prepared by the Appraiser, prospective market value at stabilization of the Initial Portfolio, which takes into account the completed and ongoing renovation projects, is estimated to be approximately $383.7 million. The value conclusions made by the Appraiser reflect all known information about the Initial Portfolio, market conditions and available data. The estimated market value of the Initial Portfolio was determined

by the Appraiser using both the (i) income capitalization approach, which utilized the direct capitalization method, as investors in similar types of property typically rely solely on this method; and (ii) sales comparison approach, which utilized the sale price per key analyses, and which was used primarily as support for the income capitalization approach, as significant adjustments are required because of the differences in the various elements of comparison. The income capitalization approach was given the greatest weight in the conclusion of value in the Appraisal, as the value indication from the income capitalization approach is supported by market data regarding income, expenses and required rates of return and a typical investor would place greatest reliance on the income capitalization approach.

The Appraiser analyzed the Initial Portfolio and market data gathered through the use of appropriate, relevant and accepted market-derived methods and procedures. Further, the Appraiser employed the appropriate and relevant approaches to value, and correlated and reconciled the results into an estimate of market value for each of the Initial Portfolio. The Appraiser conducted an economic analysis, taking into account the area, surrounding area, and hospitality market, as well as a comparable property analysis, taking into account the land description, improvements, real estate taxes, the highest and best use for the property and the land valuation for each of the Initial Portfolio.

In determining the appropriate market value of the Initial Portfolio, under the sales comparison approach, the Appraiser gave appropriate consideration to adjustment factors, an analysis and adjustment of comparable sales and the effective gross income multipliers and operating expense ratios for comparable sales. Under the income capitalization approach, the Appraiser gave appropriate consideration to occupancy and ADRs, a market RevPAR analysis, a gross income estimate, operating expenses, net operating income and the appropriate capitalization rate.

In appraising the Initial Portfolio, the Appraiser assumed that title to the Initial Portfolio is good and marketable and free and clear of all liens and encumbrances and the improvements on the Initial Portfolio were structurally sound. The Appraiser did not take into account soil, engineering, structural or environmental matters. The Appraiser visited each of the Initial Portfolio, which were considered to be in good or good to fair condition.

Going forward, the REIT intends to obtain periodic appraisals of its real estate assets on an as-needed basis, at the discretion of the Independent Trustees. Specifically, the REIT anticipates that it will obtain an independent appraisal upon (each in respect of the applicable property): (i) the acquisition of any new property, (ii) a material adverse change to any property within the REIT's then existing portfolio, or (iii) the refinancing or leveraging of any property within the REIT's then existing portfolio. The summary findings of all future appraisals will be disclosed on the REIT's website or otherwise made available electronically on SEDAR at www.sedar.com.

Caution should be exercised in the evaluation and use of appraisal results. An appraisal is an estimate of market value. It is not a precise measure of value but is based on a subjective comparison of related activity taking place in the real estate market. The Appraisal is based on various assumptions of future expectations and while the Appraiser's internal forecasts of net operating income for the Initial Portfolio is considered to be reasonable at the current time, some of the assumptions may not materialize or may differ materially from actual experience in the future.

A publicly traded real estate investment trust will not necessarily trade at values determined solely by reference to the underlying value of its real estate assets. Accordingly, the Units may trade at a premium or a discount to values implied by the Appraisal. The Appraisal will be filed with the securities regulatory authorities in each of the provinces of Canada (other than Québec), and investors are advised to read the Appraisal for a full description of applicable assumptions and conditions.

Environmental Site Assessments

Each of the 11 properties in the Initial Portfolio has been the subject of a Phase I environmental site assessment report ("**Phase I ESA Report**") conducted by independent and experienced environmental consultants from September 2014 to October 2018. The Phase I ESA Reports were prepared in general accordance with the scope and limitations of ASTM Designation E 1527-2013, "Standard Practice for Environmental Site Assessments: Phase I Environmental Site Assessment Process". The purpose of the Phase I ESA Reports was to identify any existing or potential recognized environmental conditions ("**RECs**") in connection with the Initial Portfolio, which means the presence or likely presence of any hazardous substances or petroleum products in, on, or at any property

within the Initial Portfolio (i) due to any release to the environment, (ii) under conditions indicative of a release to the environment, or (iii) under conditions that pose a material threat of a future release to the environment. The Phase I ESA Reports also identified any controlled recognized environmental conditions ("**CRECs**"), historical recognized environmental conditions ("**HRECs**") and non-ASTM environmental issues in connection with the Initial Portfolio.

Based on the Phase I ESA Reports prepared in respect of the Initial Portfolio, the independent environmental consultants did not identify any RECs, CRECs or HRECs in connection with any of the Initial Portfolio as of the date of the respective Phase I ESA Reports. In the case of the Phase I ESA Report for DoubleTree Olympia, it was recommended that the ongoing subsurface monitoring, indoor air monitoring, sub-slab soil vapor monitoring and certain other remediation efforts be continued on the property. The site of the DoubleTree Olympia was formerly used for an oil and fuel distribution operation. As a result, the property is currently enrolled in a voluntary cleanup program. In connection with the voluntary program, monitoring and remediation efforts are ongoing. Specifically, in April 2018 an independent environmental consultant completed a Vapor Intrusion Investigation Report and noted, among other things, that the human health risk assessment based on November 2017 indoor air naphthalene data demonstrate that there is no unacceptable short- or long-term health risk to hotel workers or guests based on a commercial exposure scenario. A separate Groundwater Monitoring Report completed in March 7, 2018 concluded, among other things, that risks to human health and the environment associated with residual soil and groundwater impacts at the property are not considered to be unacceptable based on the existing commercial land use exposure scenario at the property.

Any other non-ASTM environmental issues noted in the Phase I ESA Reports were issues that can be managed under an operations and maintenance program and did not warrant further environmental assessment investigation as of the date of the respective Phase I ESA Reports.

It is the REIT's operating policy to obtain a Phase I ESA Report conducted by an independent and experienced environmental consultant prior to acquiring a property. If a Phase I ESA Report recommends a Phase II environmental assessment be conducted, the REIT will ensure that a Phase II environmental assessment is conducted by an independent and experienced environmental consultant. Management is not aware of any non-compliance with environmental laws at any of the Initial Portfolio that management believes would have a material adverse effect on the REIT. Management is not aware of any pending or threatened investigations or actions by environmental regulatory authorities in connection with any of the Initial Portfolio that would materially adversely affect the REIT or the values of the Initial Portfolio, taken as a whole, as determined by the Appraiser.

Property Condition Assessments

Property condition assessment reports ("**PCA Reports**") were prepared for each of the 11 properties comprising the Initial Portfolio for the purpose of assessing and documenting the general condition of the buildings, site and other improvements at each of the Initial Portfolio. The PCA Reports were also prepared for the purpose of identifying those areas that will require remedial repair at each of the Initial Portfolio. The PCA Reports were prepared in general accordance with ASTM E2018-08, "Standard Guide for Property Condition Assessments: Baseline Property Condition Assessment Process".

The site observations for the PCA Reports were conducted between September 2014 to October 2018. Each of the PCA Reports assessed repairs required to be completed immediately, deferred routine maintenance repairs and capital replacement reserves expenditures to be performed during the subsequent 12 years in order to maintain appropriate building conditions. The cost estimates in the PCA Reports were for components of systems exhibiting significant deferred maintenance and existing deficiencies requiring major repairs or replacement. Repairs or improvements that could be classified as (i) cosmetic; (ii) decorative; (iii) part or parcel of a buildings renovation program or to reposition the asset in the marketplace; (iv) routine or normal preventative maintenance; or (v) that are the responsibility of the tenants were not included.

The PCA Reports provide that each of the properties comprising the Initial Portfolio was observed to be in fair to good overall condition, except for the PCA Report for Homewood Suites Las Colinas, which identified certain poor conditions requiring repairs on foundation & framing and plumbing. At the time of their preparation, the PCA Reports identified certain capital expenditures necessary to maintain the properties in good physical condition, which have since been addressed. Over the past 12 months approximately $12 million in renovations have

been completed at the 11 properties comprising the Initial Portfolio. Going forward, the REIT expects that furniture, fixtures and equipment reserves will be sufficient to satisfy any additional capital expenditures required.

It is the REIT's operating policy to obtain a PCA conducted by an independent and experienced environmental consultant prior to acquiring a property.

DEBT STRATEGY AND INDEBTEDNESS

The REIT plans to use leverage in the portfolio to help increase returns and yields to Unitholders. The REIT will seek to maintain a debt profile consisting of various sources of low cost capital, including debt from regional and national banks, insurance companies, and non-bank lenders. Each of the properties in the Initial Portfolio is encumbered. Immediately following Closing, management anticipates the REIT's Debt will consist of (i) $184.2 million of secured mortgage loans, implying a Mortgage Debt to Gross Real Estate Value Ratio of approximately 50% and (ii) $73.3 million of mezzanine debt, implying a total Debt to Gross Real Estate Value of approximately 70%. Longer-term, the REIT intends to target and maintain a Mortgage Debt to Gross Real Estate Value Ratio of between 40% to 50% in order to maximize returns while minimizing leverage risk. The ratio of Debt to the aggregate appraised value of the Initial Portfolio upon stabilization (being $383.7 million) is approximately 67%.

Lender	Interest Rate/Spread	Amortization Period (Years)	Maturity Date[3]	Number of Encumbered Properties	Principal Amount Outstanding as of February 28, 2019 ($)[9]
Societe Generale	5.12%	30	July 1, 2026	1[4]	69,842,343
Acore Capital Mortgage, LP[7]	3.45%[1]	30	March 1, 2022	5[5]	88,000,000
ACRC Lender LLC[8]	3.45%[2]	30	May 9, 2021	5[6]	64,653,944
Acore Capital Mortgage, LP	6.25%[2]	N/A	January 8, 2020	5[5]	35,000,000
Total Mortgage and Mezzanine Loans				**11**	**$257,496,287**

Notes:

(1) Variable based on one-month LIBOR plus the noted spread.

(2) Variable based on one-month LIBOR plus the noted spread. LIBOR floor of 2.25%.

(3) Does not include extension options which apply for a majority of the mortgage loans.

(4) Secured by Holiday Inn Express Nashville.

(5) Secured by Marriott St. Petersburg, Hilton Garden Inn Dallas Market Center, Homewood Suites Plano, Homewood Suites Addison and Homewood Suites Las Colinas.

(6) Secured by DoubleTree Beaverton, DoubleTree Bend, DoubleTree Olympia, DoubleTree Tigard and DoubleTree Vancouver.

(7) The loan with Acore Capital Mortgage is separated into two different loans: 1) $59,400,000 mortgage (Note A) and 2) $28,600,000 mezzanine (Note B).

(8) The loan with ARC Lender LLC is separated into three different loans: 1) $55,000,000 mortgage, 2) $7,365,000 mezzanine debt (Note A) and 3) $5,700,000 mezzanine debt (Note B) that is to be used for approved PIP expenses. As of February 28, 2019, $2,288,944 has been funded under the facility reserved for approved PIP expenses and $3,411,056 remains available to fund ongoing renovations at the DT Portfolio.

(9) The REIT has recorded gross deferred financings costs of $5,371,450 that is not reflected in this balance. If the deferred financing costs were netted against the principal balances of mortgages and mezzanine debt, as required by IFRS, the net balance would be $252,124,837.

As of the date of this prospectus: (i) the mortgage in favour of Societe Generale is guaranteed by the OP; (ii) the mortgage in favour of Acore Capital Mortgage, LP is guaranteed by NexPoint Real Estate Advisors, L.P. and NHT Holdco, LLC; (iii) the mortgage in favour of ACRC Lender LLC is guaranteed by NREO; and (iv) the preferred equity in favour of Acore Capital Mortgage, LP in the amount of is guaranteed by The Dugaboy Investment Trust. The mortgage loans are non-recourse debt and as a result, the corresponding guarantees are effective only upon the occurrence of certain non-recourse carve-outs and the preferred equity is guaranteed on a full-recourse basis. It is anticipated that following Listing, the REIT will replace NHT Holdco, LLC as the guarantor of the mortgage in favour of Acore Capital Mortgage, LP.

Following Closing, the REIT's mortgage debt will have a weighted average maturity of 3.60 years and a weighted average interest rate of 6.10% based on a one-month LIBOR rate of 2.49% (as of February 28, 2019).

THE CONTRIBUTION OF THE INITIAL PORTFOLIO

Overview

On or prior to Closing, NHT Holdco, LLC will contribute NHT Intermediary, LLC ("**US Holdco**") to the REIT. US Holdco, through its subsidiaries has aggregated a portfolio of 11 full-service and select-service hotel properties located across five states and six major MSA markets located in the United States. On January 8, 2019, through a series of transactions, the hotels were indirectly contributed by four different groups of parties (the "**Contributors**" and each a "**Contributor**") to the OP (the "**Contributions**" and each a "**Contribution**"). The four groups of Contributors were: (i) the shareholders of NexPoint Multifamily Capital Trust, Inc. ("**NMCT Shareholders**"), a Maryland corporation majority-owned by affiliates of the Advisor ("**NMCT**"); (ii) HCBH 11611 Ferguson, LLC ("**HCBH**"), a Delaware limited liability company majority-owned by affiliates of the Advisor; (iii) Meritage Residential Partners LLC ("**Meritage**"), a Delaware limited liability company majority-owned by affiliates of the Advisor; and (iv) NexPoint Real Estate Opportunities, LLC ("**NREO**"), a Delaware limited liability company, along with minority investors in the properties being contributed by NREO. The contributed assets and assumed liabilities are currently held by the OP through its subsidiaries. Each hotel property will be leased to the TRS Entities under a long-term lease arrangement in exchange for the payment of the agreed upon rent amount. In order to fund the Contribution, NHI and the OP, have assumed or entered into multiple mortgages collateralized by the properties. At Closing, the REIT will have a consolidated gross value of approximately $409.9 million, assuming the Offering is fully subscribed, with an equity value of approximately $144.4 million and Debt and other liabilities of approximately $263.5 million.

On January 8, 2019, NMCT Shareholders, indirectly through a series of transactions, contributed 100% of the shares of NMCT to the OP. NMCT indirectly acquired the Nashville Property on January 8, 2019.

On January 8, 2019, HCBH contributed 100% of its LLC interests in HCRE Plano, LLC ("**HCRE Plano**"), a Delaware limited liability company, 100% of its LLC interests in HCRE Addison, LLC ("**HCRE Addison**"), a Delaware limited liability company, and 100% of its LLC interests in HCRE Las Colinas, LLC ("**HCRE Las Colinas**"), a Delaware limited liability company, to NHT DFW Portfolio, LLC ("**NHTDFW**"). HCBH then, indirectly through a series of transactions, contributed 100% of its LLC interests in NHTDFW to the OP. HCBH has indirectly owned the HWS Portfolio since May 2017.

On January 8, 2019, Meritage contributed 100% of its LLC interests in NHT SP, LLC ("**NHT SP**"), a Delaware limited liability company, to NHT SP Parent, LLC ("**NHT SP Parent**"). Meritage then, indirectly through a series of transactions, contributed 100% of its LLC interests in NHT SP Parent to the OP. Meritage has indirectly owned the St. Pete Property since September 2018.

As a result of the above transactions, NMCT Shareholders, HCBH and Meritage wholly-own NHT Holdco, LLC by virtue of holding 100% of its issued and outstanding units.

On January 8, 2019, NREO and minority members contributed 100% of the LLC interests in NREO NW Hospitality, LLC ("**NREO NW**"), a Delaware limited liability company, and NHT 2325 Stemmons, LLC, a Delaware limited liability company, to the OP in exchange for Class B units of the OP (the "**Class B OP Units**"). NREO NW owns (i) 100% of the LLC interests in NHT Beaverton, LLC ("**NHT Beaverton**"), a Delaware limited liability company, which owns DT Beaverton, (ii) 100% of the LLC interests in NHT Bend, LLC ("**NHT Bend**"), a Delaware limited liability company, which owns DT Bend, (iii) 100% of the LLC interests in NHT Olympia, LLC ("**NHT Olympia**"), a Delaware limited liability company, which owns DT Olympia, (iv) 100% of the LLC interests in NHT Tigard, LLC ("**NHT Tigard**"), a Delaware limited liability company, which owns DT Tigard, and (v) 100% of the LLC interests in NHT Vancouver, LLC ("**NHT Vancouver**"), a Delaware limited liability company, which owns DT Vancouver. NREO and minority members have indirectly owned the DT Portfolio since May 2018. NREO and minority members have indirectly owned the HGI Property since December 2014.

For an illustration of the corporate structure of the REIT upon completion of the above steps, see "Legal Structure".

RETAINED INTEREST

Immediately following Closing, principals and affiliates of the Advisor will own or indirectly or directly exercise control or direction over approximately 71.1% of the REIT and 38.2% of the combined equity of the REIT and OP (determined as if all Class B OP Units are redeemed for Units).

Investor Rights Agreement

The following is a summary of certain provisions of the Investor Rights Agreement, which is a material contract for the REIT and is qualified in its entirety by reference to all of the provisions of such agreement. The Investor Rights Agreement will be available following Closing on SEDAR at www.sedar.com.

On Closing, the REIT and the NexPoint Holders will enter into the Investor Rights Agreement which will govern the rights of the NexPoint Holders as Unitholders. The Investor Rights Agreement will contain the following provisions, a summary of which is not intended to be complete.

Nomination Rights

Pursuant to the Investor Rights Agreement, the NexPoint Holders will be granted the right to nominate two Trustees (such nominees will be subject to election together with the remaining Trustees at annual meetings of Unitholders) subject to the NexPoint Holders owning, in the aggregate, 20% or more of the then-outstanding Units, such number being reduced to one nominee if the NexPoint Holders own, in the aggregate, less than 20% but 10% or more of the then-outstanding Units (in each case, determined as if all Class B OP Units are redeemed for Units). Upon the NexPoint Holders' aggregate ownership falling below 10%, the NexPoint Holders will not have any Trustee nomination rights. For so long as the NexPoint Holders have nomination rights under the Investor Rights Agreement, the board of Trustees of the REIT (the "**Board**") will be restricted from nominating more than three Trustees. For clarity, this restriction will not affect the ability of a Unitholder to nominate Trustees in accordance with the terms of the Declaration of Trust or applicable law. Notwithstanding the foregoing, where the Board is comprised of four or less Trustees, the NexPoint Holders will be entitled to nominate a maximum of one Trustee pursuant to the Investor Rights Agreement. On Closing, the Board will be comprised of three Trustees and it is expected that NexPoint Holders will own, in the aggregate, 38.2% of the outstanding Units (determined as if all Class B OP Units are redeemed for Units). Therefore the NexPoint Holders will be entitled to nominate one Trustee so long as the total number of Trustees equals three and two Trustees if the total number of Trustees increases to five or more. In no event will NexPoint Holders be entitled to nominate Trustees where a majority of the Trustees are not deemed to be independent.

Consent Rights

Pursuant to the Investor Rights Agreement, the following transactions shall require the consent of the NexPoint Holders (the "**Consent Rights**"), provided that the NexPoint Holders own, in the aggregate, 33% or more of the Units (determined as if all Class B OP Units are redeemed for Units):

- the REIT and/or any of its subsidiaries entering into a merger, consolidation or business combination, not in the ordinary course of business;
- the REIT and/or any of its subsidiaries selling, assigning, conveying or otherwise disposing of all or substantially all of its assets;
- the REIT and/or any of its subsidiaries adopting any plan or proposal for a complete or partial liquidation or dissolution, or any reorganization or recapitalization or commencement of any case, proceeding or action seeking relief under any existing or future laws relating to bankruptcy, insolvency, conservatorship or relief of debtors or the REIT and/or any of its subsidiaries;
- the REIT and/or any of its subsidiaries adding, changing or removing any restriction on the business or businesses that the REIT and/or any of its subsidiaries may carry on;

- the REIT and/or any of its subsidiaries effecting any subdivision, re-division, consolidation, exchange, reclassification, reorganization, recapitalization, split, combination or similar change in any units or other securities of the REIT and/or any of its subsidiaries;
- changing the size of the Board; and
- the REIT and/or any of its subsidiaries agreeing or committing to any of the preceding actions.

Registration Rights

The Investor Rights Agreement will provide the NexPoint Holders with the right (the "**Piggy-Back Registration Right**"), among others, to require the REIT to include Units (including Units issuable upon the redemption of Class B OP Units) held by NexPoint Holders in any future offering undertaken by the REIT by way of prospectus that it may file with applicable Canadian securities regulatory authorities (a "**Piggy-Back Distribution**"). The REIT will be required to use reasonable commercial efforts to cause to be included in the Piggy-Back Distribution all of the Units the NexPoint Holders request to be sold, provided that if the Piggy-Back Distribution involves an underwriting and the lead underwriter determines that the total number of Units to be included in such Piggy-Back Distribution should be limited for certain prescribed reasons, the Units to be included in the Piggy-Back Distribution will be first allocated to the REIT.

In addition, the Investor Rights Agreement will provide the NexPoint Holders with the right (the "**Demand Registration Right**") to require the REIT to use reasonable commercial efforts to file one or more prospectuses with applicable Canadian securities regulatory authorities, qualifying Units held (or issuable upon the redemption of Class B OP Units) by the NexPoint Holders for distribution (a "**Demand Distribution**"), provided that such Demand Registration Right may only be exercised by one designee on behalf the NexPoint Holders. The designee for the NexPoint Holders will be entitled to request not more than two Demand Distributions per calendar year and each request for a Demand Distribution must relate to such number of Units that would reasonably be expected to result in gross proceeds of at least $15 million. The REIT may also distribute Units in connection with a Demand Distribution provided that if the Demand Distribution involves an underwriting and the lead underwriter determines that the total number of Units to be included in such Demand Distribution should be limited for certain prescribed reasons, the Units to be included in the Demand Distribution will be first allocated to the NexPoint Holders.

Each of the Piggy-Back Registration Right and the Demand Registration Right will be exercisable at any following Closing, provided that the NexPoint Holder exercising such rights, together with its affiliates and joint actors, collectively own, in the aggregate, at least 10% of the Units (determined as if all Class B OP Units are redeemed for Units) at the time of exercise. The Piggy-Back Registration Right and the Demand Registration Right will be subject to various conditions and limitations, and the REIT will be entitled to defer any Demand Distribution in certain circumstances for a period not exceeding 90 days. The expenses in respect of a Piggy-Back Distribution, subject to certain exceptions, will be borne by the REIT, except that any underwriting fee on the sale of Units by the NexPoint Holders and the fees of the NexPoint Holders' external legal counsel will be borne by the NexPoint Holders. The expenses in respect of a Demand Distribution, subject to certain exceptions, will be borne by the REIT and the NexPoint Holders on a proportionate basis according to the number of Units distributed by each.

Pursuant to the Investor Rights Agreement, the REIT will indemnify the NexPoint Holders for any misrepresentation in a prospectus under which the NexPoint Holders' Units are distributed (other than in respect of any prospectus disclosure provided by the NexPoint Holders, in respect of the NexPoint Holders). The NexPoint Holders will indemnify the REIT for any prospectus disclosure provided by the NexPoint Holders in respect of the NexPoint Holders.

The REIT has not and will not, pursuant to the Investor Rights Agreement or otherwise, have any obligation to register, nor will it register, Units under the U.S. Securities Act.

Pre-Emptive Rights

In the event the REIT or any of its subsidiaries decides to issue equity securities of the REIT or securities convertible into or exchangeable or redeemable for equity securities of the REIT or an option or other right to

acquire such securities other than to an affiliate thereof, the Investor Rights Agreement will provide that the NexPoint Holders, for so long as they continue to own, in the aggregate, at least 10% of the outstanding REIT Units (determined as if all Class B OP Units are redeemed for Units), shall have pre-emptive rights to purchase Units, Class B OP Units or such other securities as are being contemplated for issuance by the REIT or one of its subsidiaries to maintain their *pro rata* ownership interest in the REIT. Notice of exercise of such rights is to be provided in advance of the commencement of any offering of securities of the REIT or such other securities as are being contemplated for issuance and otherwise in accordance with the terms and conditions to be set out in the amended and restated limited liability company agreement of the OP (the "**LLC Agreement**").

Pursuant to the Investor Rights Agreement, the pre-emptive rights will not apply to issuances in the following circumstances:

- to participants in a distribution reinvestment plan or similar plan;
- in respect of the exercise or issuance of options, warrants, rights or other securities issued under security based compensation arrangements of the REIT or the OP;
- in respect of the exercise of the Class B OP Unit redemption right for Units;
- to Unitholders in lieu of cash distributions;
- as full or partial consideration for the purchase of real property by the REIT or its subsidiaries;
- in respect of the exercise by a holder of a conversion, exchange or other similar right pursuant to the terms of a security in respect of which the NexPoint Holders were granted the right to exercise their pre-emptive rights or in respect of which the pre-emptive rights did not apply;
- pursuant to a unitholders' rights plan of the REIT;
- to the REIT, the OP or any subsidiary or affiliate; and
- pursuant to the Offering.

Drag-Along Rights

If the REIT enters into a transaction that will involve: (i) the transfer, directly or indirectly, of all or substantially all of its assets to a third party; and (ii) the winding up, dissolution or termination of the REIT, or exchange of Units for securities of a third party issuer or successor issuer, then the Investor Rights Agreement will provide that each of the NexPoint Holders (if at such time, the NexPoint Holders own, in the aggregate, directly or indirectly, 20% or less of the outstanding Units (determined as if all Class B OP Units are redeemed for Units)) will be obligated to, upon the written request of the REIT, exercise their respective redemption right in respect of the Class B OP Units then held by the NexPoint Holders.

Tag-Along Rights

For so long as the NexPoint Holders own, in the aggregate, directly or indirectly, at least 10% of the outstanding Units (determined as if all Class B Units are redeemed for Units) the NexPoint Holders will have tag-along rights that will apply in respect of any sale by the REIT of its interest in the OP.

GOVERNANCE AND MANAGEMENT OF THE REIT

Board of Trustees

The Declaration of Trust will provide that, subject to certain conditions, the Trustees will have absolute and exclusive power, control and authority over the REIT's assets and operations, as if the Trustees were the sole and absolute legal and beneficial owners of the REIT's assets. The governance practices, investment guidelines and

operating policies of the REIT will be overseen by the Board consisting of a minimum of one and a maximum of nine Trustees, a majority of whom will be Canadian residents. The REIT must, at all times, have a majority of Trustees who are independent within the meaning of National Instrument 58-101 – *Disclosure of Corporate Governance Practices* ("**NI 58-101**"); provided, however, that if at any time a majority of the Trustees are not independent because of the death, resignation, bankruptcy, adjudicated incompetence, removal or change in circumstance of any Trustee who was an Independent Trustee, this requirement shall not be applicable for a period of 60 days thereafter, during which time the remaining Trustees shall appoint a sufficient number of Trustees who qualify as "independent" to comply with this requirement.

The Board will initially be comprised of three Trustees, a majority of whom will be independent Canadian residents. The Board will also designate a Lead Trustee from among the independent Canadian resident Trustees to provide leadership for the independent Trustees in certain circumstances if the Chair is not independent. Pursuant to NI 58-101, an Independent Trustee is one who is free from any direct or indirect relationship which could, in the view of the Board, be reasonably expected to interfere with a Trustee's independent judgment. The REIT has determined that Neil Labatte and Graham D. Senst will be independent under these standards. James Dondero will not be independent under these standards. As James Dondero, Chair of the Board, is not determined to be independent, Neil Labatte will initially be appointed to act as Lead Trustee. The Lead Trustee will be responsible for acting as the effective leader of the Board in circumstances where it is inappropriate for the Chair to act in that role as a result of a conflict of interest.

The mandate of the REIT's Board will be one of stewardship and oversight of the REIT and its business. In fulfilling its mandate, the Board will adopt a written charter setting out its responsibility for, among other things, (i) participating in the development of and approving a strategic plan for the REIT; (ii) supervising the activities and managing the investments and affairs of the REIT; (iii) approving major decisions regarding the REIT; (iv) defining the roles and responsibilities of management; (v) reviewing and approving the business and investment objectives to be met by management; (vi) assessing the performance of and overseeing management and the Advisor; (vii) reviewing and approving the REIT's debt strategy; (viii) identifying and managing risk exposure; (ix) ensuring the integrity and adequacy of the REIT's internal controls and management information systems; (x) succession planning; (xi) establishing committees of the Board, where required or prudent, and defining their mandate; (xii) maintaining records and providing reports to Unitholders; (xiii) ensuring effective and adequate communication with Unitholders, other stakeholders and the public; (xiv) determining the amount and timing of distributions to Unitholders; and (xv) acting for, voting on behalf of and representing the REIT as a holder of shares of US Holdco and, indirectly, NHI and the Class A units of the OP ("**Class A OP Units**").

The Board will adopt a written position description for the Chair of the Board, which will set out the Chair's key responsibilities, including, as applicable, duties relating to setting Board meeting agendas, chairing Board and Unitholder meetings, Trustee development and communicating with Unitholders and regulators, as well as a position description for the Lead Trustee, which will set out the Lead Trustee's duties with respect to board leadership, relationship with management, information flow and meetings. The Board will also adopt a written position description for each of the committee chairs which will set out each of the committee chair's key responsibilities, including duties relating to setting committee meeting agendas, chairing committee meetings and working with the respective committee and management to ensure, to the greatest extent possible, the effective functioning of the committee.

The standard of care and duties of the Trustees provided in the Declaration of Trust will be similar to those imposed on directors of a corporation governed by the *Canada Business Corporations Act* (the "**CBCA**"). Accordingly, each Trustee will be required to exercise the powers and discharge the duties of his or her office honestly, in good faith and in the best interests of the REIT, in connection therewith, to exercise the degree of care, diligence and skill that a reasonably prudent person would exercise in comparable circumstances. The Declaration of Trust will provide that each Trustee is entitled to indemnification from the REIT in respect of the exercise of the Trustee's powers and the discharge of the Trustee's duties, provided that the Trustee acted honestly and in good faith with a view to the best interests of the REIT or, in the case of a criminal or administrative action or proceeding that is enforced by a monetary penalty, where the Trustee had reasonable grounds for believing that his or her conduct was lawful.

Other than Trustees appointed prior to Closing, which Trustees will hold office for a term expiring at the close of the next annual meeting of Unitholders or until a successor is appointed, Trustees will be elected at each

annual meeting of Unitholders to hold office for a term expiring at the close of the next annual meeting, or until a successor is appointed, and will be eligible for re-election. The Board intends to adopt a majority voting policy consistent with TSXV requirements prior to the first uncontested meeting of Unitholders at which trustees are to be elected. Nominees will be nominated by the Compensation, Governance and Nominating Committee, in each case for election by Unitholders as Trustees in accordance with the provisions of the Declaration of Trust and will be included in the proxy-related materials to be sent to Unitholders prior to each annual meeting of Unitholders.

A quorum of the Trustees, being the majority of the Trustees then holding office (provided a majority of the Trustees comprising such quorum are residents of Canada), will be permitted to fill a vacancy in the Board, except a vacancy resulting from an increase in the number of Trustees, from a failure of the Unitholders to elect the required number of Trustees. In the absence of a quorum of Trustees, or if the vacancy has arisen from an increase in the number of Trustees other than in accordance with the provision regarding the appointment of trustees in the Declaration of Trust or from a failure of the Unitholders to elect the required number of Trustees, the Trustees will promptly call a special meeting of the Unitholders to fill the vacancy. If the Trustees fail to call that meeting or if there is no Trustee then in office, any Unitholder will be entitled to call such meeting. Except as otherwise provided in the Declaration of Trust, the Trustees may, between annual meetings of Unitholders, appoint one or more additional Trustees to serve until the next annual meeting of Unitholders, provided that the number of additional Trustees so appointed will not at any time exceed one-third of the number of Trustees who held such office at the conclusion of the immediately preceding annual meeting of Unitholders. Any Trustee may resign upon 30 days' written notice to the REIT, unless such resignation would cause the number of remaining Trustees to be less than a quorum, and may be removed by an ordinary resolution passed by a majority of the votes cast at a meeting of Unitholders.

As described above under "Investor Rights Agreement", the Investor Rights Agreement will grant the NexPoint Holders the exclusive right to nominate Trustees in certain circumstances. On Closing, it is anticipated that James Dondero will serve on the Board pursuant to the NexPoint Holders' nomination right. See "Investor Rights Agreement".

The following table sets forth the name, municipality of residence, positions held with the REIT and principal occupation of the Trustees of the REIT:

Name	Position with the REIT	Principal Occupation
NEIL LABATTE .... Toronto, Ontario, Canada	Lead Trustee and chair of the Compensation, Governance and Nominating Committee	President and CEO Global Dimension Capital, Inc.
JAMES DONDERO .... Dallas, Texas, U.S.A.	Trustee, Chair and Chief Executive Officer	Chief Executive Officer, NexPoint Hospitality Trust
GRAHAM D. SENST .... Toronto, Ontario, Canada	Trustee and chair of the Audit Committee	Trustee, BSR Real Estate Investment Trust

As a group, the Trustees and executive officers of the REIT will beneficially own, control or direct, directly or indirectly, 10,761,064 Units and 202,818 Class B OP Units on Closing, representing approximately 71.1% of the REIT and 38.2% of the combined equity of the REIT and OP (determined as if all Class B OP Units are redeemed for Units).

Biographical Information Regarding the Trustees

Additional biographical information regarding the individuals who will be Trustees of the REIT as of Closing, for the past five years is set out below:

Neil Labatte. Mr. Labatte is the founder of Global Dimension Capital, Inc., a real estate and hotel investment advisory firm. He is currently the President and CEO Global Dimension Capital, Inc. and is the President and Chief Executive Officer of Talon International Development Inc., a real estate development company. Mr. Labatte is also a Director of Skyline Investments Inc., a Canadian company specializing in hospitality real estate

investment in Canada and the United States. Mr. Labatte currently serves on the boards of BSR REIT (where he serves as chair) and Triovest Inc. He was previously a Director of HealthLease Properties REIT, Alpha Peak and Holloway Lodging Corporation, all current or former TSX-listed entities. In addition, Mr. Labatte was a Director of Pomeroy Hotels. Mr. Labatte is also the former President and Chief Executive Officer of the Legacy Hotels REIT, positions he held since June 1999 and March 2003, respectively until September 2007. He also served as a trustee of the Legacy Hotels REIT from April 2003 until September 2007. Mr. Labatte joined Fairmont Hotels & Resorts in 1997 as Vice President, Acquisitions, and from October 2001 to December 31, 2004 served as Senior Vice President, Real Estate and was a member of the organization's Executive Committee. Mr. Labatte possesses over 35 years of experience within the real estate sector. For four years prior to joining Fairmont Hotels & Resorts, Mr. Labatte was a founder, principal and board member of AEW Mexico Company, a Dallas, Texas private equity real estate investment management company formed with one of the largest institutional real estate private equity companies in the United States. For the 12 years prior to the formation of AEW Mexico Company, he was involved in the hotel and real estate sectors in the capacity of investment banker and consultant. Mr. Labatte received his B.Sc. and M.Sc. in Finance from the University of Utah. Mr. Labatte played professional hockey with the St. Louis Blues and Salt Lake Golden Eagles from 1977-1982. He was previously Co-Chairman of the NHL Alumni Association.

James Dondero. Mr. Dondero serves as the Chief Executive Officer of the REIT. He is the President of Highland Capital Management, L.P. which he co-founded in 1993 and NexPoint Advisors, LP, which he founded in 2012. Mr. Dondero has over 30 years of experience investing in credit and equity markets and has helped pioneer credit asset classes with portfolio management experience ranging in several asset classes, including real estate debt & equity. Mr. Dondero received a BS in Commerce (Accounting and Finance) from the University of Virginia, and is a Certified Managerial Accountant and a Chartered Financial Analyst.

Graham D. Senst. Mr. Senst currently serves as a trustee of BSR Real Estate Investment Trust. Mr. Senst served as President of the Institute of Canadian Real Estate Investment Managers until its sale in August 2012. Prior to this role, Mr. Senst served as Managing Director of KingSett Capital Real Estate Income Fund and as an Executive Vice President of Bentall Capital and Penreal Capital Management. Mr. Senst served as an Executive Vice President of Bentall Investment Management. Prior to joining Bentall in April 2003, Mr. Senst served as Vice President of Real Estate for the OMERS Administration Corp. (also known as Ontario Municipal Employees Retirement System). Mr. Senst has many years of senior real estate investment experience as a principal with a major Ontario pension fund and other Canadian financial institutions. Prior to joining OMERS, Mr. Senst served as Vice President of Real Estate at a Subsidiary of Mackenzie Financial Corporation, where he developed debt and equity investment products for various Mackenzie funds. Mr. Senst served as the Vice President of Corporate Real Estate at both Canada Trust and Truscan Realty. He served as a Member of Advisory Board at KingSett Capital Income Fund. He served as trustee of Residential Equities Real Estate Investment Trust (ResREIT). He served as a Director of Oxford Properties Group, Inc., Morgan Stanley Real Estate Fund IV and Soros Real Estate Investors, C.V. From 2013 to 2017, Mr. Senst served as a trustee of Milestone Apartments Real Estate Investment Trust and was the chair of the investment committee. Mr. Senst holds an Honours of Business Administration and a Masters of Business Administration from the Ivey School of Business at the University of Western Ontario in London, Ontario and is a graduate of the Institute of Corporate Directors 2011.

Penalties or Sanctions

None of the REIT's proposed Trustees or executive officers, and to the best of the REIT's knowledge, no Unitholder holding a sufficient number of securities to affect materially the control of the REIT, has been subject to any penalties or sanctions imposed by a court relating to securities legislation or by a securities regulatory authority or has entered into a settlement agreement with a securities regulatory authority or has been subject to any other penalties or sanctions imposed by a court or regulatory body that would likely be considered important to a reasonable investor making an investment decision.

Individual Bankruptcies

None of the REIT's existing or proposed Trustees or executive officers, and to the best of the REIT's knowledge, no Unitholder holding a sufficient number of securities to affect materially the control of the REIT, has, within the 10 years prior to the date of this prospectus, become bankrupt, made a proposal under any legislation relating to bankruptcy or insolvency, or become subject to or instituted any proceedings, arrangement or

compromise with creditors, or had a receiver, receiver manager or trustee appointed to hold the assets of that individual.

Corporate Cease Trade Orders and Bankruptcies

Except as disclosed below, none of the REIT's existing or proposed Trustees or executive officers, and to the best of the REIT's knowledge, no Unitholder holding a sufficient number of securities to affect materially the control of the REIT is, as at the date of this prospectus, or has been within the 10 years before the date of this prospectus, (a) a director, chief executive officer or chief financial officer of any company that was subject to an order that was issued while the existing or proposed director or executive officer was acting in the capacity as director, chief executive officer or chief financial officer, or (b) was subject to an order that was issued after the existing or proposed director or executive officer ceased to be a director, chief executive officer or chief financial officer and which resulted from an event that occurred while that person was acting in the capacity as director, chief executive officer or chief financial officer, or (c) a director or executive officer of any company that, while that person was acting in that capacity, or within a year of that person ceasing to act in that capacity, became bankrupt, made a proposal under any legislation relating to bankruptcy or insolvency or was subject to or instituted any proceeding, arrangement or compromise with creditors or had a receiver, receiver manager or trustee appointed to hold its assets. For the purposes of this paragraph, "order" means a cease trade order, an order similar to a cease trade order or an order that denied the relevant company access to any exemption under securities legislation, in each case, that was in effect for a period of more than 30 consecutive days.

Mr. Labatte is a director and/or officer of Talon International Inc. and several affiliated entities, including Talon International Development Inc., TFB Inc., 2263847 Ontario Limited and 2270039 Ontario Limited. On November 1, 2016, such corporations became parties to a receivership order from the Ontario Superior Court of Justice (Commercial List) appointing a court-appointed receiver of certain assets of such entities used in relation to the Trump International Hotel & Tower in Toronto, Ontario. The sale of such assets to various third parties was facilitated through the receivership process.

Interests of Trustees in Material Transactions

Other than as described in this prospectus, there are no material interests, direct or indirect, of any Trustee or executive officer of the REIT, any Unitholder that beneficially owns, or controls or directs (directly or indirectly), more than 10% of the aggregate votes attached to the Units, or any associate or affiliate of any of the foregoing persons, in any transaction within the three years before the date hereof that has materially affected or is reasonably expected to materially affect the REIT or any of its subsidiaries.

Committees of the Board of Trustees

The Board has established two committees: the Audit Committee and the Compensation, Governance and Nominating Committee. All members of the Audit Committee are persons determined by the Board to be Independent Trustees, except for temporary periods in limited circumstances in accordance with National Instrument 52-110 – *Audit Committees* ("**NI 52-110**"). A majority of the members of the Compensation, Governance and Nominating Committee are persons determined by the Board to be Independent Trustees.

Audit Committee

The Audit Committee consists of three Trustees, all of whom are persons determined by the REIT to be financially literate within the meaning of NI 52-110, and a majority of whom are persons determined by the REIT to be Independent Trustees within the meaning of NI 52-110. The Audit Committee is initially comprised of Graham D. Senst, who acts as chair of this committee, Neil Labatte and James Dondero, all of whom have extensive financial experience. Each of the Audit Committee members have an understanding of the accounting principles used to prepare financial statements and varied experience as to the general application of such accounting principles, as well as an understanding of the internal controls and procedures necessary for financial reporting. The REIT intends to rely on s. 3.2(2) of NI 52-110, which provides that the requirement that every Audit Committee member be independent will not apply for a period of up to one year following an initial public offering, provided that a majority of the audit committee members are independent.

The Board has adopted a written charter for the Audit Committee, substantially in the form set out under Appendix A to this prospectus, which sets out the Audit Committee's responsibilities. The Audit Committee's responsibilities include: (i) reviewing the REIT's procedures for internal control with the REIT's auditors and Chief Financial Officer; (ii) reviewing and approving the engagement of the auditors; (iii) reviewing annual and quarterly financial statements and all other material continuous disclosure documents, including the REIT's annual information form and management's discussion and analysis; (iv) assessing the REIT's financial and accounting personnel; (v) assessing the REIT's accounting policies; (vi) reviewing the REIT's risk management procedures; (vii) reviewing any significant transactions outside the REIT's ordinary course of business and any pending litigation involving the REIT; (viii) overseeing the work and reviewing of the independence of the external auditors; and (ix) reviewing, evaluating and approving the internal control procedures that are implemented and maintained by management.

The Audit Committee will have direct communication channels with the Chief Financial Officer and the external auditors of the REIT to discuss and review such issues as the Audit Committee may deem appropriate.

Compensation, Governance and Nominating Committee

The Compensation, Governance and Nominating Committee is comprised of three Trustees, a majority of whom are persons determined by the REIT to be Independent Trustees and a majority of whom are residents of Canada, and will be charged with reviewing, overseeing and evaluating the compensation, corporate governance and nominating policies of the REIT. The Compensation, Governance and Nominating Committee is initially comprised of Neil Labatte, who acts as chair of this committee, James Dondero and Graham D. Senst.

The Board will adopt a written charter for the Compensation, Governance and Nominating Committee setting out its responsibilities for: (i) assessing the effectiveness of the Board, each of its committees and individual Trustees; (ii) overseeing the recruitment and selection of candidates as Trustees of the REIT; (iii) organizing an orientation and education program for new Trustees; (iv) considering and approving proposals by the Trustees to engage outside advisors on behalf of the Board as a whole or on behalf of the Independent Trustees; (v) reviewing and making recommendations to the Board concerning any change in the number of Trustees composing the Board; (vi) considering questions of management succession; (vii) administering securities based compensation plans of the REIT including the Omnibus Plan (as defined below), any purchase plan of the REIT, and any other compensation incentive programs; (viii) assessing the performance of management of the REIT; (ix) reviewing and approving the compensation paid by the REIT, if any, to the officers of the REIT; and (x) reviewing and making recommendations to the Board concerning the level and nature of the compensation payable to Trustees and officers of the REIT.

It is expected that the Compensation, Governance and Nominating Committee will put in place an orientation program for new Trustees under which a new Trustee will meet with the Chair of the Board and members of the executive management team of the REIT. It is anticipated that a new Trustee will be provided with comprehensive orientation and education as to the nature and operation of the REIT and its business, the role of the Board and its committees, and the contribution that an individual Trustee is expected to make. The Compensation, Governance and Nominating Committee will be responsible for coordinating development programs for continuing Trustees to enable the Trustees to maintain or enhance their skills and abilities as Trustees as well as ensuring that their knowledge and understanding of the REIT and its business remains current.

The Board believes that the members of the Compensation, Governance and Nominating Committee individually and collectively possess the requisite knowledge, skill and experience in governance and compensation matters, including human resource management, executive compensation matters and general business leadership, to fulfill the committee's mandate. For additional details regarding the relevant education and experience of each member of the Compensation, Governance and Nominating Committee, see "Biographical Information Regarding the Trustees".

In determining total compensation for the REIT's Trustees and executive officers, the Compensation, Governance and Nominating Committee and the Board will consider a number of key factors, including (i) relative total Unitholder return, (ii) acquisitions, financings and refinancings, and (iii) financial performance. The Compensation, Governance and Nominating Committee and the Board will also assess the individual performance of each executive including a consideration of leadership, team development, asset management, investment and financing strategy development and execution, public company governance, and execution of specific objectives.

Nomination of Trustees

Other than pursuant to the Investor Rights Agreement, all board nominees are nominated by the Compensation, Governance and Nominating Committee, who make such nominations after considering the mix of skills and experience it believes are necessary to further the REIT's goals. Trustees elected at an annual meeting will be elected for a term expiring at the close of the subsequent annual meeting and will be eligible for re-election. Trustees appointed by the Trustees between meetings of Unitholders in accordance with the Declaration of Trust shall be appointed for a term expiring at the close of the next annual meeting and will be eligible for election or re-election, as the case may be. The Declaration of Trust includes certain advance notice provisions for the nomination of persons by Unitholders to stand for election as Trustees. See "Declaration of Trust – Advance Notice Provision".

Term Limits

The REIT does not impose term limits on its Trustees as it takes the view that term limits are an arbitrary mechanism for removing Trustees that can result in valuable, experienced Trustees being forced to leave the Board solely because of length of service. Instead, the REIT believes that Trustees should be assessed a minimum of annually based on their ability to continue to make a meaningful contribution to the REIT. The REIT is committed to ensuring that its Board is comprised of individuals with appropriate skill sets and annually asks its Trustees to evaluate the effectiveness of the Board and the individual Trustees. The results of these annual surveys are taken into account when determining the appropriate slate of individuals to stand for election as Trustees at each annual meeting.

Remuneration of Trustees

Each non-management Trustee will be paid an annual board retainer fee of $25,000 per year as well as a fee of $1,500 per meeting of the Board or any committee thereof. Each Trustee will be reimbursed for all reasonable travel and ancillary expenses incurred. The Lead Trustee will receive an additional annual retainer of $10,000. The chair of the Audit Committee will receive an additional annual retainer of $15,000. The chair of the Compensation, Governance and Nominating Committee will receive an additional annual retainer of $10,000. The Trustees will not receive any additional remuneration for acting as directors on the boards of any of the REIT's subsidiaries. Trustees who are also members of management will not receive any remuneration for their role as a Trustee. Trustees may also be issued equity based incentive compensation awards under the Omnibus Plan and may elect to receive their compensation in the form of deferred trust units.

Trustees will have the option to elect to receive up to 100% of all fees that are otherwise payable in cash (i.e. annual board retainer fee, meeting fees and additional retainers) in the form of deferred trust units. The REIT, on recommendation from the Compensation, Governance and Nominating Committee, will determine whether, and to what extent, the REIT will match up to 100% of the total value of the fees that a Trustee elects to receive in the form of deferred trust units. Accordingly, the number of deferred trust units to be awarded to a Trustee is equal to (i) the value of all fees that the Trustee elects to receive in the form of deferred trust units plus any additional deferred trust units pursuant to the REIT's obligation to match as contemplated by the Omnibus Plan, (ii) divided by the volume weighted average trading price of a Unit on the TSXV for the five trading days prior to the date of the award. Trustees must complete an election form to receive deferred trust units in lieu of the cash component of their fees (i) in the case of an existing Trustee, no later than December 31 of the year preceding the applicable grant year (other than in respect of the 2018 year); and (ii) in the case of a newly appointed or elected Trustee, within 30 days of such appointment or election with respect to compensation paid for services to be performed after such date. For the 2019 fiscal year, Trustees must complete an election form on or prior to the effective date of the Omnibus Plan to receive deferred trust units in respect of compensation for 2019. Elections are irrevocable for the year in respect of which they are made.

Orientation and Continuing Education

New Trustees

When new Trustees are elected to the Board, they can be expected to participate in a comprehensive orientation program. The orientation program will familiarize new Trustees with the REIT's business and operations, including structure, operations, and risks. They will be briefed on the role of the Board, its committees

and the contributions individual trustees are expected to make. New Trustees can also be expected to receive an orientation package containing all Trustees' committee mandates and charters, copies of the REIT's policies and other background information on the REIT's business, operations and risks.

Continuing Education

The REIT's continuing education program for its Trustees will involve the ongoing evaluation by the Compensation, Governance and Nominating Committee of the skills and competencies of existing Trustees. The Board is currently comprised of highly qualified and experienced Trustees with impressive levels of skill and knowledge. Many of the Trustees are seasoned business executives, directors or professionals with considerable experience, including as directors of other significant public companies. The Compensation, Governance and Nominating Committee will continually monitor the composition of the Board and will recommend the adoption of a formal continuing education program should it be determined to be necessary.

As part of the REIT's continuing education program, Trustees will:

- receive a comprehensive electronic package of information prior to each board and committee meeting;
- obtain a quarterly report on the REIT's operations and markets from management;
- receive updates from management and third parties (including advisors) on regulatory developments and trends and issues related to the REIT's business;
- receive reports on the work of board committees following committee meetings;
- complete an annual tour of certain REIT properties; and
- are encouraged to attend industry conferences and events, with the reasonable cost of such events being reimbursed by the REIT.

Board Assessments

The Compensation, Governance and Nominating Committee will conduct an annual assessment of the Board, its committees and of each individual Trustee. The results of the assessments will be communicated to the Board. This process will be used (i) as an assessment tool, (ii) as a component of the regular review process of Board members' participation, and (iii) to assist with the Board's succession planning.

Conflicts of Interest

The Declaration of Trust will contain "conflict of interest" provisions to protect Unitholders without creating undue limitations on the REIT. As the Trustees will be engaged in a wide range of real estate and other activities, the Declaration of Trust will contain provisions, similar to those contained in the CBCA, that will require each Trustee to disclose to the REIT, at the first meeting of Trustees at which a proposed contract or transaction is considered, any interest in a material contract or transaction or proposed material contract or transaction with the REIT or the fact that such person is a director or officer of or otherwise has a material interest in any person who is a party to a material contract or transaction or proposed material contract or transaction with the REIT. If a material contract or transaction or proposed material contract or transaction is one that in the ordinary course would not require approval by the Trustees, a Trustee will be required to disclose in writing to the REIT, or request to have entered into the minutes of meetings of Trustees, the nature and extent of his or her interest forthwith after the Trustee becomes aware of the contract or transaction or proposed contract or transaction. In any case, a Trustee who has made disclosure to the foregoing effect will not be entitled to vote on any resolution to approve the contract or transaction unless the contract or transaction primarily relates to his or her remuneration or is for an indemnity under the provisions of the Declaration of Trust or the purchase or maintenance of liability insurance.

All decisions of the Board will require the approval of a majority of the Trustees present in person or by phone at a meeting of the Board, except for each of the following matters which will also require the approval of a majority of the Independent Trustees:

(a) an acquisition of a property or an investment in a property, whether by co-investment or otherwise, in which any related party of the REIT has any direct or indirect interest, whether as owner, operator or manager;

(b) a material change to any agreement with a related party of the REIT or any renewal, extension or termination thereof or any increase in any fees (including any transaction fees) or distributions payable thereunder;

(c) the entering into of, or the waiver, exercise or enforcement of any rights or remedies under, any agreement entered into by the REIT, or the making, directly or indirectly, of any co-investment, in each case with (i) any Trustee, (ii) any entity directly or indirectly controlled by any Trustee or in which any Trustee holds a significant interest, or (iii) any entity for which any Trustee acts as a director or other similar capacity;

(d) the refinancing, increase or renewal of any indebtedness owed by or to (i) any Trustee, (ii) any entity directly or indirectly controlled by any Trustee or in which any Trustee holds a significant interest, or (iii) any entity for which any Trustee act as a director or other similar capacity;

(e) decisions relating to any claims by or against one or more parties to any agreement with any related party to the REIT; and

(f) the election or appointment of members of the board of directors of US Holdco.

In connection with any transaction involving the REIT, including any transaction which requires the approval of a majority of the Independent Trustees, the Board shall have the authority to retain external legal counsel, consultants or other advisors to assist it in negotiating and completing such transaction without consulting or obtaining the approval of any officer of the REIT.

It is anticipated that the Independent Trustees will hold in-camera meetings, with members of management not in attendance, as part of regulatory scheduled Board meetings. The Chair will conduct the in-camera meetings without the presence of management or the other non-independent Trustees, and in circumstances where the Independent Trustees have determined that the Chair is subject to a potential conflict of interest in connection with his non-independence designation pursuant to NI 58-101 or otherwise, the Lead Trustee shall conduct such in-camera sessions both without the presence of management and without the presence of management or the non-independent Trustees (including the Chair).

Executive Officers

The responsibilities of the management of the REIT will include: (i) providing the Board with information and advice relating to the operation of the REIT's properties, acquisitions and financings; (ii) establishing, at least on an annual basis, investment and operating plans for the ensuing period; (iii) conducting and supervising the due diligence required in connection with proposed acquisitions and completing any acquisitions or dispositions; (iv) maintaining the books and financial records of the REIT; (v) determining and preparing designations, elections and determinations to be made in connection with the income and capital gains of the REIT for tax and accounting purposes; (vi) preparing reports and other information required to be sent to Unitholders and other disclosure documents; (vii) calculating all distributions; (viii) communicating with Unitholders and other persons, including investment dealers, lenders and professionals; and (ix) administering or supervising the administration, on behalf of the Board, of the payment of distributions by the REIT.

The Board will adopt a written position description and mandate for the Chief Executive Officer which will set out the key responsibilities of the Chief Executive Officer. The primary functions of the Chief Executive Officer will be to lead management of the business and affairs of the REIT, to lead the implementation of the resolutions

and the policies of the Board, to supervise day to day management and to communicate with Unitholders and regulators. The Chief Executive Officer mandate will be considered by the Board for approval annually.

The following table sets forth the name, municipality of residence and positions held with the REIT of each named executive officer of the REIT on Closing:

Name and Municipality of Residence	Office with the REIT
JAMES DONDERO .... Dallas, Texas, USA	Chief Executive Officer
BRIAN MITTS.. Dallas, Texas, USA	Chief Financial Officer, Executive Vice President-Finance, Treasurer and Corporate Secretary
MATTHEW MCGRANER.. Dallas, Texas, USA	Chief Investment Officer
JESSE BLAIR III... Dallas, Texas, USA	Executive Vice President, Head of Lodging
PAUL RICHARDS.. Dallas, Texas, USA	Vice President, Asset Management

Additional biographical information regarding the named executive officers of the REIT, including a description of each individual's principal occupation within the past five years, is provided below.

James Dondero. Mr. Dondero serves as the Chief Executive Officer of the REIT. He is the President of Highland Capital Management, L.P. which he co-founded in 1993 and NexPoint Advisors, LP, which he founded in 2012. Mr. Dondero has over 30 years of experience investing in credit and equity markets and has helped pioneer credit asset classes with portfolio management experience ranging in several asset classes, including real estate debt & equity. Mr. Dondero received a BS in Commerce (Accounting and Finance) from the University of Virginia, and is a Certified Managerial Accountant and a Chartered Financial Analyst.

Brian Mitts. Mr. Mitts serves as the Chief Financial Officer, Executive Vice President-Finance, Treasurer and Corporate Secretary of the REIT. Mr. Mitts has over 25 years of accounting, finance and real estate experience and also currently serves as the CFO and member of the investment committee for NexPoint Residential Trust Inc. and other entities managed by affiliates of the Advisor. Mr. Mitts received an MPA and a BBA from the University of Texas at Austin. Mr. Mitts is a licensed Certified Public Accountant.

Matthew McGraner. Mr. McGraner serves as Chief Investment Officer and Executive Vice President of the REIT and is a Managing Director at Highland Capital Management, L.P., and has led $5.3 billion of real estate investments for NexPoint since 2013. With over 12 years of real estate, private equity and legal experience, his primary responsibilities are to lead the strategic direction and operations of the real estate platform at Highland Capital Management, L.P., as well as source and execute investments, manage risk and develop potential business opportunities. Mr. McGraner received a BS from Vanderbilt University and a JD from Washington University School of Law.

Jesse Blair III. Mr. Blair has led, arranged, and been directly involved in over $2.5 billion of capital markets and hospitality specific acquisitions and development. Mr. Blair led the strategic expansion and diversification of an operating platform acquired from Goldman Sachs, which oversaw more than 200 hospitality assets, and annually oversaw $100 million of renovation capital. The platform was successfully merged to help to create what is today the largest independent operating platform in North America. Mr. Blair received a BBA and an MBA from University of Louisiana Monroe.

Paul Richards. Mr. Richards is a Director at NexPoint Real Estate Advisors, L.P. His primary responsibilities are to research and conduct due diligence on new investment ideas, perform valuation and benchmark analysis, monitor and manage investments in the existing real estate portfolio, and provide industry support for Highland's Real Estate Team. He was previously a Product Strategy Associate at Highland Capital Management, L.P., an affiliate of NexPoint Real Estate Advisors, L.P., where he was responsible for evaluating and

optimizing the registered product lineup. He also held positions at Highland Capital as Senior Fund Analyst and Financial Analyst. Prior to joining Highland Capital in January 2014, Mr. Richards was employed with Deloitte, LLP's state and local tax practice where he served as a Tax Consultant specializing in state strategic tax reviews, voluntary disclosure agreements, state tax exposure research, and overall state tax compliance. Mr. Richards received an MS in Finance and a BS in Accounting, *magna cum laude*, from Texas A&M University. He is a licensed Certified Public Accountant in the state of Texas.

Messrs. Dondero, Mitts and McGraner will provide general oversight for the REIT. The Manager will manage the day-to-day operations of the hotels and asset management functions with general oversight by Messrs. Blair and Richards. As executives of the REIT, Messrs. Dondero, Mitts and McGraner will have little involvement in day-to-day activities of the REIT. Their role will primarily be to oversee the acquisition, disposition and renovation processes, develop strategic initiatives in conjunction with the Board and the Advisor and monitor progress toward the REIT's strategic goals.

Trustees' and Officers' Liability Insurance

The REIT intends to obtain trustees' and officers' liability insurance policies, which cover indemnification of Trustees and officers of the REIT in certain circumstances, including coverage for the REIT and its Trustees and officers in relation to the prospectus. In addition, the REIT will enter into indemnification agreements with each of its Trustees and officers for liabilities and costs in respect of any action or suit against them in connection with the execution of their duties, subject to customary limitations prescribed by applicable law.

Ethical Business Conduct

The REIT will adopt a written code of conduct (the "**Code of Conduct**") that applies to all Trustees, officers, and management of the REIT and its subsidiaries. The objective of the Code of Conduct is to provide guidelines for maintaining the integrity, reputation, honesty, objectivity and impartiality of the REIT and its subsidiaries. The Code of Conduct will address conflicts of interest, protecting the REIT's assets, confidentiality, fair dealing with security holders, competitors and employees, insider trading, compliance with laws and reporting any illegal or unethical behaviour. As part of the Code of Conduct, any person subject to the Code of Conduct will be required to avoid or fully disclose interests or relationships that are harmful or detrimental to the REIT's best interests or that may give rise to real, potential or the appearance of conflicts of interest. The Board will have the ultimate responsibility for the stewardship of the Code of Conduct. The Code of Conduct will also be filed with the Canadian securities regulatory authorities on the SEDAR website at www.sedar.com.

Diversity

The REIT is committed to fostering an open and inclusive workplace culture. The REIT's Code of Conduct will underscore a commitment to diversity and recognizes it as an important asset. The Code of Conduct explicitly states that the REIT and its affiliates are firmly committed to providing equal opportunity in all aspects of employment.

The Compensation, Governance and Nominating Committee values and considers diversity as part of its overall annual evaluation of Trustee nominees for election or re-election, as well as candidates for management positions. Gender and geography (subject to the limitations set forth in the Declaration of Trust) are of particular importance to the REIT in ensuring diversity within the Board and management. Recommendations concerning Trustee nominees are, foremost, based on merit and performance, but diversity is taken into consideration, as it is beneficial that a diversity of backgrounds, views and experiences be present at the Board and management levels.

As of Closing, there will be no female Trustees on the Board and no female executive officers of the REIT or any of its major subsidiaries. The REIT does not currently have a diversity policy in place, but will consider implementing one following Closing. When seeking and considering new Trustees and executive officers, the Compensation, Governance and Nominating Committee will consider a number of factors, including gender, ethnic and geographic diversity, as well as age, business experience, professional expertise, personal skills and perspectives. The REIT has not specified a numerical target for women Trustees on the Board, nor will the REIT maintain a specific numerical target in making executive officer appoints. However, the level of representation of

women will be considered by the REIT, the Board and the Compensation, Governance and Nominating Committee in the identification of prospective Trustees and executive officers.

MANAGEMENT AND FRANCHISE AGREEMENTS

Advisory Agreement

Pursuant to an amended and restated advisory agreement (the "**Advisory Agreement**"), subject to the overall supervision of the Board and the board of managers of NHI, as applicable, the Advisor will manage the day-to-day operations of, and provide investment management services to, the REIT and NHI. Under the terms of the Advisory Agreement, the Advisor will:

- find, present and recommend to the Board investment opportunities consistent with the REIT's investment policies and objectives;
- execute investments on behalf of the REIT and NHI, provided that the Advisor shall obtain the prior approval of (i) the Board and (ii) any particular committee of the Board or the board of managers of NHI specified by the Board, in connection with any investment for which the cash and/or equity consideration paid by the REIT or any subsidiary of the REIT is equal to or exceeds the lesser of (a) 10% of the aggregate of the book value of the equity of the REIT plus the value of the Class B OP Units, each as reflected on the most recent statement of financial position of the REIT or (b) $25,000,000;
- identify, evaluate, negotiate and recommend to the Board the structure of the REIT's investments (including performing due diligence);
- evaluate and negotiate the terms of dispositions within the discretionary limits and authority granted by the Board;
- review and analyze financial information for each underlying property of the REIT's portfolio;
- within the discretionary limits and authority as granted by the Board, identify, evaluate, negotiate and recommend to the Board financing and funding opportunities with banks or other lenders;
- subject to the overall supervision of the Board, manage the REIT's capital improvement program including determining when to execute the program at each property;
- close, monitor and administer the investments made by the REIT;
- maintain the accounting and financial records of the REIT and its subsidiaries (including NHI) and file required information with the Ontario Securities Commission upon approval of the Board;
- perform investor-relations functions; and
- manage Canadian and U.S. regulatory compliance, including making all required filings and preparing all documents, data and analysis required for regulatory filings, including all documents necessary for continuous disclosure requirements pursuant to applicable stock exchange rules and securities laws.

As consideration for the Advisor's services, the REIT will pay to the Advisor an advisory fee at an annualized rate of 1.00% of REIT Asset Value, less certain fee waivers and adjustments, resulting in an advisory fee on the Initial Portfolio of approximately 0.58% of REIT Asset Value at the time of Listing, paid monthly (the "**Advisory Fee**"), together with reimbursement of certain general and administrative expenses. Additionally, an omnibus equity incentive plan (the "**Omnibus Plan**") will be put in place pursuant to which restricted equity units, performance-based awards, deferred trust units, units of the OP designated as "Profits LTIP Units" and other awards convertible, exercisable or exchangeable into or otherwise based on the Units may be granted to Trustees, officers of the REIT and employees of the Advisor. The Omnibus Plan implemented and effective on the date of the listing of

the Units on the TSXV (the "**Listing**") will reserve a maximum of 3,026,155 Units for issuance, representing 20% of the issued and outstanding Units of the REIT following completion of the Listing. Grants under the Omnibus Plan may be awarded by Independent Trustees of the Board at their discretion.

Pursuant to the Advisory Agreement, and subject to certain exceptions including expenses associated with a future debt or equity raise or unusual expenses related to litigation or other unusual activity, the REIT shall not incur annual general and administrative expenses (inclusive of the Advisory Fee and other compensation expenses paid to the Advisor and including compensation from Omnibus Plan grants) in excess of 1.5% of REIT Asset Value for any calendar year or portion thereof, provided that this cap will not apply to legal, accounting, financial, due diligence and other service fees incurred in connection with a future debt or equity raise, extraordinary litigation, mergers and acquisitions and other events outside the REIT's or NHI's ordinary course of business or any out-of-pocket acquisition or due diligence expenses incurred in connection with the acquisition or disposition of real estate assets (the "**Total G&A Cap**") and the Advisor shall backstop and shall be liable for any general and administrative expenses in excess of such Total G&A Cap.

The Advisory Agreement will have an initial term of two years. Following the initial term, the Advisory Agreement will continue in full force and effect, subject to early termination, so long as such continuance is approved at least annually by (i) the board of managers of NHI, and (ii) either (a) the Board or (b) a vote of the Unitholders. The REIT will have the right to terminate the Advisory Agreement on 60 days' written notice without payment of a termination fee in the case of a breach of the Advisory Agreement by the Advisor; provided that no such notice shall be required in the event of fraud, misappropriation of funds, gross negligence, general assignment for the benefit of creditors or bankruptcy of the Advisor. The REIT will be permitted to terminate the Advisory Agreement without cause or due to a change in control of the REIT with 180 days' written notice to the Advisor. In the event of termination (other than termination for cause) or non-renewal of the Advisory Agreement (including if the services provided pursuant to the Advisory Agreement are internalized), the Advisor will be entitled to compensation equal to three times the Advisory Fee paid to the Advisor over the last 12 months subject to a cap at 7.5% of the combined equity value of the REIT and the OP on a consolidated basis, as of the date the Advisory Agreement is terminated, calculated by multiplying the aggregate number of outstanding Units and Class B OP Units by the volume weighted average price of Units over the prior 30 day period of the Units on the TSXV, provided, however, if the Advisory Agreement is terminated prior to the one year anniversary of the date of the Advisory Agreement, the Advisory Fee will be annualized for such 12-month period based on such Advisory Fee earned by the Advisor during such period.

The Advisor will have the right to terminate the Advisory Agreement upon default or the general assignment for the benefit of creditors or bankruptcy by the REIT. Principals of the Advisor and its affiliates and subsidiaries, (collectively, "**NexPoint**"), as applicable, shall grant to the REIT and its subsidiaries the right to continue the use of the "NexPoint" name and logo and related marks and designs under a non-exclusive, royalty-free license agreement entered into on or prior to Closing. NexPoint will be permitted to terminate the license at any time on 180 days' written notice following any date on which the Advisor ceases to be the Advisor for the REIT.

Hotel Management Agreements

Because the REIT and NHI are prohibited from operating the hotel properties pursuant to certain U.S. tax laws relating to its qualification as a real estate investment trust, the OP and its subsidiaries will lease the hotel properties to the TRS Entities. Moreover, such U.S. tax laws require all of the REIT's hotel properties to be operated pursuant to hotel management agreements (the "**Hotel Management Agreements**") between the Manager, a professional third-party hotel management company, and the TRS Entities that lease the property from the OP and its subsidiaries. The Hotel Management Agreement will require the TRS Entities to pay a base fee to the Manager calculated as a percentage of hotel revenues generated by the hotel operations. In addition, the Hotel Management Agreements will on occasion provide that the Manager can earn an incentive fee for EBITDA, gross operating profit or an owner's priority return over certain thresholds.

The terms of the REIT's Hotel Management Agreements initially range from one to five years with various extension and termination provisions. The Hotel Management Agreements for the DoubleTree hotels in the Initial Portfolio were entered into in May 2018 and may be terminated on 60 days' notice by the hotel owner without payment of a termination fee. The Hotel Management Agreements for the Homewood Suites hotels in the Initial Portfolio were entered into in May 2017 and may be terminated without cause upon 60 days' notice after June 1,

2019 by the hotel owner without payment of a termination fee. The Hotel Management Agreement for Hilton Garden Inn Dallas Market Center was entered into in December 2014 and may be terminated on 90 days' notice by the hotel owner without payment of a termination fee. The Hotel Management Agreement for Marriott St. Petersburg was entered into in September 2018 and may be terminated on 60 days' notice by the hotel owner after April 30th, 2019 without payment of a termination fee. The Hotel Management Agreement for Holiday Inn Express Nashville was entered into in January 2019 and may be terminated on 60 days' notice by the hotel owner after January 2020 without payment of a termination fee. Termination fees under the Hotel Management Agreements are generally equal to 2.5% of annual gross revenue generated by the applicable hotel.

The TRS Entities may employ hotel managers in the future other than the Manager. Neither the REIT nor any of its affiliates has any ownership or economic interest in the Manager engaged by the TRS Entities. If in the future, the REIT or any of its affiliates have an ownership stake in a hotel manager engaged by the TRS Entities, the ownership will be limited such that the hotel manager still qualifies as an eligible independent contractor as defined by the Code, allowing the REIT (and NHI) to maintain its ability to qualify as a real estate investment trust for federal U.S. tax purposes.

Franchise Agreements

All of the REIT's hotel properties will operate under franchise agreements with Marriott, Hilton or InterContinental Hotels Group brands. The REIT believes that the public's perception of the quality associated with a branded hotel is an important feature in its attractiveness to guests. Franchisors provide a variety of benefits to franchisees, including centralized reservation systems, national advertising, marketing programs and publicity designed to increase brand awareness, loyalty programs, training of personnel and maintenance of operational quality at hotels across the brand system.

The terms of the REIT's franchise agreements initially range from 10 to 20 years with various extension provisions. The expiry dates of the franchise agreements range from December 2029 to December 2039, subject to earlier extension. The Each franchisor receives franchise fees ranging from 2% to 6% of each hotel property's room revenue, and some agreements require that the REIT pay marketing fees of up to 4.5% of room revenue. In addition, some of these franchise agreements require that the REIT deposit into a reserve fund for capital expenditures up to 4% of the hotel property's gross or room revenues depending on the franchisor to ensure the REIT complies with the franchisors' standards and requirements. The REIT also pays fees to its franchisors for services such as reservation and information systems.

The previous owner of the Marriott St. Petersburg property was in default of certain covenants in the franchise agreement in respect of such property. Upon the acquisition of Marriott St. Petersburg, the current owner of the property executed a new franchise agreement with the franchisor. The previous franchise agreement is no longer in force or effect and the REIT does not have any exposure to liability under the previous franchise agreement. Each of the franchisees is in material compliance with its respective franchise agreement.

EXECUTIVE COMPENSATION

Compensation Discussion and Analysis

The following discussion describes the significant elements of the REIT's expected executive compensation program. The REIT's senior management team will consist of individuals employed by the Advisor. The Advisor will provide advisory services to the REIT pursuant to the Advisory Agreement, for which the REIT will pay the Advisor certain fees. See "Management of the REIT – Advisory Agreement". Any variability in cash compensation to be paid by the Advisor to the named executive officers employed by the Advisor will not impact the REIT's financial obligations.

The Chief Executive Officer, Chief Financial Officer and Chief Investment Officer are referred to herein as the "named executive officers" in accordance with applicable Canadian securities laws. The officers named in the "Summary Compensation Table" below are employees of the Advisor (or an affiliate thereof) and the Advisor will have sole responsibility for determining the compensation of the named executive officers, other than with respect to the granting of Unit-based compensation under the initial Omnibus Plan and subsequent long term incentive plans, which will be the responsibility of the Independent Trustees of the Board. The REIT will not have any employment

agreements with members of senior management and will not pay any cash compensation to any individuals serving as officers. Rather, as employees of the Advisor (or an affiliate thereof), those individuals will be compensated by the Advisor (through its relevant affiliates). A portion of the compensation paid to those employees of the Advisor will be attributable to time spent on the activities of the REIT. The REIT will pay the Advisor certain fees in connection with the Advisory Agreement but the REIT will not bear the cost of any direct compensation paid to any employees of the Advisor.

Principal Elements of Compensation

The following discussion supplements the more detailed information concerning executive compensation that appears in the "Summary Compensation Table" and the accompanying narrative that follows:

The compensation of the named executive officers will include three principal elements: (a) base salary which will be paid by the Advisor; (b) discretionary cash bonuses which will be paid by the Advisor; and (c) long-term incentives, which may consist of restricted equity units, performance-based awards, deferred trust units, options, Profits LTIP Units or other equity-based incentive compensation awards granted under the Omnibus Plan, all as described and defined below.

Base Salaries

Base salaries are intended to provide an appropriate level of fixed compensation that will assist in employee retention and recruitment. Base salaries will be determined on an individual basis, taking into consideration the past, current and potential contribution to the REIT's success, the position and responsibilities of the named executive officers and competitive industry pay practices for other real estate investment trusts and companies of comparable size. Base salaries will be paid by the Advisor or its affiliates, not the REIT.

Annual Cash Bonuses

Annual cash bonuses are discretionary and are not awarded pursuant to a formal incentive plan. Annual cash bonuses will be awarded based on qualitative and quantitative performance standards and reward the performance of the named executive officer individually. The determination of the REIT's performance may vary from year to year depending on economic conditions and conditions in the real estate industry, and may be based on measures such as Unit price performance, the meeting of financial targets against budget (such as Core FFO), the meeting of acquisition objectives and balance sheet performance. Individual performance factors vary, and may include completion of specific projects or transactions and the execution of day-to-day management responsibilities. Annual cash bonuses will be paid by the Advisor or its affiliates, not the REIT.

Long-Term Compensation Plans

Grants of equity-based incentive awards under the Omnibus Plan (which may include restricted equity units, performance-based awards, deferred trust units, Profits LTIP Units and other awards convertible, exercisable or exchangeable into or otherwise based on Units) may be used to align the interests of the named executive officers more closely with the interests of the Unitholders, since they are tied to the REIT's financial and Unit trading performance and vest or accrue over a number of years. The Board, acting on the recommendation of the Compensation, Governance and Nominating Committee, may designate individuals eligible to receive grants of equity-based incentive awards. In determining grants of such awards, an individual's performance and contributions to the REIT's success, relative position, tenure and past grants will be taken into consideration. No awards or grants will be made in connection with Closing. It is anticipated that the Compensation, Governance and Nominating Committee and the Board will meet following Closing to consider the award of equity-based incentive grants under the Omnibus Plan to the named executive officers. No discussions or determinations have taken place regarding the potential quantum or terms of any such grants or awards as of the date of this prospectus.

Incentive Compensation Plans

Omnibus Equity Incentive Plan

On Listing, the REIT will adopt the Omnibus Plan. All equity and equity-based awards to be made or granted, including future grants to be made to named executive officers of the REIT, will be made under the Omnibus Plan.

Administration

The Omnibus Plan will be administered by the Compensation, Governance and Nominating Committee. The Compensation, Governance and Nominating Committee will have the authority to, among other things, determine eligibility for awards to be granted, determine, modify or waive the type or types of, form of settlement (whether in cash, Units or otherwise) of, and terms and conditions of, awards, to accelerate the vesting or exercisability of awards, to adopt rules, guidelines and practices governing the operation of the Omnibus Plan as the Compensation, Governance and Nominating Committee deems advisable, to interpret the terms and provisions of the Omnibus Plan and any award agreement, and to otherwise do all things necessary or appropriate to carry out the purposes of the Omnibus Plan. The Compensation, Governance and Nominating Committee's decisions with respect to the Omnibus Plan and any award under the Omnibus Plan are binding upon all persons.

Eligibility

Key officers and any employees of the REIT, independent Trustees and key employees of the Advisor and its respective affiliates who, in the opinion of the Compensation, Governance and Nominating Committee, have dedicated significant time and attention to the affairs and business of the REIT will be eligible to participate in the Omnibus Plan. It is the current expectation of the REIT that Trustees will be issued deferred trust units (see "— Remuneration of Trustees") and other eligible persons will be issued restricted equity units, performance-based awards or other awards convertible, exercisable or exchangeable into or otherwise based on Units (see "— Principal Elements of Compensation – Long-Term Compensation Plans").

Authorized Units

Subject to adjustment, as described below, the maximum number of Units that will be available for issuance under the Omnibus Plan is 3,026,155, representing 20% of the issued and outstanding Units of the REIT, or such greater number as may be determined by the Board and approved by the Unitholders and, if required, by any relevant stock exchange or other regulatory authority; all of which may be delivered in satisfaction of restricted equity units, performance-based awards, deferred trust units, Profits LTIP Units or any other applicable award, awarded under the Omnibus Plan. Units issued under the Omnibus Plan may be Units held in treasury or authorized but unissued Units of the REIT not reserved for any other purpose. Units subject to an award that for any reason expires without having been exercised, is cancelled, forfeited or terminated or otherwise is settled without the issuance of Units, will again be available for grant under the Omnibus Plan.

Types of Awards

The Omnibus Plan provides for awards of restricted equity units, performance-based awards, deferred trust units, Profits LTIP Units and other awards convertible, exercisable or exchangeable into or otherwise based on the Units. Eligibility distribution equivalents may also be provided in certain circumstances in connection with an award under the Omnibus Plan.

- ***Restricted Equity Units***. A restricted equity unit award is an award denominated in notional units that entitles the participant to receive Units or cash measured by the value of the Units in the future. The delivery of Units or cash under a restricted equity unit award may be subject to the satisfaction of performance conditions or other vesting conditions.

- ***Performance Awards***. A performance award is an award the vesting, settlement or exercisability of which is subject to specified performance criteria.

- ***Deferred Trust Units***. A deferred trust unit is an award of a notional investment in the Units reflected on an unfunded, book-entry account maintained by the REIT. Deferred trust units may be subject to performance conditions or other vesting conditions. Deferred trust units may be settled in Units, cash measured by the value of a Unit, or a combination thereof.

- ***Profits LTIP Units***. A Profits LTIP Unit is an award of a membership unit of the OP which qualifies as a profits interest for U.S. federal income tax purposes. Subject to certain exceptions set forth in the LLC Agreement, Profits LTIP Units are treated as Class B OP Units, with all of the rights, privileges and obligations attendant thereto, except the right to vote in respect of matters put before members of the OP.

- ***Other Awards***. Other awards are awards that are convertible into, exercisable or exchangeable for, or otherwise based on Units.

Vesting; Termination of Employment or Service

The Compensation, Governance and Nominating Committee will have the authority to determine the vesting schedule applicable to each award, and accelerate the vesting or exercisability of any award.

Change in Control

In the event of certain consolidations, mergers or similar transactions of the REIT, certain sales or other disposition of the REIT's Units, certain liquidation events or sales or dispositions of all or substantially all of the REIT's assets, the Compensation, Governance and Nominating Committee may provide for the conversion, exercise or exchange of outstanding awards for new awards, or, if no equivalent awards are available, for the accelerated vesting or delivery of Units under awards, or for a cash-out of outstanding awards.

