The preparation of financial statements in conformity with IFRS requires management to make estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised and in any future periods affected.

These consolidated financial statements were authorized for issue by the members of the Company and the board of directors of the REIT on March 27, 2019.

Note 3. Summary of Significant Accounting Policies

The significant accounting policies used in the preparation of these consolidated financial statements are described below and have been applied consistently to all periods presented:

(a) Basis of consolidation

The consolidated financial statements comprise the financial statements of the Company and the Operating Company. Intra-company transactions and balances are eliminated in preparing the consolidated financial statements. The consolidated financial statements reflect the consolidated financial position, results of operations and cash flows of the Company and the Operating Company.

(b) Property and equipment

(i) Recognition and measurement

Property and equipment are measured at cost less accumulated depreciation and any accumulated impairment losses. Cost includes expenditures that are directly attributable to the acquisition of the asset. The cost of self-constructed assets includes the cost of materials and direct labor, any other costs directly attributable to bringing the assets to a working condition for their intended use, and borrowing costs on qualifying assets.

When parts of an item of property and equipment have different useful lives, they are accounted for as separate items (major components) of property and equipment.

(ii) Subsequent costs

The cost of replacing a part of an item of property and equipment is recognized in the carrying amount of the item if it is probable that the future economic benefits embodied within the part will flow to the Company and its cost can be measured reliably. The carrying amount of the replaced part is derecognized. The costs of the day-to-day maintenance of property and equipment are recognized in profit or loss as incurred.

(iii) Depreciation

Depreciation is computed on a straight-line basis based on the useful lives of each component of property and equipment. Depreciation on new construction commences in the month after the asset is available for its intended use based upon the useful life of the asset.

Estimated useful lives were determined based on current facts and past experience, and take into consideration the anticipated physical life of the asset and current and forecasted demand. The rates and methods used are reviewed annually at year-end to ensure they continue to be appropriate, and are also reviewed in conjunction with impairment testing.

Gains/losses on disposition of property and equipment are recognized in profit or loss when the REIT has transferred to the purchaser the significant risk and rewards of ownership of the property and equipment and the purchaser has made a substantial commitment demonstrating its intent to honour its obligation.

(c) Impairment of non-financial assets

The carrying amounts of the Company's non-financial assets, other than inventories, are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated.

The recoverable amount of an asset or cash-generating unit is the greater of its value in use and its fair value less costs to sell. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. For the purpose of impairment testing, assets that cannot be tested individually are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or groups of assets (the "cash-generating unit" or "CGU").

When the carrying amount of the asset or CGU exceeds its estimated recoverable amount, an impairment loss is recognized in an amount equal to the excess. When an indication that an impairment loss recognized in prior periods for an asset or CGU other than goodwill may no longer exist or may have decreased, the recoverable amount of that asset or CGU is estimated. A reversal of an impairment loss is recognized immediately in profit or loss if the recoverable amount of a previously impaired asset or CGU has subsequently increased to the lower of the asset or CGU's recoverable amount or carrying amount had no impairment loss been recognized for the asset or CGU in prior years.

(d) Financial instruments

(i) Financial assets

The Company's financial assets are comprised of cash and cash equivalents, restricted cash, trade and other receivables and prepaid and other assets. The Company classifies these financial assets as loans and receivables. The Company initially recognizes loans and receivables on the date that they are originated. Loans and receivables are financial assets with fixed or determinable payments that are not quoted in an active market. Such assets are recognized initially at fair value plus any directly attributable transaction costs. Subsequent to initial recognition, loans and receivables are measured at amortized cost using the effective interest method, less any impairment losses.

(ii) Financial liabilities

The Company has the following non-derivative financial liabilities: accounts payable and other accrued liabilities and note payable. The Company classifies each of its non-derivative financial liabilities as other financial liabilities. Initial measurement is at fair value plus any directly attributable transaction costs. Subsequent to initial recognition, these non-derivative financial liabilities are measured at amortized cost using the effective interest method. All non-derivative financial liabilities are initially recognized on the date that the Company becomes a party to the contractual provisions of the instrument. The Company derecognizes a financial liability when its contractual obligations are discharged or cancelled or expire.

(iii) Impairment of financial assets

Loans and receivables are assessed at each reporting date to determine whether there is objective evidence that they are impaired. A financial asset is impaired if objective evidence indicates that a loss event has occurred after the initial recognition of the asset, and that the loss event had a negative effect on the estimated future cash flows of that asset that can be estimated reliably. Objective evidence that financial assets are impaired can include default or delinquency by a debtor, restructuring of an amount due to the Company on terms that the Company would not consider otherwise, or indications that a debtor or issuer will enter bankruptcy.

The Company considers evidence of impairment for loans and receivables at both a specific asset and collective level. All individually significant loans and receivables are assessed for specific impairment. All individually significant loans and receivables found not to be specifically impaired are then collectively assessed for any impairment that has been incurred but not yet identified. Loans and receivables that are not individually significant are collectively assessed for impairment by grouping together loans and receivables with similar risk characteristics.

An impairment loss in respect of a financial asset measured at amortized cost is calculated as the difference between its carrying amount and the present value of the estimated future cash flows, discounted using the instrument's original effective interest rate. Losses are recognized in profit or loss and reflected in an allowance account against receivables. Interest on the impaired asset continues to be recognized through the unwinding of the discount. When a subsequent event causes the amount of impairment loss to decrease, the decrease in impairment loss is reversed through profit or loss.

(e) Cash

The Company considers all liquid investments with original terms to maturity of three months or less when acquired to be cash equivalents. Cash consists of cash on hand and cash held at banks.

(f) Restricted cash

Restricted cash primarily consists of cash reserves on deposit with lenders in respect of future capital expenditures.

(g) Provisions

A provision is recognized if, as a result of a past event, the Company has a present legal or constructive obligation that can be estimated reasonably, and it is probable that an outflow of economic benefits will be required to settle the obligation. If the time value of money is material, provisions are determined by discounting the expected future cash flows using a current rate that reflects the risk profile of the liability, and the increase to the provision due to the passage of time will be recognized as a finance cost.

(h) Revenue recognition

Revenue is generated primarily from the operation of the Company's hotel, which includes room rentals, food and beverage sales and other incidental income. Revenue is recognized when services are rendered, the amount is earned, and collectability is reasonably assured. The Company may collect payments in advance of the utilization of a facility. These payments are recorded in accounts payable and other accrued liabilities until such time as the applicable facility is utilized, at which time the customer deposit is recognized as revenue.

(i) Interest expense, net

Net interest expense consists of interest expense on outstanding debt and the amortization of deferred financing costs, net of interest income. Net interest expense is recognized in the period in which it is incurred. Fees and costs related to obtaining debt financing are capitalized against the related debt and amortized over the term of the debt using the straight-line method, which approximates the effective interest method, and are included in net interest expense. The unamortized balance of the fees and costs is recorded as a reduction from the related debt on the Company's consolidated statements of financial position.

(j) Income taxes

(i) The Company

The Company is a limited liability company and is treated like a partnership for U.S. federal income tax purposes. As such, the Company has not recorded a provision for income taxes on its taxable income (see "The Operating Company" below), as the members of the Company are required to report their share of the Company's earnings in their respective income tax returns. The Company's tax returns and the amounts of allocable income or loss are subject to examination by federal and state taxing authorities. If such examinations result in changes to income tax or loss, the tax liability of the members of the Company could be changed accordingly. In certain instances, the Company may be subject to certain state and local taxes.

The Company evaluates the uncertainties of tax positions taken or expected to be taken on a return based on the probability of whether the position taken will be sustained upon examination by tax authorities. As of December 31, 2017, 2016 and 2015 and January 1, 2015, the Company had no amounts related to unrecognized income tax benefits and no amounts related to accrued interest and penalties. The Company recognizes tax positions taken or to be taken in a tax return when they become probable. The Company concluded that it had no material uncertain tax liabilities to be recognized as of December 31, 2017, 2016 and 2015 and January 1, 2015.

On December 22, 2017, the Tax Cuts and Jobs Act (the "2017 Tax Act") was signed into law in the United States. The most significant change is the reduction of the statutory corporate tax rate from 35 percent to 21 percent, effective January 1, 2018. Many of the provisions in the 2017 Tax Act expire in seven years (at the end of 2025). The Company does not expect the 2017 Tax Act to have a significant impact on its consolidated financial statements.

(ii) The Operating Company

The Operating Company is a taxable REIT subsidiary ("TRS") of the U.S. TRS companies are treated as U.S. corporations subject to U.S federal and state income tax on their taxable income. The income tax effects on the results of the Operating Company accrue directly to the members of the Company. Income tax expense for the years ended December 31, 2017,

2016 and 2015 was $30, $41 and $120, respectively, which is included in the consolidated statements of comprehensive income.

Deferred tax is recognized in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. Deferred tax is measured at the tax rates that are expected to be applied to temporary differences when they reverse, based on the laws that have been enacted or substantively enacted by the reporting date. Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to income taxes levied by the same tax authority on the same taxable entity, or on different tax entities, but they intend to settle current tax liabilities and assets on a net basis or their tax assets and liabilities will be realized simultaneously.

A deferred tax asset is recognized for unused tax losses, tax credits and deductible temporary differences, to the extent that it is probable that future taxable profits will be available against which they can be utilized. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realized.

(k) Operating segments

The Company currently operates in one business segment, owning and operating one hotel property in the U.S. The primary format for segment reporting is based on geographic region and is consistent with the internal reporting provided to the Company's chief operating decision-maker.

(l) Levies

In accordance with IFRS Interpretations Committee (IFRIC) 21, *Levies*, the Company recognizes the full amount of annual property tax liabilities at the point in time when the realty tax obligation is imposed. This is the obligating event that gives rise to a liability to pay the property taxes.

(m) Use of estimates and assumptions

The preparation of financial statements in conformity with IFRS requires management to make estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities and disclosure of contingent assets and liabilities as of the date of the financial statements, and the reported amounts of revenues and expenses during the reporting periods. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised and in any future periods affected.

(n) Recent accounting pronouncements

(i) IAS 7 – Statement of Cash Flows

In January 2016, the IASB issued amendments to International Accounting Standards ("IAS") 7, *Statement of Cash Flows* ("IAS 7"). The amendments apply prospectively for annual periods beginning on or after January 1, 2017 and require disclosures that enable users of financial statements to evaluate changes in liabilities arising from financing activities, including both changes arising from cash flows and non-cash changes. The Company implemented the amendments to IAS 7 on January 1, 2017 and there was no material impact on its consolidated financial statements.

(ii) IFRS 9 – Financial Instruments

In July 2014, the IASB issued the final publication of the IFRS 9 standard, superseding the current IAS 39, *Financial Instruments: Recognition and Measurement* ("IAS 39") standard ("IFRS 9"). IFRS 9 includes revised guidance on the classification and measurement of financial instruments, including a new expected credit loss model for calculating impairment on financial assets, and the new general hedge accounting requirements. It also carries forward the guidance on recognition and de-recognition of financial instruments from IAS 39. The standard is effective for annual periods beginning on or after January 1, 2018 with early adoption permitted. The Company intends to adopt IFRS 9 in its

consolidated financial statements for the annual period beginning on January 1, 2018 and does not expect the new standard to have a material impact on its consolidated financial statements.

(iii) IFRS 15 – Revenue from Contracts with Customers

In May 2014, the IASB issued IFRS 15, *Revenue from Contract with Customers* ("IFRS 15"), which establishes a new five step model that applies to revenue arising from contracts with customers. The principles in IFRS 15 provide a more structured approach to measuring and recording revenue allowing greater comparability of revenues across industries. The new revenue standard is applicable to all entities and will supersede all current revenue recognition requirements under IFRS. Either a full or modified retrospective application is required for annual periods beginning on or after January 1, 2018, with early adoption permitted. The Company intends to adopt IFRS 15 in its consolidated financial statements for the annual period beginning on January 1, 2018. The Company has performed an in-depth assessment of IFRS 15 to determine what the impact of the adoption of the new standard will have on the Company's consolidated financial statements. Based on the nature of the Company's operations to own and operate a hotel, the Company does not expect there to be a material impact on the timing and measurement of revenue recognized as compared to the previous standard. Additional disclosures will be required to comply with IFRS 15.

(iv) IFRS 16 – Leases

IFRS 16, *Leases* ("IFRS 16") was issued in January 2016 and sets out a new model for lease accounting, replacing IAS 17, *Leases*. The most significant effect of the new standard will be the recognition of the initial present value of unavoidable future lease payments as lease assets and lease liabilities on the statement of financial position, including those for most leases that would be currently accounted for as operating leases. Leases with durations of 12 months or less and leases for low value assets may be exempted. IFRS 16 will be effective for accounting periods beginning on or after January 1, 2019. Early adoption will be permitted provided the Company has adopted IFRS 15. The Company intends to adopt IFRS 16 in its consolidated financial statements for the annual period beginning on January 1, 2019 and does not expect the new standard to have a material impact on its consolidated financial statements.

The Company's fixed asset additions are primarily related to improvements and upgrades required by the Company's franchise agreement.

Note 5. Restricted Cash

The Company funded restricted cash reserves for brand mandated property improvement plans ("PIPs") and furniture, fixtures and equipment upgrades arising from the execution of the Company's franchise agreement in 2014. Restricted cash reserves are typically expected to be spent over an 18-24 month period. The amounts are released to the Company as the expenditures are incurred or paid directly to the service provider. As of the years ended December 31, 2017, December 31, 2016, and December 31, 2015 and as of January 1, 2015, the Company had $0, $0, $148 and $0 of restricted cash, respectively.

Note 9. Note Payable, Net

	December 31, 2017	December 31, 2016	December 31, 2015	January 1, 2015
Note payable	$ 21,359	$ 21,632	$ 21,632	$ 21,632
Less: current maturities	(294)	(273)	—	—
Less: unamortized portion of deferred financing costs	(143)	(215)	(287)	(359)
Note payable, net	$ 20,922	$ 21,144	$ 21,345	$ 21,273

On December 30, 2014, in connection with the acquisition of the Property, the Company entered into a $24,000 term loan (the "Loan") with a large financial institution and immediately drew $21,632. The Loan is secured by the Property and bears interest at a variable rate equal to the 90-day London InterBank Offered Rate ("LIBOR") plus 3.76%. As of December 31, 2017, 2016 and 2015 and January 1, 2015, the Loan's effective interest rates were 5.25%, 4.69%, 4.37% and 4.02%, respectively. The Loan's first 24 monthly payments were interest only. The Loan matures on January 1, 2020.

The Company's loan agreement contains customary representations, warranties, and events of default, which requires the Company to comply with affirmative and negative covenants. As of December 31, 2017, 2016 and 2015 and January 1, 2015, the Company was in compliance with all covenants of its loan agreement.

Costs related to obtaining debt financing are capitalized and amortized over the term of the related debt using the straight-line method, which approximates the effective interest method, and are included in net interest expense. The unamortized balance of the costs is shown as a reduction of the related debt on the consolidated statements of financial position.

Future principal payments on the Loan, excluding amortization of deferred financing costs, payable within the next five calendar years subsequent to December 31, 2017 are as follows:

	Note payable
2018	$ 294
2019	310
2020	20,755
2021	—
2022	—
Thereafter	—
Total	$ 21,359

Note 10. Interest Expense, Net

	For the Year Ended December 31,		
	2017	**2016**	**2015**
Interest on debt	$ 1,086	$ 987	$ 890
Amortization of deferred financing costs	72	72	72
Interest expense, net	$ 1,158	$ 1,059	$ 962

Note 11. Members' Capital

The members of the Company have made cash contributions and received cash distributions based on their respective ownership percentages. As of December 31, 2017, cash contributions totaled $9,740 and cash distributions totaled $2,607. All income or loss allocations are based on the member's respective ownership percentage.

Note 12. Financial Instruments

(a) Comparison of fair value to carrying amount

The fair value of a financial instrument is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value may be based on other observable current market transactions in the same instrument, without modification or on a valuation technique using market-based inputs. Fair value measurements recognized in the consolidated statements of financial position are categorized using the following fair value hierarchy that reflects the significance of inputs used in determining the fair values:

- Level 1: Quoted (unadjusted) market prices in active markets for identical assets or liabilities.
- Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, directly or indirectly.
- Level 3: Inputs for the asset or liability that are not based on observable market data (unobservable inputs).

As of December 31, 2017, 2016 and 2015 and January 1, 2015, the carrying amounts of the Company's cash and cash equivalents, restricted cash, trade and other receivables, prepaid and other assets, accounts payables and other accrued liabilities approximated their fair values due to the short-term nature of these financial assets and liabilities.

The fair value of note payable is estimated by discounting the future cash flows using discount rates that reflect current market conditions for instruments having similar terms and conditions. Discount rates are either provided by lenders or are observable in the

open market. As of December 31, 2017, 2016 and 2015 and January 1, 2015, the carrying amount of the Company's note payable approximated its fair value.

(b) Financial risk management

The Company may be exposed to a number of risks in its normal course of operations from use of financial instruments. These risks, and the actions taken to manage them, are as follows:

(i) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in the market interest rates.

The Company's Loan bears interest at a variable rate. Fluctuations in interest rates will impact the cost of financing incurred in the future. The Company monitors its interest rate exposure on an ongoing basis.

As of December 31, 2017, every 1% increase or decrease in the applicable interest rate, assuming all other variables are constant, would result in a corresponding change of approximately $214 in the Company's net interest expense on an annual basis.

(ii) Credit risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligation. The maximum exposure to credit risk is the full carrying amount of the financial instrument.

The Company is exposed to credit risk with respect to trade and other receivables. For the years ended December 31, 2017, 2016 and 2015, bad debt expense was $2, $0, and $0, respectively. Credit risk of trade and other receivables is mitigated by initiating a prompt collection process.

(iii) Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they fall due. Property and equipment investments tend to be relatively illiquid, with the degree of liquidity generally fluctuating in relation to demand for and the perceived desirability of such investments. If the Company was required to sell the Property, the proceeds to the Company may be significantly less than the Property's carrying amount.

The Company manages liquidity risk through monitoring the repayment date and refinancing date of its note payable, monitoring its debt covenants and managing its cash flows. The Company's objective is to maintain sufficient available access to capital to fund ongoing operational and capital requirements. As of December 31, 2017, 2016 and 2015 and January 1, 2015, the Company had cash and cash equivalents of $2,969, $1,957, $737 and $409, respectively.

The following table provides information on the carrying amounts and the non-discounted contractual maturities of financial liabilities with fixed repayment terms, including estimated interest payments using the 90-day LIBOR rate of 1.69% as of December 31, 2017:

	Carrying amount	Contractual cash flows	1 Year	More than 1 Year
Note payable	$ 21,359	$ 21,359	$ 294	$ 21,065
Interest payable on note	—	2,327	1,172	1,155
Accounts payable and other accrued liabilities	1,854	1,854	1,854	—
Total	$ 23,213	$ 25,540	$ 3,320	$ 22,220

Note 13. Capital Management

The Company defines capital as the aggregate of members' equity and note payable. The Company's objectives in managing capital are to maintain a level of capital that: complies with investment and debt restrictions pursuant to the Company's operating

agreement; complies with existing debt covenants; funds its business strategies; and builds long-term members' value. Capital adequacy is monitored by the Company by assessing performance against the approved annual plan throughout the year and by monitoring adherence to investment and debt restrictions contained in the Company's operating agreement and debt covenants.

Note 14. Segment Reporting

The Company currently operates in one business segment, owning and operating one hotel property in the U.S. The primary format for segment reporting is based on geographic region and is consistent with the internal reporting provided to the Company's chief operating decision-maker. Accordingly, the Company has a single reportable segment for disclosure purposes in accordance with IFRS.

Note 15. Commitments and Contingencies

(a) Franchise agreement

The Property is operated under a franchise agreement (the "Franchise Agreement") with a subsidiary of Hilton Worldwide (the "Franchisor"). The Franchise Agreement was executed on October 22, 2014 and has a 15-year term. The Franchise Agreement requires the payment of a monthly royalty fee of 5.5% and a monthly program fee of 4.3% of the Property's gross room revenue. For the years ended December 31, 2017, 2016 and 2015, franchise fees were $431, $449 and $390, respectively, and are included in operating expenses in the consolidated statements of comprehensive income. For the years ended December 31, 2017, 2016 and 2015, program fees were $337, $340 and $269, respectively, and are included in general and administrative expenses in the consolidated statements of comprehensive income.

(b) Litigation

In the normal course of operations, the Company may become subject to a variety of legal and other claims. The Company evaluates all claims on their apparent merits and, if necessary, the Company accrues for its best estimate of the costs to satisfy such claims. While it is not possible to ascertain the ultimate outcome of all such matters, the Company believes that the aggregate amount of such liabilities, if any, in excess of amounts provided or covered by insurance, will not have a material adverse effect on these consolidated financial statements. The Company is not involved in any material litigation nor, to the Company's knowledge, is any material litigation currently threatened against the Company, the Operating Company or the Property.

Note 16. Supplemental Cash Flow Disclosure

Reconciliation of changes in liabilities and members' equity, including movements of liabilities to cash flows arising from financing activities for the year ended December 31, 2017 was as follows:

	Liabilities				
	Accounts payable	Current portion of note payable	Note payable, net	Members' equity	Total

Note 17. Subsequent Events

The Company evaluated subsequent events through March 27, 2019 to determine if any significant events occurred subsequent to the balance sheet dates that would have a material impact on these consolidated financial statements. On January 8, 2019, the Company was contributed to a newly formed entity, NHT 2325 Stemmons, LLC, which was immediately contributed to the OP in exchange for 3,944,221 Class B Units of the OP.

NREO NW HOSPITALITY, LLC
NOTES TO THE UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS
(Amounts in thousands of U.S. dollars except unit counts)

Note 1. General Information

NREO NW Hospitality, LLC (the "Company") is a Delaware, United States of America, limited liability company established on May 3, 2018. The Company was formed to acquire five hospitality properties (the "DT Portfolio" or "Properties," see table below) on May 3, 2018 from an independent third party, BRE GM Hotel JV Holdings, LLC.

The accompanying combined financial statements of the Company consists of the DT Portfolio with Hilton Franchise Holding LLC, a subsidiary of Hilton Worldwide (the "Franchisor"). The Properties are wholly-owned by various subsidiaries of the Company and the operations of the Company are conducted through taxable REIT subsidiaries (the "Operating Companies"). The Company and its subsidiaries were formed on May 3, 2018, under the laws of the state of Delaware.

Property Name	Location
DoubleTree Beaverton	Beaverton, OR
DoubleTree Bend	Bend, OR
DoubleTree Tigard	Tigard, OR
DoubleTree Olympia	Olympia, WA
DoubleTree Vancouver	Vancouver, WA

NexPoint Hospitality Trust (the "REIT") is a newly-created, unincorporated, real estate investment trust established under the laws of the Province of Ontario. The REIT was formed to aggregate eleven hospitality properties (the "Initial Portfolio") and list its shares on the TSX Venture Exchange (the "Listing"). The REIT will own its properties through its subsidiary NHT Operating Partnership, LLC, (the "OP"). Once the Listing is completed, the REIT will own eleven properties indirectly through its ownership of the OP. In order to consummate the Transaction and Listing, the REIT filed a preliminary prospectus with the Ontario Securities Commission (the "OSC") on December 12, 2018 (the "Offering") to register the units of the REIT.

These consolidated financial statements of the Company consist of the Property and the Operating Company (the "Financials"). The Financials have been prepared for the specific purpose of reporting on the assets, liabilities, members' equity, revenues and expenses of the Company included in, and for the inclusion in, a final prospectus to be filed by the REIT. The Financials present the consolidated financial position, results of operations and cash flows of the Company and the Operating Company for the periods presented. The Financials are not necessarily indicative of future operating results.

Note 2. Basis of Preparation

(a) Statement of Compliance

The Financials have been prepared in accordance with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB").

(b) Basis of Measurement

The Financials have been prepared on a historical cost basis.

(c) Basis of Presentation

The Financials have been prepared in accordance with IFRS as issued by the IASB. The Financials include the accounts of the Company and its wholly-owned subsidiaries and the Operating Companies. All significant intercompany accounts and transactions have been eliminated in consolidation. The Financials are presented in U.S. dollars, which is the functional currency of the Company, and all amounts have been rounded to the nearest thousands, except when otherwise indicated.

(d) Use of estimates, assumptions and judgements

The preparation of financial statements in conformity with IFRS requires management to make estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised and in any future periods affected.

The Financials were authorized for issue by the members of the Company and the board of directors of the REIT on March 27, 2019.

Note 3. Summary of Significant Accounting Policies

The significant accounting policies used in the preparation of these Financials are described below and have been applied consistently to all periods presented:

(a) Basis of consolidation

The Financials comprise the financial statements of the Company and the Operating Companies. Intra-company transactions and balances are eliminated in preparing the Financials. The Financials reflect the consolidated financial position, results of operations and cash flows of the Company and the Operating Companies.

(b) Properties and equipment

(i) Recognition and measurement

Properties and equipment are measured at cost less accumulated depreciation and any accumulated impairment losses. Cost includes expenditures that are directly attributable to the acquisition of the asset. The cost of self-constructed assets includes the cost of materials and direct labor, any other costs directly attributable to bringing the assets to a working condition for their intended use, and borrowing costs on qualifying assets.

When parts of an item of property and equipment have different useful lives, they are accounted for as separate items (major components) of property and equipment.

(ii) Subsequent costs

The cost of replacing a part of an item of property and equipment is recognized in the carrying amount of the item if it is probable that the future economic benefits embodied within the part will flow to the Company and its cost can be measured reliably. The carrying amount of the replaced part is derecognized. The costs of the day-to-day maintenance of property and equipment are recognized in profit or loss as incurred.

(iii) Depreciation

Depreciation is computed on a straight-line basis based on the estimated useful lives of each component of property and equipment. Depreciation on new construction commences in the month after the asset is available for its intended use based upon the useful life of the asset.

Estimated useful lives were determined based on current facts and past experience, and take into consideration the anticipated physical life of the asset and current and forecasted demand. The rates and methods used are reviewed annually at year end to ensure they continue to be appropriate, and are also reviewed in conjunction with impairment testing. Gains/losses on disposition of property and equipment are recognized in profit or loss when the Company has transferred to the purchaser the significant risk and rewards of ownership of the property and equipment and the purchaser has made a substantial commitment demonstrating its intent to honour its obligation.

(c) Impairment of non-financial assets

The carrying amounts of the Company's non-financial assets, other than inventories, are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated.

The recoverable amount of an asset or cash-generating unit is the greater of its value in use and its fair value less costs to sell. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. For the purpose of impairment testing, assets that cannot be tested individually are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or groups of assets (the "cash-generating unit" or "CGU").

When the carrying amount of the asset or CGU exceeds its estimated recoverable amount, an impairment loss is recognized in an amount equal to the excess. When an indication that an impairment loss recognized in prior periods for an asset or CGU other than goodwill may no longer exist or may have decreased, the recoverable amount of that asset or CGU is estimated. A reversal of an impairment loss is recognized immediately in profit or loss if the recoverable amount of a previously impaired asset or CGU has subsequently increased to the lower of the asset or CGU's recoverable amount or carrying amount had no impairment loss been recognized for the asset or CGU in prior years.

(d) Financial instruments

(i) Classification and measurement of financial assets and liabilities:

Financial instruments are generally measured at fair value on initial recognition. The classification and measurement of financial assets consists of the following categories: (i) measured at amortized cost, (ii) fair value through profit and loss ("FVTPL"), and (iii) fair value through other comprehensive income ("FVTOCI"). Financial assets classified at amortized cost are measured using the effective interest method. Financial assets classified as FVTPL are measured at fair value with gains and losses recognized in the consolidated statement of net income. Financial assets classified as FVTOCI are measured at fair value with gains or losses recognized through other comprehensive income, except for gains and losses pertaining to impairment or foreign exchange recognized through net income.

The classification and measurement of financial liabilities consists of the following categories: (i) measured at amortized cost and (ii) FVTPL. Financial liabilities classified at amortized cost are measured using the effective interest method. Financial liabilities classified as FVTPL are measured at fair value with changes in fair value attributable to changes in the credit risk of the liability presented in other comprehensive income, and the remaining amount of change in fair value presented in the consolidated statement of net income.

The Company has made the following classifications for its financial instruments:

Asset/Liability	**Classification**
Cash and cash equivalents	Amortized cost
Restricted cash	Amortized cost
Trade and other receivables	Amortized cost
Accounts payable and other accrued liabilities	Amortized cost
Note payable	Amortized cost
Mezzanine note	Amortized cost

The Company derecognizes a financial asset only when the contractual rights to the cash flows from the asset expire or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another entity. The Company derecognizes a financial liability when, and only when, the Company's obligations are discharged, cancelled or they expire. The difference between the carrying amount of the financial liability derecognized and the consideration paid and payable is recognized through net income.

Transaction costs other than those related to financial instruments classified as FVTPL, which are expensed as incurred, are capitalized to the carrying amount of the instrument and amortized using the effective interest method. These costs include interest, amortization of discounts or premiums relating to borrowings, fees and commissions paid to agents, brokers and advisers and transfer taxes and duties.

(ii) Impairment of financial assets

For impairment of financial assets other than investments in equity instruments, contract assets, lease receivables, loan commitments and financial guarantee contracts, the Company applies a forward-looking 'expected credit loss' ("ECL") model. The Company adopted the practical expedient to determine ECL on trade and other receivables using a provision matrix based on historical credit loss experiences adjusted for current and forecasted future economic conditions to estimate lifetime ECL.

Impairment losses are recorded in the statement of income (loss) and comprehensive income (loss) with the carrying amount of the financial asset or group of financial assets reduced through the use of impairment allowance accounts.

(e) Cash

The Company considers all liquid investments with original terms to maturity of three months or less when acquired to be cash equivalents. Cash consists of cash on hand and cash held at banks.

(f) Restricted cash

Restricted cash primarily consists of cash reserves on deposit with lenders in respect of future capital expenditures.

(g) Provisions

A provision is recognized if, as a result of a past event, the Company has a present legal or constructive obligation that can be estimated reasonably, and it is probable that an outflow of economic benefits will be required to settle the obligation. If the time value of money is material, provisions are determined by discounting the expected future cash flows using a current rate that reflects the risk profile of the liability, and the increase to the provision due to the passage of time will be recognized as a finance cost.

(h) Revenue recognition

IFRS 15 establishes a comprehensive framework for determining whether, how much and when revenue is recognized. It replaced IAS 18 Revenue and related interpretations. The standard requires revenue to be recognized in a manner that depicts the transfer of promised goods or services to a customer and at an amount that reflects the consideration expected to be received in exchange for transferring those goods or services. This is achieved by applying the following five steps:

1. identify the contract with a customer;
2. identify the performance obligations in the contract;
3. determine the transaction price;
4. allocate the transaction price to the performance obligations in the contract; and
5. recognize revenue when (or as) the entity satisfies a performance obligation.

Revenue is generated primarily from the operation of the Company's hotels, which includes room rentals, food and beverage sales and other incidental income. Revenue is recognized when services are rendered, the amount is earned, and collectability is reasonably assured. The Company may collect payments in advance of the utilization of a facility. These payments are recorded in accounts payable and other accrued liabilities until such time as the applicable facility is utilized, at which time the customer deposit is recognized as revenue.

(i) Interest expense, net

Net interest expense primarily consists of interest expense on outstanding debt and the amortization of deferred financing costs, net of interest income. Net interest expense is recognized in the period in which it is incurred. Fees and costs related to obtaining debt financing are capitalized against the related debt and amortized over the term of the debt using the straight-line method, which approximates the effective interest method, and are included in net interest expense. The unamortized balance of the fees and costs is recorded as a reduction from the related debt on the Company's consolidated statements of financial position.

(j) Income taxes

(i) The Company

The Company is a limited liability company and is treated like a partnership for U.S. federal income tax purposes. As such, the Company has not recorded a provision for income taxes on its taxable income (see "The Operating Company" below), as the members of the Company are required to report their share of the Company's earnings in their respective income tax returns. The Company's tax returns and the amounts of allocable income or loss are subject to examination by federal and state taxing authorities. If such examinations result in changes to income tax or loss, the tax liability of the members of the Company could be changed accordingly. In certain instances, the Company may be subject to certain state and local taxes.

The Company evaluates the uncertainties of tax positions taken or expected to be taken on a return based on the probability of whether the position taken will be sustained upon examination by tax authorities. As of September 30, 2018 and December 31, 2017, the Company had no amounts related to unrecognized income tax benefits and no amounts related to accrued interest and penalties. The Company recognizes tax positions taken or to be taken in a tax return when they become probable. The Company concluded that it had no material uncertain tax liabilities to be recognized as of September 30, 2018 and December 31, 2017.

On December 22, 2017, the Tax Cuts and Jobs Act (the "2017 Tax Act") was signed into law in the United States. The most significant change is the reduction of the statutory corporate tax rate from 35 percent to 21 percent, effective January 1, 2018. Many of the provisions in the 2017 Tax Act expire in seven years (at the end of 2025). The Company does not expect the 2017 Tax Act to have a significant impact on its consolidated financial statements.

(ii) The Operating Companies

The Operating Companies are a taxable REIT subsidiary ("TRS") of the U.S. TRS companies are treated as U.S. corporations subject to U.S federal and state income tax on their taxable income. The income tax effects on the results of the Operating Companies accrues directly to the members of the Company. Income tax expense for the nine months ended September 30, 2018 was $2, which is included in the consolidated statements of comprehensive income.

Deferred tax is recognized in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. Deferred tax is measured at the tax rates that are expected to be applied to temporary differences when they reverse, based on the laws that have been enacted or substantively enacted by the reporting date. Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to income taxes levied by the same tax authority on the same taxable entity, or on different tax entities, but they intend to settle current tax liabilities and assets on a net basis or their tax assets and liabilities will be realized simultaneously.

A deferred tax asset is recognized for unused tax losses, tax credits and deductible temporary differences, to the extent that it is probable that future taxable profits will be available against which they can be utilized. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realized.

(k) Operating segments

The Company currently operates in one business segment, owning and operating three hotel properties in the U.S. The primary format for segment reporting is based on geographic region and is consistent with the internal reporting provided to the Company's chief operating decision-maker.

(l) Levies

In accordance with IFRS Interpretations Committee (IFRIC) 21, *Levies*, the Company recognizes the full amount of annual property tax liabilities at the point in time when the realty tax obligation is imposed. This is the obligating event that gives rise to a liability to pay the property taxes.

(m) Use of estimates and assumptions

The preparation of financial statements in conformity with IFRS requires management to make estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities and disclosure of contingent assets and liabilities as of the date of the financial statements, and the reported amounts of revenues and expenses during the reporting periods. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised and in any future periods affected.

(n) Recent accounting pronouncements

IFRS 16 – Leases

IFRS 16, *Leases* ("IFRS 16") was issued in January 2016 and sets out a new model for lease accounting, replacing IAS 17, *Leases*. The most significant effect of the new standard will be the recognition of the initial present value of unavoidable future lease payments as lease assets and lease liabilities on the statement of financial position, including those for most leases that would be currently accounted for as operating leases. Leases with durations of 12 months or less and leases for low value assets may be exempted. IFRS 16 will be effective for accounting periods beginning on or after January 1, 2019. Early adoption will be permitted provided the Company has adopted IFRS 15. The Company intends to adopt IFRS 16 in its Financials for the annual period beginning on January 1, 2019 and does not expect the new standard to have a material impact on its Financials.

Note 4. Property and Equipment, Net

	Land	Buildings and improvements	Furniture, fixtures and equipment	Total
Cost:

Disposals	—	—	—	—
Balance, September 30, 2018	$ —	$ 673	$ 660	$ 1,333
Carrying amount, May 3, 2018	-	-	-	-
Carrying amount, September 30, 2018	10,415	60,087	7,196	77,698

The Company's fixed asset additions are primarily related to improvements and upgrades required by the Company's franchise agreement. Shortly after acquisition of the properties, the Company began an extensive renovation program on the Properties.

NREO NW HOSPITALITY, LLC
NOTES TO THE UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS
(Amounts in thousands of U.S. dollars except unit counts)

Note 5. Restricted Cash

The Company funded restricted cash reserves for brand mandated property improvement plans ("PIPs") and furniture, fixtures and equipment upgrades arising from the execution of the Company's franchise agreement in 2008. Restricted cash reserves are typically expected to be spent over an 18-24 month period. The amounts are released to the Company as the expenditures are incurred or paid directly to the service provider. As of September 30, 2018 the Company had $48 of restricted cash.

Note 6. Business Combinations

The table below summarizes the fair values of the assets acquired and liabilities assumed for acquisitions in 2017:

	DoubleTree Beaverton	DoubleTree Bend	DoubleTree Olympia	DoubleTree Tigard	DoubleTree Vancouver	Total
Fair value of consideration transferred:						
Cash	$ 5,860	$ 6,653	$ 4,159	$ 34	$ 30	$ 16,735
Notes payable	10,437	15,793	10,025	9,407	9,338	55,000
Mezzanine debt	1,673	2,304	1,456	969	962	7,365
	$ 17,970	$ 24,750	$ 15,640	$ 10,410	$ 10,330	$ 79,100
Property and equipment	17,970	24,750	15,640	10,410	10,330	79,100
Fair value of net identifiable assets acquired and liabilities assumed	$ 17,970	$ 24,750	$ 15,640	$ 10,410	$ 10,330	$ 79,100

On May 3, 2018, the Company completed the acquisition of five DoubleTree properties located in: Beaverton, Oregon; Bend, Oregon; Olympia, Washington; Tigard, Oregon; and Vancouver, Washington; for a purchase price of $79,100. Acquisition costs of $852 were expensed as incurred. In conjunction with the purchase, the Company incurred a new mortgage in the amount of $55,000 and incurred a mezzanine debt in the amount of $13,065, of which $7,365 was drawn immediately to close the acquisitions. In securing the mortgage and mezzanine debt, the Company incurred $1,807 in deferred financing costs and purchased an interest rate cap for $338. (see Note 10. Note Payable and Mezzanine Note, Net for more information related to the mortgage and mezzanine debt).

Note 7. Operating Expense

	For the Period from May 3, 2018 (date of formation) to September 30, 2018
Payroll	$ 2,054
Repairs and maintenance	215
Utilities	271
Property taxes and insurance	271
Cost of goods sold	157
Franchise fees	534
Other operating expenses	594
Operating expenses	$ 4,096

Mezzanine note	$	7,365
Less: current maturities		—
Less: unamortized portion of deferred financing costs		(184)
Mezzanine note, net	$	7,181

On May 3, 2018, in connection with the acquisition of the Properties, the Company entered into a $55,000 term loan (the "Loan"), a $7,365 mezzanine A loan (the "Mezz A Note") and a $5,700 mezzanine B loan (the "Mezz B Note"), with large financial institutions. The Mezz B Note serves as a PIP holdback and is available to the Company for future PIP expenditures. The Loan is secured by the Properties and bears interest at a variable rate equal to the 30-day London InterBank Offered Rate plus 2.35%. As of September 30, 2018 the Loan's effective interest rate was 4.87%. The Loan matures on May 3, 2021. The Mezz A note bears interest at a fixed rate of 11.66% and matures May 9, 2021. The Mezz B Note bears interest at a variable rate equal to the 30-day London InterBank Offered Rate plus 3.45%. As of September 30, 2018 Mezz B Note's effective interest rate was 5.97% and the drawn balance was $0. The Mezz B Note also matures May 3, 2021.

The Company's loan agreement contains customary representations, warranties, and events of default, which requires the Company to comply with affirmative and negative covenants. As of September 30, 2018 and December 31, 2017, the Company was in compliance with all covenants of its loan agreement.

Costs related to obtaining debt financing are capitalized and amortized over the term of the related debt using the straight-line method, which approximates the effective interest method, and are included in net interest expense. The unamortized balance of the costs is shown as a reduction of the related debt on the consolidated statements of financial position.

Future principal payments on the Loan, excluding amortization of deferred financing costs, payable within the next five calendar years subsequent to September 30, 2018 are as follows:

	Note payable
2018	$ —
2019	277
2020	62,088
2021	—
2022	—
Thereafter	—
Total	$ 62,365

Note 11. Interest Expense, Net

	For the Period from May 3, 2018 (date of formation) to September 30, 2018
Interest on debt	$ 1,084
Amortization of deferred financing costs	247
Interest expense, net	$ 1,331

Note 12. Members' Capital

The members of the Company have made cash contributions and received cash distributions based on their respective ownership percentages. As of September 30, 2018, cash contributions totaled $21,427 and cash distributions totaled $719. All income or loss allocations are based on the member's respective ownership percentage.

Note 13. Financial Instruments

(a) Comparison of fair value to carrying amount

The fair value of a financial instrument is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value may be based on other observable current market transactions in the same instrument, without modification or on a valuation technique using market-based inputs. Fair value measurements recognized in the consolidated statements of financial position are categorized using the following fair value hierarchy that reflects the significance of inputs used in determining the fair values:

- Level 1: Quoted (unadjusted) market prices in active markets for identical assets or liabilities.
- Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, directly or indirectly.
- Level 3: Inputs for the asset or liability that are not based on observable market data (unobservable inputs).

As of September 30, 2018, the carrying amounts of the Company's cash and cash equivalents, restricted cash, trade and other receivables, prepaid and other assets, accounts payables and other accrued liabilities approximated their fair values due to the short-term nature of these financial assets and liabilities.

The fair value of note payable and mezzanine note is estimated by discounting the future cash flows using discount rates that reflect current market conditions for instruments having similar terms and conditions. Discount rates are either provided by lenders or are observable in the open market. As of September 30, 2018, the carrying amount of the Company's note payable approximated its fair value.

(b) Financial risk management

The Company may be exposed to a number of risks in its normal course of operations from use of financial instruments. These risks, and the actions taken to manage them, are as follows:

(i) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in the market interest rates.

The Company's Loan bears interest at a variable rate. Fluctuations in interest rates will impact the cost of financing incurred in the future. The Company monitors its interest rate exposure on an ongoing basis.

As of September 30, 2018, every 1% increase or decrease in the applicable interest rate, assuming all other variables are constant, would result in a corresponding change of approximately $624 in the Company's net interest expense on an annual basis.

(ii) Credit risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligation. The maximum exposure to credit risk is the full carrying amount of the financial instrument.

The Company is exposed to credit risk with respect to trade and other receivables. For the period from May 3, 2018 to September 30, 2018 bad debt expense was $609. Credit risk of trade and other receivables is mitigated by initiating a prompt collection process.

(iii) Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they fall due. Property and equipment investments tend to be relatively illiquid, with the degree of liquidity generally fluctuating in relation to demand for and the perceived desirability of such investments. If the Company was required to sell the Property, the proceeds to the Company may be significantly less than the Property's carrying amount.

The Company manages liquidity risk through monitoring the repayment date and refinancing date of its note payable, monitoring its debt covenants and managing its cash flows. The Company's objective is to maintain sufficient available access to capital to fund ongoing operational and capital requirements. As of September 30, 2018, the Company had cash and cash equivalents of $4,717.

The following table provides information on the carrying amounts and the non-discounted contractual maturities of financial liabilities with fixed repayment terms, including estimated interest payments using the 30-day LIBOR rate of 2.26% as of September 30, 2018:

	Carrying amount	Contractual cash flows	1 Year	More than 1 Year
Note payable	$ 55,000	$ 55,000	$ —	$ 55,000
Mezzanine note	7,365			
Interest payable on note	207	5,981	3,492	2,489
Accounts payable and other accrued liabilities	1,586	1,586	1,586	—
Total	$ 64,158	$ 62,567	$ 5,078	$ 57,489

Note 14. Capital Management

The Company defines capital as the aggregate of members' equity and note payable. The Company's objectives in managing capital are to maintain a level of capital that: complies with investment and debt restrictions pursuant to the Company's operating agreement; complies with existing debt covenants; funds its business strategies; and builds long-term members' value. Capital adequacy is monitored by the Company by assessing performance against the approved annual plan throughout the year and by monitoring adherence to investment and debt restrictions contained in the Company's operating agreement and debt covenants.

Note 15. Segment Reporting

The Company currently operates in one business segment, owning and operating one hotel property in the U.S. The primary format for segment reporting is based on geographic region and is consistent with the internal reporting provided to the Company's chief operating decision-maker. Accordingly, the Company has a single reportable segment for disclosure purposes in accordance with IFRS.

Note 16. Commitments and Contingencies

(a) Franchise agreement

The Properties are operated under a franchise agreements with the Franchisor (the "Franchise Agreement"). The Franchise Agreements were executed on the dates in the table below and had 15-year terms. The Franchise Agreement requires the payment of a monthly royalty fee of 5.5% and a monthly program fee of 4.3% of the Properties' gross room revenue. For the period from May 3, 2018 to September 30, 2018, franchise fees were $513, and are included in operating expenses in the consolidated statements of comprehensive income.

Property Name	Date of Agreement
DoubleTree Beaverton	October 16, 2012
DoubleTree Bend	September 18, 2013
DoubleTree Tigard	June 4, 2014
DoubleTree Olympia	September 18, 2013
DoubleTree Vancouver	February 4, 2014

(b) Litigation

In the normal course of operations, the Company may become subject to a variety of legal and other claims. The Company evaluates all claims on their apparent merits and, if necessary, the Company accrues for its best estimate of the costs to satisfy such claims. While it is not possible to ascertain the ultimate outcome of all such matters, the Company believes that the aggregate amount of such liabilities, if any, in excess of amounts provided or covered by insurance, will not have a material adverse effect on these consolidated financial statements. The Company is not involved in any material litigation nor, to the Company's knowledge, is any material litigation currently threatened against the Company, the Operating Company or the Property.

Note 17. Supplemental Cash Flow Disclosure

Reconciliation of changes in liabilities and members' equity, including movements of liabilities to cash flows arising from financing activities for the period from May 3, 2018 to September 30, 2018 was as follows:

NREO NW HOSPITALITY, LLC
NOTES TO THE UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS
(Amounts in thousands of U.S. dollars except unit counts)

Note 18. Subsequent Events

The Company evaluated subsequent events through March 27, 2019 to determine if any significant events occurred subsequent to the balance sheet dates that would have a material impact on these consolidated financial statements. On January 8, 2019, the Company was contributed to the OP in exchange for 9,629,170 Class B Units of the OP.

Note 1. General Information

The accompanying financial statements are the combined financial statements of the DoubleTree Portfolio (the "Company"). The Company is composed of five properties that are owned indirectly or directly by BRE GM Hotel JV Holdings, LLC ("BRE"). BRE was formed on November 14, 2011, under the laws of the State of Delaware and is owned, managed and advised by various Blackstone funds and entities (collectively the "Fund") and their affiliates. . The accompanying combined financial statements include the following hotels (the "Properties").

Property Name	Location
DoubleTree Beaverton	Beaverton, OR
DoubleTree Bend	Bend, OR
DoubleTree Tigard	Tigard, OR
DoubleTree Olympia	Olympia, WA
DoubleTree Vancouver	Vancouver, WA

On May 3, the Properties were sold to NREO NW Hospitality, LLC for a sales price of $71,900. The proceeds of the sale were used to pay down all of the outstanding debt and remaining liabilities.

NexPoint Hospitality Trust (the "REIT") is a newly-created, unincorporated, real estate investment trust established under the laws of the Province of Ontario. The REIT was formed to aggregate eleven hospitality properties (the "Initial Portfolio") and list its shares on the TSX Venture Exchange (the "Listing"). The REIT will own its properties through its subsidiary NHT Operating Partnership, LLC, (the "OP"). Once the Listing is completed, the REIT will own eleven properties indirectly through its ownership of the OP. In order to consummate the Transaction and Listing, the REIT filed a preliminary prospectus with the Ontario Securities Commission (the "OSC") on December 12, 2018 (the "Offering") to register the units of the REIT.

These combined financial statements of the Company consist of the Properties (the "Financials"). The Financials have been prepared for the specific purpose of reporting on the assets, liabilities, members' equity, revenues and expenses of the Company included in, and for the inclusion in, a final prospectus to be filed by the REIT. The Financials present the consolidated financial position, results of operations and cash flows of the Company and the Operating Company for the periods presented. The Financials are not necessarily indicative of future operating results.

Note 2. Basis of Preparation

(a) Statement of Compliance

The Financials have been prepared in accordance with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB").

(b) Basis of Measurement

The Financials have been prepared on a historical cost basis.

(c) Basis of Presentation

The Financials include the accounts of the Company on a consolidated basis. The Financials are presented in U.S. dollars, which is the functional currency of the Company, and all amounts have been rounded to the nearest thousands, except when otherwise indicated.

(d) Use of estimates, assumptions and judgements

The preparation of financial statements in conformity with IFRS requires management to make estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised and in any future periods affected.

The Financials were authorized for issue by the members of the Company and the board of directors of the REIT on March 27, 2019.

Note 3. Summary of Significant Accounting Policies

The significant accounting policies used in the preparation of these Financials are described below and have been applied consistently to all periods presented:

(a) Basis of consolidation

The Financials comprise the financial statements of the Company and its single-asset limited liability company subsidiaries. Intra-company transactions and balances are eliminated in preparing the Financials. The Financials reflect the consolidated financial position, results of operations and cash flows of the Company and its subsidiaries.

(b) Properties and equipment

(i) Recognition and measurement

Properties and equipment are measured at cost less accumulated depreciation and any accumulated impairment losses. Cost includes expenditures that are directly attributable to the acquisition of the asset. The cost of self-constructed assets includes the cost of materials and direct labor, any other costs directly attributable to bringing the assets to a working condition for their intended use, and borrowing costs on qualifying assets.

When parts of an item of property and equipment have different useful lives, they are accounted for as separate items (major components) of property and equipment.

(ii) Subsequent costs

The cost of replacing a part of an item of property and equipment is recognized in the carrying amount of the item if it is probable that the future economic benefits embodied within the part will flow to the Company and its cost can be measured reliably. The carrying amount of the replaced part is derecognized. The costs of the day-to-day maintenance of property and equipment are recognized in profit or loss as incurred.

(iii) Depreciation

Depreciation is computed on a straight-line basis based on the useful lives of each component of property and equipment. Depreciation on new construction commences in the month after the asset is available for its intended use based upon the useful life of the asset.

Estimated useful lives were determined based on current facts and past experience, and take into consideration the anticipated physical life of the asset and current and forecasted demand. The rates and methods used are reviewed annually at year end to ensure they continue to be appropriate, and are also reviewed in conjunction with impairment testing. Gains/losses on disposition of property and equipment are recognized in profit or loss when the REIT has transferred to the purchaser the significant risk and rewards of ownership of the property and equipment and the purchaser has made a substantial commitment demonstrating its intent to honour its obligation.

(c) Impairment of non-financial assets

The carrying amounts of the Company's non-financial assets, other than inventories, are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated.

The recoverable amount of an asset or cash-generating unit is the greater of its value in use and its fair value less costs to sell. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. For the purpose of impairment testing, assets that cannot be tested individually are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or groups of assets (the "cash-generating unit" or "CGU").

When the carrying amount of the asset or CGU exceeds its estimated recoverable amount, an impairment loss is recognized in an amount equal to the excess. When an indication that an impairment loss recognized in prior periods for an asset or CGU other than goodwill may no longer exist or may have decreased, the recoverable amount of that asset or CGU is estimated. A reversal of an impairment loss is recognized immediately in profit or loss if the recoverable amount of a previously impaired asset or CGU has subsequently increased to the lower of the asset or CGU's recoverable amount or carrying amount had no impairment loss been recognized for the asset or CGU in prior years.

(d) Financial instruments

(i) Classification and measurement of financial assets and liabilities:

Financial instruments are generally measured at fair value on initial recognition. The classification and measurement of financial assets consists of the following categories: (i) measured at amortized cost, (ii) fair value through profit and loss ("FVTPL"), and (iii) fair value through other comprehensive income ("FVTOCI"). Financial assets classified at amortized cost are measured using the effective interest method. Financial assets classified as FVTPL are measured at fair value with gains and losses recognized in the consolidated statement of net income. Financial assets classified as FVTOCI are measured at fair value with gains or losses recognized through other comprehensive income, except for gains and losses pertaining to impairment or foreign exchange recognized through net income.

The classification and measurement of financial liabilities consists of the following categories: (i) measured at amortized cost and (ii) FVTPL. Financial liabilities classified at amortized cost are measured using the effective interest method. Financial liabilities classified as FVTPL are measured at fair value with changes in fair value attributable to changes in the credit risk of the liability presented in other comprehensive income, and the remaining amount of change in fair value presented in the consolidated statement of net income.

The Company has made the following classifications for its financial instruments:

Asset/Liability	Classification
Cash and cash equivalents	Amortized cost
Restricted cash	Amortized cost
Trade and other receivables	Amortized cost
Accounts payable and other accrued	Amortized cost
liabilities	Amortized cost
Notes payable	Amortized cost
Mezzanine note	

The Company derecognizes a financial asset only when the contractual rights to the cash flows from the asset expire or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another entity. The Company derecognizes a financial liability when, and only when, the Company's obligations are discharged, cancelled or they expire. The difference between the carrying amount of the financial liability derecognized and the consideration paid and payable is recognized through net income.

Transaction costs other than those related to financial instruments classified as FVTPL, which are expensed as incurred, are capitalized to the carrying amount of the instrument and amortized using the effective interest method. These costs include interest, amortization of discounts or premiums relating to borrowings, fees and commissions paid to agents, brokers and advisers and transfer taxes and duties.

(ii) Impairment of financial assets

For impairment of financial assets other than investments in equity instruments, contract assets, lease receivables, loan commitments and financial guarantee contracts, the Company applies a forward-looking 'expected credit loss' ("ECL") model. The Company adopted the practical expedient to determine ECL on trade and other receivables using a provision matrix based on historical credit loss experiences adjusted for current and forecasted future economic conditions to estimate lifetime ECL.

Impairment losses are recorded in the statement of income (loss) and comprehensive income (loss) with the carrying amount of the financial asset or group of financial assets reduced through the use of impairment allowance accounts.

(e) Cash and cash equivalents

The Company considers all liquid investments with original terms to maturity of three months or less when acquired to be cash equivalents. Cash and cash equivalents consist of cash on hand and cash held at banks.

(f) Restricted cash

Restricted cash primarily consists of cash reserves on deposit with lenders in respect of future capital expenditures.

(g) Provisions

A provision is recognized if, as a result of a past event, the Company has a present legal or constructive obligation that can be estimated reasonably, and it is probable that an outflow of economic benefits will be required to settle the obligation. If the time value of money is material, provisions are determined by discounting the expected future cash flows using a current rate that reflects the risk profile of the liability, and the increase to the provision due to the passage of time will be recognized as a finance cost.

(h) Revenue recognition

IFRS 15 establishes a comprehensive framework for determining whether, how much and when revenue is recognized. It replaced IAS 18 Revenue and related interpretations. The standard requires revenue to be recognized in a manner that depicts the transfer of promised goods or services to a customer and at an amount that reflects the consideration expected to be received in exchange for transferring those goods or services. This is achieved by applying the following five steps:

1. identify the contract with a customer;
2. identify the performance obligations in the contract;
3. determine the transaction price;
4. allocate the transaction price to the performance obligations in the contract; and
5. recognize revenue when (or as) the entity satisfies a performance obligation.

Revenue is generated primarily from the operation of the Company's hotels, which includes room rentals, food and beverage sales and other incidental income. Revenue is recognized when services are rendered, the amount is earned, and collectability is reasonably assured. The Company may collect payments in advance of the utilization of a facility. These payments are recorded in accounts payable and other accrued liabilities until such time as the applicable facility is utilized, at which time the customer deposit is recognized as revenue.

(i) Interest expense, net

Net interest expense primarily consists of interest expense on outstanding debt and the amortization of deferred financing costs, net of interest income. Net interest expense is recognized in the period in which it is incurred. Fees and costs related to obtaining debt financing are capitalized against the related debt and amortized over the term of the debt using the straight-line method, which approximates the effective interest method, and are included in net interest expense. The unamortized balance of the fees and costs is recorded as a reduction from the related debt on the Company's consolidated statements of financial position.

(j) Income taxes

The Company is a limited liability company that indirectly owns the Properties through single-asset limited liability companies. The Company is treated like a partnership for U.S. federal income tax purposes. As such, the Company has not recorded a provision for income taxes on its taxable income as the members of the Company are required to report their share of the Company's earnings in their respective income tax returns. The Company's tax returns and the amounts of allocable income or loss are subject to examination by federal and state taxing authorities. If such examinations result in changes to income tax or loss, the tax liability of the members of the Company could be changed accordingly. In certain instances, the Company may be subject to certain state and local taxes.

The Company evaluates the uncertainties of tax positions taken or expected to be taken on a return based on the probability of whether the position taken will be sustained upon examination by tax authorities. As of September 30, 2018 and December 31, 2017, the Company had no amounts related to unrecognized income tax benefits and no amounts related to accrued interest and penalties. The Company recognizes tax positions taken or to be taken in a tax return when they become probable. The Company concluded that it had no material uncertain tax liabilities to be recognized as of September 30, 2018 and December 31, 2017.

On December 22, 2017, the Tax Cuts and Jobs Act (the "2017 Tax Act") was signed into law in the United States. The most significant change is the reduction of the statutory corporate tax rate from 35 percent to 21 percent, effective January 1, 2018. Many of the provisions in the 2017 Tax Act expire in seven years (at the end of 2025). The Company does not expect the 2017 Tax Act to have a significant impact on its Financials.

(k) Operating segments

The Company currently operates in one business segment, owning and operating three hotel properties in the U.S. The primary format for segment reporting is based on geographic region and is consistent with the internal reporting provided to the Company's chief operating decision-maker.

(l) Levies

In accordance with IFRS Interpretations Committee (IFRIC) 21, *Levies*, the Company recognizes the full amount of annual property tax liabilities at the point in time when the realty tax obligation is imposed. This is the obligating event that gives rise to a liability to pay the property taxes.

(m) Use of estimates and assumptions

The preparation of financial statements in conformity with IFRS requires management to make estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities and disclosure of contingent assets and liabilities as of the date of the financial statements, and the reported amounts of revenues and expenses during the reporting periods. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised and in any future periods affected.

(n) Recent accounting pronouncements

(i) IFRS 9 – Financial Instruments

In July 2014, the IASB issued the final publication of the IFRS 9 standard, superseding the current IAS 39, *Financial Instruments: Recognition and Measurement* ("IAS 39") standard ("IFRS 9"). IFRS 9 includes revised guidance on the classification and measurement of financial instruments, including a new expected credit loss model for calculating impairment on financial assets, and the new general hedge accounting requirements. It also carries forward the guidance on recognition and de-recognition of financial instruments from IAS 39. The standard is effective for annual periods beginning on or after January 1, 2018 with early adoption permitted. The Company adopted IFRS 9 on January 1, 2018 and there was no material impact on its Financials.

(ii) IFRS 15 – Revenue from Contracts with Customers

In May 2014, the IASB issued IFRS 15, *Revenue from Contract with Customers* ("IFRS 15"), which establishes a new five step model that applies to revenue arising from contracts with customers. The principles in IFRS 15 provide a more structured approach to measuring and recording revenue allowing greater comparability of revenues across industries. The new revenue standard is applicable to all entities and will supersede all current revenue recognition requirements under IFRS. Either a full or modified retrospective application is required for annual periods beginning on or after January 1, 2018, with early adoption permitted. The Company adopted IFRS 15 on January 1, 2018, using the modified retrospective method, and there was no material impact on its Financials.

(iii) IFRS 16 – Leases

IFRS 16, *Leases* ("IFRS 16") was issued in January 2016 and sets out a new model for lease accounting, replacing IAS 17, *Leases*. The most significant effect of the new standard will be the recognition of the initial present value of unavoidable future lease payments as lease assets and lease liabilities on the statement of financial position, including those for most leases that would be currently accounted for as operating leases. Leases with durations of 12 months or less and leases for low value assets may be exempted. IFRS 16 will be effective for accounting periods beginning on or after January 1, 2019. Early adoption will be permitted provided the Company has adopted IFRS 15. The Company intends to adopt IFRS 16 in its Financials for the annual period beginning on January 1, 2019 and does not expect the new standard to have a material impact on its Financials.

Note 4. Property and Equipment, Net

	Land	Buildings and improvements	Furniture, fixtures and equipment	Total
Cost:				
Balance, December 31, 2017	$ 5,024	$ 43,374	$ 17,615	$ 66,013
Additions	—	—	—	—
Disposals	(5,024)	(43,374)	(17,615)	(66,013)
Balance, May 3, 2018	$ -	$ -	$ -	$ -
Accumulated depreciation:				
Balance, December 31, 2017	$ -	$ 19,026	$ 7,727	$ 26,753
Depreciation	-	530	1,468	1,998
Disposals	-	(9,151)	(20,216)	(29,367)
Balance, May 3, 2018	$ -	$ -	$ -	$ -
Carrying amount, December 31, 2016	$ 5,010	$ 25,535	$ 10,378	$ 40,923
Carrying amount, December 31, 2017	$ 5,024	$ 24,348	$ 9,888	$ 39,260
Carrying amount, May 3, 2018	$ -	$ -	$ -	$ -

The Company's fixed asset additions are primarily related to improvements and upgrades required by the Company's franchise agreement. Shortly after acquisition of the properties, the Company began an extensive renovation program on the Properties.

On May 3, 2018, the Company sold the Properties to NREO NW Hospitality, LLC for gross proceeds of $76,955, resulting in a gain on sale of $39,693, which is recognized in the Financials.

Note 5. Restricted Cash

The Company funded restricted cash reserves for brand mandated property improvement plans ("PIPs") and furniture, fixtures and equipment upgrades arising from the Company's franchise agreement. Restricted cash reserves are typically expected to be spent over an 18-24 month period. The amounts are released to the Company as the expenditures are incurred or paid directly to the service provider. As of May 3, 2018 and December 31, 2017 the Company had no restricted cash.

Note 6. Operating Expenses

	For the Period from January 1, 2018 to May 3, 2018	For the Year Ended December 31, 2017
Payroll	$ 1,798	$ 5,223

Other operating expenses	587	1,959
Operating expenses	$ 3,370	$ 10,180

Note 7. General and Administrative Expenses

	For the Period from January 1, 2018 to May 3, 2018	For the Year Ended December 31, 2017
Property management fees	$ 213	$ 656
Office operations	430	827
Marketing	494	1,590
Other administrative expenses	373	1,288
General and administrative expenses	$ 1,510	$ 4,361

Note 8. Note Payable, Net

On December 3, 2014, the Company, along with three affiliates of the Fund (the Co-borrowers") (collectively the "Borrower"), were obligated under the loan agreements totaling $862,500 (the "Collective Loan"). The Collective Loan was structured with a mortgage loan with a principal amount of $611,000 (the "Mortgage") and two mezzanine loans with an aggregate principal amount of $251,500 (the "Mezzanine Loans"). The obligations under the Collective Loan are joint and several and are secured by the DT Portfolio and the Co-borrowers' 31 properties.

The obligation under the Mortgage is guaranteed by BSHH, LLC, a Delaware limited liability company and an affiliate of the Company (the "Guarantor"). In addition, the Borrower and Guarantor have recourse liability under the Collective Loan for certain matters typical of a transaction of this type.

The Borrower may prepay the Collective Loan, in whole or in part, without any prepayment penalty or fee.

The portion of the Collective Loan associated with the DT Portfolio, based on the individual release price identified in the Collective Loan, is approximately $49,000 for the Mortgage and approximately $20,200 for the Mezzanine Loans. The Collective Loan had an initial maturity date of December 9, 2016, with three successive on-year extension options through December 9, 2019. During 2016, the Borrower extended the maturity date of the Collective Loan to December 9, 2017. The Collective Loan requires the payment of month interest based on the on-month LIBOR plus a margin.

On July 14, 2016, an affiliate of the Company purchased a portion of the Mezzanine Loans. The amount associated with the Company's portion of the Mezzanine Loans is approximately $3,600, which is reflected as related party mezzanine loan payable, net in the Financials. The amount of interest associated with the related party mezzanine loan is approximately $180 and is included in interest expense, net within the Financials.

Pursuant to the terms of the Collective Loan, the Borrower was required to enter into an interest rate cap agreement with respect to each loan, which caps the base interest rate before applying the applicable margins on the Collective Loan, for an aggregate notional amount of $862,500, with a termination date of December 9, 2016, and a strike rate of 3.00%. In connection with the extension of the Collective Loan, the Borrower entered into interest rate cap agreements for an aggregate notional amount of

approximately $753,500, with a termination date of December 15, 2017, and a strike rate of 3.979% there were terminated when the loan was paid off on July 7, 2017, as discussed below. The counterparty to the interest rate cap agreements is a financial institution.

The Collective Loan contains various representations and warranties, as well as certain financial, operating and other covenants. Pursuant to the terms of the Collective Loan, the Borrower is required to maintain a certain debt yield, as defined in the Collective Loan. In the event the debt yield falls below the stated percentage, the Borrower is obligated to deposit excess cash flows into the debt yield payment reserve account. Funds on deposit in the reserve account are restricted, as defined by the terms of the Collective Loan. The Borrower met the required debt yield as of December 31, 2016 and 2015 and January 1, 2015.

The Collective Loan requires the maintenance of a replacement reserve for the payment of property improvements and fixed asset replacements.

Deferred financing costs consisted of amounts paid in connection with obtaining the Collective Loan. Such costs were amortized on a straight-line basis over the term of the related debt. Amortization of deferred financing costs totaled approximately $390,000 and $423,000 for the years ended December 31, 2016 and 2015, and is included in interest expense, net in the Financials. There are no unamortized deferred financing costs at December 31, 2016.

On May 3, 2018, in conjunction with the sale of the Properties, the proceeds from the sale were used to repay all indebtedness of the Company. The outstanding principal balance for the note payable, net, the mezzanine loan, net and the related party mezzanine loan payable, net, related to the Properties as of May 3, 2018 and December 31, 2017 are as follows:

	May 3, 2018	December 31, 2017
Note payable	$ -	$ 49,031
Less: current maturities	-	-
Less: unamortized portion of deferred financing costs	-	-
Note payable, net	$ -	$ 49,031

	May 3, 2018	December 31, 2017

Less: current maturities	-	—
Less: unamortized portion of deferred financing costs	-	-
Mezzanine note, net	$ -	$ 16,588

	May 3, 2018	December 31, 2017
Related party mezzanine loan	$ -	$ 3,594
Less: current maturities	-	—
Less: unamortized portion of deferred financing costs	-	-
Related party mezzanine loan payable, net	$ -	$ 3,594

Note 9. Interest Expense, Net

	For the Period from January 1, 2018 to May 3, 2018	For the Year Ended December 31, 2017
Interest on debt	$ 940	$ 2,058
Amortization of deferred financing costs	268	-
Interest expense, net	$ 1,208	$ 2,058

Note 10. Members' Capital

The members of the Company have made cash contributions and received cash distributions based on their respective ownership percentages. For the period January 1, 2018 through May 3, 2018, cash distributions totaled $10,151. All income or loss allocations are based on the member's respective ownership percentage.

Note 11. Financial Instruments

(a) Comparison of fair value to carrying amount

The fair value of a financial instrument is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value may be based on other observable current market transactions in the same instrument, without modification or on a valuation technique using market-based inputs. Fair value measurements recognized in the consolidated statements of financial position are categorized using the following fair value hierarchy that reflects the significance of inputs used in determining the fair values:

- Level 1: Quoted (unadjusted) market prices in active markets for identical assets or liabilities.
- Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, directly or indirectly.
- Level 3: Inputs for the asset or liability that are not based on observable market data (unobservable inputs).

As of May 3, 2018 the carrying amounts of the Company's cash and cash equivalents, restricted cash, trade and other receivables, prepaid and other assets, accounts payables and other accrued liabilities approximated their fair values due to the short-term nature of these financial assets and liabilities.

The fair value of note payable is estimated by discounting the future cash flows using discount rates that reflect current market conditions for instruments having similar terms and conditions. Discount rates are either provided by lenders or are observable in the open market. As of May 3, 2018 the carrying amount of the Company's note payable approximated its fair value.

(b) Financial risk management

The Company may be exposed to a number of risks in its normal course of operations from use of financial instruments. These risks, and the actions taken to manage them, are as follows:

(i) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in the market interest rates.

The Company's Loan bears interest at a variable rate. Fluctuations in interest rates will impact the cost of financing incurred in the future. The Company monitors its interest rate exposure on an ongoing basis.

As of May 3, 2018 the Company had repaid all of its debts.

(ii) Credit risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligation. The maximum exposure to credit risk is the full carrying amount of the financial instrument.

The Company is exposed to credit risk with respect to trade and other receivables. As of May 3, 2018 the Company was dissolved and no material risk with respect to trade and other receivables remained.

(iii) Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they fall due. Property and equipment investments tend to be relatively illiquid, with the degree of liquidity generally fluctuating in relation to

demand for and the perceived desirability of such investments. If the Company was required to sell the Property, the proceeds to the Company may be significantly less than the Property's carrying amount.

The Company manages liquidity risk through monitoring the repayment date and refinancing date of its note payable, monitoring its debt covenants and managing its cash flows. The Company's objective is to maintain sufficient available access to capital to fund ongoing operational and capital requirements. As of May 3, 2018, the Company was dissolved and the remaining cash is to be used to pay all final liabilities.

Note 12. Capital Management

The Company defines capital as the aggregate of members' equity and note payable. The Company's objectives in managing capital are to maintain a level of capital that: complies with investment and debt restrictions pursuant to the Company's operating agreement; complies with existing debt covenants; funds its business strategies; and builds long-term members' value. Capital adequacy is monitored by the Company by assessing performance against the approved annual plan throughout the year and by monitoring adherence to investment and debt restrictions contained in the Company's operating agreement and debt covenants.

Note 13. Segment Reporting

The Company currently operates in one business segment, owning and operating one hotel property in the U.S. The primary format for segment reporting is based on geographic region and is consistent with the internal reporting provided to the Company's chief operating decision-maker. Accordingly, the Company has a single reportable segment for disclosure purposes in accordance with IFRS.

Note 14. Commitments and Contingencies

(a) Franchise agreement

The DT Portfolio operates under franchise agreements with DoubleTree. The franchise agreements have 10 year terms that expire between 2022 and 2024. The franchise agreements require the payment of royalty fees calculated at 3% of gross room revenue, as defined, for the first operating year; 4% of gross room revenue for the second operating year; and 5% of gross room revenue for the third through tenth operating year. In addition, the franchise agreements provide for a monthly program fee, as defined, calculated at 4% of gross room revenue. Franchise fees paid to DoubleTree totaled approximately $299 and $1,033 for the period from January 1, 2018 through May 3, 2018 and the year ended December 31, 2017, respectively. Monthly program fees under the agreements totaled approximately $300 and $1,000 for the period from January 1, 2018 through May 3, 2018 and the year ended December 31, 2017, respectively and are included in marketing expenses.

(b) Litigation

In the normal course of operations, the Company may become subject to a variety of legal and other claims. The Company evaluates all claims on their apparent merits and, if necessary, the Company accrues for its best estimate of the costs to satisfy such claims. While it is not possible to ascertain the ultimate outcome of all such matters, the Company believes that the aggregate amount of such liabilities, if any, in excess of amounts provided or covered by insurance, will not have a material adverse effect on these consolidated financial statements. The Company is not involved in any material litigation nor, to the Company's knowledge, is any material litigation currently threatened against the Company, the Operating Company or the Property.

(c) Soil remediation costs

In connection with the acquisition of the DoubleTree Olympia hotel, the Company recorded an environmental remediation liability of approximately $141,000 related to expected soil remediation costs. These costs were capitalized as part of the hotel property and equipment. During 2009, the Company determined that additional soil remediation work would be required and estimated the additional cost to be approximately $208,000. As of May 3, 2018, the soil remediation had been resolved and all capital reserved was paid or released.

Combined Financial Statements

As at December 31, 2017, December 31, 2016 and January 1, 2016 and for the years ended December 31, 2017 and December 31, 2016

(With Independent Auditors' Report Thereon)

Advisory Assurance Tax Private Client

INDEPENDENT AUDITORS' REPORT

To the Board of Trustees of
Nexpoint Hospitality Trust

We have audited the accompanying combined financial statements of DoubleTree Portfolio, which comprise the combined statements of financial position as of December 31, 2017, December 31, 2016, and January 1, 2016 and the related combined statements of net income and comprehensive income, members' equity, and cash flows for the years then ended, and the related notes to the combined financial statements.

Management's Responsibility for the Combined Financial Statements

Management is responsible for the preparation and fair presentation of these combined financial statements in accordance with International Financial Reporting Standards as issued by the International Accounting Standards Board; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of combined financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these combined financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and in accordance with International Standards on Auditing. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the combined financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the combined financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the combined financial statements, whether due to fraud or error. In making those risk assessments, the auditors consider internal control relevant to the entity's preparation and fair presentation of the combined financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the combined financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the combined financial statements referred to above present fairly, in all material respects, the combined financial position of DoubleTree Portfolio as of December 31, 2017, December 31, 2016, and January 1, 2016 and the results of its combined net income and comprehensive income, changes in equity and its cash flows for the years then ended in accordance with International Financial Reporting Standards as issued by the International Accounting Standards Board.

DOUBLETREE PORTFOLIO
NOTES TO THE AUDITED COMBINED FINANCIAL STATEMENTS
(Amounts in thousands of U.S. dollars except per unit amounts)

Note 1. General Information

The accompanying financial statements are the combined financial statements of the DoubleTree Portfolio (the "Company"). The Company is composed of five properties that are owned indirectly or directly by BRE GM Hotel JV Holdings, LLC ("BRE"). BRE was formed on November 14, 2011, under the laws of the State of Delaware and is owned, managed and advised by various Blackstone funds and entities (collectively the "Fund") and their affiliates. . The accompanying combined financial statements include the following hotels (the "Properties").

Property Name	Location
DoubleTree Beaverton	Beaverton, OR
DoubleTree Bend	Bend, OR
DoubleTree Tigard	Tigard, OR
DoubleTree Olympia	Olympia, WA
DoubleTree Vancouver	Vancouver, WA

NexPoint Hospitality Trust (the "REIT") is a newly-created, unincorporated, real estate investment trust established under the laws of the Province of Ontario. The REIT was formed to aggregate eleven hospitality properties (the "Initial Portfolio") and list its shares on the TSX Venture Exchange (the "Listing"). The REIT will own its properties through its subsidiary NHT Operating Partnership, LLC, (the "OP"). Once the Listing is completed, the REIT will own eleven properties indirectly through its ownership of the OP. In order to consummate the Transaction and Listing, the REIT filed a preliminary prospectus with the Ontario Securities Commission (the "OSC") on December 12, 2018 (the "Offering") to register the units of the REIT.

These combined financial statements of the Company (the "Financials") consist of the Properties. The Financials have been prepared for the specific purpose of reporting on the assets, liabilities, members' equity, revenues and expenses of the Company included in, and for the inclusion in, a final prospectus to be filed by the REIT. The Financials present the consolidated financial position, results of operations and cash flows of the Company and the Operating Company for the periods presented. The Financials are not necessarily indicative of future operating results.

Note 2. Basis of Preparation

(a) Statement of Compliance

The Financials have been prepared in accordance with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB"). These are the Company's first consolidated financial statements prepared in accordance with IFRS; the Company adopted IFRS in accordance with IFRS 1, First-Time Adoption of International Reporting Standards. An explanation or reconciliation of how the transition to IFRS has affected the Company's consolidated financial position, results of operations and cash flows has not been presented as the Company has not presented consolidated financial statements in previous years. The date of transition to IFRS was January 1, 2016.

(b) Basis of Measurement

The Financials have been prepared on a historical cost basis.

(c) Basis of Presentation

The Financials include the accounts of the Company on a consolidated basis. The Financials are presented in U.S. dollars, which is the functional currency of the Company, and all amounts have been rounded to the nearest thousands, except when otherwise indicated.

(d) Use of estimates, assumptions and judgements

The preparation of financial statements in conformity with IFRS requires management to make estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised and in any future periods affected.

The Financials were authorized for issue by the members of the Company and the board of directors of the REIT on March 27, 2019.

Note 3. Summary of Significant Accounting Policies

The significant accounting policies used in the preparation of these Financials are described below and have been applied consistently to all periods presented:

(a) Basis of consolidation

The Financials comprise the financial statements of the Company and its single-asset limited liability company subsidiaries. Intra-company transactions and balances are eliminated in preparing the Financials. The Financials reflect the consolidated financial position, results of operations and cash flows of the Company and its subsidiaries.

(b) Properties and equipment

(i) Recognition and measurement

Properties and equipment are measured at cost less accumulated depreciation and any accumulated impairment losses. Cost includes expenditures that are directly attributable to the acquisition of the asset. The cost of self-constructed assets includes the cost of materials and direct labor, any other costs directly attributable to bringing the assets to a working condition for their intended use, and borrowing costs on qualifying assets.

When parts of an item of property and equipment have different useful lives, they are accounted for as separate items (major components) of property and equipment.

(ii) Subsequent costs

The cost of replacing a part of an item of property and equipment is recognized in the carrying amount of the item if it is probable that the future economic benefits embodied within the part will flow to the Company and its cost can be measured reliably. The carrying amount of the replaced part is derecognized. The costs of the day-to-day maintenance of property and equipment are recognized in profit or loss as incurred.

(iii) Depreciation

Depreciation is computed on a straight-line basis based on the estimated useful lives of each component of property and equipment. Depreciation on new construction commences in the month after the asset is available for its intended use based upon the useful life of the asset.

Estimated useful lives were determined based on current facts and past experience, and take into consideration the anticipated physical life of the asset and current and forecasted demand. The rates and methods used are reviewed annually at year end to ensure they continue to be appropriate, and are also reviewed in conjunction with impairment testing. Gains/losses on disposition of property and equipment are recognized in profit or loss when the REIT has transferred to the purchaser the significant risk and rewards of ownership of the property and equipment and the purchaser has made a substantial commitment demonstrating its intent to honour its obligation.

(c) Impairment of non-financial assets

The carrying amounts of the Company's non-financial assets, other than inventories, are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated.

The recoverable amount of an asset or cash-generating unit is the greater of its value in use and its fair value less costs to sell. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. For the purpose of impairment testing, assets that cannot be tested individually are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or groups of assets (the "cash-generating unit" or "CGU").

When the carrying amount of the asset or CGU exceeds its estimated recoverable amount, an impairment loss is recognized in an amount equal to the excess. When an indication that an impairment loss recognized in prior periods for an asset or CGU other than

goodwill may no longer exist or may have decreased, the recoverable amount of that asset or CGU is estimated. A reversal of an impairment loss is recognized immediately in profit or loss if the recoverable amount of a previously impaired asset or CGU has subsequently increased to the lower of the asset or CGU's recoverable amount or carrying amount had no impairment loss been recognized for the asset or CGU in prior years.

(d) Financial instruments

(i) Financial assets

The Company's financial assets are comprised of cash and cash equivalents, restricted cash, trade and other receivables and prepaid and other assets. The Company classifies these financial assets as loans and receivables. The Company initially recognizes loans and receivables on the date that they are originated. Loans and receivables are financial assets with fixed or determinable payments that are not quoted in an active market. Such assets are recognized initially at fair value plus any directly attributable transaction costs. Subsequent to initial recognition, loans and receivables are measured at amortized cost using the effective interest method, less any impairment losses.

(ii) Financial liabilities

The Company has the following non-derivative financial liabilities: accounts payable and other accrued liabilities and note payable. The Company classifies each of its non-derivative financial liabilities as other financial liabilities. Initial measurement is at fair value plus any directly attributable transaction costs. Subsequent to initial recognition, these non-derivative financial liabilities are measured at amortized cost using the effective interest method. All non-derivative financial liabilities are initially recognized on the date that the Company becomes a party to the contractual provisions of the instrument. The Company derecognizes a financial liability when its contractual obligations are discharged or cancelled or expire.

(iii) Impairment of financial assets

Loans and receivables are assessed at each reporting date to determine whether there is objective evidence that they are impaired. A financial asset is impaired if objective evidence indicates that a loss event has occurred after the initial recognition of the asset, and that the loss event had a negative effect on the estimated future cash flows of that asset that can be estimated reliably. Objective evidence that financial assets are impaired can include default or delinquency by a debtor, restructuring of an amount due to the Company on terms that the Company would not consider otherwise, or indications that a debtor or issuer will enter bankruptcy.

The Company considers evidence of impairment for loans and receivables at both a specific asset and collective level. All individually significant loans and receivables are assessed for specific impairment. All individually significant loans and receivables found not to be specifically impaired are then collectively assessed for any impairment that has been incurred but not yet identified. Loans and receivables that are not individually significant are collectively assessed for impairment by grouping together loans and receivables with similar risk characteristics.

An impairment loss in respect of a financial asset measured at amortized cost is calculated as the difference between its carrying amount and the present value of the estimated future cash flows, discounted using the instrument's original effective interest rate. Losses are recognized in profit or loss and reflected in an allowance account against receivables. Interest on the impaired asset continues to be recognized through the unwinding of the discount. When a subsequent event causes the amount of impairment loss to decrease, the decrease in impairment loss is reversed through profit or loss.

(e) Cash and cash equivalents

The Company considers all liquid investments with original terms to maturity of three months or less when acquired to be cash equivalents. Cash and cash equivalents consist of cash on hand and cash held at banks.

(f) Restricted cash

Restricted cash primarily consists of cash reserves on deposit with lenders in respect of future capital expenditures.

(g) Provisions

A provision is recognized if, as a result of a past event, the Company has a present legal or constructive obligation that can be estimated reasonably, and it is probable that an outflow of economic benefits will be required to settle the obligation. If the time value

of money is material, provisions are determined by discounting the expected future cash flows using a current rate that reflects the risk profile of the liability, and the increase to the provision due to the passage of time will be recognized as a finance cost.

(h) Revenue recognition

Revenue is generated primarily from the operation of the Company's hotels, which includes room rentals, food and beverage sales and other incidental income. Revenue is recognized when services are rendered, the amount is earned, and collectability is reasonably assured. The Company may collect payments in advance of the utilization of a facility. These payments are recorded in accounts payable and other accrued liabilities until such time as the applicable facility is utilized, at which time the customer deposit is recognized as revenue.

(i) Interest expense, net

Net interest expense primarily consists of interest expense on outstanding debt and the amortization of deferred financing costs, net of interest income. Net interest expense is recognized in the period in which it is incurred. Fees and costs related to obtaining debt financing are capitalized against the related debt and amortized over the term of the debt using the straight-line method, which approximates the effective interest method, and are included in net interest expense. The unamortized balance of the fees and costs is recorded as a reduction from the related debt on the Company's consolidated statements of financial position.

(j) Income taxes

The Company is a limited liability company that indirectly owns the Properties through single-asset limited liability companies. The Company is treated like a partnership for U.S. federal income tax purposes. As such, the Company has not recorded a provision for income taxes on its taxable income as the members of the Company are required to report their share of the Company's earnings in their respective income tax returns. The Company's tax returns and the amounts of allocable income or loss are subject to examination by federal and state taxing authorities. If such examinations result in changes to income tax or loss, the tax liability of the members of the Company could be changed accordingly. In certain instances, the Company may be subject to certain state and local taxes.

The Company evaluates the uncertainties of tax positions taken or expected to be taken on a return based on the probability of whether the position taken will be sustained upon examination by tax authorities. As of December 31, 2017, December 31, 2016 and January 1, 2016, the Company had no amounts related to unrecognized income tax benefits and no amounts related to accrued interest and penalties. The Company recognizes tax positions taken or to be taken in a tax return when they become probable. The Company concluded that it had no material uncertain tax liabilities to be recognized as of December 31, 2017, December 31, 2016 and January 1, 2016.

On December 22, 2017, the Tax Cuts and Jobs Act (the "2017 Tax Act") was signed into law in the United States. The most significant change is the reduction of the statutory corporate tax rate from 35 percent to 21 percent, effective January 1, 2018. Many of the provisions in the 2017 Tax Act expire in seven years (at the end of 2025). The Company does not expect the 2017 Tax Act to have a significant impact on its Financials.

(k) Operating segments

The Company currently operates in one business segment, owning and operating three hotel properties in the U.S. The primary format for segment reporting is based on geographic region and is consistent with the internal reporting provided to the Company's chief operating decision-maker.

(l) Levies

In accordance with IFRS Interpretations Committee (IFRIC) 21, *Levies*, the Company recognizes the full amount of annual property tax liabilities at the point in time when the realty tax obligation is imposed. This is the obligating event that gives rise to a liability to pay the property taxes.

(m) Use of estimates and assumptions

The preparation of financial statements in conformity with IFRS requires management to make estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities and disclosure of contingent assets and liabilities as of the date of the financial statements, and the reported amounts of revenues and expenses during the reporting periods. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised and in any future periods affected.

(n) Recent accounting pronouncements

(i) IAS 7 – Statement of Cash Flows

In January 2016, the IASB issued amendments to International Accounting Standards ("IAS") 7, *Statement of Cash Flows* ("IAS 7"). The amendments apply prospectively for annual periods beginning on or after January 1, 2017 and require disclosures that enable users of financial statements to evaluate changes in liabilities arising from financing activities, including both changes arising from cash flows and non-cash changes. The Company implemented the amendments to IAS 7 on January 1, 2017 and there was no material impact on its Financials.

(ii) IFRS 9 – Financial Instruments

In July 2014, the IASB issued the final publication of the IFRS 9 standard, superseding the current IAS 39, *Financial Instruments: Recognition and Measurement* ("IAS 39") standard ("IFRS 9"). IFRS 9 includes revised guidance on the classification and measurement of financial instruments, including a new expected credit loss model for calculating impairment on financial assets, and the new general hedge accounting requirements. It also carries forward the guidance on recognition and de-recognition of financial instruments from IAS 39. The standard is effective for annual periods beginning on or after January 1, 2018 with early adoption permitted. The Company intends to adopt IFRS 9 in its Financials for the annual period beginning on January 1, 2018 and does not expect the new standard to have a material impact on its Financials.

(iii) IFRS 15 – Revenue from Contracts with Customers

In May 2014, the IASB issued IFRS 15, *Revenue from Contract with Customers* ("IFRS 15"), which establishes a new five step model that applies to revenue arising from contracts with customers. The principles in IFRS 15 provide a more structured approach to measuring and recording revenue allowing greater comparability of revenues across industries. The new revenue standard is applicable to all entities and will supersede all current revenue recognition requirements under IFRS. Either a full or modified retrospective application is required for annual periods beginning on or after January 1, 2018, with early adoption permitted. The Company intends to adopt IFRS 15 in its Financials for the annual period beginning on January 1, 2018 and does not expect the new standard to have a material impact on its Financials.

(iv) IFRS 16 – Leases

IFRS 16, *Leases* ("IFRS 16") was issued in January 2016 and sets out a new model for lease accounting, replacing IAS 17, *Leases*. The most significant effect of the new standard will be the recognition of the initial present value of unavoidable future lease payments as lease assets and lease liabilities on the statement of financial position, including those for most leases that would be currently accounted for as operating leases. Leases with durations of 12 months or less and leases for low value assets may be exempted. IFRS 16 will be effective for accounting periods beginning on or after January 1, 2019. Early adoption will be permitted provided the Company has adopted IFRS 15. The Company intends to adopt IFRS 16 in its Financials for the annual period beginning on January 1, 2019 and does not expect the new standard to have a material impact on its Financials.

Note 4. Property and Equipment, Net

	Land	Buildings and improvements	Furniture, fixtures and equipment	Total
Cost:				
Balance, January 1, 2016	$ 4,988	$ 42,260	$ 16,971	$ 64,219

Carrying amount, December 31, 2017	5,024	24,348	9,888	39,260

The Company's fixed asset additions are primarily related to improvements and upgrades required by the Company's franchise agreement. Shortly after acquisition of the properties, the Company began an extensive renovation program on the Properties.

Note 5. Restricted Cash

The Company funded restricted cash reserves for brand mandated property improvement plans ("PIPs") and furniture, fixtures and equipment upgrades arising from the Company's franchise agreement. Restricted cash reserves are typically expected to be spent over an 18-24 month period. The amounts are released to the Company as the expenditures are incurred or paid directly to the service provider. As of December 31, 2017 and December 31, 2016, the Company had $0 and $215 of restricted cash, respectively.

Note 6. Operating Expenses

	For the Years Ended December 31,	
	2017	2016
Payroll	$ 5,223	$ 5,007
Repairs and maintenance	293	301
Utilities	588	565
Property taxes and insurance	735	739
Cost of goods sold	350	456
Franchise fees	1,033	1,000
Other operating expenses	1,959	2,048
Operating expenses	$ 10,181	$ 10,116

Interest on note payable	—	169
Deposits	4	2
Other payables	183	184
Accounts payable and other accrued liabilities	$ 939	$ 1,063

Note 9. Note Payable, Net

On December 3, 2014, the Company, along with three affiliates of the Fund (the Co-borrowers") (collectively the "Borrower"), were obligated under the loan agreements totaling $862,500 (the "Collective Loan"). The Collective Loan was structured with a mortgage loan with a principal amount of $611,000 (the "Mortgage") and two mezzanine loans with an aggregate principal amount of $251,500 (the "Mezzanine Loans"). The obligations under the Collective Loan are joint and several and are secured by the DT Portfolio and the Co-borrowers' 31 properties.

The obligation under the Mortgage is guaranteed by BSHH, LLC, a Delaware limited liability company and an affiliate of the Company (the "Guarantor"). In addition, the Borrower and Guarantor have recourse liability under the Collective Loan for certain matters typical of a transaction of this type.

The Borrower may prepay the Collective Loan, in whole or in part, without any prepayment penalty or fee.

The portion of the Collective Loan associated with the DoubleTree Portfolio, based on the individual release price identified in the Collective Loan, is approximately $49,000 for the Mortgage and approximately $20,200 for the Mezzanine Loans. The Collective Loan had an initial maturity date of December 9, 2016, with three successive on-year extension options through December 9, 2019. During 2016, the Borrower extended the maturity date of the Collective Loan to December 9, 2017. The Collective Loan requires the payment of month interest based on the one-month LIBOR plus a margin.

On July 14, 2016, an affiliate of the Company purchased a portion of the Mezzanine Loans. The amount associated with the Company's portion of the Mezzanine Loans is approximately $3,600, which is reflected as related party mezzanine loan payable, net in the Financials. The amount of interest associated with the related party mezzanine loan is approximately $180 and is included in interest expense, net within the Financials.

Pursuant to the terms of the Collective Loan, the Borrower was required to enter into an interest rate cap agreement with respect to each loan, which caps the base interest rate before applying the applicable margins on the Collective Loan, for an aggregate notional amount of $862,500, with a termination date of December 9, 2016, and a strike rate of 3.00%. In connection with the extension of the Collective Loan, the Borrower entered into interest rate cap agreements for an aggregate notional amount of approximately $753,005, with a termination date of December 15, 2017, and a strike rate of 3.979% . The interest rate cap agreements were terminated when the loan was refinanced on July 7, 2017, as discussed below. The counterparty to the interest rate cap agreements is a financial institution.

The Collective Loan contains various representations and warranties, as well as certain financial, operating and other covenants. Pursuant to the terms of the Collective Loan, the Borrower is required to maintain a certain debt yield, as defined in the Collective

Loan. In the event the debt yield falls below the stated percentage, the Borrower is obligated to deposit excess cash flows into the debt yield payment reserve account. Funds on deposit in the reserve account are restricted, as defined by the terms of the Collective Loan. The Borrower met the required debt yield as of December 31, 2017 and January 1, 2017.

The Collective Loan requires the maintenance of a replacement reserve for the payment of property improvements and fixed asset replacements.

Deferred financing costs consisted of amounts paid in connection with obtaining the Collective Loan. Such costs were amortized on a straight-line basis over the term of the related debt. Amortization of deferred financing costs totaled approximately $390,000 for the year ended December 31, 2016, and is included in interest expense, net in the Financials. There are no unamortized deferred financing costs at December 31, 2017 and 2016.

On July 7, 2017, the Collective Loan was refinanced with an affiliated party, PIH Beaverton, LLC etal (the "Refinanced Loan"). The Refinanced Loan has no stated maturity date but is repayable upon a sale of the Company's assets and accrues interest at an annual rate of one-month LIBOR plus 155 bps. No deferred financing costs were paid as part of the refinancing transaction. The portion of the Refinanced loan allocated to the Company had an outstanding balance as of December 31, 2017 of $69.2 million and was allocated amongst the note payable, net; the mezzanine loan, net; and the related party mezzanine loan payable, net as follows:

	December 31, 2017		December 31, 2016	
Note payable	$	49,031	$	49,031
Less: current maturities		—		—
Less: unamortized portion of deferred financing costs		-		-
Note payable, net	$	49,031	$	49,031

	December 31, 2017		December 31, 2016	
Mezzanine debt	$	20,182	$	16,588
Less: current maturities		—		—
Less: unamortized portion of deferred financing costs		-		-
Mezzanine note, net	$	20,182	$	16,588

	December 31, 2017		December 31, 2016	
Related party mezzanine loan	$	-	$	3,594
Less: current maturities		—		—
Less: unamortized portion of deferred financing costs		-		-
Related party mezzanine loan payable, net	$	-	$	3,594

Note 10. Interest Expense, Net

	For the Years Ended December 31,			
	2017		2016	
Interest on debt	$	2,058	$	3,473
Amortization of deferred financing costs		-		390
Interest expense, net	$	2,058	$	3,863

Note 11. Members' Capital

The members of the Company have made cash contributions and received cash distributions based on their respective ownership percentages. As of December 31, 2017 and 2016, cash contributions totaled $0 and $0 and cash distributions totaled $1,546 and $5,024, respectively. All income or loss allocations are based on the member's respective ownership percentage.

Note 12. Financial Instruments

(a) Comparison of fair value to carrying amount

The fair value of a financial instrument is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value may be based on other observable current market transactions in the same instrument, without modification or on a valuation technique using market-based inputs. Fair value measurements recognized in the consolidated statements of financial position are categorized using the following fair value hierarchy that reflects the significance of inputs used in determining the fair values:

- Level 1: Quoted (unadjusted) market prices in active markets for identical assets or liabilities.
- Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, directly or indirectly.
- Level 3: Inputs for the asset or liability that are not based on observable market data (unobservable inputs).

As of December 31, 2017, December 31, 2016 and January 1, 2016, the carrying amounts of the Company's cash and cash equivalents, restricted cash, trade and other receivables, prepaid and other assets, accounts payables and other accrued liabilities approximated their fair values due to the short-term nature of these financial assets and liabilities.

The fair value of note payable is estimated by discounting the future cash flows using discount rates that reflect current market conditions for instruments having similar terms and conditions. Discount rates are either provided by lenders or are observable in the open market. As of December 31, 2017, December 31, 2016 and January 1, 2016, the carrying amount of the Company's note payable approximated its fair value.

(b) Financial risk management

The Company may be exposed to a number of risks in its normal course of operations from use of financial instruments. These risks, and the actions taken to manage them, are as follows:

(i) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in the market interest rates.

The Company's Loan bears interest at a variable rate. Fluctuations in interest rates will impact the cost of financing incurred in the future. The Company monitors its interest rate exposure on an ongoing basis.

As of December 31, 2017, every 1% increase or decrease in the applicable interest rate, assuming all other variables are constant, would result in a corresponding change of approximately $490 in the Company's net interest expense on an annual basis.

(ii) Credit risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligation. The maximum exposure to credit risk is the full carrying amount of the financial instrument.

The Company is exposed to credit risk with respect to trade and other receivables. For the years ended December 31, 2017 and December 31, 2016, bad debt expense was $0. Credit risk of trade and other receivables is mitigated by initiating a prompt collection process.

(iii) Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they fall due. Property and equipment investments tend to be relatively illiquid, with the degree of liquidity generally fluctuating in relation to demand for and the perceived desirability of such investments. If the Company was required to sell the Property, the proceeds to the Company may be significantly less than the Property's carrying amount.

The Company manages liquidity risk through monitoring the repayment date and refinancing date of its note payable, monitoring its debt covenants and managing its cash flows. The Company's objective is to maintain sufficient available

access to capital to fund ongoing operational and capital requirements. As of December 31, 2017, the Company had cash and cash equivalents of $580.

The following table provides information on the carrying amounts and the non-discounted contractual maturities of financial liabilities with fixed repayment terms, including estimated interest payments using the 30-day LIBOR rate of 1.56% as of December 31, 2017:

	Carrying amount	Contractual cash flows	1 Year	More than 1 Year
Note payable	$ 49,031	$ 49,031	$ —	$ 49,031
Mezzanine debt	20,182	20,182	-	20,182
Interest payable on note	—	4,252	2,126	2,126
Accounts payable and other accrued liabilities	939	939	939	—
Total	$ 70,152	$ 74,404	$ 3,065	$ 71,339

Note 13. Capital Management

The Company defines capital as the aggregate of members' equity and note payable. The Company's objectives in managing capital are to maintain a level of capital that: complies with investment and debt restrictions pursuant to the Company's operating agreement; complies with existing debt covenants; funds its business strategies; and builds long-term members' value. Capital adequacy is monitored by the Company by assessing performance against the approved annual plan throughout the year and by monitoring adherence to investment and debt restrictions contained in the Company's operating agreement and debt covenants.

Note 14. Segment Reporting

The Company currently operates in one business segment, owning and operating one hotel property in the U.S. The primary format for segment reporting is based on geographic region and is consistent with the internal reporting provided to the Company's chief operating decision-maker. Accordingly, the Company has a single reportable segment for disclosure purposes in accordance with IFRS.

Note 15. Commitments and Contingencies

(a) Franchise agreement

The DoubleTree Portfolio operates under franchise agreements with DoubleTree. The franchise agreements have 10 year terms that expire between 2022 and 2024. The franchise agreements require the payment of royalty fees calculated at 3% of gross room revenue, as defined, for the first operating year; 4% of gross room revenue for the second operating year; and 5% of gross room revenue for the third through tenth operating year. In addition, the franchise agreements provide for a monthly program fee, as defined, calculated at 4% of gross room revenue. Franchise fees paid to DoubleTree totaled approximately $1,000 for the year ended December 31, 2017. Monthly program fees under the agreements totaled approximately $900 for the year ended December 31, 2017 and are included in marketing expenses.

(b) Litigation

In the normal course of operations, the Company may become subject to a variety of legal and other claims. The Company evaluates all claims on their apparent merits and, if necessary, the Company accrues for its best estimate of the costs to satisfy such claims. While it is not possible to ascertain the ultimate outcome of all such matters, the Company believes that the aggregate amount of such liabilities, if any, in excess of amounts provided or covered by insurance, will not have a material adverse effect on these consolidated financial statements. The Company is not involved in any material litigation nor, to the Company's knowledge, is any material litigation currently threatened against the Company, the Operating Company or the Property.

(c) Soil remediation costs

In connection with the acquisition of the DoubleTree Olympia hotel, the Company recorded an environmental remediation liability of approximately $141,000 related to expected soil remediation costs. These costs were capitalized as part of the hotel property and equipment. During 2009, the Company determined that additional soil remediation work would be required and estimated the additional cost to be approximately $208,000. As of December 31, 2017 and 2016, approximately $90,000 and $90,000 is remaining in the liability, respectively, which is included in accounts payable and accrued expenses in the Financials.

Note 16. Related Party Transactions

The Company entered into a joint financing arrangement with affiliates referred to as the Collective Loan. The Collective Loan was outstanding as of December 31, 2016 and January 1, 2016. The Company paid affiliates $183 in interest in 2017 under the Collective Loan. Additionally, the Company was jointly and severally liable on $862,500 of debt with affiliates.

On July 7, 2017, the Collective Loan was refinanced with the Refinanced Loan, which was issued by an affiliate. The Company paid affiliates $1,063 in 2017 under the Refinanced Loan.

Note 17. Supplemental Cash Flow Disclosure

Reconciliation of changes in liabilities and members' equity, including movements of liabilities to cash flows arising from financing activities for the year ended December 31, 2017 was as follows:

	Liabilities				
	Accounts payable and other accrued liabilities	Note payable, net	Mezzanine note, net	Members' equity	Total
Balance January 1, 2017	$ 1,309	$ 49,031	$ 20,182	$ (28,506)	$ 42,016
Changes from financing cash flows:					
Principal payments on notes payable	-	-	-	-	-
Distributions	-	-	-	(1,546)	(1,546)
Total changes from financing cash flows	-	-	-	(1,546)	(1,546)
Liability related:

Note 18. Subsequent Events

The Company evaluated subsequent events through March 27, 2019 to determine if any significant events occurred subsequent to the balance sheet dates that would have a material impact on these consolidated financial statements. On May 3, 2018, the DoubleTree Portfolio was purchased by NREO NW Hospitality, LLC. On January 8, 2019, the owner of NREO NW Hospitality, LLC, contributed its interests in NREO NW Hospitality, LLC to the OP in exchange for 9,629,170 Class B Units of the OP.

HCBH 11611 FERGUSON, LLC
NOTES TO THE UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS
(Amounts in thousands of U.S. dollars except unit counts)

Note 1. General Information

HCBH 11611 Ferguson, LLC (the "Company") is a Delaware, United States of America, limited liability company established on March 2, 2017. The Company was formed to acquire indirect interests in three hospitality properties (the "Properties," see table below) on May 4, 2017 from an independent third party. The Company indirectly owns the properties through single-asset limited liability companies, which are consolidated with the Company's financial statements.

Property Name	Location
Homewood Suites by Hilton – Plano	Plano, TX
Homewood Suites by Hilton – Dallas/Irving/Las Colinas	Irving, TX
Homewood Suites by Hilton – Dallas/Addison	Addison, TX

NexPoint Hospitality Trust (the "REIT") is a newly-created, unincorporated, real estate investment trust established under the laws of the Province of Ontario. The REIT was formed to aggregate eleven hospitality properties (the "Initial Portfolio") and list its shares on the TSX Venture Exchange (the "Listing"). The REIT will own its properties through its subsidiary NHT Operating Partnership, LLC, (the "OP"). Once the Listing is completed, the REIT will own eleven properties indirectly through its ownership of the OP. In order to consummate the Listing, the REIT filed a preliminary prospectus with the Ontario Securities Commission (the "OSC") on December 12, 2018 (the "Offering") to register the units of the REIT.

The consolidated financial statements of the Company (the "Financials") consist of the Properties. The Financials have been prepared for the specific purpose of reporting on the historical assets, liabilities, members' equity, revenues and expenses of the Company included in, and for the inclusion in, a final prospectus to be filed by the REIT. The Financials present the consolidated financial position, results of operations and cash flows of the Company for the periods presented. The Financials are not necessarily indicative of future operating results.

Note 2. Basis of Preparation

(a) Statement of Compliance

The Financials have been prepared in accordance with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB").

(b) Basis of Measurement

The Financials have been prepared on a historical cost basis.

(c) Basis of Presentation

The Financials include the accounts of the Company on a consolidated basis. The Financials are presented in U.S. dollars, which is the functional currency of the Company, and all amounts have been rounded to the nearest thousands, except when otherwise indicated.

(d) Use of estimates, assumptions and judgements

The preparation of financial statements in conformity with IFRS requires management to make estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised and in any future periods affected.

The Financials were authorized for issue by the members of the Company and the board of directors of the REIT on March 27, 2019.

Note 3. Summary of Significant Accounting Policies

The significant accounting policies used in the preparation of these Financials are described below and have been applied consistently to all periods presented:

(a) Basis of consolidation

The Financials comprise the financial statements of the Company and its single-asset limited liability company subsidiaries. Intra-company transactions and balances are eliminated in preparing the Financials. The Financials reflect the consolidated financial position, results of operations and cash flows of the Company and its subsidiaries.

(b) Properties and equipment

(i) Recognition and measurement

Properties and equipment are measured at cost less accumulated depreciation and any accumulated impairment losses. Cost includes expenditures that are directly attributable to the acquisition of the asset. The cost of self-constructed assets includes the cost of materials and direct labor, any other costs directly attributable to bringing the assets to a working condition for their intended use, and borrowing costs on qualifying assets.

When parts of an item of property and equipment have different useful lives, they are accounted for as separate items (major components) of property and equipment.

(ii) Subsequent costs

The cost of replacing a part of an item of property and equipment is recognized in the carrying amount of the item if it is probable that the future economic benefits embodied within the part will flow to the Company and its cost can be measured reliably. The carrying amount of the replaced part is derecognized. The costs of the day-to-day maintenance of property and equipment are recognized in profit or loss as incurred.

(iii) Depreciation

Depreciation is computed on a straight-line basis based on the estimated useful lives of each component of property and equipment. Depreciation on new construction commences in the month after the asset is available for its intended use based upon the useful life of the asset.

Estimated useful lives were determined based on current facts and past experience, and take into consideration the anticipated physical life of the asset and current and forecasted demand. The rates and methods used are reviewed annually at year end to ensure they continue to be appropriate, and are also reviewed in conjunction with impairment testing. Gains/losses on disposition of property and equipment are recognized in profit or loss when the REIT has transferred to the purchaser the significant risk and rewards of ownership of the property and equipment and the purchaser has made a substantial commitment demonstrating its intent to honour its obligation.

(c) Impairment of non-financial assets

The carrying amounts of the Company's non-financial assets, other than inventories, are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated.

The recoverable amount of an asset or cash-generating unit is the greater of its value in use and its fair value less costs to sell. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. For the purpose of impairment testing, assets that cannot be tested individually are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or groups of assets (the "cash-generating unit" or "CGU").

When the carrying amount of the asset or CGU exceeds its estimated recoverable amount, an impairment loss is recognized in an amount equal to the excess. When an indication that an impairment loss recognized in prior periods for an asset or CGU other than

goodwill may no longer exist or may have decreased, the recoverable amount of that asset or CGU is estimated. A reversal of an impairment loss is recognized immediately in profit or loss if the recoverable amount of a previously impaired asset or CGU has subsequently increased to the lower of the asset or CGU's recoverable amount or carrying amount had no impairment loss been recognized for the asset or CGU in prior years.

(d) Financial instruments

(i) Classification and measurement of financial assets and liabilities:

Financial instruments are generally measured at fair value on initial recognition. The classification and measurement of financial assets consists of the following categories: (i) measured at amortized cost, (ii) fair value through profit and loss ("FVTPL"), and (iii) fair value through other comprehensive income ("FVTOCI"). Financial assets classified at amortized cost are measured using the effective interest method. Financial assets classified as FVTPL are measured at fair value with gains and losses recognized in the consolidated statement of net income. Financial assets classified as FVTOCI are measured at fair value with gains or losses recognized through other comprehensive income, except for gains and losses pertaining to impairment or foreign exchange recognized through net income.

The classification and measurement of financial liabilities consists of the following categories: (i) measured at amortized cost and (ii) FVTPL. Financial liabilities classified at amortized cost are measured using the effective interest method. Financial liabilities classified as FVTPL are measured at fair value with changes in fair value attributable to changes in the credit risk of the liability presented in other comprehensive income, and the remaining amount of change in fair value presented in the consolidated statement of net income.

The Company has made the following classifications for its financial instruments:

Asset/Liability	**Classification**
Cash and cash equivalents	Amortized cost
Restricted cash	Amortized cost
Trade and other receivables	Amortized cost
Accounts payable and other accrued liabilities	Amortized cost
Notes payable	Amortized cost

The Company derecognizes a financial asset only when the contractual rights to the cash flows from the asset expire or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another entity. The Company derecognizes a financial liability when, and only when, the Company's obligations are discharged, cancelled or they expire. The difference between the carrying amount of the financial liability derecognized and the consideration paid and payable is recognized through net income.

Transaction costs other than those related to financial instruments classified as FVTPL, which are expensed as incurred, are capitalized to the carrying amount of the instrument and amortized using the effective interest method. These costs include interest, amortization of discounts or premiums relating to borrowings, fees and commissions paid to agents, brokers and advisers and transfer taxes and duties.

(ii) Impairment of financial assets

For impairment of financial assets other than investments in equity instruments, contract assets, lease receivables, loan commitments and financial guarantee contracts, the Company applies a forward-looking 'expected credit loss' ("ECL") model. The Company adopted the practical expedient to determine ECL on trade and other receivables using a provision matrix based on historical credit loss experiences adjusted for current and forecasted future economic conditions to estimate lifetime ECL.

Impairment losses are recorded in the statement of income (loss) and comprehensive income (loss) with the carrying amount of the financial asset or group of financial assets reduced through the use of impairment allowance accounts.

(e) Cash and cash equivalents

The Company considers all liquid investments with original terms to maturity of three months or less when acquired to be cash equivalents. Cash and cash equivalents consist of cash on hand and cash held at banks.

(f) Restricted cash

Restricted cash primarily consists of cash reserves on deposit with lenders in respect of future capital expenditures.

(g) Provisions

A provision is recognized if, as a result of a past event, the Company has a present legal or constructive obligation that can be estimated reasonably, and it is probable that an outflow of economic benefits will be required to settle the obligation. If the time value of money is material, provisions are determined by discounting the expected future cash flows using a current rate that reflects the risk profile of the liability, and the increase to the provision due to the passage of time will be recognized as a finance cost.

(h) Revenue recognition

IFRS 15 establishes a comprehensive framework for determining whether, how much and when revenue is recognized. It replaced IAS 18 Revenue and related interpretations. The standard requires revenue to be recognized in a manner that depicts the transfer of promised goods or services to a customer and at an amount that reflects the consideration expected to be received in exchange for transferring those goods or services. This is achieved by applying the following five steps:

1. identify the contract with a customer;
2. identify the performance obligations in the contract;
3. determine the transaction price;
4. allocate the transaction price to the performance obligations in the contract; and
5. recognize revenue when (or as) the entity satisfies a performance obligation.

Revenue is generated primarily from the operation of the Company's hotels, which includes room rentals, food and beverage sales and other incidental income. Revenue is recognized when services are rendered, the amount is earned, and collectability is reasonably assured. The Company may collect payments in advance of the utilization of a facility. These payments are recorded in accounts payable and other accrued liabilities until such time as the applicable facility is utilized, at which time the customer deposit is recognized as revenue.

(i) Interest expense, netNet interest expense primarily consists of interest expense on outstanding debt and the amortization of deferred financing costs, net of interest income. Net interest expense is recognized in the period in which it is incurred. Fees and costs related to obtaining debt financing are capitalized against the related debt and amortized over the term of the debt using the straight-line method, which approximates the effective interest method, and are included in net interest expense. The unamortized balance of the fees and costs is recorded as a reduction from the related debt on the Company's consolidated statements of financial position.

(j) Income taxes

The Company is a limited liability company that indirectly owns the Properties through single-asset limited liability companies. The Company is treated like a partnership for U.S. federal income tax purposes. As such, the Company has not recorded a provision for income taxes on its taxable income as the members of the Company are required to report their share of the Company's earnings in their respective income tax returns. The Company's tax returns and the amounts of allocable income or loss are subject to examination by federal and state taxing authorities. If such examinations result in changes to income tax or loss, the tax liability of the members of the Company could be changed accordingly. In certain instances, the Company may be subject to certain state and local taxes.

The Company evaluates the uncertainties of tax positions taken or expected to be taken on a return based on the probability of whether the position taken will be sustained upon examination by tax authorities. As of September 30, 2018 and December 31, 2017, the Company had no amounts related to unrecognized income tax benefits and no amounts related to accrued interest and penalties.

The Company recognizes tax positions taken or to be taken in a tax return when they become probable. The Company concluded that it had no material uncertain tax liabilities to be recognized as of September 30, 2018 and December 31, 2017.

On December 22, 2017, the Tax Cuts and Jobs Act (the "2017 Tax Act") was signed into law in the United States. The most significant change is the reduction of the statutory corporate tax rate from 35 percent to 21 percent, effective January 1, 2018. Many of the provisions in the 2017 Tax Act expire in seven years (at the end of 2025). The Company does not expect the 2017 Tax Act to have a significant impact on its Financials.

(k) Operating segments

The Company currently operates in one business segment, owning and operating three hotel properties in the U.S. The primary format for segment reporting is based on geographic region and is consistent with the internal reporting provided to the Company's chief operating decision-maker.

(l) Levies

In accordance with IFRS Interpretations Committee (IFRIC) 21, *Levies*, the Company recognizes the full amount of annual property tax liabilities at the point in time when the realty tax obligation is imposed. This is the obligating event that gives rise to a liability to pay the property taxes.

(m) Use of estimates and assumptions

The preparation of financial statements in conformity with IFRS requires management to make estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities and disclosure of contingent assets and liabilities as of the date of the financial statements, and the reported amounts of revenues and expenses during the reporting periods. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised and in any future periods affected.

(n) Recent accounting pronouncements

(i) IFRS 9 – Financial Instruments

In July 2014, the IASB issued the final publication of the IFRS 9 standard, superseding the current IAS 39, *Financial Instruments: Recognition and Measurement* ("IAS 39") standard ("IFRS 9"). IFRS 9 includes revised guidance on the classification and measurement of financial instruments, including a new expected credit loss model for calculating impairment on financial assets, and the new general hedge accounting requirements. It also carries forward the guidance on recognition and de-recognition of financial instruments from IAS 39. The standard is effective for annual periods beginning on or after January 1, 2018 with early adoption permitted. The Company adopted IFRS 9 on January 1, 2018 and there was no material impact on its Financials.

(ii) IFRS 15 – Revenue from Contracts with Customers

In May 2014, the IASB issued IFRS 15, *Revenue from Contract with Customers* ("IFRS 15"), which establishes a new five step model that applies to revenue arising from contracts with customers. The principles in IFRS 15 provide a more structured approach to measuring and recording revenue allowing greater comparability of revenues across industries. The new revenue standard is applicable to all entities and will supersede all current revenue recognition requirements under IFRS. Either a full or modified retrospective application is required for annual periods beginning on or after January 1, 2018, with early adoption permitted. The Company adopted IFRS 15 on January 1, 2018, using the modified retrospective method, and there was no material impact on its Financials.

(iii) IFRS 16 – Leases

IFRS 16, *Leases* ("IFRS 16") was issued in January 2016 and sets out a new model for lease accounting, replacing IAS 17, *Leases*. The most significant effect of the new standard will be the recognition of the initial present value of unavoidable future lease payments as lease assets and lease liabilities on the statement of financial position, including those for most

leases that would be currently accounted for as operating leases. Leases with durations of 12 months or less and leases for low value assets may be exempted. IFRS 16 will be effective for accounting periods beginning on or after January 1, 2019. Early adoption will be permitted provided the Company has adopted IFRS 15. The Company intends to adopt IFRS 16 in its Financials for the annual period beginning on January 1, 2019 and does not expect the new standard to have a material impact on its Financials.

Carrying amount, September 30, 2018	6,715	20,289	1,950	12,260	41,214

The Company's fixed asset additions are primarily related to improvements and upgrades required by the Company's franchise agreement. Shortly after acquisition of the properties, the Company began an extensive renovation program on the Properties. As of December 31, 2017, the renovation program was still in process resulting in a $6,508 balance in construction in progress. The renovation program continued into 2018 with an additional $5,752 of construction begun in 2018 with an ending balance in construction in progress of $12,260 as of September 30, 2018. The renovation was completed in May 2018 and the balances in construction in progress were moved to buildings and improvements and furniture, fixture and equipment when placed in service.

Note 5. Restricted Cash

The Company funded restricted cash reserves for brand mandated property improvement plans ("PIPs") and furniture, fixtures and equipment upgrades arising from the execution of the franchise agreements in 2017 of each underlying property of the Company. Restricted cash reserves are typically expected to be spent over an 18-24 month period. The amounts are released to the Company as the expenditures are incurred or paid directly to the service provider. As of September 30, 2018 and December 31, 2017, the Company had $889 and $1,008 of restricted cash, respectively.

Accounts payable and other accrued liabilities	$ 1,657	$ 1,762

Note 9. Note Payable, Net

	September 30, 2018	December 31, 2017
Note payable	$ 32,107	$ 26,758
Less: current maturities	(158)	—
Less: unamortized portion of deferred financing costs	(308)	(454)
Note payable, net	$ 31,641	$ 26,304

On May 4, 2017, in connection with the acquisition of the Properties, the Company entered into a $32,350 term loan (the "Loan") with a large financial institution and immediately drew $22,180. Subsequently, the Company drew $5,349 and $4,578 during the periods ended September 30, 2018 and December 31, 2017, respectively. The Loan is secured by the Properties and bears interest at a variable rate equal to the 30-day London InterBank Offered Rate ("LIBOR") plus 4.95%. As of September 30, 2018 and December 31, 2017, the Loan's effective interest rates were 7.21% and 6.51%, respectively. Beginning in June 2019, the Loan's monthly

payments include a fixed monthly amortization payment of $40 along with the monthly interest payments. The Loan matures on May 4, 2020, and has one twelve-month extension option.

The Company's loan agreement contains customary representations, warranties, and events of default, which requires the Company to comply with affirmative and negative covenants. As of September 30, 2018 and December 31, 2017, the Company was in compliance with all covenants of its loan agreement.

Costs related to obtaining debt financing are capitalized and amortized over the term of the related debt using the straight-line method, which approximates the effective interest method, and are included in net interest expense. The unamortized balance of the costs is shown as a reduction of the related debt on the consolidated statements of financial position.

Future principal payments on the Loan, excluding amortization of deferred financing costs, payable within the next five calendar years subsequent to September 30, 2018 are as follows:

	Note payable
2018	$ —
2019	277
2020	31,364
2021	—
2022	—
Thereafter	—
Total	$ 31,641

Note 10. Interest Expense, Net

	For the Nine Months Ended September 30, 2018	For the Period from May 4, 2017 (Inception) to September 30, 2017
Interest on debt	$ 1,534	$ 572
Amortization of deferred financing costs	146	81
Interest expense, net	$ 1,680	$ 653

Note 11. Members' Capital

The members of the Company have made cash contributions based on their respective ownership percentages. As of September 30, 2018, cash contributions totaled $10,320 and cash distributions totaled $228. All income or loss allocations are based on the member's respective ownership percentage.

Note 12. Financial Instruments

(a) Comparison of fair value to carrying amount

The fair value of a financial instrument is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value may be based on other observable current market transactions in the same instrument, without modification or on a valuation technique using market-based inputs. Fair value measurements recognized in the consolidated statements of financial position are categorized using the following fair value hierarchy that reflects the significance of inputs used in determining the fair values:

- Level 1: Quoted (unadjusted) market prices in active markets for identical assets or liabilities.
- Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, directly or indirectly.
- Level 3: Inputs for the asset or liability that are not based on observable market data (unobservable inputs).

As of September 30, 2018 and December 31, 2017, the carrying amounts of the Company's cash and cash equivalents, restricted cash, trade and other receivables, prepaid and other assets, accounts payables and other accrued liabilities approximated their fair values due to the short-term nature of these financial assets and liabilities.

The fair value of note payable is estimated by discounting the future cash flows using discount rates that reflect current market conditions for instruments having similar terms and conditions. Discount rates are either provided by lenders or are observable in the open market. As of September 30, 2018 and December 31, 2017, the carrying amount of the Company's note payable approximated its fair value.

(b) Financial risk management

The Company may be exposed to a number of risks in its normal course of operations from use of financial instruments. These risks, and the actions taken to manage them, are as follows:

(i) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in the market interest rates.

The Company's Loan bears interest at a variable rate. Fluctuations in interest rates will impact the cost of financing incurred in the future. The Company monitors its interest rate exposure on an ongoing basis.

As of September 30, 2018, every 1% increase or decrease in the applicable interest rate, assuming all other variables are constant, would result in a corresponding change of approximately $321 in the Company's net interest expense on an annual basis.

(ii) Credit risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligation. The maximum exposure to credit risk is the full carrying amount of the financial instrument.

The Company is exposed to credit risk with respect to trade and other receivables. For the nine months ended September 30, 2018, bad debt expense was $1. Credit risk of trade and other receivables is mitigated by initiating a prompt collection process.

(iii) Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they fall due. Properties and equipment investments tend to be relatively illiquid, with the degree of liquidity generally fluctuating in relation to demand for and the perceived desirability of such investments. If the Company was required to sell the Properties, the proceeds to the Company may be significantly less than the Properties' carrying amount.

The Company manages liquidity risk through monitoring the repayment date and refinancing date of its note payable, monitoring its debt covenants and managing its cash flows. The Company's objective is to maintain sufficient available access to capital to fund ongoing operational and capital requirements. As of September 30, 2018 and December 31, 2017, the Company had cash and cash equivalents of $705 and $697, respectively.

The following table provides information on the carrying amounts and the non-discounted contractual maturities of financial liabilities with fixed repayment terms, including estimated interest payments using the 30-day LIBOR rate of 2.26% as of September 30, 2018:

	Carrying amount	Contractual cash flows	1 Year	More than 1 Year
Note payable	$ 32,107	$ 32,107	$ 158	$ 31,949
Interest payable on note	173	3,893	2,345	1,548
Accounts payable and other accrued liabilities	1,484	1,484	1,484	—
Total	$ 33,764	$ 37,484	$ 3,987	$ 33,497

Note 13. Capital Management

The Company defines capital as the aggregate of members' equity and note payable. The Company's objectives in managing capital are to maintain a level of capital that: complies with investment and debt restrictions pursuant to the Company's operating agreement; complies with existing debt covenants; funds its business strategies; and builds long-term members' value. Capital adequacy is monitored by the Company by assessing performance against the approved annual plan throughout the year and by monitoring adherence to investment and debt restrictions contained in the Company's operating agreement and debt covenants.

Note 14. Segment Reporting

The Company currently operates in one business segment, owning and operating three hotel properties in the U.S. The primary format for segment reporting is based on geographic region and is consistent with the internal reporting provided to the Company's chief operating decision-maker. Accordingly, the Company has a single reportable segment for disclosure purposes in accordance with IFRS.

Note 15. Related Party Transactions

The Company periodically evaluates arrangements and agreements to identify related party transactions. For the nine months ended September 30, 2018, the Company has identified no material related party transactions.

Note 16. Commitments and Contingencies

(a) Franchise agreements

The Properties are operated under franchise agreements (the "Franchise Agreements") with a subsidiary of Hilton Worldwide (the "Franchisor"). The Franchise Agreements were executed on May 4, 2017 and have a 15-year term. The Franchise Agreements require the payment of a monthly royalty fee of 5.5% and a monthly program fee of 3.5% of the Properties' gross room revenue. For the nine months ended September 30, 2018, franchise fees were $409, and are included in operating expenses in the consolidated statements of comprehensive income.

(b) Litigation

In the normal course of operations, the Company may become subject to a variety of legal and other claims. The Company evaluates all claims on their apparent merits and, if necessary, the Company accrues for its best estimate of the costs to satisfy such claims. While it is not possible to ascertain the ultimate outcome of all such matters, the Company believes that the aggregate amount of such liabilities, if any, in excess of amounts provided or covered by insurance, will not have a material adverse effect on these Financials. The Company is not involved in any material litigation nor, to the Company's knowledge, is any material litigation currently threatened against the Company or the Properties.

Note 17. Supplemental Cash Flow Disclosure

Reconciliation of changes in liabilities and members' equity, including movements of liabilities to cash flows arising from financing activities for the nine months ended September 30, 2018 were as follows:

	Liabilities				
	Accounts payable and other accrued liabilities	Current portion of note payable	Note payable, net	Members' equity	Total
Balance December 31, 2017	$ 1,762	$ -	$ 26,304	$ 9,456	$ 37,522
Changes from financing cash flows:					
Reclass of current portion of note payable	-	158	(158)		-
Amortization of deferred financing costs	-	-	146	-	146
Proceeds from note payable	-	-	5,349	-	5,349
Interest accrual	25	-	-	-	25
Contributions	-	-	-	1,214	1,214
Distributions	-	-	-	(228)	(228)
Total changes from financing cash flows	25	158	5,337	986	6,506
Liability related:					
Other payable increases (decreases)	(130)	-	-	-	(130)
Members' equity related:					
Comprehensive Income (loss)	-	-	-	(661)	(661)
Balance September 30, 2018	$ 1,657	$ 158	$ 31,641	$ 9,781	$ 43,237

Note 18. Subsequent Events

The Company evaluated subsequent events through March 27, 2019 to determine if any significant events occurred subsequent to the balance sheet dates that would have a material impact on these consolidated financial statements. On January 8, 2019, the Company was contributed to a newly formed entity, NHT DFW Portfolio, LLC, which was immediately contributed to NHT Holdco, LLC in exchange for 3,843,184 units.

HCBH 11611 FERGUSON, LLC

Consolidated Financial Statements

As at December 31, 2017 and
for the period from May 4, 2017 (date of formation) to December 31, 2017

(With Independent Auditors' Report Thereon)

Advisory Assurance Tax Private Client

INDEPENDENT AUDITORS' REPORT

To the Board of Trustees of
Nexpoint Hospitality Trust

We have audited the accompanying consolidated financial statements of HCBH 11611 Ferguson, LLC, which comprise the consolidated statement of financial position as of December 31, 2017, and the related consolidated statements of net income and comprehensive income, members' equity, and cash flows for the period from inception (May 4, 2017) to December 31, 2017, and the related notes to the consolidated financial statements.

Management's Responsibility for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with International Financial Reporting Standards as issued by the International Accounting Standards Board; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and in accordance with International Standards on Auditing. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditors consider internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the consolidated financial position of HCBH 11611 Ferguson, LLC as of December 31, 2017 and the results of its consolidated net income and comprehensive income, changes in equity and its cash flows for the period then ended in accordance with International Financial Reporting Standards as issued by the International Accounting Standards Board.

HCBH 11611 FERGUSON, LLC
NOTES TO THE AUDITED CONSOLIDATED FINANCIAL STATEMENTS
(Amounts in thousands of U.S. dollars except unit counts)

Note 1. General Information

HCBH 11611 Ferguson, LLC (the "Company") is a Delaware, United States of America, limited liability company established on March 2, 2017. The Company was formed to acquire indirect interests in three hospitality properties (the "Properties," see table below) on May 4, 2017 from an independent third party. The Company indirectly owns the properties through single-asset limited liability companies, which are consolidated with the Company's financial statements.

Property Name	Location
Homewood Suites by Hilton – Plano	Plano, TX
Homewood Suites by Hilton – Dallas/Irving/Las Colinas	Irving, TX
Homewood Suites by Hilton – Dallas/Addison	Addison, TX

NexPoint Hospitality Trust (the "REIT") is a newly-created, unincorporated, real estate investment trust established under the laws of the Province of Ontario. The REIT was formed to aggregate eleven hospitality properties (the "Initial Portfolio") and list its shares on the TSX Venture Exchange (the "Listing"). The REIT will own its properties through its subsidiary NHT Operating Partnership, LLC, (the "OP"). Once the Listing is completed, the REIT will own eleven properties indirectly through its ownership of the OP. In order to consummate the Listing, the REIT filed a preliminary prospectus with the Ontario Securities Commission (the "OSC") on December 12, 2018 (the "Offering") to register the units of the REIT.

The consolidated financial statements of the Company (the "Financials") consist of the Properties. The Financials have been prepared for the specific purpose of reporting on the historical assets, liabilities, members' equity, revenues and expenses of the Company included in, and for the inclusion in, a final prospectus to be filed by the REIT. The Financials present the consolidated financial position, results of operations and cash flows of the Company for the period presented. The Financials are not necessarily indicative of future operating results.

Note 2. Basis of Preparation

(a) Statement of Compliance

The Financials have been prepared in accordance with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB").

(b) Basis of Measurement

The Financials have been prepared on a historical cost basis.

(c) Basis of Presentation

The Financials include the accounts of the Company on a consolidated basis. The Financials are presented in U.S. dollars, which is the functional currency of the Company, and all amounts have been rounded to the nearest thousands, except when otherwise indicated.

(d) Use of estimates, assumptions and judgements

The preparation of financial statements in conformity with IFRS requires management to make estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised and in any future periods affected.

The Financials were authorized for issue by the members of the Company and the board of directors of the REIT on March 27, 2019.

Note 3. Summary of Significant Accounting Policies

The significant accounting policies used in the preparation of these Financials are described below and have been applied consistently to all periods presented:

(a) Basis of consolidation

The Financials comprise the financial statements of the Company and its single-asset limited liability company subsidiaries. Intra-company transactions and balances are eliminated in preparing the Financials. The Financials reflect the consolidated financial position, results of operations and cash flows of the Company and its subsidiaries.

(b) Properties and equipment

(i) Recognition and measurement

Properties and equipment are measured at cost less accumulated depreciation and any accumulated impairment losses. Cost includes expenditures that are directly attributable to the acquisition of the asset. The cost of self-constructed assets includes the cost of materials and direct labor, any other costs directly attributable to bringing the assets to a working condition for their intended use, and borrowing costs on qualifying assets.

When parts of an item of property and equipment have different useful lives, they are accounted for as separate items (major components) of property and equipment.

(ii) Subsequent costs

The cost of replacing a part of an item of property and equipment is recognized in the carrying amount of the item if it is probable that the future economic benefits embodied within the part will flow to the Company and its cost can be measured reliably. The carrying amount of the replaced part is derecognized. The costs of the day-to-day maintenance of property and equipment are recognized in profit or loss as incurred.

(iii) Depreciation

Depreciation is computed on a straight-line basis based on the estimated useful lives of each component of property and equipment. Depreciation on new construction commences in the month after the asset is available for its intended use based upon the useful life of the asset.