Adjustments

In the event of an extraordinary distribution, securities based distribution, stock split or combination (including a reverse stock split) or any recapitalization, business combination, merger, consolidation, spin-off, exchange of Units, liquidation or dissolution of the REIT or other similar transaction affecting the Units, the Board will make adjustments as it determines in its sole discretion to the number and kind of Units available for issuance under the Omnibus Plan, the annual per-participant Unit limits, the number, class, exercise price (or base value), performance objectives applicable to outstanding awards and any other terms of outstanding awards affected by such transaction. The Compensation, Governance and Nominating Committee may also make adjustments of the type described in the preceding sentence to take into account distributions and events other than those listed above if it determines that adjustments are appropriate to avoid distortion in the operation of the Omnibus Plan.

Restrictions on Grants of Awards

The following restrictions will be placed on grants of awards under the Omnibus Plan:

(a) the aggregate number of Units issuable to insiders shall not exceed 10% of the REIT's total issued and outstanding Units;

(b) the aggregate number of Units issuable to insiders within any 12-month period shall not exceed 10% of the REIT's total issued and outstanding Units;

(c) the aggregate number of Units reserved for issuance pursuant to awards granted to any one person (and any companies wholly owned by that person) in a 12-month period shall not exceed 5% of the REIT's total issued and outstanding Units calculated on the date an award is granted to the person (unless the approval of disinterested unitholders is obtained);

(d) the aggregate number of Units reserved for issuance pursuant to awards granted to any one consultant within any 12-month period shall not exceed 2% of the issued and outstanding Units calculated on the date an award is granted to the Person;

(e) the aggregate number of Units reserved for issuance pursuant to awards granted within any 12-month period to all persons retained to provide investor relations activities must not exceed 2% of the issued and outstanding Units calculated on the date an award is granted to the Person, provided that no awards other than options shall be issuable to any person retained to provide investor relations activities;

(f) the aggregate fair value on the date of grant of all options granted to any one non-employee Trustee shall not exceed $200,000 per annum; and

(g) the aggregate fair market value on the date of grant of all awards granted to any one non-employee Trustee shall not exceed $200,000 per annum; provided that such limits shall not apply to (A) awards taken in lieu of any Trustee fees, and (B) a one-time initial grant to a Trustee upon such Trustee joining the Board.

Termination and Amendments

The Compensation, Governance and Nominating Committee may amend the Omnibus Plan or outstanding awards, or terminate the Omnibus Plan as to future grants of awards, except that the Compensation, Governance and Nominating Committee will not be able to alter the terms of an award if it would affect materially and adversely a participant's rights under the award without the participant's consent. Unitholder approval will be required for any amendment to the Omnibus Plan that increases the number of Units available for issuance under the Omnibus Plan or the individual award limitations specified therein (except with respect to certain adjustments as described above), modifies the class of persons eligible for participation in the Omnibus Plan, extends the term of any award granted beyond its original expiration date, permits an award to be exercisable beyond 10 years from its grant date (except where an expiration date would have fallen within a blackout period of the REIT), permits awards to be transferred other than for normal estate settlement purposes, or deletes or reduces the range of amendments which require approval of the Unitholders, or to the extent required by law.

Compensation Risk

The Compensation, Governance and Nominating Committee will consider the implications of the risks associated with the REIT's compensation policies and practices as part of its responsibility to ensure that the compensation for the Trustees and the Chief Executive Officer, Chief Financial Officer and Chief Investment Officer of the REIT align the interests of the Trustees and officers with Unitholders and the REIT as a whole. The REIT's insider trading policy will prohibit all officers and Trustees of the REIT from selling "short" or selling "call options" on any of the REIT's securities and from purchasing financial instruments, such as prepaid variable forward contracts, equity swaps, collars or units of exchange funds that are designed to hedge or offset a decrease in the market value of equity securities granted to such executive officers and Trustees as compensation or held directly or indirectly by such person.

Summary Compensation Table Expected for Fiscal 2019

The following table sets out information concerning the expected compensation to be paid by the Advisor to the named executive officers in fiscal 2018 in respect of the services provided by such officers to the REIT:

Name and principal position	Year	Salary[(1)]	Bonus[(2)]	Unit-based awards (options or deferred trust units)[(3)]	All other compensation	Total compensation
James Dondero, CEO.............	2019	$100,000	$100,000	$0	$0	$200,000
Brian Mitts, CFO	2019	$75,000	$75,000	$0	$0	$150,000
Matthew McGraner, CIO........	2019	$150,000	$150,000	$0	$0	$300,000
Jesse Blair III, Executive Vice President, Head of Lodging....................	2019	$150,000	$200,000	$0	$0	$350,000
Paul Richards, Vice President, Asset Management	2019	$50,000	$75,000	$0	$0	$125,000

Notes:

(1) All compensation for James Dondero (Chief Executive Officer), Brian Mitts (Chief Financial Officer), Matthew McGraner (Chief Investment Officer), Jesse Blair III (Executive Vice President, Head of Lodging) and Paul Richards (Vice President, Asset Management) will be paid by the Advisor or its respective affiliates, and there is no reimbursement by the REIT for such compensation. Messrs. Dondero, Mitts, McGraner, Blair and Richards will act in a variety of capacities for the Advisor and their respective affiliates, and the REIT, and accordingly, the total compensation that each such individual is expected to receive from the Advisor is not disclosed in this table, since total compensation will not be solely attributable to the services that he will provide to the REIT. The allocation of the total compensation disclosed in this table was determined by the Advisor solely for the purposes of this table, based on the time expected to be spent by each such individual in connection with REIT-related services from the time the REIT was formed to the end of fiscal 2018. The portion of total compensation expected to be attributable to the REIT in respect of other employees or senior management of the Advisor, Manager and their respective affiliates, does not meet the definition of named executive officer under applicable Canadian securities laws.

(2) Bonuses are awarded by the Advisor under the bonus program then in effect. The bonus program is discretionary and may vary materially from the estimated amount shown in this table.

(3) Determination of any grants of performance-based awards, restricted equity units, deferred trust units or other Unit-based incentive compensation pursuant to the Omnibus Plan will be made at the discretion of the Trustees following Closing and has not been determined as of the date of this prospectus.

INDEBTEDNESS OF TRUSTEES AND EXECUTIVE OFFICERS

None of the Trustees, executive officers, employees, former executive officers or former employees of the REIT or any of its subsidiaries, and none of their respective associates, is or has within 30 days before the date of this prospectus or at any time since the beginning of the most recently completed financial year been indebted to the REIT or any of its subsidiaries or another entity whose indebtedness is the subject of a guarantee, support agreement, letter of credit or other similar agreement or understanding provided by the REIT or any of its subsidiaries.

CAPITALIZATION OF THE REIT

The following table sets forth the pro forma consolidated capitalization of the REIT as at February 28, 2019, (net of costs relating to the Contributions), giving effect to the Closing including the completion of the transactions described under “The Contribution of the Initial Portfolio” and “Debt Strategy and Indebtedness”. The table should be read in conjunction with the *pro forma* financial statements and notes of the REIT thereto contained in this prospectus. See “Index to the Financial Statements”.

	As at December 31, 2018[1][2]	As at December 31, 2019 after giving effect to the Offering and the transactions contemplated under "The Contribution of the Initial Portfolio" (net of costs relating to the Offering)[2]
Indebtedness		
Notes payable and other borrowings, net	-	$180,550
Mezzanine debt, net	-	71,574
Class B redeemable units of OP	-	67,881
Unitholders' Equity		
Units *(Authorized – unlimited; Issued - 15,130,777)*	-	$40,145
Total Capitalization	-	$360,150

Notes:

(1) The REIT was initially settled on December 12, 2018 with $15.00 in cash.

(2) Amounts expressed in thousands of US dollars.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Presentation

The following Management's Discussion and Analysis of Financial Condition and Results of Operations ("**MD&A**") discusses the financial condition and results of operations and changes thereto of the eleven hospitality properties located throughout the United States (the "**Initial Portfolio**") and owned by NexPoint Hospitality Trust (the "**REIT**") after completion of the series of contributions and acquisition contemplated in this prospectus, including the listing of Units on the TSX Venture Exchange (the "**Listing**"). The MD&A should be read in conjunction with the financial statements included in this prospectus. All amounts are stated in thousands of U.S. dollars except per unit amounts, unless otherwise noted. Financial data has been prepared in accordance with IFRS and its interpretations adopted by the International Accounting Standards Board (the "**IASB**"). This MD&A is dated as of, and has been prepared based on information available to management as of, the date of this prospectus. After Listing, the REIT will indirectly own all of the properties in the Initial Portfolio. This prospectus includes separate historical financial statements of each component entity comprising the Initial Portfolio.

The objective of this discussion is to provide Unitholders of the REIT with an analysis of the historical assets, liabilities, revenues and expenses of the Initial Portfolio for the periods referenced. Less emphasis has been placed on analyzing the impact of income taxes and the historical capital structure of the Initial Portfolio, as the historical financial statements contained in this prospectus do not reflect the REIT's proposed capital structure and income tax status, which will be significantly different. The unaudited "pro forma" condensed consolidated financial statements of the REIT contained in this prospectus reflect the impact of financial leverage, real estate investment trust tax status and proposed capital structure on a going forward basis.

Cautionary Note Regarding Forward-Looking Information

Some of the information contained in this MD&A contains forward-looking information. See "Forward-Looking Statements".

Non-IFRS Measures

This MD&A contains certain non-IFRS financial measures, including Funds from Operations ("**FFO**"), Core Funds from Operations ("**CFFO**"), Net Operating Income ("**NOI**") and Net Operating Income Margin ("**NOI Margin**"). See "Non-IFRS Measures".

The Initial Portfolio for the Years Ended December 31, 2017, 2016 and 2015 or for the Years Ended December 31, 2017 and 2016

Overview

The following discusses the financial condition and results of operations and changes thereto of the historical information relating to each component of the Initial Portfolio and should be read in conjunction with the financial statements (collectively, the "**Financials**") of each component entity comprising the Initial Portfolio contained in this prospectus.

This prospectus contains separate financial statements for each component of the Initial Portfolio. Accordingly, this MD&A for the Initial Portfolio has been presented on a separate basis by component. The MD&A is comprised of the following properties and entities: Hilton Garden Inn Dallas Market Center property (the "**HGI Property**"), presented on a consolidated basis as 2325 Stemmons Hotel Partners, LLC; the Doubletree Beaverton property, the Doubletree Bend property, the Doubletree Olympia property, the Doubletree Tigard property, and the Doubletree Vancouver property (collectively, the "**DT Portfolio**"), presented on a consolidated basis as the DT Portfolio; NREO NW Hospitality, LLC, which acquired the DT Portfolio from BRE GM Hotel JV Holdings, LLC on May 3, 2018; the Homewood Suites Addison property, the Homewood Suites Las Colinas property and the Homewood Suites Plano property (the "**HWS Portfolio**"), presented on a consolidated basis as HCBH 11611

Ferguson, LLC; the Marriott St. Petersburg property (the "**St. Pete Property**"), presented as Pallas, LLC; and the Holiday Inn Express Nashville (the "**Nashville Property**"), presented on a consolidated basis as Birchmont H.I. Nashville Partners, LLC.

The REIT is a newly-created, unincorporated, open-ended real estate investment trust established under the laws of the Province of Ontario. The REIT has applied to have the Units traded on the TSX Venture Exchange under the symbol "NHT". NexPoint Real Estate Advisors VI, L.P. (the "**Advisor**") will manage the REIT. The REIT, indirectly through NHT Holdings, LLC ("**NHI**"), will own its properties through NHI's subsidiary, NHT Operating Partnership, LLC (the "**OP**"). In order for NHI, and thus the REIT, to be eligible to elect to be taxed as a real estate investment trust under the U.S. Internal Revenue Code of 1986, as amended (the "**Code**"), the properties will be leased to taxable subsidiaries of the REIT (the "**TRS Entities**"), which will in turn contract with eligible independent contractors (as defined in the Code) to manage the day-to-day business operations of the hotels. The property managers for the properties in the Initial Portfolio are affiliates of AimBridge Hospitality Holdings, LLC (collectively, the "**Manager**").

Through various subsidiary entities, the REIT will directly and indirectly own eleven asset-specific limited liability entities, each owning a single hospitality property that comprises the Initial Portfolio. The Initial Portfolio consists of eleven hospitality properties containing 1,607 rooms. The Initial Portfolio will generate income primarily from rental payments received in connection with hospitality properties and related income. The Initial Portfolio contains 1,012 rooms that have been renovated recently or are currently undergoing renovation, which management believes will improve the condition of the individual properties and increase rental revenue and related hospitality income over the next three years.

The following sections present information and analysis from the financial statements from each component of the Initial Portfolio for the periods referenced, which include: the Financials of 2325 Stemmons Hotel Partners, LLC and Birchmont H.I. Nashville Partners LLC consist of the statements of financial position as of December 31, 2017, 2016 and 2015 and January 1, 2015, along with the statements of net income (loss) and comprehensive income (loss), statements of members' equity deficit and statements of cash flows for the years ended December 31, 2017, 2016 and 2015, respectively.

The Financials of the DT Portfolio and Pallas, LLC consist of the statements of financial position as of December 31, 2017, 2016 and January 1, 2016, along with the statements of comprehensive income, statements of members' equity and statements of cash flows for the years ended December 31, 2017 and 2016, respectively.

The HWS portfolio was purchased by HCBH 11611 Ferguson,, LLC ("**HCBH**") on May 4, 2017 (the "**HWS Acquisition Date**"). As such, financial information for HCBH and the HWS Portfolio is presented from May 4, 2017 through, and as of, December 31, 2017. Historical financial statements for the years ended December 31, 2016 and 2015 are not included for the HWS Portfolio.

2325 Stemmons Hotel Partners, LLC
Hilton Garden Inn Dallas Market Center
*(the "**HGI Property**")*

Review of Selected Financial and Operating Information of the HGI Property as of and for the Years Ended December 31, 2017 and 2016

The following tables highlight selected financial information of the HGI Property as of and for the years ended December 31, 2017 and 2016. This information has been compiled from, and should be read in conjunction with the consolidated financial statements of 2325 Stemmons Hotel Partners, LLC, which includes its wholly-owned subsidiary, 2325 Stemmons TRS Inc., and the notes thereto included elsewhere in this prospectus. Additionally, presented below is a summary of the unaudited FFO, CFFO, NOI and NOI Margin for the years ended December 31, 2017 and 2016, with additional detail provided in "Funds from Operations, Core Funds from Operations, Net Operating Income and Net Operating Income Margin".

	Year Ended December 31	
	2017	**2016**
Total revenues	$ 9,216	$ 9,448
Operating expenses	(4,703)	(4,630)
General and administrative expenses	(1,846)	(1,965)
Depreciation	(1,423)	(1,378)
Interest expense, net	(1,158)	(1,059)
Income tax expense	(30)	(41)
Net income and comprehensive income	**$ 56**	**$ 375**

	Year Ended December 31	
	2017	**2016**
Funds from Operations	$ 1,479	$ 1,753
Core Funds from Operations	1,581	1,866
Net Operating Income	2,667	2,853

	December 31	
	2017	**2016**
Total assets	$ 31,165	$ 31,610
Total liabilities	23,070	23,571
Members' equity	8,095	8,039

Review and Comparison of Operational Results of the HGI Property for the Years Ended December 31, 2017 and 2016

Total Revenues

	Year Ended December 31			
	2017	2016	Variance	%
Rooms	$ 7,796	$ 8,020	$ (224)	–2.8%
Food and beverage	1,276	1,272	4	0.3%
Other	144	156	(12)	–7.7%
Total revenues	**$ 9,216**	**$ 9,448**	**$ (232)**	**–2.5%**

Room revenue consists of income related to the rental of hotel rooms. Food and beverage revenue is comprised of revenues from the sale of food and beverage to hotel guests while other revenue consists of all other income generated by the HGI Property. Total revenue decreased $232, or 2.5%, to $9,216 for the year ended December 31, 2017 compared to $9,448 for the year ended December 31, 2016. The decrease in revenue is primarily attributable to a decrease from the prior period in transient and group business. The competitive environment in the market center sub-market has increased since the Company bought the HGI Property in late 2014. The Company completed a large renovation in 2015 which resulted in a significant increase in RevPAR, ADR and occupancy in 2016 as compared to 2015. Because of increased competition around the HGI Property, occupancy was slightly lower in 2017, resulting in a decrease in revenue. Additionally, the role of director of sales was vacant for six months during 2017, creating further challenges to growing revenue during the year. Throughout 2016 and 2017, occupancy remained fairly stable at approximately 74%, as did ADR at approximately $125. RevPAR increased approximately 14% in 2017.

Operating Expenses

	Year Ended December 31			
	2017	2016	Variance	%
Payroll	$ 2,085	$ 1,978	$ 107	5.4%
Repairs and maintenance	384	499	(115)	–23.0%
Utilities	270	274	(4)	–1.5%
Property taxes and insurance	545	489	56	11.5%
Cost of goods sold	588	548	40	7.3%
Franchise fees	431	449	(18)	–4.0%
Other operating expenses	400	393	7	1.8%
Operating expenses	**$ 4,703**	**$ 4,630**	**$ 73**	**1.6%**

Operating expenses are comprised mainly of costs associated with the management and maintenance of the property including maintenance, payroll, insurance and the costs associated with deriving the food and beverage revenue and franchise fees paid to the franchisor. These expenses increased by $73, or 1.6%, to $4,703 for the year ended December 31, 2017 compared to $4,630 for the year ended December 31, 2016. The increase in expenses was primarily driven by increases over the prior period in: payroll expenses related to housekeeping and kitchen staff, and property taxes, and was partially offset by lower repairs and maintenance costs.

General and Administrative Expenses

	Year Ended December 31			
	2017	2016	Variance	%
Property management fees	$ 329	$ 337	$ (8)	–2.4%
Office operations	425	420	5	1.2%
Marketing	943	1,098	(155)	–14.1%
Other administrative expenses	149	110	39	35.5%
General and administrative expenses	**$ 1,846**	**$ 1,965**	**$ (119)**	**–6.1%**

General and administrative expenses are comprised of the costs to market the services of the property, management fees paid to the Manager and general costs of operating the business. General and administrative expenses decreased by $119, or 6.1%, to $1,846 for the year ended December 31, 2017 compared to $1,965 for the year ended December 31, 2016. The decrease was primarily attributable to a decrease in marketing costs from the prior period related to lower commissions on group sales.

Interest Expense, Net

	Year Ended December 31			
	2017	2016	Variance	%
Interest on debt	$ 1,086	$ 987	$ 99	10.0%
Amortization of deferred financing costs	72	72	–	0.0%
Interest expense, net	**$ 1,158**	**$ 1,059**	**$ 99**	**9.3%**

Net interest expense consists of interest expense on the note payable and amortization of deferred financing costs. Net interest expense increased by $99, or 9.3%, to $1,158 for the year ended December 31, 2017 compared to $1,059 for the year ended December 31, 2016. The increase was primarily attributable to an increase in interest expense on the note payable driven by increases in one-month LIBOR during 2017.

Income Tax Expense

	Year Ended December 31			
	2017	2016	Variance	%
Income tax expense	$ 30	$ 41	$ (11)	–26.8%

Income tax expense consists of the income tax recorded for 2325 Stemmons TRS, Inc., which is a taxable REIT subsidiary. Income tax expense decreased by $11, or 26.8%, to $30 for the year ended December 31, 2017 compared to $41 for the year ended December 31, 2016. The decrease was attributable to lower taxable income driven by lower revenue and higher expenses as compared to the prior period.

Net Income and Comprehensive Income

	Year Ended December 31			
	2017	2016	Variance	%
Net Income and comprehensive income	$ 56	$ 375	$ (319)	–85.1%

Net income and comprehensive income decreased by $319, or 85.1%, to $56 for the year ended December 31, 2017 as compared to $375 for the year ended December 31, 2016. As discussed above, this decrease was primarily due to a net change in the following components of net income and comprehensive income:

- a decrease in total revenue of $232, primarily driven by decreases in transient and group business as a result of increased competition in the HGI Property's sub-market;
- an increase in operating expenses of $73, primarily driven by increases in payroll expenses related to housekeeping and kitchen staff and property taxes, partially offset by a decrease in repairs and maintenance costs;
- a decrease in general and administrative expenses of $119, primarily driven by lower commissions on group sales;
- an increase in net interest expense of $99, primarily driven by increases in one-month LIBOR during 2017; and
- a decrease in income tax expense of $11 as a result of lower taxable income due to lower revenue and higher expenses.

Funds from Operations, Core Funds from Operations, Net Operating Income and Net Operating Income Margin Results of the HGI Property for the Years Ended December 31, 2017 and 2016

Set out below is a reconciliation of the unaudited FFO, CFFO, NOI and NOI Margin for the years ended December 31, 2017 and 2016:

	Year Ended December 31	
	2017	**2016**
Net income	$ 56	$ 375
Depreciation	1,423	1,378
Funds from Operations	**1,479**	**1,753**
Deferred financing costs	72	72
Income tax expense	30	41
Core Funds from Operations	**$ 1,581**	**$ 1,866**

	Year Ended December 31	
	2017	**2016**
Total revenues	$ 9,216	$ 9,448
Total operating expenses	(6,549)	(6,595)
Net Operating Income	**$ 2,667**	**$ 2,853**
Net Operating Income margin	28.9%	30.2%

Financial Statement Analysis of the HGI Property as of and for the Years Ended December 31, 2017 and 2016

The following table highlights selected financial information for the HGI Property as of December 31, 2017 and 2016. This information has been compiled from, and should be read in conjunction with the consolidated financial statements of the HGI Property and the notes thereto included elsewhere in this prospectus.

	December 31	
	2017	**2016**
Total current assets	$ 3,140	$ 2,506
Property and equipment, net	28,025	29,104
Total assets	**31,165**	**31,610**
Total current liabilities	2,148	2,427
Note payable, net	20,922	21,144
Total liabilities	**23,070**	**23,571**
Members' equity	**$ 8,095**	**$ 8,039**

Total Current Assets

	December 31			
	2017	**2016**	**Variance**	**%**
Cash and cash equivalents	$ 2,969	$ 1,957	$ 1,012	51.7%
Trade and other receivables	113	456	(343)	–75.2%
Prepaid and other assets	58	93	(35)	–37.6%
Total current assets	**$ 3,140**	**$ 2,506**	**$ 634**	**25.3%**

Total current assets are comprised of cash and cash equivalents, restricted cash, receivables, prepaid expense and other assets. Total current assets increased by $634, or 25.3%, to $3,140 as of December 31, 2017 compared to $2,506 as of December 31, 2016. The increase was primarily due to an increase in cash related to positive cash flow from operating activities partially offset by investing and financing activities and a reduction in accounts receivable.

Property and Equipment, Net

	December 31			
	2017	**2016**	**Variance**	**%**
Land	$ 2,555	$ 2,555	$ –	0.0%
Buildings and improvements	25,922	25,600	322	1.3%
Furniture, fixtures and equipment	3,101	3,079	22	0.7%
Total property and equipment	31,578	31,234	344	1.1%
Accumulated depreciation	(3,553)	(2,130)	(1,423)	66.8%
Total property and equipment, net	**$ 28,025**	**$ 29,104**	**$ (1,079)**	**–3.7%**

Property and equipment, net includes land, buildings, improvements, as well as furniture, fixtures and equipment, reduced by accumulated depreciation. Land, buildings, improvements and furniture, fixtures and equipment are measured initially at cost, including transaction costs. Subsequent to initial recognition, these assets are measured at historical cost or fair value, whichever is lower. Subsequent capital expenditures are added to the carrying value of the assets only when it is probable that future economic benefits will flow to the property and the cost can be measured reliably.

Property and equipment, net decreased by $1,079, or 3.7%, to $28,025 as of December 31, 2017 compared to $29,104 as of December 31, 2016. The decrease was attributable primarily to increased accumulated depreciation, offset slightly by additions to buildings and improvements.

Note payable, Net

Note payable, net includes the outstanding balance of the note payable on the HGI Property reduced by the unamortized deferred financing costs and the current portion of note payable and totaled $20,922 as of December 31, 2017, compared to $21,144 as of December 31, 2016, representing a decrease of $222, or 1.0%. The decrease was primarily attributable to lower unamortized deferred financing costs and a higher current portion of the note payable. As of December 31, 2017, the aggregate principal repayments in the next five years, and thereafter, or until maturity if shorter, are as follows:

	Note Payable
2018	$ 294
2019	310
2020	20,755
2021	–
2022	–
Thereafter	–
Note payable	**21,359**
Current maturities	(294)
Net unamortized deferred financing costs	(143)
Note payable, net	**$ 20,922**

Cash Flows of the HGI Property for the Years Ended December 31, 2017 and 2016

The HGI Property reported a cash balance of $2,969 as of December 31, 2017 as compared to a cash balance of $1,957 as of December 31, 2016. The changes in cash flow for the years ended December 31, 2017 and 2016 are as follows:

	Year Ended December 31	
	2017	2016
Cash flow provided by (used in):		
Operating activities	$ 2,715	$ 3,989
Investing activities	(344)	(477)
Financing activities	(1,359)	(2,292)
Increase (decrease) in cash and cash equivalents	1,012	1,220
Cash and cash equivalents, beginning of period	1,957	737
Cash and cash equivalents, end of period	**$ 2,969**	**$ 1,957**

Operating activities for the years ended December 31, 2017 and 2016

Cash flows from operating activities for the year ended December 31, 2017 generated a net cash inflow of $2,715 compared to a net cash inflow of $3,989 for the year ended December 31, 2016. The decrease in cash flows from operating activities was largely driven by lower net income and higher payments of payables.

Investing activities for the year ended December 31, 2017 and 2016

Cash flows used in investing activities for the year ended December 31, 2017 resulted in a net cash outflow of $344 compared to a net cash outflow of $477 for the year ended December 31, 2016. The decrease in net cash outflows from investing activities was primarily due to less additions to property and equipment compared to the prior period offset by a decrease in inflows into restricted cash.

Financing activities for the year ended December 31, 2017 and 2016

Cash flows used in financing activities for the year ended December 31, 2017 resulted in a net cash outflow of $1,359 compared to a net cash outflow of $2,292 for the year ended December 31, 2016. The decrease in net cash outflows from financing activities was driven by lower distributions paid to members, higher principal pay down on the note payable and slightly offset by higher interest paid on the note.

Transactions with Related Parties

Stemmons Hospitality, LLC ("**Stemmons**") is a minority member of 2325 Stemmons Hotel Partners, LLC and was an affiliate of the property manager of the HGI Property from acquisition on December 30, 2014 through January 7, 2016. During this period, property management fees paid to the property manager of the HGI Property were considered related party transactions. For the period ended January 7, 2016, the property manager of the HGI Property was paid $5.

Subsequent Events

The company evaluated subsequent events through March 27, 2019 to determine if any significant events occurred subsequent to the balance sheet dates that would have a material impact on these consolidated financial statements. On January 8, 2019, the Company was contributed to a newly formed entity, NHT 2325 Stemmons, LLC, which was immediately contributed to the OP in exchange for 3,944,221 Class B Units of the OP.

Critical Accounting Estimates and Assumptions

Management makes estimates and assumptions concerning the future. The resultant accounting estimates may differ from actual results. The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial period are outlined below. Further information is set forth in Note 3 of the consolidated financial statements presented in this prospectus.

Property and Equipment, Net

Property and equipment, net is carried at historical cost or fair value if the property is impaired, whichever is lower. Real estate fair values for all other periods presented were determined internally by management through an impairment analysis process. For the internal valuations, a direct capitalization income method was used to calculate fair value. In determining estimates of fair value of the property and equipment, the assumptions underlying estimated values are limited by the availability of comparable data and the uncertainty of predictions concerning future events.

The primary assumptions underpinning the fair value determination are capitalization rates and stabilized net operating income. The estimates used when determining the fair value of real estate are capitalization rates and stabilized future net operating income. The capitalization rate applied is reflective of the characteristics, location and market of each property. The stabilized future cash flows of each real estate property are based upon rental income from current income and assumptions about occupancy rates and RevPAR. In addition, there is a normalized management fee allowance and capital expenditure reserve taken into consideration when determining future property cash flows. For fair values determined internally, management utilized internal financial information, external market data and capitalization rates provided by independent industry experts and other periodic third-party appraisals.

Significant Accounting Policies

A summary of significant accounting policies is set forth in Note 3 of the consolidated financial statements.

Liquidity, Capital Resources and Contractual Commitments

A summary of future debt obligations, based on principal debt maturities as of December 31, 2017 are as follows:

	Carrying amount	Contractual cash flows	1 year	More than 1 year
Note payable	$ 21,359	$ 21,359	$ 294	$ 21,065
Interest payable on note	–	2,327	1,172	1,155
Total	**$ 21,359**	**$ 23,686**	**$ 1,466**	**$ 22,220**

Additionally, the REIT's strategy entails performing renovations on most newly acquired properties and under the Franchise Agreement, a further requirement exists to fund periodic property improvement plans ("**PIPs**"). The Company completed an extensive renovation in 2015. Other than normal maintenance no additional capital expenditures will be required for the HGI Property until the Franchisor's brand standard or quality control changes require the Company to implement a PIP. Although the costs and timing of the next PIP are not specified, we estimate the costs will approximate $9,600 per room and will be required in the next 3-5 years. The Company reserves annually 4% of gross revenue for future PIP renovations, and we believe these reserves with free cash flow generated are sufficient to fund any future PIP programs.

Acquisitions

For the years ended December 31, 2017, 2016 and 2015, the Company had no acquisitions.

Dispositions

For the years ended December 31, 2017, 2016 and 2015, the Company had no dispositions.

Review of Selected Financial and Operating Information of the HGI Property as of and for the Years Ended December 31, 2016 and 2015

The following tables highlight selected financial information of the HGI Property as of and for the years ended December 31, 2016 and 2015. This information has been compiled from, and should be read in conjunction with, the consolidated financial statements of 2325 Stemmons Hotel Partners, LLC, (the "Company") which includes its wholly-owned subsidiary, 2325 Stemmons TRS Inc., and the notes thereto included elsewhere in this prospectus. Additionally, presented below is a summary of the unaudited FFO, CFFO, NOI and NOI Margin for the years ended December 31, 2016 and 2015, with additional detail provided in "Funds from Operations, Core Funds from Operations, Net Operating Income and NOI Margin Results".

	Year Ended December 31	
	2016	**2015**
Total revenues	$ 9,448	$ 8,209
Operating expenses	(4,630)	(4,356)
General and administrative expenses	(1,965)	(1,397)
Depreciation	(1,378)	(752)
Interest expense, net	(1,059)	(962)
Income tax expense	(41)	(120)
Net income and comprehensive income	**$ 375**	**$ 622**

	Year Ended December 31	
	2016	**2015**
Funds from Operations	$ 1,753	$ 1,374
Core Funds from Operations	1,866	1,566
Net Operating Income	2,853	2,456

	December 31	
	2016	**2015**
Total assets	$ 31,610	$ 30,916
Total liabilities	23,571	21,947
Members' equity	8,039	8,969

Review and Comparison of Operational Results of the HGI Property for the Years Ended December 31, 2016 and 2015

Total Revenues

	Year Ended December 31			
	2016	2015	Variance	%
Rooms	$ 8,020	$ 6,817	$ 1,203	17.6%
Food and beverage	1,272	1,198	74	6.2%
Other	156	194	(38)	–19.6%
Total revenues	**$ 9,448**	**$ 8,209**	**$ 1,239**	**15.1%**

Room revenue consists of income related to the rental of hotel rooms. Food and beverage revenue is comprised of revenues from the sale of food and beverage to hotel guests while other revenue consists of all other income generated by the HGI Property. Total revenue increased $1,239, or 15.1%, to $9,448 for the year ended December 31, 2016 compared to $8,209 for the year ended December 31, 2015. The increase in revenue as compared to the prior period is primarily attributable to higher revenue as a result of realizing the full year impact of the renovations in 2016 that were completed in 2015. The renovation drove increases in RevPAR, ADR and occupancy in 2016 as compared to 2015. For 2016, RevPAR was $92.81, ADR was $125.94 and occupancy was 73.7%, respectively, as compared to 64.2%, $125.94 and $80.79.

Operating Expenses

	Year Ended December 31			
	2016	2015	Variance	%
Payroll	$ 1,978	$ 1,748	$ 230	13.2%
Repairs and maintenance	499	326	173	53.1%
Utilities	274	262	12	4.6%
Property taxes and insurance	489	526	(37)	–7.0%
Cost of goods sold	548	468	80	17.1%
Franchise fees	449	390	59	15.1%
Other operating expenses	393	636	(243)	–38.2%
Operating expenses	**$ 4,630**	**$ 4,356**	**$ 274**	**6.3%**

Operating expenses are comprised mainly of costs associated with the management and maintenance of the property including maintenance, payroll, insurance and the costs associated with deriving the food and beverage revenue and franchise fees paid to the franchisor. These expenses increased by $274, or 6.3%, to $4,630 for the year ended December 31, 2016 compared to $4,356 for the year ended December 31, 2015. The increase in expenses was primarily driven by an increase in payroll expenses in all departments, repairs and maintenance and costs of goods sold and partially offset by other operating expenses.

General and Administrative Expenses

	Year Ended December 31			
	2016	2015	Variance	%
Property management fees	$ 337	$ 245	$ 92	37.6%
Office operations	420	417	3	0.7%
Marketing	1,098	625	473	75.7%
Other administrative expenses	110	110	–	0.0%
General and administrative expenses	**$ 1,965**	**$ 1,397**	**$ 568**	**40.7%**

General and administrative expenses increased by $568, or 40.7%, to $1,965 for the year ended December 31, 2016 compared to $1,397 for the year ended December 31, 2015. The increase was primarily attributable to the increase in marketing expenses, which was part of the initial business plan upon acquisition of the HGI Property, to drive revenue higher after completion of the renovation.

Interest Expense, Net

	Year Ended December 31			
	2016	2015	Variance	%
Interest on debt	$ 987	$ 890	$ 97	10.9%
Amortization of deferred financing costs	72	72	–	0.0%
Interest expense, net	**$ 1,059**	**$ 962**	**$ 97**	**10.1%**

Net interest expense consists of interest expense on the note payable and amortization of deferred financing costs. Net interest expense increased by $97, or 10.1%, to $1,059 for the year ended December 31, 2016 compared to $962 for the year ended December 31, 2015. The increase was attributable to an increase in interest expense on the note payable in the comparative period driven by increases in one-month LIBOR during 2016.

Income Tax Expense

	Year Ended December 31			
	2016	2015	Variance	%
Income tax expense	$ 41	$ 120	$ (79)	–65.8%

Income tax expense consists of the income tax recorded for 2325 Stemmons TRS, Inc., which is a taxable REIT subsidiary. Income tax expense decreased by $79, or 65.8%, to $41 for the year ended December 31, 2016 compared to $120 for the year ended December 31, 2015. The decrease was attributable to lower taxable income in 2016 as a result of higher expenses as compared to the prior period.

Net Income and Comprehensive Income

	Year Ended December 31			
	2016	2015	Variance	%
Net income and comprehensive income	$ 375	$ 622	$ (247)	–39.7%

Net income and comprehensive income decreased by $247, or 39.7%, to $375 for the year ended December 31, 2016 as compared to $622 for the year ended December 31, 2015. As discussed above, this decrease was primarily due to a net increase in the following components of net income and comprehensive income:

- an increase in total revenue of $1,239 resulting from an increase in revenues as a result of higher spending on marketing and completion of the renovation program completed in 2015;
- an increase in operating expenses of $274 resulting from increases in payroll expenses and repairs and maintenance costs, partially offset by a decrease in other expenses;
- an increase in general and administrative expenses of $568 as a result of higher marketing costs;
- an increase in depreciation expense of $626 as a result of realizing the full effect of $5,129 of additions to property in 2015;
- an increase in net interest expense of $97, primarily driven by increases in one-month LIBOR during 2016; and
- a decrease in income tax expense of $79 as a result of lower taxable income in 2016.

Funds from Operations, Core Funds from Operations, Adjusted Funds from Operations, Net Operating Income and Net Operating Income Margin

Results of the HGI Property for the Years Ended December 31, 2016 and 2015

Set out below is a reconciliation of the unaudited FFO, CFFO, NOI and NOI Margin for the years ended December 31, 2016 and 2015:

	Year Ended December 31	
	2016	**2015**
Net income	$ 375	$ 622
Depreciation	1,378	752
Funds from Operations	**1,753**	**1,374**
Deferred financing costs	72	72
Income tax expense	41	120
Core Funds from Operations	**$ 1,866**	**$ 1,566**

	Year Ended December 31	
	2016	**2015**
Total revenues	$ 9,448	$ 8,209
Operating expenses	(6,595)	(5,753)
Net Operating Income	**$ 2,853**	**$ 2,456**
Net Operating Income margin	30.2%	29.9%

Financial Statement Analysis of the HGI Property as of and for the Years Ended December 31, 2016 and 2015

The following table highlights selected financial information for the HGI Property as of December 31, 2016 and 2015. This information has been compiled from, and should be read in conjunction with, the consolidated financial statements of the HGI Property and the notes thereto included elsewhere in this prospectus.

	December 31	
	2016	2015
Total current assets	$ 2,506	$ 1,059
Property and equipment, net	29,104	29,857
Total assets	**31,610**	**30,916**
Total current liabilities	2,427	602
Note payable, net	21,144	21,345
Total liabilities	**23,571**	**21,947**
Members' equity	**$ 8,039**	**$ 8,969**

Total Current Assets

	December 31			
	2016	2015	Variance	%
Cash and cash equivalents	$ 1,957	$ 737	$ 1,220	165.5%
Restricted cash	–	148	(148)	0.0%
Trade and other receivables	456	36	420	1166.7%
Prepaid and other assets	93	138	(45)	–32.6%
Total current assets	**$ 2,506**	**$ 1,059**	**$ 1,447**	**136.6%**

Total current assets are comprised of cash and cash equivalents, restricted cash, receivables, prepaid expense and other assets. Total current assets increased by $1,447, or 136.6%, to $2,506 as of December 31, 2016 compared to $1,059 as of December 31, 2015. The increase was primarily due to an increase in cash related to positive cash flow from operating activities driven by increased net operating income.

Property and Equipment, Net

	December 31			
	2016	2015	Variance	%
Land	$ 2,555	$ 2,555	$ –	0.0%
Buildings and improvements	25,600	25,168	432	1.7%
Furniture, fixtures and equipment	3,079	2,886	193	6.7%
Total property and equipment	31,234	30,609	625	2.0%
Accumulated depreciation	(2,130)	(752)	(1,378)	183.2%
Total property and equipment, net	**$ 29,104**	**$ 29,857**	**$ (753)**	**–2.5%**

Property and equipment, net includes land, building and building improvement, as well as furniture, fixtures and equipment, reduced by accumulated depreciation. Land, buildings, improvements and furniture, fixtures and equipment are measured initially at cost, including transaction costs. Subsequent to initial recognition, these assets are measured at historical cost or fair value, whichever is lower. Subsequent capital expenditures are added to the carrying value of the assets only when it is probable that future economic benefits will flow to the property and the cost can be measured reliably.

Property and equipment, net decreased by $753, or 2.5%, to $29,104 as of December 31, 2016 compared to $29,857 as of December 31, 2015. The decrease was attributable primarily to increased accumulated depreciation, offset partially by additions to buildings and improvements and furniture, fixtures and equipment.

Note Payable, Net

Note payable, net includes the outstanding balance of the note payable on the HGI Property reduced by the unamortized deferred financing cost and the current portion of note payable and totaled $21,144 as of December 31, 2016, compared to $21,345 as of December 31, 2015, representing a decrease of $201, or 0.9%. The decrease was primarily attributable to principal payments on the note and amortization of deferred financing costs resulting in lower unamortized deferred financing costs.

Cash Flows of the HGI Property for the Years Ended December 31, 2016 and 2015

The HGI Property reported a cash balance of $1,957 as of December 31, 2016 as compared to a cash balance of $737 as of December 31, 2015. The changes in cash flow for the years ended December 31, 2016 and 2015 are as follows:

	Year Ended December 31	
	2016	**2015**
Cash flow provided by (used in):		
Operating activities	$ 3,989	$ 2,752
Investing activities	(477)	(5,277)
Financing activities	(2,292)	2,853
Increase (decrease) in cash and cash equivalents	1,220	328
Cash and cash equivalents, beginning of period	737	409
Cash and cash equivalents, end of period	**$ 1,957**	**$ 737**

Operating activities for the year ended December 31, 2016 and 2015

Cash flows from operating activities for the year ended December 31, 2017 generated a net cash inflow of $3,989 compared to a net cash inflow of $2,752 for the year ended December 31, 2016. The increase in cash flows from operating activities was largely driven by higher cash flow from operations as a result of higher net operating income as compared to the prior period.

Investing activities for the year ended December 31, 2016 and 2015

Cash flows used in investing activities for the year ended December 31, 2016 resulted in a net cash outflow of $477 compared to a net cash outflow of $5,277 for the year ended December 31, 2015. The decrease in net cash outflows from investing activities was primarily due to less additions to property and equipment as compared to the prior period as a result of the renovation program being completed in 2015.

Financing activities for the year ended December 31, 2016 and 2015

Cash flows used in financing activities for the year ended December 31, 2016 resulted in a net cash outflow of $2,292 compared to a net cash inflow of $2,853 for the year ended December 31, 2015. The increase in net cash outflows from financing activities was driven by higher distributions to members and lower contributions from members as compared to the prior period.

Transactions with Related Parties

Stemmons Hospitality, LLC ("**Stemmons**") is a minority member of 2325 Stemmons Hotel Partners, LLC and was an affiliate of the property manager of the HGI Property from acquisition on December 30, 2014 through January 7, 2016. During this period, property management fees paid to the property manager of the HGI Property were considered related party transactions. For the periods ended January 7, 2016 and December 31, 2015, the property manager of the HGI Property was paid $5 and $245, respectively.

Critical Accounting Estimates and Assumptions

Management makes estimates and assumptions concerning the future. The resultant accounting estimates may differ from actual results. The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial period are outlined below. Further information is set forth in Note 3 of the consolidated financial statements presented in this prospectus.

Property and Equipment, Net

Property and equipment, net is recorded at historical cost less accumulated depreciation and any accumulated impairment losses. Real estate fair values for all other periods presented were determined internally by management through an impairment analysis process. For the internal valuations, a direct capitalization income method was used to calculate fair value. In determining estimates of fair value of the property and equipment, the assumptions underlying estimated values are limited by the availability of comparable data and the uncertainty of predictions concerning future events.

The primary assumptions underpinning the fair value determination are capitalization rates and stabilized net operating income. The estimates used when determining the fair value of real estate are capitalization rates and stabilized future net operating income. The capitalization rate applied is reflective of the characteristics, location and market of each property. The stabilized future cash flows of each real estate property are based upon rental income from current income and assumptions about occupancy rates and RevPAR. In addition, there is a normalized management fee allowance and capital expenditure reserve taken into consideration when determining future property cash flows. For fair values determined internally, management utilized internal financial information, external market data and capitalization rates provided by independent industry experts and other periodic third-party appraisals.

Significant Accounting Policies

A summary of significant accounting policies is set forth in Note 3 of the consolidated financial statements.

DoubleTree Portfolio

DoubleTree Beaverton, DoubleTree Bend, Double Tree Olympia, DoubleTree Tigard and DoubleTree Vancouver

Review of Selected Financial and Operating Information of the DT Portfolio as of and for the Years Ended December 31, 2017 and 2016

The following tables highlight selected financial information of the DT Portfolio as of and for the years ended December 31, 2017 and 2016. This information has been compiled from, and should be read in conjunction with the combined financial statements of the DT Portfolio (the "Company") and notes thereto included elsewhere in this prospectus. Additionally, presented below is a summary of the unaudited FFO, CFFO, NOI and NOI Margin for the years ended December 31, 2017 and 2016, with additional detail provided in "Funds from Operations, Core Funds from Operations, Net Operating Income and Net Operating Income Margin".

	For the Year Ended December 31	
	2017	**2016**
Total revenues	$ 21,878	$ 22,704
Operating expenses	(10,181)	(10,116)
General and administrative expenses	(4,361)	(3,845)
Depreciation and amortization	(3,235)	(3,230)
Interest expense, net	(2,058)	(3,863)
Loss on derivatives	–	(8)
Net income and comprehensive income	**$ 2,043**	**$ 1,642**

	For the Year Ended December 31	
	2017	**2016**
Funds from Operations	$ 5,278	$ 4,872
Core Funds from Operations	5,278	5,270
Net Operating Income	7,336	8.743

	December 31	
	2017	**2016**
Total assets	$ 42,382	$ 42,016
Total liabilities	70,391	70,522
Members' equity	(28,009)	(28,506)

Review and Comparison of Operational Results of the DT Portfolio for the Years Ended December 31, 2017 and 2016

	For the Year Ended December 31			
	2017	**2016**	**Variance**	**%**
Rooms	$ 20,450	$ 21,242	$ (792)	–3.7%
Food and beverage	1,428	1,462	(34)	–2.3%
Total revenues	**$ 21,878**	**$ 22,704**	**$ (826)**	**–3.6%**

Room revenue consists of income related to the rental of hotel rooms. Food and beverage revenue is comprised of revenues from the sale of food and beverage to hotel guests. Total revenue decreased $826, or 3.6%, to $21,878 for the year ended December 31, 2017 compared to $22,704 for the year ended December 31, 2016. The decrease in revenue is primarily attributable to transient factors that include the addition of new competitive supply in the Olympia hotel market, a temporary travel hold for the two largest demand generators in Beaverton, OR, and substantial roof damage sustained at the Bend, OR hotel as a result of record snowfall. Each of these factors are considered to be short-term in nature and it is estimated the properties impacted will recover these decreases in 2018. Across the DT Portfolio for 2017, occupancy, ADR and RevPAR were 76.6%, $141.98 and $108.48, respectively, as compared to 78.8%, $142.37 and $112.47 in 2016.

Operating Expenses

	For the Year Ended December 31			
	2017	**2016**	**Variance**	**%**
Payroll	$ 5,223	$ 5,007	$ 216	4.3%
Repairs and maintenance	293	301	(8)	–2.7%
Utilities	588	565	23	4.1%
Property taxes and insurance	735	739	(4)	–0.5%
Cost of goods sold	350	456	(106)	–23.2%
Franchise fees	1,033	1,000	33	3.3%
Other operating expenses	1,959	2,048	(89)	–4.3%
Operating expenses	**$ 10,181**	**$ 10,116**	**$ 65**	**0.6%**

Operating expenses are comprised mainly of costs associated with the management and maintenance of the property including maintenance, payroll, insurance and the costs associated with deriving the food and beverage revenue and franchise fees paid to the franchisor. These expenses increased by $65, or 0.6%, to $10,181 for the year ended December 31, 2017 compared to $10,116 for the year ended December 31, 2016. The increase in expenses was primarily driven by an increase payroll expenses as compared to the comparative period which was partially offset by a decrease in cost of goods sold.

General and Administrative Expenses

	For the Year Ended December 31			
	2017	**2016**	**Variance**	**%**
Property management fees	$ 656	$ 681	$ (25)	–3.7%
Office operations	827	448	379	84.6%
Marketing	1,590	1,626	(36)	–2.2%
Other administrative expenses	1,288	1,090	198	18.2%
General and administrative expenses	**$ 4,361**	**$ 3,845**	**$ 516**	**13.4%**

General and administrative expenses are comprised of the costs to market the services of the property, management fees paid to the Manager and general costs of operating the business. General and administrative expenses increased by $516, or 13.4%, to $4,361 for the year ended December 31, 2017 compared to $3,845 for the year ended December 31, 2016. The increase was primarily attributable to an increase in office operations and administrative costs.

Interest Expense, Net

	For the Year Ended December 31			
	2017	2016	Variance	%
Interest on debt	$ 2,058	$ 3,473	$ (1,415)	–40.7%
Amortization of deferred financing costs	–	390	(390)	–100.0%
Interest expense, net	**$ 2,058**	**$ 3,863**	**$ (1,805)**	**–46.7%**

Interest expense, net consists of interest expense on the note payable and amortization of deferred financing costs. Interest expense, net decreased by $1,805, or 46.7%, to $2,058 for the year ended December 31, 2017 compared to $3,863 for the year ended December 31, 2016. The decrease was attributable to lower cost debt utilized in 2017 as compared to the prior period.

Net Income and Comprehensive Income

	For the Year Ended December 31			
	2017	2016	Variance	%
Net income and comprehensive income	$ 2,043	$ 1,642	$ 401	24.4%

Net income and comprehensive income increased by $401, or 24.4%, to $2,043 for the year ended December 31, 2017 as compared to $1,642 for the year ended December 31, 2016. As discussed above, this increase was primarily due to a net increase in the following components of net income and comprehensive income:

- a decrease in total revenue of $826 resulting from a decrease in occupancy and RevPAR due to the increased competition in the Olympia market, a change in buying patterns of the two largest groups in Beaverton market and a temporary reduction in occupancy as a result of damage caused by record snowfall at the DT Bend property;
- an increase in operating expenses of $65 resulting from increases in payroll that was partially offset by a decrease in cost of goods sold;
- an increase in general and administrative expenses of $516 as a result of higher office operations and administrative expenses; and
- a decrease in interest expense of $1,805 as a result of lower cost debt in 2017 as compared to the prior period in the comparative period.

Funds from Operations, Core Funds from Operations, Net Operating Income and Same Community

Results of the DT Portfolio for the Years Ended December 31, 2017 and December 31, 2016

Set out below is a reconciliation of the unaudited FFO, CFFO, NOI and NOI Margin for the years ended December 31, 2017 and 2016:

	For the Year Ended December 31	
	2017	**2016**
Net income	$ 2,043	$ 1,642
Depreciation and amortization	3,235	3,230
Funds from Operations	**5,278**	**4,872**
Deferred financing costs	–	390
Loss on derivatives	–	8
Core Funds from Operations	**$ 5,278**	**$ 5,270**

	For the Year Ended December 31	
	2017	**2016**
Total revenues	$ 21,878	$ 22,704
Total operating expenses	(14,542)	(13,961)
Net Operating Income	**$ 7,336**	**$ 8,743**
Net Operating Income margin	33.5%	38.5%

Financial Statement Analysis of the DT Portfolio as of and for the Years Ended December 31, 2017 and December 31, 2016

The following table highlights selected financial information for the DT Portfolio as of December 31, 2017 and December 31, 2016. This information has been compiled from, and should be read in conjunction with, the combined financial statements of the DT Portfolio and the notes thereto included elsewhere in this prospectus.

	December 31	
	2017	**2016**
Total current assets	$ 3,122	$ 1,093
Property and equipment, net	39,260	40,923
Total assets	**42,382**	**42,016**
Total current liabilities	1,178	1,309
Note payable, net	49,031	49,031
Mezzanine loan payable, net	20,182	16,588
Related party mezzanine loan payable, net	0	3,594
Total liabilities	**70,391**	**70,522**
Members' equity	**$ (28,009)**	**$ (28,506)**

	December 31			
	2017	2016	Variance	%
Cash and cash equivalents	$ 580	$ 100	$ 480	480.0%
Restricted cash	–	215	(215)	-100.0%
Trade and other receivables	2,087	242	1,845	762.4%
Prepaid and other assets	455	536	(81)	-15.1%
Total current assets	**$ 3,122**	**$ 1,093**	**$ 2,029**	**186.6%**

Total current assets are comprised of cash and cash equivalents, restricted cash, receivables, prepaid expense and other assets. Total current assets increased by $2,029, or 186.6%, to $3,122 as of December 31, 2017 compared to $1,093 as of December 31, 2016. The increase was primarily due to an increase in accounts receivable related to slower collections on large group business.

Property and Equipment, Net

	December 31			
	2017	2016	Variance	%
Land	$ 5,024	$ 5,010	$ 14	0.3%
Buildings and improvements	43,374	42,284	1,090	2.6%
Furniture, fixtures and equipment	17,615	17,185	430	2.5%
Total property and equipment	66,013	64,479	1,534	2.4%
Accumulated depreciation	(26,753)	(23,556)	(3,197)	13.6%
Total property and equipment, net	**$ 39,260**	**$ 40,923**	**$ (1,663)**	**-4.1%**

Property and equipment net includes land, building and building improvements, as well as furniture and equipment, reduced by accumulated depreciation. Land, buildings, improvements and furniture and equipment are measured initially at cost, including transaction costs. Subsequent to initial recognition, these assets are measured at historical cost or fair value, whichever is lower. Subsequent capital expenditures are added to the carrying value of the assets only when it is probable that future economic benefits will flow to the property and the cost can be measured reliably.

Property and equipment, net decreased by $1,663, or 4.1%, to $39,260 as of December 31, 2017 compared to $40,923 as of December 31, 2016. The decrease was attributable primarily to increased accumulated depreciation, offset slightly by additions to buildings and improvements and furniture, fixtures and equipment.

Note Payable, Net

Note payable, net includes the outstanding balance of the note payable on the DT Portfolio reduced by the unamortized deferred financing cost and totaled $49,031 as of December 31, 2017, compared to $49,031 as of December 31, 2016. Mezzanine loan, net includes the outstanding balance of the mezzanine loan on the DT Portfolio reduced by the unamortized deferred financing cost and totaled $20,182 as of December 31, 2017, compared to $16,588 as of December 31, 2016. The increase was the result of the related party loan being combined with the mezzanine loan in 2017. As of December 31, 2017, the aggregate principal repayments on the note payable and mezzanine loan in the next five years, and thereafter, or until maturity if shorter, are as follows:

	Note payable	Mezzanine loan
2018	$ –	$ –
2019	49,031	20,182
2020	–	–
2021	–	–
2022	–	–

	Note payable		Mezzanine loan
Thereafter		–		–
Note payable		49,031		20,182
Current maturities		–		–
Net unamortized deferred financing costs		–		–

Cash Flows of the DT Portfolio for the Years Ended December 31, 2017 and December 31, 2016

The DT Portfolio reported a cash balance of $580 as of December 31, 2017 as compared to a cash balance of $100 as of December 31, 2016. The changes in cash flow for the years ended December 31, 2017 and 2016 are as follows:

	For the Year Ended December 31			
	2017		2016	
Cash flow provided by (used in):				
Operating activities	$	3,345	$	5,366
Investing activities		(1,534)		(475)
Financing activities		(1,546)		(5,032)
Increase in cash and cash equivalents		265		(141)
Cash and cash equivalents, beginning of period		315		241
Cash and cash equivalents, end of period	**$**	**580**	**$**	**100**

Operating activities for the year ended December 31, 2017 and 2016

Cash flows from operating activities for the year ended December 31, 2017 generated a net cash inflow of $3,345 compared to a net cash inflow of $5,366 for the year ended December 31, 2016. The decrease in cash flows from operating activities was largely driven by lower collections of receivables as compared to the prior year.

Investing activities for the year ended December 31, 2017 and 2016

Cash flows used in investing activities for the year ended December 31, 2017 resulted in a net cash outflow of $1,534 compared to a net cash outflow of $475 for the year ended December 31, 2016. The increase in net cash outflows from investing activities was due to more additions to property and equipment in the current year.

Financing activities for the year ended December 31, 2017 and 2016

Cash flows used in financing activities for the year ended December 31, 2017 resulted in a net cash outflow of $1,546 compared to a net cash outflow of $5,032 for the year ended December 31, 2016. The decrease in net cash outflows from financing activities was driven by lower distributions paid to members in the current year.

Liquidity, Capital Resources and Contractual Commitments

A summary of future debt obligations, based on principal debt maturities as of December 31, 2017 are as follows:

	Carrying amount	Contractual cash flows	1 year	More than 1 year
Note payable	$ 49,031	$ 49,031	$ –	$ 49,031
Mezzanine loan	20,182	20,182	–	20,182
Interest payable on note	–	4,252	2,126	2,126
Total	**$ 69,213**	**$ 73,465**	**$ 2,162**	**$ 71,339**

Additionally, the REIT's strategy entails performing renovations to newly acquired properties and under the Franchise Agreement, a further requirement exists to fund periodic property improvement plans ("**PIPs**"). As of the date of this Prospectus, an extensive renovation program is in process at the DT Portfolio and is estimated to be completed in May 2019. The estimated cost of completion from October 1, 2018 through completion is budgeted to be $8,607. Other than normal recurring maintenance no additional capital expenditures are anticipated for the DT Portfolio until the next PIP is required. We believe the reserves and free cash flow generated are sufficient to fund any future PIP programs.

Acquisitions

For the years ended December 31, 2017 and 2016, the Company had no acquisitions.

Dispositions

For the years ended December 31, 2017 and 2016, the Company had no dispositions.

Transactions with Related Parties

The Company entered into a joint financing arrangement with affiliates referred to as the Collective Loan. The Collective Loan was outstanding as of December 31, 2016 and January 1, 2016. The Company paid affiliates $183 in interest in 2017 under the Collective Loan. Additionally, the Company was jointly and severally liable on $862.5 million of debt with affiliates.

On July 7, 2017, the Collective Loan was refinanced with the Refinanced Loan, which was issued by an affiliate. The Company paid affiliated $1,063 in 2017 under the Refinanced Loan.

Subsequent Events

The Company evaluated subsequent events through March 27, 2019 to determine if any significant events occurred subsequent to the balance sheet dates that would have a material impact on these combined financial statements. On May 3, 2018, the DT Portfolio was purchased by NREO NW Hospitality, LLC from BRE GM Hotel JV, LLC. On January 8, 2019, the owner of NREO NW Hospitality, LLC, contributed its interests in NREO NW Hospitality, LLC to the OP in exchange for 9,629,170 Class B Units of the OP.

Review of Selected Financial and Operating Information of the HWS Portfolio as of and for the Period Ended December 31, 2017

The following tables highlight selected financial information of the HWS Portfolio as of and for the period ended December 31, 2017. This information has been compiled from, and should be read in conjunction with, the consolidated financial statements of HCBH 11611 Ferguson, LLC (the "Company") and the notes thereto included elsewhere in this prospectus. Additionally, presented below is a summary of the unaudited FFO, CFFO, NOI and NOI Margin for the period ended December 31, 2017, with additional detail provided in "Funds from Operations, Core Funds from Operations, Net Operating Income and Net Operating Income Margin". Because 2017 was the Company's first year of operations, comparative financial information is not presented.

	For the Period from May 4, 2017 (date of formation) to December 31, 2017
	2017
Total revenues	$ 7,653
Operating expenses	(3,755)
General and administrative expenses	(1,701)
Depreciation	(520)
Interest expense, net	(1,106)
Income tax expense	–
Net income and comprehensive income	**$ 571**

	For the Period from May 4, 2017 (date of formation) to December 31, 2017
	2017
Funds from Operations	$ 1,091
Core Funds from Operations	1,221
Net Operating Income	2,197

	December 31
	2017
Total assets	$ 37,522
Total liabilities	28,066
Members' equity	9,456

Review and Comparison of Operational Results of the HWS Portfolio for the Year Ended December 31, 2017

Total Revenues

	For the Period from May 4, 2017 (date of formation) to December 31, 2017
	2017
Rooms	$ 7,538
Food and beverage	14
Other	101
Total revenues	**$ 7,653**

Room revenue consists of income related to the rental of hotel rooms. Food and beverage revenue is comprised of revenues from the sale of food and beverage to hotel guests while other revenue consists of all other income generated by the HWS Portfolio. Total revenue for the period ended December 31, 2017 was $7,653 and was driven primarily by room revenue which was $7,538. Across the HWS Portfolio for 2017, occupancy, ADR and RevPAR were 78.0%, $113.80 and $88.84, respectively.

Operating Expenses

	For the Period from May 4, 2017 (date of formation) to December 31, 2017
	2017
Payroll	$ 1,624
Repairs and maintenance	394
Utilities	298
Property taxes and insurance	526
Cost of goods sold	150
Franchise fees	417
Other operating expenses	346
Operating expenses	**$ 3,755**

Operating expenses are comprised mainly of costs associated with the management and maintenance of the property including maintenance, payroll, insurance and the costs associated with deriving the food and beverage revenue and franchise fees paid to the franchisor. These expenses totaled $3,755 for the period ended December 31, 2017 and consisted primarily of payroll expenses and property taxes and insurance, which were $1,624 and $526, respectively.

General and Administrative Expenses

	For the Period from May 4, 2017 (date of formation) to December 31, 2017
	2017
Property management fees	$ 191
Office operations	420

		For the Period from May 4, 2017 (date of formation) to December 31, 2017
		2017
Marketing		808
Other administrative expenses		282
General and administrative expenses	**$**	**1,701**

General and administrative expenses are comprised of the costs to market the services of the property, management fees paid to the Manager and general costs of operating the business. General and administrative expenses totaled $1,701 for the period ended December 31, 2017 and was comprised primarily of marketing expenses and office operations, which were $808 and $420, respectively.

Interest Expense, Net

		For the Period from May 4, 2017 (date of formation) to December 31, 2017
		2017
Interest on debt	$	976
Amortization of deferred financing costs		130
Interest expense, net	**$**	**1,106**

Net interest expense consists of interest expense on the note payable and amortization of deferred financing costs. Net interest expense for the period ended December 31, 2017 was $1,106 and was driven primarily by interest on the note payable of $976.

Net Income and Comprehensive Income

		For the Period from May 4, 2017 (date of formation) to December 31, 2017
		2017
Net income and comprehensive income	$	571

Net income and comprehensive income for the period ended December 31, 2017 was $571 was driven primarily by the following components of net income and comprehensive income:

- revenue of $7,653;
- operating expenses of $3,755;
- general and administrative expenses of $1,701; and
- net interest expense of $1,106.

Funds from Operations, Core Funds from Operations, Net Operating Income and Net Operating Income Margin

Results of the HWS Portfolio for the Period Ended December 31, 2017

Set out below is a reconciliation of the unaudited FFO, CFFO, NOI and NOI Margin for the period ended December 31, 2017:

	For the Period from May 4, 2017 (date of formation) to December 31, 2017
	2017
Net income	$ 571
Depreciation	520
Funds from Operations	**1,091**
Deferred financing costs	130
Income tax expense	–
Core Funds from Operations	**$ 1,221**

	For the Period from May 4, 2017 (date of formation) to December 31, 2017
	2015
Total revenues	$ 7,653
Total operating expenses	(5,456)
Net Operating Income	**$ 2,197**
Net Operating Income margin	28.7%

Financial Statement Analysis of the HWS Portfolio as of and for the Period Ended December 31, 2017

The following table highlights selected financial information for the HWS Portfolio as of December 31, 2017. This information has been compiled from, and should be read in conjunction with, the consolidated financial statements of the HWS Portfolio and the notes thereto included elsewhere in this prospectus.

	December 31
	2017
Total current assets	$ 2,130
Property and equipment, net	35,392
Total assets	**37,522**
Total current liabilities	1,762
Note payable, net	26,304
Total liabilities	**28,066**
Members' equity	**$ 9,456**

Total Current Assets

	December 31
	2017
Cash and cash equivalents	$ 697
Restricted cash	1,008
Trade and other receivables	245
Prepaid and other assets	180
Total current assets	**$ 2,130**

Total current assets are comprised of cash and cash equivalents, restricted cash, receivables, prepaid expense and other assets. Total current assets were $2,130 as of December 31, 2017 and consisted primarily of cash and cash equivalents and restricted cash, which were $697 and $1,008, respectively.

Property and Equipment, Net

	December 31
	2017
Land	$ 6,715
Buildings and improvements	20,998
Furniture, fixtures and equipment	2,094
Construction in progress	6,105
Total property and equipment	35,912
Accumulated depreciation	(520)
Total property and equipment, net	**$ 35,392**

Property and equipment, net includes land, building and building improvements, as well as furniture, fixtures and equipment, reduced by accumulated depreciation. Land, buildings, improvements and furniture, fixtures and equipment are measured initially at cost, including transaction costs. Subsequent to initial recognition, these assets are measured at historical cost or fair value, whichever is lower. Subsequent capital expenditures are added to the carrying value of the assets only when it is probable that future economic benefits will flow to the property and the cost can be measured reliably.

Property and equipment, net as of December 31, 2017 was $35,392 and consisted primarily of buildings and improvements of $20,998, construction in progress of $6,105 and land of $6,715 and was partially offset by accumulated depreciation of $520.

Note Payable, Net

Note payable, net includes the outstanding balance of the note payable on the HWS Portfolio reduced by the unamortized deferred financing cost and totaled $26,304 as of December 31, 2017. As of December 31, 2017, the aggregate principal repayments in the next five years, and thereafter, or until maturity if shorter, are as follows:

	Note Payable
2018	$ –
2019	277
2020	26,481
2021	–
2022	–
Thereafter	–
Note payable	**26,758**

	Note Payable
Current maturities	–
Net unamortized deferred financing costs	(454)
Note payable, net	$ 26,304

Cash Flows of the HWS Portfolio for the Period Ended December 31, 2017

The HWS Portfolio reported a cash balance of $697 as of December 31, 2017. The cash flows for the period ended December 31, 2017 are as follows:

	For the Period from May 4, 2017 (date of formation) to December 31, 2017
	2017
Cash flow provided by (used in):	
Operating activities	$ 3,386
Investing activities	(36,920)
Financing activities	34,231
Increase in cash and cash equivalents	697
Cash and cash equivalents, beginning of period	–
Cash and cash equivalents, end of period	**$ 697**

Operating, investing and financing activities for the period ended December 31, 2017

For the period ended December 31, 2017, net cash inflows from operating activities were $3,386, net cash outflows from investing activities were $36,920, and net cash inflows from financing activities were $34,231, resulting in an increase in cash and cash equivalents for the period.

Transactions with Related Parties

For the period ended December 31, 2017, there were no transactions with related parties.

Subsequent Events

HCBH 11611 Ferguson, LLC evaluated subsequent events through March 27, 2019 to determine if any significant events occurred subsequent to the balance sheet dates that would have a material impact on these consolidated financial statements. On January 8, 2019, the Company was contributed to a newly formed entity, NHT DFW Portfolio, LLC, which was immediately contributed to NHT Holdco, LLC in exchange for 3,843,184 units.

Critical Accounting Estimates and Assumptions

Management makes estimates and assumptions concerning the future. The resultant accounting estimates may differ from actual results. The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial period are outlined below. Further information is set forth in Note 3 of the consolidated financial statements presented in this prospectus.

Property and Equipment, Net

Property and equipment, net is recorded at historical cost or fair value less accumulated depreciation if the property is impaired, whichever is lower. Real estate fair values for all other periods presented were determined internally by management through an impairment analysis process. For the internal valuations, a direct capitalization income method was used to calculate fair value. In determining estimates of fair value of the property and

equipment, the assumptions underlying estimated values are limited by the availability of comparable data and the uncertainty of predictions concerning future events.

The primary assumptions underpinning the fair value determination are capitalization rates and stabilized net operating income. The estimates used when determining the fair value of real estate are capitalization rates and stabilized future net operating income. The capitalization rate applied is reflective of the characteristics, location and market of each property. The stabilized future cash flows of each real estate property are based upon rental income from current income and assumptions about occupancy rates and RevPAR. In addition, there is a normalized management fee allowance and capital expenditure reserve taken into consideration when determining future property cash flows. For fair values determined internally, management utilized internal financial information, external market data and capitalization rates provided by independent industry experts and other periodic third-party appraisals.

Significant Accounting Policies

A summary of significant accounting policies is set forth in Note 3 of the consolidated financial statements.

Liquidity, Capital Resources and Contractual Commitments

A summary of future debt obligations, based on principal debt maturities as of December 31, 2017 are as follows:

	Carrying amount	Contractual cash flows	1 year	More than 1 year
Note payable	$ 26,758	$ 26,758	$ –	$ 26,758
Interest payable on note	148	4,256	1,767	2,489
Total	$ 26,906	$ 31,014	$ 1,767	$ 29,247

Additionally, the REIT's strategy entails performing renovations to newly acquired properties and under the Franchise Agreement, a further requirement exists to fund periodic property improvement plans ("**PIPs**"). The HWS Portfolio completed an extensive renovation in 2017 and 2018. Other than normal maintenance no additional capital expenditures will be required for the HWS Portfolio until the next PIP is required. Although the costs and timing of the next PIP are not known, we estimate the costs will approximate $15,000 per room and will be required in the next 6 years. The Company reserves annually 4% of gross revenue for future PIP renovations. We believe these reserves are sufficient to fund any future PIP programs.

Acquisitions

Detailed below are the asset acquisitions completed by the Company for the period ended December 31, 2017:

Brand	Location	Acquisition Date	Rooms	Purchase price[1]	Note payable
Homewood Suites	Plano, Texas	May 4, 2017	99	$ 8,574	$ 8,624
Homewood Suites	Addison, Texas	May 4, 2017	120	8,773	6,573
Homewood Suites	Las Colinas, Texas	May 4, 2017	136	12,362	6,983
			355	$ 29,709	$ 22,180

Includes transaction costs of $67, $69 and $73, respectively.

Dispositions

For the period ended December 31, 2017, the Company had no dispositions.

Pallas, LLC
Marriott St. Petersburg
*(the **"St. Pete Property"**)*

Review of Selected Financial and Operating Information of the St. Pete Property as of and for the Years Ended December 31, 2017 and 2016

The following tables highlight selected financial information of the St. Pete Property as of and for the years ended December 31, 2017 and 2016. This information has been compiled from, and should be read in conjunction with, the financial statements of Pallas, LLC (the "Company") and the notes thereto included elsewhere in this prospectus. Additionally, presented below is a summary of the unaudited FFO, CFFO, NOI and NOI Margin for the period ended December 31, 2017 and 2016, with additional detail provided in "Funds from Operations, Core Funds from Operations, Net Operating Income and Net Operating Income Margin".

	Year Ended December 31	
	2017	**2016**
Total revenues	$ 10,988	$ 10,786
Operating expenses	(5,968)	(5,829)
General and administrative expenses	(1,948)	(1,876)
Depreciation and amortization	(441)	(639)
Interest expense, net	(880)	(918)
Other income (expense)	73	106
Net income and comprehensive income	**$ 1,824**	**$ 1,630**

	Year Ended December 31	
	2017	**2016**
Funds from Operations	$ 2,265	$ 2,269
Core Funds from Operations	2,301	2,318
Net Operating Income	3,072	3,080

	December 31	
	2017	**2016**
Total assets	$ 17,827	$ 14,498
Total liabilities	23,342	20,436
Members' equity	(5,515)	(5,938)

Review and Comparison of Operational Results of the St. Pete Property for the Years Ended December 31, 2017 and 2016

Total Revenues

	Year Ended December 31			
	2017	2016	Variance	%
Rooms	$ 7,772	$ 7,517	$ 255	3.4%
Food and beverage	1,007	1,037	(30)	–2.9%
Other	2,209	2,232	(23)	–1.0%
Total revenues	**$ 10,988**	**$ 10,786**	**$ 202**	**1.9%**

Room revenue consists of income related to the rental of hotel rooms. Food and beverage revenue is comprised of revenues from the sale of food and beverage to hotel guests while other revenue consists of all other income generated by the St. Pete Property. Total revenue increased $202, or 1.9%, to $10,988 for the year ended December 31, 2017 compared to $10,786 for the year ended December 31, 2016. The increase in revenue is primarily attributable to an increase in transient business as compared to the prior period. The hotel market in the St. Pete Property's sub-market is fairly stable with no new competition and a steady and consistent level of business. As a result, revenue has grown slowly over the past few years. In 2017, occupancy, ADR and RevPAR for the St. Pete Property was 71.0%, $154.33 and $109.50, respectively, as compared to 69.9%, $152.76 and $106.85, respectively, for 2016.

Operating Expenses

	Year Ended December 31			
	2017	2016	Variance	%
Payroll	$ 2,004	$ 1,940	$ 64	3.3%
Repairs and maintenance	495	528	(33)	–6.3%
Utilities	437	420	17	4.0%
Property taxes and insurance	731	632	99	15.7%
Cost of goods sold	1,309	1,311	(2)	–0.2%
Franchise fees	876	897	(21)	–2.3%
Other operating expenses	116	101	15	14.9%
Operating expenses	**$ 5,968**	**$ 5,829**	**$ 139**	**2.4%**

Operating expenses are comprised mainly of costs associated with the management and maintenance of the property including maintenance, payroll, insurance and the costs associated with deriving the food and beverage revenue and franchise fees paid to the franchisor. These expenses increased by $139, or 2.4%, to $5,968 for the year ended December 31, 2017 compared to $5,829 for the year ended December 31, 2016. The increase in expenses as compared to the prior period was primarily driven by increases in payroll expenses related to housekeeping and banquet personnel and property taxes and was partially offset by a decrease in repairs and maintenance.

General and Administrative Expenses

	Year Ended December 31			
	2017	2016	Variance	%
Property management fees	$ 535	$ 540	$ (5)	–0.9%
Office operations	173	154	19	12.3%

	Year Ended December 31			
	2017	**2016**	**Variance**	**%**
Marketing	1,234	1,176	58	4.9%
Other administrative expenses	6	6	–	0.0%
General and administrative expenses	**$ 1,948**	**$ 1,876**	**$ 72**	**3.8%**

General and administrative expenses increased by $72, or 3.8%, to $1,948 for the year ended December 31, 2017 compared to $1,876 for the year ended December 31, 2016. The increase was primarily attributable to the increase in marketing and office expenses.

Interest Expense, Net

	Year Ended December 31			
	2017	**2016**	**Variance**	**%**
Interest on debt	$ 844	$ 869	$ (25)	–2.9%
Amortization of deferred financing costs	36	49	(13)	–26.5%
Interest expense, net	**$ 880**	**$ 918**	**$ (38)**	**–4.1%**

Interest expense, net consists of interest expense on loans and borrowings, amortization of deferred financing costs, amortization of issuance (premium) discounts and interest paid on hedging instruments which are recognized in profit or loss. Interest expense, net decreased by $38, or 4.1%, to $880 for the year ended December 31, 2017 compared to $918 for the year ended December 31, 2016. The decrease as compared to the prior period was attributable to the repayment of the related party note in 2017.

Net Income and Comprehensive Income

	Year Ended December 31			
	2017	**2016**	**Variance**	**%**
Net income and comprehensive income	$ 1,824	$ 1,630	$ 194	11.9%

Net income and comprehensive income increased by $194, or 11.9%, to $1,824 for the year ended December 31, 2017 as compared to $1,630 for the year ended December 31, 2016. As discussed above, this decrease was primarily due to the following components of net income and comprehensive income:

- an increase in total revenue of $202 resulting from a slight increase in transient business;
- an increase in property operating expenses of $139 resulting from higher payroll expenses and property taxes;
- an increase in general and administrative expenses of $72 as a result of higher marketing costs;
- a decrease in depreciation of $198; and
- a decrease in interest expense, net of $38 due to the repayment of the related party note in 2017.

Funds from Operations, Core Funds from Operations, Net Operating Income and Net Operating Income Margin Results of the St. Pete Property for the Years Ended December 31, 2017 and December 31, 2016

Set out below is a reconciliation of the unaudited FFO, CFFO, NOI and NOI Margin for the years ended December 31, 2017 and 2016:

	Year Ended December 31	
	2017	2016
Net income	$ 1,824	$ 1,630
Depreciation and amortization	441	639
Funds from Operations	**2,265**	**2,269**
Deferred financing costs	36	49
Income tax expense	–	–
Core Funds from Operations	**$ 2,301**	**$ 2,318**

	Year Ended December 31	
	2017	2016
Total revenues	$ 10,988	$ 10,786
Total operating expenses	(7,916)	(7,705)
Net Operating Income	**$ 3,072**	**$ 3,081**
Net Operating Income margin	28.0%	28.6%

Financial Statement Analysis of the St. Pete Property as of and for the Years Ended December 31, 2017 and December 31, 2016

Members' deficit	$ (5,515)	$ (5,938)

Total Current Assets

	December 31			
	2017	2016	Variance	%
Cash and cash equivalents	$ 4,271	$ 1,339	$ 2,932	219.0%
Restricted cash	2	2	–	0.0%
Trade and other receivables	23	86	(63)	–73.3%
Prepaid and other assets	244	220	24	10.9%
Total current assets	**$ 4,540**	**$ 1,647**	**$ 2,893**	**175.7%**

Total current assets are comprised of cash and cash equivalents, restricted cash, receivables, prepaid expenses and other assets. Total current assets increased by $2,893, or 175.7%, to $4,540 as of December 31, 2017 compared to $1,647 as of December 31, 2016. The increase was primarily due to an increase in cash of $2,932 due to an increase in cash from operations and financing activities.

Property and Equipment, Net

	December 31			
	2017	**2016**	**Variance**	**%**
Land	$ 1,777	$ 1,777	$ –	0.0%
Buildings and improvements	18,128	18,128	–	0.0%
Furniture, fixtures and equipment	4,325	3,452	873	25.3%
Total property and equipment	24,230	23,357	873	3.7%
Accumulated depreciation	(10,943)	(10,506)	(437)	4.2%
Total property and equipment, net	**$ 13,287**	**$ 12,851**	**$ 436**	**3.4%**

Property and equipment, net includes land, buildings, improvements, as well as furniture, fixtures and equipment, reduced by accumulated depreciation. Land, buildings, improvements and furniture, fixtures and equipment are measured initially at cost, including transaction costs. Subsequent to initial recognition, these assets are measured at historical cost or fair value, whichever is lower. Subsequent capital expenditures are added to the carrying value of the assets only when it is probable that future economic benefits will flow to the property and the cost can be measured reliably.

Property and equipment, net increased by $436, or 3.4%, to $13,287 as of December 31, 2017 compared to $12,851 as of December 31, 2016. The increase was attributable primarily to additions to furniture, fixtures and equipment, partially offset by an increase in accumulated depreciation.

Note Payable, Net

Note payable, net includes the outstanding balance of the note payable on the St. Pete Property reduced by the unamortized deferred financing costs and the current portion of note payable and totaled $22,253 as of December 31, 2017, compared to $0 as of December 31, 2016, representing an increase of $22,253. The increase was the result of the note outstanding at December 31, 2016 maturing in 2017 and therefore the entire balance was classified as the current portion payable. As of December 31, 2017, the aggregate principal repayments in the next five years, and thereafter, or until maturity if shorter, are as follows:

	Note Payable
2018	$ 564
2019	586
2020	608
2021	632
2022	20,563
Thereafter	–
Note payable	**22,953**
Current maturities	(564)
Net unamortized deferred financing costs	(136)
Note payable, net	**$ 22,253**

Cash Flows of the St. Pete Property for the Years Ended December 31, 2017 and December 31, 2016

The St. Pete Property reported a cash balance of $4,271 as of December 31, 2017 as compared to a cash balance of $1,339 as of December 31, 2016. The changes in cash flow for the years ended December 31, 2017 and 2016 are as follows:

	Year Ended December 31	
	2017	**2016**
Cash flow provided by (used in):		
Operating activities	$ 3,076	$ 2,947
Investing activities	(873)	(16)
Financing activities	729	(2,451)
Increase in cash and cash equivalents	2,932	480
Cash and cash equivalents, beginning of period	1,339	859
Cash and cash equivalents, end of period	**$ 4,271**	**$ 1,339**

Operating activities for the year ended December 31, 2017 and 2016

Cash flows from operating activities for the year ended December 31, 2017 generated a net cash inflow of $3,076 compared to a net cash inflow of $2,947 for the year ended December 31, 2016. The increase as compared to the prior period of $129 in cash flows from operating activities was largely driven by an increase in net income of $194, adjusted for a decrease in non-cash items of $65.

Investing activities for the year ended December 31, 2017 and 2016

Cash flows used in investing activities for the year ended December 31, 2017 resulted in a net cash outflow of $873 compared to a net cash outflow of $16 for the year ended December 31, 2016. The increase in net cash outflows from investing activities was due to an increase in the additions to property and equipment as compared to the prior period.

Financing activities for the year ended December 31, 2017 and 2016

Cash flows used in financing activities for the year ended December 31, 2017 resulted in a net cash inflow of $729 compared to a net cash outflow of $2,451 for the year ended December 31, 2016. The decrease in net cash outflows from financing activities as compared to the prior period was driven primarily by cash proceeds received in the financing of the note payable, partially offset by higher payments on the related party note.

Transactions with Related Parties

For the years ended December 31, 2017 and 2016, Pallas, LLC paid interest on a related party note payable to MDM. The note was repaid as part of the refinancing of the mortgage on November 25, 2017. Pallas, LLC borrowed more than the balance of the old mortgage, using the additional proceeds to repay the related party note. As of December 31, 2016 the related party note payable outstanding with MDM was $2,306 and $0 as of December 31, 2017. Additionally, the Company paid MDM property management fees of $535 and $540, respectively, for the years ended December 31, 2017 and 2016.

Subsequent Events

Pallas, LLC evaluated subsequent events through March 27, 2019 to determine if any significant events occurred subsequent to the balance sheet dates that would have a material impact on these financial statements. On September 24, 2018, the Company sold the Property to NHT SP, LLC. On January 8, 2019, the parent of NHT SP, LLC (NHT SP Parent, LLC), was contributed to NHT Holdco, LLC in exchange for 3,613,498 units.

Critical Accounting Estimates and Assumptions

Management makes estimates and assumptions concerning the future. The resultant accounting estimates may differ from actual results. The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial period are outlined below. Further information is set forth in Note 3 of the financial statements presented in this prospectus.

Property and Equipment, Net

Property and equipment, net is recorded at historical cost less accumulated depreciation and any accumulated impairment losses. Real estate fair values for all other periods presented were determined internally by management through an impairment analysis process. For the internal valuations, a direct capitalization income method was used to calculate fair value. In determining estimates of fair value of the property and equipment, the assumptions underlying estimated values are limited by the availability of comparable data and the uncertainty of predictions concerning future events.

The primary assumptions underpinning the fair value determination are capitalization rates and stabilized net operating income. The estimates used when determining the fair value of real estate are capitalization rates and stabilized future net operating income. The capitalization rate applied is reflective of the characteristics, location and market of each property. The stabilized future cash flows of each real estate property are based upon rental income from current income and assumptions about occupancy rates and RevPAR. In addition, there is a normalized management fee allowance and capital expenditure reserve taken into consideration when determining future property cash flows. For fair values determined internally, management utilized internal financial information, external market data and capitalization rates provided by independent industry experts and other periodic third-party appraisals.

Significant Accounting Policies

A summary of significant accounting policies is set forth in Note 3 of the consolidated financial statements.

Liquidity, Capital Resources and Contractual Commitments

A summary of future debt obligations, based on principal debt maturities as of December 31, 2017 are as follows:

	Carrying amount	Contractual cash flows	1 year	More than 1 year
Note payable	$ 22,953	$ 22,953	$ 564	$ 22,389
Interest payable on note	–	–	–	–
Total	**$ 22,953**	**$ 22,953**	**$ 564**	**$ 22,389**

Additionally, the REIT's strategy entails performing renovations to newly acquired properties and under the Franchise Agreement, a further requirement exists to fund periodic property improvement plans ("**PIPs**"). It is anticipated the St. Pete Property will begin an extensive renovation on the property. It is estimated the renovation will be completed in 2020 for an estimated cost of $7 million. Other than normal recurring maintenance only the replacement of case goods are anticipated for the St. Pete Property until the next full PIP. Although the costs and timing of the next PIP are not known, we estimate the costs will approximate $10,000 - $15,000 per room and will be required in the next 6 years. The Company was required to reserve annually 4% of gross revenue for future PIP renovations, but as discussed in Note15 of the financial statements, the Company failed to reserve the required amount under the Franchise Agreement. Upon contribution of the Property to the REIT, additional cash was contributed to fund the initial budgeted renovations. After the initial renovations are complete, the REIT believes the reserves required by the lender together with free cash flow generated by the REIT are sufficient to fund any future PIP programs.

Acquisitions

For the years ended December 31, 2017 and 2016, the Company made no acquisitions.

Dispositions

For the years ended December 31, 2017 and 2016, the Company made no dispositions.

Birchmont H.I. Nashville Partners, LLC
Holiday Inn Express Nashville
*(the **"Nashville Property"**)*

Review of Selected Financial and Operating Information of the Nashville Property as of and for the Years Ended December 31, 2017 and 2016

The following tables highlight selected financial information of the Nashville Property as of and for the years ended December 31, 2017 and 2016. This information has been compiled from, and should be read in conjunction with, the consolidated financial statements of Birchmont H.I. Nashville Partners, LLC (the "Company") and notes thereto included elsewhere in this prospectus. Additionally, presented below is a summary of the unaudited FFO, CFFO, NOI and NOI Margin for the years ended December 31, 2017 and 2016, with additional detail provided in "Funds from Operations, Core Funds from Operations, Net Operating Income and Net Operating Income Margin Results".

	Year Ended December 31	
	2017	**2016**
Total revenues	$ 20,137	$ 18,743
Operating expenses	(9,138)	(8,689)
General and administrative expenses	(1,080)	(894)
Depreciation and amortization	(1,242)	(1,284)
Interest expense, net	(3,781)	(4,152)
Net income and comprehensive income	**$ 4,896**	**$ 3,724**

	Year Ended December 31	
	2017	**2016**
Funds from Operations	$ 6,138	$ 5,008
Core Funds from Operations	6,208	5,055
Net Operating Income	9,919	9,160

	December 31	
	2017	**2016**
Total assets	$ 38,214	$ 36,053
Total liabilities	72,458	72,693
Members' deficit	(34,244)	(36,640)

Review and Comparison of Operational Results of the Nashville Property for the Years Ended December 31, 2017 and 2016

Total Revenues

	Year Ended December 31			
	2017	**2016**	**Variance**	**%**
Rooms	$ 18,171	$ 17,323	$ 848	4.9%
Food and beverage	187	96	91	94.8%
Other	1,779	1,324	455	34.4%
Total revenues	**$ 20,137**	**$ 18,743**	**$ 1,394**	**7.4%**

Room revenue consists of income related to the rental of hotel rooms. Food and beverage revenue is comprised of revenues from the sale of food and beverage to hotel guests while other revenue consists of all other income generated by the Nashville Property. Total revenue increased $1,394, or 7.4%, to $20,137 for the year ended December 31, 2017 compared to $18,743 for the year ended December 31, 2016. The increase in revenue as compared to the prior period is primarily attributable to an increase in transient revenue and resort fees, offset by a decrease in corporate group revenue. The Nashville Property is located in a desirable part of downtown Nashville where a number of companies are moving increasing the level of potential revenue from business travelers. It is anticipated revenue will continue to increase at a higher pace relative to other properties in the Initial Portfolio as a result of the continued development in the sub-market. For 2017, occupancy, ADR and RevPAR at the Nashville Property was 76.9%, $226.75 and $174.34, respectively, as compared to 76.8%, $215.57 and $165.65, respectively. Slightly higher occupancy combined with a 5.2% increase in ADR and a 5.3% increase in RevPAR in 2017 was a key component of the 7.4% increase in total revenue.

Operating Expenses

	Year Ended December 31			
	2017	**2016**	**Variance**	**%**
Payroll and employee related costs	$ 2,594	$ 2,394	$ 200	8.4%
Property management fees	1,007	937	70	7.5%
Repairs and maintenance	178	183	(5)	-2.7%
Utilities	396	435	(39)	-9.0%
Property taxes and insurance	851	422	429	101.7%
Cost of goods sold	2,388	2,285	103	4.5%
Franchise fees	1,461	1,484	(23)	-1.5%
Franchise and excise taxes	135	423	(288)	-68.1%
Other operating expenses	128	126	2	1.6%
Operating expenses	**$ 9,138**	**$ 8,689**	**$ 449**	**5.2%**

Operating expenses are comprised mainly of costs associated with the management and maintenance of the property including maintenance, payroll, insurance and the costs associated with deriving the food and beverage revenue and franchise fees paid to the franchisor. These expenses increased by $449, or 5.2%, to $9,138 for the year ended December 31, 2017 compared to $8,689 for the year ended December 31, 2016. The increase in expenses as compared to the prior period was primarily driven by increases in property taxes, payroll expenses and cost of goods sold and was offset by lower franchise and excise taxes.

General and Administrative Expenses

	Year Ended December 31			
	2017	2016	Variance	%
Marketing	$ 584	$ 534	$ 50	9.4%
Asset management fees	208	208	–	0.0%
Other administrative expenses	288	152	136	89.5%
General and administrative expenses	**$ 1,080**	**$ 894**	**$ 186**	**20.8%**

General and administrative expenses increased by $186, or 20.8%, to $1,080 for the year ended December 31, 2017 compared to $894 for the year ended December 31, 2016. The increase as compared to the prior period was primarily attributable to a reclassification of business and occupational taxes, which were previously included with property taxes, and an expensing of an annual letter of credit fee.

Interest Expense, Net

	Year Ended December 31			
	2017	2016	Variance	%
Interest on debt	$ 3,711	$ 4,105	$ (394)	-9.6%
Amortization of deferred financing costs	70	47	23	48.9%
Interest expense, net	**$ 3,781**	**$ 4,152**	**$ (371)**	**-8.9%**

Interest expense, net consists of interest expense on loans and borrowings, amortization of deferred financing costs, amortization of issuance (premium) discounts and interest paid on hedging instruments which are recognized in profit or loss. Interest expense, net decreased by $371, or 8.9%, to $3,781 for the year ended December 31, 2017 compared to $4,152 for the year ended December 31, 2016. The decrease was attributable to a decrease of $1,180 for defeasance costs related to the refinancing of the notes payable in 2016, offset by an increase in debt service related to the 2016 refinancing.

Net Income and Comprehensive Income

	Year Ended December 31			
	2017	2016	Variance	%
Net income and comprehensive income	$ 4,896	$ 3,724	$ 1,172	31.5%

Net income and comprehensive income increased by $1,172, or 31.5%, to $4,896 for the year ended December 31, 2017 as compared to $3,724 for the year ended December 31, 2016. As discussed above, this decrease was primarily due to the following components of net income and comprehensive income:

- an increase in total revenue of $1,394 resulting from an increase in transient business and resort fees, offset by a decline in corporate group business;
- an increase in property operating expenses of $449 resulting from an increase in property taxes and insurance and payroll expenses and offset by a decrease in complimentary breakfast expenses;
- an increase in general and administrative expenses of $186 as a result of a reclassification of business and occupational taxes and a fee for a letter of credit; and

- a decrease in interest expense, net of $371 related to a decrease in defeasance costs.

Funds from Operations, Core Funds from Operations, Net Operating Income and Net Operating Income Margin

Results of the Nashville Property for the Years Ended December 31, 2017 and December 31, 2016

Set out below is a reconciliation of the unaudited FFO, CFFO, NOI and NOI Margin for the year ended December 31, 2017 and 2016:

	Year Ended December 31	
	2017	**2016**
Net income	$ 4,896	$ 3,724
Depreciation and amortization	1,242	1,284
Funds from Operations	**6,138**	**5,008**
Deferred financing costs	70	47
Core Funds from Operations	**$ 6,208**	**$ 5,055**

	Year Ended December 31	
	2017	**2016**
Total revenues	$ 20,137	$ 18,743
Total operating expenses	(10,218)	(9,583)
Net Operating Income	**$ 9,919**	**$ 9,160**
Net Operating Income margin	49.3%	48.9%

Financial Statement Analysis of the Nashville Property as of and for the Years Ended December 31, 2017 and December 31, 2016

The following table highlights selected financial information for the Nashville Property as of December 31, 2017 and December 31, 2016. This information has been compiled from, and should be read in conjunction with, the consolidated financial statements of the Nashville Property and the notes thereto included elsewhere in this prospectus.

	December 31	
	2017	**2016**
Total current assets	$ 3,606	$ 2,299
Property and equipment, net	34,608	33,754
Total assets	**38,214**	**36,053**
Total current liabilities	3,029	2,273
Note payable, net	69,429	70,420
Total liabilities	**72,458**	**72,693**
Members' deficit	**$ (34,244)**	**$ (36,640)**

Total Current Assets

	December 31		Variance	%
	2017	2016		
Cash and cash equivalents	$ 1,310	$ 894	$ 416	46.5%
Restricted cash	871	845	26	3.1%
Trade and other receivables	801	192	609	317.2%
Prepaid and other assets	624	368	256	69.6%
Total current assets	**$ 3,606**	**$ 2,299**	**$ 1,307**	**56.9%**

Total current assets are comprised of cash and cash equivalents, restricted cash, receivables, prepaid expense and other assets. Total current assets increased by $1,307, or 56.9%, to $3,606 as of December 31, 2017 compared to $2,299 as of December 31, 2016. The increase was primarily due to an increase in cash flow from operating activities, and an increase in receivables and prepaid expenses.

Property and Equipment, Net

	December 31		Variance	%
	2017	2016		
Land	$ 5,440	$ 5,440	$ –	0.0%
Buildings and improvements	34,118	34,118	–	0.0%
Furniture, fixtures and equipment	8,590	4,902	3,688	75.2%
Construction in progress	573	2,173	(1,600)	–73.6%
Total property and equipment	48,721	46,633	2,088	4.5%
Accumulated depreciation	(14,113)	(12,879)	(1,234)	9.6%
Total property and equipment, net	**$ 34,608**	**$ 33,754**	**$ 854**	**2.5%**

Property and equipment, net includes land, buildings, improvements, as well as furniture, fixtures and equipment, reduced by accumulated depreciation. Land, buildings, improvements and furniture, fixtures and equipment are measured initially at cost, including transaction costs. Subsequent to initial recognition, these assets are measured at historical cost or fair value, whichever is lower. Subsequent capital expenditures are added to the carrying value of the assets only when it is probable that future economic benefits will flow to the property and the cost can be measured reliably.

Property and equipment, net increased by $854, or 2.5%, to $34,608 as of December 31, 2017 compared to $33,754 as of December 31, 2016. The increase was attributable primarily to additions to furniture, fixtures and equipment, which includes $1,600 of construction in progress at December 31, 2016 that was placed in service during 2017, net of an increase in accumulated depreciation.

Note Payable, Net

Note payable, net includes the outstanding balance of the note payable on the Nashville Property reduced by the unamortized deferred financing costs and the current portion of note payable and totaled $69,429 as of December 31, 2017, compared to $70,420 as of December 31, 2016, representing a decrease of $991, or 1.4%. The decrease was primarily attributable to amortization of the note. As of December 31, 2017, the aggregate principal repayments in the next five years, and thereafter, or until maturity if shorter, are as follows:

		Note Payable
2018	$	1,062
2019		1,118
2020		1,168
2021		1,240
2022		1,306
Thereafter		65,190
Note payable		**71,084**
Current maturities		(1,062)
Net unamortized deferred financing costs		(593)
Note payable, net	**$**	**69,429**

Cash Flows of the Nashville Property for the Years Ended December 31, 2017 and December 31, 2016

The Nashville Property reported a cash balance of $1,310 as of December 31, 2017 as compared to a cash balance of $894 as of December 31, 2016. The changes in cash flow for the years ended December 31, 2017 and 2016 are as follows:

	Year Ended December 31			
	2017		2016	
Cash flow provided by (used in):				
Operating activities	$	9,762	$	9,004
Investing activities		(2,114)		(2,226)
Financing activities		(7,232)		(7,218)
Increase (decrease) in cash and cash equivalents		416		(440)
Cash and cash equivalents, beginning of period		894		1,334
Cash and cash equivalents, end of period	**$**	**1,310**	**$**	**894**

Operating activities for the year ended December 31, 2017 and 2016

Cash flows from operating activities for the year ended December 31, 2017 generated a net cash inflow of $9,762 compared to a net cash inflow of $9,004 for the year ended December 31, 2016. The increase in cash flows from operating activities as compared to the prior period was largely driven by an increase in operating income, offset by an increase in cash outflows to settle liabilities.

Investing activities for the year ended December 31, 2017 and 2016

Cash flows used in investing activities for the year ended December 31, 2017 resulted in a net cash outflow of $2,114 compared to a net cash outflow of $2,226 for the year ended December 31, 2016. The decrease in net cash outflows from investing activities as compared to the prior period was primarily due to a decrease in the additions to property and equipment, offset by a decrease in restricted cash.

Financing activities for the year ended December 31, 2017 and 2016

Cash flows used in financing activities for the year ended December 31, 2017 resulted in a net cash outflow of $7,232 compared to a net cash outflow of $7,218 for the year ended December 31, 2016. The increase in net cash

outflows from financing activities as compared to the prior period was driven by lower distributions paid to members and lower principal payments made on the note, offset by lower mortgage proceeds received.

Transactions with Related Parties

For the year ended December 31, 2017 the Company had the following transactions with related parties:

An affiliate of the member provided management and advisory services to the Company for a fee. For the year ended December 31, 2017, asset management fees were $208 and are included in general and administrative expenses in the consolidated statements of comprehensive income.

The Company has an asset management agreement with an affiliate of the member. For the year ended December 31, 2017, property management fees and oversight management fees totaled $1,007 and are included in operating expenses in the consolidated statements of comprehensive income.

Certain labor costs are reimbursed to entities affiliated with the member. The labor costs are mainly for on-site maintenance and other labor costs related to property management and hotel services. For the year ended December 31, 2017, labor costs incurred totaled to $2,594 and are included in operating expenses in the consolidated statements of comprehensive income.

Subsequent Events

The Company evaluated subsequent events through March 27, 2019 to determine if any significant events occurred subsequent to the balance sheet dates that would have a material impact on these consolidated financial statements.

On January 8, 2019, the Company sold the Property to NHT Nashville, LLC, a subsidiary of NexPoint Multifamily Capital Trust, Inc. (“NMCT”) for $121,760, inclusive of closing costs. Immediately after the purchase of the Property was complete, the shareholders of NMCT contributed 100% of the units of NMCT to NHT Holdco, LLC in exchange for 6,756,364 units.

Critical Accounting Estimates and Assumptions

Management makes estimates and assumptions concerning the future. The resultant accounting estimates may differ from actual results. The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial period are outlined below. Further information is set forth in Note 3 of the consolidated financial statements presented in this prospectus.

Property and Equipment, Net

Property and equipment, net is recorded at historical cost less accumulated depreciation and any accumulated impairment losses. Real estate fair values for all other periods presented were determined internally by management through an impairment analysis process. For the internal valuations, a direct capitalization income method was used to calculate fair value. In determining estimates of fair value of the property and equipment, the assumptions underlying estimated values are limited by the availability of comparable data and the uncertainty of predictions concerning future events.

The primary assumptions underpinning the fair value determination are capitalization rates and stabilized net operating income. The estimates used when determining the fair value of real estate are capitalization rates and stabilized future net operating income. The capitalization rate applied is reflective of the characteristics, location and market of each property. The stabilized future cash flows of each real estate property are based upon rental income from current income and assumptions about occupancy rates and RevPAR. In addition, there is a normalized management fee allowance and capital expenditure reserve taken into consideration when determining future property cash flows. For fair values determined internally, management utilized internal financial information,

external market data and capitalization rates provided by independent industry experts and other periodic third-party appraisals.

Significant Accounting Policies

A summary of significant accounting policies is set forth in Note 3 of the consolidated financial statements.

Liquidity, Capital Resources and Contractual Commitments

A summary of future debt obligations, based on principal debt maturities as of December 31, 2017 are as follows:

	Carrying amount	Contractual cash flows	1 year	More than 1 year
Note payable	$ 71,084	$ 71,084	$ 1,062	$ 70,022
Interest payable on note	313	313	313	–
Total	**$ 71,397**	**$ 71,397**	**$ 1,375**	**$ 70,022**

Additionally, the REIT's strategy entails performing renovations to newly acquired properties and under the Franchise Agreement, a further requirement exists to fund periodic property improvement plans ("**PIPs**"). The Nashville Property is undergoing an extensive renovation, which is estimated to be completed in 2019. The costs to completion from September 30, 2018 are estimated to be $3 million. Other than normal maintenance no additional capital expenditures will be required for the Nashville Property until the next PIP. Although the costs and timing of the next PIP are not known, we estimate the costs will approximate $10,000 - $15,000 per room and will be required in the next 4-6 years. The Company reserves annually 4% of gross revenue for future PIP renovations. We believe these reserves together with free cash flow are sufficient to fund any future PIP programs.

Acquisitions

For the years ended December 31, 2017, 2016 and 2015, the Company had no acquisitions.

Dispositions

For the years ended December 31, 2017, 2016 and 2015, the Company had no dispositions.

Birchmont H.I. Nashville Partners, LLC
Holiday Inn Express Nashville
(the ***"Nashville Property"****)*

Review of Selected Financial and Operating Information of the Nashville Property as of and for the Years Ended December 31, 2016 and 2015

The following tables highlight selected financial information of the Nashville Property as of and for the years ended December 31, 2016 and 2015. This information has been compiled from, and should be read in conjunction with, the consolidate financial statements of Birchmont H.I. Nashville Partners, LLC (the "Company") and notes thereto included elsewhere in this prospectus. Additionally, presented below is a summary of the unaudited FFO, CFFO, AFFO and NOI for the years ended December 31, 2017 and 2016, with additional detail provided in "Funds from Operations, Core Funds from Operations, Net Operating Income, and Net Operating Income Margin Results".

	Year Ended December 31	
	2016	**2015**
Total revenues	$ 18,743	$ 18,715
Operating expenses	(8,689)	(8,421)
General and administrative expenses	(894)	(763)
Depreciation and amortization	(1,284)	(1,222)
Interest expense, net	(4,152)	(1,867)
Net income and comprehensive income	**$ 3,724**	**$ 6,442**

	Year Ended December 31	
	2016	**2015**
Funds from Operations	$ 5,008	$ 7,664
Core Funds from Operations	5,055	7,670
Net Operating Income	9,160	9,531

	December 31	
	2016	**2015**
Total assets	$ 36,053	$ 35,558
Total liabilities	72,693	32,573
Members' equity/(deficit)	(36,640)	2,985

Review and Comparison of Operational Results of the Nashville Property for the Years Ended December 31, 2016 and 2015

Total Revenues

	Year Ended December 31			
	2016	**2015**	**Variance**	**%**
Rooms	$ 17,323	$ 17,460	$ (137)	-0.8%
Food and beverage	96	136	(40)	-29.4%

	Year Ended December 31			
	2016	2015	Variance	%
Other	1,324	1,119	205	18.3%
Total revenues	**$ 18,743**	**$ 18,715**	**$ 28**	**0.1%**

Room revenue consists of income related to the rental of hotel rooms. Food and beverage revenue is comprised of revenues from the sale of food and beverage to hotel guests while other revenue consists of all other income generated by the Nashville Property. Total revenue increased $28, or 0.1%, to $18,743 for the year ended December 31, 2016 compared to $18,715 for the year ended December 31, 2015. The increase in revenue is immaterial however the planned development within the sub-market may lead to higher revenue in future years. For 2016, occupancy, ADR and RevPAR for the Nashville Property was 76.8%, $215.57 and $165.65, respectively, as compared to 82%, $203.38 and $166.84, respectively, for 2015.

Operating Expenses

	Year Ended December 31			
	2016	2015	Variance	%
Payroll and employee related costs	$ 2,394	$ 2,001	$ 393	19.6%
Property management fees	937	936	1	0.1%
Repairs and maintenance	183	165	18	10.9%
Utilities	435	424	11	2.6%
Property taxes and insurance	422	405	17	4.2%
Cost of goods sold	2,285	2,269	16	0.7%
Franchise fees	1,484	1,573	(89)	-5.7%
Franchise and excise taxes	423	528	(105)	-19.9%
Other operating expenses	126	120	6	5.0%
Operating expenses	**$ 8,689**	**$ 8,421**	**$ 268**	**3.2%**

Operating expenses are comprised mainly of costs associated with the management and maintenance of the property including maintenance, payroll, insurance and the costs associated with deriving the food and beverage revenue and franchise fees paid to the franchisor. These expenses increased by $268, or 3.2%, to $8,689 for the year ended December 31, 2017 compared to $8,421 for the year ended December 31, 2016. The increase in expenses as compared to the prior period was primarily driven by increases in payroll expenses, specifically housekeeping and sales, and was slightly offset by lower franchise and excise taxes and franchise fee in the comparative period.

General and Administrative Expenses

	Year Ended December 31			
	2016	2015	Variance	%
Marketing	$ 534	$ 440	$ 94	21.4%
Asset management fees	208	208	–	0.0%
Other administrative expenses	152	115	37	32.2%
General and administrative expenses	**$ 894**	**$ 763**	**$ 131**	**17.2%**

General and administrative expenses increased by $131, or 17.2%, to $894 for the year ended December 31, 2016 compared to $763 for the year ended December 31, 2015. The increase as compared to the prior period was primarily attributable to an increase advertising and trade show expenses.

Interest Expense, Net

	Year Ended December 31			
	2016	2015	Variance	%
Interest on debt	$ 4,105	$ 1,861	$ 2,244	120.6%
Amortization of deferred financing costs	47	6	41	683.3%
Interest expense, net	**$ 4,152**	**$ 1,867**	**$ 2,285**	**122.4%**

Interest expense, net consists of interest expense on loans and borrowings, amortization of deferred financing costs, amortization of issuance (premium) discounts and interest paid on hedging instruments which are recognized in profit or loss. Interest expense, net increased by $2,285, or 122.4%, to $4,152 for the year ended December 31, 2016 compared to $1,867 for the year ended December 31, 2015. The increase as compared to the prior period was attributable to the higher note balance as a result of the refinancing in 2016, which included the payment of $1,180 of defeasance costs in connection with the early repayment of the prior loan on June 10, 2016.

Net Income and Comprehensive Income

	Year Ended December 31			
	2016	2015	Variance	%
Net Income and comprehensive income	$ 3,724	$ 6,442	$ (2,718)	-42.2%

Net income and comprehensive income decreased by $2,718, or 42.2%, to $3,724 for the year ended December 31, 2016 as compared to $6,442 for the year ended December 31, 2015. As discussed above, this decrease was primarily due to the following components of net income and comprehensive income:

- an increase of $268 in operating expenses due to higher payroll expenses for housekeeping and sales personnel; and

- an increase in interest expense, net of $2,285 related to the higher note balance as a result of the refinancing on June 10, 2016, which included defeasance costs due to the early repayment of the loan;

Funds from Operations, Core Funds from Operations, Adjusted Funds from Operations, Net Operating Income and Net Operating Income Margin

Results of the Nashville Property for the Years Ended December 31, 2016 and December 31, 2015

Set out below is a reconciliation of the unaudited FFO, CFFO, NOI and NOI Margin for the year ended December 31, 2016 and 2015:

	Year Ended December 31	
	2016	2015
Net income	$ 3,724	$ 6,442
Depreciation and amortization	1,284	1,222
Funds from Operations	**5,008**	**7,664**

	Year Ended December 31	
	2016	2015
Deferred financing costs	47	6
Core Funds from Operations	**$ 5,055**	**$ 7,670**

	Year Ended December 31	
	2016	2015
Total revenues	$ 18,743	$ 18,715
Total operating expenses	(9,583)	(9,184)
Net Operating Income	**$ 9,160**	**$ 9,531**
Net Operating Income margin	48.9%	50.9%

Financial Statement Analysis of the Nashville Property as of and for the Years Ended December 31, 2016 and December 31, 2015

The following table highlights selected financial information for the Nashville Property as of December 31, 2016 and December 31, 2015. This information has been compiled from, and should be read in conjunction with, the consolidated financial statements of the Nashville Property and the notes thereto included elsewhere in this prospectus.

	December 31	
	2016	2015
Total current assets	$ 2,299	$ 3,044
Property and equipment, net	33,754	32,514
Total assets	**36,053**	**35,558**
Total current liabilities	2,273	1,202
Note payable, net	70,420	31,371
Total liabilities	**72,693**	**32,573**
Members' equity/deficit	**$ (36,640)**	**$ 2,985**

Total Current Assets

	December 31			
	2016	2015	Variance	%
Cash and cash equivalents	$ 894	$ 1,334	$ (440)	-33.0%
Restricted cash	845	1,082	(237)	-21.9%
Trade and other receivables	192	430	(238)	-55.3%
Prepaid and other assets	368	198	170	85.9%
Total current assets	**$ 2,299**	**$ 3,044**	**$ (745)**	**-24.5%**

Total current assets are comprised of cash and cash equivalents, restricted cash, receivables, prepaid expenses and other assets. Total current assets decreased by $745, or 24.5%, to $2,299 as of December 31, 2016 compared to $3,044 as of December 31, 2015. The decrease as compared to the prior period was primarily due to a

decrease in cash, restricted cash and receivables, offset by an increase in prepaid and other assets related to prepaid taxes and insurance.

Property and Equipment, Net

	December 31			
	2016	2015	Variance	%
Land	$ 5,440	$ 5,440	$ –	0.0%
Buildings and improvements	34,118	34,118	–	0.0%
Furniture, fixtures and equipment	4,902	4,612	290	6.3%
Construction in progress	2,173	–	2,173	0.0%
Total property and equipment	46,633	44,170	2,463	5.6%
Accumulated depreciation	(12,879)	(11,656)	(1,223)	10.5%
Total property and equipment, net	**$ 33,754**	**$ 32,514**	**$ 1,240**	**3.8%**

Property and equipment, net includes land, buildings, improvements, as well as furniture, fixtures and equipment, reduced by accumulated depreciation. Land, buildings, improvements and furniture, fixtures and equipment are measured initially at cost, including transaction costs. Subsequent to initial recognition, these assets are measured at historical cost or fair value, whichever is lower. Subsequent capital expenditures are added to the carrying value of the assets only when it is probable that future economic benefits will flow to the property and the cost can be measured reliably.

Property and equipment, net increased by $1,240, or 3.8%, to $33,754 as of December 31, 2017 compared to $32,514 as of December 31, 2016. The increase as compared to the prior period was attributable primarily to increased construction in progress related to the renovations to the property, offset by increased accumulated depreciation.

Note Payable, Net

Note payable, net includes the outstanding balance of the note payable on the Nashville Property reduced by the unamortized deferred financing cost and the current portion of note payable and totaled $70,420 as of December 31, 2016, compared to $31,371 as of December 31, 2015, representing an increase of $39,049, or 124.5%. The increase was attributable to higher note balance of the new note as compared to the refinanced note.

Cash Flows of the Nashville Property for the Years Ended December 31, 2016 and December 31, 2015

The Nashville Property reported a cash balance of $894 as of December 31, 2016 as compared to a cash balance of $1,333 as of December 31, 2015. The changes in cash flow for the years ended December 31, 2017 and 2016 are as follows:

	Year Ended December 31	
	2016	2015
Cash flow provided by (used in):		
Operating activities	$ 9,004	$ 9,369
Investing activities	(2,226)	(133)
Financing activities	(7,218)	(8,951)
Increase (decrease) in cash and cash equivalents	(440)	285
Cash and cash equivalents, beginning of period	1,334	1,049
Cash and cash equivalents, end of period	**$ 894**	**$ 1,334**

Operating activities for the year ended December 31, 2016 and 2015

Cash flows from operating activities for the year ended December 31, 2016 generated a net cash inflow of $9,004 compared to a net cash inflow of $9,369 for the year ended December 31, 2015. The decrease in cash flows from operating activities as compared to the prior period was largely driven by a decrease in operating income, which was attributable to higher interest expenses in 2016 as compared to the prior period.

Investing activities for the year ended December 31, 2016 and 2015

Cash flows used in investing activities for the year ended December 31, 2016 resulted in a net cash outflow of $2,226 compared to a net cash outflow of $133 for the year ended December 31, 2015. The increase in net cash outflows from investing activities as compared to the prior period was primarily due to an increase in the additions to property and equipment, offset by an increase in restricted cash related to lender required replacement reserves.

Financing activities for the year ended December 31, 2016 and 2015

Cash flows used in financing activities for the year ended December 31, 2016 resulted in a net cash outflow of $7,218 compared to a net cash outflow of $8,951 for the year ended December 31, 2015. The decrease in net cash outflows from financing activities as compared to the prior period was driven by higher distributions to members, higher principal payments on the note and higher mortgage proceeds received as a result of the refinancing. The additional proceeds were used to pay a larger dividend to the members than the prior period.

Transactions with Related Parties

For the year ended December 31, 2016 the Company had the following transactions with related parties:

An affiliate of the member provided management and advisory services to the Company for a fee. For the year ended December 31, 2016, asset management fees were $208 and are included in general and administrative expenses in the consolidated statements of comprehensive income.

The Company has an asset management agreement with an affiliate of the member. For the year ended December 31, 2016, property management fees and oversight management fees totaled $937 and are included in operating expenses in the consolidated statements of comprehensive income.

Certain labor costs are reimbursed to entities affiliated with the member. The labor costs are mainly for on-site maintenance and other labor costs related to property management and hotel services. For the year ended December 31, 2016, labor costs incurred totaled to $2,394 and are included in operating expenses in the consolidated statements of comprehensive income.

Critical Accounting Estimates and Assumptions

Management makes estimates and assumptions concerning the future. The resulting accounting estimates may differ from actual results. The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial period are outlined below. Further information is set forth in Note 4 of the consolidated financial statements.

Property and Equipment, Net

Property and equipment, net is recorded at historical cost less accumulated depreciation and any accumulated impairment losses. Real estate fair values for all other periods presented were determined internally by management through an impairment analysis process. For the internal valuations, a direct capitalization income method was used to calculate fair value. In determining estimates of fair value of the property and equipment, the assumptions underlying estimated values are limited by the availability of comparable data and the uncertainty of predictions concerning future events.

The primary assumptions underpinning the fair value determination are capitalization rates and stabilized net operating income. The estimates used when determining the fair value of real estate are capitalization rates and stabilized future net operating income. The capitalization rate applied is reflective of the characteristics, location and market of each property. The stabilized future cash flows of each real estate property are based upon rental income from current income and assumptions about occupancy rates and RevPAR. In addition, there is a normalized management fee allowance and capital expenditure reserve taken into consideration when determining future property cash flows. For fair values determined internally, management utilized internal financial information, external market data and capitalization rates provided by independent industry experts and other periodic third-party appraisals.

Significant Accounting Policies

A summary of significant accounting policies is set forth in Note 3 of the combined and carve-out financial statements.

INTERIM MD&A – QUARTERLY HIGHLIGHTS

The Initial Portfolio for the Nine Months and Three Months Ended September 30, 2018 and 2017 Overview (or other applicable periods as noted below)

The following discusses the financial condition and results of operations and changes thereto of the historical information relating to each component of the Initial Portfolio and should be read in conjunction with the financial statements (collectively, the "**Financials**") of the Initial Portfolio contained in this prospectus. The Financials for 2325 Stemmons Hotel Partners, LLC and Birchmont H.I. Nashville Partners LLC consist of the statements of financial position as of September 30, 2018 and December 31, 2017, respectively, along with the statements of net income (loss) and comprehensive income (loss), statements of members' equity/deficit and statements of cash flows for the nine months and three months ended September 30, 2018 and 2017, respectively.

NREO NW Hospitality, LLC purchased the DT Portfolio on May 3, 2018 from BRE GM Hotel JV, LLC. As such, 2018 financials are shown from January 1, 2018 through May 3, 2018 and from January 1 through December 31, 2017 for the DT Portfolio and a separate set of financials presents the results for NREO NW Hospitality, LLC from May 3, 2018 through September 30, 2018.

The HWS portfolio was purchased by HCBH 11611 Ferguson, LLC on May 4, 2017. As such, financial information for HCBH 11611 Ferguson, LLC and the HWS Portfolio is only presented below for the periods from May 4, 2018 to September 30, 2018 and from May 4, 2017 to September 30, 2017.

Pallas, LLC sold the St. Pete Property to NHT SP Parent, LLC on September 24, 2018. The Financials for Pallas, LLC consist of the statements of financial position as of September 24, 2018 and December 31, 2017, respectively, along with the statements of net income (loss) and comprehensive income (loss), statements of members' equity/deficit and statements of cash flows for the period ended September 24, 2018 and September 30, 2017, respectively.

Review and Comparison of Operational Results of the HGI Property for the Nine Months Ended September 30, 2018 and 2017

Total Revenues

	Nine Months Ended September 30			
	2018	2017	Variance	%
Rooms	$ 6,019	$ 5,970	$ 49	0.8%
Food and beverage	891	991	(100)	–10.1%
Other	114	108	6	5.6%
Total revenues	**$ 7,024**	**$ 7,069**	**$ (45)**	**–0.6%**

Room revenue consists of income related to the rental of hotel rooms. Food and beverage revenue is comprised of revenues from the sale of food and beverage to hotel guests while other revenue consists of all other income generated by the HGI Property. Total revenue decreased $45, or 0.6%, to $7,024 for the nine months ended September 30, 2018 compared to $7,069 for the nine months ended September 30, 2017. The decrease in revenue as compared to the prior period is primarily attributable to lower food and beverage revenue. Specifically, compared to the nine months ended September 30, 2017, total food and beverage revenue decreased by 10.1% during the nine months ended September 30, 2018. The increased competition in the sub-market continued to weigh on the growth in revenue at the HGI Property. An additional reason for a decrease in total revenue was the sharp decline in food and beverage revenue. This was the result of a change made to the menu and pricing of food and beverage items in an attempt to attract more business for top line room rental growth, which was up slightly in the current period. For the nine months ended September 30, 2018, occupancy, ADR and RevPAR for the HGI Property was 74.5%, $121.71 and $90.67, respectively, as compared to 72.5%, $122.93 and $89.17, respectively, for full year 2017.

Operating Expenses

	Nine Months Ended September 30			
	2018	2017	Variance	%
Payroll	$ 1,614	$ 1,573	$ 41	2.6%
Repairs and maintenance	293	293	–	0.0%
Utilities	211	205	6	2.9%
Property taxes and insurance	420	358	62	17.3%
Cost of goods sold	396	444	(48)	–10.8%
Franchise fees	332	330	2	0.6%
Other operating expenses	331	295	36	12.2%
Operating expenses	**$ 3,597**	**$ 3,498**	**$ 99**	**2.8%**

Operating expenses are comprised mainly of costs associated with the management and maintenance of the property including maintenance, payroll, insurance and the costs associated with deriving the food and beverage revenue and franchise fees paid to the franchisor. These expenses increased by $99, or 2.8%, to $3,597 for the nine months ended September 30, 2018 compared to $3,498 for the nine months ended September 30, 2017. The increase in expenses as compared to the prior period was primarily driven by an increase in payroll expenses and in property taxes and was partially offset by a decrease in costs of goods sold as a result of lower food and beverage sales.

General and Administrative Expenses

	Nine Months Ended September 30			
	2018	2017	Variance	%
Property management fees	$ 210	$ 326	$ (116)	–35.6%
Office operations	291	327	(36)	–11.0%
Marketing	817	726	91	12.5%
Other administrative expenses	186	116	70	60.3%
General and administrative expenses	**$ 1,504**	**$ 1,495**	**$ 9**	**0.6%**

General and administrative expenses are comprised of the costs to market the services of the property, management fees paid to the Manager and general costs of operating the business. General and administrative expenses increased by $9, or 0.6%, to $1,504 for the nine months ended September 30, 2018 compared to $1,495 for the nine months ended September 30, 2017. The increase as compared to the prior period was primarily attributable to an increase in marketing and other expenses, partially offset by a decrease in property management fees and office operations.

Interest Expense, Net

	Nine Months Ended September 30			
	2018	2017	Variance	%
Interest on debt	$ 947	$ 804	$ 143	17.8%
Amortization of deferred financing costs	54	54	–	0.0%
Interest expense, net	**$ 1,001**	**$ 858**	**$ 143**	**16.7%**

Net interest expense consists of interest expense on the note payable and amortization of deferred financing costs. Net interest expense increased by $143, or 16.7%, to $1,001 for the nine months ended September 30, 2018 compared to $858 for the nine months ended September 30, 2017. The increase was attributable to increases in one-month LIBOR during 2018 as compared to the same period in 2017.

Income Tax Expense

	Nine Months Ended September 30			
	2018	2017	Variance	%
Income tax expense	$ 2	$ 22	$ (20)	-90.9%

Income tax expense consists of the income tax recorded for 2325 Stemmons TRS, Inc., which is a taxable REIT subsidiary. Income tax expense decreased by $20, or 90.9%, to $2 for the nine months ended September 30, 2018 compared to $22 for the nine months ended September 30, 2017. The decrease between periods was attributable to lower taxable income in 2018.

Net Income and Comprehensive Income

	Nine Months Ended September 30			
	2018	2017	Variance	%
Net income (loss) and comprehensive income (loss)	$ (174)	$ 133	$ (307)	–230.8%

Net income and comprehensive income decreased by $307, or 230.8%, to a net loss of $174 for the nine months ended September 30, 2018 as compared to net income of $133 for the nine months ended September 30, 2017. As discussed above, this decrease was primarily due to a net increase in the following components of net income and comprehensive income:

- a decrease in total revenue of $45 resulting primarily from decreases food and beverage revenue;
- an increase in operating expenses of $99 resulting from increases in payroll and property taxes and partially offset by costs of providing food and beverage;
- an increase in net interest expense of $143, primarily driven by increases in one-month LIBOR during 2018; and
- a decrease in income tax expense of $20 as a result of lower taxable income in 2018.

Funds from Operations, Core Funds from Operations, Net Operating Income and Net Operating Income Margin Results of the HGI Property for the Nine Months Ended September 30, 2018 and 2017

Set out below is a reconciliation of the unaudited FFO, CFFO, NOI and NOI Margin for the nine months ended September 30, 2018 and 2017:

	Nine Months Ended September 30		Three Months Ended September 30	
	2018	2017	2018	2017
Net income (loss)	$ (174)	$ 133	$(179)	$(126)
Depreciation	1,094	1,063	365	356
Funds from Operations	**920**	**1,196**	**186**	**230**
Deferred financing costs	54	54	18	18
Income tax expense	2	22	—	22
Core Funds from Operations	**$ 976**	**$ 1,272**	**$204**	**$270**

	Nine Months Ended September 30		Three Months Ended September 30	
	2018	2017	2018	2017
Total revenues	$ 7,024	$ 7,069	$2,239	$2,211
Total operating expenses	(5,101)	(4,993)	(1,708)	(1,664)
Net Operating Income	**$ 1,923**	**$ 2,076**	**$531**	**$547**
Net Operating Income margin	27.4%	29.4%	23.7%	24.7%

Financial Statement Analysis of the HGI Property as of September 30, 2018 and December 31, 2017

The following table highlights selected financial information for the HGI Property as of September 30, 2018 and December 31, 2017. This information has been compiled from, and should be read in conjunction with the consolidated financial statements of the Company and the notes thereto included elsewhere in this prospectus.

	September 30 2018	December 31 2017
Total current assets	$ 1,572	$ 3,140
Property and equipment, net	27,074	28,025
Total assets	**28,646**	**31,165**
Total current liabilities	2,093	2,148
Note payable, net	20,662	20,922
Total liabilities	**22,755**	**23,070**
Members' equity	**$ 5,891**	**$ 8,095**

Total Current Assets

	September 30 2018	December 31 2017	Variance	%
Cash and cash equivalents	$ 1,355	$ 2,969	$ (1,614)	–54.4%
Trade and other receivables	138	113	(25)	–22.1%
Prepaid and other assets	79	58	(21)	–36.2%
Total current assets	**$ 1,572**	**$ 3,140**	**$ (1,568)**	**–49.9%**

Total current assets are comprised of cash and cash equivalents, restricted cash, receivables, prepaid expenses and other assets. Total current assets decreased by $1,568, or 49.9%, to $1,572 as of September 30, 2018 compared to $3,140 as of December 31, 2017. The decrease was primarily due to an increase in cash distributions paid to the members.

Property and Equipment, Net

	September 30 2018	December 31 2017	Variance	%
Land	$ 2,555	$ 2,555	$ –	0.0%
Buildings and improvements	26,018	25,922	96	0.4%
Furniture, fixtures and equipment	3,148	3,101	47	1.5%
Total property and equipment	31,721	31,578	143	0.5%
Accumulated depreciation	(4,647)	(3,553)	(1,094)	30.8%
Total property and equipment, net	**$ 27,074**	**$ 28,025**	**$ (951)**	**–3.4%**

Property and equipment, net includes land, building and building improvements, as well as furniture, fixtures and equipment, reduced by accumulated depreciation. Land, buildings, improvements and furniture, fixtures and equipment are measured initially at cost, including transaction costs. Subsequent to initial recognition, these assets are measured at historical cost or fair value, whichever is lower. Subsequent capital expenditures are added to the carrying value of the assets only when it is probable that future economic benefits will flow to the property and the cost can be measured reliably.

Property and equipment, net decreased by $951, or 3.4%, to $27,074 as of September 30, 2018 compared to $28,025 as of December 31, 2017. The decrease was attributable primarily to increased accumulated depreciation, offset slightly by additions to buildings and improvements and furniture, fixtures and equipment.

Note Payable, Net

Note payable, net includes the outstanding balance of the note payable on the HGI Property reduced by the unamortized deferred financing cost and totaled $20,662 as of September 30, 2018, compared to $20,922 as of December 31, 2017, representing a decrease of $260, or 1.2%. The decrease was primarily attributable to amortization of deferred financing costs. As of September 30, 2018, the aggregate principal repayments in the next five years, and thereafter, or until maturity if shorter, are as follows:

	Note Payable
2018	$ 66
2019	271
2020	20,721
2021	–
2022	–
Thereafter	–
Note payable	**21,058**
Current maturities	(307)
Net unamortized deferred financing costs	(89)
Note payable, net	**$ 20,662**

Cash Flows of the HGI Property for the Nine Months Ended September 30, 2018 and 2017

The HGI Property reported a cash balance of $1,354 as of September 30, 2018 as compared to a cash balance of $2,763 as of September 30, 2017. The changes in cash flow for the nine months ended September 30, 2018 and 2017 are as follows:

	Nine Months Ended September 30		Three Months Ended September 30	
	2018	**2017**	**2018**	**2017**
Cash flow provided by (used in):				
Operating activities	$ 1,459	$ 1,657	$587	$734
Investing activities	204	182	(25)	(89)
Financing activities	(3,278)	(1,033)	(411)	(386)
Increase (decrease) in cash and cash equivalents	(1,615)	806	151	259
Cash and cash equivalents, beginning of period	2,969	1,957	1,204	2,504
Cash and cash equivalents, end of period	**$ 1,354**	**$ 2,763**	**$1,355**	**$2,763**

Operating activities for the nine months ended September 30, 2018 and 2017

Cash flows from operating activities for the nine months ended September 30, 2018 generated a net cash inflow of $1,459 compared to a net cash inflow of $1,657 for the nine months ended September 30, 2017. The decrease in cash inflows from operating activities was largely driven by lower net income and higher interest payments.

Investing activities for the nine months ended September 30, 2018 and 2017

Cash flows used in investing activities for the nine months ended September 30, 2018 resulted in a net cash inflow of $204 compared to a net cash inflow of $182 for the nine months ended September 30, 2017. The increase in net cash outflows from investing activities was primarily due to lower additions to restricted cash.

Financing activities for the nine months ended September 30, 2018 and 2017

Cash flows used in financing activities for the nine months ended September 30, 2018 resulted in a net cash outflow of $3,278 compared to a net cash outflow of $1,033 for the nine months ended September 30, 2017. The increase in net cash outflows from financing activities was driven by higher distributions paid to members.

Transactions with Related Parties

For the nine months ended September 30, 2018 and 2017, there were no transactions with related parties.

Subsequent Events

The Company evaluated subsequent events through March 27, 2019 to determine if any significant events occurred subsequent to the balance sheet dates that would have a material impact on these consolidated financial statements. On January 8, 2019, the Company was contributed to a newly formed entity, NHT 2325 Stemmons, LLC, which was immediately contributed to the OP in exchange for 3,944,221 Class B Units of the OP.

Critical Accounting Estimates and Assumptions

Management makes estimates and assumptions concerning the future. The resultant accounting estimates may differ from actual results. The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial period are outlined below. Further information is set forth in Note 3 of the consolidated financial statements presented in this prospectus.

Property and Equipment, Net

Property and equipment, net is recorded at historical cost less accumulated depreciation and any accumulated impairment losses. Real estate fair values for all other periods presented were determined internally by management through an impairment analysis process. For the internal valuations, a direct capitalization income method was used to calculate fair value. In determining estimates of fair value of the property and equipment, the assumptions underlying estimated values are limited by the availability of comparable data and the uncertainty of predictions concerning future events.

The primary assumptions underpinning the fair value determination are capitalization rates and stabilized net operating income. The estimates used when determining the fair value of real estate are capitalization rates and stabilized future net operating income. The capitalization rate applied is reflective of the characteristics, location and market of each property. The stabilized future cash flows of each real estate property are based upon rental income from current income and assumptions about occupancy rates and RevPAR. In addition, there is a normalized management fee allowance and capital expenditure reserve taken into consideration when determining future property cash flows. For fair values determined internally, management utilized internal financial information, external market data and capitalization rates provided by independent industry experts and other periodic third-party appraisals.

Significant Accounting Policies

A summary of significant accounting policies is set forth in Note 3 of the consolidated financial statements.

Liquidity, Capital Resources and Contractual Commitments

A summary of future debt obligations, based on principal debt maturities as of September 30, 2018, are as follows:

	Carrying amount	Contractual cash flows	1 year	More than 1 year
Note payable	$ 21,058	$ 21,058	$ 307	$ 20,751
Interest payable on note	–	1,636	1,312	324
Total	**$ 21,058**	**$ 22,694**	**$ 1,619**	**$ 21,075**

Additionally, the REIT's strategy entails performing renovations to newly acquired properties and under the Franchise Agreement, a further requirement exists to fund periodic property improvement plans ("**PIPs**"). The HGI Property completed an extensive renovation in 2015. Other than normal maintenance only a moderate change to the lobby bar and dining area will be required by the spring of 2021, and no additional capital expenditures will be required for the HGI Property until the next PIP. Although the costs and timing of the next PIP are not known, we estimate the costs will approximate $9,600 per room and will be required in the next 3-5 years. The Company reserves annually 4% of gross revenue for future PIP renovations. We believe these reserves together with free cash flow are sufficient to fund any future PIP programs.

Acquisitions

For the nine months ended September 30, 2018 and 2017, the Company had no acquisitions.

Dispositions

For the nine months ended September 30, 2018 and 2017, the Company had no dispositions.

Interim Management Discussion and Analysis – Quarterly Highlights for Third Quarter 2018

Discussion of business activities, financial condition, financial performance and cash flow of the Company for the three months ended September 30, 2018

During the three months ended September 30, 2018, the Company continued executing its business plan. Occupancy for the period was an average of 75.1% as compared to 75.2% for the same period in 2017. This compared favorably to the competitor set in the submarket, which had an average occupancy of 61.1% for the third quarter of 2018. Likewise, ADR and RevPar were stable year over year at $114.55 and $85.98, respectively, in the third quarter of 2018 as compared to $113.92 and $85.76, respectively in the same period in 2017 and compared favorably to the competitor set at $108.73 and $66.51, respectively.

Net income was lower in the third quarter 2018 by approximately $53 as compared to the same period in 2017. This was driven by higher payroll expenses, property tax expense and interest expense and was partially offset by higher revenue of $2,239 compared to $2,211, which was a factor of stable occupancy together with higher to stable ADR and RevPar.

Operating cash flow declined in the third quarter 2018 as compared to the same period in 2017 to cash inflow of $587 versus cash inflow of $734. The decline we driven primarily by higher payments of liabilities in the third quarter of 2018 as compared to the same period in 2017. Cash increased from $1,204 to $1,354 at September 30, 2018 as a result of higher cash flow from operating activities than the cash outflows from investing and financing activities. The Company paid $327 in interest payments, paid down the note by $85 in the quarter and paid $22 in income taxes from the Company's taxable REIT subsidiary. Interest expense increased $50 year over year driven by higher LIBOR rate.

NREO NW Hospitality, LLC
DoubleTree Beaverton, DoubleTree Bend, Double Tree Olympia, DoubleTree Tigard and DoubleTree Vancouver
*(collectively the "**DT Portfolio**")*

Review of Selected Financial and Operating Information of the DT Portfolio as of September 30, 2018 and for the period from May 3, 2018 through September 30, 2018 and for the Three Months Ended September 30, 2018

The following tables highlight selected financial information of the DT Portfolio as of September 30, 2018 and for the period from May 3, 2018 through September 30, 2018. This information has been compiled from, and should be read in conjunction with the consolidated financial statements of NREO NW Hospitality, LLC (the "Company") and notes thereto included elsewhere in this prospectus. Additionally, presented below is a summary of the unaudited FFO, CFFO, NOI and NOI Margin for the period from May 3, 2018 through September 30, 2018, with additional detail provided in "Funds from Operations, Core Funds from Operations, Net Operating Income and Net Operating Income Margin". Because the Company began operations in 2018, comparative information from the same period in 2017 is not presented.

	Period from May 3 (date of formation) to September 30,	Three Months Ended September 30
	2018	**2018**
Total revenues	$ 10,702	$ 6,757
Operating expenses	(4,096)	(2,609)
General and administrative expenses	(2,026)	(1,241)
Acquisition costs	(852)	—
Depreciation	(1,333)	(800)
Interest expense, net	(1,331)	(806)
Income tax expense	(320)	(126)

	Period from May 3 (date of formation) to September 30,	Three Months Ended September 30
	2018	**2018**
Funds from Operations	$ 2,077	$1,975
Core Funds from Operations	2,644	2,252
Net Operating Income	4,580	2,907

	September 30,
	2018
Total assets	$ 84,050
Total liabilities	62,598
Members' equity	21,452

Review and Comparison of Operational Results of the DT Portfolio for the Period From May 3, 2018 Through September 30, 2018

Total Revenues

	Period from May 3 (date of formation) to September 30,	Three Months Ended September 30
	2018	2018
Rooms	$ 10,153	$6,442
Food and beverage	456	278
Other	93	37
Total revenues	**$ 10,702**	**$6,757**

Room revenue consists of income related to the rental of hotel rooms. Food and beverage revenue is comprised of revenues from the sale of food and beverage to hotel guests while other revenue consists of all other income generated by the Company. Total revenue was $10,702 for the period from May 3, 2018 to September 30, 2018, driven primarily by revenues from room rentals.

Operating Expenses

	Period from May 3 (date of formation) to September 30,	Three Months Ended September 30
	2018	2018
Payroll	$ 2,054	$1,305
Repairs and maintenance	215	140
Utilities	271	174
Property taxes and insurance	271	169
Cost of goods sold	157	102
Franchise fees	534	338
Other operating expenses	594	381
Operating expenses	**$ 4,096**	**$2,609**

Operating expenses are comprised mainly of costs associated with the management and maintenance of the property including maintenance, payroll, insurance and the costs associated with deriving the food and beverage revenue and franchise fees paid to the franchisor. Operating expenses were $4,096 for the period, driven largely by payroll, franchise fees and other operating expenses. It is anticipated there will be a sharp increase in revenue across the DT Portfolio in 2019 as the renovations to the properties is completed. For the nine month period ended September 30, 2018, occupancy, ADR and RevPAR for the DT Portfolio was 76.7%, $141.16 and $108.60.

General and Administrative Expenses

	Period from May 3 (date of formation) to September 30,	Three Months Ended September 30
	2018	2018
Property management fees	$ 323	$204
Office operations	489	278
Marketing	875	561
Other administrative expenses	339	198
General and administrative expenses	**$ 2,026**	**$1,241**

General and administrative expenses are comprised of the costs to market the services of the property, management fees paid to the Manager and general costs of operating the business. General and administrative expenses were $2,026 for the period and comprised primarily of marketing expenses.

Interest Expense, Net

	Period from May 3 (date of formation) to September 30,	Three Months Ended September 30
	2018	2018
Interest on debt	$ 1,084	$655
Amortization of deferred financing costs	247	151
Interest expense, net	**$ 1,331**	**$806**

Net interest expense consists of interest expense on the note payable and amortization of deferred financing costs. Net interest expense was $1,331 for the period.

Income Tax Expense

	Period from May 3 (date of formation) to September 30,	Three Months Ended September 30
	2018	2018
Income tax expense	$ 320	$126

Income tax expense consists of the income tax recorded for the taxable REIT subsidiary. Income tax expense for the period was $320.

Net Income and Comprehensive Income

	Period from May 3 (date of formation) to September 30,	Three Months Ended September 30
	2018	2018
Net income and comprehensive income	$ 744	$1,175

Net income and comprehensive income was $744 for the period.

Funds from Operations, Core Funds from Operations, Net Operating Income and Net Operating Income Margin Results of the DT Portfolio for the Period From May 3, 2018 through September 30, 2018

Set out below is a reconciliation of the unaudited FFO, CFFO, NOI and NOI Margin for the period from May 3, 2018 through September 30, 2018:

	Period from May 3 (date of formation) to September 30,	Three Months Ended September 30
	2018	**2018**
Net income	$ 744	$1,175

Core Funds from Operations	**$ 2,644**	**$2,252**

	Period from May 3 (date of formation) to September 30,	Three Months Ended September 30
	2018	**2018**
Total revenues	$ 10,702	$6,757
Total operating expenses	(6,122)	(3,850)
Net Operating Income	**$ 4,580**	**$2,907**
Net Operating Income margin	42.8%	43.0%

Financial Statement Analysis of the DT Portfolio as of September 30, 2018

The following table highlights selected financial information for the DT Portfolio as of September 30, 2018. This information has been compiled from, and should be read in conjunction with the consolidated financial statements of the Company and the notes thereto included elsewhere in this prospectus.

		September 30, 2018
Total current assets	$	$6,352
Total non-current assets		77,698
Total assets		**84,050**
Accounts payable and other accrued liabilities		1,793
Non-current liabilities		60,805
Total liabilities		62,598
Members' equity	**$**	**21,452**

Total Current Assets

		September 30, 2018
Cash and cash equivalents	$	4,717
Restricted cash		48
Trade and other receivables		507
Prepaid and other assets		1,080
Total current assets	**$**	**6,352**

Total current assets are comprised of cash and cash equivalents, restricted cash, receivables, prepaid expenses and other assets. Total current assets was $6,352 as of December 31, 2017. The primarily component of current assets is cash.

Property and Equipment, Net

		September 30, 2018
Land	$	10,416
Buildings and improvements		60,760
Furniture, fixtures and equipment		7,834
Construction in progress		–
Total property and equipment		79,009
Accumulated depreciation		(1,333)
Total property and equipment, net	**$**	**77,676**

Property and equipment, net includes land, building and building improvements, as well as furniture, fixtures and equipment, reduced by accumulated depreciation. Land, buildings, improvements and furniture, fixtures and equipment are measured initially at cost, including transaction costs. Subsequent to initial recognition, these assets are measured at historical cost or fair value, whichever is lower. Subsequent capital expenditures are added to

the carrying value of the assets only when it is probable that future economic benefits will flow to the property and the cost can be measured reliably.

Property and equipment, net as of September 30, 2018 was $77,676 and the primary component is buildings and improvements thereto.

Note Payable, Net

Note payable, net includes the outstanding balance of the note payable on the DT Portfolio reduced by the unamortized deferred financing cost and as of September 30, 2018 was $53,624. Mezzanine note, net includes the outstanding balance of the mezzanine note on the DT Portfolio reduced by the unamortized deferred financing cost and as of September 30, 2018 was $7,181. As of September 30, 2018, the aggregate principal repayments in the next five years, and thereafter, or until maturity if shorter, are as follows:

		Note Payable	Mezzanine Note
2018	$	–	–
2019		–	–
2020		–	–
2021		55,000	7,365

Note payable, net	**$**	**53,624**	**7,181**

Cash Flows of the DT Portfolio for the Period From May 3, 2018 Through September 30, 2018

The Company reported a cash balance of $4,717 as of September 30, 2018. The changes in cash flow for the period from May 3, 2018 to September 30, 2018 is as follows:

		Period from May 4 to September 30,	Three Months Ended September 30
		2018	2018
Cash flow provided by (used in):			
Operating activities	$	3,477	$3,224
Investing activities		(79,148)	(60)
Financing activities		80,389	(1,204)
Increase in cash and cash equivalents		4,717	1,960
Cash and cash equivalents, beginning of period		—	2,757
Cash and cash equivalents, end of period	**$**	**$4,717**	**$4,717**

Cash flows for the period from May 3, 2018 through September 30, 2018

For the period from May 3, 2018 to September 30, 2018 cash flows from operating activities was a net cash inflow of $3,477, cash flows used in investing was a net cash outflow of $79,148 and was driven primarily by acquisition of the DT Portfolio and sash flows used in financing activities was a net inflow of $80,389 and was the result of the original contributions by the members.

Transactions with Related Parties

For the period from May 3, 2018 through September 30, 2018, there were no transactions with related parties.

Subsequent Events

The Company evaluated subsequent events through March 27, 2019 to determine if any significant events occurred subsequent to the balance sheet dates that would have a material impact on these consolidated financial statements. On January 8, 2019, the Company was contributed to the OP in exchange for 9,629,170 Class B Units of the OP.

Critical Accounting Estimates and Assumptions

Management makes estimates and assumptions concerning the future. The resultant accounting estimates may differ from actual results. The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial period are outlined below. Further information is set forth in Note 3 of the consolidated financial statements presented in this prospectus.

Property and Equipment, Net

Property and equipment, net is recorded at historical cost less accumulated depreciation and any accumulated impairment losses. Real estate fair values for all other periods presented were determined internally by management through an impairment analysis process. For the internal valuations, a direct capitalization income method was used to calculate fair value. In determining estimates of fair value of the property and equipment, the assumptions underlying estimated values are limited by the availability of comparable data and the uncertainty of predictions concerning future events.

The primary assumptions underpinning the fair value determination are capitalization rates and stabilized net operating income. The estimates used when determining the fair value of real estate are capitalization rates and stabilized future net operating income. The capitalization rate applied is reflective of the characteristics, location and market of each property. The stabilized future cash flows of each real estate property are based upon rental income from current income and assumptions about occupancy rates and RevPAR. In addition, there is a normalized management fee allowance and capital expenditure reserve taken into consideration when determining future property cash flows. For fair values determined internally, management utilized internal financial information, external market data and capitalization rates provided by independent industry experts and other periodic third-party appraisals.

Significant Accounting Policies

A summary of significant accounting policies is set forth in Note 3 of the consolidated financial statements.

Liquidity, Capital Resources and Contractual Commitments

A summary of future debt obligations, based on principal debt maturities as of September 30, 2018, are as follows:

	Carrying amount	1 year	More than 1 year
Note payable	$ 55,000	$ –	$ 55,000
Mezzanine note	7,365	–	7,365
Interest payable on note	207	3,492	2,489
Total	**$ 62,527**	**$ 3,492**	**$ 64,854**

Additionally, the REIT's strategy entails performing renovations to newly acquired properties and under the Franchise Agreement, a further requirement exists to fund periodic property improvement plans ("**PIPs**"). The DT Portolio completed an extensive renovation in 2015 and is currently undergoing an additional $8,607 value add renovation. Other than normal maintenance no additional capital expenditures will be required for the DT Portfolio until the next PIP. Although the costs and timing of the next PIP are not known, we estimate the costs will approximate $10,000 - $15,000 per room and will be required in the next 6 years. The Company reserves annually 4% of gross revenue for future PIP renovations. We believe these reserves are sufficient to fund any future PIP programs.

Acquisitions

For the nine months ended September 30, 2018, the Company acquired a portfolio of five properties, the DT Portfolio as shown below:

	DoubleTree Beaverton	DoubleTree Bend	DoubleTree Olympia	DoubleTree Tigard	DoubleTree Vancouver	Total
Fair value of consideration transferred:						
Cash	$ 5,860	$ 6,653	$ 4,159	$ 34	$ 30	$ 16,735
Notes payable	10,437	15,793	10,025	9,407	9,338	55,000
Mezzanine debt	1,673	2,304	1,456	969	962	7,365
	$ 17,970	$ 24,750	$ 15,640	$ 10,410	$ 10,330	$ 79,100
Property and equipment	17,970	24,750	15,640	10,410	10,330	79,100
Fair value of net identifiable assets acquired and liabilities assumed	$ 17,970	$ 24,750	$ 15,640	$ 10,410	$ 10,330	$ 79,100

Dispositions

For the nine months ended September 30, 2018 and 2017, the Company had no dispositions.

Interim Management Discussion and Analysis – Quarterly Highlights for Third Quarter 2018

Discussion of business activities, financial condition, financial performance and cash flow of the Company for the three months ended September 30, 2018

During the three months ended September 30, 2018, the Company completed its first full calendar quarter since the purchase of the DT Portfolio in May 2018. The plan upon acquisition was to do an extensive renovation on each property, which began in October 2018. The REIT anticipates spending an additional $8.6 million or

$16,667 per room to complete the renovation, which will be funded by the mezzanine debt secured at the acquisition and cash flow from operations. It is estimated the renovations will be completed in May 2019.

For the third quarter, the Company continued transitioning the management from the prior owner and stabilizing operations in preparation for the renovation program. Occupancy for the period was an average of 84.9% which was down slightly for the same period in 2017 at 86.0%. This compared favorably to the competitor set in the submarket, which had an average occupancy of 76.3% for the third quarter of 2018. However, ADR and RevPar were up year over year at $157.23 and $134.19, respectively, in the third quarter of 2018 as compared to $153.79 and $132.44, respectively in the same period in 2017 and compared favorably to the competitor set at $128.04 and $98.63, respectively, for the third quarter 2018.

Net income was $1.175 for the third quarter 2018 which compared favorably to the net income for the period from May 3, 2018 to September 30, 2018, which was $744 but included acquisition costs. Revenues were strong driven by higher ADR and RevPar from the prior year and slightly offset by lower occupancy.

Operating cash flow was $3,224 in the third quarter 2018 as compared to $3,477 for the period from May 3, 2018 to September 30, 2018. Cash increased $1,960 during the quarter to $4,717 from $2,757The Company paid $651 in interest payments and paid a distribution of $553 during the quarter.

DoubleTree Portfolio

DoubleTree Beaverton, DoubleTree Bend, Double Tree Olympia, DoubleTree Tigard and DoubleTree Vancouver

Review of Selected Financial and Operating Information of the DT Portfolio as of May 3, 2018 and December 31, 2017 and for the Period from January 1, 2018 through May 3, 2018 and the Year ended December 31, 2017

The following tables highlight selected financial information of the DT Portfolio as of May 3, 2018 and December 31, 2017 and for the period from January 1, 2018 through May 3, 2018 and for the year ended December 31, 2017. This information has been compiled from, and should be read in conjunction with the combined financial statements of the DT Portfolio (the "Company") and notes thereto included elsewhere in this prospectus. Comparative data for the same period in 2017 was not available and therefore a comparison to the prior full year is included. Additionally, presented below is a summary of the unaudited FFO, CFFO, NOI and NOI Margin for the period from January 1, 2019 through May 3, 2018 and for the year ended December 31, 2017, with additional detail provided in "Funds from Operations, Core Funds from Operations, Net Operating Income and Net Operating Income Margin".

	Period from January 1 to May 3,	For the Year Ended December 31,
	2018	2017
Total revenues	$ 6,552	$ 21,878
Operating expenses	(3,370)	(10,180)
General and administrative expenses	(1,510)	(4,361)
Depreciation	(1,998)	(3,235)
Interest expense, net	(1,208)	(2,058)
Gain on sale	39,693	-
Net income and comprehensive income	**$ 38,159**	**$ 2,045**

	Period from January 1 to May 3,	For the Year Ended December 31,
	2018	2017
Funds from Operations	$ 40,157	$ 5,280
Core Funds from Operations	40,524	5,280
Net Operating Income	1,672	7,338

	May 3, 2018	December 31, 2017
Total assets	$ –	$ 42,382
Total liabilities	–	70,390
Members' equity	–	(28,008)

Review and Comparison of Operational Results of the DT Portfolio for the Period From January 1, 2018 through May 3, 2018

Total Revenues

	Period from January 1 to May 3,	For the Year Ended December 31,		
	2018	2017	Variance	%
Rooms	$ 6,106	$ 20,450	$ (14,344)	-70.1%
Food and beverage	446	1,428	(982)	-68.8%
Total revenues	**$ 6,552**	**$ 21,878**	**(15,326)**	**-70.1%**

Room revenue consists of income related to the rental of hotel rooms. Food and beverage revenue is comprised of revenues from the sale of food and beverage to hotel guests while other revenue consists of all other income generated by the Company. Total revenue for the period decreased $15,326 to $6,552. The decrease in revenue as compared to the prior period is primarily attributable to the eight months of additional results in 2017 as compared to 2018 as the Company sold all of its assets on May 3, 2018 and dissolved the entity.

Operating Expenses

	Period from January 1 to May 3,	For the Year Ended December 31,		
	2018	2017	Variance	%
Payroll	$ 1,798	$ 5,223	$ (3,425)	-65.6%
Repairs and maintenance	99	293	(194)	-66.2%
Utilities	207	588	(381)	-64.8%
Property taxes and insurance	253	735	(482)	-65.6%
Cost of goods sold	127	350	(223)	-63.7%
Franchise fees	299	1,033	(734)	-71.0%
Other operating expenses	587	1,959	(1,372)	-70.0%
Operating expenses	**$ 3,370**	**$ 10,180**	**$ (6,810)**	**-66.9%**

Operating expenses are comprised mainly of costs associated with the management and maintenance of the property including maintenance, payroll, insurance and the costs associated with deriving the food and beverage revenue and franchise fees paid to the franchisor. Operating expenses for the period decreased $6,810 to $3,370. The decrease in operating expenses as compared to the prior period is primarily attributable to the eight months of additional results in 2017 as compared to 2018 as BRE GM Hotel JV Holdings, LLC sold all of its assets on May 3, 2018 and dissolved.

General and Administrative Expenses

	Period from January 1 to May 3, 2018	For the Year Ended December 31, 2017	Variance	%
Property management fees	$ 213	$ 656	$ (443)	-67.5%
Office operations	430	827	(397)	-48.0%
Marketing	494	1,590	(1,096)	-68.9%
Other administrative expenses	373	1,288	(915)	-71.0%
General and administrative expenses	**$ 1,510**	**$ 4,361**	**$ (2,851)**	**-65.4%**

General and administrative expenses are comprised of the costs to market the services of the property, management fees paid to the Manager and general costs of operating the business. General and administrative expenses for the period decreased $2,851 to $1,510. The decrease as compared to the prior period is primarily attributable to the eight months of additional results in 2017 as compared to 2018 as BRE GM Hotel JV Holdings, LLC sold all of its assets on May 3, 2018 and dissolved.

Interest Expense, Net

	Period from January 1 to May 3, 2018	For the Year Ended December 31, 2017	Variance	%
Interest on debt	$ 940	$ 2,058	$ (1,118)	-54.3%
Amortization of deferred financing costs	268	—	268	0.0%
Interest expense, net	**$ 1,208**	**$ 2,058**	**$ (850)**	**-41.3%**

Net interest expense consists of interest expense on the note payable and amortization of deferred financing costs. Net interest expense for the period decreased $850 to $1,208. The decrease as compared to the prior period is primarily attributable to the eight months of additional results in 2017 as compared to 2018 as BRE GM Hotel JV Holdings, LLC sold all of its assets on May 3, 2018 and dissolved.

Net Income and Comprehensive Income

	Period from January 1 to May 3, 2018	For the Year Ended December 31, 2017	Variance	%
Net income and comprehensive income	$ 38,159	$ 2,045	$ 36,114	1766.2%

Net income and comprehensive income for the period increased $36,114. The increase was driven primarily by the gain on sale of the assets on May 3, 2018 and was partially offset by the fact that the prior period had eight months of additional results as compared to 2018.

Funds from Operations, Core Funds from Operations, Net Operating Income and Net Operating Income Margin Results of the DT Portfolio for the Period From January 1, 2018 through May 3, 2018

Set out below is a reconciliation of the unaudited FFO, CFFO, NOI and NOI Margin for the period from January 1, 2018 through May 3, 2018:

	Period from January 1 to May 3, 2018	For the Year Ended December 31, 2017
Net income	$ 38,159	$ 2,045
Depreciation	1,998	3,235
Funds from Operations	**40,157**	5,280
Deferred financing costs	268	—
Core Funds from Operations	**$ 40,524**	**$ 5,280**

	Period from January 1 to May 3, 2018	For the Year Ended December 31, 2017
Total revenues	$ 6,552	$ 21,878
Total operating expenses	(4,880)	(14,541)
Net Operating Income	**$ 1,672**	**$ 7,338**
Net Operating Income margin	25.5%	33.5%

Financial Statement Analysis of the DT Portfolio as of May 3, 2018

The following table highlights selected financial information for the DT Portfolio as of May 3, 2018. This information has been compiled from, and should be read in conjunction with the combined financial statements of the Company and the notes thereto included elsewhere in this prospectus.

	May 03, 2018	December 31, 2017
Total current assets	$ –	$ 3,122
Total non-current assets	–	39,260
Total assets	–	**42,382**
Total current liabilities	–	1,177
Total non-current liabilities	–	69,213
Total liabilities	–	**70,390**
Members' Equity	**$ –**	**$ (28,008)**

Total Current Assets

	May 03 2018	December 31 2017
Cash and cash equivalents	$ –	$ 580
Trade and other receivables	–	2,087
Prepaid and other assets	–	455
Total current assets	**$ –**	**$ 3,122**

Total current assets are comprised of cash and cash equivalents, restricted cash, receivables, prepaid expenses and other assets. Total current assets were $0 as of May 3, 2018 as BRE GM Hotel JV Holdings, LLC sold all of its assets on May 3, 2018 and dissolved. As of December 31, 2017, total current assets were $3,122 with the primary component being receivable.

Property and Equipment, Net

	May 03 2018	December 31 2017
Land	$ –	$ 5,024
Buildings and improvements	–	43,374
Furniture, fixtures and equipment	–	17,615
Total property and equipment	–	66,013
Accumulated depreciation	–	(26,753)
Total property and equipment, net	**$ –**	**$ 39,260**

Property and equipment, net includes land, building and building improvements, as well as furniture, fixtures and equipment, reduced by accumulated depreciation. Land, buildings, improvements and furniture, fixtures and equipment are measured initially at cost, including transaction costs. Subsequent to initial recognition, these assets are measured at historical cost or fair value, whichever is lower. Subsequent capital expenditures are added to the carrying value of the assets only when it is probable that future economic benefits will flow to the property and the cost can be measured reliably.

Property and equipment, net was $0 as of May 3, 2018 as BRE GM Hotel JV Holdings, LLC sold all of its assets on May 3, 2018 and dissolved. As of December 31, 2017, property and equipment, net was $39,260 with the primary components being buildings and improvements and furniture, fixtures and equipment.

Note Payable, Net

Note payable, net, mezzanine loan, net and related party mezzanine loans, net (collectively the "Indebtedness") includes the outstanding balances of the note payable on the DT Portfolio reduced by the unamortized deferred financing cost. As of May 3, 2018 the balance of the Indebtedness was $0 as the proceeds from the sale of the DT Portfolio was used primarily to pay down the outstanding Indebtedness. As of December 31, 2017 the carrying value of the Indebtedness was $69,213.

Cash Flows of the DT Portfolio for the Period From January 1, 2018 Through May 3, 2018

The DT Portfolio reported a cash balance of $0 as of May 3, 2018 as compared to a cash balance of $580 as of December 31, 2017. The changes in cash flow for the period ended May 23, 2018 and the year ended December 31, 2017 are as follows:

	Period from January 1 to May 3	For the Year Ended December 31,
	2018	2017
Cash flow provided by (used in):		
Operating activities	$ 1,829	$ 3,346
Investing activities	78,501	(1,534)
Financing activities	(80,910)	(1,546)
Decrease in cash and cash equivalents	(580)	265
Cash and cash equivalents, beginning of period	580	315
Cash and cash equivalents, end of period	**$ 0**	**$ 580**

Cash flows for the period from January 1, 2018 through May 3, 2018 and for the year ended December 31, 2017

Cash flows from operating activities for the period generated a net cash inflow of $1,829 as compared to a net cash inflow of $3,346 for the year ended December 31, 2017. The difference was the result of eight months more results in 2017 as compared to the period in 2018. Cash flows used in investing activities for the period was a net cash inflow of $78,501 and was driven by the sale of all BRE GM Hotel JV Holdings, LLC's assets as compared to a net cash outflow of $1,534 for the year ended December 31, 2017. Cash flows used in financing activities for the period resulted in a net cash outflow of $80,910 and was driven by repayment of the Company's Indebtedness and distribution of remaining cash to the members after the sale of the DT Portfolio on May 3, 2018 as compared to a new cash outflow of $1,546 for the year ended December 31, 2017.

Transactions with Related Parties

For the period ended May 3, 2018, the Company had debt outstanding with an affiliate. The Company paid the affiliate $93 in interest in 2017. Additionally, as discussed in Note 8. Note payable, net in the combined financial statements of the Company, the Company was jointly and severally liable on $862.5 million of debt with affiliates.

Subsequent Events

The Company evaluated subsequent events through March 27, 2019 to determine if any significant events occurred subsequent to the balance sheet dates that would have a material impact on these combined financial statements. On May 3, 2018, the DT Portfolio was purchased by NREO NW Hospitality, LLC. On January 8, 2019, the owner of NREO NW Hospitality, LLC, contributed its interests in NREO NW Hospitality, LLC to the OP in exchange for 9,629,170 Class B Units of the OP.

Critical Accounting Estimates and Assumptions

Management makes estimates and assumptions concerning the future. The resultant accounting estimates may differ from actual results. The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial period are outlined below. Further information is set forth in Note 3 of the combined financial statements presented in this prospectus.

Property and Equipment, Net

Property and equipment, net is recorded at historical cost less accumulated depreciation and any accumulated impairment losses. Real estate fair values for all other periods presented were determined internally by management through an impairment analysis process. For the internal valuations, a direct capitalization income method was used to calculate fair value. In determining estimates of fair value of the property and equipment, the assumptions underlying estimated values are limited by the availability of comparable data and the uncertainty of predictions concerning future events.

The primary assumptions underpinning the fair value determination are capitalization rates and stabilized net operating income. The estimates used when determining the fair value of real estate are capitalization rates and stabilized future net operating income. The capitalization rate applied is reflective of the characteristics, location and market of each property. The stabilized future cash flows of each real estate property are based upon rental income from current income and assumptions about occupancy rates and RevPAR. In addition, there is a normalized management fee allowance and capital expenditure reserve taken into consideration when determining future property cash flows. For fair values determined internally, management utilized internal financial information, external market data and capitalization rates provided by independent industry experts and other periodic third-party appraisals.

Significant Accounting Policies

A summary of significant accounting policies is set forth in Note 3 of the combined financial statements.

Liquidity, Capital Resources and Contractual Commitments

As all of the assets of the BRE GM JV Holdings, LLC were sold on May 3, 2018 and the Indebtedness was paid in full and all liabilities paid, there are no remaining liabilities of the Company.

As all of the assets were sold on May 3, 2018, there are no additional capital expenditures required for the Company.

Acquisitions

For the period from January 1, 2018 to May 3, 2018, the Company had no acquisitions.

Dispositions

For the period from January 1, 2018 to May 3, 2018, the Company sold all of its properties.