Estimated useful lives were determined based on current facts and past experience, and take into consideration the anticipated physical life of the asset and current and forecasted demand. The rates and methods used are reviewed annually at year end to ensure they continue to be appropriate, and are also reviewed in conjunction with impairment testing. Gains/losses on disposition of property and equipment are recognized in profit or loss when the REIT has transferred to the purchaser the significant risk and rewards of ownership of the property and equipment and the purchaser has made a substantial commitment demonstrating its intent to honour its obligation.

(c) Impairment of non-financial assets

The carrying amounts of the Company's non-financial assets, other than inventories, are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated.

The recoverable amount of an asset or cash-generating unit is the greater of its value in use and its fair value less costs to sell. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. For the purpose of impairment testing, assets that cannot be tested individually are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or groups of assets (the "cash-generating unit" or "CGU").

When the carrying amount of the asset or CGU exceeds its estimated recoverable amount, an impairment loss is recognized in an amount equal to the excess. When an indication that an impairment loss recognized in prior periods for an asset or CGU other than goodwill may no longer exist or may have decreased, the recoverable amount of that asset or CGU is estimated. A reversal of an impairment loss is recognized immediately in profit or loss if the recoverable amount of a previously impaired asset or CGU has subsequently increased to the lower of the asset or CGU's recoverable amount or carrying amount had no impairment loss been recognized for the asset or CGU in prior years.

(d) Financial instruments

(i) Financial assets

The Company's financial assets are comprised of cash and cash equivalents, restricted cash, trade and other receivables and prepaid and other assets. The Company classifies these financial assets as loans and receivables. The Company initially recognizes loans and receivables on the date that they are originated. Loans and receivables are financial assets with fixed or determinable payments that are not quoted in an active market. Such assets are recognized initially at fair value plus any directly attributable transaction costs. Subsequent to initial recognition, loans and receivables are measured at amortized cost using the effective interest method, less any impairment losses.

(ii) Financial liabilities

The Company has the following non-derivative financial liabilities: accounts payable and other accrued liabilities and note payable. The Company classifies each of its non-derivative financial liabilities as other financial liabilities. Initial measurement is at fair value plus any directly attributable transaction costs. Subsequent to initial recognition, these non-derivative financial liabilities are measured at amortized cost using the effective interest method. All non-derivative financial liabilities are initially recognized on the date that the Company becomes a party to the contractual provisions of the instrument. The Company derecognizes a financial liability when its contractual obligations are discharged or cancelled or expire.

(iii) Impairment of financial assets

Loans and receivables are assessed at each reporting date to determine whether there is objective evidence that they are impaired. A financial asset is impaired if objective evidence indicates that a loss event has occurred after the initial recognition of the asset, and that the loss event had a negative effect on the estimated future cash flows of that asset that can be estimated reliably. Objective evidence that financial assets are impaired can include default or delinquency by a debtor, restructuring of an amount due to the Company on terms that the Company would not consider otherwise, or indications that a debtor or issuer will enter bankruptcy.

The Company considers evidence of impairment for loans and receivables at both a specific asset and collective level. All individually significant loans and receivables are assessed for specific impairment. All individually significant loans and receivables found not to be specifically impaired are then collectively assessed for any impairment that has been incurred but not yet identified. Loans and receivables that are not individually significant are collectively assessed for impairment by grouping together loans and receivables with similar risk characteristics.

An impairment loss in respect of a financial asset measured at amortized cost is calculated as the difference between its carrying amount and the present value of the estimated future cash flows, discounted using the instrument's original effective interest rate. Losses are recognized in profit or loss and reflected in an allowance account against receivables. Interest on the impaired asset continues to be recognized through the unwinding of the discount. When a subsequent event causes the amount of impairment loss to decrease, the decrease in impairment loss is reversed through profit or loss.

(e) Cash

The Company considers all liquid investments with original terms to maturity of three months or less when acquired to be cash equivalents. Cash consists of cash on hand and cash held at banks.

(f) Restricted cash

Restricted cash primarily consists of cash reserves on deposit with lenders in respect of future capital expenditures.

(g) Provisions

A provision is recognized if, as a result of a past event, the Company has a present legal or constructive obligation that can be estimated reasonably, and it is probable that an outflow of economic benefits will be required to settle the obligation. If the time value of money is material, provisions are determined by discounting the expected future cash flows using a current rate that reflects the risk profile of the liability, and the increase to the provision due to the passage of time will be recognized as a finance cost.

(h) Revenue recognition

Revenue is generated primarily from the operation of the Company's hotels, which includes room rentals, food and beverage sales and other incidental income. Revenue is recognized when services are rendered, the amount is earned, and collectability is reasonably assured. The Company may collect payments in advance of the utilization of a facility. These payments are recorded in accounts payable and other accrued liabilities until such time as the applicable facility is utilized, at which time the customer deposit is recognized as revenue.

(i) Interest expense, net

Net interest expense primarily consists of interest expense on outstanding debt and the amortization of deferred financing costs, net of interest income. Net interest expense is recognized in the period in which it is incurred. Fees and costs related to obtaining debt financing are capitalized against the related debt and amortized over the term of the debt using the straight-line method, which approximates the effective interest method, and are included in net interest expense. The unamortized balance of the fees and costs is recorded as a reduction from the related debt on the Company's consolidated statements of financial position.

(j) Income taxes

The Company is a limited liability company that indirectly owns the Properties through single-asset limited liability companies. The Company is treated like a partnership for U.S. federal income tax purposes. As such, the Company has not recorded a provision for income taxes on its taxable income as the members of the Company are required to report their share of the Company's earnings in their respective income tax returns. The Company's tax returns and the amounts of allocable income or loss are subject to examination by federal and state taxing authorities. If such examinations result in changes to income tax or loss, the tax liability of the members of the Company could be changed accordingly. In certain instances, the Company may be subject to certain state and local taxes.

The Company evaluates the uncertainties of tax positions taken or expected to be taken on a return based on the probability of whether the position taken will be sustained upon examination by tax authorities. As of December 31, 2017, the Company had no amounts related to unrecognized income tax benefits and no amounts related to accrued interest and penalties. The Company recognizes tax positions taken or to be taken in a tax return when they become probable. The Company concluded that it had no material uncertain tax liabilities to be recognized as of December 31, 2017.

On December 22, 2017, the Tax Cuts and Jobs Act (the "2017 Tax Act") was signed into law in the United States. The most significant change is the reduction of the statutory corporate tax rate from 35 percent to 21 percent, effective January 1, 2018. Many of the provisions in the 2017 Tax Act expire in seven years (at the end of 2025). The Company does not expect the 2017 Tax Act to have a significant impact on its Financials.

(k) Operating segments

The Company currently operates in one business segment, owning and operating three hotel properties in the U.S. The primary format for segment reporting is based on geographic region and is consistent with the internal reporting provided to the Company's chief operating decision-maker.

(l) Levies

In accordance with IFRS Interpretations Committee (IFRIC) 21, *Levies*, the Company recognizes the full amount of annual property tax liabilities at the point in time when the realty tax obligation is imposed. This is the obligating event that gives rise to a liability to pay the property taxes.

(m) Use of estimates and assumptions

The preparation of financial statements in conformity with IFRS requires management to make estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities and disclosure of contingent assets and liabilities as of the date of the financial statements, and the reported amounts of revenues and expenses during the reporting periods. Actual results may differ from these estimates.

Significant estimates used in the accompanying consolidated financial statements include estimates used in acquisition accounting (see Note 5). Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised and in any future periods affected.

(n) Recent accounting pronouncements

(i) IAS 7 – Statement of Cash Flows

In January 2016, the IASB issued amendments to International Accounting Standards ("IAS") 7, *Statement of Cash Flows* ("IAS 7"). The amendments apply prospectively for annual periods beginning on or after January 1, 2017 and require disclosures that enable users of financial statements to evaluate changes in liabilities arising from financing activities, including both changes arising from cash flows and non-cash changes. The Company implemented the amendments to IAS 7 on May 4, 2017.

(ii) IFRS 9 – Financial Instruments

In July 2014, the IASB issued the final publication of the IFRS 9 standard, superseding the current IAS 39, *Financial Instruments: Recognition and Measurement* ("IAS 39") standard ("IFRS 9"). IFRS 9 includes revised guidance on the classification and measurement of financial instruments, including a new expected credit loss model for calculating impairment on financial assets, and the new general hedge accounting requirements. It also carries forward the guidance on recognition and de-recognition of financial instruments from IAS 39. The standard is effective for annual periods beginning on or after January 1, 2018 with early adoption permitted. The Company intends to adopt IFRS 9 in its Financials for the annual period beginning on January 1, 2018 and does not expect the new standard to have a material impact on its Financials.

(iii) IFRS 15 – Revenue from Contracts with Customers

In May 2014, the IASB issued IFRS 15, *Revenue from Contract with Customers* ("IFRS 15"), which establishes a new five step model that applies to revenue arising from contracts with customers. The principles in IFRS 15 provide a more structured approach to measuring and recording revenue allowing greater comparability of revenues across industries. The new revenue standard is applicable to all entities and will supersede all current revenue recognition requirements under IFRS. Either a full or modified retrospective application is required for annual periods beginning on or after January 1, 2018, with early adoption permitted. The Company intends to adopt IFRS 15 in its Financials for the annual period beginning on January 1, 2018. The Company has performed an in-depth assessment of IFRS 15 to determine what the impact of the adoption of the new standard will have on the Company's Financials. Based on the nature of the Company's operations to own and operate hotels, the Company does not expect there to be a material impact on the timing and measurement of revenue recognized as compared to the previous standard. Additional disclosures will be required to comply with IFRS 15.

(iv) IFRS 16 – Leases

IFRS 16, *Leases* ("IFRS 16") was issued in January 2016 and sets out a new model for lease accounting, replacing IAS 17, *Leases*. The most significant effect of the new standard will be the recognition of the initial present value of unavoidable

future lease payments as lease assets and lease liabilities on the statement of financial position, including those for most leases that would be currently accounted for as operating leases. Leases with durations of 12 months or less and leases for low value assets may be exempted. IFRS 16 will be effective for accounting periods beginning on or after January 1, 2019. Early adoption will be permitted provided the Company has adopted IFRS 15. The Company intends to adopt IFRS 16 in its Financials for the annual period beginning on January 1, 2019 and does not expect the new standard to have a material impact on its Financials.

Note 4. Property and Equipment, Net

	Land	Buildings and improvements	Furniture, fixtures and equipment	Construction in progress	Total
Cost:					
Balance, May 4, 2017	$ —	$ —	$ —	$ —	$ —
Additions	6,715	20,998	2,094	6,105	35,912
Disposals	—	—	—	—	—
Balance, December 31, 2017	$ 6,715	$ 20,998	$ 2,094	$ 6,105	$ 35,912
Accumulated depreciation:					
Balance, May 4, 2017	$ —	$ —	$ —	$ —	$ —
Depreciation	—	379	141	—	520
Disposals	—	—	—	—	—
Balance, December 31, 2017	$ —	$ 379	$ 141	$ —	$ 520
Carrying amount, May 4, 2017	$ —	$ —	$ —	$ —	$ —
Carrying amount, December 31, 2017	$ 6,715	$ 20,619	$ 1,953	$ 6,105	$ 35,392

The Company's fixed asset additions are primarily related to improvements and upgrades required by the Company's franchise agreement.

On May 4, 2017, the Company acquired the Properties. The acquisition of the Properties was considered to be an acquisition of a business in accordance with IFRS 3, business combinations. Accordingly, the acquisition method of accounting was used to record the assets and liabilities acquired. See Note 5. Business Combinations.

Note 5. Business Combinations

The table below summarizes the fair values of the assets acquired and liabilities assumed for acquisitions in 2017:

	Homewood Suites Plano	Homewood Suites Las Colinas	Homewood Suites Addison	Total
Fair value of consideration transferred:				
Cash	$ 1,676	$ 3,017	$ 2,627	$ 7,320
Note payable	8,624	6,983	6,573	22,180
	$ 10,300	$ 10,000	$ 9,200	$ 29,500
Property and equipment	10,300	10,000	9,200	29,500
Fair value of net identifiable assets acquired and liabilities assumed	$ 10,300	$ 10,000	$ 9,200	$ 29,500

On May 4, 2017, the Company completed the acquisition of three Homewood Suite properties located in Plano, Texas; Las Colinas, Texas; and Addison, Texas (all of which are located within the greater Dallas/Fort Worth Metroplex) for a purchase price of $29,500. Acquisition costs of $209 were expensed as incurred and included in general and administrative expenses in the accompanying consolidated statements of net income and comprehensive income. In conjunction with the purchase, the Company incurred a new mortgage totaling $32,350 and immediately utilized $22,180 to close the acquisitions. In securing the mortgage, the Company incurred $584 in deferred financing costs. The mortgage is collateralized by the properties, incurs interest at an annual variable rate equal to the 30-day London InterBank Offered Rate ("LIBOR") plus 4.95% and matures May 4, 2020. The undrawn

difference between the total loan amount and the amount utilized at acquisition is available for the Company to utilize for future PIP expenditures. (see Note 10. Note Payable, Net for more information related to the mortgage).

Note 6. Restricted Cash

The Company funded restricted cash reserves for brand mandated property improvement plans ("PIPs") and furniture, fixtures and equipment upgrades arising from the execution of the franchise agreements in 2017 of each underlying property of the Company. Restricted cash reserves are typically expected to be spent over an 18-24 month period. The amounts are released to the Company as the expenditures are incurred or paid directly to the service provider. As of the period ended December 31, 2017 the Company had $1,008 of restricted cash.

Note 7. Operating Expenses

	For the Period from May 4, 2017 (Inception) to December 31, 2017	
Payroll	$	1,624
Repairs and maintenance		394
Utilities		298
Property taxes and insurance		526
Cost of goods sold		150
Franchise fees		417
Other operating expenses		346
Operating expenses	$	3,755

Note 8. General and Administrative Expenses

	For the Period from May 4, 2017 (Inception) to December 31, 2017	
Property management fees	$	191
Office operations		420
Marketing		808
Other administrative expenses		282
General and administrative expenses	$	1,701

Note 9. Accounts Payable and Other Accrued Liabilities

	December 31, 2017	
Trade payables	$	74
Payroll and payroll taxes		110
Property taxes		727
Property management fees		30
Sales and occupancy taxes		166
Interest on note payable		148
Franchise fees		127
Other payables		380
Accounts payable and other accrued liabilities	$	1,762

Note 10. Note Payable, Net

		December 31, 2017
Note payable	$	26,758
Less: current maturities		—
Less: unamortized portion of deferred financing costs		(454)
Note payable, net	$	26,304

On May 4, 2017, in connection with the acquisition of the Properties, the Company entered into a $32,350 term loan (the "Loan") with a large financial institution and immediately drew $22,180. Subsequently, the Company drew $4,578 during the period ended December 31, 2017 for PIP expenditures. The Loan is secured by the Properties and bears interest at a variable rate equal to the 30-day London InterBank Offered Rate ("LIBOR") plus 4.95%. As of December 31, 2017, the Loan's effective interest rate was 6.51%. As of December 31, 2017, the Company had an undrawn balance of $5,592 that may be used to fund future PIP expenditures. Beginning in June 2019, the Loan's monthly payments include a fixed monthly amortization payment of $40 along with the monthly interest payments. The Loan matures on May 4, 2020, and has one twelve-month extension option.

The Company's loan agreement contains customary representations, warranties, and events of default, which requires the Company to comply with affirmative and negative covenants. As of December 31, 2017, the Company was in compliance with all covenants of its loan agreement.

Costs related to obtaining debt financing are capitalized and amortized over the term of the related debt using the straight-line method, which approximates the effective interest method, and are included in net interest expense. The unamortized balance of the costs is shown as a reduction of the related debt on the consolidated statements of financial position.

Future principal payments on the Loan, excluding amortization of deferred financing costs, payable within the next five calendar years subsequent to December 31, 2017 are as follows:

		Note payable
2018	$	—
2019		277
2020		26,481
2021		—
2022		—
Thereafter		—
Total	$	26,758

Note 11. Interest Expense, Net

		For the Period from May 4, 2017 (Inception) to December 31, 2017
Interest on debt	$	976
Amortization of deferred financing costs		130
Interest expense, net	$	1,106

Note 12. Members' Equity

The members of the Company have made cash contributions based on their respective ownership percentages. As of December 31, 2017, cash contributions totaled $8,885. All income or loss allocations are based on the member's respective ownership percentage.

Note 13. Financial Instruments

(a) Comparison of fair value to carrying amount

The fair value of a financial instrument is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value may be based on other observable current market transactions in the same instrument, without modification or on a valuation technique using market-based inputs. Fair value measurements recognized in the consolidated statements of financial position are categorized using the following fair value hierarchy that reflects the significance of inputs used in determining the fair values:

- Level 1: Quoted (unadjusted) market prices in active markets for identical assets or liabilities.
- Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, directly or indirectly.
- Level 3: Inputs for the asset or liability that are not based on observable market data (unobservable inputs).

As of December 31, 2017, the carrying amounts of the Company's cash and cash equivalents, restricted cash, trade and other receivables, prepaid and other assets, accounts payables and other accrued liabilities approximated their fair values due to the short-term nature of these financial assets and liabilities.

The fair value of note payable is estimated by discounting the future cash flows using discount rates that reflect current market conditions for instruments having similar terms and conditions. Discount rates are either provided by lenders or are observable in the open market. As of December 31, 2017, the carrying amount of the Company's note payable approximated its fair value.

(b) Financial risk management

The Company may be exposed to a number of risks in its normal course of operations from use of financial instruments. These risks, and the actions taken to manage them, are as follows:

(i) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in the market interest rates.

The Company's Loan bears interest at a variable rate. Fluctuations in interest rates will impact the cost of financing incurred in the future. The Company monitors its interest rate exposure on an ongoing basis.

As of December 31, 2017, every 1% increase or decrease in the applicable interest rate, assuming all other variables are constant, would result in a corresponding change of approximately $268 in the Company's net interest expense on an annual basis.

(ii) Credit risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligation. The maximum exposure to credit risk is the full carrying amount of the financial instrument.

The Company is exposed to credit risk with respect to trade and other receivables. For the period ended December 31, 2017, bad debt expense was $7. Credit risk of trade and other receivables is mitigated by initiating a prompt collection process.

(iii) Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they fall due. Properties and equipment investments tend to be relatively illiquid, with the degree of liquidity generally fluctuating in relation to demand for and the perceived desirability of such investments. If the Company was required to sell the Properties, the proceeds to the Company may be significantly less than the Properties' carrying amount.

The Company manages liquidity risk through monitoring the repayment date and refinancing date of its note payable, monitoring its debt covenants and managing its cash flows. The Company's objective is to maintain sufficient available access to capital to fund ongoing operational and capital requirements. As of December 31, 2017, the Company had cash and cash equivalents of $697.

The following table provides information on the carrying amounts and the non-discounted contractual maturities of financial liabilities with fixed repayment terms, including estimated interest payments using the 30-day LIBOR rate of 1.56% as of December 31, 2017:

	Carrying amount	Contractual cash flows	1 Year	More than 1 Year
Note payable	$ 26,758	$ 26,758	$ —	$ 26,758
Interest payable on note	148	4,256	1,767	2,489
Accounts payable and other accrued liabilities	1,614	1,614	1,614	—
Total	$ 28,520	$ 32,628	$ 3,381	$ 29,247

Note 14. Capital Management

The Company defines capital as the aggregate of members' equity and note payable. The Company's objectives in managing capital are to maintain a level of capital that: complies with investment and debt restrictions pursuant to the Company's operating agreement; complies with existing debt covenants; funds its business strategies; and builds long-term members' value. Capital adequacy is monitored by the Company by assessing performance against the approved annual plan throughout the year and by monitoring adherence to investment and debt restrictions contained in the Company's operating agreement and debt covenants.

Note 15. Segment Reporting

The Company currently operates in one business segment, owning and operating three hotel properties in the U.S. The primary format for segment reporting is based on geographic region and is consistent with the internal reporting provided to the Company's chief operating decision-maker. Accordingly, the Company has a single reportable segment for disclosure purposes in accordance with IFRS.

Note 16. Related Party Transactions

The Company periodically evaluates arrangements and agreements to identify related party transactions. For the period ended December 31, 2017, the Company has identified no material related party transactions.

Note 17. Commitments and Contingencies

(a) Franchise agreements

The Properties are operated under franchise agreements (the "Franchise Agreements") with a subsidiary of Hilton Worldwide (the "Franchisor"). The Franchise Agreements were executed on May 4, 2017 and have a 15-year term. The Franchise Agreements require the payment of a monthly royalty fee of 5.5% and a monthly program fee of 3.5% of the Properties' gross room revenue. For the period ended December 31, 2017, franchise fees were $417, and are included in operating expenses in the consolidated statement of comprehensive income.

(b) Litigation

In the normal course of operations, the Company may become subject to a variety of legal and other claims. The Company evaluates all claims on their apparent merits and, if necessary, the Company accrues for its best estimate of the costs to satisfy such claims. While it is not possible to ascertain the ultimate outcome of all such matters, the Company believes that the aggregate amount of such liabilities, if any, in excess of amounts provided or covered by insurance, will not have a material adverse effect on these Financials. The Company is not involved in any material litigation nor, to the Company's knowledge, is any material litigation currently threatened against the Company or the Properties.

Note 18. Supplemental Cash Flow Disclosure

Reconciliation of changes in liabilities and members' equity, including movements of liabilities to cash flows arising from financing activities for the year ended December 31, 2017 was as follows:

	Liabilities			
	Account payable and other accrued liabilities	Note payable, net	Members' equity	Total
Balance May 4, 2017	$ -	$ -	$ -	$ -
Changes from financing cash flows:				
Amortization of deferred financing costs	-	130	-	130
Proceeds from note payable	-	26,758	-	26,758
Deferred financing costs paid	-	(584)	-	(584)
Interest accrual	148	-	-	148
Contributions	-	-	8,885	8,885
Total changes from financing cash flows	148	26,304	8,885	35,337
Liability related:				
Other payable increases	1,614	-	-	1,614
Members' equity related:				
Comprehensive Income	-	-	571	571
Balance December 31, 2017	$ 1,762	$ 26,304	$ 9,456	$ 37,522

Note 19. Subsequent Events

The Company evaluated subsequent events through March 27, 2019 to determine if any significant events occurred subsequent to the balance sheet dates that would have a material impact on these consolidated financial statements. On January 8, 2019, the Company was contributed to a newly formed entity, NHT DFW Portfolio, LLC, which was immediately contributed to NHT Holdco, LLC in exchange for 3,843,184 units.

PALLAS, LLC
NOTES TO THE UNAUDITED FINANCIAL STATEMENTS
(Amounts in thousands of U.S. dollars except unit counts)

Note 1. General Information

Pallas, LLC (the "Company") is a limited liability company registered in Florida and was established on February 12, 2002. The Company was formed to develop and operate the St. Petersburg Marriott Clearwater hotel property and related restaurant located in St. Petersburg, Florida (the "Property"). The Company is owned by four members:

Member Entity	Ownership %
Menna Family Limited Partnership, L.L.L.P	68%
Anthony Menna's Children's Trust	18%
Giuseppe DiGiovanni	8%
Francesco Carriera	6%

The Company is managed by Anthony Menna (the "Manager"), who is an affiliate of two of the Members, and the Property is managed and operated by Menna Development & Management, Inc. ("MDM"), a Florida corporation, which is an affiliate of the Manager.

NexPoint Hospitality Trust (the "REIT") is a newly-created, unincorporated, real estate investment trust established under the laws of the Province of Ontario. The REIT was formed to aggregate eleven hospitality properties (the "Initial Portfolio") and list its shares on the TSX Venture Exchange (the "Listing"). The REIT will own its properties through its subsidiary NHT Operating Partnership, LLC, (the "OP"). Once the Listing is completed, the REIT will own eleven properties indirectly through its ownership of the OP. In order to consummate the Listing, the REIT filed a preliminary prospectus with the Ontario Securities Commission (the "OSC") on December 12, 2018 (the "Offering") to register the units of the REIT.

These financial statements of the Company (the "Financials") have been prepared for the specific purpose of reporting on the assets, liabilities, members' equity, revenues and expenses of the Company included in, and for the inclusion in, a final prospectus to be filed with the OSC by the REIT. The Financials present the financial position, results of operations and cash flows of the Company for the periods presented. The Financials are not necessarily indicative of future operating results.

Note 2. Basis of Preparation

(a) Statement of Compliance

The Financials have been prepared in accordance with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB").

(b) Basis of Measurement

These financial statements have been prepared on a historical cost basis.

(c) Basis of Presentation

These financial statements have been prepared in accordance with IFRS as issued by the IASB. These financial statements include the accounts of the Company. These financial statements are presented in U.S. dollars, which is the functional currency of the Company, and all amounts have been rounded to the nearest thousands, except when otherwise indicated.

(d) Use of estimates, assumptions and judgements

The preparation of financial statements in conformity with IFRS requires management to make estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised and in any future periods affected.

The Financials were authorized for issue by the members of the Company and the board of directors of the REIT on March 27, 2019.

Note 3. Summary of Significant Accounting Policies

The significant accounting policies used in the preparation of these financial statements are described below and have been applied consistently to all periods presented:

(a) Property and equipment

(i) Recognition and measurement

Property and equipment are measured at cost less accumulated depreciation and any accumulated impairment losses. Cost includes expenditures that are directly attributable to the acquisition of the asset. The cost of self-constructed assets includes the cost of materials and direct labor, any other costs directly attributable to bringing the assets to a working condition for their intended use, and borrowing costs on qualifying assets.

When parts of an item of property and equipment have different useful lives, they are accounted for as separate items (major components) of property and equipment.

(ii) Subsequent costs

The cost of replacing a part of an item of property and equipment is recognized in the carrying amount of the item if it is probable that the future economic benefits embodied within the part will flow to the Company and its cost can be measured reliably. The carrying amount of the replaced part is derecognized. The costs of the day-to-day maintenance of property and equipment are recognized in profit or loss as incurred.

(iii) Depreciation

Depreciation is computed on a straight-line basis based on the useful lives of each component of property and equipment. Depreciation on new construction commences in the month after the asset is available for its intended use based upon the useful life of the asset.

Estimated useful lives were determined based on current facts and past experience, and take into consideration the anticipated physical life of the asset and current and forecasted demand. The rates and methods used are reviewed annually at year end to ensure they continue to be appropriate, and are also reviewed in conjunction with impairment testing. Gains/losses on disposition of property and equipment are recognized in profit or loss when the Company has transferred to the purchaser the significant risk and rewards of ownership of the property and equipment and the purchaser has made a substantial commitment demonstrating its intent to honour its obligation.

(b) Impairment of non-financial assets

The carrying amounts of the Company's non-financial assets, other than inventories, are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated.

The recoverable amount of an asset or cash-generating unit is the greater of its value in use and its fair value less costs to sell. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. For the purpose of impairment testing, assets that cannot be tested individually are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or groups of assets (the "cash-generating unit" or "CGU").

When the carrying amount of the asset or CGU exceeds its estimated recoverable amount, an impairment loss is recognized in an amount equal to the excess. When an indication that an impairment loss recognized in prior periods for an asset or CGU other than goodwill may no longer exist or may have decreased, the recoverable amount of that asset or CGU is estimated. A reversal of an impairment loss is recognized immediately in profit or loss if the recoverable amount of a previously impaired asset or CGU has

subsequently increased to the lower of the asset or CGU's recoverable amount or carrying amount had no impairment loss been recognized for the asset or CGU in prior years.

(c) Financial instruments

(i) Classification and measurement of financial assets and liabilities:

Financial instruments are generally measured at fair value on initial recognition. The classification and measurement of financial assets consists of the following categories: (i) measured at amortized cost, (ii) fair value through profit and loss ("FVTPL"), and (iii) fair value through other comprehensive income ("FVTOCI"). Financial assets classified at amortized cost are measured using the effective interest method. Financial assets classified as FVTPL are measured at fair value with gains and losses recognized in the statement of net income and comprehensive income. Financial assets classified as FVTOCI are measured at fair value with gains or losses recognized through other comprehensive income, except for gains and losses pertaining to impairment or foreign exchange recognized through net income.

The classification and measurement of financial liabilities consists of the following categories: (i) measured at amortized cost and (ii) FVTPL. Financial liabilities classified at amortized cost are measured using the effective interest method. Financial liabilities classified as FVTPL are measured at fair value with changes in fair value attributable to changes in the credit risk of the liability presented in other comprehensive income, and the remaining amount of change in fair value presented in the statement of net income.

The Company has made the following classifications for its financial instruments:

Asset/Liability	**Classification**
Cash and cash equivalents	Amortized cost
Restricted cash	Amortized cost
Trade and other receivables	Amortized cost
Accounts payable and other accrued liabilities	Amortized cost
Notes payable	Amortized cost

The Company derecognizes a financial asset only when the contractual rights to the cash flows from the asset expire or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another entity. The Company derecognizes a financial liability when, and only when, the Company's obligations are discharged, cancelled or they expire. The difference between the carrying amount of the financial liability derecognized and the consideration paid and payable is recognized through net income.

Transaction costs other than those related to financial instruments classified as FVTPL, which are expensed as incurred, are capitalized to the carrying amount of the instrument and amortized using the effective interest method. These costs include interest, amortization of discounts or premiums relating to borrowings, fees and commissions paid to agents, brokers and advisers and transfer taxes and duties.

(ii) Impairment of financial assets

For impairment of financial assets other than investments in equity instruments, contract assets, lease receivables, loan commitments and financial guarantee contracts, the Company applies a forward-looking 'expected credit loss' ("ECL") model. The Company adopted the practical expedient to determine ECL on trade and other receivables using a provision matrix based on historical credit loss experiences adjusted for current and forecasted future economic conditions to estimate lifetime ECL.

Impairment losses are recorded in the statement of income and comprehensive income with the carrying amount of the financial asset or group of financial assets reduced through the use of impairment allowance accounts.

(d) Cash and cash equivalents

The Company considers all liquid investments with original terms to maturity of three months or less when acquired to be cash equivalents. Cash and cash equivalents consist of cash on hand and cash held at banks.

(e) Restricted cash

Restricted cash primarily consists of cash reserves on deposit with lenders in respect of future capital expenditures.

(f) Provisions

A provision is recognized if, as a result of a past event, the Company has a present legal or constructive obligation that can be estimated reasonably, and it is probable that an outflow of economic benefits will be required to settle the obligation. If the time value of money is material, provisions are determined by discounting the expected future cash flows using a current rate that reflects the risk profile of the liability, and the increase to the provision due to the passage of time will be recognized as a finance cost.

(g) Revenue recognition

IFRS 15 establishes a comprehensive framework for determining whether, how much and when revenue is recognized. It replaced IAS 18 Revenue and related interpretations. The standard requires revenue to be recognized in a manner that depicts the transfer of promised goods or services to a customer and at an amount that reflects the consideration expected to be received in exchange for transferring those goods or services. This is achieved by applying the following five steps:

1. identify the contract with a customer;
2. identify the performance obligations in the contract;
3. determine the transaction price;
4. allocate the transaction price to the performance obligations in the contract; and
5. recognize revenue when (or as) the entity satisfies a performance obligation.

Revenue is generated primarily from the operation of the Company's hotels, which includes room rentals, food and beverage sales and other incidental income. Revenue is recognized when services are rendered, the amount is earned, and collectability is reasonably assured. The Company may collect payments in advance of the utilization of a facility. These payments are recorded in accounts payable and other accrued liabilities until such time as the applicable facility is utilized, at which time the customer deposit is recognized as revenue.

(h) Interest expense, net

Net interest expense consists of interest expense on outstanding debt and the amortization of deferred financing costs, net of interest income. Net interest expense is recognized in the period in which it is incurred. Fees and costs related to obtaining debt financing are capitalized against the related debt and amortized over the term of the debt using the straight-line method, which approximates the effective interest method, and are included in net interest expense. The unamortized balance of the fees and costs is recorded as a reduction from the related debt on the Company's statements of financial position.

(i) Income taxes

The Company is a limited liability company and is treated like a partnership for U.S. federal income tax purposes. As such, the Company has not recorded a provision for income taxes on its taxable income, as the members of the Company are required to report their share of the Company's earnings in their respective income tax returns. The Company's tax returns and the amounts of allocable income or loss are subject to examination by federal and state taxing authorities. If such examinations result in changes to income tax or loss, the tax liability of the members of the Company could be changed accordingly. In certain instances, the Company may be subject to certain state and local taxes.

The Company evaluates the uncertainties of tax positions taken or expected to be taken on a return based on the probability of whether the position taken will be sustained upon examination by tax authorities. As of September 24, 2018 and December 31, 2017, the Company had no amounts related to unrecognized income tax benefits and no amounts related to accrued interest and penalties.

The Company recognizes tax positions taken or to be taken in a tax return when they become probable. The Company concluded that it had no material uncertain tax liabilities to be recognized as of September 24, 2018 and December 31, 2017.

On December 22, 2017, the Tax Cuts and Jobs Act (the "2017 Tax Act") was signed into law in the United States. The most significant change is the reduction of the statutory corporate tax rate from 35 percent to 21 percent, effective January 1, 2018. Many of the provisions in the 2017 Tax Act expire in seven years (at the end of 2025). The Company does not expect the 2017 Tax Act to have a significant impact on its financial statements.

(j) Operating segments

The Company currently operates in one business segment, owning and operating one hotel property and related restaurant in the U.S. The primary format for segment reporting is based on geographic region and is consistent with the internal reporting provided to the Company's chief operating decision-maker.

(k) Levies

In accordance with IFRS Interpretations Committee (IFRIC) 21, *Levies*, the Company recognizes the full amount of annual property tax liabilities at the point in time when the realty tax obligation is imposed. This is the obligating event that gives rise to a liability to pay the property taxes.

(l) Use of estimates and assumptions

The preparation of financial statements in conformity with IFRS requires management to make estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities and disclosure of contingent assets and liabilities as of the date of the financial statements, and the reported amounts of revenues and expenses during the reporting periods. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised and in any future periods affected.

(m) Recent accounting pronouncements

(i) IFRS 9 – Financial Instruments

In July 2014, the IASB issued the final publication of the IFRS 9 standard, superseding the current IAS 39, *Financial Instruments: Recognition and Measurement* ("IAS 39") standard ("IFRS 9"). IFRS 9 includes revised guidance on the classification and measurement of financial instruments, including a new expected credit loss model for calculating impairment on financial assets, and the new general hedge accounting requirements. It also carries forward the guidance on recognition and de-recognition of financial instruments from IAS 39. The standard is effective for annual periods beginning on or after January 1, 2018 with early adoption permitted. The Company adopted IFRS 9 on January 1, 2018 and there was no material impact on its financial statements.

(ii) IFRS 15 – Revenue from Contracts with Customers

In May 2014, the IASB issued IFRS 15, *Revenue from Contract with Customers* ("IFRS 15"), which establishes a new five step model that applies to revenue arising from contracts with customers. The principles in IFRS 15 provide a more structured approach to measuring and recording revenue allowing greater comparability of revenues across industries. The new revenue standard is applicable to all entities and will supersede all current revenue recognition requirements under IFRS. Either a full or modified retrospective application is required for annual periods beginning on or after January 1, 2018, with early adoption permitted. The Company adopted IFRS 15 on January 1, 2018 and there was no material impact on its financial statements.

(iii) IFRS 16 – Leases

IFRS 16, *Leases* ("IFRS 16") was issued in January 2016 and sets out a new model for lease accounting, replacing IAS 17, *Leases*. The most significant effect of the new standard will be the recognition of the initial present value of unavoidable future lease payments as lease assets and lease liabilities on the statement of financial position, including those for most leases that would be currently accounted for as operating leases. Leases with durations of 12 months or less and leases for

low value assets may be exempted. IFRS 16 will be effective for accounting periods beginning on or after January 1, 2019. Early adoption will be permitted provided the Company has adopted IFRS 15. The Company intends to adopt IFRS 16 in its financial statements for the annual period beginning on January 1, 2019 and does not expect the new standard to have a material impact on its financial statements.

Note 4. Property and Equipment, Net

	Land	Buildings and improvements	Furniture, fixtures and equipment	Total

Carrying amount, September 24, 2018	1,777	11,278	840	13,895

The Company's fixed asset additions are primarily related to improvements and upgrades required by the Company's franchise agreement.

Note 5. Restricted Cash

The Company funded restricted cash reserves for brand mandated property improvement plans ("PIPs") and furniture, fixtures and equipment upgrades arising from the execution of the Company's franchise agreement in 2008. Restricted cash reserves are typically expected to be spent over an 18-24 month period. The amounts are released to the Company as the expenditures are incurred or paid directly to the service provider. As of September 24, 2018 and December 31, 2017, the Company had $0 and $2 of restricted cash, respectively.

Note 6. Operating Expenses

	For the Period from January 1 to September 24, 2018	For the Period from January 1 to September 30, 2017
Payroll	$ 1,385	$ 1,411

Note 9. Note Payable, Net

	September 24, 2018	December 31, 2017
Note payable	$ 22,535	$ 22,953
Less: current maturities	(580)	(564)
Less: unamortized portion of deferred financing costs	(125)	(136)
Note payable, net	$ 21,830	$ 22,253

On September 26, 2012, the Company entered into a $19,570 term loan (the "Loan") with a large financial institution. The Loan incurred interest at a fixed rate equal to 4.25% and required monthly principal payments and was secured by the Property. The Loan was refinanced on November 25, 2017, increasing the loan balance to $23,000 (the "Amended Loan"). The Amended Loan is secured by the Property and bears interest at a fixed rate equal to 3.80% and requires monthly principal payments. The Amended Loan matures on November 25, 2022.

The Amended Loan agreement contains customary representations, warranties, and events of default, which requires the Company to comply with affirmative and negative covenants. As of September 24, 2018 and December 31, 2017, the Company was in compliance with all covenants of the Loan agreement and Amended Loan agreement.

Costs related to obtaining debt financing are capitalized and amortized over the term of the related debt using the straight-line method, which approximates the effective interest method, and are included in net interest expense. The unamortized balance of the costs is shown as a reduction of the related debt on the statements of financial position

Future principal payments on the Amended Loan, excluding amortization of deferred financing costs, payable within the next five calendar years subsequent to September 24, 2018 are as follows:

	Note payable
2018	$ 143
2019	586
2020	608
2021	632
2022	20,566
Thereafter	—
Total	$ 22,535

Note 10. Interest Expense, Net

	For the Period from January 1 to September 24,	For the Period from January 1 to September 30,
	2018	2017
Interest on debt	$ 658	$ 632
Amortization of deferred financing costs	12	31
Interest expense, net	$ 670	$ 663

Note 11. Members' Capital

The members of the Company have received cash distributions based on their respective ownership percentages. As of September 24, 2018 cash distributions totaled $13,284. All income or loss allocations are based on the member's respective ownership percentage.

Note 12. Financial Instruments

(a) Comparison of fair value to carrying amount

The fair value of a financial instrument is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value may be based on other observable current market transactions in the same instrument, without modification or on a valuation technique using market-based inputs. Fair value measurements recognized in the statements of financial position are categorized using the following fair value hierarchy that reflects the significance of inputs used in determining the fair values:

- Level 1: Quoted (unadjusted) market prices in active markets for identical assets or liabilities.
- Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, directly or indirectly.
- Level 3: Inputs for the asset or liability that are not based on observable market data (unobservable inputs).

As of September 24, 2018 and December 31, 2017, the carrying amounts of the Company's cash and cash equivalents, restricted cash, trade and other receivables, prepaid and other assets, accounts payables and other accrued liabilities approximated their fair values due to the short-term nature of these financial assets and liabilities.

The fair value of note payable is estimated by discounting the future cash flows using discount rates that reflect current market conditions for instruments having similar terms and conditions. Discount rates are either provided by lenders or are observable in the open market. As of September 24, 2018 and December 31, 2017, the carrying amount of the Company's note payable approximated its fair value.

(b) Financial risk management

The Company may be exposed to a number of risks in its normal course of operations from use of financial instruments. These risks, and the actions taken to manage them, are as follows:

(i) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in the market interest rates.

The Company's Amended Loan bears interest at a fixed rate, so fluctuations in interest rates will not impact the cost of financing incurred in the future but may impact the carrying value of the Ameded Loan. The Company monitors its interest rate exposure on an ongoing basis.

(ii) Credit risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligation. The maximum exposure to credit risk is the full carrying amount of the financial instrument.

The Company is exposed to credit risk with respect to trade and other receivables. For the periods ended September 24, 2018 and December 31, 2017, the Company had no bad debt expense. Credit risk of trade and other receivables is mitigated by initiating a prompt collection process.

(iii) Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they fall due. Property and equipment investments tend to be relatively illiquid, with the degree of liquidity generally fluctuating in relation to demand for and the perceived desirability of such investments. If the Company was required to sell the Property, the proceeds to the Company may be significantly less than the Property's carrying amount.

The Company manages liquidity risk through monitoring the repayment date and refinancing date of its note payable, monitoring its debt covenants and managing its cash flows. The Company's objective is to maintain sufficient available access to capital to fund ongoing operational and capital requirements. As of September 24, 2018 and December 31, 2017, the Company had cash and cash equivalents of $3,803 and $4,271, respectively.

The following table provides information on the carrying amounts and the non-discounted contractual maturities of financial liabilities with fixed repayment terms, including estimated interest payments using the fixed rate of the Loan of 3.80% as of September 24, 2018:

	Carrying amount	Contractual cash flows	1 Year	More than 1 Year
Note payable	$ 22,535	$ 22,535	$ 580	$ 21,955
Interest payable on note	—	—	—	—
Accounts payable and other accrued liabilities	1,214	1,214	1,214	—
Total	$ 23,749	$ 23,749	$ 1,794	$ 21,955

Note 13. Capital Management

The Company defines capital as the aggregate of members' equity and note payable. The Company's objectives in managing capital are to maintain a level of capital that: complies with investment and debt restrictions pursuant to the Company's operating agreement; complies with existing debt covenants; funds its business strategies; and builds long-term members' value. Capital adequacy is monitored by the Company by assessing performance against the approved annual plan throughout the year and by monitoring adherence to investment and debt restrictions contained in the Company's operating agreement and debt covenants.

Note 14. Segment Reporting

The Company currently operates in one business segment, owning and operating one hotel property and related restaurant in the U.S. The primary format for segment reporting is based on geographic region and is consistent with the internal reporting provided to the Company's chief operating decision-maker. Accordingly, the Company has a single reportable segment for disclosure purposes in accordance with IFRS.

Note 15. Commitments and Contingencies

(a) Franchise agreement

The Property is operated under a franchise agreement (the "Franchise Agreement") with a subsidiary of Marriott International (the "Franchisor"). The Franchise Agreement was executed on October 22, 2014 and has a 15-year term. The Franchise Agreement requires the payment of a monthly royalty fee of 5.5% and a monthly program fee of 4.3% of the Property's gross room revenue. Under a covenant in the Franchise Agreement, the Property was responsible for funding an amount equal to 4% of gross revenue for the first 36 months under the contract, then an amount equal to 5% of gross revenues each month for the remainder of the contract, into a reserve cash account. The Property did not retain the required cash and was not in compliance with the covenant for the periods ended September 24, 2018 and September 30, 2017, under the Franchise Agreement. For the periods ended September 24, 2018 and September 30, 2017, franchise fees were $682 and $680, respectively, and are included in operating expenses in the statements of comprehensive income.

(b) Litigation

In the normal course of operations, the Company may become subject to a variety of legal and other claims. The Company evaluates all claims on their apparent merits and, if necessary, the Company accrues for its best estimate of the costs to satisfy such claims. While it is not possible to ascertain the ultimate outcome of all such matters, the Company believes that the aggregate amount of such liabilities, if any, in excess of amounts provided or covered by insurance, will not have a material adverse effect on these financial statements. The Company is not involved in any material litigation nor, to the Company's knowledge, is any material litigation currently threatened against the Company, the Operating Company or the Property.

Note 16. Related Party Transactions

The Company engaged MDM for the day-to-day management of the Property. The Manager is deemed to be a related party due to its affiliation with one of the members of the Company. The property management agreement commenced on June 30, 2008 with an initial 5-year term that automatically renewed in one year renewals. The property management fee is 4.25% of the Property's gross revenues (as defined in the Management Agreement). The Management Agreement also calls for the Company to reimburse the Manager for those employees of the Manager as utilized by the Company. For the period from January 1 to September 24, 2018 and from January 1 to September 30, 2017, in accordance with the Management Agreement, property management fees were $436 and $409, respectively. Property management fees are included in general and administrative expenses in the statements of comprehensive income.

In addition, on September 27, 2012 the Company entered into a $2,576 loan agreement with the Manager (the "MDM Loan"). The Loan was the result of expenses paid by MDM on behalf of the Company which the Company was unable to reimburse at the time. The Loan bears no interest, and only principal is due. The note payable to MDM was repaid in full on November 25, 2017.

Note 17. Supplemental Cash Flow Disclosure

Reconciliation of changes in liabilities and members' equity, including movements of liabilities to cash flows arising from financing activities for the period from January 1, 2018 to September 24, 2018 was as follows:

	Liabilities				
	Accounts payable and other accrued liabilities	Current portion of note payable	Note payable, net	Members' equity	Total
Balance December 31, 2017	$ 525	$ 564	$ 22,253	$ (5,514)	$ 17,828
Changes from financing cash flows:					
Amortization of deferred financing costs	-	-	12	-	12
Reclass from note payable, net to current portion	-	16	(16)	-	-
Principal payments on notes payable	-	-	(419)	-	(419)
Interest accrual	-	-	-	-	-
Distributions	-	-	-	(1,250)	(1,250)
Total changes from financing cash flows	-	16	(423)	(1,250)	(1,657)
Liability related:					
Other payable increases	689	-	-	-	689
Members' equity related:					
Comprehensive Income (loss)	-	-	-	1,437	1,437
Balance September 24, 2018	$ 1,214	$ 580	$ 21,830	$ (5,327)	$ 18,297

Note 18. Subsequent Events

The Company evaluated subsequent events through March 27, 2019 to determine if any significant events occurred subsequent to the balance sheet dates that would have a material impact on these consolidated financial statements. On September 24, 2018, the Company sold the Property to NHT SP, LLC. On January 8, 2019, the parent of NHT SP, LLC (NHT SP Parent, LLC), was contributed to NHT Holdco, LLC in exchange for 3,613,498 units.

INDEPENDENT AUDITORS' REPORT

To the Board of Trustees
NexPoint Hospitality Trust

We have audited the accompanying financial statements of Pallas, LLC (an S Corporation), which comprise the statements of financial position as of December 31, 2017 and 2016, and January 1, 2016 and the related statements of comprehensive income, members' deficit, and cash flows for the years ended December 31, 2017 and 2016, and the related notes to the financial statements.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with International Financial Reporting Standards as issued by the International Accounting Standards Board; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America and in accordance with International Standards on Auditing. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

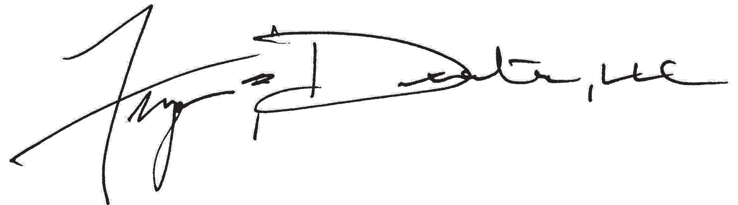
Basis for Qualified Opinion

We were unable to obtain sufficient appropriate audit evidence to support the carrying amounts of the Company's property and equipment at December 31, 2017 and 2016 and January 1, 2016. Therefore, we were unable to satisfy ourselves as to the amounts property and equipment were reported on the statements of financial position of approximately $13,287,000, $12,851,000 and $13,469,000 as of December 31, 2017 and 2016 and January 1, 2016, respectively. In addition, we were unable to satisfy ourselves as to the amounts of depreciation and amortization expense reported in the statements of comprehensive income of approximately $441,000 and $639,000 for the years ended December 31, 2017 and 2016, respectively. Furthermore, we were unable to satisfy ourselves with the amounts of accumulated depreciation and amortization disclosed in note 4 to the Company's financial statements of approximately $10,943,000, $10,506,000 and $9,872,000, as of December 31, 2017 and 2016 and January 1, 2016, respectively. Consequently, we were unable to determine whether any adjustments to these amounts were necessary.

Qualified Opinion

In our opinion, except for the possible effects of the matter described in the Basis for Qualified Opinion paragraph, the financial statements referred to above present fairly, in all material respects, the financial position of Pallas, LLC as of December 31, 2017 and 2016 and January 1, 2016, and the results of its operations and its cash flows for the years ended December 31, 2017 and 2016, in accordance with International Financial Reporting Standards as issued by the International Accounting Standards Board.

March 27, 2019



PALLAS, LLC

Note 1. General Information

Pallas, LLC (the "Company") is a limited liability company registered in Florida and was established on February 12, 2002. The Company was formed to invest in the St. Petersburg Marriott Clearwater hotel property and related restaurant located in St. Petersburg, Florida (the "Property"). The Company is owned by four members (see below, the "Members"):

Member Entity	Ownership %
Menna Family Limited Partnership, L.L.L.P	68%
Anthony Menna's Children's Trust	18%
Giuseppe DiGiovanni	8%
Francesco Carriera	6%

The Company is managed by Anthony Menna (the "Manager"), who is an affiliate of two of the Members, and the Property is managed and operated by Menna Development & Management, Inc. ("MDM"), a Florida corporation, which is an affiliate of the Manager.

NexPoint Hospitality Trust (the "REIT") is a newly-created, unincorporated, real estate investment trust established under the laws of the Province of Ontario. The REIT was formed to aggregate eleven hospitality properties (the "Initial Portfolio") and list its shares on the TSX Venture Exchange (the "Listing"). The REIT will own its properties through its subsidiary NHT Operating Partnership, LLC, (the "OP"). Once the Listing is completed, the REIT will own eleven properties indirectly through its ownership of the OP. In order to consummate the Listing, the REIT filed a preliminary prospectus with the Ontario Securities Commission (THE "OSC") on December 12, 2018 (the "Offering") to register the units of the REIT.

These financial statements of the Company (the "Financials") have been prepared for the specific purpose of reporting on the assets, liabilities, members' equity, revenues and expenses of the Company included in, and for the inclusion in, a final prospectus to be filed with the OSC by the REIT. The Financials present the financial position, results of operations and cash flows of the Company for the periods presented. The Financials are not necessarily indicative of future operating results.

Note 2. Basis of Preparation

(a) Statement of Compliance

The Financials have been prepared in accordance with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB"). These are the Company's first financial statements prepared in accordance with IFRS; the Company adopted IFRS in accordance with IFRS 1, *First-Time Adoption of International Reporting Standards*. An explanation or reconciliation of how the transition to IFRS has affected the Company's financial position, results of operations and cash flows has not been presented as the Company has not presented financial statements in previous years. The date of transition to IFRS was January 1, 2016.

(b) Basis of Measurement

These financial statements have been prepared on a historical cost basis.

(c) Basis of Presentation

These financial statements have been prepared in accordance with IFRS as issued by the IASB. These financial statements include the accounts of the Company. These financial statements are presented in U.S. dollars, which is the functional currency of the Company, and all amounts have been rounded to the nearest thousands, except when otherwise indicated.

(d) Use of estimates, assumptions and judgements

The preparation of financial statements in conformity with IFRS requires management to make estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised and in any future periods affected.

These financial statements were authorized for issue by the members of the Company and the board of directors of the REIT on March 27, 2019.

Note 3. Summary of Significant Accounting Policies

The significant accounting policies used in the preparation of these financial statements are described below and have been applied consistently to all periods presented:

(a) Property and equipment

(i) Recognition and measurement

Property and equipment are measured at cost less accumulated depreciation and any accumulated impairment losses. Cost includes expenditures that are directly attributable to the acquisition of the asset. The cost of self-constructed assets includes the cost of materials and direct labor, any other costs directly attributable to bringing the assets to a working condition for their intended use, and borrowing costs on qualifying assets.

When parts of an item of property and equipment have different useful lives, they are accounted for as separate items (major components) of property and equipment.

(ii) Subsequent costs

The cost of replacing a part of an item of property and equipment is recognized in the carrying amount of the item if it is probable that the future economic benefits embodied within the part will flow to the Company and its cost can be measured reliably. The carrying amount of the replaced part is derecognized. The costs of the day-to-day maintenance of property and equipment are recognized in profit or loss as incurred.

(iii) Depreciation

Depreciation is computed on a straight-line basis based on the useful lives of each component of property and equipment. Depreciation on new construction commences in the month after the asset is available for its intended use based upon the useful life of the asset.

Estimated useful lives were determined based on current facts and past experience, and take into consideration the anticipated physical life of the asset and current and forecasted demand. The rates and methods used are reviewed annually at year end to ensure they continue to be appropriate, and are also reviewed in conjunction with impairment testing. Gains/losses on disposition of property and equipment are recognized in profit or loss when the Company has transferred to the purchaser the significant risk and rewards of ownership of the property and equipment and the purchaser has made a substantial commitment demonstrating its intent to honour its obligation.

(b) Impairment of non-financial assets

The carrying amounts of the Company's non-financial assets, other than inventories, are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated.

The recoverable amount of an asset or cash-generating unit is the greater of its value in use and its fair value less costs to sell. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. For the purpose of impairment testing, assets that cannot be tested individually are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or groups of assets (the "cash-generating unit" or "CGU").

When the carrying amount of the asset or CGU exceeds its estimated recoverable amount, an impairment loss is recognized in an amount equal to the excess. When an indication that an impairment loss recognized in prior periods for an asset or CGU other than

goodwill may no longer exist or may have decreased, the recoverable amount of that asset or CGU is estimated. A reversal of an impairment loss is recognized immediately in profit or loss if the recoverable amount of a previously impaired asset or CGU has subsequently increased to the lower of the asset or CGU's recoverable amount or carrying amount had no impairment loss been recognized for the asset or CGU in prior years.

(c) Financial instruments

(i) Financial assets

The Company's financial assets are comprised of cash and cash equivalents, restricted cash, trade and other receivables and prepaid and other assets. The Company classifies these financial assets as loans and receivables. The Company initially recognizes loans and receivables on the date that they are originated. Loans and receivables are financial assets with fixed or determinable payments that are not quoted in an active market. Such assets are recognized initially at fair value plus any directly attributable transaction costs. Subsequent to initial recognition, loans and receivables are measured at amortized cost using the effective interest method, less any impairment losses.

(ii) Financial liabilities

The Company has the following non-derivative financial liabilities: accounts payable and other accrued liabilities and note payable. The Company classifies each of its non-derivative financial liabilities as other financial liabilities. Initial measurement is at fair value plus any directly attributable transaction costs. Subsequent to initial recognition, these non-derivative financial liabilities are measured at amortized cost using the effective interest method. All non-derivative financial liabilities are initially recognized on the date that the Company becomes a party to the contractual provisions of the instrument. The Company derecognizes a financial liability when its contractual obligations are discharged or cancelled or expire.

(iii) Impairment of financial assets

Loans and receivables are assessed at each reporting date to determine whether there is objective evidence that they are impaired. A financial asset is impaired if objective evidence indicates that a loss event has occurred after the initial recognition of the asset, and that the loss event had a negative effect on the estimated future cash flows of that asset that can be estimated reliably. Objective evidence that financial assets are impaired can include default or delinquency by a debtor, restructuring of an amount due to the Company on terms that the Company would not consider otherwise, or indications that a debtor or issuer will enter bankruptcy.

The Company considers evidence of impairment for loans and receivables at both a specific asset and collective level. All individually significant loans and receivables are assessed for specific impairment. All individually significant loans and receivables found not to be specifically impaired are then collectively assessed for any impairment that has been incurred but not yet identified. Loans and receivables that are not individually significant are collectively assessed for impairment by grouping together loans and receivables with similar risk characteristics.

An impairment loss in respect of a financial asset measured at amortized cost is calculated as the difference between its carrying amount and the present value of the estimated future cash flows, discounted using the instrument's original effective interest rate. Losses are recognized in profit or loss and reflected in an allowance account against receivables. Interest on the impaired asset continues to be recognized through the unwinding of the discount. When a subsequent event causes the amount of impairment loss to decrease, the decrease in impairment loss is reversed through profit or loss.

(d) Cash and cash equivalents

The Company considers all liquid investments with original terms to maturity of three months or less when acquired to be cash equivalents. Cash and cash equivalents consist of cash on hand and cash held at banks.

(e) Restricted cash

Restricted cash primarily consists of cash reserves on deposit with lenders in respect of future capital expenditures.

(f) Provisions

A provision is recognized if, as a result of a past event, the Company has a present legal or constructive obligation that can be estimated reasonably, and it is probable that an outflow of economic benefits will be required to settle the obligation. If the time value of money is material, provisions are determined by discounting the expected future cash flows using a current rate that reflects the risk profile of the liability, and the increase to the provision due to the passage of time will be recognized as a finance cost.

(g) Revenue recognition

Revenue is generated primarily from the operation of the Company's hotel, which includes room rentals, food and beverage sales and other incidental income. Revenue is recognized when services are rendered, the amount is earned, and collectability is reasonably assured. The Company may collect payments in advance of the utilization of a facility. These payments are recorded in accounts payable and other accrued liabilities until such time as the applicable facility is utilized, at which time the customer deposit is recognized as revenue.

(h) Interest expense, net

Net interest expense consists of interest expense on outstanding debt and the amortization of deferred financing costs, net of interest income. Net interest expense is recognized in the period in which it is incurred. Fees and costs related to obtaining debt financing are capitalized against the related debt and amortized over the term of the debt using the straight-line method, which approximates the effective interest method, and are included in net interest expense. The unamortized balance of the fees and costs is recorded as a reduction from the related debt on the Company's statements of financial position.

(i) Income taxes

The Company is a limited liability company and is treated like a partnership for U.S. federal income tax purposes. As such, the Company has not recorded a provision for income taxes on its taxable income, as the members of the Company are required to report their share of the Company's earnings in their respective income tax returns. The Company's tax returns and the amounts of allocable income or loss are subject to examination by federal and state taxing authorities. If such examinations result in changes to income tax or loss, the tax liability of the members of the Company could be changed accordingly. In certain instances, the Company may be subject to certain state and local taxes.

The Company evaluates the uncertainties of tax positions taken or expected to be taken on a return based on the probability of whether the position taken will be sustained upon examination by tax authorities. As of December 31, 2017 and 2016 and January 1, 2016, the Company had no amounts related to unrecognized income tax benefits and no amounts related to accrued interest and penalties. The Company recognizes tax positions taken or to be taken in a tax return when they become probable. The Company concluded that it had no material uncertain tax liabilities to be recognized as of December 31, 2017 and 2016 and January 1, 2016.

On December 22, 2017, the Tax Cuts and Jobs Act (the "2017 Tax Act") was signed into law in the United States. The most significant change is the reduction of the statutory corporate tax rate from 35 percent to 21 percent, effective January 1, 2018. Many of the provisions in the 2017 Tax Act expire in seven years (at the end of 2025). The Company does not expect the 2017 Tax Act to have a significant impact on its financial statements.

(j) Operating segments

The Company currently operates in one business segment, owning and operating one hotel property and related restaurant in the U.S. The primary format for segment reporting is based on geographic region and is consistent with the internal reporting provided to the Company's chief operating decision-maker.

(k) Levies

In accordance with IFRS Interpretations Committee (IFRIC) 21, *Levies*, the Company recognizes the full amount of annual property tax liabilities at the point in time when the realty tax obligation is imposed. This is the obligating event that gives rise to a liability to pay the property taxes.

(l) Use of estimates and assumptions

The preparation of financial statements in conformity with IFRS requires management to make estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities and disclosure of contingent assets and liabilities as of the date of the financial statements, and the reported amounts of revenues and expenses during the reporting periods. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised and in any future periods affected.

(m) Recent accounting pronouncements

(i) IAS 7 – Statement of Cash Flows

In January 2016, the IASB issued amendments to International Accounting Standards ("IAS") 7, *Statement of Cash Flows* ("IAS 7"). The amendments apply prospectively for annual periods beginning on or after January 1, 2017 and require disclosures that enable users of financial statements to evaluate changes in liabilities arising from financing activities, including both changes arising from cash flows and non-cash changes. The Company implemented the amendments to IAS 7 on January 1, 2017 and there was no material impact on its financial statements.

(ii) IFRS 9 – Financial Instruments

In July 2014, the IASB issued the final publication of the IFRS 9 standard, superseding the current IAS 39, *Financial Instruments: Recognition and Measurement* ("IAS 39") standard ("IFRS 9"). IFRS 9 includes revised guidance on the classification and measurement of financial instruments, including a new expected credit loss model for calculating impairment on financial assets, and the new general hedge accounting requirements. It also carries forward the guidance on recognition and de-recognition of financial instruments from IAS 39. The standard is effective for annual periods beginning on or after January 1, 2018 with early adoption permitted. The Company intends to adopt IFRS 9 in its financial statements for the annual period beginning on January 1, 2018 and does not expect the new standard to have a material impact on its financial statements.

(iii) IFRS 15 – Revenue from Contracts with Customers

In May 2014, the IASB issued IFRS 15, *Revenue from Contract with Customers* ("IFRS 15"), which establishes a new five step model that applies to revenue arising from contracts with customers. The principles in IFRS 15 provide a more structured approach to measuring and recording revenue allowing greater comparability of revenues across industries. The new revenue standard is applicable to all entities and will supersede all current revenue recognition requirements under IFRS. Either a full or modified retrospective application is required for annual periods beginning on or after January 1, 2018, with early adoption permitted. The Company intends to adopt IFRS 15 in its financial statements for the annual period beginning on January 1, 2018. The Company has performed an in-depth assessment of IFRS 15 to determine what the impact of the adoption of the new standard will have on the Company's financial statements. Based on the nature of the Company's operations to own and operate a hotel, the Company does not expect there to be a material impact on the timing and measurement of revenue recognized as compared to the previous standard. Additional disclosures will be required to comply with IFRS 15.

(iv) IFRS 16 – Leases

IFRS 16, *Leases* ("IFRS 16") was issued in January 2016 and sets out a new model for lease accounting, replacing IAS 17, *Leases*. The most significant effect of the new standard will be the recognition of the initial present value of unavoidable future lease payments as lease assets and lease liabilities on the statement of financial position, including those for most leases that would be currently accounted for as operating leases. Leases with durations of 12 months or less and leases for low value assets may be exempted. IFRS 16 will be effective for accounting periods beginning on or after January 1, 2019. Early adoption will be permitted provided the Company has adopted IFRS 15. The Company intends to adopt IFRS 16 in its financial statements for the annual period beginning on January 1, 2019 and does not expect the new standard to have a material impact on its financial statements.

PALLAS, LLC
NOTES TO THE AUDITED FINANCIAL STATEMENTS
(Amounts in thousands of U.S. dollars except unit counts)

Note 4. Property and Equipment, Net

	Land	Buildings and improvements	Furniture, fixtures and equipment	Total
Cost:				
Balance, January 1, 2016	$ 1,777	$ 18,128	$ 3,436	$ 23,341
Additions	—	—	16	16
Disposals	—	—	—	—
Balance, December 31, 2016	1,777	18,128	3,452	23,357

Disposals	—	—	—	—
Balance, December 31, 2017	$ 1,777	$ 18,128	$ 4,325	$ 24,230
Accumulated depreciation:				
Balance, January 1, 2016	$ -	$ 6,472	$ 3,400	$ 9,872
Depreciation	—	624	10	634
Disposals	—	—	—	—
Balance, December 31, 2016	—	7,096	3,410	10,506
Depreciation	—	424	13	437
Disposals	—	—	—	—
Balance, December 31, 2017	$ —	$ 7,520	$ 3,423	$ 10,943
Carrying amount, January 1, 2016	$ 1,777	$ 11,656	$ 36	$ 13,469
Carrying amount, December 31, 2016	1,777	11,032	42	12,851
Carrying amount, December 31, 2017	1,777	10,608	902	13,287

The Company's fixed asset additions are primarily related to improvements and upgrades required by the Company's franchise agreement.

Note 5. Restricted Cash

The Company funded restricted cash reserves for brand mandated property improvement plans ("PIPs") and furniture, fixtures and equipment upgrades arising from the execution of the Company's franchise agreement in 2008. Restricted cash reserves are typically expected to be spent over an 18-24 month period. The amounts are released to the Company as the expenditures are incurred or paid directly to the service provider. As of December 31, 2017 and 2016, and January 1, 2016, the Company had $2, $2, and $2 of restricted cash, respectively.

Note 6. Operating Expenses

	For the Year Ended December 31,	
	2017	2016
Payroll	$ 2,004	$ 1,940
Repairs and maintenance	495	528
Utilities	437	420
Property taxes and insurance	731	632
Cost of goods sold	1,309	1,311
Franchise fees	876	897
Other operating expenses	116	101
Operating expenses	$ 5,968	$ 5,829

Note 7. General and Administrative Expenses

	For the Year Ended December 31,			
	2017		2016	
Property management fees	$	535	$	540
Office operations		173		154
Marketing		1,234		1,176
Other administrative expenses		6		6
General and administrative expenses	$	1,948	$	1,876

Note 8. Accounts Payable and Other Accrued Liabilities

	December 31, 2017		December 31, 2016		January 1, 2016	
Trade payables	$	262	$	162	$	304

Accounts payable and other accrued liabilitie	$	525	$	629	$	946

Note 9. Note Payable, Net

	December 31, 2017		December 31, 2016		January 1, 2016	
Note payable	$	22,953	$	17,536	$	18,047
Less: current maturities		(564)		(17,501)		(364)
Less: unamortized portion of deferred financing costs		(136)		(35)		(84)
Note payable, net	$	22,253	$	-	$	17,599

On September 26, 2012, the Company entered into a $19,570 term loan (the “Loan”) with a large financial institution. The Loan incurred interest at a fixed rate equal to 4.25% and required monthly principal payments and was secured by the Property. The Loan was refinanced on November 25, 2017, increasing the loan balance to $23,000 (the “Amended Loan”). The Amended Loan is secured by the Property and bears interest at a fixed rate equal to 3.80% and requires monthly principal payments. The Amended Loan matures on November 25, 2022.

The Amended Loan agreement contains customary representations, warranties, and events of default, which requires the Company to comply with affirmative and negative covenants. As of December 31, 2017, 2016 and January 1, 2016, the Company was in compliance with all covenants of the Loan agreement and Amended Loan agreement.

Costs related to obtaining debt financing are capitalized and amortized over the term of the related debt using the straight-line method, which approximates the effective interest method, and are included in net interest expense. The unamortized balance of the costs is shown as a reduction of the related debt on the statements of financial position.

Future principal payments on the Loan, excluding amortization of deferred financing costs, payable within the next five calendar years subsequent to December 31, 2017 are as follows:

	Note payable	
2018	$	564
2019		586
2020		608
2021		632
2022		20,563
Total	$	22,953

Note 10. Interest Expense, Net

	For the Year Ended December 31,			
	2017		2016	
Interest on debt	$	844	$	869
Amortization of deferred financing costs		36		49
Interest expense, net	$	880	$	918

Note 11. Members' Capital

The members of the Company have received cash distributions based on their respective ownership percentages. As of December 31, 2017, cash distributions totaled $10,620. All income or loss allocations are based on the member's respective ownership percentage.

Note 12. Financial Instruments

(a) Comparison of fair value to carrying amount

The fair value of a financial instrument is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value may be based on other observable current market transactions in the same instrument, without modification or on a valuation technique using market-based inputs. Fair value measurements recognized in the statements of financial position are categorized using the following fair value hierarchy that reflects the significance of inputs used in determining the fair values:

- Level 1: Quoted (unadjusted) market prices in active markets for identical assets or liabilities.
- Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, directly or indirectly.
- Level 3: Inputs for the asset or liability that are not based on observable market data (unobservable inputs).

As of December 31, 2017, 2016 and January 1, 2016, the carrying amounts of the Company's cash and cash equivalents, restricted cash, trade and other receivables, prepaid and other assets, accounts payables and other accrued liabilities approximated their fair values due to the short-term nature of these financial assets and liabilities.

The fair value of note payable is estimated by discounting the future cash flows using discount rates that reflect current market conditions for instruments having similar terms and conditions. Discount rates are either provided by lenders or are observable in the open market. As of December 31, 2017, 2016 and January 1, 2016, the carrying amount of the Company's note payable approximated its fair value.

(b) Financial risk management

The Company may be exposed to a number of risks in its normal course of operations from use of financial instruments. These risks, and the actions taken to manage them, are as follows:

(i) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in the market interest rates.

The Company's Amended Loan bears interest at a fixed rate, so fluctuations in interest rates will not impact the cost of financing incurred in the future but may impact the carrying value of the Amended Loan. The Company monitors its interest rate exposure on an ongoing basis.

(ii) Credit risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligation. The maximum exposure to credit risk is the full carrying amount of the financial instrument.

The Company is exposed to credit risk with respect to trade and other receivables. For the years ended December 31, 2017 and 2016, the Company had no bad debt expense. Credit risk of trade and other receivables is mitigated by initiating a prompt collection process.

(iii) Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they fall due. Property and equipment investments tend to be relatively illiquid, with the degree of liquidity generally fluctuating in relation to demand for and the perceived desirability of such investments. If the Company was required to sell the Property, the proceeds to the Company may be significantly less than the Property's carrying amount.

The Company manages liquidity risk through monitoring the repayment date and refinancing date of its note payable, monitoring its debt covenants and managing its cash flows. The Company's objective is to maintain sufficient available access to capital to fund ongoing operational and capital requirements. As of December 31, 2017, 2016 and January 1, 2016, the Company had cash and cash equivalents of $4,271, $1,339, and $859, respectively.

The following table provides information on the carrying amounts and the non-discounted contractual maturities of financial liabilities with fixed repayment terms, including estimated interest payments using the fixed rate of the Loan of 3.80% as of December 31, 2017:

	Carrying amount	Contractual cash flows	1 Year	More than 1 Year
Note payable	$ 22,953	$ 22,953	$ 564	$ 22,389
Interest payable on note	—	—	—	—
Accounts payable and other accrued liabilities	525	525	525	—
Total	$ 23,478	$ 23,478	$ 1,089	$ 22,389

Note 13. Capital Management

The Company defines capital as the aggregate of members' equity and note payable. The Company's objectives in managing capital are to maintain a level of capital that: complies with investment and debt restrictions pursuant to the Company's operating agreement; complies with existing debt covenants; funds its business strategies; and builds long-term members' value. Capital adequacy is monitored by the Company by assessing performance against the approved annual plan throughout the year and by monitoring adherence to investment and debt restrictions contained in the Company's operating agreement and debt covenants.

Note 14. Segment Reporting

The Company currently operates in one business segment, owning and operating one hotel property and related restaurant in the U.S. The primary format for segment reporting is based on geographic region and is consistent with the internal reporting provided to the Company's chief operating decision-maker. Accordingly, the Company has a single reportable segment for disclosure purposes in accordance with IFRS.

Note 15. Commitments and Contingencies

(a) Franchise agreement

The Property is operated under a franchise agreement (the "Franchise Agreement") with a subsidiary of Marriott International (the "Franchisor"). The Franchise Agreement was executed on July 3, 2008 and has a 20-year term. The Franchise Agreement requires the payment of a monthly royalty fee of 6% of the Property's gross room revenue and 3% of the Property's gross food and beverage revenue and a monthly program fee of 1% of the Property's gross room revenue. Under a covenant in the Franchise Agreement, the Property was responsible for funding an amount equal to 4% of gross revenue for the first 36 months under the contract, then an amount equal to 5% of gross revenues each month for the remainder of the contract, into a reserve cash account. The Property did not retain the required cash and was not in compliance with the covenant for the years ended December 31, 2017, and 2016, under the

Franchise Agreement. For the years ended December 31, 2017, and 2016, franchise fees were $876, and $897, respectively, and are included in operating expenses in the statements of comprehensive income.

(b) Litigation

In the normal course of operations, the Company may become subject to a variety of legal and other claims. The Company evaluates all claims on their apparent merits and, if necessary, the Company accrues for its best estimate of the costs to satisfy such claims. While it is not possible to ascertain the ultimate outcome of all such matters, the Company believes that the aggregate amount of such liabilities, if any, in excess of amounts provided or covered by insurance, will not have a material adverse effect on these financial statements. The Company is not involved in any material litigation nor, to the Company's knowledge, is any material litigation currently threatened against the Company, the Operating Company or the Property.

Note 16. Related Party Transactions

The Company engaged MDM for the day-to-day management of the Property. The Manager is deemed to be a related party due to its affiliation with one of the members of the Company. The property management agreement commenced on June 30, 2008 with an initial 5-year term that automatically renewed in one year renewals. The property management fee is 4.25% of the Property's gross revenues (as defined in the Management Agreement). The Management Agreement also calls for the Company to reimburse the Manager for those employees of the Manager as utilized by the Company. For the years ended December 31, 2017 and 2016, in accordance with the Management Agreement, property management fees were $535 and $540, respectively. Property management fees are included in general and administrative expenses in the statements of comprehensive income.

In addition, on September 27, 2012 the Company entered into a $2,576 loan agreement with the Manager (the "MDM Loan"). The Loan was the result of expenses paid by MDM on behalf of the Company which the Company was unable to reimburse at the time. The Loan bears no interest, and only principal is due. The note payable to MDM was repaid in full on November 25, 2017.

Note 17. Supplemental Cash Flow Disclosure

Reconciliation of changes in liabilities and members' equity, including movements of liabilities to cash flows arising from financing activities for the year ended December 31, 2017 was as follows:

	Liabilities					
	Accounts payable and other accrued liabilities	Current portion of note payable	Note payable, net	Related party note payable	Members' deficit	Total
Balance January 1, 2017	$ 629	$ 17,501	$ -	$ 2,306	$ (5,938)	$ 14,498
Changes from financing cash flows:						
Amortization of deferred financing costs	-	-	(136)	-	-	(136)
Reclass from note payable, net to current portion	-	564	(564)	-	-	-
Distributions	-	-	-	-	(1,401)	(1,401)
Interest accrual	-	-	-	-	-	-
Proceeds from note payable	-	-	23,000	-	-	23,000
Principal payments on notes payable	-	(17,501)	(47)	(2,306)	-	(19,854)
Total changes from financing cash flows	-	(16,937)	22,253	(2,306)	(1,401)	1,609
Liability related:						
Other payable increases	(104)	-	-	-	-	(104)
Members' equity related:						
Comprehensive Income (loss)	-	-	-	-	1,824	1,824
Balance December 31, 2017	$ 525	$ 564	$ 22,253	$ -	$ (5,515)	$ 17,827

Note 18. Subsequent Events

The Company evaluated subsequent events through March 27, 2019 to determine if any significant events occurred subsequent to the balance sheet dates that would have a material impact on these consolidated financial statements. On September 24, 2018, the Company sold the Property to NHT SP, LLC. On January 8, 2019, the parent of NHT SP, LLC (NHT SP Parent, LLC), was contributed to NHT Holdco, LLC in exchange for 3,613,498 units.

Note 1. General Information

Birchmont H.I. Nashville Partners, LLC (the "Company") is a limited liability company registered in Delaware and was established on April 2, 2007. The Company was formed to invest in a Holiday Inn Express hotel property located in Nashville, Tennessee (the "Property"). The Property was owned by the Company through a wholly owned subsidiary, with the Company formed as a title holding company with no operations.

NexPoint Hospitality Trust (the "REIT") is a newly-created, unincorporated, real estate investment trust established under the laws of the Province of Ontario. The REIT was formed to aggregate eleven hospitality properties (the "Initial Portfolio") and list its shares on the TSX Venture Exchange (the "Listing"). The REIT will own its properties through its subsidiary NHT Operating Partnership, LLC, (the "OP"). The Initial Portfolio will be contributed prior to the Listing by various entities that currently own such properties (the "Transaction"). On January 8, 2019, through subsidiaries, NexPoint Multifamily Capital Trust, Inc. ("NMCT"), purchased the Property from the Company for $117,500. Simultaneously with the purchase of the Property, the shareholders of NMCT contributed NMCT, and thus, the Property, as a part of the Transaction in exchange for units in NHT Holdco LLC, which in turn contributed the Property to the REIT which, through a series of transactions, contributed the property to the OP in exchange for Class A units of the OP. In order to consummate the Transaction and Listing, the REIT filed a preliminary prospectus with the Ontario Securities Commission (the "OSC") on December 12, 2018 (the "Offering") to register the units of the REIT. Upon closing of the Transaction discussed in the Offering, the Initial Portfolio will be owned indirectly by the REIT.

These consolidated financial statements of the Company (the "Financials") have been prepared for the specific purpose of reporting on the assets, liabilities, members' equity, revenues and expenses of the Company included in, and for the inclusion in, a final prospectus to be filed with the OSC by the REIT. The Financials present the consolidated financial position, results of operations and cash flows of the Company for the periods presented. The Financials are not necessarily indicative of future operating results.

Note 2. Basis of Preparation

(a) Statement of Compliance

The Financials have been prepared in accordance with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB").

(b) Basis of Measurement

These consolidated financial statements have been prepared on a historical cost basis.

(c) Basis of Presentation

These consolidated financial statements have been prepared in accordance with IFRS as issued by the IASB. These consolidated financial statements include the accounts of the Company and its wholly owned subsidiary. All significant intercompany accounts and transactions have been eliminated in consolidation. These consolidated financial statements are presented in U.S. dollars, which is the functional currency of the Company, and all amounts have been rounded to the nearest thousands, except when otherwise indicated. The results presented as of December 31, 2017 are derived from audited financial statements presented previously.

(d) Use of estimates, assumptions and judgements

The preparation of financial statements in conformity with IFRS requires management to make estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised and in any future periods affected.

These consolidated financial statements were authorized for issue by the members of the Company and the board of directors of the REIT on March 27, 2019.

Note 3. Summary of Significant Accounting Policies

The significant accounting policies used in the preparation of these consolidated financial statements are described below and have been applied consistently to all periods presented:

(a) Basis of consolidation

The consolidated financial statements comprise the financial statements of the Company. Intra-company transactions and balances are eliminated in preparing the consolidated financial statements. The consolidated financial statements reflect the consolidated financial position, results of operations and cash flows of the Company.

(b) Property and equipment

(i) Recognition and measurement

Property and equipment are measured at cost less accumulated depreciation and any accumulated impairment losses. Cost includes expenditures that are directly attributable to the acquisition of the asset. The cost of self-constructed assets includes the cost of materials and direct labor, any other costs directly attributable to bringing the assets to a working condition for their intended use, and borrowing costs on qualifying assets.

When parts of an item of property and equipment have different useful lives, they are accounted for as separate items (major components) of property and equipment.

(ii) Subsequent costs

The cost of replacing a part of an item of property and equipment is recognized in the carrying amount of the item if it is probable that the future economic benefits embodied within the part will flow to the Company and its cost can be measured reliably. The carrying amount of the replaced part is derecognized. The costs of the day-to-day maintenance of property and equipment are recognized in profit or loss as incurred.

(iii) Depreciation

Depreciation is computed on a straight-line basis based on the useful lives of each component of property and equipment. Depreciation on new construction commences in the month after the asset is available for its intended use based upon the useful life of the asset.

Estimated useful lives were determined based on current facts and past experience, and take into consideration the anticipated physical life of the asset and current and forecasted demand. The rates and methods used are reviewed annually at year end to ensure they continue to be appropriate, and are also reviewed in conjunction with impairment testing.

Gains/losses on disposition of property and equipment are recognized in profit or loss when the Company has transferred to the purchaser the significant risk and rewards of ownership of the property and equipment and the purchaser has made a substantial commitment demonstrating its intent to honour its obligation.

(c) Impairment of non-financial assets

The carrying amounts of the Company's non-financial assets are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated.

The recoverable amount of an asset or cash-generating unit is the greater of its value in use and its fair value less costs to sell. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. For the purpose of impairment testing, assets that cannot be tested individually are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or groups of assets (the "cash-generating unit" or "CGU").

When the carrying amount of the asset or CGU exceeds its estimated recoverable amount, an impairment loss is recognized in an amount equal to the excess. When an indication that an impairment loss recognized in prior periods for an asset or CGU other than goodwill may no longer exist or may have decreased, the recoverable amount of that asset or CGU is estimated. A reversal of an impairment loss is recognized immediately in profit or loss if the recoverable amount of a previously impaired asset or CGU has subsequently increased to the lower of the asset or CGU's recoverable amount or carrying amount had no impairment loss been recognized for the asset or CGU in prior years.

(d) Financial instruments

(i) Classification and measurement of financial assets and liabilities:

Financial instruments are generally measured at fair value on initial recognition. The classification and measurement of financial assets consists of the following categories: (i) measured at amortized cost, (ii) fair value through profit and loss ("FVTPL"), and (iii) fair value through other comprehensive income ("FVTOCI"). Financial assets classified at amortized cost are measured using the effective interest method. Financial assets classified as FVTPL are measured at fair value with gains and losses recognized in the consolidated statement of net income. Financial assets classified as FVTOCI are measured at fair value with gains or losses recognized through other comprehensive income, except for gains and losses pertaining to impairment or foreign exchange recognized through net income.

The classification and measurement of financial liabilities consists of the following categories: (i) measured at amortized cost and (ii) FVTPL. Financial liabilities classified at amortized cost are measured using the effective interest method. Financial liabilities classified as FVTPL are measured at fair value with changes in fair value attributable to changes in the credit risk of the liability presented in other comprehensive income, and the remaining amount of change in fair value presented in the consolidated statement of net income.

The Company has made the following classifications for its financial instruments:

Asset/Liability	Classification
Cash and cash equivalents	Amortized cost
Restricted cash	Amortized cost
Trade and other receivables	Amortized cost
Accounts payable and other accrued liabilities	Amortized cost
Notes payable	Amortized cost

The Company derecognizes a financial asset only when the contractual rights to the cash flows from the asset expire or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another entity. The Company derecognizes a financial liability when, and only when, the Company's obligations are discharged, cancelled or they expire. The difference between the carrying amount of the financial liability derecognized and the consideration paid and payable is recognized through net income.

Transaction costs other than those related to financial instruments classified as FVTPL, which are expensed as incurred, are capitalized to the carrying amount of the instrument and amortized using the effective interest method. These costs include interest, amortization of discounts or premiums relating to borrowings, fees and commissions paid to agents, brokers and advisers and transfer taxes and duties.

(ii) Impairment of financial assets

For impairment of financial assets other than investments in equity instruments, contract assets, lease receivables, loan commitments and financial guarantee contracts, the Company applies a forward-looking 'expected credit loss' ("ECL") model. The Company adopted the practical expedient to determine ECL on trade and other receivables using a provision matrix based on historical credit loss experiences adjusted for current and forecasted future economic conditions to estimate lifetime ECL.

Impairment losses are recorded in the statement of income (loss) and comprehensive income (loss) with the carrying amount of the financial asset or group of financial assets reduced through the use of impairment allowance accounts.

(e) Cash and cash equivalents

The Company considers all liquid investments with original terms to maturity of three months or less when acquired to be cash equivalents. Cash and cash equivalents consist of cash on hand and cash held at banks.

(f) Restricted cash

Restricted cash primarily consists of operating funds set aside as required by the lenders of the Company's mortgage notes for repairs, insurance, property taxes, and investing funds set aside for capital improvements. The lenders hold a security interest in these restricted funds and the release of these funds are subject to the lenders' supervision and approval.

(g) Provisions

A provision is recognized if, as a result of a past event, the Company has a present legal or constructive obligation that can be estimated reasonably, and it is probable that an outflow of economic benefits will be required to settle the obligation. If the time value of money is material, provisions are determined by discounting the expected future cash flows using a current rate that reflects the risk profile of the liability, and the increase to the provision due to the passage of time will be recognized as a finance cost.

(h) Revenue recognition

IFRS 15 establishes a comprehensive framework for determining whether, how much and when revenue is recognized. It replaced IAS 18 Revenue and related interpretations. The standard requires revenue to be recognized in a manner that depicts the transfer of promised goods or services to a customer and at an amount that reflects the consideration expected to be received in exchange for transferring those goods or services. This is achieved by applying the following five steps:

1. identify the contract with a customer;
2. identify the performance obligations in the contract;
3. determine the transaction price;
4. allocate the transaction price to the performance obligations in the contract; and
5. recognize revenue when (or as) the entity satisfies a performance obligation.

Revenue is generated primarily from the operation of the Company's hotels, which includes room rentals, food and beverage sales and other incidental income. Revenue is recognized when services are rendered, the amount is earned, and collectability is reasonably assured. The Company may collect payments in advance of the utilization of a facility. These payments are recorded in accounts payable and other accrued liabilities until such time as the applicable facility is utilized, at which time the customer deposit is recognized as revenue.

(i) Interest expense, net

Net interest expense consists of interest expense on outstanding debt and the amortization of deferred financing costs, net of interest income. Net interest expense is recognized in the period in which it is incurred. Fees and costs related to obtaining debt financing are capitalized against the related debt and amortized over the term of the debt using the straight-line method, which approximates the effective interest method, and are included in net interest expense. The unamortized balance of the fees and costs is recorded as a reduction from the related debt on the Company's consolidated statements of financial position.

(j) Income taxes

The Company is a limited liability company and is treated like a partnership for U.S. federal income tax purposes. As such, the Company has not recorded a provision for income taxes on its taxable income, as the members of the Company are required to report their share of the Company's earnings in their respective income tax returns. The Company's tax returns and the amounts of allocable income or loss are subject to examination by federal and state taxing authorities. If such examinations result in changes to income tax

or loss, the tax liability of the members of the Company could be changed accordingly. In certain instances, the Company may be subject to certain state and local taxes.

The Company evaluates the uncertainties of tax positions taken or expected to be taken on a return based on the probability of whether the position taken will be sustained upon examination by tax authorities. As of September 30, 2018 and December 31, 2017, the Company had no amounts related to unrecognized income tax benefits and no amounts related to accrued interest and penalties. The Company recognizes tax positions taken or to be taken in a tax return when they become probable. The Company concluded that it had no material uncertain tax liabilities to be recognized as of September 30, 2018 and December 31, 2017.

On December 22, 2017, the Tax Cuts and Jobs Act (the "2017 Tax Act") was signed into law in the United States. The most significant change is the reduction of the statutory corporate tax rate from 35 percent to 21 percent, effective January 1, 2018. Many of the provisions in the 2017 Tax Act expire in seven years (at the end of 2025). The Company determined that the 2017 Tax Act has no significant impact on its consolidated financial statements.

(k) Operating segments

The Company currently operates in one business segment, owning and operating one hotel property in the U.S. The primary format for segment reporting is based on geographic region and is consistent with the internal reporting provided to the Company's chief operating decision-maker.

(l) Levies

In accordance with IFRS Interpretations Committee (IFRIC) 21, *Levies*, the Company recognizes the full amount of annual property tax liabilities at the point in time when the realty tax obligation is imposed. This is the obligating event that gives rise to a liability to pay the property taxes.

(m) Use of estimates and assumptions

The preparation of financial statements in conformity with IFRS requires management to make estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities and disclosure of contingent assets and liabilities as of the date of the financial statements, and the reported amounts of revenues and expenses during the reporting periods. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised and in any future periods affected.

(n) Recent accounting pronouncements

(i) IFRS 9 – Financial Instruments

In July 2014, the IASB issued the final publication of the IFRS 9 standard, superseding the current IAS 39, *Financial Instruments: Recognition and Measurement* ("IAS 39") standard ("IFRS 9"). IFRS 9 includes revised guidance on the classification and measurement of financial instruments, including a new expected credit loss model for calculating impairment on financial assets, and the new general hedge accounting requirements. It also carries forward the guidance on recognition and de-recognition of financial instruments from IAS 39. The standard is effective for annual periods beginning on or after January 1, 2018 with early adoption permitted. The Company adopted IFRS 9 in its consolidated financial statements for the annual period beginning on January 1, 2017 and there was no material impact on its consolidated financial statements.

(ii) IFRS 15 – Revenue from Contracts with Customers

In May 2014, the IASB issued IFRS 15, *Revenue from Contract with Customers* ("IFRS 15"), which establishes a new five step model that applies to revenue arising from contracts with customers. The principles in IFRS 15 provide a more structured approach to measuring and recording revenue allowing greater comparability of revenues across industries. The new revenue standard is applicable to all entities and will supersede all current revenue recognition requirements under IFRS. Either a full or modified retrospective application is required for annual periods beginning on or after January 1, 2018, with early adoption permitted. The Company adopted IFRS 15 in its consolidated financial statements for the annual

period beginning on January 1, 2018 using the modified retrospective application and determined there was no material impact on its consolidated financial statements.

(iii) IFRS 16 – Leases

IFRS 16, *Leases* ("IFRS 16") was issued in January 2016 and sets out a new model for lease accounting, replacing IAS 17, *Leases*. The most significant effect of the new standard will be the recognition of the initial present value of unavoidable future lease payments as lease assets and lease liabilities on the statement of financial position, including those for most leases that would be currently accounted for as operating leases. Leases with durations of 12 months or less and leases for low value assets may be exempted. IFRS 16 will be effective for accounting periods beginning on or after January 1, 2019. Early adoption will be permitted provided the Company has adopted IFRS 15. The Company intends to adopt IFRS 16 in its consolidated financial statements for the annual period beginning on January 1, 2019 and does not expect the new standard to have a material impact on its consolidated financial statements.

Note 4. Property and Equipment, Net

	Land	Buildings and improvements	Furniture, fixtures and equipment	Construction in progress	Total
Cost:					
Balance, December 31, 2016	$ 5,440	$ 34,118	$ 4,902	$ 2,173	$ 46,633

Carrying amount, September 30, 2018	5,440	19,536	7,997	2,490	35,463

The Company's fixed asset additions are primarily related to improvements and upgrades required by the Company's franchise agreement.

Note 5. Restricted Cash

Restricted cash primarily consists of operating funds set aside as required by the lenders of the Company's mortgage notes for repairs, insurance, property taxes, and investing funds set aside for capital improvements. The lenders hold a security interest in these restricted funds and the release of these funds are subject to the lenders' supervision and approval. As of September 30, 2018 and December 31, 2017, the Company had $1,495 and $871 of restricted cash, respectively.

Note 6. Operating Expenses

	For the Nine Months Ended September 30,	
	2018	2017
Payroll	$ 1,966	$ 1,895

Accounts payable and other accrued liabilitie	$ 2,697	$ 1,967

Note 9. Notes Payable, Net

	September 30, 2018	December 31, 2017
Notes payable	$ 70,289	$ 71,084
Less: current maturities	(1,104)	(1,062)
Less: unamortized portion of deferred financing costs	(546)	(593)
Notes payable, net	$ 68,639	$ 69,429

On May 8, 2007, in connection with the acquisition of the Property by the Company, the Company entered into a $33,600 term loan (the "Loan") with a large financial institution. The Loan was secured by the property and bore interest at a fixed rate equal to 5.79%. The Loan's first 60 monthly payments were interest only. The Loan was refinanced on June 10, 2016, increasing the commitment amount to $72,500 (the "Amended Loan"). The Amended Loan is secured by the Property and bears interest at fixed rate equal to 5.12% and requires monthly principal payments of $314, with a balloon payment due at maturity on July 1, 2026.

The Company's Amended Loan agreement contains customary representations, warranties, and events of default, which requires the Company to comply with affirmative and negative covenants. As of September 30, 2018 and December 31, 2017, the Company was in compliance with all covenants of its Loan agreement and Amended Loan agreement.

Costs related to obtaining debt financing are capitalized and amortized over the term of the related debt using the straight-line method, which approximates the effective interest method, and are included in net interest expense. The unamortized balance of the costs is shown as a reduction of the related debt on the consolidated statements of financial position.

Future principal payments on the Loan, excluding amortization of deferred financing costs, payable within the next five calendar years subsequent to September 30, 2018 are as follows:

	Notes payable
2018	$ 267
2019	1,118
2020	1,168
2021	1,240
2022	1,306
Thereafter	65,190
Total	$ 70,289

Note 10. Interest Expense, Net

	For the Nine Months Ended September 30,	
	2018	2017
Interest on debt	$ 2,741	$ 2,781
Amortization of deferred financing costs	52	52
Interest expense, net	$ 2,793	$ 2,833

Note 11. Members' Capital

The members of the Company have made cash contributions and received cash distributions based on their respective ownership percentages. As of September 30, 2018, cash contributions totaled $8,160 and cash distributions totaled $70,986. All income or loss allocations are based on the member's respective ownership percentage.

Note 12. Financial Instruments

(a) Comparison of fair value to carrying amount

The fair value of a financial instrument is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value may be based on other observable current market transactions in the same instrument, without modification or on a valuation technique using market-based inputs. Fair value measurements recognized in the consolidated statements of financial position are categorized using the following fair value hierarchy that reflects the significance of inputs used in determining the fair values:

- Level 1: Quoted (unadjusted) market prices in active markets for identical assets or liabilities.
- Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, directly or indirectly.
- Level 3: Inputs for the asset or liability that are not based on observable market data (unobservable inputs).

As of September 30, 2018 and December 31, 2017, the carrying amounts of the Company's cash and cash equivalents, restricted cash, trade and other receivables, prepaid and other assets, accounts payables and other accrued liabilities approximated their fair values due to the short-term nature of these financial assets and liabilities.

The fair value of notes payable is estimated by discounting the future cash flows using discount rates that reflect current market conditions for instruments having similar terms and conditions. Discount rates are either provided by lenders or are observable in the open market. As of September 30, 2018 and December 31, 2017, the carrying amount of the Company's notes payable approximated its fair value .

(b) Financial risk management

The Company may be exposed to a number of risks in its normal course of operations from use of financial instruments. These risks, and the actions taken to manage them, are as follows:

(i) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in the market interest rates.

The Company's Amended Loan bears interest at a fixed rate, so fluctuations in interest rates will not impact the cost of financing incurred in the future but may impact the carrying value of the Amended Loan. The Company monitors its interest rate exposure on an ongoing basis.

(ii) Credit risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligation. The maximum exposure to credit risk is the full carrying amount of the financial instrument.

The Company is exposed to credit risk with respect to trade and other receivables. For the periods ended September 30, 2018 and December 31, 2017, the Company had no bad debt expense. Credit risk of trade and other receivables is mitigated by initiating a prompt collection process.

(iii) Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they fall due. Property and equipment investments tend to be relatively illiquid, with the degree of liquidity generally fluctuating in relation to demand for and the perceived desirability of such investments. If the Company was required to sell the Property, the proceeds to the Company may be significantly less than the Property's carrying amount.

The Company manages liquidity risk through monitoring the repayment date and refinancing date of its notes payable, monitoring its debt covenants and managing its cash flows. The Company's objective is to maintain sufficient available access to capital to fund ongoing operational and capital requirements. As of September 30, 2018 and December 31, 2017, the Company had cash and cash equivalents of $2,091 and $1,310, respectively.

The following table provides information on the carrying amounts and the non-discounted contractual maturities of financial liabilities with fixed repayment terms, including estimated interest payments using the fixed rate of the Loan of 5.12% as of September 30, 2018:

	Carrying amount	Contractual cash flows	1 Year	More than 1 Year
Notes payable	$ 70,289	$ 70,289	$ 1,104	$ 69,185
Interest payable on notes	300	300	300	—
Accounts payable and other accrued liabilities	2,397	2,397	2,397	—
Total	$ 72,986	$ 72,986	$ 3,801	$ 69,185

Note 13. Capital Management

The Company defines capital as the aggregate of members' equity and notes payable. The Company's objectives in managing capital are to maintain a level of capital that: complies with investment and debt restrictions pursuant to the Company's operating agreement; complies with existing debt covenants; funds its business strategies; and builds long-term members' value. Capital adequacy is monitored by the Company by assessing performance against the approved annual plan throughout the year and by monitoring adherence to investment and debt restrictions contained in the Company's operating agreement and debt covenants.

Note 14. Segment Reporting

The Company currently operates in one business segment, owning and operating one hotel property in the U.S. The primary format for segment reporting is based on geographic region and is consistent with the internal reporting provided to the Company's

chief operating decision-maker. Accordingly, the Company has a single reportable segment for disclosure purposes in accordance with IFRS.

Note 15. Related Party Transactions

(a) Asset management fees

The Company has an asset management agreement with an affiliate of the member. Under this agreement, the Company is initially charged an annual asset management fee of $208 and after the occurrence of any Financing Event, as defined, the annual asset management fee shall be readjusted to 0.5% of the appraised value of the Property at the time of the Financing Event. This agreement will terminate upon the sale of the Property or can be terminated with cause. For the nine months ended September 30, 2018 and September 30, 2017, asset management fee were $1,004 and $156, respectively, and are included in general and administrative expenses in the consolidated statements of comprehensive income.

(b) Property management fees

The Company has a property management agreement with an affiliate of the member. Under this agreement, the Company is charged a property management fee and an oversight management fee of 3.0% and 2.0%, respectively, of the property's gross revenue, as defined. For the nine months ended September 30, 2018 and September 30, 2017, property management fees and oversight management fees totaled $803 and $751, respectively, and are included in operating expenses in the consolidated statements of net income and comprehensive income. This agreement is cancellable by either party with a 30-day written notice.

(c) Labor costs

Certain labor costs are reimbursed to entities affiliated with the member. The labor costs are mainly for on-site maintenance and other labor costs related to property management and hotel services. For the nine months ended September 30, 2018 and September 30, 2017, labor costs incurred totaled to $1,966, and $1,895, respectively, and are included in operating expenses in the consolidated statements of net income and comprehensive income.

Note 16. Commitments and Contingencies

(a) Franchise agreement

The Property is operated under a franchise agreement (the "Franchise Agreement") with a subsidiary of Hilton Worldwide (the "Franchisor"). The current Franchise Agreement was executed on June 2, 2016 and expires on January 7, 2028. The Franchise Agreement requires the payment of a monthly royalty fee of 5% (6% prior to June 10, 2016) and a monthly program fee of 3% of the Property's gross room revenue. For the nine months ended September 30, 2018 and September 30, 2017, franchise fees were $1,037 and $987, respectively, and are included in operating expenses in the consolidated statements of net income and comprehensive income.

(b) Litigation

In the normal course of operations, the Company may become subject to a variety of legal and other claims. The Company evaluates all claims on their apparent merits and, if necessary, the Company accrues for its best estimate of the costs to satisfy such claims. While it is not possible to ascertain the ultimate outcome of all such matters, the Company believes that the aggregate amount of such liabilities, if any, in excess of amounts provided or covered by insurance, will not have a material adverse effect on these consolidated financial statements. The Company is not involved in any material litigation nor, to the Company's knowledge, is any material litigation currently threatened against the Company or the Property.

Note 17. Supplemental Cash Flow Disclosure

Reconciliation of changes in liabilities and members' equity, including movements of liabilities to cash flows arising from financing activities for the nine months ended September 30, 2018 were as follows:

	Liabilities				
	Accounts payable and other accrued liabilities	Current portion of notes payable	Notes payable, net	Members' deficit	Total
Balance December 31, 2017	$ 1,967	$ 1,062	$ 69,429	$ (34,244)	$ 38,214
Changes from financing cash flows:					
Amortization of deferred financing costs	-	-	52	-	52
Reclass from notes payable, net to current portion	-	42	(42)	-	-
Interest accrual	(13)				(13)
Principal payments on notes payable	-	-	(800)	-	(800)
Distributions	-	-	-	(1,229)	(1,229)
Total changes from financing cash flows	(13)	42	(790)	(1,229)	(1,990)
Liability related:					
Other payable increases	743				743
Members' equity related:					
Comprehensive Income (loss)	-	-	-	3,242	3,242
Balance September 30, 2018	$ 2,697	$ 1,104	$ 68,639	$ (32,231)	$ 40,209

Note 18. Subsequent Events

The Company evaluated subsequent events through March 27, 2019 to determine if any significant events occurred subsequent to the balance sheet dates that would have a material impact on these consolidated financial statements. On January 8, 2019, the Company sold the Property to NHT Nashville, LLC, a subsidiary of NexPoint Multifamily Capital Trust, Inc. ("NMCT") for $117,500. Immediately after the purchase of the Property was complete, the shareholders of NMCT contributed 100% of the units of NMCT to NHT Holdco, LLC in exchange for 6,756,364 units.

BIRCHMONT H.I. NASHVILLE PARTNERS, LLC

Consolidated Financial Statements

As at December 31, 2017, December 31, 2016, December 31, 2015 and January 1, 2015 and for the years ended December 31, 2017, December 31, 2016 and December 31, 2015

(With Independent Auditors' Report Thereon)

Independent Auditor's Report

To the Members
Birchmont H.I. Nashville Partners, LLC
Los Angeles, California

We have audited the accompanying consolidated financial statements of Birchmont H.I. Nashville Partners, LLC and subsidiary, which comprise the consolidated statements of financial position as of December 31, 2017, 2016 and 2015, and January 1, 2015, and the related consolidated statements of net income and comprehensive income, members' deficit and cash flows for the years ended December 31, 2017, 2016 and 2015, and the related notes to the consolidated financial statements.

We are independent of the Company in accordance with the ethical requirements that are relevant to our audits of the consolidated financial statements in the United States of America, together with the International Ethics Standards Board for Accountants' *Code of Ethics for Professional Accountants*, and we have fulfilled our other ethical responsibilities in accordance with these requirements.

Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements

Management is responsible for the preparation and fair representation of these consolidated financial statements in accordance with International Financial Reporting Standards as issued by the International Accounting Standards Board; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Company's ability to continue as a going concern; disclosing, as applicable, matters related to going concern; and using the going concern basis of accounting, unless management either intends to liquidate the Company or cease operations or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Company's financial reporting process.

Auditor's Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America and in accordance with International Standards on Auditing. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement, whether due to fraud or error. Reasonable assurance is a high level of assurance but it is not a guarantee that an audit will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decision of users taken on the basis of these consolidated financial statements.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. We design audit procedures responsive to those risks and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error because fraud may involve collusion, forgery, intentional omissions, misrepresentations, or other override on internal control.

AICPA • PCAOB • CalCPA • Independent Member of BKR International

In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements, including disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

As part of an audit, we exercise professional judgement and maintain professional skepticism throughout the audit. We also conclude on the appropriateness of managements use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast a significant doubt on the Company's ability to continue as a going concern. If we conclude that material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies or material weaknesses in internal control that we identify during our audit.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Birchmont H.I. Nashville Partners, LLC and subsidiary as of December 31, 2017, 2016 and 2015, and January 1, 2015, and the results of their operations and their cash flows for the years ended December 31, 2017, 2016 and 2015, in accordance with International Financial Reporting Standards as issued by the International Accounting Standards Board.

Sale of Property

As discussed in Note 1 to the consolidated financial statements, the Holiday Inn Express hotel property located in Nashville, Tennessee held by the Company was sold on January 8, 2019, and the Company is expected to be dissolved in accordance with the provisions of the limited liability company agreement. Our opinion is not modified with respect to this matter.

BIRCHMONT H.I. NASHVILLE PARTNERS, LLC
NOTES TO THE AUDITED CONSOLIDATED FINANCIAL STATEMENTS
(Amounts in thousands of U.S. dollars except unit counts)

Note 1. General Information

Birchmont H.I. Nashville Partners, LLC (the "Company") is a limited liability company registered in Delaware and was established on April 2, 2007. The Company was formed to invest in a Holiday Inn Express hotel property located in Nashville, Tennessee (the "Property"). The Property was owned by the Company through a wholly owned subsidiary, with the Company formed as a title holding company with no operations.

NexPoint Hospitality Trust (the "REIT") is a newly-created, unincorporated, real estate investment trust established under the laws of the Province of Ontario. The REIT was formed to aggregate eleven hospitality properties (the "Initial Portfolio") and list its shares on the TSX Venture Exchange (the "Listing"). The REIT will own its properties through its subsidiary NHT Operating Partnership, LLC, (the "OP"). The Initial Portfolio will be contributed prior to the Listing by various entities that currently own such properties (the "Transaction"). On January 8, 2019, through subsidiaries, NexPoint Multifamily Capital Trust, Inc. ("NMCT"), purchased the Property from the Company for $117,500. Simultaneously with the purchase of the Property, the shareholders of NMCT contributed NMCT, and thus, the Property, as a part of the Transaction in exchange for units in NHT Holdco LLC, which in turn contributed the Property to the REIT which, through a series of transactions, contributed the property to the OP in exchange for Class A units of the OP. In order to consummate the Listing, the REIT filed a preliminary prospectus with the Ontario Securities Commission (the "OSC") on December 12, 2018 (the "Offering") to register the units of the REIT. Upon closing of the Listing discussed in the Offering, the Initial Portfolio will be owned indirectly by the REIT.

These consolidated financial statements of the Company (the "Financials") have been prepared for the specific purpose of reporting on the assets, liabilities, members' equity, revenues and expenses of the Company included in, and for the inclusion in, a final prospectus to be filed with the OSC by the REIT. The Financials present the consolidated financial position, results of operations and cash flows of the Company for the periods presented. The Financials are not necessarily indicative of future operating results.

Note 2. Basis of Preparation

(a) Statement of Compliance

The Financials have been prepared in accordance with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB"). These are the Company's first consolidated financial statements prepared in accordance with IFRS; the Company adopted IFRS in accordance with IFRS 1, *First-Time Adoption of International Reporting Standards*. An explanation or reconciliation of how the transition to IFRS has affected the Company's consolidated financial position, results of operations and cash flows has not been presented as the Company has not presented its consolidated financial statements in previous years. The date of transition to IFRS was January 1, 2015.

(b) Basis of Measurement

These consolidated financial statements have been prepared on a historical cost basis.

(c) Basis of Presentation

These consolidated financial statements have been prepared in accordance with IFRS as issued by the IASB. These consolidated financial statements include the accounts of the Company and its wholly owned subsidiary. All significant intercompany accounts and transactions have been eliminated in consolidation. These consolidated financial statements are presented in U.S. dollars, which is the functional currency of the Company, and all amounts have been rounded to the nearest thousands, except when otherwise indicated.

(d) Use of estimates, assumptions and judgements

The preparation of financial statements in conformity with IFRS requires management to make estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised and in any future periods affected.

These consolidated financial statements were authorized for issue by the members of the Company and the board of directors of the REIT on March 27, 2019.

Note 3. Summary of Significant Accounting Policies

The significant accounting policies used in the preparation of these consolidated financial statements are described below and have been applied consistently to all periods presented:

(a) Basis of consolidation

The consolidated financial statements comprise the financial statements of the Company. Intra-company transactions and balances are eliminated in preparing the consolidated financial statements. The consolidated financial statements reflect the consolidated financial position, results of operations and cash flows of the Company.

(b) Property and equipment

(i) Recognition and measurement

Property and equipment are measured at cost less accumulated depreciation and any accumulated impairment losses. Cost includes expenditures that are directly attributable to the acquisition of the asset. The cost of self-constructed assets includes the cost of materials and direct labor, any other costs directly attributable to bringing the assets to a working condition for their intended use, and borrowing costs on qualifying assets.

When parts of an item of property and equipment have different useful lives, they are accounted for as separate items (major components) of property and equipment.

(ii) Subsequent costs

The cost of replacing a part of an item of property and equipment is recognized in the carrying amount of the item if it is probable that the future economic benefits embodied within the part will flow to the Company and its cost can be measured reliably. The carrying amount of the replaced part is derecognized. The costs of the day-to-day maintenance of property and equipment are recognized in profit or loss as incurred.

(iii) Depreciation

Depreciation is computed on a straight-line basis based on the useful lives of each component of property and equipment. Depreciation on new construction commences in the month after the asset is available for its intended use based upon the useful life of the asset.

Estimated useful lives were determined based on current facts and past experience, and take into consideration the anticipated physical life of the asset and current and forecasted demand. The rates and methods used are reviewed annually at year end to ensure they continue to be appropriate, and are also reviewed in conjunction with impairment testing.

Gains/losses on disposition of property and equipment are recognized in profit or loss when the Company has transferred to the purchaser the significant risk and rewards of ownership of the property and equipment and the purchaser has made a substantial commitment demonstrating its intent to honour its obligation.

(c) Impairment of non-financial assets

The carrying amounts of the Company's non-financial assets are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated.

The recoverable amount of an asset or cash-generating unit is the greater of its value in use and its fair value less costs to sell. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. For the purpose of impairment testing, assets that cannot be tested individually are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or groups of assets (the "cash-generating unit" or "CGU").

When the carrying amount of the asset or CGU exceeds its estimated recoverable amount, an impairment loss is recognized in an amount equal to the excess. When an indication that an impairment loss recognized in prior periods for an asset or CGU other than goodwill may no longer exist or may have decreased, the recoverable amount of that asset or CGU is estimated. A reversal of an

impairment loss is recognized immediately in profit or loss if the recoverable amount of a previously impaired asset or CGU has subsequently increased to the lower of the asset or CGU's recoverable amount or carrying amount had no impairment loss been recognized for the asset or CGU in prior years.

(d) Financial instruments

(i) Financial assets

The Company's financial assets are comprised of cash and cash equivalents, restricted cash, trade and other receivables and prepaid and other assets. The Company classifies these financial assets as loans and receivables. The Company initially recognizes loans and receivables on the date that they are originated. Loans and receivables are financial assets with fixed or determinable payments that are not quoted in an active market. Such assets are recognized initially at fair value plus any directly attributable transaction costs. Subsequent to initial recognition, loans and receivables are measured at amortized cost using the effective interest method, less any impairment losses.

(ii) Financial liabilities

The Company has the following non-derivative financial liabilities: accounts payable and other accrued liabilities and note payable. The Company classifies each of its non-derivative financial liabilities as other financial liabilities. Initial measurement is at fair value plus any directly attributable transaction costs. Subsequent to initial recognition, these non-derivative financial liabilities are measured at amortized cost using the effective interest method. All non-derivative financial liabilities are initially recognized on the date that the Company becomes a party to the contractual provisions of the instrument. The Company derecognizes a financial liability when its contractual obligations are discharged or cancelled or expire.

(iii) Impairment of financial assets

Loans and receivables are assessed at each reporting date to determine whether there is objective evidence that they are impaired. A financial asset is impaired if objective evidence indicates that a loss event has occurred after the initial recognition of the asset, and that the loss event had a negative effect on the estimated future cash flows of that asset that can be estimated reliably. Objective evidence that financial assets are impaired can include default or delinquency by a debtor, restructuring of an amount due to the Company on terms that the Company would not consider otherwise, or indications that a debtor or issuer will enter bankruptcy.

The Company considers evidence of impairment for loans and receivables at both a specific asset and collective level. All individually significant loans and receivables are assessed for specific impairment. All individually significant loans and receivables found not to be specifically impaired are then collectively assessed for any impairment that has been incurred but not yet identified. Loans and receivables that are not individually significant are collectively assessed for impairment by grouping together loans and receivables with similar risk characteristics.

An impairment loss in respect of a financial asset measured at amortized cost is calculated as the difference between its carrying amount and the present value of the estimated future cash flows, discounted using the instrument's original effective interest rate. Losses are recognized in profit or loss and reflected in an allowance account against receivables. Interest on the impaired asset continues to be recognized through the unwinding of the discount. When a subsequent event causes the amount of impairment loss to decrease, the decrease in impairment loss is reversed through profit or loss.

(e) Cash and cash equivalents

The Company considers all liquid investments with original terms to maturity of three months or less when acquired to be cash equivalents. Cash and cash equivalents consist of cash on hand and cash held at banks.

(f) Restricted cash

Restricted cash primarily consists of operating funds set aside as required by the lenders of the Company's mortgage notes for repairs, insurance, property taxes, and investing funds set aside for capital improvements. The lenders hold a security interest in these restricted funds and the release of these funds are subject to the lenders' supervision and approval.

(g) Provisions

A provision is recognized if, as a result of a past event, the Company has a present legal or constructive obligation that can be estimated reasonably, and it is probable that an outflow of economic benefits will be required to settle the obligation. If the time value of money is material, provisions are determined by discounting the expected future cash flows using a current rate that reflects the risk profile of the liability, and the increase to the provision due to the passage of time will be recognized as a finance cost.

(h) Revenue recognition

Revenue is generated primarily from the operation of the Company's hotel, which includes room rentals, food and beverage sales and other incidental income. Revenue is recognized when services are rendered, the amount is earned, and collectability is reasonably assured. The Company may collect payments in advance of the utilization of a facility. These payments are recorded in accounts payable and other accrued liabilities until such time as the applicable facility is utilized, at which time the customer deposit is recognized as revenue.

(i) Interest expense, net

Net interest expense consists of interest expense on outstanding debt and the amortization of deferred financing costs, net of interest income. Net interest expense is recognized in the period in which it is incurred. Fees and costs related to obtaining debt financing are capitalized against the related debt and amortized over the term of the debt using the straight-line method, which approximates the effective interest method, and are included in net interest expense. The unamortized balance of the fees and costs is recorded as a reduction from the related debt on the Company's consolidated statements of financial position.

(j) Income taxes

The Company is a limited liability company and is treated like a partnership for U.S. federal income tax purposes. As such, the Company has not recorded a provision for income taxes on its taxable income, as the members of the Company are required to report their share of the Company's earnings in their respective income tax returns. The Company's tax returns and the amounts of allocable income or loss are subject to examination by federal and state taxing authorities. If such examinations result in changes to income tax or loss, the tax liability of the members of the Company could be changed accordingly. In certain instances, the Company may be subject to certain state and local taxes.

The Company evaluates the uncertainties of tax positions taken or expected to be taken on a return based on the probability of whether the position taken will be sustained upon examination by tax authorities. As of December 31, 2017, 2016 and 2015 and January 1, 2015, the Company had no amounts related to unrecognized income tax benefits and no amounts related to accrued interest and penalties. The Company recognizes tax positions taken or to be taken in a tax return when they become probable. The Company concluded that it had no material uncertain tax liabilities to be recognized as of December 31, 2017, 2016 and 2015 and January 1, 2015.

On December 22, 2017, the Tax Cuts and Jobs Act (the "2017 Tax Act") was signed into law in the United States. The most significant change is the reduction of the statutory corporate tax rate from 35 percent to 21 percent, effective January 1, 2018. Many of the provisions in the 2017 Tax Act expire in seven years (at the end of 2025). The Company does not expect the 2017 Tax Act to have a significant impact on its consolidated financial statements.

(k) Operating segments

The Company operated in one business segment, owning and operating one hotel property in the U.S. The primary format for segment reporting is based on geographic region and is consistent with the internal reporting provided to the Company's chief operating decision-maker.

(l) Levies

In accordance with IFRS Interpretations Committee (IFRIC) 21, *Levies*, the Company recognizes the full amount of annual property tax liabilities at the point in time when the realty tax obligation is imposed. This is the obligating event that gives rise to a liability to pay the property taxes.

(m) Use of estimates and assumptions

The preparation of financial statements in conformity with IFRS requires management to make estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities and disclosure of contingent assets and liabilities as of the date of the financial statements, and the reported amounts of revenues and expenses during the reporting periods. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised and in any future periods affected.

(n) Critical judgments

Management must assess whether the acquisition of a property should be accounted for as an asset purchase or business combination. This assessment impacts the accounting treatment of transaction costs, the allocation of the costs associated with the acquisition and whether or not goodwill is recognized. The REIT's acquisitions are generally determined to be business combinations as the REIT acquires an integrated set of processes as part of the acquisition transaction.

Management must assess whether or not it controls entities in which it has an interest. This involves evaluating the REIT's ability to make decisions over the relevant activities of such entities and to determine to what extent the REIT is exposed to the variable returns of the entities. This assessment impacts the identification of the REIT's subsidiaries and as a result which entities it consolidates.

(o) Recent accounting pronouncements

(i) IAS 7 – Statement of Cash Flows

In January 2016, the IASB issued amendments to International Accounting Standards ("IAS") 7, *Statement of Cash Flows* ("IAS 7"). The amendments apply prospectively for annual periods beginning on or after January 1, 2017 and require disclosures that enable users of financial statements to evaluate changes in liabilities arising from financing activities, including both changes arising from cash flows and non-cash changes. The Company implemented the amendments to IAS 7 on January 1, 2017 and there was no material impact on its consolidated financial statements.

(ii) IFRS 9 – Financial Instruments

In July 2014, the IASB issued the final publication of the IFRS 9 standard, superseding the current IAS 39, *Financial Instruments: Recognition and Measurement* ("IAS 39") standard ("IFRS 9"). IFRS 9 includes revised guidance on the classification and measurement of financial instruments, including a new expected credit loss model for calculating impairment on financial assets, and the new general hedge accounting requirements. It also carries forward the guidance on recognition and de-recognition of financial instruments from IAS 39. The standard is effective for annual periods beginning on or after January 1, 2018 with early adoption permitted. The Company adopted IFRS 9 in its consolidated financial statements for the annual period beginning on January 1, 2017 and there was no material impact on its consolidated financial statements.

(iii) IFRS 15 – Revenue from Contracts with Customers

In May 2014, the IASB issued IFRS 15, *Revenue from Contract with Customers* ("IFRS 15"), which establishes a new five step model that applies to revenue arising from contracts with customers. The principles in IFRS 15 provide a more structured approach to measuring and recording revenue allowing greater comparability of revenues across industries. The new revenue standard is applicable to all entities and will supersede all current revenue recognition requirements under IFRS. Either a full or modified retrospective application is required for annual periods beginning on or after January 1, 2018, with early adoption permitted. The Company intends to adopt IFRS 15 in its consolidated financial statements for the annual period beginning on January 1, 2018. The Company has performed an in-depth assessment of IFRS 15 to determine what the impact of the adoption of the new standard will have on the Company's consolidated financial statements. Based on the nature of the Company's operations to own and operate a hotel, the Company does not expect there to be a material impact on the timing and measurement of revenue recognized as compared to the previous standard. Additional disclosures will be required to comply with IFRS 15.

(iv) IFRS 16 – Leases

IFRS 16, *Leases* ("IFRS 16") was issued in January 2016 and sets out a new model for lease accounting, replacing IAS 17, *Leases*. The most significant effect of the new standard will be the recognition of the initial present value of unavoidable future lease payments as lease assets and lease liabilities on the statement of financial position, including those for most leases that would be currently accounted for as operating leases. Leases with durations of 12 months or less and leases for low value assets may be exempted. IFRS 16 will be effective for accounting periods beginning on or after January 1, 2019. Early adoption will be permitted provided the Company has adopted IFRS 15. The Company intends to adopt IFRS 16 in its consolidated financial statements for the annual period beginning on January 1, 2019 and does not expect the new standard to have a material impact on its consolidated financial statements.

Note 4. Property and Equipment, Net

	Land	Buildings and improvements	Furniture, fixtures and equipment	Construction in progress	Total

Disposals	—	—	—	—	—
Balance, December 31, 2017	$ —	$ 13,566	$ 547	$ —	$ 14,113
Carrying amount, January 1, 2015	$ 5,440	$ 23,665	$ 4,464	$ —	$ 33,569
Carrying amount, December 31, 2015	5,440	22,605	4,469	—	32,514
Carrying amount, December 31, 2016	5,440	21,537	4,604	2,173	33,754
Carrying amount, December 31, 2017	5,440	20,552	8,043	573	34,608

The Company's fixed asset additions are primarily related to improvements and upgrades required by the Company's franchise agreement.

Note 5. Restricted Cash

Restricted cash primarily consists of operating funds set aside as required by the lenders of the Company's mortgage notes for repairs, insurance, property taxes, and investing funds set aside for capital improvements. The lenders hold a security interest in these restricted funds and the release of these funds are subject to the lenders' supervision and approval. As of December 31, 2017, 2016, 2015 and January 1, 2015, the Company had $871, $845, $1,082, and $1,098 of restricted cash, respectively.

Note 9. Note Payable, Net

	December 31, 2017	December 31, 2016	December 31, 2015	January 1, 2015
Note payable	$ 71,084	$ 72,101	$ 31,379	$ 32,062
Less: current maturities	(1,062)	(1,017)	—	(682)
Less: unamortized portion of deferred financing costs	(593)	(664)	(8)	(14)
Note payable, net	$ 69,429	$ 70,420	$ 31,371	$ 31,366

On May 8, 2007, in connection with the acquisition of the Property by the Company, the Company entered into a $33,600 term loan (the "Loan") with a large financial institution. The Loan was secured by the Property and bore interest at a fixed rate equal to 5.79%. The Loan's first 60 monthly payments were interest only. The Loan was refinanced on June 10, 2016, increasing the commitment amount to $72,500 (the "Amended Loan"). The Amended Loan is secured by the Property and bears interest at fixed rate equal to 5.12% and requires monthly principal and interest payments of $394, with a balloon payment due at maturity on July 1, 2026.

The Company's Amended Loan agreement contains customary representations, warranties, and events of default, which requires the Company to comply with affirmative and negative covenants. As of December 31, 2017, 2016 and 2015 and January 1, 2015, the Company was in compliance with all covenants of its Loan agreement and Amended Loan agreement.

Costs related to obtaining debt financing are capitalized and amortized over the term of the related debt using the straight-line method, which approximates the effective interest method, and are included in net interest expense. The unamortized balance of the costs is shown as a reduction of the related debt on the consolidated statements of financial position.

Future principal payments on the Loan, excluding amortization of deferred financing costs, payable within the next five calendar years subsequent to December 31, 2017 are as follows:

	Note payable
2018	$ 1,062
2019	1,118
2020	1,168
2021	1,240
2022	1,306
Thereafter	65,190
Total	$ 71,084

Note 10. Interest Expense, Net

	For the Year Ended December 31,		
	2017	2016	2015
Interest on debt	$ 3,711	$ 4,105	$ 1,861
Amortization of deferred financing costs	70	47	6
Interest expense, net	$ 3,781	$ 4,152	$ 1,867

Note 11. Members' Capital

The members of the Company have made cash contributions and received cash distributions based on their respective ownership percentages. As of December 31, 2017, cash contributions totaled $8,160 and cash distributions totaled $69,758. All income or loss allocations are based on the member's respective ownership percentage.

Note 12. Financial Instruments

(a) Comparison of fair value to carrying amount

The fair value of a financial instrument is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value may be based on other observable current market transactions in the same instrument, without modification or on a valuation technique using market-based inputs. Fair value measurements recognized in the consolidated statements of financial position are categorized using the following fair value hierarchy that reflects the significance of inputs used in determining the fair values:

- Level 1: Quoted (unadjusted) market prices in active markets for identical assets or liabilities.
- Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, directly or indirectly.
- Level 3: Inputs for the asset or liability that are not based on observable market data (unobservable inputs).

As of December 31, 2017, 2016 and 2015 and January 1, 2015, the carrying amounts of the Company's cash and cash equivalents, restricted cash, trade and other receivables, prepaid and other assets, accounts payables and other accrued liabilities approximated their fair values due to the short-term nature of these financial assets and liabilities.

The fair value of note payable is estimated by discounting the future cash flows using discount rates that reflect current market conditions for instruments having similar terms and conditions. Discount rates are either provided by lenders or are observable in the open market. As of December 31, 2017, 2016 and 2015 and January 1, 2015, the carrying amount of the Company's note payable approximated its fair value.

(b) Financial risk management

The Company may be exposed to a number of risks in its normal course of operations from use of financial instruments. These risks, and the actions taken to manage them, are as follows:

(i) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in the market interest rates.

The Company's Amended Loan bears interest at a fixed rate, so fluctuations in interest rates will not impact the cost of financing incurred in the future but may impact the carrying value of the Amended Loan. The Company monitors its interest rate exposure on an ongoing basis.

(ii) Credit risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligation. The maximum exposure to credit risk is the full carrying amount of the financial instrument.

The Company is exposed to credit risk with respect to trade and other receivables. For the years ended December 31, 2017, 2016 and 2015, the Company had no bad debt expense. Credit risk of trade and other receivables is mitigated by initiating a prompt collection process.

(iii) Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they fall due. Property and equipment investments tend to be relatively illiquid, with the degree of liquidity generally fluctuating in relation to demand for and the perceived desirability of such investments. If the Company was required to sell the Property, the proceeds to the Company may be significantly less than the Property's carrying amount.

The Company manages liquidity risk through monitoring the repayment date and refinancing date of its note payable, monitoring its debt covenants and managing its cash flows. The Company's objective is to maintain sufficient available access to capital to fund ongoing operational and capital requirements. As of December 31, 2017, 2016 and 2015 and January 1, 2015, the Company had cash and cash equivalents of $1,310, $894, $1,334 and $1,049, respectively.

The following table provides information on the carrying amounts and the non-discounted contractual maturities of financial liabilities with fixed repayment terms, including estimated interest payments using the fixed rate of the Loan of 5.12% as of December 31, 2017:

	Carrying amount	Contractual cash flows	1 Year	More than 1 Year
Note payable	$ 71,084	$ 71,084	$ 1,062	$ 70,022
Interest payable on note	313	313	313	—
Accounts payable and other accrued liabilities	1,654	1,654	1,654	—
Total	$ 73,051	$ 73,051	$ 3,029	$ 70,022

Note 13. Capital Management

The Company defines capital as the aggregate of members' equity and note payable. The Company's objectives in managing capital are to maintain a level of capital that: complies with investment and debt restrictions pursuant to the Company's operating agreement; complies with existing debt covenants; funds its business strategies; and builds long-term members' value. Capital adequacy is monitored by the Company by assessing performance against the approved annual plan throughout the year and by monitoring adherence to investment and debt restrictions contained in the Company's operating agreement and debt covenants.

Note 14. Segment Reporting

The Company currently operates in one business segment, owning and operating one hotel property in the U.S. The primary format for segment reporting is based on geographic region and is consistent with the internal reporting provided to the Company's

chief operating decision-maker. Accordingly, the Company has a single reportable segment for disclosure purposes in accordance with IFRS.

Note 15. Related Party Transactions

(a) Asset management fees

The Company has an asset management agreement with an affiliate of the member. Under this agreement, the Company is initially charged an annual asset management fee of $208 and after the occurrence of any Financing Event, as defined, the annual asset management fee shall be readjusted to 0.5% of the appraised value of the Property at the time of the Financing Event. This agreement will terminate upon the sale of the Property or can be terminated with cause. For the years ended December 31, 2017, 2016 and 2015, asset management fees were $208 for each year and are included in general and administrative expenses in the consolidated statements of comprehensive income.

(b) Property management fees

The Company has a property management agreement with an affiliate of the member. Under this agreement, the Company is charged a property management fee and an oversight management fee of 3.0% and 2.0%, respectively, of the property's gross revenue, as defined. For the years ended December 31, 2017, 2016 and 2015, property management fees and oversight management fees totaled $1,007, $937, and $936, respectively, and are included in operating expenses in the consolidated statements of comprehensive income. This agreement is cancellable by either party with a 30-day written notice.

(c) Labor costs

Certain labor costs are reimbursed to entities affiliated with the member. The labor costs are mainly for on-site maintenance and other labor costs related to property management and hotel services. For the years ended December 31, 2017, 2016 and 2015, labor costs incurred totaled to $2,594, $2,394, and $2,001 and are included in operating expenses in the consolidated statements of comprehensive income.

Note 16. Commitments and Contingencies

(a) Franchise agreement

The Property is operated under a franchise agreement (the "Franchise Agreement") with a subsidiary of Hilton Worldwide (the "Franchisor"). The Franchise Agreement was executed on June 2, 2016 and expires on January 7, 2028. The current Franchise Agreement requires the payment of a monthly royalty fee of 5% (6% prior to June 10, 2016) and a monthly program fee of 3% of the Property's gross room revenue, as defined. For the years ended December 31, 2017, 2016 and 2015, franchise fees were $1,461, $1,484, and $1,573, respectively, and are included in operating expenses in the consolidated statements of comprehensive income.

During 2007, the Company paid a license application fee of $500 per guest room, which amounted to $141. This amount was being amortized over a license period of 10 years on a straight-line basis and became fully amortized during 2017.

(b) Litigation

In the normal course of operations, the Company may become subject to a variety of legal and other claims. The Company evaluates all claims on their apparent merits and, if necessary, the Company accrues for its best estimate of the costs to satisfy such claims. While it is not possible to ascertain the ultimate outcome of all such matters, the Company believes that the aggregate amount of such liabilities, if any, in excess of amounts provided or covered by insurance, will not have a material adverse effect on these consolidated financial statements. The Company is not involved in any material litigation nor, to the Company's knowledge, is any material litigation currently threatened against the Company or the Property.

Note 17. Supplemental Cash Flow Disclosure

Reconciliation of changes in liabilities and members' equity, including movements of liabilities to cash flows arising from financing activities for the year ended December 31, 2017 was as follows:

BIRCHMONT H.I. NASHVILLE PARTNERS, LLC
NOTES TO THE AUDITED CONSOLIDATED FINANCIAL STATEMENTS

Note 18. Subsequent Events

The Company evaluated subsequent events through March 27, 2019 to determine if any significant events occurred subsequent to the balance sheet dates that would have a material impact on these consolidated financial statements. On January 8, 2019, the Company sold the Property to NHT Nashville, LLC, a subsidiary of NexPoint Multifamily Capital Trust, Inc. ("NMCT") for $117,500. Immediately after the purchase of the Property was complete, the shareholders of NMCT contributed 100% of the units of NMCT to NHT Holdco, LLC in exchange for 6,756,364 units.

APPENDIX A
NEXPOINT HOSPITALITY TRUST

CHARTER OF THE AUDIT COMMITTEE

(the "Charter")

1. General

A. Purpose

The Audit Committee (the "**Committee**") is a committee of the board of trustees (the "**Board**") of NexPoint Hospitality Trust (the "**REIT**"). The members of the Committee and the chair of the Committee (the "**Chair**") are appointed by the Board on an annual basis (or until their successors are duly appointed) for the purpose of overseeing the REIT's financial controls and reporting and monitoring whether the REIT complies with financial covenants and legal and regulatory requirements governing financial disclosure matters and financial risk management.