HCBH 11611 Ferguson, LLC
Homewood Suites Addison, Homewood Suites Las Colinas and Homewood Suites Plano
*(collectively, the "**HWS Portfolio**")*

Review of Selected Financial and Operating Information of the HWS Portfolio as of September 30, 2018 and 2017 and for the Nine Months and Three Months Ended September 30, 2018 and for the Period From May 4, 2017 Through September 30, 2017

The following tables highlight selected financial information of the HWS Portfolio as of September 30, 2018 and 2017 and for the nine months and three months ended September 30, 2018 and for the period From May 4, 2017 through September 30, 2017. This information has been compiled from, and should be read in conjunction with the consolidated financial statements of HCBH 11611 Ferguson, LLC (the "Company") and notes thereto included elsewhere in this prospectus. Additionally, presented below is a summary of the unaudited FFO, CFFO, NOI and NOI Margin for the nine months and three months ended September 30, 2018 and for the period From May 4, 2017 through September 30, 2017, with additional detail provided in "Funds from Operations, Core Funds from Operations, Net Operating Income and Net Operating Income Margin".

	Nine Months Ended September 30, 2018	Period From May 4, 2017 (date of formation) to September 30, 2017	Three Months Ended September 30, 2018	Three Months Ended September 30, 2017
Total revenues	$ 7,547	$ 4,850	$2,898	$2,950
Operating expenses	(4,113)	(2,325)	(1,502)	(1,433)
General and administrative expenses	(1,818)	(1,057)	(655)	(670)
Depreciation	(597)	(324)	(202)	(195)
Interest expense, net	(1,680)	(653)	(609)	(370)
Net income (loss) and comprehensive income (loss)	**$ (661)**	**$ 491**	**$(70)**	**$(282)**

	Nine Months Ended September 30, 2018	Period From May 4, 2017 (date of formation) to September 30, 2017	Three Months Ended September 30, 2018	Three Months Ended September 30, 2017
Funds from Operations	$ (64)	$ 815	$(459)	$686
Core Funds from Operations	82	896	(313)	767
Net Operating Income	1,616	1,468	741	847

	September 30, 2018	December 31, 2017
Total assets	$ 43,237	$ 37,522
Total liabilities	33,456	28,066
Members' equity	9,781	9,456

Review and Comparison of Operational Results of the HWS Portfolio for the Period From May 4, 2018 Through September 30, 2018, for the Nine Months and Three Months Ended September 30, 2018 and for the Period From May 4, 2017 Through September 30, 2017

Total Revenues

	Nine Months Ended September 30, 2018		Period From May 4, 2017 (date of formation) to September 30, 2017		Variance		%
Rooms	$	7,446	$	4,771	$	2,675	56.1%
Food and beverage		14		8		6	75.0%
Other		87		71		16	22.5%
Total revenues	**$**	**7,547**	**$**	**4,850**	**$**	**2,697**	**55.6%**

Room revenue consists of income related to the rental of hotel rooms. Food and beverage revenue is comprised of revenues from the sale of food and beverage to hotel guests while other revenue consists of all other income generated by the HWS Portfolio. Total revenue increased $2,697, or 55.6%, to $7,547 for the current period compared to $4,850 for the prior period. The increase in revenue as compared to the prior period is primarily attributable to the four months of additional results in 2018 as compared to 2017. Across the HWS Portfolio for the nine month period ended September 30, 2018, occupancy, ADR and RevPAR was 68.8%, $113.42 and $78.44, respectively, as compared to 78.0%, $113.80 and $88.84, respectively for the period in 2017. The significant decrease in occupancy was driven by the renovation that began in late 2017 and was completed in 2018 as rooms were out of service during renovation for significant periods of time.

Operating Expenses

	Nine Months Ended September 30, 2018		Period From May 4, 2017 (date of formation) to September 30, 2017		Variance		%
Payroll	$	1,826	$	995	$	831	83.5%
Repairs and maintenance		485		238		247	103.8%
Utilities		304		201		103	51.2%
Property taxes and insurance		524		314		210	66.9%
Cost of goods sold		186		100		86	86.0%
Franchise fees		409		264		145	54.9%
Other operating expenses		379		213		166	77.9%
Operating expenses	**$**	**4,113**	**$**	**2,325**	**$**	**1,788**	**76.9%**

Operating expenses are comprised mainly of costs associated with the management and maintenance of the property including maintenance, payroll, insurance and the costs associated with deriving the food and beverage revenue and franchise fees paid to the franchisor. These expenses increased by $1,788, or 76.9%, to $4,113 for the current period compared to $2,325 for the prior period. The increase as compared to the prior period is primarily attributable to the four months of additional results in 2018 as compared to 2017. A significant renovation was completed in mid-2018 at all of the properties and it is anticipated this will driver higher occupancy and RevPAR in 2019.

General and Administrative Expenses

	Nine Months Ended September 30, 2018	Period From May 4, 2017 (date of formation) to September 30, 2017	Variance	%
Property management fees	$ 189	$ 121	$ 68	56.2%
Office operations	463	245	218	89.0%
Marketing	807	516	291	56.4%
Other administrative expenses	359	175	184	105.1%
General and administrative expenses	**$ 1,818**	**$ 1,057**	**$ 761**	**72.0%**

General and administrative expenses are comprised of the costs to market the services of the property, management fees paid to the Manager and general costs of operating the business. General and administrative expenses increased by $761, or 72.0%, to $1,818 for the current period compared to $1,057 for the prior period. The increase as compared to the prior period is primarily attributable to the four months of additional results in 2018 as compared to 2017.

Interest Expense, Net

	Nine Months Ended September 30, 2018	Period From May 4, 2017 (date of formation) to September 30, 2017	Variance	%
Interest on debt	$ 1,534	$ 572	$ 962	168.2%
Amortization of deferred financing costs	146	81	65	80.2%
Interest expense, net	**$ 1,680**	**$ 653**	**$ 1,027**	**157.3%**

Net interest expense consists of interest expense on the note payable and amortization of deferred financing costs. Net interest expense increased by $1,027, or 157.3%, to $1,680 for the current period compared to $653 for the prior period. The increase as compared to the prior period is primarily attributable to the four months of additional results in 2018 as compared to 2017.

Net Income and Comprehensive Income

	Nine Months Ended September 30, 2018	Period From May 4, 2017 (date of formation) to September 30, 2017	Variance	%
Net income (loss) and comprehensive income (loss)	$ (661)	$ 491	$ (1,152)	-234.6%

Net income and comprehensive income decreased by $1,152, or 234.6%, to a net loss of $661 for the current period as compared to net income of $491 for the prior period. As discussed above, the decrease as compared to the prior period is primarily attributable to the four months of additional results in 2018 as compared to 2017.

Funds from Operations, Core Funds from Operations, Net Operating Income and Net Operating Income Margin Results of the HWS Portfolio for the Nine Months and Three Months Ended September 30, 2018 and for the Period From May 4, 2018 Through September 30, 2018 and for the Period From May 4, 2017 Through September 30, 2017

Set out below is a reconciliation of the unaudited FFO, CFFO, NOI and NOI Margin for the period from May 4, 2018 through September 30, 2018 and for the period From May 4, 2017 through September 30, 2017:

	Nine Months Ended September 30, 2018	Period From May 4, 2017 (date of formation) to September 30, 2017	Three Months Ended September 30, 2018	Three Months Ended September 30, 2017
Net income	$ (661)	$ 491	$(70)	$282

Net Operating Income	**$ 1,616**	**$ 1,468**	**$741**	**$847**
Net Operating Income margin	21.4%	30.3%	25.6%	28.7%

Financial Statement Analysis of the HWS Portfolio as of September 30, 2018 and December 31, 2017

The following table highlights selected financial information for the HWS Portfolio as of September 30, 2018 and December 31, 2017. This information has been compiled from, and should be read in conjunction with the consolidated financial statements of the Company and the notes thereto included elsewhere in this prospectus.

	September 30, 2018	December 31, 2017
Total current assets	$ 2,023	$ 2,130
Total non-current assets	41,214	35,392
Total assets	**43,237**	**37,522**
Total current liabilities	1,815	1,762
Note payable, net	31,641	26,304
Total liabilities	**33,456**	**28,066**
Members' equity	**$ 9,781**	**$ 9,456**

Total Current Assets

	September 30, 2018	December 31, 2017	Variance	%
Cash and cash equivalents	$ 705	$ 697	$ 8	1.1%
Restricted cash	889	1,008	(119)	-11.8%
Trade and other receivables	242	245	(3)	-1.2%
Prepaid and other assets	187	180	7	3.9%
Total current assets	**$ 2,023**	**$ 2,130**	**$ (107)**	**-5%**

Total current assets are comprised of cash and cash equivalents, restricted cash, receivables, prepaid expenses and other assets. Total current assets decreased by $107, or 5.0%, to $2,023 as of September 30, 2018 compared to $2,130 as of December 31, 2017. The decrease as compared to the prior period is primarily attributable to a decrease in cash as a result of lower net income.

Property and Equipment, Net

	September 30, 2018	December 31, 2017	Variance	%
Land	$ 6,715	$ 6,715	$ –	0.0%
Buildings and improvements	21,101	20,998	103	0.5%
Furniture, fixtures and equipment	2,255	2,094	161	7.7%
Construction in progress	12,260	6,105	6,155	100.8%
Total property and equipment	42,331	35,912	6,016	17.9%
Accumulated depreciation	(1,117)	(520)	(597)	114.8%
Total property and equipment, net	**$ 41,214**	**$ 35,392**	**$ 5,822**	**16.5%**

Property and equipment, net includes land, building and building improvements, as well as furniture, fixtures and equipment, reduced by accumulated depreciation. Land, buildings, improvements and furniture, fixtures and equipment are measured initially at cost, including transaction costs. Subsequent to initial recognition, these assets are measured at historical cost or fair value, whichever is lower. Subsequent capital expenditures are added to the carrying value of the assets only when it is probable that future economic benefits will flow to the property and the cost can be measured reliably.

Property and equipment, net increased by $5,822, or 16.5%, to $41,214 as of September 30, 2018 compared to $35,392 as of December 31, 2017. The increase as compared to the prior period is primarily attributable to increases to construction in progress reflecting the extensive renovation program completed in 2018.

Note Payable, Net

Note payable, net includes the outstanding balance of the note payable on the HWS Portfolio reduced by the unamortized deferred financing cost and the current maturities and totaled $31,641 as of September 30, 2018, compared to $26,304 as of December 31, 2017, representing an increase of $5,337, or 20.3%. The increase was primarily attributable to increases in the note payable as a result of funding renovations on the HWS Portfolio. As of September 30, 2018, the aggregate principal repayments in the next five years, and thereafter, or until maturity if shorter, are as follows:

	Note Payable
2018	$ –
2019	277
2020	31,830
2021	–
2022	–
Thereafter	–
Note payable	**32,107**
Current maturities	(158)
Net unamortized deferred financing costs	(308)
Note payable, net	**$ 31,641**

Cash Flows of the HWS Portfolio for the Period From May 4, 2018 Through September 30, 2018, for the Nine Months and Three Months Ended September 30, 2018 and for the Period From May 4, 2017 Through September 30, 2017

The Company reported a cash balance of $705 as of September 30, 2018 as compared to a cash balance of $1,850 as of September 30, 2017. The changes in cash flow for the period from May 4, 2018 through September 30, 2018 and for the period from May 4, 2017 through September 30, 2017 are as follows:

	Nine Months Ended September 30, 2018	Period From May 4, 2017 (date of formation) to September 30, 2017	Three Months Ended September 30, 2018	Three Months Ended September 30, 2017
Cash flow provided by (used in):				
Operating activities	$ 1,482	$ 2,679	$333	$944
Investing activities	(6,300)	(33,472)	(602)	(2,854)
Financing activities	4,826	32,643	181	2,047
Increase in cash and cash equivalents	8	1,850	(88)	137
Cash and cash equivalents, beginning of period	697	–	793	1,713
Cash and cash equivalents, end of period	**$ 705**	**$ 1,850**	**$705**	**$1,850**

Operating activities for the period from May 4, 2018 through September 30, 2018 and for the period from May 4, 2017 through September 30, 2017

Cash flows from operating activities for the current period generated a net cash inflow of $1,482 compared to a net cash inflow of $2,679 for the prior period. The decrease as compared to the prior period is primarily attributable to the four months of additional results in 2018 as compared to 2017.

Investing activities for the period from May 4, 2018 through September 30, 2018 and for the period from May 4, 2017 through September 30, 2017

Cash flows used in investing activities for the current period resulted in a net cash outflow of $6,300 compared to a net cash outflow of $33,472 for the prior period. The decrease as compared to the prior period is primarily attributable to the lower purchase of assets in 2018.

Financing activities for the period from May 4, 2018 through September 30, 2018 and for the period from May 4, 2017 through September 30, 2017

Cash flows used in financing activities for the current period resulted in a net cash inflow of $4,826 compared to a net cash inflow of $32,643 for the prior period. The decrease net cash inflows from financing activities was driven by a lower contributions from members.

Transactions with Related Parties

For the period from May 4, 2018 through September 30, 2018 and for the period from May 4, 2017 through September 30, 2017, there were no transactions with related parties.

Subsequent Events

The Company evaluated subsequent events through March 27, 2019 to determine if any significant events occurred subsequent to the balance sheet dates that would have a material impact on these consolidated financial statements. On January 8, 2019, the Company was contributed to a newly formed entity, NHT DFW Portfolio, LLC, which was immediately contributed to NHT Holdco, LLC in exchange for 3,843,184 units.

Critical Accounting Estimates and Assumptions

Management makes estimates and assumptions concerning the future. The resultant accounting estimates may differ from actual results. The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial period are outlined below. Further information is set forth in Note 3 of the consolidated financial statements presented in this prospectus.

Property and Equipment, Net

Property and equipment, net is recorded at historical cost less accumulated depreciation and any accumulated impairment losses. Real estate fair values for all other periods presented were determined internally by management through an impairment analysis process. For the internal valuations, a direct capitalization income method was used to calculate fair value. In determining estimates of fair value of the property and equipment, the assumptions underlying estimated values are limited by the availability of comparable data and the uncertainty of predictions concerning future events.

The primary assumptions underpinning the fair value determination are capitalization rates and stabilized net operating income. The estimates used when determining the fair value of real estate are capitalization rates and stabilized future net operating income. The capitalization rate applied is reflective of the characteristics, location and market of each property. The stabilized future cash flows of each real estate property are based upon rental income from current income and assumptions about occupancy rates and RevPAR. In addition, there is a normalized management fee allowance and capital expenditure reserve taken into consideration when determining future property cash flows. For fair values determined internally, management utilized internal financial information, external market data and capitalization rates provided by independent industry experts and other periodic third-party appraisals.

Significant Accounting Policies

A summary of significant accounting policies is set forth in Note 3 of the consolidated financial statements.

Liquidity, Capital Resources and Contractual Commitments

A summary of future debt obligations, based on principal debt maturities as of September 30, 2018, are as follows:

	Carrying amount	Contractual cash flows	1 year	More than 1 year
Note payable	$ 32,107	$ 32,107	$ 158	$ 31,949
Interest payable on note	173	3,893	2,345	1,548
Total	**$ 32,280**	**$ 36,000**	**$ 2,503**	**$ 33,497**

Additionally, the REIT's strategy entails performing renovations to newly acquired properties and under the Franchise Agreement, a further requirement exists to fund periodic property improvement plans ("**PIPs**"). The HWS Portfolio completed an extensive renovation in 2018. Other than normal maintenance no additional capital expenditures will be required for the HWS Portfolio until the next PIP. Although the costs and timing of the next PIP are not known, we estimate the costs will approximate $10,000 - $15,000 per room and will be required in the next 6 years. The Company reserves annually 4% of gross revenue for future PIP renovations. We believe these reserves together with free cash flow are sufficient to fund any future PIP programs.

Acquisitions

For the period from May 4, 2018 through September 30, 2018 the Company had no acquisitions. For the period from May 4, 2017 through September 30, 2017, the Company acquired the HWS Portfolio, comprising three properties, from a third party for $29,500.

Dispositions

For the period from May 4, 2018 through September 30, 2018 and for the period from May 4, 2017 through September 30, 2017, the Company had no dispositions.

Interim Management Discussion and Analysis – Quarterly Highlights for Third Quarter 2018

Discussion of business activities, financial condition, financial performance and cash flow of the Company for the three months ended September 30, 2018

During the three months ended September 30, 2018, the Company had its first full quarter since the completion of the renovation program, which began in June 2017 and was completed in May 2018. The renovation cost $12.2 million or $34,542 per room. During the comprehensive renovation, the décor was upgraded, flooring, furniture and bathroom fixtures were replaced in all rooms to conform to the then required brand standards and changing consumer tastes, and general improvements were made to common areas.

Occupancy for the period was an average of 76.7% as compared to 79.5% for the same period in 2017. This compared favorably to the competitor set in the submarket, which had an average occupancy of 71.3% for the third quarter of 2018. Likewise, ADR and RevPar were down slightly year over year at $112.48 and $86.62, respectively, in the third quarter of 2018 as compared to $113.96 and $90.71, respectively in the same period in 2017. Although occupancy, ADR and RevPar were down, they compared favorably to the competitor set at $99.70 and $71.37, respectively, which is an indication the renovation is driving better results on a relative basis to the competition. Given the Company completed the renovation in the prior quarter, it is not unexpected that occupancy, ADR and RevPar have not recovered to their levels from the prior year.

Net income was lower in the third quarter 2018 by approximately $350 as compared to the same period in 2017. This was driven primarily by lower revenue and higher interest expense. The lower revenue was caused by lower occupancy, ADR and RevPar as discussed above.

Operating cash flow declined in the third quarter 2018 as compared to the same period in 2017 to cash inflow of $333 versus cash inflow of $944. The decline was driven primarily by lower cash flow from net income and higher payments of liabilities in the third quarter of 2018 as compared to the same period in 2017. Cash decreased slightly from $793 to $705 at September 30, 2018 as a result of cash outflows from investing activities. The Company paid $564 in interest payments in the third quarter 2018 as compared to $351 in the same period in

2017. This was the result of rising LIBOR rates and higher principal balance on the note payable, which had an outstanding principal balance of $32,107 at September 30, 2018. The Company paid a distribution to its members of $540 during the quarter.

Pallas LLC
St. Petersburg Property
*(the "**St. Pete Property**")*

Review of Selected Financial and Operating Information of the St. Pete Property as of and for the Period from January 1 to September 24, 2018 and from January 1 to September 30, 2017

The following tables highlight selected financial information of the St. Pete Property as of and for the period from January 1 to September 24, 2018 and January 1 to September 30, 2017 and as of September 30, 2018 and December 31, 2017. This information has been compiled from, and should be read in conjunction with the financial statements of Pallas, LLC (the "Company") and notes thereto included elsewhere in this prospectus. Additionally, presented below is a summary of the unaudited FFO, CFFO, NOI and NOI Margin for the period from January 1 to September 24, 2018 and January 1 to September 30, 2017, with additional detail provided in "Funds from Operations, Core Funds from Operations, Net Operating Income and Net Operating Income Margin".

	For the Period from January 1 to September 24,	For the Period from January 1 to September 30,
	2018	**2017**
Total revenues	$ 8,520	$ 8,442
Operating expenses	(4,747)	(4,674)
General and administrative expenses	(1,421)	(1,451)
Depreciation and amortization	(305)	(328)
Interest expense, net	(670)	(663)
Other income (expense)	61	69
Net income and comprehensive income	**$ 1,438**	**$ 1,395**

	For the Period from January 1 to September 24,	For the Period from January 1 to September 30,
	2018	**2017**
Funds from Operations	$ 1,743	$ 1,723
Core Funds from Operations	1,755	1,754
Net Operating Income	2,352	2,317

	September 24, 2018	December 31, 2017
Total assets	$ 18,297	$ 17,827
Total liabilities	23,624	23,342
Members' deficit	(5,327)	(5,515)

Review and Comparison of Operational Results of the St. Pete Property for the Period from January 1 to September 24, 2018 and from January 1 to September 30, 2017

Total Revenues

	For the Period from January 1 to September 24, 2018	For the Period from January 1 to September 30, 2017	Variance	%
Rooms	$ 6,273	$ 6,174	$ 99	1.6%
Food and beverage	744	772	(28)	–3.6%
Other	1,503	1,496	7	0.5%
Total revenues	**$ 8,520**	**$ 8,442**	**$ 78**	**0.9%**

Room revenue consists of income related to the rental of hotel rooms. Food and beverage revenue is comprised of revenues from the sale of food and beverage to hotel guests while other revenue consists of all other income generated by the St. Pete Property. Total revenue increased $78, or 0.9%, to $8,520 for the period ended September 24, 2018 compared to $8,442 for the period ended September 30, 2017. The increase in revenue as compared to the prior period is primarily attributable to higher room revenue from transient and group corporate customers. Because of the stable level of the customer base and the supply in the sub-market, the revenue from the St. Pete Property continued to grow at a slow pace. For the St. Pete Property during the period ended September 24, 2018, occupancy, ADR and RevPAR were 67.1%, $155.35 and $104.24, respectively, as compared to 71.0%, $154.33 and $109.50, respectively for the full year 2017.

Operating Expenses

	For the Period from January 1 to September 24, 2018	For the Period from January 1 to September 30, 2017	Variance	%
Payroll	$ 1,385	$ 1,411	$ (26)	-1.8%
Repairs and maintenance	800	668	132	19.8%
Utilities	325	325	—	0.0%
Property taxes and insurance	515	542	(27)	-5.0%
Cost of goods sold	960	962	(2)	-0.2%
Franchise fees	682	680	2	0.3%
Other operating expenses	81	86	(5)	-5.8%
Operating expenses	**$ 4,748**	**$ 4,674**	**$ 74**	**1.6%**

Operating expenses are comprised mainly of costs associated with the management and maintenance of the property including maintenance, payroll, insurance and the costs associated with deriving the food and beverage revenue and franchise fees paid to the franchisor. These expenses increased by $74, or 1.6%, to $4,748 for the period from January 1 to September 24, 2018 compared to $4,674 for the period from January 1 to September 30, 2017. The increase in expenses as compared to the prior period was primarily driven by an increase in repairs and maintenance and partially offset by decreases in payroll and property tax expenses.

General and Administrative Expenses

	For the Period from January 1 to September 24, 2018	For the Period from January 1 to September 30, 2017	Variance	%
Property management fees	$ 436	$ 409	$ 27	6.6%
Office operations	84	131	(47)	-35.9%
Marketing	898	906	(8)	-0.9%
Other administrative expenses	3	5	(2)	-40.0%
General and administrative expenses	**$ 1,421**	**$ 1,451**	**$ (30)**	**-2.1%**

General and administrative expenses are comprised of the costs to market the services of the property, management fees paid to the Manager and general costs of operating the business. General and administrative expenses decreased by $30, or 2.1%, to $1,421 for the period ended September 24, 2018 compared to $1,451 for the period ended September 30, 2017. The decrease was as compared to the prior period primarily attributable to a decrease in office operations in the comparative period related to professional fees.

Interest Expense, Net

	For the Period from January 1 to September 24, 2018	For the Period from January 1 to September 30, 2017	Variance	%
Interest on debt	$ 658	$ 632	$ 26	4.1%
Amortization of deferred financing costs	12	31	(19)	–61.3%
Interest expense, net	**$ 670**	**$ 663**	**$ 7**	**1.1%**

Interest expense, net consists of interest expense on the note payable and amortization of deferred financing costs. Interest expense, net increased by $7, or 1.1%, to $670 for the period ended September 24, 2018 compared to $663 for the period ended September 24, 2017. The increase as compared to the prior period was immaterial but related to additional interest expense in the comparative.

Net Income and Comprehensive Income

	For the Period from January 1 to September 24, 2018	For the Period from January 1 to September 30, 2017	Variance	%
Net Income and comprehensive income	$ 1,438	$ 1,395	$ 43	3.1%

Net income and comprehensive income increased by $43, or 3.1%, to a net gain of $1,438 for the period ended September 24, 2018 as compared to net income of $1,395 for the period ended September 30, 2017. As discussed above, this decrease as compared to the prior period was primarily due to a net increase in the following components of net income and comprehensive income:

- an increase in operating expenses of $73 related to an increase in repairs and maintenance; and
- a decrease in general and administrative expenses of $30 related to professional fees.

Funds from Operations, Core Funds from Operations, Net Operating Income and Net Operating Income Margin Results of the St. Pete Property for the Period from January 1 to September 24, 2018 and from January 1 to September 30, 2017

Set out below is a reconciliation of the unaudited FFO, CFFO, NOI and NOI Margin for the periods ended September 24, 2018 and September 30, 2017:

	For the Period from January 1 to September 24, 2018	For the Period from January 1 to September 30, 2017
Net income	$ 1,438	$ 1,395
Depreciation and amortization	305	328
Funds from Operations	1,743	1,723
Deferred financing costs	12	31
Income tax expense	—	—
Core Funds from Operations	$ $1,755	$ $1,754

	For the Period from January 1 to September 24, 2018	For the Period from January 1 to September 30, 2017
Total revenues	$ 8,520	$ 8,442
Total operating expenses	(6,168)	(6,125)
Net Operating Income	$ 2,352	$ 2,317
Net Operating Income margin	27.6%	27.4%

Financial Statement Analysis of the St. Pete Property as of September 24, 2018 and December 31, 2017

The following table highlights selected financial information for the Company as of September 24, 2018 and December 31, 2017. This information has been compiled from, and should be read in conjunction with the financial statements of the Company and the notes thereto included elsewhere in this prospectus.

	September 24, 2018	December 31, 2017
Total current assets	$ 4,402	$ 4,540
Property and equipment, net	13,895	13,287
Total assets	18,297	17,827
Total current liabilities	1,794	1,089
Note payable, net	21,830	22,253
Total liabilities	23,624	23,342
Members' deficit	$ $(5,327)	$ $(5,515)

Total Current Assets

	September 24, 2018		December 31, 2017		Variance		%
Cash and cash equivalents	$	3,803	$	4,271	$	(468)	–11.0%
Restricted cash		–		2		(2)	–100.0%
Trade and other receivables		146		23		123	534.8%
Prepaid and other assets		453		244		209	85.7%
Total current assets	**$**	**4,402**	**$**	**4,540**	**$**	**(138)**	**–3.0%**

Total current assets are comprised of cash and cash equivalents, restricted cash, receivables, prepaid expenses and other assets. Total current assets decreased by $138, or 3.0%, to $4,402 as of September 24, 2018 compared to $4,540 as of December 31, 2017. The decrease as compared to the prior period was primarily due to a decrease in cash, offset by an increase in receivables and prepaid assets related to timing of collection of receivables and higher prepaid expenses to the franchisor in the comparative balance sheet dates.

Property and Equipment, Net

	September 24, 2018		December 31, 2017		Variance		%
Land	$	1,777	$	1,777	$	–	0.0%
Buildings and improvements		19,042		18,128		914	5.0%
Furniture, fixtures and equipment		4,325		4,325		0	0.0%
Total property and equipment		25,144		24,230		914	3.8%
Accumulated depreciation		(11,248)		(10,943)		(305)	2.8%
Total property and equipment, net	**$**	**13,896**	**$**	**13,287**	**$**	**609**	**4.6%**

Property and equipment, net includes land, building and building improvements, as well as furniture, fixtures and equipment, reduced by accumulated depreciation. Land, buildings, improvements and furniture, fixtures and equipment are measured initially at cost, including transaction costs. Subsequent to initial recognition, these assets are measured at historical cost or fair value, whichever is lower. Subsequent capital expenditures are added to the carrying value of the assets only when it is probable that future economic benefits will flow to the property and the cost can be measured reliably.

Property and equipment, net increased by $609, or 4.6%, to $13,896 as of September 24, 2018 compared to $13,287 as of December 31, 2017. The increase as compared to the prior period was attributable to higher accumulated depreciation and additions to buildings and improvements.

Note Payable, Net

Note payable, net includes the outstanding balance of the note payable on the St. Pete Property reduced by the unamortized deferred financing cost and current maturities and totaled $21,830 as of September 24, 2018, compared to $22,253 as of December 31, 2017, representing a decrease of $423, or 1.9%. The decrease as compared to the prior period was primarily attributable to amortization of the loan balance. As of September 24, 2018, the aggregate principal repayments in the next five years, and thereafter, or until maturity if shorter, are as follows:

	Note Payable
2018	$ 143
2019	586
2020	608
2021	632
2022	20,566
Thereafter	–
Note payable	**22,535**
Current maturities	(580)
Net unamortized deferred financing costs	(125)
Note payable, net	**$ 21,830**

Cash Flows of the St. Pete Property for the Period From January 1 to September 24, 2018 and September 30, 2017

The St. Pete Property reported a cash balance of $3,803 as of September 24, 2018 as compared to a cash balance of $2,771 as of September 30, 2017. The changes in cash flow for the period ended September 24, 2018 and September 30, 2017 are as follows:

	For the Period from January 1 to September 24, 2018	For the Period from January 1 to September 30, 2017
Cash flow provided by (used in):		
Operating activities	$ 2,804	$ 2,519
Investing activities	(912)	—
Financing activities	(2,360)	(1,087)
Increase (decrease) in cash and cash equivalents	(468)	1,432
Cash and cash equivalents, beginning of period	4,271	1,339
Cash and cash equivalents, end of period	**$ 3,803**	**$ 2,771**

Operating activities for the period ended September 24, 2018 and September 30, 2017

Cash flows from operating activities for the period ended September 24, 2018 generated a net cash inflow of $2,804 compared to a net cash inflow of $2,519 for the period ended September 30, 2017. The increase in cash inflows from operating activities was largely driven by higher net income and timing of receiving cash from receivables and paying cash for liabilities.

Investing activities for the period ended September 24, 2018 and September 30, 2017

Cash flows used in investing activities for the period ended September 24, 2018 resulted in a net cash outflow of $912 compared to a net cash flow of $0 for the period ended September 30, 2017. The increase in net outflows was due to higher additions to property and equipment in the current period.

Financing activities for the period ended September 24, 2018 and September 30, 2017

Cash flows used in financing activities for the period ended September 24, 2018 resulted in a net cash outflow of $2,360 compared to a net cash outflow of $1,087 for the period ended September 30, 2017. The increase in net cash outflows from financing activities was driven by higher distributions paid to members.

Transactions with Related Parties

For the periods from January 1 to September 24, 2018 and from January 1 to September 30, 2017, the Company engaged MDM for the day-to-day management of the Property. For the period ended September 24, 2017, Pallas, LLC had a note payable to MDM, and Pallas accrued interest on the note and made principal payments. The note payable was repaid in full on November 25, 2017 and there was no outstanding balance as of September 30, 2018. Additionally, the Company paid MDM property management fees for the periods from January 1 to September 24, 2018 and from January 1 to September 30, 2017.

Subsequent Events

The Company evaluated subsequent events through March 27, 2019 to determine if any significant events occurred subsequent to the balance sheet dates that would have a material impact on these financial statements. On September 24, 2018, the Company sold the Property to NHT SP, LLC. On January 8, 2019, the parent of NHT SP, LLC (NHT SP Parent, LLC), was contributed to NHT Holdco, LLC in exchange for 3,613,498 units.

Critical Accounting Estimates and Assumptions

Management makes estimates and assumptions concerning the future. The resultant accounting estimates may differ from actual results. The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial period are outlined below. Further information is set forth in Note 3 of the financial statements presented in this prospectus.

Property and Equipment, Net

Property and equipment, net is recorded at historical cost less accumulated depreciation and any accumulated impairment losses. Real estate fair values for all other periods presented were determined internally by management through an impairment analysis process. For the internal valuations, a direct capitalization income method was used to calculate fair value. In determining estimates of fair value of the property and equipment, the assumptions underlying estimated values are limited by the availability of comparable data and the uncertainty of predictions concerning future events.

The primary assumptions underpinning the fair value determination are capitalization rates and stabilized net operating income. The estimates used when determining the fair value of real estate are capitalization rates and stabilized future net operating income. The capitalization rate applied is reflective of the characteristics, location and market of each property. The stabilized future cash flows of each real estate property are based upon rental income from current income and assumptions about occupancy rates and RevPAR. In addition, there is a normalized management fee allowance and capital expenditure reserve taken into consideration when determining future property cash flows. For fair values determined internally, management utilized internal financial information, external market data and capitalization rates provided by independent industry experts and other periodic third-party appraisals.

Significant Accounting Policies

A summary of significant accounting policies is set forth in Note 3 of the financial statements.

Liquidity, Capital Resources and Contractual Commitments

A summary of future debt obligations, based on principal debt maturities as of September 24, 2018, are as follows:

	Carrying amount	Contractual cash flows	1 year	More than 1 year
Note payable	$ 22,535	$ 22,535	$ 580	$ 21,995
Interest payable on note	–	–	–	–
Total	**$ 22,535**	**$ 22,535**	**$ 580**	**$ 21,955**

Additionally, the REIT's strategy entails performing renovations to newly acquired properties and under the Franchise Agreement, a further requirement exists to fund periodic property improvement plans ("**PIPs**"). It is anticipated the St. Petersburg Property will begin an extensive renovation on the property in 2019. It is estimated the renovation will be completed in 2020 for an estimated cost of $7 million. Other than normal maintenance no additional capital expenditures will be required for the St. Pete Property until the next PIP. Although the costs and timing of the next PIP are not known, we estimate the costs will approximate $10,000 - $15,000 per room and will be required in the next 4-6 years. The Company was required to reserve annually 4% of gross revenue for future PIP renovations, but as discussed in Note15 of the financial statements, the Company failed to reserve the required amount under the Franchise Agreement. Upon contribution of the Property to the REIT, additional cash was contributed to fund the initial budgeted renovations. After the initial renovations are complete, the REIT believes the reserves required by the lender together with free cash flow generated by the REIT are sufficient to fund any future PIP programs.

Acquisitions

For the period ended September 24, 2018 and 2017, the Company had no acquisitions.

Dispositions

For the period ended September 30, 2017, the Company had no dispositions. For the period ended September 24, 2018, the Company disposed of the St. Pete Property.

Review and Comparison of Operational Results of the Nashville Property for the Nine Months Ended September 30, 2018 and 2017

Total Revenues

	Nine Months Ended September 30,			
	2018	2017	Variance	%
Rooms	$ 14,222	$ 13,609	$ 613	4.5%
Food and beverage	235	87	148	170.1%
Other	1,605	1,331	274	20.6%
Total revenues	**$ 16,062**	**$ 15,027**	**$ 1,035**	**6.9%**

Room revenue consists of income related to the rental of hotel rooms. Food and beverage revenue is comprised of revenues from the sale of food and beverage to hotel guests while other revenue consists of all other income generated by the Nashville Property. Total revenue increased $1,035, or 6.9%, to $16,062 for the nine months ended September 30, 2018 compared to $15,027 for the nine months ended September 30, 2017. The increase in revenue as compared to the prior period is primarily attributable to higher room revenue, related to higher discount transient business and group corporate business; food and beverage revenue, related to higher catering business; and higher other revenue related to higher gift shop revenue. The property is currently undergoing a significant renovation that is expected to be completed in early 2019 and this, coupled with the increased customer base (Alliance Bernstein announced the relocation of its headquarters from New York City to Nashville in close proximity to the Nashville Property) it is expected that RevPAR, occupancy and ADR will continue to increase at a significant pace. For the Nashville Property during the nine month period ended September 30, 2018, occupancy, ADR and RevPAR were 83.2%, $218.33 and $181.76, respectively, as compared to 76.9%, $226.75 and $174.34, respectively for the full year 2017. The 6.9% increase in total revenue was primarily attributable to the 8.2% increase in occupancy and the 4.3% increase in RevPAR and was slightly offset by the 3.7% decrease in ADR.

Operating Expenses

	Nine Months Ended September 30,			
	2018	2017	Variance	%
Payroll	$ 1,966	$ 1,895	$ 71	3.7%
Property management fees	803	751	52	6.9%
Repairs and maintenance	143	143	—	0.0%
Utilities	312	304	8	2.6%
Property taxes and insurance	659	593	66	11.1%
Cost of goods sold	1,844	1,718	126	7.3%
Franchise fees	1,037	987	50	5.1%
Franchise and excise taxes	136	395	(259)	-65.6%
Other operating expenses	108	97	11	11.3%
Operating expenses	**$ 7,008**	**$ 6,883**	**$ $125**	**1.8%**

Operating expenses are comprised mainly of costs associated with the management and maintenance of the property including maintenance, payroll, insurance and the costs associated with deriving the food and beverage revenue and franchise fees paid to the franchisor. These expenses increased by $125, or 1.8%, to $7,008 for the nine months ended September 30, 2018 compared to $6,883 for the nine months ended September 30, 2017. The increase in expenses as compared to the prior period was primarily driven by an increase in payroll expenses across all departments, an increase in property taxes and an increase in cost of goods sold, attributable primarily to an increase in catering costs for banquet events as a result of an increase in catering business.

General and Administrative Expenses

	Nine Months Ended September 30,			
	2018	2017	Variance	%
Marketing	$ 597	$ 547	$ 50	9.1%
Asset management fee	1,004	156	848	543.6%
Other administrative expenses	230	140	90	64.3%
General and administrative expenses	**$ 1,831**	**$ 843**	**$ $988**	**117.2%**

General and administrative expenses are comprised of the costs to market the services of the property, management fees paid to the Manager and general costs of operating the business. General and administrative expenses increased by $988, or 117.2%, to $1,831 for the nine months ended September 30, 2018 compared to $843 for the nine months ended September 30, 2017. The increase as compared to the prior period was attributable to an increase in asset management fees.

Interest Expense, Net

	Nine Months Ended September 30,			
	2018	2017	Variance	%
Interest on debt	$ 2,741	$ 2,781	$ (40)	–1.4%
Amortization of deferred financing costs	52	52	-	0.0%
Interest expense, net	**$ 2,793**	**$ 2,833**	**$ (40)**	**–1.4%**

Net interest expense consists of interest expense on the note payable and amortization of deferred financing costs. Net interest expense decreased by $40, or 1.4%, to $2,793 for the nine months ended September 30, 2018 compared to $2,833 for the nine months ended September 30, 2017. The decrease as compared to the prior period was attributable to amortization of the note balance resulting in lower interest expense.

Net Income and Comprehensive Income

	Nine Months Ended September 30,			
	2018	2017	Variance	%
Net Income and comprehensive income	$ 3,242	$ 3,535	$ (293)	-8.3%

Net income and comprehensive income decreased by $293, or 8.3%, to a net income of $3,242 for the nine months ended September 30, 2018 as compared to net income of $3,535 for the nine months ended September 30, 2017. As discussed above, this increase as compared to the prior period was primarily due to a net increase in the following components of net income and comprehensive income:

- an increase in total revenue of $1,035 resulting primarily from higher room revenue, related to discount transient business and group corporate business; food and beverage revenue, related to catering business; and higher other revenue related to give shop revenue;

- an increase in operating expenses of $125 resulting from increases in all expenses and offset by a decrease in franchise and excise taxes;

- · an increase in general and administrative expense of $988, primarily driven by an increase in asset management fees; and

- an increase in depreciation and amortization expense of $255.

Funds from Operations, Core Funds from Operations, Net Operating Income and Net Operating Income Margin Results of the Nashville Property for the Nine Months and Three Months Ended September 30, 2018 and 2017

Financial Statement Analysis of the Nashville Property as of September 30, 2018 and December 31, 2017

The following table highlights selected financial information for the Nashville Property as of September 30, 2018 and December 31, 2017. This information has been compiled from, and should be read in conjunction with the consolidated financial statements of the Nashville Property and the notes thereto included elsewhere in this prospectus.

	September 30, 2018	December 31, 2017
Total current assets	$ 4,746	$ 3,606
Property and equipment, net	35,463	34,608
Total assets	**40,209**	**38,214**
Total current liabilities	3,801	3,029
Note payable, net	68,639	69,429
Total liabilities	**72,440**	**72,458**
Members' deficit	**$ (32,231)**	**$ (34,244)**

Total Current Assets

	September 30, 2018	December 31, 2017	Variance	%
Cash and cash equivalents	$ 2,091	$ 1,310	$ 781	59.6%
Restricted cash	1,495	871	624	71.6%
Trade and other receivables	676	801	(125)	-15.6%
Prepaid and other assets	484	624	(140)	-22.4%
Total current assets	**$ 4,746**	**$ 3,606**	**$ 1,140**	**31.6%**

Total current assets are comprised of cash and cash equivalents, restricted cash, receivables, prepaid expenses and other assets. Total current assets increased by $1,140, or 31.6%, to $4,746 as of September 30, 2018 compared to $3,606 as of December 31, 2017. The increase as compared to the prior period was primarily due to increases in cash and restricted cash, offset by a decrease in receivables and prepaid assets.

Property and Equipment, Net

	September 30, 2018	December 31, 2017	Variance	%
Land	$ 5,440	$ 5,440	$ –	0.0%
Buildings and improvements	34,118	34,118	–	0.0%
Furniture, fixtures and equipment	8,713	8,590	123	1.4%
Construction in Progress	2,490	573	1,917	334.6%
Total property and equipment	50,761	48,721	2,040	4.2%
Accumulated depreciation	(15,298)	(14,113)	(1,185)	8.4%
Total property and equipment, net	**$ 35,463**	**$ 34,608**	**$ 855**	**2.5%**

Property and equipment, net includes land, building and building improvements, as well as furniture, fixtures and equipment, reduced by accumulated depreciation. Land, buildings, improvements and furniture, fixtures and equipment are measured initially at cost, including transaction costs. Subsequent to initial recognition, these assets are measured at historical cost or fair value, whichever is lower. Subsequent capital expenditures are added to the carrying value of the assets only when it is probable that future economic benefits will flow to the property and the cost can be measured reliably.

Property and equipment, net increased by $855, or 2.5%, to $35,463 as of September 30, 2018 compared to $34,608 as of December 31, 2017. The increase as compared to the prior period was attributable primarily to increased construction in progress related to the ongoing renovation and partially offset by higher accumulated depreciation.

Note Payable, Net

Note payable, net includes the outstanding balance of the note payable on the Nashville Property reduced by the unamortized deferred financing cost and totaled $68,639 as of September 30, 2018, compared to $69,429 as of December 31, 2017, representing a decrease of $790, or 1.1%. The decrease as compared to the prior period was primarily attributable to amortization of the principal balance, a larger current maturity balance and amortization of deferred financing costs. As of September 30, 2018, the aggregate principal repayments in the next five years, and thereafter, or until maturity if shorter, are as follows:

	Note Payable
2018	$ 267
2019	1,118
2020	1,168
2021	1,240
2022	1,306
Thereafter	65,190
Note payable	**70,289**
Current maturities	(1,104)
Net unamortized deferred financing costs	(546)
Note payable, net	**$ 68,639**

Cash Flows of the Nashville Property for the Nine Months and Three Months Ended September 30, 2018 and 2017

The Nashville Property reported a cash balance of $2,091 as of September 30, 2018 as compared to a cash balance of $2,906 as of September 30, 2017. The changes in cash flow for the nine months and three months ended September 30, 2018 and 2017 are as follows:

	Nine Months Ended September 30,		Three Months Ended September 30,	
	2018	**2017**	**2018**	**2017**
Cash flow provided by (used in):				
Operating activities	$ 8,228	$ 7,510	$2,730	$2,704
Investing activities	(2,664)	(1,949)	(1,891)	(412)
Financing activities	(4,783)	(3,549)	(1,183)	(1,183)
Increase (decrease) in cash and cash equivalents	781	2,012	(344)	1,109
Cash and cash equivalents, beginning of period	1,310	894	2,435	1,797
Cash and cash equivalents, end of period	**$ 2,091**	**$ 2,906**	**$2,091**	**$2,906**

Operating activities for the nine months ended September 30, 2018 and 2017

Cash flows from operating activities for the nine months ended September 30, 2018 generated a net cash inflow of $8,228 compared to a net cash inflow of $7,510 for the nine months ended September 30, 2017. The increase in cash inflows from operating activities was largely driven by increases in receivables and prepaid assets and was partially offset by increased cash outflows to settle liabilities.

Investing activities for the nine months ended September 30, 2018 and 2017

Cash flows used in investing activities for the nine months ended September 30, 2018 resulted in a net cash outflow of $2,664 compared to a net cash outflow of $1,949 for the nine months ended September 30, 2017. The increase in net cash outflows from investing activities was primarily due to a decrease in restricted cash and more additions to property and equipment.

Financing activities for the nine months ended September 30, 2018 and 2017

Cash flows used in financing activities for the nine months ended September 30, 2018 resulted in a net cash outflow of $4,783 compared to a net cash outflow of $3,549 for the nine months ended September 30, 2017. The increase in net cash outflows from financing activities was driven by higher distributions paid to members.

Transactions with Related Parties

For the nine months ended September 30, 2018, the Company had the following transactions with related parties:

The Company has an asset management agreement with an affiliate of the member. For the nine months ended September 30, 2018, asset management fees were $1,004 and are included in general and administrative expenses in the consolidated statements of comprehensive income.

The Company has a property management agreement with an affiliate of the member. For the nine months ended September 30, 2018, property management fees and oversight management fees totaled $803 and are included in operating expenses in the consolidated statements of comprehensive income.

Certain labor costs are reimbursed to entities affiliated with the member. The labor costs are mainly for on-site maintenance and other labor costs related to property management and hotel services. For the nine months ended September 30, 2018, labor costs incurred totaled to $1,966 and are included in operating expenses in the consolidated statements of comprehensive income.

Subsequent Events

The Company evaluated subsequent events through March 27, 2019 to determine if any significant events occurred subsequent to the balance sheet dates that would have a material impact on these consolidated financial statements.

On January 8, 2019, the Company sold the Property to NHT Nashville, LLC, a subsidiary of NexPoint Multifamily Capital Trust, Inc. ("NMCT") for $117,500. Immediately after the purchase of the Property was complete, the shareholders of NMCT contributed 100% of the units of NMCT to NHT Holdco, LLC in exchange for 6,756,364 units.

Critical Accounting Estimates and Assumptions

Management makes estimates and assumptions concerning the future. The resultant accounting estimates may differ from actual results. The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial period are outlined below. Further information is set forth in Note 3 of the consolidated financial statements presented in this prospectus.

Property and Equipment, Net

Property and equipment, net is recorded at historical cost less accumulated depreciation and any accumulated impairment losses. Real estate fair values for all other periods presented were determined internally by management through an impairment analysis process. For the internal valuations, a direct capitalization income method was used to calculate fair value. In determining estimates of fair value of the property and equipment, the assumptions underlying estimated values are limited by the availability of comparable data and the uncertainty of predictions concerning future events.

The primary assumptions underpinning the fair value determination are capitalization rates and stabilized net operating income. The estimates used when determining the fair value of real estate are capitalization rates and stabilized future net operating income. The capitalization rate applied is reflective of the characteristics, location and

market of each property. The stabilized future cash flows of each real estate property are based upon rental income from current income and assumptions about occupancy rates and RevPAR. In addition, there is a normalized management fee allowance and capital expenditure reserve taken into consideration when determining future property cash flows. For fair values determined internally, management utilized internal financial information, external market data and capitalization rates provided by independent industry experts and other periodic third-party appraisals.

Significant Accounting Policies

A summary of significant accounting policies is set forth in Note 3 of the consolidated financial statements.

Liquidity, Capital Resources and Contractual Commitments

A summary of future debt obligations, based on principal debt maturities as of September 30, 2018, are as follows:

	Carrying amount	Contractual cash flows	1 year	More than 1 year
Note payable	$ 70,289	$ 70,289	$ 1,104	$ 69,185
Interest payable on note	300	300	300	–
Total	**$ 70,589**	**$ 70,589**	**$ 1,404**	**$ 69,185**

Additionally, the REIT's strategy entails performing renovations to newly acquired properties and under the Franchise Agreement, a further requirement exists to fund periodic property improvement plans ("**PIPs**"). As of September 30, 2018, the Nashville Property was undergoing an extensive renovation. It is estimated the renovation will be completed in 2019 at an additional cost subsequent to September 30, 2018 of $3 million. Other than normal maintenance no additional capital expenditures will be required for the Nashville Property until the next PIP. Although the costs and timing of the next PIP are not known, we estimate the costs will approximate $10,000 - $15,000 per room and will be required in the next 4-6 years. The Company reserves 4% of gross revenue for future PIP renovations. We believe these reserves together with free cash flow are sufficient to fund any future PIP programs.

Acquisitions

For the nine months ended September 30, 2018 and 2017, the Company had no acquisitions.

Dispositions

For the nine months ended September 30, 2018 and 2017, the Company had no dispositions.

Interim Management Discussion and Analysis – Quarterly Highlights for Third Quarter 2018

Discussion of business activities, financial condition, financial performance and cash flow of the Company for the three months ended September 30, 2018

During the three months ended September 30, 2018, the Company was undergoing a standard PIP renovation. For the quarter, it added $1,423 to property and equipment related to the renovation. The renovation is scheduled to be completed in 2019. During the renovation, the décor will be upgraded, flooring, furniture and bathroom fixtures will be replace replaced in all rooms to conform to the then required brand standards and changing consumer tastes, and general improvements will be made to common areas.

Occupancy for the period was an average of 90% as compared to 79.1% for the same period in 2017, a significant increase. The competitor set in the submarket had an average occupancy of 92.9% for the third quarter of

2018. ADR and RevPar for the Company were down to stable year over year at $212.26 and $191.07, respectively, in the third quarter of 2018 as compared to $240.77 and $190.75, respectively in the same period in 2017. ADR and RevPar for the competitor set was $257.53 and $239.19, respectively, which is an indication that the renovations underway at the Property could potentially result in significant increases to revenue once completed and stabilized. Given the Company has not done a renovation the Property since 2010, it is not unexpected that ADR and RevPar have lagged the competitor set. The high occupancy at the Property indicates how much demand exists in the submarket.

Net income was higher in the third quarter 2018 by approximately $60 as compared to the same period in 2017. This was driven primarily by higher revenue as a result of a significant increase in occupancy despite a decrease in ADR. Operating cash flow was stable year over year in the third quarter 2018 as compared to the same period in 2017 to cash inflow of $2,730 versus cash inflow of $2,704 in the prior year. Cash decreased from $2,435 to $2,091 at September 30, 2018 as a result of cash outflows from investing activities related to the renovation program. The Company paid $921 in interest payments in the third quarter 2018 as compared to $935 in the same period in 2017. The decrease was the result of a lower principal balance on the note payable, which had an outstanding principal balance of $70,289 at September 30, 2018.

Other Financial and Operating Information of the REIT

Future Accounting Changes

New standards and amendments to existing standards issued by the IASB may be relevant to the REIT in preparing its consolidated financial statements in future periods, including IFRS 16. The REIT intends to adopt this standard on its effective date.

IFRS 16, *Leases* ("**IFRS 16**") was issued in January 2016 and sets out a new model for lease accounting, replacing IAS 17, *Leases*. The most significant effect of the new standard will be the recognition of the initial present value of unavoidable future lease payments as lease assets and lease liabilities on the statement of financial position, including those for most leases that would be currently accounted for as operating leases. Leases with durations of 12 months or less and leases for low value assets may be exempted. IFRS 16 will be effective for accounting periods beginning on or after January 1, 2019. Early adoption is permitted. The REIT intends to adopt IFRS 16 in its consolidated financial statements for the annual period beginning on January 1, 2019 and does not expect the new standard to have a material impact on its consolidated financial statements.

Financial Risk Management

The activities of the Initial Portfolio expose them to market risk and liquidity risk. Risk management is carried out by the Chief Financial Officer under policies approved by executive management.

(a) Market Risk

Market risk is the risk that the fair value or future cash flows of financial assets or liabilities will fluctuate due to movements in market prices. There may be interest rate risk associated with the Initial Portfolio's fixed rate mortgages payable due to the expected requirement to refinance such mortgages payable in the year of maturity. To manage exposure to interest rate risk, management endeavors to manage maturities of fixed rate mortgages payable, and match the nature of the mortgages payable with the cash flow characteristics of the underlying assets. This risk may also be minimized through having a portion of the REIT's notes payable in fixed term arrangements.

(b) Liquidity Risk

Liquidity risk is the risk that the REIT may encounter difficulties in accessing capital and refinancing its financial obligations as they come due. To mitigate the risk associated with the refinancing of maturing debt, the REIT intends to stagger the maturity dates of its mortgage portfolio over a number of years.

Liquidity, Capital Resources and Contractual Commitments

The REIT will seek to maintain a combination of short, medium and long-term debt maturities that are appropriate for the overall debt level of its portfolio, taking into account the availability of financing and market conditions, and the financial characteristics of each property. The REIT believes that reserves set aside annually, which are generally 4% of gross revenues, and the cash generated from hotel operations will be sufficient to meet future operating expenses, capital expenditures, including the planned and in progress renovation programs as well as future PIP requirements, and future debt service requirements. In addition to the replacement reserves, the REIT anticipates having additional free cash flow that may be used to fund PIPs. Depending on the state of debt markets at the time a PIP is required, it may be possible for the REIT to refinance certain mortgages and take out additional cash to fund a PIP. Generally, once a PIP becomes required, the REIT will have 24 months or more to complete the program, pushing the total expenditures out beyond the starting point of the PIP.

In addition, the REIT believes that its capital structure will provide it with financial flexibility to pursue future growth strategies. However, the REIT's ability to fund operating expenses, capital expenditures and future debt service requirements will depend on, among other things, future operating performance, which will be affected

by general economic, industry, financial and other factors, including factors beyond the REIT's control. See the "Risk Factors" section in this prospectus.

Cash flow generated from leasing properties represents the primary source of liquidity to service debt, pay operating expenses and make distributions. Cash flow from operations is dependent upon continually leasing available rooms, cost of debt and other factors.

Disclosure Controls and Procedures and Internal Controls

The REIT's management maintains appropriate information systems, procedures and controls to ensure that information used internally and disclosed externally is complete, accurate, reliable and timely. The disclosure controls and procedures are designed to provide reasonable assurance that information required to be disclosed in its various reports are recorded, processed, summarized and reported accurately. As of the end of the period covered by this MD&A, the Chief Executive Officer and the Chief Financial Officer of the REIT have reviewed and evaluated the Initial Portfolio disclosure controls and procedures (as that term is defined in National Instrument 52-109 - Certification of Disclosure in Issuers' Annual and Interim Filings ("**NI 52-109**")) and, based upon that review and evaluation, concluded that those disclosure controls and procedures were effective and met the requirements thereof. Nevertheless, management does recognize that any controls and procedures, no matter how well designed and operated, can only provide reasonable assurance and not absolute assurance of achieving the desired control objectives.

NI 52-109 requires the Chief Executive Officer and Chief Financial Officer to certify that they are responsible for establishing and maintaining internal control over financial reporting for the Initial Portfolio and that those internal controls have been designed and are effective in providing reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements in accordance with IFRS. The Chief Executive Officer and Chief Financial Officer are also responsible for disclosing any changes to the internal controls for the Initial Portfolio that have materially affected, or are reasonably likely to materially affect, the REIT's internal control over financial reporting.

Management, including the Chief Executive Officer and Chief Financial Officer, does not expect that the disclosure controls or internal controls over financial reporting of the Initial Portfolio will prevent or detect all errors and all fraud or will be effective under all potential future conditions. A control system is subject to inherent limitations and, no matter how well designed and operated, can provide only reasonable, not absolute, assurance that the control systems objectives will be met.

The Chief Executive Officer and Chief Financial Officer have, using the framework and criteria established by the Committee of Sponsoring Organizations of the Treadway Commission in Internal Control – Integrated Framework (2013), evaluated the design and operating effectiveness of the internal controls over financial reporting of the Initial Portfolio and concluded that, as of September 30, 2018, and subject to the inherent limitations described above, internal controls over financial reporting were effective to provide reasonable assurance that information related to consolidated results and decisions to be made on those results were appropriate.

There have been no changes in the internal controls over financial reporting of the Initial Portfolio during the nine months ended September 30, 2018 that have materially affected, or are reasonably likely to materially affect the REIT's internal controls over financial reporting.

INVESTMENT GUIDELINES AND OPERATING POLICIES

Investment Guidelines

The Declaration of Trust provides certain guidelines on investments that may be made directly or indirectly by the REIT. The assets of the REIT after Closing may be invested only with the approval of the trustees and only in accordance with the following restrictions:

(a) the REIT may only invest, directly or indirectly, in interests (including fee ownership and leasehold interests) in income-producing real estate located in the United States and Canada (including, for greater certainty, assets whose revenue stems primarily from hospitality assets but which may include income from other asset classes), assets ancillary thereto necessary for the operation of such real estate and such other activities as are consistent with the other investment guidelines of the REIT;

(b) notwithstanding anything else contained in the Declaration of Trust, the REIT shall not make any investment, take any action or omit to take any action that would result in Units not being units of a "mutual fund trust" within the meaning of the Tax Act or that would result in the Units not being qualified investments for Exempt Plans;

(c) the business, operations, and the assets of the REIT shall be limited to and conducted in such a manner as to permit the REIT at all times to be qualified and classified as a Real Estate Investment Trust (as defined in the Code) for U.S. federal income tax purposes, unless the Trustees have determined, at their full discretion, that the REIT cease qualifying as a real estate investment trust under the Code;

(d) the REIT may, directly or indirectly, invest in a joint venture arrangement for the purposes of owning interests or investments otherwise permitted to be held by the REIT; provided that such joint venture arrangement contains terms and conditions which, in the opinion of the Independent Trustees, are commercially reasonable, including without limitation such terms and conditions relating to restrictions on the transfer, acquisition and sale of the REIT's and any joint venturer's interest in the joint venture arrangement, provisions to provide liquidity to the REIT, provisions to limit the liability of the REIT and its Unitholders to third parties, and provisions to provide for the participation of the REIT in the management of the joint venture arrangement. For purposes hereof, a "joint venture arrangement" is an arrangement between the REIT and one or more other persons pursuant to which the REIT, directly or indirectly, conducts an undertaking for one or more of the purposes set out in the investment guidelines of the REIT and in respect of which the REIT may hold its interest jointly or in common or in another manner with others either directly or through the ownership of securities of a corporation or other entity;

(e) except for temporary investments held in cash, deposits with a Canadian or U.S. chartered bank or trust company registered under the laws of a province of Canada or a state of the United States, short-term government debt securities or money market instruments maturing prior to one year from the date of issue and except as permitted pursuant to the investment guidelines and operating policies of the REIT, the REIT may not hold securities of a person other than to the extent such securities would constitute an investment in real property (as determined by the Trustees) and provided further that, notwithstanding anything contained in the Declaration of Trust to the contrary, but in all events subject to paragraph (b) above, the REIT may hold securities of a person: (i) acquired in connection with the carrying on, directly or indirectly, of the REIT's activities or the holding of its assets; or (ii) which focuses its activities primarily on the activities described in paragraph (a) above, provided in the case of any proposed investment or acquisition which would result in the beneficial ownership of more than 10% of the outstanding securities of an issuer (the "**Acquired Issuer**"), the investment is made for the purpose of subsequently effecting the merger or combination of the business and assets of the REIT and the Acquired

Issuer or for otherwise ensuring that the REIT will control the business and operations of the Acquired Issuer;

(f) the REIT shall not invest in rights to or interests in mineral or other natural resources, including oil or gas, except as incidental to an investment in real property;

(g) the REIT shall not invest, directly or indirectly, in operating businesses unless:

(i) revenue will be principally associated with the ownership, directly or indirectly, of hospitality properties; or

(ii) it principally involves the ownership, maintenance, development, improvement, leasing or management, directly or indirectly, of a hospitality property (in each case as determined by the Trustees); or

(iii) it is an indirect investment and is incidental to a transaction which satisfies (i) or (ii) above;

(h) the REIT shall not invest in raw land for development, except (a) for existing properties with additional development or properties adjacent to existing properties of the REIT for the purpose of the renovation or expansion of existing properties, or (b) the development of new properties which will be capital property of the REIT, provided that the aggregate value of the investments of the REIT in raw land, excluding raw land under development, after giving effect to the proposed investment, will not exceed 10% of Gross Real Estate Value;

(i) the REIT may invest in and originate mortgages and mortgage bonds (including participating or convertible mortgages) and similar instruments where:

(i) the real property which is security for such mortgages and similar instruments is income producing real property which otherwise meets the other investment guidelines of the REIT; and

(ii) the aggregate book value of the investments of the REIT in mortgages, after giving effect to the proposed investment, will not exceed 15% of Gross Real Estate Value; and

(j) the REIT may invest an amount (which, in the case of an amount invested to acquire real property, is the purchase price less the amount of any debt incurred or assumed in connection with such investment) up to 15% of the Gross Real Estate Value of the REIT in investments which do not comply with one or more of paragraphs (a), (d), (e), (g) and (h).

Operating Policies

The Declaration of Trust provides that operations and affairs of the REIT are to be conducted in accordance with the following policies:

(a) the REIT shall not purchase, sell, market or trade in currency or interest rate futures contracts otherwise than for hedging purposes where, for the purposes hereof, the term "hedging" has the meaning ascribed thereto by National Instrument 81-102 – *Mutual Funds adopted by the Canadian Securities Administrators*, as replaced or amended from time to time;

(b) (i) any written instrument creating an obligation which is or includes the granting by the REIT of a mortgage; and

(ii) to the extent the Trustees determine to be practicable and consistent with their fiduciary duties to act in the best interest of the Unitholders, any written instrument which is, in the judgment of the Trustees, a material obligation,

shall contain a provision, or be subject to an acknowledgement to the effect, that the obligation being created is not personally binding upon, and that resort must not be had to, nor will recourse or satisfaction be sought from, by lawsuit or otherwise the private property of any of the Trustees, Unitholders, annuitants or beneficiaries under a plan of which a Unitholder acts as a trustee or carrier, or officers, employees or agents of the REIT, but that only property of the REIT or a specific portion thereof is bound; the REIT, however, is not required, but must use all reasonable efforts, to comply with this requirement in respect of obligations assumed by the REIT upon the acquisition of real property;

(c) the REIT may engage in construction or development of real property: (a) to maintain its real properties in good repair or to improve the income producing potential of properties in which the REIT has an interest; and (b) to develop new properties that will be capital properties of the REIT on completion, provided that the aggregate value of the investments of the REIT in properties under development under this subparagraph (b) after giving effect to the proposed investment in the construction or development, will not exceed 20% of Gross Real Estate Value;

(d) title to each real property shall be held by and registered in the name of the REIT, a subsidiary of the REIT, the Trustees or a corporation or other entity wholly-owned, directly or indirectly, by the REIT or jointly- owned, directly or indirectly, by the REIT, with joint venturers; provided, that where land tenure will not provide fee simple title, the REIT, the Trustees or a corporation or other entity wholly-owned, directly or indirectly, by the REIT or jointly owned, directly or indirectly, by the REIT shall hold a land lease as appropriate under the land tenure system in the relevant jurisdiction;

(e) the REIT shall not incur or assume any indebtedness if, after giving effect to the incurrence or assumption of such indebtedness, the total indebtedness of the REIT would be more than 70% of Gross Real Estate Value;

(f) the REIT shall not directly or indirectly guarantee any indebtedness or liabilities of any kind of a third party, except indebtedness or liabilities assumed or incurred by an entity in which the REIT holds an interest, directly or indirectly, or by an entity jointly owned by the REIT with joint venturers and operated solely for the purpose of holding a particular property or properties, where such indebtedness, if granted by the REIT directly, would cause the REIT to contravene its investment guidelines or operating policies. The REIT is not required but shall use its reasonable best efforts to comply with this requirement (a) in respect of obligations assumed by the REIT pursuant to the acquisition of real property; or (b) if doing so is necessary or desirable in order to further the initiatives of the REIT permitted under the Declaration of Trust;

(g) the REIT shall directly or indirectly obtain and maintain at all times property insurance coverage in respect of potential liabilities of the REIT and the accidental loss of value of the assets of the REIT from risks, in amounts, with such insurers, and on such terms as the Trustees consider appropriate, taking into account all relevant factors including the practice of owners of comparable properties;

(h) the REIT shall have obtained an appraisal of each real property that it intends to acquire and an engineering survey with respect to the physical condition thereof, in each case, by an independent and experienced consultant, unless the requirement for such an appraisal or engineering survey is waived by the Independent Trustees;

(i) the REIT shall obtain a Phase I environmental site assessment of each real property to be acquired by it and, if the Phase I environmental site assessment report recommends that a further

environmental site assessment be conducted, the REIT shall have conducted such further environmental site assessments, in each case by an independent and experienced environmental consultant; as a condition to any acquisition such assessments shall be satisfactory to the Trustees; and

(j) the REIT shall not engage in any sales or other dispositions of properties, directly or indirectly, if it would subject the REIT to tax under Section 857 of the Code.

For the purpose of the foregoing investment guidelines and operating policies, the assets, liabilities and transactions of a corporation or other entity wholly or partially-owned by the REIT will be deemed to be those of the REIT on a proportionate consolidation basis. In addition, any references in the foregoing investment guidelines and operating policies to investment in real property will be deemed to include an investment in a joint venture arrangement that invests in real property.

Amendments to Investment Guidelines and Operating Policies

Pursuant to the Declaration of Trust, all of the investment guidelines set out under the heading “Investment Guidelines” and the operating policies contained in paragraphs (a), (e), (f), (g), (h) and (i) set out under the heading “Operating Policies” may be amended only with the approval of two-thirds of the votes cast by Unitholders of the REIT at a meeting of Unitholders called for such purpose. The remaining operating policies may be amended with the approval of a majority of the votes cast by Unitholders at a meeting called for such purpose.

Notwithstanding the foregoing paragraph, if at any time a government or regulatory authority having jurisdiction over the REIT or any property of the REIT shall enact any law, regulation or requirement which is in conflict with any investment guideline or operating policy of the REIT then in force (other than subparagraph (b) at “Investment Guidelines and Operating Policies – Investment Guidelines”), such investment guideline or operating policy in conflict shall, if the Trustees on the advice of legal counsel to the REIT so resolve, be deemed to have been amended to the extent necessary to resolve any such conflict and, notwithstanding anything to the contrary, any such resolution of the Trustees shall not require the prior approval of Unitholders.

DECLARATION OF TRUST

General

The REIT is an unincorporated open-ended real estate investment trust established pursuant to the Declaration of Trust under, and governed by, the laws of the Province of Ontario. Although the REIT is expected to qualify on Closing as a “mutual fund trust” as defined in the Tax Act, the REIT will not be a “mutual fund” as defined by applicable securities legislation.

The Units are not “deposits” within the meaning of the *Canada Deposit Insurance Corporation Act* (Canada) and are not insured under the provisions of such Act or any other legislation. The Units are not shares in the REIT and, although the protections, rights and remedies set out in the Declaration of Trust are similar to those provided under the CBCA, Unitholders do not have statutory rights of shareholders of a corporation including, for example, “dissent rights” in respect of certain corporate transactions and fundamental changes, the right to apply to a court to order the liquidation or dissolution of the REIT, or the right to bring “oppression” or “derivative” actions. Furthermore, the REIT is not a trust company and accordingly, is not registered under any trust and loan company legislation as it does not carry on or intend to carry on the business of a trust company.

Units

The REIT is authorized to issue an unlimited number of Units. Issued and outstanding Units may be subdivided or consolidated from time to time by the Trustees without notice to or the approval of the Unitholders.

No Unit will have any preference or priority over another. Each Unit will represent a Unitholder's proportionate undivided beneficial ownership interest in the REIT and will confer the right to one vote at any meeting of Unitholders and to participate *pro rata* in any distributions by the REIT, whether of net income, net realized capital gains or other amounts and, in the event of termination or winding-up of the REIT, in the net assets of the REIT remaining after satisfaction of all liabilities. Units will be fully paid and non-assessable when issued and are transferable. The Units are redeemable by the holder thereof, as described below under "Declaration of Trust – Redemption Right" and, except as set out in "Retained Interest", "Declaration of Trust – Issuance of Units" and "The Operating Partnership – Operation", the Units have no other conversion, retraction, redemption or pre-emptive rights. Fractional Units may be issued as a result of an act of the Trustees, but fractional Units will not entitle the holders thereof to vote, except to the extent that such fractional Units may represent in the aggregate one or more whole Units.

Restrictions on Ownership and Transfer

REIT Qualification

In order for the REIT to qualify as a real estate investment trust for U.S. federal income tax purposes, the Units must be beneficially owned by 100 or more persons during at least 335 days of a taxable year of 12 months or during a proportionate part of a shorter taxable year. Also, not more than 50% of the value of the outstanding Units (after taking into account options to acquire Units) may be owned, directly or through certain constructive ownership rules, by five or fewer individuals (as defined in the Code to include certain entities such as private foundations) at any time during the last half of a taxable year.

The Declaration of Trust contains restrictions on the ownership and transfer of the Units that are intended to assist the REIT in complying with these requirements to qualify as a real estate investment trust. The relevant sections of the Declaration of Trust provide that, subject to the exceptions described below, no person or entity may actually or beneficially own, or be deemed to own by virtue of the applicable constructive ownership provisions of the Code, more than 6.2% of the Units, excluding any Units that are not treated as outstanding for U.S. federal income tax purposes. Each of these restrictions, as well as the restrictions described below under "Declaration of Trust – FIRPTA", is referred to as an "ownership limit" and collectively as the "ownership limits". A person or entity that would have acquired actual, beneficial or constructive ownership of the Units but for the application of the ownership limits or any of the other restrictions on ownership and transfer of the Units is a "prohibited owner".

The constructive ownership rules under the Code are complex and may cause Units owned actually or constructively by a group of related individuals and/or entities to be owned constructively by one individual or entity. As a result, the acquisition of less than 6.2% of the Units (or the acquisition of an interest in an entity that owns, actually or constructively, the Units) by an individual or entity could, nevertheless, cause that individual or entity, or another individual or entity, to own constructively in excess of 6.2% of the Units and thereby violate the applicable ownership limit.

The Declaration of Trust provides that the Board, subject to certain limits including any applicable fiduciary duties, shall prospectively exempt a person from the ownership limits and, if necessary, establish a different limit on ownership for such person if it determines that such exemption could not cause or permit:

- five or fewer individuals to actually or beneficially own more than 49% in value of the outstanding Units;
- the REIT to own, actually or constructively, an interest in a tenant of the REIT (or a tenant of any entity owned in whole or in part by the REIT), other than a TRS Entity; or
- any hotel manager engaged by the TRS Entities to fail to qualify as an eligible independent contractor.

As a condition of the exception, the Board may require an opinion of counsel or a U.S. Internal Revenue Service (the "**IRS**") ruling, in either case in form and substance satisfactory to the Board, in its sole and absolute

discretion, in order to determine or ensure the REIT's status for U.S. federal income tax purposes, and such representations, covenants and/or undertakings as are necessary or prudent to make the determinations above. Notwithstanding the receipt of any ruling or opinion, the Board may impose such conditions or restrictions as it deems appropriate in connection with such an exception.

In connection with a waiver of an ownership limit or at any other time, the Board may, in its sole and absolute discretion, increase or decrease Unit ownership limits for one or more persons, except that a decreased ownership limit will not be effective for any person whose actual, beneficial or constructive ownership of the Units exceeds the decreased ownership limit at the time of the decrease until the person's actual, beneficial or constructive ownership of the Units equals or falls below the decreased ownership limit, although any further acquisition of the Units will violate the decreased ownership limit. The Board may not increase or decrease any ownership limit if the new ownership limit would allow five or fewer persons to actually or beneficially own more than 49% of the Units.

The Declaration of Trust further prohibits:

- any person from actually, beneficially or constructively owning Units that could result in the REIT being "closely held" under Section 856(h) of the Code (without regard to whether the ownership interest is held during the last half of a taxable year) or otherwise cause the REIT to fail to qualify as a real estate investment trust (including, but not limited to, actual, beneficial or constructive ownership of Units that could result in the REIT owning (actually or constructively) an interest in a tenant that is described in Section 856(d)(2)(B) of the Code if the income the REIT derives from such tenant, taking into account the REIT's other income that would not qualify under the gross income requirements of Section 856(c) of the Code, would cause the REIT to fail to satisfy any of the gross income requirements imposed on real estate investment trusts); and

- any person from transferring Units if such transfer would result in the Units being beneficially owned by fewer than 100 persons (determined without reference to any rules of attribution).

Any person who acquires or attempts or intends to acquire actual, beneficial or constructive ownership of Units that will or may violate the ownership limits or any of the other restrictions on ownership and transfer of the Units described above must give written notice immediately to the REIT or, in the case of a proposed or attempted transaction, provide it at least 15 days prior written notice, and provide the REIT with such other information as the REIT may request in order to determine the effect of such transfer on the REIT's status for U.S. federal income tax purposes.

The ownership limits and other restrictions on ownership and transfer of the Units described above will not apply if the Board determines that it is no longer in the REIT's best interests to continue to qualify as a real estate investment trust or that compliance is no longer required in order for the REIT to qualify as a real estate investment trust.

Every owner of 5% or more (or such lower percentage as required by the Code or the Treasury Regulations promulgated thereunder) of the outstanding Units, within 30 days after the end of each taxable year, must give written notice to the REIT stating the name and address of such owner, the number of Units that the owner actually or beneficially owns and a description of the manner in which the Units are held. Each such owner also must provide the REIT with any additional information that the REIT requests in order to determine the effect, if any, of the person's actual or beneficial ownership on the REIT's status for U.S. federal income tax purposes and to ensure compliance with the ownership limits and the other restrictions on ownership and transfer of the Units set forth in the Declaration of Trust. In addition, any person that is an actual, beneficial or constructive owner of Units and any person (including the Unitholder of record) who is holding Units for an actual, beneficial or constructive owner must, on request, disclose to the REIT in writing such information as the REIT may request in good faith in order to determine the REIT's status for U.S. federal income tax purposes and to comply with requirements of any taxing authority or governmental authority or to determine such compliance.

FIRPTA

Under the *Foreign Investment in Real Property Tax Act of 1980*, as amended ("**FIRPTA**"), if any non-U.S. person holds, actually or constructively, more than 10% of the outstanding Units, the REIT will be required to withhold 15% on distributions in excess of the REIT's current and accumulated earnings and profits (as determined for U.S. federal income tax purposes), and to withhold 21% (or less to the extent provided in applicable Treasury Regulations) of any distribution to such non-U.S. person that could be designated by the REIT as a capital gain dividend. Any such withheld amount is creditable against such non-U.S. person's FIRPTA tax liability.

In order for the REIT to comply with its withholding obligations under FIRPTA (and certain other regulatory requirements), the Units are subject to notice requirements and transfer restrictions. Non-U.S. persons holding Units are required to provide the REIT with such information as the REIT may request. Furthermore, any non-U.S. person that would be treated as having acquired sufficient Units to be treated as owning more than 5% of the Units is required to notify the REIT by the close of the business day prior to the date of the transfer that would cause the non-U.S. person to own more than 5% of the Units.

The constructive ownership rules under the Code are complex and may cause Units owned actually or constructively by a group of related individuals and/or entities to be owned constructively by one individual or entity. As a result, the acquisition of 5% or less of the Units (or the acquisition of an interest in an entity that owns, actually or constructively, the Units) by an individual or entity could, nevertheless, cause that individual or entity, or another individual or entity, to own constructively in excess of 5% of the Units and thereby become subject to the notice requirement. Under these rules of constructive ownership, Units can be attributed (i) among family members, (ii) to non-U.S. persons from entities that own Units, to the extent that such non-U.S. persons own interests in such entities, and (iii) to entities from non-U.S. persons that own interests in such entities. Under these attribution rules, Units of related entities (including related investment funds) may be aggregated to the extent of overlapping ownership.

If any non-U.S. person that would otherwise be treated as having acquired sufficient Units to be treated as owning more than 5% of the Units fails to comply with the FIRPTA notice provisions described above, the excess Units (i.e., the excess of the number of Units it would be treated as owning over an amount equal to 5% of the outstanding Units) will be sold, through the mechanism described below under "Declaration of Trust – Excess Units," with such non-U.S. person receiving the lesser of (i) its original purchase price for the excess Units, and (ii) the sale price of the excess Units (net of commissions and other expenses of sale). Non-U.S. persons holding Units are strongly advised to monitor their actual and constructive ownership of Units.

Excess Units

Pursuant to the Declaration of Trust, if any purported transfer of the Units or any other event would otherwise result in any person violating the ownership limits described above under "Declaration of Trust – REIT Qualification" or such other limit established by the Board or otherwise failing to qualify as a real estate investment trust, or if a non-U.S. person would otherwise be treated as owning more than 5% of the Units and has not complied with the notice provisions described under "Declaration of Trust – FIRPTA", then the number of Units that exceeds the applicable ownership limit (rounded up to the nearest whole Unit) will be automatically transferred to, and held by, a charitable trust for the exclusive benefit of one or more charitable beneficiaries selected by the REIT. The prohibited owner will have no rights in Units held by the charitable trustee. The automatic transfer will be effective as of the close of business on the business day prior to the date of the violative transfer or other event that results in the transfer to the charitable trust. Any dividend or other distribution paid to the prohibited owner, prior to the REIT's discovery that the Units had been automatically transferred to a charitable trust, must be repaid to the charitable trustee upon demand. If the transfer to the charitable trust as described above is not automatically effective, for any reason, to prevent violation of the applicable restriction on ownership and transfer of the Units, then the transfer of the number of Units that otherwise would cause any person to violate the above restrictions will be void and of no force or effect and the intended transferee will acquire no rights in the Units. If any transfer of the Units would result in Units being beneficially owned by fewer than 100 persons (determined without reference to any rules of attribution), then any such purported transfer will be void and of no force or effect and the intended transferee will acquire no rights in the Units.

Units transferred to the charitable trustee are deemed offered for sale to the REIT, or the REIT's designee, at a price per Unit equal to the lesser of (i) the price per Unit in the transaction that resulted in the transfer of the Units to the charitable trust (or, in the event of a gift, devise or other such transaction, the last sale price reported on the TSXV on the day of the transfer or other event that resulted in the transfer of such Units to the charitable trust); and (ii) the last sale price reported on the TSXV on the date the REIT accepts, or the REIT's designee accepts, such offer. The REIT must reduce the amount payable to the prohibited owner by the amount of dividends and distributions paid to the prohibited owner and owed by the prohibited owner to the charitable trustee and pay the amount of such reduction to the charitable trustee for the benefit of the charitable beneficiary. The REIT has the right to accept such offer until the charitable trustee has sold the Units held in the charitable trust. Upon a sale to the REIT, the interest of the charitable beneficiary in the Units sold terminates and the charitable trustee must distribute the net proceeds of the sale to the prohibited owner and any dividends or other distributions held by the charitable trustee with respect to such Units will be paid to the charitable beneficiary.

If the REIT does not buy the Units, the charitable trustee must, within 20 days of receiving notice from the REIT of the transfer of Units to the charitable trust, sell the Units to a person or persons designated by the charitable trustee who could own the Units without violating the ownership limits or other restrictions on ownership and transfer of the Units. Upon such sale, the charitable trustee must distribute to the prohibited owner an amount equal to the lesser of (i) the price paid by the prohibited owner for the Units (or, if the prohibited owner did not give value in connection with the transfer or other event that resulted in the transfer to the charitable trust (e.g., a gift, devise or other such transaction), the last sale price reported on the TSXV on the day of the transfer or other event that resulted in the transfer of such Units to the charitable trust); and (ii) the sales proceeds (net of commissions and other expenses of sale) received by the charitable trustee for the Units. The charitable trustee must reduce the amount payable to the prohibited owner by the amount of dividends and other distributions paid to the prohibited owner and owed by the prohibited owner to the charitable trustee. Any net sales proceeds in excess of the amount payable to the prohibited owner will be immediately paid to the charitable beneficiary, together with any dividends or other distributions thereon. In addition, if prior to discovery by the REIT that Units have been transferred to the charitable trustee, such Units are sold by a prohibited owner, then such Units shall be deemed to have been sold on behalf of the charitable trust and, to the extent that the prohibited owner received an amount for or in respect of such Units that exceeds the amount that such prohibited owner was entitled to receive, such excess amount shall be paid to the charitable trustee upon demand.