2. Composition

(1) The Committee should be comprised of a minimum of three trustees, and a maximum of five trustees.

(2) The Committee must be constituted as required under National Instrument 52-110 — *Audit Committees*, as it may be amended or replaced from time to time ("**NI 52-110**").

(3) All members of the Committee must (except to the extent permitted by NI 52-110) be independent (as defined by NI 52-110), and free from any relationship that, in the view of the Board, could be reasonably expected to interfere with the exercise of his or her independent judgment as a member of the Committee.

(4) No members of the Committee shall receive, other than for service on the Board or the Committee or other committees of the Board, any consulting, advisory, or other compensatory fee from the REIT or any of its related parties or subsidiaries.

(5) All members of the Committee must (except to the extent permitted by NI 52-110) be financially literate (which is defined as the ability to read and understand a set of financial statements that present a breadth and level of complexity of accounting issues that are generally comparable to the breadth and complexity of the issues that can reasonably be expected to be raised by the REIT's financial statements).

(6) Any member of the Committee may be removed or replaced at any time by the Board and shall cease to be a member of the Committee on ceasing to be a trustee. The Board may fill vacancies on the Committee by election from among the Board. If and whenever a vacancy shall exist on the Committee, the remaining members may exercise all powers of the Committee so long as a quorum remains.

3. Limitations on Committee's Duties

In contributing to the Committee's discharge of its duties under this Charter, each member of the Committee shall be obliged only to exercise the care, diligence and skill that a reasonably prudent person would exercise in comparable circumstances. Nothing in this Charter is intended or may be construed as imposing on any member of the Committee a standard of care or diligence that is in any way more onerous or extensive than the standard to which any member of the Board may be otherwise subject.

Members of the Committee are entitled to rely, absent actual knowledge to the contrary, on (i) the integrity of the persons and organizations from whom they receive information, (ii) the accuracy and completeness of the information provided, (iii) representations made by management of the REIT ("**Management**") as to the non-audit services provided to the REIT by the external auditor, (iv) financial statements of the REIT represented to them by a member of Management or in a written report of the external auditors to present fairly the financial position of the REIT in accordance with applicable generally accepted accounting principles, and (v) any report of a lawyer, accountant, engineer, appraiser or other person whose profession lends credibility to a statement made by any such person.

4. Meetings

The Committee should meet not less than four times annually. The Committee should meet within 45 days following the end of the first three financial quarters of the REIT and shall meet within 90 days following the end of the fiscal year of the REIT. A quorum for the transaction of business at any meeting of the Committee shall be a majority of the members of the Committee or such greater number as the Committee shall by resolution determine. The Committee shall keep minutes of each meeting of the Committee. A copy of the minutes shall be provided to each member of the Committee.

Meetings of the Committee shall be held from time to time and at such place as any member of the Committee shall determine upon two day's prior notice to each of the other Committee members. The members of the Committee may waive the requirement for notice. In addition, each of the Chief Executive Officer, the Chief Financial Officer and the external auditor shall be entitled to request that the Chair call a meeting.

The Committee may ask members of Management and employees of the REIT (including, for greater certainty, its affiliates and subsidiaries) or others (including the external auditor) to attend meetings and provide such information as the Committee requests. Members of the Committee shall have full access to information of the REIT (including, for greater certainty, its affiliates, subsidiaries and their respective operations) and shall be permitted to discuss such information and any other matters relating to the results of operations and financial position of the REIT with Management, employees, the external auditor and others as they consider appropriate.

The Committee or its Chair should meet at least once per year with Management and the external auditor in separate sessions to discuss any matters that the Committee or either of these groups desires to discuss privately. In addition, the Committee or its Chair should meet with Management quarterly in connection with the REIT's interim financial statements.

The Committee shall determine any desired agenda items.

5. Committee Activities

As part of its function in assisting the Board in fulfilling its oversight responsibilities (and without limiting the generality of the Committee's role), the Committee will have the power and authority to:

A. Financial Disclosure

(1) Review, approve and recommend for Board approval the REIT's interim financial statements, including any certification, report, opinion or review rendered by the external auditor and the related management's discussion & analysis and press release.

(2) Review, approve and recommend for Board approval the REIT's annual financial statements, including any certification, report, opinion or review rendered by the external auditor, the annual information form, and the related management's discussion & analysis and press release.

(3) Review and approve any other press releases that contain financial information and such other financial information of the REIT provided to the public or any governmental body as the Committee requires.

(4) Satisfy itself that adequate procedures have been put in place by Management for the review of the REIT's public disclosure of financial information extracted or derived from the REIT's financial statements and the related management's discussion & analysis.

(5) Review any litigation, claim or other contingency and any regulatory or accounting initiatives that could have a material effect upon the financial position or operating results of the REIT and the appropriateness of the disclosure thereof in the documents reviewed by the Committee.

(6) Receive periodically Management reports assessing the adequacy and effectiveness of the REIT's disclosure controls and procedures.

B. Internal Control

(1) Review Management's process to identify and manage the significant risks associated with the activities of the REIT.

(2) Review the effectiveness of the internal control systems for monitoring compliance with laws and regulations.

(3) Have the authority to communicate directly with the internal auditor if one is present.

(4) Receive periodical Management reports assessing the adequacy and effectiveness of the REIT's internal control systems.

(5) Assess the overall effectiveness of the internal control and risk management frameworks through discussions with Management and the external auditors and assess whether recommendations made by the external auditors have been implemented by Management.

C. Relationship with the External Auditor

(1) Recommend to the Board the selection of the external auditor and the fees and other compensation to be paid to the external auditor.

(2) Have the authority to communicate directly with the external auditor and arrange for the external auditor to be available to the Committee and the Board as needed.

(3) Advise the external auditor that it is required to report to the Committee, and not to Management.

(4) Monitor the relationship between Management and the external auditor, including reviewing any Management letters or other reports of the external auditor, discussing any material differences of opinion between Management and the external auditor and resolving disagreements between the external auditor and Management.

(5) If considered appropriate, establish separate systems of reporting to the Committee by each of management and the external auditor.

(6) Review and discuss on an annual basis with the external auditor all significant relationships they have with the REIT, Management or employees that might interfere with the independence of the external auditor.

(7) Pre-approve all non-audit services (or delegate such pre-approval, as the Committee may determine and as otherwise permitted by applicable securities laws) to be provided by the external auditor.

(8) Review the performance of the external auditor and recommend any discharge of the external auditor when the Committee determines that circumstances warrant.

(9) Periodically consult with the external auditor out of the presence of Management about (a) any significant risks or exposures facing the REIT, (b) internal controls and other steps that Management has taken to control such risks, and (c) the fullness and accuracy of the financial statements of the REIT, including the adequacy of internal controls to expose any payments, transactions or procedures that might be deemed illegal or otherwise improper.

(10) Review and approve any proposed hiring of current or former partners or employees of the current (and any former) external auditor of the REIT.

D. Audit Process

(1) Review the scope, plan and results of the external auditor's audit and reviews, including the auditor's engagement letter, the post-audit management letter, if any, and the form of the audit report. The Committee may authorize the external auditor to perform supplemental reviews, audits or other work as deemed desirable.

(2) Following completion of the annual audit and quarterly reviews, review separately with each of Management and the external auditor any significant changes to planned procedures, any difficulties encountered during the course of the audit and, if applicable, reviews, including any restrictions on the scope of work or access to required information and the cooperation that the external auditor received during the course of the audit and, if applicable, reviews.

(3) Review any significant disagreements among Management and the external auditor in connection with the preparation of the financial statements.

(4) Where there are significant unsettled issues between Management and the external auditor that do not affect the audited financial statements, the Committee shall seek to ensure that there is an agreed course of action leading to the resolution of such matters.

(5) Review with the external auditor and Management significant findings and the extent to which changes or improvements in financial or accounting practices, as approved by the Committee, have been implemented.

(6) Review the system in place to seek to ensure that the financial statements, management's discussion & analysis and other financial information disseminated to regulatory authorities and the public satisfy applicable requirements.

E. Financial Reporting Processes

(1) Review the integrity of the REIT's financial reporting processes, both internal and external, in consultation with the external auditor.

(2) Periodically consider the need for an internal audit function, if not present.

(3) Review all material balance sheet issues, material contingent obligations and material related party transactions.

(4) Review with Management and the external auditor the REIT's accounting policies and any changes that are proposed to be made thereto, including all critical accounting policies and

practices used, any alternative treatments of financial information that have been discussed with Management, the ramification of their use and the external auditor's preferred treatment and any other material communications with Management with respect thereto. Review the disclosure and impact of contingencies and the reasonableness of the provisions, reserves and estimates that may have a material impact on financial reporting.

F. General

(1) Inform the Board of matters that may significantly impact on the financial condition or affairs of the business.

(2) Respond to requests by the Board with respect to the functions and activities that the Board requests the Committee to perform.

(3) Periodically review this Charter and, if the Committee deems appropriate, recommend to the Board changes to this Charter.

(4) Review the public disclosure regarding the Committee required from time to time by NI 52-110.

(5) The Committee may at its discretion retain independent counsel, accountants and other professionals to assist it in the conduct of its activities and to set and pay (as an expense of the REIT) the compensation for any such advisors.

(6) Review in advance, and approve, the hiring and appointment of the REIT's Chief Financial Officer and any other senior officers responsible for financial reporting.

(7) Perform any other activities as the Committee or the Board deems necessary or appropriate.

6. Complaint Procedures

(1) Anyone may submit a complaint regarding conduct by the REIT or its employees or agents (including its external auditor) reasonably believed to involve questionable accounting, internal accounting controls, auditing or other matters. The Chair will have the power and authority to oversee treatment of such complaints.

(2) Complaints are to be directed to the attention of the Chair.

(3) The Committee should endeavour to keep the identity of the complainant confidential.

(4) The Chair will have the power and authority to lead the review and investigation of a complaint. The Committee should retain a record of all complaints received. Corrective action may be taken when and as warranted.

Note 1. Overview

NexPoint Hospitality Trust ("NHT" or the "Company") is an unincorporated, open-ended real estate investment trust ("REIT") established pursuant to a declaration of trust dated December 12, 2018 under the laws of the Province of Ontario. The registered office of the Company is at 333 Bay Street, Suite 3400, Toronto, Ontario. NHT was created for the purpose of initially acquiring a portfolio of 11 hospitality assets located in the United States (the "Initial Portfolio"), to raise capital to acquire additional U.S. located hospitality assets that meet its investment objectives and criteria and to own, renovate and operate its portfolio of income-producing hotel properties. NHT is externally managed by NexPoint Real Estate Advisors VI, L.P. (the "Advisor"), which was formed for the purpose of managing NHT and is related to the Company through common indirect ownership as well as common control.

NHT has elected to be treated as a REIT under U.S. tax laws. Substantially all of NHT's business will be conducted through NHT Operating Partnership, LLC (the "OP"), NHT's operating partnership, which is a Delaware limited liability company. NHT owns its properties through the OP and its subsidiaries. The OP and its subsidiaries lease the properties to taxable REIT subsidiaries of NHT (the "TRS Entities") to operate. For NHT to qualify as a REIT under the United States Internal Revenue Code of 1986, as amended (the "Code"), NHT cannot operate directly or indirectly any of the hotels it acquires and owns. Therefore, the OP and its subsidiaries lease the hotels to the TRS Entities who in turn engage eligible independent contractors (as defined in the Code), which for the current portfolio of 9 hospitality assets located in the United States (the "Current Portfolio") are affiliates of Aimbridge Hospitality Holdings, LLC, to manage the hotels.

The objectives of NHT are to: (a) provide unitholders with an opportunity to invest in a portfolio of extended-stay, select-service and efficient full service hotels located in attractive U.S. markets and competitively positioned to outperform the industry as a whole; (b) provide unitholders with predictable, sustainable and growing tax efficient cash distributions; (c) enhance the value of NHT's assets and maximize the long-term value of the Class A units of the OP (the "Class A Units"), Class B units of the OP (the "Class B Units") and trust units of NHT (the "Units"), collectively, through active asset and property management programs and procedures and a renovation program; and (d) expand the asset base of NHT primarily through acquisitions and improvements of its properties, including the Initial Portfolio, using targeted and strategic capital expenditures.

NHT's Units are listed on the TSX Venture Exchange (the "TSXV") under the symbol NHT.U.

Note 2. Basis of Preparation

a) Going Concern Uncertainty

The global response to the COVID-19 pandemic had a large negative impact on the Company's operations in 2020 and the first quarter of 2021. Public companies in the North American lodging sector generally saw a significant decline in their stock prices on average during 2020. The well-publicized impacts on the hospitality industry, including shelter-in-place orders in the markets in which the Company operates, as well as a reduction in transient business travel, which the Company relies upon, reduced the Company's room rates and occupancies, and had a significant impact on the Company's operations in 2020 and early 2021. Additionally, data shows that air travel, and consequently, hotel occupancy and average daily rates, were down significantly, with large groups having canceled events. Occupancy declined from an average of 75.1% across the portfolio in 2019 to a low of 12.17% across the portfolio during April 2020, and the Average Daily Rate ("ADR") declined from an average of $145.81 in 2019 to a low of $93.95 during April 2020.

Since the end of January 2021, the hospitality sector in general and the Company specifically have seen significant improvements in operations. Notwithstanding seasonality trends, the second quarter of 2023 was much improved over the second quarter of 2022, with an occupancy of 70.5% across the Portfolio compared to 68.8% in the second quarter of 2022. We have seen a rebound in occupancy and ADR as COVID-19 restrictions have loosened or have been removed altogether and people have resumed business and leisure travel. Large group and convention business and business transient bookings have returned to pre-COVID levels as most employees have returned to the office either full-time or in a hybrid model and businesses have removed travel restrictions, enabling the transient segment to recover to pre-COVID levels.

As of June 30, 2023, the Company had a working capital deficit of $46,114, of which $16,530 relates to the principal balance on the Mezz Facility (as defined in Note 13) which was originally due on January 8, 2020. The impact to the global economy caused by the response to the COVID-19 pandemic negatively impacted the Company's ability to obtain new financing, and as a result, the Company was unable to refinance the principal balance of the Mezz Facility. As of the date of the interim consolidated financial statements (the "Interim Consolidated Financial Statements"), the Company has obtained an extension for the maturity of the Mezz Facility until December 8, 2023. The Company's held for sale assets are expected to generate sufficient cash proceeds to repay the Mezz Facility. The Company also has $77,353 of notes coming due within the next twelve months.

As of June 30, 2023, the Company had the total amount of the Mezz Facility being $16,530, $1,413 of amortizing principal payments, $28,681 of other liabilities, as well as the Note A and Note B loans of $52,213 and $25,140, respectively due over the next twelve months through June 30, 2024. Of the liabilities, the Company has payment plans in place for $1,171 of these liabilities and continues to work with vendors for the remainder to make repayment by June 30, 2024.

As of June 30, 2023, the Company is in good standing with the lenders on all of its outstanding Loans (as defined in Note 13). Covenant waivers have been granted at various dates on each loan or the lender has informally, or formally, agreed not to pursue available remedies currently.

Management is actively working towards addressing the matters noted above that create uncertainty for the Company as a going concern, which includes the following:

i) The Company has been granted extensions of the maturity of the Mezz Facility while each party continues in good faith discussions to restructure the facility.

ii) On March 24, 2020, the board of the Company agreed to temporarily suspend distributions for the foreseeable future to conserve cash.

iii) The Company expects to settle most of its amounts due to affiliates through the issuance of additional Class B Units, most of which do not mature for 20 years. See Notes 13, 14, and 21.

iv) On March 24, 2020, the Advisor agreed to defer the advisory fee until such time as the Company is able to resume payments while remaining cash flow positive. The Advisor did not collect any fees in 2020, 2021, 2022 or for the six months ended June 30, 2023.

v) Marriott has revised the required property improvement plan (the “PIP”) for the St. Pete property, which is now expected to cost $7,200 in total and has granted an extension for completion in two phases throughout 2021 and 2022. As of June 30, 2023 the Company has $175 in reserves with the lender that can be used toward the PIP. The first phase of the PIP was completed in November 2021 and the Company started the second phase of the renovation in December 2022 and was completed in the second quarter of 2023.

vi) Affiliates of the Advisor have not provided any funds to the Company in the second quarter of 2023, so no further convertible notes were issued. The Company does not anticipate needing cash infusions any longer as management believes the Company will be cash flow positive in 2023. See Note 13 and Note 21.

vii) On March 8, 2023, we launched a process to market the DT Portfolio and HIX Portfolio for sale, which we expect to close in the third and fourth quarters of 2023. The properties that are classified as Held for Sale are DT Tigard and Holiday Inn in Nashville. The proceeds will be used to de-lever the Company. See Note 6.

There can be no assurance that the Company will continue to generate positive cash flows from operations, whether any of these required measures may be completed, or whether they will provide the Company with sufficient liquidity. In order to continue as a going concern, the Company needs to (i) generate positive cash flows, which assumes the continuance of current operations, (ii) be successful in obtaining the concessions from its creditors as noted above, and such concessions must provide the Company with sufficient liquidity to fund its cash flow deficits in the intervening period, and (iii) be successful in refinancing its notes and mezzanine loans payable as they come due. As a result of these facts, the Company has determined there is a potential risk about the Company’s ability to continue as a going concern and, therefore, realize its assets and discharge its liabilities in the normal course of business.

These Interim Consolidated Financial Statements have been prepared on a going concern basis, which assumes the Company will continue its operations in the foreseeable future and will be able to realize its assets and discharge its liabilities and commitments in the ordinary course of business. The Interim Consolidated Financial Statements do not include any adjustments to classification of assets and liabilities and reported expenses that may be necessary if the going concern basis was not appropriate for these Interim Consolidated Financial Statements. If the Company is unable to continue as a going concern, material write-downs to the carrying values of the Company’s assets could be required.

Although management believes it could continue as a going concern if the plan outlined above comes to fruition, it is important to note that many of the assumptions included in management's internal cash flow projections are out of its control. For these reasons, it is difficult for the Company to estimate the likelihood of these events occurring, the timing of when they may occur or the impact they will have once they occur. The Company is optimistic but proceeds with caution in determining recovery assumptions in management's internal cash flow projections as there are many factors to consider.

b) Statement of Compliance

These Interim Consolidated Financial Statements have been prepared by management in accordance with IAS 34 Interim Financial Reporting. The Interim Consolidated Financial Statements should be read in conjunction with the notes to the Company's Consolidated Financial Statements as of December 31, 2022 and the year then ended, which have been prepared in accordance with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB"), since the Interim Consolidated Financial Statements do not contain all disclosures as required by IFRS for annual financial statements. These Interim Consolidated Financial Statements are presented in U.S. dollars, which is the functional currency of the Company, and all amounts have been rounded to the nearest thousandth, except when otherwise indicated, such as unit counts and per unit amounts.

The Interim Consolidated Financial Statements were authorized for issue by the Board of NHT on August 29, 2023.

c) Basis of presentation

The Initial Portfolio was acquired by the Company on March 27, 2019, as a result of the contribution of the common and preferred interests in Intermediary to the Company by the Holdings Company (the "Holdco") in exchange for Units. On January 8, 2019, these assets were contributed to entities under the control of Holdco. The Company and Intermediary are considered to be under common control since at the time of contribution Holdco owned 100% of the interests in Intermediary and subsequent to the completion of the contribution of Intermediary owned 100% of the Company. The Interim Consolidated Financial Statements reflect the financial position and results of operations as if the Company had owned the Initial Portfolio since January 8, 2019.

d) Basis of Measurement

The Interim Consolidated Financial Statements have been prepared on a historical cost basis, except for Class B Units and interest rate caps which are recorded at fair value through profit and loss.

e) Use of estimates and judgments

The preparation of the Interim Consolidated Financial Statements in conformity with IFRS requires management to make estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the Interim Consolidated Financial Statements. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised and in any future periods affected. Assumptions and estimation uncertainties that have a significant risk of resulting in a material adjustment within the future financial year relate to interest rate caps and the assessment of impairment of property and equipment as described in Note 3(e).

In the process of applying the accounting policies, the Company makes various judgments, apart from those involving estimations, that can significantly affect the amounts it recognized in the Interim Consolidated Financial Statements. Information about critical judgments in applying accounting policies that have the most significant effect on the amounts recognized in the Financial Statements relate to the following:

i) The componentization of property and equipment as described in Note 3(d).
ii) Impairment of property and equipment or the recovery of prior impairment as described in Note 3(e).
iii) Management's assessment of whether the acquisition of a property should be accounted for as an asset purchase or business combination. This assessment impacts the accounting treatment of transaction costs, the allocation of the costs associated with the acquisition and whether or not goodwill is recognized. The Company's acquisitions are generally determined to be business combinations as the Company acquires an integrated set of processes as part of the acquisition transaction.
iv) Management's assessment of whether or not the Company controls entities in which it has an interest. This involves evaluating the Company's ability to make decisions over the relevant activities of such entities and to determine to what extent the Company is exposed to the variable returns of the entities. This assessment impacts the identification of the Company's subsidiaries and as a result which entities it consolidates.

v) The Company's ability to continue as a going concern as detailed in Note 2(a). This determination involves making assumptions about future events and about how third parties, which act independently of the Company and its assumptions, may react to current and future events that have an impact on the Company's ability to continue as a going concern.

Note 3. Significant Accounting Policies

The significant accounting policies used in the preparation of the Interim Consolidated Financial Statements are described below and have been applied consistently to all periods presented:

a) Basis of Consolidation

The Interim Consolidated Financial Statements include the accounts of the Company and its wholly owned subsidiaries including NHT Holdings LLC, the OP and subsidiaries of the OP, which are controlled by the Company in accordance with IFRS 10, *Consolidated Financial Statements*. Control exists when the Company is exposed to or has the right to variable returns from its involvement with the entity and has the ability to affect those returns through its power. All significant intercompany accounts and transactions have been eliminated on consolidation.

b) Business combinations

At the time of acquisition of a property, whether through a controlling share investment or directly, the Company considers whether the acquisition represents the acquisition of a business. The Company accounts for an acquisition as a business combination where an integrated set of activities is acquired in addition to the property. More specifically, the extent to which significant processes are acquired is considered. If no significant processes, or only insignificant processes, are acquired, the acquisition is treated as an asset acquisition rather than a business combination. The Company generally considers the acquisition of a hospitality asset to be a business combination as an integrated set of activities with significant processes are acquired in the transaction.

The purchase price of a business combination is measured as the fair value of the assets given, equity instruments issued, and liabilities incurred or assumed at the acquisition date. Identifiable assets acquired and liabilities and contingent liabilities assumed in a business combination are measured initially at fair value at the date of acquisition. The Company recognizes assets or liabilities, if any, resulting from a contingent consideration arrangement at their acquisition date fair value and such amounts form part of the purchase price of the business combination. Subsequent changes in the fair value of contingent consideration arrangements are recognized in profit or loss. The difference between the purchase price and the fair value of the acquired identifiable net assets and liabilities is goodwill. On the date of acquisition, positive goodwill is recorded as an asset in the Company's Consolidated Statement of Financial Position. Negative goodwill is immediately recognized in profit or loss. The Company expenses transaction costs associated with business combinations in the period incurred.

When an acquisition does not meet the criteria for business combination, it is accounted for as an acquisition of a group of assets and liabilities. The purchase price of the acquisition, including transaction costs, are allocated to the assets and liabilities acquired based upon their relative fair values. No goodwill is recognized for asset acquisitions.

c) Functional currency

The functional and presentation currency of the Company and its subsidiaries is the U.S. dollar. All amounts have been rounded to the nearest thousand, except when otherwise indicated, such as unit counts and per unit amounts.

d) Property and equipment

(i) Recognition and measurement

Property and equipment are measured at cost less accumulated depreciation and any accumulated impairment losses. Cost includes initial acquisition costs and other direct costs. Significant parts of the buildings are accounted for as separate components of the property, based on management's judgment of what components constitute a significant cost in relation to the total cost of an asset and whether these components have similar or dissimilar patterns of consumption and useful lives for purposes of calculating depreciation.

(ii) Subsequent costs

The cost of replacing a part of an item of property and equipment is recognized in the carrying amount of the item if it is probable that the future economic benefits embodied within the part will flow to the Company and its cost can be measured reliably. The carrying amount of the replaced part is derecognized. The costs of the day-to-day maintenance of property and equipment are recognized in profit or loss as incurred.

(iii) Depreciation

Depreciation is computed on a straight-line basis based on the useful lives of each component of property and equipment. Depreciation on new construction commences in the month after the asset is available for its intended use based upon the useful life of the asset.

Estimated useful lives were determined based on current facts and past experience and take into consideration the anticipated physical life of the asset and its components and current and forecasted demand. The rates and methods used are reviewed annually at year end to ensure they continue to be appropriate and are also reviewed in conjunction with impairment testing. Gains or losses on disposition of property and equipment are recognized in profit or loss when the Company has transferred to the purchaser the significant risk and rewards of ownership of the property and equipment and the purchaser has made a substantial commitment demonstrating its intent to honor its obligation.

Asset	Useful Life (Years)
Building structure	40
Buildings - mechanical, electrical and elevators	30
Buildings - roof, windows, and doors	20
Building improvements	5 - 15
Interior upgrades	3
Furniture, fixtures and equipment	5 - 7
Leases	Length of lease

e) Impairment of non-financial assets

The carrying amounts of the Company's non-financial assets, other than inventories, are reviewed at each reporting date to determine whether there is any indication of impairment or recovery. If any such indication exists, then the asset's recoverable amount is estimated.

The recoverable amount of an asset or cash-generating unit is the greater of its value in use and its fair value less costs to sell. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. For the purpose of impairment testing, assets that cannot be tested individually are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or groups of assets (the "cash-generating unit" or "CGU").

When the carrying amount of the asset or CGU exceeds its estimated recoverable amount, an impairment loss is recognized in an amount equal to the excess. However, when an indication that an impairment loss recognized in prior periods for an asset or CGU other than goodwill may no longer exist or may have decreased, the recoverable amount of that asset or CGU is estimated. A reversal of an impairment loss is recognized immediately in profit or loss if the recoverable amount of a previously impaired asset or CGU has subsequently increased to the lower of the asset or CGU's recoverable amount or carrying amount had no impairment loss been recognized for the asset or CGU in prior years.

f) Financial instruments

(i) Classification and measurement of financial assets and liabilities:

Financial instruments are generally measured at fair value on initial recognition. The classification and measurement of financial assets consists of the following categories: (i) measured at amortized cost, (ii) fair value through profit and loss ("FVTPL"), and (iii) fair value through other comprehensive income ("FVTOCI"). Financial assets classified at amortized cost are measured using the effective interest method. Financial assets classified as FVTPL are measured at fair value with gains and losses recognized through profit or loss. Financial assets classified as FVTOCI are measured at fair value with gains or losses recognized through other comprehensive income, except for gains and losses pertaining to impairment or foreign exchange recognized through profit or loss.

The classification and measurement of financial liabilities consists of the following categories: (i) measured at amortized cost and (ii) FVTPL. Financial liabilities classified at amortized cost are measured using the effective interest method. Financial liabilities classified as FVTPL are measured at fair value with changes in fair value attributable to changes in the

credit risk of the liability presented in other comprehensive income, and the remaining amount of change in fair value presented in profit or loss.

The Company has made the following classifications for its financial instruments:

Financial Instrument	Classification Under IFRS 9
Cash and cash equivalents	Amortized cost
Restricted cash	Amortized cost
Trade and other receivables	Amortized cost
Lease liability	Amortized cost
Interest rate caps	FVTPL
Accounts payable and other accrued liabilities	Amortized cost
Note payable	Amortized cost
Mezzanine loan	Amortized cost
Class B redeemable units of OP	FVTPL
PIU redeemable units of OP	FVTPL

The Company derecognizes a financial asset only when the contractual rights to the cash flows from the asset expire or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another entity. The Company derecognizes a financial liability when, and only when, the Company's obligations are discharged, cancelled or they expire. The difference between the carrying amount of the financial liability derecognized and the consideration paid and payable is recognized in profit or loss.

Transaction costs other than those related to financial instruments classified as FVTPL, which are expensed as incurred, are capitalized to the carrying amount of the instrument and amortized using the effective interest method. These costs include interest, amortization of discounts or premiums relating to borrowings, fees and commissions paid to agents, brokers and advisers and transfer taxes and duties.

Units that are redeemable at the option of the holder are considered puttable instruments in accordance with International Accounting Standards 32, *Financial Instruments – Presentation* ("IAS 32"). Puttable instruments are required to be accounted for as financial liabilities, except where certain conditions are met in accordance with IAS 32; in which case, the puttable instruments may be presented as equity. Units meet the exemption conditions of IAS 32 and are, therefore, presented as equity.

The Class B Units are redeemable for cash or Units on a one-for-one basis subject to customary anti-dilution adjustments at the option of the Company and, therefore, the Class B Units meet the definition of a financial liability under IAS 32. Further, the Class B Units are designated as financial liabilities at FVTPL and are measured at fair value at each reporting period with any changes in fair value recorded in profit or loss. The Class B Units are, in all material aspects, economically equivalent to Units on a per unit basis. The distributions paid on Class B Units are accounted for as finance costs.

(ii) Impairment of financial assets

For impairment of financial assets other than investments in equity instruments, contract assets, lease receivables, loan commitments and financial guarantee contracts, the Company applies a forward-looking 'expected credit loss' ("ECL") model. NHT adopted the practical expedient to determine ECL on trade and other receivables using a provision matrix based on historical credit loss experiences adjusted for current and forecasted future economic conditions to estimate lifetime ECL.

Impairment losses are recorded in profit or loss with the carrying amount of the financial asset or group of financial assets reduced.

g) Cash and cash equivalents

The Company considers all liquid investments with original terms to maturity of three months or less when acquired to be cash equivalents. Cash and cash equivalents consist of cash on hand and cash held at banks.

h) Restricted cash

Restricted cash primarily consists of cash reserves on deposit with, or under the control of, lenders in respect of future capital expenditures, insurance, and taxes.

i) Provisions

A provision is recognized if, as a result of a past event, the Company has a present legal or constructive obligation that can be estimated reasonably, and it is probable that an outflow of economic benefits will be required to settle the obligation. If the time value of money is material, provisions are determined by discounting the expected future cash flows using a current rate that reflects the risk profile of the liability and the increase to the provision due to the passage of time will be recognized as a finance cost.

j) Revenue recognition

IFRS 15, Revenue *from Contracts with Customers,* establishes a comprehensive framework for determining whether, how much and when revenue is recognized. The standard requires revenue to be recognized in a manner that depicts the transfer of promised goods or services to a customer and at an amount that reflects the consideration expected to be received in exchange for transferring those goods or services. This is achieved by applying the following five steps:

1. identify the contract with a customer;
2. identify the performance obligations in the contract;
3. determine the transaction price;
4. allocate the transaction price to the performance obligations in the contract; and
5. recognize revenue when (or as) the entity satisfies a performance obligation.

Revenue is generated primarily from the operation of the Company's hotels, which includes room rentals, food and beverage sales and other incidental income. Revenue is recognized when services are rendered, the amount is earned, and collectability is reasonably assured. The Company may collect payments in advance of the utilization of a facility. These payments are recorded as a component of accounts payable and other accrued liabilities until such time as the applicable facility is utilized, at which time the customer deposit is recognized as revenue.

k) Finance costs from operations

Finance costs from operations consist primarily of interest expense on outstanding debt, the amortization of deferred financing costs, net of interest income and distributions made to Class B unitholders. Interest expense is recognized in the period in which it is incurred. Fees and costs related to obtaining debt financing are capitalized against the related debt and amortized over the term of the debt using the effective interest method and are included in finance costs from operations. The unamortized balance of the fees and costs is recorded as a reduction from the related debt on the Company's Consolidated Statement of Financial Position.

l) Income taxes

(i) Canadian mutual fund status

NHT is a mutual fund trust pursuant to the Income Tax Act (Canada). Under current tax legislation, a mutual fund trust that is not a Specified Investment Flow-Through Trust ("SIFT") pursuant to the Income Tax Act (Canada) is entitled to deduct distributions of taxable income such that it is not liable to pay income taxes provided that its taxable income is fully distributed to unitholders. NHT intends to qualify as a mutual fund trust that is not a SIFT trust and to make distributions not less than the amount necessary to ensure that NHT will not be liable to pay income taxes.

(ii) U.S REIT Status

The Company expects to be classified as a corporation for U.S. federal income tax purposes pursuant to section 7874 of the Code. Further, the Company expects to be treated as a U.S. corporation for all purposes under the Code and, as a result, it would be permitted to elect to be treated as a REIT under the Code, notwithstanding it will be organized as a Canadian entity. In general, a company that elects REIT status, distributes at least 90% of its REIT taxable income to its shareholders in any taxable year, and complies with certain other requirements is not subject to U.S. federal income taxation to the extent of the income it distributes. If it fails to qualify as a REIT in any taxable year, it will be subject to U.S. federal income tax at regular corporate income tax rates on its taxable income. Even if it qualifies for taxation as a REIT, it may be subject to certain state and local taxes on its income and property and to federal income and excise taxes on its undistributed income. The Company

has reviewed the REIT requirements and expects that it will qualify as a REIT under the Code. Accordingly, no provision for U.S. federal income or excise taxes has been made with respect to the income of the Company.

The Company, through wholly owned subsidiaries, leases the Initial Portfolio and will lease any future acquisitions to the TRS Entities, which are taxable in the U.S. A TRS is a corporation that has not elected REIT status and has made a joint election with a REIT to be treated as a TRS. As such, it is subject to U.S. federal and state corporate income tax. The income tax effects on the results of the TRS Entities accrue directly to the unitholders of the Company.

For these entities, income tax expense comprises current and deferred taxes. Current tax and deferred tax are recognized in profit or loss except to the extent that they relate to a business combination, or to items recognized directly in equity or in other comprehensive income.

(iii) Current taxes

Current tax is the expected tax payable or receivable on the taxable income or loss for the year, using tax rates enacted or substantively enacted at the reporting date, and any adjustment to tax payable in respect of previous years. The amount of current tax payable or receivable is the best estimate of the tax amount expected to be paid or received that reflects uncertainty related to income taxes, if any.

(iv) Deferred taxes

Deferred tax is recognized in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. Deferred tax is not recognized for the following temporary differences: (a) the initial recognition of assets or liabilities in a transaction that is not a business combination and that affects neither accounting nor taxable profit or loss, (b) differences relating to investments in subsidiaries and jointly controlled entities to the extent that it is probable that they will not reverse in the foreseeable future and (c) for taxable temporary differences arising on the initial recognition of goodwill. Deferred tax is measured at the tax rates that are expected to be applied to temporary differences when they reverse, based on the laws that have been enacted or substantively enacted by the reporting date.

(v) Tax uncertainties

Judgement is required to assess the interpretation of tax legislation when recognizing and measuring current and deferred tax assets and liabilities. The impact of different interpretations and applications could potentially be material. The Company recognizes a tax benefit from an uncertain tax position when it is probable that the position will be sustained upon examination, including resolutions of any related appeals or litigation processes, on the basis of technical merits.

(vi) 2017 Tax Act

On December 22, 2017, the Tax Cuts and Jobs Act (the "2017 Tax Act") was signed into law in the United States. The most significant change is the reduction of the statutory corporate tax rate from 35 percent to 21 percent, effective January 1, 2018. Many of the provisions in the 2017 Tax Act expire at the end of 2025.

m) Operating segments

The Company currently operates in one business segment, owning and operating hotel properties in the U.S. The primary format for segment reporting is based on geographic region and is consistent with the internal reporting provided to the Company's chief operating decision-maker.

n) Leases

Under IFRS 16, *Leases*, the Company records the initial present value of unavoidable future lease payments as right-of-use assets and lease liabilities on the Company's Consolidated Statement of Financial Position. The right-of-use assets are initially measured at cost and subsequently measured at cost less accumulated depreciation and impairment losses, adjusted for any remeasurement of the lease liabilities. The lease liabilities are initially measured at the present value of the unavoidable future lease payments discounted using the discount rate implicit in the lease (or if that rate cannot be readily determined, the lessee's incremental borrowing rate). Subsequently, the lease liabilities are adjusted for interest and lease payments, and impact of lease modifications, if any.

o) Levies

In accordance with International Financial Reporting Interpretations Committee ("IFRIC") 21, *Levies* ("IFRIC 21"), the Company recognizes the full amount of annual property tax liabilities at the point in time when the realty tax obligation is imposed. This is the obligating event that gives rise to a liability to pay the property taxes.

p) Government assistance

The Company may receive financial grants from the government in return for past or future compliance with certain conditions relating to its operating activities. These financial grants are recorded in income by the Company when there is reasonable assurance that the Company will comply with the relevant conditions and the financial grant is received. If these conditions are not met, grants received are recognized as a liability.

The Company requested and was granted forgiveness of the first PPP loans in 2021. The Company recognized the balance of the forgiven loans and forgiven accrued interest in profit or loss in 2021 in accordance with IAS 20, *Accounting for Government Grants and Disclosure of Government Assistance.* In 2022 the Company recognized an additional $4,000 of forgiven loans in profit or loss in accordance with IAS 20.

q) Reclassification of items in the financial statements

The Company may, from time to time, record reclassifications of certain items in the Financial Statements to ensure proper representation based on facts and circumstances of the Company.

Note 4. Investment in Subsidiaries and Special Purpose Entities

In connection with its indirect equity investments in real estate assets acquired, the Company, through NHT Holdings, LLC and the OP, indirectly holds an ownership interest in the properties, through the OP's 100% ownership of the membership interests in special purpose LLCs ("SPEs") that directly own the properties. All of the properties the Company has acquired are consolidated in the Company's Interim Consolidated Financial Statements. Under the terms of each respective mortgage payable, the lender has a perfected security interest in each real estate asset and related personal property.

The loans to NHT 2325 Stemmons, LLC ("NHT 2325 Stemmons"), NHT DFW Portfolio, LLC ("NHT DFW") and NHT SP, LLC ("NHT SP") are cross-collateralized and thus the assets of each entity are subject to recourse in the event of default. Additionally, the Note A Loan and Note B Loan (as defined in Note 13) are cross defaulted with the Mezz Facility. The lender on the Mezz Facility has a perfected security interest in the membership interest of NHT 2325 Stemmons, NHT DFW Portfolio and NHT SP.

As of June 30, 2023, the Company, through the OP, owned 9 properties through SPE subsidiaries of the OP, with the sale of DT Olympia property sold on June 29, 2023, see Note 6. The following table presents each SPE that directly owns the title to each property as of June 30, 2023:

Subsidiary	Ownership	Parent	Properties Owned	SPE Subsidiaries Owned	TRS Subsidiaries Owned	Gross Assets	Gross Allocable Notes Payable and Mezzanine Debt
NHT Holdings, LLC	100.0%	NexPoint Hospitality Trust (the Company)	n/a	n/a	n/a	$ 304,288	$ 195,138
NHT Operating Partnership, LLC (the OP)	100.0%	NHT Holdings, LLC	n/a	n/a	n/a	304,288	195,138
NHT 2325 Stemmons, LLC	100.0%	NHT Operating Partnership, LLC (the OP)	Dallas Hilton Garden Inn	1	1	34,002	19,021
NREO NW Hospitality, LLC	100.0%	NHT Operating Partnership, LLC (the OP)	DoubleTree Portfolio	1	1	15,756	—

NHT Bradenton, LLC	100.0%	NHT Operating Partnership, LLC (the OP)	Bradenton Hampton Inn & Suites	1	1	26,725	17,305
NHT Park City, LLC	100.0%	NHT Operating Partnership, LLC (the OP)	Hyatt Place Park City	1	1	30,704	19,525

Note 5. Business Combinations, Contributions of Net Assets and Asset Acquisitions

In February 2022, the Company acquired the Hyatt Place in Park City, Utah and the Hampton Inn & Suites in Bradenton, Florida. Both acquisitions were considered to be asset acquisitions and were accounted for using the purchase method of accounting in accordance with IFRS 3 Business Combinations. The Initial Portfolio together with the Park City and Bradenton properties constitutes the Current Portfolio.

On February 14, 2022, the Company made a $200 deposit on a tract of land at the HUB Research Triangle Park in North Carolina. The Company plans to develop a hotel on this site in partnership with a developer that the Advisor has collaborated with previously.

There were no contributions of net assets for the six months ended June 30, 2023.

Purchase Accounting

The following table summarizes the fair values of the assets acquired and liabilities assumed for the acquisitions accounted for using the purchase method of accounting in 2022:

	NHT Bradenton, LLC	NHT Park City, LLC	Total
Fair value of consideration transferred:	$ 25,973	$ 29,616	$ 55,589
	25,973	29,616	55,589
Property and equipment	24,251	29,660	53,911
Right of use asset	1,445	—	1,445
Intangible assets	304	340	644
Other liabilities	(27)	(384)	(411)
Fair value of net assets acquired and liabilities assumed	$ 25,973	$ 29,616	$ 55,589

The Company acquired the Park City and Bradenton properties for $56,000 and received a credit from the seller of the Park City property in the amount of $200.

Descriptions of the net assets acquired

NHT Park City, LLC

On February 15, 2022, the OP acquired 100% of the LLC interests in NHT Park City, LLC, which owns the Hyatt Place hotel in Park City, Utah ("Park City"). The Park City property is a 122-room hotel located near Park City ski mountain. Originally built in 2016, the property is almost exclusively focused on leisure travel. Additionally, we requested, and Hyatt granted, the addition of a destination fee for all guests, which should materially increase NOI achieved pre-pandemic.

NHT Bradenton, LLC

On February 23, 2022, the OP acquired 100% of the LLC interests in NHT Bradenton, LLC, which owns the Hampton Inn & Suites hotel in Bradenton, Florida ("Bradenton"). The Bradenton property is a 119-room hotel that hosts multiple major league baseball teams during spring training and is a leisure destination area year-round given the temperate climate in the winter and access to the beach. This property represents a traditional value-add opportunity for NHT. Over the last several years this property has lost RevPAR index to the competitor set, however we believe that with the right renovations, Bradenton should be able to close the gap on the competitor set while sitting in the heart of a growing economy in southern Florida.

Note 6. Dispositions and Assets Held for Sale

	For the Three Months Ended		For the Six Months Ended

On August 24, 2022, the Company sold the DT Vancouver Property for $14,500, on September 30, 2022, the Company sold the DT Beaverton Property for $14,500, and on December 8, 2022, the Company sold the DT Bend Property for $38,500. The Company used the proceeds from the sale of the DT Bend Property to retire the outstanding debt on the DT Portfolio (DT Loan, Mezz A Loan and Mezz B Loan).

On March 8, 2023, the Company began the marketing process to sell the remaining DoubleTree property of Tigard and the Holiday Inn in Nashville. The Company expects the transactions to close in the third and fourth quarters of 2023.

On June 29, 2023, the Company sold the DT Olympia property for $12,750. The Company will use the proceeds from the sale to retire the outstanding debt on the Mezz Facility.

	June 30, 2023	December 31, 2022

Accumulated depreciation - assets sold	(4)	(1,545)	—	(1,157)	(2,706)
Accumulated depreciation - assets held for sale	—	(10,331)	—	(7,752)	(18,083)
Balance, June 30, 2023	$ 2	$ 13,330	$ —	$ 14,001	$ 27,333
Carrying amount, December 31, 2022	$ 36,590	$ 208,743	$ 2,563	$ 21,640	$ 269,536
Carrying amount, June 30, 2023	$ 22,446	$ 111,734	$ 2,223	$ 13,233	$ 149,636

The Company's fixed asset additions are primarily related to (i) various upgrades and improvements required by the Company's franchise agreements; (ii) the Company's renovation program; and (iii) typical ongoing capital maintenance items. Depreciation during the period includes depreciation of land improvements.

As mentioned in Note 3(e), non-financial assets are reviewed at each reporting date to determine if there is any indication of impairment or recovery. The Company recorded no impairment for the six months ended June 30, 2023. In assessing the value in use of the real estate assets, the cash flow estimates were derived from detailed financial forecasts prepared by the Company for 2023. The forecasted cash flow is extended through June 30, 2028 and asset values were determined using a discounted cash flow analysis with terminal cap rates and discount rates used in the most recent appraisals provided by a recognized national valuation firm and adjusted to take into account how various research analysts are now pricing other publicly traded hospitality REITs.

As of June 30, 2023, the Company has classified two assets as held for sale in the consolidated Statement of Financial Position. See Note 6.

b) Leases

The Company's leases consist of land and vehicles at June 30, 2023 and December 31, 2022.

Right of Use Asset	Land	Vehicles	Total
Balance, December 31, 2021	$ 3,013	$ 81	$ 3,094

Carrying amount, June 30, 2023	$ 983	$ —	$ 983

Note 8. Restricted Cash

The Company funded restricted cash reserves for brand-mandated PIPs and furniture, fixtures and equipment upgrades arising from the execution of the Company's franchise agreement and future insurance and property tax expenses. Restricted cash reserves for PIP programs are typically expected to be spent over an 18–24-month period once work begins. The amounts are released to the Company as the expenditures are incurred or paid directly to the service provider. Additionally, the Company presents reserves and escrows for

taxes and insurance as restricted cash. Cash proceeds in reserve accounts are primarily held by a lender, though in some cases they are held by the Company. Cash reserves to be held by lenders are only available to meet the expenses for which they are reserved against and cannot be used to extinguish general liabilities. The funds for the renovation of the St. Pete Property are included in furniture, fixtures, and equipment ("FF&E") reserves in the table below.

The following table summarizes the amounts of cash reserves in each of these categories as of June 30, 2023 and December 31, 2022:

	June 30, 2023	December 31, 2022
PIPs reserve	$ 175	$ 175
FF&E Reserves	4,870	4,556
Property tax reserve	2,921	2,397
Insurance, cash collateral and other reserves	375	222
Total restricted cash	$ 8,341	$ 7,350

Note 9. Operating Expenses

The following table summarizes components of operating expenses for the three months and six months ended June 30, 2023 and June 30, 2022 which are included in the Interim Consolidated Statements of Loss and Comprehensive Loss:

	For the Three Months Ended		For the Six Months Ended	
	June 30, 2023	June 30, 2022	June 30, 2023	June 30, 2022
Payroll	$ 3,577	$ 3,431	$ 7,493	$ 6,418
Franchise fees	1,045	1,004	2,420	1,907
Cost of goods sold	1,044	1,075	2,065	1,899
Utilities	400	379	847	721
Supplies and equipment	311	444	870	868
Property taxes and insurance	1,156	223	5,007	3,899
Other operating expenses	43	98	285	197
Repairs and maintenance	159	251	379	454
Operating expenses	$ 7,735	$ 6,905	$ 19,366	$ 16,363

The Company recognizes the property tax levy on January 1st of the calendar year in accordance with IFRIC 21.

Note 10. Operating General and Administrative Expenses

The following table summarizes components of general and administrative expenses for the three months and six months ended June 30, 2023 and June 30, 2022 which are included in the Interim Consolidated Statements of Loss and Comprehensive Loss:

	For the Three Months Ended		For the Six Months Ended	
	June 30, 2023	June 30, 2022	June 30, 2023	June 30, 2022
Marketing	$ 1,201	$ 1,134	$ 2,442	$ 1,937
Operations G&A	706	722	1,550	1,322
Property management fees	416	405	912	767
Other administrative expenses	197	172	458	348
Operating general and administrative expenses	$ 2,520	$ 2,433	$ 5,362	$ 4,374

Note 11. Corporate General and Administrative Expenses

The following table summarizes components of corporate general and administrative expenses for the three months and six months ended June 30, 2023 and June 30, 2022 which are included in the Interim Consolidated Statements of Loss and Comprehensive Loss:

	For the Three Months Ended		For the Six Months Ended	
	June 30, 2023	June 30, 2022	June 30, 2023	June 30, 2022
Audit fees and financial reporting	$ 180	$ 75	$ 355	$ 304
Tax preparation	147	9	111	34
Consulting fees	91	37	94	66

Other administrative expenses	—	23	153	54
Corporate general and administrative expenses	$ 177	$ 741	$ 535	$ 1,486

Note 12. Accounts Payable and Other Accrued Liabilities

The following table summarizes components of accounts payable and other accrued liabilities as of June 30, 2023 and December 31, 2022 which are included in the Interim Consolidated Statements of Financial Position:

	June 30, 2023	December 31, 2022
		(Restated)
Trade payables	$ 822	$ 2,390
Payroll and payroll taxes payable	464	637
Property taxes payable	3,735	1,291
Sales and occupancy tax payable	362	743
Property management fees payable	102	851
Interest payable on outstanding debt[1]	11,474	9,484
Franchise fees payable	164	259
Deposit liability and advanced bookings	183	(21)
Other payables	2,468	1,477
Professional service fees payable	905	117
Acquisition costs payable	—	475
Advisory fee payable	7,897	6,802
Distributions payable to Class B unitholders	105	1,034
Accounts payable and other accrued liabilities[1]	$ 28,681	$ 25,539

Note: The 2022 balances have been adjusted for the effect of the Misstatement (as defined herein) described in Note 24.

On November 15, 2019, the Company filed a prospectus registering $500 million of additional units, debt securities, subscription receipts and warrants with the intent to raise capital in a secondary offering of the Company's Units (the "Offering"). After launching the Offering, the Company abandoned the Offering on December 18, 2019.

Note 13. Notes Payable, Net, Mezzanine Loans, Net and PPP Loans

The following tables further describe mortgages and other debt instruments as of June 30, 2023 and December 31, 2022 which are included in the Interim Consolidated Statements of Financial Position:

Notes Payable

	June 30, 2023	December 31, 2022
Notes payable	$ 178,638	$ 179,327
Less: current maturities	(77,353)	(1,386)
Less: notes related to assets held for sale	(64,456)	—
Less: unamortized portion of deferred financing costs	(1,289)	(1,669)
Notes payable, net	$ 35,540	$ 176,272

Mezzanine Loans

	June 30, 2023	December 31, 2022
Mezzanine loans	$ 16,500	$ 18,000
Less: current maturities	(16,530)	(18,000)
Plus: accrued financing costs	30	—
Mezzanine loans, net	$ —	$ —

On January 8, 2019, in connection with the acquisition of the Nashville Property, the Company assumed the existing loan on the property of $72,500 with an outstanding balance of $64,456 (the "HIX Loan"). The HIX Loan is secured by the Nashville Property and bears interest at a fixed rate equal to 5.12% and matures on June 30, 2026.

The HIX Loan contains customary representations, warranties, and events of default, which require the HIX Borrowers to comply with affirmative and negative covenants. On September 18, 2020, the lender delivered a formal notice of default to the HIX Borrowers. On May 26, 2021, the HIX Borrowers executed a forbearance agreement with the lender. See Note 20(b) for further discussion surrounding the Nashville Property.

On January 8, 2019, the Company, through the OP, entered into a $35,000 mezzanine facility (the "Mezz Facility") with a large non-bank company. The proceeds from the Mezz Facility were used to help fund a portion of the purchase price of the Nashville Property acquired on January 8, 2019. The Mezz Facility is secured by a pledge of the membership units in NHT 2325 Stemmons, NHT DFW Portfolio, and NHT SP, bears interest at a variable rate equal to the 30-day LIBOR plus 6.25% and had an original maturity date of January 8, 2020. As of June 30, 2023, the Company paid $859 in interest and $1,500 in principal on the Mezz Facility.

On February 28, 2019, the Company, through subsidiaries of the OP, entered into a borrowing arrangement for a $59,400 Note A loan (the "Note A Loan") and a $28,600 Note B loan (the "Note B Loan"). The Note A Loan and Note B Loan are secured by the HGI Property, the HWS Portfolio and the St. Pete Property. The Note A Loan bears interest at a variable rate equal to the 30-day LIBOR plus 2.00% and matures on March 1, 2024. The Note B Loan bears interest at a variable rate equal to the 30-day LIBOR plus 6.46% and matures on March 1, 2024. As of June 30, 2023, the Note A Loan and the Note B Loan had an effective interest rate of 7.55% and 12.01%, respectively. For the period from January 1, 2023 to June 30, 2023, the Company paid $1,206 and $1,211 in interest on the Note A Loan and the Note B loan, respectively. See Note 24.

On February 15, 2022, in connection with the acquisition of the Park City and Bradenton properties, the Company, through subsidiaries of the OP, entered into a borrowing arrangement for a $39,300 loan (the "PC & B Loan") with a large non-bank company. The outstanding balance on the PC & B Loan at June 30, 2023 is $36,829 with $2,471 available to draw on for renovation purposes. The Company has begun planning renovations at both properties to start in late 2023.

The PC & B Loan, the HIX Loan, the Note A Loan and Note B Loan (collectively referred to as the "Notes Payable"), and the Mezz Facility (collectively referred to as the "Mezzanine Loans" and together with the "Notes Payable" are referred to as the "Loans") contain customary representations, warranties, and events of default, which require the Company to comply with affirmative and negative covenants.

As discussed in Note 2, as of June 30, 2023, the Company is in good standing with the lenders on all of its outstanding Loans.

In February and March 2021, all 9 of our properties in the Initial Portfolio received a second loan from the PPP with total proceeds from the loans amounting to $4,000. In February 2022, the SBA granted forgiveness of the second loans. The Company recognized the loans and all accrued interest in profit or loss in 2022, with no remaining SBA forgiveness for the six months ended June 30, 2023.

The SBA, in consultation with the U.S. Department of the Treasury, has published guidance for borrowers concerning forgiveness of PPP loans. If the loan is fully forgiven, the borrower is not responsible for any payments. If only a portion of the loan is forgiven, or if the forgiveness application is denied, any remaining balance due on the loan must be repaid by the borrower on or before the maturity date of the loan. Interest accrues during the time between the date of disbursement of the loan and the SBA remittance of the forgiveness amount. The borrower is also responsible for paying accrued interest on any amount of the loan that is not forgiven.

The table below shows future payments on the Loans, excluding amortization of deferred financing costs, payable within the next four calendar years subsequent to June 30, 2023:

	Notes Payable	Mezzanine Loans	Total
2023	$ 807	$ 16,530	$ 17,337
2024	78,803	—	78,803
2025	38,365	—	38,365
2026	60,663	—	60,663
Total	$ 178,638	$ 16,530	$ 195,168

As of June 30, 2023 and December 31, 2021, the Company has $82,723 of convertible notes due to its affiliates. The notes have rates ranging from 1.93% to 7.50% while outstanding and mature in 20 years in most cases. The Company's convertible notes conversion is subject to TSXV approval.

	June 30, 2023	December 31, 2022
Convertible affiliate notes	$ 82,723	$ 82,723

Note 14. Class B Units

On January 8, 2019, the OP issued Class B Units with a fair value of $67,881. The Class B Units of the OP are economically equivalent to Units and are entitled to receive distributions equal to those provided to holders of Units. These Class B Units have been classified as a liability in accordance with IAS 32, as they are redeemable instruments at the option of the holders.

Class B Units are measured at fair value with any changes in fair value recorded in profit or loss. The fair value adjustments of Class B Units are calculated using the Company's Unit closing price as of the end of the reporting period. An increase in the Unit closing price over the period results in a fair value loss whereas a decrease in the Unit closing price over the period results in a fair value gain.

As allowed under IFRS 13, *Fair Value Measurement,* if an asset or a liability measured at fair value has a bid price and an ask price, the price within the bid-ask spread that is the most representative of fair value in the circumstances shall be used to measure fair value. The Company has recorded Class B Units at their fair value, which has been assessed to equal the closing market price of the Units at each valuation date (Level 2).

The 10-day volume weighted average price ("VWAP") of the Units for the 10 trading days immediately preceding the end of the period is the basis of measurement the Company uses to record fair value adjustments of the Class B Units. The 10-day VWAP at June 30, 2023 was $0.50 and the fair value adjustment of the Class B Units for the six months ended June 30, 2023 was $204.

The Company's notes due to affiliates are, subject to TSXV approval, convertible at any time at the election of the holders into Class B Units.

On December 13, 2021, the Company granted 2,475,000 profit interest units ("PIUs") in the OP to officers of the Company and employees of the Advisor. Upon vesting, grantees will receive Class B Units of the OP. As of June 30, 2023, 883,125 of the PIU units have vested. See Note 23 for more information on PIUs granted and vesting schedules.

The following table presents the outstanding units and the change in fair value of the Class B Units for the six months ended June 30, 2023:

	Units	Fair value
Redeemable noncontrolling interests in the OP, January 1, 2023	205,597	$ 309
Net loss attributable to Class B redeemable Units of the OP	—	(33)
Change in fair value of Class B Units redeemable Units of the OP	—	(204)
Adjustment to reflect redemption value of redeemable Class B Units of the OP	—	33
Redeemable noncontrolling interests in the OP, June 30, 2023	205,597	$ 105

Note 15. Finance Costs

The following table summarizes finance costs for the three months and six months ended June 30, 2023 and June 30, 2022:

	For the Three Months Ended		For the Six Months Ended	
	June 30, 2023	June 30, 2022 (Restated)	June 30, 2023	June 30, 2022 (Restated)
Interest on debt[1]	$ 3,365	$ 3,186	$ 8,418	$ 6,583
Amortization of deferred financing costs	188	292	398	573
Interest on due to affiliate	804	674	1,596	1,133
Fees related to Nashville forbearance agreement	(1)	—	(4)	12
Finance costs from operations[1]	$ 4,356	$ 4,152	$ 10,408	$ 8,301
Fair value adjustment of Class B Units	(103)	(218)	(204)	(507)
Total finance costs	$ 4,253	$ 3,934	$ 10,204	$ 7,794

Note: Adjusted for the effect of the Misstatement as described in Note 24.

Note 16. Income Taxes

(a) Income tax (expense)/recovery:

The Company has recorded current tax expense/recovery for taxes associated with its direct and indirect subsidiaries. The income tax expense/recovery in the Interim Consolidated Statements of Loss and Comprehensive Loss is as follows:

	For the Three Months Ended		For the Six Months Ended	
	June 30, 2023	June 30, 2022	June 30, 2023	June 30, 2022
Net loss before income tax	$ (1,086)	$ (1,279)	$ (4,620)	$ (487)
Less: loss relating to entities not subject to income tax	476	(1,189)	(3,293)	(2,447)
Net income before tax relating to taxable subsidiaries	(1,562)	(90)	(1,327)	1,960
Deferred income tax benefit	(11)	151	9	272
Income taxes	196	(487)	(46)	(544)
Income tax recovery (expense)	$ 185	$ (336)	$ (37)	$ (272)

(b) Deferred income tax benefit:

As of June 30, 2023 and December 31, 2022, the Company has an estimated tax asset of $5,309 and $4,836, respectively, recorded in the Consolidated Statement of Financial Position for certain temporary book-to-tax differences as well as net operating losses associated with its direct and indirect subsidiaries. A summary of the composition of such tax benefits is provided in the table below.

	June 30, 2023	December 31, 2022
Reserves not currently deductible	$ 276	$ 379
Net operating losses carried forward	5,033	4,457
Total tax assets	$ 5,309	$ 4,836

Note 17. Unitholders' Capital

The Company is authorized to issue an unlimited number of Units. Each Unit represents a proportionate undivided beneficial ownership interest in the Company. Each Unit is transferable and entitles the holder thereof to: (i) an equal participation in distributions of the Company; (ii) rights of redemption; and (iii) one vote at all meetings of unitholders.

There were no changes to the Units or Unitholders' Capital for the period from January 1, 2023 to June 30, 2023 or from the period January 1, 2022 to June 30, 2022.

In 2021, the Company granted 549,687 deferred units to the independent trustees. These deferred units are issued but not issued and outstanding Units. See Note 23 for further discussion on deferred units and profit interests units.

Note 18. Fair Value of Financial Instruments and Derivatives

a) Comparison of fair value to carrying amount

The fair value of a financial instrument is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value may be based on other observable current market transactions in the same instrument, without modification or on a valuation technique using market-based inputs. Fair value measurements recognized in the Financial Statements are categorized using the following fair value hierarchy that reflects the significance of inputs used in determining the fair values:

- Level 1: Quoted (unadjusted) market prices in active markets for identical assets or liabilities.
- Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, directly or indirectly.
- Level 3: Inputs for the asset or liability that are not based on observable market data (unobservable inputs).

As of June 30, 2023 and December 31, 2022, the carrying amounts of the Company's cash and cash equivalents, restricted cash, trade and other receivables, accounts payables and other accrued liabilities approximated their fair values due to the short-term nature of these financial assets and liabilities.

The fair value of the Loans are estimated by discounting the future cash flows using discount rates that reflect current market conditions for instruments having similar terms and conditions. At June 30, 2023, the Notes Payable were discounted using rates between 7.19% and 11.65% and the Mezzanine Loans were discounted using a rate of 10.50%. Discount rates are either provided by lenders or are observable in the open market. As of June 30, 2023, the carrying value of the Company's Loans exceeded their fair value by approximately $(28,505) and are considered Level 2 in the fair value hierarchy as inputs are observable directly or indirectly.

The fair value of the redeemable Class B Units is determined based on their redemption value. The redemption value is based on the fair value of the Company's Units at the redemption date, and therefore, is calculated based on the fair value of the Company's Units at the date of the Financial Statements. Since the valuation of the Units are based on observable inputs such as quoted prices for similar instruments in active markets, redeemable non-controlling interests in the OP are classified as Level 2 of the fair value hierarchy.

For the three months and six months ended June 30, 2023, there were no transfers between the different levels of the fair value hierarchy.

(b) Derivative Financial Instruments and Hedging Activities

The Company is exposed to certain risks arising from both its business operations and economic conditions. The Company manages interest rate risks primarily by managing the amount, sources, and duration of its debt funding and the use of derivative financial instruments.

The Company performs market valuations on its derivative financial instruments. The valuation of these instruments is determined using widely accepted valuation techniques, including discounted cash flow analysis on the expected cash flows of each derivative. This analysis reflects the contractual terms of the derivatives, including the period to maturity, and uses observable market-based inputs, including interest rate curves and implied volatilities. The fair values of interest rate caps are determined using the market standard methodology of discounting the future expected cash receipts that would occur if variable interest rates rise

above the strike rate of the caps. The variable interest rates used in the calculation of projected receipts on the cap are based on an expectation of future interest rates derived from observable market interest rate curves and volatilities.

Interest rate caps involve the receipt of variable-rate amounts from a counterparty if interest rates rise above the strike rate on the contract in exchange for an up-front premium. The Company entered into an interest rate cap agreement upon acquisition of the Park City and Bradenton properties in February 2022. As of June 30, 2023, the interest rate cap agreements the Company has entered into effectively cap one-month SOFR on $36,829 of the Company's floating rate mortgage and mezzanine indebtedness at a weighted average rate of 2.00%.

To comply with the provisions of IFRS 9, *Financial Instruments,* the Company incorporates credit valuation adjustments to appropriately reflect both the Company's own nonperformance risk and the respective counterparty's nonperformance risk in the fair value measurements. Although the Company has determined that the majority of the inputs used to value its derivatives fall within Level 2 of the fair value hierarchy, the credit valuation adjustments associated with the Company's derivatives utilize Level 3 inputs, such as estimates of current credit spreads, to evaluate the likelihood of default by the Company and its counterparties. The Company has determined that the significance of the impact of the credit valuation adjustments made to its derivative contracts, which determination was based on the fair value of each individual contract, was not significant to the overall valuation. Additionally, in the case of interest rate caps, the Company has no performance obligation, so no credit valuation adjustment is necessary. As a result, all of the Company's derivatives held as of June 30, 2023 and December 31, 2022 were classified as Level 2 of the fair value hierarchy.

Changes in fair value of the interest rate caps are recorded directly in Finance costs from operations. For the six months ended June 30, 2023, the Company incurred minimal interest expense related to changes in the fair value of interest rate caps. The combined fair value of the interest rate caps is $1,879 as of June 30, 2023 and is recorded as Interest rate caps in the Interim Consolidated Statement of Financial Position.

As of June 30, 2023, the Company had the following outstanding interest rate caps:

Type of Derivative	Hedged Financial Instrument	Notional	Strike Rate	Reference Rate		Termination Date
Interest rate cap	Note payable	$ 39,300	2.00%	One-month SOFR	2.00%	March 5, 2025

c) Financial risk management

The Company may be exposed to a number of risks in its normal course of operations from use of financial instruments. These risks, and the actions taken to manage them, are as follows:

(i) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in the market interest rates.

A majority of the Company's Loans bears interest at a variable rate and are either subject to a LIBOR floor or have interest rate caps in place. Fluctuations in interest rates will impact the cost of financing incurred in the future. The Company monitors its interest rate exposure on an ongoing basis.

(ii) Credit risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligation. The maximum exposure to credit risk is the full carrying amount of the financial instrument. The Company is exposed to credit risk with respect to its interest rate caps, interest rate swaps and trade and other receivables. The credit risk for interest rate caps and interest rate swaps are discussed in Note 18 (b). Credit risk of trade and other receivables is mitigated by initiating a prompt collection process. The Company is also exposed to credit risk with respect to cash and cash equivalents, restricted cash, and counterparties on derivative contracts. This credit risk of such counterparties is mitigated by only transacting with large financial institutions.

(iii) Liquidity risk

The Company's principal liquidity needs arise from working capital requirements, debt servicing and repayment obligations, payments on unhedged interest rate swaps, planned funding of property improvements, leasing costs, distributions to unitholders, property development and acquisition funding requirements. Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they fall due. Property and equipment investments tend to be relatively illiquid, with the degree of liquidity generally fluctuating in relation to demand for and the perceived desirability of such investments. If the Company was required to sell the property, the proceeds to the Company may be significantly less than the property's carrying amount.

Liquidity risk is managed through cash flow forecasting. Management monitors forecasts of the Company's liquidity requirements to ensure it has sufficient cash to meet operational needs through maintaining sufficient cash and/or availability on undrawn loan agreements and ensuring that it meets its financial covenants. Such forecasting involves a significant degree of judgment, takes into consideration current and projected macroeconomic conditions, the Company's cash collection efforts, debt financing plans, covenant compliance required under the terms of debt agreements and internal targets. There is a risk that such liquidity forecasts may not be achieved, and that currently available debt financing may no longer be available to the Company at terms and conditions that are favorable to the Company, or at all.

As of June 30, 2023, the Company had a working capital deficiency of $46,114, which is primarily the result of the $16,530 Mezz Facility which matures on December 8, 2023. Additional contractual obligations and contingencies are outlined in Note 20. As mentioned in Note 2(a), there is substantial doubt as to whether the Company can meet all of its obligations as they become due. This is primarily the result of the $16,530 Mezz Facility that matured on January 8, 2020, (and as of July 8, 2023, was further extended by the lender until December 8, 2023) and the remaining debt due in 2024 of $77,353 but also as a result of the impact to the Company's revenue decline due to the COVID-19 pandemic. In order to continue as a going concern, management is actively working towards addressing the Company's liquidity concerns, including the following: (i) negotiating with lenders to extend or otherwise restructure the terms of our loans and obtain relief from covenants in the near term; and (ii) converting payables to an affiliate into Class B Units. In addition, subject to market conditions, the Company may seek to raise funding through new debt and equity financing, including sale-leaseback and ground lease arrangements, though there is no assurance the Company will be able to obtain such financing. The particular features and quality of the underlying assets and the debt and equity market parameters existing at the time of financing may impact the ability to obtain financing.

The following table provides information on the carrying amounts and the non-discounted contractual maturities of financial liabilities with fixed repayment terms, including estimated interest payments using the 30-day LIBOR rate of 5.55% and term SOFR of 5.27% as of June 30, 2023:

	Carrying Amount	Contractual Cash Flows	Reclassified as Held for Sale	1 Year	More than 1 Year
Notes payable	$ 177,349	$ 178,638	$ 64,456	$ 77,353	$ 36,829
Mezzanine loan	16,530	16,500	—	16,500	—
Interest payable on notes and mezzanine loans	11,749	21,585	—	10,289	11,296
Accounts payable and other accrued liabilities	16,932	16,932	3,405	13,527	—
Lease liability	983	1,689	—	161	1,528
Total	$ 223,543	$ 235,344	$ 67,861	$ 117,830	$ 49,653

Note 19. Capital Management

The Company defines capital as the aggregate of unitholders' equity, Class B Units, notes payable and mezzanine loans. The Company's objectives in managing capital are to maintain a level of capital that: complies with investment and debt restrictions pursuant to the Company's operating agreement; complies with existing debt covenants; funds its business strategies; and builds long-term members' value. Capital adequacy is monitored by the Company by assessing performance against the approved annual plan throughout the year and by monitoring adherence to investment and debt restrictions contained in the Company's operating agreement and debt covenants.

Note 20. Commitments and Contingencies

a) Franchise agreement

The Company's properties are operated under franchise agreements (the "Franchise Agreements") with Franchisors. The Franchise Agreements require the payment of a monthly royalty fee and monthly marketing fee on the property's gross room revenue. For the six months ended June 30, 2023, franchise fees were $2,420 and are included in operating expenses. Details regarding the Franchise Agreements are presented in the following table:

Property	Brand	Execution Date	Term (Years)	Expiration Date	(% of Gross Rooms Sales) Franchise Fees	Marketing Fees
Dallas Hilton Garden Inn	Hilton	December 31, 2014	15	December 31, 2029	5.50%	4.30%
Addison HomeWood Suites	Hilton	May 4, 2017	25	May 31, 2032	5.50%	3.50%
Plano HomeWood Suites	Hilton	May 4, 2017	25	May 31, 2032	5.50%	3.50%
Las Colinas HomeWood Suites	Hilton	May 4, 2017	25	May 31, 2032	5.50%	3.50%
Olympia DoubleTree	Hilton	May 5, 2018	25	May 31, 2033	5.00%	4.00%
Tigard DoubleTree	Hilton	May 5, 2018	25	May 31, 2033	5.00%	4.00%
St. Petersburg Marriott	Marriott	September 25, 2018	20	September 25, 2038	6%/3%[1]	1.00%
Nashville Holiday Inn Express	Intercontinental Group	January 8, 2019	20	January 8, 2039	3.00%	3.00%
Hyatt Place Park City	Hyatt	February 15, 2022	20	February 23, 2042	5.00%	3.50%
Bradenton Hampton Inn & Suites	Hilton	February 22, 2022	15	February 28, 2037	6.00%	4.00%

[1] 6% of gross rooms sales / 3% of gross food and beverage sales.

b) Litigation

In the normal course of operations, the Company may become subject to a variety of legal and other claims. While it is not possible to ascertain the ultimate outcome of all such matters, the Company evaluates all claims on their apparent merits and, if necessary, the Company accrues for its best estimate of the costs to satisfy such claims.

As a result of the financial impact that the COVID-19 pandemic has had on the Nashville Property and the inability of the hotel to meet its financial covenants and obligations, RSS Multiple – DE NT, LLC, the current lender ("Lender"), filed suit against the HIX Borrowers and the Loan Guarantor, seeking, among other things, to appoint a receiver and to foreclose on their security interest.

On May 26, 2021, the HIX Borrowers and Loan Guarantor executed a forbearance agreement with the Lender that will, when followed, cure the defaults identified by the Lender and bring the loan into good standing. The agreement contains various compliance dates, but the final action in compliance with the forbearance agreement, must occur by February 1, 2022. The HIX Borrowers met the compliance requirements by February 1, 2022. As of June 30, 2023, the HIX Borrowers and Loan Guarantor are currently in good standing under the forbearance agreement.

Note 21. Related party transactions

The Financial Statements include the following transactions with related parties:

Advisory Fees

In accordance with the agreement entered into with the Advisor (the "Advisory Agreement"), the Company pays the Advisor an advisory fee equal to 1.00% of the REIT Asset Value (as defined below). Under the direct supervision of the Company, the duties performed by the Company's Advisor under the terms of the Advisory Agreement include, but are not limited to: providing daily management for the Company, selecting and working with third party service providers, overseeing the third party manager, formulating an investment strategy for the Company and selecting suitable properties and investments, managing the Company's outstanding debt and its interest rate exposure through derivative instruments, determining when to sell assets, and managing the renovation program or overseeing a third party vendor that implements the renovation program. REIT Asset Value means the value of the Company's total assets, as determined in accordance with IFRS except that such value shall only consolidate the Company's and NHT Holdings, LLC assets plus the Company's pro rata share of leverage at the OP.

Pursuant to the terms of the Advisory Agreement, the Company will reimburse the Advisor for all documented Operating Expenses and Offering Expenses it incurs on behalf of the Company. "Operating Expenses" include legal, accounting, financial and due diligence services performed by the Advisor that outside professionals or outside consultants would otherwise perform, the Company's pro rata share of rent, telephone, utilities, office furniture, equipment, machinery and other office, internal and overhead expenses of the Advisor required for the Company's operations, and compensation expenses under the Omnibus Plan (as defined in Note 23). Operating Expenses do not include expenses for the advisory services described in the Advisory Agreement. Certain Operating Expenses, such as the Company's ratable share of rent, telephone, utilities, office furniture, equipment, machinery and other office, internal and overhead expenses incurred by the Advisor or its affiliates that relate to the operations of the Company, may be billed monthly to the Company under a shared services agreement. "Offering Expenses" include all expenses (other than underwriters' discounts) in connection with an offering, including, without limitation, legal, accounting, printing, mailing, and filing fees and other documented offering expenses.

The Advisor has reinstated the previously waived 2020 advisory fees and the rebate of accrued but unpaid fees as of December 31, 2019. The Company will begin paying advisory fees when it is able to resume payments while remaining cash flow positive.

Expense Cap

Pursuant to the terms of the Advisory Agreement, expenses paid or incurred by the Company for advisory fees payable to the Advisor and expenses incurred by the Advisor or its affiliates in connection with the services it provides to the Company and its subsidiaries will not exceed 1.5% of REIT Asset Value for the calendar year (or part thereof that the Advisory Agreement is in effect (the "Expense Cap")). The Expense Cap does not limit the reimbursement of expenses related to Offering Expenses. The Expense Cap also does not apply to legal, accounting, financial, due diligence and other service fees incurred in connection with mergers and acquisitions, extraordinary litigation, or other events outside the Company's ordinary course of business or any out-of-pocket acquisition or due diligence expenses incurred in connection with the acquisition or disposition of real estate assets. For the six months ended June 30, 2023 and June 30, 2022, the Company incurred expenses subject to the Expense Cap of $1,631 and $2,532, respectively.

Internalization Fee

The Company and/or the OP may elect to acquire all of the outstanding and issued equity interests of the Advisor (the "Internalization") by exercising its rights, in its sole discretion, under the Advisory Agreement (subject to certain terms and conditions) to effect an Internalization. The Company will pay the Advisor a fee equal to three times the prior 12 months' Advisory Fee. The Internalization Fee is limited to 7.5% of the combined equity value of the Company and the OP on a consolidated basis as of the date of the Internalization. There has been no internalization as of June 30, 2023.

Termination Fee

If the Company and/or the OP elect to terminate the Advisory Agreement, the Company will pay the Advisor a fee (the "Termination Fee") equal to three times the prior 12 months' Advisory Fee. The Termination Fee is limited to 7.5% of the combined equity value of the Company and the OP on a consolidated basis as of the date the Advisory Agreement is terminated.

Loans from Affiliates

As of June 30, 2023, the OP has entered into several convertible notes with affiliates totaling $82,723 since January 8, 2019. The proceeds of the notes were used for general corporate and working capital purposes and have been consolidated into one account on the Consolidated Statements of Financial Position.

Other Related Party Transactions

The Company has in the past, and may in the future, utilize the services of affiliated parties. For the six months ended June 30, 2023, the Company paid de minimis fees to an affiliated bank, NexBank N.A. ("NexBank"), as the Company and its subsidiaries have several bank accounts at NexBank with a cumulative balance of $11,445 as of June 30, 2023. NexBank is an affiliate of the Advisor through common beneficial ownership.

Note 22. Supplemental Cash Flow Disclosure

Reconciliation of changes in liabilities, including movements of liabilities to cash flows arising from financing activities for the six months ended June 30, 2023 were as follows:

	Notes Payable, Net	Mezzanine Loans, Net	Total
Balance, December 31, 2022	$ 177,658	$ 18,000	$ 195,658
Changes from financing cash flows:			
Principal payments made	$ (689)	$ (1,500)	$ (2,189)
Total changes from financing cash flows	(689)	(1,500)	(2,189)
Liability related:			
Deferred financing costs accrued	26	30	56
Amortization of deferred financing costs on outstanding debt	354	—	354
Balance, June 30, 2023	$ 177,349	$ 16,530	$ 193,879
Current portion	$ 77,353	$ 16,530	$ 93,883
Held for Sale	$ 64,456	$ —	$ 64,456
Long-term portion	$ 35,540	$ —	$ 35,540

Note 23. Incentive Compensation Plan

The Company has adopted an omnibus equity incentive plan (the "Omnibus Plan") to allow for the grant of equity incentive awards to key officers and employees of the Company, independent trustees, and key employees of the Advisor. As part of the independent trustees' compensation, it is anticipated they will be granted deferred units ("DUs") in the future and may receive, at their election, 100% of their board compensation in the form of DUs. Under the Omnibus Plan, subject to adjustments according to the terms of the plan, the maximum number of Units available for issuance is 3,026,155, representing 20% of the issued and outstanding Units of the Company at the time the Omnibus Plan was adopted.

On June 28, 2021, the Company granted 339,687 DUs to the independent trustees. On December 13, 2021, the Company granted 210,000 DUs to the independent trustees. These DUs are issued but not outstanding and vested immediately upon grant. On December 13, 2021, the Company granted 2,475,000 PIUs in the OP to officers of the Company (2,029,200) and employees of the Advisor (445,800). The PIUs will vest ratably over four years (i.e., 25% per year), however, 50% of the PIUs can vest sooner if the value of the units in the table below is achieved, as determined by a recognized national valuation firm which performs regular valuations of the units. In no case can PIUs vest within one year of grant:

Vesting %		Upon Unit Price Achieving[1]	PIUs Vested
12.50%	$	2.00	294,375
12.50%		2.50	294,375
12.50%		3.00	294,375
12.50%		4.00	294,375
Total			1,177,500

[1]Price to be adjusted for dilutive events.

Assuming none of the performance metrics are met, the PIUs will vest as shown in the below table:

Vesting %	Date	PIUs Vested
25.00%	December 6, 2022	588,750
25.00%	December 6, 2023	588,750
25.00%	December 6, 2024	588,750
25.00%	December 6, 2025	588,750
Total		2,355,000

On December 6, 2022, 588,750 PIUs vested to officers of the company and employees of affiliates of the Advisor. Additionally, 294,375 PIUs vested on December 31, 2022, as the units reached the first price threshold. 120,000 units were forfeited as two employees of affiliates of the Advisor left their roles before the vesting dates.

Description	Units		Fair Value
PIUs vested in the OP, March 31, 2023	883,125	$	1,552
PIUs FV adjustment	—		(216)
Q2 PIU liability accrued over the quarter	—		184
PIUs vested in the OP, June 30, 2023	883,125	$	1,520

Upon conversion, grantees of the PIUs will receive Class B Units of the OP. As of June 30, 2023, 549,687 DUs and 2,355,000 PIUs have been granted under the Omnibus Plan with 121,468 DUs or PIUs remaining that may be granted.

On May 31, 2022, the Board of Trustees passed a resolution adopting a deferred unit plan (the "Deferred Unit Plan"). The Deferred Unit Plan was subsequently approved by unitholders at the annual general meeting held on June 30, 2022. The maximum number of DUs reserved for issuance under the Deferred Unit Plan at any time is 2,844,256. As of June 30, 2023, no DUs have been issued under this plan.

Note 24. Mezz Loan Minimum Multiple Amount Restatement

As discussed in Note 13, on January 8, 2019, the Company, through the OP, entered into the $35,000 Mezz Facility. The proceeds from the Mezz Facility were used to help fund a portion of the purchase price of the Nashville Property acquired on January 8, 2019.

The Mezz Facility included a provision which allows the lender to earn a minimum return on their capital (the "Minimum Return"). Although the final amount of the Minimum Return will not be known until the Mezz Facility is paid in full, the Minimum Return attributable to each period is able to be reasonably estimated and, as such, should have been accrued in each respective period. The Company had not accrued the additional interest payable related to the Minimum Return (the "Misstatement") as required under IFRS for the periods from inception (January 9, 2019) through December 31, 2022. The Minimum Return will be owed in full by the Company at maturity of the Mezz Facility, which is currently scheduled for December 8, 2023, along with the principal balance and applicable exit fees.

Management has determined that the impact of the Misstatement is not material to the consolidated financial statements for the years 2019, 2020, 2021, and 2022.

The cumulative balance of the Minimum Return from origination through December 31, 2022 of $5,165 has been recorded as a reduction to the opening Unitholders' Deficit and as an increase to accounts payable and other accrued liabilities on the Consolidated Statement of Financial Position for the six months ended June 30, 2023 and as a reduction to the ending Unitholders' Deficit Consolidated Statement of Financial Position for the year ended December 31, 2022 presented herein. Each prior period has been updated to reflect the impact of the Misstatement.

Period	Increase to Accounts Payable and Other Accrued Liabilities	Increase to Finance Costs from Operations
January 8, 2019 - December 31, 2019	$ 1,154	$ 1,154
Year Ended December 31, 2020	2,454	1,300
Year Ended December 31, 2021	3,973	1,519
Year Ended December 31, 2022	5,165	1,192

The tables below show the updated balances for each prior period had the Minimum Return been property recorded since origination of the Mezz Facility,

	NOTES	Twelve Months Ended December 31, 2022 Prior	December 31, 2022 Adjusted	December 31, 2021 Prior	December 31, 2021 Adjusted

Note 25. Subsequent Events

The Company evaluated subsequent events through August 29, 2023 to determine if any significant events occurred subsequent to the interim consolidated balance sheet dates that would have a material impact on the Financial Statements and note the following:

On August 11, 2023, NHT entered into an agreement to sell its HIX Nashville property for $120,000.

On August 29, 2023, NHT executed an amendment with the lender on the Mezz Facility to extend the maturity to December 8, 2023.

NexPoint Hospitality Trust Provides Update On Liquidity Solutions

March 30, 2021

DALLAS and TORONTO, March 30, 2021 /CNW/ -- NexPoint Hospitality Trust (TSX-V: NHT.U) ("NHT") today announced that a subsidiary of NHT has, between November 2020 and January 2021, issued convertible notes (the "Notes") in the aggregate principal amount of US$5.3 million (the "Liquidity Transactions") to an affiliate of NHT's external advisor.

The Notes bear interest at a rate of 2.25% per annum, and are repayable in trust units of NHT ("Trust Units") at the option of NHT in its sole discretion. The approval of the TSX Venture Exchange will be required prior to any amounts owing under the Notes being satisfied by the issuance of Trust Units. NHT used the proceeds of the Liquidity Transactions for general working capital purposes. Management believes the Liquidity Transactions will further strengthen NHT's balance sheet and liquidity profile to better position itself as the hospitality industry continues to rebound from the impact of the COVID-19 pandemic.

The Liquidity Transactions constituted a related party transaction as defined in Multilateral Instrument 61-101 – *Protection of Minority Security Holders in Special Transactions* ("MI 61-101"). The Liquidity Transactions were completed in reliance on (i) an available exemption from the formal valuation requirement of MI 61-101 provided in paragraph (a) of Section 5.5 of MI 61-101 and (ii) an available exemption from the minority shareholder requirement of MI 61-101 provided in paragraph (a) of Section 5.7(1) of MI 61-101. The fair market value of the Notes does not exceed and did not exceed at the time of issuance of any of the Notes 25% of NHT's market capitalization.

About NexPoint Hospitality Trust

NexPoint Hospitality Trust is a publicly traded real estate investment trust, with its units listed on the TSX Venture Exchange under the ticker NHT.U. NHT is focused on acquiring, owning and operating well located hospitality properties in the United States that offer a high current yield and in many cases, that are underperforming assets with the potential to increase in value through investments in capital improvements, a market-based recovery, brand

repositioning, revenue enhancements, operational improvements, reducing expense inefficiencies, and exploiting excess land or underutilized space. NHT owns 11 branded properties sponsored by Marriott, Hilton and InterContinental Hotels Group, located across the U.S., specifically in the Seattle, Portland, Dallas, Nashville and St. Petersburg markets. NHT is externally advised by NexPoint Real Estate Advisors VI, L.P. For more information, visit www.nexpointhospitality.com.

Cautionary Statement Regarding Forward-Looking Information

This news release may contain forward-looking information within the meaning of applicable securities legislation, which reflects NHT's current expectations regarding future events and in some cases can be identified by terms such as "will", "may", "expected" and other similar expressions. Forward-looking information is based on a number of assumptions and is subject to a number of risks and uncertainties, many of which are beyond NHT's control, that could cause actual results and events to differ materially from those that are disclosed in or implied by such forward-looking information. Such risks and uncertainties include, but are not limited to, risks related to the effect of the Liquidity Transactions on NHT's balance sheet and liquidity profile and the ability of the hospitality industry to recover from the impact of the COVID-19 pandemic. Information contained in forward-looking statements is based upon certain material assumptions. While management considers these assumptions to be reasonable based on currently available information, they may prove to be incorrect. NHT does not undertake any obligation to update such forward-looking information, whether as a result of new information, future events or otherwise, except as expressly required by applicable law. This forward-looking information speaks only as of the date of this news release.

Neither TSX Venture Exchange nor its Regulation Services Provider (as that term is defined in policies of the TSX Venture Exchange) accepts responsibility for the adequacy or accuracy of this release.

NEXPOINT
HOSPITALITY TRUST

FOR IMMEDIATE RELEASE

NOT FOR DISSEMINATION TO U.S. NEWS WIRE SERVICES OR DISSEMINATION IN THE UNITED STATES

NexPoint Hospitality Trust Announces Fiscal Year 2021 Financial Results, Acquisition Activity, Convertible Notes, Equity Awards Under the Omnibus Plan

DALLAS and TORONTO, April 8, 2022 -- NexPoint Hospitality Trust ("NHT"[1]), (TSX-V: NHT.U) announced the release of NHT's financial results for the twelve months ended December 31, 2021. All amounts are expressed in U.S. dollars.

The table below presents Net Income (Loss), FFO and AFFO.

	For the Year Ended	
	December 31, 2021	**December 31, 2020**
Net Income (Loss)	$ 24.3	$ (112.3)
FFO[2]	(9.2)	(17.6)
AFFO[2]	(10.5)	(20.2)

The table below presents Occupancy, ADR and RevPAR.

	For the Year Ended	
	December 31, 2021	**December 31, 2020**
Occupancy	62.6%	41.8%
ADR	$ 122.16	$ 110.14
RevPAR	$ 78.85	$ 47.16

Additional information on 2021 financial and operational results can be found at www.sedar.com in our 2021 audited consolidated financial statements and management discussion and analysis ("MD&A").

Acquisition Activity

NHT acquired the Hyatt Place in Park City, Utah on February 15, 2022. Located minutes away from one of America's premier outdoor sports destinations, the Hyatt Place has 122 rooms, several dining options, an outdoor pool and hot tub, and secure sports equipment storage options.

[1] In this release, "we," "us," "our," and "NHT" each refer to NexPoint Hospitality Trust.
[2] FFO, Core FFO and AFFO are non-IFRS measures. See "Non-IFRS Financial Measures" in our MD&A for definitions of each of these measures and a reconciliation of these measures to Net Income.

NEXPOINT
HOSPITALITY TRUST

Additionally, NHT acquired the Hampton Inn & Suites Bradenton Downtown Historic District in Bradenton, Florida on February 22, 2022. The property boasts 119 rooms, a fitness center, an outdoor pool, and 2,282 square feet of meeting space. The Hampton Inn & Suites is centrally located, with easy access to several beaches, a business district, and various entertainment venues.

Both new properties have performed well since acquisition as they were both in season in February and through mid-March. As the Park City asset moves out of season, Management expects to begin value-add renovations.

NHT Capitalization Updates

NHT announced that a subsidiary of NHT has, between July 2021 and December 2021, issued convertible notes (the "Notes") in the aggregate principal amount of US$19.09 million (the "Liquidity Transactions") to affiliates of NHT's external advisor.

The Notes bear interest at a rate of 2.25% per annum and are repayable in membership interests ("Membership Interests") of NHT's operating subsidiary, NHT Operating Partnership, LLC (the "OP"), which are redeemable for trust units of NHT ("Trust Units") at the option of NHT in its sole discretion. The approval of the TSX Venture Exchange will be required prior to any conversion of the Membership Interests into Trust Units. NHT used the proceeds of the Liquidity Transactions for general working capital purposes. Management believes the Liquidity Transactions will further strengthen NHT's balance sheet and liquidity profile to better position itself as the hospitality industry continues to rebound from the impact of the COVID-19 pandemic. The fair market value of each Note does not exceed and did not exceed at the time of issuance of such Note 25% of NHT's market capitalization.

Each of the Liquidity Transactions constituted a related party transaction as defined in Multilateral Instrument 61-101 – Protection of Minority Security Holders in Special Transactions ("MI 61-101"). The Liquidity Transactions were completed in reliance on (i) an available exemption from the formal valuation requirement of MI 61-101 provided in paragraph (a) of Section 5.5 of MI 61-101 and (ii) an available exemption from the minority shareholder requirement of MI 61-101 provided in paragraph (a) of Section 5.7(1) of MI 61-101.

Additionally, in December 2021 pursuant to NHT's omnibus equity incentive plan, NHT issued 210,000 Deferred Units to the independent trustees and 2,475,000 Profits Interests in the OP to officers of NHT and employees of the Advisor. As of December 31, 2021, there are 1,468 Deferred Units or Profits Interests remaining that may be granted under the omnibus equity incentive plan. The Deferred Units vested immediately. The Profits Interests vest ratably over four years, however, 50% of the Profits Interests can vest sooner if certain unit price thresholds are achieved. See note 23 of the audited consolidated financial statements for a detailed discussion of equity awards under the omnibus equity incentive plan.

FOR IMMEDIATE RELEASE

NOT FOR DISSEMINATION TO U.S. NEWS WIRE SERVICES OR DISSEMINATION IN THE UNITED STATES

NexPoint Hospitality Trust Announces First Quarter 2022 Financial Results, Intent to Sell DoubleTree Portfolio, and Convertible Notes

DALLAS and TORONTO, May 27, 2022 -- NexPoint Hospitality Trust ("NHT"[1]), (TSX-V: NHT.U) announced the release of NHT's financial results for the three months ended March 31, 2022. All amounts are expressed in U.S. dollars.

The table below presents Net Income, FFO and AFFO.

	For the Three Months Ended	
	March 31, 2022	**March 31, 2021**
Net Income	$ 0.7	$ 13.5
FFO[2]	5.9	(8.0)
AFFO[2]	3.5	(8.5)

The table below presents Occupancy, ADR and RevPAR.

	For the Three Months Ended	
	March 31, 2022	**March 31, 2021**
Occupancy	60.8%	51.9%
ADR	$ 152.52	$ 93.79
RevPAR	$ 95.31	$ 48.39

Additional information on 2022 financial and operational results can be found at www.sedar.com in our 2022 interim consolidated financial statements and management discussion and analysis ("MD&A").

DoubleTree Portfolio

On March 8, 2022, the Company began the marketing process to sell its DoubleTree Portfolio. As of May 27, 2022, the Company has received multiple offers and expects the transaction to close in the third quarter of 2022. The Company will use the proceeds from the sale to pay down the outstanding debt on the DT Portfolio with the remaining proceeds used to make principal paydowns on existing third party debt.

[1] In this release, "we," "us," "our," and "NHT" each refer to NexPoint Hospitality Trust.
[2] FFO and AFFO are non-IFRS measures. See "Non-IFRS Financial Measures" in our MD&A for definitions of each of these measures and a reconciliation of these measures to Net Income.

NHT Capitalization Updates

NHT announced that a subsidiary of NHT has, between January 1, 2022, and March 31, 2022, issued convertible notes (the "Notes") in the aggregate principal amount of US$27.48 million (the "Liquidity Transactions") to affiliates of NHT's external advisor. NHT repaid $4.55 million of principal to affiliates in the first quarter of 2022.

The Notes bear interest at varying rates and are repayable in membership interests ("Membership Interests") of NHT's operating subsidiary, NHT Operating Partnership, LLC (the "OP"), which are redeemable for trust units of NHT ("Trust Units") at the option of NHT in its sole discretion. The approval of the TSX Venture Exchange will be required prior to any conversion of the Membership Interests into Trust Units. NHT used the proceeds of the Liquidity Transactions for general working capital purposes. Management believes the Liquidity Transactions will further strengthen NHT's balance sheet and liquidity profile to better position itself as the hospitality industry continues to rebound from the impact of the COVID-19 pandemic. The fair market value of each Note does not exceed and did not exceed at the time of issuance of such Note 25% of NHT's market capitalization.

Each of the Liquidity Transactions constituted a related party transaction as defined in Multilateral Instrument 61-101 – Protection of Minority Security Holders in Special Transactions ("MI 61-101"). The Liquidity Transactions were completed in reliance on (i) an available exemption from the formal valuation requirement of MI 61-101 provided in paragraph (a) of Section 5.5 of MI 61-101 and (ii) an available exemption from the minority shareholder requirement of MI 61-101 provided in paragraph (a) of Section 5.7(1) of MI 61-101.

ADR	$ 155.41	$ 144.66	$ 158.78	$ 119.34
RevPAR	$ 108.64	$ 100.62	$ 108.70	$ 76.26

DoubleTree Portfolio

On March 8, 2022, the Company began the marketing process to sell its DoubleTree Portfolio. As of September 30, 2022, the Company has sold the Beaverton property and Vancouver property for a combined purchase price of US$29 million. The Company has executed purchase and sale agreements on the Tigard property and Bend property for a combined purchase price of US$53 million and expects these transactions to close in the fourth quarter of 2022. The Company will use the proceeds from the sale to pay down the outstanding debt on the DoubleTree Portfolio.

The Company has opted to no longer sell the Olympia property at this time.

NHT Capitalization Updates

NHT previously announced that a subsidiary of NHT had, between July 1, 2022, and September 30, 2022, issued convertible notes (the "Notes") in the aggregate principal amount of US$8.5 million (the "Liquidity Transactions") to affiliates of NHT's external advisor.

The Notes bear interest at varying rates and are repayable in membership interests ("Membership Interests") of NHT's operating subsidiary, NHT Operating Partnership, LLC (the "OP"), which are redeemable for trust units of NHT ("Trust Units") at the option of NHT in its sole discretion. The approval of the TSX Venture Exchange will be required prior to any conversion of the Membership Interests into Trust Units. NHT used the proceeds of the Liquidity Transactions for general working capital purposes. Management believes the Liquidity Transactions will further strengthen NHT's balance sheet and liquidity profile to better position itself as the hospitality industry continues to rebound from the impact of the COVID-19 pandemic. The fair market value of each Note does not exceed and did not exceed at the time of issuance of such Note 25% of NHT's market capitalization.

Each of the Liquidity Transactions constituted a related party transaction as defined in Multilateral Instrument 61-101 – Protection of Minority Security Holders in Special Transactions ("MI 61-101"). The Liquidity Transactions were completed in reliance on (i) an available exemption from the formal valuation requirement of MI 61-101 provided in paragraph (a) of Section 5.5 of MI 61-101 and (ii) an available exemption from the minority shareholder requirement of MI 61-101 provided in paragraph (a) of Section 5.7(1) of MI 61-101.

Non-IFRS Financial Measures

FFO and AFFO are key measures of performance commonly used by real estate operating companies and real estate investment trusts. They are not measures recognized under International Financial Reporting Standards ("IFRS") and do not have standardized meanings prescribed by IFRS. FFO and AFFO may not be comparable to similar measures presented by other issuers in the real estate or lodging industries. For complete definitions of these measures, as well as an explanation of their composition and how the measures provide useful information to investors, please refer to the section titled "Non-IFRS Financial

Measures" in NHT's MD&A for the three months and nine months ended September 30, 2022, which section is hereby incorporated herein by reference.

The following is a reconciliation of our net income to FFO and AFFO for the three months and nine months ended September 30, 2022 and September 30, 2021:

	For the Three Months Ended		For the Nine Months Ended	
	September 30, 2022 $	September 30, 2021 $	September 30, 2022 $	September 30, 2021 $

About NHT

NexPoint Hospitality Trust is a publicly traded real estate investment trust, with its Units listed on the TSX Venture Exchange under the ticker NHT.U. and NHT is focused on acquiring, owning and operating well-located hospitality properties in the United States that offer a high current yield and in many cases are underperforming assets with the potential to increase in value through investments in capital improvements, a market-based recovery, brand repositioning, revenue enhancements, operational improvements, expense inefficiencies, and exploiting excess land or underutilized space. NHT owns 11 branded properties sponsored by Marriott, Hilton, Hyatt, and Intercontinental Hotels Group, located across the U.S. NHT is externally advised by NexPoint Real Estate Advisors VI, L.P.

Neither TSX Venture Exchange nor its Regulation Services Provider (as that term is defined in policies of the TSX Venture Exchange) accepts responsibility for the adequacy or accuracy of this release.

Independent Auditor's Report

To the Unitholders and Board of Directors of
NexPoint Hospitality Trust

Opinion on the Consolidated Financial Statements

We have audited the accompanying consolidated statements of financial position of NexPoint Hospitality Trust (the "Company") as of December 31, 2022 and 2021, and the related consolidated statements of income and comprehensive income, unitholders' equity, and cash flows for the years then ended, and the related notes (collectively, the "consolidated financial statements"), including a summary of significant accounting policies.

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the financial position of the Company as of December 31, 2022 and 2021, and results of its operations and its cash flows for the years then ended, in accordance with International Financial Reporting Standards (IFRS), as issued by International Accounting Standards Board.

Basis for Opinion

We conducted our audit in accordance with Canadian generally accepted auditing standards (CAS). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Company in accordance with the ethical requirements that are relevant to our audit of the consolidated financial statements in Canada, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Material Uncertainty Related to Going Concern

We draw attention to Notes 2(a) and 13 of the accompanying consolidated financial statements, which indicate the Company has a $11,486,000 working deficit (Note 2(a)), related mostly to the current portion of notes payable and mezzanine loan of $19,386,000 (Note 13). As stated in Note 2(a), these events or conditions, along with other matters as set forth in Note 2(a), indicate that a material uncertainty exists that may cast significant doubt about the Company's ability to continue as a going concern. Our opinion is not modified in respect of this matter.

Key Audit Matters

Key audit matters are those matters that, in the auditor's professional judgement, were of most significance in the audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Investments in hotel properties, net - Indicators of impairment and recovery

Description of the Matter

As of December 31, 2022, the Company had investments in hotel properties, net of accumulated depreciation, impairment, and recoveries, of $284,290,000. As further disclosed in Note 6 in the notes to the consolidated financial statements, the Company records impairment losses on hotel properties used in operations if indicators of impairment are present and the sum of the undiscounted cash flows estimated to be generated by the respective properties over their estimated remaining useful life, based on historical and industry data, is less than the properties' carrying amounts. If the sum of the undiscounted cash flows estimated indicates the impairment loss has decreased from a previous period, the Company records impairment recoveries on hotel properties used in operations. Many indicators of impairment and recovery are subjective. The Company prepares an annual recoverability analysis assuming estimated cash flows for each of its properties to assist with its evaluation of impairment indicators. In association with the recovery test, the Company also evaluates whether a recovery of a previous impairment loss should be recorded.

Auditing management's analysis is complex due to the highly judgmental nature of identifying indicators of impairment as well as any change in the property's intended hold period and projected undiscounted future cash flows. In addition, assessing for recovery requires a similar highly judgmental process as assessing the indicators of impairment.

How We Addressed the Matter in Our Audit

We obtained an understanding and evaluated the design over the Company's review of indicators of impairment, including changes in the intended hold period.

Our testing of the Company's indicators of impairment or recoverability included, among others, testing the recoverability analysis, both internally and through corroboration with third-party industry guides and industry experts. For example, we tested estimated cash flows by comparing them to historical operating results by property and current industry, market, and economic trends through third-party industry guides. In addition, we considered the hold period necessary for the property's carrying value to be recovered via undiscounted cash flows. We held discussions with management about the status of any potential transactions and management's judgments to understand the probability of future events that could affect the holding period and other cash flow assumptions for the properties.

Material uncertainty related to going concern

See the Material Uncertainty Related to Going Concern section of this report for further discussion on this matter.

Other Information

Management is responsible for the other information. Other information comprises Management's Discussion and Analysis filed with the relevant Canadian Securities Commissions. Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audits of the consolidated financial statements, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audits, or otherwise appears to be materially misstated.

We obtained Management's Discussion and Analysis filed with the relevant Canadian Securities Commissions as of the date of this auditor's report. If, based on the work we have performed on this other information, we conclude that there is a material misstatement of this other information, we are required to report that fact in the auditor's report. We have nothing to report in this regard.

Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with IFRS, and for such internal control as management determines is necessary to enable the preparation of the consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian generally accepted auditing standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the consolidated financial statements.

As part of an audit in accordance with Canadian generally accepted auditing standards, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

- Conclude on the appropriateness of management's use of going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to event or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of the auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

- Evaluate the overall presentation, structure, and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

- Communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during the audit.

- Provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and communicate with them all relationships and other matters that may reasonable be thought to bear on our independence, and where applicable, related safeguards.

- From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities with the group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

The engagement partner on the audit resulting in this independent auditor's report is Ashley M. Babinchak.

Note 1. Overview

NexPoint Hospitality Trust ("NHT" or the "Company") is an unincorporated, open-ended real estate investment trust ("REIT") established pursuant to a declaration of trust dated December 12, 2018 under the laws of the Province of Ontario. The registered office of the Company is at 333 Bay Street, Suite 3400, Toronto, Ontario. NHT was created for the purpose of initially acquiring a portfolio of 11 hospitality assets located in the United States (the "Initial Portfolio"), to raise capital to acquire additional U.S. located hospitality assets that meet its investment objectives and criteria and to own, renovate and operate its portfolio of income-producing hotel properties. NHT is externally managed by NexPoint Real Estate Advisors VI, L.P. (the "Advisor"), which was formed for the purpose of managing NHT and is related to the Company through common indirect ownership as well as common control.

NHT has elected to be treated as a REIT under U.S. tax laws. Substantially all of NHT's business will be conducted through NHT Operating Partnership, LLC (the "OP"), NHT's operating partnership, which is a Delaware limited liability company. NHT owns its properties through the OP and its subsidiaries. The OP and its subsidiaries lease the properties to taxable REIT subsidiaries of NHT (the "TRS Entities") to operate. For NHT to qualify as a REIT under the United States Internal Revenue Code of 1986, as amended (the "Code"), NHT cannot operate directly or indirectly any of the hotels it acquires and owns. Therefore, the OP and its subsidiaries lease the hotels to the TRS Entities who in turn engage eligible independent contractors (as defined in the Code), which for the Initial Portfolio and subsequent additions are affiliates of Aimbridge Hospitality Holdings, LLC, to manage the hotels.

The objectives of NHT are to: (a) provide unitholders with an opportunity to invest in an initial portfolio of extended-stay, select-service and efficient full service hotels located in attractive U.S. markets and competitively positioned to outperform the industry as a whole; (b) provide unitholders with predictable, sustainable and growing tax efficient cash distributions; (c) enhance the value of NHT's assets and maximize the long-term value of the Class A units of the OP (the "Class A Units"), Class B units of the OP (the "Class B Units") and trust units of NHT (the "Units"), collectively, through active asset and property management programs and procedures and a renovation program; and (d) expand the asset base of NHT primarily through acquisitions and improvements of its properties, including the Initial Portfolio, using targeted and strategic capital expenditures.

NHT's Units are listed on the TSX Venture Exchange (the "TSXV") under the symbol NHT.U.

Formation of NHT and the Initial Portfolio

On January 8, 2019, three groups of investors contributed their interests in various entities (the "Contribution Entities") to NHT Holdco LLC ("Holdco") in exchange for 100% of the units of Holdco. Holdco then contributed its interests in the Contribution Entities to a subsidiary of Holdco, NHT Intermediary, LLC ("Intermediary") in exchange for 100% of the common and preferred units of Intermediary. Intermediary then contributed its interests in the Contribution Entities to NHT Holdings, LLC ("Holdings") in exchange for 100% of the units of Holdings. Holdings then contributed its interests in the Contribution Entities to the OP in exchange for 14,213,077 Class A Units (these transactions collectively are referred to as the "Class A Contributions"). Simultaneously with the Class A Contributions, NexPoint Real Estate Opportunities, LLC ("NREO") and minority members contributed their interests in two entities, to the OP in exchange for 13,573,391 Class B Units (the "Class B Contributions" and together with the Class A Contributions the "Initial Transaction"). 2,779 Class B Units were issued as a nominal interest to the General Partner. The Class A Contributions were considered to be common-control transactions and were accounted for using book value accounting. The Class B Contributions were considered to be a business combination and were accounted for using the purchase method of accounting in accordance with IFRS 3, *Business Combinations* ("IFRS 3"). Subsequent to the Initial Transaction, the OP owned a direct interest in the Initial Portfolio.

On March 27, 2019, Holdco contributed its interests in Intermediary to NHT in exchange for 14,213,077 Units. The transaction was considered to be a common-control transaction and was accounted for using book value accounting. Subsequent to the steps described above, NHT indirectly owns the Initial Portfolio.

The hotels in the Initial Portfolio are located across the U.S. All of the hotels in the Initial Portfolio are franchised with the following brands: Hilton Hotels under the following brands: (i) DoubleTree (five hotels) (the "DT Portfolio"); (ii) HomeWood Suites (three hotels) (the "HWS Portfolio"); and (iii) Hilton Garden Inn (one hotel) (the "HGI Property"); Marriott under the Marriott brand (one hotel) (the "St. Pete Property"); and InterContinental Hotels Group under the Holiday Inn Express brand (one hotel) (the "Nashville Property").

For the period from December 12, 2018 to January 8, 2019, the Company's only transaction consisted of the issuance of one Unit for fifteen dollars.

Note 2. Basis of Preparation

a) Going concern

The global response to the COVID-19 pandemic had a large negative impact on the Company's operations in 2020 and the first quarter of 2021. Public companies in the North American lodging sector generally saw a significant decline in their stock prices on average during 2020. The well-publicized impacts on the hospitality industry, including shelter-in-place orders in the markets in which the Company operates, as well as a reduction in transient business travel, which the Company relies upon, reduced the Company's room rates and occupancies and had a significant impact on the Company's operations in 2020 and early 2021. Additionally, data shows that air travel, and consequently, hotel occupancy and average daily rates, were down significantly, with large groups having canceled events. Occupancy declined from an average of 75.1% across the portfolio in 2019 to a low of 12.17% across the portfolio during April 2020, and the Average Daily Rate ("ADR") declined from an average of $145.81 in 2019 to a low of $93.95 during April 2020.

Since the end of January 2021, the hospitality sector in general and the Company specifically have seen significant improvements in operations. Notwithstanding seasonality trends, the fourth quarter of 2022 showed continued improvement over the fourth quarter of 2021 and fourth quarter 2020, with an occupancy of 67.3% across the portfolio compared to 63.1% and 41.4% in the fourth quarter of 2021 and 2020, respectively. We have seen a rebound in occupancy and ADR as COVID-19 vaccines have been globally rolled out, restrictions have been removed altogether, and people have resumed travel. Large group and convention business and business transient bookings have returned to pre-COVID levels as most employees have returned to the office either full-time or in a hybrid model and businesses have removed travel restrictions, enabling the transient segment to recover to pre-COVID levels

At December 31, 2022, the Company had a working capital deficit of $11,486, of which $18,000 relates to the principal balance on the Mezz Facility (as defined in Note 13), which was originally due on January 8, 2020. The impact to the global economy caused by the response to the COVID-19 pandemic had negatively impacted the Company's ability to obtain new financing, and as a result, the Company was unable to refinance the principal balance of the Mezz Facility. As of the date of these audited consolidated financial statements, the Company has obtained another extension for the maturity of the Mezz Facility until July 8, 2023. See Note 24.

At December 31, 2022, the Company had $1,386 of amortizing principal payments and $16,501 of other liabilities due over the next twelve months through December 31, 2023. Of the liabilities, the Company has payment plans in place for $1,823 of these liabilities and continues to work with vendors for the remainder to make repayment by December 31, 2023. The Company added $36,829 of debt to secure the purchases of the Hampton Bradenton and Hyatt Park Cities properties in February of 2022. The DT Loan, Mezz A Loan and Mezz B Loan (each as defined in Note 13), were repaid December 8, 2022 with the proceeds from the sale of the DT Bend property December 31, 2022.

On September 18, 2020, the lender on the HIX Loan (as defined in Note 13) delivered a formal notice of default. NHT Nashville, LLC and NHT Nashville TRS, LLC, the borrowers on the loan (the "HIX Borrowers"), worked with the lender to achieve a mutually agreeable resolution in May 2021, which resolved the default. Those discussions resulted in the HIX Borrowers and the OP, the guarantor on the loan ("Loan Guarantor"), signing a forbearance agreement. The HIX Borrowers cured all events of default and met all compliance requirements of the forbearance agreement on February 1, 2022 and the loan is now in good standing. See Note 20(b).

As of December 31, 2022, the Company is in good standing with the lenders on all of its outstanding Loans (as defined in Note 13). Covenant waivers have been granted at various dates on each loan or the lender has informally, or formally, agreed not to pursue available remedies currently.

Management is actively working towards addressing the matters noted above that create uncertainty for the Company as a going concern, which includes the following:

i) The Company has been granted extensions of the maturity of the Mezz Facility while each party continues in good faith discussions to restructure the facility.

ii) On March 24, 2020, the board of the Company agreed to temporarily suspend distributions for the foreseeable future to conserve cash.

iii) The Company expects to settle most of its amounts due to affiliates through the issuance of additional Class B Units, most of which do not mature for 20 years. See Notes 13, 14, and 21.

iv) On March 24, 2020, the Advisor agreed to defer the advisory fee until such time as the Company is no longer in forbearance with its lenders and is able to resume payments while remaining cash flow positive. The Advisor did not collect any fees for the years ended December 31, 2022, 2021, or 2020.

v) Marriott has revised the required property improvement plan (the “PIP”) for the St. Pete property, which is now expected to cost $7,200 in total and has granted an extension for completion in two phases: June 30, 2021 and December 31, 2022. As of December 31, 2022 the Company has $1,200 in reserves with the lender that can be used toward the PIP. The first phase of the PIP was completed in November 2021 and the Company started the second phase of the renovation in late 2022.

vi) Affiliates of the Advisor provided $36,975 to the Company through the fourth quarter of 2022, in the form of convertible notes. The Company also repaid $4,550 of principal to affiliates in the first quarter of 2022. The Company does not anticipate needing regular cash infusions any longer as Management believes the Company will be cash flow positive in 2023. See Note 13 and Note 21.

vii) States and cities have removed COVID-19 restrictions altogether, all of which is significantly improving the outlook for the lodging sector overall and for the Company specifically. This is displayed in the increase of future group bookings for 2022 and 2023. Occupancy and ADR across the portfolio have increased from 63.1% and $130.53, respectively from the fourth quarter of 2021 to 67.3% and $146.01, respectively for the fourth quarter of 2022.

viii) On August 24, 2022, the Company sold the DT Vancouver Property, on September 30, 2022, the Company sold the DT Beaverton Property, and on December 8, 2022, the Company sold the DT Bend Property. The Company anticipates the sale of the DT Tigard Property to occur before the end of 2023. The Company used the proceeds from these sales to de-lever the portfolio, retiring all debt associated with the Double Tree properties. See Note 6 for a further discussion.

There can be no assurance that the Company will continue to generate positive cash flows from operations, whether any of these required measures may be completed, or whether they will provide the Company with sufficient liquidity. In order to continue as a going concern, the Company needs to (i) generate positive cash flows, which assumes the continuance of current operations, (ii) be successful in continuing to obtain the concessions from its creditors as noted above, and such concessions must provide the Company with sufficient liquidity to fund its cash flow deficits in the intervening period, and (iii) be successful in refinancing its notes and mezzanine loans payable as they come due. As a result of these facts, the Company has determined there is a potential risk about the Company’s ability to continue as a going concern and, therefore, realize its assets and discharge its liabilities in the normal course of business.

These audited consolidated financial statements of the Company (the “Financial Statements”) have been prepared on a going concern basis, which assumes the Company will continue its operations in the foreseeable future and will be able to realize its assets and discharge its liabilities and commitments in the ordinary course of business. The Financial Statements do not include any adjustments to classification of assets and liabilities and reported expenses that may be necessary if the going concern basis was not appropriate for these Financial Statements. If the Company is unable to continue as a going concern, material write-downs to the carrying values of the Company’s assets, could be required.

Although management believes it can continue as a going concern if the plan outlined above comes to fruition, it is important to note that many of the assumptions included in management’s internal cash flow projections are out of its control. For example, the Company does not control the timing of the distribution of the COVID-19 vaccine and boosters, the spread of any new variants of the COVID-19 virus or whether governmental authorities may impose new shelter-in-place orders as variants of the virus continue to mutate, as has been the case in some other jurisdictions. For these reasons, it is difficult for the Company to estimate the likelihood of these events occurring, the timing of when they may occur or the impact they will have once they occur. The Company is optimistic but proceeds with caution in determining recovery assumptions in management’s internal cash flow projections as there are many factors to consider.

Additionally, the Company has a significant portion of its debt maturing in the next twelve months, with $77,400 in notes maturing in March 2024. Management believes the aforementioned cash flow uncertainty paired with the significant note maturities can potentially have an adverse affect on the Company.

Finally, inflation in the United States is at a 40-year high, with the country experiencing prolonged periods of negative GDP growth as a result. The Company has not seen a negative impact on performance like it did with COVID-19, but management continues to monitor the economic indicators and their potential negative impact on the portfolio.

b) Statement of compliance

These Financial Statements have been prepared by management in accordance with International Financial Report Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB"). These Financial Statements are presented in U.S. dollars, which is the functional currency of the Company, and all amounts have been rounded to the nearest thousand, except when otherwise indicated, such as unit counts and per unit amounts.

The Financial Statements were authorized for issue by the Board of Trustees of NHT on April 4, 2023.

c) Basis of presentation

The Initial Portfolio was acquired by the Company on March 27, 2019, as a result of the contribution of the common and preferred interests in Intermediary to the Company by Holdco in exchange for Units. On January 8, 2019, these assets were contributed to entities under the control of Holdco. The Company and Intermediary are considered to be under common control since at the time of contribution Holdco owned 100% of the interests in Intermediary and subsequent to the completion of the contribution of Intermediary owned 100% of the Company. The Financial Statements reflect the financial position and results of operations as if the Company had owned the Initial Portfolio since January 8, 2019.

d) Basis of measurement

The Financial Statements have been prepared on a historical cost basis, except for Class B Units, interest rate swaps and interest rate caps which are recorded at fair value through profit and loss.

e) Use of estimates and judgments

The preparation of the Financial Statements in conformity with IFRS requires management to make estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the Financial Statements. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised and in any future periods affected. Assumptions and estimation uncertainties that have a significant risk of resulting in a material adjustment within the future financial year relate to interest rate swaps, interest rate caps, the assessment of impairment of property and equipment, indefinite life intangible assets as described in Note 3(e).

In the process of applying the accounting policies, the Company makes various judgments, apart from those involving estimations, that can significantly affect the amounts it recognized in the Financial Statements. Information about critical judgments in applying accounting policies that have the most significant effect on the amounts recognized in the Financial Statements relate to the following:

i) The componentization of property and equipment as described in Note 3(d).
ii) Impairment of property and equipment or the recovery of prior impairment as described in Note 3(e).
iii) Management's assessment of whether the acquisition of a property should be accounted for as an asset purchase or business combination. This assessment impacts the accounting treatment of transaction costs, the allocation of the costs associated with the acquisition and whether or not goodwill is recognized. The Company's acquisitions are generally determined to be business combinations as the Company acquires an integrated set of processes as part of the acquisition transaction.
iv) Management's assessment of whether or not the Company controls entities in which it has an interest. This involves evaluating the Company's ability to make decisions over the relevant activities of such entities and to determine to what extent the Company is exposed to the variable returns of the entities. This assessment impacts the identification of the Company's subsidiaries and as a result which entities it consolidates.
v) The Company's ability to continue as a going concern as detailed in Note 2(a). This determination involves making assumptions about future events and about how third parties, which act independently of the Company and its assumptions, may react to current and future events that have an impact on the Company's ability to continue as a going concern.

Note 3. Significant Accounting Policies

The significant accounting policies used in the preparation of the Financial Statements are described below and have been applied consistently to all periods presented:

a) Basis of consolidation

The Financial Statements include the accounts of the Company and its wholly owned subsidiaries including Holdings, the OP and subsidiaries of the OP, which are controlled by the Company in accordance with IFRS 10, *Consolidated Financial Statements*. Control exists when the Company is exposed to or has the rights to variable returns from its involvement with the entity and has the ability to affect those returns through its power. All significant intercompany accounts and transactions have been eliminated on consolidation.

b) Business combinations

At the time of acquisition of a property, whether through a controlling share investment or directly, the Company considers whether the acquisition represents the acquisition of a business. The Company accounts for an acquisition as a business combination where an integrated set of activities is acquired in addition to the property. More specifically, the extent to which significant processes are acquired is considered. If no significant processes, or only insignificant processes, are acquired, the acquisition is treated as an asset acquisition rather than a business combination. The Company generally considers the acquisition of a hospitality asset to be a business combination as an integrated set of activities with significant processes are acquired in the transaction.

The purchase price of a business combination is measured as the fair value of the assets given, equity instruments issued and liabilities incurred or assumed at the acquisition date. Identifiable assets acquired and liabilities and contingent liabilities assumed in a business combination are measured initially at fair value at the date of acquisition. The Company recognizes assets or liabilities, if any, resulting from a contingent consideration arrangement at their acquisition date fair value and such amounts form part of the purchase price of the business combination. Subsequent changes in the fair value of contingent consideration arrangements are recognized in profit or loss. The difference between the purchase price and the fair value of the acquired identifiable net assets and liabilities is goodwill. On the date of acquisition, positive goodwill is recorded as an asset in the Company's Consolidated Statement of Financial Position. Negative goodwill is immediately recognized in profit or loss. The Company expenses transaction costs associated with business combinations in the period incurred.

When an acquisition does not meet the criteria for business combination, it is accounted for as an acquisition of a group of assets and liabilities. The purchase price of the acquisition, including transaction costs, are allocated to the assets and liabilities acquired based upon their relative fair values. No goodwill is recognized for asset acquisitions.

In February 2022, the Company acquired the Hyatt Place in Park City, Utah and the Hampton Inn & Suites in Bradenton, Florida. Both acquisitions were accounted for as business combinations.

c) Functional currency

The functional and presentation currency of the Company and its subsidiaries is the U.S. dollar. All amounts have been rounded to the nearest thousand, except when otherwise indicated, such as unit counts and per unit amounts.

d) Property and equipment

(i) Recognition and measurement

Property and equipment are measured at cost less accumulated depreciation and any accumulated impairment losses. Cost includes initial acquisition costs and other direct costs. Significant parts of the buildings are accounted for as separate components of the property, based on management's judgment of what components constitute a significant cost in relation to the total cost of an asset and whether these components have similar or dissimilar patterns of consumption and useful lives for purposes of calculating depreciation.

(ii) Subsequent costs

The cost of replacing a part of an item of property and equipment is recognized in the carrying amount of the item if it is probable that the future economic benefits embodied within the part will flow to the Company and its cost can be measured reliably. The carrying amount of the replaced part is derecognized. The costs of the day-to-day maintenance of property and equipment are recognized in profit or loss as incurred.

(iii) Depreciation

Depreciation is computed on a straight-line basis based on the useful lives of each component of property and equipment. Depreciation on new construction commences in the month after the asset is available for its intended use based upon the useful life of the asset.

Estimated useful lives were determined based on current facts and past experience, and take into consideration the anticipated physical life of the asset and its components and current and forecasted demand. The rates and methods used are reviewed annually at year end to ensure they continue to be appropriate, and are also reviewed in conjunction with impairment testing. Gains or losses on disposition of property and equipment are recognized in profit or loss when the Company has transferred to the purchaser the significant risk and rewards of ownership of the property and equipment and the purchaser has made a substantial commitment demonstrating its intent to honor its obligation.

Asset	Useful Life (Years)
Building structure	40
Buildings - mechanical, electrical and elevators	30
Buildings - roof, windows, and doors	20
Building improvements	5 - 15
Interior upgrades	3
Furniture, fixtures and equipment	5 - 7
Leases	Length of lease

e) Impairment of non-financial assets

The carrying amounts of the Company's non-financial assets, other than inventories, are reviewed at each reporting date to determine whether there is any indication of impairment or recovery. If any such indication exists, then the asset's recoverable amount is estimated.

The recoverable amount of an asset or cash-generating unit is the greater of its value in use and its fair value less costs to sell. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. For the purpose of impairment testing, assets that cannot be tested individually are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or groups of assets (the "cash-generating unit" or "CGU").

When the carrying amount of the asset or CGU exceeds its estimated recoverable amount, an impairment loss is recognized in an amount equal to the excess. However, when an indication that an impairment loss recognized in prior periods for an asset or CGU other than goodwill may no longer exist or may have decreased, the recoverable amount of that asset or CGU is estimated. A reversal of an impairment loss is recognized immediately in profit or loss if the recoverable amount of a previously impaired asset or CGU has subsequently increased to the lower of the asset or CGU's recoverable amount or carrying amount had no impairment loss been recognized for the asset or CGU in prior years.

f) Financial instruments

(i) Classification and measurement of financial assets and liabilities:

Financial instruments are generally measured at fair value on initial recognition. The classification and measurement of financial assets consists of the following categories: (i) measured at amortized cost, (ii) fair value through profit and loss ("FVTPL"), and (iii) fair value through other comprehensive income ("FVTOCI"). Financial assets classified at amortized cost are measured using the effective interest method. Financial assets classified as FVTPL are measured at fair value with gains and losses recognized through profit or loss. Financial assets classified as FVTOCI are measured at fair value with gains or losses recognized through other comprehensive income, except for gains and losses pertaining to impairment or foreign exchange recognized through profit or loss.

The classification and measurement of financial liabilities consists of the following categories: (i) measured at amortized cost and (ii) FVTPL. Financial liabilities classified at amortized cost are measured using the effective interest method. Financial liabilities classified as FVTPL are measured at fair value with changes in fair value attributable to changes in the

credit risk of the liability presented in other comprehensive income, and the remaining amount of change in fair value presented in profit or loss.

The Company has made the following classifications for its financial instruments:

Financial Instrument	Classification Under IFRS 9
Cash and cash equivalents	Amortized cost
Restricted cash	Amortized cost
Trade and other receivables	Amortized cost
Lease liability	Amortized cost
Interest rate swaps and caps	FVTPL
Accounts payable and other accrued liabilities	Amortized cost
Note payable	Amortized cost
Mezzanine loan	Amortized cost
Class B redeemable units of OP	FVTPL
PIU redeemable units of OP	FVTPL

The Company derecognizes a financial asset only when the contractual rights to the cash flows from the asset expire or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another entity. The Company derecognizes a financial liability when, and only when, the Company's obligations are discharged, cancelled or they expire. The difference between the carrying amount of the financial liability derecognized and the consideration paid and payable is recognized in profit or loss.

Transaction costs other than those related to financial instruments classified as FVTPL, which are expensed as incurred, are capitalized to the carrying amount of the instrument and amortized using the effective interest method. These costs include interest, amortization of discounts or premiums relating to borrowings, fees and commissions paid to agents, brokers and advisers and transfer taxes and duties.

Units that are redeemable at the option of the holder are considered puttable instruments in accordance with International Accounting Standards 32, *Financial Instruments – Presentation* ("IAS 32"). Puttable instruments are required to be accounted for as financial liabilities, except where certain conditions are met in accordance with IAS 32; in which case, the puttable instruments may be presented as equity. Units meet the exemption conditions of IAS 32 and are, therefore, presented as equity.

The Class B Units are redeemable for cash or Units on a one-for-one basis subject to customary anti-dilution adjustments at the option of the Company and, therefore, the Class B Units meet the definition of a financial liability under IAS 32. Further, the Class B Units are designated as financial liabilities at FVTPL and are measured at fair value at each reporting period with any changes in fair value recorded in profit or loss. The Class B Units are, in all material aspects, economically equivalent to Units on a per unit basis. The distributions paid on Class B Units are accounted for as finance costs.

(ii) Impairment of financial assets

For impairment of financial assets other than investments in equity instruments, contract assets, lease receivables, loan commitments and financial guarantee contracts, the Company applies a forward-looking 'expected credit loss' ("ECL") model. NHT adopted the practical expedient to determine ECL on trade and other receivables using a provision matrix based on historical credit loss experiences adjusted for current and forecasted future economic conditions to estimate lifetime ECL.

Impairment losses are recorded in profit or loss with the carrying amount of the financial asset or group of financial assets reduced.

g) Cash and cash equivalents

The Company considers all liquid investments with original terms to maturity of three months or less when acquired to be cash equivalents. Cash and cash equivalents consist of cash on hand and cash held at banks.

h) Restricted cash

Restricted cash primarily consists of cash reserves on deposit with, or under the control of, lenders in respect of future capital expenditures, insurance and taxes.

i) Provisions

A provision is recognized if, as a result of a past event, the Company has a present legal or constructive obligation that can be estimated reasonably, and it is probable that an outflow of economic benefits will be required to settle the obligation. If the time value of money is material, provisions are determined by discounting the expected future cash flows using a current rate that reflects the risk profile of the liability, and the increase to the provision due to the passage of time will be recognized as a finance cost.

j) Revenue recognition

IFRS 15, *Revenue from Contracts with Customers,* establishes a comprehensive framework for determining whether, how much and when revenue is recognized. The standard requires revenue to be recognized in a manner that depicts the transfer of promised goods or services to a customer and at an amount that reflects the consideration expected to be received in exchange for transferring those goods or services. This is achieved by applying the following five steps:

1. identify the contract with a customer;
2. identify the performance obligations in the contract;
3. determine the transaction price;
4. allocate the transaction price to the performance obligations in the contract; and
5. recognize revenue when (or as) the entity satisfies a performance obligation.

Revenue is generated primarily from the operation of the Company's hotels, which includes room rentals, food and beverage sales and other incidental income. Revenue is recognized when services are rendered, the amount is earned, and collectability is reasonably assured. The Company may collect payments in advance of the utilization of a facility. These payments are recorded as a component of accounts payable and other accrued liabilities until such time as the applicable facility is utilized, at which time the customer deposit is recognized as revenue.

k) Finance costs from operations

Finance costs from operations consist primarily of interest expense on outstanding debt, the amortization of deferred financing costs, net of interest income and distributions made to Class B unitholders. Interest expense is recognized in the period in which it is incurred. Fees and costs related to obtaining debt financing are capitalized against the related debt and amortized over the term of the debt using the effective interest method, and are included in finance costs from operations. The unamortized balance of the fees and costs is recorded as a reduction from the related debt on the Company's Consolidated Statement of Financial Position.

l) Income taxes

(i) Canadian mutual fund status

NHT is a mutual fund trust pursuant to the Income Tax Act (Canada). Under current tax legislation, a mutual fund trust that is not a Specified Investment Flow-Through Trust ("SIFT") pursuant to the Income Tax Act (Canada) is entitled to deduct distributions of taxable income such that it is not liable to pay income taxes provided that its taxable income is fully distributed to unitholders. NHT intends to qualify as a mutual fund trust that is not a SIFT trust and to make distributions not less than the amount necessary to ensure that NHT will not be liable to pay income taxes.

(ii) U.S REIT Status

The Company expects to be classified as a corporation for U.S. federal income tax purposes pursuant to section 7874 of the Code. Further, the Company expects to be treated as a U.S. corporation for all purposes under the Code and, as a result, it would be permitted to elect to be treated as a REIT under the Code, notwithstanding it will be organized as a Canadian entity. In general, a company that elects REIT status, distributes at least 90% of its REIT taxable income to its shareholders in any taxable year, and complies with certain other requirements is not subject to U.S. federal income taxation to the extent of the income it distributes. If it fails to qualify as a REIT in any taxable year, it will be subject to U.S. federal income tax at regular corporate income tax rates on its taxable income. Even if it qualifies for taxation as a REIT, it may be subject to certain state and local taxes on its income and property and to federal income and excise taxes on its undistributed income. The Company

has reviewed the REIT requirements and expects that it will qualify as a REIT under the Code. Accordingly, no provision for U.S. federal income or excise taxes has been made with respect to the income of the Company.

The Company, through wholly owned subsidiaries, leases the Initial Portfolio and intends to lease any future acquisitions to the TRS Entities, which are taxable in the U.S. A TRS is a corporation that has not elected REIT status and has made a joint election with a REIT to be treated as a TRS. As such, it is subject to U.S. federal and state corporate income tax. The income tax effects on the results of the TRS Entities accrue directly to the unitholders of the Company.

For these entities, income tax expense comprises current and deferred taxes. Current tax and deferred tax are recognized in profit or loss except to the extent that they relate to a business combination, or to items recognized directly in equity or in other comprehensive income.