The charitable trustee will be designated by the REIT and will be unaffiliated with the REIT and with any prohibited owner. Prior to the sale of any Units by the charitable trust, the charitable trustee will receive, in trust for the beneficiary, all dividends and other distributions paid by the REIT with respect to such Units, and may exercise all voting rights with respect to such Units for the exclusive benefit of the charitable beneficiary.

Subject to Ontario law, effective as of the date that the Units have been transferred to the charitable trust, the charitable trustee may, at the charitable trustee's sole discretion:

- rescind as void any vote cast by a prohibited owner prior to the REIT's discovery that the Units have been transferred to the charitable trust; and

- recast the vote in accordance with the desires of the charitable trustee acting for the benefit of the beneficiary of the charitable trust.

However, if the REIT has already taken irreversible corporate action, then the trustee may not rescind and recast the vote.

If the Board determines in good faith that a proposed transfer or other event has taken place that violates the restrictions on ownership and transfer of the Units set forth in the Declaration of Trust, the Board may take such action as it deems advisable in its sole discretion to refuse to give effect to or to prevent such transfer, including, but not limited to, causing the REIT to redeem Units, refusing to give effect to the transfer on the REIT's books or instituting proceedings to enjoin the transfer.

The Units are subject to the restrictions on ownership and transfer of the Units described herein under "Declaration of Trust – Restrictions on Ownership and Transfer". These restrictions on ownership and transfer could delay, defer or prevent a transaction or a change of control of the REIT that might involve a premium price for the Units that the Unitholders believe to be in their best interest.

Meetings of Unitholders

The Declaration of Trust provides that meetings of Unitholders will be required to be called and held in various circumstances, including (i) for the election or removal of Trustees, (ii) the appointment or removal of the auditors of the REIT, (iii) the approval of amendments to the Declaration of Trust (except as described below under "Amendments to the Declaration of Trust"), (iv) the sale or transfer of the assets of the REIT as an entirety or substantially as an entirety (other than as part of an internal reorganization of the assets of the REIT approved by the Trustees), (v) the termination of the REIT, and (vi) for the transaction of any other business as the Trustees may determine or as may be properly brought before the meeting. Meetings of Unitholders will be called and held annually, commencing in 2020, for the election of the Trustees and the appointment of the auditors of the REIT. All meetings of Unitholders must be held in Canada.

A meeting of Unitholders may be convened at any time and for any purpose by the Trustees and must be convened, except in certain circumstances, if requisitioned in writing by the holders of not less than 5% of the Units then outstanding. A requisition must state in reasonable detail the business proposed to be transacted at the meeting. Unitholders have the right to obtain a list of Unitholders to the same extent and upon the same conditions as those which apply to shareholders of a corporation governed by the CBCA.

Unitholders may attend and vote at all meetings of Unitholders either in person or by proxy. Two persons present in person or represented by proxy, and such persons holding or representing by proxy not less in aggregate than 25% of the total number of outstanding Units, will constitute a quorum for the transaction of business at all such meetings. Any meeting at which a quorum is not present within one-half hour after the time fixed for the holding of such meeting, if convened upon the request of the Unitholders, will be terminated, but in any other case, the meeting will stand adjourned to a day not less than 14 days later and to a place and time as chosen by the chair of the meeting, and if at such adjourned meeting a quorum is not present, the Unitholders present either in person or by proxy will be deemed to constitute a quorum.

Pursuant to the Declaration of Trust, a resolution in writing executed by Unitholders holding a proportion of the outstanding Units equal to the proportion required to vote in favour thereof at a meeting of Unitholders to approve that resolution is valid as if it had been passed at a meeting of Unitholders.

Advance Notice Provision

The Declaration of Trust includes certain advance notice provisions (the "**Advance Notice Provision**"), which will: (i) facilitate orderly and efficient annual general or, where the need arises, special, meetings; (ii) ensure that all Unitholders receive adequate notice of the Trustee nominations and sufficient information with respect to all nominees; and (iii) allow Unitholders to register an informed vote.

Except as otherwise provided in the Declaration of Trust, only persons who are nominated by Unitholders in accordance with the Advance Notice Provision or in accordance with the Investor Rights Agreement shall be eligible for election as Trustees. Nominations of persons for election to the Board may be made for any annual meeting of Unitholders, or for any special meeting of Unitholders if one of the purposes for which the special meeting was called was the election of Trustees: (i) by or at the direction of the Board, including pursuant to a notice of meeting; (ii) by or at the direction or request of one or more Unitholders pursuant to a requisition of the Unitholders made in accordance with the Declaration of Trust; or (iii) by any person (a "**Nominating Unitholder**"): (a) who, at the close of business on the date of the giving of the notice provided for below and on the record date for notice of such meeting, is entered in the REIT's register as a holder of one or more Units carrying the right to vote at such meeting or who beneficially owns Units that are entitled to be voted at such meeting; and (b) who complies with the notice procedures set forth in the Advance Notice Provision.

In addition to any other applicable requirements, for a nomination to be made by a Nominating Unitholder, the Nominating Unitholder must have given timely notice thereof in proper written form to the Trustees.

To be timely, a Nominating Unitholder's notice to the Trustees must be made: (i) in the case of an annual meeting of Unitholders, not less than 30 days prior to the date of the annual meeting of Unitholders; provided, however, that in the event that the annual meeting of Unitholders is to be held on a date that is less than 50 days after the date that is the earlier of the date that a notice of meeting is filed for such meeting or the date on which the first public announcement of the date of the annual meeting was made, notice by the Nominating Unitholder may be made not later than the close of business on the 10th day following the date on which the first public announcement of the date of the annual meeting of Unitholders was made; and (ii) in the case of a special meeting (which is not also an annual meeting) of Unitholders called for the purpose of electing Trustees (whether or not called for other purposes), not later than the close of business on the 15th day following the date on which the first public announcement of the date of the special meeting of Unitholders was made.

To be in proper written form, a Nominating Unitholder's notice to the Trustees must set forth: (i) as to each person whom the Nominating Unitholder proposes to nominate for election as a Trustee: (a) the name, age, business address and residential address of the person; (b) the principal occupation or employment of the person; (c) the class or series and number of Units which are controlled or which are owned beneficially or of record by the person as of the record date for the meeting of Unitholders (if such date shall then have been made publicly available and shall have occurred) and as of the date of such notice; and (d) any other information relating to the person that would be required to be disclosed in a dissident's proxy circular in connection with solicitations of proxies for election of Trustees pursuant to applicable Securities Laws (as defined in the Declaration of Trust); and (ii) as to the Nominating Unitholder giving the notice, any proxy, contract, arrangement, understanding or relationship pursuant to which such Nominating Unitholder has a right to vote any Units and any other information relating to such Nominating Unitholder that would be required to be made in a dissident's proxy circular in connection with solicitations of proxies for election of Trustees pursuant to applicable Securities Laws.

The chairperson of the meeting shall have the power and duty to determine whether a nomination was made in accordance with the procedures set forth in the foregoing provisions and, if any proposed nomination is not in compliance with such foregoing provisions, to declare that such defective nomination shall be disregarded.

Notwithstanding the foregoing, the Board may, in its sole discretion, waive any requirement in the Advance Notice Provision.

Redemption Right

Units are redeemable at any time on demand by the holders thereof upon delivery to the REIT of a duly completed and properly executed notice requesting redemption in a form reasonably acceptable to the Trustees, together with written instructions as to the number of Units to be redeemed. A Unitholder not otherwise holding a fully registered Unit certificate who wishes to exercise the redemption right will be required to obtain a redemption notice form from the Unitholder's investment dealer who will be required to deliver the completed redemption notice form to the REIT and to CDS. Upon receipt of the redemption notice by the REIT, all rights to and under the Units tendered for redemption shall be surrendered and the holder thereof will be entitled to receive a price per Unit (the "**Redemption Price**") equal to the lesser of:

(a) 90% of the "Market Price" of a Unit calculated as of the date on which the Units were surrendered for redemption (the "**Redemption Date**"); and

(b) 100% of the "Closing Market Price" on the Redemption Date.

For purposes of this calculation, the "**Market Price**" of a Unit as at a specified date will be:

(a) an amount equal to the weighted average trading price of a Unit on the principal exchange or market on which the Units are listed or quoted for trading during the period of 10 consecutive trading days ending on such date;

(b) an amount equal to the weighted average of the closing market prices of a Unit on the principal exchange or market on which the Units are listed or quoted for trading during the period of 10 consecutive trading days ending on such date, if the applicable exchange or market does not provide information necessary to compute a weighted average trading price; or

(c) if there was trading on the applicable exchange or market for fewer than five of the 10 trading days, an amount equal to the simple average of the following prices established for each of the 10 consecutive trading days ending on such date: the simple average of the last bid and last asking price of the Units for each day on which there was no trading; the closing price of the Units for each day that there was trading if the exchange or market provides a closing price; and the simple average of the highest and lowest prices of the Units for each day that there was trading, if the market provides only the highest and lowest prices of Units traded on a particular day.

The "**Closing Market Price**" of a Unit for the purpose of the foregoing calculations, as at any date will be:

(a) an amount equal to the weighted average trading price of a Unit on the principal exchange or market on which the Units are listed or quoted for trading on the specified date if the principal exchange or market provides information necessary to compute a weighted average trading price of the Units on the specified date;

(b) an amount equal to the closing price of a Unit on the principal market or exchange if there was a trade on the specified date and the principal exchange or market provides only a closing price of the Units on the specified date;

(c) an amount equal to the simple average of the highest and lowest prices of the Units on the principal market or exchange, if there was trading on the specified date and the principal exchange or market provides only the highest and lowest trading prices of the Units on the specified date; or

(d) the simple average of the last bid and last asking prices of the Units on the principal market or exchange, if there was no trading on the specified date.

If Units are not listed or quoted for trading in a public market, the Redemption Price will be the fair market value of the Units, which will be determined by the Trustees in their sole discretion.

The aggregate Redemption Price payable by the REIT in respect of any Units surrendered for redemption during any calendar month will be paid in U.S. dollars within 30 days after the end of the calendar month in which the Units were tendered for redemption, provided that the entitlement of Unitholders to receive cash upon the redemption of their Units is subject to the limitations that: (i) the total amount payable by the REIT in respect of such Units and all other Units tendered for redemption in the same calendar month must not exceed $50,000 (provided that such limitation may be waived at the discretion of the Trustees); (ii) on the date such Units are tendered for redemption, the outstanding Units must be listed for trading on the TSXV or traded or quoted on any other stock exchange or market which the Trustees consider, in their sole discretion, provides representative fair market value prices for the Units; (iii) the normal trading of Units is not suspended or halted on any stock exchange on which the Units are listed (or, if not listed on a stock exchange, in any market where the Units are quoted for trading) on the Redemption Date or for more than five trading days during the 10-day trading period commencing immediately before the Redemption Date; and (iv) the redemption of the Units must not result in the delisting of the Units from the principal stock exchange on which the Units are listed.

Cash payable on redemptions will be paid *pro rata* to all Unitholders tendering Units for redemption in any month. To the extent a Unitholder is not entitled to receive cash upon the redemption of Units as a result of any of the foregoing limitations, then the balance of the Redemption Price for such Units will, subject to any applicable regulatory approvals, be paid and satisfied by way of a distribution in specie to such Unitholder of Redemption Notes. In the event of distributions of Redemption Notes, each Redemption Note so distributed to the redeeming holder of Units shall be in the principal amount of $100 or such other amount as may be determined by the Trustees. No fractional Redemption Notes shall be distributed and where the number of Redemption Notes to be received upon redemption by a holder of Units would otherwise include a fraction, that number shall be rounded down to the next lowest whole number. The Trustees may deduct or withhold from all payments or other distributions payable to any Unitholder pursuant to the Declaration of Trust all amounts required by law to be so withheld.

It is anticipated that the redemption right described above will not be the primary mechanism for Unitholders to dispose of their Units. Redemption Notes which may be distributed to holders of Units in connection with a redemption will not be listed on any exchange, no market is expected to develop in Redemption Notes and such securities may be subject to an indefinite "hold period" or other resale restrictions under applicable securities laws. Redemption Notes so distributed may not be qualified investments for Exempt Plans, depending upon the circumstances at the time.

Purchases of Units by the REIT

The REIT may from time to time purchase Units in accordance with applicable securities legislation and the rules prescribed under applicable stock exchange and regulatory policies. Any such purchase will constitute an "issuer bid" under Canadian provincial securities legislation and must be conducted in accordance with the applicable requirements thereof.

Take-Over Bids

The Declaration of Trust contains provisions to the effect that if a take-over bid or issuer bid is made for Units within the meaning of the *Securities Act* (Ontario) and not less than 90% of the Units (other than Units held at the date of the take-over bid by or on behalf of the offeror or associates or affiliates of the offeror) are taken up and paid for by the offeror, the offeror will be entitled to acquire the Units held by Unitholders who do not accept the offer either, at the election of each Unitholder, on the terms offered by the offeror or at the fair value of such Unitholder's Units determined in accordance with the procedures set out in the Declaration of Trust.

The Declaration of Trust and the LLC Agreement will provide that in the event that a non-exempt take-over bid from a person acting at arm's length to holders of Class B OP Units (or any affiliate or associate thereof) is made for Units, unless the take-over bid is structured to (i) permit holders of Class B OP Units to both redeem for Units and tender conditional on take-up, or (ii) such that the offer is made for all Class B OP Units on identical terms, then from and after the first take-up of Units under the said take-over bid (provided that not less than 25% of the Units other than Units held at the date of the take-over bid by the offeror or associates or affiliates of the offeror are so taken up) the terms and conditions of the Class B OP Units held by persons other than the offeror (or any affiliate or associate thereof) will automatically (without further action) be amended such that the redemption rate shall be varied to equal 110% of the redemption rate then in effect (such that on conversion, exercise, redemption or exchange the holder shall receive 1.1 Units for each Unit that the holder would otherwise have received). Notwithstanding any adjustment on completion of an exclusionary offer as described above, the distribution rights attaching to the Class B OP Units will also not be adjusted until the redemption right is actually exercised.

Non-Certificated Inventory System

Other than pursuant to certain exceptions, registration of interests in and transfers of Units held through CDS, or its nominee, will be made electronically through the NCI system of CDS. On Closing, the REIT, via its transfer agent, will electronically deliver the Units registered to CDS or its nominee. Units held in CDS must be purchased, transferred and surrendered for redemption through a CDS participant, which includes securities brokers and dealers, banks and trust companies. All rights of Unitholders who hold Units in CDS must be exercised through, and all payments or other property to which such Unitholders are entitled will be made or delivered by CDS or the

CDS participant through which the Unitholder holds such Units. A holder of a Unit participating in the NCI system will not be entitled to a certificate or other instrument from the REIT or the REIT's transfer agent evidencing that person's interest in or ownership of Units, nor, to the extent applicable, will such Unitholder be shown on the records maintained by CDS, except through an agent who is a CDS participant.

The ability of a beneficial owner of Units to pledge such Units or otherwise take action with respect to such Unitholder's interest in such Units (other than through a CDS participant) may be limited due to the lack of a physical certificate.

Issuance of Units

The REIT may issue new Units from time to time, in such manner, for such consideration and to such person or persons as the Trustees shall determine. Unitholders will not have any pre-emptive rights whereby additional Units proposed to be issued would be first offered to existing Unitholders. If the Trustees determine that the REIT does not have cash in an amount sufficient to make payment of the full amount of any distribution, the payment may include the issuance of additional Units having a value equal to the difference between the amount of such distribution and the amount of cash which has been determined by the Trustees to be available for the payment of such distribution.

The REIT may also issue new Units (or securities exchangeable into Units) (i) as consideration for the acquisition of new properties or assets by it, at a price or for the consideration determined by the Trustees, (ii) pursuant to any incentive or option plan established by the REIT from time to time, (iii) pursuant to a distribution reinvestment plan of the REIT (See "Distribution Policy"), or (iv) pursuant to a Unitholder rights plan of the REIT.

The Declaration of Trust also provides that immediately after any *pro rata* distribution of Units to all Unitholders in satisfaction of any non-cash distribution, the number of outstanding Units will be consolidated so that each Unitholder will hold, after the consolidation, the same number of Units as the Unitholder held before the non-cash distribution. In this case, each certificate representing a number of Units prior to the non-cash distribution is deemed to represent the same number of Units after the non-cash distribution and the consolidation. Where amounts distributed represent income, non-resident holders will be subject to withholding tax and the consolidation will not result in such non-resident Unitholders holding the same number of Units. Such non-resident Unitholders will be required to surrender the certificates (if any) representing their original Units in exchange for a certificate representing post-consolidation Units.

Information and Reports

The REIT will furnish to Unitholders such financial statements (including quarterly and annual financial statements) and other reports as are from time to time required by the Declaration of Trust and by applicable law. Prior to each meeting of Unitholders, the Trustees will provide the Unitholders (along with notice of such meeting) information as required by applicable tax and securities laws.

Amendments to the Declaration of Trust

The Declaration of Trust may be amended or altered from time to time. Certain amendments require approval by at least two-thirds of the votes cast at a meeting of Unitholders called for such purpose. Other amendments to the Declaration of Trust require approval by a majority of the votes cast at a meeting of Unitholders called for such purpose.

Except as described below, the following amendments, among others, require the approval of two-thirds of the votes cast by all Unitholders at a meeting:

(a) an exchange, reclassification or cancellation of all or part of the Units;

(b) the addition, change or removal of the rights, privileges, restrictions or conditions attached to the Units;

(c) any constraint on the issue, transfer or ownership of the Units or the change or removal of such constraint;

(d) any sale or transfer of the assets of the REIT as an entirety or substantially as an entirety (other than as part of an internal reorganization of the assets of the REIT approved by the Trustees and not prejudicial to Unitholders);

(e) the termination of the REIT or its subsidiaries (other than as part of an internal reorganization of the assets of the REIT or its subsidiaries as approved by the Trustees and not prejudicial to Unitholders);

(f) the combination, amalgamation or arrangement of any of the REIT or its subsidiaries with any other entity (other than as part of an internal reorganization of the assets of the REIT or its subsidiaries as approved by the Trustees and not prejudicial to Unitholders); and

(g) except as described herein, the amendment of the investment guidelines and operating policies of the REIT. See "Investment Guidelines and Operating Policies – Amendments to Investment Guidelines and Operating Policies".

Notwithstanding the foregoing, the Trustees may, without the approval of the Unitholders, make the following amendments to the Declaration of Trust:

(a) aimed at ensuring continuing compliance with applicable laws, regulations, requirements or policies of any governmental authority having jurisdiction over: (i) the Trustees or the REIT; (ii) the continuing status of the REIT as a "mutual fund trust" under the Tax Act; (iii) the continuing status of the REIT as a "real estate investment trust" for U.S. federal income tax purposes; or (iv) the distribution of Units;

(b) to increase the 6.2% ownership limit to a maximum of 9.8%;

(c) which, in the opinion of the Trustees, provide additional protection for the Unitholders;

(d) to address any conflicts or inconsistencies in the Declaration of Trust or to make minor corrections which are, in the opinion of the Trustees, necessary or desirable and not prejudicial to the Unitholders;

(e) which, in the opinion of the Trustees, are necessary or desirable to address any conflicts or inconsistencies between the disclosure in this prospectus and the Declaration of Trust;

(f) of a minor or clerical nature or to correct typographical mistakes, ambiguities or manifest omissions or errors, which amendments, in the opinion of the Trustees, are necessary or desirable and not prejudicial to the Unitholders;

(g) which, in the opinion of the Trustees, are necessary or desirable: (i) to ensure continuing compliance with IFRS; or (ii) to ensure the Units are classified as equity for purposes of IFRS;

(h) which, in the opinion of the Trustees, are necessary or desirable for the REIT to qualify for a particular status under, or as a result of changes in, taxation or other laws, or the interpretation of such laws, including to qualify for the definition of "real estate investment trust" in the Tax Act and the Code or to otherwise prevent the REIT or any of its subsidiaries from becoming subject to tax under the SIFT Rules (as defined below); and

(i) for any purpose (except one in respect of which a Unitholder vote is specifically otherwise required) which, in the opinion of the Trustees, is not prejudicial to Unitholders and is necessary or desirable.

NHT INTERMEDIARY, LLC

NHT Intermediary, LLC ("**US Holdco**") is a newly formed Delaware limited liability company that currently owns all of the issued and outstanding membership interests in NHT Holdings, LLC ("**NHI**"). On or prior to Closing, the REIT will acquire all of the issued and outstanding membership interests in US Holdco. The board of directors of US Holdco will be determined (and may be removed without cause) by the REIT; provided that the board of directors of US Holdco shall always be comprised of a majority of U.S. residents. The operations of US Holdco will be subject to the terms of its organizing documents, which will provide, among other things, that US Holdco will operate in a manner consistent with the governance and other terms of the Declaration of Trust, including the investment guidelines and operating principles set out therein. The REIT will exercise effective oversight of US Holdco.

NHT HOLDINGS, LLC

NHI is a newly formed Delaware limited liability company. On or prior to Closing, the REIT will indirectly acquire all of issued and outstanding the membership interests in NHI. The board of directors of NHI will be determined (and may be removed without cause) indirectly by the Board of the REIT, provided that the board of directors of NHI shall always be comprised of a majority of U.S. residents. The operations of NHI will be subject to the terms of its organizing documents, which will provide, among other things, that NHI will operate in a manner consistent with the governance and other terms of the Declaration of Trust, including the investment guidelines and operating principles set out therein. The REIT will exercise effective oversight of NHI.

THE OPERATING PARTNERSHIP

General

NHT Operating Partnership, LLC (the "**OP**") is a Delaware limited liability company governed by the LLC Agreement and the laws of the State of Delaware. The registered office of the OP is located at 1209 Orange Street, Wilmington, Delaware, U.S.A, 19801. The principal place of business of the OP is located at 300 Crescent Court, Suite 700, Dallas, Texas, U.S.A, 75201. The holder of all of the issued and outstanding Class A OP Units is NHI and the holders of the issued and outstanding Class B OP Units are NREO, certain minority partners and the OP GP (as defined below), who maintains a nominal number of Class B OP Units.

The REIT, indirectly through NHI, operates through an umbrella partnership real estate investment trust (an "**UPREIT**") structure in which substantially all of the REIT's (and NHI's) assets are held by the OP. An UPREIT is a structure that real estate investment trusts often use to acquire real property from sellers on a tax deferred basis for U.S. federal income tax purposes because the sellers can generally accept equity interests and defer taxable gain otherwise required to be recognized by them upon the disposition of their properties. Such sellers may also desire to achieve diversity in their investment and other benefits afforded to unitholders in a real estate investment trust. For purposes of satisfying the asset and income tests for qualification as a real estate investment trust for U.S. federal income tax purposes, the REIT's proportionate share of the assets and income of the OP will be deemed to be assets and income of the REIT, so long as the OP continues to be treated as a partnership for U.S. federal income tax purposes.

OP Units

Following Closing, the OP will have outstanding (i) Class A OP Units, all of which will be held by NHI, and (ii) Class B OP Units, all of which will be held by NREO, certain minority partners and the OP GP (as defined below). The Class B OP Units will, in all material respects, be economically equivalent to the Units on a per unit basis, subject to certain customary anti-dilution adjustments. The holders of Class B OP Units will be entitled to

receive distributions from the OP on the same per unit basis as holders of Class A OP Units. Class B OP Units do not carry a voting right with respect to matters put before Unitholders of the REIT for a vote. It is anticipated that Class B OP Units may be subsequently issued to U.S. persons in connection with the acquisition of additional properties by the REIT in the United States.

Transfers of Class A OP Units and Class B OP Units are generally not permitted without the consent of holders of the Class A OP Units ("**Class A Unitholders**") subject to limited exceptions, including (i) pursuant to the redemption of the Class B OP Units and (ii) transfers to an affiliate (as defined in the LLC Agreement).

Manager of the OP

The management powers over the business and affairs of the OP are vested in a manager, which is appointed by NREO. NREO has appointed NHT Operating Partnership GP, LLC (the "**OP GP**") as the initial manager. The OP GP is wholly-owned by a party that is not affiliated with the Advisor or the REIT. The LLC Agreement provides NHI with a call right to acquire all of the issued and outstanding equity interests in the OP GP, so long as the OP GP is the manager of the OP (the "**GP Call Right**"). Pursuant to the LLC Agreement, a call right on substantially the same terms as the GP Call Right will also apply in respect of any substitute manager of the OP appointed by NREO following the resignation, disqualification or removal of the OP GP as the manager of the OP.

Redemption Rights

After Class B OP Units have been issued for at least 12 months (subject to acceleration in certain circumstances), holders of such Class B OP Units, acting individually, have the right to cause the OP to redeem all or a portion of such Class B OP Units for a cash payment to be paid by the OP. The OP shall not be obligated to satisfy such redemption right if NHI elects to purchase the Class B OP Units in exchange for a cash payment or equivalent value in Units, as determined by NHI (and the REIT, indirectly) in its sole discretion. If NHI elects to redeem such Class B OP Units for the equivalent value in Units, NHI shall purchase such Class B OP Units from the redeeming Class B unitholder and shall be treated for all purposes of the LLC Agreement as the owner of such Class B OP Units. If NHI elects to redeem Class B OP Units for Units, the REIT will generally deliver (indirectly) one Unit for each Class B OP Unit redeemed (subject to customary anti-dilution adjustments).

In connection with the exercise of these redemption rights, a holder of Class B OP Units will be required to make certain representations, including that the delivery of Units upon redemption will not result in such holder owning Units in excess of the ownership limits in the Declaration of Trust.

Compulsory Acquisition

The LLC Agreement provides that in the event of an acquisition of not less than 90% of the Units (including Units issuable upon the redemption of Class B OP Units) by a person (including persons acting jointly or in concert with such person), NHI will have the right, subject to applicable laws, to acquire outstanding Class B OP Units in exchange for an equal number of Units, subject to adjustments for splits, consolidations and reorganizations in accordance with the Declaration of Trust.

Take-Over Bid Protection

The LLC Agreement provides that no holder of Class B OP Units may effect a transfer of its Class B OP Units unless (i) such transfer would not require the person acquiring such Class B OP Units to make an offer to the registered holders of Units to acquire Units on the same terms and conditions under applicable securities laws if such Class B OP Units, and all other outstanding Class B OP Units were converted into Units, or (ii) the person acquiring such Class B OP Units submits an identical and contemporaneous offer for Units to the registered holders thereof, and acquires such Class B OP Units along with a proportionate number of Units actually tendered to such identical offer.

Operation

The LLC Agreement requires that the OP be operated in a manner that will enable the REIT to (i) satisfy the requirements for being classified as a real estate investment trust for U.S. federal income tax purposes, unless the Board elects for the REIT to cease to qualify as a real estate investment trust, (ii) not be subject to any federal income or excise tax liability, unless the Board elects for the REIT to cease to qualify as a real estate investment trust, and (iii) ensure that the OP will not be classified as a "publicly traded partnership" for purposes of Section 7704 of the Code, which classification could result in the OP being taxed as a corporation for U.S. federal income tax purposes, rather than as a partnership.

The authority of NHI with respect to the OP will be limited to certain matters indirectly delegated to it by the REIT and its Board. NHI's authority will also be limited in certain other respects. In particular, pursuant to the Investor Rights Agreement, certain material transactions taken by the REIT or the OP will require the approval of the REIT (through its indirect control of NHI) and the NexPoint Holders (for so long as the NexPoint Holders own, in the aggregate, 33% or more of the Units (determined as if all Class B Units are redeemed for Units)). See "Investor Rights Agreement."

The operations of the OP will be subject to the terms of the LLC Agreement, which will provide, among other things, that (i) the OP will operate in a manner consistent with the governance and other terms of the Declaration of Trust, including the investment guidelines and operating principles set out therein, and (ii) certain fundamental actions to be taken by the OP (including items such as acquisitions, dispositions and refinancings of real property) will require the approval of Class A Unitholders.

Distributions and Allocations of Profits and Losses

The LLC Agreement generally provides that the OP will distribute cash flow from operations and, except as provided below, net sales proceeds from the disposition of assets, to all unitholders of the OP on a *pro rata* basis in accordance with their ownership interests. Upon the liquidation of the OP, after payment of (or adequate provision for) debts and obligations, any remaining assets of the OP will be distributed in accordance with the distribution provisions contained in the LLC Agreement. Following Closing, it is anticipated that the aggregate distributions paid on Class A OP Units will be approximately 53% and the aggregate distributions paid on Class B OP Units will be approximately 47% of the total distributions paid.

The LLC Agreement provides that generally, subject to special allocations set forth in the LLC Agreement, net income will be allocated among the unitholders of the OP (i) first to the equityholders until the cumulative net income allocated to such holders equals the cumulative net loss allocated to such holders, and (ii) then to the equityholders on a *pro rata* basis in accordance with their ownership interests. The LLC Agreement provides that generally, subject to special allocations set forth in the LLC Agreement, net loss will be allocated to the unitholders with positive balances in their economic capital account in accordance with such balances until their economic capital account balances are reduced to zero. Following Closing, it is anticipated that approximately 53% of the profits and losses will be allocated to the Class A OP Units and approximately 47% of the profits and losses will be allocated to the Class B OP Units.

In addition to the administrative and operating costs and expenses incurred by the OP and its subsidiaries in acquiring and managing their properties, the OP will either pay the administrative costs and expenses of NHI and the REIT directly or make cash distributions to reimburse for expenses incurred by NHI and the REIT. For U.S. federal income tax purposes, such expenses will be treated as expenses of the OP. Such expenses will include, but not be limited to:

- administrative and operating costs and expenses and other expenses, including any accounting and legal expenses (but expressly excluding any Advisory Fees paid to the Advisor, incentive fees or internalization fees);

- costs and expenses relating to the formation and continuity of existence of the REIT, including taxes, fees and assessments associated therewith, any and all costs, expenses or fees payable to any director, officer or employee of the REIT (but expressly excluding any incentive fees);

- costs and expenses associated with the preparation and filing of any periodic reports by the REIT under Canadian federal or provincial laws or regulations and U.S. federal, state or local laws or regulations;

- costs and expenses associated with compliance by the REIT with laws, rules and regulations promulgated by any regulatory body; and

- costs and expenses relating to any issuance, redemption or repurchase of Units or other securities by the REIT.

Indemnification

To the fullest extent permitted by law, the LLC Agreement provides for indemnification of any person for any loss incurred by such a person by reason of such person's status with as the REIT manager of the OP, as a trustee, director, officer, shareholder, partners, member, employee, representative or agent of the manager, as an officer, employee, representative or agent of the OP and such other persons as the manager of the OP may designate from time to time at the direction of the Class A Unitholders.

Tax Matters

Pursuant to the LLC Agreement, the REIT or its designee will be the "partnership representative" of the OP for U.S. federal income tax purposes pursuant to Section 6223 of the Code, and as such, will have authority to make tax decisions under the Code on behalf of the OP. The OP will file a U.S. federal income tax return annually on IRS Form 1065 (or such other successor form) or on any other IRS form as may be required.

DISTRIBUTION POLICY

The following outlines the distribution policy of the REIT to be adopted pursuant to the Declaration of Trust. Determinations as to the amounts distributable, however, will be made in the sole discretion of the Trustees from time to time.

Distribution Policy

The REIT intends to adopt a distribution policy, as permitted under the Declaration of Trust, pursuant to which it will make *pro rata* quarterly cash distributions to Unitholders initially equal to, on an annual basis, approximately 65% to 80% of estimated Core FFO and initially expected to be approximately 65% of Core FFO. See "Non-IFRS Measures" and "Risk Factors". Management of the REIT believes that the 65% payout ratio initially set by the REIT should allow the REIT to meet its internal funding needs, while being able to support stable growth in cash distributions and comply with federal U.S. tax laws in regard to maintaining its status as a REIT. However, the actual payout ratio will be determined by the Trustees in their discretion. To the extent that it is consistent with maintaining the REIT's and/or NHI's status as a real estate investment trust for U.S. federal income tax purposes, the REIT and NHI (indirectly through the OP) may maintain accumulated earnings and profits of the TRS Entities in those entities. Pursuant to the Declaration of Trust, the Trustees have full discretion respecting the timing and amounts of distributions including the adoption, amendment or revocation of any distribution policy. It is the REIT's current intention to make distributions to Unitholders at least equal to the amount of net income and net realized capital gains of the REIT as is necessary to ensure that the REIT will not be liable for ordinary income taxes on such income.

Because the REIT will be treated as a real estate investment trust for U.S. federal income tax purposes, distributions paid by the REIT to Canadian investors that are made out of the REIT's current or accumulated

earnings and profits (as determined under U.S. federal income tax principles) generally will be subject to U.S. withholding tax at a rate of 30%, which may be reduced to 15% for investors that qualify for benefits under the Treaty. To the extent a Canadian investor is subject to U.S. withholding tax in respect of distributions paid by the REIT on the Units out of the REIT's current or accumulated earnings and profits, the amount of such tax generally will be eligible for foreign tax credit or deduction treatment, subject to the detailed rules and limitations under the Tax Act. The foregoing is qualified by the more detailed summary in this prospectus. Distributions in excess of the REIT's current and accumulated earnings and profits that are distributed to Canadian investors that have not owned (or been deemed to own) more than 10% of the outstanding Units generally will not be subject to U.S. withholding tax, although there can be no assurances that withholding on such amounts will not be required. The composition of distributions for U.S. federal income tax purposes may change over time, which may affect the after-tax return to Unitholders. Qualified residents of Canada that are tax-exempt entities established to provide pension, retirement or other employee benefits (including trusts governed by a RRSP, a RRIF or a RDSP, but excluding trusts governed by a TFSA, a RESP or a RDSP) may be eligible for an exemption from U.S. withholding tax. See "Certain Canadian Federal Income Tax Considerations" and "Certain U.S. Federal Income Tax Considerations". See also "Risk Factors – Tax-related Risk Factors".

Pursuant to the REIT's distribution policy, Unitholders of record as at the close of business on the applicable distribution record date determined by the Trustees from time to time will have an entitlement to receive distributions on such distribution date. Distributions may be adjusted for amounts paid in prior periods if the actual Core FFO for the prior periods is greater than or less than the estimates for the prior periods. Under the Declaration of Trust and pursuant to the distribution policy of the REIT, where the REIT's cash is not sufficient to make payment of the full amount of a distribution, such payment will, to the extent necessary, be distributed in the form of additional Units. See "Declaration of Trust – Units", "Certain Canadian Federal Income Tax Considerations" and "Certain U.S. Federal Income Tax Considerations".

The ability of the REIT to make cash distributions, and the actual amount distributed, will be entirely dependent on the operations and assets of the REIT and will be subject to various factors including financial performance, obligations under applicable credit facilities and restrictions on payment of distributions thereunder on the occurrence of an event of default, fluctuations in working capital, the sustainability of income derived from the REIT's properties and any capital expenditure requirements. See "Risk Factors".

CERTAIN CANADIAN FEDERAL INCOME TAX CONSIDERATIONS

In the opinion of Goodmans LLP, Canadian counsel to the REIT, the following is a summary of the principal Canadian federal income tax considerations under the Tax Act generally applicable as of the date hereof to a purchaser who acquires, as beneficial owner, Units pursuant to this prospectus and who, for the purposes of the Tax Act and at all relevant times, is, or is deemed to be, resident in Canada, deals at arm's length with the REIT and the Agent, and is not affiliated with the REIT or the Agent and holds the Units as capital property (in this section of the prospectus, referred to as a "**Holder**"). The Units generally will be capital property to a Holder provided that the Holder does not hold such Units in the course of carrying on a business and has not acquired them in a transaction or transactions considered to be an adventure or concern in the nature of trade. Certain Holders who might not otherwise be considered to hold their Units as capital property may, in certain circumstances, be entitled to make an irrevocable election in accordance with subsection 39(4) of the Tax Act to have such Units, and any other "Canadian security" (as defined in the Tax Act) owned in the taxation year in which the election is made, and in all subsequent taxation years, deemed to be capital property. Holders who do not hold their Units as capital property should consult their own tax advisors regarding their particular circumstances.

This summary does not apply to a Holder: (i) that is a "financial institution" subject to the mark-to-market rules in the Tax Act; (ii) an interest in which would be a "tax shelter investment" within the meaning of the Tax Act; (iii) that has elected to determine its Canadian tax results in a foreign currency pursuant to the "functional currency" reporting rules, in the Tax Act; (iv) that holds or has held, actually or constructively, more than 10% of the outstanding Units, as determined for U.S. federal income tax purposes (See "Certain U.S. Federal Income Tax Considerations"); or (v) that has entered or will enter into a "derivative forward agreement", as defined in the Tax Act, with respect to the Holder's Units. Such Holders should consult their own tax advisors to determine the tax

consequences to them of the acquisition, holding and disposition of Units. In addition, this summary does not address the deductibility of interest by a purchaser who has borrowed money to acquire Units under the Offering.

This summary assumes that either the TSXV Publicly Traded Exception or the U.S. Publicly Traded Exception applies. See “Certain U.S. Federal Income Tax Considerations”.

This summary is based on the current provisions of the Tax Act, all specific proposals to amend the Tax Act publicly announced by or on behalf of the Minister of Finance (Canada) before the date hereof (“**Proposed Amendments**”), counsel’s understanding of the current published administrative policies and practices of the Canada Revenue Agency (the “**CRA**”), and a certificate as to certain factual matters from an executive officer of the REIT. Except for Proposed Amendments, this summary does not take into account or anticipate any changes in law, whether by legislative, governmental or judicial action, nor does it take into account other federal or any provincial, territorial or foreign tax legislation or considerations. No assurance can be given that the Proposed Amendments will be enacted in the form proposed or at all.

This summary is of a general nature only and is not exhaustive of all possible Canadian federal income tax considerations applicable to an investment in Units. The income and other tax consequences of acquiring, holding or disposing of Units will vary depending on a purchaser’s particular status and circumstances, including the province or territory in which the purchaser resides or carries on business. This summary is not intended to be, nor should it construed to be, legal or tax advice to any particular purchaser. Purchasers should consult their own tax advisors for advice with respect to the income tax consequences of an investment in Units in their own circumstances.

Generally, for purposes of the Tax Act, all amounts relating to the acquisition, holding or disposition of Units must be expressed in Canadian dollars. Amounts denominated in another currency must be converted into Canadian dollars using the appropriate exchange rate determined in accordance with the detailed rules in the Tax Act in that regard. An investment in Units will be dominated in U.S. dollars and distributions made on the Units will be made in U.S. dollars. Accordingly, a holder of Units must convert such amounts to Canadian dollars for the purposes of the Tax Act.

Status of the REIT

This summary assumes the REIT will qualify at all times as a “mutual fund trust” within the meaning of the Tax Act and that the REIT will validly elect under the Tax Act to be a mutual fund trust from the date it was established. An executive officer of the REIT has advised counsel that it intends to ensure that the REIT will meet the requirements necessary for it to qualify as a mutual fund trust no later than the Closing and at all times thereafter, and to file the necessary election so that the REIT will qualify as a mutual fund trust throughout its first taxation year. **If the REIT were not to qualify as a mutual fund trust at all times, the income tax considerations could be materially and adversely different from those described below**.

This summary is also based on the assumption that the REIT will at no time be a “SIFT trust”, as defined in the rules applicable to SIFT trusts and SIFT partnerships in the Tax Act (the “**SIFT Rules**”). The SIFT Rules effectively tax certain income of a publicly traded trust or partnership that is distributed to its investors on the same basis as would have applied had the income been earned through a taxable Canadian corporation and distributed by way of dividend to its shareholders. These rules apply only to “SIFT trusts” and “SIFT partnerships” (each as defined in the Tax Act) and their investors.

Where the SIFT Rules apply, distributions of a SIFT trust’s “non-portfolio earnings” are not deductible in computing the SIFT trust’s net income. Non-portfolio earnings generally are defined as income attributable to a business carried on by the SIFT trust in Canada or to income (other than certain dividends) from, and capital gains from the disposition of, “non-portfolio properties” (as defined in the Tax Act). The SIFT trust is itself liable to pay an income tax on an amount equal to the amount of such non-deductible distributions at a rate that is substantially equivalent to the combined federal and provincial general tax rate applicable to taxable Canadian corporations. Such non-deductible distributions paid to a holder of units of the SIFT trust generally are deemed to be taxable dividends received by the holder of such units from a taxable Canadian corporation. Such deemed dividends will qualify as

"eligible dividends" for purposes of the enhanced gross-up and dividend tax credit available under the Tax Act to individuals resident in Canada and for purposes of computing a Canadian resident corporation's "general rate income pool" or "low rate income pool", as the case may be (each as defined in the Tax Act). In general, distributions paid as returns of capital will not be subject to the SIFT Rules.

The REIT will not be considered to be a SIFT trust in respect of a particular taxation year and, accordingly, will not be subject to the SIFT Rules in that year, if it does not own any non-portfolio property and does not carry on business in Canada in that year. Management has advised counsel that the REIT has not and does not currently intend to own any non-portfolio property or carry on a business in Canada.

If the REIT is subject to the SIFT Rules, certain of the income tax considerations described below would, in some respects, be materially and adversely different, and the SIFT Rules may, depending on the nature and extent of distributions from the REIT, including what portion of its distributions are income and what portion are returns of capital, have a material adverse effect on the after-tax returns of Unitholders.

For the remainder of this summary, it is assumed that the REIT will not own any "non-portfolio property" or carry on business in Canada and, accordingly, will not be a SIFT trust.

Taxation of the REIT

The taxation year of the REIT is the calendar year. The REIT must compute its income or loss for each taxation year as though it were an individual resident in Canada. The income of the REIT for purposes of the Tax Act will include, among other things, foreign accrual property income ("**FAPI**") in respect of its "controlled foreign affiliates", dividends received from US Holdco, and any net realized taxable capital gains.

US Holdco will be a "foreign affiliate" and a "controlled foreign affiliate" of the REIT for purposes of the Tax Act. To the extent that US Holdco or any other controlled foreign affiliate of the REIT earns in a particular taxation year income that is characterized as FAPI for purposes of the Tax Act, the FAPI allocable to the REIT must be included in computing the income of the REIT for the taxation year of the REIT in which the taxation year of US Holdco (or such other controlled foreign affiliate) ends whether or not the REIT actually receives a distribution of FAPI in that year. The FAPI in respect of US Holdco will include FAPI earned directly or indirectly by US Holdco. If an amount of FAPI is included in computing the income of the REIT for Canadian tax purposes, an amount may be deductible in respect of the "foreign accrual tax" ("**FAT**") applicable to the FAPI as computed in accordance with the Tax Act. The adjusted cost base to the REIT of its shares in US Holdco will be increased by the net amount of FAPI included in the income of the REIT in respect of FAPI earned directly or indirectly by US Holdco. At such time as the REIT receives a dividend of amounts that were previously included in its income as FAPI, that dividend will effectively not be taxable to the REIT and there will be a corresponding deduction in the adjusted cost base to the REIT of its shares in US Holdco.

For the purposes of the Tax Act, all income of the REIT (including FAPI) must be calculated in Canadian currency. Where the REIT (or any of its subsidiaries) holds investments or incurs indebtedness denominated in foreign currencies, gains or losses may be realized by the REIT as a consequence of fluctuations in the relative value of the Canadian and foreign currencies.

In computing its income, the REIT will be entitled to deduct reasonable current administrative and other expenses incurred by it to earn income. Reasonable expenses incurred in respect of the issuance of Units generally may be deducted by the REIT on a five-year, straight-line basis, pro-rated for short taxation years.

The REIT may generally deduct from its income for a taxation year amounts which are paid or become payable by it to Unitholders in such year. An amount will be considered to be payable in a taxation year if a Unitholder is entitled in the year to enforce payment of the amount. Counsel has been advised by an executive officer of the REIT that the Trustees' current intention is to make payable to Unitholders each year sufficient amounts such that the REIT generally will not be liable to pay tax under Part I of the Tax Act. Where the REIT does not have sufficient cash to distribute such amounts in a particular taxation year, the REIT intends to make one or more in-kind distributions in that year in the form of additional Units. Income of the REIT payable in a taxation year

of the REIT to the Unitholders in the form of additional Units will generally be deductible to the REIT in computing its income for that year.

A distribution by the REIT of its property upon a redemption of Units will be treated as a disposition by the REIT of such property for proceeds of disposition equal to the fair market value thereof. The REIT will realize a capital gain (or a capital loss) to the extent that the proceeds from the disposition of the property exceed (or are less than) the adjusted cost base of the relevant property and any reasonable costs of disposition.

Losses incurred by the REIT cannot be allocated to Unitholders, but can be deducted by the REIT in future years in computing its taxable income, in accordance with the Tax Act. In the event the REIT would otherwise be liable for tax on its net realized taxable capital gains for a taxation year, it will be entitled for such taxation year to reduce (or receive a refund in respect of) its liability for such tax by an amount determined under the Tax Act based on the redemption of Units of the REIT during the year (the "**capital gains refund**"). If the REIT transfers property in specie to redeeming Holders on the redemption of Units, the capital gains refund in a particular taxation year may not completely offset the REIT's tax liability for the taxation year arising in connection with the transfer of property in specie to such redeeming Holders. If income or capital gains realized by the REIT in connection with the distribution of property in specie on the redemption of Units has been designated by the REIT to a redeeming Holder, the Holder will be required to include in income the income or taxable portion of the capital gain so designated, and such amount may be deductible by the REIT in computing its income, in the circumstances set out in, and in accordance with the detailed rules in, the Tax Act.

Taxation of Taxable Holders

REIT Distributions

A Holder generally will be required to include in computing income for a particular taxation year the portion of the net income of the REIT, including FAPI attributed to the REIT, dividends received by the REIT from US Holdco and any net realized taxable capital gains, that is paid or payable to the Holder in that taxation year, whether or not those amounts are received in cash, additional Units or otherwise. Any loss of the REIT for purposes of the Tax Act cannot be allocated to, or treated as a loss of, a Holder.

Provided that the appropriate designations are made by the REIT, such portion of its net taxable capital gains and foreign source income that are paid or become payable to a Holder will retain its character as taxable capital gains or foreign source income, as the case may be, to Holders for purposes of the Tax Act.

The non-taxable portion of any net realized capital gains of the REIT that is paid or payable to a Holder in a year will not be included in computing the Holder's income for the year. Any other amount in excess of the net income of the REIT that is paid or payable to a Holder in a year generally should not be included in the Holder's income for the year, but such an amount which becomes payable to a Holder (other than as proceeds of disposition of Units or any part thereof) will reduce the adjusted cost base of the Units held by such Holder. To the extent that the adjusted cost base of a Unit otherwise would be less than zero, the Holder will be deemed to have realized a capital gain equal to the negative amount and the Holder's adjusted cost base of the Units will be increased by the amount of such deemed capital gain.

Foreign Tax Credits and Deductions

To the extent a Holder is subject to U.S. withholding tax in respect of distributions paid by the REIT on the Units, the amount of such tax generally will be eligible for foreign tax credit or deduction treatment, subject to the detailed rules and limitations under the Tax Act, and as described in the ensuing paragraphs; provided, however, that in the event any U.S. tax is withheld that does not represent the final U.S. income tax liability for the year, the Holder also files a U.S. federal income tax return to establish the Holder's final U.S. income tax liability for the year and the Holder is not entitled to a refund of such tax.

The U.S. withholding tax deducted in respect of a distribution paid on a Unit in a taxation year will generally be characterized as "non-business income tax", as defined in the Tax Act, and may be deductible as a foreign tax credit from the Holder's Canadian federal income tax otherwise payable for that year where the Holder has sufficient non-business income from U.S. sources, to the extent permitted by the Tax Act and that such tax has not been deducted in computing the Holder's income. Alternatively, such non-business income tax (including any amount not deductible from tax otherwise payable as a foreign tax credit) generally may be deducted by the Holder in computing the Holder's net income for the purposes of the Tax Act.

A Holder's ability to apply U.S. withholding taxes in the foregoing manner may be affected where the Holder does not have sufficient taxes otherwise payable under Part I of the Tax Act, or sufficient U.S. source income in the taxation year the U.S. withholding taxes are paid, or where the Holder has other U.S. sources of income or losses, or has paid other U.S. taxes. Although the foreign tax credit provisions are designed to avoid double taxation, the maximum credit is limited. Because of this, and because of timing differences in recognition of expenses and income and other factors, there is a risk of double taxation. Holders should consult their own tax advisors with respect to the availability of a foreign tax credit or deduction, having regard to their own circumstances.

Disposition of Units

Upon the disposition or deemed disposition of Units by a Holder, whether on a redemption or otherwise, the Holder generally will realize a capital gain (or a capital loss) equal to the amount by which the proceeds of disposition (excluding any amount payable by the REIT which represents an amount that must otherwise be included in the Holder's income as described herein) are greater (or less) than the aggregate of the Holder's adjusted cost base of the Units immediately before such disposition and any reasonable costs of disposition.

The adjusted cost base to a Holder of a Unit generally will include all amounts paid by the Holder for the Unit subject to certain adjustments and may be reduced as a consequence of distributions paid by the REIT in excess of its net income as described above. The cost of additional Units received in lieu of a cash distribution will be the amount of income of the REIT distributed by the issuance of such Units. For the purpose of determining the adjusted cost base to a Holder, when a Unit is acquired, the cost of the newly-acquired Unit will be averaged with the adjusted cost base of all of the Units owned by the Holder as capital property immediately before that acquisition.

A redemption of Units in consideration for cash, Redemption Notes, or other assets of the REIT, as the case may be, will be a disposition of such Units for proceeds of disposition equal to such cash or the fair market value of such Redemption Notes or other assets, as the case may be, less any income or capital gain realized by the REIT in connection with the redemption of those Units to the extent such income or capital gain is designated by the REIT to the redeeming Holder. Holders exercising the right of redemption will consequently realize a capital gain, or sustain a capital loss, to the extent that such proceeds of disposition exceed, or are exceeded by, the adjusted cost base of the Units redeemed. Where income or capital gains realized by the REIT in connection with the distribution of property *in specie* on the redemption of Units has been designated by the REIT to a redeeming Holder, the Holder will be required to include in income the income or taxable portion of the capital gain so designated. The cost of any property distributed *in specie* by the REIT to a Holder upon a redemption of Units will be equal to the fair market value of that property at the time of the distribution. The Holder will thereafter be required to include in income interest or other income derived from the property, in accordance with the provisions of the Tax Act.

Capital Gains and Losses

One-half of any capital gain realized by a Holder from a disposition of Units and the amount of any net taxable capital gains designated by the REIT in respect of the Holder will be included in the Holder's income under the Tax Act as a taxable capital gain. One-half of any capital loss (an "**allowable capital loss**") realized on the disposition of a Unit will be deducted against any taxable capital gains realized by the Holder in the year of disposition, and any excess of allowable capital losses over taxable capital gains may be carried back to the three preceding taxation years or forward to any subsequent taxation year and applied against net taxable capital gains in those years, subject to the detailed rules contained in the Tax Act.

Refundable Tax

A Holder which is a Canadian-controlled private corporation (as defined in the Tax Act) will be subject to a refundable tax in respect of its "aggregate investment income" (as defined in the Tax Act) for the year, which will include all or substantially all income and capital gains paid or payable to the Holder by the REIT and capital gains realized on a disposition of Units.

Alternative Minimum Tax

A Holder who is an individual or trust (other than certain specified trusts) may have an increased liability for alternative minimum tax as a result of capital gains realized on a disposition of Units and net income of the REIT, paid or payable, or deemed to be paid or payable, to the Holder and that is designated net taxable capital gains.

CERTAIN U.S. FEDERAL INCOME TAX CONSIDERATIONS

The following is a summary of (i) the principal U.S. federal income tax consequences of the treatment of the REIT and NHI as a real estate investment trust and (ii) the principal U.S. federal income tax consequences of the ownership and disposition of Units to Non-U.S. Holders (as defined below). This summary is based upon the Code, its legislative history, existing and proposed regulations promulgated thereunder by the U.S. Treasury Department (the "**Treasury Regulations**"), published rulings and other administrative pronouncements issued by the IRS, and judicial decisions, all as currently in effect, and all of which are subject to differing interpretations or to change, possibly with retroactive effect. No assurance can be given that the IRS would not assert, or that a court would not sustain, a position contrary to any of the tax consequences described below. An advance ruling has not been requested and will not be requested from the IRS regarding any matter discussed in this prospectus. The summary is also based upon the assumption that the subsidiaries and affiliated entities of the REIT will operate in accordance with their applicable organizational documents and those of the REIT. This summary is for general information only and is not tax advice. This summary does not cover any U.S. state, or local or non-U.S. tax issues, nor does it cover issues under the U.S. federal estate or gift tax laws. It does not purport to discuss all aspects of U.S. federal income taxation that may be important to a particular investor in light of its investment or tax circumstances or to investors subject to special tax rules, such as:

- financial institutions;
- insurance companies and real estate investment trusts, and each of their stockholders;
- controlled foreign corporations and passive foreign investment companies, and each of their stockholders;
- broker-dealers;
- regulated investment companies;
- partnerships (or other entities classified as partnerships for U.S. federal income tax purposes) and trusts and their partners and beneficiaries;
- persons subject to the alternative minimum tax;
- persons who hold Units on behalf of other persons as nominees;
- persons who receive Units through the exercise of employee stock options or otherwise as compensation;
- tax-exempt organizations;

- persons holding Units as part of a "straddle", "hedge", "conversion transaction", "synthetic security" or other integrated investment; and
- U.S. expatriates.

As used herein, "**U.S. Holder**" means a holder of Units that is a beneficial owner of the Units and is (i) an individual citizen or resident of the United States for U.S. federal income tax purposes; (ii) a corporation (or other entity classified as a corporation for U.S. federal income tax purposes), created or organized in or under the laws of the United States, any state therein or the District of Columbia; (iii) an estate the income of which is subject to U.S. federal income taxation regardless of its source; or (iv) a trust if a court within the United States is able to exercise primary supervision over its administration and one or more United States persons have the authority to control all substantial decisions of the trust (or otherwise if the trust has a valid election in effect under the Treasury Regulations to be treated as a domestic trust). A "**Non-U.S. Holder**" is a beneficial owner of Units that is an individual, corporation, estate or trust and is not a U.S. Holder.

In the case of partnerships that hold Units, including for this purpose any entity or arrangement that is treated as a partnership for U.S. federal income tax purposes, the U.S. federal income tax treatment of a partner in the partnership will generally depend upon the status of the partner and the activities of the partnership. An investor that is a partnership and the partners in such partnership should consult their tax advisors about the U.S. federal income tax consequences of the acquisition, ownership and disposition of Units.

The U.S. federal income tax treatment of beneficial owners of Units depends in some instances on determinations of fact and interpretations of complex provisions of U.S. federal income tax law for which no clear precedent or authority may be available. In addition, the tax consequences to any particular beneficial owner of Units will depend on the beneficial owner's particular tax circumstances. You are urged to consult your tax advisor regarding the U.S. federal, state, local, and non-U.S. income and other tax consequences to you in light of your particular investment or tax circumstances of acquiring, holding, exchanging, or otherwise disposing of Units.

U.S. Status of the REIT

Although the REIT is organized as an unincorporated trust under Canadian law, the REIT intends to take the position that, pursuant to Section 7874 of the Code, the REIT is treated as a U.S. corporation for all purposes under the Code and, as a result, it is permitted to elect to be treated as a real estate investment trust under the Code, notwithstanding the fact that it is organized as a Canadian entity. The discussion herein reflects this classification and uses terminology consistent with this classification, including references to "dividends" and "earnings and profits". Baker & McKenzie LLP, U.S. counsel to the REIT, will render an opinion in connection with the Closing in respect of the treatment of the REIT as a U.S. corporation under Section 7874, subject to certain representations, assumptions and factual matters.

Taxation of the REIT

This summary assumes the REIT and NHI will qualify at all times as a "real estate investment trust" within the meaning of the Code and that the REIT and NHI each will validly elect under the Code to be a real estate investment trust, commencing with its taxable year ending December 31, 2019. If the REIT or NHI were not to qualify as a real estate investment trust at all times, the income tax considerations could be materially and adversely different from those described below. To the extent that NHI fails to qualify as a real estate investment trust in any year, and does not qualify for the relief provisions described herein, the REIT also likely will not qualify as a real estate investment trust for such year.

The law firm of Baker & McKenzie LLP has acted as U.S. tax counsel to the REIT in connection herewith. In connection with this prospectus, Baker & McKenzie LLP will provide an opinion to the effect that, commencing with the taxable year ending December 31, 2019, each of the REIT and NHI has been or will be organized and operated in conformity with the requirements for qualification and taxation as a real estate investment trust under the Code, and its current and proposed method of operation will enable it to continue to maintain its qualification and

taxation as a real estate investment trust under the Code. It must be emphasized that the opinion of Baker & McKenzie LLP is based on various assumptions relating to the organization and operation of the REIT and NHI, and will be conditioned upon fact-based representations and covenants made by the REIT and NHI regarding its organization, assets, and income, and the present and future conduct of its business operations, and other items regarding the REIT's and NHI's ability to meet the various requirements for qualification as a real estate investment trust, and will assume that such representations and covenants are accurate and complete and that the REIT and NHI will take no action inconsistent with its qualification as a real estate investment trust. While it is intended that the REIT and NHI will continue to operate so that each will continue to qualify as a real estate investment trust, given the highly complex nature of the rules governing real estate investment trusts, the ongoing importance of factual determinations, and the possibility of future changes in circumstances, no assurance can be given by Baker & McKenzie LLP or by the REIT, that the REIT and NHI will qualify as a real estate investment trust for any particular year. The opinion is expressed as of the date issued. Baker & McKenzie LLP has no obligation to advise the REIT or holders of Units of any subsequent change in the matters stated, represented or assumed, or of any subsequent change in the applicable law. You should be aware that opinions of counsel are not binding on the IRS, and no assurance can be given that the IRS will not challenge the conclusions set forth in such opinion.

Qualification and taxation as a real estate investment trust depends on the ability of the REIT and NHI to meet on a continuing basis, through actual operating results, distribution levels, and diversity of stock and asset ownership, various qualification requirements imposed upon real estate investment trusts by the Code, the compliance with which will not be reviewed by Baker & McKenzie LLP. In addition, the REIT's and NHI's ability to qualify as a real estate investment trust may depend in part upon the operating results, organizational structure and entity classification for U.S. federal income tax purposes of certain entities in which the REIT and NHI invest, which entities will not have been reviewed by Baker & McKenzie LLP. The ability to maintain real estate investment trust qualification also requires that the REIT and NHI satisfy certain asset tests, some of which depend upon the fair market values of assets that it owns directly or indirectly. Such values may not be susceptible to a precise determination. Accordingly, no assurance can be given that the actual results of the REIT's or NHI's operations for any taxable year will satisfy such requirements for qualification and taxation as a real estate investment trust.

Taxation of Real Estate Investment Trusts in General

As indicated above, qualification and taxation as a real estate investment trust depends upon the ability of the REIT and NHI to meet, on a continuing basis, various qualification requirements imposed upon real estate investment trusts by the Code. The material qualification requirements are summarized below under "— Requirements for qualification — General". While it is intended that the REIT and NHI will operate so that each qualifies as a real estate investment trust, no assurance can be given that the IRS will not challenge this qualification, or that the REIT and NHI will be able to operate in accordance with the real estate investment trust requirements in the future. See "— Failure to qualify".

The summary below of the principal U.S. federal income tax consequences of the treatment of the REIT as a real estate investment trust and the various qualification requirements imposed upon real estate investment trusts by the Code is also applicable to NHI. Accordingly, all references below to the REIT should also be read as referring to NHI, except to the extent the context otherwise requires.

Provided that the REIT maintains its qualification as a real estate investment trust, generally the REIT will be entitled to a deduction for dividends that the REIT pays and therefore will not be subject to U.S. federal income tax on its taxable income that is currently distributed to holders of Units. This treatment substantially eliminates the "double taxation" at the corporate and Unitholder levels that generally results from investment in a corporation. In general, the income generated by the REIT is taxed only at the Unitholder level upon a distribution of dividends to Unitholders. It is expected that the REIT will distribute amounts at least equal to the REIT's taxable income and capital gain on an annual basis. However, no assurance can be given that distributions equal to these amounts will in fact be made every year.

Any net operating losses, foreign tax credits and other tax attributes present at the REIT level generally do not pass through to the Unitholders, subject to special rules for certain items such as the capital gains that the REIT recognizes.

- Even if the REIT maintains its qualification as a real estate investment trust, the REIT will nonetheless be subject to U.S. federal income tax in the following circumstances:
  - the REIT will be taxed at regular corporate rates on any undistributed taxable income, including undistributed net capital gains;
  - if the REIT has net income from "prohibited transactions", which are, in general, sales or other dispositions of inventory or property held primarily for sale to customers in the ordinary course of business, other than "foreclosure property", such income will be subject to a 100% tax. See "— Foreclosure property" below;
  - if the REIT elects to treat property that it acquired in connection with a foreclosure of a mortgage loan or certain leasehold terminations as "foreclosure property", the REIT may thereby avoid the 100% tax on gain from a resale of that property (if the sale would otherwise constitute a prohibited transaction), but the REIT's income from the sale or operation of the property may be subject to U.S. federal income tax at the highest rate applicable to corporations (currently 21%);
  - if the REIT fails to satisfy the 75% gross income test or the 95% gross income test, as discussed below, but nonetheless maintains its qualification as a real estate investment trust because it satisfies other requirements, the REIT will be subject to a 100% tax on an amount based on the magnitude of the failure, as adjusted to reflect the profit margin associated with its gross income;
  - if the REIT violates the asset tests (other than certain *de minimis* violations) or other requirements applicable to real estate investment trusts, as described below, and yet maintains its qualification as a real estate investment trust because there is reasonable cause for the failure and other applicable requirements are met, the REIT may be subject to a penalty tax (and, in such case, the amount of the penalty tax will be at least $50,000 per failure, and, in the case of certain asset test failures, will be determined as the amount of net income generated by the assets in question multiplied by the highest rate applicable to corporations (currently 21%) if that amount exceeds $50,000 per failure);
  - if the REIT fails to distribute during each calendar year at least the sum of (1) 85% of its real estate investment trust ordinary income for such year, (2) 95% of its real estate investment trust capital gain net income for such year, and (3) any undistributed taxable income from prior periods, the REIT will be subject to a nondeductible 4% excise tax on the excess of the required distribution over the sum of (a) the amounts that the REIT actually distributed (taking into account excess distributions from prior years); and (b) the amounts the REIT retained and upon which it paid U.S. federal income tax at the corporate level;
  - the REIT may be required to pay monetary penalties to the IRS in certain circumstances, including if the REIT fails to meet record-keeping requirements intended to monitor its compliance with rules relating to the composition of a real estate investment trust's Unitholders, as described below in "Requirements for qualification-General";
  - earnings of any subsidiaries that are subchapter C corporations, including any taxable REIT subsidiaries, are subject to U.S. federal corporate income tax;

- a 100% tax may be imposed on transactions between the REIT and a taxable REIT subsidiary as defined under Section 856(l) of the Code (a "**TRS**"), that do not reflect arm's-length terms (and, in addition, the earnings of TRSs are subject to U.S. federal income tax); and

- if the REIT acquires appreciated assets from a corporation that is not a REIT (i.e., a corporation taxable under subchapter C of the Code) in a transaction in which the adjusted tax basis of the assets in the REIT's hands is determined by reference to the adjusted tax basis of the assets in the hands of the subchapter C corporation, the REIT may be subject to U.S. federal income tax on such appreciation at the highest rate then applicable to corporations if it subsequently recognizes gain on a disposition of any such assets during the five-year period following their acquisition from the subchapter C corporation.

In addition, the REIT may be subject to a variety of taxes, including state, local, and non-U.S. income, property and other taxes on its assets and operations. The REIT could also be subject to tax in situations and on transactions not presently contemplated.

Requirements for Qualification—General

The Code defines a real estate investment trust as a corporation, trust or association:

(a) that is managed by one or more trustees or directors;

(b) the beneficial ownership of which is evidenced by transferable shares, or by transferable certificates of beneficial interest;

(c) that would be taxable as a U.S. corporation but for its election to be subject to tax as a real estate investment trust;

(d) that is neither a financial institution nor an insurance company subject to specific provisions of the Code;

(e) the beneficial ownership of which is held by 100 or more persons;

(f) in which, during the last half of each taxable year, not more than 50% in value of the outstanding stock is owned, directly or indirectly, by five or fewer "individuals" (as defined in the Code to include specified tax-exempt entities);

(g) that makes an election to be a real estate investment trust for the current taxable year or has made such an election for a previous taxable year that has not been terminated or revoked; and

(h) that meets other tests described below, including with respect to the nature of its income and assets.

The Code provides that conditions (a) through (d) must be met during the entire taxable year, and that condition (e) must be met during at least 335 days of a taxable year of 12 months, or during a proportionate part of a shorter taxable year. Conditions (e) and (f) need not be met during a corporation's initial tax year as a real estate investment trust.

To monitor compliance with the stock ownership requirements, the REIT generally is required to maintain records regarding the actual ownership of the Units. To do so, the REIT must demand written statements each year from the record holders of significant percentages of Units pursuant to which the record holders must disclose the actual owners of the Units (i.e., the persons required to include dividends in their gross income). The REIT must maintain a list of those persons failing or refusing to comply with this demand as part of the REIT's records. The REIT could be subject to monetary penalties if the REIT fails to comply with these record-keeping requirements. If

the REIT satisfies these requirements and after exercising reasonable diligence would not have known that condition (f) is not satisfied, the REIT will be deemed to have satisfied such condition. If you fail or refuse to comply with the demands, you will be required by the Treasury Regulations to submit a statement with your U.S. federal income tax return disclosing your actual ownership of Units and other information.

In addition, a corporation generally may not elect to become a real estate investment trust unless its taxable year is the calendar year.

Effect of Subsidiary Entities

Disregarded subsidiaries. If the REIT owns a corporate subsidiary that is a "qualified real estate investment trust subsidiary", that subsidiary is disregarded for U.S. federal income tax purposes, and all of the subsidiary's assets, liabilities and items of income, deduction and credit are treated as the REIT's assets, liabilities and items of income, deduction and credit, including for purposes of the gross income and asset tests applicable to real estate investment trusts. A qualified real estate investment trust subsidiary is any corporation, other than a TRS (as described below), that is directly or indirectly wholly owned by a real estate investment trust. Other entities that are wholly owned by the REIT, including single member limited liability companies that have not elected to be taxed as corporations for U.S. federal income tax purposes, are also disregarded as separate entities for U.S. federal income tax purposes, including for purposes of the real estate investment trust income and asset tests. Disregarded subsidiaries, along with any partnerships in which the REIT holds an equity interest, are sometimes referred to herein as "pass-through subsidiaries".

In the event that a disregarded subsidiary of the REIT ceases to be wholly-owned — for example, if any equity interest in the subsidiary is acquired by a person other than the REIT or another disregarded subsidiary of the REIT — the subsidiary's separate existence would no longer be disregarded for U.S. federal income tax purposes. Instead, the subsidiary would have multiple owners and would be treated as either a partnership or a taxable corporation. Such an event could, depending on the circumstances, adversely affect the REIT's ability to satisfy the various asset and gross income requirements applicable to real estate investment trusts, including the requirement that real estate investment trusts generally may not own, directly or indirectly, more than 10% of the securities of another corporation. See "— Asset tests" and "— Income tests".

The REIT owns its interest in NHI through US Holdco, which will be treated as a disregarded entity for U.S. federal income tax purposes. Accordingly, for purposes of the real estate investment trust status tests discussed below, all of the assets and income and loss of US Holdco will be treated as assets and income and loss of the REIT.

Ownership of partnership interests. If the REIT is a partner in an entity that is treated as a partnership for U.S. federal income tax purposes, the Treasury Regulations provide that the REIT is deemed to own its proportionate share of the partnership's assets, and to earn its proportionate share of the partnership's income, for purposes of the asset and gross income tests applicable to real estate investment trusts. The REIT's proportionate share of a partnership's assets and income is based on its capital interest in the partnership (except that for purposes of the 10% of value asset test, described below, its proportionate share of the partnership's assets is based on its proportionate interest in the equity and certain debt securities issued by the partnership, as described in the Code). In addition, the assets and gross income of the partnership are deemed to retain the same character in the REIT's hands. Thus, the REIT's proportionate share of the assets and items of income of any subsidiary partnership will be treated as the REIT's assets and items of income for purposes of applying the real estate investment trust requirements. Consequently, to the extent that the REIT directly or indirectly holds a preferred or other equity interest in a partnership, the partnership's assets and operations may affect its ability to maintain real estate investment trust qualification, even though the REIT may have no control or only limited influence over the partnership. All or substantially all of NHI's real estate assets are expected to be owned through the OP (which will be treated as a partnership for U.S. federal income tax purposes) and its subsidiaries.

In addition, the *Bipartisan Budget Act of 2015* changed the rules applicable to U.S. federal income tax audits of partnerships. Under the new rules (which are generally effective for taxable years beginning after December 31, 2017), among other changes and subject to certain exceptions, any audit adjustment to items of income, gain, loss, deduction, or credit of a partnership (and any partner's distributive share thereof) is determined,

and taxes, interest, or penalties attributable thereto are assessed and collected, at the partnership level. Notwithstanding that final regulations have been issued with respect to these new rules, it remains uncertain exactly how these new rules will be implemented, and it is possible that they could result in partnerships in which the REIT directly or indirectly invests being required to pay additional taxes, interest and penalties as a result of an audit adjustment, and the REIT, as a direct or indirect partner of these partnerships, could be required to bear the economic burden of those taxes, interest, and penalties even though, as a real estate investment trust, it may not otherwise have been required to pay additional corporate-level taxes as a result of the related audit adjustment. The changes created by these new rules are sweeping and in many respects dependent on the promulgation and/or finalization of future Treasury Regulations or other guidance by the U.S. Treasury Department. Prospective investors are urged to consult their tax advisors with respect to these changes and their potential impact on their investment in Units.

Taxable subsidiaries. A real estate investment trust may jointly elect with a subsidiary corporation, whether or not wholly-owned, to treat such subsidiary corporation as a TRS. The real estate investment trust generally may not own more than 10% of the securities of a taxable corporation, as measured by voting power or value, unless it and such corporation elect to treat such corporation as a TRS. The separate existence of a TRS or other taxable corporation is not ignored for U.S. federal income tax purposes. Accordingly, a TRS or other taxable subsidiary corporation generally is subject to U.S. federal income tax on its earnings, which may reduce the cash flow that the REIT and its subsidiaries generate in the aggregate, and may reduce the REIT's ability to make distributions to its Unitholders.

A real estate investment trust is not treated as holding the assets of a TRS or other taxable subsidiary corporation (including a subsidiary that is also a real estate investment trust) or as receiving any income that the subsidiary earns. Rather, the stock issued by a TRS to it is an asset in its hands, and a real estate investment trust treats the dividends paid to it from such taxable subsidiary, if any, as income. This treatment can affect a real estate investment trust's income and asset test calculations, as described below. Because a real estate investment trust does not include the assets and income of TRSs or other taxable subsidiary corporations in determining its compliance with the real estate investment trust requirements, it may use such entities (to the extent such entities are not also real estate investments trusts) to undertake indirectly activities that the real estate investment trust rules might otherwise preclude it from doing directly or through pass-through subsidiaries. For example, a real estate investment trust may use TRSs or other taxable subsidiary corporations to conduct activities that give rise to certain categories of income such as management fees or gain from sales of assets held for sale to customers or to conduct activities that, if conducted by the real estate investment trust directly, would be treated in its hands as prohibited transactions. However, as discussed below, a TRS may not directly or indirectly operate or manage certain lodging facilities or health care properties.

Under the recently enacted Tax Cuts and Jobs Act (described below), in general, the deductibility of net interest for a business, including a TRS is limited to 30% of the business's adjusted taxable income (i.e. business taxable income computed without regard to business interest or business interest income, net operating loss deductions and the deduction for certain qualified business income of non-corporate taxpayers). Interest that is disallowed can be carried forward indefinitely. Notwithstanding the foregoing, a "real property trade or business" is permitted to elect out of these interest limitation rules.

The TRS rules limit the deductibility of interest paid or accrued by a TRS to its parent real estate investment trust to ensure that the TRS is subject to an appropriate level of U.S. federal income taxation. Further, these rules impose a 100% excise tax on certain transactions between a TRS and its parent real estate investment trust or the real estate investment trust's tenants that are not conducted on an arm's-length basis. The 100% tax also will apply to "redetermined services income", i.e., non-arm's-length income of a TRS attributable to services provided to, or on behalf of, its parent real estate investment trust (other than services provided to the real estate investment trust's tenants, which are potentially taxed as "redetermined rents").

NHI will indirectly own, through the OP, shares of NMCT, a taxable subsidiary that will elect real estate investment trust status beginning with its taxable year ending December 31, 2019, and the discussion below assumes that it will qualify as a real estate investment trust for such taxable year and in each taxable year thereafter. As discussed above, NHI will not be treated as holding the assets of NMCT or currently earning any income that

NMCT earns. To qualify as a real estate investment trust, NMCT will need to independently meet, on a continuing basis, the various qualifications requirements imposed upon real estate investment trusts discussed herein, including making joint elections with a subsidiary corporation of NMCT to treat such subsidiary corporation as a TRS. Prior to December 31, 2019, NMCT will also have to distribute all of its earnings and profits accumulated in tax years, if any, prior to the tax year in which NMCT elects real estate investment trust status. While it is intended that NMCT will operate so that it qualifies as a real estate investment trust, no assurance can be given that NMCT will qualify, or will continue to qualify in any taxable year, as a real estate investment trust, since qualification as a real estate investment trust depends on continuing to satisfy numerous asset, income and distribution tests described below, which in turn will be dependent in part on the REIT's ongoing operating results. To the extent that NMCT fails to qualify as a real estate investment trust in any year, and does not qualify for the relief provisions described herein, the REIT and NHI also likely will not qualify as a real estate investment trust for such year.

Income Tests

In order to maintain real estate investment trust qualification, the REIT must satisfy two gross income requirements on an annual basis. First, at least 75% of the REIT's gross income for each taxable year, excluding gross income from prohibited transactions, discharge of indebtedness and certain hedging transactions, generally must be derived from investments relating to real property or mortgages on real property, including interest income derived from mortgage loans secured by real property, "rents from real property" (generally, rents for use of real property, but not including certain contingent and related-party rents), dividends received from other real estate investment trusts, and gains from the sale of certain real estate assets, as well as specified income from temporary investments. Second, at least 95% of the REIT's gross income in each taxable year, excluding gross income from prohibited transactions, discharge of indebtedness and certain hedging transactions, must be derived from some combination of income that qualifies under the 75% gross income test described above, as well as other dividends, interest, and gain from the sale or disposition of stock or securities, which need not have any relation to real property. Income and gain from certain hedging transactions will be excluded from both the numerator and the denominator for purposes of both the 75% and 95% gross income tests. It is intended that the amount of the REIT's non-qualifying income will be monitored and its portfolio of assets will be managed to comply with the gross income tests but it cannot be assured that the REIT will be successful in this effort.

As indicated above, for purposes of the 75% and 95% gross income tests, a real estate investment trust is deemed to have earned a proportionate share of the income earned by any partnership, or any limited liability company treated as a partnership for U.S. federal income tax purposes, in which it owns an interest, which share is determined by reference to its capital interest in such entity, and is deemed to have earned the income earned by any qualified REIT subsidiary or entity that is disregarded as separate from the REIT for U.S. federal income tax purposes.

Rents from real property. Rent that the REIT receives from its real property will qualify as "rents from real property", which is qualifying income for purposes of the 75% and 95% gross income tests, only if the following conditions are met:

- first, the rent must not be based, in whole or in part, on the income or profits of any person, but may be based on a fixed percentage or percentages of receipts or sales;

- second, neither the REIT nor a direct or indirect owner of 10% or more of its shares of beneficial interest may own, actually or constructively, 10% or more of a tenant from whom the REIT receives rent, other than a TRS. If the tenant is a TRS and the applicable property is a lodging facility, such TRS may not directly or indirectly operate or manage the property. Instead, the property must be operated on behalf of the TRS by a person who qualifies as an "independent contractor" and who is, or is related to a person who is, actively engaged in the trade or business of operating lodging facilities for any person unrelated to the REIT and the TRS;

- third, if the rent attributable to personal property leased in connection with a lease of real property is 15% or less of the total rent received under the lease, then the rent attributable to personal property

will qualify as rents from real property. However, if the 15% threshold is exceeded, the rent attributable to personal property will not qualify as rents from real property; and

- fourth, the REIT generally must not operate or manage its real property or furnish or render services to its tenants, other than through an "independent contractor" who is adequately compensated and from whom the REIT does not derive revenue. However, the REIT need not provide services through an "independent contractor", but instead may provide services directly to its tenants, if the services are "usually or customarily rendered" in connection with the rental of space for occupancy only and are not considered to be provided for the tenants' convenience. In addition, the REIT may provide a minimal amount of "noncustomary" services to the tenants of a property, other than through an independent contractor, as long as the REIT's income from the services (valued at not less than 150% of the REIT's direct cost of performing such services) does not exceed 1% of the REIT's income from the related property. Furthermore, the REIT may own up to 100% of the stock of a TRS which may provide customary and noncustomary services to the REIT's tenants without tainting its rental income for the applicable property provided that the property is not a lodging facility.

The TRS Entities of the REIT will lease the land, buildings, improvements, furnishings and equipment comprising the REIT's hotel properties. In order for the rent paid under the leases to constitute "rents from real property", the leases must be respected as true leases for U.S. federal income tax purposes and not treated as service contracts, joint ventures or some other type of arrangement. The determination of whether these leases are true leases depends on an analysis of all the surrounding facts and circumstances. In making such a determination, courts have considered a variety of factors, including the following:

- the intent of the parties;
- the form of the agreement;
- the degree of control over the property that is retained by the property owner (for example, whether the lessee has substantial control over the operation of the property or whether the lessee was required simply to use its best efforts to perform its obligations under the agreement); and
- the extent to which the property owner retains the risk of loss with respect to the property (for example, whether the lessee bears the risk of increases in operating expenses or the risk of damage to the property) or the potential for economic gain with respect to the property.

It is believed that the leases of the REIT are structured so that they qualify as true leases for U.S. federal income tax purposes. Investors should be aware that there are no controlling Treasury Regulations, published rulings or judicial decisions involving leases with terms substantially the same as the REIT's leases that discuss whether such leases constitute true leases for U.S. federal income tax purposes. If these leases are characterized as service contracts or partnership agreements, rather than as true leases, part or all of the payments that the operating partnership of the REIT and its subsidiaries receive from the TRS Entities may not be considered rent or may not otherwise satisfy the various requirements for qualification as "rents from real property". In that case, the REIT likely would not be able to satisfy either the 75% or 95% gross income test and, as a result, would lose its real estate investment trust status unless the REIT qualifies for relief, as described below under "— Failure to Satisfy Gross Income Tests".

As described above, in order for the rent that the REIT receives to constitute "rents from real property", several other requirements must be satisfied. One requirement is that percentage rent must not be based in whole or in part on the income or profits of any person. Percentage rent, however, will qualify as "rents from real property" if it is based on percentages of receipts or sales and the percentages: (1) are fixed at the time the percentage leases are entered into; (2) are not renegotiated during the term of the percentage leases in a manner that has the effect of basing percentage rent on income or profits; and (3) conform with normal business practice. More generally, percentage rent will not qualify as "rents from real property" if, considering the leases and all the surrounding

circumstances, the arrangement does not conform with normal business practice, but is in reality used as a means of basing the percentage rent on income or profits.