(iii) Current taxes

Current tax is the expected tax payable or receivable on the taxable income or loss for the year, using tax rates enacted or substantively enacted at the reporting date, and any adjustment to tax payable in respect of previous years. The amount of current tax payable or receivable is the best estimate of the tax amount expected to be paid or received that reflects uncertainty related to income taxes, if any.

(iv) Deferred taxes

Deferred tax is recognized in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. Deferred tax is not recognized for the following temporary differences: (a) the initial recognition of assets or liabilities in a transaction that is not a business combination and that affects neither accounting nor taxable profit or loss, (b) differences relating to investments in subsidiaries and jointly controlled entities to the extent that it is probable that they will not reverse in the foreseeable future and (c) for taxable temporary differences arising on the initial recognition of goodwill. Deferred tax is measured at the tax rates that are expected to be applied to temporary differences when they reverse, based on the laws that have been enacted or substantively enacted by the reporting date.

(v) Tax uncertainties

Judgement is required to assess the interpretation of tax legislation when recognizing and measuring current and deferred tax assets and liabilities. The impact of different interpretations and applications could potentially be material. The Company recognizes a tax benefit from an uncertain tax position when it is probable that the position will be sustained upon examination, including resolutions of any related appeals or litigation processes, on the basis of technical merits.

(vi) 2017 Tax Act

On December 22, 2017, the Tax Cuts and Jobs Act (the "2017 Tax Act") was signed into law in the United States. The most significant change is the reduction of the statutory corporate tax rate from 35 percent to 21 percent, effective January 1, 2018. Many of the provisions in the 2017 Tax Act expire at the end of 2025.

m) Operating segments

The Company currently operates in one business segment, owning and operating hotel properties in the U.S. The primary format for segment reporting is based on geographic region and is consistent with the internal reporting provided to the Company's chief operating decision-maker.

n) Leases

Under IFRS 16, *Leases*, the Company records the initial present value of unavoidable future lease payments as right-of-use assets and lease liabilities on the Company's Consolidated Statement of Financial Position. The right-of-use assets are initially measured at cost and subsequently measured at cost less accumulated depreciation and impairment losses, adjusted for any remeasurement of the lease liabilities. The lease liabilities are initially measured at the present value of the unavoidable future lease payments discounted using the discount rate implicit in the lease (or if that rate cannot be readily determined, the lessee's incremental borrowing rate). Subsequently, the lease liabilities are adjusted for interest and lease payments, and impact of lease modifications, if any.

o) Levies

In accordance with International Financial Reporting Interpretations Committee ("IFRIC") 21, *Levies* ("IFRIC 21"), the Company recognizes the full amount of annual property tax liabilities at the point in time when the realty tax obligation is imposed. This is the obligating event that gives rise to a liability to pay the property taxes.

p) Recent accounting pronouncements

On October 22, 2018, the IASB issued amendments to IFRS 3, that seek to clarify whether a transaction results in an asset or a business acquisition. The amendments apply to businesses acquired in annual reporting periods beginning on or after January 1, 2020. Earlier application is permitted.

The amendments include an election to use a concentration test. This is a simplified assessment that results in an asset acquisition if substantially all of the fair value of the gross assets is concentrated in a single identifiable asset or a group of similar identifiable assets. If a preparer chooses not to apply the concentration test, or the test is failed, then the assessment focuses on the existence of a substantive process.

The Company adopted the amendments on January 1, 2020, when the standard became effective and it did not have a material impact on its Financial Statements.

q) Government assistance

The Company may receive financial grants from the government in return for past or future compliance with certain conditions relating to its operating activities. These financial grants are recorded in income by the Company when there is reasonable assurance that the Company will comply with the relevant conditions and the financial grant is received. If these conditions are not met, grants received are recognized as a liability.

The Company requested and was granted forgiveness of the first PPP loans in September and October 2021. The Company recognized the balance of the forgiven loans and forgiven accrued interest in profit or loss in accordance with IAS 20, *Accounting for Government Grants and Disclosure of Government Assistance.* As of December 31, 2022, the Company recognized $2,846 of forgiven loans in profit or loss in accordance with IAS 20.

r) Reclassification of items in the financial statements

The Company may, from time to time, record reclassifications of certain items in the Financial Statements to ensure proper representation based on facts and circumstances of the Company.

Note 4. Investment in Subsidiaries and Special Purpose Entities

In connection with its indirect equity investments in real estate assets acquired, the Company, through Holdings and the OP, indirectly holds an ownership interest in the properties, through the OP's 100% ownership of the membership interests in special purpose LLCs ("SPEs") that directly own the properties. All of the properties the Company has acquired are consolidated in the Company's Financial Statements. Under the terms of each respective mortgage payable, the lender has a perfected security interest in each real estate asset and related personal property.

The loans to NHT 2325 Stemmons, LLC ("NHT 2325 Stemmons"), NHT DFW Portfolio, LLC ("NHT DFW") and NHT SP, LLC ("NHT SP") are cross-collateralized and thus the assets of each entity are subject to recourse in the event of default. Additionally the Note A Loan and Note B Loan (as defined in Note 13) are cross-defaulted with the Mezz Facility. The lender on the Mezz Facility has a perfected security interest in the membership interest of NHT 2325 Stemmons, NHT DFW Portfolio and NHT SP.

As of December 31, 2022, the Company, through the OP, owned 10 properties through SPE subsidiaries of the OP. The following table presents each SPE that directly owns the title to each property as of December 31, 2022:

Subsidiary	Ownership	Parent	Properties Owned	SPE Subsidiaries Owned	TRS Subsidiaries Owned	Gross Assets	Gross Allocable Notes Payable and Mezzanine Debt
NHT Holdings, LLC	100.0%	NexPoint Hospitality Trust (the Company)	n/a	n/a	n/a	$ 308,205	$ 197,327
NHT Operating Partnership, LLC (the OP)	100.0%	NHT Holdings, LLC	n/a	n/a	n/a	308,205	197,327
NHT 2325 Stemmons, LLC	100.0%	NHT Operating Partnership, LLC (the OP)	Dallas Hilton Garden Inn	1	1	33,691	19,021
NREO NW Hospitality, LLC	100.0%	NHT Operating Partnership, LLC (the OP)	DoubleTree Portfolio	2	2	31,807	-

NHT SP, LLC	100.0%	NHT Operating Partnership, LLC (the OP)	Marriott St. Petersburg	1	1	38,446	29,116
NexPoint Multifamily Capital Trust, Inc.	100.0%	NHT Operating Partnership, LLC (the OP)	Holiday Inn Express Nashville	1	1	108,253	65,145
NHT Bradenton, LLC	100.0%	NHT Operating Partnership, LLC (the OP)	Bradenton Hampton Inn & Suites	1	1	26,885	17,305
NHT Park City, LLC	100.0%	NHT Operating Partnership, LLC (the OP)	Hyatt Place Park City	1	1	30,232	19,525

Note 5. Business Combinations and Contributions of Net Assets

On January 8, 2019 five of the hospitality properties forming part of the Initial Portfolio were indirectly contributed to the Company and the transaction was considered to be a common-control transaction and was accounted for using book value accounting. Simultaneously, the six other hospitality properties forming part of the Initial Portfolio were indirectly contributed to the Company in what was considered to be a business combination and was accounted for using the purchase method of accounting in accordance with IFRS 3, Business Combinations. See prior year financial statements of the Company available on SEDAR for a further discussion on the formation and contribution of the Initial Portfolio.

In February 2022, the Company acquired the Hyatt Place in Park City, Utah and the Hampton Inn & Suites in Bradenton, Florida. Both acquisitions were considered to be business combinations and were accounted for using the purchase method of accounting in accordance with IFRS 3, Business Combinations.

On February 14, 2022, the Company made a $200 deposit on a tract of land at the HUB Research Triangle Park in North Carolina. The Company plans to develop a hotel on this site in partnership with a developer that the Advisor has collaborated with previously .

Purchase accounting

The following table summarizes the fair values of the assets acquired and liabilities assumed for the acquisitions accounted for using the purchase method of accounting in 2022:

	NHT Bradenton, LLC	NHT Park City, LLC	Total
Fair value of consideration transferred:	$ 25,973	$ 29,616	$ 55,589
	25,973	29,616	55,589
Property and equipment	24,251	29,660	53,911
Right of use asset	1,445	—	1,445
Intangible assets	304	340	644
Other liabilities	(27)	(384)	(411)
Fair value of net assets acquired and liabilities assumed	$ 25,973	$ 29,616	$ 55,589

The Company acquired the Park City and Bradenton properties for $56,000 and received a credit from the seller of the Park City property in the amount of $200.

Descriptions of the net assets acquired

NHT Park City, LLC

On February 15, 2022, the OP acquired 100% of the LLC interests in NHT Park City, LLC, which owns the Hyatt Place hotel in Park City, Utah ("Park City"). The Park City property is a 122-room hotel located near Park City ski mountain. Originally built in 2016, the property is almost exclusively focused on leisure travel. Additionally, we requested, and Hyatt granted, the addition of a destination fee for all guests, which should materially increase NOI achieved pre-pandemic. In the first month of ownership, the Park City property exceeded in occupancy, ADR and RevPAR as compared to the same period in 2019.

NHT Bradenton, LLC

On February 23, 2022, the OP acquired 100% of the LLC interests in NHT Bradenton, LLC, which owns the Hampton Inn & Suites hotel in Bradenton, Florida ("Bradenton"). The Bradenton property is a 119-room hotel that hosts multiple major league baseball teams during spring training and is a leisure destination area year-round given the temperate climate in the winter and access to the beach. This property represents a traditional value-add opportunity for NHT. Over the last several years this property has lost RevPAR index to the competitor set, however we believe that with the right renovations, Bradenton should be able to close the gap on the competitor set while sitting in the heart of a growing economy in southern Florida.

Note 6. Discontinued Operations, Dispositions and Assets Held for Sale

	December 31, 2022	December 31, 2021
Revenues		
Rooms	$ 13,262	$ 12,630
Food and beverage	590	403
Other income	331	379
Total revenues	14,183	13,412
Hotel operating expenses		
Operating expenses	(7,146)	(6,328)
Operating general and administrative expenses	(3,027)	(2,905)
Total hotel operating expenses	(10,173)	(9,233)
Operating income	4,010	4,179
Other income and (expenses)		
Depreciation of property and equipment	(595)	(3,043)
Gain on sale of assets	2,680	—
Finance costs from operations	(2,515)	(2,253)
Impairment loss	(627)	—
Forgiveness of PPP loans	1,154	—
Total other income and (expenses)	97	(5,296)
Income (loss) from discontinued operations before income taxes	4,107	(1,117)
Income taxes	17	-
Deferred income tax benefit	576	76
Net income (loss) and comprehensive income (loss) from discontinued operations	$ 4,700	$ (1,042)

On August 24, 2022, the Company sold the DT Vancouver Property for $14,500, on September 30, 2022, the Company sold the DT Beaverton Property for $14,500, and on December 8, 2022, the Company sold the DT Bend Property for $38,500. The Company used the proceeds from the sale of the DT Bend Property to retire the outstanding debt on the DT Portfolio (DT Loan, Mezz A Loan and Mezz B Loan). As of December 31, 2022 the DT Tigard Property remains held-for-sale. The Company is in the early stages of analyzing the potential sale of the DT Olympia Property as of December 31, 2022.

	December 31, 2022
Trade and other receivables	$ 28
Prepaid and other assets	173
Property and equipment, net	14,755
Assets held for sale	$ 14,956
Accounts payable and other accrued liabilities	$ 331
Liabilities directly associated with assets held for sale	$ 331

For the year ended December 31, 2022, the Company recorded $627 of impairment recovery to the assets held for sale.

Note 7. Fixed Assets and Leases

Accumulated depreciation - assets held for sale	—	(1,132)	—	(1,312)	(2,444)
Balance, December 31, 2022	$ 6	$ 23,270	$ —	$ 21,055	$ 44,331
Carrying amount, December 31, 2021	$ 40,832	$ 232,438	$ 588	$ 23,706	$ 297,564
Carrying amount, December 31, 2022	$ 36,590	$ 208,743	$ 2,563	$ 21,640	$ 269,536

The Company's fixed asset additions are primarily related to (i) various upgrades and improvements required by the Company's franchise agreements; (ii) the Company's renovation program; and (iii) typical ongoing capital maintenance items. Depreciation during the period includes depreciation of land improvements.

As mentioned in Note 3(f), non-financial assets are reviewed at each reporting date to determine if there is any indication of impairment or recovery. For the years ended December 31, 2022 and December 31, 2021, the Company recorded a recovery of impairment of $870 and $38,162 to real estate assets, respectively. In assessing the value in use of the real estate assets, the cash flow estimates were derived from detailed financial forecasts prepared by the Company for 2022. The forecasted cash flow is extended through December 31, 2027 and asset values were determined using a discounted cash flow analysis with terminal cap rates and discount

rates used in the most recent appraisals provided by a recognized national valuation firm and adjusted to take into account how various research analysts are now pricing other publicly traded hospitality REITs.

As of December 31, 2022 the Company has classified one asset as held for sale in the consolidated Statement of Financial Position. See Note 6.

b) Leases

The Company's leases consist of land and vehicles at December 31, 2022 and December 31, 2021.

Right of Use Asset	**Land**	**Vehicles**	**Total**
Balance, December 31, 2020	$ 3,013	$ 81	$ 3,094
Balance, December 31, 2021	$ 3,013	$ 81	$ 3,094
Acquisitions	$ 1,445	$ -	$ 1,445
Balance, December 31, 2022	$ 4,458	$ 81	$ 4,539
Accumulated depreciation:			
Balance, December 31, 2020	$ 600	$ 49	$ 649
Depreciation - During the period	300	16	316
Balance, December 31, 2021	$ 900	$ 65	$ 965

Carrying amount, December 31, 2022	$ 1,063	$ -	$ 1,063

Note 8. Restricted Cash

The Company funded restricted cash reserves for brand-mandated PIPs and furniture, fixtures and equipment upgrades arising from the execution of the Company's franchise agreement and future insurance and property tax expenses. Restricted cash reserves for PIP programs are typically expected to be spent over an 18-24 month period once work begins. The amounts are released to the Company as the expenditures are incurred or paid directly to the service provider. Additionally, the Company presents reserves and escrows for taxes and insurance as restricted cash. Cash proceeds in reserve accounts are primarily held by a lender, though in some cases they are held by the Company. Cash reserves to be held by lenders are only available to meet the expenses for which they are reserved against and cannot be used to extinguish general liabilities. The funds for the renovation of the St. Pete Property are included in furniture, fixtures and equipment ("FF&E") reserves in the table below.

The following table summarizes the amounts of cash reserves in each of these categories as of December 31, 2022 and December 31, 2021:

	December 31, 2022	December 31, 2021
PIPs reserve	$ 175	$ 175
FF&E Reserves	4,556	2,213
Property tax reserve	2,397	2,842
Insurance, cash collateral and other reserves	222	692
Nashville restricted cash[1]	—	1,133
Total restricted cash	$ 7,350	$ 7,055

[1]In accordance with the forbearance agreement executed with the Lender on May 26, 2021, the Nashville Property is under cash management until it achieves a debt service coverage ratio as specified by the lender for two consecutive quarters. The Nashville property achieved the required debt service coverage ratio in the first and second quarters of 2022. As of the date of this report, the Nashville property no longer holds any cash in the cash management account.

Note 9. Operating Expenses

The following table summarizes components of operating expenses for the years ended December 31, 2022 and December 31, 2021 which are included in the Consolidated Statements of Income and Comprehensive Income:

	December 31, 2022	December 31, 2021
Payroll	$ 14,546	$ 8,708
Franchise fees	4,086	2,330
Cost of goods sold	4,091	2,323
Utilities	1,810	1,467
Supplies and equipment	1,765	1,008
Property taxes and insurance	5,025	4,118
Other operating expenses	615	907
Repairs and maintenance	962	580
Operating expenses	$ 32,900	$ 21,441

The Company recognizes the property tax levy on January 1st of the calendar year in accordance with IFRIC 21.

Note 10. Operating General and Administrative Expenses

The following table summarizes components of general and administrative expenses for the years ended December 31, 2022 and December 31, 2021 which are included in the Consolidated Statements of Income and Comprehensive Income:

	December 31, 2022	December 31, 2021
Marketing	$ 4,105	$ 2,685
Operations G&A	2,939	1,660
Property management fees	1,802	1,188
Other administrative expenses	985	795
Operating general and administrative expenses	$ 9,831	$ 6,328

Note 11. Corporate General and Administrative Expenses

The following table summarizes components of corporate general and administrative expenses for the years ended December 31, 2022 and December 31, 2021 which are included in the Consolidated Statements of Income and Comprehensive Income:

	December 31, 2022	December 31, 2021
Audit fees and financial reporting	$ 444	$ 462
Tax preparation	192	163
Consulting fees	84	97
D&O Insurance	97	157
Legal fees	401	308
Trustee fees and stock compensation	1,963	950
TSXV listing fees	23	50
Filing fees	22	18
Other administrative expenses	226	125
Corporate general and administrative expenses	$ 3,452	$ 2,330

Note 12. Accounts Payable and Other Accrued Liabilities

The following table summarizes components of accounts payable and other accrued liabilities as of December 31, 2022 and December 31, 2021 which are included in the Consolidated Statements of Financial Position:

	December 31, 2022	December 31, 2021
Trade payables	$ 2,440	$ 1,709
Payroll and payroll taxes payable	695	725
Property taxes payable	1,315	1,423
Sales and occupancy tax payable	781	673
Property management fees payable	851	1,309
Interest payable on outstanding debt and interest rate swaps	4,319	7,751
Franchise fees payable	442	622
Deposit liability	19	85
Offering costs payable	-	212
Other payables	1,477	1,439
Forbearance fee payable	-	342
Professional service fees payable	55	985
Acquisition costs payable	475	1,231
Advisory fee payable	6,802	4,635
Distributions payable to Class B unitholders	1,034	1,034
Accounts payable and other accrued liabilities	$ 20,705	$ 24,175

On November 15, 2019, the Company filed a prospectus registering $500 million additional units, debt securities, subscription receipts and warrants with the intent to raise capital in a secondary offering of the Company's Units (the "Offering"). After launching the Offering, the Company abandoned the Offering on December 18, 2019. As of December 31, 2022, NHT had a zero balance for unpaid offering costs. As a result of the Company's efforts to close its previously disclosed merger with, *inter alia,* Condor Hospitality Trust, Inc. (the "Merger"), the Company has unpaid expenses related to the transaction of $475 as of December 31, 2022, which are related primarily to legal and audit expenses and are included in acquisition costs payable.

Accounts payable and other accrued liabilities of $331 are associated with assets held for sale at December 31, 2022. The balance of accounts payable and other accrued liabilities on the Consolidated Statement of Financial Position does not include this amount as it is presented separately and included in liabilities directly associated with the assets held for sale. See Note 6.

Note 13. Notes Payable, Net, Mezzanine Loans, Net and PPP Loans

The following tables further describe mortgages and other debt instruments as of December 31, 2022 and December 31, 2021 which are included in the Consolidated Statements of Financial Position:

Notes Payable

	December 31, 2022	December 31, 2021
Notes payable	$ 179,327	$ 205,632
Less: current maturities	(1,386)	(85,484)
Less: unamortized portion of deferred financing costs	(1,669)	(579)
Notes payable, net	$ 176,272	$ 119,569

Mezzanine Loans

	December 31, 2022	December 31, 2021
Mezzanine loans	$ 18,000	$ 33,063
Less: current maturities	(18,000)	(20,000)
Mezzanine loans, net	$ -	$ 13,063

On January 8, 2019, in connection with the acquisition of NREO NW Hospitality, LLC, the Company assumed a $55,000 term loan (the "DT Loan"), a $7,365 mezzanine A loan (the "Mezz A Loan") and a $5,700 mezzanine B loan (the "Mezz B Loan"), with a large non-bank company. The Mezz B Loan served as a PIP holdback and was available to the Company for future PIP expenditures and bore interest at a variable rate equal to 30-day LIBOR plus 3.45%. The DT Loan was secured by the DT Portfolio and bore interest at a variable rate equal to the 30-day LIBOR plus 2.35%. The Mezz A Loan bore interest at a variable rate equal to the 30-day LIBOR plus 11.66%. The DT Loan, Mezz A Loan and Mezz B Loan all matured on May 9, 2021 and each of these loans could be extended by the Company for two 12-month periods. The Company executed the first extension on March 10, 2021 extending the maturity date of the DT Loan, Mezz A Loan and Mezz B Loan to May 9, 2022. The DT Loan, Mezz A Loan and Mezz B Loan matured on May 9, 2022, and the Company negotiated a six-month extension bringing the maturity date to November 9, 2022. The DT Loan, Mezz A Loan and Mezz B Loan matured on November 9, 2022, and the Company negotiated a one-month extension bringing the maturity date to December 9, 2022. For the period from January 1, 2022 to December 31, 2022 the Company paid $2,371, $1,040, and $313 in interest on the DT Loan, Mezz A Loan and the Mezz B Loan, respectively. The Company paid down $28,200 of the DT Loan in Q3 of 2022 upon the sales of the DT Beaverton Property and DT Vancouver Property. The Company paid the down the remainder of the DT Loan, Mezz A Loan, and Mezz B Loan balances on December 8, 2022 from the proceeds of the sale of the DT Bend Property.

The Company executed an amendment to the Mezz A Loan and Mezz B Loan dated June 26, 2020 granting the following forbearance and waivers: forbearance of interest for four months through August 31, 2020, waiver of covenants through March 31, 2021, release of FF&E reserves and waiver on contributions to FF&E reserves for four months through August 31, 2020. The Company executed another amendment to the Mezz A Loan and Mezz B Loan granting forbearance of interest from December 2020 through March 2021. The Company paid all deferred interest on the Mezz A Loan and Mezz B Loan in the second quarter of 2022 totaling $484 and $175, respectively.

On January 8, 2019, in connection with the acquisition of the Nashville Property, the Company assumed the existing loan on the property of $72,500 with an outstanding balance of $69,929 (the "HIX Loan"). The HIX Loan is secured by the Nashville Property and bears interest at a fixed rate equal to 5.12% and matures on June 30, 2026.

The HIX Loan contains customary representations, warranties, and events of default, which require the HIX Borrowers to comply with affirmative and negative covenants. On September 18, 2020, the lender delivered a formal notice of default to the HIX Borrowers. On May 26, 2021, the HIX Borrowers executed a forbearance agreement with the lender. See Note 20(b) for further discussion surrounding the Nashville Property.

On January 8, 2019, the Company, through the OP, entered into a $35,000 mezzanine facility (the "Mezz Facility") with a large non-bank company. The proceeds from the Mezz Facility were used to help fund a portion of the purchase price of the Nashville Property acquired on January 8, 2019. The Mezz Facility is secured by a pledge of the membership units in NHT 2325 Stemmons, NHT DFW Portfolio, and NHT SP, bears interest at a variable rate equal to the 30-day LIBOR plus 6.25% and had an original maturity date of January 8, 2020. As of December 31, 2022, the Mezz Facility had an effective interest rate of 8.73%. For the period from January 1, 2022 to December 31, 2022, the Company paid $1,266 in interest on the Mezz Facility.

On February 28, 2019, the Company, through subsidiaries of the OP, entered into a borrowing arrangement for a $59,400 Note A loan (the "Note A Loan") and a $28,600 Note B loan (the "Note B Loan"). The Note A Loan and Note B Loan are secured by the HGI Property, the HWS Portfolio and the St. Pete Property. The Note A Loan bears interest at a variable rate equal to the 30-day LIBOR plus 2.00% and matures on March 1, 2024. The Note B Loan bears interest at a variable rate equal to the 30-day LIBOR plus 6.46% and matures on March 1, 2024. As of December 31, 2022, the Note A Loan and the Note B Loan had effective interest rates of 5.14% and 9.60%, respectively. For the period from January 1, 2022 to December 31, 2022, the Company paid $2,652 and $2,342 in interest on the Note A Loan and the Note B loan, respectively. During the third quarter of 2022, the Company repaid $4,320 and $2,080 of principal on the Note A Loan and Note B Loan, respectively. See Note 24.

On February 15, 2022, in connection with the acquisition of the Park City and Bradenton properties, the Company, through subsidiaries of the OP, entered into a borrowing arrangement for a $39,300 loan (the "PC & B Loan") with a large non-bank company. The outstanding balance on the PC & B Loan at December 31, 2022 is $36,829 with $2,471 available to draw on for renovation purposes. The Company has begun planning renovations at both properties to start in early 2023.

The DT Loan, the PC & B Loan, the HIX Loan, the Note A Loan and Note B Loan (collectively referred to as the "Notes Payable"), and the Mezz A Loan, the Mezz B Loan, and the Mezz Facility (collectively referred to as the "Mezzanine Loans" and together with the "Notes Payable" are referred to as the "Loans") contain customary representations, warranties, and events of default, which require the Company to comply with affirmative and negative covenants.

As discussed in Note 2, as of December 31, 2022, the Company is in good standing with the lenders on all of its outstanding Loans.

On May 1, 2020, our properties received a two-year loan from the PPP with total proceeds of the first loans amounting to $3,331 and maturing in 2022. In September and October 2021, the SBA granted the Company full forgiveness of all of the PPP loans in the amount of $3,331.

In February and March 2021, our properties received a second loan from the PPP with total proceeds from the loans amounting to $4,000 and maturing in five years. In February 2022, the SBA granted forgiveness of the second loans. The Company recognized the loans and all accrued interest in profit or loss for the year ended December 31, 2022.

The SBA, in consultation with the U.S. Department of the Treasury, has published guidance for borrowers concerning forgiveness of PPP loans. If the loan is fully forgiven, the borrower is not responsible for any payments. If only a portion of the loan is forgiven, or if the forgiveness application is denied, any remaining balance due on the loan must be repaid by the borrower on or before the maturity date of the loan. Interest accrues during the time between the date of disbursement of the loan and the SBA remittance of the forgiveness amount. The borrower is also responsible for paying accrued interest on any amount of the loan that is not forgiven.

The table below shows future payments on the Loans, excluding amortization of deferred financing costs, payable within the next five calendar years subsequent to December 31, 2022.

	Notes Payable	Mezzanine Loans	Total
2023	1,386	18,000	19,386
2024	78,803	—	78,803
2025	38,365	—	38,365
2026	60,773	—	60,773
2027	—	—	—
Total	$ 179,327	$ 18,000	$ 197,327

As of December 31, 2022 and December 31, 2021, the Company has $82,723 and $50,068 of convertible notes due to its affiliates. Most bear interest at an annual rate of 2.25% while outstanding and mature in 20 years in most cases.

	December 31, 2022	December 31, 2021
Due to affiliate	$ 82,723	$ 50,068

Note 14. Class B Units

On January 8, 2019, the OP issued Class B Units with a fair value of $67,881. The Class B Units are economically equivalent to Units and are entitled to receive distributions equal to those provided to holders of Units. These Class B Units have been classified as a liability in accordance with IAS 32, as they are redeemable instruments at the option of the holders.

Class B Units are measured at fair value with any changes in fair value recorded in profit or loss. The fair value adjustments of Class B Units are calculated using the Company's Unit closing price as of the end of the reporting period. An increase in the Unit closing price over the period results in a fair value loss whereas a decrease in the Unit closing price over the period results in a fair value gain.

As allowed under IFRS 13, *Fair Value Measurement,* if an asset or a liability measured at fair value has a bid price and an ask price, the price within the bid-ask spread that is the most representative of fair value in the circumstances shall be used to measure fair value. The Company has recorded Class B Units at their fair value, which has been assessed to equal the closing market price of the Units at each valuation date (Level 2).

The 10 day volume weighted average price ("VWAP") of the Units for the 10 trading days immediately preceding the end of the period is the basis of measurement the Company uses to record fair value adjustments of the Class B Units. The VWAP of the Units was $1.50. There was a change in the fair value of the PIUs (defined below), which are treated as economically equivalent to Class B Units. The fair value of the Class B Units and PIUs for the year ended December 31, 2022 was $2,125.

The Company's notes due to affiliates are, subject to TSXV approval, convertible at any time at the election of the Company into Class B Units.

On December 13, 2021, the Company granted 2,475,000 profit interest units ("PIUs") in the OP to officers of the Company and employees of affiliates of the Advisor. Upon conversion, grantees will receive Class B Units of the OP. As of December 31, 2022, 883,125 of the PIU units have vested. See Note 23 for more information on PIUs granted and vesting schedules.

The following table presents the outstanding units and the change in fair value of the Class B Units for the year ended December 31, 2022:

	Units	Fair value
Redeemable Class B Units, January 1, 2022	205,597	$ 432
Net gain attributable to Class B redeemable Units of the OP	—	14
Change in fair value of Class B Units	—	(123)
Adjustment to reflect redemption value of redeemable Class B Units of the OP	—	(14)
Redeemable noncontrolling interests in the OP, December 31, 2022	205,597	$ 309

Note 15. Finance Costs

The following table summarizes finance costs for the years ended December 31, 2022 and December 31, 2021:

	December 31, 2022	December 31, 2021
Interest on debt	$ 16,478	$ 16,550
Amortization of deferred financing costs	1,202	852
Fees related to Nashville forbearance agreement	33	987
Finance costs from operations	$ 17,713	$ 18,389
Fair value adjustment to interest rate caps and swaps	(1,546)	(7,994)
Fair value adjustment of Class B Units	(123)	(194)
Total finance costs	$ 16,044	$ 10,201

Note 16. Income Taxes

(a) Income tax (expense)/recovery:

The Company has recorded current tax expense/recovery for taxes associated with its direct and indirect subsidiaries. The income tax expense/recovery in the Consolidated Statements of Income and Comprehensive Income is as follows:

	December 31, 2022	December 31, 2021
Net income before income tax	$ 4,677	$ 23,395
Less: income relating to entities not subject to income tax	8,947	24,546
Net income before tax relating to taxable subsidiaries	(4,270)	(1,151)
Deferred income tax benefit	2,230	921
Income taxes	(115)	(45)
Income tax recovery	$ 2,115	$ 876

(b) Deferred income tax benefit:

As of December 31, 2022 and December 31, 2021, the Company has an estimated tax asset of $4,836 and $2,606 , respectively, recorded in the Consolidated Statement of Financial Position for certain temporary book-to-tax differences as well as net operating losses associated with its direct and indirect subsidiaries. A summary of the composition of such tax benefits is provided in the table below.

	December 31, 2022	December 31, 2021
Reserves not currently deductible	$ 379	$ 508
Net operating losses carried forward	4,457	2,098
Total tax assets	$ 4,836	$ 2,606

Note 17. Unitholders' Capital

The Company is authorized to issue an unlimited number of Units. Each Unit represents a proportionate undivided beneficial ownership interest in the Company. Each Unit is transferable and entitles the holder thereof to: (i) an equal participation in distributions of the Company; (ii) rights of redemption; and (iii) one vote at all meetings of unitholders.

There were no changes to the Units or Unitholders' Capital for the period from January 1, 2022 to December 31, 2022.

The following table presents the Units, and the changes in unitholders' Capital for the period from January 1, 2021 to December 31, 2021:

	Units	Capital Balance
Unitholders' capital, January 1, 2021	29,352,055	$ 98,023
Deferred units issued	549,687	984
Unitholders' capital, December 31, 2021	29,901,742	$ 99,007

In 2021, the Company granted 549,687 deferred units to the independent trustees. These deferred units are issued but not issued and outstanding Units. See Note 23 for a further discussion on deferred units and profit interests units.

Note 18. Fair Value of Financial Instruments and Derivatives

a) Comparison of fair value to carrying amount

The fair value of a financial instrument is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value may be based on other observable current market transactions in the same instrument, without modification or on a valuation technique using market-based inputs. Fair value

measurements recognized in the Financial Statements are categorized using the following fair value hierarchy that reflects the significance of inputs used in determining the fair values:

- Level 1: Quoted (unadjusted) market prices in active markets for identical assets or liabilities.
- Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, directly or indirectly.
- Level 3: Inputs for the asset or liability that are not based on observable market data (unobservable inputs).

As of December 31, 2022 and December 31, 2021, the carrying amounts of the Company's cash and cash equivalents, restricted cash, trade and other receivables, accounts payables and other accrued liabilities approximated their fair values due to the short-term nature of these financial assets and liabilities.

The fair value of the Loans are estimated by discounting the future cash flows using discount rates that reflect current market conditions for instruments having similar terms and conditions. At December 31, 2022, the Notes Payable were discounted using rates between 7.63% and 8.52% and the Mezzanine Loans were discounted using a rate of 14.25%. Discount rates are either provided by lenders or are observable in the open market. As of December 31, 2022, the carrying value of the Company's Loans exceeded their fair value by approximately $5,540 and are considered Level 2 in the fair value hierarchy as inputs are observable directly or indirectly.

The fair value of the redeemable Class B Units is determined based on their redemption value. The redemption value is based on the fair value of the Company's Units at the redemption date, and therefore, is calculated based on the fair value of the Company's Units at the date of the Financial Statements. Since the valuation of the Units are based on observable inputs such as quoted prices for similar instruments in active markets, redeemable non-controlling interests in the OP are classified as Level 2 of the fair value hierarchy.

For the year ended December 31, 2022, there were no transfers between the different levels of the fair value hierarchy.

(b) Derivative financial instruments and hedging activities

The Company is exposed to certain risks arising from both its business operations and economic conditions. The Company manages interest rate risks primarily by managing the amount, sources, and duration of its debt funding and the use of derivative financial instruments.

The Company performs market valuations on its derivative financial instruments. The valuation of these instruments is determined using widely accepted valuation techniques, including discounted cash flow analysis on the expected cash flows of each derivative. This analysis reflects the contractual terms of the derivatives, including the period to maturity, and uses observable market-based inputs, including interest rate curves and implied volatilities. The fair values of interest rate caps are determined using the market standard methodology of discounting the future expected cash receipts that would occur if variable interest rates rise above the strike rate of the caps. The variable interest rates used in the calculation of projected receipts on the cap are based on an expectation of future interest rates derived from observable market interest rate curves and volatilities.

Interest rate caps involve the receipt of variable-rate amounts from a counterparty if interest rates rise above the strike rate on the contract in exchange for an up-front premium. The Company entered into an interest rate cap agreement upon acquisition of the Park City and Bradenton properties in February 2022. As of December 31, 2022, the interest rate cap agreements the Company has entered into effectively cap one-month SOFR on $36,829 of the Company's floating rate mortgage and mezzanine indebtedness at a weighted average rate of 2.00%.

To comply with the provisions of IFRS 9, *Financial Instruments,* the Company incorporates credit valuation adjustments to appropriately reflect both the Company's own nonperformance risk and the respective counterparty's nonperformance risk in the fair value measurements. Although the Company has determined that the majority of the inputs used to value its derivatives fall within Level 2 of the fair value hierarchy, the credit valuation adjustments associated with the Company's derivatives utilize Level 3 inputs, such as estimates of current credit spreads, to evaluate the likelihood of default by the Company and its counterparties. The Company has determined that the significance of the impact of the credit valuation adjustments made to its derivative contracts, which determination was based on the fair value of each individual contract, was not significant to the overall valuation. Additionally, in the case of interest rate caps, the Company has no performance obligation, so no credit valuation adjustment is necessary. As a result, all of the Company's derivatives held as of December 31, 2022 and December 31, 2021 were classified as Level 2 of the fair value hierarchy.

Changes in fair value of the interest rate caps are recorded directly in Gain on fair value adjustments to interest rate caps. For the year ended December 31, 2022, the Company accrued interest income related to changes in the fair value of interest rate caps. The fair value of the interest rate caps was $1,988 as of December 31, 2022 and is recorded as Interest rate caps in the Consolidated Statement of Financial Position.

As of December 31, 2022, the Company had the following outstanding interest rate caps:

Type of Derivative	Hedged Financial Instrument	Notional	Strike Rate	Reference Rate		Termination Date
Interest rate cap	Note payable	$ 39,300	2.00%	One-month SOFR[1]	2.00%	March 5, 2025

Interest Rate Swap Agreements

In 2019, the OP entered into three transactions with KeyBank National Association ("KeyBank") whereby the OP exchanged the LIBOR portion of its interest obligations in exchange for a fixed rate. On November 24, 2021, the Company terminated all three interest rate swaps and made a net termination payment of $796 to KeyBank.

c) Financial risk management

The Company may be exposed to a number of risks in its normal course of operations from use of financial instruments. These risks, and the actions taken to manage them, are as follows:

(i) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in the market interest rates.

A majority of the Company's Loans bears interest at a variable rate and are either subject to a LIBOR floor or have interest rate caps in place. Fluctuations in interest rates will impact the cost of financing incurred in the future. The Company monitors its interest rate exposure on an ongoing basis.

(ii) Credit risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligation. The maximum exposure to credit risk is the full carrying amount of the financial instrument. The Company is exposed to credit risk with respect to its interest rate caps, interest rate swaps and trade and other receivables. The credit risk for interest rate caps and interest rate swaps are discussed in Note 18 (b). Credit risk of trade and other receivables is mitigated by initiating a prompt collection process. The Company is also exposed to credit risk with respect to cash and cash equivalents, restricted cash and counterparties on derivative contracts. This credit risk of such counterparties is mitigated by only transacting with large financial institutions.

(iii) Liquidity risk

The Company's principal liquidity needs arise from working capital requirements, debt servicing and repayment obligations, payments on unhedged interest rate swaps, planned funding of property improvements, leasing costs, distributions to unitholders, property development and acquisition funding requirements. Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they fall due. Property and equipment investments tend to be relatively illiquid, with the degree of liquidity generally fluctuating in relation to demand for and the perceived desirability of such investments. If the Company was required to sell the property, the proceeds to the Company may be significantly less than the property's carrying amount.

Liquidity risk is managed through cash flow forecasting. Management monitors forecasts of the Company's liquidity requirements to ensure it has sufficient cash to meet operational needs through maintaining sufficient cash and/or availability on undrawn loan agreements and ensuring that it meets its financial covenants. Such forecasting involves a significant degree of judgment, takes into consideration current and projected macroeconomic conditions, the Company's cash collection efforts, debt financing plans, covenant compliance required under the terms of debt agreements and internal targets. There is a risk that such liquidity forecasts may not be achieved and that currently available debt financing may no longer be available to the Company at terms and conditions that are favorable to the Company, or at all.

As of December 31, 2022, the Company had a working capital deficiency of $11,486, which is primarily the result of $18,000 of Notes Payable and the Mezz Facility, each with maturity dates of less than one year. Additional contractual obligations and contingencies are outlined in Note 20. As mentioned in Note 2(a), there is substantial doubt as to whether the Company can meet all of its obligations as they become due. This is primarily the result of the $18,000 Mezz Facility that matured on January 8, 2020, (and as of January 8, 2023, was further extended by the lender until July 8, 2023). See Note 24. In order to continue as a going concern, management is actively working towards addressing the Company's liquidity concerns, including the following: (i) negotiating with lenders to extend or otherwise restructure the terms of our loans and obtain relief from covenants in the near term; and (ii) converting payables to an affiliate into Class B Units. In addition, subject to market conditions, the Company may seek to raise funding through new debt and equity financing, including sale-leaseback and ground lease arrangements, though there is no assurance the Company will be able to obtain such financing. The particular features and quality of the underlying assets and the debt and equity market parameters existing at the time of financing may impact the ability to obtain financing.

The following table provides information on the carrying amounts and the non-discounted contractual maturities of financial liabilities with fixed repayment terms, including estimated interest payments using the 30-day LIBOR rate of 3.14% as of December 31, 2022:

	Carrying Amount	Contractual Cash Flows	Reclassified as Held for Sale	1 Year	More than 1 Year
Notes payable	$ 177,658	$ 179,327	$ -	$ 1,386	$ 177,941
Mezzanine loan	18,000	18,000	-	18,000	-
Interest payable on notes and mezzanine loans	4,032	18,511	287	5,525	12,986
Accounts payable and other accrued liabilities	16,342	16,342	44	16,342	—
Lease liability	1,063	1,235	—	159	1,076
Total	$ 217,095	$ 233,415	$ 331	$ 41,412	$ 192,003

Note 19. Capital Management

The Company defines capital as the aggregate of unitholders' equity, Class B Units, notes payable and mezzanine loans. The Company's objectives in managing capital are to maintain a level of capital that: complies with investment and debt restrictions pursuant to the Company's operating agreement; complies with existing debt covenants; funds its business strategies; and builds long-term members' value. Capital adequacy is monitored by the Company by assessing performance against the approved annual plan throughout the year and by monitoring adherence to investment and debt restrictions contained in the Company's operating agreement and debt covenants.

Note 20. Commitments and Contingencies

a) Franchise agreement

The Company's properties are operated under franchise agreements (the "Franchise Agreements") with Franchisors. The Franchise Agreements require the payment of a monthly royalty fee and monthly marketing fee on the property's gross room revenue. For the year ended December 31, 2022, franchise fees were $4,949 and are included in operating expenses. Details regarding the Franchise Agreements are presented in the following table:

					(% of Gross Rooms Sales)	
Property	**Brand**	**Execution Date**	**Term (Years)**	**Expiration Date**	**Franchise Fees**	**Marketing Fees**
Dallas Hilton Garden Inn	Hilton	December 31, 2014	15	December 31, 2029	5.50%	4.30%
Addison HomeWood Suites	Hilton	May 4, 2017	25	May 31, 2032	5.50%	3.50%
Plano HomeWood Suites	Hilton	May 4, 2017	25	May 31, 2032	5.50%	3.50%
Las Colinas HomeWood Suites	Hilton	May 4, 2017	25	May 31, 2032	5.50%	3.50%
Olympia DoubleTree	Hilton	May 5, 2018	25	May 31, 2033	5.00%	4.00%
Tigard DoubleTree	Hilton	May 5, 2018	25	May 31, 2033	5.00%	4.00%
St. Petersburg Marriott	Marriott	September 25, 2018	20	September 25, 2038	6%/3%[1]	1.00%
Nashville Holiday Inn Express	Intercontinental Group	January 8, 2019	20	January 8, 2039	3.00%	3.00%
Hyatt Place Park City	Hyatt	February 15, 2022	20	February 23, 2042	5.00%	3.50%
Bradenton Hampton Inn & Suites	Hilton	February 22, 2022	15	February 28, 2037	6.00%	4.00%

[1] 6% of gross rooms sales / 3% of gross food and beverage sales.

b) Litigation

In the normal course of operations, the Company may become subject to a variety of legal and other claims. While it is not possible to ascertain the ultimate outcome of all such matters, the Company evaluates all claims on their apparent merits and, if necessary, the Company accrues for its best estimate of the costs to satisfy such claims.

As a result of the financial impact that the COVID-19 pandemic has had on the Nashville Property and the inability of the hotel to meet its financial covenants and obligations, RSS Multiple – DE NT, LLC, the current lender ("Lender"), filed suit against the HIX Borrowers and the Loan Guarantor, seeking, among other things, to appoint a receiver and to foreclose on their security interest.

On May 26, 2021, the HIX Borrowers and Loan Guarantor executed a forbearance agreement with the Lender that would, when followed, cure the defaults identified by the Lender and bring the loan into good standing. The agreement contains various compliance dates, but the final action in compliance with the forbearance agreement, must occur by February 1, 2022. The HIX Borrowers met the compliance requirements by February 1, 2022. As of December 31, 2022, the HIX Borrowers and Loan Guarantor are currently in good standing under the forbearance agreement.

Note 21. Related party transactions

The Financial Statements include the following transactions with related parties:

Issuance of Units

For the Initial Transaction, Units of the Company were issued to affiliates of the chief executive officer of the Company and other officers in connection with the contribution of the HWS Portfolio, the St. Pete Property and the Nashville Property.

Advisory Fees

In accordance with the agreement entered into with the Advisor (the "Advisory Agreement"), the Company pays the Advisor an advisory fee equal to 1.00% of the REIT Asset Value (as defined below). Under the direct supervision of the Company, the duties performed by the Company's Advisor under the terms of the Advisory Agreement include, but are not limited to: providing daily management for the Company, selecting and working with third party service providers, overseeing the third party manager, formulating an investment strategy for the Company and selecting suitable properties and investments, managing the Company's outstanding debt and its interest rate exposure through derivative instruments, determining when to sell assets, and managing the renovation program or overseeing a third party vendor that implements the renovation program. REIT Asset Value means the value of the Company's total assets, as determined in accordance with IFRS except that such value shall only consolidate the Company's and Holdings assets plus the Company's pro rata share of leverage at the OP.

Pursuant to the terms of the Advisory Agreement, the Company will reimburse the Advisor for all documented Operating Expenses and Offering Expenses it incurs on behalf of the Company. "Operating Expenses" include legal, accounting, financial and due diligence services performed by the Advisor that outside professionals or outside consultants would otherwise perform, the Company's pro rata

share of rent, telephone, utilities, office furniture, equipment, machinery and other office, internal and overhead expenses of the Advisor required for the Company's operations, and compensation expenses under the Omnibus Plan (as defined in Note 23). Operating Expenses do not include expenses for the advisory services described in the Advisory Agreement. Certain Operating Expenses, such as the Company's ratable share of rent, telephone, utilities, office furniture, equipment, machinery and other office, internal and overhead expenses incurred by the Advisor or its affiliates that relate to the operations of the Company, may be billed monthly to the Company under a shared services agreement. "Offering Expenses" include all expenses (other than underwriters' discounts) in connection with an offering, including, without limitation, legal, accounting, printing, mailing and filing fees and other documented offering expenses.

The Advisor has reinstated the previously waived 2020 advisory fees and the rebate of accrued but unpaid fees as of December 31, 2019. The Company will begin paying advisory fees when it is able to resume payments while remaining cash flow positive.

Expense Cap

Pursuant to the terms of the Advisory Agreement, expenses paid or incurred by the Company for advisory fees payable to the Advisor and expenses incurred by the Advisor or its affiliates in connection with the services it provides to the Company and its subsidiaries will not exceed 1.5% of REIT Asset Value Assets for calendar year (or part thereof that the Advisory Agreement is in effect (the "Expense Cap")). The Expense Cap does not limit the reimbursement of expenses related to Offering Expenses. The Expense Cap also does not apply to legal, accounting, financial, due diligence and other service fees incurred in connection with mergers and acquisitions, extraordinary litigation or other events outside the Company's ordinary course of business or any out-of-pocket acquisitions or due diligence expenses incurred in connection with the acquisition or disposition of real estate assets. For the year ended December 31, 2022 and December 31, 2021, the Company incurred expenses subject to the Expense Cap of $5,619 and $4,121, respectively.

Internalization Fee

The Company and/or the OP may elect to acquire all of the outstanding and issued equity interests of the Advisor (the "Internalization") by exercising its rights, in its sole discretion, under the Advisory Agreement (subject to certain terms and conditions) to effect an Internalization. The Company will pay the Advisor a fee equal to three times the prior 12 months' Advisory Fee. The Internalization Fee is limited to 7.5% of the combined equity value of the Company and the OP on a consolidated basis as of the date of the Internalization. There has been no internalization as of December 31, 2022.

Termination Fee

If the Company and/or the OP elect to terminate the Advisory Agreement, the Company will pay the Advisor a fee (the "Termination Fee") equal to three times the prior 12 months' Advisory Fee. The Termination Fee is limited to 7.5% of the combined equity value of the Company and the OP on a consolidated basis as of the date the Advisory Agreement is terminated.

Private Placement of Units

On February 10, 2020, the Company completed the non-brokered private placement offering pursuant to which certain existing unitholders of the Company purchased an aggregate of 850,705 Units at a price of $5.00 per unit for aggregate gross proceeds of $4,254.

Loans from Affiliates

As of December 31, 2022, the OP has entered into several convertible notes with affiliates totaling $82,723 since January 8, 2019. The proceeds of the notes were used for general corporate and working capital purposes and have been consolidated and re-classed into one account on the Consolidated Statements of Financial Position. In the first quarter of 2022, the Company repaid $4,550 of principal to affiliates.

Other Related Party Transactions

The Company has in the past, and may in the future, utilize the services of affiliated parties. For the year ended December 31, 2022, the Company paid de minimis fees to an affiliated bank, NexBank N.A. ("NexBank"), as the Company and its subsidiaries have several bank accounts at NexBank with a cumulative balance of $88 as of December 31, 2022. NexBank is an affiliate of the Advisor through common beneficial ownership.

Note 22. Supplemental Cash Flow Disclosure

Reconciliation of changes in liabilities, including movements of liabilities to cash flows arising from financing activities for the year ended December 31, 2022 were as follows:

	Notes Payable, Net	Mezzanine Loans, Net	PPP Loans, Net	Total
Balance, December 31, 2021	$ 205,053	$ 33,063	$ 4,000	$ 242,116
Changes from financing cash flows:				
PPP loan forgiveness	—	—	(4,000)	(4,000)
Loan proceeds related to acquisitions	36,829	—	—	36,829
Deferred financing costs paid	(1,960)	(344)	—	(2,304)
Total changes from financing cash flows	34,869	(344)	(4,000)	30,525
Liability related:				
Principal payments made	(8,135)	(2,000)	—	(10,135)
Principal payments made upon sale of assets	(55,000)	(13,063)	—	(68,063)
Amortization of deferred financing costs on outstanding debt	871	344	—	1,215
Balance, December 31, 2022	$ 177,658	$ 18,000	$ —	$ 195,658
Current portion	$ 1,386	$ 18,000	$ —	$ 19,386
Long-term portion	$ 176,272	$ —	$ —	$ 176,272

Note 23. Incentive Compensation Plan

The Company has adopted an omnibus equity incentive plan (the “Omnibus Plan”) to be granted to key officers and employees of the Company, independent trustees and key employees of the Advisor. As part of the independent trustees’ compensation, it is anticipated they will be granted deferred units (“DUs”) in the future and may receive, at their election, 100% of their board compensation in the form of DUs. Under the Omnibus Plan, subject to adjustments according to the terms of the plan, the maximum number of Units available for issuance is 3,026,155, representing 20% of the issued and outstanding Units of the Company at the time the Omnibus Plan was adopted.

On June 28, 2021, the Company granted 339,687 DUs to the independent trustees. On December 13, 2021, the Company granted 210,000 DUs to the independent trustees. These DUs are issued but not issued and outstanding and vested immediately. On December 6, 2021, the Company granted 2,475,000 PIUs in the OP to officers of the Company (2,029,200) and employees of the Advisor (445,800). The PIUs will vest ratably over four years (i.e. 25% per year), however, 50% of the PIUs can vest sooner if the following stock price thresholds are achieved. Therefore, to the extent the below stock prices are achieved prior to December 13, 2022, the PIUs will not be issued until December 31, 2022, assuming no additional restrictions exist:

Vesting %	Upon Unit Price Achieving[1]	PIUs Vested
12.50%	$ 2.00	294,375
12.50%	2.50	294,375
12.50%	3.00	294,375
12.50%	4.00	294,375
Total		1,177,500

1. Price to be adjusted for dilutive events.

Assuming none of the performance metrics are met, the PIUs will vest as shown in the below table:

Vesting %	Date	PIUs Vested
25.00%	December 6, 2022	588,750
25.00%	December 6, 2023	588,750
25.00%	December 6, 2024	588,750
25.00%	December 6, 2025	588,750
Total		2,355,000

On December 6, 2022, 588,750 PIUs vested to officers of the company and employees of affiliates of the Advisor. Additionally, 294,375 PIUs vested on December 31, 2022 as the units reached the first price threshold. 120,000 units were forfeited as two employees of affiliates of the Advisor left their roles before the vesting dates.

Description	Units	Fair Value
PIUs vested in the OP, January 1, 2022	-	$ -
Time vesting PIUs	588,750	1,215
Performance vesting PIUs	294,375	601
PIUs vested in the OP, December 31, 2022	883,125	$ 1,816

Upon conversion, grantees of the PIUs will receive Class B Units of the OP. As of December 31, 2022, 549,687 DUs and 2,475,000 PIUs have been granted under the Omnibus Plan with 1,468 DUs or PIUs remaining that may be granted.

On May 31, 2022, the Board of Trustees passed a resolution adopting a deferred unit plan (the "Deferred Unit Plan"). The Deferred Unit Plan was subsequently approved by unitholders at the annual general meeting held on June 30, 2022. The maximum number of DUs reserved for issuance under the Deferred Unit Plan at any time is 2,844,256. As December 31, 2022, no DUs have been issued under this plan.

Note 24. Subsequent Events

The Company evaluated subsequent events through April 4, 2023 to determine if any significant events occurred subsequent to the consolidated balance sheet dates that would have a material impact on the Financial Statements.

The HIX Nashville Mezzanine Facility

The Mezz Facility expired on January 8, 2023. The Company negotiated an extension on January 6, 2023, bringing the maturity date of the Mezz Facility to July 8, 2023.

On February 15, 2023, the Company made a principal payment of $600 on the Mezz Facility, reducing the balance to $17,400.

Note 1. Overview

NexPoint Hospitality Trust ("NHT" or the "Company") is an unincorporated, open-ended real estate investment trust ("REIT") established pursuant to a declaration of trust dated December 12, 2018 under the laws of the Province of Ontario. The registered office of the Company is at 333 Bay Street, Suite 3400, Toronto, Ontario. NHT was created for the purpose of initially acquiring a portfolio of 11 hospitality assets located in the United States (the "Initial Portfolio"), to raise capital to acquire additional U.S. located hospitality assets that meet its investment objectives and criteria and to own, renovate and operate its portfolio of income-producing hotel properties. NHT is externally managed by NexPoint Real Estate Advisors VI, L.P. (the "Advisor"), which was formed for the purpose of managing NHT and is related to the Company through common indirect ownership as well as common control.

NHT has elected to be treated as a REIT under U.S. tax laws. Substantially all of NHT's business will be conducted through NHT Operating Partnership, LLC (the "OP"), NHT's operating partnership, which is a Delaware limited liability company. NHT owns its properties through the OP and its subsidiaries. The OP and its subsidiaries lease the properties to taxable REIT subsidiaries of NHT (the "TRS Entities") to operate. For NHT to qualify as a REIT under the United States Internal Revenue Code of 1986, as amended (the "Code"), NHT cannot operate directly or indirectly any of the hotels it acquires and owns. Therefore, the OP and its subsidiaries lease the hotels to the TRS Entities who in turn engage eligible independent contractors (as defined in the Code), which for the current portfolio of 13 hospitality assets located in the United States (the "Current Portfolio") are affiliates of Aimbridge Hospitality Holdings, LLC, to manage the hotels.

The objectives of NHT are to: (a) provide unitholders with an opportunity to invest in a portfolio of extended-stay, select-service and efficient full service hotels located in attractive U.S. markets and competitively positioned to outperform the industry as a whole; (b) provide unitholders with predictable, sustainable and growing tax efficient cash distributions; (c) enhance the value of NHT's assets and maximize the long-term value of the Class A units of the OP (the "Class A Units"), Class B units of the OP (the "Class B Units") and trust units of NHT (the "Units"), collectively, through active asset and property management programs and procedures and a renovation program; and (d) expand the asset base of NHT primarily through acquisitions and improvements of its properties, including the Initial Portfolio, using targeted and strategic capital expenditures.

NHT's Units are listed on the TSX Venture Exchange (the "TSXV") under the symbol NHT.U.

Note 2. Basis of Preparation

a) Going Concern Uncertainty

The global response to the COVID-19 pandemic had a large negative impact on the Company's operations in 2020 and the first quarter of 2021. Public companies in the North American lodging sector generally saw a significant decline in their stock prices on average during 2020. The well-publicized impacts on the hospitality industry, including shelter-in-place orders in the markets in which the Company operates, as well as a reduction in transient business travel, which the Company relies upon, reduced the Company's room rates and occupancies and had a significant impact on the Company's operations in 2020 and early 2021. Additionally, data shows that air travel, and consequently, hotel occupancy and average daily rates, were down significantly, with large groups having canceled events. Occupancy declined from an average of 75.1% across the portfolio in 2019 to a low of 12.17% across the portfolio during April 2020, and the Average Daily Rate ("ADR") declined from an average of $145.81 in 2019 to a low of $93.95 during April 2020.

Since the end of January 2021, the hospitality sector in general and the Company specifically have seen significant improvements in operations. Notwithstanding seasonality trends, the second quarter of 2022 was much improved over the second quarter of 2021, with an occupancy of 71.5% across the Initial Portfolio compared to 66.4% in the second quarter of 2021. We have seen a rebound in occupancy and ADR as COVID-19 restrictions have loosened or have been removed altogether and people have resumed business and leisure travel. Large group and convention business and business transient bookings returned and a full recovery in this segment is likely to take place over the next 12 months. We expect that as employees return to offices, even if in a diminished capacity, businesses will also begin removing travel restrictions and the transient segment will continue recovering in 2022.

At June 30, 2022, the Company had a working capital deficit of $12,575. The items on our balance sheet contributing to the deficit include the $20,000 principal balance on the Mezz Facility (as defined in Note 13), which was originally due on January 8, 2020, $6,400 of principal balance on the Note A Loan and Note B Loan (as defined in Note 13), $1,162 of payables to Franchisors (as defined below) and $2,222 of payables to other vendors. The impact to the global economy caused by the response to the COVID-19 pandemic negatively impacted the Company's ability to obtain new financing, and as a result, the Company was unable to refinance the principal balance of the Mezz Facility. As of the date of this report, the Company has obtained another extension for the maturity of the Mezz Facility until January 8, 2023.

At June 30, 2022, the Company had $1,350 of amortizing principal payments and $18,455 of other liabilities due over the next twelve months through June 30, 2023. Of the liabilities, the Company has payment plans in place for $5,054 of these liabilities and continues to work with vendors for the remainder to make repayment by June 30, 2023. The DT Loan, Mezz A Loan and Mezz B Loan (each as defined in Note 13), totaling $68,063, was initially set to mature on May 9, 2022. The Company executed an amendment with the lender in May 2022 for a sixth month extension, bringing the maturity date to November 9, 2022. See Note 13.

On September 18, 2020, the lender on the HIX Loan (as defined in Note 13) delivered a formal notice of default. NHT Nashville, LLC and NHT Nashville TRS, LLC, the borrowers on the loan (the "HIX Borrowers"), worked with the lender to achieve a mutually agreeable resolution in May 2021, which resolved the default. Those discussions resulted in the HIX Borrowers and the OP, the guarantor on the loan ("Loan Guarantor"), signing a forbearance agreement. The HIX Borrowers cured all events of default and met all compliance requirement of the forbearance agreement on February 1, 2022 and the loan is now in good standing. See Note 20(b).

As of June 30, 2022, the Company is in good standing with the lenders on all of its outstanding Loans (as defined in Note 13). Covenant waivers have been granted at various dates on each loan or the lender has informally, or formally, agreed not to pursue available remedies currently.

Management is actively working towards addressing the matters noted above that create uncertainty for the Company as a going concern, which includes the following:

i) The Company has been granted extensions of the maturity of the Mezz Facility while each party continues in good faith discussions to restructure the facility.

ii) The Company received government assistance through the Paycheck Protection Program (the "PPP") implemented by the Small Business Administration (the "SBA") under Division A, Title I of the Coronavirus Aid, Relief, and Economic Security Act ("CARES Act") in the form of $3,331 in loan proceeds on May 1, 2020. Additionally, as a result of legislation passed in December 2020 to provide further assistance to businesses impacted by COVID-19, the PPP was extended, and the Company received the maximum allowable amount of assistance in the form of $4,000 in loan proceeds in February 2021 and March 2021. The SBA has granted full forgiveness of the Company's PPP loans totaling $7,331. For the year ended December 31, 2021, the Company recognized $3,331 of PPP loans and all accrued interest related to the first loans in profit or loss. The Company recognized forgiveness of its second PPP loans in the amount of $4,000 and all accrued interest in profit or loss for the six months ended June 30, 2022. See Note 13.

iii) On March 24, 2020, the board of the Company agreed to temporarily suspend distributions for the foreseeable future to conserve cash.

iv) The Company expects to settle most of its amounts due to affiliates through the issuance of additional Class B Units, most of which do not mature for 20 years. See Notes 13, 14, and 21.

v) On March 24, 2020, the Advisor agreed to defer the advisory fee until such time as the Company is able to resume payments while remaining cash flow positive. The Advisor did not collect any fees in 2020, 2021, or for the six months ended June 30, 2022.

vi) Each of the Company's three franchisors of the properties in the Initial Portfolio (Hilton Worldwide, Marriott International and the Intercontinental Hotel Group, together, the "Franchisors") granted the Company the ability to pay past due franchise fees over time throughout 2020 and 2021. The Company is current on franchise fees with all Franchisors.

vii) Marriott has revised the required property improvement plan (the "PIP") for the St. Pete property, which is now expected to cost $7,200 in total and has granted an extension for completion in two phases throughout 2021 and 2022. As of June 30, 2022 the Company has $769 in reserves with the lender that can be used toward the PIP. The first phase of the PIP was completed in November 2021 and the Company expects to start the second phase of the renovation in late 2022.

viii) Affiliates of the Advisor provided $1,000 to the Company in the second quarter of 2022, in the form of convertible notes. The Company also repaid $4,550 of principal to affiliates in the first quarter of 2022. See Note 13 and Note 21.

ix) Occupancy and ADR across the Initial Portfolio have increased from 66.4% and $121.02, respectively from the second quarter of 2021 to 71.5% and $162.24, respectively for the second quarter of 2022. The United States is aggressively rolling out vaccines and states and cities are removing COVID-19 restrictions altogether, all of which

is significantly improving the outlook for the lodging sector overall and for the Company specifically. This is displayed in the increase of future group bookings for 2022. Occupancy and ADR across the Current Portfolio for the three months ended June 30, 2022 was 69.6% and $161.79. Occupancy and ADR across the Current Portfolio for the six months ended June 30, 2022 was 66.1% and $154.96.

x) On March 8, 2022, we launched a process to market the DT Portfolio for sale. We expect to close the sale of the Beaverton property, Tigard property, and Vancouver property towards the end of the third quarter, with the possibility of an extension to close in October 2022. See Note 6 and Note 24 for a further discussion.

There can be no assurance that the Company will continue to generate positive cash flows from operations, whether any of these required measures may be completed, or whether they will provide the Company with sufficient liquidity. In order to continue as a going concern, the Company needs to (i) generate positive cash flows, which assumes the continuance of current operations, (ii) be successful in obtaining the concessions from its creditors as noted above, and such concessions must provide the Company with sufficient liquidity to fund its cash flow deficits in the intervening period, and (iii) be successful in refinancing its notes and mezzanine loans payable as they come due. As a result of these facts, the Company has determined there is a potential risk about the Company's ability to continue as a going concern and, therefore, realize its assets and discharge its liabilities in the normal course of business.

These interim consolidated financial statements of the Company (the "Financial Statements") have been prepared on a going concern basis, which assumes the Company will continue its operations in the foreseeable future and will be able to realize its assets and discharge its liabilities and commitments in the ordinary course of business. The Financial Statements do not include any adjustments to classification of assets and liabilities and reported expenses that may be necessary if the going concern basis was not appropriate for these Financial Statements. If the Company is unable to continue as a going concern, material write-downs to the carrying values of the Company's assets could be required.

Although management believes it can continue as a going concern if the plan outlined above comes to fruition, it is important to note that many of the assumptions included in management's internal cash flow projections are out of its control. For example, the Company does not control the timing of the distribution of the COVID-19 vaccine and boosters, the spread of any new variants of the COVID-19 virus or whether governmental authorities may impose new shelter-in-place orders as variants of the virus continue to mutate. Nor does the Company control consumer behavior regarding when the general public will feel safe in traveling and staying in hotels or when businesses will lift the suspension on business travel. For these reasons, it is difficult for the Company to estimate the likelihood of these events occurring, the timing of when they may occur or the impact they will have once they occur. The Company is optimistic but proceeds with caution in determining recovery assumptions in management's internal cash flow projections as there are many factors to consider.

Additionally, inflation in the United States is at a 40-year high, and the country saw the second consecutive quarter of negative GDP growth for the quarter ended June 30, 2022. The Company has not seen a negative impact on performance like it did with COVID-19, but management continues to monitor the economic indicators and their potential negative impact on the portfolio.

b) Statement of Compliance

These Financial Statements have been prepared by management in accordance with IAS 34 Interim Financial Reporting. The Financial Statements should be read in conjunction with the notes to the Company's consolidated interim financial statements for the six months ended June 30, 2022 and June 30, 2021, which have been prepared in accordance with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB"), since the Financial Statements do not contain all disclosures as required by IFRS for annual financial statements. These Financial Statements are presented in U.S. dollars, which is the functional currency of the Company, and all amounts have been rounded to the nearest thousand, except when otherwise indicated, such as unit counts and per unit amounts.

The Financial Statements were authorized for issue by the Board of Trustees of NHT on August 19, 2022.

c) Basis of Measurement

The Financial Statements have been prepared on a historical cost basis, except for Class B Units, interest rate swaps and interest rate caps which are recorded at fair value through profit and loss.

d) Use of estimates and judgments

The preparation of the Financial Statements in conformity with IFRS requires management to make estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the Financial Statements. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised and in any future periods affected. Assumptions and estimation uncertainties that have a significant risk of resulting in a material adjustment within the future financial year relate to interest rate swaps, interest rate caps, the assessment of impairment of property and equipment, indefinite life intangible assets and goodwill as described in Note 3(e).

In the process of applying the accounting policies, the Company makes various judgments, apart from those involving estimations, that can significantly affect the amounts it recognized in the Financial Statements. Information about critical judgments in applying accounting policies that have the most significant effect on the amounts recognized in the Financial Statements relate to the following:

i) The componentization of property and equipment as described in Note 3(d).
ii) Impairment of property and equipment or the recovery of prior impairment as described in Note 3(e).
iii) Management's assessment of whether the acquisition of a property should be accounted for as an asset purchase or business combination. This assessment impacts the accounting treatment of transaction costs, the allocation of the costs associated with the acquisition and whether or not goodwill is recognized. The Company's acquisitions are generally determined to be business combinations as the Company acquires an integrated set of processes as part of the acquisition transaction.
iv) Management's assessment of whether or not the Company controls entities in which it has an interest. This involves evaluating the Company's ability to make decisions over the relevant activities of such entities and to determine to what extent the Company is exposed to the variable returns of the entities. This assessment impacts the identification of the Company's subsidiaries and as a result which entities it consolidates.
v) The Company's ability to continue as a going concern as detailed in Note 2(a). This determination involves making assumptions about future events and about how third parties, which act independently of the Company and its assumptions, may react to current and future events that have an impact on the Company's ability to continue as a going concern.

Note 3. Significant Accounting Policies

The significant accounting policies used in the preparation of the Financial Statements are described below and have been applied consistently to all periods presented:

a) Basis of Consolidation

The Financial Statements include the accounts of the Company and its wholly owned subsidiaries including NHT Holdings LLC, the OP and subsidiaries of the OP, which are controlled by the Company in accordance with IFRS 10, *Consolidated Financial Statements*. Control exists when the Company is exposed to or has the rights to variable returns from its involvement with the entity and has the ability to affect those returns through its power. All significant intercompany accounts and transactions have been eliminated on consolidation.

b) Business combinations

At the time of acquisition of a property, whether through a controlling share investment or directly, the Company considers whether the acquisition represents the acquisition of a business. The Company accounts for an acquisition as a business combination where an integrated set of activities is acquired in addition to the property. More specifically, the extent to which significant processes are acquired is considered. If no significant processes, or only insignificant processes, are acquired, the acquisition is treated as an asset acquisition rather than a business combination. The Company generally considers the acquisition of a hospitality asset to be a business combination as an integrated set of activities with significant processes are acquired in the transaction.

The purchase price of a business combination is measured as the fair value of the assets given, equity instruments issued and liabilities incurred or assumed at the acquisition date. Identifiable assets acquired and liabilities and contingent liabilities assumed in a business combination are measured initially at fair value at the date of acquisition. The Company recognizes assets or liabilities, if any, resulting from a contingent consideration arrangement at their acquisition date fair value and such amounts form part of the purchase price of the business combination. Subsequent changes in the fair value of contingent consideration arrangements are recognized in profit or loss. The difference between the purchase price and the fair value of the acquired identifiable net assets and liabilities is goodwill. On the date of acquisition, positive goodwill is recorded as an asset in the Company's Consolidated Statement of Financial Position. Negative goodwill is immediately recognized in profit or loss. The Company expenses transaction costs associated with business combinations in the period incurred.

When an acquisition does not meet the criteria for business combination, it is accounted for as an acquisition of a group of assets and liabilities. As determined by a concentration test, an acquisition is determined to be an asset acquisition if substantially all of the fair value of the gross assets is concentrated in a single identifiable asset or group of similar identifiable assets. If a preparer

chooses not to apply the concentration test, or the test is failed, then the assessment focuses on the existence of a substantive process. The purchase price of the acquisition, including transaction costs, are allocated to the assets and liabilities acquired based upon their relative fair values. No goodwill is recognized for asset acquisitions.

In February 2022, the Company acquired the Hyatt Place in Park City, Utah and the Hampton Inn & Suites in Bradenton, Florida. Both acquisitions were accounted for as asset acquisitions.

c) Functional currency

The functional and presentation currency of the Company and its subsidiaries is the U.S. dollar. All amounts have been rounded to the nearest thousand, except when otherwise indicated, such as unit counts and per unit amounts.

d) Property and equipment

(i) Recognition and measurement

Property and equipment are measured at cost less accumulated depreciation and any accumulated impairment losses. Cost includes initial acquisition costs and other direct costs. Significant parts of the buildings are accounted for as separate components of the property, based on management's judgment of what components constitute a significant cost in relation to the total cost of an asset and whether these components have similar or dissimilar patterns of consumption and useful lives for purposes of calculating depreciation.

(ii) Subsequent costs

The cost of replacing a part of an item of property and equipment is recognized in the carrying amount of the item if it is probable that the future economic benefits embodied within the part will flow to the Company and its cost can be measured reliably. The carrying amount of the replaced part is derecognized. The costs of the day-to-day maintenance of property and equipment are recognized in profit or loss as incurred.

(iii) Depreciation

Depreciation is computed on a straight-line basis based on the useful lives of each component of property and equipment. Depreciation on new construction commences in the month after the asset is available for its intended use based upon the useful life of the asset.

Estimated useful lives were determined based on current facts and past experience, and take into consideration the anticipated physical life of the asset and its components and current and forecasted demand. The rates and methods used are reviewed annually at year end to ensure they continue to be appropriate, and are also reviewed in conjunction with impairment testing. Gains or losses on disposition of property and equipment are recognized in profit or loss when the Company has transferred to the purchaser the significant risk and rewards of ownership of the property and equipment and the purchaser has made a substantial commitment demonstrating its intent to honour its obligation.

Asset	Useful Life (Years)
Building structure	40
Buildings - mechanical, electrical and elevators	30
Buildings - roof, windows, and doors	20
Building improvements	5 - 15
Interior upgrades	3
Furniture, fixtures and equipment	5 - 7
Leases	Length of lease

e) Impairment of non-financial assets

The carrying amounts of the Company's non-financial assets, other than inventories, are reviewed at each reporting date to determine whether there is any indication of impairment or recovery. If any such indication exists, then the asset's recoverable amount is estimated.

The recoverable amount of an asset or cash-generating unit is the greater of its value in use and its fair value less costs to sell. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. For the purpose of impairment

testing, assets that cannot be tested individually are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or groups of assets (the "cash-generating unit" or "CGU").

When the carrying amount of the asset or CGU exceeds its estimated recoverable amount, an impairment loss is recognized in an amount equal to the excess. However, when an indication that an impairment loss recognized in prior periods for an asset or CGU other than goodwill may no longer exist or may have decreased, the recoverable amount of that asset or CGU is estimated. A reversal of an impairment loss is recognized immediately in profit or loss if the recoverable amount of a previously impaired asset or CGU has subsequently increased to the lower of the asset or CGU's recoverable amount or carrying amount had no impairment loss been recognized for the asset or CGU in prior years.

Intangible assets with finite useful lives are tested for impairment if events or changes in circumstances, assessed at each reporting date, indicate the carrying amount may not be recoverable.

f) Financial instruments

(i) Classification and measurement of financial assets and liabilities:

Financial instruments are generally measured at fair value on initial recognition. The classification and measurement of financial assets consists of the following categories: (i) measured at amortized cost, (ii) fair value through profit and loss ("FVTPL"), and (iii) fair value through other comprehensive income ("FVTOCI"). Financial assets classified at amortized cost are measured using the effective interest method. Financial assets classified as FVTPL are measured at fair value with gains and losses recognized through profit or loss. Financial assets classified as FVTOCI are measured at fair value with gains or losses recognized through other comprehensive income, except for gains and losses pertaining to impairment or foreign exchange recognized through profit or loss.

The classification and measurement of financial liabilities consists of the following categories: (i) measured at amortized cost and (ii) FVTPL. Financial liabilities classified at amortized cost are measured using the effective interest method. Financial liabilities classified as FVTPL are measured at fair value with changes in fair value attributable to changes in the credit risk of the liability presented in other comprehensive income, and the remaining amount of change in fair value presented in profit or loss.

The Company has made the following classifications for its financial instruments:

Financial Instrument	Classification Under IFRS 9
Cash and cash equivalents	Amortized cost
Restricted cash	Amortized cost
Trade and other receivables	Amortized cost
Lease liability	Amortized cost
Interest rate caps	FVTPL
Interest rate swaps	FVTPL
Accounts payable and other accrued liabilities	Amortized cost
Note payable	Amortized cost
Mezzanine loan	Amortized cost
Class B redeemable units of OP	FVTPL

The Company derecognizes a financial asset only when the contractual rights to the cash flows from the asset expire or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another entity. The Company derecognizes a financial liability when, and only when, the Company's obligations are discharged, cancelled or they expire. The difference between the carrying amount of the financial liability derecognized and the consideration paid and payable is recognized in profit or loss.

Transaction costs other than those related to financial instruments classified as FVTPL, which are expensed as incurred, are capitalized to the carrying amount of the instrument and amortized using the effective interest method. These costs include interest, amortization of discounts or premiums relating to borrowings, fees and commissions paid to agents, brokers and advisers and transfer taxes and duties.

Units that are redeemable at the option of the holder are considered puttable instruments in accordance with International Accounting Standards 32, *Financial Instruments – Presentation* ("IAS 32"). Puttable instruments are required to be accounted for as financial liabilities, except where certain conditions are met in accordance with IAS 32; in which case, the puttable instruments may be presented as equity. Units meet the exemption conditions of IAS 32 and are, therefore, presented as equity.

The Class B Units are redeemable for cash or Units on a one-for-one basis subject to customary anti-dilution adjustments at the option of the Company and, therefore, the Class B Units meet the definition of a financial liability under IAS 32. Further, the Class B Units are designated as financial liabilities at FVTPL and are measured at fair value at each reporting period with any changes in fair value recorded in profit or loss. The Class B Units are, in all material aspects, economically equivalent to Units on a per unit basis. The distributions paid on Class B Units are accounted for as finance costs.

(ii) Impairment of financial assets

For impairment of financial assets other than investments in equity instruments, contract assets, lease receivables, loan commitments and financial guarantee contracts, the Company applies a forward-looking 'expected credit loss' ("ECL") model. NHT adopted the practical expedient to determine ECL on trade and other receivables using a provision matrix based on historical credit loss experiences adjusted for current and forecasted future economic conditions to estimate lifetime ECL.

Impairment losses are recorded in profit or loss with the carrying amount of the financial asset or group of financial assets reduced.

g) Cash and cash equivalents

The Company considers all liquid investments with original terms to maturity of three months or less when acquired to be cash equivalents. Cash and cash equivalents consist of cash on hand and cash held at banks.

h) Restricted cash

Restricted cash primarily consists of cash reserves on deposit with, or under the control of, lenders in respect of future capital expenditures, insurance and taxes.

i) Provisions

A provision is recognized if, as a result of a past event, the Company has a present legal or constructive obligation that can be estimated reasonably, and it is probable that an outflow of economic benefits will be required to settle the obligation. If the time value of money is material, provisions are determined by discounting the expected future cash flows using a current rate that reflects the risk profile of the liability and the increase to the provision due to the passage of time will be recognized as a finance cost.

j) Revenue recognition

IFRS 15, *Revenue from Contracts with Customers,* establishes a comprehensive framework for determining whether, how much and when revenue is recognized. The standard requires revenue to be recognized in a manner that depicts the transfer of promised goods or services to a customer and at an amount that reflects the consideration expected to be received in exchange for transferring those goods or services. This is achieved by applying the following five steps:

1. identify the contract with a customer;
2. identify the performance obligations in the contract;
3. determine the transaction price;
4. allocate the transaction price to the performance obligations in the contract; and
5. recognize revenue when (or as) the entity satisfies a performance obligation.

Revenue is generated primarily from the operation of the Company's hotels, which includes room rentals, food and beverage sales and other incidental income. Revenue is recognized when services are rendered, the amount is earned, and collectability is reasonably assured. The Company may collect payments in advance of the utilization of a facility. These payments are recorded as a component of accounts payable and other accrued liabilities until such time as the applicable facility is utilized, at which time the customer deposit is recognized as revenue.

k) Finance costs from operations

Finance costs from operations consist primarily of interest expense on outstanding debt, the amortization of deferred financing costs, net of interest income and distributions made to Class B unitholders. Interest expense is recognized in the period in which it is incurred. Fees and costs related to obtaining debt financing are capitalized against the related debt and amortized over the term of the debt using the effective interest method, and are included in finance costs from operations. The unamortized balance of the fees and costs is recorded as a reduction from the related debt on the Company's Consolidated Statement of Financial Position.

l) Income taxes

(i) Canadian mutual fund status

NHT is a mutual fund trust pursuant to the Income Tax Act (Canada). Under current tax legislation, a mutual fund trust that is not a Specified Investment Flow-Through Trust ("SIFT") pursuant to the Income Tax Act (Canada) is entitled to deduct distributions of taxable income such that it is not liable to pay income taxes provided that its taxable income is fully distributed to unitholders. NHT intends to qualify as a mutual fund trust that is not a SIFT trust and to make distributions not less than the amount necessary to ensure that NHT will not be liable to pay income taxes.

(ii) U.S REIT Status

The Company expects to be classified as a corporation for U.S. federal income tax purposes pursuant to section 7874 of the Code. Further, the Company expects to be treated as a U.S. corporation for all purposes under the Code and, as a result, it would be permitted to elect to be treated as a REIT under the Code, notwithstanding it will be organized as a Canadian entity. In general, a company that elects REIT status, distributes at least 90% of its REIT taxable income to its shareholders in any taxable year, and complies with certain other requirements is not subject to U.S. federal income taxation to the extent of the income it distributes. If it fails to qualify as a REIT in any taxable year, it will be subject to U.S. federal income tax at regular corporate income tax rates on its taxable income. Even if it qualifies for taxation as a REIT, it may be subject to certain state and local taxes on its income and property and to federal income and excise taxes on its undistributed income. The Company has reviewed the REIT requirements and expects that it will qualify as a REIT under the Code. Accordingly, no provision for U.S. federal income or excise taxes has been made with respect to the income of the Company.

The Company, through wholly owned subsidiaries, leases the Initial Portfolio and will lease any future acquisitions to the TRS Entities, which are taxable in the U.S. A TRS is a corporation that has not elected REIT status and has made a joint election with a REIT to be treated as a TRS. As such, it is subject to U.S. federal and state corporate income tax. The income tax effects on the results of the TRS Entities accrue directly to the unitholders of the Company.

For these entities, income tax expense comprises current and deferred taxes. Current tax and deferred tax are recognized in profit or loss except to the extent that they relate to a business combination, or to items recognized directly in equity or in other comprehensive income.

(iii) Current taxes

Current tax is the expected tax payable or receivable on the taxable income or loss for the year, using tax rates enacted or substantively enacted at the reporting date, and any adjustment to tax payable in respect of previous years. The amount of current tax payable or receivable is the best estimate of the tax amount expected to be paid or received that reflects uncertainty related to income taxes, if any.

(iv) Deferred taxes

Deferred tax is recognized in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. Deferred tax is not recognized for the following temporary differences: (a) the initial recognition of assets or liabilities in a transaction that is not a business combination and that affects neither accounting nor taxable profit or loss, (b) differences relating to investments in subsidiaries and jointly controlled entities to the extent that it is probable that they will not reverse in the foreseeable future and (c) for taxable temporary differences arising on the initial recognition of goodwill. Deferred tax is measured at the tax rates that are expected to be applied to temporary differences when they reverse, based on the laws that have been enacted or substantively enacted by the reporting date.

(v) Tax uncertainties

Judgement is required to assess the interpretation of tax legislation when recognizing and measuring current and deferred tax assets and liabilities. The impact of different interpretations and applications could potentially be material. The Company recognizes a tax benefit from an uncertain tax position when it is probable that the position will be sustained upon examination, including resolutions of any related appeals or litigation processes, on the basis of technical merits.

(vi) 2017 Tax Act

On December 22, 2017, the Tax Cuts and Jobs Act (the "2017 Tax Act") was signed into law in the United States. The most significant change is the reduction of the statutory corporate tax rate from 35 percent to 21 percent, effective January 1, 2018. Many of the provisions in the 2017 Tax Act expire at the end of 2025.

m) Operating segments

The Company currently operates in one business segment, owning and operating hotel properties in the U.S. The primary format for segment reporting is based on geographic region and is consistent with the internal reporting provided to the Company's chief operating decision-maker.

n) Leases

Under IFRS 16, *Leases*, the Company records the initial present value of unavoidable future lease payments as right-of-use assets and lease liabilities on the Company's Consolidated Statement of Financial Position. The right-of-use assets are initially measured at cost and subsequently measured at cost less accumulated depreciation and impairment losses, adjusted for any remeasurement of the lease liabilities. The lease liabilities are initially measured at the present value of the unavoidable future lease payments discounted using the discount rate implicit in the lease (or if that rate cannot be readily determined, the lessee's incremental borrowing rate). Subsequently, the lease liabilities are adjusted for interest and lease payments, and impact of lease modifications, if any.

o) Levies

In accordance with International Financial Reporting Interpretations Committee ("IFRIC") 21, *Levies* ("IFRIC 21"), the Company recognizes the full amount of annual property tax liabilities at the point in time when the realty tax obligation is imposed. This is the obligating event that gives rise to a liability to pay the property taxes.

p) Government assistance

The Company may receive financial grants from the government in return for past or future compliance with certain conditions relating to its operating activities. These financial grants are recorded in income by the Company when there is reasonable assurance that the Company will comply with the relevant conditions and the financial grant is received. If these conditions are not met, grants received are recognized as a liability.

The Company requested and was granted forgiveness of the first PPP loans in 2021. The Company recognized the balance of the forgiven loans and forgiven accrued interest in profit or loss in 2021 in accordance with IAS 20, *Accounting for Government Grants and Disclosure of Government Assistance.* The Company recognized in profit or loss its second PPP loans in the amount of $4,000 and $6 of accrued interest in accordance with IAS 20 in the first quarter of 2022. See Note 13.

q) Reclassification of items in the financial statements

The Company may, from time to time, record reclassifications of certain items in the Financial Statements to ensure proper representation based on facts and circumstances of the Company.

Note 4. Investment in Subsidiaries and Special Purpose Entities

In connection with its indirect equity investments in real estate assets acquired, the Company, through NHT Holdings, LLC and the OP, indirectly holds an ownership interest in the properties, through the OP's 100% ownership of the membership interests in special purpose LLCs ("SPEs") that directly own the properties. All of the properties the Company has acquired are consolidated in the Company's Financial Statements. Under the terms of each respective mortgage payable, the lender has a perfected security interest in each real estate asset and related personal property.

The loans to NHT 2325 Stemmons, LLC ("NHT 2325 Stemmons"), NHT DFW Portfolio, LLC ("NHT DFW") and NHT SP, LLC ("NHT SP") are cross-collateralized and thus the assets of each entity are subject to recourse in the event of default. Additionally the Note A Loan and Note B Loan (as defined in Note 13) are cross-defaulted with the Mezz Facility. The lender on the Mezz Facility has a perfected security interest in the membership interest of NHT 2325 Stemmons, NHT DFW Portfolio and NHT SP. The Mezz A Loan and Mezz B Loan lender (each as defined in Note 13) has a perfected security interest in the membership interest of NREO NW Hospitality, LLC.

As of June 30, 2022, the Company, through the OP, owned 13 properties through SPE subsidiaries of the OP. The following table presents each SPE that directly owns the title to each property as of June 30, 2022:

Subsidiary	Ownership	Parent	Properties Owned	SPE Subsidiaries Owned	TRS Subsidiaries Owned	Gross Assets	Gross Allocable Notes Payable and Mezzanine Debt
NHT Holdings, LLC	100.0%	NexPoint Hospitality Trust (the Company)	n/a	n/a	n/a	$ 371,005	$ 274,453
NHT Operating Partnership, LLC (the OP)	100.0%	NHT Holdings, LLC	n/a	n/a	n/a	371,005	274,453
NHT 2325 Stemmons, LLC	100.0%	NHT Operating Partnership, LLC (the OP)	Dallas Hilton Garden Inn	1	1	34,354	20,595
NREO NW Hospitality, LLC	100.0%	NHT Operating Partnership, LLC (the OP)	DoubleTree Portfolio	5	5	90,658	68,063
NHT DFW Portfolio, LLC	100.0%	NHT Operating Partnership, LLC (the OP)	HomeWood Suites Portfolio	3	3	32,726	31,633
NHT SP, LLC	100.0%	NHT Operating Partnership, LLC (the OP)	Marriott St. Petersburg	1	1	38,565	31,524
NexPoint Multifamily Capital Trust, Inc.	100.0%	NHT Operating Partnership, LLC (the OP)	Holiday Inn Express Nashville	1	1	113,373	65,809
NHT Bradenton, LLC	100.0%	NHT Operating Partnership, LLC (the OP)	Bradenton Hampton Inn & Suites	1	1	26,630	17,305
NHT Park City, LLC	100.0%	NHT Operating Partnership, LLC (the OP)	Hyatt Place Park City	1	1	31,348	19,525

Note 5. Business Combinations, Contributions of Net Assets and Asset Acquisitions

On January 8, 2019 five of the hospitality properties forming part of the Initial Portfolio were indirectly contributed to the Company (Addison HomeWood Suites, Plano HomeWood Suites, St. Pete Marriott, and the Nashville Holiday Inn Express) and the transaction was considered to be a common-control transaction and was accounted for using book value accounting. Simultaneously, the six other hospitality properties forming part of the Initial Portfolio were indirectly contributed to the Company (Dallas Hilton Garden Inn, Beaverton DoubleTree, Bend DoubleTree, Olympia DoubleTree, Tigard DoubleTree, and the Vancouver DoubleTree) in what was considered to be a business combination and was accounted for using the purchase method of accounting in accordance with IFRS 3. See prior year financial statements of the Company available on SEDAR for a further discussion on the formation and contribution of the Initial Portfolio.

In February 2022, the Company acquired the Hyatt Place in Park City, Utah and the Hampton Inn & Suites in Bradenton, Florida. Both acquisitions were considered to be asset acquisitions and were accounted for using the purchase method of accounting in accordance with IFRS 3. The Initial Portfolio together with the Park City and Bradenton properties constitutes the Current Portfolio.

On February 14, 2022, the Company made a $200 deposit on a tract of land at the HUB Research Triangle Park in North Carolina. The Company plans to develop a hotel on this site in partnership with a developer that the Advisor has collaborated with previously.

There were no contributions of net assets for the six months ended June 30, 2022.

Purchase Accounting

The following table summarizes the fair values of the assets acquired and liabilities assumed for the acquisitions accounted for using the purchase method of accounting in 2022:

	NHT Bradenton, LLC	NHT Park City, LLC	Total
Fair value of consideration transferred:	$ 25,973	$ 29,502	$ 55,475
	25,973	29,502	55,475
Property and equipment	24,251	29,660	53,911
Right of use asset	1,445	—	1,445
Intangible assets	304	340	644
Other liabilities	(27)	(498)	(525)
Fair value of net assets acquired and liabilities assumed	$ 25,973	$ 29,502	$ 55,475

The Company acquired the Park City and Bradenton properties for $56,000 and received a credit from the seller of the Park City property in the amount of $200.

Descriptions of the net assets acquired

NHT Park City, LLC

On February 15, 2022, the OP acquired 100% of the LLC interests in NHT Park City, LLC, which owns the Hyatt Place Park City property.

NHT Bradenton, LLC

On February 23, 2022, the OP acquired 100% of the LLC interests in NHT Bradenton, LLC, which owns the Hampton Inn & Suites Bradenton property.

Note 6. Dispositions and Assets Held for Sale

	June 30, 2022
Trade and other receivables	$ 301
Prepaid and other assets	652
Property and equipment, net	87,216
Assets held for sale	$ 88,169
Accounts payable and other accrued liabilities	$ 3,145
DT Loan, Mezz A Loan, Mezz B Loan	68,063
Liabilities directly associated with assets held for sale	$ 71,208

On March 8, 2022, the Company began the marketing process to sell the DoubleTree Portfolio. The Company expects the sale of the Beaverton property, Tigard property, and Vancouver property to occur towards the end of the third quarter, with the possibility of an extension to close in October 2022. See Note 24.

The proceeds from the sale will be used to pay down the outstanding debt on the DT Portfolio (the DT Loan, Mezz A Loan and Mezz B Loan).

For the six months ended June 30, 2022, the Company recorded $743 of impairment to the assets held for sale.

Note 7. Fixed Assets and Leases

a) Property and Equipment, Net

	Land and Land Improvements	Buildings and Improvements	Construction in Progress	Furniture, Fixtures and Equipment	Total
Cost:					
Balance, December 31, 2020	$ 35,742	$ 223,372	$ 1,013	$ 40,611	$ 300,738
Additions - during the period	—	979	4,052	405	5,436
Disposals - during the period	—	(1,598)	—	(2,473)	(4,071)

Carrying amount, December 31, 2021	$ 40,832	$ 232,438	$ 588	$ 23,706	$ 297,564
Carrying amount, June 30, 2022	$ 34,325	$ 198,101	$ 639	$ 23,286	$ 256,351

The Company's fixed asset additions are primarily related to (i) various upgrades and improvements required by the Company's franchise agreements; (ii) the Company's renovation program; and (iii) typical ongoing capital maintenance items. Depreciation during the period includes depreciation of land improvements.

As mentioned in Note 3(e), non-financial assets are reviewed at each reporting date to determine if there is any indication of impairment or recovery. For the six months ended June 30, 2022 and June 30, 2021, the Company recorded an impairment loss of $1,217 and recovery of impairment of $21,508, respectively. In assessing the value in use of the real estate assets, the cash flow estimates were derived from detailed financial forecasts prepared by the Company for 2022. The forecasted cash flow is extended through June 30, 2027 and asset values were determined using a discounted cash flow analysis with terminal cap rates and discount rates used in the most recent appraisals provided by a recognized national valuation firm and adjusted to take into account how various research analysts are now pricing other publicly traded hospitality REITs.

As of June 30, 2022, the Company has classified five assets as held for sale in the consolidated Statement of Financial Position. See Note 6.

b) Leases

The Company's leases consist of land and vehicles at June 30, 2022 and December 31, 2021.

Right of Use Asset	Land	Vehicles	Total
Balance, December 31, 2020	$ 3,013	$ 81	$ 3,094
Balance, December 31, 2021	$ 3,013	$ 81	$ 3,094

Carrying amount, June 30, 2022	$ 1,136	$ 9	$ 1,145

Note 8. Restricted Cash

The Company funded restricted cash reserves for brand-mandated PIPs and furniture, fixtures and equipment upgrades arising from the execution of the Company's franchise agreement and future insurance and property tax expenses. Restricted cash reserves for PIP programs are typically expected to be spent over an 18-24 month period once work begins. The amounts are released to the Company as the expenditures are incurred or paid directly to the service provider. Additionally, the Company presents reserves and escrows for taxes and insurance as restricted cash. Cash proceeds in reserve accounts are primarily held by a lender, though in some cases they are held by the Company. Cash reserves to be held by lenders are only available to meet the expenses for which they are reserved against and cannot be used to extinguish general liabilities. The funds for the renovation of the St. Pete Property are included in furniture, fixtures and equipment ("FF&E") reserves in the table below.

The following table summarizes the amounts of cash reserves in each of these categories as of June 30, 2022 and December 31, 2021:

	June 30, 2022	December 31, 2021
PIPs reserve	$ 175	$ 175
FF&E Reserves	4,937	2,213
Property tax reserve	3,290	2,842
Insurance, cash collateral and other reserves	918	692
Nashville Restricted Cash[1]	2,216	1,133
Total restricted cash	$ 11,536	$ 7,055

[1]In accordance with the forbearance agreement executed with the Lender on May 26, 2021, the Nashville Property is under cash management until it achieves a debt service coverage ratio as specified by the lender for two consecutive quarters. Cash management allows the lender to receive all cash as it comes in from operations and then make payments based on a waterfall. After expenses within the waterfall are met, the remaining cash is distributed to the subsidiary that owns the Nashville Property.

Note 9. Operating Expenses

The following table summarizes components of operating expenses for the three months and six months ended June 30, 2022 and June 30, 2021 which are included in the Consolidated Statements of Income (Loss) and Comprehensive Income (Loss):

	For the Three Months Ended		For the Six Months Ended	
	June 30, 2022	June 30, 2021	June 30, 2022	June 30, 2021
Payroll	$ 4,989	$ 2,773	$ 8,885	$ 5,134
Franchise fees	1,382	788	2,502	1,343
Cost of goods sold	1,300	709	2,228	1,163
Utilities	513	387	951	748
Supplies and equipment	592	304	1,094	544
Property taxes and insurance	748	369	4,605	4,253
Other operating expenses	210	96	409	158
Repairs and maintenance	309	149	540	266
Operating expenses	$ 10,043	$ 5,575	$ 21,214	$ 13,609

The Company recognizes the property tax levy on January 1st of the calendar year in accordance with IFRIC 21.

Note 10. Operating General and Administrative Expenses

The following table summarizes components of general and administrative expenses for the three months and six months ended June 30, 2022 and June 30, 2021 which are included in the Consolidated Statements of Income (Loss) and Comprehensive Income (Loss):

	For the Three Months Ended		For the Six Months Ended	
	June 30, 2022	June 30, 2021	June 30, 2022	June 30, 2021
Marketing	$ 1,652	$ 1,012	$ 2,716	$ 1,534
Operations G&A	1,057	556	1,831	996
Property management fees	578	349	1,039	568
Other administrative expenses	359	331	652	593
Operating general and administrative expenses	$ 3,646	$ 2,248	$ 6,238	$ 3,691

Note 11. Corporate General and Administrative Expenses

The following table summarizes components of corporate general and administrative expenses for the three months and six months ended June 30, 2022 and June 30, 2021 which are included in the Consolidated Statements of Income (Loss) and Comprehensive Income (Loss):

	For the Three Months Ended		For the Six Months Ended	
	June 30, 2022	June 30, 2021	June 30, 2022	June 30, 2021
Audit fees and financial reporting	$ 75	$ 175	$ 304	$ 329
Tax preparation	9	—	34	47
Consulting fees	37	13	66	22
D&O Insurance	24	36	24	54
Legal fees	184	71	228	206
Trustee fees, stock and other compensation	367	343	738	391
TSXV listing fees	4	—	20	16
Filing fees	18	10	18	12
Other administrative expenses	23	57	54	71
Corporate general and administrative expenses	$ 741	$ 705	$ 1,486	$ 1,148

Note 12. Accounts Payable and Other Accrued Liabilities

The following table summarizes components of accounts payable and other accrued liabilities as of June 30, 2022 and December 31, 2021 which are included in the Consolidated Statements of Financial Position:

	June 30, 2022	December 31, 2021
Trade payables	$ 3,196	$ 1,709
Payroll and payroll taxes payable	742	725
Property taxes payable	3,308	1,423
Sales and occupancy tax payable	968	673
Property management fees payable	1,670	1,309
Renovation fees payable	392	—
Interest payable on outstanding debt	3,410	7,751
Franchise fees payable	1,162	622
Deposit liability and advanced bookings	85	85
Offering costs payable	212	212
Other payables	1,546	1,439
Forbearance fee payable	—	342
Professional service fees payable	912	985
Acquisition costs payable	1,098	1,231
Advisory fee payable	5,681	4,635
Distributions payable to Class B unitholders	1,034	1,034
Accounts payable and other accrued liabilities	$ 25,416	$ 24,175

On November 15, 2019, the Company filed a prospectus registering $500 million of additional units, debt securities, subscription receipts and warrants with the intent to raise capital in a secondary offering of the Company's Units (the "Offering"). After launching the Offering, the Company abandoned the Offering on December 18, 2019. The unpaid costs of the Offering totaled $212 as of June 30, 2022, and are included in offering costs payable. As a result of the Company's efforts to close its previously disclosed merger with, *inter alia,* Condor Hospitality Trust, Inc., the Company has unpaid expenses related to the transaction of $1,098 as of June 30, 2022, which are related primarily to legal and audit expenses and are included in acquisition costs payable.

Accounts payable and other accrued liabilities of $3,145 are associated with assets held for sale at June 30, 2022. The balance of accounts payable and other accrued liabilities on the Consolidated Statement of Financial Position does not include this amount as it is presented separately and included in liabilities directly associated with the assets held for sale. See Note 6.

Note 13. Notes Payable, Net, Mezzanine Loans, Net and PPP Loans

The following tables further describe mortgages and other debt instruments as of June 30, 2022 and December 31, 2021 which are included in the Consolidated Statements of Financial Position:

Notes Payable

	June 30, 2022	December 31, 2021
Notes payable	$ 241,390	$ 205,632
Less: current maturities	(7,750)	(85,484)
Less: notes related to assets held for sale	(55,000)	—
Less: unamortized portion of deferred financing costs	(2,054)	(579)
Notes payable, net	$ 176,586	$ 119,569

Mezzanine Loans

	June 30, 2022	December 31, 2021
Mezzanine loans	$ 33,063	$ 33,063
Less: current maturities	(19,696)	(20,000)
Less: mezzanine loans related to assets held for sale	(13,063)	—
Less: unamortized portion of deferred financing costs	(304)	—
Mezzanine loans, net	$ —	$ 13,063

On January 8, 2019, the Company assumed a $55,000 term loan (the “DT Loan”), a $7,365 mezzanine A loan (the “Mezz A Loan”) and a $5,700 mezzanine B loan (the “Mezz B Loan”), with a large non-bank company. The Mezz B Loan serves as a PIP holdback and is available to the Company for future PIP expenditures and bears interest at a variable rate equal to 30-day LIBOR plus 3.45%. The DT Loan is secured by the DT Portfolio and bears interest at a variable rate equal to the 30-day LIBOR plus 2.35%. The Mezz A Loan accrues interest at a variable rate equal to the 30-day LIBOR plus 11.66%. The DT Loan, Mezz A Loan and Mezz B Loan all matured on May 9, 2021 and the Company executed the first extension on March 10, 2021 extending the maturity date of the DT Loan, Mezz A Loan and Mezz B Loan to May 9, 2022. The Company executed a second extension on May 9, 2022 extending the maturity to November 9, 2022. As of June 30, 2022, the DT Loan, Mezz A Loan and Mezz B Loan had interest rates of 4.26%, 13.57% and 5.36%, respectively. As of June 30, 2022 and December 31, 2021, the balance drawn on the Mezz B Loan was $5,698. For the period from January 1, 2021 to June 30, 2022, the Company paid $1,184, $990, and $330 in interest on the DT Loan, Mezz A Loan and the Mezz B Loan, respectively. The Mezz A Loan and Mezz B Loan are secured by a pledge of the membership units of NREO NW Hospitality, LLC.

The Company executed an amendment to the Mezz A Loan and Mezz B Loan dated June 26, 2020 granting the following forbearance and waivers: forbearance of interest for four months through August 31, 2020, waiver of covenants through March 31, 2021, release of FF&E reserves and waiver on contributions to FF&E reserves for four months through August 31, 2020. The Company executed another amendment to the Mezz A Loan and Mezz B Loan granting forbearance of interest from December 2020 through March 2021. The Company paid all deferred interest on the Mezz A Loan and Mezz B Loan in the second quarter of 2022 totaling $484 and $175 respectively.

The DT Loan, Mezz A Loan and Mezz B Loan contain customary representations, warranties, and events of default, which require the Company to comply with affirmative and negative covenants. As of June 30, 2022, there has been no declaration of an event of default by the lender as defined in the respective agreements.

On January 8, 2019, in connection with the acquisition of the Nashville Property, the Company assumed the existing loan on the property of $72,500 with an outstanding balance of $69,929 (the “HIX Loan”). The HIX Loan is secured by the Nashville Property and bears interest at a fixed rate equal to 5.12% and matures on June 30, 2026.

The HIX Loan contains customary representations, warranties, and events of default, which require the HIX Borrowers to comply with affirmative and negative covenants. On September 18, 2020, the lender delivered a formal notice of default to the HIX Borrowers. On May 26, 2021, the HIX Borrowers executed a forbearance agreement with the lender. See Note 20(b) for further discussion surrounding the Nashville Property.

On January 8, 2019, the Company, through the OP, entered into a $35,000 mezzanine facility (the “Mezz Facility”) with a large non-bank company. The proceeds from the Mezz Facility were used to help fund a portion of the purchase price of the Nashville

Property acquired on January 8, 2019. The Mezz Facility is secured by a pledge of the membership units in NHT 2325 Stemmons, NHT DFW Portfolio, and NHT SP, bears interest at a variable rate equal to the 30-day LIBOR plus 6.25% and had an original maturity date of January 8, 2020. As of June 30, 2022, the Mezz Facility had an effective interest rate of 8.50% and matures on July 8, 2022. For the period from January 1, 2021 to June 30, 2022, the Company paid $859 in interest on the Mezz Facility. See Note 24.

On February 28, 2019, the Company, through subsidiaries of the OP, entered into a borrowing arrangement for a $59,400 Note A loan (the "Note A Loan") and a $28,600 Note B loan (the "Note B Loan"). The Note A Loan and Note B Loan are secured by the HGI Property, the HWS Portfolio and the St. Pete Property. The Note A Loan bears interest at a variable rate equal to the 30-day LIBOR plus 2.00% and matures on March 1, 2024. The Note B Loan bears interest at a variable rate equal to the 30-day LIBOR plus 6.46% and matures on March 1, 2024. As of June 30, 2022, the Note A Loan and the Note B Loan had an effective interest rate of 4.25% and 8.71%, respectively. For the period from January 1, 2021 to June 30, 2022, the Company paid $1,206 and $1,211 in interest on the Note A Loan and the Note B loan, respectively. On April 14, 2021, the Company repaid $1,012 and $488 of principal on the Note A Loan and Note B Loan, respectively. Starting in September 2021 and through February 2022, the Company made monthly principal payments on the Note A Loan and Note B Loan. The total principal payments made during this period were $842 and $405, respectively.

On February 15, 2022, in connection with the acquisition of the Park City and Bradenton properties, the Company, through subsidiaries of the OP, entered into a borrowing arrangement for a $39,300 loan (the "PC & B Loan") with a large non-bank company. The outstanding balance on the PC & B Loan at June 30, 2022 is $36,829 with $2,471 available to draw on for renovation purposes. The Company has begun planning renovations at both properties to start in late 2022.

The DT Loan, the PC & B Loan, the HIX Loan, the Note A Loan and Note B Loan (collectively referred to as the "Notes Payable"), and the Mezz A Loan, the Mezz B Loan, and the Mezz Facility (collectively referred to as the "Mezzanine Loans" and together with the "Notes Payable" are referred to as the "Loans") contain customary representations, warranties, and events of default, which require the Company to comply with affirmative and negative covenants.

As discussed in Note 2, as of June 30, 2022, the Company is in good standing with the lenders on all of its outstanding Loans.

In February and March 2021, all 11 of our properties in the Initial Portfolio received a second loan from the PPP with total proceeds from the loans amounting to $4,000. In February 2022, the SBA granted forgiveness of the second loans. The Company recognized the loans and all accrued interest in profit or loss for the six months ended June 30, 2022.

The SBA, in consultation with the U.S. Department of the Treasury, has published guidance for borrowers concerning forgiveness of PPP loans. If the loan is fully forgiven, the borrower is not responsible for any payments. If only a portion of the loan is forgiven, or if the forgiveness application is denied, any remaining balance due on the loan must be repaid by the borrower on or before the maturity date of the loan. Interest accrues during the time between the date of disbursement of the loan and the SBA remittance of the forgiveness amount. The borrower is also responsible for paying accrued interest on any amount of the loan that is not forgiven.

The table below shows future payments on the Loans, excluding amortization of deferred financing costs, payable within the next five calendar years subsequent to June 30, 2022, with the DT Loan, the Mezz A Loan and Mezz B Loan maturing in 2022 as those assets are held for sale:

	Notes Payable	Mezzanine Loans	Total
2022	$ 62,716	$ 33,063	$ 95,779
2023	1,386	—	1,386
2024	78,802	—	78,802
2025	38,365	—	38,365
2026	60,121	—	60,121
2027	—	—	—
Total	$ 241,390	$ 33,063	$ 274,453

As of June 30, 2022 and December 31, 2021, the Company has $73,993 and $50,068 of convertible notes due to its affiliates. The notes are, subject to TSXV approval, convertible to Class B Units at the election of the Company. Most bear interest at an annual rate of 2.25% while outstanding and mature in 20 years in most cases.

In the first quarter of 2022, the Company repaid $4,550 of principal to affiliates.

	June 30, 2022		December 31, 2021	
Convertible affiliate notes	$	73,993	$	50,068

Note 14. Class B Units

The Class B Units of the OP are economically equivalent to Units and are entitled to receive distributions equal to those provided to holders of Units. These Class B Units have been classified as a liability in accordance with IAS 32, as they are redeemable instruments at the option of the holders.

Class B Units are measured at fair value with any changes in fair value recorded in profit or loss. The fair value adjustments of Class B Units are calculated using the Company's Unit closing price as of the end of the reporting period. An increase in the Unit closing price over the period results in a fair value loss whereas a decrease in the Unit closing price over the period results in a fair value gain.

As allowed under IFRS 13, *Fair Value Measurement,* if an asset or a liability measured at fair value has a bid price and an ask price, the price within the bid-ask spread that is the most representative of fair value in the circumstances shall be used to measure fair value. The Company has recorded Class B Units at their fair value, which has been assessed to equal the closing market price of the Units at each valuation date (Level 2).

The 10 day volume weighted average price ("VWAP") of the Units for the 10 trading days immediately preceding the end of the period is the basis of measurement the Company uses to record fair value adjustments of the Class B Units. The 10 day VWAP at June 30, 2022 was $2.50 and the fair value adjustment of the Class B Units for the six months ended June 30, 2022 was $507.

The Company's notes due to affiliates are, subject to TSXV approval, convertible at any time at the election of the Company into Class B Units.

On December 13, 2021, the Company granted 2,475,000 profit interest units ("PIUs") in the OP to officers of the Company and employees of the Advisor. Upon vesting, grantees will receive Class B Units of the OP. As of June 30, 2022, no profits interests units have vested. See Note 23 for more information on PIUs granted and vesting schedules.

The following table presents the outstanding units and the change in fair value of the Class B Units for the six months ended June 30, 2022:

	Units	Fair value	
Redeemable noncontrolling interests in the OP, January 1, 2022	205,597	$	432
Change in fair value of Class B Units	—		(507)
Profit interest units granted	—		589
Redeemable noncontrolling interests in the OP, June 30, 2022	205,597	$	514

Note 15. Finance Costs

The following table summarizes finance costs for the three months and six months ended June 30, 2022 and June 30, 2021:

	For the Three Months Ended				For the Six Months Ended			
	June 30, 2022		June 30, 2021		June 30, 2022		June 30, 2021	
Interest on debt	$	4,636	$	4,585	$	9,048	$	9,306
Amortization of deferred financing costs		389		226		680		457
Change in value of interest rate cap		(245)		—		(571)		—
Fees related to Nashville forbearance agreement		—		1,162		12		1,162
Finance costs from operations	$	4,780	$	5,973	$	9,169	$	10,925
Fair value adjustment to interest rate swaps		—		2,386		—		(4,613)
Fair value adjustment of Class B Units		(218)		(74)		(507)		(254)
Total finance costs	$	4,562	$	8,285	$	8,662	$	6,058

Note 16. Income Taxes

(a) Income tax (expense)/recovery:

The Company has recorded current tax expense/recovery for taxes associated with its direct and indirect subsidiaries. The income tax expense/recovery in the Consolidated Statements of Income (Loss) and Comprehensive Income (Loss) is as follows:

	For the Three Months Ended		For the Six Months Ended	
	June 30, 2022	June 30, 2021	June 30, 2022	June 30, 2021
Net income (loss) before income tax	$ (1,701)	$ (4,347)	$ (1,081)	$ 9,782
Less: income/(loss) relating to entities not subject to income tax	(920)	(8,558)	(3,041)	3,521
Net income before tax relating to taxable subsidiaries	(781)	4,211	1,960	6,261
Deferred income tax benefit	168	(27)	291	38
Income taxes	(531)	(999)	(614)	(1,660)
Income tax recovery (expense)	$ (363)	$ (1,026)	$ (323)	$ (1,622)

(b) Deferred income tax benefit:

As of June 30, 2022 and December 31, 2021, the Company has an estimated tax asset of $2,897 and $2,606, respectively, recorded in the Consolidated Statement of Financial Position for certain temporary book-to-tax differences as well as net operating losses associated with its direct and indirect subsidiaries. A summary of the composition of such tax benefits is provided in the table below.

	June 30, 2022	December 31, 2021
Reserves not currently deductible	$ 390	$ 508
Net operating losses carried forward	2,507	2,098
Total tax assets	$ 2,897	$ 2,606

Note 17. Unitholders' Capital

The Company is authorized to issue an unlimited number of Units. Each Unit represents a proportionate undivided beneficial ownership interest in the Company. Each Unit is transferable and entitles the holder thereof to: (i) an equal participation in distributions of the Company; (ii) rights of redemption; and (iii) one vote at all meetings of unitholders.

There were no changes to the Units or Unitholders' Capital for the period from January 1, 2022 to June 30, 2022.

In 2021, the Company granted 549,687 deferred units to the independent trustees. These deferred units are issued but not issued and outstanding Units. See Note 23 for a further discussion on deferred units and profit interests units.

The following table presents the issued Units, and the changes in unitholders' Capital for the period from January 1, 2021 to December 31, 2021:

	Units	Capital Balance
Unitholders' capital, January 1, 2021	29,352,055	$ 98,023
Deferred units issued	549,687	984
Unitholders' capital, December 31, 2021	29,901,742	$ 99,007

Note 18. Fair Value of Financial Instruments and Derivatives

a) Comparison of fair value to carrying amount

The fair value of a financial instrument is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value may be based on other observable current market transactions in the same instrument, without modification or on a valuation technique using market-based inputs. Fair value

measurements recognized in the Financial Statements are categorized using the following fair value hierarchy that reflects the significance of inputs used in determining the fair values:

- Level 1: Quoted (unadjusted) market prices in active markets for identical assets or liabilities.
- Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, directly or indirectly.
- Level 3: Inputs for the asset or liability that are not based on observable market data (unobservable inputs).

As of June 30, 2022 and December 31, 2021, the carrying amounts of the Company's cash and cash equivalents, restricted cash, trade and other receivables, accounts payables and other accrued liabilities approximated their fair values due to the short-term nature of these financial assets and liabilities.

The fair value of the Loans are estimated by discounting the future cash flows using discount rates that reflect current market conditions for instruments having similar terms and conditions. At June 30, 2022, the Notes Payable were discounted using rates between 6.09% and 7.63% and the Mezzanine Loans were discounted using rates between 12.29% and 14.25%. Discount rates are either provided by lenders or are observable in the open market. As of June 30, 2022, the carrying value of the Company's Loans exceeded their fair value by approximately $12,511 and are considered Level 2 in the fair value hierarchy as inputs are observable directly or indirectly.

The fair value of the redeemable Class B Units is determined based on their redemption value. The redemption value is based on the fair value of the Company's Units at the redemption date, and therefore, is calculated based on the fair value of the Company's Units at the date of the Financial Statements. Since the valuation of the Units are based on observable inputs such as quoted prices for similar instruments in active markets, redeemable non-controlling interests in the OP are classified as Level 2 of the fair value hierarchy.

For the three months and six months ended June 30, 2022, there were no transfers between the different levels of the fair value hierarchy.

(b) Derivative Financial Instruments and Hedging Activities

The Company is exposed to certain risks arising from both its business operations and economic conditions. The Company manages interest rate risks primarily by managing the amount, sources, and duration of its debt funding and the use of derivative financial instruments.

The Company performs market valuations on its derivative financial instruments. The valuation of these instruments is determined using widely accepted valuation techniques, including discounted cash flow analysis on the expected cash flows of each derivative. This analysis reflects the contractual terms of the derivatives, including the period to maturity, and uses observable market-based inputs, including interest rate curves and implied volatilities. The fair values of interest rate caps are determined using the market standard methodology of discounting the future expected cash receipts that would occur if variable interest rates rise above the strike rate of the caps. The variable interest rates used in the calculation of projected receipts on the cap are based on an expectation of future interest rates derived from observable market interest rate curves and volatilities.

Interest rate caps involve the receipt of variable-rate amounts from a counterparty if interest rates rise above the strike rate on the contract in exchange for an up-front premium. The Company entered into an interest rate cap agreement upon acquisition of the Park City and Bradenton properties in February 2022. As of June 30, 2022, the interest rate cap agreements the Company has entered into effectively cap one-month SOFR on $36,829 of the Company's floating rate mortgage and mezzanine indebtedness at a weighted average rate of 2.00%.

To comply with the provisions of IFRS 9, *Financial Instruments,* the Company incorporates credit valuation adjustments to appropriately reflect both the Company's own nonperformance risk and the respective counterparty's nonperformance risk in the fair value measurements. Although the Company has determined that the majority of the inputs used to value its derivatives fall within Level 2 of the fair value hierarchy, the credit valuation adjustments associated with the Company's derivatives utilize Level 3 inputs, such as estimates of current credit spreads, to evaluate the likelihood of default by the Company and its counterparties. The Company has determined that the significance of the impact of the credit valuation adjustments made to its derivative contracts, which determination was based on the fair value of each individual contract, was not significant to the overall valuation. Additionally, in the case of interest rate caps, the Company has no performance obligation, so no credit valuation adjustment is necessary. As a result, all of the Company's derivatives held as of June 30, 2022 and December 31, 2021 were classified as Level 2 of the fair value hierarchy.

Changes in fair value of the interest rate caps are recorded directly in Finance costs from operations. For the six months ended June 30, 2022, the Company incurred minimal interest expense related to changes in the fair value of interest rate caps. The combined fair value of the interest rate caps was nominal as of June 30, 2022 and is recorded as Prepaid and Other Assets in the Consolidated Statement of Financial Position.

As of June 30, 2022, the Company had the following outstanding interest rate caps:

Type of Derivative	Hedged Financial Instrument	Notional		Strike Rate	Reference Rate		Termination Date
Interest rate cap	Note payable	$	55,000	3.00%	One-month LIBOR	1.58%	May 9, 2022[1]
Interest rate cap	Mezz loans	$	13,065	3.00%	One-month LIBOR	1.58%	May 9, 2022[1]
Interest rate cap	Note payable	$	39,300	2.00%	One-month SOFR[2]	2.00%	March 5, 2025

[1]The Company did not renew the interest rate caps upon expiration.
[2] Means the Secured Overnight Financing Rate published by the Federal Reserve Bank of New York

Interest Rate Swap Agreements

In 2019, the OP entered into three transactions with KeyBank National Association ("KeyBank") whereby the OP exchanged the LIBOR portion of its interest obligations in exchange for a fixed rate. On November 24, 2021, the Company terminated all three interest rate swaps.

c) Financial risk management

The Company may be exposed to a number of risks in its normal course of operations from use of financial instruments. These risks, and the actions taken to manage them, are as follows:

(i) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in the market interest rates.

A majority of the Company's Loans bears interest at a variable rate and are either subject to a LIBOR floor or have interest rate caps in place. Fluctuations in interest rates will impact the cost of financing incurred in the future. The Company monitors its interest rate exposure on an ongoing basis.

(ii) Credit risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligation. The maximum exposure to credit risk is the full carrying amount of the financial instrument. The Company is exposed to credit risk with respect to its interest rate caps, interest rate swaps and trade and other receivables. The credit risk for interest rate caps and interest rate swaps are discussed in Note 18 (b). Credit risk of trade and other receivables is mitigated by initiating a prompt collection process. The Company is also exposed to credit risk with respect to cash and cash equivalents, restricted cash and counterparties on derivative contracts. This credit risk of such counterparties is mitigated by only transacting with large financial institutions.

(iii) Liquidity risk

The Company's principal liquidity needs arise from working capital requirements, debt servicing and repayment obligations, payments on unhedged interest rate swaps, planned funding of property improvements, leasing costs, distributions to unitholders, property development and acquisition funding requirements. Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they fall due. Property and equipment investments tend to be relatively illiquid, with the degree of liquidity generally fluctuating in relation to demand for and the perceived desirability of such investments. If the Company was required to sell the property, the proceeds to the Company may be significantly less than the property's carrying amount.

Liquidity risk is managed through cash flow forecasting. Management monitors forecasts of the Company's liquidity requirements to ensure it has sufficient cash to meet operational needs through maintaining sufficient cash and/or availability on undrawn loan agreements and ensuring that it meets its financial covenants. Such forecasting involves a significant degree of judgment, takes into consideration current and projected macroeconomic conditions, the Company's cash

collection efforts, debt financing plans, covenant compliance required under the terms of debt agreements and internal targets. There is a risk that such liquidity forecasts may not be achieved and that currently available debt financing may no longer be available to the Company at terms and conditions that are favorable to the Company, or at all.

As of June 30, 2022, the Company had a working capital deficiency of $12,575. Additional contractual obligations and contingencies are outlined in Note 20. As mentioned in Note 2(a), there is substantial doubt as to whether the Company can meet all of its obligations as they become due. This is primarily the result of the $20,000 Mezz Facility that matured on January 8, 2020, (and as of July 8, 2022, was further extended by the lender until January 8, 2023) but also as a result of the impact to the Company's revenue decline due to the COVID-19 pandemic. In order to continue as a going concern, management is actively working towards addressing the Company's liquidity concerns, including the following: (i) negotiating with lenders to extend or otherwise restructure the terms of our loans and obtain relief from covenants in the near term; and (ii) converting payables to an affiliate into Class B Units. In addition, subject to market conditions, the Company may seek to raise funding through new debt and equity financing, including sale-leaseback and ground lease arrangements, though there is no assurance the Company will be able to obtain such financing. The particular features and quality of the underlying assets and the debt and equity market parameters existing at the time of financing may impact the ability to obtain financing.

The following table provides information on the carrying amounts and the non-discounted contractual maturities of financial liabilities with fixed repayment terms, including estimated interest payments using the 30-day LIBOR rate of 1.7867% and term SOFR of 1.6860% as of June 30, 2022:

	Carrying Amount	Contractual Cash Flows	Reclassified as Held for Sale	1 Year	More than 1 Year
Notes payable	$ 239,336	$ 241,390	$ 55,000	$ 7,750	$ 178,640
Mezzanine loan	32,759	33,063	13,063	20,000	—
Interest payable on notes and mezzanine loans	2,121	28,389	1,289	8,193	18,908
Accounts payable and other accrued liabilities	20,150	20,150	1,856	18,294	—
Lease liability	1,145	1,689	—	161	1,528
Total	$ 295,511	$ 324,681	$ 71,208	$ 54,397	$ 199,076

Note 19. Capital Management

The Company defines capital as the aggregate of unitholders' equity, Class B Units, notes payable and mezzanine loans. The Company's objectives in managing capital are to maintain a level of capital that: complies with investment and debt restrictions pursuant to the Company's operating agreement; complies with existing debt covenants; funds its business strategies; and builds long-term members' value. Capital adequacy is monitored by the Company by assessing performance against the approved annual plan throughout the year and by monitoring adherence to investment and debt restrictions contained in the Company's operating agreement and debt covenants.

Note 20. Commitments and Contingencies

a) Franchise agreement

The Company's properties are operated under franchise agreements (the "Franchise Agreements") with Franchisors. The Franchise Agreements require the payment of a monthly royalty fee and monthly marketing fee on the property's gross room revenue. For the six months ended June 30, 2022, franchise fees were $2,502 and are included in operating expenses.

Details regarding the Franchise Agreements are presented in the following table:

Property	Brand	Execution Date	Term (Years)	Expiration Date	(% of Gross Rooms Sales) Franchise Fees	Marketing Fees
Dallas Hilton Garden Inn	Hilton	December 31, 2014	15	December 31, 2029	5.50%	4.30%
Addison HomeWood Suites	Hilton	May 4, 2017	25	May 31, 2032	5.50%	3.50%
Plano HomeWood Suites	Hilton	May 4, 2017	25	May 31, 2032	5.50%	3.50%
Las Colinas HomeWood Suites	Hilton	May 4, 2017	25	May 31, 2032	5.50%	3.50%
Beaverton DoubleTree	Hilton	May 5, 2018	25	May 31, 2033	5.00%	4.00%
Bend DoubleTree	Hilton	May 5, 2018	25	May 31, 2033	5.00%	4.00%
Olympia DoubleTree	Hilton	May 5, 2018	25	May 31, 2033	5.00%	4.00%
Tigard DoubleTree	Hilton	May 5, 2018	25	May 31, 2033	5.00%	4.00%
Vancouver DoubleTree	Hilton	May 5, 2018	25	May 31, 2033	5.00%	4.00%
St. Petersburg Marriott	Marriott	September 25, 2018	20	September 25, 2038	6%/3%[1]	1.00%
Nashville Holiday Inn Express	Intercontinental Group	January 8, 2019	20	January 8, 2039	3.00%	3.00%
Hyatt Place Park City	Hyatt	February 15, 2022	20	February 23, 2042	5.00%	3.50%
Bradenton Hampton Inn & Suites	Hilton	February 22, 2022	15	February 28, 2037	6.00%	4.00%

[1] 6% of gross rooms sales / 3% of gross food and beverage sales.

b) *Litigation*

In the normal course of operations, the Company may become subject to a variety of legal and other claims. While it is not possible to ascertain the ultimate outcome of all such matters, the Company evaluates all claims on their apparent merits and, if necessary, the Company accrues for its best estimate of the costs to satisfy such claims.

As a result of the financial impact that the COVID-19 pandemic has had on the Nashville Property and the inability of the hotel to meet its financial covenants and obligations, RSS Multiple – DE NT, LLC, the current lender ("Lender"), filed suit against the HIX Borrowers and the Loan Guarantor, seeking, among other things, to appoint a receiver and to foreclose on their security interest.

On May 26, 2021, the HIX Borrowers and Loan Guarantor executed a forbearance agreement with the Lender that will, when followed, cure the defaults identified by the Lender and bring the loan into good standing. The agreement contains various compliance dates, but the final action in compliance with the forbearance agreement, must occur by February 1, 2022. The HIX Borrowers met the compliance requirements by February 1, 2022.

Note 21. Related party transactions

The Financial Statements include the following transactions with related parties:

Advisory Fees

In accordance with the agreement entered into with the Advisor (the "Advisory Agreement"), the Company pays the Advisor an advisory fee equal to 1.00% of the REIT Asset Value (as defined below). Under the direct supervision of the Company, the duties performed by the Company's Advisor under the terms of the Advisory Agreement include, but are not limited to: providing daily management for the Company, selecting and working with third party service providers, overseeing the third party manager, formulating an investment strategy for the Company and selecting suitable properties and investments, managing the Company's outstanding debt and its interest rate exposure through derivative instruments, determining when to sell assets, and managing the renovation program or overseeing a third party vendor that implements the renovation program. REIT Asset Value means the value of the Company's total assets, as determined in accordance with IFRS except that such value shall only consolidate the Company's and NHT Holdings, LLC assets plus the Company's pro rata share of leverage at the OP.

Pursuant to the terms of the Advisory Agreement, the Company will reimburse the Advisor for all documented Operating Expenses and Offering Expenses it incurs on behalf of the Company. "Operating Expenses" include legal, accounting, financial and due diligence services performed by the Advisor that outside professionals or outside consultants would otherwise perform, the Company's pro rata share of rent, telephone, utilities, office furniture, equipment, machinery and other office, internal and overhead expenses of the Advisor required for the Company's operations, and compensation expenses under the Omnibus Plan (as defined in Note 23). Operating Expenses do not include expenses for the advisory services described in the Advisory Agreement. Certain Operating Expenses, such as the Company's ratable share of rent, telephone, utilities, office furniture, equipment, machinery and other office, internal and overhead expenses incurred by the Advisor or its affiliates that relate to the operations of the Company, may be billed monthly to the Company under a shared services agreement. "Offering Expenses" include all expenses (other than underwriters' discounts) in connection with an offering, including, without limitation, legal, accounting, printing, mailing and filing fees and other documented offering expenses.

The Advisor has reinstated the previously waived 2020 advisory fees and the rebate of accrued but unpaid fees as of December 31, 2019. The Company will begin paying advisory fees when it is able to resume payments while remaining cash flow positive.

Expense Cap

Pursuant to the terms of the Advisory Agreement, expenses paid or incurred by the Company for advisory fees payable to the Advisor and expenses incurred by the Advisor or its affiliates in connection with the services it provides to the Company and its subsidiaries will not exceed 1.5% of REIT Asset Value for the calendar year (or part thereof that the Advisory Agreement is in effect (the "Expense Cap")). The Expense Cap does not limit the reimbursement of expenses related to Offering Expenses. The Expense Cap also does not apply to legal, accounting, financial, due diligence and other service fees incurred in connection with mergers and acquisitions, extraordinary litigation or other events outside the Company's ordinary course of business or any out-of-pocket acquisition or due diligence expenses incurred in connection with the acquisition or disposition of real estate assets. For the six months ended June 30, 2022 and June 30, 2021, the Company incurred expenses subject to the Expense Cap of $2,532 and $2,030, respectively.

Internalization Fee

The Company and/or the OP may elect to acquire all of the outstanding and issued equity interests of the Advisor (the "Internalization") by exercising its rights, in its sole discretion, under the Advisory Agreement (subject to certain terms and conditions) to effect an Internalization. The Company will pay the Advisor a fee equal to three times the prior 12 months' Advisory Fee. The Internalization Fee is limited to 7.5% of the combined equity value of the Company and the OP on a consolidated basis as of the date of the Internalization. There has been no internalization as of June 30, 2022.

Termination Fee

If the Company and/or the OP elect to terminate the Advisory Agreement, the Company will pay the Advisor a fee (the "Termination Fee") equal to three times the prior 12 months' Advisory Fee. The Termination Fee is limited to 7.5% of the combined equity value of the Company and the OP on a consolidated basis as of the date the Advisory Agreement is terminated.

Loans from Affiliates

As of June 30, 2022, the OP has entered into several convertible notes with affiliates totaling $78,543 since January 8, 2019. The proceeds of the notes were used for general corporate and working capital purposes and have been consolidated into one account on the Consolidated Statements of Financial Position. In the first quarter of 2022, the Company repaid $4,550 of principal to affiliates. The notes are, subject to TSXV approval, convertible into Class B Units at the election of the Company.

Other Related Party Transactions

The Company has in the past, and may in the future, utilize the services of affiliated parties. For the six months ended June 30, 2022, the Company paid de minimis fees to an affiliated bank, NexBank N.A. ("NexBank"), as the Company and its subsidiaries have several bank accounts at NexBank with a cumulative balance of $12 as of June 30, 2022. NexBank is an affiliate of the Advisor through common beneficial ownership.

Note 22. Supplemental Cash Flow Disclosure

Reconciliation of changes in liabilities, including movements of liabilities to cash flows arising from financing activities for the six months ended June 30, 2022 were as follows:

	Notes Payable, Net	Mezzanine Loans, Net	PPP Loans, Net	Total
Balance, December 31, 2021	$ 205,053	$ 33,063	$ 4,000	$ 242,116
Changes from financing cash flows:				
PPP loan forgiveness	—	—	(4,000)	(4,000)
Loan proceeds related to acquisitions	36,829	—	—	36,829
Deferred financing costs paid	(1,972)	(473)	—	(2,445)
Total changes from financing cash flows	34,857	(473)	(4,000)	30,384
Liability related:				
Principal payments made	(1,070)	—	—	(1,070)
Reclassification to liabilities held for sale	(55,000)	(13,063)	—	(68,063)
Amortization of deferred financing costs on outstanding debt	496	169	—	665
Balance, June 30, 2022	$ 184,336	$ 19,696	$ —	$ 204,032
Current portion	$ 7,750	$ 19,696	$ —	$ 27,446
Long-term portion	$ 176,586	$ —	$ —	$ 176,586

Note 23. Incentive Compensation Plan

The Company has adopted an omnibus equity incentive plan (the "Omnibus Plan") to be granted to key officers and employees of the Company, independent trustees and key employees of the Advisor. As part of the independent trustees' compensation, it is anticipated they will be granted deferred units ("DUs") in the future and may receive, at their election, 100% of their board compensation in the form of DUs. Under the Omnibus Plan, subject to adjustments according to the terms of the plan, the maximum number of Units available for issuance is 3,026,155, representing 20% of the issued and outstanding Units of the Company at the time the Omnibus Plan was adopted.