The REIT must not own, actually or constructively, 10% or more of the shares or the assets or net profits of any lessee (a "**related party tenant**"), other than a TRS. The constructive ownership rules generally provide that, if 10% or more in value of the REIT's Units of beneficial interest is owned, directly or indirectly, by or for any person, the REIT is considered as owning the shares owned, directly or indirectly, by or for such person. The REIT currently leases all of its hotels to the TRS Entities and it is intended that the REIT will lease to a TRS Entity any hotels the REIT acquires in the future.

As described above, the REIT may own up to 100% of the capital stock of one or more TRSs. A TRS is a fully taxable corporation that is permitted to lease hotel properties from the related REIT as long as it does not directly or indirectly operate or manage any lodging facilities or provide rights to any brand name under which any lodging facility is operated, unless such rights are provided to an "eligible independent contractor" to operate or manage a lodging facility if such rights are held by the TRS as a franchisee, licensee, or in a similar capacity and such hotel is either owned by the TRS or leased to the TRS by its parent real estate investment trust. A TRS will not be considered to operate or manage a qualified lodging facility solely because the TRS directly or indirectly possesses a license, permit, or similar instrument enabling it to do so. Additionally, a TRS will not be considered to operate or manage a qualified lodging facility located outside of the United States, as long as an "eligible independent contractor" is responsible for the daily supervision and direction of such individuals on behalf of the TRS pursuant to a management contract or similar service contract. Moreover, rent that the REIT receives from a TRS will qualify as "rents from real property" as long as the property is operated on behalf of the TRS by an "independent contractor" who is adequately compensated, who does not, directly or through its shareholders, own more than 35% of the Units, taking into account certain ownership attribution rules, and who is, or is related to a person who is, actively engaged in the trade or business of operating "qualified lodging facilities" for any person unrelated to the REIT and the TRS lessee (an "**eligible independent contractor**"). A "qualified lodging facility" is a hotel, motel, or other establishment more than one-half of the dwelling units in which are used on a transient basis, unless wagering activities are conducted at or in connection with such facility by any person who is engaged in the business of accepting wagers and who is legally authorized to engage in such business at or in connection with such facility. A "qualified lodging facility" includes customary amenities and facilities operated as part of, or associated with, the lodging facility as long as such amenities and facilities are customary for other properties of a comparable size and class owned by other unrelated owners.

The rent attributable to the personal property leased in connection with the lease of a hotel must not be greater than 15% of the total rent received under the lease. The rent attributable to the personal property contained in a hotel is the amount that bears the same ratio to total rent for the taxable year as the average of the fair market values of the personal property at the beginning and at the end of the taxable year bears to the average of the aggregate fair market values of both the real and personal property contained in the hotel at the beginning and at the end of such taxable year (the "**personal property ratio**"). To comply with this limitation, a TRS lessee may acquire furnishings, equipment and other personal property. With respect to each hotel in which the TRS lessee does not own the personal property, it is believed either that the personal property ratio is less than 15% or that any rent attributable to excess personal property does not jeopardize the ability of the REIT to qualify as a real estate investment trust. There can be no assurance, however, that the IRS would not challenge the calculation of a personal property ratio, or that a court would not uphold such assertion. If such a challenge were successfully asserted, the REIT could fail to satisfy the 75% or 95% gross income test and thus potentially lose its real estate investment trust status.

The REIT cannot furnish or render noncustomary services to the tenants of its hotels, or manage or operate its hotels, other than through an independent contractor who is adequately compensated and from whom the REIT does not derive or receive any income. However, the REIT needs not provide services through an "independent contractor", but instead may provide services directly to its tenants, if the services are "usually or customarily rendered" in connection with the rental of space for occupancy only and are not considered to be provided for the tenants' convenience. In addition, the REIT may provide a minimal amount of "noncustomary" services to the tenants of a property, other than through an independent contractor, as long as the REIT's income from the services does not exceed 1% of its income from the related property. Finally, the REIT may own up to 100% of the capital

stock of one or more TRSs, which may provide noncustomary services to the REIT's tenants without tainting its rents from the related hotel properties. The REIT will not perform any services other than customary ones for its lessees, unless such services are provided through independent contractors.

Interest income. Interest income constitutes qualifying mortgage interest for purposes of the 75% gross income test (as described above) to the extent that the obligation upon which such interest is paid is secured by a mortgage on real property. If the REIT receives interest income with respect to a mortgage loan that is secured by both real property and other property, and the highest principal amount of the loan outstanding during a taxable year exceeds the fair market value of the real property on the date that the REIT acquired or originated the mortgage loan (or, in the event of a "significant modification", the date the loan is modified), the interest income will be apportioned between the real property and the other collateral, and the REIT's income from the arrangement will qualify for purposes of the 75% gross income test only to the extent that the interest is allocable to the real property. However, in the case of a loan that is secured by both real property and personal property, for purposes of the 75% gross income test, if the fair market value of the personal property securing the loan does not exceed 15% of the total fair market value of all such property, such personal property is treated as real property. Even if a loan is not secured by real property, or is under secured, the income that it generates may nonetheless qualify for purposes of the 95% gross income test.

Dividend income. The REIT may directly or indirectly receive distributions from TRSs or other corporations that are not real estate investment trusts or qualified real estate investment trust subsidiaries. These distributions generally are treated as dividend income to the extent of the earnings and profits of the distributing corporation. Such distributions generally constitute qualifying income for purposes of the 95% gross income test, but not for purposes of the 75% gross income test. Any dividends that the REIT receives from another real estate investment trust, however, are qualifying income for purposes of both the 95% and 75% gross income tests.

Failure to satisfy the gross income tests. It is intended that the sources of income, including any nonqualifying income received by the REIT, will be monitored and the REIT's assets will be managed so as to ensure compliance with the gross income tests. No assurance can be given, however, that the REIT will be able to satisfy the gross income tests. If the REIT fails to satisfy one or both of the 75% or 95% gross income tests for any taxable year the REIT may still maintain its qualification as a real estate investment trust for such year if the REIT is entitled to relief under applicable provisions of the Code. These relief provisions will be generally available if (1) the REIT's failure to meet these tests was due to reasonable cause and not due to willful neglect; and (2) following the identification of the failure to meet the 75% or 95% gross income test for any taxable year, the REIT files a schedule with the IRS setting forth each item of its gross income for purposes of the 75% or 95% gross income test for such taxable year in accordance with Treasury Regulations yet to be issued. It is not possible to state whether the REIT would be entitled to the benefit of these relief provisions in all circumstances. If these relief provisions are inapplicable to a particular set of circumstances, the REIT will fail to maintain its qualification as a real estate investment trust. Even where these relief provisions apply, the Code imposes a tax based upon the profit attributable to the amount by which the REIT fails to satisfy the particular gross income test.

Asset Tests

At the close of each calendar quarter, the REIT must also satisfy five tests relating to the nature of its assets.

First, at least 75% of the value of the REIT's total assets must be represented by some combination of "real estate assets", cash, cash items, U.S. Government securities, and, under some circumstances, stock or debt instruments purchased with new capital. For this purpose, "real estate assets" include interests in real property, some kinds of mortgage loans (including an interest in an obligation secured by a mortgage on both real property and personal property if the fair market value of the personal property does not exceed 15% of the total fair market value of all the property securing the obligation), certain mezzanine loans indirectly secured by interests in entities that own interests in real property, stock of other corporations that qualify as real estate investment trusts, debt instruments issued by publicly offered real estate investment trusts, and personal property to the extent income from such personal property is treated as "rents from real property" because the personal property is rented in connection

with a rental of real property and the rent attributable to the personal property does not exceed 15% of the total rent received under the lease.

Second, the value of any one issuer's securities that the REIT owns may not exceed 5% of the value of the REIT's total assets.

Third, the REIT may not own more than 10% of any one issuer's outstanding securities, as measured by either value (the "**10% of value asset test**"), or voting power.

The 5% and 10% asset tests do not apply to securities that qualify under the 75% asset test, or to securities of TRSs and qualified real estate investment trust subsidiaries, and the 10% of value asset test does not apply to "straight debt" having specified characteristics and to certain other securities described below. Solely for purposes of the 10% of value asset test, the determination of the REIT's interest in the assets of a partnership (or entity treated as a partnership for tax purposes) in which the REIT owns an interest will be based on the REIT's proportionate interest in any securities issued by the partnership (or entity treated as a partnership for U.S. federal income tax purposes), excluding for this purpose certain securities described in the Code.

Fourth, the aggregate value of all securities of TRSs that the REIT holds may not exceed 20% of the value of its total assets, with respect to taxable years beginning on and after January 1, 2018.

Fifth, not more than 25% of the REIT's assets may consist of debt instruments issued by publicly offered real estate investment trusts that qualify as "real estate assets" only because of the express inclusion of "debt instruments issued by publicly offered real estate investment trusts" in the definition of "real estate assets".

Notwithstanding the general rule, as noted above, that for purposes of the real estate investment trust income and asset tests the REIT is treated as owning its proportionate share of the underlying assets of a subsidiary partnership, if the REIT holds indebtedness issued by a partnership, the indebtedness will be subject to, and may cause a violation of, the asset tests unless the indebtedness is a qualifying mortgage asset or other conditions are met.

Certain securities will not cause a violation of the 10% of value asset test described above. Such securities include instruments that constitute "straight debt", which includes, among other things, securities having certain contingency features. A security does not qualify as "straight debt" where a real estate investment trust (or a "controlled taxable real estate investment trust subsidiary", as defined in the Code, of the real estate investment trust) owns other securities of the same issuer which do not qualify as straight debt, unless the value of those other securities constitute, in the aggregate, 1% or less of the total value of that issuer's outstanding securities. In addition to straight debt, the Code provides that certain other securities will not violate the 10% of value asset test. Such securities include (1) any loan made to an individual or an estate, (2) certain rental agreements pursuant to which one or more payments are to be made in subsequent years (other than agreements between a real estate investment trust and certain persons related to the real estate investment trust under attribution rules), (3) any obligation to pay rents from real property, (4) securities issued by governmental entities that are not dependent in whole or in part on the profits of (or payments made by) a non-governmental entity, (5) any security (including debt securities) issued by another real estate investment trust, and (6) any debt instrument issued by a partnership if the partnership's income is of a nature that it would satisfy the 75% gross income test described above under "— Income tests". In applying the 10% of value asset test, a debt security issued by a partnership is not taken into account to the extent of the REIT's proportionate interest, if any, in the equity and debt securities issued by that partnership.

It is expected that the assets that the REIT owns generally will be qualifying assets for purposes of the 75% asset test, and it is intended that compliance with this requirement will be monitored on an ongoing basis. There can be no assurance, however, that the REIT will be successful in this effort. No independent appraisals have been obtained to support the conclusions as to the value of the REIT's total assets or the value of any particular security or securities. Accordingly, there can be no assurance that the IRS will not contend that the REIT's interests in its subsidiaries or in the securities of other issuers will not cause a violation of the real estate investment trust asset tests.

However, certain relief provisions are available to allow real estate investment trusts to satisfy the asset requirements or to maintain real estate investment trust qualification notwithstanding certain violations of the asset and other requirements. One such provision allows a real estate investment trust which fails one or more of the asset requirements to nevertheless maintain its real estate investment trust qualification if (1) the real estate investment trust provides the IRS with a description of each asset causing the failure, (2) the failure is due to reasonable cause and not willful neglect, (3) the real estate investment trust pays a tax equal to the greater of (a) $50,000 per failure, and (b) the product of the net income generated by the assets that caused the failure multiplied by the highest applicable rate applicable to corporations (currently 21%), and (4) the real estate investment trust either disposes of the assets causing the failure within six months after the last day of the quarter in which it identifies the failure, or otherwise satisfies the relevant asset tests within that time frame.

In the case of *de minimis* violations of the 5% and 10% asset tests, a real estate investment trust may maintain its qualification despite a violation of such requirements if (1) the value of the assets causing the violation does not exceed the lesser of 1% of the real estate investment trust's total assets at the end of the applicable quarter or $10,000,000, and (2) the real estate investment trust either disposes of the assets causing the failure within six months after the last day of the quarter in which it identifies the failure, or the relevant tests are otherwise satisfied within that time frame.

If the REIT should fail to satisfy the asset tests at the end of a calendar quarter, such a failure would not cause the REIT to lose its real estate investment trust qualification if it (1) satisfied the asset tests at the close of the preceding calendar quarter; and (2) the discrepancy between the value of its assets and the asset requirements was not wholly or partly caused by an acquisition of non-qualifying assets, but instead arose from changes in the market value of its assets. If the condition described in (2) were not satisfied, the REIT still could avoid disqualification by eliminating any discrepancy within 30 days after the close of the calendar quarter in which it arose or by making use of relief provisions described above.

Annual Distribution Requirements

In order to maintain real estate investment trust qualification, the REIT is required to distribute dividends, other than capital gain dividends, to Unitholders in an amount at least equal to:

(a) the sum of

(i) 90% of its "real estate investment trust taxable income", computed without regard to its net capital gains and the deduction for dividends paid, and

(ii) 90% of its net income, if any, (after tax) from foreclosure property (as described below), minus,

(b) the sum of specified items of non-cash income that exceeds a certain percentage of the REIT's income.

For these purposes, "real estate investment trust taxable income" is computed without regard to the dividends paid deduction and the REIT's net capital gain. In addition, for purposes of this test, non-cash income means income attributable to leveled stepped rents, original issue discount on purchase money debt, cancellation of indebtedness, or a like-kind exchange that is later determined to be taxable.

The REIT's deduction for net business interest expense will generally be limited to 30% of its taxable income, as adjusted for certain items of income, gain, deduction or loss. Any business interest deduction that is disallowed due to this limitation may be carried forward to future taxable years. If the REIT is subject to this interest expense limitation, the real estate investment trust taxable income for a taxable year may be increased. Taxpayers that conduct certain real estate businesses may elect not to have this interest expense limitation apply to them, provided that they use an alternative depreciation system to depreciate certain property. The REIT may be eligible to make this election. If so, although the REIT would not be subject to the interest expense limitation described above,

its depreciation deductions may be reduced and, as a result, the real estate investment trust taxable income for a taxable year may be increased.

The REIT generally must make these distributions in the taxable year to which they relate, or in the following taxable year if such distributions are declared before a U.S. federal income tax return is timely filed for the REIT for the year and are paid with or before the first regular dividend payment after such declaration (provided that such payment is made during the 12-month period following the close of such taxable year). These latter distributions are taxable to Unitholders in the year in which they are paid, even though these latter distributions relate to the REIT's prior taxable year for purposes of the 90% distribution requirement.

To the extent that the REIT distributes at least 90%, but less than 100%, of "real estate investment trust taxable income", as adjusted, the REIT will be subject to tax at ordinary U.S. federal corporate income tax rates on the retained portion. The REIT may elect to retain, rather than distribute, its net long-term capital gains and pay tax on such gains. In this case, the REIT could elect for Unitholders to include their proportionate shares of such undistributed long-term capital gains in income, and to receive a corresponding credit or refund, as the case may be, for their share of the tax that the REIT paid. Unitholders would then increase their adjusted basis of their Units by the difference between (1) the amounts of capital gain dividends designated and that they include in their taxable income, minus (2) the tax that the REIT paid on their behalf with respect to that income.

To the extent that in the future the REIT may have available net operating losses carried forward from prior tax years, such losses may reduce the amount of distributions that the REIT must make in order to comply with the real estate investment trust distribution requirements. Such losses, however, will generally not affect the character, in the hands of Unitholders, of any distributions that are actually made as ordinary dividends or capital gains. The REIT's net operating loss carryover can only offset 80% of taxable income in future years, but can be carried forward indefinitely.

If the REIT fails to distribute during each calendar year at least the sum of (1) 85% of its REIT ordinary income for such year, (2) 95% of its real estate investment trust capital gain net income for such year, and (3) any undistributed taxable income from prior periods, the REIT will be subject to a non-deductible 4% excise tax on the excess of such required distribution over the sum of (a) the amounts actually distributed (taking into account excess distributions from prior periods), plus (b) the amounts of income the REIT retained and on which it has paid U.S. federal income tax. It is intended that timely distributions will be made so that the REIT is not subject to the 4% excise tax.

It is possible that, from time to time, the REIT may not have sufficient cash to meet the distribution requirements due to timing differences between its actual receipt of cash and its inclusion of items in income for U.S. federal income tax purposes. In the event that such timing differences occur, in order to meet the distribution requirements, it might be necessary for the REIT to arrange for short-term, or possibly long-term, borrowings, to use cash reserves, to liquidate non-cash assets at rates or times the REIT regards as unfavorable, or to pay dividends in the form of taxable in-kind distributions of property. Alternatively, the REIT may declare a taxable dividend payable in cash or Units at the election of each Unitholder, where the aggregate amount of cash to be distributed in such dividend may be subject to limitation. In such case, for U.S. federal income tax purposes, taxable Unitholders receiving such dividends will be required to include the full amount of the dividend as income and would be required to satisfy the tax liability associated with the dividend with cash from other sources including sales of Units. Both a taxable dividend and sale of Units resulting from such dividend could adversely affect the price of Units.

The REIT may be able to rectify a failure to meet the distribution requirements for a year by paying "deficiency dividends" to Unitholders in a later year, which may be included in its deduction for dividends paid for the earlier year. In this case, the REIT may be able to avoid losing real estate investment trust qualification or being taxed on amounts distributed as deficiency dividends. The REIT will be required to pay interest and a penalty based on the amount of any deduction taken for deficiency dividends. While the payment of a deficiency dividend will apply to a prior year for purposes of the REIT distribution requirements, it will be treated as an additional distribution to Unitholders in the year such dividend is paid.

Recordkeeping Requirements

The REIT is required to maintain records and request on an annual basis information from specified Unitholders. These requirements are designed to assist the REIT in determining the actual ownership of outstanding Units and maintaining its qualification as a real estate investment trust.

Prohibited Transactions

Net income that the REIT derives from a "prohibited transaction" is subject to a 100% tax. The term "prohibited transaction" generally includes a sale or other disposition of property (other than foreclosure property, as discussed below) that is held as inventory or primarily for sale to customers in the ordinary course of a trade or business by the REIT (or a lower tier partnership in which the REIT owns an equity interest) or by a borrower that has issued a shared appreciation mortgage or similar debt instrument to the REIT. It is intended that the operations of the REIT will be conducted so that no asset that it owns (or is treated as owning) will be treated as, or as having been, held as inventory or primarily for sale to customers, and that a sale of any such asset will not be treated as having been in the ordinary course of its business. Whether property is held as inventory or "primarily for sale to customers in the ordinary course of a trade or business" depends on the particular facts and circumstances. No assurance can be given that any property that the REIT sells will not be treated as property held as inventory or primarily for sale to customers, or that the REIT can comply with certain safe-harbor provisions of the Code that would prevent such treatment. The 100% tax does not apply to gains from the sale of property that is held through a TRS or other taxable corporation, although such income will be subject to tax in the hands of such corporation at regular U.S. federal income tax rates. It is intended that the activities of the REIT will be structured to avoid prohibited transaction characterization.

Foreclosure Property

Foreclosure property is real property and any personal property incident to such real property (1) that the REIT acquires as the result of having bid on the property at foreclosure, or having otherwise reduced the property to ownership or possession by agreement or process of law, after a default (or upon imminent default) on a lease of the property or a mortgage loan held by the REIT and secured by the property, (2) for which it acquired the related loan or lease at a time when default was not imminent or anticipated, and (3) with respect to which the REIT made a proper election to treat the property as foreclosure property. The REIT generally will be subject to tax at the maximum U.S. federal corporate rate (currently 21%) on any net income from foreclosure property, including any gain from the disposition of the foreclosure property, other than income that would otherwise be qualifying income for purposes of the 75% gross income test. Any gain from the sale of property for which a foreclosure property election has been made will not be subject to the 100% tax on gains from prohibited transactions described above, even if the property would otherwise constitute inventory or dealer property.

Property generally ceases to be foreclosure property at the end of the third taxable year following the taxable year in which the REIT acquired the property, or longer if an extension is granted by the IRS. This grace period terminates, and foreclosure property ceases to be foreclosure property, on the first day occurring: (i) on which a lease is entered into for the property that, by its terms, will give rise to income that does not qualify for the purposes of the 75% gross income test, or any amount is received or accrued, directly or indirectly, pursuant to a lease entered into on or after such day that will give rise to income that does not qualify for purposes of the 75% gross income test; (ii) on which any construction takes place on the property, other than completion of a building or any other improvement, where more than 10% of the construction was completed before default became imminent; or (iii) which is more than 90 days after the day on which the REIT acquired the property and the property is used in a trade or business which is conducted by the REIT, other than through an independent contractor from whom the REIT itself does not derive or receive any income or through a TRS.

Penalty Tax

Any redetermined rents, redetermined deductions, excess interest or redetermined service income the REIT generates will be subject to a 100% penalty tax. In general, redetermined rents are rents from real property that are overstated as a result of any services furnished to any of the REIT's tenants by a TRS of the REIT, redetermined

deductions and excess interest represent any amounts that are deducted by a TRS of the REIT for amounts paid to the REIT that are in excess of the amounts that would have been deducted based on arm's length negotiations, and redetermined service income is income of a TRS that is understated as a result of services provided to the REIT or on the REIT's behalf. Rents received by the REIT will not constitute redetermined rents if they qualify for certain safe harbor provisions contained in the Code.

Safe-harbor provisions are provided where: (1) amounts are excluded from the definition of impermissible tenant service income as a result of satisfying the 1% *de minimis* exception; (2) the TRS renders a significant amount of similar services to unrelated parties and the charges for such services are substantially comparable; (3) rents paid to the REIT by tenants who are not receiving services from the TRS are substantially comparable to the rents paid by the REIT's tenants leasing comparable space who are receiving such services from the TRS and the charge for the service is separately stated; and (4) the TRS's gross income from the service is not less than 150% of the subsidiary's direct cost of furnishing the service.

Management believes that the REIT's arrangements with its TRSs reflect arm's-length terms. However, these determinations are inherently factual, and the IRS has broad discretion to assert that amounts paid between related parties should be reallocated to accurately reflect their respective incomes.

Failure to Qualify

If the REIT fails to satisfy one or more requirements for real estate investment trust qualification other than the income or asset tests, the REIT could avoid disqualification if its failure is due to reasonable cause and not to willful neglect and the REIT pays a penalty of $50,000 for each such failure. Relief provisions are available for failures of the income tests and asset tests, as described above in "— Income tests" and "— Asset tests".

If the REIT fails to maintain its qualification for taxation as a real estate investment trust in any taxable year, and the relief provisions described above do not apply, the REIT would be subject to U.S. federal income tax on its taxable income at regular corporate rates. The REIT cannot deduct distributions to Unitholders in any year in which it does not qualify as a real estate investment trust, nor would the REIT be required to make distributions in such a year. Unless the REIT is entitled to relief under specific statutory provisions, the REIT would also be disqualified from re-electing to be taxed as a real estate investment trust for the four taxable years following the year during which it lost qualification. It is not possible to state whether, in all circumstances, the REIT would be entitled to this statutory relief.

Taxation of Non-U.S. Holders

The following is a summary of certain U.S. federal income tax consequences of the ownership and disposition of Units applicable to Non-U.S. Holders.

Ordinary dividends. The portion of dividends received by Non-U.S. Holders that is (1) payable out of the earnings and profits of the REIT, (2) not attributable to gains of the REIT from sales or exchanges of a U.S. real property interest, as defined under Section 897(c) of the Code (a "**USRPI**"), and (3) not effectively connected with a U.S. trade or business of the Non-U.S. Holder, will generally be subject to U.S. federal withholding tax at the rate of 30%, unless reduced or eliminated by treaty and the Non-U.S. Holder provides to the REIT an IRS Form W-8BEN (or other acceptable substitute or applicable form). A Non-U.S. Holder that is a qualified resident of Canada generally is entitled to a 15% withholding rate under the Treaty if: (i) the Non-U.S. Holder is an individual and holds no more than 10% of the outstanding Units, (ii) the Units are publicly traded and the Non-U.S. Holder owns no more than 5% of the outstanding Units or (iii) the Non-U.S. Holder (other than an individual) holds no more than 10% of the outstanding Units and the REIT is diversified. For this purpose, the REIT will be treated as diversified if the gross value of no single interest in real property of the REIT exceeds 10% of the gross value of the REIT's total interest in real property. Qualified residents of Canada that are tax-exempt entities established to provide pension, retirement or other employee benefits (including trusts governed by a RRSP, a RRIF or a DPSP) may be eligible for an exemption from U.S. federal tax withholding on dividends under Article XXI of the Treaty. A trust governed by a TFSA, a RESP or a RDSP is not entitled to benefits as an entity or arrangement under the Treaty. Instead, income received by a TFSA, a RESP or a RDSP is treated as received by the beneficiary of the TFSA RESP, or RDSP as the

case may be, and the TFSA, RESP, or RDSP, as the case may be, should be disregarded for U.S. federal income tax purposes. The beneficiary or annuitant of the TFSA RESP, or RDSP as the case may be, may, however, be eligible for reduced withholding tax rates under the Treaty. Unitholders that are Exempt Plans should consult their own tax advisors with respect to the Canadian and U.S. federal income tax considerations relevant to an investment in Units.

Under some treaties, however, lower rates generally applicable to dividends do not apply to dividends from real estate investment trusts. In the case of a taxable dividend payable in Units with respect to which any U.S. federal withholding tax is imposed on a Non-U.S. Holder, the REIT may have to withhold or dispose of part of the Units otherwise distributable in such dividend and use such withheld shares or the proceeds of such disposition to satisfy the U.S. federal withholding tax imposed.

It is expected that REIT distributions on the Units will exceed the REIT's current and accumulated earnings and profits as determined under the Code. For the purpose of determining the amount to withhold, management of the REIT will make a reasonable estimate of the portion of a distribution that is paid out of current and accumulated earnings and profits. The Non-U.S. Holder may seek a refund from the IRS of any amounts withheld if it is subsequently determined that the distribution was, in fact, in excess of current and accumulated earnings and profits of the REIT.

In general, Non-U.S. Holders will not be considered to be engaged in a U.S. trade or business solely as a result of their ownership of Units. In cases where the dividend income from a Non-U.S. Holder's investment in Units is, or is treated as, effectively connected with the Non-U.S. Holder's conduct of a U.S. trade or business, the Non-U.S. Holder generally will be subject to U.S. federal income tax at graduated rates, in the same manner as U.S. Holders are taxed with respect to such dividends. Such income must generally be reported on a U.S. income tax return filed by or on behalf of the Non-U.S. Holder. Such income may also be subject to the 30% branch profits tax in the case of a Non-U.S. Holder that is a corporation (subject to potential reduction under the Treaty).

Non-dividend distributions. A Non-U.S. Holder will not incur tax on a distribution in excess of the REIT's current and accumulated earnings and profits if the excess portion of the distribution does not exceed the Non-U.S. Holder's adjusted tax basis in its Units. Instead, the excess portion of the distribution would reduce the Non-U.S. Holder's adjusted tax basis in the Units. It is expected that the Units will constitute USRPIs, as described below, and thus, if the Non-U.S. Holder otherwise would be subject to tax on gain from the disposition of its Units as described herein, distributions that the REIT makes in excess of the sum of (x) the Non-U.S. Holder's proportionate share of the earnings and profits of the REIT, plus (y) the Non-U.S. Holder's tax basis in its Units, will be taxed under FIRPTA, at the rate of U.S. federal income tax, including any applicable capital gains rates, that would apply to a U.S. Holder of the same type (e.g., an individual or a corporation, as the case may be), and the collection of the tax will be enforced by a withholding at a rate of 15% of the amount by which the distribution exceeds the Unitholder's share of earnings and profits of the REIT.

Because management of the REIT expects that the Units will be considered to be regularly traded on an established securities market as described below under "Certain U.S. Federal Income Tax Considerations – Dispositions of Units", it does not expect to be required to withhold on distributions in excess of the REIT's current and accumulated earnings and profits that are distributed to Non-U.S. Holders that own 10% or less of the outstanding Units during the applicable testing period, although there can be no assurance that withholding on such amounts will not be required.

Capital gain dividends. Under FIRPTA, a distribution that the REIT makes to a Non-U.S. Holder, to the extent attributable to gains from dispositions of USRPIs that the REIT held directly or through pass-through subsidiaries, or USRPI capital gains, will, except as described below, be considered effectively connected with a U.S. trade or business of the Non-U.S. Holder and will be subject to U.S. federal income tax at the rates applicable to the U.S. Holders, without regard to whether the REIT designates the distribution as a capital gain dividend. See above under "— Taxation of Non-U.S. Holders — Ordinary dividends", for a discussion of the consequences of income that is effectively connected with a U.S. trade or business. In addition, the REIT will be required to withhold tax at the highest applicable corporate rate (currently 21%) of the maximum amount that could have been designated as USRPI capital gains dividends. Distributions subject to FIRPTA may also be subject to a 30% branch profits tax in the hands of a Non-U.S. Holder that is a corporation (subject to potential reduction under the Treaty).

A distribution is not attributable to USRPI capital gain if the REIT held an interest in the underlying asset solely as a creditor, although the holding of a shared appreciation mortgage loan would not be solely as a creditor. Capital gain dividends received by a Non-U.S. Holder that are attributable to dispositions of assets of the REIT other than USRPIs are not subject to U.S. federal income or withholding tax, unless (1) the gain is effectively connected with the Non-U.S. Holder's U.S. trade or business, in which case the Non-U.S. Holder would be subject to the same treatment as U.S. Holders with respect to such gain, or (2) the Non-U.S. Holder is a nonresident alien individual who was present in the United States for 183 days or more during the taxable year and has a "tax home" in the United States, in which case the Non-U.S. Holder will incur a 30% U.S. federal income tax on his capital gains.

A capital gain dividend that would otherwise have been treated as a USRPI capital gain will not be so treated or be subject to FIRPTA, and generally will not be treated as income that is effectively connected with a U.S. trade or business, and instead will be treated in the same manner as an ordinary dividend (see "— Taxation of Non-U.S. Holders—Ordinary dividends"), if (1) the capital gain dividend is received with respect to a class of Units that is regularly traded on an established securities market, and (2) the recipient Non-U.S. Holder is not treated for U.S. federal income taxes purposes as owning more than 10% of that class of Units at any time during the one-year period ending on the date on which the capital gain dividend is received. As discussed below, it is believed that the Units will be treated as "regularly traded on an established securities market", but no assurance can be given as to the current or future treatment of the Units as "regularly traded on an established securities market".

Dispositions of REIT Units. The Units will be treated as USRPIs if, 50% or more of the assets of the REIT throughout a prescribed testing period consist of interests in real property located within the United States, excluding, for this purpose, interests in real property solely in a capacity as a creditor (but including interests in so-called "United States real property holding corporations" and interests in mortgages secured by real property bearing interest determined by reference to net or gross profits or gains of the obligor or changes in the value of the property securing the obligation in question). It is expected that the foregoing test will be met and the Units will be treated as USRPIs, absent the application of certain exceptions discussed below, because the REIT predominately holds hotel properties that constitute U.S. real property, but no assurance can be given that this always will be the case.

Even if the foregoing 50% test is met, the Units will not constitute USRPIs if the REIT is a "domestically controlled qualified investment entity". A domestically controlled qualified investment entity includes a REIT, if less than 50% of value of its outstanding shares of stock is held directly or indirectly by non-U.S. persons at all times during a specified testing period. It is not expected that the REIT will qualify as a domestically controlled qualified investment entity. In addition, a Non-U.S. Holder's sale of Units will not be subject to tax under FIRPTA as a sale of a USRPI provided that the Units are "regularly traded" on an "established securities market", both as defined by applicable Treasury Regulations and as discussed below, and the selling Non-U.S. Holder owned, actually and constructively, 10% or less of the outstanding Units at all times during the five-year period ending on the date of disposition or such shorter period that the Units were held.

An "established securities market" consists of any of the following: (a) a U.S. national securities exchange which is registered under Sec. 6 of the Securities Exchange Act of 1934; (b) a non-U.S. national securities exchange which is officially recognized, sanctioned, or supervised by a governmental authority; or (c) any over-the-counter market. An over-the-counter market is any market which has an interdealer quotation system. An interdealer quotation system is any system of general circulation to brokers and dealers which regularly disseminates quotations of stocks and securities by identified brokers or dealers, other than by quotation sheets which are prepared and distributed by a broker or dealer in the regular course of business and which contain only quotations of such broker or dealer.

For the purpose of (b), above, the TSXV is a non-U.S. national securities exchange which is officially recognized, sanctioned, or supervised by a governmental authority, and, accordingly, the TSXV is an established securities market. For so long as 100 or fewer persons do not own 50% or more of the Units, the Units should be treated as "regularly traded" on the TSXV for a calendar quarter if: (a) the Units trade, other than in *de minimis* quantities, on at least 15 days during the calendar quarter; (b) the aggregate number of Units traded during the calendar quarter is at least 7.5% of the average number of Units outstanding during such calendar quarter (reduced to 2.5% if there are 2,500 or more record holders of Units); and (c) the REIT attaches a statement to its U.S. federal income tax return that provides information relating to it, the Units, and beneficial owners of more than 5% of the

Units (the "**TSXV Publicly Traded Exception**"). However, the REIT is closely held as of the Offering. As a result, these requirements will not be satisfied as of the Offering with respect to the REIT. Although management intends to further diversify the REIT's ownership such that these requirements will be satisfied in the future, there can be no assurance that these requirements will be satisfied with respect to the REIT.

In addition, the Units would be considered "regularly traded" on an established securities market for a calendar quarter if the established securities market were located in the U.S. and the Units were regularly quoted by more than one broker or dealer making a market in the Units through an interdealer quotation system. The OTC Pink tier of OTC Markets Group Inc. ("**OTC Pink**") and the OTCQX are over-the-counter markets during a calendar quarter having an interdealer quotation system that should be treated as an "established securities market" located in the U.S. A broker or dealer makes a market in a class of stock only if the broker or dealer holds itself out to buy or sell shares of such class of stock at the quoted price. In this regard, the REIT has received indications that at least two brokers or dealers are willing to regularly quote and make a market in the Units on the OTC Pink and/or the OTCQX. For each calendar quarter during which the Units are regularly quoted on the OTC Pink and/or the OTCQX, the Units should be treated as "regularly traded" on an established securities market in the U.S. (the "**U.S. Publicly Traded Exception**") and, accordingly, gain on sales of Units by Non-U.S. Holders that own 10% or less of the outstanding Units during the applicable testing period would not be subject to U.S. federal income tax. Investors are cautioned that there can be no assurances that there will be at least two brokers or dealers regularly quoting the Units on the OTC Pink and/or the OTCQX in any particular calendar quarter. In addition, neither the Code, the applicable Treasury Regulations, administrative pronouncements nor judicial decisions provide guidance as to the frequency or duration with which the Units must be quoted during a calendar quarter to be "regularly quoted". U.S. tax counsel to the REIT believes that it is reasonable to interpret this exception to the effect that, so long as the brokers or dealers regularly quote the Units at any time during a calendar quarter, any gain from a sale at any time during the quarter would not be subject to U.S. federal income tax for Non-U.S. Holders that own 10% or less of the outstanding Units during the applicable testing period. Due to the lack of guidance from the IRS, however, investors are cautioned that there can be no assurance the IRS would concur in this interpretation.

Management believes that the Units may satisfy the U.S. Publicly Traded Exception and may satisfy the TSXV Publicly Traded Exception in the future. However, if neither the U.S. Publicly Traded Exception nor the TSXV Publicly Traded Exception is satisfied, the sale of Units by a Non-U.S. Holder may be subject to taxation under FIRPTA with the result that the Non-U.S. Holder would be required to file a U.S. federal income tax return and would be subject to the same treatment as a U.S. Holder with respect to such gain, subject to applicable alternative minimum tax and a special alternative minimum tax in the case of non-resident alien individuals, and the purchaser of Units could be required to withhold 15% of the purchase price and remit such amount to the IRS.

Gain from the sale of Units that would not otherwise be subject to FIRPTA will nonetheless be taxable in the United States to a Non-U.S. Holder in two cases: (1) if the Non-U.S. Holder's investment in Units is effectively connected with a U.S. trade or business conducted by such Non-U.S. Holder, the Non-U.S. Holder will be subject to the same treatment as a U.S. Holder with respect to such gain, or (2) if the Non-U.S. Holder is a nonresident alien individual who was present in the United States for 183 days or more during the taxable year and has a "tax home" in the United States, the nonresident alien individual will be subject to a 30% U.S. federal income tax on the individual's capital gain. In addition, even if the REIT is a domestically controlled qualified investment entity, upon disposition of Units (subject to the 10% exception applicable to "regularly traded" stock described above), a Non-U.S. Holder may be treated as having gain from the sale or exchange of a USRPI if the Non-U.S. Holder (1) disposes of Units within a 30-day period preceding the ex-dividend date of a distribution, any portion of which, but for the disposition, would have been treated as gain from the sale or exchange of a USRPI, and (2) acquires, or enters into a contract or option to acquire, other Units within 30 days after such ex-dividend date.

Special FIRPTA Rules. Recently enacted amendments to FIRPTA create special rules that modify the application of the foregoing FIRPTA rules for particular types of Non-U.S. Holders, including "qualified foreign pension funds" and their wholly-owned non-U.S. subsidiaries and certain widely-held, publicly traded "qualified collective investment vehicles". Non-U.S. Holders are urged to consult their own tax advisors regarding the applicability of these or any other special FIRPTA rules to their particular investment in Units.

Non-U.S. Holders are urged to consult their tax advisors regarding the U.S. federal, state, local and non-U.S. income and other tax consequences of owning Units.

Backup Withholding and Information Reporting

The applicable withholding agent must report annually to the IRS and to each Non-U.S. Holder the amount of dividends paid to such holder and the tax withheld with respect to such dividends, regardless of whether withholding was required. Copies of the information returns reporting such dividends and withholding may also be made available to the tax authorities in the country in which the Non-U.S. Holder resides under the provisions of an applicable income tax treaty. A Non-U.S. Holder may be subject to backup withholding unless applicable certification requirements are met.

Payment of the proceeds of a sale of Units within the United States is subject to both backup withholding and information reporting unless the beneficial owner certifies under penalties of perjury that it is not a U.S. person for U.S. federal income tax purposes (and the payor does not have actual knowledge or reason to know that the beneficial owner is a U.S. person for U.S. federal income tax purposes) or the holder otherwise establishes an exemption. Payment of the proceeds of a sale of Units conducted through certain U.S. related financial intermediaries is subject to information reporting (but not backup withholding) unless the financial intermediary has documentary evidence in its records that the beneficial owner is not a U.S. person for U.S. federal income tax purposes and specified conditions are met or an exemption is otherwise established.

Backup withholding is not an additional tax. Any amounts withheld under the backup withholding rules may be allowed as a refund or a credit against such holder's U.S. federal income tax liability provided the required information is timely furnished to the IRS.

Other Tax Considerations

Legislative or Other Actions Affecting Real Estate Investment Trusts

The present U.S. federal income tax treatment of real estate investment trusts may be modified, possibly with retroactive effect, by legislative, judicial or administrative action at any time. In particular, on December 22, 2017 the Tax Cuts and Jobs Act was signed into law. The Tax Cuts and Jobs Act makes significant changes to the U.S. federal income tax rules for taxation of individuals and corporations, generally effective for taxable years beginning after December 31, 2017. In addition to reducing corporate and non-corporate tax rates, the Tax Cuts and Jobs Act eliminates or restricts various deductions. Most of the changes applicable to individuals are temporary and apply only to taxable years beginning after December 31, 2017 and before January 1, 2026. The Tax Cuts and Jobs Act makes numerous large and small changes to the tax rules that do not affect REITs directly but may affect the Unitholders and may indirectly affect the REIT. The real estate investment trust rules are constantly under review by persons involved in the legislative process and by the IRS and the U.S. Treasury Department which may result in statutory changes as well as revisions to the Treasury Regulations and interpretations thereof. Changes to the U.S. federal income tax laws and interpretations thereof could adversely affect an investment in Units.

Foreign Account Tax Compliance Act

Withholding generally is required, at a rate of 30%, on dividends in respect of Units, and on gross proceeds from the sale, after December 31, 2018, of Units, held by or through certain non-U.S. financial institutions (including investment funds), unless such institution either (1) enters into an agreement with the U.S. Treasury Department to report, on an annual basis, information with respect to shares in the institution held by certain U.S. persons and by certain non-U.S. entities that are wholly or partially owned by U.S. persons and to withhold on certain payments; or (2) operates in a jurisdiction that has entered into an agreement with the U.S. Treasury Department requiring similar reporting to such jurisdiction or to the U.S. Treasury Department and complies with such agreement. Accordingly, the entity through which Units are held will affect the determination of whether such withholding is required. Similarly, dividends in respect of, and gross proceeds from the sale (beginning after December 31, 2018) of, Units held by an investor that is a non-financial non-U.S. entity generally are (or will be) subject to withholding at a rate of 30%, unless such entity either (1) certifies to the REIT that such entity does not

have any "substantial United States owners"; or (2) provides certain information regarding the entity's "substantial United States owners", which the REIT will in turn provide to the IRS. The REIT will not pay any additional amounts to Unitholders in respect of any amounts withheld under the foregoing rules. Prospective Unitholders are encouraged to consult their tax advisors regarding the possible implications of the legislation imposing such withholding on their investment in Units.

State, Local and Non-U.S. Taxes

The REIT and its subsidiaries and Unitholders may be subject to state, local or non-U.S. taxation in various jurisdictions including those in which they transact business, own property or reside. The state, local or non-U.S. tax treatment of the REIT and that of the Unitholders may not conform to the U.S. federal income tax treatment discussed above. Any non-U.S. taxes that the REIT incurs do not pass through to Unitholders as a credit against their U.S. federal income tax liability. Prospective investors should consult their tax advisors regarding the application and effect of state, local and non-U.S. income and other tax laws on an investment in Units.

PLAN OF DISTRIBUTION

General

Pursuant to the terms and conditions of the agency agreement (the "**Agency Agreement**") entered into between the REIT, the Promoter and the Agent, the Agent has agreed to conditionally offer the Units to be issued under the Offering on a "best efforts basis" until April 12, 2019, but in any event not later than 90 days after a receipt for a final prospectus is issued. If one or more amendments to the final prospectus are filed and the principal securities regulatory authority has issued a receipt for any such amendment, the distribution under this prospectus will not continue for a period of more than 90 days after the latest date of a receipt for any such amendment. In any case, the total period of distribution under the Offering will not continue for a period of more than 180 days from the date of the receipt for the final prospectus. The Agent will not be acting as agent or receive any compensation for the distribution of 3,452,014 Units to certain persons in consideration for their indirect contribution of ownership interests in US Holdco.

The Offering Price of the Units has been determined by negotiation between the REIT, the Promoter and the Agent. In consideration for its services in connection with the Offering, the REIT has agreed to pay the Agent: (i) a fee equal to $0.50 per Unit issued under the Offering and (ii) a right of first refusal to act as lead agent/underwriter and lead bookrunner in relation to any and all future public equity or quasi-equity offerings by NREO and/or the REIT on any Canadian exchange for a period of 36 months from the time of Listing.

The Offering is being made in each of the provinces of Canada (other than Quebec). The Units to be issued under the Offering will be offered in each of the provinces of Canada (other than Quebec) through the Agent or its affiliates who are registered to offer the Units for sale in such provinces and such other registered dealers as may be designated by the Agent. Subject to applicable law, and residency restrictions under the Declaration of Trust, the Agent may offer the Units outside of Canada.

There is currently no market through which the Units may be sold and purchasers may not be able to resell Units purchased under this prospectus. This may affect the pricing of the Units in the secondary market, the transparency and availability of trading prices, the liquidity of the Units and the extent of issuer regulation (see "Risk Factors").

Closing is expected to occur on March 29, 2019 or such other date as the REIT and the Agent may agree, but in any event not later than April 12, 2019. The TSXV has conditionally approved the listing of the Units. Listing is subject to the REIT fulfilling all of the requirements of the TSXV, including the distribution of the Units to a minimum number of public securityholders.

As of the date of this prospectus, the REIT does not have any of its securities listed or quoted, has not applied to list or quote any of its securities, and does not intend to apply to list or quote any of its securities, on the

Toronto Stock Exchange, Aequitas NEO Exchange Inc., a U.S. marketplace (as defined in National Instrument 41-101 – *General Prospectus Requirements* ("**NI 41-101**"), or a marketplace outside Canada and the United States of America ("other than the Alternative Investment Market of the London Stock Exchange or the PLUS markets opened by PLUS Markets Group plc.").

All of the Units qualified under this prospectus will be freely tradeable without restriction or further registration under applicable Canadian securities laws.

The obligations of the Agent under the Agency Agreement are subject to certain closing conditions and may be terminated at their discretion on the basis of their assessment of the state of the financial markets and may also be terminated upon the occurrence of certain stated events.

Pursuant to the Agency Agreement, the REIT and the Promoter have agreed to indemnify the Agent and its directors, officers, employees and agents against certain liabilities, including, without limitation, civil liabilities under Canadian securities legislation, and to contribute to any payments the Agent may be required to make in respect thereof.

The Units have not been and will not be registered under the U.S. Securities Act or any U.S. state securities laws and may not be offered or sold in the United States except in transactions exempt from the registration requirements of the U.S. Securities Act and applicable state securities laws. Accordingly, except to the extent permitted by the Agency Agreement, the Units may not be offered or sold within the United States.

The Agent proposes to offer the Units to issued under the Offering to the public initially at the Offering Price. After the Agent has made a reasonable effort to sell all of such Units at the Offering Price, the Offering Price of the Units may be decreased and may be further changed from time to time to amounts not greater than the Offering Price, and the compensation realized by the Agent will be decreased by the amount that the aggregate price paid by the purchasers of the Units is less than the amount paid by the Agent to the REIT.

NCI System

Subscriptions for the Units will be received subject to rejection or allotment in whole or in part and the right is reserved to close the subscription books at any time without notice. The Offering will be conducted under the NCI book-based system administered by CDS. Units registered in the name of CDS or its nominee will be deposited electronically with CDS on an NCI basis at the Closing. Units must be purchased or transferred through a CDS participant and all rights of holders of Units must be exercised through, and all payments or other property to which such holder is entitled will be made or delivered by, CDS or the CDS participant through which the holder of Units holds such Units. Beneficial owners of Units will not be entitled to receive physical certificates evidencing their ownership of Units.

USE OF PROCEEDS

The net proceeds of the Offering are estimated to be approximately $3,600,000 after deduction of the Agent's fee and will be used to fund a portion of the expenses of the Offering.

RISK FACTORS

The REIT faces a variety of significant and diverse risks, many of which are inherent in the business conducted by the REIT. Described below are certain risks that could materially affect the REIT and the value of the Units. Other risks and uncertainties that the REIT does not presently consider to be material, or of which the REIT is not presently aware, may become important factors that affect the REIT's future financial condition and results of operations. The occurrence of any of the risks discussed below could materially and adversely affect the business, prospects, financial condition, results of operations, cash flow or the ability of the REIT to make cash distributions to Unitholders or value of the Units of the REIT. Prospective purchasers of the Units should carefully consider these risks before investing in the Units.

Risk Factors Related to the Hotel and Lodging Industry

Operating Risks in the Hotel Industry

All real property investments are subject to a degree of risk and uncertainty and are affected by various factors, including general economic conditions and local real estate markets. The business of the REIT and the REIT's ability to make distributions to Unitholders may be adversely affected by various operating risks common to the hotel industry, including competition; over-building; dependence on business travel and tourism; changes in taxes and governmental regulations that influence or set wages, prices or interest rates; availability and cost of capital necessary to fund investments, capital expenditures and service interest, principal or other debt obligations; changes in operating costs, shortages of labour, risks of unionization of labour, increases in the costs of food and liquor; receipt and/or maintenance of licenses and permits with local authorities; relationships with brand franchisors; the ability of other lodging alternatives to attract and retain customers; changes in local market conditions due to changes in general or local economic conditions and neighbourhood characteristics, and building structure and building system, health, or hygiene issues rendering properties uninhabitable on a temporary or long term basis. Any of these factors could limit or reduce the prices charged for the REIT's products or services. As a result, any of these factors can reduce the REIT's profits and limit its opportunities for growth.

Exogenous Events

The hotel industry is subject to exogenous events outside the control of hotel owners, hotel managers, and hotel franchisors that can impact the financial performance of the industry. These factors include war; terrorist activities or threats and heightened travel security measures instituted in response to such events; outbreaks of pandemic or contagious diseases; natural disasters, such as earthquakes, gas leaks, fires, hurricanes and floods; and instability or perceived instability in domestic political and geo-political conditions. All of the above factors may adversely affect the REIT revenues and/or operating expenses and certain of these factors may increase the REIT's capital expenditure liabilities.

Cyclical Nature of the Hotel Industry

The hotel industry is cyclical. Macroeconomic and other factors beyond the REIT's control can reduce demand for lodging products and services, including demand for rooms at properties owned and managed by the REIT. These factors include changes and volatility in general economic conditions, including: the severity and duration of any downturn in the U.S. or global economy and financial markets; changes in the desirability of particular locations or travel patterns of customers; decreased corporate budgets and spending; low consumer confidence; depressed housing prices; financial condition of the airline and other transportation-related industries and its impact on travel; oil prices and travel costs; and cyclical over-building in the hotel ownership industry. These factors can adversely affect individual properties, particular regions or the REIT's business as a whole. Any one or more of these factors could limit or reduce the demand, or the rates the REIT's properties are able to charge for rooms or services or the prices at which the REIT is able to sell any property, which could adversely affect the REIT's business, results of operations and financial condition.

The Presence of Online Travel Agencies and Alternative Lodging Marketplaces

The hotel industry may be affected by advances in technology. Consumers' growing use of internet travel intermediaries ("**OTAs**") and alternative lodging marketplaces may adversely affect the REIT'S profitability. The REIT's hotel guest rooms may be booked through OTAs such as Expedia.com, Travelocity.com, Hotels.com, etc. As guest bookings through OTAs increase, these intermediaries may be able to obtain higher commissions, reduced room rates and other significant contract concessions from the REIT. Moreover, OTAs attempt to influence consumer choice behavior by increasing the visibility and importance of price, reviews and general indicators of quality (descriptors such as "four-star lakeside hotel") at the expense of brand identification on their websites and mobile applications. OTAs attract consumers by offering innovation, ease of use platforms, multiple travel products, membership programs, the ability to package travel products across different suppliers (such as car rental, guest room booking, activities tickets etc.) in one transaction, and other marketing techniques. OTAs hope that consumers will eventually develop loyalties to their online reservation system rather than to the brands under which hotel

properties are franchised. The increasing reliance of consumers on online intermediaries and the continued expansion in technologies may negatively impact the strength of the REIT's partner brands, traditional distribution platforms and profit margins.

Advances in technology have made alternative lodging accommodations a direct source of competition to the hotel industry. Alternative lodging marketplaces, such as Airbnb and HomeAway, operate websites and mobile applications that market available furnished, privately-owned residential properties, including homes, condominiums and vacation homes, that can be rented on a nightly, weekly or monthly basis. The influx of these lodging accommodations traditionally not available to consumers and the increased acceptance of these options by consumers may lead to a reduction in demand for conventional hotel guest rooms and to an increase in supply of lodging alternatives. If the use of alternative lodging marketplaces significantly increases, particularly among the REIT's key customer and location segments, its profitability may be adversely affected.

Competition

The lodging sector is highly competitive. The REIT faces competition from a number of sources, including from Airbnb and from other hotels located in the immediate vicinity of the properties comprising the Initial Portfolio and the broader geographic areas where the REIT's hotels are and will be located. The REIT's properties compete on the basis of location, room rates, quality, service levels, reputation and reservations systems, among many factors. The REIT also faces competition from alternative lodging options such as Airbnb that have and may continue to add guest accommodations that compete with hotel inventory. OTAs may capture a greater share of guest bookings, which would have a negative impact on the strength of brands and their distribution platforms, while also adding to the REIT's expenses in the form of fees to the OTAs. Such competition may reduce occupancy rates and revenues of the REIT and could have an adverse effect on the REIT's business, cash flows, financial condition and results of operations and the REIT's ability to make distributions to Unitholders. Increases in the cost to the REIT of acquiring hotel properties may adversely affect the ability of the REIT to acquire such properties on favourable terms and may otherwise have an adverse effect on the REIT's business.

Liquidity

Real property investments are relatively illiquid. This illiquidity will tend to limit the ability of the REIT to respond to changing economic or investment conditions. If the REIT were required to liquidate assets quickly, there is a risk the proceeds realized from such sale would be less than the book value of the assets or otherwise less than what would otherwise be expected to be realized under normal circumstances. By specializing in hotel properties, the REIT is exposed to adverse effects on that segment of the real estate market and does not benefit from a broader diversification of its portfolio by property class.

Economic and Demographic Environment

Consumer demand for the products and services offered by the REIT's portfolio is closely linked to the performance of the general economy and is sensitive to business and personal discretionary spending levels. Declines in consumer demand due to adverse general economic conditions, risks affecting or reducing travel patterns, lower consumer confidence or adverse political conditions can lower the revenues and profitability of the REIT's properties.

Concentration in Upper Upscale Segment

The REIT will primarily own interests in hotels in the upper upscale segment. The REIT will not seek to invest in assets selected to reduce the risks associated with an investment in this segment and will be subject to risks inherent in investing in a single sector of a market.

Seasonality of the Hotel Industry

The seasonality of the hotel industry could have a material adverse effect on the REIT. The hotel industry is seasonal in nature, which can be expected to cause quarterly fluctuations in revenues. The REIT's quarterly earnings may be adversely affected by factors outside the REIT's control, including weather conditions and poor economic factors in certain markets in which the REIT operates. This seasonality can be expected to cause periodic fluctuations in room revenues, occupancy levels, room rates and operating expenses in particular hotels. The REIT can provide no assurances that cash flows will be sufficient to offset any shortfalls that occur as a result of these fluctuations. As a result, the REIT may have to enter into short-term borrowings in certain quarters in order to make distributions to Unitholders and the REIT can provide no assurances that such borrowings will be available on favourable terms, if at all. Consequently, volatility in financial performance resulting from the seasonality of the hotel industry could have a material adverse effect on the REIT.

Risk Factors Related to the Business of the REIT

Acquisitions

The REIT's business plan includes, among other things, growth through identifying suitable acquisition opportunities and pursuing such opportunities. If the REIT is unable to manage its growth effectively, it could adversely impact the REIT's financial position and results of operations and decrease the amount of cash available for distribution. There can be no assurance as to the pace of growth through property acquisitions or that the REIT will be able to acquire assets on an accretive basis and, as such, there can be no assurance that distributions to Unitholders will increase in the future. Acquired properties may be subject to unknown, unexpected or undisclosed liabilities which could have a material adverse impact on the operations and financial results of the REIT. Representations and warranties given by third parties to the REIT may not adequately protect against these liabilities and any recourse against third parties may be limited by the financial capacity of such third parties. Furthermore, it is not always possible to obtain from the seller the records and documents that are required in order to fully verify that the buildings to be acquired are constructed in accordance, and that their use complies with, planning laws and building code requirements. Accordingly, in the course of acquiring a property, specific risks might not be or might not have been recognized or correctly evaluated. These circumstances could lead to additional costs and could have a material adverse effect on revenues from the relevant properties. The REIT's ability to acquire properties on satisfactory terms and successfully integrate and operate them is subject to the following additional risks: (a) the REIT may be unable to acquire desired properties because of competition from other real estate investors with more capital, including other real estate operating companies, real estate investment trusts and investment funds; (b) the REIT may acquire properties that are not accretive to results upon acquisition, and the REIT may not successfully manage and lease those properties to meet its expectations; (c) competition from other potential acquirers may significantly increase the purchase price of a desired property; (d) the REIT may be unable to generate sufficient cash from operations, or obtain the necessary debt or equity financing to consummate an acquisition or, if obtainable, financing may not be on satisfactory terms; (e) the REIT may need to spend more than budgeted amounts to make necessary improvements or renovations to acquired properties; (f) agreements for the acquisition of properties are typically subject to customary conditions to closing, including satisfactory completion of due diligence investigations, and the REIT may spend significant time and money on potential acquisitions that the REIT does not consummate; (g) the REIT may be unable to quickly and efficiently integrate new acquisitions, particularly acquisitions of portfolios of properties, into existing operations; (h) market conditions may result in lower than expected room revenues; and (i) the REIT may acquire properties without any recourse, or with only limited recourse, for liabilities, whether known or unknown, such as clean-up of environmental contamination, claims by tenants, vendors or other persons against the former owners of the properties and claims for indemnification by general partners, directors, officers and others indemnified by the former owners of the properties. The REIT will also be relying upon the Advisor as a source of potential acquisition opportunities and there is no certainty that suitable properties may be available to the REIT. If the REIT cannot complete property acquisitions on favourable terms, or operate acquired properties to meet the REIT's goals or expectations, the REIT's business, financial condition, results of operations and cash flow, the per Unit trading price and the REIT's ability to satisfy debt service obligations and to make distributions to the Unitholders could be materially and adversely affected.

Franchise Agreements and Concentrated Brand Family

The REIT (or subsidiaries thereof) will operate a significant portion of the hotels pursuant to franchise or license agreements with nationally recognized hotel brands. Management believes that building brand value is critical to increased demand and the strengthening of customer loyalty. All of the hotels in the REIT's Initial Portfolio utilize brands owned by Hilton, Marriott or InterContinental Hotels Group. Consequently, if market recognition or the positive perception of Hilton, Marriott or InterContinental Hotels Group is reduced or compromised, the goodwill associated with the Hilton, Marriott or InterContinental Hotels Group-branded hotels in the REIT's portfolio may be adversely affected. Franchise agreements contain specific standards for, and restrictions and limitations on, the operation and maintenance of the REIT's hotels in order to maintain uniformity within the franchisor system. The REIT may be required to incur costs to comply with these standards and these standards could potentially conflict with the REIT's ability to create specific business plans tailored to each property and to each market. Failure to comply with these brand standards may result in termination of the applicable franchise or license agreement. Upon any such termination, the REIT would be required to rebrand the hotel, which could result in substantial relicensing or rebranding costs, a decline in the value of the hotel, the loss of marketing support and participation in guest loyalty programs, and harm the REIT's relationship with the franchisor, impeding the REIT's ability to operate other hotels under the same brand. If any of the foregoing were to occur, it could have a material adverse effect on the REIT.

Regulation and Changes in Applicable Laws

The REIT's operations must comply with numerous federal, state and local laws and regulations, some of which may conflict with one another or be subject to limited judicial or regulatory interpretations. These laws and regulations may include zoning laws, building codes, environmental laws, health and food safety laws and regulations and other laws generally applicable to hotel business operations. Non-compliance with laws could expose the REIT to liability. Lower revenue growth or significant unanticipated expenditures may result from the REIT's need to comply with changes in applicable laws, including (i) laws imposing environmental remedial requirements and the potential liability for environmental conditions existing on properties or the restrictions on discharges or other conditions; or (ii) other governmental rules and regulations or enforcement policies affecting the development, use and operation of the REIT's properties, including changes to building codes and fire and safety codes.

Environmental Matters

The REIT is subject to various requirements (including federal, state and municipal laws, as applicable) relating to environmental matters. Such requirements provide that the REIT could be, or become, liable for environmental or other harm, damage or costs, including with respect to the release of hazardous, toxic or other regulated substances into the environment and/or affecting persons, and the removal or other remediation of hazardous, toxic or other regulated substances that may be present at or under its properties, including lead-based paint, asbestos, polychlorinated biphenyls, petroleum-based fuels, mercury, volatile organic compounds, underground storage tanks, pesticides and other miscellaneous materials. Such requirements often impose liability without regard to whether the owner or operator knew of, or was responsible for, the release or presence of such materials. Additional liability may be incurred by the REIT with respect to the release of such substances from the REIT's properties to properties owned by third parties, including properties adjacent to the REIT's properties or with respect to the exposure of persons to regulated substances. The failure to remove or otherwise address such substances may materially adversely affect the REIT's ability to sell such property, maximize the value of such property or borrow using such property as collateral security, and could potentially result in claims or other proceedings against the REIT. It is the REIT's operating policy to obtain or be entitled to rely on an environmental site assessment prior to acquiring a property. Where an environmental site assessment warrants further investigation, it is the REIT's operating policy to conduct further environmental assessments. Although such environmental assessments provide the REIT with some level of assurance about the condition of the properties, the REIT may become subject to liability for undetected contamination or other environmental conditions of its properties against which it cannot insure, or against which the REIT may elect not to insure where insurance premium costs are considered to be disproportionate to the assessed risk, which could have a material adverse effect on the REIT's business, cash flows, financial condition and results of operations and ability to make distributions to Unitholders.

Environmental laws and other requirements can change and the REIT may become subject to more stringent environmental laws and other requirements in the future. Compliance with more stringent environmental requirements, the identification of currently unknown environmental issues or an increase in the costs required to address a currently known condition may have an adverse effect on the REIT's business, cash flows, financial condition and results of operations and ability to make distributions to Unitholders.

Fixed Costs and Capital Expenditures

As a matter of conducting business in the ordinary course, certain significant expenditures, including property taxes, maintenance costs, mortgage payments, insurance costs and related charges, must be made throughout the period of ownership of real property regardless of whether a property is producing sufficient income to pay such expenses. In order to retain desirable hotel destinations and to generate adequate revenue over the long-term, the REIT must maintain or, in some cases, improve a property's condition to meet market demand. These maintenance and improvement costs may be significant and may be costs the REIT is unable to pass on to its hotel guests. The REIT is also subject to utility and property tax risk relating to increased costs that the REIT may experience as a result of higher resource prices as well as its exposure to significant increases in property taxes. There is a risk that property taxes may be raised as a result of re-valuations of properties and their adherent tax rates. In some instances, enhancements to properties may result in significant increases in property assessments following a re-valuation. Additionally, utility expenses, mainly consisting of natural gas and electricity service charges, have been subject to considerable price fluctuations over the past several years. The REIT may incur general liability related to guests on its properties for which it is found negligent, or for claims that are otherwise not fully covered by insurance. Any significant increase in these resource costs may have an adverse effect on the REIT's business, cash flows, financial condition and results of operations and ability to make distributions to Unitholders. The timing and amount of capital expenditures required by the REIT will indirectly affect the amount of cash available for distribution to Unitholders. Distributions may be reduced, or even eliminated, at times when the REIT deems it necessary to make significant capital or other expenditures.

Access to Capital

The real estate industry is highly capital intensive. The REIT will require access to capital to maintain its properties, as well as to fund its growth strategy and significant capital expenditures from time to time. There can be no assurance that the REIT will have access to sufficient capital or access to capital on terms favourable to the REIT for future property acquisitions, financing or refinancing of properties, funding operating expenses or other purposes. Further, in certain circumstances, the REIT may not be able to borrow adequate funds. Market conditions and unexpected volatility or illiquidity in financial markets may inhibit the REIT's access to long-term financing in the Canadian capital markets. As a result, it is possible that financing which the REIT may require in order to grow and expand its operations, upon the expiry of the term of financing, on refinancing any particular property owned by the REIT or otherwise, may not be available or, if it is available, may not be available on favourable terms to the REIT. Failure by the REIT to access required capital could have a material adverse effect on the REIT's business, cash flows, financial condition and results of operations and ability to make distributions to holders of Units.

Financing Risks

The REIT estimates that its outstanding Debt at Closing will be approximately $257.5 million. There can be no assurance that the REIT will continue to generate sufficient cash flow from operations to meet required interest and principal payments. If the REIT is unable to meet interest or principal payments, it could be required to seek renegotiation of such payments or obtain additional equity, debt or other financing. The failure of the REIT to make or renegotiate interest or principal payments or obtain additional equity, debt or other financing could adversely impact the REIT's financial condition, liquidity and results of operations and decrease the amount of cash available for distribution to Unitholders. If the REIT defaults under a mortgage loan, it may lose the properties securing such loan.

The REIT will be subject to the risks associated with debt financing, including the risk that the mortgages and banking facilities secured by the REIT's properties will not be able to be refinanced or that the terms of such refinancing will not be as favourable as the terms of existing indebtedness, which may reduce Core FFO. There is a

risk that existing maturing mortgages will be subject to increased interest rates. To the extent that interest rates rise following Closing, the REIT's operating results and financial condition could be adversely affected and decrease the amount of cash available for distribution. The REIT's debt will also contain covenants that require it to maintain certain financial ratios on a consolidated basis. If the REIT does not maintain such ratios, its ability to make distributions will be limited. Additionally, to the extent that the REIT incurs variable rate indebtedness, such indebtedness will result in fluctuations in the REIT's cost of borrowing as interest rates change.

Privacy/Cybersecurity

The REIT, through the Manager, and its franchise partners are required to collect and maintain personal information about hotel employees and, through third-party providers, collect information about customers in connection with the processing of credit and debt transactions and as part of certain of the REIT's marketing programs. The collection and use of such information is regulation in the U.S. at the federal and state levels and in Canada at the federal and provincial levels, and the regulatory environment in these and other jurisdictions related to information security and privacy is increasingly demanding. At the same time, the REIT will rely increasingly on cloud computing and other technologies that result in third parties holding customer or hotel employee information on the REIT's behalf. If the security of the REIT's, its franchise partners' or third party providers' information systems used to store or process such information is compromised, or if the REIT or such third parties otherwise fail to comply with applicable laws and regulations, the REIT or its franchise partners could face litigation and the imposition of penalties that could adversely affect the REIT's financial performance. The brand reputations of the REIT's franchise partners could also be adversely affected from these types of security breaches or regulatory violations, which could impair revenues or the ability to attract and retain qualified hotel personnel.

Privacy and information security risks have generally increased in recent years because of the proliferation of new technologies, such as ransomware, and the increased sophistication and activities of perpetrators of cyber-attacks. On November 30, 2018, Marriott, one of the REIT's franchise partners and owner of Starwood Hotels & Resorts, disclosed that the guest reservation system of Starwood Hotels & Resorts had been breached, exposing personal and private information of millions of customers including names, phone numbers, e-mail addresses, passport numbers, dates of birth and credit card numbers and expiration dates. The security measures put in place by the REIT or its franchise partners cannot provide absolute security, and the REIT and its franchise partners' information technology infrastructure may be vulnerable to similar or other criminal cyber-attacks or data security incidents, including, ransom of data, such as, without limitation, resident and/or employee information, due to employee error, malfeasance, or other vulnerabilities. Any such incident could compromise the REIT's or such franchise partner's networks, and the information stored by the REIT or such franchise partner could be accessed, misused, publicly disclosed, corrupted, lost, or stolen, resulting in fraud, including wire fraud related to the REIT assets, or other harm. Moreover, if a data security incident or breach affects the REIT's systems or such franchise partner's systems or results in the unauthorized release of personally identifiable information, the REIT's or such franchise partner's reputation and brand could be materially damaged and the REIT may be exposed to a risk of loss or litigation and possible liability, including, without limitation, loss related to the fact that agreements with such franchise partners or such franchise partner's financial condition, may not allow the REIT to recover all costs related to a cyber breach for which they alone or they and the REIT should be jointly responsible for, which could result in a material adverse effect on the REIT's business, results of operations and financial condition.

In the future, the REIT and its franchise partners may expend additional resources to continue to enhance information security measures and/or to investigate and remediate any information security vulnerabilities. Despite these steps, there can be no assurance that the REIT or its franchise partners will not suffer a data security incident in the future, that unauthorized parties will not gain access to sensitive data stored on the REIT's systems or the systems of its franchise partners, or that any such incident will be discovered in a timely manner. Further, the techniques used by criminals to obtain unauthorized access to sensitive data, such as phishing and other forms of human engineering, are increasing in sophistication and are often novel or change frequently; accordingly, the REIT and its franchise partners may be unable to anticipate these techniques or implement adequate preventative measures.

Litigation Risks

In the normal course of the REIT's operations, whether directly or indirectly, it may become involved in, named as a party to or the subject of, various legal proceedings, including regulatory proceedings, tax proceedings and legal actions relating to personal injuries, property damage, property taxes, land rights, the environment and contract disputes. The outcome with respect to outstanding, pending or future proceedings cannot be predicted with certainty and may be determined in a manner adverse to the REIT and as a result, could have a material adverse effect on the REIT's assets, liabilities, business, financial condition and results of operations. Even if the REIT prevails in any such legal proceeding, the proceedings could be costly and time-consuming and may divert the attention of management and key personnel from the REIT's business operations, which could have a material adverse effect on the REIT's business, cash flows, financial condition and results of operations and ability to make distributions to Unitholders.

Potential Conflicts of Interest

The Trustees will, from time to time, in their individual capacities, deal with parties with whom the REIT may be dealing, or may be seeking investments similar to those desired by the REIT. The interest of these persons could conflict with those of the REIT. The Declaration of Trust contains conflict of interest provisions requiring the Trustees to disclose their interests in certain contracts and transactions and to refrain from voting on those matters. In addition, certain decisions regarding matters that may give rise to a conflict of interest must be made by a majority of the independent Trustees only. See "Governance and Management of the REIT — Conflicts of Interest". Conflicts may also exist due to the fact that (i) certain Trustees of the REIT will be affiliated with the Advisor; (ii) the REIT and the Advisor will enter into certain arrangements; (iii) the Advisor and its affiliates are actively engaged in the ownership, development and management of hotel real estate properties; and (iv) the REIT may become involved in transactions that conflict with the interests of the foregoing. See "Arrangements with NexPoint".

Insurance Coverage May be Inadequate

The REIT will attempt to obtain adequate insurance of the type and coverage customarily obtained for properties similar to those owned by the REIT to cover significant areas of risk to it as an entity and to its properties. However, there are types of losses at the property level, generally catastrophic in nature, such as losses due to wars, acts of terrorism, earthquakes, floods, tornadoes, hurricanes, pollution or environmental matters, which are uninsurable or not economically insurable, or may be insured subject to limitations, such as large deductibles or co-payments. The REIT may not have adequate coverage for such losses. If any of the REIT's properties incurs a casualty loss that is not fully insured, the value of the REIT's assets will be reduced by any such uninsured loss. In addition, other than any working capital reserve or other reserves the REIT may establish, it has no source of funding to repair or reconstruct any uninsured damaged property. Further, to the extent the REIT must pay unexpectedly large amounts for insurance, it could suffer reduced earnings that would result in lower distributions to Unitholders.

Degree of Leverage

The REIT's degree of leverage could have important consequences to Unitholders. For example, the degree of leverage could affect the REIT's ability to obtain additional financing in the future for working capital, capital expenditures, acquisitions, development or other general trust purposes, making the REIT more vulnerable to a downturn in business or the economy in general.

Limitations on Sale

The REIT may be required to expend funds to correct defects or to make improvements before a property can be sold. No assurance can be given that the REIT will have funds available to correct such defects or to make such improvements. In acquiring a property, the REIT may agree to lock-out provisions that materially restrict it from selling that property for a period of time or impose other restrictions, such as a limitation on the amount of debt that can be placed or repaid on that property or debt or other contracts that are not prepayable or terminable and must be assumed by a buyer. These provisions would restrict the REIT's ability to sell a property. These factors and

any others that would impede the REIT's ability to respond to adverse changes in the performance of its properties could significantly affect the REIT's financial condition and operating results and decrease the amount of cash available for distribution to Unitholders. Additionally, franchisors need to approve replacement franchisees upon a sale and there is no assurance the REIT will be able to locate buyers who are approved franchisees.

Investments in Debt Instruments

The REIT may hold direct or indirect investments in mortgages and mortgage bonds (including participating or convertible mortgages). Adverse changes to the financial condition of a mortgagor with respect to a mortgage held directly or indirectly by the REIT could have an adverse impact on the REIT's ability to collect principal and interest payments from such mortgagor and therefore, cause a reduction in the REIT's ability to make distributions to Unitholders and in the value of that investment.

Based upon applicable laws governing the REIT's investment in debt instruments and the loans underlying the REIT's debt securities, the REIT's investments in debt may also be adversely affected by: (i) the operation of applicable laws regarding the ability to foreclose mortgage loans or to exercise other creditors' rights provided in the underlying loan documents; (ii) lender liability with respect to the negotiation, administration, collection or foreclosure of mortgage loans; (iii) penalties for violations of applicable usury limitations; and (iv) the impact of bankruptcy or insolvency laws.

Further, the REIT will not know whether the values of the properties securing the mortgage loans will remain at the levels existing on the dates of origination of those mortgage loans. If the values of the underlying properties fall, the risk to the REIT will increase because of the lower value of the security associated with such loans.

Laws Benefiting Disabled Persons

Laws benefiting disabled persons may result in unanticipated expenses being incurred by the REIT. Under the Americans with Disabilities Act of 1990 (the "**ADA**"), all places intended to be used by the public are required to meet certain federal requirements related to access and use by disabled persons. This and other federal, state and local laws may require modifications to the REIT's properties, or affect renovations of the properties. Non-compliance with these laws could result in the imposition of fines or an award of damages to private litigants and also could result in an order to correct any non-complying feature, which could result in substantial capital expenditures. Although the REIT believes the Initial Portfolio is in substantial compliance with the present requirements, the REIT may incur unanticipated expenses to comply with the ADA in connection with the ongoing operation or redevelopment of the REIT's properties.

Reliance on Key Personnel and Risk of Competing Demands

The management and governance of the REIT depends on the services of certain key personnel, including certain executive officers and the Trustees. The loss of the services of any key personnel and the inability of the REIT to attract and retain qualified and experienced personnel could have an adverse effect on the REIT and adversely impact the REIT's financial condition and results of operations and decrease the amount of cash available for distribution to Unitholders. The Advisor, Manager and their respective officers and certain key personnel will face competing demands relating to their time and service and may have conflicts in allocating their time to the REIT's business, which may cause operating results to suffer.

Reliance on the Manager

For the REIT and NHI to qualify as a real estate investment trust for U.S. federal income tax purposes, they are not permitted to operate or manage any of the hotel properties. As a result, the TRS Entities have entered into the Hotel Management Agreements with the Manager to operate the hotel properties. For this reason, the REIT and NHI are unable to directly implement strategic business decisions with respect to the daily operation and marketing of the

hotel properties, such as decisions with respect to the setting of room rates, food and beverage pricing, and certain similar matters.

Although the REIT and NHI plan to consult with the Manager with respect to strategic business plans, the Manager is under no obligation to implement any of the REIT's or NHI's recommendations with respect to these matters. The cash flow from the hotel properties may be adversely affected if the Manager fails to provide quality services and amenities or if it or its affiliates fail to maintain a quality brand name.

Restrictions on Certain Business Activities

As a real estate investment trust, the REIT and NHI are each subject to various restrictions on the types of income it can earn, assets it can own, and activities in which it can engage. Further, the REIT or NHI may not make otherwise attractive investments in order to maintain its qualification as a real estate investment trust under the Code. Business activities that could be restricted by applicable real estate investment trust rules under the Code include, but are not limited to, developing alternative uses of real estate and the ownership of hotels that are not leased to TRS Entities. Due to these restrictions, the REIT and NHI anticipate that the REIT and NHI will continue to conduct certain business activities, including, but not limited to, those mentioned above, in one or more TRS Entities. The TRS Entities are taxable as regular corporations under the Code and are subject to federal, state, and local taxation on their taxable income.

Litigation at the Property Level

The acquisition, ownership and disposition of real property carries certain specific litigation risks. Litigation may be commenced with respect to a property acquired by the REIT or its subsidiaries in relation to activities that took place prior to the REIT's acquisition of such property. In addition, at the time of disposition of an individual property, a potential buyer may claim that it should have been afforded the opportunity to purchase the asset or alternatively that such buyer should be awarded due diligence expenses incurred or damages for misrepresentation relating to disclosures made, if such buyer is passed over in favour of another as part of the REIT's efforts to maximize sale proceeds. Similarly, successful buyers may later sue the REIT under various damage theories, including those sounding in *tort*, for losses associated with latent defects or other problems not uncovered in due diligence.

New Markets

If the opportunity arises, the REIT may explore acquisitions of properties in new markets. Each of the risks applicable to the REIT's ability to acquire and successfully integrate and operate properties in its current markets is also applicable to its ability to acquire and successfully integrate and operate properties in new markets. In addition to these risks, the REIT may not possess the same level of familiarity with the dynamics and market conditions of any new markets, which could adversely affect its ability to expand into or operate in those markets. The REIT may be unable to achieve a desired return on its investments in new markets. If the REIT is unsuccessful in expanding into new markets, it could adversely affect its business, financial condition, results of operations and cash flow, the per Unit trading price and ability to satisfy debt service obligations and to make distributions to Unitholders.

Expanding Social Media Vehicles

The use of social media could cause the REIT to suffer brand damage or information leakage. Negative posts or comments about the REIT or its hotel properties on any social networking website could damage the REIT's reputation. In addition, employees or others might disclose non-public sensitive information relating to the REIT's business through external media channels. The continuing evolution of social media will present the REIT with new challenges and risks.

Employee Theft or Fraud

Certain of the REIT's employees have access to, or signature authority with respect to, bank accounts or other REIT assets, which exposes the REIT to the risk of fraud or theft. In addition, certain employees have access to key information technology ("**IT**") infrastructure and to hotel guest and other information that is commercially valuable. Should any employee compromise any of the REIT's IT systems, or misappropriate resident or other information, the REIT could incur losses, including significant financial or reputational harm, from which full recovery cannot be assured. The REIT may also not have insurance that covers any losses in full or that covers losses from particular criminal acts. Potential liabilities for theft or fraud are not quantifiable and an estimate of possible loss cannot be made.

Third-Party Approvals

While all consents of a material nature are expected to be obtained on or prior to Closing, certain consents or approvals deemed expedient in connection with Offering transactions may not yet have been obtained at the time of Closing and the consents obtained may be subject to conditions that are required to be fulfilled following Closing. Additionally, third-parties may request certain consents or approvals that were not considered to be necessary in connection with the Offering. To the extent that such approvals are not obtained or conditions relating thereto are not fulfilled, third-parties may claim for breach of contract or other damages. While management believes the risks related to third-party approvals are minimal, should any such claim be successful, an adverse impact could result to the REIT's financial condition and operating results, decreasing the amount of cash available for distribution.

Limited Operating History

The REIT was organized under the Declaration of Trust dated December 12, 2018 and NHI was organized under the Limited Liability Company Agreement dated as of January 8, 2019. Both the REIT and NHI have limited operating history. Their lack of operating history increases the risk and uncertainty for Unitholders.

Risk Factors Related to Real Estate Ownership

Interest Rate Risk

Changes in interest rates could adversely affect the REIT's cash flows and the REIT's ability to pay distributions and make interest payments. Interest rate risk is the combined risk that the REIT would experience a loss as a result of its exposure to a higher interest rate environment and the possibility that at the end of a mortgage term the REIT would be unable to renew the maturing debt either with the existing or a new lender ("**Interest Rate Risk**"). With the current uncertain world economic times, there is a heightened risk that not only will existing maturing mortgages be subject to increased interest rates, but the distinct possibility also exists that maturing mortgages will not be renewed or, if they are renewed, they will be renewed at significantly lower loan-to-value ratios. The REIT will seek to manage its Interest Rate Risk by negotiating, where possible, fixed interest rates on all of its mortgage debt.

Fluctuations in Capitalization Rates

As interest rates fluctuate in the lending market, generally so too do capitalization rates which affect the underlying value of real estate. As such, when interest rates rise, generally capitalization rates should be expected to rise. Over the period of investment, capital gains and losses at the time of disposition can occur due to the increase or decrease of these capitalization rates.

Risk Related to Insurance Renewals

Certain events could make it more difficult and expensive to obtain property and casualty insurance, including coverage for catastrophic risks. When the REIT's current insurance policies expire, the REIT may encounter difficulty in obtaining or renewing property or casualty insurance on its properties at the same levels of

coverage and under similar terms. Such insurance may be more limited and, for catastrophic risks (e.g., earthquake, hurricane, flood and terrorism), may not be generally available to fully cover potential losses. Even if the REIT is able to renew its policies at levels and with limitations consistent with its current policies, the REIT cannot be sure that it will be able to obtain such insurance at premiums that are reasonable. If the REIT were unable to obtain adequate insurance, and its properties experienced damages that would otherwise have been covered by insurance, it could have a material adverse effect on the REIT's business, cash flows, financial condition and results of operations and ability to make distributions to holders of Units.

Joint Ventures

The REIT may invest in or be a participant in joint ventures and partnerships with third parties in respect of its interests or investments in hotel properties. A joint venture or partnership involves certain additional risks which could result in additional financial demands, increased liability and a reduction in the REIT's control over hotel properties and its ability to sell their interests in a hotel property within a reasonable time frame.

Tax-Related Risk Factors

Canadian Tax Risks

(a) ***Residency of the REIT for Canadian and U.S. Tax Purposes*** — The REIT is resident in Canada for purposes of the Tax Act and is treated as a domestic corporation in the U.S. under the Code. As a result, the REIT is generally taxable on its worldwide income in both Canada and the U.S. However, in both jurisdictions, the REIT generally will not be subject to tax on the portion of its income that it distributes to Unitholders (subject to certain limitations and exceptions). Management of the REIT is of the view that the status of the REIT as taxable in both Canada and the U.S. is not likely to give rise to any material adverse consequences in the future as it is not anticipated that the REIT will be subject to material federal income tax in either Canada or the U.S. Nevertheless, the REIT's status as taxable on its worldwide income in both Canada and the U.S. could, in certain circumstances, have a material adverse effect on the REIT and the Unitholders. As a result of the REIT being resident in both Canada and the U.S., withholding taxes of both Canada and the U.S. will be relevant to distributions by the REIT and could result in double taxation to certain investors and other consequences. Accordingly, potential investors should carefully review both the "Certain Canadian Federal Income Tax Considerations" and the "Certain U.S. Federal Income Tax Considerations" sections.

(b) ***Mutual Fund Trust Status*** — The REIT intends to qualify as a "unit trust" and a "mutual fund trust" for purposes of the Tax Act. There can be no assurance that Canadian federal income tax laws and the administrative policies and practices of the CRA respecting the treatment of mutual fund trusts will not be changed in a manner that adversely affects the Unitholders. Should the REIT cease to qualify as a mutual fund trust under the Tax Act, the income tax considerations described under the heading "Certain Canadian Federal Income Tax Considerations" could be materially and adversely different in certain respects.

(c) ***Application of the SIFT Rules*** — The SIFT Rules will apply to a trust that is a SIFT trust. The REIT will not be considered to be a SIFT trust in respect of a particular taxation year and, accordingly, will not be subject to the SIFT Rules in that year, if it does not own any non-portfolio property and does not carry on business in Canada in that year. Management has advised counsel that the REIT has not and does not currently intend to own any non-portfolio property nor carry on a business in Canada.

If the SIFT Rules were to apply to the REIT, the impact to a Unitholder would depend on the status of the holder and, in part, on the amount of income distributed which would not be deductible by the REIT in computing its income in a particular year and what portions of the REIT's distributions constitute "non-portfolio earnings", other income and returns of capital. The likely effect of the SIFT Rules on the market for Units, and on the REIT's ability to finance future

acquisitions through the issue of Units or other securities is uncertain. If the SIFT Rules were to apply to the REIT, they could adversely affect the marketability of the Units, the amount of cash available for distribution and the after-tax return to investors.

(d) ***Foreign Tax Credits*** — The after-tax return from an investment in Units to a Unitholder resident in Canada for the purposes of the Tax Act will depend in part on the Unitholder's ability to recognize for purposes of the Tax Act U.S. taxes paid by the Unitholder through foreign tax credits or foreign tax deductions under the Tax Act (See "Certain Canadian Federal Income Tax Considerations"). A Unitholder's ability to recognize U.S. taxes through foreign tax credits or foreign tax deductions may be affected where the Unitholder does not have sufficient taxes otherwise payable under Part I of the Tax Act or sufficient U.S. source income in the taxation year the U.S. taxes are paid or where the Unitholder has other U.S. sources of income or losses, has paid other U.S. taxes or, in certain circumstances, has not filed a U.S. federal income tax return. Furthermore, foreign tax credits or foreign tax deductions will be dependent upon the Canadian federal and provincial tax rates and U.S. tax rates that will prevail in future years to apply to applicable sources of income. Unitholders are therefore advised to consult their own tax advisors in regards to foreign tax credits and foreign tax deductions.

A Unitholder that is an Exempt Plan will not be entitled to a foreign tax credit or deduction under the Tax Act in respect of any U.S. tax paid by the Exempt Plan (including any U.S. withholding tax imposed on distributions paid to the Exempt Plan). As a result, the after-tax return from an investment in Units to a Unitholder that is an Exempt Plan may be adversely affected. Such Unitholders should carefully review the "Certain U.S. Federal Income Tax Considerations" section, and consult with their own tax advisors in regards to U.S. tax payable in respect of an investment in Units.

If (i) a Unitholder holds, or has held, actually or constructively, more than 10% of the outstanding Units, as determined for U.S. federal income tax purposes, or (ii) the TSXV Publicly Traded Exception or the U.S. Publicly Traded Exception are not satisfied, a Unitholder may be subject to additional U.S. tax on a disposition of the Units and on certain distributions by the REIT. The proceeds receivable on a disposition of a Unit may not qualify as U.S. source income for purposes of the Tax Act (including for Canadian foreign tax credit purposes), and beneficiaries of certain Unitholders that are trusts may not be considered to have paid such tax for purposes of the Tax Act and, accordingly, may not be entitled to a foreign tax credit in respect of such U.S. tax for Canadian tax purposes.

(e) ***FAPI*** — FAPI earned directly or indirectly by US Holdco and any other controlled foreign affiliate of the REIT must be included in computing the income of the REIT for the fiscal year of the REIT in which the taxation year of US Holdco (or such other controlled foreign affiliate) ends, subject to a deduction for grossed-up FAT as computed in accordance with the Tax Act. It is not anticipated that the deduction for grossed-up FAT will materially offset any FAPI realized by the REIT, and accordingly any FAPI realized generally will increase the allocation of income by the REIT to Unitholders. In addition, as FAPI generally must be computed in accordance with Part I of the Tax Act as though the controlled foreign affiliate were a resident of Canada (subject to the detailed rules contained in the Tax Act), income or transactions may be taxed differently under foreign tax rules as compared to the FAPI rules and, accordingly, may result in additional income being allocated to Unitholders. For example, certain transactions that do not give rise to taxable income under the Code may still give rise to FAPI for purposes of the Tax Act.

(f) ***Non-Residents of Canada*** — The Tax Act may impose additional withholding or other taxes on distributions made by the REIT to Unitholders who are non-residents of Canada for the purposes of the Tax Act. These taxes and any reduction thereof under a tax treaty between Canada and another country may change from time to time. In addition, this Prospectus does not describe the tax consequences under the Tax Act to non-residents of Canada, which may be more adverse than the consequences to other Unitholders. Further, because the REIT is both resident in Canada for

purposes of the Tax Act and treated as a domestic corporation in the U.S. under the Code, withholding taxes of both Canada and the U.S. will be relevant to Unitholders who are both non-residents of Canada and Non-U.S. Holders and could, in certain circumstances, result in both Canadian and U.S. withholding tax applying to certain distributions to certain investors and other consequences. Prospective purchasers who are non-residents of Canada should consult their own tax advisors.

(g) ***Foreign Currency*** — For purposes of the Tax Act, the REIT generally is required to compute its Canadian tax results, including any FAPI earned, using Canadian currency. Where an amount that is relevant in computing a taxpayer's Canadian tax results is expressed in a currency other than Canadian currency, such amount must be converted into Canadian dollars using the appropriate exchange rate determined in accordance with the detailed rules in the Tax Act in that regard. As a result, the REIT may realize gains and losses for tax purposes and FAPI by virtue of the fluctuation of the value of foreign currencies relative to Canadian dollars.

(h) ***Changes in Law*** — There can be no assurance that Canadian federal income tax laws, the judicial interpretation thereof, the terms of the Treaty, or the administrative practices and policies of the CRA and the Department of Finance (Canada) will not be changed in a manner that adversely affects the REIT or Unitholders. Any such change could increase the amount of tax payable by the REIT or its affiliates or could otherwise adversely affect Unitholders by reducing the amount available to pay distributions or changing the tax treatment applicable to Unitholders in respect of such distributions.

U.S. Tax Risks

(a) ***The OP*** — All of the operations and assets of the REIT will be indirectly held through the OP. For so long as the OP is treated as a partnership for U.S. federal income tax purposes, the REIT will be treated as owning its proportionate share of the assets and income of the OP for the purposes of the REIT asset and income tests. An entity that would otherwise be treated as a partnership for U.S. federal income tax purposes may nonetheless be treated as a corporation for U.S. federal income tax purposes if it is a "publicly traded partnership" and certain other requirements are met. A partnership would be treated as a publicly traded partnership if its interests were traded on an established securities market or were readily tradable on a secondary market or a substantial equivalent thereof, within the meaning of applicable Treasury Regulations. The LLC Agreement contains provisions intended to ensure that the OP is not considered a "publicly traded partnership". Accordingly, management does not anticipate that the OP will be treated as a publicly traded partnership that is taxable as a corporation. However, if the OP were classified as a "publicly traded partnership", the OP would be treated as a corporation rather than as a partnership for U.S. federal income tax purposes. In such case, the REIT would not be treated as owning its proportionate share of the assets and income of the OP for the purposes of the real estate investment trust asset and income test requirements (and, instead, would be treated as owning the stock of a corporation). This could cause the REIT to fail to qualify as a real estate investment trust. In addition, the income of the OP would become subject to U.S. federal corporate income tax.

(b) ***Qualification as a Real Estate Investment Trust*** — The REIT intends to operate in a manner that will allow it to qualify as a real estate investment trust for U.S. federal income tax purposes. Although the REIT does not intend to request a ruling from the IRS, as to its real estate investment trust qualification, it expects to receive an opinion of Baker & McKenzie LLP with respect to its qualification as a real estate investment trust in connection with the offering of its Units. Investors should be aware, however, that opinions of counsel are not binding on the IRS or any court. The opinion of Baker & McKenzie LLP will be based on Baker & McKenzie LLP's review and analysis of existing law and on certain representations as to factual matters made by the REIT, including representations relating to its assets and the sources of its income and its proposed method of operation. The opinion will be expressed as of the date issued and will not cover

subsequent periods and Baker & McKenzie LLP will have no obligation to advise the REIT or the holders of its Units of any subsequent change in the matters stated, represented or assumed, or of any subsequent change in applicable law. Furthermore, both the validity of the opinion of Baker & McKenzie LLP, and the REIT's qualification as a real estate investment trust, will depend on the REIT's satisfaction of certain asset, income, organizational, distribution, Unitholder ownership and other requirements on a continuing basis, the results of which will not be monitored by Baker & McKenzie LLP. Accordingly, given the complex nature of the rules governing real estate investment trusts, the ongoing importance of factual determinations, including the potential tax treatment of investments the REIT makes, and the possibility of future changes in the REIT's circumstances, no assurance can be given that the REIT's actual results of operations for any particular taxable year will satisfy such requirements. Moreover, no assurance can be given that legislation, new regulations, administrative interpretations or court decisions will not change the tax laws with respect to qualification as a real estate investment trust or the U.S. federal income tax consequences of that qualification.

If the REIT fails to qualify as a real estate investment trust in any calendar year, it would be required to pay U.S. federal income tax (and any applicable state and local tax) on its taxable income at regular corporate rates, and dividends paid to the Unitholders would not be deductible by the REIT in computing its taxable income and would be taxable to the Unitholders under the rules generally applicable to corporate distributions.

A loss of real estate investment trust status would reduce the net earnings available for investment or distribution to Unitholders because of the additional tax liability which in turn could have an adverse impact on the value of the Units. Unless its failure to qualify as a real estate investment trust was subject to relief under U.S. federal tax laws, the REIT could not re-elect to qualify as a real estate investment trust until the fifth calendar year following the year in which it failed to qualify.

(c) ***Reliance on Section 7874 of the Code*** — The REIT intends to rely on Section 7874 of the Code to be classified as a domestic corporation for U.S. federal income tax purposes. For U.S. federal income tax purposes, an entity taxed as a corporation is generally considered to be a tax resident in the jurisdiction of its organization or incorporation. Under U.S. federal income tax law, an entity which is organized under the laws of Canada would generally be classified as a non-U.S. entity for U.S. federal income tax purposes. Section 7874 of the Code provides an exception to this general rule under which a non-U.S. incorporated entity may, in certain circumstances, be treated as a U.S. corporation for U.S. federal income tax purposes. These rules are complex and there is limited guidance regarding their application. Baker & McKenzie LLP, U.S. tax counsel to the REIT, will render an opinion in connection with the Offering in respect of the treatment of the REIT as a U.S. corporation under Section 7874, subject to certain representations, assumptions and factual matters.

If the REIT were deemed to be a non-U.S. corporation for U.S. federal income tax purposes, the REIT would fail to qualify as a real estate investment trust, and the intended benefits of the structure would not be achieved. This would result in adverse tax consequences. Additionally, the REIT could not re-elect to qualify as a real estate investment trust.

(d) ***Annual Distribution Requirement*** — To qualify as a real estate investment trust for U.S. federal income tax purposes, the REIT generally must distribute annually to its Unitholders a minimum of 90% of its net taxable income, determined without regard to the dividends-paid deduction and excluding net capital gains. The REIT will be subject to regular corporate income taxes on any undistributed real estate investment trust taxable income each year. Additionally, it will be subject to a 4% non-deductible excise tax on any amount by which distributions paid by the REIT in any calendar year are less than the sum of 85% of its ordinary income, 95% of its capital gain net income and 100% of its undistributed income from previous years. Payments the REIT makes to its Unitholders under Unitholders' rights of redemption will not be taken into account for purposes

of these distribution requirements. Compliance with the real estate investment trust distribution requirements may hinder the REIT's ability to grow, which could adversely affect the value of its Units. Furthermore, the REIT may find it difficult or impossible to meet distribution requirements in certain circumstances. The requirement to distribute most of its taxable income could cause the REIT to: (i) sell assets in adverse market conditions, (ii) borrow on unfavourable terms, (iii) distribute amounts that would otherwise be used to make future acquisitions or capital expenditures, or (iv) declare a taxable dividend in which Unitholders may elect to receive Units or cash (where the aggregate amount of cash to be distributed in such dividend may be subject to limitation), in each case, in order to comply with real estate investment trust requirements. These alternatives could adversely affect the REIT's economic performance.

Further, in order for distributions to satisfy the annual distribution requirements for real estate investments trusts and to provide the REIT and NHI with a real estate investment trust-level tax deduction, the dividends cannot be "preferential dividends." A distribution is not a preferential dividend if the distribution is pro rata among all outstanding shares of stock within a particular class and in accordance with the preferences among different classes of stock as set forth in a real estate investments trust's organizational documents. Because the REIT and NHI will not file annual and periodic reports under the U.S. Securities Act, certain exceptions to these rules may not apply to the REIT and NHI. The REIT and NHI intend to make distributions pro rata by class, as discussed under "Distribution Policy." Nevertheless, if the IRS were to take the position that the REIT or NHI paid a preferential dividend, the REIT or NHI may be deemed to have failed the 90% distribution test, and its status as a REIT could be terminated for the year in which such determination is made if the REIT or NHI were unable to cure such failure.

(e) ***Impact of Lease Characterization*** — To qualify as a real estate investment trust for U.S. federal income tax purposes, the REIT must satisfy two gross income tests, under which specified percentages of the REIT's gross income must be derived from certain sources, including "rents from real property". Rents paid by the TRS Entities to the OP and its subsidiaries pursuant to the leases of the REIT's hotel properties will constitute substantially all of the REIT's gross income. In order for such rent to qualify as "rents from real property" for purposes of the gross income tests, the leases must be respected as true leases for U.S. federal income tax purposes and not be treated as service contracts, joint ventures or some other type of arrangement. If the leases between the TRS Entities and the OP and its subsidiaries are not respected as true leases for U.S. federal income tax purposes, the REIT would fail to qualify as a real estate investment trust for U.S. federal income tax purposes.

(f) ***Impact of Real Estate Investment Trust Compliance on Performance*** — To qualify as a real estate investment trust for U.S. federal income tax purposes, the REIT must continually satisfy tests concerning, among other things, the sources of its income, the nature and diversification of its assets, the amounts that it distributes to the Unitholders and the ownership of the Units. The REIT may be required to make distributions to Unitholders at disadvantageous times or when it does not have funds readily available for distribution, and may be unable to pursue investments that would be otherwise advantageous to it in order to satisfy the source-of-income or asset diversification requirements for qualifying as a real estate investment trust. Thus, compliance with the real estate investment trust requirements may hinder the REIT's ability to operate solely on the basis of maximizing profits.

Additionally, at the close of each calendar quarter, the REIT must also satisfy five tests relating to the nature of its assets. First, at least 75% of the value of the REIT's total assets must be represented by some combination of designated real estate assets, cash, cash items, U.S. Government securities and, under some circumstances, stock or debt instruments purchased with new capital. Second, the value of any one issuer's securities that the REIT owns may not exceed 5% of the value of the REIT's total assets. Third, the REIT may not own more than 10% of any one issuer's outstanding securities, as measured by either value or voting power. The 5% and 10% asset tests do not apply to securities that qualify under the 75% asset test, or to securities of a

taxable REIT subsidiary and qualified REIT subsidiaries, and the 10% of value asset test does not apply to "straight debt" having specified characteristics and to certain other securities. Fourth, the aggregate value of all securities of taxable REIT subsidiaries that the REIT holds may not exceed 20% of the value of the REIT's total assets, with respect to taxable years beginning on and after January 1, 2018. Fifth, not more than 25% of the value of the REIT's assets may consist of certain debt instruments issued by publicly offered real estate investment trusts that are otherwise qualifying assets for purposes of the 75% test described above. If the REIT fails to comply with these requirements at the end of any calendar quarter, it must correct the failure within 30 days after the end of the calendar quarter or qualify for certain statutory relief provisions to avoid losing its real estate investment trust qualification and suffering adverse tax consequences.

(g) ***Ownership Limitations*** — In order for the REIT to qualify as a real estate investment trust for each taxable year under the Code (other than its first taxable year, during which this requirement is not yet applicable), no more than 50% in value of its outstanding Units may be owned, directly or indirectly, by five or fewer individuals during the last half of any taxable year. "Individuals" for this purpose include natural persons, private foundations, some employee benefit plans and trusts, and some charitable trusts. As of the Offering, the REIT does not satisfy this requirement.

The REIT has until the second half of its second taxable year (i.e., 2020) to satisfy this requirement. Management intends a subsequent equity offering prior to such time in order to sufficiently diversify the REIT's ownership in order to satisfy this requirement. However, there is no guarantee that this subsequent transaction will occur, or that it will sufficiently diversify the REIT's ownership in satisfaction of this requirement. Thus, there is no guarantee that this requirement will be timely satisfied.

If this requirement is not timely satisfied, then the REIT would fail to qualify as a real estate investment trust for U.S. federal income tax purposes. This would have detrimental tax consequences to the REIT and the holders of its Units. If the REIT fails to qualify as a real estate investment trust in any calendar year, it would be required to pay U.S. federal income tax (and any applicable state and local tax) on its taxable income at regular corporate rates, and dividends paid to the Unitholders would not be deductible by the REIT in computing its taxable income and would be taxable to the Unitholders under the rules generally applicable to corporate distributions. Further, a loss of real estate investment trust status would reduce the net earnings available for investment or distribution to Unitholders because of the additional tax liability which in turn could have an adverse impact on the value of the Units. In order to assist the REIT in qualifying as a real estate investment trust, ownership of its Units by any person is generally limited to 6.2% in value or number of Units, whichever is more restrictive, of any class or series of Units, except that certain exceptions will be made for certain owners of the REIT as of the Offering. In addition, these ownership limitations could have the effect of discouraging a takeover or other transaction in which holders of the Units might receive a premium for their Units over the then-prevailing market price or which holders might believe to be otherwise in their best interests.

(h) ***Other Taxes*** — Even if the REIT qualifies and maintains its status as a real estate investment trust, it may be subject to U.S. federal and state income taxes. The REIT may not be able to make sufficient distributions to avoid excise taxes applicable to real estate investment trusts. The REIT may also decide to retain income it earns from the sale or other disposition of its real estate assets and pay income tax directly on such income. In that event, the Unitholders would be treated as if they earned that income and paid the tax on it directly. The REIT may also be subject to state and local taxes on its income or property, either directly or at the level of the entities through which it indirectly owns its assets. Any U.S. federal or state taxes the REIT pays will reduce its cash available for distribution to the Unitholders.

In addition, in order to meet the real estate investment trust qualification requirements or to avert the imposition of the prohibited transactions tax discussed below, the REIT may hold some of its assets or conduct activities through subsidiary corporations (the taxable REIT subsidiaries) that

will be subject to corporate level income tax at regular rates. If the REIT lends money to a taxable REIT subsidiary, the taxable REIT subsidiary may be unable to deduct all or a portion of the interest paid to the REIT, which could result in an even higher corporate level tax liability. Furthermore, the Code imposes a 100% tax on certain transactions between a taxable REIT subsidiary and its parent real estate investment trust that are not conducted on an arm's length basis, including services provided by the taxable REIT subsidiary to such real estate investment trust or on behalf of such real estate investment trust. The REIT will structure transactions with any taxable REIT subsidiary on terms that it believes are arm's length to avoid incurring the 100% excise tax described above, but there can be no assurances that it will be able to avoid application of the 100% tax.

(i) ***Taxable REIT Subsidiaries*** — The REIT will hold some of its assets and conduct activities through the TRS Entities, which are taxable REIT subsidiaries. The REIT's taxable REIT subsidiaries will be subject to U.S. federal and state income tax on their taxable income, which consists of the revenues from the hotel properties leased by the TRS Entities, net of operating expenses (including management fees) for such hotel properties and rent paid to the OP and its subsidiaries. Accordingly, although the REIT's ownership of the TRS Entities allows it to participate in the operating income from the REIT's hotel properties in addition to receiving rent, that operating income is fully subject to income tax. The after-tax net income of the TRS Entities is available for distribution to the REIT.

(j) ***Impact of Management Arrangements on Qualification as a Real Estate Investment Trust*** — Rent paid by a lessee that is a "related party tenant" of the REIT will not be qualifying income for purposes of the two gross income tests applicable to real estate investment trusts. An exception is provided, however, for leases of "qualified lodging facilities" to a taxable REIT subsidiary so long as the hotels are managed by an "eligible independent contractor" and certain other requirements are satisfied. The REIT intends to take advantage of this exception. The REIT expects that the OP and its subsidiaries will lease all of the REIT's hotels to the TRS Entities, which are taxable REIT subsidiaries, and that the hotels will at all times be managed by "eligible independent contractors". Among other requirements, in order to qualify as an eligible independent contractor, the hotel manager must not own, directly or through its shareholders, more than 35% of the REIT's outstanding Units, and no person or group of persons can own more than 35% of the REIT's outstanding Units and the shares (or ownership interest) of the hotel management company (taking into account certain ownership attribution rules). The ownership attribution rules that apply for purposes of these 35% thresholds are complex, and monitoring actual and constructive ownership of the REIT's Units by the hotel management companies and their owners may not be practical. Accordingly, there can be no assurance that these ownership levels will not be exceeded.

In addition, for a hotel management company to qualify as an eligible independent contractor, such company or a related person must be actively engaged in the trade or business of operating "qualified lodging facilities" (as defined below) for one or more persons not related to the REIT or its taxable REIT subsidiaries at each time that such company enters into a hotel management contract with a taxable REIT subsidiary. The REIT believes the Manager operates qualified lodging facilities for certain persons who are not related to the REIT or its taxable REIT subsidiaries. However, no assurances can be provided that this will continue to be the case or that any other hotel management companies that the REIT may engage in the future will in fact comply with this requirement in the future. Failure to comply with this requirement would require the REIT to find other managers for future contracts, and, if the REIT hired a management company without knowledge of the failure, it could jeopardize the REIT's status as a real estate investment trust.

As noted above, each hotel with respect to which a TRS Entity pays rent must be a "qualified lodging facility". A "qualified lodging facility" is a hotel, motel, or other establishment more than one-half of the dwelling units in which are used on a transient basis, including customary amenities and facilities, provided that no wagering activities are conducted at or in connection

with such facility by any person who is engaged in the business of accepting wagers and who is legally authorized to engage in such business at or in connection with such facility. The REIT believes that all of the hotels leased to the TRS Entities are qualified lodging facilities. Although the REIT intends to monitor future acquisitions and improvements of hotels, the real estate investment trust provisions of the Code provide only limited guidance for making determinations under the requirements for qualified lodging facilities, and there can be no assurance that these requirements will be satisfied in all cases.

(k) ***Prohibited Transactions Tax*** — The REIT's ability to dispose of property during its first few years of operations is restricted to a substantial extent as a result of its real estate investment trust status. Under applicable provisions of the Code regarding prohibited transactions by real estate investment trusts, the REIT will be subject to a 100% tax on any gain realized on the sale or other disposition of any property (other than foreclosure property) that it owns, directly or through any subsidiary entity, including the OP, but excluding any taxable REIT subsidiary, that is deemed to be inventory or property held primarily for sale to customers in the ordinary course of trade or business. The REIT intends to avoid the 100% prohibited transaction tax by (1) conducting activities that may otherwise be considered prohibited transactions through a taxable REIT subsidiary, (2) conducting operations in such a manner so that no sale or other disposition of an asset will be treated as a prohibited transaction, or (3) structuring certain dispositions of its properties to comply with certain safe harbours available under the Code for properties held at least two years. However, no assurance can be given that any particular property will not be treated as inventory or property held primarily for sale to customers in the ordinary course of a trade or business.

(l) ***Changes in Law*** — The present U.S. federal income tax treatment of real estate investment trusts may be modified, possibly with retroactive effect, by legislative, judicial or administrative action at any time, which could affect the U.S. federal income tax treatment of an investment in the REIT. The U.S. federal income tax rules relating to real estate investment trusts constantly are under review by persons involved in the legislative process, the IRS and the U.S. Treasury Department, which results in frequent statutory changes and revisions to regulations and interpretations. Revisions in U.S. federal tax laws and interpretations thereof could adversely affect the REIT or cause it to change its investments and commitments and affect the tax considerations of an investment in it.

In particular, recently enacted legislation known as the Tax Cuts and Jobs Act makes wholesale changes to the Code. The effect of the many changes made in this legislation is highly uncertain, both in terms of direct effect on the taxation of an investment in Units and their indirect effect on the REIT's operations. As of the date of the Offering, changes made by the Tax Cuts and Jobs Act that could affect the REIT and Unitholders include, but are not limited to:

- temporarily reducing individual U.S. federal income tax rates on ordinary income (the highest individual U.S. federal income tax rate has been reduced from 39.6% to 37% for taxable years beginning after December 31, 2017 and before January 1, 2026);

- permanently eliminating the progressive corporate tax rate structure, which previously imposed a maximum corporate tax rate of 35%, and replacing it with a flat corporate tax rate of 21%;

- permitting a deduction for certain pass-through business income, including dividends received by certain Unitholders from the REIT that are not designated by the REIT as capital gain dividends or qualified dividend income, which will allow individuals, trusts, and estates to deduct up to 20% of such amounts for taxable years beginning after December 31, 2017 and before January 1, 2026;

- reducing the highest rate of withholding with respect to the REIT's distributions to non-U.S. Holders that are treated as attributable to gains from the sale or exchange of U.S. real property interests from 35% to 21%;

- limiting the REIT's deduction for net operating losses arising in taxable years beginning after December 31, 2017 to 80% of the REIT's taxable income (prior to the application of the dividends paid deduction);

- generally limiting the deduction for net business interest expense in excess of 30% of a business's "adjusted taxable income," except for taxpayers that engage in certain real estate businesses (including most equity real estate investment trusts) and elect out of this rule (provided that such electing taxpayers must use an alternative depreciation system with longer depreciation periods); and

- eliminating the corporate alternative minimum tax.

As of the date of the Offering, the principal direct tax effect of the legislation on U.S. Holders appears to be the allowance of a deduction of an amount equal to 20% of certain dividends from the REIT (subject to certain exceptions) that qualify under Section 199A of the Code. The complicated statutes, regulations, rulings and other administrative positions relating to the qualification of REITs and the taxation of them and their stockholders are subject to revision at any time.

The IRS has issued various Treasury Regulations, guidance, and rulings relating to the Tax Cuts and Jobs Act. Further, technical corrections legislation with respect to the Tax Cuts and Jobs Act has been proposed. The proposed legislation's final form and effect cannot be predicted and may be adverse. Many of the amendments will require further guidance through the issuance of Treasury Regulations in order to assess their effect. There may be substantial delay before such Treasury Regulations are promulgated, increasing the uncertainty as to the ultimate effect of the statutory amendments on the REIT.

There may also be future changes in U.S. federal tax laws, regulations, rules, and judicial and administrative interpretations applicable to the REIT and its business, the effect of which cannot be predicted. Prospective investors are urged to consult with their tax advisors regarding the possible effect of the Tax Cuts and Jobs Act on the REIT, its business, and its stockholders.

(m) ***FIRPTA*** — A non-U.S. person disposing of a U.S. real property interest, including shares of a U.S. corporation whose assets consist principally of U.S. real property interests, is generally subject to tax under FIRPTA on the gain recognized on the disposition and required to file a U.S. federal income tax return reporting this disposition. FIRPTA does not apply, however, to the disposition of stock in a real estate investment trust if the shares are considered "regularly traded on an established securities market" and the non-U.S. person does not hold, actually or constructively, more than 10% of the outstanding shares of the REIT at any time during the five-year period ending on the date of disposition or such shorter period that the shares were held.

For purposes of this exception, the TSXV is considered an "established securities market" and, as long as 100 or fewer persons do not own 50% or more of the Units, the Units should be treated as regularly traded on the TSXV if the TSXV Publicly Traded Exception is met. However, the REIT is closely held as of the Offering. As a result, these requirements will not be satisfied as of the Offering with respect to the REIT. Although management intends to further diversify the REIT's ownership such that these requirements will be satisfied in the future, there can be no assurance that these requirements will be satisfied with respect to the REIT.

The Units would be considered "regularly traded" on an established securities market for a calendar quarter if the established securities market is located in the United States and the Units are regularly quoted by more than one broker or dealer making a market in the Units through an interdealer quotation system in the United States. It is expected that the Units will be traded through an interdealer quotation system in the United States in a manner that would be considered "regularly traded on an established securities market" for purposes of this exception.

Investors are cautioned that there can be no assurances that there will be at least two brokers or dealers regularly quoting the Units on the OTC Pink or OTCQX in any particular calendar quarter. In addition, neither the Code, the applicable Treasury regulations, administrative pronouncements nor judicial decisions provide guidance as to the frequency or duration with which the Units must be quoted during a calendar quarter to be "regularly quoted". U.S. counsel to the REIT believes that it is reasonable to interpret this exception to the effect that, so long as the brokers or dealers quote the Units during a calendar quarter, any gain from a sale at any time during the quarter is not expected to be subject to U.S. federal income tax for Non-U.S. Holders that own 10% or less of all or a portion of the outstanding Units during the applicable testing period. Due to the lack of guidance from the IRS, however, investors are cautioned that there can be no assurance the IRS would concur in this interpretation.

However, if neither of these exceptions is satisfied, the sale of Units by a non-U.S. person would generally be subject to U.S. federal income tax at normal graduated rates with respect to gain recognized and the REIT would be required to withhold at a rate of 15% on distributions in excess of the REIT's current and accumulated earnings and profits. In addition, a purchaser of Units would be required to withhold tax at the rate of 15% of the amount realized from the sale and to report and to remit such tax to the IRS. Furthermore, under FIRPTA, if any non-U.S. person holds, actually or constructively, more than 10% of the outstanding Units, the REIT will be required to withhold 21% (or less to the extent provided in applicable Treasury Regulations) of any distribution to such Unitholder that could be designated by the REIT as a capital gain dividend. Any such withheld amount is creditable against such Unitholder's FIRPTA tax liability.

In order for the REIT to comply with its withholding obligations under FIRPTA, the Units are subject to notice requirements and transfer restrictions. Non-U.S. persons holding Units are required to provide the REIT with such information as the REIT may request. Furthermore, any non-U.S. person that would be treated as having acquired sufficient Units to be treated as owning more than 5% of the Units is required to notify the REIT by the close of the business day prior to the date of the transfer that would cause the non-U.S. person to own more than 5% of the Units. For the purpose of determining whether a non-U.S. person has acquired more than 5% of the Units, rules of constructive ownership apply which can attribute ownership of Units (i) among family members, (ii) to non-U.S. persons from entities that own Units, to the extent that such non-U.S. persons own interests in such entities, and (iii) to entities from non-U.S. persons that own interests in such entities. Under these attribution rules, Units of related entities (including related investment funds) may be aggregated to the extent of overlapping ownership. If any non-U.S. person that otherwise would be treated as having acquired sufficient Units to be treated as owning more than 5% of the Units fails to comply with the notice provisions described above, the excess Units (i.e., the excess of the number of Units they are treated as owning over an amount equal to 5% of the outstanding Units) will be sold, with such non-U.S. persons receiving the lesser of (i) its original purchase price for the excess Units, and (ii) the sale price of the excess Units (net of selling expenses). Any such non-U.S. person would also not have any economic entitlement to any distribution by the REIT on an excess Unit, and, if any such distributions are received by the non-U.S. person and are not repaid, the REIT is permitted to withhold from subsequent payments to the non-U.S. person up to the amount of such forfeited distributions. Non-U.S. persons holding Units are strongly advised to monitor their actual and constructive ownership of Units. See "Declaration of Trust — Restrictions on Ownership and Transfer — FIRPTA" for a more detailed discussion of these rules. Notwithstanding that a non-U.S. person may comply with the notice requirements and transfer restrictions described above, the REIT is entitled to withhold on

distributions as otherwise required by law, and, to the extent that the REIT has not sufficiently withheld on prior distributions, is entitled to withhold on subsequent distributions.

Risk Factors Related to the REIT's Relationship with the Advisor

Reliance on the Advisor and Manager

The REIT will rely on the Advisor's expertise in identifying acquisition opportunities, transaction execution, administrative services and asset management and hotel operations management capabilities. The REIT will also rely on the Advisor with respect to certain advisory services, including the services of the Chief Executive Officer, Chief Financial Officer and Chief Investment Officer. Consequently, the REIT's ability to achieve its investment objectives depends in large part on the Advisor and its ability to advise the REIT. This means that the REIT's investments are dependent upon the Advisor's business contacts within the U.S. lodging sector, its ability to successfully hire, train, supervise and manage personnel that have strong knowledge of real estate and the hotel industry in particular and its ability to operate its business in a manner that supports the REIT. If the REIT were to lose the services provided by the Advisor or its key personnel or if the Advisor or Manager fails to perform its obligations under its agreements with the REIT, the REIT's investments and growth prospects may decline. The REIT may be unable to duplicate the quality and depth of management available to it by becoming a self-managed company or by hiring another asset manager or hotel manager. Additionally, the Advisory Agreement and Hotel Management Agreement provide that, subject to certain exceptions, the REIT will not retain any other person to perform any asset management, hotel management or administrative services on its behalf. While the Trustees have oversight responsibility with respect to the services provided by the Advisor pursuant to the Advisory Agreement and the Manager pursuant to the Hotel Management Agreement, the services provided by the Advisor and the Manager will not be performed by employees of the REIT or its subsidiaries, but by the Advisor and Manager directly, and through entities to which it may subcontract its duties. See "Management and Franchise Agreements". As a result, the Advisor, directly and indirectly, will have the ability to influence many matters affecting the REIT and the performance of its properties now and in the foreseeable future. Furthermore, at any time, on 180 days' prior written notice following the date on which the Advisor ceases to be the Advisor of the REIT, the Advisor may terminate the license agreement with the REIT pursuant to which the REIT has the right to the use of the "NexPoint" name and trademark and related marks and designs. If the Advisor terminated the license agreement, the REIT would be required to change its name and this may adversely impact the REIT.

Risks Associated with External Advisory Agreement

The Advisory Agreement will have an initial term of two years, and upon completion of the initial term will continue in full force and effect, subject to early termination, so long as such continuance is approved at least annually by (i) the board of managers of NHI, and (ii) either (a) the Board or (b) a vote of the Unitholders. In the event that the REIT determines not to renew the Advisory Agreement, the REIT may be required to provide certain advance written notice and pay certain fees. Pursuant to the terms of the Advisory Agreement, there could be circumstances whereby the fees payable to the Advisor to carry out its duties thereunder are in excess of those expenses that would be incurred by the REIT on an annual basis if management of the REIT was performed by individuals employed directly by the REIT rather than by the Advisor. Furthermore, there is a risk that, because of the term and termination provisions of the Advisory Agreement, the termination of the Advisory Agreement may be uneconomical for the REIT and accordingly not in the best interest of the REIT. Therefore, there can be no assurance that the REIT will continue to have the benefit of the Advisor's services, including providing the REIT's executive officers, or that the Advisor will continue to be the REIT's advisor. If the Advisor should cease for whatever reason to be the advisor of the REIT, the REIT may be unable to engage an advisor on acceptable terms or the cost of obtaining substitute services, whether through an external advisor or by internalizing its management, may be greater than the fees the REIT pays the Advisor, and this may adversely impact the REIT's ability to meet its objectives and execute its strategy which could materially and adversely affect the REIT's cash flow, operating results and financial condition.

Past Performance not Predictor of Future Results

The past performance of the Advisor and the performance of the REIT are dependent on future events and are, therefore, inherently uncertain. The track records of the Advisor cannot be relied upon to predict future events due to a variety of factors, including, without limitation, varying business strategies, different local and national economic circumstances, different supply and demand characteristics, varying degrees of competition and varying circumstances pertaining to the real estate markets.

Risk Factors Related to the Offering and Structure of the REIT

Absence of a Prior Public Market

The TSXV has conditionally approved the listing of the Units. Listing is subject to the REIT fulfilling all of the requirements of the TSXV, including distribution of the Units to a minimum number of public securityholders.

There is currently no public market for the Units. The REIT cannot predict at what price the Units will trade and there can be no assurance that an active trading market will develop after the Closing.

A publicly traded real estate investment trust will not necessarily trade at values determined solely by reference to the underlying value of its real estate assets. Accordingly, the Units may trade at a premium or a discount to values implied by the Appraisal.

Potential Volatility of Unit Price

One of the factors that may influence the market price of the Units is the annual yield on the Units. An increase in market interest rates may lead purchasers of Units to demand a higher annual yield, which accordingly could adversely affect the market price of the Units. In addition, the market price of the Units may be affected by changes in general market conditions, fluctuations in the markets for equity securities and numerous other factors beyond the control of the REIT.

Restrictions on Redemption

It is anticipated that the redemption right attached to the Units will not be the primary mechanism by which holders of Units liquidate their investment. The entitlement of Unitholders to receive cash upon the redemption of their Units is subject to the following limitations: (i) the total amount payable by the REIT in respect of such Units and all other Units tendered for redemption in the same calendar month must not exceed $50,000 (provided that such limitation may be waived at the discretion of the Trustees); (ii) at the time such Units are tendered for redemption, the outstanding Units must be listed for trading on the TSXV or traded or quoted on another stock exchange or market which the Trustees consider, in their sole discretion, provides fair market value prices for the Units; (iii) the normal trading of Units is not suspended or halted on any stock exchange on which the Units are listed (or, if not listed on a stock exchange, on any market on which the Units are quoted for trading) on the Redemption Date or for more than five trading days during the 10-day trading period commencing immediately before the Redemption Date; and (iv) the redemption of the Units must not result in the delisting of the Units on the principal stock exchange on which the Units are listed.

Redemption Notes which may be distributed to holders of Units in connection with a redemption will not be listed on any exchange, no market is expected to develop in Redemption Notes and such securities may be subject to an indefinite "hold period" or other resale restrictions under applicable securities laws. Redemption Notes so distributed may not be qualified investments for Exempt Plans, depending on the circumstances at the time.

Appraisals

The Advisor retained the Appraiser to provide independent estimates of the fair market value range in respect of the properties comprising the Initial Portfolio (see "Assessment and Valuation of the Initial Portfolio —

Independent Appraisal"). Caution should be exercised in the evaluation and use of appraisal results, which are estimates of market value at a specific point in time. In general, appraisals such as the Appraisal represent only the analysis and opinion of qualified experts as of the effective date of such appraisals and are not guarantees of present or future value. There is no assurance that the assumptions employed in determining the appraised values of the properties comprising the Initial Portfolio are correct as of the date of the prospectus or that such valuations actually reflect an amount that would be realized upon a current or future sale of any of such properties or that any projections included in such appraisals will be attainable. As prices in the real estate market fluctuate over time in response to numerous factors, the fair market value of the Initial Portfolio shown on the Appraisal may be an unreliable indication of its current market value.

A publicly traded real estate investment trust will not necessarily trade at values determined solely by reference to the underlying value of its real estate assets. Accordingly, the Units may trade at a premium or a discount to values implied by the Appraisal.

Cash Distributions are Not Guaranteed

There can be no assurance regarding the amount of income to be generated by the REIT's properties. The ability of the REIT to make cash distributions, and the actual amount distributed, will be entirely dependent on the operations and assets of the REIT, and will be subject to various factors, including financial performance, obligations under applicable credit facilities, fluctuations in working capital, the sustainability of income derived from the REIT's properties and any capital expenditure requirements. Unlike fixed-income securities, there is no obligation of the REIT to distribute to Unitholders any fixed amount, and reductions in, or suspensions of, cash distributions may occur that would reduce the yield of the Units. The market value of the Units will deteriorate if the REIT is unable to meet its distribution targets in the future, and that deterioration may be significant. In addition, the composition of cash distributions for tax purposes may change over time and may affect the after-tax return for investors. See "Certain Canadian Federal Income Tax Considerations".

Core FFO may exceed actual cash available to the REIT from time to time because of items such as principal repayments and capital expenditures in excess of stipulated reserves identified by the REIT in its calculation of Core FFO and redemptions of Units, if any. The REIT may be required to use part of its debt capacity or to reduce distributions in order to accommodate such items. Credit and mortgage facility terms may prohibit payments or distributions from the REIT in default circumstances.

Non-IFRS Measures

The pro forma financial information set out in this prospectus includes certain measures which do not have standardized meanings prescribed by IFRS and are therefore unlikely to be comparable to similar measures presented by other issuers. There is no directly comparable measure calculated in accordance with IFRS, as such measures are based on investment which is external to the REIT.

Limited Control of Unitholders

Unitholders will have limited control over changes in the REIT's policies and operations, which increases the uncertainty and risks of an investment in the REIT. The Board will determine major policies, including policies regarding financing, growth, debt capitalization, REIT qualification and distributions. The Board may amend or revise these and other policies without a vote of Unitholders. Under the REIT's organizational documents, Unitholders have a right to vote only on limited matters. The Trustees' broad discretion in setting policies and Unitholders' inability to exert control over those policies increases the uncertainty and risks of an investment in the REIT. In addition, the Declaration of Trust will require that the Chief Executive Officer of the REIT be nominated to serve as a Trustee.

Dilution

The number of Units the REIT is authorized to issue is unlimited. Subject to the rules of any applicable stock exchange on which the Units are listed and applicable securities laws, the REIT may, in its sole discretion, issue additional Units from time to time (including pursuant to any employee incentive compensation plan that may be introduced in the future), and the interests of the holders of Units may be diluted thereby.

Unitholder Liability

The Declaration of Trust provides that no Unitholder will be subject to any liability whatsoever to any person in connection with the holding of a Unit. In addition, legislation has been enacted in the Province of Ontario and certain other provinces and territories that is intended to provide Unitholders in those provinces and territories with limited liability. However, there remains a risk, which is considered by the REIT to be remote in the circumstances, that a holder of Units could be held personally liable for the obligations of the REIT to the extent that claims are not satisfied out of the assets of the REIT. It is intended that the affairs of the REIT will be conducted to seek to minimize such risk wherever possible.

Nature of Investment

The Units represent a fractional interest in the REIT and do not represent a direct investment in the REIT's assets and should not be viewed by investors as direct securities of the REIT's assets. A holder of a Unit of the REIT does not hold a share of a body corporate. As holders of Units of the REIT, the Unitholders will not have statutory rights normally associated with ownership of shares of a corporation including, for example, the right to bring "oppression" or "derivative" actions. The rights of Unitholders are based primarily on the Declaration of Trust. There is no statute governing the affairs of the REIT equivalent to the *Business Corporations Act* (Ontario) or the CBCA which sets out the rights and entitlements of shareholders of corporations in various circumstances. As well, the REIT may not be a recognized entity under certain existing insolvency legislation such as the *Bankruptcy and Insolvency Act* (Canada) and the *Companies Creditors' Arrangement Act* (Canada), and thus the treatment of Unitholders upon an insolvency is uncertain.

Structural Subordination of Units

In the event of bankruptcy, liquidation or reorganization of the REIT's subsidiaries, holders of their indebtedness and their trade creditors will generally be entitled to payment of their claims from the assets of those subsidiaries before any assets are made available for distribution to the REIT or Unitholders. The Units are effectively subordinated to the debt and other obligations of the REIT's subsidiaries. The REIT's subsidiaries generate all of the REIT's cash available for distribution and hold substantially all of the REIT's assets.

Future Offerings of Debt or Equity Securities Ranking Senior to Units

If the REIT decides to issue debt or equity securities in the future ranking senior to the Units or otherwise incur additional indebtedness, it is possible that these securities or indebtedness will be governed by an indenture or other instrument containing covenants restricting the REIT's operating flexibility and limiting the REIT's ability to make distributions to Unitholders. Additionally, any convertible or exchangeable securities that the REIT issues in the future may have rights, preferences and privileges, including with respect to distributions, more favorable than those of Units and may result in dilution to Unitholders. Because the REIT's decision to issue debt or equity securities in any future offering or otherwise incur indebtedness will depend on market conditions and other factors beyond the REIT's control, the REIT cannot predict or estimate the amount, timing or nature of the REIT's future offerings or financings, any of which could reduce the market price of the Units and dilute the value of the Units.

Enforceability of Judgments

The Promoter is an entity organized under the laws of a foreign jurisdiction and resides outside Canada. All of the managers and officers of the Promoter and certain of the experts named elsewhere in this prospectus are

residents of countries other than Canada. Additionally, all of the Promoter's assets and the assets of these persons are located outside of Canada. As a result, although the Promoter, non-resident Trustees and non-resident persons executing a prospectus certificate will appoint GODA Incorporators, Inc. as its agent for service of process in Ontario, it may be difficult for Unitholders to initiate a lawsuit within Canada against these non-Canadian residents. In addition, it may not be possible for Unitholders to collect from the Promoter or other non-Canadian residents judgments obtained in courts in Canada predicated on the civil liability provisions of securities legislation of certain of the provinces and territories of Canada. It may also be difficult for Unitholders to succeed in a lawsuit in the United States, based solely on violations of Canadian securities laws.

Enforceability of Judgments Against Foreign Subsidiaries

NHI is organized under the laws of Delaware and the OP is organized under the laws of Delaware. All of the assets of NHI and the OP are located outside of Canada and the directors and officers, as well as certain of the experts retained by the REIT or its affiliates, are residents of countries other than Canada. As a result, it may be difficult or impossible for investors to effect service within Canada upon such persons, or to realize against them in Canada upon judgments of courts of Canada predicated upon the civil liability provisions of applicable Canadian provincial securities laws. There is some doubt as to the enforceability in the United States by a court in original actions, or in actions to enforce judgments of Canadian courts, of civil liabilities predicated upon such applicable Canadian provincial securities laws.

Financial Reporting and Other Public REIT Requirements

The REIT will become subject to reporting and other obligations under applicable Canadian securities laws and rules of any stock exchange on which the Units are listed, including National Instrument 52-109 — *Certification of Disclosure in Issuers' Annual and Interim Filings*. These reporting and other obligations will place significant demands on the REIT's management, administrative, operational and accounting resources. In order to meet such requirements, the REIT will need to establish systems, implement financial and management controls, reporting systems and procedures and hire accounting and finance staff. If the REIT is unable to accomplish any such necessary objectives in a timely and effective fashion, its ability to comply with its financial reporting requirements and other rules that apply to reporting issuers could be impaired. Moreover, any failure to maintain effective internal controls could cause the REIT to fail to meet its reporting obligations or result in material misstatements in its financial statements. If the REIT cannot provide reliable financial reports or prevent fraud, its reputation and operating results could be materially harmed which could also cause investors to lose confidence in the REIT's reported financial information, which could result in a lower trading price of Units.

Management does not expect that the REIT's disclosure controls and procedures and internal controls over financial reporting will prevent all error and all fraud. A control system, no matter how well designed and implemented, can provide only reasonable, not absolute, assurance that the control system's objectives will be met. Further, the design of a control system must reflect the fact that there are resource constraints, and the benefits of controls must be considered relative to their costs. Due to the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues are detected. The inherent limitations include the realities that judgments in decision making can be faulty, and that breakdowns can occur because of simple errors or mistakes. Controls can also be circumvented by individual acts of some persons, by collusion of two or more people or by management override of the controls. Due to the inherent limitations in a cost effective control system, misstatements due to error or fraud may occur and not be detected.

MATERIAL CONTRACTS

The following are the only material agreements of the REIT or its subsidiaries that will be in effect on closing of the Offering, other than contracts entered into in the ordinary course of business:

(a) the Declaration of Trust described under "Declaration of Trust";

(b) Advisory Agreement;

(c) LLC Agreement; and

(d) Investor Rights Agreement.

Copies of the foregoing documents will be available on SEDAR at www.sedar.com.

INTERESTS OF MANAGEMENT AND OTHERS IN MATERIAL TRANSACTIONS

Other than as disclosed in this prospectus (including, without limitation, those transactions with the Advisor, the Manager, NMCT Shareholder, HCREP and NREO described under "The Contribution of the Initial Portfolio", "Management and Franchise Agreements" and "Retained Interest") and in the notes to the unaudited pro forma consolidated financial statements of the REIT and audited combined financial statements of the REIT, there are no material interests, direct or indirect, of the Trustees or officers of the REIT, any Unitholder that beneficially owns more than 10% of the Units of the REIT or any associate or affiliate of any of the foregoing persons in any transaction within the last three years or any proposed transaction that has materially affected or would materially affect the REIT or any of its subsidiaries.

PROMOTERS

NexPoint Real Estate Advisors VI, L.P. and James Dondero have taken the initiative in founding and organizing the REIT and may therefore be considered promoters of the REIT for the purposes of applicable securities legislation.

PRINCIPAL UNITHOLDERS

Following Closing, the NexPoint Holders will own, in the aggregate, as of record and/or beneficially, 10,761,064 Units and 202,818 Class B OP Units, together representing an aggregate approximate 38.2% ownership interest in the REIT (determined as if all Class B OP Units are redeemed for Units). See "Retained Interest".

The following table sets out the Unitholders who, immediately following the Closing, will, to the REIT's knowledge, beneficially own, control or direct, directly or indirectly, voting securities carrying 10% or more of the voting rights attached to any class of the REIT's voting securities.

	Immediately Following the Closing		
Name of Unitholder	**Number of Units Owned[(1)]**	**Number of Class B Units Owned**	**Percentage of Outstanding Units (determined as if all Class B Units are redeemed for Units)[(2)]**
James Dondero[(3)]	9,788,036	0	34.1%
NHT Holdco, LLC[(4)]	1,735,779	0	6.0%

Notes:

(1) The number of Units beneficially owned includes any Units over which the person has sole or shared voting power or investment power. No person has any right to acquire additional Units through the exercise of any stock option or other right. Unless otherwise indicated, each person has sole investment and voting power (or shares such power with his or her spouse) over the Units set forth in the table.

(2) The percentages shown are based on 15,130,777 Units and 13,576,170 Class B OP Units outstanding as of Closing.

(3) Includes 6,894,694 Units owned by The Dugaboy Investment Trust, 1,735,779 Units owned by NHT Holco, LLC, 1,068,519 Units owned by Governance RE Ltd. and 89,043 Units owned by NexPoint Real Estate Advisors, L.P.; each of which are directly or indirectly controlled by James Dondero.

(4) Highland Capital Management, L.P. is the sole principal securityholder of NHT Holdco, an entity which is ultimately controlled by James Dondero.

The NexPoint Holders will be party to the Investor Rights Agreement which, among other things, will give the NexPoint Holders certain nomination rights, piggy-back registration rights, demand registration rights, consent rights and tag-along rights. See “Investor Rights Agreement”.

To the knowledge of the REIT, 10,761,064 Units will be held by the NexPoint Holders and will be subject to the Investor Rights Agreement as of Closing.

PRIOR SALES

On December 12, 2018, the REIT was formed and one Unit was issued for $15.00 in cash. On January 8, 2019, the initial unitholder of the REIT sold the sole outstanding Unit to NHT Holdco, LLC for $15.00 in cash. This Unit will be repurchased by the REIT on Closing.

LEGAL PROCEEDINGS

None of the REIT or its subsidiaries are involved in any outstanding, threatened or pending litigation that would have a material adverse effect on the REIT.

EXPERTS

The matters referred to under “Eligibility for Investment” and “Certain Canadian Federal Income Tax Considerations”, as well as certain other legal matters relating thereto, will be passed upon on behalf of the REIT by Goodmans LLP.

Certain U.S. corporate law matters will be passed upon on behalf of the REIT by Winston & Strawn LLP.

The matters referred to under “Certain U.S. Federal Income Tax Considerations”, as well as certain other legal matters relating thereto, will be passed upon on behalf of the REIT by Baker & McKenzie LLP.

Certain information relating to the Appraisal has been based upon a report by JLL Valuation & Advisory Services, LLC.

As of the date of this prospectus, the partners and associates of Goodmans LLP, Winston & Strawn LLP and Baker & McKenzie LLP and the designated professionals of the Appraiser, beneficially owned, directly or indirectly, less than 1% of the outstanding securities of the REIT.

AUDITORS, TRANSFER AGENT AND REGISTRAR

The REIT’s auditors, KPMG, LLP, are located in Toronto, Ontario and are independent in accordance with the Rules of Professional Conduct of the Chartered Professional Accountants of Ontario.

The historical auditors of the HGI Property, the DT Portfolio and the HWS Portfolio are Aprio LLP, located in Atlanta, Georgia.

The historical auditors of the St. Pete Property are Frazier & Deter LLP, located in Atlanta, Georgia;

The historical auditors of the Nashville Property are Gumbiner Savett, Inc., located in Los Angeles, California.

The transfer agent and registrar for the Units is AST Trust Company (Canada) at its principal office in Toronto, Ontario.

ENFORCEMENT OF JUDGMENTS AGAINST FOREIGN PERSONS

The Promoter is an entity organized under the laws of a foreign jurisdiction and resides outside Canada. All of the officers of the REIT and certain experts named elsewhere in this prospectus, together with certain Trustees, are residents of countries other than Canada. Additionally, all of the REIT's assets and the assets of these persons are located outside of Canada. As a result, although each of the Promoter, non-resident Trustees and non-resident persons executing a prospectus certificate have appointed GODA Incorporators, Inc. as agent for service of process in Ontario, it may be difficult for Unitholders to initiate a lawsuit within Canada against these non-Canadian residents. In addition, it may not be possible for Unitholders to enforce against the Promoter or other non-Canadian residents judgments obtained in courts in Canada predicated on the civil liability provisions of securities legislation of certain of the provinces and territories of Canada. It may also be difficult for Unitholders to succeed in a lawsuit in the U.S. based solely on violations of Canadian securities laws.

EXEMPTIONS FROM CERTAIN PROVISIONS OF NATIONAL INSTRUMENT 41-101

Pursuant to an application made to the Ontario Securities Commission, as principal regulator, the REIT has applied for an exemption as contemplated by Part 19 of NI 41-101, from:

- the requirements in Item 32.2(1) of Form 41-101F1—*Information required in a Prospectus* ("**Form 41-101F1**") in respect of HCBH 11611 Ferguson, LLC, the former owner of the HWS Portfolio, so that the REIT does not need to include financial statements for the HWS Portfolio for certain periods set forth below;

- the requirements in Item 4.2 of NI 41-101 and Item 3.10 of National Instrument 52-107 – *Acceptable Accounting Principles and Auditing Standards* ("**NI 52-107**") with respect to the auditors' report on financial statements relating to Pallas, LLC; and

- the requirements in Item 5.11 of NI 41-101 and section 58(1) of the *Securities Act* (Ontario) with respect to James Dondero executing a Certificate of Promoter for this prospectus.

The REIT has been advised by the Ontario Securities Commission that the issuance of a receipt by or on behalf of the applicable Canadian Securities Administrators by the Ontario Securities Commission for this prospectus will evidence the granting of the foregoing exemptions and/or consent.

Financial Statement Relief

The HWS Portfolio will form part of the REIT's primary business pursuant to Section 32.1(1) and Section 32.4(1) of Form 41-101F1, requiring the REIT to include in this prospectus audited financial statements for the two most recently completed financial years prior to the date of this prospectus, together with unaudited interim financial statements for the relevant interim periods. Pursuant to the exemption sought, the REIT will not include certain financial statements for the HWS Portfolio, as more specifically set out in the table below:

Exempt Property	Period For Which Financial Statements Are Not Included In This Prospectus
Homewood Suites Addison	January 1, 2016 to May 3, 2017
Homewood Suites Las Colinas	January 1, 2016 to May 3, 2017
Homewood Suites Plano	January 1, 2016 to May 3, 2017

In the application for exemptive relief, the REIT made, among others, the following submissions:

- For the applicable periods set forth above (the "Exempt Periods"), the HWS Portfolio was owned and managed by an arm's length party. The REIT does not have access to and is not entitled to obtain access to sufficient financial information in respect of the HWS Portfolio during the Exempt Periods.

- Audited historical financial statements of the HWS Portfolio were not relevant to the REIT's decision to acquire the HWS Portfolio. Given that such audited financial statements were not considered relevant to the investment decision made to acquire the HWS Portfolio, the REIT does not believe that such financial statements are material to the investment decision to be made by a potential investor in the Offering, particularly when considered in light of the other financial information the REIT is providing in this prospectus.

- In determining that the missing financial information for the HWS Portfolio is not material to the investment decision to be made by a potential investor in the Offering, the REIT considered the period of time for which such financial information is not included in this prospectus, as well as the fact that the percentage of missing historical financial information weighted by (a) income, (b) NOI, (c) revenue, and (d) current asset value, represent an immaterial portion of the Initial Portfolio.

- Based on the foregoing, the REIT does not believe that the financial statements for the HWS Portfolio for the Exempt Periods are necessary or required for this prospectus to contain full, true and plain disclosure of all material facts with respect to the securities being offered.

Relief From Unmodified/Unqualified Auditors' Report

Item 4.2 of NI 41-101 requires all financial statements included in this prospectus (including those of Pallas, LLC) to be audited in accordance with NI 52-107. Item 3.10(1) of NI 52-107 permits financial statements included in a long form prospectus to be audited in accordance with International Standards on Auditing or U.S. PCAOB GAAS, provided that they are accompanied by an auditors' report that expresses and unmodified/unqualified opinion.

Consistent with the guidance in Section 3.4 of the companion policy to NI 52-107, the REIT made an application to the Ontario Securities Commission, as principal regulator, for exemptive relief from the requirement that the auditors' report relating to the financial statements of Pallas, LLC express an unmodified opinion.

In the application for exemptive relief, the REIT made, among others, the following submissions:

- The modification of the auditors' report relating to the financial statements of Pallas, LLC is not due to (i) a departure from accounting principles permitted by NI 52-107; or (ii) a limitation in scope of the auditors' examination that (a) results in the auditors being unable to form an opinion on the financial statements as a whole, (b) is imposed or could reasonably be eliminated by management, or (c) could reasonably be expected to be recurring.

- The REIT has obtained an independent appraisal of the St. Pete Property (the "**Marriott Appraisal**"), which provides disclosure on the current market value of the St. Pete Property.

- The financial statements of Pallas, LLC relating to the St. Pete Property, together with additional disclosure about the results of the Marriott Appraisal included in this prospectus provide comprehensive disclosure.

- The absence of an unmodified/unqualified opinion in respect of Pallas, LLC is not material to prospective investors.

Promoter Certificate Relief

Staff at the Ontario Securities Commission has notified the REIT that it is currently of the view that James Dondero is a promoter of the REIT within the meaning of applicable securities laws. The REIT made an application

to the Ontario Securities Commission, as principal regulator, for exemptive relief from the requirement that James Dondero sign a Certificate of Promoter for this prospectus on the basis that James Dondero is a Trustee and officer of the REIT and will sign the Certificate of the REIT for this prospectus in such capacities. Pursuant to section 58(5) of the *Securities Act* (Ontario), the Director has consented to James Dondero not signing a Certificate of Promoter for this prospectus in accordance with the requirement under section 58(1) of the *Securities Act* (Ontario) and section 5.11 of NI 41-101.

PURCHASERS' STATUTORY RIGHTS

Securities legislation in certain of the provinces and territories of Canada provides purchasers with the right to withdraw from an agreement to purchase securities. This right may be exercised within two business days after receipt or deemed receipt of a prospectus and any amendment. In several of the provinces and territories, the securities legislation further provides a purchaser with remedies for rescission or, in some jurisdictions, revisions of the price or damages if the prospectus and any amendment contains a misrepresentation or is not delivered to the purchaser, provided that the remedies for rescission, revisions of the price or damages are exercised by the purchaser within the time limit prescribed by the securities legislation of the purchaser's province or territory. The purchaser should refer to any applicable provisions of the securities legislation of the purchaser's province or territory for the particulars of these rights or consult with a legal advisor.

GLOSSARY

"**10% of value asset test**" has the meaning ascribed thereto under "Certain U.S. Federal Income Tax Considerations – Taxation of Real Estate Investment Trusts in General – Asset Tests".

"**Acquired Issuer**" has the meaning ascribed thereto under "Investment Guidelines and Operating Policies – Investment Guidelines".

"**ADA**" means the Americans with *Disabilities Act of 1990*, as amended.

"**Advance Notice Provision**" has the meaning ascribed thereto under "Declaration of Trust – Advance Notice Provision".

"**Advisor**" means NexPoint Real Estate Advisors VI, L.P.

"**Advisory Agreement**" means the asset management agreement entered into between the REIT, NHI and the Advisor.

"**Advisory Fee**" has the meaning ascribed thereto under "Management and Franchise Agreements – Advisory Agreement".

"**Agent**" means Raymond James Ltd.

"**Agency Agreement**" has the meaning ascribed thereto under "Plan of Distribution".

"**allowable capital loss**" means one-half of any capital loss.

"**Appraisal**" has the meaning ascribed thereto under "Assessment and Valuation of the Initial Portfolio – Independent Appraisal".

"**Appraiser**" means JLL Valuation & Advisory Services, LLC.

"**Average Daily Rate**" or "**ADR**" has the meaning ascribed thereto under "Select Industry Terms".

"**Board**" means the board of trustees of the REIT.

"**CAGR**" means compound annual growth rate.

"**CBCA**" means the *Canada Business Corporations Act*.

"**CDS**" means CDS Clearing and Depository Services Inc.

"**CEO**" means Chief Executive Officer.

"**CFO**" means Chief Financial Officer.

"**Chair**" means the chair of the Board of Trustees.

"**CIO**" means Chief Investment Officer.

"**Class A OP Units**" means Class A units of the OP.

"**Class B OP Units**" means Class B units of the OP.

"**Closing**" means the closing of the Offering.

"**Closing Market Price**" has the meaning ascribed thereto under "Declaration of Trust – Redemption Right".

"**Code**" means the United States Internal Revenue Code of 1986, as amended.

"**Code of Conduct**" means the written code of conduct adopted by the REIT.

"**Contributor**" and "**Contributors**" have the meaning ascribed thereto under "The Contribution of the Initial Portfolio – Overview".

"**Contribution**" and "**Contributions**" have the meaning ascribed thereto under "The Contribution of the Initial Portfolio – Overview".

"**Core FFO**" has the meaning ascribed thereto under "Non-IFRS Measures".

"**CRA**" means Canada Revenue Agency.

"**CRECs**" means controlled recognized environmental conditions.

"**Debt**" means the total principal amounts outstanding by the REIT under mortgages payable, mezzanine debt and term preferred equity which under IFRS is accounted for as a liability, and for greater certainty excludes the Class B OP Units.

"**Debt to Gross Real Estate Value Ratio**" is calculated by dividing Debt, which consists of the total principal amounts outstanding under mortgages payable, mezzanine debt and term preferred equity which under IFRS is accounted for as a liability, by Gross Real Estate Value.

"**Declaration of Trust**" means the declaration of trust of the REIT.

"**Demand Distribution**" means the distribution of Units held by the NexPoint Holders pursuant to the Demand Registration Right, as more particularly described under "Investor Rights Agreement".

"**Demand Registration Right**" means the right granted to the NexPoint Holders pursuant to the Investor Rights Agreement to require the REIT to use reasonable commercial efforts to file a prospectus qualifying the Units held (or issuable upon the redemption of Class B OP Units) by the NexPoint Holders for distribution, as more particularly described under "Investor Rights Agreement".

"**DPSP**" has the meaning ascribed thereto under "Eligibility for Investment".

"**DT Beaverton**" means the DoubleTree Beaverton.

"**DT Bend**" means the DoubleTree Bend.

"**DT Olympia**" means the DoubleTree Olympia.

"**DT Portfolio**" means, collectively DT Beaverton, DT Bend, DT Olympia, DT Tigard and DT Vancouver.

"**DT Tigard**" means the DoubleTree Tigard.

"**DT Vancouver**" means the DoubleTree Vancouver.

"**EBITDA**" means earnings before interest, taxes, depreciation and amortization.

“**eligible independent contractor**” has the meaning ascribed thereto under “Certain U.S. Federal Income Tax Considerations – Taxation of Real Estate Investment Trusts in General – Effect of Subsidiary Entities”.

“**Exempt Periods**” has the meaning ascribed thereto under “Exemptions From Certain Provisions of National Instrument 41-101”

“**Exempt Plans**” has the meaning ascribed thereto under “Eligibility for Investment”.

“**FAT**” means foreign accrual tax.

“**FAPI**” means foreign accrual property income.

“**FFO**” has the meaning ascribed thereto under “Non-IFRS Measures”.

“**Financials**” has the meaning ascribed thereto under “Management’s Discussion and Analysis of Financial Condition and Results of Operations”.

“**FIRPTA**” means the *Foreign Investment in Real Property Tax Act of 1980*, as amended from time to time.

“**Form 41-101F1**” means Form 41-101F1—*Information required in a Prospectus*.

“**forward-looking statements**” has the meaning ascribed thereto under “Forward-Looking Statements”.

“**GDP**” means United States gross domestic product.

“**Gross Real Estate Value**” has the meaning ascribed thereto under “Non-IFRS Measures”.

“**HCBH**” means HCBH 11611 Ferguson, LLC.

“**HCRE Addision**” means HCRE Addision, LLC.

“**HCRE Las Colinas**” means HCRE Las Colinas, LLC.

“**HCRE Plano**” means HCRE Plano, LLC.

“**HGI Property**” means Hilton Garden Inn Dallas Market Center.

“**HS Addison**” means Homewood Suites Addison.

“**HS Las Colinas**” means Homewood Suites Las Colinas.

“**HS Plano**” means Homewood Suites Plano.

“**Hotel Management Agreements**” means the hotel management agreements to be entered into between the Manager and the TRS Entities.

“**Holder**” means a purchaser who acquires, as beneficial owner, Units pursuant to this Prospectus and who, for the purposes of the Tax Act and at all relevant times, is, or is deemed to be, resident in Canada, deals at arm’s length with the REIT and the Agent, and is not affiliated with the REIT or the Agent and holds the Units as capital property.

“**HRECs**” means historical recognized environmental conditions.

"**HWS Acquisition Date**" has the meaning ascribed thereto under "Management's Discussion and Analysis of Financial Condition and Results of Operations".

"**HWS Portfolio**" means, collectively HS Addison, HS Las Colinas and HS Plano.

"**IASB**" means the International Accounting Standards Board.

"**IFRS**" means International Financial Reporting Standards.

"**IFRS 16**" has the meaning ascribed thereto under "Management's Discussion and Analysis of Financial Condition and Results of Operations".

"**Independent Trustees**" means a Trustee who is "independent" pursuant to NI 58-101.

"**Initial Portfolio**" means the existing portfolio of 11 hospitality assets located in the United States.

"**Interest Rate Risk**" means the combined risk that the REIT would experience a loss as a result of its exposure to a higher interest rate environment and the possibility that at the end of a mortgage term the REIT would be unable to renew the maturing debt either with the existing or a new lender.

"**Interested Trustees**" means a Trustee who is appointed by the Advisor and is not considered independent pursuant to NI 58-101.

"**Investor Rights Agreement**" means the investor rights agreement between the REIT and the NexPoint Holders, as more particularly described under "Investor Rights Agreement".

"**IRS**" means the U.S. Internal Revenue Service.

"**IT**" means information technology.

"**Lead Trustee**" means the Board-designated trustee among the independent Trustees, who will provide leadership for the independent Trustees in certain circumstances if the Chair is not independent, as more particularly described under "Governance and Management of the REIT".

"**Listing**" means the listing of the Units on the TSXV.

"**LLC Agreement**" means the amended and restated limited liability company agreement of the OP, as amended and/or restated from time to time.

"**Manager**" has the meaning ascribed thereto on the cover page of this prospectus.

"**Marriott Appraisal**" has the meaning ascribed thereto under "Exemptions From Certain Provisions of National Instrument 41-101"

"**Market Price**" has the meaning ascribed thereto under "Declaration of Trust – Redemption Right".

"**MD&A**" has the meaning ascribed thereto under "Management's Discussion and Analysis of Financial Condition and Results of Operations".

"**Meritage**" means Meritage Residential Partners LLC.

"**MSA**" means metropolitan statistical area.

"**Mortgage Debt to Gross Real Estate Value Ratio**" is calculated by dividing principal amounts outstanding under mortgages payable by Gross Real Estate Value.

"**Nashville Property**" means Holiday Inn Express Nashville.

"**NCI**" means non-certificated inventory.

"**NexPoint**" means the Advisor and its affiliates and subsidiaries.

"**NexPoint Holders**" means certain unitholders of the REIT who are principals and affiliates of the Advisor.

"**NHI**" means NHT Holdings, LLC.

"**NHT Beaverton**" means NHT Beaverton, LLC.

"**NHT Bend**" means NHT Bend, LLC.

"**NHTDFW**" means NHT DFW Portfolio, LLC.

"**NHT Nashville**" means NHT Nashville, LLC.

"**NHT Olympia**" means NHT Olympia, LLC.

"**NHT SP**" means NHT SP, LLC.

"**NHT SP Parent**" means NHT SP Parent, LLC.

"**NHT Tigard**" means NHT Tigard, LLC.

"**NHT Vancouver**" means NHT Vancouver, LLC.

"**NI 41-101**" means National Instrument 41-101 – *General Prospectus Requirements*

"**NI 52-107**" means National Instrument 52-107 – *Acceptable Accounting Principles and Auditing Standards*

"**NI 52-109**" means National Instrument 52-109 – *Certification of Disclosure in Issuers' Annual and Interim Filings.*

"**NI 52-110**" means National Instrument 52-110 – *Audit Committees*.

"**NI 58-101**" means National Instrument 58-101 – *Disclosure of Corporate Governance Practices*.

"**NMCT**" means NexPoint Multifamily Capital Trust, Inc.

"**NMCT Shareholders**" means the shareholders of NMCT.

"**NOI**" has the meaning ascribed thereto under "Non-IFRS Measures".

"**NOI Margin**" has the meaning ascribed thereto under "Non-IFRS Measures".

"**Nominating Unitholder**" has the meaning ascribed thereto under "Declaration of Trust – Advance Notice Provision".

"**Non-Room Revenues**" has the meaning ascribed thereto under "Non-IFRS Measures".

"**Non-U.S. Holders**" means a beneficial owner of Units that is an individual, corporation, estate or trust and is not a U.S. Holder.

"**NREO**" means NexPoint Real Estate Opportunities, LLC.

"**NREO NW**" means NREO NW Hospitality, LLC.

"**Occupancy**" has the meaning ascribed thereto under "Select Industry Terms".

"**Offering**" has the meaning ascribed thereto on the cover page of this prospectus.

"**Offering Price**" means the price of the Units.

"**Omnibus Plan**" means the omnibus equity incentive plan of the REIT, as more particularly described under "Incentive Compensation Plans".

"**OP**" means NHT Operating Partnership, LLC.

"**OTAs**" means internet travel intermediaries.

"**OTC Pink**" means the OTC Pink tier of OTC Markets Group Inc.

"**PCA Reports**" means property condition assessment reports.

"**personal property ratio**" has the meaning ascribed thereto under "Certain U.S. Federal Income Tax Considerations – Taxation of Real Estate Investment Trusts in General – Effect of Subsidiary Entities".

"**Phase I ESA Report**" means a Phase I environmental site assessment report.

"**Phase II ESA Report**" means a Phase II environmental site assessment report.

"**Piggy-Back Distribution**" means any future offering undertaken by the REIT by way of prospectus whereby NexPoint Holders have exercised their Piggy-Back Registration Right, as more particularly described under "Investor Rights Agreement".

"**Piggy-Back Registration Right**" means the right granted to the NexPoint Holders pursuant to the Investor Rights Agreement to require the REIT to include Units held by the NexPoint Holders in any future offering undertaken by the REIT, as more particularly described under "Investor Rights Agreement".

"**PIPs**" means property improvement plans.

"**Profits LTIP Units**" has the meaning ascribed thereto under "Management and Franchise Agreements".

"**Promoter**" means NexPoint Real Estate Advisors VI, L.P.

"**Proposed Amendments**" means all specific proposals to amend the Tax Act publicly announced by or on behalf of the Minister of Finance (Canada) before the date hereof.

"**qualified lodging facility**" has the meaning ascribed thereto under "Certain U.S. Federal Income Tax Considerations – Taxation of Real Estate Investment Trusts in General – Effect of Subsidiary Entities".

"**real estate assets**" has the meaning ascribed thereto under "Certain U.S. Federal Income Tax Considerations – Taxation of Real Estate Investment Trusts in General – Asset Tests".

"**RECs**" means recognized environmental conditions.

"**Redemption Date**" means the date on which the Units were surrendered for redemption.

"**Redemption Notes**" means unsecured subordinated promissory notes of the REIT or a Subsidiary of the REIT having a maturity date and interest rate to be determined at the time of issuance by the Trustees, such promissory notes to provide that the REIT or such Subsidiary, as the case may be, shall at any time be allowed to prepay all or any part of the outstanding principal without notice or bonus.

"**Redemption Price**" shall have the meaning ascribed thereto under "Declaration of Trust – Redemption Right".

"**REIT**" means NexPoint Hospitality Trust.

"**REIT Asset Value**" means the value of the REIT's total assets, as determined in accordance with IFRS except that such value shall only consolidate the REIT and NHI (but otherwise be determined on an unconsolidated basis) plus the REIT's *pro rata* share of leverage at the OP.

"**related party tenant**" has the meaning ascribed thereto under "Certain U.S. Federal Income Tax Considerations – Taxation of Real Estate Investment Trusts in General – Effect of Subsidiary Entities".

"**Revenue per Available Room**" or "**RevPAR**" has the meaning ascribed thereto under "Select Industry Terms".

"**RDSP**" has the meaning ascribed thereto under "Eligibility for Investment".

"**RESP**" has the meaning ascribed thereto under "Eligibility for Investment".

"**RRIF**" has the meaning ascribed thereto under "Eligibility for Investment".

"**RRSP**" has the meaning ascribed thereto under "Eligibility for Investment".

"**Securities Laws**" has the meaning ascribed to it in the Declaration of Trust.

"**SIFT Rules**" means the rules applicable to SIFT trusts and SIFT partnerships in the Tax Act.

"**Stemmons**" means Stemmons Hospitality, LLC.

"**St. Pete Property**" means Marriot St. Petersburg.

"**STR**" means Smith Travel Research, Inc.

"**Subsidiaries**" has the meaning ascribed to it in the *Securities Act* (Ontario), as amended from time to time.

"**Tax Act**" means the *Income Tax Act* (Canada) and the regulations thereunder, in each case as amended from time to time.

"**TFSA**" has the meaning ascribed thereto under "Eligibility for Investment".

"**Total G&A Cap**" has the meaning ascribed thereto under "Management and Franchise Agreement – Advisory Agreement".

"**Treasury Regulations**" means existing and proposed regulations promulgated under the Code by the U.S. Treasury Department.

"**Treaty**" means the Convention between the United States of America and Canada with Respect to Taxes on Income and on Capital, signed September 26, 1980, as amended.

"**TRS**" means a taxable REIT subsidiary as defined under Section 856(1) of the Code.

"**TRS Entities**" means taxable subsidiaries of the REIT.

"**Trustees**" means the trustees of the REIT.

"**TSXV Publicly Traded Exception**" has the meaning ascribed thereto under "Certain U.S. Federal Income Tax Considerations – Taxation of Non-U.S. Holders".

"**TSXV**" means the TSX Venture Exchange.

"**U.S. Holder**" means a holder of Units that is a beneficial owner of the Units and is (i) an individual citizen or resident of the United States for U.S. federal income tax purposes; (ii) a corporation (or other entity classified as a corporation for U.S. federal income tax purposes), created or organized in or under the laws of the United States, any state therein or the District of Columbia; (iii) an estate the income of which is subject to U.S. federal income taxation regardless of its source; or (iv) a trust if a court within the United States is able to exercise primary supervision over its administration and one or more United States persons have the authority to control all substantial decisions of the trust (or otherwise if the trust has a valid election in effect under the Treasury Regulations to be treated as a domestic trust).

"**U.S. Publicly Traded Exception**" has the meaning ascribed thereto under "Certain U.S. Federal Income Tax Considerations – Taxation of Non-U.S. Holders".

"**U.S. Securities Act**" means the *Securities Act of 1933*, as amended.

"**Unit**" means trust units of the REIT.

"**Unitholders**" means unitholders of the REIT.

"**UPREIT**" means umbrella partnership real estate investment trust.

"**US Holdco**" means NHT Intermediary, LLC.

"**USRPI**" means a U.S. real property interest, as defined under Section 897(c) of the Code.

NEXPOINT HOSPITALITY TRUST
NOTES TO THE UNAUDITED PRO FORMA CONSOLIDATED FINANCIAL STATEMENTS
(Amounts in thousands of U.S. dollars except unit counts)

1. Overview

NexPoint Hospitality Trust (the "REIT") is a newly-created, unincorporated, open-ended real estate investment trust established pursuant to a declaration of trust (the "Declaration of Trust") under the laws of the Province of Ontario. The REIT has been created for the purpose of acquiring a portfolio of 11 hospitality assets located in the United States (the "Initial Portfolio"), to raise capital to acquire additional U.S. located hospitality assets that meet its investment objectives and criteria and to own, renovate and operate its portfolio of income-producing hotel properties. The REIT is externally managed by NexPoint Real Estate Advisors VI, L.P. (the "Advisor"), which has been formed for the purpose of managing the REIT.