On June 28, 2021, the Company granted 339,687 DUs to the independent trustees. On December 13, 2021, the Company granted 210,000 DUs to the independent trustees. These DUs vested immediately upon grant. On December 13, 2021, the Company granted 2,475,000 PIUs in the OP to officers of the Company (2,029,200) and employees of the Advisor (445,800). The PIUs will vest ratably over four years (i.e. 25% per year), however, 50% of the PIUs can vest sooner if the value of the units in the table below is achieved, as determined by a recognized national valuation firm which performs regular valuations of the units. In no case can PIUs vest within one year of grant. Therefore, to the extent the below stock prices are achieved prior to December 13, 2022, the PIUs will not be issued until December 13, 2022, assuming no additional restrictions exist:

Vesting %	Upon Unit Price Achieving[1]	PIUs Vested
12.50%	$ 2.00	309,375
12.50%	2.50	309,375
12.50%	3.00	309,375
12.50%	4.00	309,375
Total		1,237,500

[1]Price to be adjusted for dilutive events.

Assuming none of the performance metrics are met, the PIUs will vest as shown in the below table:

Vesting %	Date	PIUs Vested
25.00%	December 13, 2022	618,750
25.00%	December 13, 2023	618,750
25.00%	December 13, 2024	618,750
25.00%	December 13, 2025	618,750
Total		2,475,000

Upon vesting, grantees of the PIUs will receive Class B Units of the OP. As of June 30, 2022, 549,687 DUs and 2,475,000 PIUs have been granted under the Omnibus Plan with 1,468 DUs or PIUs remaining that may be granted.

On May 31, 2022, the Board of Trustees passed a resolution adopting a deferred unit plan (the "Deferred Unit Plan"). The Deferred Unit Plan was subsequently approved by unitholders at the annual general meeting held on June 30, 2022. The maximum number of DUs reserved for issuance under the Deferred Unit Plan at any time is 2,844,256. As of June 30, 2022, no DUs have been issued under this plan.

Note 24. Subsequent Events

The Company evaluated subsequent events through August 19, 2022 to determine if any significant events occurred subsequent to the consolidated balance sheet dates that would have a material impact on the Financial Statements.

Convertible Notes

Subsequent to June 30, 2022, the Company issued $2,100 in convertible notes to related parties. The notes mature 20 years from the issuance date and, subject to TSXV approval, are convertible to Class B Units at the Company's discretion.

DoubleTree Properties

As of August 19, 2022, the Company has executed purchase and sale agreements with three different parties for the sale of the Beaverton property, the Tigard property, and the Vancouver property for a combined purchase price of $43,600. The Company expects these transactions to close towards the end of the third quarter, with the possibility of an extension to close in October 2022.

Subsequent to June 30, 2022, the Company decided to no longer market the Bend property and Olympia property for sale and will continue to hold those assets for the foreseeable future. As of August 19, 2022, assets related to these properties are no longer classified as held for sale.

Mezz Facility

On July 8, 2022, the Company executed an amendment with the lender on the Mezz Facility extending the maturity date to January 8, 2023.

On July 8, 2022, the Company made a $2,000 principal payment on the Mezz Facility.

Note 1. Overview

NexPoint Hospitality Trust ("NHT" or the "Company") is an unincorporated, open-ended real estate investment trust ("REIT") established pursuant to a declaration of trust dated December 12, 2018, under the laws of the Province of Ontario. The registered office of the Company is at 333 Bay Street, Suite 3400, Toronto, Ontario. NHT was created for the purpose of initially acquiring a portfolio of 11 hospitality assets located in the United States (the "Initial Portfolio"), to raise capital to acquire additional U.S. located hospitality assets that meet its investment objectives and criteria and to own, renovate and operate its portfolio of income-producing hotel properties. NHT is externally managed by NexPoint Real Estate Advisors VI, L.P. (the "Advisor"), which was formed for the purpose of managing NHT and is related to the Company through common indirect ownership as well as common control.

NHT has elected to be treated as a REIT under U.S. tax laws. Substantially all of NHT's business will be conducted through NHT Operating Partnership, LLC (the "OP"), NHT's operating partnership, which is a Delaware limited liability company. NHT owns its properties through the OP and its subsidiaries. The OP and its subsidiaries lease the properties to taxable REIT subsidiaries of NHT (the "TRS Entities") to operate. For NHT to qualify as a REIT under the United States Internal Revenue Code of 1986, as amended (the "Code"), NHT cannot operate directly or indirectly any of the hotels it acquires and owns. Therefore, the OP and its subsidiaries lease the hotels to the TRS Entities who in turn engage eligible independent contractors (as defined in the Code), which for the current portfolio of 10 hospitality assets located in the United States (the "Current Portfolio") are affiliates of Aimbridge Hospitality Holdings, LLC, to manage the hotels.

The objectives of NHT are to: (a) provide unitholders with an opportunity to invest in a portfolio of extended-stay, select-service and efficient full service hotels located in attractive U.S. markets and competitively positioned to outperform the industry as a whole; (b) provide unitholders with predictable, sustainable and growing tax efficient cash distributions; (c) enhance the value of NHT's assets and maximize the long-term value of the Class A units of the OP (the "Class A Units"), Class B units of the OP (the "Class B Units") and trust units of NHT (the "Units"), collectively, through active asset and property management programs and procedures and a renovation program; and (d) expand the asset base of NHT, including investing in other real estate where it sees opportunities, primarily through acquisitions and improvements of its properties, including the Initial Portfolio, using targeted and strategic capital expenditures.

NHT's Units are listed on the TSX Venture Exchange (the "TSXV") under the symbol NHT.U.

Note 2. Basis of Preparation

a) Going Concern Uncertainty

The global response to the COVID-19 pandemic had a large negative impact on the Company's operations in 2020 and the first quarter of 2021. Public companies in the North American lodging sector generally saw a significant decline in their stock prices on average during 2020. The well-publicized impacts on the hospitality industry, including shelter-in-place orders in the markets in which the Company operates, as well as a reduction in transient business travel, which the Company relies upon, reduced the Company's room rates and occupancies, and had a significant impact on the Company's operations in 2020 and early 2021. Additionally, data shows that air travel, and consequently, hotel occupancy and average daily rates, were down significantly, with large groups having canceled events. Occupancy declined from an average of 75.1% across the portfolio in 2019 to a low of 12.17% across the portfolio during April 2020, and the Average Daily Rate ("ADR") declined from an average of $145.81 in 2019 to a low of $93.95 during April 2020.

Since the end of January 2021, the hospitality sector in general and the Company specifically have seen significant improvements in operations. Notwithstanding seasonality trends, the first quarter of 2023 was much improved over the first quarter of 2022, with an occupancy of 73.3% across the Current Portfolio compared to 66.9% in the first quarter of 2022. We have seen a rebound in occupancy and ADR as COVID-19 restrictions have loosened or have been removed altogether and people have resumed business and leisure travel. Large group and convention business and business transient bookings have returned to pre-COVID levels as most employees have returned to the office either full-time or in a hybrid model and businesses have removed travel restrictions, enabling the transient segment to recover to pre-COVID levels.

At March 31, 2023, the Company had a working capital deficit of $42,166, of which $17,410 relates to the principal balance on the Mezz Facility (as defined in Note 13) which was originally due on January 8, 2020. The impact to the global economy caused by the response to the COVID-19 pandemic negatively impacted the Company's ability to obtain new financing, and as a result, the Company was unable to refinance the principal balance of the Mezz Facility. As of the date of these interim consolidated financial statement (the "Interim Consolidated Financial Statements"), the Company has obtained an extension for the maturity of the Mezz Facility until July 8, 2023. The Company's held for sale assets are expected to generate sufficient cash proceeds to repay the Mezz Facility. The Company also has $77,353 of notes coming due within the next twelve months.

At March 31, 2023, the Company had the total amount of the Mezz Facility being $17,410, $28,195 of other liabilities as well as the Note A and Note B loans of $52,213 and $25,140, respectively due over the next twelve months through March 31, 2024. Of the liabilities, the Company has payment plans in place for $2,140 of these liabilities and continues to work with vendors for the remainder to make repayment by March 31, 2024.

As of March 31, 2023, the Company is in good standing with the lenders on all its outstanding Loans (as defined in Note 13). Covenant waivers have been granted at various dates on each loan or the lender has informally, or formally, agreed not to pursue available remedies currently.

Management is actively working towards addressing the matters noted above that create uncertainty for the Company as a going concern, which includes the following:

i) The Company has been granted extensions of the maturity of the Mezz Facility while each party continues in good faith discussions to restructure the facility.

ii) On March 24, 2020, the board of trustees of the Company (the "Board") agreed to temporarily suspend distributions for the foreseeable future to conserve cash.

iii) The Company expects to settle most of its amounts due to affiliates through the issuance of additional Class B Units, most of which do not mature for 20 years. See Notes 13, 14, and 21.

iv) On March 24, 2020, the Advisor agreed to defer the advisory fee until such time as the Company is no longer in forbearance with its lenders and can resume payments while remaining cash flow positive. The Advisor did not collect any fees in 2020, 2021, 2022 or for the three months ended March 31, 2023.

v) Marriott has revised the required property improvement plan (the "PIP") for the St. Pete property, which is now expected to cost $7,200 in total and has granted an extension for completion in two phases throughout 2021 and 2022. As of March 31, 2023, the Company had $175 in reserves with the lender that can be used toward the PIP. The first phase of the PIP was completed in November 2021 and the Company started the second phase of the renovation in December 2022 and rolled into the first quarter of 2023. This renovation is expected to be completed in the second quarter of 2023.

vi) Affiliates of the Advisor have not provided any funds to the Company in the first quarter of 2023, so no further convertible notes were issued. The Company does not anticipate needing cash infusions any longer as management believes the Company will be cash flow positive in 2023. See Note 13 and Note 21.

vii) States and cities have removed COVID-19 restrictions altogether, all of which is significantly improving the outlook for the lodging sector overall and for the Company specifically. This is displayed in the increase of future group bookings for 2022 and 2023. Occupancy and ADR across the Current Portfolio have increased from 66.9% and $149.83, respectively from the first quarter of 2022 to 73.3% and $169.94, respectively for the first quarter of 2023.

viii) On March 8, 2023, we launched a process to market the DT Portfolio and HIX Portfolio for sale, which we expect to close in the second and third quarters of 2023. The properties that are classified as Held for Sale are DT Tigard, DT Olympia, and Holiday Inn in Nashville. The proceeds will be used to de-lever the Company. See Note 6.

There can be no assurance that the Company will continue to generate positive cash flows from operations, whether any of these required measures may be completed, or whether they will provide the Company with sufficient liquidity. In order to continue as a going concern, the Company needs to (i) generate positive cash flows, which assumes the continuance of current operations, (ii) be successful in obtaining the concessions from its creditors as noted above, and such concessions providing the Company with sufficient liquidity to fund its cash flow deficits in the intervening period, and (iii) be successful in refinancing its notes and mezzanine loans payable as they come due. As a result of these facts, the Company has determined there is a potential risk about the Company's ability to continue as a going concern and, therefore, realize its assets and discharge its liabilities in the normal course of business.

These Interim Consolidated Financial Statements have been prepared on a going concern basis, which assumes the Company will continue its operations in the foreseeable future and will be able to realize its assets and discharge its liabilities and commitments in the ordinary course of business. The Interim Consolidated Financial Statements do not include any adjustments to classification of assets and liabilities and reported expenses that may be necessary if the going concern basis was not appropriate for these Interim Consolidated Financial Statements. If the Company is unable to continue as a going concern, material write-downs to the carrying values of the Company's assets could be required.

Although management believes it could continue as a going concern if the plan outlined above comes to fruition, it is important to note that many of the assumptions included in management's internal cash flow projections are out of its control. For example, the Company does not control the timing of the distribution of the COVID-19 vaccine and boosters, the spread of any new variants of the COVID-19 virus or whether governmental authorities may impose new shelter-in-place orders as variants of the virus continue to mutate. Nor does the Company control consumer behavior regarding when the general public will feel safe in traveling and staying in hotels or when businesses will lift the suspension on business travel. For these reasons, it is difficult for the Company to estimate the likelihood of these events occurring, the timing of when they may occur or the impact they will have once they occur. The Company is optimistic but proceeds with caution in determining recovery assumptions in management's internal cash flow projections as there are many factors to consider.

b) Statement of Compliance

These Interim Consolidated Financial Statements have been prepared by management in accordance with IAS 34 Interim Financial Reporting. The Interim Consolidated Financial Statements should be read in conjunction with the notes to the Company's Interim Consolidated Financial Statements for the three months ended March 31, 2023 and March 31, 2022, which have been prepared in accordance with International Financial Report Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB"), since the Interim Consolidated Financial Statements do not contain all disclosures as required by IFRS for annual financial statements. These Interim Consolidated Financial Statements are presented in U.S. dollars, which is the functional currency of the Company, and all amounts have been rounded to the nearest thousandth, except when otherwise indicated, such as unit counts and per unit amounts.

The Interim Consolidated Financial Statements were authorized for issue by the Board of NHT on May 30, 2023.

c) Basis of presentation

The Initial Portfolio was acquired by the Company on March 27, 2019, as a result of the contribution of the common and preferred interests in Intermediary to the Company by the Holdings Company (the "Holdco") in exchange for Units. On January 8, 2019, these assets were contributed to entities under the control of Holdco. The Company and Intermediary are considered to be under common control since at the time of contribution Holdco owned 100% of the interests in Intermediary and subsequent to the completion of the contribution of Intermediary owned 100% of the Company. The Interim Consolidated Financial Statements reflect the financial position and results of operations as if the Company had owned the Initial Portfolio since January 8, 2019.

d) Basis of Measurement

The Interim Consolidated Financial Statements have been prepared on a historical cost basis, except for Class B Units and interest rate caps which are recorded at fair value through profit and loss.

e) Use of estimates and judgments

The preparation of the Interim Consolidated Financial Statements in conformity with IFRS requires management to make estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the Financial Statements. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised and in any future periods affected. Assumptions and estimation uncertainties that have a significant risk of resulting in a material adjustment within the future financial year relate to interest rate swaps, interest rate caps, the assessment of impairment of property and equipment, indefinite life intangible assets and goodwill as described in Note 3(e).

In the process of applying the accounting policies, the Company makes various judgments, apart from those involving estimations, that can significantly affect the amounts it recognized in the Interim Consolidated Financial Statements. Information about critical judgments in applying accounting policies that have the most significant effect on the amounts recognized in the Interim Consolidated Financial Statements relate to the following:

i) The componentization of property and equipment as described in Note 3(d).
ii) The impairment of property and equipment or the recovery of prior impairment as described in Note 3(e).
iii) Management's assessment of whether the acquisition of a property should be accounted for as an asset purchase or business combination. This assessment impacts the accounting treatment of transaction costs, the allocation of the costs associated with the acquisition and whether or not goodwill is recognized. The Company's acquisitions are generally determined to be business combinations as the Company acquires an integrated set of processes as part of the acquisition transaction.

iv) Management's assessment of whether or not the Company controls entities in which it has an interest. This involves evaluating the Company's ability to make decisions over the relevant activities of such entities and to determine to what extent the Company is exposed to the variable returns of the entities. This assessment impacts the identification of the Company's subsidiaries and as a result which entities it consolidates.

v) The Company's ability to continue as a going concern as detailed in Note 2(a). This determination involves making assumptions about future events and about how third parties, which act independently of the Company and its assumptions, may react to current and future events that have an impact on the Company's ability to continue as a going concern.

Note 3. Significant Accounting Policies

The significant accounting policies used in the preparation of the Interim Consolidated Financial Statements are described below and have been applied consistently to all periods presented:

a) Basis of Consolidation

The Interim Consolidated Financial Statements include the accounts of the Company and its wholly owned subsidiaries including NHT Holdings LLC, the OP, and subsidiaries of the OP, which are controlled by the Company in accordance with IFRS 10, *Consolidated Financial Statements*. Control exists when the Company is exposed to or has the right to variable returns from its involvement with the entity and has the ability to affect those returns through its power. All significant intercompany accounts and transactions have been eliminated from consolidation.

b) Business combinations

At the time of acquisition of a property, whether through a controlling share investment or directly, the Company considers whether the acquisition represents the acquisition of a business. The Company accounts for an acquisition as a business combination where an integrated set of activities is acquired in addition to the property. More specifically, the extent to which significant processes are acquired is considered. If no significant processes, or only insignificant processes, are acquired, the acquisition is treated as an asset acquisition rather than a business combination. The Company generally considers the acquisition of a hospitality asset to be a business combination as an integrated set of activities with significant processes are acquired in the transaction.

The purchase price of a business combination is measured as the fair value of the assets given, equity instruments issued, and liabilities incurred or assumed at the acquisition date. Identifiable assets acquired and liabilities and contingent liabilities assumed in a business combination are measured initially at fair value at the date of acquisition. The Company recognizes assets or liabilities, if any, resulting from a contingent consideration arrangement at their acquisition date fair value and such amounts form part of the purchase price of the business combination. Subsequent changes in the fair value of contingent consideration arrangements are recognized in profit or loss. The difference between the purchase price and the fair value of the acquired identifiable net assets and liabilities is goodwill. On the date of acquisition, positive goodwill is recorded as an asset in the Company's Consolidated Statement of Financial Position. Negative goodwill is immediately recognized in profit or loss. The Company expenses transaction costs associated with business combinations in the period incurred.

When an acquisition does not meet the criteria for business combination, it is accounted for as an acquisition of a group of assets and liabilities. The purchase price of the acquisition, including transaction costs, are allocated to the assets and liabilities acquired based upon their relative fair values. No goodwill is recognized for asset acquisitions.

c) Functional currency

The functional and presentation currency of the Company and its subsidiaries is the U.S. dollar. All amounts have been rounded to the nearest thousand, except when otherwise indicated, such as unit counts and per unit amounts.

d) Property and equipment

(i) Recognition and measurement

Property and equipment are measured at cost less accumulated depreciation and any accumulated impairment losses. Cost includes initial acquisition costs and other direct costs. Significant parts of the buildings are accounted for as separate components of the property, based on management's judgment of what components constitute a significant cost in relation to the total cost of an asset and whether these components have similar or dissimilar patterns of consumption and useful lives for purposes of calculating depreciation.

(ii) Subsequent costs

The cost of replacing a part of an item of property and equipment is recognized in the carrying amount of the item if it is probable that the future economic benefits embodied within the part will flow to the Company and its cost can be measured reliably. The carrying amount of the replaced part is derecognized. The costs of the day-to-day maintenance of property and equipment are recognized in profit or loss as incurred.

(iii) Depreciation

Depreciation is computed on a straight-line basis based on the useful lives of each component of property and equipment. Depreciation on new construction commences in the month after the asset is available for its intended use based upon the useful life of the asset.

Estimated useful lives were determined based on current facts and past experience and take into consideration the anticipated physical life of the asset and its components and current and forecasted demand. The rates and methods used are reviewed annually at year end to ensure they continue to be appropriate and are also reviewed in conjunction with impairment testing. Gains or losses on disposition of property and equipment are recognized in profit or loss when the Company has transferred to the purchaser the significant risk and rewards of ownership of the property and equipment and the purchaser has made a substantial commitment demonstrating its intent to honor its obligation.

Asset	Useful Life (Years)
Building structure	40
Buildings - mechanical, electrical and elevators	30
Buildings - roof, windows, and doors	20
Building improvements	5 - 15
Interior upgrades	3
Furniture, fixtures and equipment	5 - 7
Leases	Length of lease

e) Impairment of non-financial assets

The carrying amounts of the Company’s non-financial assets, other than inventories, are reviewed at each reporting date to determine whether there is any indication of impairment or recovery. If any such indication exists, then the asset’s recoverable amount is estimated.

The recoverable amount of an asset or cash-generating unit is the greater of its value in use and its fair value less costs to sell. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. For the purpose of impairment testing, assets that cannot be tested individually are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or groups of assets (the “cash-generating unit” or “CGU”).

When the carrying amount of the asset or CGU exceeds its estimated recoverable amount, an impairment loss is recognized in an amount equal to the excess. However, when an indication that an impairment loss recognized in prior periods for an asset or CGU other than goodwill may no longer exist or may have decreased, the recoverable amount of that asset or CGU is estimated. A reversal of an impairment loss is recognized immediately in profit or loss if the recoverable amount of a previously impaired asset or CGU has subsequently increased to the lower of the asset or CGU’s recoverable amount or carrying amount had no impairment loss been recognized for the asset or CGU in prior years.

f) Financial instruments

(i) Classification and measurement of financial assets and liabilities:

Financial instruments are generally measured at fair value on initial recognition. The classification and measurement of financial assets consists of the following categories: (i) measured at amortized cost, (ii) fair value through profit and loss (“FVTPL”), and (iii) fair value through other comprehensive income (“FVTOCI”). Financial assets classified at amortized cost are measured using the effective interest method. Financial assets classified as FVTPL are measured at fair value with gains and losses recognized through profit or loss. Financial assets classified as FVTOCI are measured at fair value with gains or losses recognized through other comprehensive income, except for gains and losses pertaining to impairment or foreign exchange recognized through profit or loss.

The classification and measurement of financial liabilities consists of the following categories: (i) measured at amortized cost and (ii) FVTPL. Financial liabilities classified at amortized cost are measured using the effective interest method. Financial liabilities classified as FVTPL are measured at fair value with changes in fair value attributable to changes in the credit risk of the liability presented in other comprehensive income, and the remaining amount of change in fair value presented in profit or loss.

The Company has made the following classifications for its financial instruments:

Financial Instrument	Classification Under IFRS 9
Cash and cash equivalents	Amortized cost
Restricted cash	Amortized cost
Trade and other receivables	Amortized cost
Lease liability	Amortized cost
Interest rate caps	FVTPL
Accounts payable and other accrued liabilities	Amortized cost
Note payable	Amortized cost
Mezzanine loan	Amortized cost
Class B redeemable units of OP	FVTPL
PIU redeemable units of OP	FVTPL

The Company derecognizes a financial asset only when the contractual rights to the cash flows from the asset expire or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another entity. The Company derecognizes a financial liability when, and only when, the Company's obligations are discharged, cancelled or they expire. The difference between the carrying amount of the financial liability derecognized and the consideration paid and payable is recognized in profit or loss.

Transaction costs other than those related to financial instruments classified as FVTPL, which are expensed as incurred, are capitalized to the carrying amount of the instrument and amortized using the effective interest method. These costs include interest, amortization of discounts or premiums relating to borrowings, fees and commissions paid to agents, brokers and advisers and transfer taxes and duties.

Units that are redeemable at the option of the holder are considered puttable instruments in accordance with International Accounting Standards 32, *Financial Instruments – Presentation* ("IAS 32"). Puttable instruments are required to be accounted for as financial liabilities, except where certain conditions are met in accordance with IAS 32; in which case, the puttable instruments may be presented as equity. Units meet the exemption conditions of IAS 32 and are, therefore, presented as equity.

The Class B Units are redeemable in cash or Units on a one-for-one basis subject to customary anti-dilution adjustments at the option of the Company and, therefore, the Class B Units meet the definition of a financial liability under IAS 32. Further, the Class B Units are designated as financial liabilities at FVTPL and are measured at fair value at each reporting period with any changes in fair value recorded in profit or loss. The Class B Units are, in all material aspects, economically equivalent to Units on a per unit basis. The distributions paid on Class B Units are accounted for as finance costs.

(ii) Impairment of financial assets

For impairment of financial assets other than investments in equity instruments, contract assets, lease receivables, loan commitments and financial guarantee contracts, the Company applies a forward-looking 'expected credit loss' ("ECL") model. NHT adopted the practical expedient to determine ECL on trade and other receivables using a provision matrix based on historical credit loss experiences adjusted for current and forecasted future economic conditions to estimate lifetime ECL.

Impairment losses are recorded in profit or loss with the carrying amount of the financial asset or group of financial assets reduced.

g) Cash and cash equivalents

The Company considers all liquid investments with original terms to maturity of three months or less when acquired to be cash equivalents. Cash and cash equivalents consist of cash on hand and cash held at banks.

h) Restricted cash

Restricted cash primarily consists of cash reserves on deposit with, or under the control of, lenders in respect of future capital expenditures, insurance, and taxes.

i) Provisions

A provision is recognized if, as a result of a past event, the Company has a present legal or constructive obligation that can be estimated reasonably, and it is probable that an outflow of economic benefits will be required to settle the obligation. If the time value of money is material, provisions are determined by discounting the expected future cash flows using a current rate that reflects the risk profile of the liability, and the increase to the provision due to the passage of time will be recognized as a finance cost.

j) Revenue recognition

IFRS 15, *Revenue from Contracts with Customers,* establishes a comprehensive framework for determining whether, how much and when revenue is recognized. The standard requires revenue to be recognized in a manner that depicts the transfer of promised goods or services to a customer and at an amount that reflects the consideration expected to be received in exchange for transferring those goods or services. This is achieved by applying the following five steps:

1. identify the contract with a customer;
2. identify the performance obligations in the contract;
3. determine the transaction price;
4. allocate the transaction price to the performance obligations in the contract; and
5. recognize revenue when (or as) the entity satisfies a performance obligation.

Revenue is generated primarily from the operation of the Company's hotels, which includes room rentals, food and beverage sales and other incidental income. Revenue is recognized when services are rendered, the amount is earned, and collectability is reasonably assured. The Company may collect payments in advance of the utilization of a facility. These payments are recorded as a component of accounts payable and other accrued liabilities until such time as the applicable facility is utilized, at which time the customer deposit is recognized as revenue.

k) Finance costs from operations

Finance costs from operations consist primarily of interest expense on outstanding debt, the amortization of deferred financing costs, net of interest income and distributions made to Class B unitholders. Interest expense is recognized in the period in which it is incurred. Fees and costs related to obtaining debt financing are capitalized against the related debt and amortized over the term of the debt using the effective interest method and are included in finance costs from operations. The unamortized balance of the fees and costs is recorded as a reduction from the related debt on the Company's Consolidated Statement of Financial Position.

l) Income taxes

(i) Canadian mutual fund status

NHT is a mutual fund trust pursuant to the Income Tax Act (Canada). Under current tax legislation, a mutual fund trust that is not a Specified Investment Flow-Through Trust ("SIFT") pursuant to the Income Tax Act (Canada) is entitled to deduct distributions of taxable income such that it is not liable to pay income taxes provided that its taxable income is fully distributed to unitholders. NHT intends to qualify as a mutual fund trust that is not a SIFT trust and to make distributions not less than the amount necessary to ensure that NHT will not be liable to pay income taxes.

(ii) U.S REIT Status

The Company expects to be classified as a corporation for U.S. federal income tax purposes pursuant to section 7874 of the Code. Further, the Company expects to be treated as a U.S. corporation for all purposes under the Code and, as a result, it would be permitted to elect to be treated as a REIT under the Code, notwithstanding it will be organized as a Canadian entity. In general, a company that elects REIT status, distributes at least 90% of its REIT taxable income to its shareholders in any taxable year, and complies with certain other requirements is not subject to U.S. federal income taxation to the extent of the income it distributes. If it fails to qualify as a REIT in any taxable year, it will be subject to U.S. federal income tax at regular

corporate income tax rates on its taxable income. Even if it qualifies for taxation as a REIT, it may be subject to certain state and local taxes on its income and property and to federal income and excise taxes on its undistributed income. The Company has reviewed the REIT requirements and expects that it will qualify as a REIT under the Code. Accordingly, no provision for U.S. federal income or excise taxes has been made with respect to the income of the Company.

The Company, through wholly owned subsidiaries, leases the Initial Portfolio and will lease any future acquisitions to the TRS Entities, which are taxable in the U.S. A TRS is a corporation that has not elected REIT status and has made a joint election with a REIT to be treated as a TRS. As such, it is subject to U.S. federal and state corporate income tax. The income tax effects on the results of the TRS Entities accrue directly to the unitholders of the Company.

For these entities, income tax expense comprises current and deferred taxes. Current tax and deferred tax are recognized in profit or loss except to the extent that they relate to a business combination, or to items recognized directly in equity or in other comprehensive income.

(iii) Current taxes

Current tax is the expected tax payable or receivable on the taxable income or loss for the year, using tax rates enacted or substantively enacted at the reporting date, and any adjustment to tax payable in respect of previous years. The amount of current tax payable or receivable is the best estimate of the tax amount expected to be paid or received that reflects uncertainty related to income taxes, if any.

(iv) Deferred taxes

Deferred tax is recognized in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. Deferred tax is not recognized for the following temporary differences: (a) the initial recognition of assets or liabilities in a transaction that is not a business combination and that affects neither accounting nor taxable profit or loss, (b) differences relating to investments in subsidiaries and jointly controlled entities to the extent that it is probable that they will not reverse in the foreseeable future and (c) for taxable temporary differences arising on the initial recognition of goodwill. Deferred tax is measured at the tax rates that are expected to be applied to temporary differences when they reverse, based on the laws that have been enacted or substantively enacted by the reporting date.

(v) Tax uncertainties

Judgement is required to assess the interpretation of tax legislation when recognizing and measuring current and deferred tax assets and liabilities. The impact of different interpretations and applications could potentially be material. The Company recognizes a tax benefit from an uncertain tax position when it is probable that the position will be sustained upon examination, including resolutions of any related appeals or litigation processes, on the basis of technical merits.

(vi) 2017 Tax Act

On December 22, 2017, the Tax Cuts and Jobs Act (the "2017 Tax Act") was signed into law in the United States. The most significant change is the reduction of the statutory corporate tax rate from 35 percent to 21 percent, effective January 1, 2018. Many of the provisions in the 2017 Tax Act expire at the end of 2025.

m) Operating segments

The Company currently operates in one business segment, owning and operating hotel properties in the U.S. The primary format for segment reporting is based on geographic region and is consistent with the internal reporting provided to the Company's chief operating decision-maker.

n) Leases

Under IFRS 16, *Leases*, the Company records the initial present value of unavoidable future lease payments as right-of-use assets and lease liabilities on the Company's Consolidated Statement of Financial Position. The right-of-use assets are initially measured at cost and subsequently measured at cost less accumulated depreciation and impairment losses, adjusted for any remeasurement of the lease liabilities. The lease liabilities are initially measured at the present value of the unavoidable future lease payments discounted using the discount rate implicit in the lease (or if that rate cannot be readily determined, the lessee's

incremental borrowing rate). Subsequently, the lease liabilities are adjusted for interest and lease payments, and impact of lease modifications, if any.

o) Levies

In accordance with International Financial Reporting Interpretations Committee ("IFRIC") 21, *Levies* ("IFRIC 21"), the Company recognizes the full amount of annual property tax liabilities at the point in time when the realty tax obligation is imposed. This is the obligating event that gives rise to a liability to pay the property taxes.

p) Government assistance

The Company may receive financial grants from the government in return for past or future compliance with certain conditions relating to its operating activities. These financial grants are recorded in income by the Company when there is reasonable assurance that the Company will comply with the relevant conditions and the financial grant is received. If these conditions are not met, grants received are recognized as a liability.

The Company requested and was granted forgiveness of the first PPP loans in 2021. The Company recognized the balance of the forgiven loans and forgiven accrued interest in profit or loss in 2021 in accordance with IAS 20, *Accounting for Government Grants and Disclosure of Government Assistance.* In 2022 the Company recognized an additional $4,000 of forgiven loans in profit or loss in accordance with IAS 20.

q) Reclassification of items in the financial statements

The Company may, from time to time, record reclassifications of certain items in the Interim Consolidated Financial Statements to ensure proper representation based on facts and circumstances of the Company.

Note 4. Investment in Subsidiaries and Special Purpose Entities

In connection with its indirect equity investments in real estate assets acquired, the Company, through NHT Holdings, LLC, and the OP, indirectly holds an ownership interest in the properties, through the OP's 100% ownership of the membership interests in special purpose LLCs ("SPEs") that directly own the properties. All the properties the Company has acquired are consolidated in the Company's Interim Consolidated Financial Statements. Under the terms of each respective mortgage payable, the lender has a perfected security interest in each real estate asset and related personal property.

The loans to NHT 2325 Stemmons, LLC ("NHT 2325 Stemmons"), NHT DFW Portfolio, LLC ("NHT DFW") and NHT SP, LLC ("NHT SP") are cross-collateralized and thus the assets of each entity are subject to recourse in the event of default. Additionally, the Note A Loan and Note B Loan (as defined in Note 13) are cross defaulted with the Mezz Facility. The lender on the Mezz Facility has a perfected security interest in the membership interest of NHT 2325 Stemmons, NHT DFW Portfolio and NHT SP.

As of March 31, 2023, the Company, through the OP, owned 10 properties through SPE subsidiaries of the OP. The following table presents each SPE that directly owns the title to each property as of March 31, 2023:

Subsidiary	Ownership	Parent	Properties Owned	SPE Subsidiaries Owned	TRS Subsidiaries Owned	Gross Assets	Gross Allocable Notes Payable and Mezzanine Debt
NHT Holdings, LLC	100.0%	NexPoint Hospitality Trust (the Company)	n/a	n/a	n/a	$ 308,844	$ 196,267
NHT Operating Partnership, LLC (the OP)	100.0%	NHT Holdings, LLC	n/a	n/a	n/a	308,844	196,267
NHT 2325 Stemmons, LLC	100.0%	NHT Operating Partnership, LLC (the OP)	Dallas Hilton Garden Inn	1	1	34,358	19,021
NREO NW Hospitality, LLC	100.0%	NHT Operating Partnership, LLC (the OP)	DoubleTree Portfolio	2	2	31,653	—
NHT DFW Portfolio, LLC	100.0%	NHT Operating Partnership, LLC (the OP)	HomeWood Suites Portfolio	3	3	33,120	29,216
NHT SP, LLC	100.0%	NHT Operating Partnership, LLC (the OP)	Marriott St. Petersburg	1	1	38,848	29,116
NexPoint Multifamily Capital Trust, Inc.	100.0%	NHT Operating Partnership, LLC (the OP)	Holiday Inn Express Nashville	1	1	108,100	64,685
NHT Bradenton, LLC	100.0%	NHT Operating Partnership, LLC (the OP)	Bradenton Hampton Inn & Suites	1	1	26,791	17,305
NHT Park City, LLC	100.0%	NHT Operating Partnership, LLC (the OP)	Hyatt Place Park City	1	1	30,167	19,525

Note 5. Business Combinations, Contributions of Net Assets and Asset Acquisitions

In February 2022, the Company acquired the Hyatt Place in Park City, Utah and the Hampton Inn & Suites in Bradenton, Florida. Both acquisitions were considered to be business combinations and were accounted for using the purchase method of accounting in accordance with IFRS 3, Business Combinations. The Initial Portfolio together with the Park City and Bradenton properties constitutes the Current Portfolio.

On February 14, 2022, the Company made a $200 deposit on a tract of land at the HUB Research Triangle Park in North Carolina. The Company plans to develop a hotel on this site in partnership with a developer that the Advisor has collaborated with previously.

Purchase accounting

The following table summarizes the fair values of the assets acquired and liabilities assumed for the acquisitions accounted for using the purchase method of accounting in 2022:

	NHT Bradenton, LLC	NHT Park City, LLC	Total
Fair value of consideration transferred:	$ 25,973	$ 29,616	$ 55,589
	25,973	29,616	55,589
Property and equipment	24,251	29,660	53,911
Right of use asset	1,445	—	1,445
Intangible assets	304	340	644
Other liabilities	(27)	(384)	(411)
Fair value of net assets acquired and liabilities assumed	$ 25,973	$ 29,616	$ 55,589

The Company acquired the Park City and Bradenton properties for $56,000 and received a credit from the seller of the Park City property in the amount of $200.

Descriptions of the net assets acquired

NHT Park City, LLC

On February 15, 2022, the OP acquired 100% of the LLC interests in NHT Park City, LLC, which owns the Hyatt Place hotel in Park City, Utah ("Park City"). The Park City property is a 122-room hotel located near Park City ski mountain. Originally built in 2016, the property is almost exclusively focused on leisure travel. Additionally, we requested, and Hyatt granted, the addition of a destination fee for all guests, which should materially increase NOI achieved pre-pandemic.

NHT Bradenton, LLC

On February 23, 2022, the OP acquired 100% of the LLC interests in NHT Bradenton, LLC, which owns the Hampton Inn & Suites hotel in Bradenton, Florida ("Bradenton"). The Bradenton property is a 119-room hotel that hosts multiple major league baseball teams during spring training and is a leisure destination area year-round given the temperate climate in the winter and access to the beach. This property represents a traditional value-add opportunity for NHT. Over the last several years this property has lost RevPAR index to the competitor set, however we believe that with the right renovations, Bradenton should be able to close the gap on the competitor set while sitting in the heart of a growing economy in southern Florida.

There were no contributions or purchases of net assets for the three months ended March 31, 2023.

Note 6. Dispositions and Assets Held for Sale

	March 31, 2023	March 31, 2022
Revenues		
Rooms	$ 666	$ 3,106
Food and beverage	44	125
Other income	18	95
Total revenues	728	3,326
Hotel operating expenses		
Operating expenses	(540)	(1,713)
Operating general and administrative expenses	(174)	(651)
Total hotel operating expenses	(714)	(2,364)
Operating income	14	962
Other income and (expenses)		
Depreciation of property and equipment	—	(893)
Finance costs from operations	(2)	(553)
Total other income and (expenses)	(2)	(1,446)
Income (loss) from discontinued operations before income taxes	12	(484)
Net income (loss) and comprehensive income (loss) from discontinued operations	$ 12	$ (484)

On August 24, 2022, the Company sold the DT Vancouver Property for $14,500, on September 30, 2022, the Company sold the DT Beaverton Property for $14,500, and on December 8, 2022, the Company sold the DT Bend Property for $38,500. The Company used the proceeds from the sale of the DT Bend Property to retire the outstanding debt on the DT Portfolio (DT Loan, Mezz A Loan and Mezz B Loan).

On March 8, 2023, the Company began the marketing process to sell the remaining two DoubleTree properties of Tigard and Olympia as well as the Holiday Inn in Nashville. The Company expects the transactions to close in the second and third quarters of 2023.

	March 31, 2023	December 31, 2022
Trade and other receivables	$ 515	$ 28
Prepaid and other assets	639	173
Property and equipment, net	132,514	14,755
Assets held for sale	$ 133,668	$ 14,956
Accounts payable and other accrued liabilities	$ 3,312	$ 331
HIX Nashville loan	64,685	-
Liabilities directly associated with assets held for sale	$ 67,997	$ 331

Note 7. Fixed Assets and Leases

a) Property and Equipment, Net

	Land and Land Improvements	Buildings and Improvements	Construction in Progress	Furniture, Fixtures and Equipment	Total
Cost:					
Balance, December 31, 2021	$ 40,836	$ 254,449	$ 588	$ 43,808	$ 339,681
Additions - during the period	$ 4	103	2,239	1,105	3,451
Additions - acquired	$ 4,730	42,298	—	6,486	53,514
Assets sold	$ (7,769)	(51,270)	(84)	(6,452)	(65,575)

Balance, December 31, 2022	$ 36,596	$ 232,013	$ 2,563	$ 42,695	$ 313,867
Additions - during the period	—	406	—	88	494
Assets held for sale	(14,150)	(107,487)	(1,202)	(15,729)	(138,568)
Balance, March 31, 2023	$ 22,446	$ 124,932	$ 1,361	$ 27,054	$ 175,793
Accumulated depreciation:					
Balance, December 31, 2021	$ 4	$ 22,011	$ —	$ 20,102	$ 42,117
Depreciation expense - during the period	2	6,316	—	5,786	12,104
Depreciation expense - assets held for sale	—	66	—	70	136
Depreciation expense - assets sold during the period	—	697	—	549	1,246
Accumulated depreciation - assets sold	—	(67)	—	(16)	(83)
Accumulated depreciation - assets held for sale	—	(4,621)	—	(4,124)	(8,745)
Adjustment for casualty loss during the period	—	(1,132)	—	(1,312)	(2,444)
Balance, December 31, 2022	$ 6	$ 23,270	$ —	$ 21,055	$ 44,331
Depreciation expense - during the period	—	922	—	925	1,847
Accumulated depreciation - assets held for sale	(4)	(11,876)	—	(8,909)	(20,789)
Balance, March 31, 2023	$ 2	$ 12,316	$ —	$ 13,071	$ 25,389
Carrying amount, December 31, 2022	$ 36,590	$ 208,743	$ 2,563	$ 21,640	$ 269,536
Carrying amount, March 31, 2023	$ 22,444	$ 112,616	$ 1,361	$ 13,983	$ 150,404

The Company's fixed asset additions are primarily related to (i) various upgrades and improvements required by the Company's franchise agreements; (ii) the Company's renovation program; and (iii) typical ongoing capital maintenance items. Depreciation during the period includes depreciation of land improvements.

As mentioned in Note 3(f), non-financial assets are reviewed at each reporting date to determine if there is any indication of impairment or recovery. The Company recorded no impairment for the three months ended March 31, 2023. In assessing the value in

use of the real estate assets, the cash flow estimates were derived from detailed financial forecasts prepared by the Company for 2023. The forecasted cash flow is extended through March 31, 2028 and asset values were determined using a discounted cash flow analysis with terminal cap rates and discount rates used in the most recent appraisals provided by a recognized national valuation firm and adjusted to consider how various research analysts are now pricing other publicly traded hospitality REITs.

As of March 31, 2023, the Company has classified two assets as held for sale in the consolidated Statement of Financial Position. See Note 6.

b) Leases

The Company's leases consist of land and vehicles at March 31, 2023, and December 31, 2022.

Right of Use Asset	**Land**	**Vehicles**	**Total**
Balance, December 31, 2021	$ 3,013	$ 81	$ 3,094
Acquisitions	1,445	—	1,445
Balance, December 31, 2022	$ 4,458	$ 81	$ 4,539
Balance, March 31, 2023	$ 4,458	$ 81	$ 4,539
Accumulated depreciation:			
Balance, December 31, 2021	$ 900	$ 65	$ 965
Depreciation - During the period	318	16	334
Balance, December 31, 2022	$ 1,218	$ 81	$ 1,299
Depreciation - During the period	47	—	47
Balance, March 31, 2023	$ 1,265	$ 81	$ 1,346
Carrying amount, December 31, 2022	$ 3,240	$ —	$ 3,240
Carrying amount, March 31, 2023	$ 3,193	$ —	$ 3,193

Lease Liability	**Land**	**Vehicles**	**Total**
Balance, December 31, 2021	$ 1,207	$ 17	$ 1,224
Interest expense	4	—	4
Changes from financing cash flows:			
Lease liability paid	(148)	(17)	(165)
Balance, December 31, 2022	$ 1,063	$ —	$ 1,063
Interest expense	1	—	1
Changes from financing cash flows:			
Lease liability paid	(43)	—	(43)
Balance, March 31, 2023	$ 1,021	$ —	$ 1,021
Carrying amount, December 31, 2022	$ 1,063	$ —	$ 1,063
Carrying amount, March 31, 2023	$ 1,021	$ —	$ 1,021

Note 8. Restricted Cash

The Company funded restricted cash reserves for brand-mandated PIPs and furniture, fixtures and equipment upgrades arising from the execution of the Company's franchise agreement and future insurance and property tax expenses. Restricted cash reserves for PIP programs are typically expected to be spent over an 18–24-month period once work begins. The amounts are released to the Company as the expenditures are incurred or paid directly to the service provider. Additionally, the Company presents reserves and escrows for taxes and insurance as restricted cash. Cash proceeds in reserve accounts are primarily held by a lender, though in some cases they are held by the Company. Cash reserves to be held by lenders are only available to meet the expenses for which they are reserved against and cannot be used to extinguish general liabilities. The funds for the renovation of the St. Pete Property are included in furniture, fixtures and equipment ("FF&E") reserves in the table below.

The following table summarizes the amounts of cash reserves in each of these categories as of March 31, 2023 and December 31, 2022:

	March 31, 2023	December 31, 2022
PIPs reserve	$ 175	$ 175
FF&E Reserves	5,158	4,556
Property tax reserve	2,122	2,397
Insurance, cash collateral and other reserves	319	222
Total restricted cash	$ 7,774	$ 7,350

Note 9. Operating Expenses

The following table summarizes components of operating expenses for the three months ended March 31, 2023 and March 31, 2022 which are included in the Consolidated Statements of Income (Loss) and Comprehensive Income (Loss):

	For the Three Months Ended	
	March 31, 2023	March 31, 2022
Payroll	$ 3,916	$ 2,987
Franchise fees	1,375	903
Cost of goods sold	1,021	824
Utilities	447	342
Supplies and equipment	559	424
Property taxes and insurance	3,851	3,676
Other operating expenses	242	99
Repairs and maintenance	220	203
Operating expenses	$ 11,631	$ 9,458

The Company recognizes the property tax levy on January 1st of the calendar year in accordance with IFRIC 21.

Note 10. Operating General and Administrative Expenses

The following table summarizes components of general and administrative expenses for the three months ended March 31, 2023 and March 31, 2022 which are included in the Consolidated Statements of Income (Loss) and Comprehensive Income (Loss):

	For the Three Months Ended	
	March 31, 2023	March 31, 2022
Marketing	$ 1,241	$ 803
Operations G&A	844	600
Property management fees	496	362
Other administrative expenses	261	176
Operating general and administrative expenses	$ 2,842	$ 1,941

Note 11. Corporate General and Administrative Expenses

The following table summarizes components of corporate general and administrative expenses for the three months ended March 31, 2023 and March 31, 2022 which are included in the Consolidated Statements of Income (Loss) and Comprehensive Income (Loss):

	For the Three Months Ended	
	March 31, 2023	March 31, 2022
Audit fees and financial reporting	$ 175	$ 229
Tax preparation	(36)	25
Consulting fees	3	29
D&O Insurance	37	—
Legal fees	79	45
Trustee fees and stock compensation	(228)	371
TSXV listing fees	146	16
Other payroll/compensation	29	—
Other administrative expenses	153	31
Corporate general and administrative expenses	$ 358	$ 746

Note 12. Accounts Payable and Other Accrued Liabilities

The following table summarizes components of accounts payable and other accrued liabilities as of March 31, 2023 and December 31, 2022, which are included in the Consolidated Statements of Financial Position:

	March 31, 2023	December 31, 2022
		(Restated)
Trade payables	$ 3,239	$ 2,440
Payroll and payroll taxes payable	545	695
Property taxes payable	866	1,315
Sales and occupancy tax payable	3,648	781
Property management fees payable	209	851
Interest payable on outstanding debt[1]	4,108	9,484
Franchise fees payable	547	442
Deposit liability and advanced bookings	112	19
Other payables	8,469	1,477
Professional service fees payable	909	55
Acquisition costs payable	475	475
Advisory fee payable	7,346	6,802
Distributions payable to Class B unitholders	1,034	1,034
Accounts payable and other accrued liabilities[1]	$ 31,507	$ 25,870

[1] Adjusted for the effect of the Misstatement as described in Note 24.

On November 15, 2019, the Company filed a prospectus registering $500 million additional units, debt securities, subscription receipts and warrants with the intent to raise capital in a secondary offering of the Company's Units (the "Offering"). After launching the Offering, the Company abandoned the Offering on December 18, 2019. As a result of the Company's efforts to close its previously disclosed merger with, *inter alia,* Condor Hospitality Trust, Inc., the Company has unpaid expenses related to the transaction of $475 as of March 31, 2023, which are related primarily to legal and audit expenses and are included in acquisition costs payable.

Accounts payable and other accrued liabilities of $3,312 are associated with assets held for sale at March 31, 2023, and $331 at December 31, 2022. The balance of accounts payable and other accrued liabilities on the Consolidated Statement of Financial Position does not include this amount as it is presented separately and included in liabilities directly associated with the assets held for sale. See Note 6.

Note 13. Notes Payable, Net, Mezzanine Loans, Net and PPP Loans

The following tables further describe mortgages and other debt instruments as of March 31, 2023 and December 31, 2022, which are included in the Consolidated Statements of Financial Position:

Notes Payable

	March 31, 2023	December 31, 2022
Notes payable	$ 178,867	$ 179,327
Less: current maturities	(77,353)	(1,386)
Less: assets held for sale	(64,685)	—
Less: unamortized portion of deferred financing costs	(1,466)	(1,669)
Notes payable, net	$ 35,363	$ 176,272

Mezzanine Loans

	March 31, 2023	December 31, 2022
Mezzanine loans	$ 17,400	$ 18,000
Less: current maturities	(17,410)	(18,000)
Plus: accrued financing costs	10	—
Mezzanine loans, net	$ —	$ —

On January 8, 2019, in connection with the acquisition of the Nashville Property, the Company assumed the existing loan on the property of $72,500 with an outstanding balance of $64,685 (the "HIX Loan"). The HIX Loan is secured by the Nashville Property and bears interest at a fixed rate equal to 5.12% and matures on June 30, 2026.

The HIX Loan contains customary representations, warranties, and events of default, which require the HIX Borrowers to comply with affirmative and negative covenants. On September 18, 2020, the lender delivered a formal notice of default to the HIX Borrowers. On May 26, 2021, the HIX Borrowers executed a forbearance agreement with the lender. See Note 20(b) for further discussion surrounding the Nashville Property.

On January 8, 2019, the Company, through the OP, entered into a $35,000 mezzanine facility (the "Mezz Facility") with a large non-bank company. The proceeds from the Mezz Facility were used to help fund a portion of the purchase price of the Nashville Property acquired on January 8, 2019. The Mezz Facility is secured by a pledge of the membership units in NHT 2325 Stemmons, NHT DFW Portfolio, and NHT SP, bears interest at a variable rate equal to the 30-day LIBOR plus 6.25% and had an original maturity date of January 8, 2020. As of March 31, 2023, the Mezz Facility had an effective interest rate of 11.44% and matures on July 8, 2023. For the period from January 1, 2021, to March 31, 2023, the Company paid $479 in interest and $600 in principal on the Mezz Facility, with an additional accrual of $5,165 of interest.

On February 28, 2019, the Company, through subsidiaries of the OP, entered into a borrowing arrangement for a $59,400 Note A loan (the "Note A Loan") and a $28,600 Note B loan (the "Note B Loan"). The Note A Loan and Note B Loan are secured by the HGI Property, the HWS Portfolio and the St. Pete Property. The Note A Loan bears interest at a variable rate equal to the 30-day LIBOR plus 2.00% and matures on March 1, 2024. The Note B Loan bears interest at a variable rate equal to the 30-day LIBOR plus 6.46% and matures on March 1, 2024. As of March 31, 2023, the Note A Loan and the Note B Loan had an effective interest rate of 7.19% and 11.65%, respectively. For the period from January 1, 2023, to March 31, 2023, the Company paid $835 and $682 in interest on the Note A Loan and the Note B loan, respectively. See Note 24.

On February 15, 2022, in connection with the acquisition of the Park City and Bradenton properties, the Company, through subsidiaries of the OP, entered into a borrowing arrangement for a $39,300 loan (the "PC & B Loan") with a large non-bank company. The outstanding balance on the PC & B Loan at March 31, 2023, is $36,829 with $2,471 available to draw on for renovation purposes. The Company will begin renovations at both properties in mid-2023.

The PC & B Loan, the HIX Loan, the Note A Loan and Note B Loan (collectively referred to as the "Notes Payable"), and the Mezz Facility (collectively referred to as the "Mezzanine Loans" and together with the "Notes Payable" are referred to as the "Loans") contain customary representations, warranties, and events of default, which require the Company to comply with affirmative and negative covenants.

As discussed in Note 2, as of March 31, 2023, the Company is in good standing with the lenders on all of its outstanding Loans.

In February and March 2021, all 10 of our properties in the Initial Portfolio received a second loan from the PPP with total proceeds from the loans amounting to $4,000. In February 2022, the SBA granted forgiveness of the second loan. The Company recognized the loans and all accrued interest in profit or loss in 2022, with no remaining SBA forgiveness for the three months ended March 31, 2023.

The SBA, in consultation with the U.S. Department of the Treasury, has published guidance for borrowers concerning forgiveness of PPP loans. If the loan is fully forgiven, the borrower is not responsible for any payments. If only a portion of the loan is forgiven, or if the forgiveness application is denied, any remaining balance due on the loan must be repaid by the borrower on or before the maturity date of the loan. Interest accrues during the time between the date of disbursement of the loan and the SBA remittance of the forgiveness amount. The borrower is also responsible for paying accrued interest on any amount of the loan that is not forgiven.

The table below shows future payments on the Loans, excluding amortization of deferred financing costs, payable within the next five calendar years subsequent to March 31, 2023.

	Notes Payable	Mezzanine Loans	Total
2023	1,395	17,410	18,805
2024	78,803	—	78,803
2025	38,365	—	38,365
2026	60,304	—	60,304
Total	$ 178,867	$ 17,410	$ 196,277

As of March 31, 2023 and December 31, 2022, the Company has $82,723 of convertible notes due to its affiliates. The notes have rates ranging from 1.93% to 7.50% while outstanding and mature in 20 years in most cases. The Company's convertible notes conversion is subject to TSXV approval.

	March 31, 2023	December 31, 2022
Convertible affiliate notes	$ 82,723	$ 82,723

Note 14. Class B Units

On January 8, 2019, the OP issued Class B Units with a fair value of $67,881. The Class B Units of the OP are economically equivalent to Units and are entitled to receive distributions equal to those provided to holders of Units. These Class B Units have been classified as a liability in accordance with IAS 32, as they are redeemable instruments at the option of the holders.

Class B Units are measured at fair value with any changes in fair value recorded in profit or loss. The fair value adjustments of Class B Units are calculated using the Company's Unit closing price as of the end of the reporting period. An increase in the Unit closing price over the period results in a fair value loss whereas a decrease in the Unit closing price over the period results in a fair value gain.

As allowed under IFRS 13, *Fair Value Measurement,* if an asset or a liability measured at fair value has a bid price and an ask price, the price within the bid-ask spread that is the most representative of fair value in the circumstances shall be used to measure fair value. The Company has recorded Class B Units at their fair value, which has been assessed to equal the closing market price of the Units at each valuation date (Level 2).

The 10-day volume weighted average price ("VWAP") of the Units for the 10 trading days immediately preceding the end of the period is the basis of measurement the Company uses to record fair value adjustments of the Class B Units. The 10-day VWAP at March 31, 2023 was $1.01 and the fair value adjustment of the Class B Units for the three months ended March 31, 2023 was $(101).

The Company's notes due to affiliates are, subject to TSXV approval, convertible at any time at the election of the holders into Class B Units.

On December 13, 2021, the Company granted 2,475,000 profit interest units ("PIUs") in the OP to officers of the Company and employees of the Advisor. Upon conversion, grantees will receive Class B Units of the OP. As of March 31, 2023, 883,125 of the PIU units have vested. See Note 23 for more information on PIUs granted and vesting schedules.

The following table presents the outstanding units and the change in fair value of the Class B Units for the three months ended March 31, 2023:

	Units	Fair value
Redeemable noncontrolling interests in the OP, January 1, 2023	205,597	$ 309
Net loss attributable to Class B redeemable Units of the OP	—	(26)
Change in fair value of Class B Units redeemable Units of the OP	—	(101)
Adjustment to reflect redemption value of redeemable Class B Units of the OP	—	26
Redeemable noncontrolling interests in the OP, March 31, 2023	205,597	$ 208

Note 15. Finance Costs

The following table summarizes finance costs for the three months ended March 31, 2023 and March 31, 2022:

	For the Three Months Ended	
	March 31, 2023	March 31, 2022 (Restated)
Interest on debt[1]	$ 5,575	$ 4,048
Amortization of deferred financing costs	210	281
Change in value of interest rate cap	135	(326)
Interest on due to affiliate	—	458
Fees related to Nashville forbearance agreement	(3)	12
Finance costs from operations[1]	$ 5,917	$ 4,474
Fair value adjustment of Class B Units	(101)	(289)
Total finance costs	$ 5,816	$ 4,185

[1] Adjusted for the effect of the Misstatement as described in Note 24.

Note 16. Income Taxes

(a) Income tax (expense)/recovery:

The Company has recorded current tax expense/recovery for taxes associated with its direct and indirect subsidiaries. The income tax expense/recovery in the Consolidated Statements of Income (Loss) and Comprehensive Income (Loss) is as follows:

	For the Three Months Ended	
	March 31, 2023	March 31, 2022
Net income before income tax	$ (3,534)	$ 792
Less: income/(loss) relating to entities not subject to income tax	(3,769)	(1,258)
Net income before tax relating to taxable subsidiaries	235	2,050
Deferred income tax benefit	20	121
Income taxes	(242)	(57)
Income tax recovery (expense)	$ (222)	$ 64

(b) Deferred income tax benefit:

As of March 31, 2023 and December 31, 2022, the Company has an estimated tax asset of $4,856 and $4,836, respectively, recorded in the Consolidated Statement of Financial Position for certain temporary book-to-tax differences as well as net operating losses associated with its direct and indirect subsidiaries. A summary of the composition of such tax benefits is provided in the table below.

	March 31, 2023	December 31, 2022
Reserves not currently deductible	$ 259	$ 379
Net operating losses carried forward	4,597	4,457
Total tax assets	$ 4,856	$ 4,836

Note 17. Unitholders' Capital

The Company is authorized to issue an unlimited number of Units. Each Unit represents a proportionate undivided beneficial ownership interest in the Company. Each Unit is transferable and entitles the holder thereof to: (i) an equal participation in distributions of the Company; (ii) rights of redemption; and (iii) one vote at all meetings of unitholders.

There were no changes to the Units or Unitholders' Capital for the period from January 1, 2023, to March 31, 2023 or from the period January 1, 2022, to March 31, 2022.

In 2021, the Company granted 549,687 deferred units to the independent trustees. These deferred units are issued but not issued and outstanding Units. See Note 23 for further discussion on deferred units and profit interest units.

Note 18. Fair Value of Financial Instruments and Derivatives

a) Comparison of fair value to carrying amount

The fair value of a financial instrument is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value may be based on other observable current market transactions in the same instrument, without modification or on a valuation technique using market-based inputs. Fair value measurements recognized in the Interim Consolidated Financial Statements are categorized using the following fair value hierarchy that reflects the significance of inputs used in determining the fair values:

- Level 1: Quoted (unadjusted) market prices in active markets for identical assets or liabilities.
- Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, directly or indirectly.
- Level 3: Inputs for the asset or liability that are not based on observable market data (unobservable inputs).

As of March 31, 2023 and December 31, 2022, the carrying amounts of the Company's cash and cash equivalents, restricted cash, trade and other receivables, accounts payables and other accrued liabilities approximated their fair values due to the short-term nature of these financial assets and liabilities.

The fair value of the Loans is estimated by discounting the future cash flows using discount rates that reflect current market conditions for instruments having similar terms and conditions. At March 31, 2023, the Notes Payable were discounted using rates between 7.19% and 11.65% and the Mezzanine Loan was discounted using the rate 10.50%. Discount rates are either provided by lenders or are observable in the open market. As of March 31, 2023, the fair value of the Company's Loans exceeded their carrying value by approximately $5,598 and are considered Level 2 in the fair value hierarchy as inputs are observable directly or indirectly.

The fair value of the redeemable Class B Units is determined based on their redemption value. The redemption value is based on the fair value of the Company's Units at the redemption date, and therefore, is calculated based on the fair value of the Company's Units at the date of the Interim Consolidated Financial Statements. Since the valuation of the Units are based on observable inputs such as quoted prices for similar instruments in active markets, redeemable non-controlling interests in the OP are classified as Level 2 of the fair value hierarchy.

For the three months ended March 31, 2023, there were no transfers between the different levels of the fair value hierarchy.

(b) Derivative Financial Instruments and Hedging Activities

The Company is exposed to certain risks arising from both its business operations and economic conditions. The Company manages interest rate risks primarily by managing the amount, sources, and duration of its debt funding and the use of derivative financial instruments.

The Company performs market valuations on its derivative financial instruments. The valuation of these instruments is determined using widely accepted valuation techniques, including discounted cash flow analysis on the expected cash flows of each derivative. This analysis reflects the contractual terms of the derivatives, including the period to maturity, and uses observable market-based inputs, including interest rate curves and implied volatilities. The fair values of interest rate caps are determined using the market standard methodology of discounting the future expected cash receipts that would occur if variable interest rates rose above the strike rate of the caps. The variable interest rates used in the calculation of projected receipts on the cap are based on an expectation of future interest rates derived from observable market interest rate curves and volatilities.

Interest rate caps involve the receipt of variable-rate amounts from a counterparty if interest rates rise above the strike rate on the contract in exchange for an up-front premium. The Company entered into interest rate cap agreements upon acquisition of the Park City and Bradenton properties in February 2022. As of March 31, 2023, the interest rate cap agreements which the Company has entered into effectively cap one-month LIBOR on $36,829 of the Company's floating rate mortgage and mezzanine indebtedness at a weighted average rate of 2.00%.

To comply with the provisions of IFRS 9, *Financial Instruments,* the Company incorporates credit valuation adjustments to appropriately reflect both the Company's own nonperformance risk and the respective counterparty's nonperformance risk in the fair value measurements. Although the Company has determined that the majority of the inputs used to value its derivatives fall within Level 2 of the fair value hierarchy, the credit valuation adjustments associated with the Company's derivatives utilize Level 3 inputs, such as estimates of current credit spreads, to evaluate the likelihood of default by the Company and its counterparties. The Company has determined that the significance of the impact of the credit valuation adjustments made to its derivative contracts, which determination was based on the fair value of each individual contract, was not significant to the overall valuation. Additionally, in the case of interest rate caps, the Company has no performance obligation, so no credit valuation adjustment is necessary. As a result, all of the Company's derivatives held as of March 31, 2023 and December 31, 2022, were classified as Level 2 of the fair value hierarchy.

Changes in the fair value of the interest rate caps are recorded directly in Finance costs from operations. For the three months ended March 31, 2023, the Company incurred minimal interest expense related to changes in the fair value of interest rate caps. The fair value of the interest rate caps is $1,602 as of March 31, 2023 and is recorded as Interest rate caps in the Consolidated Statement of Financial Position.

As of March 31, 2023, the Company had the following outstanding interest rate caps:

Type of Derivative	Hedged Financial Instrument	Notional	Strike Rate	Reference Rate		Termination Date
Interest rate cap	Note payable	$ 39,300	2.00%	One-month SOFR	2.00%	March 5, 2025

*c) **Financial risk management***

The Company may be exposed to a number of risks in its normal course of operations from the use of financial instruments. These risks, and the actions taken to manage them, are as follows:

(i) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in the market interest rates.

A majority of the Company's Loans bears interest at a variable rate and are either subject to a LIBOR floor or have interest rate caps in place. Fluctuations in interest rates will impact the cost of financing incurred in the future. The Company monitors its interest rate exposure on an ongoing basis.

(ii) Credit risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligation. The maximum exposure to credit risk is the full carrying amount of the financial instrument. The Company is exposed to credit risk with respect to its interest rate caps, interest rate swaps and trade and other receivables. The credit risk for interest rate caps and interest rate swaps are discussed in Note 18 (b). Credit risk of trade and other receivables is mitigated by initiating a prompt collection process. The Company is also exposed to credit risk with respect to cash and cash equivalents, restricted cash, and counterparties on derivative contracts. This credit risk of such counterparties is mitigated by only transacting with large financial institutions.

(iii) Liquidity risk

The Company's principal liquidity needs arise from working capital requirements, debt servicing and repayment obligations, payments on unhedged interest rate swaps, planned funding of property improvements, leasing costs, distributions to unitholders, property development and acquisition funding requirements. Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they come due. Property and equipment investments tend to be relatively illiquid, with the degree of liquidity generally fluctuating in relation to demand for and the perceived desirability of such investments.

If the Company was required to sell the property, the proceeds to the Company may be significantly less than the property's carrying amount.

Liquidity risk is managed through cash flow forecasting. Management monitors forecasts of the Company's liquidity requirements to ensure it has sufficient cash to meet operational needs through maintaining sufficient cash and/or availability on undrawn loan agreements and ensuring that it meets its financial covenants. Such forecasting involves a significant degree of judgment, takes into consideration current and projected macroeconomic conditions, the Company's cash collection efforts, debt financing plans, covenant compliance required under the terms of debt agreements and internal targets. There is a risk that such liquidity forecasts may not be achieved, and that currently available debt financing may no longer be available to the Company at terms and conditions that are favorable to the Company, or at all.

As of March 31, 2023, the Company had a working capital deficiency of $42,166, which is primarily the result of the $17,410 Mezz Facility, which matures on July 8, 2023. Additional contractual obligations and contingencies are outlined in Note 20. As mentioned in Note 2(a), there is substantial doubt as to whether the Company can meet all of its obligations as they become due. This is primarily the result of the $17,410 Mezz Facility that matured on January 8, 2020, (and as of March 8, 2022, was further extended by the lender until July 8, 2023) but also as a result of the impact to the Company's revenue decline due to the COVID-19 pandemic. In order to continue as a going concern, management is actively working towards addressing the Company's liquidity concerns, including the following: (i) negotiating with lenders to extend or otherwise restructure the terms of our loans and obtain relief from covenants in the near term; and (ii) converting payables to an affiliate into Class B Units. In addition, subject to market conditions, the Company may seek to raise funding through new debt and equity financing, including sale-leaseback and ground lease arrangements, though there is no assurance the Company will be able to obtain such financing. The particular features and quality of the underlying assets and the debt and equity market parameters existing at the time of financing may impact the ability to obtain financing.

The following table provides information on the carrying amounts and the non-discounted contractual maturities of financial liabilities with fixed repayment terms, including estimated interest payments using the 30-day LIBOR rate of 5.19% as of March 31, 2023 as restated:

	Carrying Amount	Contractual Cash Flows	Reclassified as Held for Sale	1 Year	More than 1 Year
Notes payable	$ 177,401	$ 178,867	$ 64,685	$ 77,353	$ 36,829
Mezzanine loan	17,410	17,410	—	17,410	—
Interest payable on notes and mezzanine loans	4,108	30,002	—	9,575	20,427
Accounts payable and other accrued liabilities	24,087	20,775	3,312	20,775	—
Lease liability	1,021	1,197	—	160	1,037
Total	$ 224,027	$ 248,251	$ 67,997	$ 125,273	$ 58,293

Note 19. Capital Management

The Company defines capital as the aggregate of unitholders' equity, Class B Units, notes payable and mezzanine loans. The Company's objectives in managing capital are to maintain a level of capital that: complies with investment and debt restrictions pursuant to the Company's operating agreement; complies with existing debt covenants; funds its business strategies; and builds long-term members' value. Capital adequacy is monitored by the Company by assessing performance against the approved annual plan throughout the year and by monitoring adherence to investment and debt restrictions contained in the Company's operating agreement and debt covenants.

Note 20. Commitments and Contingencies

a) Franchise agreement

The Company's properties are operated under franchise agreements (the "Franchise Agreements") with Franchisors. The Franchise Agreements require the payment of a monthly royalty fee and monthly marketing fee on the property's gross room revenue. For the three months ended March 31, 2023, franchise fees were $1,375 and are included in operating expenses. Details regarding the Franchise Agreements are presented in the following table:

					(% of Gross Rooms Sales)	
Property	**Brand**	**Execution Date**	**Term (Years)**	**Expiration Date**	**Franchise Fees**	**Marketing Fees**
Dallas Hilton Garden Inn	Hilton	December 31, 2014	15	December 31, 2029	5.50%	4.30%
Addison HomeWood Suites	Hilton	May 4, 2017	25	May 31, 2032	5.50%	3.50%
Plano HomeWood Suites	Hilton	May 4, 2017	25	May 31, 2032	5.50%	3.50%
Las Colinas HomeWood Suites	Hilton	May 4, 2017	25	May 31, 2032	5.50%	3.50%
Olympia DoubleTree	Hilton	May 5, 2018	25	May 31, 2033	5.00%	4.00%
Tigard DoubleTree	Hilton	May 5, 2018	25	May 31, 2033	5.00%	4.00%
St. Petersburg Marriott	Marriott	September 25, 2018	20	September 25, 2038	6%/3%[1]	1.00%
Nashville Holiday Inn Express	Intercontinental Group	January 8, 2019	20	January 8, 2039	3.00%	3.00%
Hyatt Place Park City	Hyatt	February 15, 2022	20	February 23, 2042	5.00%	3.50%
Bradenton Hampton Inn & Suites	Hilton	February 22, 2022	15	February 28, 2037	6.00%	4.00%

[1] 6% of gross rooms sales / 3% of gross food and beverage sales.

b) Litigation

In the normal course of operations, the Company may become subject to a variety of legal and other claims. While it is not possible to ascertain the ultimate outcome of all such matters, the Company evaluates all claims on their apparent merits and, if necessary, the Company accrues for its best estimate of the costs to satisfy such claims.

As a result of the financial impact that the COVID-19 pandemic has had on the Nashville Property and the inability of the hotel to meet its financial covenants and obligations, RSS Multiple – DE NT, LLC, the current lender ("Lender"), filed suit against the HIX Borrowers and the Loan Guarantor, seeking, among other things, to appoint a receiver and to foreclose on their security interest.

On May 26, 2021, the HIX Borrowers and Loan Guarantor executed a forbearance agreement with the Lender that will, when followed, cure the defaults identified by the Lender and bring the loan into good standing. The agreement contains various compliance dates, but the final action in compliance with the forbearance agreement, must occur by February 1, 2022. The HIX Borrowers met the compliance requirements by February 1, 2022. As of March 31, 2023, the HIX Borrowers and Loan Guarantor are currently in good standing under the forbearance agreement.

Note 21. Related party transactions

The Interim Consolidated Financial Statements include the following transactions with related parties:

Advisory Fees

In accordance with the agreement entered into with the Advisor (the "Advisory Agreement"), the Company pays the Advisor an advisory fee equal to 1.00% of the REIT Asset Value (as defined below). Under the direct supervision of the Company, the duties performed by the Company's Advisor under the terms of the Advisory Agreement include, but are not limited to: providing daily management for the Company, selecting and working with third party service providers, overseeing the third party manager, formulating an investment strategy for the Company and selecting suitable properties and investments, managing the Company's outstanding debt and its interest rate exposure through derivative instruments, determining when to sell assets, and managing the renovation program or overseeing a third party vendor that implements the renovation program. REIT Asset Value means the value of the Company's total assets, as determined in accordance with IFRS except that such value shall only consolidate the Company's and NHT Holdings, LLC assets plus the Company's pro rata share of leverage at the OP.

Pursuant to the terms of the Advisory Agreement, the Company will reimburse the Advisor for all documented Operating Expenses and Offering Expenses it incurs on behalf of the Company. "Operating Expenses" include legal, accounting, financial and due diligence services performed by the Advisor that outside professionals or outside consultants would otherwise perform, the Company's pro rata share of rent, telephone, utilities, office furniture, equipment, machinery and other office, internal and overhead expenses of the Advisor required for the Company's operations, and compensation expenses under the Omnibus Plan (as defined in Note 23). Operating Expenses do not include expenses for the advisory services described in the Advisory Agreement. Certain Operating Expenses, such as the Company's ratable share of rent, telephone, utilities, office furniture, equipment, machinery and other office, internal and overhead expenses incurred by the Advisor or its affiliates that relate to the operations of the Company, may be billed monthly to the Company under a shared services agreement. "Offering Expenses" include all expenses (other than underwriters' discounts) in connection with an offering, including, without limitation, legal, accounting, printing, mailing, and filing fees and other documented offering expenses.

The Advisor has reinstated the previously waived 2020 advisory fees and the rebate of accrued but unpaid fees as of December 31, 2019. The Company will begin paying advisory fees when it is able to resume payments while remaining cash flow positive.

Expense Cap

Pursuant to the terms of the Advisory Agreement, expenses paid or incurred by the Company for advisory fees payable to the Advisor and expenses incurred by the Advisor or its affiliates in connection with the services it provides to the Company and its subsidiaries will not exceed 1.5% of REIT Asset Value Assets for calendar year (or part thereof that the Advisory Agreement is in effect (the "Expense Cap")). The Expense Cap does not limit the reimbursement of expenses related to Offering Expenses. The Expense Cap also does not apply to legal, accounting, financial, due diligence and other service fees incurred in connection with mergers and acquisitions, extraordinary litigation, or other events outside the Company's ordinary course of business or any out-of-pocket acquisitions or due diligence expenses incurred in connection with the acquisition or disposition of real estate assets. For the three months ended March 31, 2023 and March 31, 2022, the Company incurred expenses subject to the Expense Cap of $902 and $1,232, respectively.

Internalization Fee

The Company and/or the OP may elect to acquire all of the outstanding and issued equity interests of the Advisor (the "Internalization") by exercising its rights, in its sole discretion, under the Advisory Agreement (subject to certain terms and conditions) to affect an Internalization. The Company will pay the Advisor a fee equal to three times the prior 12 months' Advisory Fee. The Internalization Fee is limited to 7.5% of the combined equity value of the Company and the OP on a consolidated basis as of the date of the Internalization. There has been no internalization as of March 31, 2023.

Termination Fee

If the Company and/or the OP elect to terminate the Advisory Agreement, the Company will pay the Advisor a fee (the "Termination Fee") equal to three times the prior 12 months' Advisory Fee. The Termination Fee is limited to 7.5% of the combined equity value of the Company and the OP on a consolidated basis as of the date the Advisory Agreement is terminated.

Loans from Affiliates

As of March 31, 2023, the OP has entered into several convertible notes with affiliates totaling $82,723 since January 8, 2019. The proceeds of the notes were used for general corporate and working capital purposes and have been consolidated into one account on the Consolidated Statements of Financial Position.

Other Related Party Transactions

The Company has in the past, and may in the future, utilize the services of affiliated parties. For the three months ended March 31, 2023, the Company paid de minimis fees to an affiliated bank, NexBank N.A. ("NexBank"), as the Company and its subsidiaries have several bank accounts at NexBank with a cumulative balance of $194 as of March 31, 2023. NexBank is an affiliate of the Advisor through common beneficial ownership.

Note 22. Supplemental Cash Flow Disclosure

Reconciliation of changes in liabilities, including movements of liabilities to cash flows arising from financing activities for the three months ended March 31, 2023 were as follows:

	Notes Payable, Net	Mezzanine Loans, Net	Total
Balance, December 31, 2022	$ 177,658	$ 18,000	$ 195,658
Liability related:			
Principal payments made	(460)	(600)	(1,060)
Amortization of deferred financing costs on outstanding debt	203	10	213
Balance, March 31, 2023	$ 177,401	$ 17,410	$ 194,811
Current portion	$ 77,353	$ 17,410	$ 94,763
Held for Sale	$ 64,685	$ —	$ 64,685
Long-term portion	$ 35,363	$ —	$ 35,363

Note 23. Incentive Compensation Plan

The Company has adopted an omnibus equity incentive plan (the "Omnibus Plan") to allow for the grant of equity incentive awards to key officers and employees of the Company, independent trustees, and key employees of the Advisor. As part of the independent trustees' compensation, it is anticipated they will be granted deferred units ("DUs") in the future and may receive, at their election, 100% of their board compensation in the form of DUs. Under the Omnibus Plan, subject to adjustments according to the terms of the plan, the maximum number of Units available for issuance is 3,026,155, representing 20% of the issued and outstanding Units of the Company at the time the Omnibus Plan was adopted.

On June 28, 2021, the Company granted 339,687 DUs to the independent trustees. On December 13, 2021, the Company granted 210,000 DUs to the independent trustees. These DUs are issued but not outstanding and vested immediately. On December 13, 2021, the Company granted 2,475,000 PIUs in the OP to officers of the Company (2,029,200) and employees of the Advisor (445,800). The PIUs will vest ratably over four years (i.e., 25% per year), however, 50% of the PIUs can vest sooner if the value of the units in the table below is achieved, as determined by a recognized national valuation firm which performs regular valuations of the units. In no case can PIUs vest within one year of grant:

Vesting %		Upon Unit Price Achieving[1]	PIUs Vested
12.50%	$	2.00	294,375
12.50%		2.50	294,375
12.50%		3.00	294,375
12.50%		4.00	294,375
Total			1,177,500

[1]Price to be adjusted for dilutive events.

Assuming none of the performance metrics are met, the PIUs will vest as shown in the below table:

Vesting %	Date	PIUs Vested
25.00%	December 6, 2022	588,750
25.00%	December 6, 2023	588,750
25.00%	December 6, 2024	588,750
25.00%	December 6, 2025	588,750
Total		2,355,000

On December 6, 2022, 588,750 PIUs vested to officers of the company and employees of affiliates of the Advisor. Additionally, 294,375 PIUs vested on December 31, 2022, as the units reached the first price threshold. 120,000 units were forfeited as two employees of affiliates of the Advisor left their roles before the vesting dates.

Description	Units		Fair Value
PIUs vested in the OP, January 1, 2023	883,125	$	1,816
PIUs FV adjustment	—		(481)
Q1 PIU liability accrued over the quarter	—		217
PIUs vested in the OP, March 31, 2023	883,125	$	1,552

Upon conversion, grantees of the PIUs will receive Class B Units of the OP. As of March 31, 2023, 549,687 DUs and 2,475,000 PIUs have been granted under the Omnibus Plan with 1,468 DUs or PIUs remaining that may be granted.

On May 31, 2022, the Board of Trustees passed a resolution adopting a deferred unit plan (the "Deferred Unit Plan"). The Deferred Unit Plan was subsequently approved by unitholders at the annual general meeting held on June 30, 2022. The maximum number of DUs reserved for issuance under the Deferred Unit Plan at any time is 2,844,256. As of March 31, 2023, no DUs have been issued under this plan.

Note 24. Mezz Loan Minimum Multiple Amount Restatement

As discussed in Note 13, on January 8, 2019, the Company, through the OP, entered into the $35,000 Mezz Facility. The proceeds from the Mezz Facility were used to help fund a portion of the purchase price of the Nashville Property acquired on January 8, 2019. The Mezz Facility included a provision which allows the lender to earn a minimum return on their capital (the "Minimum Return"). Although the final amount of the Minimum Return will not be known until the Mezz Facility is paid in full, the Minimum Return

attributable to each period is able to be reasonably estimated and, as such, should have been accrued in each respective period. The Company had not accrued the additional interest payable related to the Minimum Return (the "Misstatement") as required under IFRS for the periods from inception (January 9, 2019) through December 31, 2022. The Minimum Return will be owed in full by the Company at maturity of the Mezz Facility, which is currently scheduled for July 8, 2023, along with the principal balance and applicable exit fees.

Management has determined that the impact of the Misstatement is not material to the consolidated financial statements for the years 2019, 2020, 2021, and 2022.

The cumulative balance of the Minimum Return from origination through December 31, 2022 of $5,165 has been recorded as a reduction to the opening Unitholders' Deficit and as an increase to accounts payable and other accrued liabilities on the Consolidated Statement of Financial Position for the three months ended March 31, 2023 and as a reduction to the ending Unitholders' Deficit Consolidated Statement of Financial Position for the year ended December 31, 2022 presented herein. Each prior period has been updated to reflect the impact of the Misstatement.

The amount of the Minimum Return related to each of the prior years is set forth in the table below:

Period	Increase to Accounts Payable and Other Accrued Liabilities	Increase to Finance Costs from Operations
January 8, 2019 - December 31, 2019	$ 1,154	$ 1,154
Year Ended December 31, 2020	2,454	1,300
Year Ended December 31, 2021	3,973	1,519
Year Ended December 31, 2022	5,165	1,192

The tables below show the updated balances for each prior period had the Minimum Return been property recorded since origination of the Mezz Facility,

NexPoint Hospitality Trust Announces Undertaking Regarding Amendments to COVID Loans

June 26, 2023

DALLAS and TORONTO, June 26, 2023 /CNW/ -- NexPoint Hospitality Trust ("NHT" or the "REIT"), (TSX-V: NHT.U) announced today that, at the request of the TSX Venture Exchange, it has provided an undertaking to amend the convertible promissory notes issued to NexPoint Real Estate Opportunities, LLC and Highland Income Fund (the "**Lenders**") during the COVID-19 pandemic (the "**COVID Loans**") to (i) reduce the conversion term to five years from the date of issuance; (ii) establish a minimum acceptable conversion price based on market prices at the time of each particular advance; and (iii) remove the conversion of interest, such that only principal under the COVID Loans is convertible. For one of the COVID Loans, in an amount of US$8.5 million advanced on February 22, 2022, the REIT has agreed to amend the loan to remove the conversion feature altogether. As each of the Lenders is a related party of the REIT under Multilateral Instrument 61-101 – *Protection of Minority Security Holders in Special Transactions* ("**MI 61-101**"), in order to enter into the amendments to the COVID Loans, the REIT has undertaken to seek disinterested unitholder approval at its 2023 annual and special meeting of unitholders.

The COVID Loans were in the aggregate amount of US$56,165,000. The proceeds from the COVID Loans were used to fund the REIT's operating expenses and interest and principal payments on outstanding indebtedness during the COVID 19 pandemic to allow the REIT to continue as a going concern.

About NHT

NexPoint Hospitality Trust is a publicly traded real estate investment trust, with its Units listed on the TSX Venture Exchange under the ticker NHT.U. NHT is focused on acquiring, owning and operating well-located hospitality properties in the United States that offer a high current yield and in many cases are underperforming assets with the potential to increase in value through investments in capital improvements, a market-based recovery, brand repositioning, revenue enhancements, operational improvements, expense inefficiencies, and exploiting excess land or underutilized space. NHT owns 10 branded properties sponsored by Marriott, Hilton, Hyatt, and Intercontinental Hotels Group, located across the U.S. NHT is externally advised by NexPoint Real Estate Advisors VI, L.P.

Neither TSX Venture Exchange nor its Regulation Services Provider (as that term is defined in policies of the TSX Venture Exchange) accepts responsibility for the adequacy or accuracy of this release.

NOTICE OF ANNUAL AND SPECIAL MEETING OF UNITHOLDERS

NOTICE IS HEREBY GIVEN that an annual and special meeting (the "**Meeting**") of the holders of trust units ("**Unitholders**") of NexPoint Hospitality Trust ("**NHT**" or the "**REIT**") will be held virtually via live webcast on October 12, 2023 at 10:00 a.m. (Toronto time), for the following purposes:

1. **TO RECEIVE** and consider the financial statements of NHT for the year ended December 31, 2022, and the report of the auditor thereon;

2. **TO ELECT** members of the board of trustees of NHT for the ensuing year;

3. **TO APPOINT** the auditor of NHT for the ensuing year and to authorize the board of trustees of NHT to fix the remuneration of the auditor;

4. **TO CONSIDER**, and if deemed advisable, to pass an ordinary resolution (in the form attached as Appendix "A" to the accompanying information circular) approving the amended and restated deferred unit plan of the REIT, which resolution, in order to be effective, must be passed by the affirmative vote of a simple majority of the votes cast by the disinterested Unitholders, excluding the votes cast by such Unitholders that are required to be excluded pursuant to TSXV Policy 4.4 – *Security Based Compensation* ("**TSXV Policy 4.4**");

5. **TO CONSIDER**, and if deemed advisable, to pass an ordinary resolution (in the form attached as Appendix "C" to the accompanying information circular) approving and ratifying the grant of 1,295,668 deferred units to NHT's independent trustees on September 11, 2023;

6. **TO CONSIDER**, and if deemed advisable, to pass an ordinary resolution (in the form attached as Appendix "D" to the accompanying information circular) approving certain amendments to the convertible promissory notes issued by the REIT between June 2021 and September 2022, which resolution, to be effective, must be passed by an affirmative vote of a simple majority of the votes cast by the Unitholders, excluding the votes cast by such Unitholders that are required to be excluded pursuant to Multilateral Instrument 61 - 101 – *Protection of Minority Security Holders in Special Transactions* ("**MI 61-101**"); and

7. **TO TRANSACT** such other business as may properly come before the Meeting or any adjournment thereof.

The information circular contains details of the matters to be considered at the Meeting. No other matters are contemplated, however, any permitted amendment to or variation of any matter identified in this notice may properly be considered at the Meeting. The Meeting may also consider the transaction of such other business as may properly come before the Meeting or any adjournment thereof.

The Meeting will be held in a virtual-only format, which will be conducted via live webcast over the internet. Unitholders will have an equal opportunity to participate at the Meeting regardless of their geographic location. Unitholders who choose to attend the Meeting will do so by accessing a live webcast of the Meeting via the internet by visiting https://virtual-meetings.tsxtrust.com/1546 (password: nexpoint2023). Unitholders will be able to listen to the Meeting live and submit questions while the Meeting is being held. Unitholders who are unable to attend the virtual Meeting are requested to sign, date and return the form of proxy or voting instruction form received in accordance with the instructions provided.

If you wish to appoint a proxyholder other than the management nominees identified in the form of proxy or voting instruction form, be it yourself or a third party, you must carefully follow the instructions in the attached information circular and on your form of proxy or voting instruction form. These instructions include the additional step of registering such proxyholder with our transfer agent, TSX Trust Company, after submitting the form of proxy or voting instruction form, as applicable. Failure to register the proxyholder with our transfer agent will result in the proxyholder not receiving a control number. Without a control number, the proxyholder will not be able to participate in or vote at the virtual Meeting. It is the responsibility of the Unitholder to register their proxyholder

with TSX Trust Company in advance of the Meeting by completing and returning a "Request for Control Number" form, by no later than 10:00 a.m. (Toronto time) on October 10, 2023 or, if the Meeting is postponed or adjourned, by no later than 48 hours (excluding Saturdays, Sundays and statutory holidays in the Province of Ontario) prior to the time of such postponed or adjourned meeting. The "Request for Control Number" form is available at https://www.tsxtrust.com/control-number-request.

If you are a Registered Holder (as defined in the information circular), you must vote your proxy before Tuesday, October 10, 2023 at 10:00 a.m. (Toronto time), or, if the Meeting is postponed or adjourned, by no later than 48 hours (excluding Saturdays, Sundays and statutory holidays in the Province of Ontario) prior to the time of such postponed or adjourned meeting, in order for such vote to be valid at the Meeting. Voting by proxy will not prevent you from voting online at the Meeting if you attend the virtual Meeting but will ensure that your vote will be counted if you are unable to attend.

Included with this letter is a form of proxy for use by Registered Holders. Whether or not you intend to attend the Meeting, you are requested to complete, sign, date and return the enclosed form of proxy. To be valid, proxies must be signed and deposited with TSX Trust by mail to P.O. Box 721, Agincourt, ON M1S 0A1, Attention: Proxy Department; by facsimile to 1-416-595-9593; or electronically online with your 12-digit Control Number at www.meeting-vote.com, by no later than 10:00 a.m. (Toronto time) on Tuesday, October 10, 2023, or, if the Meeting is adjourned or postponed, at least 48 hours prior to such adjourned or postponed Meeting (excluding Saturdays, Sundays and statutory holidays in the Province of Ontario).

Unitholders who hold their units through a nominee such as a broker, an intermediary, a trustee or other person (each, an "**Intermediary**"), or who otherwise do not hold their units in their own name ("**Beneficial Holders**") should note that units held by such Intermediaries on behalf of a Beneficial Holder can only be voted at the direction of the Beneficial Holder. Existing regulatory policy requires Intermediaries to seek voting instructions from Beneficial Holders in advance of unitholder meetings. Intermediaries have their own mailing procedures and provide their own return instructions to Beneficial Holders, which should be carefully followed by Beneficial Holders in order to ensure that their units are voted at the Meeting. The information circular provides additional information relating to the matters to be dealt with at the Meeting and forms part of this notice.

If you have any questions or need assistance with the completion and delivery of your proxy or voting instruction form, please contact TSX Trust Company by phone at 416-682-3860 or 1-800-387-0825 (toll-free in North America), or by e-mail at proxyvote@tmx.com.

The financial statements for the year ended December 31, 2022 and the report of the auditor thereon are available on the SEDAR website at www.sedarplus.ca.

Unitholders of record at the close of business on August 28, 2023 (the "**Record Date**") are entitled to notice of, and to vote at, the Meeting.

DATED at Toronto, Ontario this 11th day of September, 2023.

BY ORDER OF THE BOARD OF TRUSTEES

"James Dondero"

Chair of the Board of Trustees
NexPoint Hospitality Trust

NEXPOINT
HOSPITALITY TRUST

MANAGEMENT INFORMATION CIRCULAR

Unless otherwise indicated herein, or the context otherwise requires, "**NHT**" or the "**REIT**" refers to NexPoint Hospitality Trust, including its direct and indirect subsidiaries. Unless otherwise indicated herein, all dollar amounts are stated in U.S. dollars and references to dollars or "**$**" are to U.S. currency. The board of trustees of NHT is referred to herein as the "**Board**" or the "**Trustees**", and a "**Trustee**" means any one of them.

This management information circular (the "**Information Circular**") is furnished in connection with the solicitation of proxies by or on behalf of management of NHT, for use at the annual and special meeting (the "**Meeting**") of holders ("**Unitholders**") of trust units ("**Units**") of NHT scheduled to be held on Thursday, October 12, 2023 virtually via live webcast at 10:00 a.m. (Toronto time), and at all postponements or adjournments thereof, for the purposes set forth in the accompanying notice of the Meeting (the "**Notice of Meeting**"). Unitholders of record at the close of business on August 28, 2023 (the "**Record Date**") will be entitled to vote at the Meeting.

The Meeting will be held in a virtual-only format, which will be conducted via live webcast over the internet. Unitholders will have an equal opportunity to participate at the Meeting regardless of their geographic location. A summary of the information Unitholders will need to attend the Meeting online is provided below under "*Attending and Voting at the Virtual Meeting*".

Except as otherwise stated in this Information Circular, the information contained herein is given as of September 11, 2023.

PROXY SOLICITATION AND VOTING

Solicitation of Proxies

The solicitation of proxies is being made by or on behalf of management. It is expected that the solicitation will be primarily by mail, but proxies may also be solicited personally, by telephone or other form of correspondence. NHT will bear the cost in respect of the solicitation of proxies for the Meeting and will bear the legal, printing and other costs associated with the preparation of the Information Circular. NHT will also pay the fees and costs of intermediaries for their services in transmitting proxy-related material in accordance with National Instrument 54-101 — *Communication with Beneficial Owners of Securities of a Reporting Issuer* ("**NI 54-101**"). This cost is expected to be nominal.

Appointment of Proxies

Unitholders will receive a form of proxy or voting instruction form (the "**Form of Proxy**") for use in connection with the Meeting. The persons named in such Form of Proxy are currently Trustees or officers of NHT. **A Unitholder who wishes to appoint some other person to represent him, her or it at the Meeting may do so by crossing out the persons named in the Form of Proxy and inserting such person's name in the blank space provided in the Form of Proxy or by completing another proper Form of Proxy. Such other person need not be a Unitholder of NHT.**

The Unitholder must also follow the additional step of registering such proxyholder with our transfer agent, TSX Trust Company, after submitting the Form of Proxy. Failure to register the proxyholder with our transfer agent will result in the proxyholder not receiving a control number. Without a control number, the proxyholder will not be able to participate in or vote at the virtual meeting. It is the responsibility of the Unitholder to register their proxyholder with TSX Trust Company in advance of the Meeting by completing and returning a "Request for Control Number" form no later than 10:00 am (Toronto time) on October 10, 2023 or, if the Meeting is postponed or adjourned, by no later than 48 hours (excluding Saturdays, Sundays and statutory holidays) preceding the time of such adjourned

meeting (the "**Proxy Deadline**") The "Request for Control Number" form is available at https://www.tsxtrust.com/control-number-request.

The document appointing a proxy must be in writing and completed and signed by a Unitholder or his or her attorney authorized in writing or, if the Unitholder is a corporation, under its corporate seal or by an officer or attorney thereof duly authorized. Instructions provided by a Unitholder must be in writing and completed and signed by the Unitholder or his or her attorney authorized in writing or, if the Unitholder is a corporation, under its corporate seal or by an officer or attorney thereof duly authorized. Persons signing as officers, attorneys, executors, administrators, and trustees or similarly otherwise should so indicate and provide satisfactory evidence of such authority.

Revocation of Proxies

Proxies given by Unitholders for use at the Meeting may be revoked at any time prior to their use by depositing an instrument in writing executed by the Unitholder or by his or her attorney authorized in writing or, if the Unitholder is a corporation, under its corporate seal or by an officer or attorney thereof duly authorized. Revocations of proxies must be deposited in one of the manners indicated on the Form of Proxy not later than two business days prior to the Meeting or any adjournment thereof at which the proxy is to be used.

Only Registered Holders (as defined below) have the right to revoke a proxy. Beneficial Holders (as defined below) who wish to change their vote must make appropriate arrangements with their respective dealers or other intermediaries.

Voting of Proxies

The persons named in the Form of Proxy will vote, or withhold from voting, the Units in respect of which they are appointed, on any ballot that may be called for, in accordance with the instructions of the Unitholder as indicated on the Form of Proxy. In the absence of such specification, such Units will be voted at the Meeting as follows:

- **FOR the election of those persons listed in this Information Circular as the proposed Trustees for the ensuing year;**
- **FOR the appointment of Frazier & Deeter, LLC, as auditor of NHT for the ensuing year and to authorize the Board to fix the auditor's remuneration;**
- **FOR the approval of the resolution adopting an amended and restated deferred unit plan for the REIT;**
- **FOR the approval of the resolution approving and ratifying the grant of 1,295,668 deferred units to the REIT's independent trustees on September 11, 2023; and**
- **FOR the approval of the resolution approving the amendments to the convertible promissory notes issued by the REIT between June 2021 and September 2022.**

For more information on these issues, please see the section entitled "*Matters to be Considered at the Meeting*" in this Information Circular.

The persons appointed under the Form of Proxy are conferred with discretionary authority with respect to amendments to or variations of matters identified in the Form of Proxy and the Notice of Meeting and with respect to other matters which may properly come before the Meeting. In the event that amendments or variations to matters identified in the Notice of Meeting are properly brought before the Meeting, it is the intention of the persons designated in the Form of Proxy to vote in accordance with their best judgment on such matter or business. As at the date of this Information Circular, the Trustees know of no such amendments, variations or other matters.

Quorum

The quorum at the Meeting or any adjournment thereof shall be individuals deemed to be present at the virtual Meeting in person or represented by proxy, not being less than two in number and such persons holding or representing by proxy in aggregate not less than 25% of the total number of outstanding Units.

INFORMATION FOR BENEFICIAL HOLDERS OF SECURITIES

Information set forth in this section is very important to persons who do not hold Units in their own name. A Unitholder who beneficially owns Units (a "**Beneficial Holder**") that are registered in the name of an intermediary (such as a securities broker, financial institution, trustee, custodian or other nominee who holds securities on behalf of the Beneficial Holder or in the name of a clearing agency in which the intermediary is a participant) should note that only proxies or instructions deposited by securityholders whose names are on the records of NHT as the registered holders of Units ("**Registered Holders**") can be recognized and acted upon at the Meeting.

Units that are listed in an account statement provided to a Beneficial Holder by a broker are likely not registered in the Beneficial Holder's own name on the records of NHT. Such Units are more likely to be registered in the name of CDS Clearing and Depository Services Inc. ("**CDS**") or its nominee.

Applicable regulatory policy in Canada requires brokers and other intermediaries to seek voting instructions from Beneficial Holders in advance of securityholder meetings. Every broker or other intermediary has its own mailing procedures and provides its own return instructions, which should be carefully followed by Beneficial Holders in order to ensure that their Units are voted at the Meeting. Often, the form of proxy supplied to a Beneficial Holder by its broker is identical to that provided to registered securityholders. However, its purpose is limited to instructing the registered securityholder how to vote on behalf of the Beneficial Holder. Most brokers now delegate responsibility for obtaining instructions from clients to Broadridge Investor Communications Solutions ("**Broadridge**"). Broadridge typically prepares a machine-readable voting instruction form, mails those forms to the Beneficial Holders and asks Beneficial Holders to return the proxy forms to Broadridge. Broadridge then tabulates the results of all instructions received and provides appropriate instructions representing the voting of the securities to be represented at the Meeting. A Beneficial Holder receiving a Broadridge voting instruction form cannot use that voting instruction form to vote Units directly at the Meeting. The voting instruction form must be returned to Broadridge well in advance of the Meeting in order to have the Units voted. Proxy-related materials will not be sent by NHT directly to "non-objecting beneficial owners" under NI 54-101. NHT intends to pay for intermediaries to deliver proxy-related materials to "objecting beneficial owners" and Form 54-101F7 (the request for voting instructions), in accordance with NI 54-101.

Although Beneficial Holders may not be recognized directly at the Meeting for the purposes of voting Units registered in the name of CDS or their broker or other intermediary, a Beneficial Holder may attend the Meeting as proxy holder for the Registered Holder and vote their Units in that capacity. **Beneficial Holders who wish to attend the Meeting and indirectly vote their own Units as proxy holder for the Registered Holder should enter their own names on the Form of Proxy provided to them and return the same to their broker or other intermediary (or the agent of such broker or other intermediary) in accordance with the instructions provided by such broker, intermediary or agent well in advance of the Meeting. Beneficial Holders can only be validated and indirectly vote their own Units as proxy holder for the Registered Holder by completing the Form of Proxy provided to them and returning the same to their broker or other intermediary in accordance with the instructions provided.**

ATTENDING AND VOTING AT THE VIRTUAL MEETING

Attendance

NHT is holding the Meeting in a virtual-only format, which will be conducted via live webcast. Unitholders will not be able to attend the Meeting in person. Unitholders will be able to attend, participate and submit questions online at the virtual Meeting via live webcast. Unitholders will also be able to vote prior to the Meeting by completing their Form of Proxy.

The Meeting can be accessed as a Unitholder or as a guest at the following URL: https://virtual-meetings.tsxtrust.com/1546 (password: nexpoint2023).

If you attend the Meeting online, it is important that you are connected to the internet at all times during the Meeting in order to participate. It is your responsibility to ensure connectivity for the duration of the Meeting. You should allow 30 minutes prior to the start of the Meeting to check in online.

Registered Holders

Registered Holders can vote Units held in their name as the Unitholder of record online at the Meeting or by proxy. To vote Units personally, Registered Holders must submit the Form of Proxy appointing themselves as proxyholder by the Proxy Deadline. However, even if you plan to attend the Meeting, NHT recommends that you vote your Units in advance, so that your vote will be counted if you later decide not to attend the Meeting. Voting by proxy can be completed by returning the Form of Proxy.

Included with this circular is a Form of Proxy for use by Registered Holders. Whether or not you intend to attend the Meeting, you are requested to complete, sign, date and return the enclosed form of proxy. To be valid, proxies must be signed and deposited with TSX Trust by mail to P.O. Box 721, Agincourt, ON M1S 0A1, Attention: Proxy Department; by facsimile to 1-416-595-9593; or electronically online with your 12-digit Control Number at www.meeting-vote.com, by no later than 10:00 a.m. (Toronto time) on Tuesday, October 10, 2023 or, if the Meeting is adjourned or postponed, at least 48 hours prior to such adjourned or postponed Meeting (excluding Saturdays, Sundays and statutory holidays in the Province of Ontario). The chair of the Meeting may waive, without notice, the time limit for deposit of proxies.

If a Registered Holder does not wish to attend and vote at the Meeting online (or have another person attend and vote on his or her behalf), the Form of Proxy must be completed, signed and returned in accordance with the instructions on the form.

Registered Holders can attend and vote online during the Meeting at the following URL: https://virtual-meetings.tsxtrust.com/1546 (password: nexpoint2023) by selecting "I have a control number", entering your 12-digit control number, which can be located on your Form of Proxy, and entering the password: "nexpoint2023" (case sensitive).

Beneficial Holders

Beneficial Holders can vote their Units online at the Meeting or by proxy. Beneficial Holders will receive from their intermediary a Form of Proxy for the number of Units beneficially owned. **Beneficial Holders who wish to attend the Meeting and indirectly vote their own Units as proxy holder for the Registered Holder should enter their own names on the Form of Proxy provided to them and return the same to their broker or other intermediary (or the agent of such broker or other intermediary) in accordance with the instructions provided by such broker, intermediary or agent well in advance of the Meeting. Beneficial Holders can only be validated and indirectly vote their own Units as proxy holder for the Registered Holder by completing the Form of Proxy provided to them and returning the same to their broker or other intermediary in accordance with the instructions provided.**

However, even if you plan to attend the Meeting, NHT recommends that you vote your Units in advance, so that your vote will be counted if you later decide not to attend the Meeting. Beneficial holders should follow the instructions on the form they receive and contact their intermediaries promptly if they need assistance. Beneficial Holders can vote by accessing the following URL: https://virtual-meetings.tsxtrust.com/1546 (password: nexpoint2023) and entering the 12-digit control number printed on the Form of Proxy and following the instructions on the screen.

If a Beneficial Holder does not wish to attend and vote at the Meeting online (or have another person attend and vote on his or her behalf), the Form of Proxy must be completed, signed and returned in accordance with the directions on the form.

VOTING SECURITIES AND PRINCIPAL HOLDERS THEREOF

Units

NHT is authorized to issue an unlimited number of Units. The Units are listed and posted for trading on the TSX Venture Exchange (the "**TSXV**") under the symbol "NHT.U". No Unit has any preference or priority over another. Each Unit represents a Unitholder's proportionate undivided beneficial ownership interest in NHT and confers the right to one vote at any meeting of Unitholders and to participate *pro rata* in any distributions by NHT.

As of the date hereof, there were 29,352,055 Units outstanding.

Class B Units

NHT Operating Partnership, LLC (the "**OP**"), the operating partnership of NHT, has class B units ("**Class B Units**") outstanding. Class B Units do not carry a voting right with respect to matters put before Unitholders of NHT for a vote. However, the Class B Units are, in all material respects, economically equivalent to the Units on a per unit basis, subject to certain customary anti-dilution adjustments. The holders of Class B Units are entitled to receive distributions from the OP on the same per unit basis as holders of Units.

After Class B Units have been issued for at least 12 months (subject to acceleration in certain circumstances), holders of such Class B Units, acting individually, have the right to cause the OP to redeem all or a portion of such Class B Units for a cash payment to be paid by the OP. The OP shall not be obligated to satisfy such redemption right if NHT Holdings, LLC ("**NHH**") elects to purchase the Class B Units in exchange for a cash payment or equivalent value in Units, as determined by NHH (and NHT, indirectly) in its sole discretion. If NHH elects to redeem such Class B Units for the equivalent value in Units, NHT will generally deliver (indirectly) one Unit for each Class B Unit redeemed (subject to customary anti-dilution adjustments). As of the date hereof, there were 205,597 Class B Units outstanding.

Eligibility for Voting

At the Meeting, each Unitholder of record at the close of business on the Record Date will be entitled to one vote for each Unit held on all matters proposed to come before the Meeting. Any Unitholder who was a Unitholder on the Record Date shall be entitled to receive notice of and vote at the Meeting or any adjournment thereof, even though he, she or it has since that date disposed of his, her or its Units, and no Unitholder becoming such after that date shall be entitled to receive notice of and vote at the Meeting or any adjournment thereof or to be treated as a Unitholder of record for purposes of such other action.

Principal Unitholders

To the knowledge of NHT and its executive officers, the only person or company that beneficially owned, directly or indirectly, or exercised control or direction over, voting securities of NHT carrying 10% or more of the voting rights attached to all outstanding Units of NHT as of the date hereof, was:

Name	Number of Units Owned, Controlled or Directed[(1)]	Percentage of Outstanding Units	Number of Class B Units Owned, Controlled or Directed	Percentage of Outstanding Units (determined as if all Class B Units are redeemed for Units)[(2)]
James Dondero[(3)]	21,170,538	72.13%	0	71.62%

Notes:

(1) The number of Units beneficially owned includes any Units over which the person has sole or shared voting power or investment power. No person has any right to acquire additional Units through the exercise of any stock option or other right. Unless otherwise indicated, each person has sole investment and voting power (or shares such power with his or her spouse) over the Units set forth in the table.

(2) The percentages shown are based on 29,352,055 Units and 205,597 Class B Units Outstanding as of the date hereof.

(3) Includes 13,571,131 Units owned by NexPoint Real Estate Opportunities, LLC, 5,394,662 Units owned by The Dugaboy Investment Trust, 1,045,848 Units owned by NHT Holdco, LLC, 1,068,519 Units owned by Governance RE Ltd. and 90,378 Units owned by NexPoint Real Estate Advisors, L.P.; each of which is directly or indirectly controlled by, or acting jointly and in concert with, James Dondero.

Management of NHT understands that the Units registered in the name of CDS are beneficially owned through various dealers and other intermediaries on behalf of their clients and other parties. The names of the Beneficial Holders of such Units are not known to NHT. Except as set out above, NHT and its executive officers have no knowledge of any person or company that beneficially owns, directly or indirectly, or exercises control or direction over 10% or more of the outstanding Units of NHT.

Voting Results

Voting results of the Meeting will be filed on SEDAR at www.sedarplus.ca following the Meeting.

MATTERS TO BE CONSIDERED AT THE MEETING

1. Financial Statements

The financial statements of NHT for the year ended December 31, 2022, and the auditor's report thereon will be placed before the Unitholders at the Meeting. No formal action will be taken at the Meeting to approve the financial statements. If any Unitholder has questions regarding such financial statements, such questions may be brought forward at the Meeting.

2. Election of Trustees

The present term of office of each Trustee of NHT will expire upon the election of Trustees at the Meeting. It is proposed that each of the persons whose name appears below be elected as a Trustee of NHT to serve until the close of the next annual meeting of Unitholders or until his or her successor is elected.

Advance Notice Policy

NHT's amended and restated declaration of trust dated March 27, 2019 (as subsequently amended by the first amendment to the amended and restated declaration of trust dated September 16, 2020, and further amended by the second amendment to the amended and restated declaration of trust dated October 25, 2021, the "**Declaration of Trust**") contains an advance notice policy (the "**Advance Notice Policy**") which requires a nominating Unitholder to provide notice to the Trustees of proposed Trustee nominations not less than 30 days prior to the date of the applicable annual meeting (being not later than September 12, 2023 for the purposes of the Meeting). This advanced notice period is intended to give NHT and its Unitholders sufficient time to consider any proposed nominees. A copy of the Declaration of Trust, which sets out the Advance Notice Policy, is available on the SEDAR website at www.sedarplus.ca.

Majority Voting Policy

The Board has adopted a majority voting policy (the "**Majority Voting Policy**") in Trustee elections that applies at any meeting of Unitholders where an uncontested election of Trustees is held, including at the Meeting. Pursuant to this policy, if the number of proxy votes withheld for a particular Trustee nominee is greater than the votes in favour of such nominee, the Trustee nominee shall immediately tender his or her resignation to the Chair of the Board following the Meeting. Following receipt of a resignation submitted pursuant to this policy, the compensation, governance, and nominating committee of the Board (the "**Compensation, Governance and Nominating Committee**") shall consider whether or not to accept the offer of resignation and shall recommend to the Board whether or not to accept it. With the exception of special circumstances that would warrant the continued service of the applicable Trustee on the Board, the Compensation, Governance and Nominating Committee shall accept and recommend acceptance of the resignation by the Board. Within 90 days following the Meeting, the Board shall make

its decision, on the Compensation, Governance and Nominating Committee's recommendation. Following the Board's decision on the resignation, the Board shall promptly disclose, via press release (a copy of which shall be provided to the TSXV), its decision as to whether or not to accept the Trustee's resignation offer, including the reasons for rejecting the resignation offer, if applicable. A Trustee who tenders his or her resignation pursuant to the Majority Voting Policy will not be permitted to participate in any meeting of the Board or the Compensation, Governance and Nominating Committee at which the resignation is considered. In the event of a "contested election", where the number of nominees for trustee exceeds the number of trustees to be elected, subject to applicable law, the voting method to be applied for purposes of electing trustees at the meeting will be determined by the Chair of the meeting in his or her sole discretion.

Nominees

Pursuant to an investor rights agreement among NHT and certain Unitholders of NHT who are principals and affiliates of NexPoint Real Estate Advisors VI, L.P. (collectively, the "**NexPoint Holders**") dated March 29, 2019 (the "**Investor Rights Agreement**"), the NexPoint Holders are granted the right to nominate two Trustees (such nominees are subject to election together with the remaining Trustees at annual meetings of Unitholders) subject to the NexPoint Holders owning, in the aggregate, 20% or more of the then-outstanding Units (determined as if all Class B Units are redeemed for Units), such number being reduced to one nominee if the NexPoint Holders own, in the aggregate, less than 20% but 10% or more of the then-outstanding Units (determined as if all Class B Units are redeemed for Units). Upon the NexPoint Holders' aggregate ownership falling below 10%, the NexPoint Holders will not have any Board nomination rights. Notwithstanding the foregoing, where the Board is comprised of four or fewer Trustees, as long as the NexPoint Holders own, in the aggregate, 10% or more of the then-outstanding Units (determined as if all Class B Units are redeemed for Units), the NexPoint Holders are granted the right to nominate a maximum of one Trustee. For so long as the NexPoint Holders have nomination rights under the Investor Rights Agreement, the Board of Trustees will be restricted from nominating more than five Trustees. For clarity, this restriction does not affect the ability of a Unitholder to nominate Trustees in accordance with the terms of the Declaration of Trust or applicable law. The Investor Rights Agreement is available on the SEDAR website at www.sedarplus.ca.

As of the Record Date, the Board was comprised of four Trustees and the NexPoint Holders owned, in the aggregate, 29.7% of the outstanding Units (determined as if all Class B Units are redeemed for Units) and are therefore entitled to nominate one Trustee at the Meeting. Currently, James Dondero, who serves on the Board pursuant to the NexPoint Holders' nomination right, is nominated for re-election pursuant to the NexPoint Holders' nomination right at the Meeting.

The persons named in the Form of Proxy, if not expressly directed to the contrary in such Form of Proxy, intend to vote for the election, as Trustees, of the proposed nominees whose names are set out below. It is not contemplated that any of the proposed nominees will be unable to serve as a Trustee but, if that should occur for any reason prior to the Meeting, the persons named in the Form of Proxy reserve the right to vote for another nominee at their discretion. Each nominee elected as a Trustee will hold office until the close of the next annual meeting of the Unitholders or until his or her successor is elected or appointed. The Declaration of Trust provides for the Board to consist of a minimum of one and a maximum of nine Trustees. The Board currently has four Trustees and it is proposed that four Trustees be elected at the Meeting.

About the Nominees

The following information sets forth the names of, and certain other biographical information for, the four individuals proposed to be nominated for election as Trustees at the Meeting.

JAMES DONDERO	**Principal Occupation**
Age: 60	Mr. Dondero serves as a Trustee of NHT and is Chair of the Board. He is a member of NHT's Audit Committee and Compensation, Governance and Nominating Committee. Mr. Dondero also serves as NHT's Chief Executive Officer. He is the President of NexPoint

Location: Dallas, Texas, USA Trustee Since: February 2019 Status: **NOT INDEPENDENT**	Advisors, LP, which he founded in 2012. Mr. Dondero has over 30 years of experience investing in credit and equity markets and has helped pioneer credit asset classes with portfolio management experience ranging in several asset classes, including real estate securities, corporate securities and direct lending. Mr. Dondero received a B.S. in Commerce (Accounting and Finance) from the University of Virginia, and is a Certified Public Accountant, Certified Managerial Accountant and a Chartered Financial Analyst.

Number[(1)]	Market Value[(2)]	Number	Market Value[(2)]	Number[(1)]	Market Value[(2)]	Minimum Ownership Requirement	Complies with Minimum Ownership Requirement?[(3)]
21,170,538	$10,585,269	389,025	$194,513	21,559,563	$10,779,782	$5,000,000	Yes

Notes:

(1) Includes 13,571,131 Units owned by NexPoint Real Estate Opportunities, LLC, 5,394,662 Units owned by The Dugaboy Investment Trust, 1,045,848 Units owned by NHT Holdco, LLC, 1,068,519 Units owned by Governance RE Ltd. and 90,378 Units owned by NexPoint Real Estate Advisors, L.P.; each of which is directly or indirectly controlled by, or acting jointly and in concert with, James Dondero.

(2) These amounts were determined by multiplying the number of Units or Profits LTIP Units (as defined below) (as applicable) by the closing price of the Units on September 8, 2023, being $0.50 per Unit.

(3) NHT's unit ownership policy provides that each Trustee has within the later of five years from the date of (i) the policy and (ii) becoming a Trustee to comply with the guidelines therein. NHT's unit ownership policy also provides that, for the purposes of the policy, the value of Units held is calculated using the higher of the cost base and current market price.

NEIL LABATTE	**Principal Occupation**
Age: **66** Location: Toronto, Ontario, Canada Trustee Since: December 2018 Status: **INDEPENDENT**	Mr. Labatte serves as a Trustee of NHT and is Lead Trustee of the Board. Mr. Labatte currently serves on the boards of BSR Real Estate Investment Trust (where he serves as Chair) and Triovest Inc. (a Canada-wide diversified private real estate investment and management corporation). He was previously a director of Skyline Investments Inc. (Tel Aviv Stock Exchange), Jack Nathan Medical Corp. (TSXV) and Pomeroy Hotels (a private entity). He also previously served as a director for HealthLease Properties REIT, Alpha Peak and Holloway Lodging Corporation, all current or former TSX-listed entities. Mr. Labatte is the former President and Chief Executive Officer of the Legacy Hotels REIT. He became President in 1999 and Chief Executive Officer in 2003, holding both titles until the Legacy Hotels REIT was sold in September 2007. He also served as a trustee of the Legacy Hotels REIT from April 2003 until September 2007. Mr. Labatte joined Fairmont Hotels & Resorts in 1997 as Vice President Acquisitions, and from October 2001 to December 31, 2004 served as Senior Vice President, Real Estate and was a member of the organization's Executive Committee. Mr. Labatte possesses over 35 years of experience within the real estate sector.

	For four years prior to joining Fairmont Hotels & Resorts, Mr. Labatte was a founder, principal and board member of AEW Mexico Company, a Dallas, Texas private equity real estate investment management company formed with one of the largest institutional real estate private equity companies in the United States. For the 12 years prior to the formation of AEW Mexico Company, he was involved in the hotel and real estate sectors in the capacity of investment banker and consultant. Mr. Labatte received his B.Sc. and M.Sc. in Finance from the University of Utah. Mr. Labatte played professional hockey with the St. Louis Blues and Salt Lake Golden Eagles from 1977-1982. He was previously Co-Chairman of the NHL Alumni Association.

Units		**Deferred Units**[1]		**Total Units and Deferred Units**		**Unit Ownership Requirement**	
Number	Market Value	Number	Market Value[2]	Number	Market Value[2]	Minimum Ownership Requirement	Complies with Minimum Ownership Requirement?[3]
–	–	972,312	$486,156	972,312	$486,156	3X Annual Cash Retainer	Yes

Notes:

(1) The Board may fix a maximum portion of the Trustee Fees (as defined below) payable to the independent Trustees to be paid in the form of Deferred Units (as defined below) in lieu of cash, subject to the election of the independent Trustees. The Trustee Fees payable to Mr. Labatte in respect of fiscal 2020 and 2019 were $93,000 and $47,250 respectively. Mr. Labatte elected to receive such fees in the form of Deferred Units. The Board, on the recommendation of the Compensation, Governance and Nominating Committee, matched 100% of the total value of Trustee Fees that Mr. Labatte elected to receive in the form of Deferred Units. Due to various blackout periods observed by NHT, the Deferred Units awardable in respect of the Trustee Fees were awarded on June 28, 2021. On December 13, 2021, in consideration of Mr. Labatte's service and performance during the COVID-19 pandemic, and to encourage Mr. Labatte to participate in the future growth of the REIT, Mr. Labatte was granted 105,000 Deferred Units which vested immediately. In respect of fiscal 2021, the total value of Trustee Fees payable to Mr. Labatte was $88,500, of which $56,250 was paid in cash and the remaining $32,250 was to be paid in Deferred Units. In respect of fiscal 2022 and fiscal 2023 (as of June 30, 2023), $90,750 and $50,000 of Trustee Fees were payable to Mr. Labatte. Mr. Labatte elected to receive such fees in the form of Deferred Units. Due to various blackout periods observed by NHT and certain restrictions on granting security based compensation to insiders pursuant to TSXV Policy 4.4, on September 11, 2023, the REIT conditionally granted 692,000 Deferred Units to Mr. Labatte in respect of his remaining portion of 2021 Trustee Fees, 2022 Trustee Fees and 2023 Trustee Fees (accrued as of June 30, 2023). The Board, on the recommendation of the Compensation, Governance and Nominating Committee, matched 100% of the total value of Trustee Fees that Mr. Labatte elected to receive in the form of Deferred Units. As of the date hereof, Mr. Labatte holds 972,312 Deferred Units.

(2) These amounts were determined by multiplying the number of Units or Deferred Units (as applicable) by the closing price of the Units on September 8, 2023, being $0.50 per Unit.

(3) NHT's unit ownership policy provides that each Trustee has within the later of five years from the date of (i) the policy and (ii) becoming a Trustee to comply with the guidelines therein. NHT's unit ownership policy also provides that, for the purposes of the policy, the value of Units held is calculated using the higher of the cost base and current market price.

GRAHAM SENST	Principal Occupation
Age: **74** Location: Toronto, Ontario, Canada Trustee Since: February 2019 Status: **INDEPENDENT**	Mr. Senst serves as a Trustee of NHT. He is also the Chair of NHT's Audit Committee and a member of NHT's Compensation, Governance and Nominating Committee. Mr. Senst served as President of the Institute of Canadian Real Estate Investment Managers until its sale in August 2012. Prior to this role, Mr. Senst served as Managing Director of KingSett Capital Real Estate Income Fund and as an Executive Vice President of Bentall Capital and Penreal Capital Management. Mr. Senst also served as an Executive Vice President of Bentall Investment Management. Prior to joining Bentall in April 2003, Mr. Senst served as Vice President of Real Estate for the OMERS Administration Corp. (also known as Ontario Municipal Employees Retirement System). Mr. Senst has many years of senior real estate investment experience as a Vice President with a major Ontario pension fund and other Canadian financial institutions. Prior to joining OMERS, Mr. Senst served as Vice President of Real Estate at a Subsidiary of Mackenzie Financial Corporation, where he developed debt and equity investment products for various Mackenzie funds. Mr. Senst served as the Vice President of Corporate Real Estate at both Canada Trust and Truscan Realty. He served as a Member of the Advisory Board at KingSett Capital Income Fund, Morgan Stanley Real Estate Fund IV and Soros Real Estate Investors, C.V. and as a trustee of Residential Equities Real Estate Investment Trust (ResREIT). He also served as a Director of Oxford Properties Group, Inc. Mr. Senst served as a trustee of Milestone Apartments Real Estate Investment Trust (including as the Chair of the Investment Committee) and Partners REIT (including as the Chair of the Audit Committee). He is currently a trustee of BSR Real Estate Investment Trust. Mr. Senst holds an Honours of Business Administration and a Masters of Business Administration from the Ivey School of Business at the University of Western Ontario in London, Ontario and is a 2011 graduate of the Institute of Corporate Directors.

Notes:

(1) The Board may fix a maximum portion of the Trustee Fees payable to the independent Trustees to be paid in the form of Deferred Units in lieu of cash, subject to the election of the independent Trustees. The Trustee Fees payable to Mr. Senst in respect of fiscal 2020 and 2019 were $88,000 and $43,500 respectively. Mr. Senst elected to receive such fees in the form of Deferred Units. The Board, on the recommendation of the Compensation, Governance and Nominating Committee matched 100% of the total value of Trustee Fees that Mr. Senst elected to receive in the form of Deferred Units. Due to various blackout periods observed by NHT, the Deferred Units awardable in respect of the Trustee Fees were awarded on June 28, 2021. On December 13, 2021, in consideration of Mr. Senst's service and performance during the COVID-19 pandemic, and to encourage Mr. Senst to participate in the future growth of the REIT, Mr. Senst was granted 105,000 Deferred Units which vested immediately.

In respect of fiscal 2021, the total value of Trustee Fees payable to Mr. Senst was $83,500, of which $53,333 was paid in cash and the remaining $30,167 was to be paid in Deferred Units. In respect of fiscal 2022 and fiscal 2023 (as of June 30, 2023), $70,750 and $37,500 of Trustee Fees were payable to Mr. Senst. Mr. Senst elected to receive his 2022 Trustee Fees in the form of Deferred Units, and his accrued 2023 Trustee Fees (as of June 30, 2023) in cash. Due to various blackout periods observed by NHT and certain restrictions on granting security based compensation to insiders pursuant to TSXV Policy 4.4, on September 11, 2023, the REIT conditionally granted 403,668 Deferred Units to Mr. Senst in respect of his remaining portion of 2021 Trustee Fees and 2022 Trustee Fees. The Board, on the recommendation of the Compensation, Governance and Nominating Committee, matched 100% of the total value of Trustee Fees that Mr. Senst elected to receive in the form of Deferred Units. As of the date hereof, Mr. Senst holds 673,043 Deferred Units.

(2) These amounts were determined by multiplying the number of Units or Deferred Units (as applicable) by the closing price of the Units on September 8, 2023, being $0.50 per Unit.

(3) NHT's unit ownership policy provides that each Trustee has within the later of five years from the date of (i) the policy and (ii) becoming a Trustee to comply with the guidelines therein. NHT's unit ownership policy also provides that, for the purposes of the policy, the value of Units held is calculated using the higher of the cost base and current market price.

JERRY PATAVA	**Principal Occupation**
Age: 69 Location: Toronto, Ontario, Canada Trustee Since: August 2022 Status: **INDEPENDENT**	Jerry Patava serves as a Trustee of NHT. Previously, he served as the Chair of Great Gulf Group from January 2020 to January 2023, and Chief Executive Officer from July 2007 to January 2020. He also served as a Board member and Chair of Ashton Woods USA LLC from February 2009 to December 2022. Before joining Great Gulf and affiliates, he served as Executive Vice President and Chief Financial Officer of Fairmont Hotels & Resorts Inc. and as a trustee and Executive Vice President, Chief Financial Officer, and Treasurer of Legacy Hotels Real Estate Investment Trust. From 1990 to 1998, he was Vice President and Treasurer of Canadian Pacific Limited. Prior thereto, he was a Vice President and Director of RBC Dominion Securities. Mr. Patava has more than four decades of experience in real estate and finance. He has served on numerous public and private boards of directors in North America and internationally across a broad spectrum of industries including energy, newspapers and infrastructure. He is currently a member of the Fiera Capital Corporation Independent Review Committee. Mr. Patava holds a Bachelor of Arts from the University of Toronto and a Master of Business Administration from York University.

Notes:

(1) The Board may fix a maximum portion of the Trustee Fees payable to the independent Trustees to be paid in the form of Deferred Units in lieu of cash, subject to the election of the independent Trustees. The Trustee Fees payable to Mr. Patava in respect of fiscal 2022 and fiscal 2023 (as of June 30, 2023) is US$20,000 and US$30,000 respectively. Mr. Patava elected to receive such fees in the form of Deferred Units. The Board, on the recommendation of the Compensation, Governance and Nominating Committee matched 100% of the total value of Trustee Fees that Mr. Patava elected to receive in the form of Deferred Units. Due to various blackout periods observed by NHT and certain restrictions on granting security based compensation to insiders pursuant to TSXV Policy 4.4, on September 11, 2023, the REIT conditionally granted 200,000 Deferred Units to Mr. Patava in respect of his remaining portion of his 2022 Trustee Fees and 2023 Trustee Fees (accrued as of June 30, 2023). The Board, on the recommendation of the Compensation, Governance and Nominating Committee, matched 100% of the total value of Trustee Fees that Mr. Patava elected to receive in the form of Deferred Units. As of the date hereof, Mr. Patava holds 200,000 Deferred Units.

(2) These amounts were determined by multiplying the number of Units or Deferred Units (as applicable) by the closing price of the Units on September 8, 2023, being $0.50 per Unit.

(3) NHT's unit ownership policy provides that each Trustee has within the later of five years from the date of (i) the policy and (ii) becoming a Trustee to comply with the guidelines therein. NHT's unit ownership policy also provides that, for the purposes of the policy, the value of Units held is calculated using the higher of the cost base and current market price.

Corporate Cease Trade Orders or Bankruptcies

Other than as set forth below, during the past 10 years, no nominee proposed for election has been a director, chief executive officer or chief financial officer of any company that:

(a) was subject to a cease trade order or similar order or an order that denied the company access to any exemption under securities legislation for a period of more than 30 consecutive days while the nominee was acting in such capacity; or

(b) was subject to a cease trade order or similar order or an order that denied the company access to any exemption under securities legislation for a period of more than 30 consecutive days that was issued after the nominee ceased to act in such capacity and which resulted from an event that occurred while the nominee was acting in such capacity.

During the past 10 years, no nominee proposed for election has been a director or executive officer of any company that, while the nominee was acting in such capacity, or within a year of the nominee ceasing to act in such capacity, became bankrupt, made a proposal under any legislation relating to bankruptcy or insolvency or was subject to or instituted any proceedings, arrangement or compromise with creditors or had a receiver, receiver manager or trustee appointed to hold its assets.

Mr. Dondero, on the date outlined below, was an executive officer of Highland Capital Management, L.P. ("**HCMLP**"). On October 16, 2019, HCMLP announced that it had filed a petition in the United States Bankruptcy Court for the District of Delaware, seeking voluntary Chapter 11 protection. HCMLP filed a plan of reorganization, which was approved by the United States Bankruptcy Court for the Northern District of Texas in February 2021 and subsequently became effective on August 11, 2021. As part of its plan of reorganization, HCMLP appointed a litigation trustee, whose sole purpose was to investigate, prosecute, settle, or otherwise resolve claims of HCMLP's estate.

Mr. Labatte, on the date outlined below, was a director and/or officer of Talon International Inc. and several affiliated entities, including Talon International Development Inc., TFB Inc., 2263847 Ontario Limited and 2270039 Ontario Limited. On November 1, 2016, such corporations became parties to a receivership order from the Ontario Superior Court of Justice (Commercial List) appointing a court-appointed receiver of certain assets of such entities used in relation to the Trump International Hotel & Tower in Toronto, Ontario. The sale of such assets to various third parties was facilitated through the receivership process.

Personal Bankruptcies

No nominee proposed for election has, within the 10 years prior to the date of this Information Circular, become bankrupt or made a proposal under any legislation relating to bankruptcy or insolvency, or been subject to or

instituted any proceedings, arrangement or compromise with creditors, or had a receiver, receiver manager or trustee appointed to hold the assets of the nominee.

Penalties or Sanctions

No nominee proposed for election has been subject to any penalties or sanctions imposed by a court relating to securities legislation or by a securities regulatory authority or has entered into a settlement agreement with a Canadian securities regulatory authority or been subject to any other penalties or sanctions imposed by a court or regulatory body that would likely be considered important to a reasonable investor making an investment decision.

Unless otherwise instructed, the persons named in the enclosed Form of Proxy intend to vote such Form of Proxy FOR the election, as Trustees, of the proposed nominees set out above.

3. Appointment of Auditors

The audit committee of NHT (the "**Audit Committee**") recommends to the Unitholders that Frazier & Deeter, LLC be appointed as the independent auditor of NHT, to hold office until the close of the next annual general meeting of the Unitholders or until its successor is appointed, and that the Trustees be authorized to fix the remuneration of the auditor. Frazier & Deeter, LLC has been the auditor of NHT since February 25, 2021.

Unless otherwise instructed, the persons named in the enclosed Form of Proxy intend to vote such Form of Proxy FOR of the appointment of Frazier & Deeter, LLC as auditor of NHT to hold office until the next annual general meeting of Unitholders and the authorization of the Board to fix its remuneration.

4. Approval of Amended and Restated Deferred Unit Plan

On August 11, 2023, the Board approved (subject to disinterested Unitholder approval) the amendment and restatement of the REIT's deferred unit plan dated June 30, 2022 (the "**Deferred Unit Plan**") to: (i) remove the Insider Participation Limits (as defined below); and (ii) amend the definition of "Trustee" to explicitly exclude James Dondero, Chief Executive Officer of the REIT, as a participant thereunder (the "**Amended and Restated Deferred Unit Plan**").

The purpose of the Deferred Unit Plan is to enhance the ability of the REIT and any of its subsidiaries to attract, motivate and retain non-employee Trustees of the REIT ("**Participants**"), to reward such persons for their sustained contributions, and to encourage such persons to take into account the long-term performance of the REIT. A deferred trust unit of NHT ("**Deferred Unit**") is an award of a notional investment in the Units reflected on an unfunded, book-entry account maintained by NHT. For a summary of the current terms of the Deferred Unit Plan, see below under "*Compensation – Deferred Unit Plan*".

Under the current Deferred Unit Plan, there are certain restrictions (the "**Insider Participation Limits**") on the granting of Deferred Units to Participants and the issuance of Units to Insiders (as such term is defined in the TSXV Corporate Finance Manual, as such manual may be amended, supplemented or replaced from time to time (the "**TSXV Corporate Finance Manual**") of the REIT.

NHT wishes to amend and restate the Deferred Unit Plan to remove the following Insider Participation Limits:

(a) The maximum aggregate number of Units that are issuable pursuant to all Security Based Compensation Arrangements of the REIT granted or issued to Insiders (as a group) shall not exceed 10% of the issued and outstanding Units at any point in time, subject to the requisite disinterested Unitholder approval required by the TSXV; and

(b) The maximum aggregate number of Units that are issuable pursuant to all Security Based Compensation Arrangements of the REIT granted or issued in any 12 month period to Insiders (as a group) shall not exceed 10% of the issued and outstanding Units, calculated as at the date any

such security based compensation award is granted or issued to any Insider, subject to the requisite disinterested Unitholder approval required by the TSXV.

Given the prior issuances of Profits LTIP Units under the omnibus equity incentive plan of NHT (the "**Omnibus Plan**") and Deferred Units under the Deferred Unit Plan, the Insider Participation Limits, if maintained, would severely curtail the REIT's ability to grant Deferred Units to the independent Trustees. The Board believes it is important to maintain the ability to issue Deferred Units to the independent Trustees in order to align their interests with those of the Unitholders.

The Amended and Restated Deferred Unit Plan was conditionally approved by the TSXV on August 30, 2023, subject to the satisfaction of certain conditions, including obtaining disinterested Unitholder approval.

Disinterested Unitholder Approval

The amendment to remove the Insider Participation Limits requires "disinterested unitholder approval" per TSXV Policy 4.4. As a result, the resolution approving the Amended and Restated Deferred Unit Plan (the "**Amended Deferred Unit Plan Resolution**") will require the approval by a majority of the votes cast by all Unitholders at the Meeting, present in person or by proxy at the Meeting, excluding the votes attaching to the Units beneficially owned by the Trustees eligible to participate under the Deferred Unit Plan and their "associates" and "affiliates" (as defined in TSXV Policy 4.4).

For the purposes of the disinterested unitholder approval requirement of TSXV Policy 4.4, any votes attaching to Units held by Neil Labatte, Graham Senst and Jerry Patava (the "**Interested Parties**") will be excluded in determining whether disinterested Unitholder approval for the Amended Deferred Unit Plan Resolution is obtained. As of the Record Date, the Interested Parties do not hold any Units.

NHT's disinterested Unitholders will be asked to consider and, if deemed advisable, pass the Amended Deferred Unit Plan Resolution in the form set out in Appendix "A" to this Information Circular. Unitholders are encouraged to review the proposed Amended and Restated Deferred Unit Plan attached as Appendix "B" to this Information Circular. In the event that disinterested Unitholder approval of the Amended Deferred Unit Plan Resolution is not obtained at the Meeting, the current Deferred Unit Plan will remain in full force and effect.

The Board has unanimously approved the Amended and Restated Deferred Unit Plan and recommends that the Unitholders vote FOR the Amended Deferred Unit Plan Resolution. Unless otherwise instructed, the persons named in the enclosed Form of Proxy intend to vote such Form of Proxy FOR the Amended Deferred Unit Plan Resolution.

5. Approval of Previous Grant of Deferred Units

In accordance with TSXV Policy 4.4 and the terms of the REIT's Deferred Unit Plan, the REIT conditionally granted 1,295,668 Deferred Units to independent Trustees of the REIT on September 11, 2023 (the "**Prior DSU Grant**"). The Prior DSU Grant is in excess of Insider Participation Limits (as described above) and is subject to ratification by Unitholders at the Meeting (in addition to approval of the Amended and Restated Deferred Unit Plan). At the Meeting, Unitholders will be asked to approve by ordinary resolution the ratification of the Prior DSU Grant (the "**Prior DSU Grant Resolution**").

The Prior DSU Grant will require "disinterested unitholder approval" pursuant to the TSXV policies. As a result, the Prior DSU Grant Resolution will require the approval by a majority of the votes cast by all Unitholders at the Meeting, present in person or by proxy at the Meeting, excluding the votes attaching to the Units beneficially owned by the Trustees eligible to participate under the Deferred Unit Plan and their "associates" and "affiliates" (as defined in TSXV Policy 4.4).

For the purposes of the disinterested unitholder approval requirement of TSXV Policy 4.4, any votes attaching to the Interested Parties will be excluded in determining whether disinterested Unitholder approval for the Prior DSU Grant Resolution is obtained. As of the Record Date, the Interested Parties do not hold any Units.

NHT's disinterested Unitholders will be asked to consider and, if deemed advisable, pass the Prior DSU Grant Resolution in the form set out in Appendix "C" to this Information Circular. In the event that disinterested Unitholder approval of the Prior DSU Grant Resolution is not obtained at the Meeting, the Prior DSU Grant will be terminated.

The Board has unanimously approved the Prior DSU Grant and recommends that the Unitholders vote FOR the Prior DSU Grant Resolution. Unless otherwise instructed, the persons named in the enclosed Form of Proxy intend to vote such Form of Proxy FOR the Prior DSU Grant Resolution.

6. Approval of Amendments to COVID Loans

Background and Purpose of COVID Loans

The REIT received 32 loans from entities controlled or managed by James Dondero between June 2021 and September 2022 in the aggregate amount of US$56,165,000 (the "**COVID Loans**"). The proceeds from the COVID Loans were principally used to fund the REIT's operating expenses, interest and principal payments on outstanding indebtedness during the COVID-19 pandemic to allow the REIT to continue as a going concern.

A portion of the proceeds from the COVID Loans were also used to fund certain acquisitions aimed at improving the REIT's financial condition. Prior to 2021, the REIT's portfolio was primarily focused on the business travel market. However, throughout 2021 and early 2022, the REIT observed that leisure travel was beginning to recover from the pandemic at a significantly faster rate than the business travel market. At that time, although the REIT continued to be in significant financial distress, it determined that its future financial condition could be significantly improved if it could replace some of its hotels focused on the business travel market with hotels focused on the leisure travel market. The REIT believed that shifting its asset mix in this manner would generate positive cash flow for the REIT more quickly than would be the case with its existing portfolio, thereby putting the REIT in a stronger position to recover from the COVID-19 pandemic. As a result, in February 2022, the REIT used certain of the proceeds from the COVID Loans to acquire two hotel properties focused on the leisure travel market. Shortly thereafter, the REIT commenced a marketing process to sell five of its hotel properties which primarily catered to the business travel market.

Each of the COVID Loans is unsecured, has a 20-year term and bears interest at interest rates ranging from 2.25% per year to 7.5% per year (which were market interest rates at the time of their issuance). The principal and interest owing under the COVID Loans is convertible into Class B Units of the OP, at the option of the holder at any time, based on the value of a Class B Unit at the time of conversion.

The COVID Loans were provided by funds managed or controlled by Mr. Dondero, the REIT's controlling Unitholder. Mr. Dondero, through the entities he manages or controls, holds an approximate 72.13% interest in the outstanding Units of the REIT. As a result, the REIT treated the COVID Loans as a "related party transaction" under MI 61-101, which subjects the COVID Loans to the formal valuation (the "**Formal Valuation Requirement**") and minority approval requirements set forth in Part 5 of MI 61-101 (the "**Minority Approval Requirement**"), unless an exemption was available.

Exemption from Formal Valuation Requirement

As a TSXV-listed issuer, the REIT relied upon the exemption from the Formal Valuation Requirement in Section 5.5(b) of MI 61-101 (the "**Specified Markets Exemption**"), which provides that an issuer is exempt from the formal valuation requirements if its securities are not listed on the Toronto Stock Exchange, the Aequitas NEO Exchange Inc., the New York Stock Exchange, the American Stock Exchange, the NASDAQ Stock Market, or a stock exchange outside of Canada and the United States other than the Alternative Investment market of the London Stock Exchange or the PLUS markets operated by PLUS Markets Group plc.

Exemption from Minority Approval Requirement

At the time the COVID Loans were issued, the REIT relied upon the exemption under Section 5.7(1)(a) of MI 61-101. In addition, the REIT had available, and relied upon, the exemption in Section 5.7(1)(e) of MI 61-101 (the "**Financial Hardship Exemption**") to exempt the REIT from the Minority Approval Requirement. The Financial Hardship Exemption was available to the REIT based on the following criteria:

(i) The REIT was in serious financial difficulty.

As a hospitality REIT that owned 11 hotel properties across the United States at the beginning of the COVID-19 pandemic, the global response to the COVID-19 pandemic had a devastating impact on the REIT's operations. In April 2020, occupancy declined from an average of 75.1% across the REIT's portfolio to a low of 12.5%. In May 2020, a going concern note was included in the REIT's annual financial statements, highlighting the REIT's serious financial difficulties and possible risk of bankruptcy.

(ii) The COVID Loans were designed to improve the financial position of the REIT.

As a result of the COVID-19 pandemic, the REIT experienced material decreases in revenues, results of operations and cash flows. The impact to the global economy caused by the response to the COVID-19 pandemic also negatively impacted the REIT's ability to obtain new financing. The COVID Loans were advanced, in most cases, in critical moments to principally fund the REIT's ongoing operating expenses and to satisfy interest and principal payments due on third party debt. In certain situations, the proceeds from the COVID Loans were used to fund acquisitions designed to improve the financial condition of the REIT. Without the COVID Loans, the REIT would likely not have been able to continue its operations as a going concern.

(iii) The COVID Loans were not subject to court approval under bankruptcy or insolvency law.

At the time of the COVID Loans, the REIT was not subject to court oversight or approval under any bankruptcy or insolvency laws.

(iv) The REIT had two independent trustees in respect of the COVID Loans.

During the time that the COVID Loans were advanced to the REIT, the REIT had two independent trustees, namely Neil Labatte and Graham Senst. The independent trustees did not participate in the COVID Loans, were free from any interest in the COVID Loans, and were unrelated to the entities managed or controlled by Mr. Dondero that provided the COVID Loans.

(v) The REIT's board of trustees, acting in good faith, determined, and at least two-thirds of the independent trustees, determine that subparagraphs (i) and (ii) apply, and that the terms of the COVID Loans were reasonable in the circumstances of the REIT.

After carefully considering and reviewing all the factors surrounding the REIT, Mr. Labatte and Mr. Senst determined that: (i) the REIT was in serious financial difficulty; (ii) the COVID Loans would improve the financial condition of the REIT; and (iii) the terms of the COVID Loans were fair and reasonable in the circumstances of the REIT.

Amendments to COVID Loans

The COVID Loans were filed with the TSXV at various points during 2021 and 2022, as loan submissions pursuant to TSXV Policy 5.1 – *Loans, Loan Bonuses, Finder's Fees and Commissions* ("**Policy 5.1**").

Although the REIT believed that the COVID Loans were properly subject to Policy 5.1 and was not informed of any alternative treatment of the COVID Loans at the time of the filings, in December 2022, the TSXV advised the REIT that the COVID Loans were required to be treated as "Convertible Securities" under TSXV Policy 4.1 – *Private Placements* rather than loans under Policy 5.1. Due to this determination, the TSXV required the following

amendments (the "**Amendments**") to the COVID Loans: (i) either the conversion feature be removed or limited to five years from the date of issuance of the COVID Loan; (ii) the conversion feature be limited to the principal amount of the COVID Loan (rather than the principal amount including interest); and (iii) the conversion price be fixed at a price equal to the market price of the REIT's Units on the TSXV at the time of the issuance of the COVID Loan.

If the Amendments are implemented, only the principal amount of each of the COVID Loans will be convertible into Class B Units for five-year terms ending between July 1, 2026 and September 30, 2027; however, the term of the COVID Loans shall remain as 20 years from their date of issuance. Any conversion of principal or interest of the COVID Loans into Class B Units or Units after the expiry of the 5-year conversion window will be subject to the approval of the Trustees and the TSXV. For one COVID Loan for an amount of US$8.5 million, the conversion right will be removed altogether. In addition, if the Amendments are implemented, the COVID Loans with conversion rights will be for an aggregate amount of US$47,665,000 and the conversion price for the principal outstanding will be fixed at prices ranging from US$1.60 to US$2.50 in satisfaction of the requirements of the TSXV. Accordingly, to the extent the Amendments are implemented, a maximum number of 21,075,012 Class B Units or Units will be issuable upon conversion of the COVID Loans.

The Board, having undertaken a thorough review of, and having: (i) considered the terms of the Amendments to the COVID Loans; (ii) considered the need to comply with the requirements of the TSXV in order to maintain a listing for the Units, and (iii) consulted with its legal advisors, concluded that the Amendments are in the best interests of the REIT and agreed to pursue the approval of the Amendments. The REIT has obtained the requisite approval from the entities that provided the COVID Loans to implement the Amendments. However, as the Amendments constitute a "related party transaction" under MI 61-101, the REIT must receive "minority approval" of the Amendments under MI 61-101, as more particularly described below. If the Amendments are not approved at the Meeting, the REIT will engage with the TSXV to seek alternative solutions to the satisfy the TSXV listing requirements; however, there can be no assurance that a satisfactory solution will be found, and if a solution is not found, the TSXV may halt trading in the Units, suspend trading in the Units and/or initiate a delisting review of the REIT's Units as, absent the Amendments, the REIT would not be in compliance with TSXV listing requirements.

Minority Approval under MI 61-101

The REIT is a reporting issuer in certain of the provinces of Canada and, accordingly, is subject to applicable securities laws of such provinces, including MI 61-101. MI 61-101 is intended to regulate certain transactions which raise the potential for conflicts of interest, including related party transactions, to ensure that all securityholders of an issuer are treated in a manner that is fair and that is perceived to be fair.

The Amendments constitute a "related party transaction" within the meaning of MI 61-101, as the Amendments have the effect of amending the terms of the COVID Loans, which are securities of the REIT beneficially owned or over which control is exercised by Mr. Dondero (a "related party" of the REIT because of the fact that Mr. Dondero beneficially owns or controls Units of the REIT that carry more than 10% of the voting rights attached to all of the REIT's issued and outstanding Units). The Amendments are not subject to the formal valuation requirements of Section 5.4 of MI 61-101, as the Specified Markets Exemption is available to the REIT (see above under *"Matters to be Considered at the Meeting – 6. Approval of Amendments to COVID Loans - Exemption from Formal Valuation Requirement"*).

MI 61-101 requires that a related party transaction be subject to "minority approval" (as defined in MI 61-101) of every class of "affected securities" of the issuer, in each case voting separately as a class. As such, the resolution approving the Amendments to the COVID Loans (the "**Amended COVID Loans Resolution**") will require the affirmative vote of at least a majority of the votes cast by the Unitholders (the "**Minority Unitholders**"), present in person or represented by proxy at the Meeting, excluding the votes attached to the Unitholders that are beneficially owned or over which control or direction is exercised by Mr. Dondero, and any "related party" of the REIT within the meaning of MI 61-101 (subject to the exceptions set out therein) and any person acting jointly or in concert with the foregoing in respect of the Amended COVID Loans Resolution. The full text of the Amended COVID Loans Resolution is set forth in Appendix "D" to this Information Circular.

For purposes of the minority approval requirements of MI 61-101, to the knowledge of the REIT after reasonable inquiry, the votes attached to the 21,170,538 Units beneficially owned, directly or indirectly, or over which control or direction is exercised by Mr. Dondero, or his "related parties" or "joint actors" (as defined in MI 61-101) (such entities, the "**Interested Unitholders**"), representing, as of the Record Date, approximately 72.13% of the issued and outstanding Units, will be excluded in determining whether minority approval for the Amended COVID Loans Resolution is obtained.

As of the Record Date, the Units to be excluded for the purposes of minority approval requirement are set out below:

Unitholder(1)	Number of Units Owned, Controlled or Directed	Percentage of Outstanding Units(2)
NexPoint Real Estate Opportunities, LLC	13,571,131	46.24%
The Dugaboy Investment Trust	5,394,662	18.38%
NHT Holdco, LLC	1,045,848	3.56%
Governance RE Ltd	1,068,519	3.63%
NexPoint Real Estate Advisors, L.P.	90,378	0.31%

Notes:

(1) The percentages shown are based on 29,352,055 Units outstanding as of the date hereof.

(2) Each of the Unitholders listed above is directly or indirectly controlled by, or acting jointly and in concert with, James Dondero.

The Board has unanimously approved the Amendments to the COVID Loans (with James Dondero declaring his interest in the Amendments and abstaining from voting) and recommends that the Unitholders vote FOR the Amended COVID Loans Resolution. Unless otherwise instructed, the persons named in the enclosed Form of Proxy intend to vote such Form of Proxy FOR the Amended COVID Loans Resolution.

Additional Information Required by MI 61-101

(i) Trading Price and Volume

The Units are listed on the TSXV under the symbol "NHT.U". The following table sets out the monthly reported high and low trading prices and trading volumes of the Units on the TSXV for the periods indicated:

TSXV Trading Summary of Units			
Period	**High ($)**	**Low ($)**	**Volume (#)**
August, 2023	$0.50	$0.50	750
July, 2023	$0.50	$0.50	1,500
June, 2023	$0.50	$0.50	1,500
May, 2023	$1.00	$1.00	227
April, 2023	N/A	N/A	0
March, 2023	$1.50	$1.00	20,200
February, 2023	$1.50	$1.50	3,800

The closing price of the Units on the TSXV on September 8, 2023, being the last trading day prior to the date of this Information Circular, was $0.50. The closing price of the Units on the TSXV on June 23, 2023, being the last trading day prior to the public announcement of the Amendments to the COVID Loans, was $1.00.

(ii) Ownership of Securities of the REIT

The following table sets forth the number, designation and the percentage of outstanding Units or Deferred Units beneficially owned or over which control or direction is exercised by each trustee and officer of the REIT:

Names and Relationship with the REIT	Ownership or control over Units or Deferred Units of the REIT(1)
JAMES DONDERO Chief Executive Officer, Trustee, Chair of the Board	21,170,538 Units 72.13%
NEIL LABATTE Trustee	972,312 Deferred Units 3.31%(2)
GRAHAM SENST Trustee	673,043 Deferred Units 2.29%(3)
JERRY PATAVA Trustee	200,000 Deferred Units 0.68%(4)
JESSE BLAIR III Executive Vice President, Head of Lodging	98,639 Units 0.34%
BRIAN MITTS Chief Financial Officer & Corporate Secretary	-
PAUL RICHARDS Vice President, Asset Management	-
MATTHEW MCGRANER Chief Investment Officer	875,846 Units 2.98%

Notes:

(1) The percentages shown are based on 29,352,055 Units outstanding as of the date hereof.

(2) Determined as if the 972,312 Deferred Units were redeemed for 972,312 Units.

(3) Determined as if the 673,043 Deferred Units were redeemed for 673,043 Units.

(4) Determined as if the 200,000 Deferred Units were redeemed for 200,000 Units.

(iii) Material Changes in the Affairs of the REIT and Other Material Facts

Except as described or referred to in this Information Circular, NHT is not aware of any material fact concerning the securities or any other matter not previously generally disclosed and known to NHT which would reasonably be expected to affect the decision of Unitholders to accept or reject the Amended COVID Loans Resolution. Except as described or referred to in this Information Circular or as otherwise publicly disclosed, NHT has no current plans or proposals to make any material change in its business, corporate structure, management or personnel.

(iv) Previous Purchases and Sales of Securities

No securities of the REIT were purchased or sold by the REIT during the twelve months preceding the date of the Amendments.

COMPENSATION

Overview

The Compensation, Governance and Nominating Committee oversees compensation programs and related governance matters. NHT's senior management team consists of individuals employed by NexPoint Real Estate Advisors VI, L.P. (the "**Advisor**") (or an affiliate thereof). The Advisor provides advisory services to NHT pursuant to the Amended and Restated Advisory Agreement by and among NHT, NHH and the Advisor dated March 29, 2019 (the "**Advisory Agreement**"), for which NHT pays the Advisor certain fees (the "**Advisory Fee**"). On April 29, 2020, in light of developments related to the outbreak of COVID-19 and corresponding impact on the hospitality industry, the Advisor agreed to waive the Advisory Fee and certain expenses provided for in the Advisory Agreement until operations of NHT and NHH stabilized. On November 25, 2020, the Advisor reinstated the Advisory Fee, however, the Advisor agreed to defer payment of the Advisory Fee until NHT is cash flow positive and can sustain the payments. The Advisor did not collect any fees for the year ended December 31, 2022. However, in August 2023, the REIT commenced repayment of a portion of the accrued Advisory Fees. See below under "*Advisory and Management Agreements*".

The following discussion describes the significant elements of NHT's executive compensation program. The Chief Executive Officer, Chief Financial Officer, Chief Information Officer, Executive Vice President, Head of Lodging and Vice President, Asset Management are referred to herein as the "**named executive officers**" in accordance with applicable Canadian securities laws. The named executive officers are employees of the Advisor (or an affiliate thereof) and the Advisor has sole responsibility for determining the compensation of the named executive officers, other than with respect to the granting of Unit-based compensation, which is the responsibility of the independent Trustees. NHT does not have any employment agreements with members of senior management and does not pay any cash compensation to any individuals serving as officers. A portion of the compensation paid to those employees of the Advisor is attributable to time spent on the activities of NHT.

Principal Elements of Compensation

The compensation of the named executive officers includes three principal elements: (a) base salary which will be paid by the Advisor; (b) discretionary cash bonuses which will be paid by the Advisor; and (c) long-term incentives, which may consist of restricted equity units, performance-based awards, Deferred Units, options, membership units of the OP designated as "Profits LTIP Units" or other equity-based incentive compensation awards granted under the Omnibus Plan and/or the Deferred Unit Plan, each as described in further detail below.

Base Salaries

Base salaries are intended to provide an appropriate level of fixed compensation that will assist in employee retention and recruitment. Base salaries are determined on an individual basis, taking into consideration the past, current and potential contribution to NHT's success, the position and responsibilities of the named executive officers and competitive industry pay practices for other real estate investment trusts and companies of comparable size. Base salaries are paid by the Advisor or its affiliates, not NHT.

Annual Cash Bonuses

Annual cash bonuses are discretionary and are not awarded pursuant to a formal incentive plan. Annual cash bonuses are awarded based on qualitative and quantitative performance standards and reward the performance of the named executive officer individually. The determination of NHT's performance may vary from year to year depending on economic conditions and conditions in the real estate industry, and may be based on measures such

as Unit price performance, the meeting of financial targets against budget, the meeting of acquisition objectives and balance sheet performance. Individual performance factors vary, and may include completion of specific projects or transactions and the execution of day-to-day management responsibilities. Annual cash bonuses are paid by the Advisor or its affiliates, not NHT.

Long-Term Compensation Plans

Grants of (i) equity-based incentive awards under the Omnibus Plan (which may include restricted equity units, performance-based awards, Deferred Units, Profits LTIP Units and other awards convertible, exercisable or exchangeable into or otherwise based on Units), and (ii) Deferred Units under the Deferred Unit Plan are used to align the interests of the named executive officers more closely with the interests of the Unitholders, since they are tied to NHT's financial and Unit trading performance and vest or accrue over a number of years. The Board, acting on the recommendation of the Compensation, Governance and Nominating Committee, may designate individuals eligible to receive grants of equity-based incentive awards. In determining grants of such awards, an individual's performance and contributions to NHT's success, relative position, tenure and past grants will be taken into consideration.

Deferred Unit Plan

The following is a summary of the terms of the REIT's current Deferred Unit Plan dated June 30, 2022. The Deferred Unit Plan allows for the grant of Deferred Units to Participants.

The REIT intends to amend and restate its Deferred Unit Plan, subject to obtaining the approval of disinterested Unitholders and the TSXV. Readers are advised to review the proposed amendments to the Deferred Unit Plan above under *"Matters to be Considered at the Meeting– 4. Approval of Amended and Restated Deferred Unit Plan*", along with the full text of the proposed Amended and Restated Deferred Unit Plan appended hereto as Appendix "B".

Authorized Units

The maximum number of Deferred Units reserved for issuance under the Deferred Unit Plan at any time is 2,844,256 (representing approximately 9.7% of NHT's outstanding Units as of the date hereof). As of the date hereof, 1,295,668 Deferred Units have been granted under the Deferred Unit Plan which are subject to approval by Unitholders pursuant to the Prior DSU Grant Resolution. Pursuant to the TSXV policies, the number of Units issuable pursuant to all of NHT's security based compensation arrangements in aggregate is a fixed specified number of Units up to a maximum of 20% of NHT's issued and outstanding Units as at the date of implementation of the Deferred Unit Plan. NHT currently maintains one other security based compensation plan, the Omnibus Plan, which allows for the grant of various equity-based awards to eligible participants. The maximum number of Units that are available for issuance under the Omnibus Plan is 3,026,155 (representing approximately 10.3% of NHT's outstanding Units as of the date hereof).

If any Deferred Unit granted under the Deferred Unit Plan is terminated, surrendered, forfeited, expired or is cancelled, new Deferred Units may thereafter be granted covering such Units, subject to any required prior approval by the TSXV or other stock exchange upon which the Units are then listed. At all times, the REIT will reserve and keep available a sufficient number of Units to satisfy the requirements of all outstanding Deferred Units granted under the Deferred Unit Plan.

Administration

The Deferred Unit Plan will be administered by the Board and the Compensation, Governance and Nominating Committee. The administration of the Deferred Unit Plan shall be subject to and performed in conformity with all applicable laws, regulations, orders of governmental or regulatory authorities and the requirements of any stock exchange on which the Units are listed. Should the Compensation, Governance and Nominating Committee, in its sole discretion, determine that it is not desirable or feasible to provide for the redemption of Deferred Units in Units, including by reason of any such laws, regulations, rules, orders or requirements, it shall notify the Participants of

such determination and on receipt of such notice each Participant shall have the option of electing that such redemption obligations be satisfied by means of a cash payment by the REIT equal to the Average Market Price (as defined below) of the Units that would otherwise be delivered to a Participant in settlement of Deferred Units on the redemption date (less any applicable withholding taxes). Each Participant shall comply with all such laws, regulations, rules, orders and requirements, and shall furnish the REIT with any and all information and undertakings, as may be required to ensure compliance therewith.

Granted and Elected Deferred Units

Participants may be awarded Deferred Units, each of which is economically equivalent to one Unit, from time to time at the discretion of the Board on recommendation of the Compensation, Governance and Nominating Committee ("**Granted DUs**"). Participants may also, subject to the terms of the Deferred Unit Plan, elect to receive up to 100% of his or her annual retainer (including fees for serving as Chair of the Board or a committee of the Board) and meeting fees for a calendar year otherwise payable in cash ("**Trustee Fees**") in the form of Deferred Units ("**Elected DUs**" and, together with the Granted DUs, shall all be considered Deferred Units for purposes of the Deferred Unit Plan).

The number of Deferred Units granted at any particular time pursuant to the Deferred Unit Plan will be equal to (i) the elected amount in respect of Trustee Fees, as determined by a Trustee, divided by the Average Market Price of a Unit on the award date, plus (ii) the Granted DUs, if any, granted to such Trustee. "**Average Market Price**" of a Unit means the volume weighted average price of the Units traded on the TSXV, for the five trading days immediately preceding such date (or, if such Units are not then listed and posted for trading on the TSXV, on such stock exchange on which the Units are listed and posted for trading as may be selected for such purpose by the Board); provided that, for so long as the Units are listed and posted for trading on the TSXV, the Average Market Price shall not be less than the market price, as calculated under the policies of the TSXV and provided, further, that with respect to Deferred Units issued to a U.S. taxpayer, such Participant and the number of Units subject to such issuance shall be identified by the Board prior to the start of the applicable five trading day period. In no event shall the Average Market Price be less than the Discounted Market Price (as such term is defined in the TSXV Corporate Finance Manual).

Under no circumstances shall Deferred Units be considered Units nor entitle a Participant to any rights as a Unitholder, including, without limitation, voting rights, distribution entitlements (other than as set out below) or rights on liquidation.

Whenever cash distributions are paid on the Units, additional Deferred Units will be credited to the Participant's Deferred Unit account ("**Additional DUs**"). The number of such Additional DUs to be credited to a Participant's Deferred Unit account in respect of a cash distribution paid on the Units shall be calculated by dividing the amount which is equal to the aggregate distributions that would have been paid to such Participant if the Deferred Units in the Participant's Deferred Unit account had been Units divided by the Average Market Price on the distribution payment date. Deferred Units credited to a Participant shall count towards a Trustees' ownership requirements as prescribed from time to time by the Board. For greater certainty, any Additional DUs shall count toward the limits set forth in Article 11 of the Deferred Unit Plan. Where an award of Additional DUs would be prohibited by the limits set forth in Article 11 of the Deferred Unit Plan, the REIT may make a cash distribution to the applicable Participant in lieu of Additional DUs.

Vesting

Elected DUs granted to Trustees pursuant to the terms of the Deferred Unit Plan will vest immediately upon grant (including any Additional Deferred Units issued pursuant to Elected DUs credited to a Participant's account in connection with cash distributions as described above).

Granted DUs granted to Trustees pursuant to the terms of the Deferred Unit Plan will vest on the first anniversary of the date of grant (including any Additional Deferred Units issued pursuant to Granted DUs credited to a Participant's account in connection with cash distributions as described above).

The Board may, in its discretion, at any time, subject to applicable law or the requirements of the TSXV or any other stock exchange upon which the Units are listed and any other Unitholder or other approval which may be required, permit the acceleration of vesting of any or all Deferred Units or waive termination of any or all Deferred Units, in the manner and on the terms as may be authorized by the Board.

Redemption and Termination

Except with respect to Participants that are U.S. taxpayers, the Deferred Units (or a portion thereof) shall be redeemable by the Participant (or, where the Participant has died, his or her estate) on or after the date (the "**Termination Date**") on which the Participant ceases to be a Trustee, provided any such redemption date is not later than one year following the date the Participant ceases to be a Trustee. For greater certainty, in the event that a Participant (or his or her estate) has not redeemed his or her Deferred Units prior to the date that is one year following the Termination Date, such Deferred Units shall be automatically redeemed on the date that is one year following the Termination Date without any action required on the part of the Participant (or his or her estate). If the Compensation, Governance and Nominating Committee terminates the Deferred Unit Plan, Deferred Units previously credited to Participants shall remain outstanding and in effect and shall be settled subject to and in accordance with the applicable terms and conditions of the plan in effect immediately prior to the termination.

For Participants that are Canadian residents and are not U.S. taxpayers, each vested Deferred Unit credited to a Participant's Deferred Unit account will be redeemed automatically on the date on which the Participant files a written notice of redemption in the prescribed form with the Chief Financial Officer of the REIT (the "**Redemption Date**") for (i) one fully paid and non-assessable Unit issued from treasury to the Participant or as the Participant may direct, (ii) if so elected by the Participant, a cash payment, subject to the approval of the Board, or (iii) a combination of Units and cash as contemplated by paragraphs (i) and (ii) above.

For Participants that are U.S. taxpayers, each vested Deferred Unit credited to a Participant's Deferred Unit account will be redeemed automatically on the date of the Trustee's Separation from Service for (i) one fully paid and non-assessable Unit issued from treasury to the Participant or as the Participant may direct, (ii) if so elected by the Participant, a cash payment, subject to the approval of the Board, or (iii) a combination of Units and cash as contemplated by paragraphs (i) and (ii) above. "**Separation from Service**" has the meaning given to such phrase in U.S. Treasury Regulation § 1.409A-1(h).

Any cash payments made by the REIT to a Participant in respect of Deferred Units to be redeemed for cash shall be calculated by multiplying the number of Deferred Units to be redeemed for cash by the Average Market Price per Unit as at the Redemption Date or date of the Trustee's Separation from Service, as applicable.

No fractional Units will be issued pursuant to the redemption of Deferred Units. At the time of redemption, fractional Deferred Units shall be rounded down, and no payment shall be made to the Participant with respect to the fractional Deferred Units standing to the Participant's credit after the maximum number of whole Units due to such Participant have been issued by the REIT.

Upon payment in full of the value of the vested Deferred Units and the forfeiture of the unvested Deferred Units, the Deferred Units shall be cancelled.

Notwithstanding anything else in Article 10 of the Deferred Unit Plan, in the event of the death of a Participant, all previously awarded Deferred Units shall be redeemable only within one year after such death, and then only by the person or persons to whom the Participant's rights under the Deferred Units shall pass by the Participant's will or the laws of descent and distribution.

Change in Control

In the event of certain consolidations, mergers or similar transactions of NHT, certain sales or other disposition of NHT's Units, certain liquidation events or sales or dispositions of all or substantially all of NHT's assets, the Board may provide for the conversion, exercise or exchange of outstanding awards for new awards, or, if no equivalent

awards are available, for the accelerated vesting or delivery of Units under awards, or for a cash-out of outstanding awards.

Adjustments

In the event of any Unit distribution, Unit split, combinations or exchange of Units, merger, consolidation, spin-off or other distribution of NHT's assets to the Unitholders (other than normal cash distributions), or any other similar change affecting the Units, the account of each Participant and the Deferred Units outstanding under the Deferred Unit Plan shall be adjusted in such manner, if any, as the Board may in its discretion deem appropriate to reflect the event. However, no amount will be paid to, or in respect of, a Participant under the Deferred Unit Plan or pursuant to any other arrangement, and no additional Deferred Units will be granted to such Participant to compensate for a downward fluctuation in the price of the Units, nor will any other form of benefit be conferred upon, or in respect of, a Participant for such purpose.

Restrictions on Grants of Deferred Units

The following restrictions are placed on grants of Deferred Units under the current Deferred Unit Plan:

- the maximum aggregate number of Units issuable to insiders (as a group) pursuant to all security based compensation arrangements of NHT shall not exceed 10% of NHT's issued and outstanding Units at any point in time, subject to the requisite disinterested Unitholder approval required by the TSXV;

- the maximum aggregate number of Units issuable pursuant to all security based compensation arrangements of NHT granted or issued in any 12 month period to insiders (as a group) shall not exceed 10% of NHT's issued and outstanding Units, calculated as at the date any such security based compensation award is granted or issued to any Insider, subject to the requisite disinterested Unitholder approval required by the TSXV;

- the maximum aggregate number of Units issuable pursuant to all security based compensation arrangements of NHT granted or issued in any 12 month period to any one person (and any entities that are wholly owned by that person) shall not exceed 5% of the issued and outstanding Units, calculated as at the date any security based compensation award is granted or issued to the person, subject to the requisite disinterested Unitholder approval required by the TSXV;

- no Deferred Unit may be granted if such grant would have the effect of causing the total number of Units subject to Deferred Units to exceed the total number of Units reserved for issuance under the Deferred Unit Plan; and

- the aggregate fair market value on the date of grant of Units issuable pursuant to all security based compensation arrangements of NHT granted or issued to any non-employee Trustee shall not exceed $200,000 per annum; provided that such limits shall not apply to awards (including Deferred Units) taken in lieu of any Trustee Fees and a one-time initial grant to a Trustee upon such Trustee joining the Board.

The REIT intends to amend and restate the current Deferred Unit Plan to remove the first two restrictions listed above, as described above under *"Matters to be Considered at the Meeting– 4. Approval of Amended and Restated Deferred Unit Plan*".

Amendments

The Deferred Unit Plan provides that Unitholder approval is not required for any amendment to the Deferred Unit Plan except for any amendment or modification that:

- results in any increase in the number of Deferred Units issuable under the plan; or

- permit Deferred Units granted under the plan to be transferable or assignable other than for normal estate settlement purposes.

Without limiting the general amendment powers described above and for greater certainty, Unitholder approval is not required for amendments to the Deferred Unit Plan:

- for the purpose of making formal, minor or technical modifications to any of the provisions of the plan, including amendments of a "housekeeping" nature;

- to correct any ambiguity, defective provisions, error or omission in the provisions of the plan;

- to amend the vesting provisions of the Deferred Units, except for decreasing the vesting term of Granted DUs to less than one year from the award date; or

- any other amendment that does not require unitholder approval under applicable laws or the rules of the TSXV.

provided, however, that no such act shall diminish any rights accrued in respect of grants of Deferred Units made prior to the effective date of such amendment.

Omnibus Equity Incentive Plan

NHT adopted the Omnibus Plan on March 29, 2019. All equity and equity-based awards made or granted, including future grants to be made to named executive officers of NHT, are made under the Omnibus Plan. The Omnibus Plan provides eligible participants with compensation opportunities that encourage ownership of Units, enhance NHT's ability to attract, retain and motivate executive officers and other key members of management and incentivizes them to increase the long-term growth and equity value of NHT in alignment with the interests of Unitholders. The material features of the Omnibus Plan are summarized below.

Administration and Eligibility

The Omnibus Plan is administered by the Compensation, Governance and Nominating Committee. The Compensation, Governance and Nominating Committee has the authority to, among other things, determine eligibility for awards to be granted, determine, modify or waive the type or types of, form of settlement (whether in cash, Units or otherwise) of, and terms and conditions of, awards, to accelerate the vesting or exercisability of awards, to adopt rules, guidelines and practices governing the operation of the Omnibus Plan as the Compensation, Governance and Nominating Committee deems advisable, to interpret the terms and provisions of the Omnibus Plan and any award agreement, and to otherwise do all things necessary or appropriate to carry out the purposes of the Omnibus Plan.

Key officers and any employees of NHT, independent Trustees and key employees of the Advisor and its respective affiliates who, in the opinion of the Compensation, Governance and Nominating Committee, have dedicated significant time and attention to the affairs and business of NHT will be eligible to participate in the Omnibus Plan.

Authorized Units

Subject to adjustment, the maximum number of Units that are available for issuance under the Omnibus Plan is 3,026,155, representing 20% of the issued and outstanding Units of NHT at the time the Omnibus Plan was adopted, or such greater number as may be determined by the Board and approved by the Unitholders and, if required, by any relevant stock exchange or other regulatory authority; all of which may be delivered in satisfaction of restricted equity units, performance-based awards, Deferred Units, Profits LTIP Units or any other applicable award, awarded under the Omnibus Plan. Units issued under the Omnibus Plan may be Units held in treasury or authorized but unissued Units of NHT not reserved for any other purpose. Units subject to an award that for any reason expires

without having been exercised, is cancelled, forfeited or terminated or otherwise is settled without the issuance of Units, will again be available for grant under the Omnibus Plan.

The following table summarizes certain information as of December 31, 2022 regarding compensation plans of NHT under which equity securities are authorized for issuance.

Plan Category	Number of securities to be issued upon exercise of outstanding options, warrants and rights (#)	Weighted-average exercise price of outstanding options, warrants and rights ($)	Number of securities remaining available for future issuance under equity compensation plans (excluding securities reflected in first column) (#)
Equity compensation plans approved by securityholders – Deferred Unit Plan[(1)]	N/A	N/A	2,844,256
Equity compensation plans not approved by securityholders – Omnibus Plan[(2)]	2,141,562	N/A	884,593

Notes:

(1) The Deferred Unit Plan was adopted by NHT's Unitholders on June 30, 2022. The maximum number of Deferred Units reserved for issuance under the Deferred Unit Plan at any time is 2,844,256. As of December 31, 2022, no Deferred Units have been issued under the Deferred Unit Plan. At the Meeting, Unitholders will be asked to approve and ratify the grant of 1,295,668 Deferred Units to the independent Trustees pursuant to the Amended and Restated Deferred Unit Plan.

(2) The Omnibus Plan was adopted in connection with NHT's initial public offering on March 29, 2019. On June 28, 2021, NHT issued an aggregate of 339,687 Deferred Units, in lieu of Trustee Fees earned since January 1, 2019, to the independent Trustees of NHT. Further, on December 13, 2021, NHT issued an additional 210,000 Deferred Units to the independent Trustees and 2,475,000 Profits LTIP Units to officers of NHT and employees of the Advisor based on the performance of the Board and management during the COVID-19 pandemic and to further incentivize each group to continue delivering value to NHT's Unitholders. As of December 31, 2022, there were 2,141,562 awards outstanding under the Omnibus Plan and 884,593 awards remaining that may be granted.

Types of Awards

The Omnibus Plan provides for awards of restricted equity units, performance-based awards, Deferred Units, Profits LTIP Units and other awards convertible, exercisable or exchangeable into or otherwise based on the Units. Eligibility distribution equivalents may also be provided in certain circumstances in connection with an award under the Omnibus Plan.

- Restricted Equity Units. A restricted equity unit award is an award denominated in notional units that entitles the participant to receive Units or cash measured by the value of the Units in the future. The delivery of Units or cash under a restricted equity unit award may be subject to the satisfaction of performance conditions or other vesting conditions.

- Performance Awards. A performance award is an award the vesting, settlement or exercisability of which is subject to specified performance criteria.

- Deferred Units. A Deferred Unit is an award of a notional investment in the Units reflected on an unfunded, book-entry account maintained by NHT. Deferred Units may be subject to performance conditions or other vesting conditions. Deferred Units may be settled in Units, cash measured by the value of a Unit, or a combination thereof.

- Profits LTIP Units. A Profits LTIP Unit is an award of a membership unit of the OP which qualifies as a profits interest for U.S. federal income tax purposes. Subject to certain exceptions set forth in the LLC Agreement of the OP, Profits LTIP Units are treated as Class B Units, with all of the rights, privileges

and obligations attendant thereto, except the right to vote in respect of matters put before members of the OP.

- Other Awards. Other awards are awards that are convertible into, exercisable or exchangeable for, or otherwise based on Units.

Vesting

The Compensation, Governance and Nominating Committee has the authority to determine the vesting schedule applicable to each award, and accelerate the vesting or exercisability of any award.

Change in Control

In the event of certain consolidations, mergers or similar transactions of NHT, certain sales or other disposition of NHT's Units, certain liquidation events or sales or dispositions of all or substantially all of NHT's assets, the Compensation, Governance and Nominating Committee may provide for the conversion, exercise or exchange of outstanding awards for new awards, or, if no equivalent awards are available, for the accelerated vesting or delivery of Units under awards, or for a cash-out of outstanding awards.

Adjustments

In the event of an extraordinary distribution, securities based distribution, stock split or combination (including a reverse stock split) or any recapitalization, business combination, merger, consolidation, spin-off, exchange of Units, liquidation or dissolution of NHT or other similar transaction affecting the Units, the Board will make adjustments as it determines in its sole discretion to the number and kind of Units available for issuance under the Omnibus Plan, the annual per-participant Unit limits, the number, class, exercise price (or base value), performance objectives applicable to outstanding awards and any other terms of outstanding awards affected by such transaction. The Compensation, Governance and Nominating Committee may also make adjustments of the type described in the preceding sentence to take into account distributions and events other than those listed above if it determines that adjustments are appropriate to avoid distortion in the operation of the Omnibus Plan.

Restrictions on Grants of Awards

The following restrictions are placed on grants of awards under the Omnibus Plan:

- the aggregate number of Units issuable to insiders shall not exceed 10% of NHT's total issued and outstanding Units;

- the aggregate number of Units issuable to insiders within any 12-month period shall not exceed 10% of NHT's total issued and outstanding Units;

- the aggregate number of Units reserved for issuance pursuant to awards granted to any one person (and any companies wholly owned by that person) in a 12-month period shall not exceed 5% of NHT's total issued and outstanding Units calculated on the date an award is granted to the person (unless the approval of disinterested Unitholders is obtained);

- the aggregate number of Units reserved for issuance pursuant to awards granted to any one consultant within any 12-month period shall not exceed 2% of the issued and outstanding Units calculated on the date an award is granted to the person;

- the aggregate number of Units reserved for issuance pursuant to awards granted within any 12-month period to all persons retained to provide investor relations activities must not exceed 2% of the issued and outstanding Units calculated on the date an award is granted to the person, provided that no

awards other than options shall be issuable to any person retained to provide investor relations activities;

- the aggregate fair value on the date of grant of all options granted to any one non-employee Trustee shall not exceed $200,000 per annum; and
- the aggregate fair market value on the date of grant of all awards granted to any one non-employee Trustee shall not exceed $200,000 per annum; provided that such limits shall not apply to (A) awards taken in lieu of any Trustee fees, and (B) a one-time initial grant to a Trustee upon such Trustee joining the Board.

Termination and Amendments

The Compensation, Governance and Nominating Committee may amend the Omnibus Plan or outstanding awards, or terminate the Omnibus Plan as to future grants of awards, except that the Compensation, Governance and Nominating Committee will not be able to alter the terms of an award if it would affect materially and adversely a participant's rights under the award without the participant's consent. Unitholder approval is required for any amendment to the Omnibus Plan that increases the number of Units available for issuance under the Omnibus Plan or the individual award limitations specified therein (except with respect to certain adjustments as described above), modifies the class of persons eligible for participation in the Omnibus Plan, extends the term of any award granted beyond its original expiration date, permits an award to be exercisable beyond 10 years from its grant date (except where an expiration date would have fallen within a blackout period of NHT), permits awards to be transferred other than for normal estate settlement purposes, or deletes or reduces the range of amendments which require approval of the Unitholders, or to the extent required by law.

Compensation Risk

The Compensation, Governance and Nominating Committee considers the implications of the risks associated with NHT's compensation policies and practices as part of its responsibility to ensure that the compensation for the Trustees and the named executive officers align the interests of the Trustees and named executive officers with Unitholders and NHT as a whole. NHT's insider trading policy prohibits all officers and Trustees of NHT from selling "short" or selling "call options" on any of NHT's securities and from purchasing financial instruments, such as prepaid variable forward contracts, equity swaps, collars or units of exchange funds that are designed to hedge or offset a decrease in the market value of equity securities granted to such executive officers and Trustees as compensation or held directly or indirectly by such person.

Unit Ownership Policy

NHT has established Unit ownership guidelines (the "**Unit Ownership Policy**") for the Trustees and executive officers of NHT to further align the interests of Trustees and executive officers with those of the Unitholders. The Unit Ownership Policy establishes minimum equity ownership levels for each Trustee and executive officer of NHT to be achieved within the later of five years from the date of (i) the policy, and (ii) becoming a member of senior management or a Trustee, as applicable. The Unit Ownership Policy provides for the following guidelines.

Participant	Target Equity Ownership Level
Chief Executive Officer	5 times annual base salary OR $5,000,000 (if no annual base salary)
Chief Financial Officer **Chief Investment Officer** **Executive Vice President, Head of Lodging** **Vice President, Asset Management**	1.5 times annual base salary

Participant	Target Equity Ownership Level
Trustees	3 times annual cash retainer (excluding retainers paid in respect of Board or Committee Chair roles)

Each Trustee and executive officer is required to continue to hold such minimum ownership levels for as long as they serve as a Trustee or executive officer of NHT. Awards granted under the Omnibus Plan are included in determining an individual's equity ownership value.

Compensation – Trustees

Individual Trustees add value to the Board and to NHT by bringing skills, knowledge and experiences that complement those of their colleagues, so that collectively, the Board provides diversity and balance in views and perspectives, ensuring a challenging and thoughtful exchange with management. Trustee attendance at meetings is mandatory and, additionally, there is an expectation that all Trustees will be available as needed outside of meetings. Board membership is reviewed annually to ensure the right mix and skills are present.

Trustee compensation is structured to recognize Trustees for their skills, knowledge, experiences and attention in overseeing the governance of NHT, and to align with Unitholders' interests. The Compensation, Governance and Nominating Committee reviews Trustee compensation and recommends any changes to the Board to ensure that Trustee compensation is competitive.

In respect of January 1, 2022 to March 31, 2022, the Trustee compensation framework was as follows:

Annual Board Retainer	
Non-management Trustee	$25,000
Meeting Fees	
Per Board or Committee Meeting	$1,500
Chair Retainers	
Lead Trustee	$10,000
Audit Committee Chair	$15,000
Compensation, Governance and Nominating Committee Chair	$10,000
Travel and Expenses	
Reasonable Travel and ancillary expenses	Reimbursed

On the recommendation of the Compensation, Governance and Nominating Committee, the Board changed the Trustee Fees payable to the independent Trustees of the REIT. The new Trustee compensation framework was effective April 1, 2022 and is as follows:

Annual Board Retainer	
Non-management Trustee	$40,000
Committee Fees	
Compensation, Governance and Nominating Committee	$10,000
Audit Committee	$10,000
Chair Retainers	
Lead Trustee	$25,000
Audit Committee Chair	$15,000
Compensation, Governance and Nominating Committee Chair	$15,000

Travel and Expenses	
Reasonable Travel and Ancillary Expenses	Reimbursed

The Trustees do not receive any additional remuneration for acting as directors on the boards of any of NHT's subsidiaries. Trustees who are also members of management do not receive any remuneration for their role as a Trustee. Trustees have the option to elect to receive up to 100% of all fees that are otherwise payable in cash (i.e. annual board retainer fee, meeting fees and additional retainers) in the form of Deferred Units.

NHT, on recommendation from the Compensation, Governance and Nominating Committee, will determine whether, and to what extent, NHT will match up to 100% of the total value of the fees that a Trustee elects to receive in the form of Deferred Units. Accordingly, the number of Deferred Units to be awarded to a Trustee is equal to (i) the value of all fees that the Trustee elects to receive in the form of Deferred Units plus any additional Deferred Units pursuant to NHT's obligation to match as contemplated by the Omnibus Plan, (ii) divided by the volume weighted average trading price of a Unit on the TSXV for the five trading days prior to the date of the award. Trustees must complete an election form to receive Deferred Units in lieu of the cash component of their fees (i) in the case of an existing Trustee, no later than December 31 of the year preceding the applicable grant year; and (ii) in the case of a newly appointed or elected Trustee, within 30 days of such appointment or election with respect to compensation paid for services to be performed after such date. Elections are irrevocable for the year in respect of which they are made.

In respect of fiscal 2021, the total value of Trustee Fees payable to the independent Trustees was $172,000 ($88,500 of which was payable to Mr. Labatte and $83,500 of which was payable to Mr. Senst). Mr. Labatte and Mr. Senst elected to receive $56,250 and $53,333, respectively in cash, with the remaining amounts to be paid in Deferred Units (the "**2021 Deferred Units**").

In respect of fiscal 2022, the total value of Trustee Fees payable to the independent Trustees was $181,500 ($90,750 of which was payable to Mr. Labatte, $70,750 of which was payable to Mr. Senst, and $20,000 of which was payable to Mr. Patava). Mr. Labatte, Mr. Senst and Mr. Patava elected to receive the full amount of their 2022 Trustee Fees in Deferred Units (the "**2022 Deferred Units**").

In respect of fiscal 2023, the total value of Trustee Fees that have accrued as of June 30, 2023 is $117,500 ($50,000 of which is payable to Mr. Labatte, $37,500 of which is payable to Mr. Senst and $30,000 of which is payable to Mr. Patava). Mr. Labatte and Mr. Patava elected to receive the full amount of their 2023 Trustee Fees (accrued as of June 30, 2023) in Deferred Units (the "**2023 Deferred Units**"), while Mr. Senst has elected to receive $37,500 in cash.

The 2021 Deferred Units, 2022 Deferred Units and 2023 Deferred Units (collectively, the "**Outstanding Trustee Fees**") have yet to be paid due to the Insider Participation Limits in the REIT's current Deferred Unit Plan. The Outstanding Trustee Fees were conditionally granted to the independent Trustees on September 11, 2023 and are subject to (i) the REIT obtaining disinterested Unitholder approval of the Amended and Restated Deferred Unit Plan (see above under *"Matters to be Considered at the Meeting– 4. Approval of Amended and Restated Deferred Unit Plan*") and (ii) the approval and ratification by Unitholders of the Prior DSU Grant (see above under *"Matters to be Considered at the Meeting–5. Approval of Previous Grant of Deferred Units*").

NHT, on recommendation from the Compensation, Governance and Nominating Committee, will determine whether, and to what extent, NHT will match up to 100% of the total value of the fees that a Trustee elects to receive in the form of Deferred Units. The REIT's current policy is to provide 100% matching for Deferred Units issued to the Trustees in lieu of their fees. Accordingly, the number of Deferred Units to be awarded to a Trustee is equal to (i) the value of all fees that the Trustee elects to receive in the form of Deferred Units plus any additional Deferred Units pursuant to NHT's obligation to match as contemplated by the Omnibus Plan, (ii) divided by the volume weighted average trading price of a Unit on the TSXV for the five trading days prior to the date of the award. Trustees must complete an election form to receive Deferred Units in lieu of the cash component of their fees (i) in the case of an existing Trustee, no later than December 31 of the year preceding the applicable grant year; and (ii) in the case of a newly appointed or elected Trustee, within 30 days of such appointment or election with respect to compensation

paid for services to be performed after such date. Elections are irrevocable for the year in respect of which they are made.

Table of Compensation Excluding Compensation Securities

The following table sets out information concerning the compensation paid by (i) the Advisor (or its affiliates) to the named executive officers in fiscal 2022 and 2021 in respect of the services provided by such officers to NHT and (ii) NHT to the Trustees; in each case, excluding compensation securities:

Name and Position	Year	Salary, consulting fee, retainer or commission ($)	Bonus ($)	Committee or meeting fees ($)	Value of perquisites ($)	Value of all other compensation ($)	Total compensation ($)[(1)]
James Dondero CEO, Trustee	2022	$100,000	$100,000	–	–	–	$200,000
	2021	$100,000	$100,000	–	–	–	$200,000
Brian Mitts CFO	2022	$75,000	$75,000	–	–	–	$150,000
	2021	$75,000	$75,000	–	–	–	$150,000
Matthew McGraner CIO	2022	$150,000	$150,000	–	–	–	$300,000
	2021	$150,000	$150,000	–	–	–	$300,000
Jesse Blair III Executive VP, Head of Lodging	2022	$150,000	$200,000	–	–	–	$350,000
	2021	$150,000	$150,000	–	–	–	$300,000
Paul Richards VP, Asset Management	2022	$50,000	$75,000	–	–	–	$125,000
	2021	$50,000	$75,000	–	–	–	$125,000
Neil Labatte[(2)] Trustee	2022	–	–	–	–	–	–
	2021	$26,250	–	$30,000	–	–	$56,250
Graham Senst[(3)] Trustee	2022	–	–	–	–	–	–
	2021	$23,333	–	$30,000	–	–	$53,333
Jerry Patava[(4)] Trustee	2022	–	–	–	–	–	–
	2021	–	–	–	–	–	–

Notes:

(1) All compensation for James Dondero (Chief Executive Officer), Brian Mitts (Chief Financial Officer), Matthew McGraner (Chief Investment Officer), Jesse Blair III (Executive Vice President, Head of Lodging) and Paul Richards (Vice President, Asset Management) is paid by the Advisor or its affiliates, and there is no reimbursement by NHT for such compensation. Messrs. Dondero, Mitts, McGraner, Blair and Richards act in a variety of capacities for the Advisor and their respective affiliates, and NHT, and accordingly, the total compensation that each such individual receives from the Advisor is not disclosed in this table, since total compensation is not solely attributable to the services that he will provide to NHT. The allocation of the total compensation disclosed in this table was determined by the Advisor solely for the purposes of this table, based on the time spent by each such individual in connection with NHT-related services during fiscal 2022 and 2021.

(2) The Board may fix a maximum portion of the Trustee Fees payable to the independent Trustees to be paid in the form of Deferred Units in lieu of cash, subject to the election of the independent Trustees. The trustee fees payable to Mr. Labatte in respect of fiscal 2020 and 2019

were $93,000 and $47,250 respectively. Mr. Labatte elected to receive such fees in the form of Deferred Units. The Board, on the recommendation of the Compensation, Governance and Nominating Committee matched 100% of the total value of Trustee Fees that Mr. Labatte elected to receive in the form of Deferred Units. Due to various blackout periods observed by NHT, the Deferred Units awardable in respect of the Trustee Fees were awarded on June 28, 2021. On December 13, 2021, in consideration of Mr. Labatte's service and performance during the COVID-19 pandemic, and to encourage Mr. Labatte to participate in the future growth of the REIT, Mr. Labatte was granted 105,000 Deferred Units which vested immediately. In respect of fiscal 2021, the total value of Trustee Fees payable to Mr. Labatte was $88,500, of which $56,250 was paid in cash and the remaining $32,250 was to be paid in Deferred Units. In respect of fiscal 2022 and fiscal 2023 (as of June 30, 2023), $90,750 and $50,000 of Trustee Fees were payable to Mr. Labatte. Mr. Labatte elected to receive such fees in the form of Deferred Units. Due to various blackout periods observed by NHT and certain restrictions on granting security based compensation to insiders pursuant to TSXV Policy 4.4, on September 11, 2023, the REIT conditionally granted 692,000 Deferred Units to Mr. Labatte in respect of his remaining portion of 2021 Trustee Fees, 2022 Trustee Fees and 2023 Trustee Fees (accrued as of June 30, 2023). The Board, on the recommendation of the Compensation, Governance and Nominating Committee, matched 100% of the total value of Trustee Fees that Mr. Labatte elected to receive in the form of Deferred Units. As of the date hereof, Mr. Labatte holds 972,312 Deferred Units

(3) The Board may fix a maximum portion of the Trustee Fees payable to the independent Trustees to be paid in the form of Deferred Units in lieu of cash, subject to the election of the independent Trustees. The Trustee Fees payable to Mr. Senst in respect of fiscal 2020 and 2019 were $88,000 and $43,500 respectively. Mr. Senst elected to receive such fees in the form of Deferred Units. The Board, on the recommendation of the Compensation, Governance and Nominating Committee matched 100% of the total value of Trustee Fees that Mr. Senst elected to receive in the form of Deferred Units. Due to various blackout periods observed by NHT, the Deferred Units awardable in respect of the Trustee Fees were awarded on June 28, 2021. On December 13, 2021, in consideration of Mr. Senst's service and performance during the COVID-19 pandemic, and to encourage Mr. Senst to participate in the future growth of the REIT, Mr. Senst was granted 105,000 Deferred Units which vested immediately. In respect of fiscal 2021, the total value of Trustee Fees payable to Mr. Senst was $83,500, of which $53,333 was paid in cash and the remaining $30,167 was to be paid in Deferred Units. In respect of fiscal 2022 and fiscal 2023 (as of June 30, 2023), $70,750 and $37,500 of Trustee Fees were payable to Mr. Senst. Mr. Senst elected to receive his 2022 Trustee Fees in the form of Deferred Units, and his accrued 2023 Trustee Fees (as of June 30, 2023) in cash. Due to various blackout periods observed by NHT and certain restrictions on granting security based compensation to insiders pursuant to TSXV Policy 4.4, on September 11, 2023, the REIT conditionally granted 403,668 Deferred Units to Mr. Senst in respect of his remaining portion of 2021 Trustee Fees and 2022 Trustee Fees. The Board, on the recommendation of the Compensation, Governance and Nominating Committee, matched 100% of the total value of Trustee Fees that Mr. Senst elected to receive in the form of Deferred Units. As of the date hereof, Mr. Senst holds 673,043 Deferred Units.

(4) Mr. Patava was appointed to the Board on August 31, 2022. The Board may fix a maximum portion of the Trustee Fees payable to the independent Trustees to be paid in the form of Deferred Units in lieu of cash, subject to the election of the independent Trustees. The Trustee Fees payable to Mr. Patava in respect of fiscal 2022 and fiscal 2023 (as of June 30, 2023) is US$20,000 and US$30,000 respectively. Mr. Patava elected to receive such fees in the form of Deferred Units. The Board, on the recommendation of the Compensation, Governance and Nominating Committee matched 100% of the total value of Trustee Fees that Mr. Patava elected to receive in the form of Deferred Units. Due to various blackout periods observed by NHT and certain restrictions on granting security based compensation to insiders pursuant to TSXV Policy 4.4, on September 11, 2023, the REIT conditionally granted 200,000 Deferred Units to Mr. Patava in respect of his remaining portion of his 2022 Trustee Fees and 2023 Trustee Fees (accrued as of June 30, 2023). The Board, on the recommendation of the Compensation, Governance and Nominating Committee, matched 100% of the total value of Trustee Fees that Mr. Patava elected to receive in the form of Deferred Units. As of the date hereof, Mr. Patava holds 200,000 Deferred Units.

Advisory and Management Agreements

Advisory Agreement

Pursuant to the Advisory Agreement, subject to the overall supervision of the Board, the Advisor manages the day-to-day operations of, and provides investment management services to NHT. As consideration for the Advisor's services, NHT pays to the Advisor an Advisory Fee at an annualized rate of 1.00% of REIT Asset Value (as defined therein), less certain fee waivers and adjustments, together with reimbursement of certain general and administrative expenses. The Advisory Agreement has an initial term of two years. Following the initial term, the Advisory Agreement will continue in full force and effect, subject to early termination, so long as such continuance is approved at least annually by (i) the board of managers of NHH, and (ii) either (a) the Board or (b) a vote of the Unitholders.

On April 29, 2020, in light of developments related to the outbreak of COVID-19 and corresponding impact on the hospitality industry, the Advisor agreed to waive the Advisory Fee and certain expenses provided for in the Advisory Agreement until operations of NHT and NHH stabilized. On November 25, 2020, the Advisor reinstated the Advisory Fee, however, the Advisor agreed to defer payment of the Advisory Fee until NHT is cash flow positive and can sustain the payments. The Advisor did not collect any fees for the year ended December 31, 2022. However, in August 2023, the REIT commenced repayment of a portion of the accrued Advisory Fees.

Hotel Management Agreements

NHT's hotel properties are operated pursuant to hotel management agreements (the "**Hotel Management Agreements**") between the affiliates of Aimbridge Hospitality Holdings, LLC (collectively, the "**Manager**"), a professional third-party hotel management company, and the taxable subsidiaries of NHT ("**TRS Entities**") that lease the properties from the OP and its subsidiaries. The Hotel Management Agreements require the TRS Entities to pay a base fee to the Manager calculated as a percentage of hotel revenues generated by the hotel operations. In addition, the Hotel Management Agreements sometimes provide that the Manager can earn an incentive fee for meeting certain performance metrics. Neither NHT nor any of its affiliates has any ownership or economic interest in the Manager engaged by the TRS Entities.

GOVERNANCE PRACTICES

A summary of the responsibilities and activities and the membership of each of NHT's Board committees is set out below. National Policy 58-201 – *Corporate Governance Guidelines* establishes corporate governance guidelines that apply to all public companies. NHT has reviewed its own corporate governance practices in light of these guidelines. In certain cases, NHT's practices comply with the guidelines, however, the Board considers that some of the guidelines are not suitable for NHT at its current stage of development and, therefore, these guidelines have not been adopted. The Board is committed to sound corporate governance practices in the interest of its Unitholders. NHT will continue to review and implement corporate governance guidelines as the business of NHT progresses.

In accordance with the corporate governance guidelines set out under National Instrument 58-101 – *Disclosure of Corporate Governance Practices* ("**NI 58-101**"), the following is a summary of the governance practices of NHT.

Composition of Board of Trustees and Independence

The Board is comprised of four Trustees, a majority of whom are independent Canadian residents. Pursuant to NI 58-101, an independent Trustee is one who is free from any direct or indirect relationship which could, in the view of the Board, be reasonably expected to interfere with a Trustee's independent judgment. NHT has determined that Neil Labatte (Lead Trustee), Graham Senst and Jerry Patava are independent under NI 58-101, and that James Dondero, NHT's Chief Executive Officer, is not independent. All of the trusteeships and directorships of the Trustees with other public entities are disclosed in the biographical information for each Trustee set out under "*Matters to be Considered at the Meeting – 2. Election of Trustees*".

The independent Trustees hold *in-camera* sessions at the conclusion of each regularly scheduled Board and committee meeting. The Lead Trustee of the Board conducts the *in-camera* sessions of the Board and the Chair of each committee conducts the *in-camera* sessions of its committee, as applicable, without management or the other non-independent Trustees present.

Nomination of Trustees

Other than the NexPoint Holders' nominees nominated pursuant to the Investor Rights Agreement, all Board nominees are nominated by the Compensation, Governance and Nominating Committee, who make such nominations after considering the mix of skills and experience it believes are necessary to further NHT's goals. The written charter of the Compensation, Governance and Nominating Committee sets out the committee's responsibilities with respect to nominating Board member candidates, which include to: (i) review annually the competencies, skills and personal qualities of the Board, in light of current and expected future needs; (ii) seek individuals qualified (in the context of the needs of NHT) to become members of the Board; (iii) review and recommend to the Board, the membership and allocation of Board members to the various committees of the Board; and (iv) consider the level of diversity on the Board.

The Compensation, Governance and Nominating Committee will seek prospective candidates who are independent, have recognized functional and industry experience, sound business judgement, high ethical standards, time to

devote to the Board and the ability to contribute to the Board's diversity (with respect to gender, experience, geography, ethnicity and age).

Trustees elected at an annual meeting are elected for a term expiring at the close of the subsequent annual meeting and are eligible for re-election. Trustees appointed by the Trustees between meetings of Unitholders in accordance with the Declaration of Trust are appointed for a term expiring at the close of the next annual meeting and are eligible for election or re-election, as the case may be.

Effective August 31, 2022, upon recommendation of the Compensation, Governance and Nominating Committee, after considering the benefits of a larger Board with new skillsets and experiences, the Board approved the appointment of Jerry Patava as Trustee. Mr. Patava's extensive experience in the hospitality industry and in public company governance will significantly contribute to the Board.

Term Limits

NHT does not impose term limits on its Trustees, as it takes the view that term limits are an arbitrary mechanism for removing Trustees that can result in valuable, experienced Trustees being forced to leave the Board solely because of length of service. NHT is committed to ensuring that its Board is comprised of individuals with appropriate skill sets.

Board Mandate

The mandate of NHT's Board is one of stewardship and oversight of NHT and its business. In fulfilling its mandate, the Board has adopted a written charter setting out its responsibility for, among other things, (i) participating in the development of and approving a strategic plan for NHT; (ii) supervising the activities and managing the investments and affairs of NHT; (iii) approving major decisions regarding NHT; (iv) defining the roles and responsibilities of management; (v) reviewing and approving the business and investment objectives to be met by management; (vi) assessing the performance of and overseeing management; (vii) reviewing NHT's debt strategy; (viii) identifying and managing risk exposure; (ix) ensuring the integrity and adequacy of NHT's internal controls and management information systems; (x) succession planning; (xi) establishing committees of the Board, where required or prudent, and defining their mandate; (xii) maintaining records and providing reports to Unitholders; (xiii) ensuring effective and adequate communication with Unitholders, other stakeholders and the public; (xiv) determining the amount and timing of distributions to Unitholders; and (xv) acting for, voting on behalf of and representing NHT as a holder of interests of certain of its subsidiaries. A copy of the Board's written charter is attached to this Information Circular as Appendix "E".

Position Descriptions

Chair of the Board, Lead Trustee and Committee Chairs

The Board has adopted a written position description for the Chair of the Board and the Lead Trustee (for instances where the Chair of the Board is not independent within the meaning of NI 58-101), which sets out the Chair's and the Lead Trustee's key responsibilities, including, as applicable, duties relating to setting Board meeting agendas, chairing Board and Unitholder meetings, Trustee development and communicating with Unitholders and regulators. The Board has also adopted a written position description for each of the committee chairs which sets out each of the committee chair's key responsibilities, including duties relating to setting committee meeting agendas, chairing committee meetings and working with the respective committee members and management to ensure, to the greatest extent possible, the effective functioning of the committee.

Chief Executive Officer

The Board has adopted a written position description and mandate for the Chief Executive Officer of NHT which sets out the key responsibilities of the Chief Executive Officer. The primary functions of the Chief Executive Officer are to

lead management of the business and affairs of NHT, to lead the implementation of the resolutions and the policies of the Board and to communicate with Unitholders and regulators.

Orientation and Continuing Education

New Trustees

When new Trustees are elected to the Board, they can be expected to participate in an orientation program. The orientation program will familiarize new Trustees with NHT's business and operations, including structure, operations, and risks. They will be briefed on the role of the Board, its committees and the contributions individual Trustees are expected to make. New Trustees can also be expected to receive an orientation package containing all committee mandates and charters, copies of NHT's policies and other background information on NHT's business, operations and risks.

Continuing Education

NHT's continuing education program for its Trustees involves the ongoing evaluation by the Compensation, Governance and Nominating Committee of the skills and competencies of existing Trustees. The Board is currently comprised of highly qualified and experienced Trustees with impressive levels of skill and knowledge. The Trustees are seasoned business executives, directors or professionals with considerable experience, including as directors or trustees of other public companies. The Compensation, Governance and Nominating Committee continually monitors the composition of the Board and will recommend the adoption of a formal continuing education program should it be determined to be necessary.

Ethical Business Conduct

NHT has adopted a written code of business conduct and ethics (the "**Code of Conduct**") that applies to all Trustees, officers, and management of NHT and its subsidiaries. The objective of the Code of Conduct is to provide guidelines for maintaining the integrity, reputation, honesty, objectivity and impartiality of NHT and its subsidiaries. The Code of Conduct addresses compliance with laws, rules and regulations, conflicts of interest, corporate opportunities, protecting NHT's assets, confidentiality, information protection, competition and fair dealing with securityholders, gifts and entertainment, payments to government personnel, lobbying, discrimination and harassment, health and safety, accuracy of records and reporting and use of e-mail and Internet services. As part of the Code of Conduct, any person subject to the Code of Conduct is required to avoid or fully disclose interests or relationships that are harmful or detrimental to NHT's best interests or that may give rise to real, potential, or the appearance of, conflicts of interest. The Board has the ultimate responsibility for the stewardship of the Code of Conduct.

In order to ensure compliance with the Code of Conduct, NHT personnel are encouraged to talk to supervisors, managers or other appropriate personnel about observed illegal or unethical behavior and when in doubt about the best course of action in a particular situation. Employees may report violations of the Code of Conduct anonymously. It is the policy of NHT not to allow retaliation for reports of misconduct by others made in good faith. It is, at the same time, unacceptable to file a report knowing it is false.

Board Committees

The Board has established two committees: the Audit Committee and the Compensation, Governance and Nominating Committee.

Audit Committee

The Audit Committee consists of four Trustees, all of whom are persons determined by NHT to be financially literate within the meaning of National Instrument 52-110 – *Audit Committees* ("**NI 52-110**"), and a majority of whom are persons determined by NHT to be Independent Trustees within the meaning of NI 52-110.

The Audit Committee is currently comprised of Graham Senst (Chair), Neil Labatte, Jerry Patava and James Dondero. Mr. Senst, Mr. Labatte and Mr. Patava have been determined by NHT to be independent and are residents of Canada. Each of the Audit Committee members has an understanding of the accounting principles used to prepare financial statements and varied experience as to the general application of such accounting principles, as well as an understanding of the internal controls and procedures necessary for financial reporting. For details regarding the relevant education and experience of each member of the Audit Committee, see "*Matters to be Considered at the Meeting – 2. Election of Trustees*".

The Board has adopted a written charter for the Audit Committee, which sets out the Audit Committee's responsibilities. A copy of the Audit Committee's written charter is attached to this Information Circular as Appendix "F". The Audit Committee has direct communication channels with the Chief Financial Officer and the external auditors of NHT to discuss and review such issues as the Audit Committee may deem appropriate.

Part 6 of NI 52-110 exempts issuers listed on the TSXV from the requirements of Parts 3 (Composition of the Audit Committee) and 5 (Reporting Obligations) of NI-52-110. As a result, all of the members of the Committee are not required to be independent within the meaning of NI 52-110; however, NHT is required to provide on an annual basis, the disclosure regarding its Audit Committee made in this Information Circular.

Audit Committee Oversight

At no time since the commencement of NHT's most recently completed financial year was a recommendation of the Audit Committee to nominate or compensate an external auditor not adopted by the Board.

Reliance on Certain Exemptions

At no time since the commencement of NHT's most recently completely financial year has NHT relied on the exemption in section 2.4 of NI 52-110 (De Minimis Non-Audit Services), or an exemption from NI 52-110, in whole or in part, granted under Part 8 of NI 52-110.

Pre-approval Policies and Procedures

The Audit Committee has adopted specific policies and procedures for the engagement of non-audit services as described in the Audit Committee's written charter.

External Auditor Service Fees (By Category)

The aggregate fees billed by NHT's external auditors in the last two fiscal years for audit fees are as follows:

Financial Year Ending	Audit Fee	Audit Related Fees	Tax Fees	All Other Fees
2022	$284,000	$0	$172,200	$0
2021	$298,000	$0	$162,769	$0

Compensation, Governance and Nominating Committee

The Compensation, Governance and Nominating Committee must be comprised of at least three Trustees, a majority of whom must be persons determined by the Board to be independent Trustees and a majority of whom must be residents of Canada. The Compensation, Governance and Nominating Committee is charged with reviewing, overseeing and evaluating the compensation, corporate governance and nominating policies of NHT. The Compensation, Governance and Nominating Committee is currently comprised of Neil Labatte (Chair), Graham Senst, Jerry Patava and James Dondero. Mr. Senst, Mr. Labatte and Mr. Patava have been determined by NHT to be independent within the meaning of NI 52-110 and are residents of Canada.

INDEBTEDNESS OF TRUSTEES AND OFFICERS

None of the Trustees, executive officers, employees, former executive officers or former employees of NHT or any of its subsidiaries, and none of their respective associates, is or has at any time since the beginning of the most recently completed financial year been indebted to NHT or any of its subsidiaries or another entity whose indebtedness is the subject of a guarantee, support agreement, letter of credit or other similar agreement or understanding provided by NHT or any of its subsidiaries.

INTERESTS OF CERTAIN PERSONS OR COMPANIES IN MATTERS TO BE ACTED UPON

Other than as disclosed herein, none of the Trustees or executive officers of NHT who have been a Trustee or executive officer at any time since the beginning of NHT's last financial year, none of the proposed nominees for election as Trustees of NHT, and no associate or affiliate of any of the foregoing, has any material interest, direct or indirect, by way of beneficial ownership of securities or otherwise, in any matter to be acted upon at the Meeting.

INTEREST OF INFORMED PERSONS IN MATERIAL TRANSACTIONS

Other than as set forth in this Information Circular and below, to the knowledge of the Trustees of NHT, no informed person (as defined in National Instrument 51-102 – *Continuous Disclosure Obligations*) of NHT, no proposed Trustee of NHT and no known associate or affiliate of any such informed person or proposed Trustee, since the commencement of the year ended December 31, 2022, has or has had any material interest, direct or indirect, by way of beneficial ownership of securities or otherwise, in any transaction which has or would materially affect NHT or any of its subsidiaries.

In connection with NHT's initial public offering, NHT acquired its portfolio of 11 hotel properties, in part, from certain principals and affiliates of the Advisor, including James Dondero (the "**Initial Contribution**"). Details of the Initial Contribution are set forth in NHT's final initial public offering prospectus dated March 27, 2019 available on the SEDAR website at www.sedarplus.ca.

On March 29, 2019, NHT entered into the Advisory Agreement with the Advisor, an entity affiliated with certain named executive officers, including James Dondero. The Advisory Agreement is available on the SEDAR website at www.sedarplus.ca.

NexPoint Real Estate Opportunities LLC ("**NREO**"), an entity indirectly controlled by James Dondero, loaned NHT an aggregate of $2,643,000 evidenced by two promissory notes dated as of January 8, 2019 and one promissory note dated as of May 6, 2019 for general working capital purposes (the "**Advance**"). The Advance carried an interest rate of 2.06% per annum and matured on January 8, 2020.

On December 27, 2019, NREO, redeemed 13,370,573 Class B Units and received 13,370,573 Units as consideration (the "**Redemption**"). Following the Redemption, NREO distributed 13,370,573 Units as a dividend to NexPoint Strategic Opportunities Fund, an entity indirectly controlled by James Dondero. The early warning report related to the Redemption is available on the SEDAR website at www.sedarplus.ca.

On February 10, 2020, NHT completed a non-brokered private placement offering, pursuant to which certain existing unitholders of NHT purchased an aggregate of 850,705 Units (the "**Private Placement**") for aggregate gross proceeds of $4,253,525. Certain subscribers in the Private Placement are directly or indirectly controlled by certain named executive officers, including James Dondero and Jesse Blair. A news release containing the particulars of the Private Placement is available on the SEDAR website at www.sedarplus.ca.

On October 14, 2020, NHT entered into an indemnification agreement with, *inter alia*, the Advisor pursuant to which the Advisor or funds advised by it or its affiliates agreed to fully fund two settlement payments totaling $4,750,000 (the "**Settlement Payments**") and indemnify NHT and its subsidiaries for any losses incurred in relation to the settlement agreement executed on October 14, 2020 with Condor Hospitality Trust Inc. ("**Condor**") following Condor's termination of the parties' previously announced merger agreement. In exchange for funding the

Settlement Payments, a subsidiary of NHT agreed to issue $4,750,000 principal amount of promissory notes to the entities funding the Settlement Payments.

On March 30, 2020, NHT announced that one of its subsidiaries had, between November 2020 and January 2021, issued convertible notes (the "**Notes**") in the aggregate principal amount of US$5.4 million to an affiliate of NHT's Advisor for general working capital purposes. The Advisor is affiliated with certain named executive officers, including James Dondero. The Notes carry an interest rate of 2.25% per annum, and are convertible into Class B Units at the option of the noteholder in its sole discretion. Any conversion of the Notes is subject to any required approval of the TSXV.

Between June 2021 and September 2022, the REIT received 32 loans from entities controlled or managed by James Dondero in the aggregate amount of US$56,165,000 (the "**COVID Loans**"). The TSXV has requested that the REIT make certain amendments to the COVID loans. See "*Matters to be Considered at the Meeting – 6. Approval of Amendments to COVID Loans*" for a description of the COVID Loans.

OTHER BUSINESS

The Trustees are not aware of any matters intended to come before the Meeting other than those items of business set forth in the Notice of Meeting accompanying this Information Circular. If any other matters properly come before the Meeting, it is the intention of the persons named in the Form of Proxy and voting instruction form to vote in respect of those matters in accordance with their judgment.

ADDITIONAL INFORMATION

Financial information is provided in NHT's financial statements and NHT's MD&A for the year ended December 31, 2022. Copies of NHT's financial statements for the year ended December 31, 2022, together with the auditors' report thereon, the MD&A and this Information Circular are available upon written request to NHT (at NexPoint Hospitality Trust 300 Crescent Court, Suite 700, Dallas, Texas 75201 USA, Attention: Brian Mitts, Chief Financial Officer). NHT may require payment of a reasonable charge if the request is made by a person who is not a Unitholder. These documents and additional information relating to NHT may also be found on the SEDAR website at www.sedarplus.ca and on NHT's website at www.nexpointhospitality.com.

APPROVAL OF TRUSTEES

The foregoing contains no untrue statement of a material fact and does not omit to state a material fact that is required to be stated or that is necessary to make a statement not misleading in light of the circumstances in which it was made.

The contents of this Information Circular and its distribution to Unitholders have been approved by the Board of Trustees.

BY ORDER OF THE BOARD OF TRUSTEES

Dated: September 11, 2023

"James Dondero"

Chair of the Board
NexPoint Hospitality Trust

APPENDIX "A"
RESOLUTION REGARDING APPROVAL OF AMENDED AND RESTATED DEFERRED UNIT PLAN

BE IT RESOLVED THAT:

1. The Amended and Restated Deferred Unit Plan of the REIT, in the form substantially set forth in Appendix "B" to the REIT's Information Circular dated September 11, 2023, is hereby confirmed, ratified and approved.

2. Any one or more trustees or officers of the REIT are hereby authorized and directed to execute, deliver, register and file in the name and on behalf of the REIT, any certificates, instruments, agreements, notices, affidavits, supporting material and other documents, and to obtain any required consents, approvals and to do any other acts and things as in the opinion of such person(s) may be necessary or desirable to give full effect to the above resolutions, to facilitate all matters relating to those resolution and to allow the execution and delivery of any and all such other agreements, documents and instruments and the performance or causing the performance of any and all such other acts and things to be conclusive evidence of such determination.

APPENDIX "B"
AMENDED AND RESTATED DEFERRED UNIT PLAN

NEXPOINT HOSPITALITY TRUST

AMENDED AND RESTATED DEFERRED UNIT PLAN

September 11, 2023

NEXPOINT HOSPITALITY TRUST
AMENDED AND RESTATED DEFERRED UNIT PLAN

ARTICLE 1
PURPOSE

1.01 The purpose of this Plan is to advance the interests of NexPoint Hospitality Trust (the "**REIT**") by enhancing the ability of the REIT and any of its Subsidiaries to attract, motivate and retain Trustees of the REIT to reward such persons for their sustained contributions and to encourage such persons to take into account the long-term corporate performance of the REIT.

1.02 This Plan amends and restates the Deferred Unit Plan of the REIT dated June 30, 2022.

ARTICLE 2
DEFINITIONS

The following terms used in this Plan have the meanings set out below:

(a) "**Additional Deferred Units**" has the meaning ascribed thereto in Section 8.03;

(b) "**Advisor**" means NexPoint Real Estate Advisors VI, L.P., or any subsequent external advisor to the REIT hired to perform similar services;

(c) "**Affiliate**" has the meaning given to such term in the TSXV Corporate Finance Manual, as such manual may be amended, supplemented or replaced from time to time;

(d) "**Applicable Withholding Taxes**" means any and all taxes and other source deductions or other amounts that the REIT or a Subsidiary is required by law to withhold from any amounts to be paid or credited under the Plan;

(e) "**Average Market Price**" at any date in respect of the Units shall be the volume weighted average price of the Units on the TSXV, for the five trading days immediately preceding such date (or, if such Units are not then listed and posted for trading on the TSXV, on such stock exchange on which the Units are listed and posted for trading as may be selected for such purpose by the Board); provided that, for so long as the Units are listed and posted for trading on the TSXV, the Average Market Price shall not be less than the market price, as calculated under the policies of the TSXV and provided, further, that with respect to a Deferred Unit issued to a U.S. taxpayer, such Participant and the number of Units subject to such issuance shall be identified by the Board prior to the start of the applicable five trading day period. In the event that such Units are not then listed and posted for trading on any Exchange, the Average Market Price shall be the fair market value of such Units as determined by the Board in its sole discretion and, with respect to an Award made to a U.S. taxpayer, in accordance with Section 409A of the Code. In no event shall the Average Market Price be less than the Discounted Market Price (as such term is defined in the TSXV Corporate Finance Manual, as such manual may be amended, supplemented or replaced from time to time);

(f) "**Award Date**" means the date upon which the Deferred Units are granted;

(g) "**Board**" means the Board of Trustees of the REIT;

(h) "**Business Day**" means a day on which there is trading on the TSXV or such other stock exchange on which the Units are then listed and posted for trading, and if none, a day that is not Saturday or Sunday or a national legal holiday in Ontario;

(i) "**Change in Control**" means the occurrence of any one or more of the following events:

(i) any transaction at any time and by whatever means, whether or not the REIT is a party thereto, pursuant to which any Person or any group of two or more Persons acting jointly or in concert (other than the REIT or a wholly-owned Subsidiary) hereafter acquires the direct or indirect "beneficial ownership" (as defined in the *Securities Act* (Ontario)) of, or acquires the right to exercise Control or direction over, securities of the REIT representing more than 50% of the then issued and outstanding voting securities of the REIT, including, without limitation, as a result of a take-over bid, an exchange of securities, an amalgamation of the REIT with any other entity, an arrangement, a capital reorganization or any other business combination or reorganization;

(ii) the sale, assignment or other transfer of all or substantially all of the consolidated assets of the REIT to a Person other than a wholly-owned Subsidiary or subsidiary of NHT Operating Partnership, LLC;

(iii) the approval by the REIT's unitholders of a complete dissolution or liquidation of the REIT, other than in connection with the distribution of assets of the REIT to one or more Persons which were wholly-owned Subsidiaries prior to such event;

(iv) the occurrence of a transaction requiring approval of the REIT's unitholders whereby the REIT is acquired through consolidation, merger, exchange of securities, purchase of assets, amalgamation, statutory arrangement or otherwise by any other Person (other than a short form amalgamation or exchange of securities with a wholly-owned Subsidiary); or

(v) individuals who comprise the Board as of the last annual meeting of unitholders of the REIT (the "**Incumbent Board**") for any reason ceasing to constitute at least a majority of the members of the Board, unless the election, or nomination for election by the REIT's unitholders, of any new trustee was approved by a vote of at least a majority of the Incumbent Board, and in that case such new trustee shall be considered as a member of the Incumbent Board;

provided that, notwithstanding clauses (i), (ii), (iii) and (iv) above, a Change in Control shall be deemed not to have occurred pursuant to clauses (i), (ii), (iii) and

(iv) above if immediately following the transaction set forth in clause (i), (ii), (iii) and (iv) above: (A) the holders of securities of the REIT that immediately prior to the consummation of such transaction represented more than 50% of the combined voting power of the then outstanding securities eligible to vote for the election of trustees of the REIT hold (x) securities of the entity resulting from such transaction (including, for greater certainty, the Person succeeding to assets of the REIT in a transaction contemplated in clause (ii) above) (the "**Surviving Entity**") that represent more than 50% of the combined voting power of the then outstanding securities eligible to vote for the election of directors or trustees of the Surviving Entity, or (y) if applicable, securities of the entity that directly or indirectly has beneficial ownership of 100% of the securities eligible to elect directors or trustees of the Surviving Entity (the "**Parent Entity**") that represent more than 50% of the combined voting power of the then outstanding securities eligible to vote for the election of directors or trustees of the Parent Entity, and (B) no Person or group of two or more Persons, acting jointly or in concert, is the beneficial owner, directly or indirectly, of more than 50% of the voting power of the Parent Entity (or, if there is no Parent Entity, the Surviving Entity) (any such transaction which satisfies all of the criteria specified in clauses (A) and (B) above being referred to as a "**Non-Qualifying Transaction**" and, following the Non-Qualifying Transaction, references in this definition of "Change in Control" to the "REIT" shall mean and refer to the Parent Entity (or, if there is no Parent Entity, the Surviving Entity) and, if such entity is a company or a trust, references to the "Board" shall mean and refer to the board of directors or trustees, as applicable, of such entity).

Notwithstanding the foregoing, for purposes of any Deferred Unit that constitutes "deferred compensation" (within the meaning of Section 409A of the Code), the payment of which would be accelerated upon a Change in Control, a transaction will not be deemed a Change in Control for Awards granted to any Participant who is a U.S. taxpayer unless the transaction qualifies as "a change in control event" within the meaning of Section 409A of the Code;

(j) "**Control**" means:

(i) when applied to the relationship between a Person and a corporation, the beneficial ownership by that Person, directly or indirectly, of voting securities or other interests in such corporation entitling the holder to exercise control and direction in fact over the activities of such corporation;

(ii) when applied to the relationship between a Person and a partnership, limited partnership, trust or joint venture, means the contractual right to direct the affairs of the partnership, limited partnership, trust or joint venture; and

(iii) when applied in relation to a trust, the beneficial ownership at the relevant time of more than 50% of the property settled under the trust, and

the words "**Controlled by**", "**Controlling**" and similar words have corresponding meanings; provided that a Person who controls a corporation, partnership, limited partnership or joint venture will be deemed to Control a corporation, partnership,

limited partnership, trust or joint venture which is Controlled by such Person and so on;

(k) "**Code**" shall mean the *United States Internal Revenue Code* of 1986, as amended from time to time and any successor thereto;

(l) "**Compensation Committee**" means the Compensation, Governance and Nominating Committee of the Board;

(m) "**Deferred Unit**" means a bookkeeping entry, equivalent in value to a Unit, credited to a Participant's Deferred Unit Account in accordance with the terms and conditions of the Plan and for greater certainty consists of both Granted DUs and Elected DUs;

(n) "**Deferred Unit Account**" has the meaning ascribed thereto in Section 8.02;

(o) "**Elected Amount**" means such portion of the Trustee Fees as an Electing Person elects to receive in Elected DUs;

(p) "**Elected DUs**" has the meaning ascribed thereto in Section 6.01;

(q) "**Electing Person**" has the meaning ascribed thereto in Section 6.02;

(r) "**Election Notice**" has the meaning ascribed thereto in Section 6.02;

(s) "**Exchange**" means the TSXV and any other exchange on which the Units are or may be listed from time to time;

(t) "**Granted DUs**" has the meaning ascribed thereto in Section 5.02;

(u) "**Insider**" has the meaning given to such term in the TSXV Corporate Finance Manual, as such manual may be amended, supplemented or replaced from time to time;

(v) "**Officer**" means an executive or senior management employee of the REIT or any of its Subsidiaries;

(w) "**Participant**" has the meaning ascribed thereto in Section 5.01;

(x) "**Person**" means an individual, sole proprietorship, partnership, unincorporated association, unincorporated syndicate, unincorporated organization, trust, body corporate, and a natural person in his or her capacity as trustee, executor, administrator or other legal representative;

(y) "**Plan**" means this Amended and Restated Deferred Unit Plan;

(z) "**Redemption Date**" has the meaning ascribed thereto in Section 10.02;

(aa) "**REIT**" has the meaning ascribed thereto in Article 1;

(bb) "**RTO**" has the meaning ascribed thereto in the TSXV Corporate Finance Manual.

(cc) "**Security Based Compensation Arrangement**" means an option, option plan, employee unit purchase plan, long-term incentive plan or any other compensation or incentive mechanism involving the issuance or potential issuance of Units to one or more directors, Trustees or Officers of the REIT or any Subsidiary, current or past full-time or part-time employees of the REIT or any Subsidiary, Insiders or service providers or consultants of the REIT or any Subsidiary including a Unit purchase from treasury by one or more Trustees, Officers, directors or officers of any Subsidiary, current or past full-time or part-time employees of the REIT or any Subsidiary, Insiders or service providers or consultants of the REIT or any Subsidiary which is financially assisted by the REIT or any Subsidiary by way of a loan, guarantee or otherwise;

(dd) "**Section 409A of the Code**" shall mean Section 409A of the Code, the U.S. Treasury Regulations promulgated thereunder as in effect from time to time, and related guidance as may be amended from time to time;

(ee) "**Separation from Service**" shall have the meaning given to such phrase in U.S. Treasury Regulation § 1.409A-1(h);

(ff) "**Subsidiary**" means any entity Controlled by the REIT;

(gg) "**Trustee**" means a non-employee trustee of the REIT, which for the purposes of determining Participants under the Plan, shall exclude James Dondero, Chief Executive Officer of the REIT;

(hh) "**Trustee Fees**" means the annual cash retainer (including fees for serving as Chair of the Board or a committee of the Board) and meeting fees payable by the REIT to a Trustee in a calendar year for service on the Board;

(ii) "**TSXV**" means the TSX Venture Exchange;

(jj) "**Unit**" means a trust unit of the REIT; and

(kk) "**Unitholder**" means a holder of Units.

ARTICLE 3
CONSTRUCTION AND INTERPRETATION

3.01 The effective date of the Plan is August [●], 2023. The Plan shall be governed and interpreted in accordance with the laws of the Province of Ontario and the laws of Canada applicable therein.

3.02 If any provision of the Plan or part hereof is determined to be void or unenforceable in whole or in part, such determination shall not affect the validity or enforcement of any other provision or part hereof.

3.03 In the Plan, references to any gender include all genders; reference to the singular shall include the plural and vice versa, as the context shall require.

3.04 Headings wherever used herein are for reference purposes only and do not limit or extend the meaning of the provisions herein contained.

ARTICLE 4
ADMINISTRATION

4.01 The Plan shall be administered by the Board and Compensation Committee.

4.02 The Compensation Committee is authorized, subject to the provisions of the Plan, to establish such rules and regulations as it deems necessary for the proper administration of the Plan, and to make determinations and take such other action in connection with or in relation to the Plan as it deems necessary or advisable. Each determination or action made or taken pursuant to the Plan, including interpretation of the Plan, shall be final and conclusive for all purposes and binding on all parties, absent manifest error.

4.03 The REIT will be responsible for all costs relating to the administration of the Plan.

4.04 The Compensation Committee may review and confirm the terms of the Plan from time to time and the Board may, upon recommendation of the Compensation Committee and subject to applicable stock exchange rules, amend or suspend the Plan in whole or in part as well as terminate the Plan without prior notice as it deems appropriate; provided, however, that any amendment to the Plan including an amendment that would increase the maximum amount of $200,000 referred to in Section 11.04, result in any increase in the number of Deferred Units issuable under the Plan will be subject to the approval of Unitholders.

Notwithstanding the foregoing and for greater certainty, the Board may at any time and from time to time, without Unitholder approval, amend any provision of the Plan, including, without limitation:

(a) for the purpose of making formal, minor or technical modifications to any of the provisions of the Plan, including amendments of a “housekeeping” nature;

(b) to correct any ambiguity, defective provision, error or omission in the provisions of the Plan;

(c) to amend the vesting provisions of the Deferred Units, except for decreasing the vesting term of Granted DUs to less than one year from the Award Date; or

(d) any other amendment that does not require unitholder approval under applicable laws or the rules of the TSXV;

provided, however, that no such act shall diminish any rights accrued in respect of grants of Deferred Units made prior to the effective date of such amendment.

If the Compensation Committee terminates the Plan, Deferred Units previously credited to Participants shall remain outstanding and in effect and shall be settled subject to and in accordance with the applicable terms and conditions of the Plan in effect immediately prior to the termination.

4.05 Unless otherwise determined by the Compensation Committee, the Plan shall remain an unfunded obligation of the REIT and the rights of Participants under the Plan shall be general unsecured obligations of the REIT.

4.06 A Participant shall be solely responsible for all federal, provincial, state and local taxes resulting from his or her participation in the Plan. In this regard, the REIT shall be able to deduct from any payments hereunder (whether in the form of securities or cash) or from any other remuneration otherwise payable to a Participant any Applicable Withholding Taxes or to require the Participant, as a condition to receiving entitlements under the Plan, to make arrangements satisfactory to the REIT to enable the REIT to satisfy its withholding obligations. Each Participant agrees to indemnify and save the REIT harmless from any and all amounts payable or incurred by the REIT or any of its Subsidiaries if it is subsequently determined that any greater amount should have been withheld in respect of Applicable Withholding Taxes.

ARTICLE 5
PARTICIPATION AND REGULAR GRANTS

5.01 Individuals who are *bona fide* Trustees of the REIT are participants in the Plan ("**Participants**").

5.02 Participants may be awarded Deferred Units from time to time at the discretion of the Board, on the recommendation of the Compensation Committee ("**Granted DUs**").

5.03 Nothing herein contained shall be deemed to give any person the right to be retained as a Trustee, Officer, employee or service provider of the REIT and its Subsidiaries.

ARTICLE 6
ELECTIONS BY TRUSTEES

6.01 Subject to Section 6.02, a Participant may, subject to the conditions stated herein, elect to receive up to 100% of his or her Trustee Fees otherwise payable in cash, in the form of Deferred Units ("**Elected DUs**" and together with the Granted DUs, shall all be considered Deferred Units). The Award Date for Elected DUs shall be the date that a Participant would have received the Trustee Fees otherwise payable in cash.

6.02 Each Participant that elects to receive Elected DUs (each, an "**Electing Person**") will be required to file a notice of election in the form of Schedule A-1 hereto (the "**Election Notice**") with the Chief Financial Officer of the REIT: (i) in the case of an existing Trustee, by December 31st in the year prior to the year to which such election is to apply; and (ii) in the case of a newly appointed Trustee, within 30 days of such appointment with respect to compensation paid for services to be performed after such date. If no election is made within the foregoing time frames, the Trustee shall be deemed to have elected not to receive any Elected DUs and to be paid his or her Trustee Fees entirely in cash.

6.03 Subject to Section 6.04, the election of a Trustee to be an Electing Person shall be deemed to apply to such proportion of the Trustee Fees set out in the Election Notice, payable to the Trustee subsequent to the filing of the Election Notice, and such Trustee is not required to file another Election Notice.

6.04 Each Electing Person is entitled once per calendar year to terminate his or her Election Notice by filing with the Chief Financial Officer of the REIT a notice in the form of Schedule A-2 hereto electing to terminate the receipt of Elected DUs. Such election shall be effective 30 days following receipt. Thereafter, any portion of such Trustee's Trustee Fees otherwise payable in cash and payable or paid in the same calendar year and, subject to complying with Section 6.02, all subsequent calendar years shall be paid in cash. For greater certainty, to the extent a Trustee terminates his or her Election Notice, he or she shall not be entitled to become an Electing Person again until the calendar year following the year in which the termination notice is delivered. For an Electing Person who is a U.S. taxpayer, his or her Election Notice may not be revoked or moedified with respect to the Elected DUs for any calendar year for which it is effective. The U.S. taxpayer Electing Person may terminate or modify his or her Election Notice with respect to compensation paid for services to be performed after such date by filing a new Election Notice before the first day of the calendar year to which such termination or modification applies.

ARTICLE 7
DEFERRED UNITS

7.01 Under no circumstances shall Deferred Units be considered Units nor entitle a Participant to any rights as a Unitholder, including, without limitation, voting rights, distribution entitlements (other than in accordance herewith) or rights on liquidation.

7.02 One Deferred Unit is economically equivalent to one Unit.

7.03 Elected DUs granted to Trustees pursuant to the terms of this Plan will vest immediately upon grant (including any Additional Deferred Units issued pursuant to Elected DUs credited to a Participant's account in connection with cash distributions pursuant to Section 8.03). Granted DUs granted to Trustees pursuant to the terms of this Plan will vest on the first anniversary of the Award Date (including any Additional Deferred Units issued pursuant to Granted DUs credited to a Participant's account in connection with cash distributions pursuant to Section 8.03).

ARTICLE 8
DEFERRED UNIT GRANTS AND ACCOUNTS

8.01 The number of Deferred Units (including fractional Deferred Units) granted at any particular time pursuant to this Plan will be equal to (i) the Elected Amount (in dollars) in respect of Trustee Fees which a Trustee has determined to take in the form of Deferred Units, as determined by a Trustee pursuant to an Election Notice (as contemplated by Section 6.02), divided by the Average Market Price of a Unit on the Award Date, plus (ii) the Granted DUs, if any, granted to such Trustee.

8.02 An account, to be known as a "**Deferred Unit Account**" shall be maintained by the REIT for each Participant and will be credited with grants of Deferred Units received by a Participant from time to time.

8.03 Whenever cash distributions are paid on the Units, additional Deferred Units will be credited to the Participant's Deferred Unit Account ("**Additional Deferred Units**"). The number of such Additional Deferred Units to be credited to a Participant's Deferred Unit Account in respect of a cash distribution paid on the Units shall be calculated by dividing the amount which is equal to the aggregate distributions that would have been paid to such Participant if the Deferred Units in the Participant's Deferred Unit Account had been Units divided by the Average Market Price on the distribution payment date.

8.04 For greater certainty, the number of Deferred Units credited to a Participant's Deferred Unit Account shall count towards that Participant's ownership requirements as prescribed from time to time by the Board.

8.05 For greater certainty, any Additional Deferred Units shall count toward the limits set forth in Article 11. Where an award of Additional Deferred Units would be prohibited by the limits set forth in Article 11, the REIT may make a cash distribution to the applicable Participant in lieu of Additional Deferred Units.

ARTICLE 9
ADJUSTMENTS AND EVENTS AFFECTING THE REIT

9.01 In the event of any Unit distribution, Unit split, combinations or exchange of Units, merger, consolidation, spin-off or other distribution of the REIT's assets to the Unitholders (other than normal cash distributions), or any other similar change affecting the Units, the account of each Participant and the Deferred Units outstanding under the Plan shall be adjusted in such manner, if any, as the Board may in its discretion deem appropriate to reflect the event. However, no amount will be paid to, or in respect of, a Participant under the Plan or pursuant to any other arrangement, and no additional Deferred Units will be granted to such Participant to compensate for a downward fluctuation in the price of the Units, nor will any other form of benefit be conferred upon, or in respect of, a Participant for such purpose.

9.02 Except as may be set forth in an award agreement or other written agreement between the REIT or a subsidiary of the REIT and the Participant, subject to applicable law or the requirements of the TSXV or any other stock exchange upon which the Units are listed and any Unitholder or other approval which may be required:

(a) Notwithstanding anything else in this Plan, the Board may, without the consent of any Participant, take such steps as it deems necessary or desirable, to ensure the preservation of the economic interests of the Participants in, and to prevent the dilution or enlargement of, any Deferred Units granted under the Plan, including to cause (i) the conversion or exchange of any outstanding Deferred Units into or for, rights or other securities of substantially equivalent value (or greater value), as determined by the Board in its discretion, in any entity participating in or resulting from a Change in Control (provided that for any Participant that is a resident of Canada for the purposes of the Tax Act, any such securities will be shares of a

corporation or units of a "mutual fund trust" (for the purposes of the Tax Act) and any such rights will be rights to acquire shares of a corporation or units of a "mutual fund trust", in any case of an entity that does not deal at arm's length with the REIT (for the purposes of the Tax Act) at the time such shares, units or rights are issued or granted); (ii) outstanding Deferred Units to vest and become exercisable, realizable, or payable, or restrictions applicable to a Deferred Unit to lapse, in whole or in part, prior to or upon consummation of a Change in Control, take-over bid, RTO or other similar transaction and, to the extent the Board determines, terminate upon or immediately prior to the effectiveness of such Change in Control, take-over bid, RTO or other similar transaction; or (iii) any combination of the foregoing. In taking any of the actions permitted under this Section 9.02(a), the Board will not be required to treat all Deferred Units similarly in the transaction. For greater certainty, the Board cannot cause any Participant that is a resident of Canada for the purposes of the Tax Act to receive anything other than shares of a corporation or units of a "mutual fund trust", or rights to acquire such shares or units, in any case of an entity that does not deal at arm's length with the REIT (for the purposes of the Tax Act) at the time such shares, units or rights are issued or granted.

(b) It is intended that any actions taken under this Section 9.02 will comply with the requirements of Section 409A of the Code with respect to Awards granted to U.S. taxpayers. For the avoidance of doubt, to the extent that there is a conflict in this Plan with Section 409A of the Code, Section 409A of the Code shall control.

9.03 Notwithstanding anything else in this Plan, the Board may, in its discretion, at any time, subject to applicable law or the requirements of the TSXV or any other stock exchange upon which the Units are listed and any Unitholder or other approval which may be required, permit the acceleration of vesting of any or all Deferred Units or waive termination of any or all Deferred Units, in the manner and on the terms as may be authorized by the Board; provided, that any such acceleration or waiver comply with the requirements of Section 409A of the Code with respect to Deferred Units granted to U.S. taxpayers.

ARTICLE 10
REDEMPTION AND TERMINATION OF DEFERRED UNITS

10.01 Except with respect to Participants that are U.S. taxpayers, the Deferred Units (or a portion thereof) shall be redeemable by the Participant (or, where the Participant has died, his or her estate) on or after the date (the "**Termination Date**") on which the Participant ceases to be a Trustee, provided any such redemption date is not later than one year following the date the Participant ceases to be a Trustee. For greater certainty, in the event that a Participant (or his or her estate) has not redeemed his or her Deferred Units prior to the date that is one year following the Termination Date, such Deferred Units shall be automatically redeemed on the date that is one year following the Termination Date without any action required on the part of the Participant (or his or her estate).

10.02 For Participants that are Canadian residents and are not U.S. taxpayers, each vested Deferred Unit credited to a Participant's Deferred Unit Account will be redeemed automatically on the date on which the Participant files a written notice of redemption in the form of Schedule B

hereto with the Chief Financial Officer of the REIT (the "**Redemption Date**") for (i) one fully paid and non-assessable Unit issued from treasury to the Participant or as the Participant may direct, (ii) if so elected by the Participant, a cash payment, subject to the approval of the Board, or (iii) a combination of Units and cash as contemplated by paragraphs (i) and (ii) above.

10.03 For Participants that are U.S. taxpayers, each vested Deferred Unit credited to a Participant's Deferred Unit Account will be redeemed automatically on the date of the Trustee's Separation from Service for (i) one fully paid and non-assessable Unit issued from treasury to the Participant or as the Participant may direct, (ii) if so elected by the Participant, a cash payment, subject to the approval of the Board, or (iii) a combination of Units and cash as contemplated by paragraphs (i) and (ii) above.

10.04 Any cash payments made under this Article 10 by the REIT to a Participant in respect of Deferred Units to be redeemed for cash shall be calculated by multiplying the number of Deferred Units to be redeemed for cash by the Average Market Price per Unit as at the Redemption Date or date of the Trustee's Separation from Service, as applicable.

10.05 No fractional Units will be issued pursuant to the redemption of Deferred Units. At the time of redemption fractional Deferred Units shall be rounded down, and no payment shall be made to the Participant with respect to the fractional Deferred Units standing to the Participant's credit after the maximum number of whole Units due to such Participant have been issued by the REIT.

10.06 Upon payment in full of the value of the vested Deferred Units and the forfeiture of the unvested Deferred Units, the Deferred Units shall be cancelled.

10.07 Notwithstanding anything in this Article 10, in the event of the death of a Participant, all previously awarded Deferred Units shall be redeemable only within the one year after such death, and then only by the person or persons to whom the Participant's rights under the Deferred Units shall pass by the Participant's will or the laws of descent and distribution.

ARTICLE 11
NUMBER AND VALUE OF UNITS

11.01 The maximum number of Units reserved for issuance under this Plan at any time shall be 2,844,256. Notwithstanding the above, subject to applicable law or the requirements of the TSXV or any other stock exchange upon which the Units are listed and any Unitholder or other approval which may be required, the Board may, in its discretion, amend this Plan to increase such limit without notice to Participants, subject to Unitholder approval. If any Deferred Unit granted under this Plan is terminated, surrendered, forfeited, expired or is cancelled, new Deferred Units may thereafter be granted covering such Units, subject to any required prior approval by the TSXV or other stock exchange upon which the Units are listed. At all times, the REIT will reserve and keep available a sufficient number of Units to satisfy the requirements of all outstanding Deferred Units granted under this Plan.

11.02 The maximum aggregate number of Units that are issuable pursuant to all Security Based Compensation Arrangements of the REIT granted or issued in any 12 month period to any one person (and any entities that are wholly owned by that person) shall not exceed 5% of the

issued and outstanding Units, calculated as at the date any security based compensation award is granted or issued to the person, subject to the requisite disinterested Unitholder approval required by the TSXV.

11.03 No Deferred Unit may be granted if such grant would have the effect of causing the total number of Units subject to Deferred Units to exceed the total number of Units reserved for issuance pursuant to the exercise of Deferred Units as set forth in Section 11.01.

11.04 The aggregate fair market value on the Award Date of Units that are issuable pursuant to all Security Based Compensation Arrangements of the REIT granted or issued to any Trustee shall not exceed $200,000 per annum; provided that such limits shall not apply to awards (including Deferred Units) taken in lieu of any Trustee Fees and a one-time initial grant to a Trustee upon such Trustee joining the Board.

ARTICLE 12
ASSIGNMENT

12.01 In no event may the rights or interests of a Participant under the Plan be assigned, encumbered, pledged, transferred or alienated in any way, except to the extent that certain rights may pass to a beneficiary or legal representative upon death of a Participant, by will or as required by law.

12.02 Rights and obligations under the Plan may be assigned by the REIT to a successor in the business of the REIT.

ARTICLE 13
COMPLIANCE WITH APPLICABLE LAWS

13.01 The administration of the Plan shall be subject to and performed in conformity with all applicable laws, regulations, orders of governmental or regulatory authorities and the requirements of any stock exchange on which the Units are listed. Should the Compensation Committee, in its sole discretion, determine that it is not desirable or feasible to provide for the redemption of Deferred Units in Units pursuant to the provisions of Article 10, including by reason of any such laws, regulations, rules, orders or requirements, it shall notify the Participants of such determination and on receipt of such notice each Participant shall have the option of electing that such redemption obligations be satisfied by means of a cash payment by the REIT equal to the Average Market Price of the Units that would otherwise be delivered to a Participant in settlement of Deferred Units on the Redemption Date (less any Applicable Withholding Taxes). Each Participant shall comply with all such laws, regulations, rules, orders and requirements, and shall furnish the REIT with any and all information and undertakings, as may be required to ensure compliance therewith.

13.02 The REIT intends that the Plan and all Deferred Units be construed to avoid the imposition of additional taxes, interest, and penalties pursuant to Section 409A of the Code. Notwithstanding the REIT's intention, in the event any Deferred Unit is subject to such additional taxes, interest or penalties pursuant to Section 409A of the Code, the Board or the Compensation Committee, as applicable, may, in their sole discretion and without a Participant's prior consent, amend the Plan, adopt policies and procedures, or take any other actions (including amendments,

policies, procedures and actions with retroactive effect) as are necessary or appropriate to (a) exempt the Plan and/or any Deferred Unit from the application of Section 409A of the Code, (b) preserve the intended tax treatment of any such Deferred Unit, or (c) comply with the requirements of Section 409A of the Code, including without limitation any such regulations, guidance, compliance programs, and other interpretative authority that may be issued after the date of the grant. In no event shall the REIT or any of its Affiliates be liable for any additional tax, interest or penalties that may be imposed on a Participant under Section 409A of the Code or any damages for failing to comply with Section 409A of the Code. To the extent a Participant who is a U.S. taxpayer is a "specified employee" within the meaning of U.S. Treasury Regulation § 1.409A-1(i) upon the Participant's Separation from Service, any amount payable upon such Separation from Service pursuant to a redemption under Article 10 will be delayed to the earliest Business Day following the end of the sixth month period from the date of such Participant's Separation from Service. Notwithstanding any provision in the Plan to the contrary, the timing of redemptions set forth in Article 10 with respect to U.S. taxpayers may be modified by the Compensation Committee as provided in U.S. Treasury Regulation § 1.409A-3(j)(4)(ix) with respect to the termination of a deferred compensation arrangement.

ARTICLE 14
NON-RECOURSE

14.01 Obligations created hereunder and any liability which arises in any manner whatsoever and of or in connection with this Plan are not personally binding upon, nor shall resort be had to, nor shall recourse or satisfaction be sought from, the private property of any trustee or officer of the REIT, any holder of units of the REIT, or annuitants under a plan of which a holder of units of the REIT acts as a trustee or carrier, but only the property of the REIT from time to time or a specific portion thereof shall be bound.

SCHEDULE A-1
NEXPOINT HOSPITALITY TRUST
DEFERRED UNIT PLAN (THE "PLAN")

ELECTION NOTICE

All capitalized terms used herein but not otherwise defined shall have the meanings ascribed to them in the Plan.

Pursuant to the Plan, I hereby elect to receive ____% of my Trustee Fees otherwise payable in cash, as applicable, in the form of Deferred Units in lieu of cash.

I confirm that:

a) I have received and reviewed a copy of the terms of the Plan and agreed to be bound by them.

b) I recognize that when Deferred Units credited pursuant to this election are redeemed in accordance with the terms of the Plan, income tax and other withholdings as required will arise at that time. Upon redemption of the Deferred Units, the REIT will make all appropriate withholdings as required by law at that time.

c) The value of Deferred Units is based on the value of the Units of the REIT and therefore is not guaranteed.

The foregoing is only a brief outline of certain key provisions of the Plan. For more complete information, reference should be made to the Plan's text.

Date: ______________________________ ______________________________
(Name of Participant)

____
(Signature of Participant)

SCHEDULE A-2
NEXPOINT HOSPITALITY TRUST
DEFERRED UNIT PLAN (THE "PLAN")

ELECTION TO TERMINATE RECEIPT OF ELECTED DEFERRED UNITS

All capitalized terms used herein but not otherwise defined shall have the meanings ascribed to them in the Plan.

Notwithstanding my previous election in the form of Schedule A-1 to the Plan, I hereby revoke my previous election, such that no portion of the Trustee Fees otherwise payable in cash, as applicable, accrued after the date hereof shall be paid in Deferred Units in accordance with the terms of the Plan.[1]

I understand that the Deferred Units already granted under the Plan will remain outstanding and shall be redeemable only in accordance with the Plan.

I confirm that I have received and reviewed a copy of the terms of the Plan and agree to be bound by them.

Date: ______________________________ ______________________________
(Name of Participant)

____
(Signature of Participant)

Note: An election to terminate receipt of Elected DUs can only be made by a Participant once in a calendar year.

[1] To be modified for U.S. taxpayers such that the election only applies to future fees earned starting with the next calendar year.

SCHEDULE B

NEXPOINT HOSPITLAITY TRUST
DEFERRED UNIT PLAN (THE "PLAN")

REDEMPTION NOTICE FOR CANADIAN RESIDENTS

All capitalized terms used herein but not otherwise defined shall have the meanings ascribed to them in the Plan.

I hereby advise NexPoint Hospitality Trust (the "**REIT**") that I wish to redeem __________ of the Deferred Units credited to my account under the Plan in accordance with the terms of the Plan in the form of **[_______ Units of the REIT and $_____ in cash]**.

Date: ________________________________ ______________________________________
(Name of Participant)

____
(Signature of Participant)

Note: If the redemption notice is signed by a beneficiary or legal representative, documents providing the authority of such signature should accompany this notice.

APPENDIX "C"
RESOLUTION REGARDING APPROVAL AND RATIFICATION OF PRIOR DSU GRANT

BE IT RESOLVED THAT:

1. The conditional issuance of 1,295,668 Deferred Units to the independent Trustees on September 11, 2023 on the terms and conditions set out in the Deferred Unit Plan, are ratified, confirmed and approved.

2. Any one or more trustees or officers of the REIT are hereby authorized and directed to execute, deliver, register and file in the name and on behalf of the REIT, any certificates, instruments, agreements, notices, affidavits, supporting material and other documents, and to obtain any required consents, approvals and to do any other acts and things as in the opinion of such person(s) may be necessary or desirable to give full effect to the above resolutions, to facilitate all matters relating to those resolution and to allow the execution and delivery of any and all such other agreements, documents and instruments and the performance or causing the performance of any and all such other acts and things to be conclusive evidence of such determination.

APPENDIX "D"
RESOLUTION REGARDING APPROVAL OF AMENDMENTS TO COVID LOANS

BE IT RESOLVED THAT:

1. The Amendments to the COVID Loans, as more particularly described in the REIT's Information Circular dated September 11, 2023, are hereby approved and authorized.

2. Any one or more trustees or officers of the REIT are hereby authorized and directed to execute, deliver, register and file in the name and on behalf of the REIT, any certificates, instruments, agreements, notices, affidavits, supporting material and other documents, and to obtain any required consents, approvals and to do any other acts and things as in the opinion of such person(s) may be necessary or desirable to give full effect to the above resolutions, to facilitate all matters relating to those resolution and to allow the execution and delivery of any and all such other agreements, documents and instruments and the performance or causing the performance of any and all such other acts and things to be conclusive evidence of such determination.

APPENDIX "E"
BOARD CHARTER

NEXPOINT HOSPITALITY TRUST

CHARTER OF THE BOARD OF TRUSTEES
(the "Charter")

ADOPTED MAY 28, 2019

1. Purpose

The purpose of this Charter is to set out the mandate and responsibilities of the board of trustees (the "**Board**") of NexPoint Hospitality Trust (the "**REIT**"). By approving this Charter, the Board confirms its responsibility for the stewardship of the REIT and its affairs. This stewardship function includes responsibility for the matters set out in this Charter. The responsibilities of the Board described herein are pursuant to, and subject to, the provisions of applicable statutes and the Declaration of Trust of the REIT and do not impose any additional responsibilities or liabilities on the trustees at law or otherwise.

2. Composition

The Board shall be constituted with a majority of individuals who qualify as "independent" as defined in National Instrument 58-101 – *Disclosure of Corporate Governance Practices* ("**NI 58-101**"), provided, however, that if at any time a majority of the trustees are not independent because of the death, resignation, bankruptcy, adjudicated incompetence, removal or change in circumstance of any trustee who was an independent trustee within the meaning of NI 58-101, this requirement shall not be applicable for a period of 60 days thereafter, during which time the remaining trustees shall appoint a sufficient number of trustees who qualify as "independent" to comply with this requirement.

Pursuant to NI 58-101, an independent trustee is one who is free from any direct or indirect relationship which could, in the view of the Board, be reasonably expected to interfere with a trustee's independent judgment.

In the event the chair of the Board (the "**Chair**") is not independent, the independent trustees will select one of the independent trustees to be appointed as the lead trustee of the Board for such term as the independent trustees may determine (the "**Lead Trustee**"). If the REIT has a non-executive Chair who is independent, then the role of the Lead Trustee will be filled by the non-executive Chair. The Lead Trustee or non-executive Chair will chair regular meetings of the independent trustees and assume other responsibilities that the independent trustees as a whole have designated.

3. Responsibilities of the Board of Trustees

The Board is responsible for the stewardship and oversight of the REIT and in that regard shall be specifically responsible for:

(a) participating in the development of and approving a strategic plan for the REIT;

(b) supervising the activities and managing the investments and affairs of the REIT;

(c) approving major decisions regarding the REIT;

(d) defining the roles and responsibilities of management;

(e) reviewing and approving the business and investment objectives to be met by management;

(f) assessing the performance of and overseeing management;

(g) issuing securities of the REIT for such consideration as the Board may deem appropriate, subject to applicable law;

(h) reviewing the REIT's debt strategy;

(i) identifying and managing risk exposure;

(j) ensuring the integrity and adequacy of the REIT's internal controls and management information systems;

(k) succession planning;

(l) establishing committees of the Board, where required or prudent, and defining their mandate;

(m) establishing and maintaining procedures and policies to ascertain trustee independence;

(n) maintaining records and providing reports to unitholders;

(o) ensuring effective and adequate communication with unitholders, other stakeholders and the public;

(p) determining the amount and timing of distributions to unitholders; and

(q) acting for, voting on behalf of and representing the REIT as a holder of interests in NHT Intermediary, LLC and, indirectly, interests in NHT Holdings, LLC and the Class A Units of NHT Operating Partnership, LLC.

It is recognized that every trustee in exercising powers and discharging duties must act honestly and in good faith with a view to the best interest of the REIT. Trustees must exercise the care, diligence and skill that a reasonably prudent person would exercise in comparable circumstances. In this regard, they will comply with their duties of honesty, loyalty, care, diligence, skill and prudence.

In addition, trustees are expected to carry out their duties in accordance with policies and regulations adopted by the Board from time to time, the current Trustees' Regulations being annexed as Schedule A to the REIT's Declaration of Trust.

It is expected that management will co-operate in all ways to facilitate compliance by the Board with its legal duties by causing the REIT and its subsidiaries to take such actions as may be

necessary in that regard and by promptly reporting any data or information to the Board that may affect such compliance.

4. Expectations of Trustees

The Board has developed a number of specific expectations of trustees to promote the discharge by the trustees of their responsibilities and to promote the proper conduct of the Board.

(a) ***Commitment and Attendance***. All trustees are expected to maintain a high attendance record at meetings of the Board and the committees of which they are members. Attendance by telephone or video conference may be used to facilitate a trustee's attendance.

(b) ***Preparation for Meetings***. All trustees are expected to review the materials circulated in advance of meetings of the Board and its committees and should arrive prepared to discuss the issues presented. Trustees are encouraged to contact the Chair of the Board (the "**Chair**"), the Chief Executive Officer and any other appropriate executive officer(s) of the REIT to ask questions and discuss agenda items prior to meetings.

(c) ***Participation in Meetings***. Each trustee is expected to be sufficiently knowledgeable of the business of the REIT, including its financial statements, and the risks it faces, to ensure active and effective, and candid and forthright participation in the deliberations of the Board and of each committee on which he or she serves.

(d) ***Loyalty and Ethics***. In their roles as trustees, all members of the Board owe a duty of loyalty to the REIT. This duty of loyalty mandates that the best interests of the REIT take precedence over any other interest possessed by a trustee. Trustees are expected to conduct themselves in accordance with the REIT's Code of Business Conduct and Ethics.

(e) ***Other Board Memberships and Significant Activities***. The REIT values the experience trustees bring from other boards on which they serve and other activities in which they participate, but recognizes that those boards and activities also may present demands on a trustee's time and availability and may present conflicts or legal issues, including independence issues. Each member of the Board should, when considering membership on another board or committee, make every effort to ensure that such membership will not impair the member's time and availability for his or her commitment to the REIT. Trustees should advise the Chair, the Lead Trustee and the Chief Executive Officer before accepting membership on other public company boards or any audit committee or other significant committee assignment on any other board, or establishing other significant relationships with businesses, institutions, governmental units or regulatory entities, particularly those that may result in significant time commitments or a change in the member's relationship to the REIT.

(f) ***Personal Conduct***. Trustees are expected to: (i) exhibit high standards of personal integrity, honesty and loyalty to the REIT; (ii) project a positive image of

the REIT to news media, the financial community, governments and their agencies, unitholders and employees; (iii) be willing to contribute extra efforts, from time to time, as may be necessary including, among other things, being willing to serve on committees of the Board; and (iv) disclose any potential conflict of interest that may arise with the affairs or business of the REIT and, generally, avoid entering into situations where such conflicts could arise or could reasonably be perceived to arise.

(g) ***Confidentiality***. The proceedings and deliberations of the Board and its committees are confidential. Each member of the Board will maintain the confidentiality of information received in connection with his or her service as a trustee.

5. Meetings

The Board will meet not less than four times per year: three meetings to review quarterly results and one meeting prior to the issuance of the annual financial results of the REIT. The Board shall meet periodically without management present to ensure that the Board functions independently of management. At each Board meeting, unless otherwise determined by the Board, an in-camera meeting of independent trustees will take place, which session will be chaired by the Chair of the Board or the Lead Trustee in the event that the Chair is non-independent. In discharging its mandate, the Board and any committee of the Board will have the authority to retain and receive advice from outside financial, legal or other advisors (at the cost of the REIT) as the Board or any such committee determines to be necessary to permit it to carry out its duties.

The Board appreciates having certain members of senior management attend each Board meeting to provide information and opinion to assist the trustees in their deliberations. Management attendees who are not Board members will be excused for any agenda items which are reserved for discussion among trustees only.

6. Board Meeting Agendas and Information

The Chair, in consultation with management, will develop the agenda for each Board meeting. Agendas will be distributed to the trustees before each meeting, and all trustees shall be free to suggest additions to the agenda in advance of the meeting.

Whenever practicable, information and reports pertaining to Board meeting agenda items will be circulated to the trustees in advance of the meeting. Reports may be presented during the meeting by members of the Board, management and/or staff, or by invited outside advisors. It is recognized that under some circumstances, due to the confidential nature of matters to be discussed at a meeting, it will not be prudent or appropriate to distribute written materials in advance.

7. Measures for Receiving Unitholder Feedback

All publicly disseminated materials of the REIT shall provide for a mechanism for feedback of unitholders.

8. Telephone Board Meetings

A trustee may participate in a meeting of the trustees or in a committee meeting by means of telephone, electronic or such other communications facilities as permit all persons participating in the meeting to communicate with each other and a trustee participating in such a meeting by such means is deemed to be present at the meeting.

While it is the intent of the Board to follow an agreed meeting schedule as closely as possible, it is felt that, from time to time, with respect to time sensitive matters telephone board meetings may be required to be called in order for trustees to be in a position to better fulfill their legal obligations. Alternatively, management may request the trustees to approve certain matters by unanimous written consent.

9. Expectations of and Access to Management

Management shall be required to report to the Board at the request of the Board on the performance of the REIT, new and proposed initiatives, the REIT's business and investments, management concerns and any other matter the Board or its Chair or the Lead Trustee may deem appropriate. In addition, the Board expects management to promptly report to the Chair any significant developments, changes, transactions or proposals respecting the REIT or its subsidiaries. All members of the Board should be free to contact management at any time to discuss any aspect of the REIT's business. Trustees should use their judgement to ensure that any such contact is not disruptive to the operations of the REIT. The Board expects that there will be frequent opportunities for members of the Board to meet with management in meetings of the Board and committees, or in other formal or informal settings.

10. Access to Outside Advisors

The Board may, in its sole discretion, retain and obtain the advice and assistance of such advisors as it deems necessary to fulfil its duties and responsibilities under this Charter. The Board may set the compensation and oversee the work of such advisors to be paid by the REIT.

11. Communications Policy

The Board shall approve the content of the REIT's major communications to unitholders and the investing public including any Annual Report, Management Information Circular, Annual Information Form and any prospectuses which may be issued. The Audit Committee shall review and recommend to the Board the approval of the quarterly and annual financial statements (including the Management Discussion & Analysis) and press releases relating to financial matters. The Board also has responsibility for monitoring all of the REIT's external communications. However, the Board believes that it is generally the function of management to speak for the REIT in its communications with the investment community, the media, customers, suppliers, employees, governments and the general public. The Board will appoint the Lead Trustee, or another independent, non-executive trustee, to be available to unitholders with concerns should communications with management fail to resolve the issue or such contact is inappropriate.

The Board shall have responsibility for reviewing the REIT's policies and practices with respect to disclosure of financial and other information including insider reporting and trading. The

Board shall approve and monitor the disclosure policies designed to assist the REIT in meeting its objective of providing timely, consistent and credible dissemination of information, consistent with disclosure requirements under applicable securities law. The Board shall review the REIT's policies relating to communication and disclosure on an annual basis.

12. Internal Control and Management Information Systems

The Board has responsibility for the integrity of the REIT's internal control and management information systems. All material matters relating to the REIT and its business require the prior approval of the Board, subject to the Board's ability to delegate such matters to, among others, the REIT's Audit Committee, Compensation, Governance and Nominating Committee and management. Management is authorized to act, without Board approval, on all ordinary course matters relating to the REIT's business subject to any management authority guidelines adopted by the Board.

The Audit Committee has responsibility for ensuring internal controls are appropriately designed, implemented and monitored and for ensuring that management's financial reporting is complete and accurate, even though management may be charged with developing and implementing the necessary procedures.

13. Delegation of Powers

The trustees may establish one or more committees and may delegate to such committees any of the powers of the Board. The trustees may also delegate powers to manage the business and affairs of the REIT to such of the officers of the REIT as they, in their sole and absolute discretion, may deem necessary or desirable to appoint, and define the scope of and manner in which such powers will be exercised by such persons as they may deem appropriate.

The Board retains responsibility for oversight of any matters delegated to any trustee(s) or any committee of the Board, to management or to other persons.

14. Board Effectiveness

The Board shall review and, if determined appropriate, approve the recommendations of the applicable committee of the Board, if any, concerning formal position descriptions for the Chair of the Board and for each committee of the Board, the Lead Trustee and for the Chief Executive Officer, provided that in approving a position description for the Chief Executive Officer, the Board shall consider the input of the Chief Executive Officer and shall develop and approve corporate goals and objectives that the Chief Executive Officer is responsible for meeting (which may include goals and objectives relevant to the Chief Executive Officer's compensation, as recommended by the applicable committee of the Board, if any).

The Board shall review and, if determined appropriate, adopt a process recommended by the applicable committee of the Board, if any, for reviewing the performance and effectiveness of the Board as a whole, the committees of the Board and the contributions of individual trustees on an annual basis.

15. Education and Training

The Board will provide newly elected trustees with an orientation program to educate them on the REIT, their roles and responsibilities on the Board or Committees, as well as the REIT's internal controls, financial reporting and accounting practices. In addition, trustees will, from time to time, as required, receive: (a) training to increase their skills and abilities, as it relates to their duties and their responsibilities on the Board; and (b) continuing education about the REIT to maintain a current understanding of the REIT's business, including its operations, internal controls, financial reporting and accounting practices.

16. No Rights Created

This Charter is a broad policy statement and is intended to be part of the Board's flexible governance framework. While this Charter should comply with all applicable law and the REIT's constating documents, this Charter does not create any legally binding obligations on the Board, any Committee, any trustee or the REIT.

APPENDIX "F"
AUDIT COMMITTEE CHARTER

NEXPOINT HOSPITALITY TRUST

CHARTER OF THE AUDIT COMMITTEE
(the "Charter")

ADOPTED MAY 28, 2019 AND AMENDED APRIL 28, 2020

1. General

A. Purpose

The Audit Committee (the "**Committee**") is a committee of the board of trustees (the "**Board**") of NexPoint Hospitality Trust (the "**REIT**"). The members of the Committee and the chair of the Committee (the "**Chair**") are appointed by the Board on an annual basis (or until their successors are duly appointed) for the purpose of overseeing the REIT's financial controls and reporting and monitoring whether the REIT complies with financial covenants and legal and regulatory requirements governing financial disclosure matters and financial risk management.

2. Composition

(1) The Committee should be comprised of a minimum of three trustees, and a maximum of five trustees.

(2) The Committee must be constituted as required under National Instrument 52-110 — *Audit Committees*, as it may be amended or replaced from time to time ("**NI 52-110**").

(3) All members of the Committee must (except to the extent permitted by NI 52-110) be independent (as defined by NI 52-110), and free from any relationship that, in the view of the Board, could be reasonably expected to interfere with the exercise of his or her independent judgment as a member of the Committee.

(4) All members of the Committee must (except to the extent permitted by NI 52-110) be financially literate (which is defined as the ability to read and understand a set of financial statements that present a breadth and level of complexity of accounting issues that are generally comparable to the breadth and complexity of the issues that can reasonably be expected to be raised by the REIT's financial statements).

(5) Any member of the Committee may be removed or replaced at any time by the Board and shall cease to be a member of the Committee on ceasing to be a trustee. The Board may fill vacancies on the Committee by election from among the Board. If and whenever a vacancy shall exist on the Committee, the remaining members may exercise all powers of the Committee so long as a quorum remains.

3. Limitations on Committee's Duties

In contributing to the Committee's discharge of its duties under this Charter, each member of the Committee shall be obliged only to exercise the care, diligence and skill that a reasonably prudent person would exercise in comparable circumstances. Nothing in this Charter is intended or may be construed as imposing on any member of the Committee a standard of care or diligence that is in any way more onerous or extensive than the standard to which any member of the Board may be otherwise subject.

Members of the Committee are entitled to rely, absent actual knowledge to the contrary, on (i) the integrity of the persons and organizations from whom they receive information, (ii) the accuracy and completeness of the information provided, (iii) representations made by management of the REIT ("**Management**") as to the non-audit services provided to the REIT by the external auditor, (iv) financial statements of the REIT represented to them by a member of Management or in a written report of the external auditors to present fairly the financial position of the REIT in accordance with applicable generally accepted accounting principles, and (v) any report of a lawyer, accountant, engineer, appraiser or other person whose profession lends credibility to a statement made by any such person.

4. Meetings

The Committee should meet not less than four times annually. The Committee should meet within 60 days following the end of the first three financial quarters of the REIT and shall meet within 120 days following the end of the fiscal year of the REIT. A quorum for the transaction of business at any meeting of the Committee shall be a majority of the members of the Committee or such greater number as the Committee shall by resolution determine. The Committee shall keep minutes of each meeting of the Committee. A copy of the minutes shall be provided to each member of the Committee.