The REIT will wholly own NHT Holdings, LLC ("NHI"), a newly formed Delaware limited liability company that intends to elect to be treated as a real estate investment trust under U.S. tax laws. Substantially all of NHI's business will be conducted through NHT Operating Partnership, LLC (the "OP"), the REIT's operating partnership, which is a newly formed Delaware limited liability company. The REIT will own its properties through the OP and its subsidiaries. The OP and its subsidiaries will lease the properties to taxable subsidiaries of the REIT (the "TRS Entities"). For NHI, and thus the REIT, to qualify as a real estate investment trust under the Code, the REIT cannot operate directly or indirectly any of the hotels it acquires and owns. Therefore, the OP and its subsidiaries will lease the hotels to the TRS Entities who in turn will engage eligible independent contractors (as defined in the U.S. tax code), which we expect will be affiliates of Aimbridge Hospitality Holdings, LLC (collectively, the "Manager"), to manage the hotels.

The objectives of the REIT are to: (a) provide Unitholders with an opportunity to invest in an initial portfolio of extended-stay, select-service and efficient full service hotels located in attractive U.S. markets and competitively positioned to outperform the industry as a whole; (b) provide Unitholders with predictable, sustainable and growing tax efficient cash distributions; (c) enhance the value of the REIT's assets and maximize the long-term value of the Units through active asset and property management programs and procedures; and (d) expand the asset base of the REIT and increase the REIT's Core FFO per Unit primarily through acquisitions and improvements of its properties, including the Initial Portfolio, using targeted and strategic capital expenditures.

These pro forma consolidated financial statements are prepared for inclusion in the prospectus filed with the Ontario Securities Commission on March 27, 2019 (the "Prospectus"), to effectuate the listing of the REIT's units on the TSX Venture Exchange (the "Listing"), and should be read in conjunction with the Prospectus and the financial statements contained therein. Capitalized terms not defined in these pro forma consolidated financial statements have the meanings as defined in the Prospectus.

Initial Portfolio

On January 8, 2019, three groups of investors (the "Contributors"), contributed their interests in various entities (the "Contribution Entities") to NHT Holdco LLC ("Holdco") in exchange for 100% of the units of Holdco. Holdco then contributed its interests in the Contribution Entities to a subsidiary of Holdco, NHT Intermediary, LLC ("Intermediary") in exchange for 100% of the common and preferred units of Intermediary. Intermediary then contributed its interests in the Contribution Entities to NHT Holdings, LLC ("Holdings") in exchange for 100% of the units of Holdings. Holdings then contributed its interests in the Contribution Entities to NHT Operating Partnership, LLC (the "OP") in exchange for 14,213,077 Class A OP Units (these transactions collectively are referred to as the "Class A Contributions"). Simultaneously with the Class A Contributions, NexPoint Real Estate Opportunities, LLC ("NREO") contributed its interests in two entities, to the OP in exchange for 13,573,391 Class B Units (the "Class B Contributions" and together with the Class A Contributions the "Initial Transaction"). The Initial Transaction completed the first step in a series of transactions in order to complete the Listing. The Class A Contributions are considered to be common-control transactions and are being accounted for using book value accounting. The Class B Contributions are considered to be a business combination and are being accounted for using the purchase method of accounting in accordance with IFRS 3, Business Combinations. Subsequent to the Initial Transaction, the OP owns a direct interest in the Initial Portfolio.

Prior to or concurrently with the Listing, Holdco will contribute its interests in Intermediary to the REIT in exchange for 14,213,077 Units. The transaction is considered to be a common-control transaction and is being accounted for using book value accounting. Subsequent to the Initial Transaction noted above, the REIT will indirectly own the Initial Portfolio.

The hotels in the Initial Portfolio are located across the U.S. All of the hotels in the Initial Portfolio are franchised with: Hilton Hotels under the following brands: (i) DoubleTree (five hotels) (the "DT Portfolio"); (ii) Homewood Suites (three hotels) (the "HWS Portfolio"); and (iii) Hilton Garden Inn (one hotel) (the "HGI Property"); Marriott under the Marriott brand (one hotel) (the "St. Pete Property"); and InterContinental Hotels Group under the Holiday Inn Express brand (one hotel) (the "Nashville Property").

NEXPOINT HOSPITALITY TRUST
NOTES TO THE UNAUDITED PRO FORMA CONSOLIDATED FINANCIAL STATEMENTS
(Amounts in thousands of U.S. dollars except unit counts)

The following is a description of the principal transactions 1) that took place on January 8, 2019, in connection with the Initial Transaction between Holdco, Intermediary, Holdings and the OP and 2) that will take place prior to or at the Listing (the "Listing Transaction"):

Initial Transaction

(a) NHT Nashville, LLC ("NHT Nashville"), a Delaware limited liability company and an indirect subsidiary of NMCT, exercised its rights under the certain purchase and sale agreement to acquire the Nashville Property for $121,760, assumed debt of $70,000 and acquired new debt of $35,000 (the "Acquisition").

(b) Shareholders of NexPoint Multifamily Capital Trust, Inc. ("NMCT"), a Maryland corporation, which after completion of step (a) indirectly owned the Nashville Property, contributed 100% of their common equity in NMCT to the Holdco in exchange for 4,452,164 units of Holdco. In addition to the common equity owned by the shareholders of NMCT, an affiliate owned $11,500 of preferred equity issued by NMCT. Prior to the contribution of the common equity, the affiliate converted their NMCT preferred equity to common equity, and they contributed their common equity to Holdco in exchange for 2,304,200 units of Holdco.

Upon Contribution, NMCT became a wholly owned subsidiary of Holdco. Upon completion of this step (b), the shareholders of NMCT owned 6,756,364 units of Holdco.

(c) HCBH 11611 Ferguson, LLC ("HCBH"), which owned the HWS Portfolio, contributed 100% of its LLC interests in NHT DFW Portfolio ("DFW") to Holdco in exchange for 3,843,184 units of Holdco.

(d) Meritage Residential Partners, LLC ("Meritage"), which owned the St. Pete Property, contributed 100% of its LLC interests in NHT SP Parent ("SP"), LLC to Holdco in exchange for 3,613,498 units of Holdco.

(e) Holdco contributed its interests in NMCT, DFW and SP to Intermediary in exchange for 2,842,577 common units of Intermediary and 76,239 preferred units of Intermediary.

(f) Intermediary contributed its interests in NMCT, DFW and SP to Holdings in exchange for 14,038,047 common units of Holdings and 875 preferred units of Holdings.

(g) Holdings contributed its interests in NMCT, DFW and SP to the OP in exchange for 14,213,077 Class A OP units.

After the series of transactions described in (a) – (g) above, Holdings owns 14,213,077 Class A OP Units, Intermediary owned 14,038,047 common units of Holdings and 875 preferred units of Holdings and Holdco owned 2,842,577 common units of Intermediary and 76,239 preferred units of Intermediary. As of January 8, 2019, the equity value of Holdco was $71,065.

(h) The members of NHT 2325 Stemmons LLC ("Stemmons") contributed 100% of their LLC interests to the OP in exchange for 3,944,221 Class B OP Units.

(i) The members of NREO NW Hospitality, LLC ("NREO NW") contributed 100% of their LLC interests to the OP in exchange for 9,629,170 Class B OP Units.

(j) OP GP, LLC ("GP") was granted 2,779 Class B OP Units and became the managing member of the GP, which is the managing member of the OP.

After the series of transactions described in (h) – (j) above, members of Stemmons and NREO NW owned 13,573,391 Class B OP Units and GP owned 2,779 Class B OP Units. As of January 8, 2019, the equity value of the OP was $67,867 and the combined value of Holdco and the OP was $138,932.

Listing Transactions

(k) Holdco will contribute its 2,842,577 common units of Intermediary and 76,239 preferred units of Intermediary to the REIT in exchange for 14,213,077 Units.

(l) The REIT will issue 917,700 Units to investors for $4,589 in cash and the Units will be listed on the TSXV under the ticker NHT.

Retained Interest

Immediately following Closing, principals, affiliates of the Advisor, trustees and officers will own or indirectly or directly exercise control or direction over approximately 71.6% of the REIT and 38.3% of the combined equity of the REIT and OP (determined as if all Class B OP Units are redeemed for Units).

2. Basis of Presentation

These pro forma consolidated financial statements of the REIT have been prepared by management in accordance with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB") and incorporate the principal accounting policies expected to be used to prepare the REIT's financial statements.

These pro forma consolidated financial statements have been prepared from:

i) **NHT** - The audited financial statements of the REIT as at December 31, 2018 and for the period from December 12, 2018 (date of formation) to December 31, 2018.

ii) **HGI Property -** The following financial statements of 2325 Stemmons Hotel Partners, LLC: the unaudited consolidated statement of financial position as at September 30, 2018, the unaudited consolidated statement of comprehensive income (loss) for the nine months ended September 30, 2018 and the audited consolidated statement of comprehensive income (loss) for the year ended December 31, 2017.

iii) **DT Portfolio -** The following financial statements of NREO NW Hospitality, LLC: the unaudited consolidated statement of financial position as at September 30, 2018 and the unaudited consolidated statement of comprehensive income (loss) for the period from May 3, 2018 (date of formation) to September 30, 2018.

iv) **DT Portfolio -** The following financial statements of five properties in BRE GM JV Holdings, LLC: the unaudited consolidated statement of comprehensive income (loss) for the period from January 1, 2018 to May 3, 2018 and the audited consolidated statement of comprehensive income (loss) for the year ended December 31, 2017.

v) **HWS Portfolio -** The following financial statements of HCBH 11611 Ferguson, LLC: the unaudited consolidated statement of financial position as at September 30, 2018, the unaudited consolidated statement of comprehensive income (loss) for the nine months ended September 30, 2018 and the audited consolidated statement of comprehensive income (loss) for the period from May 4, 2017 (date of formation) to December 31, 2017.

vi) **St. Pete Property -** The following financial statements of Pallas, LLC: the unaudited statement of financial position as at September 24, 2018, the unaudited statement of comprehensive income (loss) for the period from January 1, 2018 to September 24, 2018 and the audited statement of comprehensive income (loss) for the year ended December 31, 2017.

vii) **Nashville Property -** The following financial statements of Birchmont H.I. Nashville partners, LLC: the unaudited consolidated statement of financial position as at September 30, 2018, the unaudited consolidated statement of comprehensive income (loss) for the nine months ended September 30, 2018 and the audited consolidated statement of comprehensive income (loss) for the year ended December 31, 2017.

The pro forma consolidated statement of financial position gives effect to the transactions in note 4 as if they had occurred on September 30, 2018. The pro forma consolidated statements of comprehensive income (loss) for the nine months ended September 30, 2018 and for the year ended December 31, 2017 give effect to the transactions in note 4 as if they had occurred on January 1, 2017.

These pro forma consolidated financial statements are not necessarily indicative of the results that would have actually occurred had these transactions been consummated at the dates indicated, nor are they necessarily indicative of future operating results or the financial position of the REIT.

3. Significant Accounting Policies

The significant accounting policies used in the preparation of these pro forma consolidated financial statements are described below and have been applied consistently to all periods presented:

(a) Basis of consolidation

These consolidated financial statements comprise the financial statements of the REIT and its subsidiaries, including NHT Intermediary, NHI, the OP and the subsidiaries of the OP, including the TRS Entities. The financial statements of the subsidiaries are prepared for the same reporting periods as the REIT using consistent accounting policies. All intercompany balances, transactions and unrealized gains and losses arising from intercompany transactions are eliminated upon consolidation.

(b) Business combinations

At the time of acquisition of a property, whether through a controlling share investment or directly, the REIT considers whether the acquisition represents the acquisition of a business. The REIT accounts for an acquisition as a business combination where an integrated set of activities is acquired in addition to the property. More specifically, consideration is made of the extent to which significant processes are acquired. If no significant processes, or only insignificant processes, are acquired, the acquisition is treated as an asset acquisition rather than a business combination.

The cost of a business combination is measured as the fair value of the assets given, equity instruments issued and liabilities incurred or assumed at the acquisition date. Identifiable assets acquired and liabilities and contingent liabilities assumed in a business combination are measured initially at fair value at the date of acquisition. The REIT recognizes assets or liabilities, if any, resulting from a contingent consideration arrangement at their acquisition date fair value and such amounts form part of the cost of the business combination. Subsequent changes in the fair value of contingent consideration arrangements are recognized in net income. The difference between the purchase price and the REIT's net fair value of the acquired identifiable net assets and liabilities is goodwill. On the date of acquisition, positive goodwill is recorded as an asset. Negative goodwill is immediately recognized in the consolidated statement of income. The REIT expenses transaction costs associated with business combinations in the period incurred. When an acquisition does not meet the criteria for business combination accounting treatment, it is accounted for as an acquisition of a group of assets and liabilities, the cost of which includes transaction costs that are allocated to the assets and liabilities acquired based upon their relative fair values. No goodwill is recognized for asset acquisitions.

(c) Functional currency

The functional and presentation currency of the REIT and its subsidiaries is the U.S. dollar.

(d) Property and equipment

(i) Recognition and measurement

Property and equipment are measured at cost less accumulated depreciation and any accumulated impairment losses. Cost includes expenditures that are directly attributable to the acquisition of the asset. The cost of self-constructed assets includes the cost of materials and direct labor, any other costs directly attributable to bringing the assets to a working condition for their intended use, and borrowing costs on qualifying assets.

When parts of an item of property and equipment have different useful lives, they are accounted for as separate items (major components) of property and equipment.

(ii) Subsequent costs

The cost of replacing a part of an item of property and equipment is recognized in the carrying amount of the item if it is probable that the future economic benefits embodied within the part will flow to the REIT and its cost can be measured reliably. The carrying amount of the replaced part is derecognized. The costs of the day-to-day maintenance of property and equipment are recognized in profit or loss as incurred.

(iii) Depreciation

Depreciation is computed on a straight-line basis based on the useful lives of each component of property and equipment. Depreciation on new construction commences in the month after the asset is available for its intended use based upon the useful life of the asset.

Estimated useful lives were determined based on current facts and past experience, and take into consideration the anticipated physical life of the asset and current and forecasted demand. The rates and methods used are reviewed

annually at year end to ensure they continue to be appropriate, and are also reviewed in conjunction with impairment testing. Gains/losses on disposition of property and equipment are recognized in profit or loss when the REIT has transferred to the purchaser the significant risk and rewards of ownership of the property and equipment and the purchaser has made a substantial commitment demonstrating its intent to honour its obligation.

(e) Impairment of non-financial assets

The carrying amounts of the REIT's non-financial assets, other than inventories, are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated.

The recoverable amount of an asset or cash-generating unit is the greater of its value in use and its fair value less costs to sell. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. For the purpose of impairment testing, assets that cannot be tested individually are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or groups of assets (the "cash-generating unit" or "CGU").

When the carrying amount of the asset or CGU exceeds its estimated recoverable amount, an impairment loss is recognized in an amount equal to the excess. When an indication that an impairment loss recognized in prior periods for an asset or CGU other than goodwill may no longer exist or may have decreased, the recoverable amount of that asset or CGU is estimated. A reversal of an impairment loss is recognized immediately in profit or loss if the recoverable amount of a previously impaired asset or CGU has subsequently increased to the lower of the asset or CGU's recoverable amount or carrying amount had no impairment loss been recognized for the asset or CGU in prior years.

(f) Financial instruments

Financial instruments are generally measured at fair value on initial recognition. The classification and measurement of financial assets consists of the following categories: (i) measured at amortized cost, (ii) fair value through profit and loss ("FVTPL"), and (iii) fair value through other comprehensive income ("FVTOCI"). Financial assets classified at amortized cost are measured using the effective interest method. Financial assets classified as FVTPL are measured at fair value with gains and losses recognized in the consolidated statement of net income. Financial assets classified as FVTOCI are measured at fair value with gains or losses recognized through other comprehensive income, except for gains and losses pertaining to impairment or foreign exchange recognized through net income.

The classification and measurement of financial liabilities consists of the following categories: (i) measured at amortized cost and (ii) FVTPL. Financial liabilities classified at amortized cost are measured using the effective interest method. Financial liabilities classified as FVTPL are measured at fair value with changes in fair value attributable to changes in the credit risk of the liability presented in other comprehensive income, and the remaining amount of change in fair value presented in the consolidated statement of net income.

The REIT has made the following classifications for its financial instruments:

Asset/Liability	**Classification**
Cash and cash equivalents	Amortized cost
Restricted cash	Amortized cost
Trade and other receivables	Amortized cost
Accounts payable and other accrued liabilities	Amortized cost
Notes payable	Amortized cost
Credit facility	Amortized cost
Class B redeemable units of OP	fair value through profit and loss

The REIT derecognizes a financial asset only when the contractual rights to the cash flows from the asset expire or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another entity. The REIT derecognizes a financial liability when, and only when, the REIT's obligations are discharged, cancelled or they expire. The difference

between the carrying amount of the financial liability derecognized and the consideration paid and payable is recognized through net income.

Transaction costs other than those related to financial instruments classified as FVTPL, which are expensed as incurred, are capitalized to the carrying amount of the instrument and amortized using the effective interest method. These costs include interest, amortization of discounts or premiums relating to borrowings, fees and commissions paid to agents, brokers and advisers and transfer taxes and duties.

Units are redeemable at the option of the holder and, therefore, are considered puttable instruments in accordance with International Accounting Standards 32, Financial Instruments – Presentation ("IAS 32"). Puttable instruments are required to be accounted for as financial liabilities, except where certain conditions are met in accordance with IAS 32; in which case, the puttable instruments may be presented as equity. Units meet the exemption conditions of IAS 32 and are, therefore, presented as equity.

The Class B OP Units are redeemable for cash or Units on a one-for-one basis subject to customary anti-dilution adjustments at the option of the REIT and, therefore, the Class B OP Units meet the definition of a financial liability under IAS 32. Further, the Class B OP Units are designated as fair value through profit and loss financial liabilities and are measured at fair value at each reporting period with any changes in fair value recorded in profit or loss. The Class B OP Units are, in all material aspects, economically equivalent to Units on a per unit basis. The distributions paid on Class B OP Units are accounted for as finance costs.

Impairment of financial assets

For impairment of financial assets other than investments in equity instruments, contract assets, lease receivables, loan commitments and financial guarantee contracts, the REIT applies a forward-looking 'expected credit loss' ("ECL") model. The REIT adopted the practical expedient to determine ECL on trade and other receivables using a provision matrix based on historical credit loss experiences adjusted for current and forecasted future economic conditions to estimate lifetime ECL.

Impairment losses are recorded in the statement of income (loss) and comprehensive income (loss) with the carrying amount of the financial asset or group of financial assets reduced through the use of impairment allowance accounts.

(g) Cash and cash equivalents

The REIT considers all liquid investments with original terms to maturity of three months or less when acquired to be cash equivalents. Cash and cash equivalents consist of cash on hand and cash held at banks.

(h) Restricted cash

Restricted cash primarily consists of cash reserves on deposit with lenders in respect of future capital expenditures.

(i) Provisions

A provision is recognized if, as a result of a past event, the REIT has a present legal or constructive obligation that can be estimated reasonably, and it is probable that an outflow of economic benefits will be required to settle the obligation. If the time value of money is material, provisions are determined by discounting the expected future cash flows using a current rate that reflects the risk profile of the liability, and the increase to the provision due to the passage of time will be recognized as a finance cost.

(j) Revenue recognition

Revenue is generated primarily from the operation of the REIT's hotels, which includes room rentals, food and beverage sales and other incidental income. Revenue is recognized when services are rendered, the amount is earned, and collectability is reasonably assured. The REIT may collect payments in advance of the utilization of a facility. These payments are recorded in accounts payable and other accrued liabilities until such time as the applicable facility is utilized, at which time the customer deposit is recognized as revenue.

(k) Interest expense, net

Net interest expense primarily consists of interest expense on outstanding debt, the amortization of deferred financing costs, distributions on Class B OP Units classified as liabilities, gain (loss) on change in fair value of Class B OP Units and accrued dividend

payments on the preferred shares issued by NHI. Net interest expense is recognized in the period in which it is incurred. Fees and costs related to obtaining debt financing are capitalized against the related debt and amortized over the term of the debt using the straight-line method, which approximates the effective interest method, and are included in net interest expense. The unamortized balance of the fees and costs is recorded as a reduction from the related debt on the pro forma consolidated statement of financial position.

(l) Income taxes

(i) Canadian mutual fund status

The REIT intends to make an election to be treated as a mutual fund trust pursuant to the Income Tax Act (Canada). Under current tax legislation, a mutual fund trust that is not a Specified Investment Flow-Through Trust ("SIFT") pursuant to the Income Tax Act (Canada) is entitled to deduct distributions of taxable income such that it is not liable to pay income taxes provided that its taxable income is fully distributed to unitholders. The REIT intends to qualify as a mutual fund trust that is not a SIFT trust and to make distributions not less than the amount necessary to ensure that the REIT will not be liable to pay income taxes.

(ii) U.S REIT Status

The REIT expects to be classified as a corporation for U.S. federal income tax purposes under current Treasury Regulations. Further, pursuant to section 7874 of the United States Internal Revenue Code of 1986, as amended (the "Code") the REIT expects to be treated as a U.S. corporation for all purposes under the Code and, as a result, it would be permitted to elect to be treated as a real estate investment trust under the Code, notwithstanding it will be organized as a Canadian entity. In general, a company that elects real estate investment trust status, distributes at least 90% of its real estate investment trust taxable income to its shareholders in any taxable year, and complies with certain other requirements is not subject to U.S. federal income taxation to the extent of the income it distributes. If it fails to qualify as a real estate investment trust in any taxable year, it will be subject to U.S. federal income tax at regular corporate income tax rates on its taxable income. Even if it qualifies for taxation as a real estate investment trust, it may be subject to certain state and local taxes on its income and property and to federal income and excise taxes on its undistributed income. The REIT has reviewed the real estate investment trust requirements and expects that it will qualify as a real estate investment trust under the Code. Accordingly, no provision for U.S. federal income or excise taxes has been made with respect to the income of the REIT.

The REIT, through wholly owned subsidiaries, intends to lease the Initial Portfolio to the TRS Entities, which are taxable in the U.S. A TRS is a corporation that has not elected REIT status and has made a joint election with a real estate investment trust to be treated as a TRS. As such, it is subject to U.S. federal and state corporate income tax. The income tax effects on the results of the TRS Entities accrue directly to the members of the REIT.

For these entities, income tax expense comprises current and deferred taxes. Current tax and deferred tax are recognized in earnings except to the extent that they relate to a business combination, or to items recognized directly in equity or in other comprehensive income.

(iii) Current taxes

Current tax is the expected tax payable or receivable on the taxable income or loss for the year, using tax rates enacted or substantively enacted at the reporting date, and any adjustment to tax payable in respect of previous years.

(iv) Deferred taxes

Deferred tax is recognized in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. Deferred tax is not recognized for the following temporary differences: (a) the initial recognition of assets or liabilities in a transaction that is not a business combination and that affects neither accounting nor taxable profit or loss, and (b) differences relating to investments in subsidiaries and jointly controlled entities to the extent that it is probable that they will not reverse in the foreseeable future. In addition, deferred tax is not recognized for taxable temporary differences arising on the initial recognition of goodwill. Deferred tax is measured at the tax rates that are expected to be applied to temporary differences when they reverse, based on the laws that have been enacted or substantively enacted by the reporting date.

(v) 2017 Tax Act

On December 22, 2017, the Tax Cuts and Jobs Act (the "2017 Tax Act") was signed into law in the United States. The most significant change is the reduction of the statutory corporate tax rate from 35 percent to 21 percent, effective January 1, 2018. Many of the provisions in the 2017 Tax Act expire in seven years (at the end of 2025). The REIT does not expect the 2017 Tax Act to have a significant impact on its pro forma consolidated financial statements.

(m) Operating segments

The REIT expects to operate in one business segment, owning and operating hotel properties in the U.S. The primary format for segment reporting is based on geographic region and is consistent with the internal reporting provided to the REIT's chief operating decision-maker.

(n) Levies

In accordance with IFRS Interpretations Committee (IFRIC) 21, *Levies*, the REIT recognizes the full amount of annual property tax liabilities at the point in time when the realty tax obligation is imposed. This is the obligating event that gives rise to a liability to pay the property taxes.

(o) Use of estimates and assumptions

The preparation of financial statements in conformity with IFRS requires management to make estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities and disclosure of contingent assets and liabilities as of the date of the financial statements, and the reported amounts of revenues and expenses during the reporting periods. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised and in any future periods affected.

(p) Critical judgments

Management must assess whether the acquisition of a property should be accounted for as an asset purchase or business combination. This assessment impacts the accounting treatment of transaction costs, the allocation of the costs associated with the acquisition and whether or not goodwill is recognized. The REIT's acquisitions are generally determined to be business combinations as the REIT acquires an integrated set of processes as part of the acquisition transaction.

Management must assess whether or not it controls entities in which it has an interest. This involves evaluating the REIT's ability to make decisions over the relevant activities of such entities and to determine to what extent the REIT is exposed to the variable returns of the entities. This assessment impacts the identification of the REIT's subsidiaries and as a result which entities it consolidates.

(q) Recent accounting pronouncements

(i) IAS 7 – Statement of Cash Flows

In January 2016, the IASB issued amendments to International Accounting Standards ("IAS") 7, *Statement of Cash Flows* ("IAS 7"). The amendments apply prospectively for annual periods beginning on or after January 1, 2017 and require disclosures that enable users of financial statements to evaluate changes in liabilities arising from financing activities, including both changes arising from cash flows and non-cash changes. The REIT implemented the amendments to IAS 7 on January 1, 2017 and there was no material impact on its pro forma consolidated financial statements.

(ii) IFRS 9 – Financial Instruments

In July 2014, the IASB issued the final publication of the IFRS 9 standard, superseding the current IAS 39, *Financial Instruments: Recognition and Measurement* ("IAS 39") standard ("IFRS 9"). IFRS 9 includes revised guidance on the classification and measurement of financial instruments, including a new expected credit loss model for calculating impairment on financial assets, and the new general hedge accounting requirements. It also carries forward the guidance on recognition and de-recognition of financial instruments from IAS 39. The standard is effective for annual periods

beginning on or after January 1, 2018 with early adoption permitted. The REIT adopted IFRS 9 on January 1, 2018 and there was no material impact on its pro forma consolidated financial statements.

(iii) IFRS 15 – Revenue from Contracts with Customers

In May 2014, the IASB issued IFRS 15, *Revenue from Contract with Customers* ("IFRS 15"), which establishes a new five step model that applies to revenue arising from contracts with customers. The principles in IFRS 15 provide a more structured approach to measuring and recording revenue allowing greater comparability of revenues across industries. The new revenue standard is applicable to all entities and will supersede all current revenue recognition requirements under IFRS. Either a full or modified retrospective application is required for annual periods beginning on or after January 1, 2018, with early adoption permitted. The REIT adopted IFRS 15 on January 1, 2018, using the modified retrospective method, and there was no material impact on its pro forma consolidated financial statements.

(iv) IFRS 16 – Leases

IFRS 16, *Leases* ("IFRS 16") was issued in January 2016 and sets out a new model for lease accounting, replacing IAS 17, *Leases*. The most significant effect of the new standard will be the recognition of the initial present value of unavoidable future lease payments as lease assets and lease liabilities on the statement of financial position, including those for most leases that would be currently accounted for as operating leases. Leases with durations of 12 months or less and leases for low value assets may be exempted. IFRS 16 will be effective for accounting periods beginning on or after January 1, 2019. Early adoption will be permitted provided the REIT has adopted IFRS 15. The REIT intends to adopt IFRS 16 in its consolidated financial statements for the annual period beginning on January 1, 2019 and does not expect the new standard to have a material impact on its consolidated financial statements.

(v) Definition of a business (Amendments to IFRS 3, Business combinations)

On October 22, 2018, the IASB issued amendments to IFRS 3 *Business Combinations* that seek to clarify whether a transaction results in an asset or a business acquisition. The amendments apply to businesses acquired in annual reporting periods beginning on or after January 1, 2020. Earlier application is permitted.

The amendments include an election to use a concentration test. This is a simplified assessment that results in an asset acquisition if substantially all of the fair value of the gross assets is concentrated in a single identifiable asset or a group of similar identifiable assets. If a preparer chooses not to apply the concentration test, or the test is failed, then the assessment focuses on the existence of a substantive process.

The REIT intends to adopt the amendments in its consolidated financial statements beginning on January 1, 2020, when the standard becomes effective.

4. Pro Forma Adjustments

The pro forma adjustments to these pro forma consolidated financial statements have been prepared to account for the impact of the transactions contemplated by the prospectus, as described below:

(a) The Offering

These pro forma consolidated financial statements include the subscription for one Unit of the REIT for $15.00 by the initial unitholder of the REIT, made on December 12, 2018.

These pro forma consolidated financial statements assume the REIT will raise gross proceeds pursuant to the Offering of approximately $4,589 through the issuance of 917,700 Units at $5.00 per Unit. Underwriters' fees and other offering expenses are assumed to be $4,059 and are charged directly to Unitholders' capital for net cash of $530. Additionally, NREO contributed $5,000 in cash as part of the Initial Transaction (see Note 4c and Note 5 - Sources and uses of cash).

NEXPOINT HOSPITALITY TRUST
NOTES TO THE UNAUDITED PRO FORMA CONSOLIDATED FINANCIAL STATEMENTS
(Amounts in thousands of U.S. dollars except unit counts)

(b) Contributions of Property and Equipment

These pro forma consolidated financial statements also assume that at Listing the REIT issues 14,213,077 Units to Holdco in exchange for 100% of the common and preferred units of Intermediary. This transaction is considered to be a common-control transaction and is being accounted for using book value accounting.

The values at which the entities were contributed to Holdco on January 8, 2019 were negotiated between Holdco and the Contributors but are supported by third-party appraisals. The contributions were accounted for using book value accounting as they are considered to be under common control with Holdco. The Class B Contributions are considered a business combination and are accounted for using the purchase method of accounting. The pro forma balance sheet has been adjusted to reflect the changes in book value or fair value of property and equipment acquired, as they case may be, as shown below:

	HGI Property	HWS Portfolio	St. Pete Property	Nashville Property	DT Portfolio	Total
	Purchase Accounting[1]	Book Value Accounting[2]	Book Value Accounting[3]	Book Value Accounting[4]	Purchase Accounting[5]	
Value of property and equipment acquired	$ 37,000	$ 40,861	$ 39,942	$ 120,500	$ 96,800	$ 335,103
Carrying value of property and equipment on September 30, 2018 financials	27,074	41,214	13,895	35,463	77,698	195,344
Increase to property and equipment, net	$ 9,926	$ (353)	$ 26,047	$ 85,037	$ 19,102	$ 139,759

[1] The contribution of 2325 Stemmons Hotel Partners, LLC, the owner of the HGI Property, to the OP is accounted for as a business combination using the purchase method of accounting. The fair value of the property contributed was $37,000 as compared to the historical value on the pro forma balance sheet of $27.074, resulting in an adjustment of $9,926.

[2] The contribution of NHT DFW Portfolio, LLC, the owner of the HWS Portfolio, to the REIT, to the REIT through Holdco's contribution of Intermediary is accounted for using book value accounting as Holdco and the REIT are considered to be under common control. The book value of the property contributed was $40,861 as compared to the historical value on the pro forma balance sheet of $41,214, resulting in an adjustment of $(353).

[3] The contribution of Meritage Residential Partners, LLC, the owner of the HWS Portfolio, to the REIT through Holdco's contribution of Intermediary is accounted for using book value accounting as Holdco and the REIT are considered to be under common control. The book value of the property contributed was $39,942 as compared to the historical value on the pro forma balance sheet of $13,895, resulting in an adjustment of $26,047.

[4] The contribution of NMCT, the owner of the Nashville Property, to the REIT through Holdco's contribution of Intermediary is accounted for using book value accounting as Holdco and the REIT are considered to be under common control. The book value of the property contributed was $120,500 as compared to the historical value on the pro forma balance sheet of $35,463, resulting in an adjustment of $85,037.As Nashville was newly acquired, a portion of the purchase price ($1,428) was allocated to intangible assets, which is included in the purchase price of $120,500.

[5] The contribution of NREO NW Hospitality, LLC, the owner of the DT Portfolio, to the OP is accounted for as a business combination using the purchase method of accounting. The fair value of the property contributed was $96,800 as compared to the historical value on the pro forma balance sheet of $77,698, resulting in an adjustment of $19,102.

The HGI Property and DT Portfolio were contributed at values higher than their fair values on the acquisition date as determined in accordance with IFRS. Because the HGI Property and DT Portfolio are accounted for as a business combination and thus using the purchase method of accounting, the value of the net assets contributed in excess of the fair value is treated as goodwill. As a result, the REIT has recorded goodwill as shown in the below table:

	HGI Property	DT Portfolio	Total
Fair value (stabilized appraisal)	$ 37,200	$ 108,200	$ 145,400
Value as recorded on the balance sheet	37,000	96,800	133,800
Goodwill recorded	$ 200	$ 11,400	$ 11,600

(c) Contributions of Other Assets

Other assets contributed to the REIT on March 27, 2019, are recorded at book value. The pro forma balance sheet has been adjusted to reflect the changes in book value of the other assets contributed as compared to the valued presented on the September 30, 2018 financials, as shown below:

NEXPOINT HOSPITALITY TRUST
NOTES TO THE UNAUDITED PRO FORMA CONSOLIDATED FINANCIAL STATEMENTS
(Amounts in thousands of U.S. dollars except unit counts)

	HGI Property	HWS Portfolio	St. Pete Property	Nashville Property	DT Portfolio	Total
	Purchase Accounting	Book Value Accounting	Book Value Accounting	Book Value Accounting	Purchase Accounting	
Value of other assets acquired						
Cash	$ 1,332	$ 905	$ 413	$ 1,685	$ 3,197	7,532
Restricted cash	-	712	-	1,721	470	2,903

Prepaid and other assets	(310)	637	231	489	1,051	2,098
Carrying value of other assets on September 30, 2018 financials	1,572	2,023	4,402	4,746	6,352	19,095
Decrease to other assets	$ (606)	$ 747	$ (3,559)	$ (584)	$ (1,191)	$ (5,192)

The pro forma balance sheet has been adjusted to reflect an additional $5,000 of cash contributed by NREO such that the pro forma unrestricted cash balance is $13,062.

(d) Contributions of Mortgages and Mezzanine Debt

Mortgages and mezzanine contributed to the REIT on March 27, 2019, are recorded at book value. The pro forma balance sheet has been adjusted to reflect the changes in book value of the other assets contributed as shown below:

	HGI Property	HWS Portfolio	St. Pete Property	Nashville Property	DT Portfolio	Total
	Purchase Accounting	Book Value Accounting	Book Value Accounting	Book Value Accounting	Purchase Accounting	
Value of mortgages and other indebtedness acquired	$ 120,108	$ -	$ -	$ 69,392	$ 62,624	252,124
Carrying value of mortgages and other indebtedness on September 30, 2018 financials	$ 20,662	$ 31,641	$ 21,830	$ 68,639	$ 60,805	203,577
Increase to mortgages and other indebtedness	$ 99,446	$ (31,641)	$ (21,830)	$ 753	$ 1,819	$ 48,547

Additionally, as none of the indebtedness has a near term payment due, the $2,149 of principal payments payable in the next twelve months, as presented in the current portion of notes payable, this amount has been moved to notes payable and other borrowings, net.

(e) Contributions of Other Liabilities

Other liabilities contributed to the REIT on March 27, 2019, are recorded at book value. The pro forma balance sheet has been adjusted to reflect the changes in book value of the other liabilities contributed as shown below:

	HGI Property	HWS Portfolio	St. Pete Property	Nashville Property	DT Portfolio	Total
	Purchase Accounting	Book Value Accounting	Book Value Accounting	Book Value Accounting	Purchase Accounting	
Value of other liabilities	$ 700	$ 1,978	$ 727	$ 1,011	$ 1,571	5,986
Carrying value of other liabilities on September 30, 2018 financials	1,786	1,657	1,214	2,697	1,793	9,147
Decrease to other liabilities	$ (1,086)	$ 321	$ (487)	$ (1,686)	$ (222)	$ (3,161)

The pro forma balance sheet has also been adjusted to reflect the issuance of 13,573,391 Class B OP Units with a value of $67,881 issued to settle the Class B Contributions.

The actual amount recorded for each of these assets and liabilities may vary from the pro forma amounts disclosed above as the transactions described in the Prospectus will take place after September 30, 2018, and the variations may be material.

(f) Historical accounts

Elimination of the historical members' equity accounts relating to the Contributors.

(g) Hotel revenues

The pro forma statement of net income (loss) and comprehensive income (loss) for the nine months ended September 30, 2018 has been adjusted to increase room, food and beverage, and other revenues:

(i) by $117, $14 and $28, respectively, to reflect adjustments to the St. Pete Property to add results for the property from September 24, 2018 to September 30, 2018; and

(ii) by $6,106, $446 and $NIL, respectively, to reflect adjustments to the DT Portfolio to add results for the properties from January 1, 2018 to May 3, 2018.

The pro forma statement of net income (loss) and comprehensive income (loss) for the year ended December 31, 2017 has been adjusted to increase room, food and beverage, and other revenue by $3,831, $7, and $51, respectively, to reflect adjustments to the HWS Portfolio to add results for the property from January 1, 2017 to May 4, 2017.

(h) Hotel operating expenses

The pro forma statement of net income (loss) and comprehensive income (loss) for the nine months ended September 30, 2018 has been adjusted to increase operating expenses and general and administrative expenses:

(i) by $89 and $27 respectively, to reflect adjustments to the St. Pete Property to add results for the property from September 24, 2018 to September 30, 2018; and

(ii) by $3,370 and $1,510, respectively, to reflect adjustments to the DT Portfolio to add results for the properties from January 1, 2018 to May 3, 2018.

The pro forma statement of net income (loss) and comprehensive income (loss) for the year ended December 31, 2017 has been adjusted to increase operating expenses and general and administrative expenses by $1,909 and $865, respectively, to reflect adjustments to the HWS Portfolio to add results for the property from January 1, 2017 to May 4, 2017.

(i) Depreciation

The pro forma statement of net income (loss) and comprehensive income (loss) for the nine months ended September 30, 2018 and the year ended December 31, 2017 have been adjusted to increase depreciation expense by $9,883 and $12,339, respectively. The adjustments reflect the increase in depreciation resulting from the increase in the cost basis of the contributed properties.

(j) Advisory fees

To compensate for the Advisor's services, the REIT will pay a monthly advisory fee at an annualized rate of 1.00% of total assets of the REIT (but not on the total assets of the OP, which includes the total assets of the HGI Property and DT Portfolio) to the Advisor. The pro forma statements of net income (loss) and comprehensive income (loss) for the nine months ended September 30, 2018 and the year ended December 31, 2017 have been adjusted to increase advisory expense by $1,782 and $2,376, respectively, to reflect the expected level of advisory fees.

(k) Interest expense, net

The pro forma statements of net income (loss) and comprehensive income (loss) for the nine months ended September 30, 2018 and the year ended December 31, 2017 have been adjusted to increase interest expense, net by $5,421 and $8,212, respectively. The adjustments reflect the new capital structure that will be in place once the Listing is completed and the revised interest expense thereon.

(l) Income tax expense

After Listing, the operations of each hotel will be conducted through taxable REIT subsidiaries. Therefore, it is anticipated that the REIT will have an income tax expense each year. The REIT assumes that on Listing it will qualify as a REIT and it will meet the required REIT conditions thereafter. Income tax expense has been increased to reflect the estimated income tax expense for the nine months ended September 30, 2018 and for the year ended December 31, 2017, by $393 and $524, respectively.

5. Sources and uses of cash

The REIT's sources and uses of cash after the completion of the transactions contemplated in Note 4 are as follows:

Sources:		
Gross proceeds from the Offering	$	4,589
Cash contributed by NREO as part of Initial Transaction		5,000
Uses:		
Offering costs and expenses		(4,059)
Increase in cash at the REIT	$	5,530

6. Unitholders' capital

The REIT is authorized to issue an unlimited number of Units. Each Unit represents a proportionate undivided beneficial ownership interest in the REIT. Each Unit is transferable and entitles the holder thereof to: (i) an equal participation in distributions of the REIT; (ii) rights of redemption; and (iii) one vote at all meetings of unitholders.

On Closing, the REIT anticipates raising gross proceeds pursuant to the Offering of approximately $4,589 through the issuance of 917,700 Units (excluding any over-allotment option). Costs relating to the Offering, including underwriters' fees, are assumed to be $4,059 and are charged directly to unitholders' capital.

On Closing, the REIT also anticipates issuing 14,213,077 Units at $5.00 per unit for a total value of $71,065. Through a series of transactions as described in Note 1, the REIT will indirectly own 14,213,077 Class A OP Units issued by the OP with a total value equal to the value of the REIT Units. The Class A OP Units are eliminated through consolidation of the OP into the REIT (see Note 3(a)).

7. Related party transactions

These pro forma consolidated financial statements include the following transactions with related parties:

The issuance of 8,758,122 Units of the REIT with a value of $43,800 to affiliates of the chief executive officer of the REIT and other officers in connection with the contribution of the HWS Portfolio, the St. Pete Property and the Nashville Property.

8. Commitments and Contingencies

In connection with the Offering, the REIT has agreed to indemnify the underwriters against certain liabilities, including liabilities under applicable securities legislation, or to contribute to payments the underwriters may be required to make in respect of those liabilities. The REIT has agreed to indemnify, in certain circumstances, the Trustees and the officers of the REIT.

INDEPENDENT AUDITORS' REPORT

To the Unitholder of NexPoint Hospitality Trust:

Opinion

We have audited the financial statements of NexPoint Hospitality Trust (the "Entity"), which comprise:

- the statement of financial position as at December 31, 2018;
- the statement of unitholder's capital for the period from December 12, 2018 (date of formation) to December 31, 2018;
- the statement of cash flows for the period from December 12, 2018 (date of formation) to December 31, 2018; and
- notes to the financial statements, including a summary of significant accounting policies.

(Hereinafter referred to as the "financial statements").

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Entity at December 31, 2018 and its cash flows for the period from December 12, 2018 (date of formation) to December 31, 2018 in accordance with International Financial Reporting Standards (IFRS).

Basis for Opinion

We conducted our audit in accordance with Canadian generally accepted auditing standards. Our responsibilities under those standards are further described in the "***Auditors' Responsibilities for the Audit of the Financial Statements***" section of our auditors' report.

We are independent of the Entity in accordance with the ethical requirements that are relevant to our audit of the financial statements in Canada and we have fulfilled our other responsibilities in accordance with these requirements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

KPMG LLP is a Canadian limited liability partnership and a member firm of the KPMG network of independent member firms affiliated with KPMG International Cooperative ("KPMG International"), a Swiss entity. KPMG Canada provides services to KPMG LLP.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with International Financial Reporting Standards (IFRS), and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Entity's ability to continue as a going concern, disclosing as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Entity or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Entity's financial reporting process.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion.

Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian generally accepted auditing standards will always detect a material misstatement when it exists.

Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the financial statements.

As part of an audit in accordance with Canadian generally accepted auditing standards, we exercise professional judgment and maintain professional skepticism throughout the audit.

We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion.

  The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control;

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Entity's internal control;

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management;

- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Entity's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Entity to cease to continue as a going concern;
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation; and
- Communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Note 1. General Information

NexPoint Hospitality Trust (the "REIT") is an unincorporated, open-ended real estate investment trust established pursuant to the Declaration of Trust dated December 12, 2018 (the "Date of Formation"), and is governed by the laws of the Province of Ontario. To date, there have been no operations and the REIT's financial reporting year end will be December 31. The registered office of the REIT is at 333 Bay Street, Suite 3400, Toronto, Ontario. The REIT has been created for the purpose of acquiring a portfolio of 11 hospitality assets located in the United States (the "Initial Portfolio"), to list its shares on the TSX Venture Exchange (the "Listing"), to raise capital to acquire additional U.S. located hospitality assets that meet its investment objectives and criteria and to own, renovate and operate its portfolio of income-producing hotel properties. The REIT is externally managed by NexPoint Real Estate Advisors VI, L.P., which has been formed for the purpose of managing the REIT.

The financial statements of the REIT (the "Financials") have been prepared for the specific purpose of reporting on the historical assets, liabilities and unitholders' equity of the REIT included in, and for the inclusion in, the prospectus to be filed by the REIT. The Financials present the financial position and cash flows of the REIT for the period presented. The Financials are not necessarily indicative of future operating results.

Note 2. Statement of Compliance

The Financials have been prepared in accordance with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB"). The Financials were authorized for issue by the Board of Trustees of the REIT on March 27, 2019.

Note 3. Summary of Significant Accounting Policies

The significant accounting policies used in the preparation of these Financials are described below:

(a) Cash and cash equivalents

Cash and cash equivalents include cash on hand, unrestricted cash and short-term investments. Short-term investments, comprising money market instruments, have an initial maturity of 90 days or less at their date of purchase and are stated at cost, which approximates net realizable value. As of December 12, 2018, there were no cash equivalents.

(b) Unitholder's capital

The REIT Unit is redeemable at the option of the holder and, therefore, is considered a puttable instrument in accordance with International Accounting Standard ("IAS") 32, Financial Instruments – Presentation ("IAS 32"). Puttable instruments are required to be accounted for as financial liabilities, except where certain conditions are met in accordance with IAS 32, in which case, the puttable instruments may be presented as equity. The REIT Unit meets the exemption conditions of IAS 32 and is, therefore, presented as equity. The REIT is authorized to issue an unlimited number of REIT Units. On December 12, 2018, the REIT issued one REIT Unit for cash proceeds of $15.

(c) IFRS Standards and amendments issued but not yet effective:

(i) IFRS 16 – Leases

On January 13, 2016, the IASB issued IFRS 16. IFRS 16 will replace IAS 17, Leases ("IAS 17"). The new standard introduces a single lessee accounting model and requires a lessee to recognize assets and liabilities for all leases with a term of more than 12 months, unless the underlying asset is of low value. A lessee is required to recognize a right-of-use asset, representing its right to use the underlying asset and a lease liability, representing its obligation to make lease payments. This standard substantially carries forward the lessor accounting requirements of IAS 17, while requiring enhanced disclosures to be provided by lessors. Other areas of the lease accounting model have been impacted, including the definition of a lease. Transitional provisions have been provided. The new standard is effective for annual periods beginning on or after January 1, 2019. The REIT intends to adopt these amendments for the annual year beginning on January 1, 2019 and does not expect the new standard to have a material impact on its Financials.

(ii) IFRIC Interpretation 23, Uncertainty over Income Tax Treatments

On June 7, 2017, the IASB issued IFRIC Interpretation 23, Uncertainty over Income Tax Treatments ("IFRIC 23"), which provides guidance on the accounting for current and deferred tax liabilities and assets in circumstances in which there is uncertainty over income tax treatments. IFRIC 23 is applicable for annual periods beginning on or after January 1, 2019. IFRIC 23 requires (i) an entity to contemplate whether uncertain tax treatments should be considered separately, or together as a group, based on which approach provides better predictions of the resolution; (ii) an entity to determine if it is probable that the tax authorities will accept the uncertain tax treatment; and (iii) if it is not probable that the uncertain tax treatment will be accepted, measure the tax uncertainty based on the most likely amount or expected value, depending on whichever method better predicts the resolution of the uncertainty. The REIT intends to adopt the Interpretation for the annual period beginning on January 1, 2019 and does not expect the new standard to have a material impact on its Financials.

(iii) Definition of a Business

On October 22, 2018, the IASB issued amendments to IFRS 3 *Business Combinations*, that seek to clarify whether a transaction results in an asset or a business acquisition. The amendments apply to businesses acquired in annual reporting periods beginning on or after January 1, 2020. Earlier application is permitted. The amendments include an election to use a concentration test. This is a simplified assessment that results in an asset acquisition if substantially all of the fair value of the gross assets is concentrated in a single identifiable asset or a group of similar identifiable assets. If a preparer chooses not to apply the concentration test, or the test is failed, then the assessment focuses on the existence of a substantive process. The REIT intends to adopt these amendments for the annual period beginning on January 1, 2020. The extent of the impact of adoption of the amendments has not yet been determined.

Note 4. Subsequent Events

The REIT evaluated subsequent events through March 27, 2019 to determine if any significant events occurred subsequent to the balance sheet dates that would have a material impact on these Financials and noted the following:

(i) On January 8, 2019, four groups of investors (the "**Contributors**"), contributed their interests in various entities to (i) NHT Holdco LLC ("Holdco") in exchange for 100% of the units of Holdco; and (ii) to a subsidiary of Holdco, NHT Operating Partnership, LLC (the "**OP**") in exchange for 100% of the Class A OP Units of the OP. The closing of these contributions completed the first step in a series of transactions in order to complete the Listing.

(ii) On March 27, 2019 the REIT entered into an agency agreement, whereby the REIT expects to raise gross proceeds of $4,589 pursuant to an initial public offering (the "Offering") through the issuance of 917,700 REIT Units at a price of $5.00 per REIT unit. Costs relating to the Offering, including agency fees, are estimated to be $4,059 and will be charged directly to unitholders' capital.

Subsequent to the transactions noted above, the REIT will indirectly own the Initial Portfolio, which is comprised of eleven hospitality properties located in the U.S.

2325 STEMMONS HOTEL PARTNERS, LLC
NOTES TO THE UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS
(Amounts in thousands of U.S. dollars except unit counts)

Note 1. General Information

2325 Stemmons Hotel Partners, LLC (the "Company") is a limited liability company registered in Delaware, United States of America, and was established on September 11, 2014. The Company was formed to invest in a Hilton Garden Inn hotel property located in Dallas, Texas (the "Property"). The Company is owned by NexPoint Real Estate Opportunities, LLC ("NREO"), through a wholly owned subsidiary, NHT 2325 Stemmons, LLC. NREO owns 95% of the Company. Stemmons Hospitality, LLC ("Stemmons") owns 5% of the Company. The Company is operated by 2325 Stemmons TRS, Inc. (the "Operating Company"), a Delaware corporation and a wholly owned subsidiary of the Company.

NexPoint Hospitality Trust (the "REIT") is a newly-created, unincorporated, real estate investment trust established under the laws of the Province of Ontario. The REIT was formed to aggregate eleven hospitality properties (the "Initial Portfolio") and list its shares on the TSX Venture Exchange (the "Listing"). The REIT will own its properties through its subsidiary NHT Operating Partnership, LLC, (the "OP"). Once the Listing is completed, the REIT will own eleven properties indirectly through its ownership of the OP. In order to consummate the Transaction and Listing, the REIT filed a preliminary prospectus with the Ontario Securities Commission (the "OSC") on December 12, 2018 (the "Offering") to register the units of the REIT.

These consolidated financial statements of the Company consist of the Property and the Operating Company (the "Financials"). The Financials have been prepared for the specific purpose of reporting on the assets, liabilities, members' equity, revenues and expenses of the Company included in, and for the inclusion in, a final prospectus to be filed by the REIT. The Financials present the consolidated financial position, results of operations and cash flows of the Company and the Operating Company for the periods presented. The Financials are not necessarily indicative of future operating results.

Note 2. Basis of Preparation

(i) Statement of Compliance

The Financials have been prepared in accordance with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB").

(ii) Basis of Measurement

These consolidated financial statements have been prepared on a historical cost basis.

(iii) Basis of Presentation

The Financials have been prepared in accordance with IFRS as issued by the IASB. These consolidated financial statements include the accounts of the Company and its wholly owned subsidiary, the Operating Company. All significant intercompany accounts and transactions have been eliminated in consolidation. These consolidated financial statements are presented in U.S. dollars, which is the functional currency of the Company, and all amounts have been rounded to the nearest thousands, except when otherwise indicated.

(iv) Use of estimates, assumptions and judgements

The preparation of financial statements in conformity with IFRS requires management to make estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised and in any future periods affected.

These consolidated financial statements were authorized for issue by the members of the Company and the board of directors of the REIT on March 27, 2019.

Note 3. Summary of Significant Accounting Policies

The significant accounting policies used in the preparation of these consolidated financial statements are described below and have been applied consistently to all periods presented:

(a) Basis of consolidation

The consolidated financial statements comprise the financial statements of the Company and the Operating Company. Intra-company transactions and balances are eliminated in preparing the consolidated financial statements. The consolidated financial statements reflect the consolidated financial position, results of operations and cash flows of the Company and the Operating Company.

(b) Property and equipment

(i) Recognition and measurement

Property and equipment are measured at cost less accumulated depreciation and any accumulated impairment losses. Cost includes expenditures that are directly attributable to the acquisition of the asset. The cost of self-constructed assets includes the cost of materials and direct labor, any other costs directly attributable to bringing the assets to a working condition for their intended use, and borrowing costs on qualifying assets.

When parts of an item of property and equipment have different useful lives, they are accounted for as separate items (major components) of property and equipment.

(ii) Subsequent costs

The cost of replacing a part of an item of property and equipment is recognized in the carrying amount of the item if it is probable that the future economic benefits embodied within the part will flow to the Company and its cost can be measured reliably. The carrying amount of the replaced part is derecognized. The costs of the day-to-day maintenance of property and equipment are recognized in profit or loss as incurred.

(iii) Depreciation

Depreciation is computed on a straight-line basis based on the useful lives of each component of property and equipment. Depreciation on new construction commences in the month after the asset is available for its intended use based upon the useful life of the asset.

Estimated useful lives were determined based on current facts and past experience, and take into consideration the anticipated physical life of the asset and current and forecasted demand. The rates and methods used are reviewed annually at year end to ensure they continue to be appropriate, and are also reviewed in conjunction with impairment testing. Gains/losses on disposition of property and equipment are recognized in profit or loss when the Company has transferred to the purchaser the significant risk and rewards of ownership of the property and equipment and the purchaser has made a substantial commitment demonstrating its intent to honour its obligation.

(c) Impairment of non-financial assets

The carrying amounts of the Company's non-financial assets, other than inventories, are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated.

The recoverable amount of an asset or cash-generating unit is the greater of its value in use and its fair value less costs to sell. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. For the purpose of impairment testing, assets that cannot be tested individually are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or groups of assets (the "cash-generating unit" or "CGU").

When the carrying amount of the asset or CGU exceeds its estimated recoverable amount, an impairment loss is recognized in an amount equal to the excess. When an indication that an impairment loss recognized in prior periods for an asset or CGU other than

goodwill may no longer exist or may have decreased, the recoverable amount of that asset or CGU is estimated. A reversal of an impairment loss is recognized immediately in profit or loss if the recoverable amount of a previously impaired asset or CGU has subsequently increased to the lower of the asset or CGU's recoverable amount or carrying amount had no impairment loss been recognized for the asset or CGU in prior years.

(d) Financial instruments

(i) Classification and measurement of financial assets and liabilities:

Financial instruments are generally measured at fair value on initial recognition. The classification and measurement of financial assets consists of the following categories: (i) measured at amortized cost, (ii) fair value through profit and loss ("FVTPL"), and (iii) fair value through other comprehensive income ("FVTOCI"). Financial assets classified at amortized cost are measured using the effective interest method. Financial assets classified as FVTPL are measured at fair value with gains and losses recognized in the consolidated statement of net income. Financial assets classified as FVTOCI are measured at fair value with gains or losses recognized through other comprehensive income, except for gains and losses pertaining to impairment or foreign exchange recognized through net income.

The classification and measurement of financial liabilities consists of the following categories: (i) measured at amortized cost and (ii) FVTPL. Financial liabilities classified at amortized cost are measured using the effective interest method. Financial liabilities classified as FVTPL are measured at fair value with changes in fair value attributable to changes in the credit risk of the liability presented in other comprehensive income, and the remaining amount of change in fair value presented in the consolidated statement of net income.

The Company has made the following classifications for its financial instruments:

Asset/Liability	**Classification**
Cash and cash equivalents	Amortized cost
Restricted cash	Amortized cost
Trade and other receivables	Amortized cost
Accounts payable and other accrued liabilities	Amortized cost
Notes payable	Amortized cost

The Company derecognizes a financial asset only when the contractual rights to the cash flows from the asset expire or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another entity. The Company derecognizes a financial liability when, and only when, the Company's obligations are discharged, cancelled or they expire. The difference between the carrying amount of the financial liability derecognized and the consideration paid and payable is recognized through net income.

Transaction costs other than those related to financial instruments classified as FVTPL, which are expensed as incurred, are capitalized to the carrying amount of the instrument and amortized using the effective interest method. These costs include interest, amortization of discounts or premiums relating to borrowings, fees and commissions paid to agents, brokers and advisers and transfer taxes and duties.

(ii) Impairment of financial assets

For impairment of financial assets other than investments in equity instruments, contract assets, lease receivables, loan commitments and financial guarantee contracts, the Company applies a forward-looking 'expected credit loss' ("ECL") model. The REIT adopted the practical expedient to determine ECL on trade and other receivables using a provision matrix based on historical credit loss experiences adjusted for current and forecasted future economic conditions to estimate lifetime ECL.

Impairment losses are recorded in the statement of income (loss) and comprehensive income (loss) with the carrying amount of the financial asset or group of financial assets reduced through the use of impairment allowance accounts.

(e) Cash and cash equivalents

The Company considers all liquid investments with original terms to maturity of three months or less when acquired to be cash equivalents. Cash and cash equivalents consist of cash on hand and cash held at banks.

(f) Restricted cash

Restricted cash primarily consists of cash reserves on deposit with lenders in respect of future capital expenditures.

(g) Provisions

A provision is recognized if, as a result of a past event, the Company has a present legal or constructive obligation that can be estimated reasonably, and it is probable that an outflow of economic benefits will be required to settle the obligation. If the time value of money is material, provisions are determined by discounting the expected future cash flows using a current rate that reflects the risk profile of the liability, and the increase to the provision due to the passage of time will be recognized as a finance cost.

(h) Revenue recognition

IFRS 15 establishes a comprehensive framework for determining whether, how much and when revenue is recognized. It replaced IAS 18 Revenue and related interpretations. The standard requires revenue to be recognized in a manner that depicts the transfer of promised goods or services to a customer and at an amount that reflects the consideration expected to be received in exchange for transferring those goods or services. This is achieved by applying the following five steps:

1. identify the contract with a customer;
2. identify the performance obligations in the contract;
3. determine the transaction price;
4. allocate the transaction price to the performance obligations in the contract; and
5. recognize revenue when (or as) the entity satisfies a performance obligation.

Revenue is generated primarily from the operation of the Company's hotels, which includes room rentals, food and beverage sales and other incidental income. Revenue is recognized when services are rendered, the amount is earned, and collectability is reasonably assured. The Company may collect payments in advance of the utilization of a facility. These payments are recorded in accounts payable and other accrued liabilities until such time as the applicable facility is utilized, at which time the customer deposit is recognized as revenue.

(i) Interest expense, net

Net interest expense consists of interest expense on outstanding debt and the amortization of deferred financing costs, net of interest income. Net interest expense is recognized in the period in which it is incurred. Fees and costs related to obtaining debt financing are capitalized against the related debt and amortized over the term of the debt using the straight-line method, which approximates the effective interest method, and are included in net interest expense. The unamortized balance of the fees and costs is recorded as a reduction from the related debt on the Company's consolidated statements of financial position.

(j) Income taxes

(i) The Company

The Company is a limited liability company and is treated like a partnership for U.S. federal income tax purposes. As such, the Company has not recorded a provision for income taxes on its taxable income (see "The Operating Company" below), as the members of the Company are required to report their share of the Company's earnings in their respective income tax returns. The Company's tax returns and the amounts of allocable income or loss are subject to examination by federal and state taxing authorities. If such examinations result in changes to income tax or loss, the tax liability of the members of the Company could be changed accordingly. In certain instances, the Company may be subject to certain state and local taxes.

The Company evaluates the uncertainties of tax positions taken or expected to be taken on a return based on the probability of whether the position taken will be sustained upon examination by tax authorities. As of September 30, 2018 and

December 31, 2017, the Company had no amounts related to unrecognized income tax benefits and no amounts related to accrued interest and penalties. The Company recognizes tax positions taken or to be taken in a tax return when they become probable. The Company concluded that it had no material uncertain tax liabilities to be recognized as of September 30, 2018 and December 31, 2017.

On December 22, 2017, the Tax Cuts and Jobs Act (the "2017 Tax Act") was signed into law in the United States. The most significant change is the reduction of the statutory corporate tax rate from 35 percent to 21 percent, effective January 1, 2018. Many of the provisions in the 2017 Tax Act expire in seven years (at the end of 2025). The Company does not expect the 2017 Tax Act to have a significant impact on its consolidated financial statements.

(ii) The Operating Company

The Operating Company is a taxable REIT subsidiary ("TRS") of the U.S. TRS companies are treated as U.S. corporations subject to U.S federal and state income tax on their taxable income. The income tax effects on the results of the Operating Company accrue directly to the members of the Company. Income tax expense for the nine months ended September 30, 2018 and 2017 was $2 and $22, respectively, which is included in the consolidated statements of comprehensive income.

Deferred tax is recognized in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. Deferred tax is measured at the tax rates that are expected to be applied to temporary differences when they reverse, based on the laws that have been enacted or substantively enacted by the reporting date. Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to income taxes levied by the same tax authority on the same taxable entity, or on different tax entities, but they intend to settle current tax liabilities and assets on a net basis or their tax assets and liabilities will be realized simultaneously.

A deferred tax asset is recognized for unused tax losses, tax credits and deductible temporary differences, to the extent that it is probable that future taxable profits will be available against which they can be utilized. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realized.

(k) Operating segments

The Company currently operates in one business segment, owning and operating one hotel property in the U.S. The primary format for segment reporting is based on geographic region and is consistent with the internal reporting provided to the Company's chief operating decision-maker.

(l) Levies

In accordance with IFRS Interpretations Committee (IFRIC) 21, *Levies*, the Company recognizes the full amount of annual property tax liabilities at the point in time when the realty tax obligation is imposed. This is the obligating event that gives rise to a liability to pay the property taxes.

(m) Use of estimates and assumptions

The preparation of financial statements in conformity with IFRS requires management to make estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities and disclosure of contingent assets and liabilities as of the date of the financial statements, and the reported amounts of revenues and expenses during the reporting periods. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised and in any future periods affected.

(n) Recent accounting pronouncements

(i) IFRS 9 – Financial Instruments

In July 2014, the IASB issued the final publication of the IFRS 9 standard, superseding the current IAS 39, *Financial Instruments: Recognition and Measurement* ("IAS 39") standard ("IFRS 9"). IFRS 9 includes revised guidance on the classification and measurement of financial instruments, including a new expected credit loss model for calculating impairment on financial assets, and the new general hedge accounting requirements. It also carries forward the guidance on recognition and de-recognition of financial instruments from IAS 39. The standard is effective for annual periods beginning on or after January 1, 2018 with early adoption permitted. The Company adopted IFRS 9 on January 1, 2018 and there was no material impact on its consolidated financial statements.

(ii) IFRS 15 – Revenue from Contracts with Customers

In May 2014, the IASB issued IFRS 15, *Revenue from Contract with Customers* ("IFRS 15"), which establishes a new five step model that applies to revenue arising from contracts with customers. The principles in IFRS 15 provide a more structured approach to measuring and recording revenue allowing greater comparability of revenues across industries. The new revenue standard is applicable to all entities and will supersede all current revenue recognition requirements under IFRS. Either a full or modified retrospective application is required for annual periods beginning on or after January 1, 2018, with early adoption permitted. The Company adopted IFRS 15 on January 1, 2018, using the modified retrospective method, and there was no material impact on its Financials.

(iii) IFRS 16 – Leases

IFRS 16, *Leases* ("IFRS 16") was issued in January 2016 and sets out a new model for lease accounting, replacing IAS 17, *Leases*. The most significant effect of the new standard will be the recognition of the initial present value of unavoidable future lease payments as lease assets and lease liabilities on the statement of financial position, including those for most leases that would be currently accounted for as operating leases. Leases with durations of 12 months or less and leases for low value assets may be exempted. IFRS 16 will be effective for accounting periods beginning on or after January 1, 2019. Early adoption will be permitted provided the Company has adopted IFRS 15. The Company intends to adopt IFRS 16 in its consolidated financial statements for the annual period beginning on January 1, 2019 and does not expect the new standard to have a material impact on its consolidated financial statements.

Note 4. Property and Equipment, Net

	Land	Buildings and improvements	Furniture, fixtures and equipment	Total
Cost:				
Balance, December 31, 2017	$ 2,555	$ 25,922	$ 3,101	$ 31,578
Additions	—	96	47	143
Disposals	—	—	—	—
Balance, September 30, 2018	$ 2,555	$ 26,018	$ 3,148	$ 31,721

Carrying amount, September 30, 2018	2,555	21,866	2,653	27,074

The Company's fixed asset additions are primarily related to improvements and upgrades required by the Company's franchise agreement.

2325 STEMMONS HOTEL PARTNERS, LLC
NOTES TO THE UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS
(Amounts in thousands of U.S. dollars except unit counts)

Note 5. Restricted Cash

The Company funded restricted cash reserves for brand mandated property improvement plans ("PIPs") and furniture, fixtures and equipment upgrades arising from the execution of the Company's franchise agreement in 2014. Restricted cash reserves are typically expected to be spent over an 18-24 month period. The amounts are released to the Company as the expenditures are incurred or paid directly to the service provider. As of the year ended December 31, 2017 and the period ended September 30, 2018, the Company had no restricted cash.

Note 6. Operating Expenses

	For the Nine Months Ended September 30,	
	2018	2017
Payroll	$ 1,614	$ 1,573
Repairs and maintenance	293	293
Utilities	211	205
Property taxes and insurance	420	358
Cost of goods sold	396	444
Franchise fees	332	330
Other operating expenses	331	295
Operating expenses	$ 3,597	$ 3,498

Note 7. General and Administrative Expenses

	For the Nine Months Ended September 30,	
	2018	2017
Property management fees	$ 210	$ 326
Office operations	291	327
Marketing	817	726
Other administrative expenses	186	116
General and administrative expenses	$ 1,504	$ 1,495

Note 8. Accounts Payable and Other Accrued Liabilities

	September 30, 2018	December 31, 2017
Trade payables	$ 373	$ 500
Payroll and payroll taxes	175	108
Property taxes	396	491
Property management fees	—	68
Sales and occupancy taxes	123	64
Franchise fees	114	73
Deposits	373	373
Other payables	232	177
Accounts payable and other accrued liabilities	$ 1,786	$ 1,854

Note 9. Note Payable, Net

	September 30, 2018	December 31, 2017
Note payable	$ 21,058	$ 21,359
Less: current maturities	(307)	(294)
Less: unamortized portion of deferred financing costs	(89)	(143)
Note payable, net	$ 20,662	$ 20,922

On December 30, 2014, in connection with the acquisition of the Property, the Company entered into a $24,000 term loan (the "Loan") with a large financial institution and immediately drew $21,632. The Loan is secured by the Property and bears interest at a variable rate equal to the 90-day London InterBank Offered Rate ("LIBOR") plus 3.76%. As of September 30, 2018 and December 31, 2017, the Loan's effective interest rates were 6.16% and 5.25%, respectively. The Loan's first 24 monthly payments were interest only. The Loan matures on January 1, 2020.

The Company's loan agreement contains customary representations, warranties, and events of default, which requires the Company to comply with affirmative and negative covenants. As of September 30, 2018 and December 31, 2017, the Company was in compliance with all covenants of its loan agreement.

Costs related to obtaining debt financing are capitalized and amortized over the term of the related debt using the straight-line method, which approximates the effective interest method, and are included in net interest expense. The unamortized balance of the costs is shown as a reduction of the related debt on the consolidated statements of financial position.

Future principal payments on the Loan, excluding amortization of deferred financing costs, payable within the next five calendar years subsequent to September 30, 2018 are as follows:

	Note payable
2018	$ 66
2019	271
2020	20,721
2021	—
2022	—
Thereafter	—
Total	$ 21,058

Note 10. Interest Expense, Net

	For the Nine Months Ended September 30,	
	2018	2017
Interest on debt	$ 947	$ 804
Amortization of deferred financing costs	54	54
Interest expense, net	$ 1,001	$ 858

Note 11. Members' Capital

The members of the Company have made cash contributions and received cash distributions based on their respective ownership percentages. As of September 30, 2018, cash contributions totaled $9,740 and cash distributions totaled $4,637. All income or loss allocations are based on the member's respective ownership percentage.

Note 12. Financial Instruments

(a) Comparison of fair value to carrying amount

The fair value of a financial instrument is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value may be based on other observable current market transactions in the same instrument, without modification or on a valuation technique using market-based inputs. Fair value measurements recognized in the consolidated statements of financial position are categorized using the following fair value hierarchy that reflects the significance of inputs used in determining the fair values:

- Level 1: Quoted (unadjusted) market prices in active markets for identical assets or liabilities.
- Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, directly or indirectly.
- Level 3: Inputs for the asset or liability that are not based on observable market data (unobservable inputs).

2325 STEMMONS HOTEL PARTNERS, LLC
NOTES TO THE UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS
(Amounts in thousands of U.S. dollars except unit counts)

As of September 30, 2018 and December 31, 2017, the carrying amounts of the Company's cash and cash equivalents, restricted cash, trade and other receivables, prepaid and other assets and accounts payables and other accrued liabilities approximated their fair values due to the short-term nature of these financial assets and liabilities.

The fair value of note payable is estimated by discounting the future cash flows using discount rates that reflect current market conditions for instruments having similar terms and conditions. Discount rates are either provided by lenders or are observable in the open market. As of September 30, 2018 and December 31, 2017, the carrying amount of the Company's note payable approximated its fair value.

(b) Financial risk management

The Company may be exposed to a number of risks in its normal course of operations from use of financial instruments. These risks, and the actions taken to manage them, are as follows:

(i) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in the market interest rates.

The Company's Loan bears interest at a variable rate. Fluctuations in interest rates will impact the cost of financing incurred in the future. The Company monitors its interest rate exposure on an ongoing basis.

As of September 30, 2018, every 1% increase or decrease in the applicable interest rate, assuming all other variables are constant, would result in a corresponding change of approximately $211 in the Company's net interest expense on an annual basis.

(ii) Credit risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligation. The maximum exposure to credit risk is the full carrying amount of the financial instrument.

The Company is exposed to credit risk with respect to trade and other receivables. For the nine months ended September 30, 2018 and 2017, bad debt expense was $0 and $2, respectively. Credit risk of trade and other receivables is mitigated by initiating a prompt collection process.

(iii) Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they fall due. Property and equipment investments tend to be relatively illiquid, with the degree of liquidity generally fluctuating in relation to demand for and the perceived desirability of such investments. If the Company was required to sell the Property, the proceeds to the Company may be significantly less than the Property's carrying amount.

The Company manages liquidity risk through monitoring the repayment date and refinancing date of its note payable, monitoring its debt covenants and managing its cash flows. The Company's objective is to maintain sufficient available access to capital to fund ongoing operational and capital requirements. As of September 30, 2018 and December 31, 2017, the Company had cash and cash equivalents of $1,355 and $2,969, respectively.

The following table provides information on the carrying amounts and the non-discounted contractual maturities of financial liabilities with fixed repayment terms, including estimated interest payments using the 90-day LIBOR rate of 2.40% as of September 30, 2018:

	Carrying amount	Contractual cash flows	1 Year	More than 1 Year
Note payable	$ 21,058	$ 21,058	$ 307	$ 20,751
Interest payable on note	—	1,636	1,312	324
Accounts payable and other accrued liabilities	1,786	1,786	1,786	—
Total	$ 22,844	$ 24,480	$ 3,405	$ 21,075

2325 STEMMONS HOTEL PARTNERS, LLC
NOTES TO THE UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS
(Amounts in thousands of U.S. dollars except unit counts)

Note 13. Capital Management

The Company defines capital as the aggregate of members' equity and note payable. The Company's objectives in managing capital are to maintain a level of capital that: complies with investment and debt restrictions pursuant to the Company's operating agreement; complies with existing debt covenants; funds its business strategies; and builds long-term members' value. Capital adequacy is monitored by the Company by assessing performance against the approved annual plan throughout the year and by monitoring adherence to investment and debt restrictions contained in the Company's operating agreement and debt covenants.

Note 14. Segment Reporting

The Company currently operates in one business segment, owning and operating one hotel property in the U.S. The primary format for segment reporting is based on geographic region and is consistent with the internal reporting provided to the Company's chief operating decision-maker. Accordingly, the Company has a single reportable segment for disclosure purposes in accordance with IFRS.

Note 15. Commitments and Contingencies

(a) Franchise agreement

The Property is operated under a franchise agreement (the "Franchise Agreement") with a subsidiary of Hilton Worldwide (the "Franchisor"). The Franchise Agreement was executed on October 22, 2014 and has a 15-year term. The Franchise Agreement requires the payment of a monthly royalty fee of 5.5% and a monthly program fee of 4.3% of the Property's gross room revenue. For the nine months ended September 30, 2018 and 2017, franchise fees were $332 and $330, respectively, and are included in operating expenses in the consolidated statements of comprehensive income. For the nine months ended September 30, 2018 and 2017, program fees were $260 and $258, respectively, and are included in general and administrative expenses in the consolidated statements of comprehensive income.

(b) Litigation

In the normal course of operations, the Company may become subject to a variety of legal and other claims. The Company evaluates all claims on their apparent merits and, if necessary, the Company accrues for its best estimate of the costs to satisfy such claims. While it is not possible to ascertain the ultimate outcome of all such matters, the Company believes that the aggregate amount of such liabilities, if any, in excess of amounts provided or covered by insurance, will not have a material adverse effect on these consolidated financial statements. The Company is not involved in any material litigation nor, to the Company's knowledge, is any material litigation currently threatened against the Company, the Operating Company or the Property.

Note 16. Supplemental Cash Flow Disclosure

Reconciliation of changes in liabilities and members' equity, including movements of liabilities to cash flows arising from financing activities for the period ended September 30, 2018 were as follows:

	Liabilities			
	Current portion of note payable	Note payable, net	Members' equity	Total
Balance January 1, 2018	$ 294	$ 20,922	$ 8,095	$ 29,311
Changes from financing cash flows:				
Amortization of deferred financing costs	-	54	-	54
Reclass from note payable, net to current portion	13	(13)	-	-
Principal payments on notes payable	-	(301)	-	(301)
Distributions	-	-	(2,030)	(2,030)
Total changes from financing cash flows	13	(260)	(2,030)	(2,277)
Comprehensive Income (loss)	-	-	(174)	(174)
Balance September 30, 2018	$ 307	$ 20,662	$ 5,891	$ 26,860

Note 17. Subsequent Events

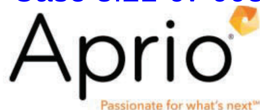
The Company evaluated subsequent events through March 27, 2019 to determine if any significant events occurred subsequent to the balance sheet dates that would have a material impact on these consolidated financial statements. On January 8, 2019, the Company was contributed to a newly formed entity, NHT 2325 Stemmons, LLC, which was immediately contributed to the OP in exchange for 3,944,221 Class B Units of the OP.

2325 STEMMONS HOTEL PARTNERS, LLC

Consolidated Financial Statements

As at December 31, 2017, December 31, 2016, December 31, 2015 and January 1, 2015 and for the years ended December 31, 2017, December 31, 2016 and December 31, 2015

(With Independent Auditors' Report Thereon)



INDEPENDENT AUDITORS' REPORT

To the Board of Trustees of
Nexpoint Hospitality Trust

We have audited the accompanying consolidated financial statements of 2325 Stemmons Hotel Partners, LLC, which comprise the consolidated statements of financial position as of December 31, 2017, December 31, 2016, December 31, 2015, and January 1, 2015 and the related consolidated statements of net income and comprehensive income, members' equity, and cash flows for the years then ended, and the related notes to the consolidated financial statements.

Management's Responsibility for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with International Financial Reporting Standards as issued by the International Accounting Standards Board; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and in accordance with International Standards on Auditing. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditors consider internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the consolidated financial position of 2325 Stemmons Hotel Partners, LLC as of December 31, 2017, December 31, 2016, December 31, 2015, and January 1, 2015 and the results of its consolidated net income and comprehensive income, changes in equity and its cash flows for the years then ended in accordance with International Financial Reporting Standards as issued by the International Accounting Standards Board.

2325 STEMMONS HOTEL PARTNERS, LLC
NOTES TO THE AUDITED CONSOLIDATED FINANCIAL STATEMENTS
(Amounts in thousands of U.S. dollars except unit counts)

Note 1. General Information

2325 Stemmons Hotel Partners, LLC (the "Company") is a limited liability company registered in Delaware, United States of America, and was established on September 11, 2014. The Company was formed to invest in a Hilton Garden Inn hotel property located in Dallas, Texas (the "Property"). The Company is owned by NexPoint Real Estate Opportunities, LLC ("NREO"), through a wholly owned subsidiary, NHT 2325 Stemmons, LLC. NREO owns 95% of the Company. Stemmons Hospitality, LLC ("Stemmons") owns 5% of the Company. The Company is operated by 2325 Stemmons TRS, Inc. (the "Operating Company"), a Delaware corporation and a wholly owned subsidiary of the Company.

NexPoint Hospitality Trust (the "REIT") is a newly-created, unincorporated, real estate investment trust established under the laws of the Province of Ontario. The REIT was formed to aggregate eleven hospitality properties (the "Initial Portfolio") and list its shares on the TSX Venture Exchange (the "Listing"). The REIT will own its properties through its subsidiary NHT Operating Partnership, LLC, (the "OP"). Once the Listing is completed, the REIT will own eleven properties indirectly through its ownership of the OP. In order to consummate the Listing, the REIT filed a preliminary prospectus with the Ontario Securities Commission (the "OSC") on December 12, 2018 (the "Offering") to register the units of the REIT.

These consolidated financial statements of the Company consist of the Property and the Operating Company (the "Financials"). The Financials have been prepared for the specific purpose of reporting on the assets, liabilities, members' equity, revenues and expenses of the Company included in, and for the inclusion in, a final prospectus to be filed by the REIT. The Financials present the consolidated financial position, results of operations and cash flows of the Company and the Operating Company for the periods presented. The Financials are not necessarily indicative of future operating results.

Note 2. Basis of Preparation

(a) Statement of Compliance

The Financials have been prepared in accordance with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB"). These are the Company's first consolidated financial statements prepared in accordance with IFRS; the Company adopted IFRS in accordance with IFRS 1, *First-Time Adoption of International Reporting Standards*. An explanation or reconciliation of how the transition to IFRS has affected the Company's consolidated financial position, results of operations and cash flows has not been presented as the Company has not presented consolidated financial statements in previous years. The date of transition to IFRS was January 1, 2015.

(b) Basis of Measurement

These consolidated financial statements have been prepared on a historical cost basis.

(c) Basis of Presentation

These consolidated financial statements have been prepared in accordance with IFRS as issued by the IASB. These consolidated financial statements include the accounts of the Company and its wholly owned subsidiary, the Operating Company. All significant intercompany accounts and transactions have been eliminated in consolidation. These consolidated financial statements are presented in U.S. dollars, which is the functional currency of the Company, and all amounts have been rounded to the nearest thousands, except when otherwise indicated.

(d) Use of estimates, assumptions and judgements