Meetings of the Committee shall be held from time to time and at such place as any member of the Committee shall determine upon two day's prior notice to each of the other Committee members. The members of the Committee may waive the requirement for notice. In addition, each of the Chief Executive Officer, the Chief Financial Officer and the external auditor shall be entitled to request that the Chair call a meeting.

The Committee may ask members of Management and employees of the REIT (including, for greater certainty, its affiliates and subsidiaries) or others (including the external auditor) to attend meetings and provide such information as the Committee requests. Members of the Committee shall have full access to information of the REIT (including, for greater certainty, its affiliates, subsidiaries and their respective operations) and shall be permitted to discuss such information and any other matters relating to the results of operations and financial position of the REIT with Management, employees, the external auditor and others as they consider appropriate.

The Committee or its Chair should meet at least once per year with Management and the external auditor in separate sessions to discuss any matters that the Committee or either of these groups desires to discuss privately. In addition, the Committee or its Chair should

meet with Management quarterly in connection with the REIT's interim financial statements.

The Committee shall determine any desired agenda items.

5. Committee Activities

As part of its function in assisting the Board in fulfilling its oversight responsibilities (and without limiting the generality of the Committee's role), the Committee will have the power and authority to:

A. Financial Disclosure

(1) Review, approve and recommend for Board approval the REIT's interim financial statements, including any certification, report, opinion or review rendered by the external auditor and the related management's discussion & analysis and press release.

(2) Review, approve and recommend for Board approval the REIT's annual financial statements, including any certification, report, opinion or review rendered by the external auditor, the annual information form, and the related management's discussion & analysis and press release.

(3) Review and approve any other press releases that contain financial information and such other financial information of the REIT provided to the public or any governmental body as the Committee requires.

(4) Satisfy itself that adequate procedures have been put in place by Management for the review of the REIT's public disclosure of financial information extracted or derived from the REIT's financial statements and the related management's discussion & analysis.

(5) Review any litigation, claim or other contingency and any regulatory or accounting initiatives that could have a material effect upon the financial position or operating results of the REIT and the appropriateness of the disclosure thereof in the documents reviewed by the Committee.

(6) Receive periodically Management reports assessing the adequacy and effectiveness of the REIT's disclosure controls and procedures.

B. Internal Control

(1) Review Management's process to identify and manage the significant risks associated with the activities of the REIT.

(2) Review the effectiveness of the internal control systems for monitoring compliance with laws and regulations.

(3) Have the authority to communicate directly with the internal auditor if one is present.

(4) Receive periodical Management reports assessing the adequacy and effectiveness of the REIT's internal control systems.

(5) Assess the overall effectiveness of the internal control and risk management frameworks through discussions with Management and the external auditors and assess whether recommendations made by the external auditors have been implemented by Management.

C. Relationship with the External Auditor

(1) Recommend to the Board the selection of the external auditor and the fees and other compensation to be paid to the external auditor.

(2) Have the authority to communicate directly with the external auditor and arrange for the external auditor to be available to the Committee and the Board as needed.

(3) Advise the external auditor that it is required to report to the Committee, and not to Management.

(4) Monitor the relationship between Management and the external auditor, including reviewing any Management letters or other reports of the external auditor, discussing any material differences of opinion between Management and the external auditor and resolving disagreements between the external auditor and Management.

(5) If considered appropriate, establish separate systems of reporting to the Committee by each of management and the external auditor.

(6) Review and discuss on an annual basis with the external auditor all significant relationships they have with the REIT, Management or employees that might interfere with the independence of the external auditor.

(7) Pre-approve all non-audit services (or delegate such pre-approval, as the Committee may determine and as otherwise permitted by applicable securities laws) to be provided by the external auditor.

(8) Review the performance of the external auditor and recommend any discharge of the external auditor when the Committee determines that circumstances warrant.

(9) Periodically consult with the external auditor out of the presence of Management about (a) any significant risks or exposures facing the REIT, (b) internal controls and other steps that Management has taken to control such risks, and (c) the fullness and accuracy of the financial statements of the REIT, including the adequacy of internal controls to expose any payments, transactions or procedures that might be deemed illegal or otherwise improper.

(10) Review and approve any proposed hiring of current or former partners or employees of the current (and any former) external auditor of the REIT.

D. Audit Process

(1) Review the scope, plan and results of the external auditor's audit and reviews, including the auditor's engagement letter, the post-audit management letter, if any, and the form of the audit report. The Committee may authorize the external auditor to perform supplemental reviews, audits or other work as deemed desirable.

(2) Following completion of the annual audit and quarterly reviews, review separately with each of Management and the external auditor any significant changes to planned procedures, any difficulties encountered during the course of the audit and, if applicable, reviews, including any restrictions on the scope of work or access to required information and the cooperation that the external auditor received during the course of the audit and, if applicable, reviews.

(3) Review any significant disagreements among Management and the external auditor in connection with the preparation of the financial statements.

(4) Where there are significant unsettled issues between Management and the external auditor that do not affect the audited financial statements, the Committee shall seek to ensure that there is an agreed course of action leading to the resolution of such matters.

(5) Review with the external auditor and Management significant findings and the extent to which changes or improvements in financial or accounting practices, as approved by the Committee, have been implemented.

(6) Review the system in place to seek to ensure that the financial statements, management's discussion & analysis and other financial information disseminated to regulatory authorities and the public satisfy applicable requirements.

E. Financial Reporting Processes

(1) Review the integrity of the REIT's financial reporting processes, both internal and external, in consultation with the external auditor.

(2) Periodically consider the need for an internal audit function, if not present.

(3) Review all material balance sheet issues, material contingent obligations and material related party transactions.

(4) Review with Management and the external auditor the REIT's accounting policies and any changes that are proposed to be made thereto, including all critical accounting policies and practices used, any alternative treatments of financial information that have been discussed with Management, the ramification of their use and the external auditor's preferred treatment and any other material communications with Management with respect thereto. Review the disclosure and

impact of contingencies and the reasonableness of the provisions, reserves and estimates that may have a material impact on financial reporting.

F. General

(1) Inform the Board of matters that may significantly impact on the financial condition or affairs of the business.

(2) Respond to requests by the Board with respect to the functions and activities that the Board requests the Committee to perform.

(3) Periodically review this Charter and, if the Committee deems appropriate, recommend to the Board changes to this Charter.

(4) Review the public disclosure regarding the Committee required from time to time by NI 52-110.

(5) The Committee may at its discretion retain independent counsel, accountants and other professionals to assist it in the conduct of its activities and to set and pay (as an expense of the REIT) the compensation for any such advisors.

(6) Review in advance, and approve, the hiring and appointment of the REIT's Chief Financial Officer and any other senior officers responsible for financial reporting.

(7) Perform any other activities as the Committee or the Board deems necessary or appropriate.

6. Complaint Procedures

(1) Anyone may submit a complaint regarding conduct by the REIT or its employees or agents (including its external auditor) reasonably believed to involve questionable accounting, internal accounting controls, auditing or other matters. The Chair will have the power and authority to oversee treatment of such complaints.

(2) Complaints are to be directed to the attention of the Chair.

(3) The Committee should endeavour to keep the identity of the complainant confidential.

(4) The Chair will have the power and authority to lead the review and investigation of a complaint. The Committee should retain a record of all complaints received. Corrective action may be taken when and as warranted.

NEXPOINT
HOSPITALITY TRUST

FOR IMMEDIATE RELEASE

NOT FOR DISSEMINATION TO U.S. NEWS WIRE SERVICES OR DISSEMINATION IN THE UNITED STATES

NexPoint Hospitality Trust Issues Clarifying and Supplemental Disclosure

DALLAS and TORONTO, October 19, 2023 -- NexPoint Hospitality Trust ("**NHT**" or the "**REIT**") (TSX-V: NHT.U) has received requests for (i) clarification regarding its previous disclosure relating to the approximate US$87 million of convertible loans provided by entities controlled or managed by James Dondero primarily during the COVID-19 pandemic (the "**Loans**"); and (ii) supplemental disclosure to its management information circular dated September 11, 2023 (the "**Circular**") regarding the process undertaken with the TSX Venture Exchange (the "**TSXV**") whereby the TSXV requested amendments to the Loans issued between June 2021 and September 2022 in the aggregate amount of US$56,165,000 (the "**COVID Loans**").

Clarification Regarding Previous Disclosure

As a result of the COVID-19 pandemic, the REIT experienced material decreases in revenues, results of operations and cash flows. The impact to the global economy caused by the response to the COVID-19 pandemic also negatively impacted the REIT's ability to obtain new financing. The Loans were advanced, in most cases, in critical moments to principally fund the REIT's ongoing operating expenses and to satisfy interest and principal payments due on third party debt. In certain situations, the proceeds from the Loans were used to fund acquisitions designed to improve the financial condition of the REIT. Without the Loans, the REIT would likely not have been able to continue its operations as a going concern.

Each of the Loans was unsecured, had a 20-year term and bore interest at rates ranging from 1.82% per year to 7.5% per year (which were market interest rates at the time of their issuance). Of those Loans, the COVID Loans bore interest at rates ranging from 2.25% per year to 7.5% per year. As of June 30, 2023, approximately US$83 million of the Loans remained outstanding. From the time of issuance to the present, the holder of the Loans has had the right to convert the principal and interest owing under the Loans into class B units (the "**Class B Units**") of NHT Operating Partnership, LLC (the "**OP**") on the basis of the market price of the REIT's trust units (the "**Units**") at the time of conversion.

Previous disclosure of the REIT stated that the Loans were, subject to approval of the TSXV, convertible at any time at the election of the REIT into Class B Units. The REIT wishes to clarify and correct this earlier disclosure. The Loans are, and have always been, only convertible into Class B Units at the option of their respective holder. However, if any of the Loans are converted by their respective holders into Class B Units and the holder then elects to redeem those Class B Units, the REIT may elect to satisfy the redemption by issuing Units to the holder. Any issuance of Units or repayment of the Loans in Units would be subject to the approval of the TSXV.

NEXPOINT
HOSPITALITY TRUST

Supplemental Disclosure to Circular

As disclosed in the Circular, the COVID Loans were filed with the TSXV at various points during 2021 and 2022, as loan submissions pursuant to TSXV Policy 5.1 – *Loans, Loan Bonuses, Finder's Fees and Commissions* ("**Policy 5.1**"). The REIT filed in this manner as the Loans were not, as described above, convertible by the holder into publicly traded Units (Units were only issuable at the election of the REIT, subject to TSXV approval) and therefore, based on the guidance in Policy 5.1, were subject to filing under Policy 5.1.[1] As a result of filing under Policy 5.1, since any issuance of Units on a redemption of Class B Units received by a holder of the COVID Loans was subject to TSXV approval, the REIT believed its position was consistent with the requirements and guidance of Policy 5.1. The REIT commenced filing on this basis in early 2021 and these filings were not questioned until December 2022, when the TSXV advised the REIT that it believed the COVID Loans were required to be treated as "Convertible Securities" under TSXV Policy 4.1 – *Private Placements* ("**Policy 4.1**") rather than loans under Policy 5.1. While all the Loans were filed with the TSXV, the TSXV only raised this issue with respect to the COVID Loans; it did not raise it with respect to the other Loans. Following this notification, the REIT engaged with the TSXV and presented support for its filings under Policy 5.1, but ultimately the TSXV concluded that Policy 4.1 should apply. Due to this determination and in order to satisfy the requirements of Policy 4.1, the TSXV required the following amendments (the "**Amendments**") to the COVID Loans (which amendments would bring the COVID Loans into compliance with the terms expressly prescribed by Policy 4.1 for convertible securities): (i) either the conversion feature be removed or limited to five years from the date of issuance of each COVID Loan (which represents the maximum length of the conversion period); (ii) the conversion feature be limited to the principal amount of the COVID Loan (rather than the principal amount plus interest); and (iii) the conversion price be fixed at a price equal to the market price of the REIT's Units on the TSXV at the time of the issuance of such COVID Loan.

There was no negotiation with the TSXV regarding the substance of the Amendments as the TSXV's position was simply that the COVID Loans had to be amended to comply with Policy 4.1. The REIT worked expeditiously to obtain consent to the Amendments from each of the lenders (the "**Lenders**") under each of the COVID Loans. With the Lenders' cooperation and desire to ensure the REIT's compliance with TSXV policies, the Lenders agreed to implement the Amendments. However, the REIT was not in a position to negotiate these amendments with the Lenders – it was seeking the cooperation of the Lenders to adjust the conversion provisions or remove them altogether to satisfy the TSXV policies. For one COVID Loan, the Lender agreed to remove the conversion right altogether. For the remaining COVID Loans, the Lenders opted to limit the conversion period to five years. The REIT did not enter into any other agreement, beyond the Amendments themselves, with the Lenders in connection with the Amendments. In that

[1] Policy 5.1 provides as follows: "…For the purposes of this Policy, the term "loan" will include any form of debt instrument issued by an Issuer that is not convertible into Listed Shares."

NEXPOINT
HOSPITALITY TRUST

circumstance, the board of trustees of the REIT (the "**Board**") determined that the concessions obtained from the Lenders were fair and reasonable.

The Board undertook a thorough review of the terms of the Amendments to the COVID Loans and concluded that the Amendments were in the best interests of the REIT. As described in the Circular, the Board: (i) considered the terms of the Amendments to the COVID Loans; (ii) considered the need to comply with the requirements of the TSXV in order to maintain a listing for the Units; and (iii) consulted with its legal advisors, to reach this conclusion. In considering the terms of the Amendments under (i) above, the REIT and the Board considered that the Amendments would provide a clear benefit to the REIT and unitholders (including minority unitholders) by (i) shortening the time period in which the conversion right can be exercised from 20 years to five years (or removing the conversion right altogether); (ii) fixing conversion prices for the COVID Loans at prices greater than the current market price; and (iii) reducing the amount convertible from principal and interest to only principal. As a result of the Amendments, the potential dilution of the REIT's unitholders would be materially reduced. Further, as failure to implement the Amendments would potentially result in the delisting of the Units, the Board determined that the Amendments were in the best interests of unitholders due to the likely adverse impact of delisting on the liquidity and value of the Units.

The REIT, Mr. Dondero, and the trustees and officers of the REIT, conducted reasonable inquiries pursuant to Section 8.1(2) of Multilateral Instrument 61-101 – *Protection of Minority Security Holders in Special Transactions* to determine the units to be excluded from the minority approval vote on the Amendments.

About NexPoint Hospitality Trust

NexPoint Hospitality Trust is a publicly traded real estate investment trust, with its Units listed on the TSX Venture Exchange under the ticker NHT.U. NHT is principally focused on acquiring, owning and operating well-located hospitality properties in the United States that offer a high current yield and in many cases are underperforming assets with the potential to increase in value through investments in capital improvements, a market-based recovery, brand repositioning, revenue enhancements, operational improvements, expense inefficiencies, and exploiting excess land or underutilized space. NHT owns 9 branded properties sponsored by Marriott, Hilton, Hyatt, and Intercontinental Hotels Group, located across the U.S. NHT is externally advised by NexPoint Real Estate Advisors VI, L.P.

Neither TSX Venture Exchange nor its Regulation Services Provider (as that term is defined in policies of the TSX Venture Exchange) accepts responsibility for the adequacy or accuracy of this release.

VIA EMAIL (complianceanddisclosure@tsxventure.com)

Dear Mr. Sanghera,

Re: NexPoint Hospitality Trust

I write further to my letter to you concerning NexPoint Hospitality Trust (**"NHT"**), sent on behalf of Highland Capital Management, L.P. (**"Highland"**) on October 27, 2023.

The responding email from the TSXV's Compliance Services, dated October 30, 2023, notified us that we would likely hear nothing further from the TSXV on this matter. However, on October 31, 2023, Stella Yu of the TSXV asked for Highland's consent to provide the letter to NHT and its counsel. I conveyed Highland's consent the following day.

I write to ask whether we can be of any additional assistance in this matter. I also write to inquire whether the TSXV is able to share with us any update concerning its response to our October 27, 2023 letter – and, in particular, whether the TSXV intends to require amendments to the convertible notes that are the subject of the letter, in order to bring them into compliance with TSXV Policy 4.1. As will be apparent from the overwhelming dilution that these non-compliant convertible notes have the potential to cause minority unitholders to suffer if unamended, this is a matter of significant importance to Highland's interests, and to those of NHT's other minority unitholders.

Sincerely,

POLLEY FAITH LLP

Jeffrey Haylock

1 THE COURT: -- set a motion of the debtor for entry
2 of an order authorizing but not directing the debtor to cause
3 distributions to certain related entities.
4 Let's get lawyer appearances in the courtroom.
5 MR. POMERANTZ: Good afternoon, Your Honor. Jeff
6 Pomerantz and Greg Demo, Pachulski Stang Ziehl & Jones, on
7 behalf of the debtors.
8 THE COURT: Thank you.
9 MS. HAYWARD: Good afternoon, Your Honor. Melissa
10 Hayward and Zachary Annable of Hayward & Associates on behalf
11 of the debtor.
12 THE COURT: Thank you.
13 MR. CLEMENTE: Good afternoon, Your Honor. Matthew
14 Clemente, Dennis Twomey, and Penny Reid from Sidley Austin on
15 behalf of the Official Committee of Unsecured Creditors.
16 THE COURT: Thank you.
17 MS. SHRIRO: Good afternoon, Your Honor. Michelle
18 Shriro on behalf of CalPERS. And I also have my co-counsel
19 Louis Cisz from Nixon Peabody, and he is -- he should be on the
20 line.
21 THE COURT: Okay. Thank you.
22 MR. LYNN: Good afternoon, Your Honor. Michel Lynn
23 and John Bonds for James Dundero.
24 THE COURT: Okay. Thank you.
25 MS. PATEL: Good afternoon, Your Honor. Rakhee

1 Patel, Winstead PC, on behalf of Acis Capital Management, LP,
2 and Acis Capital Management, GP, LLC. Also, I have my co-
3 counsel Mr. Brian Shaw of the Rogge Dunn Firm on behalf of the
4 same clients.
5 THE COURT: Thank you.
6 MR. PLATT: Good afternoon, Your Honor. Mark Platt
7 firm Frost Brown Todd on behalf of the Redeemer Committee of
8 the Highland Crusader Fund. And I believe Terry Mascherin is
9 on the phone, as well --
10 THE COURT: All right.
11 MR. PLATT: -- from Jenner & Block.
12 THE COURT: Thank you.
13 MS. ANDERSON: Good afternoon, Your Honor. Amy
14 Anderson with Jones Walker on behalf of the Issuers. I believe
15 Mr. James Bentley with Schulte Roth is also on the phone on
16 behalf of the same parties.
17 THE COURT: Okay. Thank you.
18 All right. We do have a large number of people on
19 the phone. I'm just going to go through the live lines and
20 take roll. Asif Attarwalla for UBS, are you there?
21 MR. ATTARWALLA: Here. Yes, Your Honor.
22 THE COURT: All right. James Bentley?
23 MR. BENTLEY: Yes, Your Honor. I'm here.
24 THE COURT: Okay. Also Jeff Bjork from Latham?
25 Yes/no?

1 (No response)

2 THE COURT: All right. Earnestiena Cheng for FTI?

3 MS. CHENG: Yes, Your Honor.

4 THE COURT: Okay, thank you. And Louis Cisz, I think

5 we heard he was CalPERS co-counsel. Are you there?

6 MR. CISZ: Yes, I am, Your Honor.

7 THE COURT: All right. Thank you. Kimberly Gianis

8 for Contrarian? Yes/no?

9 (No response)

10 THE COURT: All right. Terry Mascherin, I think we

11 heard he was there for the Redeemer Committee.

12 MR. MASCHERIN: Yes, Your Honor.

13 THE COURT: Okay. I'll just ask anyone else on the

14 phone who wishes to appear, go ahead at this time.

15 (No response)

16 THE COURT: All right. That may be it.

17 All right. Mr. Pomerantz, I see a 20-minute time

18 estimate on our calendar. I'm not sure where that came from,

19 but that --

20 MR. POMERANTZ: I think that's quite aggressive.

21 THE COURT: Okay.

22 MR. POMERANTZ: Good afternoon again, Your Honor.

23 Jeff Pomerantz, Pachulski Stang Ziehl & Jones. First, I want

24 to thank Your Honor for scheduling the hearing on shortened

25 time. I would also like to introduce once again the three

1 members of the independent board who have been appointed
2 pursuant to the settlement, Your Honor, that Your Honor
3 approved on January 9th. That's James Seery, John Dubel, and
4 Russell Nelms.
5 THE COURT: Okay. Hello.
6 MR. POMERANTZ: I thought it might be helpful, Your
7 Honor, to provide Your Honor with a brief background of each
8 board member, how they have been approaching their duties as
9 independent directors, and what the focus has been the first
10 two months of the case. And then I will go into the background
11 of this present motion.
12 THE COURT: Okay.
13 MR. POMERANTZ: James Seery will be the debtor's
14 witness at today's hearing, and he's a 30-year restructuring
15 lawyer with extensive experience with high-yield and distressed
16 investing both as a principal and manager which is precisely
17 the business in which the debtors operate. He is an attorney
18 licensed to practice in New York who has passed and held the
19 Series 7, 63, 79, SIE and Series 24 FINRA principal
20 designations.
21 From April 2012 to 2017, he was the president and
22 senior investing manager of RiverBirch Capital. And RiverBirch
23 is an SEC-registered investment advisor managing a $1.3 billion
24 global long short fund that focused on high yield loans, bonds,
25 CLOs, and distressed investments. Prior to that, Mr. Seery

1 spent ten years as a senior high yield manager at Lehman
2 Brothers, and he was the global head of Lehman Brothers fixed-
3 income loan business.
4 Accordingly, Mr. Seery brings to his role as an
5 independent director a unique combination of a legal
6 background, restructuring experience, and a deep knowledge of
7 the highly regulated business in which the debtor operates.
8 Mr. Dubel brings 35 years' practice in the
9 restructuring area. His experience includes turnaround
10 management, crisis management, operational restructurings, and
11 corporate acquisitions and divestitures. He's worked at both
12 sides of the table, both on the company side and other side.
13 And he brings a unique perspective to each situation, and he
14 spent the last ten years being an independent director for a
15 wide range of distressed companies including Purdue Pharma
16 which obviously is the newest in current Chapter 11, WMC
17 Mortgage, Wartaco (phonetic), FXI, and ResCap.
18 And as an independent board member, he's plated a
19 principle role in overseeing management, negotiating with
20 creditors, supervising and investigating resolution, either
21 consensually or through litigation of insider and affiliate
22 claims, and also spearheading reorganization efforts.
23 I'm sure Your Honor is familiar with Russell Nelms
24 but briefly he was a distinguished bankruptcy litigator with
25 Carrington Coleman for 20 years which followed a stint of six

1 years as a United States Army judge advocate, and also he sat
2 with the bankruptcy court here in Fort Worth from 2004 to 2018.
3 Your Honor, these individuals bring a complementary
4 skill set to the independent board that have made them uniquely
5 qualified to manage the debtor's restructuring efforts in this
6 case, that bring a combination of sophisticated asset
7 management experience, financial restructuring, a legal
8 insolvency background, and judicial experience. They've been
9 involved in many cases on all sides of the aisle, whether it's
10 been alleged wrongdoing or questionable conduct with people
11 they've ever had to supervise as a board member, advise as a
12 restructuring lawyer, work with as a financial advisor, or
13 administer their cases as a judge.
14 Mr. Seery and Dubel were selected by the Committee
15 not only because of their relevant expertise but because of
16 their commitment to independence and ability to stand up to
17 strong personalities that exist on all sides of this case. Mr.
18 Nelms, while originally identified by the debtor, was scheduled
19 by the Committee, and was ultimately chosen to be the third
20 board member by Mr. Seery and Dubel from a group of highly-
21 qualified candidates.
22 Your Honor, I provide this background to stress that
23 the independent board consists of individuals whose background
24 and experience speak to their independence, experience, and
25 strength, and who take their job seriously to do what they

1 believe is right for this debtor, and they're not bring
2 influenced by any party in this case, be that the debtor, Jim
3 Dondero, members of the management committee, members of the
4 debtor's management, or the creditors' committee. The
5 reputations of each of these gentlemen at are stake in a case
6 like this, and they take their attendance very seriously.
7 Upon taking over on January 9th, 2020, the board
8 quickly made a few observations about the current circumstances
9 that have guided their actions today. First, the board
10 understood that the debtor was where it was in part due to many
11 years of intense litigation arising out of sometimes aggressive
12 management decisions or failure to settle certain employee
13 disputes and that the litigation led to cost and diversion of
14 time and energy for what the debtor did best which was manage
15 assets.
16 The board concluded that for case to succeed, the
17 board would have to chance the culture from one of litigation
18 to reconciliation and consensus building. It doesn't mean that
19 the debtor will back down from defending itself from claims
20 that it doesn't believe are legitimate but rather the
21 litigation that the company under their watch would be involved
22 in would need to be carefully vetted by the independent board,
23 outside advisors, and the results of which would guide the
24 board's conduct.
25 The board's focus has and continues to be operating

1 the debtor's business in accordance with its obligations of
2 their debtor in possession in conformance with its statutory,
3 contractual, and fiduciary obligations as an investment
4 advisor. By scrupulously meeting its obligations as an
5 investment advisor, the debtor will continue to enhance the
6 asset management business and avoid the litigation that
7 contributed to this case.
8 Second, the board understood the relationship between
9 the debtor's largest creditors and senior management had
10 materially deteriorated and that there was severe lack of trust
11 that creditors had with respect to management. The board
12 initially determined, has determined to continue retaining the
13 services of senior management because it believes that their
14 historical background and deep knowledge of the debtor's assets
15 provide material value to the estate. However, the board's
16 decisions thus far have and will continue to be based upon
17 their independent review of the facts and circumstances and
18 based upon consultation with outside advisors as appropriate.
19 Third, the board believe that a lengthy stay in
20 Chapter 11 only would serve to erode asset value while at the
21 same time leading to extensive restructuring costs. The Court
22 and the board developed a timeline that will hopefully lead to
23 a confirmed plan at the end of the year.
24 Against this backdrop, the board is focused on the
25 following things the first two months of the case. Initially,

1 the board met with all department heads and other members of
2 senior management including Mr. Dondero and let them know that
3 the board was now in charge and that all business decisions
4 needed to be run by the board subject to the board delegating
5 authority as it deemed appropriate.
6 The board has had several calls with the committee
7 and its professionals to discuss among other things the board's
8 initial determination as to staffing levels and employee
9 compensation, time-sensitive transactions that needed the
10 committee's input under the Court's approved operating
11 protocols, and the proposed timeline for achieving
12 restructuring. There is an in-person meeting scheduled next
13 week in New York City between all the committee members and
14 their professionals and the debtor and their professionals.
15 Members of the board have also reached out to
16 individual committee members and have had or will have meetings
17 with them to understand their specific concerns with the debtor
18 and to importantly have a dialogue about the claims they have
19 against the debtor, as resolving the claims against the debtor
20 is a key part of achieving a consensual restructuring in this
21 case.
22 The debtor's asset basis is also extremely complex,
23 and the board has worked hard to get a grasp on how best to
24 maximize their value. The board has analyzed the debtor's
25 liquidity needs and worked with the debtor's chief

1 restructuring officer to develop a 13-week cash flow and
2 otherwise address how to enhance liquidity. The board has also
3 conducted a thorough review of the debtor's employee basis,
4 including performance reviews and address ongoing staffing and
5 compensation in a manner that the board believes will sustain
6 the debtor's business operations and maximize value.
7 Related to the motion before the Court, the board has
8 evaluated the status of certain funds which were in the process
9 of being wound down at the commencement of the case and has
10 supervised their wind-down in a manner consistent with the
11 debtors' fiduciary, statutory, contractual liabilities. The
12 board has also commissioned outside counsel to provide an
13 independent analysis of the significant litigation claims that
14 are facing the debtor. And as I mentioned, the board
15 anticipates engaging with these creditors to seek a resolution.
16 The board is acutely aware that resolving
17 consensually claims of creditors and claims the estate has
18 against third parties is the only way to restructure this
19 debtor efficiently and economically. I'll now turn Your Honor
20 to the background with respect to the motion, explain the
21 relief requested, and address the two objections that are
22 before the Court.
23 Your Honor will hear testimony from Mr. Seery that
24 the debtor is the asset manager of two hedge funds, Dynamic and
25 ARF, that are in liquidation because of redemption requests

1 from large non-affiliated investors that render the funds
2 economically not viable. The term of the third fund, which is
3 a private equity fund, Restoration Capital expired, and the
4 governing board comprised of large institutional pension funds
5 has refused to grant further extensions.
6 Mr. Seery will testify that while these wind-downs
7 were already in process and fully disclosed to the Court prior
8 to the installation of the independent board, the board
9 evaluated the decision to wind down the funds independently of
10 the debtor's decision and decided that the prudent exercise of
11 the debtor's business judgment was to continue with the wind-
12 down. Neither the committee nor Acis challenge the board's
13 selection to continue with the wind-down.
14 You will hear testimony from Mr. Seery that a
15 priority of the independent board was to make sure that the
16 debtor operated in accordance with applicable law to ensure
17 that the debtor fills its obligations to investors and doesn't
18 act or fail to act in a manner which could expose the debtor to
19 liability. After all, as I mentioned, Your Honor, a material
20 reason why the debtor is before the Court is because of
21 litigation claims that have plagued it over the last several
22 years.
23 Mr. Seery will testify that in evaluating the
24 debtor's duties and obligations as an asset manager of these
25 three funds, the board consulted with bankruptcy counsel with

1 respect to the applicability of the operated protocols and
2 domestic and Cayman counsel specializing in advising funds with
3 respect to their obligations under the transactional documents,
4 the Advisors Act, and general fiduciary duty obligations.
5 Tim Silva, a partner of WilmerHale, the debtor's
6 outside firm that provides fund advice, is present in the
7 courtroom and will be available to answer any questions the
8 Court or the parties have. Dennis Olarou, a partner with Carey
9 Olsen, is on the phone. He is the debtor's Cayman counsel and
10 also available.
11 Importantly, Mr. Seery will testify that the
12 independent board made the decisions that led to the filing of
13 this motion based upon their own expertise and the advise of
14 outside counsel and did not rely on the advice of the debtor's
15 employees or any of the related parties.
16 He will further testify that based upon the input of
17 outside counsel, the independent board concluded, one, that the
18 operating documents governing the funds did not permit the
19 debtor to unilaterally withhold distributions from some
20 investors and not others; that, two, the debtor risked
21 breaching its fiduciary duty to investors under principles of
22 common law if it withheld distributions on its own; and that,
23 three, the debtor risked liability under the Advisors Act if it
24 essentially attempted to use its position as an investment
25 manager to gain leverage against investors in connection with

1 an unrelated matter, to wit, potential claims that the estate
2 may have.
3 The motion describes in detail the nature and extent
4 of the debtor's obligations, and I think the substance of that
5 is not challenged by either the Committee or Acis. I didn't
6 read their objections to challenge that the debtor has these
7 obligations and seeks to fulfill them.
8 Based upon the foregoing and to make sure that the
9 debtor didn't expose itself to liability, Mr. Seery will
10 testify that the board decided that it was obligated to
11 exercise its authority as asset manager to distribute the funds
12 to all investors. After consultation with the bankruptcy
13 counsel, Mr. Seery will testify that the independent board
14 decided to provide the Committee with notice prior to making
15 such distributions as were required by the operating protocols
16 approved as part of the settlement.
17 The Committee objected to the distributions which led
18 to the filing of this motion. The objections relate to
19 distributions to be made as follows. Mr. Seery will testify
20 that Dynamic proposes to distribute $35 million of investor
21 funds that are held by Dynamic of which CLO Holdco stands to
22 receive $872,000 and Mr. Okada stands to receive $4,176,000.
23 With respect to ARF, Mr. Seery will testify that they
24 propose to distribute $22 million of investor funds held by
25 ARF. HoldCo stands to receive $1.5 million. And with respect

1 to Restoration Capital Partners, it proposes to distribute
2 $123,250,000 of which 2.1 million will be received by ACM
3 Services and, importantly, the debtor will receive 18 and a
4 half million dollars, the balance of approximately 121 million
5 would be distributed to non -- or 103 million would be
6 distributed to non-related parties, including CalPERS which
7 filed the statement with the Court.
8 The Committee and Acis argue that the Court should
9 prohibit the debtor from making distributions to related
10 parties, notwithstanding the debtor has contractual, fiduciary,
11 statutory obligations to do so as an asset manager. It is
12 important for the Court to understand that the money to be paid
13 to these related parties is not the debtor's money, it's not
14 property of the estate. It's actually funds that are the
15 investors' funds that were invested in these various funds.
16 Essentially, the Committee argues and Acis argues
17 that because the debtor may assert claims against some of all
18 of these related parties at some time in the future, the Court
19 should prohibit the debtor from authorizing the distribution of
20 non-debtor estate funds. Essentially as we said in our papers,
21 the objectors are asking this Court to issue a pre-judgment
22 write of attachment adjoining these distributions without the
23 filing of any complaint which would assert causes of action,
24 without the need to satisfy applicable standards for a pre-
25 judgment writ either under Federal Rule of Civil Procedure 64

1 estate law, and without appropriate notice to the parties and
2 an opportunity to object.
3 The objectors want to use the debtor's position as an
4 asset manager to stop distribution of funds in which the debtor
5 has no interest to gain a potential litigation advantage
6 against these related parties. The debtor just submits that is
7 not appropriate. The Committee and Acis spent a lot of time in
8 their papers talking about the allegations and in some estate
9 case findings against the debtor's prior management relating to
10 the operation of the debtor's business, some of which have
11 matured into claims against the estate.
12 However, the fact that the debtor's actions taken by
13 prior management led to claims against the debtor is not
14 legally relevant as to whether the debtor should be permitted
15 to make these distributions of non-estate funds. Allegations
16 of prior wrongdoing would not be sufficient in the context of a
17 pre-judgment attachment, and it should not form the basis for
18 essentially the injunctive relief the Committee and Acis urge
19 to the Court.
20 The Committee also argues that because the
21 Committee's currently investigating claims against the released
22 parties and other insiders that the distribution should be held
23 up essentially indefinitely until the Committee completes its
24 investigation. Whether or not the estate has claims against
25 the related parties and insiders is unknown at this point

1 except for the notes which I will address in a moment.
2 Also, whether or not there are claims and how the
3 related parties acquired their investment in the funds is also
4 unknown at this time. Since January 9th, the Committee has had
5 standing to investigate and prosecute these claims and the
6 debtor is cooperating with the Committee in its investigation.
7 If legitimate claims exist, they should most certainly be
8 prosecuted, and the independent board will cooperate with the
9 Committee in its efforts.
10 However, at this point other than with respect to the
11 notes, there is no admissible evidence that any claims exist,
12 and no claims have been clearly articulated other than some
13 vague allegations of fraudulent conveyance, breach of fiduciary
14 duty, the garden variety of claims you would expect to be
15 asserted in a case like this. Again, no bankruptcy court, no
16 non-bankruptcy court would be authorized to enjoin payments on
17 the basis of these vague and unasserted claims, and the Court
18 shouldn't accept the invitation to do so wither.
19 The Committee also points to certain demand notes
20 executed by Jim Dondero, Mark Okada, and ACM Services in favor
21 of the debtor as a basis for withholding the distributions.
22 The debtor has made a demand on Mr. Okada to pay back the note,
23 and he has asserted that he may have potential offsets and the
24 nature of potential service obligations and expense
25 reimbursements allegedly owed to. At some point in time, we

1 suspect those issues will be resolved either consensually or
2 there will be litigation to recover the demand.
3 ACM Services which is owned 75 percent by Mr. Dondero
4 and 25 percent by Mr. Okada, executed several notes in favor of
5 the debtor of which 850,000 are demand notes. The total amount
6 is approximately seven and a half million. The remaining notes
7 are current and have been paid down over the years.
8 The debtor has not made demand on ACM Services for
9 payment of the notes, nor have they made demand on Mr. Dondero
10 for payment of the notes he issued in favor of the debtor. Mr.
11 Seery will testify that the reason for that is that, as I
12 indicated before, the board recognizes that in order for there
13 to be a consensual restructuring in this case, it's going to
14 involve not only resolution with the creditors and their claims
15 but also resolution with Mr. Dondero or potential claims the
16 estate has.
17 The independent board at this early stage in the case
18 does not believe that commencement of an adversary proceeding
19 against Mr. Dondero at this time is in their best interest. If
20 this case turns into a litigation case, and as Your Honor
21 experienced previously, then such litigation will be commenced.
22 However, until the board has the opportunity to try to forge a
23 consensual resolution, aggressive action is premature. The
24 last thing, Your Honor, CLO Holdco is not a party to any demand
25 notes.

1 THE COURT: Let me stop you.

2 MR. POMERANTZ: Sure.

3 THE COURT: You mentioned dollars on the notes. The

4 note receivable from Okada I think is 1.3 million.

5 MR. POMERANTZ: With credentials, yes.

6 THE COURT: And then you mentioned roughly seven and

7 a half million of notes receivable from HCM Services.

8 MR. POMERANTZ: Of which 950 are demand notes. The

9 rest are currently before me in accordance with the terms.

10 THE COURT: Okay. You didn't mention a dollar amount

11 on the note receivable from Dondero. My notes show 9.3

12 million.

13 MR. POMERANTZ: Yeah, and so I think that's around

14 that --

15 THE COURT: Is that a demand note or notes?

16 MR. POMERANTZ: That is a demand note and then the

17 related party notes, yes --

18 THE COURT: Okay.

19 MR. POMERANTZ: -- Your Honor. And, again, we're now

20 the board knows, fully aware. The board could have commenced a

21 lawsuit. Honestly, Your Honor, the Committee could have

22 commenced a lawsuit in the last two months. I suspect the

23 Committee also would like to see a consensual restructuring.

24 And I think parties are taking the view of, again,

25 this can be a litigation case which would be like a lot of

1 money for all the professionals, not really do all that well
2 for the creditors. Or the parties could cooperatively work
3 towards a restructuring to see based upon the leverage, based
4 upon the claims everyone has that it makes more sense. And the
5 board's determination, again, made on its own coming into this
6 case in the last two months is that proceeding aggressively now
7 just does not make sense.
8 Even though it has not commenced any litigation
9 against the related parties nor presented any evidence of any
10 claims against the related parties, the Committee asks this
11 Court to use its equitable powers under Section 105 to enjoin
12 the distribution again of non-estate funds to the related
13 parties. Your Honor, bankruptcy court -- bankruptcy
14 practitioners in certain cases love to use 105, assert 105. My
15 experience has been when you assert 105 and that's all you
16 assert 105, it really means you don't have much authority and I
17 think that's the case here.
18 The courts have held that 105 is not -- grant the
19 court authority to be a roving commission to do equity because
20 it has to be tethered to something in the Bankruptcy Code.
21 Here the proper way for the Committee to obtain the relief they
22 sought was to file a complaint and seek pre-judgment remedy,
23 either an attachment under Rule 64 or an attachment under
24 applicable provisions of Texas law or other applicable law, or
25 an injunction under FRCP 65.

1 The debtor would not stand in the way if the
2 Committee decided to do that. That's what the debtor bargained
3 for. They gave the Committee the authority to do that. The
4 Committee has not yet done that. And the Court should just not
5 allow the debtor -- the Committee to use the debtor's position
6 as fiduciary to its investors as leverage. That's what's
7 really happening. The only reason we're here is because the
8 debtor is the asset manager of these other funds, and the
9 Committee and Acis want the debtor to use that leverage and
10 somehow to gain an advantage.
11 Your Honor, we would submit that the fiduciary duty
12 of the estate is to act in accordance with its obligations, and
13 that's the primary fiduciary duty and that the creditors are
14 best served if the company complies with its obligations and
15 doesn't expose the estate to any liability.
16 Lastly, Your Honor, I want to address the Committee
17 and Acis's allegations regarding the circumstances surrounding
18 the sale of the MGM shares, the proceeds of which the debtors
19 intend to use to distribute as part of the RCP fund. Whether
20 or not Mr. Dondero's authorized to make that trade, it's really
21 irrelevant to the issues before the Court. The independent
22 board first learned about the trade only a few weeks ago, and
23 the independent board -- and, again, this happened back in
24 November, two months before the independent board took over.
25 They promptly investigated the circumstances around the trade,

1 engaged counsel to advise whether it was binding and,
2 importantly, evaluated whether the trade was a sound exercise
3 in the debtor's business judgment at that time.
4 The board concluded that the trade was binding and
5 that it in fact was a good trade as of November 2019 and
6 disclosed that information to the Committee and engaged the
7 Committee in a dialogue to discuss the options that the debtor
8 had with respect to that trade. The Committee, while I
9 understand was not unanimous, ultimately agreed with the
10 independent board that it was in the debtor's best interest to
11 consummate that trade. While we understand that the Committee
12 and Acis may want to investigate the circumstances surrounding
13 that trade to determine whether the estate has any colorable
14 claims that could be asserted, that doesn't provide a basis for
15 enjoying the distribution of the funds.
16 Moreover, the allegation in Acis papers that Mr.
17 Dondero used his position on the board of MGM to facilitate the
18 trade so that ACM Services could receive $2.1 million of 123
19 and $250,000 sale, it just lacks and factual support. And, in
20 fact, Mr. Dondero has steadfastly encouraged the investment
21 board not to sell the MGM shares because he believes they will
22 continue to appreciate and the estate and its creditors would
23 be benefitted thereby.
24 The reason that the RCP shares were sold is as I
25 mentioned before, the RCP, the term of that private equity fund

1 expired. No more extensions were given, and the debtor as a
2 fiduciary and as an asset manager needed to liquidate the
3 assets in that estate which included the shares. But, again,
4 if there are claims surrounding how that happened, we
5 understand there's concern that the creditors have about the
6 circumstances, they can investigate them and the independent
7 board will surely cooperate with such investigation.
8 In conclusion, Your Honor, this independent board was
9 installed because of its independence and sophistication in
10 managing a business as complex as the debtor's. As you will
11 hear in the testimony, the independent board has been
12 thoughtful and thorough in its approach to the issues raised by
13 this motion and is trying to manage the debtor in a responsible
14 way to maximize value and prevent the estate from incurring any
15 liability. The independent board understands and shares the
16 Committee's and Acis's decision to hold other parties
17 accountable for any liability they have against the debtor
18 arising out of conduct that occurred pre- or post-bankruptcy.
19 But trying to use the debtor's role as an independent asset
20 manager and fiduciary duty to investors is inappropriate and
21 create risks for the estate.
22 For these reasons, Your Honor, the debtor
23 respectfully requests that the Court approve the motion and
24 overrule the objections.
25 THE COURT: All right, thank you. Other opening

1 statements, Mr. Clemente?
2 MR. CLEMENTE: Yes, Your Honor. You actually touched
3 on a question that I had. I assume I have more fulsome
4 comments that I had anticipated making after testimony, but so
5 I would reserve the opportunity to do that. It was quite a
6 lengthy opening there, so I didn't know whether there was going
7 to be the opportunity for that after testimony, but --
8 THE COURT: Certainly.
9 MR. CLEMENTE: -- I certainly want to reserve that.
10 Thank you, Your Honor.
11 So I do have some opening remarks prepared, but I'm
12 going to react a little bit to what I just heard. I and the
13 Committee do not dispute the credentials of the board. We
14 obviously were involved in choosing them. I heard a lot about
15 the duty to, quote/unquote, investors. I don't think I heard a
16 word about the duty to the creditors and to the estate. And I
17 think it's important when thinking about the investors that Mr.
18 Pomerantz keeps referring to, the Committee is not talking
19 about the legitimate third party investors, the CalPERS. The
20 Committee is talking about the very people that were in charge
21 of this debtor while breaches of fiduciary duty were rampant
22 and their related entities that resulted in the filing of this
23 bankruptcy case.
24 And I find it a little bit rich, Your Honor, that
25 their debtor is using the duty to investors to include third

1 parties to try and come in here and passionately argue that
2 distribution should be made at this time to these insider
3 parties without a word at all about why it may actually be in
4 the creditors' best interest or this estate's best interest to
5 not make those distributions at this time. So those were a
6 couple of comments that struck me as I was listening to what
7 Mr. Pomerantz said.
8 But let me be clear, Your Honor, as Your Honor is
9 aware the debtor is in bankruptcy because of the documented and
10 egregious breaches of fiduciary duties and contractual
11 obligations to its creditors and its propensity for fraudulent
12 and litigious conduct as documented. Mr. Dondero and until
13 recently Mr. Okada dominated all aspects of the debtor and
14 controlled all of its decision-making, including the decision-
15 making that led various tribunals, including this Court, to
16 conclude that the debtor had breached its fiduciary duty,
17 engaged in fraudulent conduct, and employed persons who are not
18 credible and not truthful.
19 Against this backdrop, Your Honor, the debtor wants
20 to make distributions to investors, again, the investors we're
21 talking about here are Mr. Okada, and entities owned and/or
22 controlled by Mr. Dondero and Mr. Okada without regard
23 apparently because I didn't hear anything about that to the
24 interest of creditors under the rubric of a fiduciary duty that
25 is supposedly owed to those insider parties, the same insider

1 parties, Your Honor, who were found to have breached the duties
2 to the creditors of this estate or to the investors which then
3 resulted in them becoming creditors of this estate and led to
4 the bankruptcy.
5 Your Honor, I think the irony is fairly thick, and I
6 don't think the Court should allow the distributions at this
7 time. These insider parties, and I'm glad Mr. Pomerantz
8 mentioned it to you because their papers did not mention the
9 notes that were owed, they owe the debtor millions of dollars.
10 The numbers that Your Honor read are just the direct notes
11 among those parties. They do not include the notes that are
12 owed by, for example, affiliated entities of Mr. Dondero. So
13 those numbers are even larger than what Mr. Pomerantz suggested
14 to Your Honor.
15 Second, as the debtors do finally disclose in their
16 papers, the insider parties receive certain of the insider
17 interests from the debtor pursuant to transactions that were
18 only recently disclosed to the Committee and not have been
19 examined by the Committee. So in many of the circumstances,
20 the very interests that are giving rise to the basis for these
21 distributions once belonged to the debtor.
22 Third, obviously, the insider parties are the focus
23 of the Committee's ongoing investigation of the estate causes
24 of action, and that's entirely appropriate given the long
25 history and the findings made by this Court and others

1 regarding the behavior of this debtor prior to the bankruptcy.
2 Your Honor, instead of allowing the distributions to
3 be made, the Court should direct that the distributions that
4 the debtor seeks to make to the insider parties to be placed
5 into a segregated interest-bearing account pending the
6 resolution of potential claims against the insider parties
7 including the collection of notes owed by the insider parties
8 and the investigation into the validity of the insider
9 interests.
10 If the insider parties have an issue with this,
11 obviously, they can come before Your Honor, perhaps they'll
12 come before Your Honor today, and explain to you why what is
13 being proposed is unfair to them or why despite the
14 circumstances surrounding this case, the rampant breaches of
15 fiduciary duty, the questionable transactions, and the
16 existence of the notes they owe the debtor they should receive
17 those distributions now. And we can do that after a fulsome
18 discovery of those parties, a fulsome record, full opportunity
19 to brief.
20 I believe, the Committee believes this is a very
21 sensible proposal, and it would seem to serve all interests.
22 The interests of the estate would be protected. Let's talk
23 about those. Obviously, we're more likely to recover on the
24 notes and any potential claims, including claims that the
25 insider interests were inappropriately obtained.

1 Mr. Pomerantz referred to the word "leverage."
2 Again, it's the estate, the estate should be thinking about how
3 it can actually collect on its claims and notes. So the word
4 "leverage" I don't think is appropriate here. It just seems
5 sensible. The interest of the insider parties would also be
6 protected. The money will be placed in a segregated account,
7 and the status quo would be preserved. And legitimate third
8 party investors, we are all fully in support of the legitimate
9 third party investors receiving their distributions. We've
10 never had an issue with that, Your Honor.
11 Mr. Pomerantz referred to the authority, Section 105.
12 I do believe the Court has ample authority under Section 105 of
13 the Bankruptcy Code to order the relief requested by the
14 Committee. Obviously, Section 105 is broad and, as we'll
15 discuss further later, it's been interpreted by this Court and
16 other courts to apply very broadly and in circumstances similar
17 to this.
18 Additionally, Your Honor, although I do not believe
19 105 needs to be tethered, I believe is the word that was used,
20 to other sections of the Code. I do believe that other
21 sections of the Code are implicated as the relief the Committee
22 requests impacts property of the estate which includes the
23 notes and potential claims against the insider parties as well
24 as the rights and obligations of the debtor under the various
25 contracts that Mr. Pomerantz referred to.

1 So, we have 105. If we need to tether it to
2 something, we can tether it to 541 and we can tether it to 363.
3 What we're asking the Court to do impacts property of the
4 estate, impacts the rights and obligations of the debtor.
5 Finally, Your Honor, there was a long discussion or
6 somewhat of a discussion about the fact that the Committee has
7 not sought a preliminary injunction or has not filed claims
8 against the insider parties. First, again, I believe Section
9 105 gives the Court the authority that it needs to provide the
10 relief. Second, the Court has the flexibility should it choose
11 to construe or find it necessary to construe our objection as a
12 request for a preliminary injunction and the request satisfies
13 that standard.
14 Third, Your Honor, this has been an expedited process
15 initiated by the debtor. If this Court believes that other or
16 further proceedings or processes are necessary or appropriate,
17 the Court should allow the parties the time for that. We
18 agreed to an expedited motion practice under the protocols.
19 That's a fact. The protocols cover a variety of circumstances
20 designed with the exigencies of the debtor's business in mind,
21 not designed with trying to speed distributions to Dondero,
22 Okada, and the insider parties. There simply is no exigencies
23 surrounding that, and the Committee should not be prejudiced if
24 this Court believes a further or other procedural vehicle is
25 necessary.

1 And a moment, Your Honor, on the investigation, as
2 Your Honor is aware the insider parties have dominated the
3 debtor for years. Only recently January 9th the Committee has
4 gotten the ability to investigate. And to date, we've been
5 doing that. I do dispute what Mr. Pomerantz said about the
6 debtor's cooperation. I believe that they've used words to
7 that effect but we've not gotten the documents that we need.
8 This is a complicated enterprise as Your Honor is aware. It's
9 unrealistic to think that we would be in a position to bring
10 claims against insider parties at this particular time in the
11 case. And we cannot be prejudiced by saying we should have
12 completed our investigation and had brought claims every time
13 the debtor thinks it should make a distribution to Mr. Dondero
14 or one of its related entities.
15 And so, Your Honor, to sum up, we think that the most
16 logical solution here and frankly the one that I assume the
17 debtor would have agreed with me on would be to come to this
18 Court, allow the distributions to be made to all the third
19 party investors, to withhold the distributions to the related
20 parties while the investigation occurs, while the notes are
21 settled, and while the Committee determines and the Court may
22 perhaps ultimately determine whether the interest that gave
23 rise to those distributions were in fact appropriately with
24 those parties.
25 Instead, we're here talking about duties owed to,

1 quote/unquote, the investors without considering what it is
2 that's owed to these creditors and to this estate. And with
3 that, Your Honor, we would ask that the motion be denied or
4 however you'd look at it but that the relief we noticed in our
5 paper be ordered by Your Honor.
6 THE COURT: Let me follow up and make sure I
7 understand a couple of things. You've said a couple of times
8 that it's just the distributions that would go to related
9 investors, Mark Okada, CLO Holdco, HCM Services. And I got the
10 impression from your pleadings as well as your oral statements
11 that the Committee is not challenging in any way the decision
12 to wind down these three funds, if you will. You know, my
13 reading of the pleadings was November 2019, you know, less than
14 a month after the bankruptcy was filed or about a month after
15 the bankruptcy was filed, you know, there were significant
16 redemptions. In the face of significant redemptions, the
17 debtor decided it was appropriate to wind these down.
18 Is that going to be the subject of evidence and
19 testimony today? Is the Committee at all concerned about how
20 that all played out, whether it was legitimate unaffiliated
21 investors seeking redemption or if it was by chance insider
22 investors?
23 MR. CLEMENTE: No, Your Honor. The Committee is not
24 challenging the wind-down as I believe you're referring to. We
25 are not doing that, Your Honor.

1 THE COURT: Okay. And this may be one instance where
2 it's kind of hard for me to separate what happened in the
3 related case of Acis versus this where we had all of a sudden
4 we don't want Acis to, you know, manage these in that case CLOs
5 anymore until redemptions were happening.
6 MR. CLEMENTE: I understand, Your Honor.
7 THE COURT: And the business judgment of that --
8 well, it's complicated, right.
9 MR. CLEMENTE: I completely understand.
10 THE COURT: It was, in the end of the day, depriving
11 Acis debtor of management fees. Same thing is happening here,
12 right? Highland is being deprived of management fees by the
13 wind-down of these three funds, but you're not challenging the
14 business judgment of the --
15 MR. CLEMENTE: That is correct, Your Honor.
16 THE COURT: -- whole process of the redemptions
17 period?
18 MR. CLEMENTE: That is correct, Your Honor.
19 THE COURT: Okay.
20 MR. CLEMENTE: There is a pot of funds sitting in
21 those funds, and there is a pot of funds sitting in RCP --
22 THE COURT: It was a legitimate non-affiliated
23 entity's --
24 MR. CLEMENTE: We're not challenging it, Your Honor.
25 THE COURT: Okay.

1 MR. CLEMENTE: What we are challenging obviously is
2 now the distribution of those funds to the related entities.
3 That's where we take issue with it at this particular moment in
4 time.
5 THE COURT: Okay.
6 All right. Who else wishes to make an opening
7 statement? I know Acis had a joinder or a slightly different
8 objection, I think.
9 MS. PATEL: Yes, Your Honor. Good afternoon.
10 Again, Rakhee Patel on behalf of Acis. And I'll address Your
11 Honor's question first. Acis has concerns about the wind-down
12 of these funds. I'll just clear with respect to it. And Your
13 Honor referenced, you know, perhaps we need to separate what
14 happened in the Acis case and whether that's happening here or
15 not.
16 Your Honor, I'm not sure from Acis's perspective that
17 we don't object to the wind-down of these funds. We just
18 frankly don't have enough information to kind of take a
19 position with respect to that whether these funds should be
20 wound down. But the fact of the matter is is in the lead-in
21 into this motion -- and this is sort of the source and subject
22 of Acis's additional objection and not just plain vanilla
23 joinder and with the Committee -- is is that the transactions
24 happened. The sale of the stock has happened. So whether it's
25 in connection with the wind-down of the funds or whether it's

1 just a sale, it's happened now.

2 So I'm not sure that we can unring that bell, but

3 Acis's whole point and as we sort of set out in our joinder and

4 our separate comment or objection was, Your Honor, the light of

5 day needs to be cast on this transaction as a whole and we need

6 to be talking about it that the transaction needs to be

7 discussed here in open court. And, frankly, the entire

8 creditor body needs to have and the Court needs to have

9 transparency with respect to that.

10 So to that point, Your Honor, the debtor filed the

11 motion to approve the distributions of the proceeds from the

12 sale in accordance with the procedures approved as part of the

13 broader settlement motion that Your Honor heard in January.

14 Now the debtor incredibly takes the position that this Court

15 and the creditors are effectively powerless to stop these

16 distributions. And here's the problems with that position.

17 First, from a technical legal perspective, the debtor

18 ignores the language of Section 363. Frankly, it's easy to

19 have a strong initial knee-jerk reaction that Section 363

20 doesn't apply here because there's no sale of property to the

21 estate. The MGM stock was held down in a different entity.

22 Your Honor, frankly, I did it myself. But when you analyze the

23 language of Section 363, it also prescribes the use of property

24 of the estate outside of the ordinary course of business. And

25 here, the use of property of the estate is the debtor's

1 valuable management rights of the various entities, so Dynamic,
2 AROF or AROF or NRCP.
3 And let's just assume for argument's sake that the
4 debtor's statement is correct and enforceable and there's no
5 problem with it that the funds are in liquidation. No one can
6 rationally argue that that liquidation of a fund or a manager's
7 actions in liquidating said fund are ordinary course. So there
8 is sort of the Section 363 hook for lack of a better term.
9 Second, from an equity perspective, it is wholly
10 inequitable for the debtor in an attempt to derail the Court
11 and the creditors from inserting a Chapter 11 trustee -- and
12 recall, Your Honor, that this case was filed on October 16th of
13 2019 where the debtor filed to seek protection from the
14 imminent within minutes if not hours of entry of $189 million
15 judgment against the debtor. And it's really frankly, and as
16 Mr. Pomerantz acknowledged, the product of failed -- numerous
17 other failed litigation strategies. Acis, UBS, Pat Daugherty,
18 quickly all -- and all of those the pieces of litigation
19 quickly coming home to roost.
20 Acis was clear right out of the gate, Your Honor, at
21 the first day hearings held on October the 18th, 2019 that it
22 would seek the appointment of a trustee. And in an attempt to
23 sort of take itself out of a trustee potentially being
24 appointed or, you know, as to forestall that happening, the
25 debtor filed an ordinary course protocol motion. And this is

1 in October of 2019. And as a part of that ordinary course
2 protocol motion, the proposal was that Mr. Sharp, the CRO of
3 the debtor, be appointed the CRO of the debtor and that he
4 would be the gatekeeper, he would be in charge of all related
5 party transactions, and he would oversee all of those
6 transactions.
7 And, Your Honor, indeed Mr. Sharp testified that he
8 was the gatekeeper. He was the guy in charge, and that was on
9 I want to say like November 20th of 2019. And commensurately,
10 Mr. Waterhouse, the CFO for Highland Capital Management, also
11 testified and Mr. Waterhouse was the first day declarant for
12 Highland as well. He testified that everyone understood that
13 Mr. Sharp was to be the gatekeeper. And, indeed, Mr. Sharp
14 would -- they had training at Highland Capital Management to
15 the effect that all employees knew if you've got a related
16 party transaction, it's got to go through Brad Sharp.
17 So in an attempt to sort of derail Acis from getting
18 a trustee appointed, they affirmatively sought out these
19 protocols and ultimately agreed to protocols that look similar,
20 not exactly but similar to those proposed ordinary course
21 protocols. And the protocols that ultimately were approved
22 required court approval. And now we've got them coming back
23 and saying, ha ha, just kidding, no one can do anything about
24 it anyway and we have to make these distributions because we've
25 got a fiduciary duty to do it.

1 On that note, the debtor who should be fully
2 transparent during this process while it seeks the benefit of
3 bankruptcy including the automatic stay, argues in its reply
4 brief filed this morning at Footnote 9 that the underlying sale
5 transaction in excess of $123.25 million is sacrosanct and
6 irrelevant because the Committee blessed it. Acis objected,
7 Your Honor. When that transaction was presented to the
8 Committee, Acis objected.
9 First, it would have its cake and eat it, too. It
10 can't take advantage of the protocols it likes while at the
11 same time stiff-arming those that are inconvenient to it. It
12 can't say the transaction's good because the Committee blessed
13 it, but the Committee didn't bless the distributions to the
14 insiders and, oh well, you can't do anything about that anyway.
15 Second, the broader transaction is violative of at a
16 minimum traditional notions of transparency in bankruptcy and
17 likely 363 along what the debtor's fiduciary duties to its
18 creditors. As Mr. Clemente pointed out, the debtor has dueling
19 fiduciary duties, and we didn't hear nearly a word with respect
20 to the debtor's fiduciary duties to its creditors. And, Your
21 Honor, we're not looking to generally micromanage what this
22 debtor is doing, but this transaction is fundamentally flawed
23 and at a minimum has red flags all over it.
24 As we now know from the CalPERS objection, Mr.
25 Dondero entered into a transaction with Highland Capital

1 Management buying CalPERS' interest and likely others'
2 interests at June 30 prices or by giving over a set number of
3 MGM shares to CalPERS. That's the agreement that's attached to
4 the CalPERS objection. The agreement was always a win-win for
5 Highland Capital Management because it could either make money
6 on the arbitrage of the stock -- it bought it at a particular
7 price, and if it's ordered at a different price, you got to
8 keep the differential -- or give over the stock if the stock be
9 valued and priced. Win-win.
10 He then immediately the very next day fraudulently
11 transferred that agreement from Highland Capital Management to
12 Highland Capital Management Services, an entity in which he is
13 the 75-percent owner and Mr. Okada is the 25-percent owner.
14 That is 15 days before filing this Chapter 11 bankruptcy case.
15 The only purported consideration for the transfer, and I think
16 this is Exhibit B, to the CalPERS objection, was an indemnity
17 by Highland Capital Management Services. That's the only
18 consideration that was transferred as a part of that
19 transaction, Your Honor.
20 Then when the stock price rises in November, he seeks
21 committee approval for a transaction that still benefits
22 Highland Capital Management Services. Despite not having a
23 Committee response, he enters into a rogue unauthorized trade
24 of MGM stock on whose board he serves on and is thus privy to
25 information, violative of the very protocols that the debtor

1 was pressing so strenuously to avoid the appointment of a
2 trustee. Indeed, Brad Sharp testified the day before the rogue
3 trade that this exact type of transaction had to go through
4 him. And Mr. Waterhouse's testimony came right after that to
5 indicate that everybody at the debtor knew that Mr. Sharp had
6 to approve it.
7 Ultimately, the Committee rejected that transaction
8 in November, but the trade was already done. If Mr. Dondero
9 had his way, Highland Capital Management Services would have
10 benefitted from the transaction. Frankly, every one of these
11 transactions needs the light of day shed upon them here in
12 court to determine what is in the best interest of creditors.
13 The debtor's attempt to cloak itself in the Committee's non-
14 objection, and I want to be clear on this, it was a non-
15 objection. I think reference was made that the Committee
16 agreed to the sale of the MGM stock. That's not what happened.
17 The Committee just did not object to the transaction which can
18 likely best be characterized frankly as everyone plugging their
19 nose while simultaneously telling this Court it can't do
20 anything about the proceeds is the exact reason why the Court
21 should be inquiring into the transaction in the first place.
22 And not so incidentally, that stock that Mr. Dondero
23 traded without authority in November is trading approximately
24 20 percent higher today, around the low 90s.
25 THE COURT: All right. Thank you.

1 Thank you. All right.

2 Do we have any other opening statements? I'm

3 probably going to have to take a break before we do evidence

4 and hear my 2:30 matter, which I don't think is going to take

5 very long, at all.

6 All right. Judge Lynn.

7 MR. LYNN: Your Honor, thank you.

8 We're not opposed to the motion, and we understand

9 the concerns expressed both by the debtor, the debtor's

10 independent board, which feels that it's compelled to make the

11 distribution to insiders. And while we don't necessarily agree

12 with them, we understand the Creditors Committee's concerns as

13 well.

14 We'd like to suggest the following should the Court

15 determine that the motion should be denied. And that is that

16 instead of the debtor retaining the funds, that the debtor

17 distribute the funds into the registry of the Court. That way,

18 they lose control over the funds and they can say that they've

19 distributed them in accordance with their agreements and

20 applicable law.

21 The funds would remain there until either a recipient

22 or prospective recipient posts a bond or other suitable

23 collateral or the Creditors Committee agrees to the

24 distribution to the insider or there is a Court entered for

25 another reason after a showing made before Your Honor. The

1 debtor and the Creditors Committee would, of course, retain all
2 rights to seek the funds they would have had, which rights they
3 would have had immediately before the distribution to the
4 registry, plus any rights that would be gained by reason of the
5 distribution itself.
6 The debtor thus distributes, the Creditors Committee
7 retains its rights, the Court retains control, and this can all
8 be done, we believe, by a Court order and we hope this may give
9 the Court a suitable alternative.
10 THE COURT: Okay. Let me make sure I understand.
11 You said, if the Court is inclined to deny the motion. Are you
12 offering, I guess Mr. Dondero's proposal that -- I mean, these
13 aren't disbursements that would all go to him, they would --
14 some would go to Okada, and -- who's not objected or appeared.
15 But -- let me cut to the chase.
16 Are you trying to avoid a hearing and evidence
17 altogether by saying, you know, these related entities agree
18 their distributions will go into the registry of the Court
19 right now?
20 MR. LYNN: Mr. Dondero supports this position. We do
21 not speak for Mr. Okada.
22 THE COURT: Right.
23 MR. LYNN: I understand that more than one of the
24 entities -- and Your Honor must forgive me. We're relatively
25 new to this case.

1 THE COURT: Yeah. One is Holdco, and that is
2 technically a DAF, a charitable entity that --
3 MR. LYNN: Yes. I believe that's so, and I
4 understand there may have been communications between the
5 independent board and the trustee of a DAF, but I was not a
6 party to those communications. I'm just trying to give the
7 Court an alternative -- Mr. Dondero is doing so -- that might
8 be acceptable to the debtor and at the same time would
9 accomplish what the Creditors Committee wants, which is to
10 retain control of the funds.
11 I must say, Your Honor, that having been there
12 myself, I have a great deal more confidence in the registry of
13 the Court protecting funds than I do in just about anyone else.
14 THE COURT: All right. Well, that would certainly
15 seem to give the Committee everything it's asking for, and --
16 MR. POMERANTZ: Your Honor, if I may interrupt.
17 I understand from members of the debtor's independent
18 board who have spoken to Grant Scott, who is the principal in
19 charge of CLO Holdco, that CLO Holdco would also support the
20 proposal that has just been made by Judge Lynn. We do not have
21 the agreement of Mr. Okada to support that proposal.
22 THE COURT: Okay. Although, he has not weighed in
23 with any sort of -- well, I don't know. How do we feel about
24 Mr. Okada's interest here? I mean, he's obviously been given
25 notice of all of that, and --

1 MR. POMERANTZ: Well, actually we asked him --
2 THE COURT: Okay.
3 MR. POMERANTZ: -- when we heard last night that this
4 might be a possibility. He has rejected that. And in light of
5 his rejection of that proposal, we as the debtor feel we need
6 to proceed with the motion. I would think it substantially
7 narrows the issues that are going to be in evidence, all the
8 stuff we've heard about MGM Trade, which may at some point in
9 time be something that people don't testify from the podium and
10 that actually the subject of real evidence. But with respect
11 to Mr. Okada, we will have to go forward with the motion.
12 MR. LYNN: Yeah, so let me express that at this
13 point, Mr. Dondero is of course not supporting the Acis
14 suggestion that a trustee should be appointed. We did not
15 understand that this hearing would address that issue.
16 THE COURT: Yeah. I'm not sure. That's what they
17 were suggesting today. I think they were just saying at one
18 point, they adamantly wanted a trustee, and these protocols
19 alleviated their concerns and caused them to back off. And
20 now, they're upset that, you know, the debtor is resisting the
21 protocols in a way. So -- all right.
22 Mr. Clemente, what say you? I --
23 MR. CLEMENTE: Your Honor, I --
24 MR. LYNN: Thank you, Your Honor.
25 THE COURT: Thank you.

1 MR. CLEMENTE: -- I think you can tell from our
2 papers, this is effectively what we asked for.
3 THE COURT: Right.
4 MR. CLEMENTE: I don't even know why it took us to
5 get to this point for that. It seemed so obvious to me. But
6 when it was articulated by the former Judge here, it -- I think
7 it just held more -- maybe it made more sense.
8 As far as Mr. Okada's concerned, I think Your Honor
9 could clearly deposit the funds in the registry of the Court,
10 and he's free to come in. I think that's what Counsel for
11 Mr. Dondero was actually suggesting. So I'm not sure that
12 anything is required further with respect to Mr. Okada, unless
13 he has a representative here that would like to raise something
14 with Your Honor. So, to me, on behalf of the Committee, I
15 think that accomplishes what the Committee was trying to do
16 with its objection.
17 THE COURT: All right.
18 Anyone else wish to be heard? Ms. Shriro, I know
19 that you filed something for CalPERS, but obviously, your
20 client is an unaffiliated investor in the private equity fund,
21 RCP. You just want to get paid.
22 MS. SHRIRO: That's correct. We just want to get
23 paid, and I would defer to my co-counsel on the phone. If he
24 has any comments, this would be the time to raise them.
25 THE COURT: All right.

1 Co-Counsel on the phone, I think it's Mr. Cisz. Is
2 that correct?
3 MS. SHRIRO: Yes.
4 THE COURT: Okay. Anything you want to say about
5 what's (indiscernible)?
6 MR. CISZ: That's correct, Your Honor. This is Louis
7 Cisz on behalf of CalPERS, and Ms. Shriro is correct. So long
8 as CalPERS receives its distribution relative to the sale of
9 the MGM stock, CalPERS otherwise doesn't take a position with
10 respect to the motion.
11 THE COURT: Okay. Thank you.
12 All right. Well, turning to the literal terms of the
13 motion, the relief the motion sought was simply an order
14 authorizing distribution of the cash from these wind-downs of
15 the three funds to insider investors. And so we have the
16 Committee objection, we have the Acis objection, we have
17 Dondero's counsel here appearing. I think I can, given this
18 request for relief and the opposition of the Committee, as well
19 as one of the Committee members, Acis, and due to these
20 representations of Dondero's counsel and the board, I can order
21 that the money that would otherwise go to insider investors --
22 I think it's roughly about 8.6 million -- will, instead of
23 going to the insider investors, will go into the registry of
24 the Court with reservation of everyone's rights later to file
25 motions requesting that it be disbursed to them. So everyone

1 understands, this is just kind of a holding place for the funds
2 right now.
3 MR. POMERANTZ: Your Honor, we do not have
4 Mr. Okada's representation and the debtor is not modifying its
5 motion. The debtor would like to proceed with respect to
6 Mr. Okada. We asked him, he did not want to agree to the same
7 things that would be in consideration by CLO Holdco, and for
8 the reasons we've identified in the motion and I've expressed
9 to Your Honor, we feel we have the obligation, we have the duty
10 to proceed, and we would request the opportunity to put on
11 evidence so you can hear from Mr. Seery and ultimately make a
12 determination whether the Committee and Acis have laid out a
13 legitimate basis for use of 105. I'll reserve my comments and
14 their comments until the end.
15 But we would want to proceed in that limited matter
16 because we don't have all agreements of the parties and the
17 same reasons stand for why we filed the motion to proceed with
18 the distribution for Mr. Okada.
19 THE COURT: Okay. Well, I guess I misinterpreted
20 everything that I thought was going on out there. Mr. Okada, I
21 guess, you said is owed 4.176 million from the Dynamic Hedge
22 Fund, and then -- I don't know if that was the total amount
23 from the three funds, but you feel like you have a fiduciary
24 duty to pursue that disbursement.
25 MR. POMERANTZ: Absolutely, Your Honor.

1 THE COURT: All right.
2 MR. POMERANTZ: And again, you know, we could get
3 this into argument. Mr. Okada is in a much different position
4 than some of the other insiders. We understand the comments
5 about Mr. --
6 THE COURT: Well, I remember some of the dynamics
7 here, but let me tell you what I'm going to feel the need to
8 get into if we hear evidence. And what we'll do is we're going
9 to take a short break in a minute. Let me ask the Barker
10 people who I think are in the back.
11 (Off record discussion 2:34:51 to 2:35:01)
12 THE COURT: Okay. So we'll take a 10-minute break in
13 a minute.
14 But again, one reason I was sort of delighted to get
15 the suggestion of Judge Lynn is I see this evidentiary hearing
16 as being a little more involved than looking at contractual
17 obligations and whatnot, and you know, the fact that these are
18 non-property of the estate funds that we're talking about. I
19 have fundamental questions having read the pleadings about the
20 decision to wind-down these funds that was made in November
21 2019, days after Highland filed bankruptcy.
22 Who made the decision? Was it insider investors
23 seeking redemption? Or was it, you know, did we have large
24 unaffiliated investors exercising redemptions, and so
25 therefore, it was reasonable business judgment, you know, we

1 need to wind down?

2 I know the issues are a little bit different with the

3 two hedge funds versus the RCP fund that had the term. And I

4 understand, I read the pleadings, how the term expired in April

5 2018, it was extended for one year, and then the advisory board

6 didn't consent to an additional extension.

7 Again, maybe the new board has thoroughly scrubbed

8 this and you're going to tell me that in evidence. And maybe

9 the Committee has thoroughly scrubbed this, and you're going to

10 tell me that with evidence. But I -- I'll want to hear that.

11 I'll want to hear that this was all legitimate, independent,

12 non-affiliated investors pressing for the wind-down of these

13 funds, and we didn't have what I refer to as the Acis situation

14 where -- well --

15 MR. POMERANTZ: Your Honor, Mr. Seery is prepared to

16 testify to each of those. And as I mentioned, the board did

17 thoroughly consider it and you will -- Your Honor will hear

18 evidence that led Mr. Seery and the board to conclude that each

19 of these were appropriate. But we intended to get into that in

20 the evidence.

21 THE COURT: Okay.

22 (Proceedings recessed from 2:37 p.m. to 3:01 p.m.)

23 THE COURT: All right. We're going back on the

24 record in Highland. Mr. Pomerantz, are you ready to call your

25 witness?

1 MR. CLEMENTE: Your Honor, if I might before.
2 THE COURT: Mr. Clemente?
3 MR. CLEMENTE: Matt Clemente on behalf of the
4 Committee, again.
5 I would just like to revisit the colloquy we had
6 before we broke.
7 THE COURT: Okay.
8 MR. CLEMENTE: I'm still confused as to why Your
9 Honor just can't enter or so order that the debtor has
10 satisfied its duty upon depositing the money into the Court
11 registry. And we don't need to have any of this this
12 afternoon. I see it as similar to the Foley hearing where Your
13 Honor expressed some frustration. It's kind of maybe not the
14 best use of time. I'm not sure what exactly we're trying to
15 accomplish here.
16 If the debtor's concerned about its duty to a
17 constituent who is not present in Court today, I think Your
18 Honor can deal with that by entering an order that says, you
19 know, based on the pleadings and the record so far, the debtor
20 has satisfied its duty and placed the money in the Court
21 registry.
22 And if Mr. Okada has an issue with that, he can come
23 back before Your Honor. I'm just not quite sure what the point
24 is here, Your Honor.
25 THE COURT: All right. Well, let's turn back to

1 Mr. Pomerantz, and let's talk about what my, I guess, unrefuted
2 evidence is. I have -- Mr. Okada would be due for the Dynamic
3 Hedge Fund, 4.176 million is what I read in the pleadings where
4 you told me.
5 And then, I don't know that I have written down what
6 he would be owed from either the Argentina Fund or the RCP
7 Fund. Anything?
8 MR. POMERANTZ: Zero.
9 THE COURT: Zero. So we're talking about the 4.176
10 from termination of the Dynamic Fund.
11 MR. POMERANTZ: Right.
12 THE COURT: Meanwhile, we know there is a $1.3
13 million demand note --
14 MR. POMERANTZ: Correct.
15 THE COURT: -- owing to Highland from Okada. And I
16 feel like I heard that there was more, but that's the only --
17 MR. POMERANTZ: That is the only note from Mr. Okada.
18 Your Honor, I think part of it is I stood up and gave
19 a lengthy presentation, and I told Your Honor what the
20 testimony would show. Now there's been a lot of issues in this
21 case about what the board's doing, what it's not doing. Part
22 of our reason for being here today and part of my presentation
23 was to get Your Honor comfortable with how the board is
24 handling its duties. I didn't want you to hear that just from
25 me. I wanted you to hear that from Mr. Seery.

1 There also have been allegations by Acis and concerns
2 Your Honor has raised as to what went into the wind-down of
3 these funds, given Your Honor's past experience with Acis. And
4 I'm sure Ms. Patel's past experience with Acis.
5 I think it's important to hear from Mr. Seery because
6 he has good explanations of why each of these funds are in
7 wind-down. And then, furthermore, look, Your Honor will decide
8 what Your Honor decides and whether the Committee and Acis have
9 met the showing under 105 to hold back the Okada funds. If
10 Your Honor decides that, of course we will abide by that
11 decision.
12 But we didn't want any implication that we were sort
13 of laying down for that issue. So I think it would be helpful
14 maybe to hear some testimony from Mr. Seery. If Your Honor
15 then concludes that funds shouldn't be disbursed, Your Honor
16 will conclude that funds shouldn't be disbursed. I don't think
17 this has to be very lengthy. I think we've -- we've narrowed
18 the issues, given that we don't have an issue with respect to
19 RCP anymore. We don't have the issue with HCM Services
20 receiving money on account of a trade that Acis is very
21 critical about. Again, those issues at an appropriate time can
22 be raised in appropriate form, and Your Honor will have a full
23 evidentiary hearing, as opposed to a tail wagging the dog on
24 this motion when it's not even relevant anymore.
25 So what I would propose is that we allow Mr. Seery to

1 take the stand. We allow him to address Your Honor's concerns.
2 We allow him to testify to the things that I said he would
3 testify to so it gives Your Honor some comfort, and hopefully
4 the other parties comfort, exactly how Mr. Seery and the other
5 board members are performing their duties.
6 THE COURT: Okay. Can we all agree to some
7 reasonable time limitations here? I'm thinking we're done in
8 an hour. Maximum 30 minute direct of debtor, or redirect, and
9 maximum 30 minute cross of all objectors. Can we do that
10 today?
11 MR. POMERANTZ: I think we can do that, Your Honor.
12 THE COURT: Okay. Then that's --
13 MR. CLEMENTE: My only question, Your Honor -- Matt
14 Clemente on behalf of the Committee -- is what are we still
15 talking about here? Are we just talking about the distribution
16 to Mr. Okada? And the other distributions are off the table as
17 suggested by -- or as agreed to at least on behalf of
18 Mr. Dondero? I don't even know what we're talking about.
19 MR. POMERANTZ: That is correct, Your Honor. It's
20 only the distributions to Mr. Okada.
21 THE COURT: Although, I think he wanted the Court to
22 get some testimony from Mr. Seery about sort of the business
23 judgment of the three wind-downs, but I don't think that's
24 going to --
25 MR. POMERANTZ: That shouldn't take a long time.

1 THE COURT: -- be a probe today of MGM stock sales.
2 MR. POMERANTZ: No, it won't be at all, Your Honor.
3 And again, look, we understand Your Honor has had experience
4 with Acis, and we understand the concerns, Your Honor, coming
5 in, seeing redemptions, and the questions you asked.
6 Again, it's important for the debtor to be able to
7 demonstrate to Your Honor that this board is doing its
8 appropriate things and hearing from Mr. Seery why he made these
9 decisions so Your Honor can get comfortable, not only in these
10 matters, but in other matters that brought before Your Honor in
11 the future that this board is doing exactly what they should be
12 doing acting as an independent fiduciary.
13 That's why I think some of our testimony, but we're
14 happy to live within the time frame that Your Honor has given
15 us.
16 THE COURT: Okay. All right. Thank you.
17 MS. PATEL: Your Honor, I just wanted to follow along
18 with one of the comments that I made during my opening
19 statement and hopefully, it will help further narrow the issues
20 and keep us within the time limits, is is that when -- in
21 responding to Your Honor's question about the wind-down of
22 these funds, and I said Acis had concerns, I want to say we've
23 got concerns with respect to the Argentina and the Dynamic
24 fund. We frankly just don't understand or have that much
25 information with which to really evaluate the transaction, so

1 we're a little hamstrung today for purposes of cross-
2 examination because that's not something that necessarily Acis
3 has inquired into.
4 But separate and apart from that, just again so
5 everyone's clear, with respect to the wind-down of RCP, Acis
6 does not take issue with respect to the genesis of the wind-
7 down. So the decision to wind it down is a find from Acis's
8 perspective that should probably have been wound down. Now,
9 the methodology of how it's being wound-down, that's fair game.
10 THE COURT: I don't know what that meant --
11 MS. PATEL: Okay.
12 (Laughter)
13 THE COURT: -- the methodology of how it's being
14 wound-down.
15 MS. PATEL: Okay. Let me --
16 THE COURT: Very quickly because, you know --
17 MS. PATEL: Yes. Your Honor, what I meant by that
18 was, in terms of the decision to wind-down RCP, that makes
19 sense to Acis because it is a fund that should have been wound-
20 down. How it is going about being wound-down, that is open for
21 dispute, and one of those things being here this MGM stock
22 sale, etcetera.
23 THE COURT: We'll hear from Mr. Seery. I thought
24 there was a pile of cash at this point, but maybe I misread the
25 pleadings.

1 Okay.
2 MR. POMERANTZ: Your Honor, let's remember what this
3 motion is. This motion wasn't a referendum on wind-down, it
4 was the ability to make a distribution.
5 THE COURT: Right.
6 MR. POMERANTZ: Mr. Dondero's counsel, who is
7 speaking on behalf of ACM Services, said they're prepared to
8 hold those distributions in the registry of the Court. The
9 issues regarding what Ms. Patel testified from the podium, at
10 some point, they may very well be the subject of a hearing in
11 the Court. We're happy to continue responding to the Committee
12 and Ms. Patel's comments and questions about how, but it's just
13 not relevant here.
14 And, Your Honor, there is no way if Ms. Patel is
15 going to go down that road that we will ever be here only an
16 hour. That is a much longer discussion.
17 THE COURT: And let me just clarify where I was
18 coming from.
19 I thought if we were evaluating whether insiders
20 should get $8.6 million of distributions, the bona fides of the
21 decision to go into wind-down mode needed to be explored a
22 little bit and see if some of these insiders were improperly
23 exercising control in that.
24 So I agree with what you're saying. Now, that we're
25 just talking about deferring to another day all but maybe

1 Mr. Okada's disbursement, we don't need to hear great detail
2 about the whole decision-making process for the wind-down of
3 these three. A little bit of background would be useful,
4 but --
5 MR. POMERANTZ: Absolutely, Your Honor, and we
6 will --
7 THE COURT: -- it doesn't need to be, you know --
8 MR. POMERANTZ: -- tailor our testimony to the issues
9 that Your Honor was concerned about and the comments that I
10 made, and we will keep within the time limit that Your Honor
11 wants us to keep it to.
12 THE COURT: All right. Very good.
13 Mr. Seery?
14 MR. SEERY: Yes, Your Honor.
15 THE COURT: There you are. If you could approach the
16 witness stand. I know I've been introduced to you before. I'm
17 not sure if you've taken the witness stand yet.
18 MR. SEERY: I have not.
19 THE COURT: I don't think you have.
20 Please raise your right hand.
21 JAMES P. SEERY, JR., DEBTOR'S WITNESS, SWORN
22 THE COURT: All right. Please be seated.
23 MS. HAYWARD: Your Honor, may I approach with an
24 exhibit binder?
25 THE COURT: You may.

1 MS. HAYWARD: Or two?

2 THE COURT: Okay. One for the Court.

3 Thank you.

4 MS. HAYWARD: May I approach the witness?

5 THE COURT: You may.

6 DIRECT EXAMINATION

7 BY MR. HAYWARD:

8 Q Well, good afternoon, Mr. Seery. Since this is your first

9 time testifying, would you introduce yourself to the Court and

10 give her just a little bit of background?

11 A I'll go pretty quickly because of the time constraints.

12 James P. Seery, Jr., for the record. I am an independent

13 director for Highland Capital. I've been in the asset

14 management restructuring business for about 32 years.

15 I started as a restructuring lawyer handling

16 everything from real estate to debtor's side to financial

17 transactions. From there, I moved into asset management and

18 distressed investing.

19 From there, I moved into managing a large global loan

20 portfolio for a big investment bank. That included teams of

21 people who both underwrote, distributed, held, managed,

22 restructured, and traded both loans, indicated loan assets,

23 primarily, but also high end bonds, distressed assets, as well

24 as CLO assets.

25 After that, I went into a hedge fund. We had a

1 billion, three long-short credit fund. I was the senior
2 investment partner and president of that firm. We did similar
3 types of investments, high yield, high yield loans, distressed
4 loans, CLO assets, and some other structured products, long-
5 shorts. So we were domestic primarily, but we also had a
6 global investment view and an office in London.
7 Subsequent to that, I was a co-head of a credit
8 business for an investment bank. And then, in the last six
9 months, I've decided to do this job.
10 Q So of the three board members, you're kind of the stock
11 guy. Would that be a fair --
12 A I think -- stock isn't really my stock and trade, but I do
13 know my way a little bit around the stock market. But it's
14 primarily been credit products, but I do -- I am familiar with
15 equities and equity trade.
16 Q Okay. So since coming onto the board, give the Court a
17 day in the life, if you don't mind, and maybe starting with the
18 day that the board took over on January 9th.
19 A I think, as Your Honor will recall, when we left and we
20 talked about what the role would be and what the compensation
21 would be, I think your comment was, Your Honor, that it -- we
22 wouldn't be 50,000 feet. Well, we -- we're actually fully on
23 the ground. We're not even five feet above. We don't keep
24 track of our hours like lawyers, but probably logged about 190
25 hours in January starting on the 9th, and then about 150 hours,

1 160 hours in February. And I know my fellow board members are
2 similar time commitments.
3 We're involved day-to-day in each of the decisions
4 that the debtor makes from assets management decisions,
5 understanding how the funds are being managed and what the ways
6 that they could either be walled off if they're in liquidation,
7 or if what the proper way to treat them on a day-to-day basis
8 is, evaluating assets that the debtor owns directly or through
9 funds, be thinking about ways to monetize those assets;
10 employee issues, what they're doing, who they're reporting to,
11 how they're -- how they're performing, how they're being paid;
12 claims issues.
13 This case got started, as we all know, by three major
14 litigations, and they're not all easy to understand. They've
15 got the redeemer arbitration, which I think is fairly
16 straightforward in terms of liability and amount. There's a
17 number of offsets that are complicated.
18 We've got the UVS litigation that is a lot more
19 complicated because it's not against the debtor. The judgment
20 is against two offshore funds that are, in essence, shells, and
21 there's a very complex history around the 10-year litigation
22 that that is.
23 Then we have the Acis litigation, which comes out of
24 the Acis bankruptcy, but is an unliquidated claim. So
25 understanding those thinking about what the pros and cons of

1 those claims are, how we would manage them down the road, how
2 we would go forward. Thinking about how to resolve them has
3 been a key part of what we're doing on a day-to-day basis.
4 Q So has the board done an independent analysis of all these
5 various litigation claims?
6 A Not yet. So we've -- we've done a preliminary analysis,
7 and then we've gone further. So with respect -- we haven't sat
8 down with -- frankly with Redeemer, yet, although one of the
9 board members has had a call with them separately. But we have
10 sat down with the Acis creditors, and we've done some
11 significant analysis around that. And we have sat down with
12 UBS claimants, and we've done significant analysis around that.
13 All three of those require a ton more work, and not
14 because it's not easy to figure out what the numbers are. It's
15 really difficult to figure out what the liability is, how it
16 rolls up to the debtor, and then how to satisfy it, and so
17 we're trying to get our hands around that. But that is a
18 critical component of resolving this case.
19 Q When the board took over, did -- what types of things did
20 you do immediately upon taking over control of this debtor?
21 Did you meet with people at the facility?
22 A Oh, sure. So the first thing we did, actually, is have
23 lunch with the Committee and with Acis, and we wanted to get
24 their perspective because they were here and it was easier to
25 do that than to run back to the debtor and try to -- try to

1 then set up another meeting.
2 And so we wanted to get their perspective. They'd
3 been living with the debtor from the litigations and through
4 the time in Delaware and the litigation in this case. So we
5 got a feel for them of what their desires were, how they
6 thought the case would work out or potentially resolve, and
7 also, how they thought about our role.
8 One of the things we stressed at that time, and I
9 stressed when I was interviewed for the role, is that -- I know
10 my fellow directors feel the same way, but I'm a pretty
11 independent person, and I wasn't going to be certainly the
12 management of Highlands guy, nor would I be the guy of the
13 Committee. So we're going to -- I'm going to work
14 independently make decisions with the fellow board members in
15 what I think is the best way.
16 I'm going to try to exercise my duty in both care and
17 loyalty to the estate, but then if the estate has duties, I'm
18 going to make sure we exercise those. And I feel very strongly
19 about that because this is just one -- a decent sized matter,
20 but one small piece of a career, and I'm not going to
21 compromise myself to satisfy either people on the management
22 side or people on the Committee side.
23 Q Yeah. Well, and I want to talk a little bit about the
24 duties since you mentioned them, because we heard I think the
25 Committee say that we -- the debtor has not mentioned the

1 fiduciary duties to the estate in the opening statement. Do
2 you think that by presenting this motion the debtor -- does
3 this motion contemplate protecting the fiduciary duties that
4 the debtor owes to the estate?
5 A To me, it absolutely does. But to be fair, I think that
6 the rhetorical flair and opening remarks and missing the duties
7 to the estate, we're very conscious as a board of our duties to
8 the estate. We're also very conscious of our duties as an
9 asset manager. And what is in the pleadings is absolutely the
10 case, it's been -- it's my experience, my understanding of the
11 law, and it's being confirmed by both Cayman counsel, and by
12 fund counsel in the U.S. separate from bankruptcy counsel.
13 We owe a duty under the Advisor's Act to the funds
14 and to the investors in those funds. That duty actually
15 supercedes the benefit to the estate, but it doesn't undercut
16 it because by vindicating the duty to the funds, you actually
17 vindicate the duty to the estate. If you create liability at
18 the funds, it will roll to the estate. So by exercising your
19 duty correctly, you do in fact, vindicate the duty of the
20 estate.
21 And what's important in the Advisor's Act, and it's
22 an interesting part of U.S. law. At least my understanding,
23 it's been confirmed by outside counsel, is if the manager,
24 which would be Highland, has an interest, it's actually
25 required to subordinate that interest to the interest of the

1 investors in the funds it managed. And it makes sense.

2 If you have funds invested in a fund with an outside

3 investor, you want to make sure that that investor is not --

4 that manager is not using your funds to aggrandize itself as

5 opposed to looking out for your best interest. And so, I think

6 by vindicating our obligations with respect to the funds, we

7 actually enhance our obligations with respect to the estate.

8 Q Let's talk a little bit about the funds now. So

9 originally, the motion pertained to three different funds.

10 Could you just briefly explain to the Court the status of those

11 funds and how they got there?

12 A Yeah. I'll try to go quickly, and if I skip something or

13 I go too quickly, Your Honor, please let me know.

14 The Highland Dynamic Fund, which is the primary one

15 we're talking about now, I think you'll see at the end of Tab 1

16 how it's set up right before Tab 2. And I haven't looked at

17 these exhibits in a long time, so I apologize. I didn't know I

18 was getting this. But it's really straightforward.

19 These funds are set up, and this is a pretty typical

20 structure. It's a limited partnership structure. It's got a

21 master feeder structure. And what does that mean? The master

22 is the main fund. That's the King Exemptive Limited

23 Partnership at the bottom.

24 It's fed by two feeders, a domestic feeder and an

25 offshore feeder. Why is it done that way? Purely tax.

1 Offshore investors, non-taxables in the U.S. who are worried
2 about ECI or UVTI, or unrelated business income, we want to
3 make sure that there's no withholding or any tax ramifications
4 with respect to the distributions they get off the fund. Since
5 it's a pass-through entity, both of those investors, either
6 domestic or foreign, are non-taxables in the U.S., will have
7 their own tax treatment when it gets up to them. So they don't
8 want anything withheld.
9 When you look at the left side of the page, Dynamic
10 domestic feeder, the other investors is where you'd include
11 Mark Okada. This fund was founded originally under a different
12 name. I believe it was called the Highland Loan Fund. It
13 might have been CLO Loan Fund, I apologize. And then that was
14 in 2013.
15 Mark Okada put $2 million cash into the fund at that
16 time. Why did he put it in? This fund was designed to own CLO
17 assets and loan assets. Okada was the founder of that part of
18 the business and the driver of that business. It was pretty
19 essential that he put some money in.
20 However, in '13, they did get third-party investors,
21 but this fund never got real scale. I think it was only a bit
22 over $100 million. Not insignificant, but not a big fund. And
23 they went out looking for loan funds, loan opportunities, and
24 CLO paper. So the CLO papers, the debt of the CLOs, generally
25 (indiscernible) type paper that was higher yielding unless

1 there was some interesting opportunity in the -- in the higher
2 rated tranches.
3 In 2018, the fund got restructured, and they -- I'm
4 pretty sure that's when the name change occurred. Okada put
5 another two and a half million dollars of cash in. So he
6 didn't get this as free-carry or anything. This was actually
7 cash that he deposited in the fund.
8 In 2019, Okada in the spring of 2019, determined that
9 he was leaving Highland. And his separation was finally
10 completed in September of 2019. So he is no longer an employee
11 of the debtor. He has no influence, say, discussion, he's not
12 involved in anything. He hasn't been since we've been there.
13 The investor, I think it was late summer, either
14 understood that or the fund hadn't performed that well.
15 Frankly, it was undersized anyway. Realdania, a third-party, I
16 believe they're European, issued a redemption notice. This was
17 a hedge fund style fund. So we've got three different funds
18 here, two of them are hedge fund, and we explained a little bit
19 in the papers, but the real dynamic, no pun intended,
20 difference between the two is that Dynamic and Argentina are
21 hedge funds which provide liquidity to the investor.
22 What does that mean? Monthly, quarterly, semi-
23 annually, they can look for redemptions. The fund manager
24 sales assets because the assets are supposed to be a little bit
25 more liquid, makes distributions per the redemptions.

1 If the redemptions are too big and the sales will
2 somehow disadvantage the remaining investors, either gates come
3 down or you put the fund into liquidation. Realdania had made
4 a, I believe it's a $65 million -- it was initially a smaller
5 one, then there was a $65 million redemption, and it -- this is
6 prepetition. The debtor determined we've got to wind this fund
7 up because we can't basically more than halve it and then
8 continue to try to function. It would have been far too
9 undersized.
10 So the debtor then went about selling the assets,
11 creating a pool of cash, and then this motion is to liquidate
12 it and pay the investors, including Okada. When it's done,
13 assuming they made the full distributions, about 80-something
14 percent of the assets will have been distributed. There's a
15 few small assets that are left. They're not particularly
16 liquid, but they're small and I'm relatively certain we can
17 unload those at decent prices, create cash for the investors,
18 make the final distribution, so it would be a hold cash to
19 wind-down and then dissolve the various little limited
20 partnerships.
21 Argentina is similar. The basically different
22 premise of why that fund existed, the original theory was post
23 the Argentina crisis with the election of Macri in '15. Late
24 '15, Argentina started going through a number of changes in its
25 economy and the thought was that Argentina would start to grow

1 and really be able to realize the potential of its people and
2 its resources. That didn't work out that well, and then at the
3 end of, I think it was '18, Macri was voted out and the former
4 Kirchner, effectively, government is going to back. Argentina
5 economy has slid into basically -- certainly recession over
6 multiple quarters, but even some would say depression.
7 Very difficult time. This was not a unique fund for
8 Highland. There were a lot of these Argentina-type opportunity
9 funds, and that -- that performance has not been particularly
10 good. The decision there was made to wind-down a third-party
11 investor who made a 15 percent withdrawal, and that a number of
12 other funds that I forget the percentage, but they're managed
13 by UBS, third parties made a -- indicated that they were going
14 to have full redemptions, as well, so that fund was put into
15 liquidation.
16 Importantly, I think something that was mentioned
17 before, there's no benefit to keeping these funds around. They
18 don't make any fees.
19 Q Why is that?
20 A And once they've gone into liquidation, they're not paying
21 any fees. Similarly, RCP -- now, RCP is a different style of
22 fund, and I think Your Honor, you mentioned it in the papers,
23 you saw that it was a 10-year old fund. That term was
24 extended. It was originally a 2008 fund. It was done as a
25 distressed for control. Very different opportunity,

1 (indiscernible), at the time, they probably didn't see the
2 global financial crisis, but saw it as distressed and the
3 opportunity to do distressed for control positions had to be
4 long term. So that fund had no liquidity provisions for
5 investors. Typical PE-style fund.
6 The -- when it got to the end of its life, the 10-
7 year life, Highland didn't have the ability to extend the term.
8 A steering committee of third-party institutional investors
9 with no Highland influence whatsoever, Ontario Teachers,
10 CalPERS, some of the biggest, most sophisticated investors in
11 the world in both debt, equity, and distress were driving that.
12 There was also a couple of other funds that are third parties
13 on that steering group. And they still exist. They gave a
14 one-year extension. Highland had no ability to do anything
15 about that.
16 In exchange for the extension, Highland waived fees.
17 So there are no fees being paid on the RCP Fund. There was a
18 series of one-month extensions that went -- was finished in
19 November of 2019. And with this distribution, there's still a
20 lot of assets in RCP that have to be managed, about 175
21 million. And so we're going to -- after we make the
22 distribution -- we've had a few calls and I've been on them,
23 with the steering group.
24 We've told them we're coming to Court to make the
25 distribution. We were confident that we would be able to -- to

1 be able to make a distribution to them subject to the Court's
2 order, that we make that distribution and somewhere in the next
3 two weeks we're going to have a steering group meeting to talk
4 about the other assets and how we monetize them.
5 They are different types of assets. Some have more
6 liquidity than others, so we're going to need to come up with a
7 plan. It's 85 percent, roughly, third parties. Highland
8 Capital Management, the debtor, actually has a roughly 15
9 percent interest in HCM Services, has as a couple percentage,
10 because I think there would have been about 2 percent of the
11 distribution.
12 So it's vast -- the vast majority of the owners of
13 the fund are outsiders, and we're going to need to come up with
14 a structured plan to get them their cash because they've been
15 invested for 12 years in this fund.
16 Q Do you agree, having had the chance to come in and look
17 over all these things, that these funds should be wound-down?
18 A Oh, absolutely. So I think it's easiest to say,
19 Dynamic -- Okada was the driver. It never got to where it
20 wanted. The biggest investor wanted out. It's not big enough
21 to support itself. Even if one were to look today, and say, it
22 should have, frankly, owning CLO paper when this fund was
23 started until today, there should have been good appreciation
24 in it, and it just didn't -- I don't know the reasons it
25 didn't, but it didn't perform the way it should have, and it

1 didn't attract the investors it should have. Perhaps that had
2 something to do with it, you know, the way the other cases or
3 litigations were going on and the public nature of them.
4 And frankly, coming out of the global financial
5 crises, Highland had had a tough time of it, so it wasn't as if
6 it was the easiest thing to raise funds. Argentina, there's
7 absolutely no question that the purpose and structure of that
8 fund and what it set out to do doesn't work, just doesn't work.
9 So it makes no sense to keep that going, and that's why the
10 investors -- third-party investors sought redemptions.
11 The insider interests, while not immaterial, are
12 pretty small. Okada's interest is about 12 percent in the
13 fund, and he's not driving it. Like I said, he's not even at
14 the debtor. These two -- but to be fair -- both the decisions
15 to wind-down Dynamic and Argentina were made before the board
16 was involved and before the petition was filed, and they really
17 related to the withdrawals from third parties.
18 Q So why are we here today? Do you -- do these funds wind-
19 down in the ordinary course of their business?
20 A Well, it -- they all have life. So I'd say in the case of
21 RCP, it's pretty clearly in the ordinary course because it
22 reached the end of its life. And the investors were very clear
23 that they wanted to be cashed out. So the difficult part is
24 that it -- because of its structure and in the way it was
25 originally set up as a PE-style fund, it has illiquid, a number

1 of illiquid assets.

2 And the challenge in any of the PE funds is to time

3 your exit, and the timing on this hasn't been opportune because

4 the opportunity to sale has not been as good as one might hope

5 and the investors are just at the point where they want to get

6 cashed out as we've heard today from CalPERS. But we've seen

7 it in the documents and our discussions -- and my discussions

8 directly with them.

9 The other funds, once they've reached this -- it's an

10 ordinary course thing for funds. When funds either they're --

11 they've reached their life or investors redeem and they get to

12 this state where they really can't support themselves, it's a

13 very ordinary thing for managers to wind-down funds.

14 Q And as part of the winding down of the funds, is it also

15 ordinary then to make distributions once the funds have become

16 liquid?

17 A Well, I mean one of the questions you started to ask, or

18 maybe did ask, and I didn't answer, was why are we here?

19 Our view as an independent board, my view as an

20 independent board member, is we have an obligation to all

21 investors. It would be really easy if the documents or the law

22 said all investors, other than ones who might have been related

23 somehow to the asset manager. It just doesn't say that. And

24 as we talked about, this is -- these are not funds from

25 Highland. If they were funds from Highland, again, it would be

1 really easy.

2 As I described for Highland Dynamic, I don't need to

3 hold and carry water for Mark Okada. But I do need to carry my

4 own fiduciary duties and make sure that I exercise them well.

5 The gentleman put $2 million in -- this is April 2013, put 2

6 million -- 2.5 million in cash in 2018, and the fund is being

7 wound down. It's not the debtor's money. If it was the

8 debtor's money, it would be really easy to say, you know,

9 Mr. Okada, I'm not going to give you the money because we may

10 have claims against you, and a different discussion would

11 ensue.

12 Q Well, I want to walk through that just a little bit. You

13 say it's not the debtor's money. Where is the money?

14 A This money sits in funds or in bank accounts. Its assets

15 are denominated and they're held in trust. And the cash that's

16 in accounts, they're denominated in the name of the fund. The

17 asset manager, Highland, has the ability to access the accounts

18 and use the funds in accordance with the fund documents. It

19 does not have the ability to access the accounts and use the

20 funds however it see fit.

21 Q So it's like an authorized signer?

22 A It's certainly an authorized signer in terms of what its

23 ability to do in terms of accessing the funds. Typically,

24 that's done through the trustee. But it can manage the funds.

25 It couldn't take the funds and make an unrelated investment.

1 It couldn't take the funds and use it for its own purposes and
2 pay them back later. It's just simply not permitted.
3 Q Well, taking that to the next level. If the Court did not
4 allow these distributions to be made, would the distributions
5 then go to the debtor?
6 A No.
7 Q Where would they go?
8 A There's really no provision for it. There are certain
9 provisions in the underlying documents that would enable the
10 manager to withhold funds. If there was a change in law that
11 didn't permit a distribution. If there was some other reason
12 that it became unfeasible to make the distribution. If you
13 couldn't find the investor, and sometimes that happens. There
14 are provisions of how you deal with those funds. But they
15 never would go to the manager.
16 Q So what is the -- why is the primary reason then that
17 we're here today asking this Court for permission to distribute
18 these funds?
19 A It's pretty straightforward. We have a fiduciary duty and
20 we've confirmed that with outside counsel, both Cayman and
21 domestic fund counsel, to make distributions and treat all
22 investors in the funds pro rata. And we're here to make sure
23 we vindicate our duties, not exercising our fiduciary duties,
24 doing things that were not permitted. One, we don't think
25 that's right or appropriate. Two, that's not going to help

1 resolve this case that probably contributes to some of the
2 things that led to this case. So we're not real interested as
3 an independent board in doing things that are close to the
4 edge, along the margin, try to use our positions to leverage
5 investors.
6 Q Are you familiar with the protocols?
7 A I am.
8 Q Okay. But for the protocols, do you believe that the
9 debtor would need to obtain the Court's permission in order to
10 makes these distributions on behalf of these funds?
11 A I don't think so, no.
12 Q So then, why are we asking the Court's permission?
13 A Well, the protocols require it, and I think the Committee,
14 you know, with due respect and I mean that truly, would like us
15 to withhold the funds, and that provides certain leverage
16 potentially over insiders. I think when I look at the
17 protocols, I think the main function of the protocols is to
18 assure that there isn't undue influence by insiders over the
19 actions of the company, and that insiders are not somehow
20 benefitting themselves by virtue of their control over the
21 company.
22 The independent board has control over the company.
23 We're not naive and think we have control over every single
24 persons every single second of every day, but we do have
25 control over what happens with the accounts, how payments are

1 made, when we wind something down, when an asset is sold, how
2 the proceeds will be used. That's the board. That's not
3 anybody in management. The decision around these distributions
4 was made by the board independently. We did consult with the
5 CCO, and that was important to make sure we got all the facts
6 with respect to these funds.
7 We then sought outside counsel to inform our
8 decision, both Cayman and domestic. We didn't have any
9 influence whatsoever and we didn't speak to Mr. Dondero nor
10 Mr. Okada other than to tell Mr. Okada that we were coming to
11 court and then to ask him if he would defer his distribution.
12 And we know his response.
13 Q I want to ask you just a couple -- I know I'm almost at my
14 30 minutes here, so I just want to ask you a few quick
15 questions because one of the issues that came up were these
16 demand notes. I understand that Mr. Okada does have a demand
17 note.
18 A He does. We've --
19 Q And has the board --
20 A And we've sent a demand.
21 Q Okay. And what was -- what is the status of that demand
22 note?
23 A He acknowledges that he signed it and he said that he's
24 owed certain things from the company. He's asked how we work
25 those through because he was severed -- or severed himself in

1 September, and he has -- they reached a severance agreement
2 according to Mr. Okada. I haven't personally investigated it
3 yet, but we will get to it quickly. And he has some expenses
4 that are owed, but I don't think those are material.
5 I'm quite confident. He said his severance was
6 agreement not money, but terms, was very standard. We'll take
7 a look at that and make sure there's agreement on that.
8 I think it would be covered by the protocol, but it's
9 probably a transaction, so we'd have to talk to the Committee
10 about it, but we'll work -- I'm confident that we can work our
11 way through a standard severance agreement very quickly and
12 resolve that issue and collect on the note.
13 Q Now, to be clear, the demand note is payable to whom?
14 A The demand note is payable to the debtor.
15 Q Okay.
16 A It was actually a note that was -- he didn't receive cash
17 for the note. It's basically a tax -- rather than gross-up
18 salary sometime in the past, for whatever reason they decided
19 not to gross it up to cover taxes.
20 Because of the structure of the limited partnership,
21 they could have had taxable income without matching cash, and
22 so they issued notes back to Highland to cover certain of those
23 obligations rather than actually making a distribution.
24 Q To you knowledge, does Mr. Okada owe any money to the
25 fund?

1 A No. Not a -- my knowledge is that he does not. So I am
2 knowledgeable of it, and he does not owe any money to the fund.
3 Q Okay. Quickly, I just want to talk a little bit about
4 Mr. Dondero. One of I think the points that was made at the
5 very beginning of opening statements was that Mr. Dondero is
6 still around. Why is that?
7 A He's around because he has incredible knowledge about the
8 investments. He is a portfolio manager for the fund. He does
9 work with respect to non-Highland unrelated funds, some of
10 which Highland employees do work under shared services
11 arrangement and we get paid for them. But Mr. Dondero is
12 around for those reasons and his knowledge about a number of
13 the investments in which we're involved.
14 Q Does the Debtor -- or does the board have the power to
15 terminate Mr. Dondero if it decides to?
16 A Yeah, he’s -- we could, he’s unpaid so there’s no cost to
17 his involvement. His expertise around certain investments,
18 particularly the equity funds as well as some of the larger
19 investments, including the PE investments, is really important.
20 Q And with respect to the Dondero notes, what are the status
21 of those demand notes?
22 A We’ve done an investigation of the notes and I wouldn’t
23 say it’s as exhaustive as -- it’s in similar stages as our
24 examination of other assets. We’ve looked at Dondero’s notes,
25 we made a decision to send a demand letter to Okada because

1 he's no longer a part of the company and there's no real
2 benefit that we saw strategically to not making that demand.
3 It's a small amount of money relative to the size of the case,
4 it's real money, but it's a small amount of money relative to
5 the size of the case. We should clean that up and move on from
6 Mr. Okada.
7 With respect to the Dondero notes on Dondero entity
8 notes, we want to think about those strategically. They're a
9 sizable amount of money, not just the ones that are demand, but
10 also there's a number of the notes that ate notes with
11 maturities and they're actually current, they're all current,
12 but how can we use those cash, can we collect those, and I
13 think that's more strategic in terms of how we resolve this
14 case.
15 I agree with Mr. Pomerantz's statement that I think
16 it evolves into a pure litigation case and we really hope it
17 doesn't. That then -- those can just be sued on and the demand
18 notes are pretty clear as to how they work and even include
19 cost of collection. So they're pretty straightforward notes.
20 Q But so for now the board --
21 A Well, we thought about it, we don't think it makes sense
22 to make that demand at this time. There's -- our initial --
23 we're not -- we haven't come up with what the plan is for this
24 case, but we have ideas. We do think they involve Mr. Dondero
25 and they involved contributions from Mr. Dondero whether in the

1 form of notes, whether in the form of cash, whether in the form
2 of other assets. We haven't discussed those with him, but we
3 do think that's ultimately, at least preliminarily, where we're
4 going to end up somewhere. So strategically we think that
5 that'll make sense to include in that sort of a resolution.
6 Q Okay. And --
7 THE COURT: You have one minute.
8 MS. HAYWARD: Yes, thank you, Your Honor.
9 BY MS. HAYWARD:
10 Q Last question I'm going to ask you, are you aware of any
11 legal basis to withhold these funds now from Mr. -- from these
12 investors and these related parties?
13 A I'm not aware of any, but as the Court has contemplating,
14 as the Committee has said, perhaps now that Section 105, you
15 know, grants that sort of authority, but that'll be up to the
16 Judge.
17 MS. HAYWARD: Your Honor, a housekeeping matter. I
18 move for the admission of Exhibits 1 through 12. I don't think
19 any of them are controversial. But I will let --
20 THE COURT: You want me to look through
21 MS. HAYWARD: Your Honor, they are --
22 THE COURT: -- all of these.
23 (Laughter.)
24 MS. HAYWARD: Your Honor, just for the record, they
25 are Number -- Exhibit 1 is the chart showing the structure of

1 the Dynamic Income Fund.

2 THE COURT: Right. We looked at that.

3 MS. HAYWARD: Exhibit 2 is the partnership agreement,

4 so I know they're large documents, but they're not numerous

5 documents. Exhibit 3 is just the chart of the Latin America

6 Argentina Fund. Four, the partnership agreement for that fund.

7 Five, the chart (indiscernible) Third Fund. Six would be the

8 agreement, the limited partnership agreement for that fund.

9 Seven, Your Honor, is Your Honor's order on the ordinary course

10 governance procedures.

11 THE COURT: Okay.

12 MS. HAYWARD: Eight is the final term sheet. Nine is

13 the notice of amended operating protocols that was filed last

14 week.

15 THE COURT: All right. And then CVs of our board

16 members.

17 MS. HAYWARD: And then the CVs for the board members.

18 THE COURT: Any objections to these?

19 MS. REID: No objection, Your Honor.

20 THE COURT: Okay. They're admitted.

21 MS. HAYWARD: Okay.

22 THE COURT: All right. Any cross-examination?

23 MS. REID: Yes, Your Honor.

24 THE COURT: Okay.

25 MS. REID: Good afternoon, Your Honor. Penny Reid on

1 behalf of the Creditors Committee.

2 CROSS-EXAMINATION

3 BY MS. REID:

4 Q Good afternoon, Mr. Seery.

5 A Good afternoon.

6 Q You are aware, Mr. Seery, aren't you, of the Acis

7 bankruptcy?

8 A I'm aware of it, yes.

9 Q Okay. And you're aware that prior to that bankruptcy Mr.

10 Terry obtained an arbitration award in October of 2017.

11 Correct?

12 A I'm aware of that, yes.

13 Q And, Mr. Seery, are you aware that four days after that

14 arbitration award assets started being transferred away from

15 Acis, stripping it of its value at that time?

16 A I've read the judge's decision in the Acis case but I'm

17 not aware of any of the underlying facts, other than from

18 reading that case.

19 Q So you aren't aware of all the assets that went out of

20 Acis the day after an arbitration award was entered.

21 A No, I haven't looked at any of those.

22 Q Okay. And you're not aware that the day after a final

23 judgment was entered more assets were stripped from Acis. Is

24 that correct?

25 A Other than reading the Judge's decision I'm not aware of

1 any of the specific assets, no.

2 Q Are you aware that two days after that, or entry of the

3 final judgment was ordered, Acis' entire risk retention

4 structure was transferred away from it and into the ownership

5 of Highland CLO Holdings?

6 A I'm aware of some of the facts relating to the Acis case

7 from the decision and I'm aware of some of the facts from the

8 Acis case because of my discussions with Ms. Patel and Mr.

9 Terry. I'm not aware of the specific transfers to which you're

10 referring without having -- looking at them.

11 Q Okay. So you're not aware that some of the assets that

12 were stripped from Acis went to one of the entities you're

13 wanting to send money to today. Is that right?

14 MS. HAYWARD: Objection. Your Honor, I'm not sure

15 how this is relevant to the Debtor's distribution motion --

16 MS. REID: Well, it's relevant to the distributions

17 that you're trying to give to the same entity.

18 MS. HAYWARD: Your Honor, I think right now Mr.

19 Okada --

20 THE WITNESS: What I --

21 THE COURT: Just a minute.

22 THE WITNESS: Sorry.

23 THE COURT: We have an objection. Let me hear the

24 objection.

25 MS. HAYWARD: Your Honor, I think at this point Mr.

1 Okada is the only one getting a distribution at issue in this
2 case as of now in light of the representation that was made by
3 Judge Lynn.
4 THE COURT: All right. Well, what is your response
5 to the relevance objection? She's saying that this line of
6 inquiry has kind of been taken off the table since -- I'm not
7 sure which entity, I think you're talking about the Holdco, CLO
8 Holdco. Right?
9 MS. HAYWARD: Yes, Your Honor.
10 THE COURT: Since now the disbursement that would
11 have gone to it is being put off the table and would go into
12 the registry of the Court. So what is your response?
13 MS. REID: Well, Your Honor, and I can take it off,
14 but currently it's my understanding that Mr. Okada is a 25
15 percent owner in Holdco. But I can move on to the next
16 question.
17 BY MS. REID:
18 Q Which is, are you aware that Mr. Okada right after the
19 final judgment was entered transferred their entire interest to
20 Nutra Limited?
21 A Who transferred to whom?
22 Q Right after the final judgment --
23 A Right.
24 Q -- that Mr. Terry obtained, Mr. Okada transferred their
25 entire limited partner interest in Acis, LP to Nutra.

1 A So I apologize. A couple of things. One is it goes to
2 what you said, I don't believe Mr. Okada has any interest in
3 sale of Holdco, but you're saying Mr. Okada and their in your
4 question, and so it doesn't make sense. He's an individual.
5 So I just don't know what you're asking me. You said Mr. Okada
6 transferred their interest. Who's their?
7 Q Are you aware that Acis -- that you're aware that after
8 the entry of the Acis judgment that Mr. Okada's limited
9 partners interest in Acis was transferred to Nutra?
10 MS. HAYWARD: Again, Your Honor, I lodge the same
11 objection to relevance.
12 THE COURT: All right. Again, what is your response
13 to the relevance objection?
14 MS. REID: I think it's very relevant because I mean
15 he has been saying that they have a fiduciary duty to
16 investors. Mr. Okada is not your normal independent investor.
17 It's a related party that has engaged in prior improper acts in
18 this court which you're aware, aren't you -- well.
19 THE COURT: Yeah, I'll overrule the objection and
20 allow a little latitude.
21 THE WITNESS: So I think what you're referring to is
22 the position in Nutra and I'm aware of some of those issues.
23 Mr. Okada apparently owns 25 percent of Nutra, Mr. Dondero owns
24 75 percent of it. The control in Nutra is actually vested in
25 Highland Capital Management through a control agreement. So

1 I'm not -- I'm aware that they made a transfer and that Nutra
2 owns that interest now, and I'm aware that that split is 75-25,
3 I assume because of that split just like ATM Services, Mr.
4 Okada doesn't have any say in how it's run. And the control in
5 that entity anyway is vested in Highland, the Debtor.
6 BY MS. REID:
7 Q So you're aware there were improper transfers made at --
8 during -- before the Acis bankruptcy. Is that correct?
9 A I'm aware --
10 Q You're not aware?
11 A I'm aware of the decision and I'm aware of the transfers.
12 The designation of it then as improper, I'm not sure that I can
13 say one way or the other because I've looked at the transfers
14 and I can't tell you whether that transfer was improper. So if
15 you're asking me if I'm aware that that transfer occurred, I
16 think I said I was. I don't think it's fair for you to color
17 that the transfer was improper. If somebody --
18 Q Are you aware of the Court's decision --
19 A I am --
20 Q -- that they were improper?
21 A -- I don't recall the Court's decision with respect to
22 that transfer. There were a lot of transfers, a number of
23 which the Judge ruled were improper.
24 Q Okay. So you are aware that there were improper transfers
25 made from Acis that the Judge found were improper. Correct?

1 A Yes, I am.
2 Q Okay. And you're aware that Mr. Okada was the Chief
3 Investment Officer at the time those transfers were made.
4 Correct?
5 A Of which entity?
6 Q Of Highland, of the Debtor.
7 A I believe he was -- I believe he was a co-CIO of the
8 Debtor at that time, but I'm not positive.
9 Q So you don't know.
10 A I'm not sure, no.
11 Q Okay. Do you know he was -- he was the Debtor's -- so you
12 do not know one way or the other.
13 A I am aware that at some time he was the CIO and then the
14 co-CIO. I don't know the specific time that he was the sole
15 CIO. I just don't know.
16 Q Do you know if he was involved with the Debtor at the time
17 these improper transfers were made?
18 A He definitely worked for the Debtor at that time.
19 Q Okay. You -- the reply that was filed today by the --
20 this morning by the Debtor states that the making of these
21 distribution to Mr. Dondero and Mr. Okada is essential to
22 rebuilding the Debtor's reputation in the marketplace. Is that
23 correct?
24 A I believe that's what it says, yes. I assume you're
25 reading it?

1 Q I am.

2 A Okay.

3 Q Aren't you -- is the marketplace not well aware of

4 Highland's history including the Acis and the Redeemer

5 Committee litigation?

6 A I believe the market is aware of the Acis and Redeemer

7 litigations.

8 Q Okay. And is the marketplace well aware of the extensive

9 wrongdoing that Mr. Okada and Mr. Dondero engaged in as found

10 by this Court and the other tribunals?

11 A I don't know how the marketplace -- I know that they're

12 aware of the decisions, I can't tell you whether the

13 marketplace as a large general matter knows the specifics. I

14 don't know.

15 Q Have any non-insider investors expressed concern to you

16 over the possibility of Mr. Okada not receiving the

17 distribution?

18 A No, I don't believe so. I think -- just to make sure I

19 answered your question, have the non-insiders raised issues

20 about Mr. Okada --

21 Q Not getting distribution.

22 A No, there won't --

23 Q No one is really concerned about that except Mr. Okada.

24 Correct?

25 A I think each investor is concerned about their own

1 distributions, so like with respect to RCP I don't CalPERS
2 referred at all to the distributions to Ontario, they probably
3 don't care, they care about their own distributions.
4 Q And the only one we're talking about right now is the one
5 to Mr. Okada. Correct?
6 A That's correct. I hope so. Right? Meaning I'm under the
7 impression that the Committee doesn't object to the investment,
8 to the release of funds and the distribution to third-party
9 investors.
10 Q Mr. Seery, you testified that one of the reasons you're
11 seeking to distribute these funds is because the Debtor has
12 fiduciary duties to investors. Correct?
13 A Yes.
14 Q Okay. But these funds aren't being distributed to just
15 regular investors. Correct? They're being distributed to
16 insiders.
17 A Again, unfortunately these are things one has to be
18 precise with. The question is insider under some securities
19 law, or insider under the Bankruptcy Code? So --
20 A Insider under the protocols.
21 Q I believe the term there, again, we should be precise, is
22 related party. So he's a related party under the protocols.
23 As far as I know there's no separation under the Investment
24 Advisors Act, under the Cayman law, under Delaware law, or
25 under the contracts with respect to persons who might have

1 worked for the investment manager who made an investment in the
2 fund.
3 Q Are you aware that the Debtor also has duties to the
4 Creditors Committee?
5 A I don't believe the Debtor has any duties to the Creditors
6 Committee.
7 Q To the estate?
8 A I believe the Debtor has significant and overriding
9 duties, but that's what we're here for, to the estate.
10 Q To the estate. And were very conscious of those duties.
11 Correct?
12 A I am indeed.
13 Q That's what you testified. Right?
14 A Yes.
15 Q Okay. So can you explain to me what -- how you consider
16 the estate's considerations in deciding to distribute these,
17 what was your consideration of the estates, how does this
18 benefit the estate?
19 A This benefits the estate because we have an obligation to
20 the funds and to the investors in the funds to perform
21 according to the terms of the funds. Unfortunately there is no
22 provision in the fund documents or in the law that allows us to
23 treat the investors in the funds in a disparate way. And we
24 believe, after consulting with outside counsel, domestic and
25 Cayman, considering federal law under the Advisors Act, as well

1 as Delaware law, that the only way to make distributions, other
2 than if there was a law change, was pro rata to all of the
3 investors.
4 So in order to vindicate our obligations to the
5 outside investors, we also have to pay the inside investors.
6 In addition, if we don't pay the inside investors, there's no
7 basis not to do that. Now there may ultimately be no liability
8 because it will be hard to bring a case. But it seems to me
9 that incurring potentially liability is not in the best
10 interest of the estate. Holding up a distribution from non-
11 estate property doesn't seem to do anything to help the estate.
12 In fact, it puts it at risk.
13 And so we did the work and that's how we determined,
14 exercising what I think is our duty of care, which is really
15 researching this, and we spent a lot of time and a lot of money
16 making sure we got this right. And our duty of loyalty. Is
17 there some good reason that the fund could hold up the
18 distribution. Until we have a claim is there a valid to attack
19 these distributions.
20 By the way, there were $8 million out of 180 million.
21 Now if there had been 180 -- if there had been 172 out of 180,
22 maybe we would come in here and say, We should something a
23 little bit different because we're really letting the small
24 outside investors dictate us and force us to make distributions
25 to related parties that the Committee has some concern about.

1 But while $8 million is real money, and I don't deny
2 that, again, it's not huge in this case. And it seemed to us,
3 after doing the work, that we were putting the estate at risk
4 by no exercising our fiduciary duties. Moreover, we each have
5 reputations, and they're important to us, and they don't
6 override our fiduciary duties. We're not going to do things to
7 aggrandize ourselves, to help our reputation versus the estate.
8 But running this Debtor correctly seems to us, looking at the
9 history, was the right thing to do.
10 Q Has anyone, Mr. Seery, threatened to bring a fiduciary
11 duty claim against you if you don't pay these funds?
12 A No.
13 Q Has any -- has Mr. Okada said he's going to bring a claim
14 against you if you don't distribute these funds?
15 A No, and nor did I consult him about it. We just told him
16 what we were doing. We're not -- I'm not inviting someone to
17 sue us. That I think would be, you know, grossly wrong for us.
18 Q Now we've touched a little bit on this, Mr. Okada owes the
19 Debtor 1.3 million. Correct? In the demand note?
20 A Approximately, yes.
21 Q All right. And you have made a demand on Mr. Okada.
22 Correct?
23 A That's correct.
24 Q And he hasn't paid it. Right?
25 A No, he has not.

1 Q And that's money into the estate. Correct?
2 A That will be, yes.
3 Q Now do you still think it's okay to just hand him off, you
4 know, $4 million and even though he's not paying the estate
5 that you have a duty to?
6 A There's no such thing in my life as just handing off $4
7 million. This is fund money --
8 Q Distributable.
9 A -- that will be distributed to the owners of the fund pro
10 rata. We're not handing off anything to Mr. Okada or anybody
11 else.
12 Q But Mr. Okada has not agreed to pay back his note.
13 Correct?
14 A He's not agreed to pay it back, no. Technically I would
15 say no.
16 Q Okay. And that's because of some severance agreement that
17 you're not aware of what the terms are. Is that right?
18 A I have not -- we have not -- I have not looked at the
19 terms, I don't believe many of my fellow directors yet have.
20 It's something that is on the burner for us to get to as soon
21 as this is over.
22 Q And are --
23 A He's pushing for it.
24 Q -- are you aware that the Committee has asked for that
25 severance agreement?

1 A I was not aware of that, no.
2 Q You're not aware of that.
3 A I haven't seen it.
4 Q And you don't know that it hasn't been produced to us. Is
5 that correct?
6 A I don't -- I have not seen it myself, I don't -- didn't
7 know that you'd asked for it, nor do I know that it hadn't been
8 produced.
9 Q Okay. And you haven't looked at it.
10 A I haven't seen it.
11 Q So you don't know if his failure to pay that money back is
12 valid or not. Is that correct?
13 A That's -- I don't -- he still owes the money whether he
14 has appropriate setoffs and whether a settlement agreement
15 would actually work as one. I don't -- haven't really analyzed
16 that and I don't know that our counsel has either. It may be
17 that he owes the money and we're holding a severance agreement,
18 but those aren't mutual obligations that are subject to setoff.
19 Q You don't know one way or the other whether he has a right
20 of setoff. Correct?
21 A I don't believe he -- other than perhaps expenses I
22 don't -- haven't heard any articulated monetary setoff against
23 the obligations he owes.
24 Q If the Court orders that his distribution be put into the
25 Court registry, do you still think you've breached your duty to

1 the estate somehow by that?
2 A I think if the Court orders it, I don't think we would be
3 subject to a breach of liability. I think that we're here
4 vindicating our responsibilities and our duties to investors.
5 If there's an interceding court order, we will follow it.
6 Q Thank you.
7 MS. HAYWARD: I have no further questions.
8 THE COURT: All right. I think that was about 17
9 minutes. Any other examination? Okay. You'll have 13
10 minutes.
11 MS. PATEL: Just a few questions, Your Honor.
12 CROSS-EXAMINATION
13 BY MS. PATEL:
14 Q Good afternoon, Mr. Seery.
15 A Good afternoon.
16 Q Mr. Seery, I think your testimony was that the fund, let's
17 use RCP -- or I'm sorry, that's the wrong one --
18 A Dynamic?
19 Q I think it was the Dynamic --
20 A Dynamic.
21 Q -- Income Fund is the one that Mr. Okada has an
22 investment in. Correct?
23 A That's correct.
24 Q Okay. And the fund has duties to Mr. Okada including
25 fiduciary duties as an investor. Right?

1 A That's correct.

2 Q Okay. Does Mr. Okada have duties to the fund?

3 A I don't believe he does, no.

4 Q Okay. Did he ever?

5 A I believe he did.

6 Q Okay. That was during his tenure at Highland Capital

7 Management. Right?

8 A I think as an officer of Highland Capital Management, the

9 investment manager, he would have had duties to the fund, yes.

10 Q Okay. And have you investigated whether he's breached any

11 of his duties to the fund?

12 A We have looked, we have not seen anything. We know that

13 the redemptions came in without any objection. We have not

14 spoken to the individual investors.

15 Q Okay. So would it be fair to say then that you haven't

16 concluded your investigation of whether Mr. Okada has breached

17 any of his duties to the fund itself?

18 A I don't think that would be fair. I think what would be

19 fair to say is we've taken a look, we see no evidence

20 whatsoever that there were any breaches by Mr. Okada of his

21 duty to that fund, so there would be no reason to undertake an

22 investigation that we had yet to complete.

23 Q Okay. And who undertook that investigation, was it just

24 the board or did you have others involved?

25 A It was the board.

1 Q Okay. No one else?

2 A The investigation with respect to the -- we got data from
3 other people but I'm the one who looked at whether there were
4 any claims related to the redemptions, any objections to any of
5 the other distributions, any objections to the fees, and we
6 found none.

7 Q Okay. So no outside counsel advised you with respect to
8 whether Mr. Okada had potentially breached any duties to the
9 fund?

10 A No, again, it's not something that we would have looked at
11 with no evidence whatsoever that there was any sort of
12 complaint or breach.

13 Q Okay. All right. Mr. Seery, with respect to the, I'll
14 call it the agreement because I'm assuming that it is an
15 agreement, that Mr. Dondero's counsel announced on the record
16 regarding putting the funds that would otherwise be payable to
17 Mr. Dondero into the registry of the Court. Do you have an
18 understanding whether that agreement also extends to Highland
19 Capital Management Services?

20 A Yeah, just to be clear because, again, we should be
21 precise, Mr. Dondero was not going to receive any money. The
22 CLO Holdco, which is owned by the charitable DAF has
23 investments in the Argentina Fund and the Dynamic Fund. It was
24 going to receive money. Highland Capital Services has around a
25 2 percent interest in RCP, it was going to receive money.

1 I understand that Mr. Dondero, through his counsel,
2 directed that the distribution to Highland Capital Services
3 would not be made. Mr. Okada owns 25 percent of that, he was
4 not consulted. I know that because I spoke to Mr. Okada. The
5 distribution with respect to the CLO Holdco has been similarly
6 treated, but that was done by Grant Scott talking to Mr. Nelms
7 (phonetic) for the charitable DAF that controls the CLO Holdco.
8 Q Okay. So, again, to be clear, Mr. Okada has not consented
9 to the agreement that was announced on the record with respect
10 to any distributions to Highland Capital Management Services.
11 Correct?
12 A He has not, but since he doesn't control it and Mr.
13 Dondero does, the agreement is binding.
14 Q Okay. And how do you know that Mr. Dondero controls
15 Highland Capital Management Services?
16 A Mr. Okada told me.
17 Q Okay. All right. Mr. Seery, with respect to Mr. Okada, I
18 believe your testimony was he separated from Highland Capital
19 Management in September of 2019. Correct?
20 A I believe I testified that he originally began his
21 separation in the spring, I don't know exactly when it was, and
22 I believe his official resignation was some time around
23 September.
24 Q Okay. Would September 30 of 2019 sound about right?
25 A It -- approximately, I don't know the date.

1 Q Okay. So it was towards the end of September though.
2 Correct?
3 A I don't -- I don't know whether it was September 1,
4 September 15 or September 30, I just don't know the answer.
5 Q Okay. And at the time Mr. Okada separated from Highland
6 or any time before then, did Mr. Okada have a non-compete
7 agreement?
8 A I have not looked at Mr. Okada's contract.
9 Q Okay.
10 A So I don't know.
11 Q All right. Does -- did Mr. Okada have something called a
12 non-solicit --
13 A I don't know.
14 Q -- where he wouldn't solicit clients for example of
15 Highland Capital Management?
16 A I don't know.
17 Q Okay. Did Mr. Okada have what's called a non-recruit
18 where he wouldn't come in and try and recruit employees of
19 Highland Capital Management?
20 A Again, because I haven't looked at his contract, if he had
21 one, I don't know that he did, and because I haven't looked at
22 it, and I testified that I haven't seen this severance
23 agreement he's talking about, I don't have any understanding of
24 the terms of Mr. Okada's employment with Highland Capital
25 Management.

1 Q Okay. So you just haven't looked at any of those things.
2 A That's correct.
3 Q All right. Are you aware -- well, did you have an
4 opportunity to look at -- I believe there was a press release
5 that was somewhere around September 2019 where Mr. Okada said
6 he was actually retiring from Highland Capital Management?
7 A I would have no reason to have looked at such a thing in
8 September.
9 Q Okay. All right. So you haven't seen that. Let me ask
10 you another question, are you aware that Mr. Okada has a new
11 business by the name of Sycamore Tree Capital?
12 A I'm aware that he intends to start a new fund, I have no
13 idea what the name is and I'd have no idea what development --
14 stage of development it's in.
15 Q Okay. Are you aware if any Highland employees have been
16 engaged by Sycamore Tree Capital
17 A I'm aware that at least one maybe, I'd have no idea
18 whether that employee, ex-employee now, is involved or not.
19 Q And isn't that employee Troy Parker?
20 A That's correct, yes.
21 Q Okay. What did Troy Parker do for Highland Capital
22 Management?
23 A Most recently he ran the PE book.
24 Q Okay.
25 MS. PATEL: No further questions, Your Honor.

1 THE COURT: All right. We have seven minutes. Do
2 you have questions, Judge Lynn? We have a little bit of time?
3 JUDGE LYNN: No, but I just want to make clear Mr.
4 Dondero's suggestion for resolving the motion was not a
5 dickered agreement, it was a suggestion that we would hope
6 would make life easier for the parties and the Court.
7 THE COURT: Okay. Thank you. Thank you.
8 I had one or two questions. Is there going to be
9 redirect? Well, no, you used all your time, you don't get
10 redirect.
11 (Laughter.)
12
13 MS. HAYWARD: And, Your Honor, I don't have redirect.
14 THE COURT: Oh, very good.
15 EXAMINATION
16 BY THE COURT:
17 Q Let me ask you, sir, I want to revisit Dynamic, that's the
18 one I hear most about obviously since that's the one that Mr.
19 Okada --
20 A Yes.
21 Q -- has the distribution rights from. You know, I was
22 fixated before I came out here a little on the time line.
23 Right? So the pleadings said Dynamic, the termination date was
24 November 15, 2019.
25 A Correct, Your Honor.

1 Q About 30 days after the Highland bankruptcy was filed.
2 What I heard your testimony to be was that pre-petition the
3 largest third-party investor -- I wrote it down phonetically --
4 A Realdania.
5 Q -- Realdania --
6 A I'm not sure if there's someone in the courtroom who know
7 them.
8 Q Sounds like a Spanish company maybe.
9 A I believe they're a European company, it's an investor I'm
10 not familiar with, Your Honor, but I have seen the redemption
11 notices.
12 Q Okay. They issued a $65 million --
13 A I believe it was in the neighborhood of 65 million, yes.
14 Q And it was pre-petition? You wouldn't know?
15 A It was pre-petition, I think it was around 40 percent of
16 the fund.
17 Q Okay. I mean do you remember when? Was I t --
18 A I believe it was in the spring and it followed a -- spring
19 or early summer and it followed a separate redemption from a
20 different investor.
21 Q Okay. So there was another third-party investor, even
22 before Realdania that --
23 A That's my recollection, yes, Your Honor.
24 Q -- that was unaffiliated with Highland.
25 A That's correct.

1 Q Okay. So it's your business judgment that once these two
2 biggies issued their redemptions, it just wasn't worthwhile to
3 keep this fund going anymore.
4 A That's correct, Your Honor. And as I said, Mr. Okada was
5 a driver to that fund and he had left. He did not actually
6 redeem, but he was being compulsory redeemed as the fund went
7 into liquidation. So all of the investors, redeemed and non,
8 will be treated the same.
9 Q All right. So I guess one thing I'm getting at is timing
10 of Mr. Okada leaving versus timing of these third-party
11 redemptions happening.
12 A Right. I could --
13 Q Is there any --
14 A I see no connection whatsoever. And, again, his piece of
15 the fund was about -- I believe it was round 12 percent of the
16 fund.
17 Q Yeah, his --
18 A And it's a material amount of money I suppose to most
19 folks, including myself, but it's not -- it wasn't a driver
20 whatsoever that we could see, and he did not redeem. So the
21 third-party redeemed, Okada was leaving having been the driver
22 of the fund, it was an undersized fund anyway, there was no
23 real valid reason to keep a small fund trying to do this around
24 after Mr. Okada left.
25 Q Okay. I'm just wondering whether I should or not, you

1 know, the timing of this. So this is -- starts spring of 2019,
2 but then a month post-petition let's terminate this thing. I
3 mean who actually makes that decision?
4 A Well, the decision to continue forward is made by the
5 board. Before that it would have been made by the managers of
6 the funds or the compliance group. So I have not looked into
7 specifically who said, Let's terminate it. To be perfectly
8 frank, I don't know --
9 Q But it would --
10 A -- the specifics.
11 Q -- the manager, Highland?
12 A It's Highland who determines to terminate it. Ultimately,
13 if all the investors issued redemption notices, then the fund
14 would have to liquidate --
15 Q Right.
16 A -- on its own. So Highland --
17 Q Right.
18 A -- wouldn't have any say about it. But to put it into
19 liquidation, I believe it was Highland that did it. Some of
20 the funds, it could be foreign directors, but that's not what
21 happened.
22 Q Uh-huh. Okay. So there are third-party non-affiliated
23 investors still in it, there's 35 million that would go out the
24 door and --
25 A It's about -- there's a couple of assets that still have

1 to be liquidated. Approximately 85 percent of the distribution
2 is to third-party un-affiliated investors. And then we --
3 we'll have -- we'll retain some cash to make sure that we can
4 manage the liquidation of the fund and the dissolution of the
5 entities. But we still have to get rid of a small amount of
6 assets that are pretty liquid.
7 Q Okay. Now I heard you also say that Highland isn't owning
8 any fees anymore on these refunds. Did I not hear you say
9 that?
10 A Yeah, certainly -- so I think on ours I think. On Dynamic
11 and on AROF, the Argentina Recovery Opportunity Fund, once they
12 were put into liquidation they don't earn any fees anymore.
13 The --
14 Q Okay. Let me -- okay, so when did that stop, when were
15 they "put into liquidation" so the management fees stop?
16 A I believe that Dynamic would have been in the fall, I
17 don't know the exact date, and Argentina --
18 Q Well --
19 A -- was before that.
20 Q -- the Court termination date used in the pleadings was
21 November 20, 2019.
22 A Yeah, but I don't recall the exact date, Your Honor. We
23 can certainly figure that out, I just don't recall off the top
24 of my head. When the fee cutoff date -- the fee cutoff date
25 for RCP was I believe in April of 2018 when the one-year

1 extension was given. That was the trade for the extension.

2 Q Okay. But you don't know for sure when the management fee

3 cutoff was --

4 A No.

5 Q -- on either Argentina or Dynamic.

6 A No, that's correct, Your Honor.

7 Q I mean would it have been in November 2019 you think?

8 A I think it was before that, but I don't -- I believe so

9 but I don't know for sure.

10 Q Okay.

11 A If I'm wrong, I'll figure that out and correct it to you.

12 Q Okay. All right. Thank you. You're --

13 A Thank you.

14 Q -- excused.

15 A Thank you.

16 THE COURT: Does anyone in the room know the answer

17 to that?

18 MS. HAYWARD: Your Honor, we can figure it out very

19 quickly I think.

20 THE COURT: Really? Okay.

21 (Pause in the proceedings.)

22 THE COURT: Actually I had one more question for Mr.

23 Seery.

24 THE WITNESS: Yes.

25 BY THE COURT:

1 Q Do we have any other Highland managed funds out there that
2 are imminently going to be going into wind-down mode? Is that
3 easy to answer?
4 A We have a number of CLO funds that are what we call 1.0
5 CLOs. They're old and they're effectively winding down. And a
6 number of those we don't get fees off of, but they had --
7 because they own very illiquid assets, we have to realize on
8 those assets. May of those have cross-ownership to funds that
9 we do get fees on. We need --
10 Q Let me back you up. Why didn't Highland get fees on
11 those?
12 A Because sometimes in the CLO structure it depends on what
13 kind of asset gets treated under the net asset value, so for
14 example if it's equity, it may not count, even if it has a
15 value, you don't get paid a fee on it. So if you had a loan
16 that converted to equity, some of those CLOs you may not get a
17 fee on because you don't own any loans anymore. So, but most
18 of those assets, if a CLO owned equity for example in a PE
19 company, we would have other funds that owned additional equity
20 in that same PE company.
21 We do have other assets where they aren't necessarily
22 wind-down, but there will be distributions to entities that may
23 or may not be related parties under the protocols, and we are
24 in the process, and the Committee's aware of it, selling
25 certain assets, and hopefully those sales will go the way we

1 want them to. They're valuable assets so we feel we have a
2 good opportunity to realize good value for the estate. There
3 would be requirements on certain of them to pay off debt from
4 certain entities before we can distribute money back up to
5 Highland Capital.
6 Q All right. Thank you.
7 A Thank you.
8 THE COURT: You're excused.
9 All right. Anything else today?
10 MR. POMERANTZ: Do you want to hear closings, or have
11 you heard enough, Your Honor?
12 THE COURT: I mean if you have a quick one or two
13 minute closing, I'll hear that, to recap anything. Did you
14 have that quick answer that Ms. Hayward --
15 MR. POMERANTZ: We are --
16 THE COURT: -- was confident about?
17 MR. POMERANTZ: We are trying to find it.
18 THE COURT: Okay.
19 MR. POMERANTZ: We have a couple of emails out,
20 hopefully by, we get a couple of answers.
21 THE COURT: Okay. Okay.
22 CLOSING ARGUMENT ON BEHALF OF THE DEBTOR
23 MR. POMERANTZ: Your Honor, I just wanted the
24 highlight the fiduciary duty as you -- I know it was a subject
25 of discussion with Mr. Seery, cross-examination. Again, as you

1 heard, and as the only evidence before Your Honor is, Mr.
2 Seery, who as Your Honor knows is a restructuring lawyer,
3 practice in it. He's fully aware of what the fiduciary duty
4 requires.
5 And first and foremost, I think it may even be 28 USC
6 959, the Debtor has to operate in accordance with applicable
7 law. Every debtor before Your Honor has to act in accordance
8 with applicable law, and if the debtor is not acting in
9 accordance with applicable law, then they are creating
10 liability. As Mr. Seery testified, that is exactly what that
11 the Debtor is doing. And this concept of dueling fiduciary
12 duties or the board taking certain actions that just happened
13 to benefit insiders as indicating that they are not looking out
14 for the estate is just not accurate. That's not how the law
15 works and I think Mr. Seery said it correctly, that the Debtor
16 fulfills its fiduciary duty to the estate by operating in
17 accordance with applicable law.
18 With respect to 105, Your Honor, the cases cited by
19 the Committee don't support granting injunctive relief forward
20 of attachment without going through the necessary process.
21 They do cite the DeLorean case which at first blush sounds like
22 a court authorized the holding of money, but if you read that
23 case carefully, it was done because there was a complaint and
24 because the Court ultimately determined that the evidence
25 before the Court established grounds for preliminary

1 injunction.

2 Mr. Clemente has asked Your Honor to hold that the

3 objection filed satisfies the standard. But the objection

4 isn't a legal document. The Committee has not put on any

5 evidence to support any claims that exist. The testimony from

6 Mr. Seery is that there's a claim under a note and that there

7 are defenses to the note. So Your Honor does not have the

8 sufficient evidentiary basis in order to meet the standards of

9 the injunction of which irreparable harm -- there's a whole

10 host of reasons.

11 So while we understand what the Committee wanted to

12 do. If they wanted to file an action, they could have. We

13 don't expect them to have completed their investigation on all

14 the types of claims they're looking at. But they've been aware

15 of this Okada note for a couple of months. It would not have

16 been difficult for them to file, as they have standing, a

17 lawsuit to recover any. They asked us to issue a demand note,

18 we did, and we got the answer.

19 So, Your Honor, I don't think there's a basis under

20 105, the way it's being used here and the lack of evidentiary

21 record to support it. And for those reasons, Your Honor, we

22 would ask that Your Honor support the motion and other than the

23 distributions that are being held in the registry, allow the

24 distribution to be made to Mr. Okada.

25 THE COURT: Okay.

1 MR. POMERANTZ: Thank you, Your Honor.
2 THE COURT: All right. Other quick closings?
3 MR. CLEMENTE: Your Honor, I'll be very quick.
4 CLOSING ARGUMENT ON BEHALF OF THE COMMITTEE
5 MR. CLEMENTE: There's obviously a lot more that I
6 could say, but I'll be respectful and be very quick.
7 First of all, Your Honor is the judge and you're the
8 one that determines what the law is and what the duties
9 ultimately are for this Debtor. Mr. Seery I think indicated in
10 his testimony that, for what it's worth, he does not believe
11 that there would be a viable claim for breach of fiduciary duty
12 if Your Honor ordered the distribution to Mr. Okada be put in
13 the Court registry.
14 I think the testimony was clear from Mr. Seery that
15 Mr. Okada, at all times relevant, when all the things that
16 happened that involved the Redeemer Committee, that involved
17 Acis, that involved UBS, Mr. Okada was at least co-Chief
18 Investment Officer and we all know he was co-founder of
19 Highland. I think Your Honor's questions, and perhaps
20 frustration with sort of trying to figure out some of the
21 answers, show how interrelated all of these things are and the
22 various capacities and roles that Mr. Okada had back at the
23 time when all these different transactions occurred.
24 I think the testimony we heard is that Mr. Seery did
25 a lot of work around why we should pay Mr. Okada, but almost no

1 work around why we shouldn't pay Mr. Okada. And so I go back
2 to what I said earlier, Your Honor, I think Mr. Okada is
3 perfectly capable of coming into this court and arguing that
4 once the monies that were put into this Court's registry should
5 be distributed to him, he can come in and do that.
6 But I think for purposes of today, Your Honor has
7 heard more than enough to come to the conclusion that the
8 appropriate remedy here is to place the money within the
9 registry of this Court. It satisfies the fiduciary duty of the
10 Debtor and it protects the interest of Mr. Okada, who is free
11 to come into this court and make whatever argument he so
12 chooses as to his entitlement to those funds.
13 Unless Your Honor has any questions of me, I'll sit
14 down.
15 THE COURT: Thank you.
16 MR. CLEMENTE: Thank you.
17 THE COURT: Anything else?
18 MR. POMERANTZ: Your Honor, in answer to you
19 question, November 11 was the date that the fees were no longer
20 payable to the Debtor in the Dynamic Fund.
21 THE COURT: November 11 post-petition.
22 MR. POMERANTZ: Correct.
23 THE COURT: I like being transparent and I -- and so
24 I sometimes share my thoughts hoping that it will help. But
25 I'm -- you all get why I'm fixated on this point? Maybe I'm

1 sharing my thoughts when I don't have to. But the time line
2 looks suspect, whether it should be or not, it looks maybe
3 problematic. Do you see what I'm saying?
4 We had this fund that I understand never got to real
5 scale and in spring 2019 we have a couple of big unrelated
6 third-parties -- third-party investors issue redemptions and
7 that makes it really not a very worthwhile fund, so maybe it
8 should go into wind-down mode. Nevertheless, Highland has been
9 continuing to get its management fee. I don't know how much
10 management fee, but it's been getting a management fee until it
11 files bankruptcy, and then, Oh, let's wind this sucker down.
12 Do you see what -- you know, I don't know. I mean
13 again, a hearing for another day. But this is the kind of
14 thing I get concerned about, and maybe kind of want to look
15 into the bona fides of the decision making process to wind
16 down, let's terminate this thing and make disbursements. And,
17 you know, did we have any fingerprints of this on insiders that
18 should make me troubled. I don't know. I mean if I'm going
19 out on a lark here, just stop me.
20 MR. POMERANTZ: Well, look, Your Honor, I certainly
21 understand why you're concerned. As you said at the first
22 hearing, you have stuff in your head that you can't forget, and
23 I understand. I wasn't around but I understand the history and
24 especially the history with certainly similar things that may
25 have happened in the Acis case.

1 The facts are that Realdania made its redemption
2 request on August 15, the fees that the -- August 15, but that
3 the liquidation was the time where the management fees stopped,
4 which incidentally were $12,000 a month based upon the level of
5 this spot.
6 THE COURT: Okay.
7 MR. POMERANTZ: So, Your Honor, I understand your
8 concerns, however, what I would say is, you have Mr. Seery here
9 answering your questions. You have Mr. Seery who said he's
10 conducted an thorough investigation. At some point, and I'm --
11 you know, obviously you brought up a couple of questions, at
12 some point the creditors -- Your Honor has to accept that if
13 the board has done a thorough analysis, and we're coming into
14 this hearing today, and before we filed the motion, as Mr.
15 Seery said, we crossed all our Ts and dotted all our Is.
16 We spent a lot of money collectively, the different
17 firms that are involved, because we wanted to make sure it's
18 the right thing. We understood that coming to Your Honor
19 asking to pay investors who are related parties, given the
20 context of this case and given the Committee's opposition, was
21 going to be a big challenge. We thought it was the right thing
22 to do, but we wanted to make sure Your Honor knows that the
23 board actually did a thorough investigation, again, spearheaded
24 by Mr. Seery, who is not just someone off the street, but as he
25 testified, this is what he's done over the last 10-15 years.

1 So I certainly understand Your Honor's concerns. Mr.
2 Seery I think has testified about the thorough investigation,
3 and that the 12,000 a month, that I think if he got back on the
4 stand, he would testify that would be a breach of duty to the
5 investors to continue on getting fees. There's an obligation
6 at some point, when the redemptions happened, to either pay the
7 redemptions, put the fund in liquidation, and that's what
8 happened.
9 And just because it wasn't done by the board, it was
10 done before, it was important, as I mentioned in my opening,
11 and as Mr. Seery testified, he looked at that carefully and
12 thoroughly. He didn't want to be embarrassed, we didn't want
13 to be embarrassed coming in and not having those answers. So,
14 Your Honor, this is a long way of saying I think at some point
15 the board is entitled to the deference of business judgment if
16 they can demonstrate that they've gone through the process
17 necessary to earn the deference to business judgment, which I
18 think Mr. Seery has done.
19 THE COURT: Okay. And while we're on the subject, I
20 mean 12,000 a month was the management fee to Highland from
21 Dynamic. What was the management fee from Argentina, do you
22 have that off the top of your head?
23 MR. SEERY: It would have been in the same -- these
24 are approximately --
25 THE COURT: The same range?

1 MR. SEERY: -- the same neighborhood.
2 THE COURT: Okay.
3 MR. SEERY: That the meetings would be based upon
4 fees.
5 THE COURT: Okay.
6 MR. SEERY: Or the redemptions (indiscernible)
7 variable asset now (indiscernible).
8 THE COURT: Okay.
9 MR. SEERY: (indiscernible).
10 THE COURT: Okay. All right. Just a minute while I
11 do some math.
12 (Pause in the proceedings.)
13 THE COURT: All right. I'm doing this math in my
14 head. There's a $7.4 million note receivable from HCM Services
15 of which Okada is the 25 percent owner of.
16 MR. POMERANTZ: Your Honor, 7.4 is not the demand
17 notes. Again, 985,000 is the demand notes. The rest of those
18 notes are performing and not in the fall.
19 THE COURT: Okay. All right. With regard to the
20 motion and the objection and the Committee there's been a lot
21 of argument about 105 and what it permits the Court to do and
22 what it doesn't as far as fashioning an equitable remedy here.
23 Here I mean it's clear that this Debtor has receivables owed by
24 these related parties, although they don't necessarily match up
25 perfectly with the amount of disbursements that are owed by

1 these funds and of course the funds are separate legal entities
2 than the Debtor. So I'm not glossing over that fact or
3 ignoring that fact.
4 But I do think the Court has broad equitable powers
5 to remedy -- to fashion remedies that preserve the status quo
6 and I think it is appropriate here to order that most of this
7 money, that most of the 8.6 million that would go to related
8 investors in these three funds, be put into the registry of the
9 court pending further motions, orders, adversary proceedings
10 anyone wants to file to make a claim to that money. I said
11 most of it.
12 I am going to order that with regard to the amount
13 that would be payable to Mr. Okada, the 4.176 million, we will
14 subtract from that the 1.3 million that represents the demand
15 note receivable that the Debtor has so that I'm essentially
16 doing an equitable offset at that point. So he can only be
17 paid -- he should only be paid from the Dynamic Fund whatever
18 4.176 million minus 1.3 million is, and the rest shall be put
19 into the registry of the court. And everybody's rights are
20 reserved on anything and everything with regarding to do tos
21 and do froms.
22 I reserve the right to supplement in more detail in a
23 written form of order to justify the Court's 105 action here.
24 But, Mr. Pomerantz, I'd ask you to upload a form of order on
25 this, please.

1 MR. POMERANTZ: We'll be happy to, Your Honor. We'll
2 circulate it to the Committee and Ms. Patel as well.
3 THE COURT: All right. Well, thank you all, and --
4 MR. CLEMENTE: Your Honor, but just to be clear
5 though, the other amounts, correct, to HCM Services and CLO
6 Holdco, would that be part of the order or what did Your Honor
7 have in mind with respect to that?
8 THE COURT: Well --
9 MR. CLEMENTE: Because I believe those are to be
10 deposited with the Court as well, yes.
11 THE COURT: -- all of -- everything gets deposited
12 in the registry of the court, except Mr. Okada will get
13 whatever the differential is of 4.176 minus 1.3. Okay?
14 MR. CLEMENTE: Thank you, Your Honor.
15 THE COURT: All right. Thank you.
16 COURT SECURITY OFFICER: All rise.

EXHIBIT 25

Complaint of "unfairly prejudicial" conduct of company's affairs under ss349 and 350 of Companies (Guernsey) Law 2008. Review of principles. Relevant prejudice must be to Plaintiff's interests as a member of the company and not otherwise. Prejudice must also be "unfair". No such conduct in this case; application dismissed. Court could not, in any event, grant relief which overrode contractual rights of other members of the company not convened, or of third parties.

J U D G M E N T

Introduction - this Action and the parties

1. The Applicant, CLO Holdco Ltd ("**CLOH**") is a limited company incorporated in the Cayman Islands and is the 49.015% minority shareholder in the Respondent, Highland CLO Funding Limited ("**HCLOF**"). CLOH brings this Application against the company, HCLOF, under ss 349 (1) (a) and 350 of the Companies (Guernsey) Law 2008 on the grounds that

   "the affairs of [HCLOF] are being or have been conducted in a manner that is unfairly prejudicial to the interests of the members generally or of some part of the members (including at least [itself])".

© Royal Court of Guernsey

2. The Application, dated 6th March 2023, states that it arises out of the management of HCLOF in a manner which has caused ongoing unfair prejudice to CLOH in its capacity as minority shareholder as set out in the supporting affidavit of CLOH's director, Mr Paul Murphy. It is alleged that this is "*mainly*" predicated upon HCLOF - acting, of course, through its own Directors, Mr Richard Boleat and Mr Richard Burwood, but primarily the former - having aligned HCLOF's interests with the wider commercial interests of the majority "HCM shareholders" (a term explained below) who own 50.612% of HCLOF's issued shares.

3. The Application itself does not elaborate further. The supporting affidavit of Mr Murphy gave the Applicant's perspective at the time as to the way in which the affairs of HCLOF had been managed, raising several points of complaint aimed, principally (in summary) at matters which it was said were inhibiting CLOH's right or opportunity, in the circumstances, to receive funds properly due to shareholder/investors, or alternatively to "exit" its relationship with HCLOF. It is not necessary to recite these complaints here, as the grounds of CLOH's Application, and the relief which it seeks, have changed and moved on as the case has developed.

4. The purpose of the Application is said to be to mitigate further harm being done to CLOH's interests, preferably by an order enabling CLOH to terminate its relationship with HCLOF on what CLOH submits are equitable terms. CLOH's preferred option is (or was) that it should surrender its shareholding to HCLOF in return for a distribution to it *in specie* of its proportionate share of HCLOF's underlying assets, these being certain financial instruments known as Collateralised Loan Obligations, or "**CLOs**". Initially in the Application, alternatives were also proposed as to actions which the court might order HCLOF to perform. However, these latter forms of relief have rather fallen away as the case has progressed, and in fact, the form of relief ultimately sought by CLOH, formulated during the hearing itself, was that the court should order HCLOF to buy back CLOH's shareholdings, in two stages, at a price equal to their pro-rata share of HCLOF's current NAV (or Net Asset Value).

5. HCLOF resists the Application. It denies that its business has been conducted in any way prejudicially to the interests of CLOH as a member of HCLOF, let alone unfairly prejudicially. It submits that the relations of the parties are purely commercial, and it relies on the documents governing those relations, in particular HCLOF's Articles of Association, and a Members' Agreement made between all the then shareholders and HCLOF itself in 2017. It asserts:

   i. that the manner in which HCLOF's business has been conducted, including in respect of the particular matters of complaint raised by CLOH at various times, has been entirely in accordance with the terms of those documents – and that is really an end of the matter; but in any event

   ii. that, upon examination, the substance of CLOH's complaints are that business decisions taken by HCLOF's Directors were "wrong" as a matter of business judgment, and in the absence of bad faith in and about those decisions – and CLOH does not allege bad faith – such decisions do not found a claim of "unfair prejudice",

   iii. that the alleged "prejudice" cited by CLOH is, in any event, not prejudice to its "interests as a *member*" of HCLOF (emphasis added), and

   iv. that the relief sought by CLOH is not relief which the court has jurisdiction to grant (again, in any event) because it would involve either

      (a) contravening provisions of Guernsey company law, specifically, s 314 of the Companies (Guernsey) Law 2008 ("**the Companies Law"),** or

(b) overriding contractual provisions of the Members' Agreement or HCLOF's Articles of Association, and neither of these courses is possible in the absence of the other members of HCLOF – and in particular the majority shareholder – who are not convened as parties to this action, and, indeed who cannot be so convened, for reasons which will emerge, or

(c) breaching the contractual rights of independent third parties.

About this judgment

6. This is a decision of the Court and this written judgment has been prepared in accordance with Section 16 (5) of the Royal Court (Reform) (Guernsey) Law 2008. Pursuant to Section 14 (2) of that Law, the Lt-Bailiff did not sum up to the Jurats in open court but instead retired with the Jurats.

7. The Lt-Bailiff reminded the Jurats of their respective roles, namely that the Lt-Bailiff is the sole judge of matters of law and procedure and the Jurats must follow her directions on such matters, but that Jurats are the sole judges of questions of fact.

8. The Lt-Bailiff directed the Jurats that in making their factual findings, they must take into account all the evidence presented to the court, written, oral and documentary, on behalf of both parties, but it was for them to decide what evidence they accepted and what they rejected, or what weight they gave to any evidence. They should take into account the arguments which they heard from both Advocates, but they were not bound to accept them. Insofar as the Lt-Bailiff might herself appear to express views on the facts when guiding their deliberations, they should ignore these and reach their own independent conclusions. As to this, the standard of proof which they should adopt as regards any finding of fact was the ordinary civil standard of proof, namely proof "on balance of probability", and that this meant simply that they must be satisfied that the particular fact in issue was more likely to be so, than not to be so.

9. In this case, and with due notice to the parties, the court sat with a complement of only two Jurats instead of three, owing to the illness of the third intended Jurat on the first day of the hearing. The consequence of this was that in the case of a disagreement on any finding of fact between the two Jurats who heard the case, the Lt-Bailiff would have a casting vote on that issue. However, the Jurats were the sole arbiters of fact in the first instance, the Lt-Bailiff's finding only being required if they disagreed. In the event, no disagreement arose between them.

10. Therefore, where this judgment sets out holdings of law and reasons therefor, they are the holdings and reasons of the Lt-Bailiff; where it sets out findings of fact and reasons therefor, they are the common findings and reasons of the Jurats. Where mixed findings of fact and law are concerned, they have been reached on the above principles, but are referred to as the findings of "the Court" for brevity.

The Facts

11. In order to understand the matters complained of it is first necessary to know something of the surrounding facts and of the history, which is very complex. CLOH argues that HCLOF has tried to overburden the case with unnecessary and confusing detail in order to bolster its case. However, even to assess that proposition requires an examination of the facts. In

fact, a reasonably full account of the history is necessary for its materiality to two questions. The first is an appreciation of the circumstances in which HCLOF's Board was making the decisions of which CLOH complains. The second is to enable a proper analysis of what are, or are not, CLOH's interests "as a member" of HCLOF, as opposed to in any other respect.

12. The following account is broadly matters which have been common ground, and it is derived from the parties' respective chronologies except where indicated. Otherwise, it can be taken to record the Jurats' findings.

13. In 1993, a very wealthy United States citizen, Mr James Dondero, founded Highland Capital Management LP ("**HCM**") as a limited partnership incorporated under the laws of Texas. Mr Dondero was its CEO, in fact until January 2020. Its General Partner appears to have been Strand Management Inc or Strand Advisors Inc, of which Mr Dondero was also Chief Executive. One of its limited partners was a Mr Joshua Terry, or trust interests of his. The business of HCM was or included the sponsoring of CLOs.

14. A CLO is a form of security and the term refers to a special purpose vehicle (or "**SPV**") used by a portfolio manager to purchase and hold a basket of corporate loans. The CLO sponsor purchases such loans from the banks which made them, typically to large companies, and bundles them into a basket of (say) 150 or 200, and then sells interests in that basket to shareholder/investors. The loans themselves are typically held, pursuant to an indenture, by a trustee who has custody of the portfolio investments and also manages the payment obligations of the CLO to its investors. Various tranches of debts and quasi-equity securities in the form of "Notes" are issued by the SPVs to subscribing investors and the subscription proceeds are used to purchase the loans initially. These may be traded, subsequently. The tranches have different credit ratings and differing rates of return, according to their priority for payment. They will typically be secured, except for the lowest rated tranche, which is "subordinated". The most senior interest (that which will be paid in first priority out of the payments being made into the basket by the debtors of the underlying loans) may be rated AAA in terms of credit rating, because payment is very secure, but it will receive a lower rate of return. Conversely, the inferior interests, the lowest being the "junior" interest, will be rated progressively lower (poorer) on the credit rating scale as their priority for payment reduces, but, will conversely receive a higher rate of return, because they are at greater risk of non-payment if there are defaults. In investments markets, risk and return are inversely correlated.

15. Mr Dondero was – and still is - also the ultimate founder and benefactor (or settlor) of the Charitable Donor Advisor Fund LLP ("**CDAF**"), a Cayman Islands limited partnership which manages and administers his charitable and philanthropic affairs, although he himself apparently has no direct formal involvement in its operation or ownership. CDAF is run by a corporate General Partner, with the limited partners comprising Mr Dondero's family trusts, and/or other charitable foundations. CLOH was incorporated at some time in the Cayman Islands and is 100% owned by CDAF.

16. In 2011, Mr Dondero founded Acis Capital Management LP ("**ACIS**") in the United States, as a limited partnership. It was founded as a subsidiary of HCM, to manage HCM's portfolio of CLOs. Mr Terry was a key employee or participator in ACIS, and is now its President and sole limited partner, as a result of events yet to be related. As previously mentioned, Mr Terry was then also effectively a limited partner in HCM.

2015

17. In March 2015, HCLOF was incorporated in Guernsey, - but then under the name Acis Loan Funding Limited - as a registered closed-ended collective investment scheme. CLOH was initially the 100% shareholder of the company. The directors of HCLOF were a Mr William

Scott and a Ms Heather Bestwick, but their functions have been described as "non-executive"; HCLOF used ACIS as its portfolio manager and, of course, ACIS earned fees for this.

18. HCLOF's investment objective was (obviously) to provide income returns and capital growth to its shareholders. It commenced business in August 2015 under a Portfolio Services Agreement with ACIS. Its investments were largely in CLOs, some being ACIS CLOs and others being Highland CLOs, issued by HCM. This amalgamation or duplication of functions between linked entities is not, the evidence suggests, unusual in the high finance world.

19. HCLOF's "investment period" was five years, expiring in April 2020. Whilst HCLOF would invest actively during this period, and pay returns (dividends) quarterly to its investors, in accordance with their rights as described in its Offering Memorandum, from the expiry of the investment period the business would be in "wind-down" mode. The value of CLOs, and thus of CLO Notes diminishes over time, as the underlying loans mature and are paid off, or terminate in default, or the senior and cheapest rate "Notes" are paid off and fall out of account, leaving only those with the highest rates of interest being paid out. Because of these factors, the costs and expenses of administration begin to take up a greater proportion of the underlying income, making them increasingly more uneconomic until they can even become a liability. Typically, therefore, the terms of a CLO will enable the holder of such an unprofitable structure to request to redeem it before the maturity of all the underlying loans. During the wind-down period, the investments of the investment scheme might therefore be realised or retained, according to investment advice and judgements then made, with returns continuing to be paid out in accordance with the terms of the investment. However, there would be a final cut-off date some years later (in fact, in this case it is November 2027) at which time any remaining assets held would simply be realised and the CLO fund would be wound up and its proceeds finally distributed to investors, again in accordance with their scheme rights.

2016

20. In 2016, Mr Dondero fell out with Mr Terry in a very major way. They parted ways, but clearly not amicably. ACIS continued to provide portfolio management services to HCLOF, with a replacement Portfolio Management Agreement being concluded in December 2016.

2017

21. On 20th October 2017, Mr Terry obtained an arbitration award of $8Mn against ACIS. On 27th October 2017 HCLOF changed its name from Acis Loan Funding Ltd to its present name of Highland Capital Loan Funding Limited.

22. On 15th November 2017, a particularly important suite of events occurred.

    (i) First, by a Subscription and Transfer Agreement, CLOH sold a 50.8% shareholding in HCLOF to new shareholders, including 0.63% to HCM, 49.98% to various linked companies known as the "HarbourVest" entities and also a very small percentage (0.073% in aggregate) to four individual investors (who have played no part in these proceedings.)

    - Advocate Horsbrugh-Porter, appearing for CLOH in this matter confirmed that this was a voluntary transaction by CLOH. It appears to have been associated with a round of further capital raising. However, it left CLOH as a minor, albeit significant, shareholder in HCLOF, holding a 49.015% interest in the company.

- An Offering Memorandum was issued in connection with this transfer and the further subscription for new shares in HCLOF which is next referred to below. HCLOF's investment objective continued as above, being (as stated in the Offering Memorandum) to provide shareholders with

  > "*stable and growing income returns, and to grow the capital value of the ... investment portfolio through opportunistic exposure to CLO Notes* [and other assets]."

(ii) HCLOF adopted new Articles of Association, and all shareholders subscribed for further shares.

(iii) HCLOF appointed Highland Capital Advisor Ltd ("**HCA**") a wholly-owned subsidiary of HCM, as its portfolio manager in place of ACIS, to manage the investment and reinvestment of the company's assets in accordance with the Offering Memorandum. As such, HCA receives (or is entitled to receive if certain conditions are met) reimbursement of its expenses, and also a fee payment, effectively equivalent in the first place, to 20% of profits made on investments after the shareholder/investors themselves have received an initial return of 8% (compound) on their investments, and with further provisions for the ration of distribution in relation to any monies earned in excess of this return. However, it is HCM which in fact provides portfolio management services to HCLOF as the "sub-advisor" of HCA.

(iv) All the members of HCLOF also entered into a Members' Agreement, ("**the Members' Agreement**") to which HCLOF itself, and HCA as its portfolio manager, were also parties. The terms of the Members' Agreement have assumed some significance as will appear, and, indeed, were intended to take priority over the Articles of Association, in case of conflict (see Clause 21).

- For present purposes it is to be noted that Clause 20 contains several "General" provisions, including a denial of any partnership relationship between the parties (Clause 20.3), and in particular Clause 20.5 provides that

  > *"Each party shall at all times act in good faith towards the other Parties and shall use all reasonable endeavours to ensure that this Agreement is observed."*

23. By this time HCLOF itself had subscribed for and held certain CLO Notes issued under the ACIS name. ACIS was the portfolio manager of these CLOs, themselves. The relevant CLO SPVs for the purpose of these proceedings are ACIS 2014-4 Ltd, ACIS 2014-5 Ltd and ACIS 2014-6 Ltd, which can be conveniently referred to as "**ACIS-4**", "A**CIS-5**" and "**ACIS-6**" (together, "**the ACIS CLO**s"). HCLOF was the 100% owner of ACIS-4 and ACIS-5, but only 87% owner of ACIS-6. The remaining 13% of ACIS-6 was owned by another corporate entity, NexPoint Strategic Opportunities Fund ("**NexPoint**"). The Jurats are satisfied on the balance of the evidence, that Mr Dondero also had/has an interest, or an influential association, with NexPoint.

2018

24. On 30 January 2018 Mr Terry commenced "involuntary bankruptcy proceedings" (no doubt the equivalent of compulsory winding up) against ACIS in Texas, in support of enforcing his entitlement under his arbitration award. His action cited concerns that HCM, then under the control of Mr Dondero, had been depleting ACIS's assets.

25. On 14 May 2018, and doubtless after strenuously contested proceedings, the Texas Bankruptcy Court appointed an independent Trustee over the Bankruptcy of ACIS. That Trustee apparently issued various proceedings against HCLOF between May and July 2018. On 31 May, the Texas Bankruptcy Court took the further measure of issuing, of its own motion, a Temporary Restraining Order ("**TRO**") prohibiting HCLOF from taking any actions in furtherance of optional redemptions or other liquidations of its ACIS CLO Notes. Condensing a long story, this TRO was subsequently continued by injunction on 21 June 2018, confirmed on 30 August 2018. An appeal by HCLOF failed.

26. From August 2018, HCM ceased to use ACIS personnel for the management of its business and instead formed an association with Brigade Capital Management LLP ("**Brigade**").

2019

27. On 31st January 2019, the Texas Bankruptcy Court confirmed the fourth iteration of a "Plan of Reorganisation" (no doubt the equivalent of a Creditors' Voluntary Arrangement) for ACIS, put forward by Mr Terry and the ACIS Bankruptcy Trustee in the ACIS Bankruptcy. This was known as "Plan D". The Court dismissed objections from HCM and from HCLOF, acting by Mr Scott and Ms Bestwick. Within Plan D it was provided that ownership of ACIS should be transferred to Mr Terry. The Plan also included an injunction preventing HCLOF from seeking the redemption of the ACIS CLOs until the earliest of

    i. the resolution of ACIS's claims against (among others) HCM and Mr Dondero,

    ii. payment in full of claims established against ACIS,

    iii. a material default under Plan D, or

    iv. further order of the Court.

Appeals brought by HCM and HCLOF failed.

28. On 16th October 2019 HCM filed for bankruptcy in Delaware, but this filing was transferred to Texas on 4th December 2019. Mr Dondero was still President and CEO of HCM at this time. Proofs of substantial debts, including a claim from Union Bank of Switzerland for just over $1Bn and a claim from previous litigation regarding another HCM fund ("Crusader"), of around $190Mn were filed against HCM.

29. On 24th October 2019 CDAF and CLOH filed proceedings in New York against parties including (in particular) US Bank as the indentured trustee of the ACIS CLOs, alleging mismanagement of the ACIS CLOs ("**the 2019 Lawsuit**").

2020

30. On 9th January 2020 the Texas Bankruptcy Court approved a settlement between HCM and its committee of unsecured creditors in the HCM Bankruptcy. Within this were terms that

    i. Mr Dondero relinquish control of HCM and resign as President and CEO and officer and adviser of HCM's General Partner, Strand Advisors Inc, and

    ii. A board of directors be appointed for HCM, comprising Mr James Seery of Strand (an experienced financier in the field of distressed investing, and independent of either Mr Dondero or Mr Terry) and two others, one of whom is a retired US Judge.

Mr Dondero remained an unpaid employee of HCM, and its portfolio manager, but the new independent board subsequently brought this relationship to an end as "*untenable*" and appointed Mr Seery as HCM's CEO and Chief Restructuring Officer.

31. Records of proceedings in the US Courts disclose extensive further litigation, after this time, between entities in which Mr Dondero was interested, or which he controlled, on the one hand, and HCM and also Mr Seery on the other. The process of the HCM Bankruptcy also involved ownership of HCM and the majority of its assets being transferred to a trust for its creditors, with all HCM's causes of action being transferred to a litigation sub-trust, again to be pursued, realised or otherwise dealt with for the benefit of its creditors. Whilst this is of no direct relevance to the present application, it is material as context showing the extensive background of hostile litigation.

32. On 31st January 2020 CDAF and CLOH added Mr Terry and ACIS as defendants to the 2019 Lawsuit, but then on 5th February they sought, and were granted, the voluntary dismissal of that suit but without prejudice to refiling to renew it.

33. On 6th February 2020, CDAF and CLOH filed a second lawsuit against US Bank and ACIS alleging mismanagement of the ACIS CLOs, ("**the 2020 Lawsuit**") but on 25th February 2020, they once again sought (and were granted) voluntary dismissal of that suit without prejudice to refiling.

34. On 21st April 2020, through counsel, CDAF and CLOH wrote to ACIS's counsel, seeking changes to the management of the ACIS CLOs, repeating the complaints previously made in the dismissed 2019 and 2020 Lawsuits, but expressly reserving all rights should the matter proceed to litigation. They repeated these sentiments in a further letter of 8th May 2020.

35. In the meantime, HCLOF's investment period expired, on 30th April 2020.

36. On 7th July 2020, Mr Scott and Ms Bestwick resigned as Directors of HCLOF, owing to personal conflicts of interests arising (apparently) in regard to the 2019 and 2020 Lawsuits. They appointed Mr Boleat, who is based in Jersey and Mr Burwood, who is based in Guernsey, as independent Directors in their place. Mr Boleat had been professionally known to Ms Bestwick and he in turn had recommended Mr Burwood. Neither of them had had any previous dealings with Mr Dondero, Mr Terry, Mr Seery, or any employee or representative of HCM, CLOH, HarbourVest, ACIS or US Bank.

37. On 31st July 2020, at HCLOF's Annual General Meeting, Mr Boleat and Mr Burwood were re-appointed by the shareholders of HCLOF, including CLOH. In his oral evidence, Mr Murphy accepted that these two Directors were entirely independent and, indeed, well-qualified for this role by their financial experience.

38. Mr Boleat has been the Director principally concerned directly with the matters in issue in these proceedings. He is a Chartered Accountant, specialising in hedge funds, private equity and debt funds and SPV's and investment groups. He is currently also a director of a number of other substantial investment funds, three of which are listed on the London Stock Exchange. He has been personally regulated by the Jersey Financial Service Commission since 2007, and he has experience of winding up listed funds and the management of a contested take-over of a listed fund. He therefore has considerable experience of corporate governance in the financial sector, in particular as regards investment funds, and including in a contentious context. He is not however, as he emphasises, a qualified lawyer or advocate.

2021

© Royal Court of Guernsey

39. On 14th January 2021, the Texas Bankruptcy Court, acting in the HCM Bankruptcy, approved a settlement agreement between HarbourVest and HCM ("**the HarbourVest Settlement**"). Within this it was provided that HarbourVest should transfer its 49.98% shareholding in HCLOF to HCMLP Investments LLC ("**HCMLPI**"), a wholly-owned subsidiary of HCM and HCM's nominee, (together, therefore, "**the HCM Shareholders**"), thus bringing HCM's effective interest in HCLOF up to 50.612% and making it the majority shareholder. CLOH, Mr Dondero and his two family trusts opposed this settlement. CLOH apparently withdrew its opposition before the hearing, but the other objections were pressed. However, they were dismissed by the Court. HCLOF itself played no part in the settlement.

40. On 22nd February 2021, the Texas Bankruptcy Court approved a Fifth Amended Plan of Reorganisation for HCM. No doubt prompted by the remarkable intensity and extent of the hostile litigation landscape previously noted, this included "gatekeeper" provisions preventing certain persons, including CLOH, from commencing or pursuing litigation against HCM, its subsidiaries, and various other parties connected with it including its directors, without first obtaining the leave of that Court.

41. On 12th April 2021, CDAF and CLOH issued proceedings in Texas against the HCM shareholders in relation to the HarbourVest Settlement, alleging breach of a fiduciary duty said to be owed to them, negligence and breaches of statutory anti-fraud provisions. HCLOF was named as a Defendant. (After certain procedural skirmishes this claim remained on-going in the Texas Bankruptcy Court at the time of this hearing with a decision expected in a few weeks.)

42. On 22nd April 2021, Mr Paul Murphy was appointed as a director of CLOH in addition to Mr Mark Patrick. Mr Murphy is a lawyer based in the Cayman Islands who specialises in the conduct of contentious cross-border insolvencies. He has effectively had charge of these proceedings on behalf of CLOH, in parallel with Mr Patrick, previously the sole director, dealing with other more administrative matters. He obtains his information as to the facts from CLOH's attorneys in other jurisdictions. He has never met Mr Dondero and has no communications with him. The Court infers that this distancing has been intentional, because of the contentious history of the whole matter.

43. On 28th April 2021 HCLOF, ACIS and Mr Terry reached a Settlement Agreement ("**the 2021 Settlement Agreement")** which disposed of the litigation between them and released all cross-claims between them and their affiliates: see Clauses 7, 9 and 10 of that Agreement. CLOH was not a party to that Agreement, and the "*Acis Releasees*" who were the beneficiaries of the releases given by ACIS and Mr Terry expressly excluded Mr Dondero, CLOH, CDAF and other entities owned or controlled by Mr Dondero (Clause 9).

44. Exactly when CLOH became aware of this agreement is not perfectly clear and is a matter of some contention. Mr Murphy says that CLOH was not aware of this Agreement at all until it received discovery in a later action, referred to below. HCLOF points out that Mr Murphy requested a copy of this Agreement from Mr Boleat by an email of 11th January 2022, to which Mr Boleat responded, on 20th January 2022, referring him to an affidavit which had exhibited the Agreement and saying that it was assumed, therefore, that he or CLOH's counsel had a copy. Mr Boleat says that he received no reply. He points out that this complaint was then not raised further until Mr Murphy made his fourth affidavit, on 23rd September 2023.

45. CLOH apparently does not complain that HCLOF's entering into the 2021 Settlement Agreement was itself unfairly prejudicial to its interests. Rather, its complaint is that in doing so, HCLOF agreed to a particular term, contained in Clause 2(iii) of the Agreement, to the effect that HCLOF would thereafter ensure that any third party transferee, assignee or successor, direct or indirect, to the "HCLOF Subordinated Notes" (which were the ACIS

CLO Notes held by HCLOF) would not be affiliated in any way with Mr Dondero, CLOH, CDAF or any other entities owned or controlled by Mr Dondero or managed by any affiliate of his. In effect, this precluded HCLOF from transferring the ACIS CLOs to CLOH (or to any "Dondero entity"), and required HCLOF to take steps to prevent such CLOs coming into CLOH's (or any other Dondero entity's) hands.

46. CLOH complains that this conduct of HCLOF was unfairly prejudicial to its interests as a member of HCLOF, because it created an impediment to CLOH's achieving its desired exit strategy of taking an *in specie* distribution of assets from HCLOF. Mr Boleat has pointed out that CLOH had no right to such a possibility under the terms of its investment, and the possibility of taking any such course was not raised by CLOH until several months later.

47. Under the 2021 Settlement Agreement, though, the injunction which had been preventing HCLOF from seeking to redeem its ACIS subordinated loan Notes was lifted. Consequently, on 12th May 2021 HCLOF was able to exercise its option, contained within its subscription rights as the 100% holder of ACIS-4 and ACIS-5 CLO Notes, and the sufficient majority (86.63%) holder of those in ACIS-6, to request that US Bank redeem or realise all those outstanding Notes, paving the way to a distribution of the proceeds to HCLOF shareholders.

48. Rather promptly thereafter, however, on 14th May 2021 NexPoint filed complaints in the New York Courts against ACIS (as the ACIS CLO portfolio manager), US Bank (as trustee), Mr Terry (as ACIS's principal) and Brigade as its investment manager, alleging breach of fiduciary duty regarding the ACIS-6 CLO ("t**he NexPoint Litigation**").

49. On 17th June 2021, following a finding of contempt of court against Mr Dondero for attempts to interfere with the management of HCM, the Texas Bankruptcy Court required all "Non-Debtor Related Entities", expressly including CDAF and CLOH, to provide evidence of their ownership, and whether Mr Dondero or his family trusts had any direct or indirect ownership interest in them.

50. On 23rd June 2021 US Bank sold the underlying assets held by the ACIS CLOs and redeemed the secure Notes, leaving only the junior subordinated Notes, owned by HCLOF, outstanding. However, US Bank retained the remaining proceeds ("**the Redemption Proceeds**") and declined to release them. It informed HCLOF orally of this decision on 15th July 2021, explaining its reasons.

51. On being informed of the retention, CLOH wrote to HCLOF on 22nd July 2021 expressing concern and asking what action HCLOF was therefore taking. By a letter of 23rd July 2021 HCLOF's administrators, Elysium Fund Management Limited ("**Elysium**'), relayed to CLOH US Bank's explanation of its reasons, namely that it was retaining the Redemption Proceeds to cover its own and ACIS's potential costs and liabilities related to pending and threatened litigation concerning the ACIS CLOs. By a letter of 27th July 2021 CLOH wrote to HCLOF setting out why it considered that US Bank had no right to retain the Redemption Proceeds. By a letter of 28th July 2021, HCLOF wrote to US Bank strongly objecting to the retention, and reserving its right to take legal action, whilst also expressing willingness to enter into discussion to try to find a resolution without the need for this.

52. On 3rd August 2021, on yet another front, the Texas Bankruptcy Court found parties including CDAF, CLOH, Mr Dondero and Mr Patrick, (who was a director of CDAF as well as CLOH) in contempt of court for their respective involvements in bringing proceedings against Mr Seery without the leave of the Bankruptcy Court, in breach of the gatekeeper provisions contained in the Plan of Reorganisation made in HCM's bankruptcy on 22nd February 2021.

53. On 13th August 2021 US Bank's attorneys replied to HCLOF's attorneys setting out US Bank's reasons for considering itself entitled to retain the Redemption Proceeds.

© Royal Court of Guernsey

54. On 31st August, 2021, HCLOF's Interim report and unaudited financial statements to 30th June 2021 were published to shareholders. They included a note to the effect that the Directors of HCLOF (ie Mr Boleat and Mr Burwood) were of the opinion, having taken advice, that US Bank's retention of the Redemption Proceeds was unlawful. This is a point upon which heavy reliance has been placed by CLOH in this Application.

55. On 20th October 2021, CLOH, through Ogier as its Attorneys, emailed the Directors of HCLOF requesting information regarding the retention of the Redemption Proceeds. On 26th October 2021, Carey Olsen on behalf of HCLOF, replied that US Bank's stated justification for such retention was threatened litigation from CLOH, and also the NexPoint Litigation, in which HCLOF was a named defendant.

56. On 2nd November 2021, CLOH raised with HCLOF for the first time, an issue regarding HCLOF's Advisory Board, its composition and the permissible functions of its members, in all the circumstances. Although this issue was pursued initially as a complaint, in the end, it has not been relied on. It is not therefore, described any further in this factual account. However it is an example of, and a reminder that there were yet, other matters of dispute being raised, and forming part of the general background picture.

57. On 10th November 2021, Mr Murphy wrote further to the Directors of HCLOF on the subject of US Bank's retention of the Redemption Proceeds, but he added, as a final comment, a question whether the Company would consider making an "*in-kind distribution from the underlying assets*". He repeated this request in an email of 28th November 2021. On 3rd December 2021 Mr Boleat, on behalf of HCLOF rejected this request, giving various commercial reasons (dilution of HCLOF's power and influence as itself a holder of such assets; practical problems as to whether it was feasible, and concern as to provoking more expensive and hostile litigation by upsetting the status quo). He also pointed out that the retention issue could be resolved quickly if NexPoint would release its claims in the NexPoint Litigation, and CDAF and CLOH would confirm that they did not have any claims against US Bank or ACIS, as this would remove any excuse that US Bank might have for making any retention.

58. In the meantime, on 24th November 2021 HCLOF applied to intervene in the NexPoint Litigation, on the basis that NexPoint had insufficient standing, under the terms of the ACIS-6 CLO, to bring any such claim, since its holding was a mere 13% and a 25% interest was required under the terms of the CLO itself. On 7th December 2021 the New York Federal Court granted this motion. The actions of HCLOF in making this intervention are asserted by CLOH to be detrimental to its interests as a shareholder in HCLOF, and consequently the reasons for this intervention have become material. This intervention has continued to be another main plank of CLOH's case that the business of HCLOF has been carried on in a manner which is unfairly prejudicial to its interests as a member of HCLOF.

59. In the meantime, again, on 1st December 2021, Mr Seery, on behalf of HCM as HCLOF's Portfolio Manager, wrote, at the request of HCLOF, to US Bank challenging their retention of the Redemption Proceeds and demanding their distribution by 15th December 2021. Unsurprisingly, this did not happen. The general wind-down business of HCLOF was continuing however, and on 16th December 2021, HCLOF's Board approved payment of a dividend to shareholders of £15.86Mn, leaving HCLOF with cash in hand of about $15Mn.

60. On 24th December 2021, US Bank's attorneys reiterated to HCLOF its reasons for retaining the Redemption Proceeds and its belief that it faced a very real threat of proceedings from CDAF and CLOH. ACIS's attorneys wrote similarly to HCLOF maintaining that the retention of the Redemption Proceeds was justified both under the terms of the ACIS CLOs trust indentures, and as a matter of case law. At the same time, US Bank, ACIS and Mr Terry issued proceedings in New York, seeking declarations against CDAF, CLOH and

NexPoint to the effect that none of those Defendants had any viable claims against any of the Plaintiffs in respect of the ACIS CLOs ("**the Declaratory Action**"). They then wrote on 28th December 2021, asking CLOH and CDAF to release their threatened mismanagement claims so as to avoid further "unnecessary" litigation.

61. From HCLOF's subsequent Annual Report and Financial Statements, HCLOF's assets at 31st December 2021 amounted to $76Mn, including significant interests in the ACIS CLOs. Of this some $38Mn was cash in hand.

2022

62. On 10th January 2022 CLOH and CDAF refused to release their threatened mismanagement claims against US Bank, ACIS and Mr Terry.

63. On 11th January 2022, Mr Murphy wrote to HCLOF's Directors, requesting information about some of the matters later complained of in this Application, but also putting forward, once again, "exit proposals" that HCLOF should make an *in specie* distribution to CLOH, in satisfaction of its share entitlement. On 20th January 2022, Mr Boleat once again rejected this proposal.

64. On 21st March 2022, the value of the Redemption Proceeds retained by US Bank was about $39Mn.

65. On 12th April 2022, Ogier, on behalf of CLOH wrote what was effectively a letter before action to Carey Olsen, on behalf of HCLOF, setting out complaints later included in this Application and again making the "exit proposal" of an *in specie* distribution to CLOH, but also now including an alternative proposal that HCLOF should buy back CLOH's shares in HCLOF. On 13th April, Mr Seery wrote on behalf of HCM stating that the HCM shareholders did not regard these proposals as being in their best interests and they would not be supporting them. On 14th April, Carey Olsen replied to Ogier, refuting the various complaints made.

66. HCLOF's AGM took place on 19th May 2022. At the meeting, Ogier, on behalf of CLOH, requested the Directors to consider potential ways for CLOH to "exit" HCLOF.

67. Possibly arising from this, on 28th June 2022 HCLOF wrote to shareholders, including CLOH, making an offer to buy back shares in HCLOF *pro rata* at 85% of the current NAV of the company. HCLOF had just recently acquired cash as a result of selling its interests in MGM Studios equity and, whilst this was insufficient to buy back all HCLOF's outstanding shares, the HCM Shareholders had already informed HCLOF that they did not wish to take up this Share Buy Back offer. This meant that there would be sufficient cash in HCLOF to enable it to purchase the remaining shares, held principally by CLOH, and the HCM Shareholders had no objection to this.

68. However, on 7th July 2022, CLOH rejected this offer, in effect because it rejected the discount value of 85% of NAV being proposed. Indeed, at one point CLOH appeared to allege that the very making of such an offer constituted unfairly prejudicial conduct by HCLOF, although it is difficult to see how this could be. The assertion was eventually moderated to a submission that the proposal of such discount was evidence of a mindset, and a pattern of conduct, of HCLOF's preferring and advantaging the HCM Shareholders' interests and subordinating those of CLOH, which was said to support CLOH's other claims of demonstrable unfairly prejudicial conduct.

69. On 15th July 2022 HCLOF therefore informed shareholders that the Share Buy Back Offer had lapsed owing to insufficient support, and that a dividend would be paid instead. On 18th

© Royal Court of Guernsey

July it therefore declared a cash dividend to investors (paid on 22nd July), totaling some $22.Mn. This left HCLOF with about $15.5 Mn in cash.

70. On 9th August 2022, the New York Federal Court ruled in the NexPoint Litigation that NexPoint's claims were a matter of state law and were not within the jurisdiction of the Federal Court.

71. On 31st August 2022 CLOH provided the HCM Shareholders in HCLOF with a draft of this Application and the Affidavit of Mr Murphy in support. This was as an exhibit to an application CLOH proposed to make in the Texas Bankruptcy Proceedings (later filed on 9th September 2022) applying for an order recognising that HCLOF was not a protected party under the gatekeeper provisions, so that, therefore, these proceedings could be brought.

72. On 28th September 2022 the Texas District Court made a second finding of contempt of court against Mr Dondero and others, expressing itself to be satisfied from evidence that there was ample evidence before the State Court of Mr Dondero's control over CDAF and CLOH, notwithstanding the absence of his holding any formal position.

73. On 4th October 2022 NexPoint refiled a portion of its complaint against US Bank, ACIS and Mr Terry in the New York State Court. On 30th November 2022 HCLOF intervened in this litigation on the same basis as its previous intervention in the Federal case.

74. On 8th December 2022, US Bank, ACIS and HCLOF agreed a draft Settlement Agreement, to be held in escrow pending fulfilment of certain requirements. These requirements were fulfilled when the Texas Bankruptcy Court issued its decision on 27th February 2023 (referred to below), and this agreement therefore subsequently became the "**2023 Settlement Agreement**", which has also become a major plank in CLOH's assertion of unfair prejudice.

2023

75. On 24th February 2023 HCM filed a motion in the Texas Court seeking permission to bring proceedings to have parties designated the "Dondero Entities" (expressly including CDAF and CLOH) declared vexations litigants, and to restrain their ability to bring litigation against HCM and its management.

76. On 27th February 2023 the Texas Bankruptcy Court in the HCM Bankruptcy issued an order in favour of CLOH, confirming that HCLOF was not a protected party under the gatekeeper provisions, thereby permitting CLOH to commence the current proceedings against HCLOF.

77. The day after this, on 28th February 2023, HCLOF, US Bank and ACIS signed, or perhaps confirmed, the 2023 Settlement Agreement, and HCLOF so informed its shareholders by letter. The terms of the 2023 Settlement Agreement secured the release by US Bank of $16.5Mn worth of the retained Redemption Proceeds, which would then be free to be distributed to investors. However, that Agreement also included three provisions which CLOH now says were unfairly prejudicial to its interests as a member of HCLOF. These are

    i. Clause 4 of the 2023 Settlement Agreement whereby HCLOF agreed, upon receipt of the partial release of the funds being retained by US Bank, to release US Bank from any claims (including therefore its claim that the retention was intrinsically unlawful) until after final disposal of the Declaratory Action, subject only to an agreement that it and US Bank would meet and confer in good faith about the potential release of the remaining sums (Clause 4 (b) and (c));

ii. the term at Clause 6 of that Agreement whereby the parties agreed to co-operate to pursue fees and costs from entities, including expressly NexPoint and itself, incurred in various pieces of litigation; and

iii. Clause 12 (a) (ii) whereby HCLOF again agreed to procure that any transferee, assignee or successor to the ACIS CLOs (there called the "HCLOF Notes") should not be affiliated in any way to CDAF, CLOH, NexPoint, Mr Dondero or any entity owned, controlled or affiliated with him, and also take steps to prevent either the transfer of its management agreement or the transfer of the HCLOF Notes, to any Dondero entity.

78. CLOH did not discover the actual terms of the 2023 Settlement Agreement until 16th May 2023, through its US Counsel. When it did, those terms, and the coincidence that this agreement appeared to have been made immediately after the order obtained by CLOH which enabled it to proceed against HCLOF by these proceedings, of which it had forewarned HCLOF in August 2022, caused Mr Murphy to conclude that this had been part of a deliberate plan to obstruct CLOH and its desire to "exit" HCLOF. HCLOF's entering into the 2023 Settlement Agreement, has therefore been cited as another major plank of CLOH's claim to have suffered unfair prejudice.

79. To bring matters finally up to date, this Application was issued on 6th March 2023. Since then

i. On 30th March 2023, CLOH, together with CDAF filed a defence and counterclaim in the Declaratory Action in New York, seeking its own declaratory relief, but also seeking damages based on, broadly, the same allegations of misconduct regarding the management of the ACIS CLOs as had been the basis of the 2019/2020 Lawsuits, withdrawn at the time, but again raised in correspondence in April 2020, and never released. Their motion to join HCLOF in those New York proceedings was granted on 1st May 2023.

ii. On 7th September 2023, NexPoint's appeal against the dismissal of its Federal litigation (heard in April 2023) was dismissed.

The Action and the Trial

80. CLOH's Application was launched on 6th March 2023, supported by a lengthy affidavit of Mr Murphy sworn on 7th March 2023. Mr Murphy swore two further affidavits on 14th March 2023 and 2nd June 2023, setting out the various matters which CLOH claimed were conduct of HCLOF which was unfairly prejudicial to it, entitling it to relief. Mr Boleat swore a lengthy affidavit in reply on 26th June 2023, in which he refuted CLOH's claims, explaining all the actions taken by him and Mr Burwood on behalf of HCLOF since his appointment, and making the particular point that they had taken advice from both financial experts and legal advice where they deemed it necessary and had had regard to such advice in forming their views as to what steps it was appropriate to take in HCLOF's best interests. He suggested that CLOH's claim seemed rather to be with regard to the appropriateness of the actions which the Board had taken (and with which Mr Murphy, on behalf of CLOH patently did not agree) rather than of any conduct which could fairly be viewed as prejudicial to the interests of CLOH. Mr Murphy swore his fourth affidavit in answer to some of the points made by Mr Boleat on 14th September 2023.

81. The hearing took place on 24th-26th and 30th October 2023. Advocate Alex Horsbrugh-Porter appeared for CLOH and Advocate Mark Dunster represented HCLOF. Both Mr Murphy and Mr Boleat gave oral evidence, and were cross-examined on their affidavits. The Court reserved judgment.

82. Certain parts of the evidence of Mr Boleat revealed legal advice which had been given to HCLOF in the context of litigation against third parties, and also certain financial information. HCLOF wished to waive privilege in such advice for the purpose of these legal proceedings only, and clearly the advice and information was reasonably regarded as commercially sensitive. Consequently, the Court permitted such sensitive information to be redacted out of those parts of the evidence which might be in the public domain and made privacy orders in respect of unredacted evidence. It also directed the hearing to go into camera when such parts of the evidence were being dealt with, and it has ordered that those parts of both the evidence and the hearing transcript should be separated in the court records and should be sealed.

83. It has already been observed that the matters relied on by CLOH have changed and developed over the course of the proceedings. Even with a semi-agreed list of issues of 19th September 2023, made five weeks before the hearing as directed by the court, several such issues were then not pursued at the hearing. At the same time, Advocate Horsbrugh-Porter raised points which Advocate Dunster complained were newly raised issues, although since they were either points of law, or arose out of the evidence given, this was not necessarily impermissible, fundamentally. Advocate Dunster has complained, though, that this chopping and changing of issues relied on has made it difficult to understand the case which his client was expected to meet. He also suggests that it demonstrates the weakness of CLOH's case. Advocate Horsbrugh-Porter says that this evolution has simply been the product of events moving on, and his client's having discovered, or been subjected to, yet more matters which they perceive as unfair prejudice.

84. By the time of the hearing the matters identified by CLOH as being those upon which it relied as conduct of the affairs of HCLOF which was unfairly prejudicial to its interests as a member of HCLOF were the following

    i. Entry into the 2021 Settlement Agreement having regard to Clauses 2 (iii), 7, and 9 and 10 thereof;

    ii. Entry into the 2023 Settlement Agreement having regard to Clauses 4, 6 and 12 thereof;

    iii. (Possibly) failing to inform CLOH that it was negotiating the above Agreements;

    iv. Intervening in the NexPoint Litigation; coupled with

    v. Failure to sue US Bank to obtain the retained Redemption Proceeds, when their retention was recognised to be unlawful;

    vi. Continuing to use HCM as effective Portfolio Manager when HCLOF's business was in "wind-down" mode, thereby incurring the unnecessarily high fees payable out of HCLOF's funds.

In closing speeches, however, Advocate Horsbrugh-Porter only pressed items (i), (ii), (iv), and (v). These will be considered later. It is convenient now, though, to consider the law.

The legal framework

85. By way of background, the power of the court to grant relief in a case of the "unfairly prejudicial conduct" of a company's affairs under ss 349 and 350 of the Companies Law is entirely statutory. It was adopted into Guernsey law from the company law of England and Wales, where it was introduced in its present form by s 75 of the English Companies Act 1980, after the language of an earlier attempt to provide such a remedy (in s 210 of the

Companies Act 1948, which used the word "oppressive") had been found to be construed too restrictively by the courts.

86. The jurisdiction was introduced to alleviate injustices faced by minority shareholders who felt that the company's affairs were being conducted in a manner detrimental to them, but for whom other means of redress were highly unsatisfactory. If they could allege that the conduct of which they complained constituted a wrong to the company itself, but that the company could not, or would not, take action because the alleged wrongdoers were in control of the company, they could seek permission to bring a "derivative action", whereby they were authorised to use the company's name to pursue the claim. However, that route was cumbersome and could only bring the relief which the company itself might be entitled to. The only alternative was to seek a "just and equitable" winding up of the company, but that was a "nuclear" option, and was likely to cause considerable damage and depletion to the company's value, and hence the value of their own interests, on any basis. The statutory power was therefore introduced to provide a very wide and flexible discretionary remedy, which could be adapted to fit the merits of any particular case.

Essence of conduct which can be "unfairly prejudicial"

87. However, that jurisdiction had to be reconciled with the general principles of company law, which dictate that the company is a construct whose affairs are governed by the agreements constituted, basically, by the company's articles of association, those being the terms upon which its shareholders have agreed to create it. The jurisdiction is not simply a jurisdiction to remedy any perceived grievance which may be advanced by a member or members of a company. The limits arising from such reconciliation are apparent, therefore, in three particular aspects of the statutory power:

   i. It is the conduct of *the affairs of the company* which founds the jurisdiction, not the conduct of any particular member (unless that conduct does, in fact, constitute conduct of the affairs of the company itself);

   ii. The jurisdiction is to grant relief on the grounds that the affairs of the company are being or have been conducted in a manner which is not merely "*prejudicial*" to the interests of the "*members generally*" (ie, the company as a whole) or to "*a part of the members including* [the complainant]"; the relevant conduct has to be "*<u>unfairly</u> prejudicial"* (emphasis added). This recognises the fact that there is an intrinsic prejudice in the very position of a minority shareholder, in that such a shareholder's wishes or interests may be overruled by the majority, whether directly by force of numbers, or indirectly through the majority's ability to appoint directors more attuned to their own views. That situation is not <u>unfairly</u> prejudicial, because it is inherent in the structure of the company to which the minority shareholder has subscribed. It only becomes unfairly prejudicial if that power is exercised in some way which goes outside the boundaries of what can be seen as properly inherent in the agreement which the complaining member has subscribed to.

   iii. The "*unfair prejudice*" must have been suffered to the interests of the complainant *as a member of the company*. This limitation is implicit in the words of the statutory provision. If the prejudice is suffered only to some other interest of the complainant, which cannot be seen to be part of his interests as a member of the company, then relief under the statutory power is not available. The interests of a member of a company are linked, of course, to the value of his share-holding, but are essentially his right to have the company (in whose enterprise he has a financial interest) administered and managed properly in the best financial interests of the enterprise as a whole.

It is also to be observed that the formulation of s 349 provides the court with jurisdiction in three distinguishable situations. The first is that the prejudice has been suffered by the whole undertaking of the company, and the complainant complains as a representative of the whole company. The second is that the prejudice has been suffered by some part of the membership, and the complainant complains as a representative of that part. The third is that the prejudice has been suffered by a "part" of the membership comprising solely the complainant. That ultimate reduction renders the complaint effectively an individual one. But whatever the situation, the relevant prejudice must be seen to be being (or have been) suffered to the complainant's interests as a member of the company, and not in some other interest.

88. The parties are broadly in agreement as to the above principles. Their differences are as to their true extent, and/or their application. It is therefore important to keep in mind the legal framework of the "unfair prejudice" jurisdiction which CLOH seeks to invoke when considering the facts of the case.

89. As the Guernsey provision has been imported from English law, with the wording of s 349 (1) the Companies Law being identical with that of (now) s 994 of the English Companies Act 2006, and with there being little Guernsey law on the application of the relevant principles, it is accepted that Guernsey law will regard English authorities on the topic as highly persuasive: see *Prodefin Trading Ltd v Midland Resources Holding Ltd and others* (Royal Court Judgment 7/2017). Collas B there (at [55]-[56]) discussed the applicable principles of English law, and approved a succinct expression of the three points noted in Para [87] above, as stated in *Apex Global Management Limited v Fi Call Limited* [2015] EWHC 3239 (Ch) per Hildyard J at [37], as being a correct expression of Guernsey law.

90. In their submissions on the correct interpretation of these principles, both Advocates start from the Privy Council case of *O'Neill v Phillips* [1999] 1 WLR 1092, which is now regarded as the leading authority in England and Wales.

91. At 1098D and onwards, Lord Hoffmann said

"In section 459 [as it then was] *Parliament has chosen fairness as the criterion by which the court must decide whether it has jurisdiction to grant relief….. But this does not mean that the court can do whatever the individual judge happens to think fair. The concept of fairness must be applied judicially and the content which it is given by the courts must be based on rational principles. ….*

"Although fairness is a notion which can be applied to all kinds of activities, its content will depend upon the context in which it is being used. Conduct which is perfectly fair between competing businessmen may not be fair between members of a family. In some sports it may require, at best, observance of the rules, in others ('it's not cricket') it may maybe unfair to take advantage of them. All is said to be fair in love and war. So the context and backgrounds are very important."

"In the case of section 459 the background has the following two features. First, a company is an association of persons for an economic purpose, usually entered into with legal advice and some degree of formality. The terms of the association are contained in articles of association and sometimes in collateral agreements between the shareholders. Thus the manner in which the affairs of the company may be conducted is closely regulated by rules to which the shareholders have agreed. Secondly company law has developed seamlessly from the law of partnership, which was treated by equity … as a contract of good faith. One of the traditional roles of equity, as a separate jurisdiction, was to restrain the exercise of strict legal rights in

> *certain relationships in which it considered this would be contrary to good faith. These principles have, with appropriate modification, been carried over into company law.*
>
> *"The first of these two features leads to the conclusion that a member of a company will not ordinarily be entitled to complain of unfairness unless there has been some breach of the terms on which he agreed that the affairs of the company should be conducted. But the second leads to the conclusion that there will be cases in which equitable considerations make it unfair for those conducting the affairs of the company to rely upon their strict legal powers. Thus unfairness may consist in a breach of the rules or in using the rules in a manner which equity would regard as contrary to good faith".*

92. Lord Hoffmann also referred back to his previous observations in In *Re Saul D Harrison & Sons PLC* [1994] BCC 475, to similar effect, at [488]:

> *"In deciding what is fair or unfair for the purposes of s 459, it is important to have in mind that fairness is being used in the context of a commercial relationship. The articles of association are just what their name implies: the contractual terms which govern the relationships of the shareholders with the company and each other. They determine the powers of the board and the company in general meeting and everyone who becomes a member of a company is taken to have agreed to them. Since keeping promises and honouring agreements is probably the most important element of commercial fairness, the starting point in any case under s 450 will be to ask whether the conduct of which the shareholder complains was in accordance with the articles of association. The answer to this question often turns on the fact that the powers which the shareholders have entrusted to the board are fiduciary powers, which must be exercised for the benefit of the company as a whole. If the board act for some ulterior purpose, they step outside the terms of the bargain between the shareholders and the company. Although one begins with the articles and the powers of the board, a finding that conduct was not in accordance with the articles does not necessarily mean that it was unfair, still less that the court will exercise its discretion to grant relief. There is often sound sense in the rule in Foss v Harbottle. Not only may conduct be technically unlawful without being unfair, it can also be unfair without being unlawful. In a commercial context this may at first seem surprising. How can it be unfair to act in accordance with what the parties have agreed? As a general rule, it is not. But there are cases in which the letter of the articles does not fully reflect the understandings upon which the shareholders are associated."*

93. Thus – and the Advocates both agree on this – the starting point in judging whether conduct is "*unfairly prejudicial*" to the interests of any member is the agreement documents which govern his or its relationship with the company and with the other members. Here, that is the Articles of Association of HCLOF and the Members' Agreement, both set up in November 2017.

94. The difference between the Advocates is that on behalf of HCLOF, Advocate Dunster submits that those documents are not merely the starting point but also the finishing point of the enquiry whereas Advocate Horsbrugh-Porter for CLOH submits that it is not that cut and dried.

Applicant's submissions

95. Advocate Horsbrugh-Porter on behalf of CLO makes a two-fold submission. He submits, first, that there has in fact been a breach of the governing agreements. He relies on Clause 20.5 of the Members' Agreement, (see above) which obliges HCLOF to act "*in good faith*" towards the other parties such as CLOH.

96. Unsurprisingly, Advocate Dunster was emphatic that Advocate Horsbrugh-Porter should state clearly whether he was alleging bad faith on the part of HCLOF and, specifically, Mr Boleat as the relevant human agent. This would of course, be a serious allegation to make against a professional person. Advocate Horsbrugh-Porter was emphatic that he was not alleging bad faith against Mr Boleat, but also that he did not need to. He submitted that a "good faith" clause, such as this, could be breached in two ways; the first was by a party acting dishonestly, but the second was by a party acting in a way which would

> "*be regarded as commercially unacceptable by reasonable and honest people*"

even if not dishonest, citing *Re Compound Photonics Group Ltd* [2022] EWCA Civ 1371 at [241]. Such a test was objective: see per Slade J in *Re Noble & Sons (Clothing) Ltd* [1983] BCLC 273 at 290f-291a, proposing that the test was

> "*whether a reasonable bystander observing the consequences of* [the directors'] *conduct would regard it as having unfairly prejudiced the petitioner's interests.*"

97. It was not, therefore (he submitted) necessary that the conduct under examination should have been accompanied by dishonesty, or even a conscious malevolent intent or ulterior motive, which were the ingredients of bad faith. It was merely necessary for the court to look at the actions complained of and conclude that reasonable and honest people would regard them as commercially unacceptable, even if the actual parties had taken such actions in a subjectively innocent way. Such a finding was perfectly possible, therefore, even if – as he did accept – Mr Boleat had acted honestly.

98. His second, alternative, submission was that this was a case in which equitable considerations, and hence constraints on the actions of HCLOF in the interests of fairness, did come into play. He emphasised that the cases did not lay down that this could never arise in the context of a purely commercial agreement, but only that this was the "general rule". The general proposition therefore admitted exceptions, dependent on the case itself, as was recognised by Arden J in *Re BSB Holdings Ltd* 1996 1 BCLC 155 ChD at 245. He submitted that the highly unusual circumstances of this case, which he urged could be described as "unique", were such as to impose equitable constraints on HCLOF which amounted to a duty not to take actions which would hinder the ability of CLOH to "*receive the Redemption Proceeds* [this apparently meaning its substantial share of the sums being retained by US Bank] *via any available avenue"*. It could be seen that this had been breached, by the individual matters of complaint raised, or by an overarching view of them in combination.

99. The unusual circumstances giving rise to this equitable constraint were, he submitted, the facts that

    i. HCLOF's business was now, and had been since April 2020, in "wind-down" mode rather than conducting active business;

    ii. the sums being withheld by US Bank were part of the assets which ought to be distributed to HCLOF's shareholders, including CLOH;

    iii. HCLOF had at all times been of the view that such withholding was unlawful;

    iv. the existence of the multi-faceted litigation between "Dondero Entities" and "Terry Entities" in the United States, in which ACIS was one of the latter and CLOH was one of the former;

v. Mr Terry had told Mr Boleat that ACIS and US Bank were considering withholding reserves before HCLOF entered into the 2021 Settlement Agreement; and

vi. the Members' Agreement did not contemplate protracted litigation being on foot after HCLOF's ivestment period came to an end in April 2020.

100. He submitted, therefore, that there was no specific contractual machinery dealing with the present situation. In particular such matters as the entering into of the 2021 Settlement Agreement, intervening in third party litigation, and the unanticipated position in general, created a situation in which equitable considerations could (and did) arise, so as to affect and constrain the company's exercise of any legal powers apparently conferred by the contractual documents. With the test for whether such constraints ought fairly to be observed being focused on the consequences of the company's actions (see the citation from *Re Noble* (above)), and the motivations or state of mind of the directors therefore being irrelevant, he submitted that it could be seen that the conduct of which complaint was made here could and did fall within the scope of "unfairly prejudicial" conduct.

Respondent's submissions

101. Advocate Dunster, on the other hand, submits that, really, the only question is the plain and simple one: has there been a breach of the contractual terms governing the relationship between HCLOF and CLOH? There is no room for equitable considerations in the present situation, and since (he submits) there plainly, on examination, has been no such breach, there has been no unfairly prejudicial conduct, that is really the end of the case.

102. He accepts that there are, of course, instances in which equitable considerations can arise, and form a constraint on the directors' exercise of powers which they might strictly have under the company's constitution, but he submits that the cases make it clear that that is not the norm, and it is particularly unlikely to occur where agreements have been drawn up, formally and obviously with legal advice, with an entirely commercial objective, and between sophisticated parties. He cites, the recent case of *Re Hut Group Ltd* [2021] EWCA Civ 904, in which David Richards LJ (as he then was) expressed the position as follows at [9]:

> "… *the terms on which a member agreed that the affairs of the company should be conducted will usually be found in the articles of association, any shareholders' agreements, the fiduciary (now statutory* [in the UK]) *duties of directors and the principles of law which limit the power of a majority of members to bind the minority by resolution in general meeting. There may be cases, such as those discussed by Lord Wilberforce in Re Westbourne Galleries Ltd [1973] AC 360 at 379, where the particular circumstances of the case, normally involving the personal relations between members of a small company, may subject the exercise of legal powers to equitable restrictions going beyond the articles, agreements and rules of law. However, such cases are not the norm. As Lord Wilberforce said, the company structure "is defined by the Companies Act and by the articles of association by which shareholders agree to be bound. In most companies and in most contexts, this definition is sufficient and exhaustive, equally, so whether the company is large or small."*

The court rejected the proposition that the application of equitable considerations such as discussed by Lord Wilberforce was called for in that case, (at [10]) because

> *"… The relationship between all the parties has at all times been entirely commercial, as evidenced by the detailed and complex provisions, including those for the protection*

© Royal Court of Guernsey

of members' interests, contained in the company's articles and in the shareholders' agreement to which [the applicant] acceded when it became a shareholder."

103. Advocate Dunster submits that that is precisely the position in this case. The relations between HCLOF and its shareholders have always been entirely commercial, and are to be treated, therefore, as governed by the commercial agreements which they have entered into. There is no room for equitable considerations to modify these where, as here, there are comprehensive professionally-drafted company documents, executed between sophisticated parties whose intentions are entirely commercial. Unless, therefore the court finds some breach of the terms of those documents the Application must fail for that reason, and he submits that the evidence shows quite clearly that it cannot – as he submits is rather underlined by the lengths which CLOH has had to go to, chopping and changing its complaints, in order to try, unsuccessfully, to construct one.

104. The circumstances cited by Advocate Horsbrugh-Porter did not (he submitted) make the situation unusual or unique so as to somehow affect, change, overturn or abrogate the parties' contractual agreements, just because they might not have been expected.

105. He criticises Advocate Horsbrugh-Porter's attempt to construct a breach of the "good faith" clause as something of a contortion. He submits that there can be no breach of a duty to "act in good faith", other than by acting in bad faith – a charge which Advocate Horsbrugh-Porter expressly disavows – and one cannot get away from that. In the quotation from *Compound Photonics* (above) the court was saying that "bad faith" could take two forms: dishonesty or behaving in a way which was commercially unacceptable to honest and reasonable people, but the latter was still bad faith; it was not something different. There is no middle ground between bad faith and good faith, as being some sort of lack of good faith which could give rise to a breach of a good faith clause without being itself bad faith.

106. He further relies on dicta in *Re Corion Ltd* [2013] EWCA Civ 781, at [51], that a general term of an obligation to act in good faith cannot in itself impose an obligation to "*act in a manner outside the terms of the ... agreement*", and that a duty of good faith should not cut across other express contractual rights: see *TSG Building Services plc v South Anglia Housing Ltd* [2013] EWHC 1151 (TCC) at [51].

Discussion

107. The issue here is whether, in the present situation, any question of unfair prejudicial conduct necessarily requires there to have been some breach of the agreements which contractually govern the relations between HCLOF and CLOH (and if so whether there has been such a breach) or whether equitable principles have any supervening application. This is a matter of law. On these points the Lt-Bailiff unhesitatingly prefers Advocate Dunster's submissions to those of Advocate Horsbrugh-Porter.

108. As regards the first question, the only term of the contractual documents which Advocate Horsbrugh-Porter relies on as having been breached is the "duty to act in good faith" clause at Clause 20.5 of the Members' Agreement. As to this, the Lt-Bailiff accepts Advocate Dunster's submission, first, that there is no conceptual space where actions can be a breach of a duty to act in good faith but simultaneously not amount to bad faith. Actions are either the one or the other, albeit the mental element – and there must be one – may not amount to actual dishonesty. It is in fact difficult to see how performing a contract strictly according to its terms could ever amount to bad faith (except possibly where the party asserting that it was doing so knew or seriously suspected that the counterparty had contracted under a mistake about the effect of the relevant term, which is not this case and is very far from it).

© Royal Court of Guernsey

109. As to Advocate Horsbrugh-Porter's second, alternative, contention, the Lt-Bailiff again accepts Advocate Dunster's submission that there is really no room for equitable considerations to modify or constrain a party's reliance on its powers and rights embodied in the express terms of the relevant contracts where the context is a commercial relationship, and the contractual documents are carefully drawn, no doubt after negotiation, clearly with legal advice, and made between commercially sophisticated parties. These contractual documents are, the court finds, plainly within that class.

110. The Lt-Bailiff holds that the fact that the ensuing circumstances may not have been anticipated as the context in which these contractual documents would be operated is just not relevant. Parties make contracts in order to lay down the principle of the terms which are to govern their relations in the future, and the future is inevitably uncertain. Each accepts, therefore, that those principles will apply to the future position even if, and very possibly even because, that is not certain and not certainly predictable, in itself. In the event, those principles may turn out to be more to the liking or advantage of one side than the other, but in the interests of securing their initial bargain, the parties accept that degree of uncertainty as to the particular result. Unless the singular degree of unusualness about any future situation is sufficient to frustrate the contract – a very high threshold – the parties are taken to accept that the principles they have laid down will apply to their relevant rights and obligations in any future situation, for better or worse, and there is no half way house where "equity" can be called on to intervene to modify that result.

111. In any event, the Lt-Bailiff holds that none of the features of the matter cited by Advocate Horsbrugh-Porter in support of his argument that the situation here is so unexpected or "unique" as to justify the imposition of equitable considerations *ex post facto,* comes anywhere near justification for such an argument. It is by no means unpredictable, or even out of the norm, for a company to get embroiled in legal proceedings, whether directly itself, or through being sucked into proceedings involving its affiliates or associates. Even if the intensity of such hostile proceedings is remarkable, that makes no difference in principle. There is no reason why decisions as to the actions best undertaken in the company's best interests in the context of litigation should not be regarded as another matter for the business judgment of the company's directors, just like any other decision as to the conduct of the company's affairs. On analysis, that is all that has happened here, and CLOH's complaint then simply becomes an allegation of bad business judgment, or, more accurately perhaps, of a business judgment with which it does not agree.

112. In addition, it is apparent from the authorities that the features which have caused the courts to hold that equitable considerations do have a place in governing the controlling parties' conduct of the affairs of a company have been matters which applied or arose *at the time of the creation of the corporate relations between the parties.* They thus underlay such agreements and implicitly formed part of the agreement between the parties, but were simply not expressed in the documents (see the quotation from Hoffmann LJ, as he then was, in *Re Saul D Harrison* (above)). Examples are understandings that all participators should share in management decisions, making it unfairly prejudicial for one faction to oust the participation of another, or understandings that profits should be shared by the mechanism of dividends such that it was unfair for a majority faction subsequently to vote itself disproportionate remuneration by way of salary. None of the factors cited in this case is in any way rooted in any such underlying understanding between the parties (in particular, CLOH and HCLOF) because they had no such pre-existing relationship to give rise to it. The framework for their relationship was created, apparently entirely for commercial reasons and on an arm's length basis, by the transactions in November 2017.

113. The Lt-Bailiff accepts that there will not be an absolutely rigid rule that there could "never" be a situation in which equitable principles could be invoked in the interpretation of behaviour under a purely commercial corporate relationship. However, that possibility

© Royal Court of Guernsey

could only be in a very extreme and very rare case, which is not this case. The Lt-Bailiff is fortified in this view because it appears to her that admitting the influence of equitable principles in determining any particular case is tantamount to implying a term into the contractual documents that such an interpretation should apply. The conditions for implying terms into formally drafted contractual documents are stringent; they effectively require a finding that, on an objective basis, such a term "must have been" intended by both parties to the agreement, see, eg *Att Gen for Belize v Belize Telecom Ltd* [2009] UKPC 10 at [16] – [27]. That, again, is just not this case.

114. There are no compelling considerations for the finding of any such implication here. Indeed, the terms of the documents even point away from any such intention, in particular the general provisions of Clause 20 of the Members' Agreement, and specifically Clause 20.3, where the parties thought it appropriate to record, expressly, that their arrangements were not a partnership, and thus exclude the equitable considerations which may underlie partnership relations.

Conclusion

115. Thus, the Lt-Bailiff has held that it is not open to CLOH to allege breach of the "act in good faith" clause whilst simultaneously disavowing any intention to allege bad faith, but it is also the case that that breach is the only actual breach which is alleged of the express contractual terms which govern the parties' relations *inter se*. That first ground is therefore dismissed as any possible basis for CLOH's claim to relief. She has also rejected Advocate Horsbrugh-Porter's alternative proposition that, in the circumstances of this case, there is scope for invoking equitable considerations as a constraint on HCLOF's exercise of its legal powers in support of an assertion of unfairly prejudicial conduct. Having done so, the Lt-Bailiff agrees with Advocate Dunster that that is really the end of the case.

116. However, in case the latter finding is wrong, and since the matter was fully examined and argued at the hearing the Court has gone on to examine the various matters of allegedly unfairly prejudicial conduct ultimately relied on by CLOH (see Para [84] above), as facts capable of constituting "unfairly prejudicial conduct" against HCLOF within the meaning of s 349 of the Companies Law.

117. This exercise entails looking at the consequences of such conduct rather than (as above) considering the nature of the conduct itself as a matter of law, in the contractual context.

Unfairly prejudicial conduct – the complaints examined

118. A finding of unfairly prejudicial conduct within s 349, as the gateway for any judicial intervention in the company's affairs, requires findings that the conduct which is impugned has caused prejudice to the interests of the complainant as a member of the company, and that such prejudice is unfair. The first is a matter of law, the second is a matter of fact, but they are sufficiently intertwined that it is convenient to consider them together in relation to any particular complaint.

119. Before turning to this, though, it is appropriate to note legal authority as to the requirement that the relevant prejudice is prejudice to the "*interests of the members*" of the company (or some part of them). This has been held to mean the interests of the members of the company *as such members*. Thus, if the prejudice being suffered from the conduct complained of is suffered to a different interest of the relevant plaintiff, not being his interest as a member of the company, no relief can be given.

120. By way of example, see *Re J E Cade & Son Ltd* [1992] BCLC 213, in which relief was refused because the petitioner was complaining at the family company refusing to give up

possession of the farm of which he was the freehold owner, and in those circumstances he was held to be seeking to protect his interests as landlord, and not any interest of his as a member of the company. That case also recognises that there are limits on the court's wide discretion when granting relief on the basis of "equitable considerations", reiterating that this does not mean just whatever the judge might think fair.

121. As the interests of a shareholder in a company are broadly financial, certainly where the shareholding is an investment, it would seem that prejudice to his interests as such shareholder must itself *prima facie* be financial detriment, and this will, clearly, normally be the case. It is not clear whether any other kind of prejudice could justify the court's intervention in a purely commercial case, ie in contrast to the cases of family, or informal, type arrangements noted above, where there is a broader underlying substratum of rights and expectations. This question was not really investigated in this case, because all the matters of prejudice being contended for, in the end, do appear to come down to adverse financial consequences, even if indirect ones.

122. However, it was noted that the cases do establish that the "*interests of [the plaintiff] as a member of the company*" may be construed with some flexibility so long as such interests are sufficiently linked to the member's status as a shareholder in the particular case. In *Gamlestaden Fastigheter AB v Baltic Partners Ltd* [2007] Bus L R 1521, the UK Privy Council held that the interests of a member of the company could extend to encompass its interests as a lender to the company (ie not merely as a holder of equity, ie shares, in the company) where the lending had been made as part of the whole package of the arrangements under which the company relationship had been set up. The actual decision, however, was simply that it was not unarguable that a member's interests could be held to extend that far in such circumstances, so that the fact that there was no loss caused to the value of the petitioner's actual shareholding was not sufficient to enable the respondent to strike the claim out summarily. It was not, therefore, a final decision.

123. With that introductory comment this judgment turns to the complaints of allegedly unfairly prejudicial conduct of the affairs of HCLOF which are put forward by CLOH: see [84] above. These are taken in a convenient order for this judgment.

(1) Failure to inform CLOH that it was negotiating the Settlement Agreements, and
(2) Retention of HCM as (effective) Portfolio Manager.

124. These two complaints are items (iii) and (vi) in Advocate Horsbrugh-Porter's list. They are touched on first, because whilst they figured in CLOH's case up to and including the opening of the trial hearing, they were not pursued by Advocate Horsbrugh-Porter in his closing address, and were effectively treated as withdrawn.

125. For the sake of completeness, however, the court records that such abandonment must be right. A shareholder's entitlement to information is only to be found in the terms, either express or possibly implied, within the contractual documents governing the company's obligations in this respect, or in statute. There is no obligation, express or implied, (and none has been suggested) in the relevant documents in this case which would oblige the Directors of HCLOF to inform the shareholders, or a shareholder, about anything they were doing or proposing to do in their day to day management of the company's affairs, still less to consult any such shareholder or seek its approval. Negotiating and concluding agreements to further what they judge to be the promotion of the company's best interests falls within the scope of management decisions. Concluding a settlement of disputes or differences perceived to hinder the company's best interests are within this concept. The particular personal interests, or self-interest, of a particular shareholder, such as CLOH, cannot, and did not, alter that position. Of course, directors may *choose* to inform shareholders of what they are doing in any particular case, and shareholders may be grateful

© Royal Court of Guernsey

or gratified to receive information, but that is not the same thing as a duty on the directors to do so, such that a failure could be regarded as any unfair prejudice to shareholders.

126. Likewise, the retention of HCM (effectively) As the Portfolio Manager of HCLOF is a decision as to the running of the company's affairs which is within the scope of the Directors' authority. It might have been expected, intuitively, that CLOH's complaint here would be of an unacceptable possibility of bias, arising from the current differing allegiances of the two major shareholders in HCLOF - HCM and CLOH - which have been brought about by the events which have happened. HCM, the effective portfolio manager of HCLOF through HCA, is now a "Terry" entity, whereas CLOH remains a "Dondero" entity.

127. However, as that was not the position at the time when the relevant contracts were entered into (November 2017) it is not a feature which could therefore have any implied effect on the intended meaning and effect of those documents, and in any event, the transactions by which the ownership of a majority shareholding passed away from CLOH (in fact, to HarbourVest entities), was the result of CLOH's own voluntary actions. There is no evidence as to whether or how far the HarbourVest entities were connected with the "Dondero" camp, and if this status had been a matter of significance, then one would have expected it to have been regulated in the documents; there has been no suggestion of any such provision.

128. However, that is not the complaint which was in fact advanced on behalf of CLOH. CLOH accepts that it is quite common in the finance industry for a portfolio manager, or adviser, to be also an affiliate or associate of a major shareholder in the company, and that this is not perceived as being unacceptable or seriously objectionable, although where this relationship is envisaged, the Offering Memorandum will (as it does here) record that conflicts of interest may arise with regard to the manager's functions because of its relationship or involvement with other companies or entities, and that a subscriber for the shares shall have no complaint on this score. In this case, there are enormously extensive warnings about conflicts of interest on the part of the Portfolio Manager contained in the Offering Memorandum, at pages 37 – 40. They are clearly designed to alert investors to such possibility and to forestall and prevent any complaints on that score.

129. The complaint which was actually pressed on behalf of CLOH was that the retention of a Portfolio Manager in relation to HCLOF's business, at all, was prejudicial to its members (including CLOH) having regard to the fact that HCLOF was now no longer actively investing (and had not done so since April 2020) and was in "wind-down" mode; the Portfolio Manager agreement was therefore causing excessive and unnecessary high fees to be charged on HCLOF's assets. In answer to this Mr Boleat on behalf of HCLOF gave evidence that there were still many functions relating to the management of HCLOF's investments, requiring the expenditure of time and effort, to be performed by the Portfolio Manager even if these no longer included actively seeking out or dealing with investments.

130. The Jurats accept this evidence, and it was not really challenged. Advocate Dunster also pointed out that it was not clear what remedy was being sought by CLOH on account of this complaint, but it would seem to amount to requiring HCLOF to terminate the Portfolio Management Agreement, even though the question whether this was legally possible had not been grappled with.

131. Once again, this dispute seemed to become reduced to a complaint about a management decision of the Directors Whether because of the above facts, or for some other reason, this complaint was ultimately abandoned by CLOH, and in the judgment of the Lt-Bailiff, this was correct.

The eventual matters of actual complaint

© Royal Court of Guernsey

132. Four matters were therefore left as matter of substantive complaint pursued by CLOH as constituting "unfair prejudice" under s 349 at the end of the hearing.

Preliminary point

133. In each case, the basis of the characterisation of such conduct as "*unfair*" was formulated by Advocate Horsbrugh-Porter, in his final submissions, by reference to his argument that such conduct was a breach of the good faith clause (Clause 20.5 of the Members' Agreement), for being "*commercially unacceptable to reasonable and honest people*", or alternatively that this conduct brought into play "equitable considerations" of constraint on HCLOF which had not been observed, the reason being that the conduct in question hindered the ability of CLOH to get in a position to obtain the "*Redemption Proceeds*" by some "*available avenue*".

134. The Lt-Bailiff has already dismissed these two submissions as a matter of underlying legal principal. It is emphasised that the consideration of the particular complaints below, as to whether they could amount to "unfairly prejudicial" conduct, is required only if that initial dismissal is held to be wrong.

(3) Entry into the 2021 Settlement Agreement

Backdrop

135. The Jurats find the situation at the time of the conclusion of the 2021 Settlement Agreement to be as follows, taken from the evidence in Mr Boleat's affidavit which was not really challenged.

136. At the time of the appointment of Mr Boleat and Mr Burwood as Directors of HCLOF in 2020 (with, it is to be noted, the positive support of CLOH at that time), HCLOF was being prevented from realising its interest in the ACIS CLOs, and distributing the proceeds to its investors in accordance with its objectives, by the US Court's injunction prohibiting such redemptions made in the ACIS Bankruptcy Plan of Reorganisation (ie Plan D) on 31st January 2019. This had been made at the time when ACIS had been in the "Terry" camp, and HCM in the "Dondero" camp, although the landscape had later changed.

137. Reviewing the position, the Directors concluded that the most beneficial course for HCLOF - indeed Mr Boleat described it as the only commercially justifiable action - was to seek to achieve the lifting of the injunction. This meant reaching a settlement with ACIS to resolve the claims, other proceedings and other possible claims or proceedings between ACIS and HCLOF, and also those facing HCLOF's former Directors, whom HCLOF would be *prima facie* obliged to indemnify under their service contracts. At the same time, HCLOF was receiving suggestions that early 2021 was becoming an optimal moment in the market to redeem the ACIS CLOs. Having reassured themselves of the soundness of this approach by taking independent financial advice, the Directors intensified negotiations with ACIS and Mr Terry, through lawyers, ultimately achieving the 2021 Settlement Agreement on 28th April 2021.

Applicant's submissions

138. It is not contended that entering into the 2021 Settlement Agreement was outside the powers of Mr Boleat and Mr Burwood as the duly appointed Directors of HCLOF, nor that doing so was not reasonably thought by them to be a step to be taken in HCLOF's best interests. In the light of Mr Boleat's evidence referred to above, this is really inevitable.

© Royal Court of Guernsey

139. In the end, CLOH's objections were focused on certain terms of the 2021 Settlement Agreement, namely Clauses 2 (iii), 7 and 9, and in particular the first such term. Clause 2 (iii) reads, so far as material here:

> *"….HCLOF further agrees that:*
>
> *"(iii) any third party transferees, assignees or successors* [to the HCLOF Subordinated Loan Notes", ie the ACIS CLOs] *shall not be affiliated in any way with James Dondero, CLO Holdco Ltd, the Charitable DAF Fund LP or any other entities owned or controlled by James Dondero, including but not limited to any funds or entities managed by an affiliate of James Dondero".*

- Clause 7 provided for the dismissal "with prejudice", (ie expressly without the right to refile) of certain identified ACIS lawsuits against HCLOF, against HCLOF's former Directors, Mr William Scott and Ms Bestwick, and against HCM also within the various terms, against HCM.

- Clause 9 provided for ACIS and Mr Terry to release, in comprehensive terms, all their claims against HCLOF itself, its successors, assigns, agents, advisers, and representatives, officers and its former Directors by name, but excluding, expressly and by name (although presumably for the avoidance of doubt) any such release as regarded CDAF, or any of its subsidiaries including CLOH, and also against Mr Dondero and other named persons related to or associated with Mr Dondero.

- HCLOF gave similarly wide reciprocal releases in Clause 10, in favour of ACIS, Mr Terry, Brigade, US Bank National Association, Moody's Investor Services, the ACIS CLOs and others, and their respective successors, assigns agents, officers advisers and directors, etc.

140. In his closing submissions on behalf of CLOH Advocate Horsbrugh-Porter concentrated on Clause 2 (iii). He submitted that HCLOF's agreeing to this clause was prejudicial to CLOH because it prevented HCLOF from making an *in specie* distribution of the ACIS CLOs to CLOH "*as a shareholder*", thus preventing a valuable "exit" route from the company for CLOH (ie by the implementation of such an *in specie* distribution, as CLOH has been pressing for) and consequently prejudicing CLOH by preventing it from subsequently taking direct action against US Bank, after such an *in specie* distribution had been effected - presumably through *locus standi* gained through then being the direct holder of some ACIS CLO Notes.

141. CLOH's primary contention was that this clause was an unnecessary clause to put in the 2021 Settlement Agreement, having regard to its purpose and its machinery. It was even, apparently, submitted that this lack of necessity suggested that its inclusion must have been prompted simply from a wish to damage CLOH.

142. As regards the other clauses referred to (Clauses 7 and 9 in particular) the objection appeared to be, that these clauses, and the specific exclusion of CLOH from the benefit of the ACIS releases being granted, was indicative of bias against CLOH, or favouritism of the interests of others rather than CLOH, and was "unfairly prejudicial" on this score. This last point was not really pressed, however, in Advocate Horsbrugh-Porter's final position.

Respondent's submissions

143. Advocate Dunster submitted, first, that there was no challenge to Mr Boleat's evidence as to the merits and desirability of achieving the position achieved by the 2021 Settlement Agreement, as regards paving the way to redeem the ACIS CLOs, reducing legal costs and

© Royal Court of Guernsey

reducing indemnity liabilities to the former Directors, and that this was perceived by the Directors, and reasonably perceived, to be in the best interests of HCLOF. He also pointed out that, at the time of the 2021 Settlement Agreement, there had been no suggestion that CLOH was seeking any *in specie* distribution of HCLOF's assets as a means of exiting the fund; that suggestion was only first broached in Mr Murphy's letter of 10th November 2021.

144. Furthermore, this was not something to which CLOH had any right as a shareholder. It was (he submitted) even contrary to the terms of the Offering Memorandum, which stated very clearly that "*Shareholders have no right to have their Shares redeemed or repurchased by the Company*". There was therefore no reason why the Directors should have considered the impact of the terms of the 2021 Agreement on that possibility, still less any evidence that there was an intention to frustrate such possibility.

145. Mr Boleat also gave evidence that the restriction on transfers of HCLOF's assets was a requirement of ACIS (as to which the reasons are fairly obvious, from the circumstances) and were regarded by the Board as being of no practical disadvantage to HCLOF at all, not least because the intention at that time, was to liquidate the ACIS CLOs as quickly as possible, converting them into cash which would be paid back to shareholders, so that the possibility of an *in specie* distribution was theoretical only.

146. In summary, he submitted that the evidence shows that none of the Clauses complained about infringed any contractual right of CLOH; it could be seen that Clauses 7 and 9, did not infringe any right of CLOH, but benefitted HCLOF generally and also because they released claims against other parties, as to which HCLOF could have become liable on contractual indemnities. The whole 2021 Settlement Agreement plainly benefited HCLOF and, more importantly was reasonably and honestly seen by the Directors to do so. The effects of the 2021 Settlement Agreement therefore could not be the basis for any viable submission that the conduct by which it was obtained amounted to conduct which was unfairly prejudicial to the interests of the members of HCLOF in general, or CLOH in particular, as such a member.

Discussion and conclusion

147. The first consideration is whether Clause 2 (iii) could be said to prejudice CLOH's rights as a member of the company. Advocate Dunster argues that it cannot, because it only prejudices the possibility of CLOH ever gaining direct title to the ACIS CLOs, and this is not a right that CLOH ever had, as a shareholder of HCLOF at all.

148. The Lt-Bailiff agrees. She accepts Advocate Dunster's argument noted above at [144], although it does appear to depend somewhat on the phrase "*redeemed or repurchased*" being capable of encompassing a surrender of shares in return for an *in specie* distribution of ACIS CLOs, rather than for cash; the Offering Memorandum seems, rather, to be ruling out CLOH's alternative proposal of a buyback. However, the Lt-Bailiff does accept that it is fair to say that an *in specie* distribution of HCLOF's investments appears to be outside the contemplation of the Offering Memorandum. The point that CLOH has never enjoyed any right as a shareholder to be able to acquire the underlying assets of HCLOF is a strong one.

149. The final submissions of Advocate Horsbrugh-Porter, describing the detrimental effects on it of which CLOH complains (see [140] above) show that the prejudice which CLOH perceives it has suffered is, really, to the prospect of getting itself into a position to pursue mismanagement claims against ACIS (and possibly Mr Terry) through being the actual direct owner of ACIS CLOs. However, the preservation of the opportunity for a shareholder to acquire an interest which will provide a means of leveraging a dispute with a third party is not, in the Lt-Bailiff's judgment, a prejudice suffered in connection with its interests *as a member of the company*.

150. The Lt-Bailiff felt, at times, that Advocate Horsbrugh-Porter's argument appeared to be tantamount to a submission that the Directors of HCLOF owed a duty to act evenhandedly between shareholders - obviously, in particular, CLOH and HCM, bearing in mind that their respective personal positions had by then come into conflict with each other within the wider landscape of interests and disputes between "Dondero" and "Terry" entities. It appeared to be being suggested that there was an unacceptable element of bias in their actions, exemplified by Clause 2(iii) of the 2021 Settlement Agreement, which expressly singled out CLOH (though amongst others) for disadvantageous treatment not meted out to HCM, and Clause 9 which, again expressly singled out CLOH and its affiliates for emphatically not being accorded the benefit of the "*ACIS Releases*".

151. The Lt-Bailiff rejects any such implicit submission. It contends for a parallel with the duties of trustees to act even-handedly between beneficiaries, but the situation here is entirely different. The fiduciary duty of company directors is to act in the best interests of the company as a whole - in effect, its enterprise, although this is conveniently described as a duty owed to the impersonal "general body of shareholders". It is no part of a company director's general duties to consider or take account of the personal interests or circumstances of particular shareholders when considering the general question, what is in the best interests of the company, in general? In fact, any such proposition would be entirely unworkable in practice. Considering the best interests of one individual shareholder or set of such shareholders and any attempt to further, or not damage, these, would almost inevitably lead to a failure to do the same as regards the interests of another shareholder or set of shareholders. It would also, in any event, be all too likely to put directors in an impossible position of conflict of interest.

152. As regards the submission that the clause was "unnecessary" the Lt-Bailiff considers this to be entirely beside the point. Once it is accepted (as is Mr Boleat's unchallenged evidence) that Clause 2(iii) was a provision which was sought and required by ACIS, the question for the Directors was then simply whether, taking the balance of advantage and disadvantage, agreeing to its inclusion was in the best interests of HCLOF with a view to achieving the most beneficial position for it overall. That is a matter of business judgement, and is a decision quite well within the ambit of what would be a reasonable decision in the circumstances.

153. The Lt-Bailiff therefore rejects this argument of unfair prejudice, on the grounds that, as formulated by Advocate Horsbrugh-Porter, it does not disclose any prejudice to the interests of members of HCLOF, or to a part of such membership including CLOH, as members of the company.

154. For completeness though, but also to illustrate the distinction between the interests of CLOH personally and the interests of CLOH as a member of HCLOF, the Lt-Bailiff notes that it might be possible to discern some prejudice in the latter capacity, on the basis of the following analysis.

155. In agreeing to the restriction on transferees laid down in Clause 2(iii), the Directors did, in effect, fetter their discretion as to the persons to whom they would consider selling the ACIS CLO Notes owned by HCLOF. They thereby limited the market for the disposal of such CLO Notes. If they were ever to sell those CLO Notes, they would, in the normal case, expect to sell to the highest bidder, but would now do so in that restricted market. They would thereby prevent HCLOF, and by extension its shareholders, from gaining the possible increased financial benefit (a higher payment for the relevant CLOs) which might be obtainable from any of the excluded parties as a potential special purchaser of such Notes, because of a perceived collateral advantage in making such purchase (as demonstrated by Advocate Horsbrugh-Porter's argument). Thus, this limiting of the market could be argued

to have created a prejudice to the members of HCLOF generally, by potentially reducing the realisable value of their interests.

156. Mr Boleat's evidence was that the restriction did not appear to the Directors to affect HCLOF materially because once the instruction had been given to liquidate the CLOs, as the Directors intended, those CLOs would have no assets in them and would be valueless. Thus, this particular point does not appear to have been considered.

157. However, the Lt-Bailiff does not consider that this arguable shortcoming would make any difference to the ultimate position here (and she therefore did not think it necessary to ask for any further argument from the parties upon it) for the following reasons.

158. First, the analysis that such prejudice actually occurred is highly speculative; it owes more to theory than to any reality in evidential fact. Second, this is backed up by the fact that CLOH apparently did not perceive this prejudice (ie the potential forgoing of an element of value in HCLOF's underlying assets) as actually occasioning any damage to its (CLOH's) interests at all, because it never raised this point, whilst making very many others of greater or lesser substance. Third, Clause 2(iii) was not entered into in isolation but as part of a package deal contained in the whole of the 2021 Settlement Agreement and the question whether any potential prejudice caused by Clause 2 (iii) was adequately compensated by the benefits of other aspects of the whole package was a matter for the business judgment of HCLOF's Directors. To decide to accept this clause was, in the Lt-Bailiff's judgment, *prima facie* well within the ambit of an objectively reasonable business judgement by directors of HCLOF in all the complicated set of circumstances pertaining, even if the Directors themselves had not directly evaluated this particular point. The company itself could not have raised any complaint (see *Carlyle Capital Corporation Ltd v Conway* (2017) Royal Court Judgment 38/2017 at [393] and [395]).

159. As CLOH did not take this point at all in its argument, that really is enough to dispose of it in practice. However, insofar as the situation could be thus perceived to give rise to some element of prejudice (to refer back to the words of s 349 (1) of the Companies Law) "*to the interests of members of [HCLOF] generally*" (as contrasted with, merely, to the personal interests of CLOH, which was what was argued), and insofar as such element of prejudice had any substance in fact rather than merely commercial theory, the Court is of the view that it would not, in all the circumstances, amount to unfair prejudice, bearing in mind that it is, *ex hypothesi* here, the interests of the whole membership of HCLOF which is the factual situation being considered, and the effect upon which CLOH would be complaining about. Moreover, on any basis, the Court would not think it appropriate to exercise its discretion to grant any relief to CLOH in respect of such postulated prejudice, in all the above circumstances.

(4) Intervening in the NexPoint Litigation; coupled with
(5) Failure to sue US Bank to obtain the retained Redemption Proceeds.

160. These complaints can conveniently be taken together, here, as they are next in point of time, and they are argued on an interlinked basis by CLOH.

Backdrop

161. After the 2021 Settlement Agreement procured the lifting of the injunction which prevented HCLOF from seeking redemption of its ACIS CLOs, HCLOF was able to and did instruct US Bank to effect redemption. US Bank had not been a party to the 2021 Settlement Agreement. Mr Boleat's evidence was that the Directors expected that there would be an immediate and smooth release of the Redemption Proceeds by US Bank to HCLOF's investors, as a dividend distribution in accordance with their rights. However, US Bank,

instead, asserted a right to retain such proceeds as security for its contractual indemnity against costs, expenses or liabilities incurred by it as indentured Trustee of the relevant CLOs, claiming to be at clear risk of incurring such costs, expenses or liabilities in various lawsuits, current, potential and future, which it faced from entities controlled by or connected with Mr Dondero. Acting on these asserted rights, US Bank refused to release $41.5Mn of the proceeds.

162. There was obvious objective justification for US Bank's claimed fears. First, there were the two claims brought by CLOH itself amongst others in late 2019/early 2020 each withdrawn, but reserving the right to bring them again, combined with the fact that the claiming parties had refused to confirm later that these proceedings were unconditionally withdrawn, and indeed a threatening letter on behalf of CDAF and CLOH had been written in May 2020.

163. Second, at the same time as the CLOs were being redeemed, and further justifying US Bank's expressed fears, NexPoint – a Dondero entity - commenced an action against ACIS, Mr Terry, Brigade and US Bank as a minority 13% noteholder in ACIS-6 (possibly amongst other investments) alleging breach of fiduciary duty in the management of certain CLOs by ACIS.

164. Whilst the Directors of HCLOF were advised in June 2021, that US Bank's retention of the Redemption Proceeds was unlawful, US Bank disagreed - and of course it still held the funds. The Directors of HCLOF therefore needed to consider how best to deal with this situation, in what they judged to be HCLOF's best interests. In principle, of course, this meant deciding on the best, most cost-effective and potentially successful, route to recovery of the retained money.

165. The Directors took advice. This has been adduced in these proceedings, but in redacted form, with its full contents sealed, in view of their privileged nature, and the sensitivity of particular comments being brought into the public domain against this hostile and complicated litigation background. During the second half of 2021 the Directors sought, through their lawyers, to persuade US Bank that their retention of the funds was not lawful, but US Bank was adamant.

166. HCLOF plainly had two broad potential courses of action. The first was to seek to negotiate a way to get US Bank to agree to release the proceeds, which effectively meant having all the current and potential litigation terminated ("Option 1"). The second was to sue US Bank for the release of the proceeds ("Option 2"). Having considered detailed advice as to the merits of each option, taken from three eminent US law firms, the Directors decided that the better course was Option 1. The disadvantages of Option 2 - apart from the sheer litigation risk that, however, strong they thought their case was, it might not succeed - were the time that this would be likely to take, and also the fact that involving US Bank directly in proceedings would invite it to use and deplete the funds it was retaining in defraying its own legal costs.

167. The Directors also decided, again on advice, that intervening in the NexPoint litigation in the way which was chosen, (which they did in December 2021 in the Federal case, and again in November 2022 in the State case) would be a cost-effective part of this course of action, because they could assist in getting the NexPoint action struck out, in which case the justification for US Bank to retain moneys against the likely costs of, at least, that action would disappear. Since NexPoint was only a minority shareholder in ACIS-6, holding only 13% of the shares, the presence of HCLOF in the action, as both the majority shareholder and in support of the point that NexPoint's interest was below the 25% interest which the terms of ACIS-6 laid down as the minimum interest required in order to launch mismanagement claims, was thought to add considerable weight to resisting such claims.

(At the time of writing this judgment, the US court's judgment in the US application to strike out NexPoint's claim is awaited shortly).

The complaints

168. CLOH's complaint is that HCLOF did not take Option 2 and simply sue US Bank when they should have done, because they had received clear advice, which they believed in (and indeed, relayed to shareholders in a Directors' report at the time) that the retention was unlawful. This is the fundamental complaint, with the intervention in the NexPoint litigation being criticised as a part of that alternative, unjustified, strategy.

Applicant's submissions

169. Essentially Advocate Horsbrugh-Porter's submission is that it was unfairly prejudicial conduct of HCLOF to choose the Option 1 approach – seeking, without resort to the courts, to bring about a situation where US Bank would accept that there was no need for them to retain the Redemption Proceeds or any part of them – in preference to the Option 2 approach – that of simply suing for their release – with the intervention in the NexPoint proceedings being a particular aspect of this.

170. He submits that intervening in the NexPoint Litigation was unfairly prejudicial to CLOH because

    (i) it directly affects CLOH's right to receive the Redemption Proceeds, it was obviously doomed to failure, given the litigious nature of the Dondero and Terry entities, and it did not deal with US Bank's known stance that there was potentially "future" litigation justifying retention, not just the NexPoint action;

    (ii) it would be a far longer process than simply suing directly to recover the retention monies;

    (iii) it would be using HCLOF money wastefully, simply to duplicate defences already raised by ACIS, US Bank itself, Mr Terry and Brigade;

    (iv) it would be a more costly process than simply taking direct action; and

    (v) it was actually seeking to use HCLOF monies to strike out an action which, if it succeeded could bring in about $50Mn of recoveries for HCLOF itself.

171. He submits that failing to sue US Bank to recover the proceeds in the summer of 2021 was unfairly prejudicial to CLOH because

    (i) it similarly directly affects CLOH's right to receive the Redemption Proceeds;

    (ii) doing so accorded with the Directors' expressed view in the summer of 2021 that US Bank's withholding such proceeds was unlawful;

    (iii) doing so was quicker and cheaper than the "negotiation and pressure" route; and

    (iv) doing so was in fact the only route by which CLOH could receive its share of the Redemption Proceeds given the terms of the 2021 (and later the 2023) Settlement Agreement.

© Royal Court of Guernsey

172. Advocate Horsbrugh-Porter relies on the fact that the Directors advised shareholders, in the summer of 2021, that the retention of the Redemption Proceeds by US Bank was unlawful, without caveat or qualification. Therefore, the obvious and only right course was to take proceedings in accordance with that view.

Respondent's submissions

173. Advocate Dunster submits that these complaints boil down to complaints about the commercial decisions as to the best route forward in HCLOF's interests. They are therefore, effectively, complaints about management decisions, taken in good faith by the Board for what they reasonably perceived to be those ends, and as such they do not provide a legal foundation for a finding of "unfairly prejudicial conduct" on any basis.

174. Elaborating, he submits that Mr Boleat gives a clear explanation as to why direct legal proceedings were not taken, on the basis of legal advice about the totality of legal and procedural considerations, and the consequent relevant commercial implications (those advices being confidentially exhibited to his affidavit, and therefore not recited here). He points out that CLOH has not identified any errors in the advices given to the Board, which CLOH would have to show was so obviously wrong that the Board should not have followed it. As this advice depends on US Law and procedure, any such contention would require to be backed by expert evidence, but CLOH has not sought to adduce any. Instead this whole assertion relies on the opinion of Mr Murphy, who admitted he was not an expert in New York Law, but opined that the case had a 70%-80% chance of success which was well within the bounds of what he would regard as mere "litigation risk", so that he himself would have advised that HCLOF should go ahead and sue. Advocate Dunster submitted that was an astonishingly arrogant approach to take on any basis, but it was certainly insufficient to support any finding that the contrary approach was unfairly prejudicial to any shareholder.

175. Advocate Dunster further pointed out that CLOH had produced no evidence to support the proposition that HCLOF (and therefore its shareholders) would have been better off, now, if HCLOF had taken direct proceedings against US Bank in the summer of 2021; that proposition was merely assertion. CLOH has therefore failed to <u>prove</u> any prejudice to its interests as a member of HCLOF, at all.

176. Specifically as regards the decision to intervene in the NexPoint Litigation, Advocate Dunster submitted that Mr Boleat had once again explained why the Board saw this as being in the interests of HCLOF – namely that the dismissal of the NexPoint litigation would remove the basis for US Bank's retention of at least part of the Redemption Proceeds and make it more likely that it would release at least some of them to HCLOF, and he was not challenged on this evidence, which was supported by some of the confidential legal advice; all that was put to Mr Boleat was that HCLOF's intervention was not necessary, because ACIS and US Bank were themselves defending the proceedings.

177. In summary, this was, he submitted, once again, a commercial decision by the Board, taken, obviously, perfectly reasonably and (as was not challenged) in good faith. It was not suggested to have breached any rights which CLOH had under the contractual documents. Finally, no prejudice to CLOH as a shareholder had been suffered, the only prejudice alleged being the unsupported assertion, for which there was no evidence, that HCLOF would have been "better off" if the Board had not made the intervention.

Discussion and conclusion

178. The Court unhesitatingly prefers Advocate Dunster's submissions on these two linked topics. There is ample evidence that the Board made carefully considered, and apparently reasonable decisions, based on taking appropriate advice, as to which approach to obtaining

© Royal Court of Guernsey

release of funds to HCLOF from US Bank was most likely to be cost-effective. The decision to pursue the approach of trying to remove US Bank's own reasons for wishing to withhold the monies, as opposed to the confrontational approach of simply suing them and relying on the legal advice obtained being ultimately – and how long and how expensive "ultimately" might prove to be could not be regarded as clear – held to be correct, is a decision perfectly, it seems to the Court, within the range of decisions which a reasonable board of directors might take in the circumstances of this case. The Court agrees with Advocate Dunster that Advocate Horsbrugh-Porter's submission that suing US Bank rather than seeking to achieve the release of funds by other means would be cheaper and quicker than taking this latter course is simply assertion, with no evidence either adduced or appearing, to support it.

179. The Court finds that CLOH's submission that this amounted to unfairly prejudicial conduct towards it really does simply come down to the fact that it is conduct with which it (more accurately its current director, Mr Murphy) does not agree. That is not sufficient grounds for a finding of unfairly prejudicial conduct. Moreover, CLOH has not proved to the satisfaction of the Court that there has been any actual prejudice suffered by it as a result of these actions. Still less has it proved that such conduct has prejudicially affected CLOH's interests *as a member of HCLOF* unfairly.

180. It should be expressly recorded that the fifth point submitted (see [170] above) by Advocate Horsbrugh-Porter to amount to prejudice suffered as a result of the intervention in the NexPoint Litigation, (namely that intervention to try to get the NexPoint litigation struck out in respect of the ACIS-6 CLOs was using HCLOF's funds to defeat a claim (of breach of duty) which if successful, would have brought significant moneys in to HCLOF) was not, so far as the Court can see, raised in argument or evidence prior to Advocate Horsbrugh-Porter's closing speech. In particular it was not put to Mr Boleat in evidence.

181. In the Lt-Bailiff's judgment, it is not open to CLOH to rely upon this point in those circumstances. However, even if that were permissible, such a point appears to be entirely speculative, and the weight which could be attached to it as a factor supporting a criticism of the Board's decision is impossible to assess. The *Court* is therefore not satisfied that even those asserted facts could be sufficient to found a finding of unfairly prejudicial conduct towards CLOH, whose interests on this point are no different from those of any other shareholder in HCLOF.

(6) Entry into the 2023 Settlement Agreement

Backdrop

182. By this time, US Bank and ACIS had launched their own action, the December 2021 Declaratory Action, seeking declarations that none of the designated Dondero entities had viable claims against them, prompted by those entities' (including CLOH) refusal to confirm that they were not going to bring proceedings. However, those entities, including CLOH, had filed counterclaims, seeking their own declaratory relief, and these proceedings had continued, in amongst the other litigation noted above, during the following year.

183. Meanwhile, in line with its chosen strategy to obtain release of the Redemption Proceeds retained by US Bank, the Directors had sought to negotiate with US Bank, and also, necessarily, with ACIS, who were embroiled in claims for which indemnities could be claimed against HCLOF, to try to secure the release of at least some of the $41.5 Mn being retained by US Bank. Those negotiations culminated in an agreement in escrow in December 2022, which became unconditional and effective on 28th February 2023 – apparently, indeed, triggered by the decision of the Texas Court that CLOH did not require the permission of the Texas Court to launch these proceedings against HCLOF.

© Royal Court of Guernsey

184. The 2023 Settlement Agreement contained extensive recitals of the state of the various Reserve Funds held in respect of each of the ACIS CLO Notes, and the potential claims for indemnity by US Bank as Trustee, and ACIS entities as Portfolio Manager and Collateral Administrator of such Notes (as there defined). It provided also for the release from such reserves to HCLOF of a total of $16.5 Mn, (about 40% of the entire reserve) which was then distributed to HCLOF's shareholders in March 2023. The Agreement contained provisions for reporting to HCLOF by US Bank and ACIS of the state of the reserves continuing to be held thereafter, and provisions preserving the rights of HCLOF to pursue its claim to the remainder of the sums, but also that the parties would negotiate in good faith about their continuing dispute.

The complaints

185. CLOH's eventual complaints focus on three particular paragraphs of the 2023 Settlement Agreement, namely paragraphs 4(b), 6 and 12(a). It argues that HCLOF should not have agreed to these terms, and that its conduct in doing so was unfairly prejudicial to CLOH. It complains that these terms, coupled with the previous conduct already referred to, have left CLOH in an inescapable situation in which it is *"trapped in perpetuity*" with no prospect of receiving the share of the $41.5 Mn Redemption Proceeds to which it is entitled.

Applicant's submissions

186. As to Clause 4(b), by this clause HCLOF agreed to forbear from taking steps (declarations of default, or proceedings) to obtain release of the proceeds of the ACIS 4 and ACIS 5 Notes until after the very final disposal of the Declaratory Action (of 24th December 2021), with the parties (ACIS, US Bank and HCLOF) agreeing thereafter to meet and confer in good faith about potential distribution of the relevant reserves and further release of claims. By Clause 4(c) similar provisions were made in respect of the reserves retained in relation to ACIS-6, although no complaint is actually made by CLOH with regard to this.

187. CLOH submits that Clause 4(b) by preventing distributions until the termination of the litigation, thus ties the relevant funds up for a long and uncertain amount of time. In addition, the ultimate proviso is not even for payment, but merely for discussion and negotiation about possible payment. It therefore lacks any contractual bite and there is no guarantee of the release of the funds at all. It also puts (it is complained) undue pressure on CLOH to withdraw its counterclaim in the Declaratory Action. It is submitted that all this is unfairly prejudicial to CLOH.

188. As to Clause 6, by this clause HCLOF agreed to cooperate with US Bank and ACIS to pursue actions to recover fees, expenses and other liabilities from NexPoint in relation to the NexPoint Litigation, from NexPoint, CDAF and CLOH itself in relation to the Declaratory Action, and against any Dondero entity (including NexPoint CDAF and CLOH) which pursued litigation related to the ACIS CLOs. CLOH submits that by authorising HCLOF's funds to be spent in actively assisting third parties to sue it (CLOH) as HCLOF's own shareholder, and committing time and resources to pursuing it as such, this is conduct which is unfairly prejudicial to it.

189. As to Clause 12(a), by this Clause HCLOF agreed, once again, that any sale or transfer of the "HCLOF Notes" (that is, the ACIS CLOs) should provide (i) that the relevant transferee and its successors should be bound by the terms of the 2023 Settlement Agreement, and also (ii) that any such transferees should not be affiliated in any way with CDAF, CLOH, NexPoint, Mr Dondero or any entities owned or controlled directly or indirectly by Mr Dondero or any funds or entities managed by an affiliate of his, and further (iii) that HCLOF would not consent to, and would do all in its power to prevent, the transfer of its management

of, or discretionary control over, its assets, or the transfer of the HCLOF Notes, to any Dondero entity.

190. CLOH submits that this has prevented it from availing of a valuable "exit route" from HCLOF via an *in specie* distribution, and prevents it from taking direct action against US Bank after such a distribution, and "*guarantees*" that US Bank will not release the reserves in the light of their letter of 13th August 2021 (this is the letter which set out US Bank's reasons for retaining part of the Redemption Proceeds in the first place).

191. CLOH also complains that holding the 2023 Settlement Agreement in escrow until the Texas Bankruptcy Court made its order of 27th February 2023 was reprehensible conduct, because it pressurised CLOH, unduly, to withdraw this Application.

192. Advocate Horsbrugh-Porter also submitted, generally, and he persisted in this in his closing submissions, that entering into the 2023 Agreement could be seen, in all the circumstances, to be an attempt to "*stifle and sabotage"* CLOH's exit proposals to enable it to part ways with HCLOF and, with its timing, was a "*cynical attempt to stave off"* this Application. These features were, he submitted, commercially unacceptable conduct, which was unfairly prejudicial to CLOH, and entitled it to relief.

Respondent's submissions

193. Advocate Dunster submits that the starting point, based on Mr Boleat's effectively unchallenged evidence, is that these were the best terms available if HCLOF wanted to secure the release of at least some part of the Redemption Proceeds, and it in fact achieved the release of a significant part. Furthermore, it is not alleged that entering into any of the terms complained of was any breach of HCLOF's Articles of Association or the Members' Agreement (except in the general respects of lack of good faith which have already been dismissed above).

194. As to the "standstill" agreements in Clause 4, he points out that they are, simply that – standstill agreements. They do not forgo or release any rights or claims by HCLOF, and are thus of negligible, if any, disadvantage. He submits that it is simply wrong to argue that entering into such a standstill agreement placed "unfair" pressure on CLOH to withdraw its counterclaim in the Declaratory Action. HCLOF was obliged and entitled to take what steps appeared to be *in the interests of HCLOF* in the situation where CLOH might, or might not, proceed with such counterclaim. In addition, it must be likely that the US courts would have put such litigation on hold until the disposal of the NexPoint litigation and the Declaratory Action and Counterclaims, in any event.

195. As for Clause 6, he submits that this clause was self-evidently for HCLOF's benefit because, as pointed out by Mr Boleat in his evidence, any recoveries which were made would swell HCLOF's assets. He submitted that the suggested prejudice was not suffered by CLOH as a member of HCLOF but, and clearly only, as a litigating party.

196. As for Clause 12(a)(ii), this Clause self-evidently largely replicated the existing prohibitions contained in Clause 2(iii) of the 2021 Settlement Agreement, and therefore, Advocate Dunster submits, in itself it effected no prejudice against CLOH at all. Once again, in any event, it disclosed no arguable prejudice to CLOH in the capacity of a member of the company.

197. Finally Advocate Dunster resists, strongly, any submission of reprehensible or unconscionable conduct by the Directors, which he submits should not have been made or persisted in. The clear evidence is that the Directors acted solely in what they honestly perceived to be the best interests of HCLOF, as was their duty. If their actions are perceived

to cause damage to CLOH, then it is because of CLOH's separate status as a litigating party, or as a member, also, of the Dondero entities group, but not as a member of HCLOF and certainly not in a manner or to an extent which could justifiably be said to be unfair.

Discussion and conclusion

198. The Court once again prefers the submissions of Advocate Dunster to those of Advocate Horsburgh-Porter, and for much the same reasons generally, as it has found to apply in relation to each of CLOH's individual matters of complaint.

199. The Jurats accept Mr Boleat's evidence that the 2023 Settlement Agreement was pursued and negotiated on the basis of genuinely seeking the agreement that was most beneficial to HCLOF in the circumstances. The Court can see no prejudice to CLOH as a member of HCLOF in any of the matters challenged by Advocate Horsbrugh-Porter in relation to the 2023 Settlement Agreement, nor that any of the matters complained of were unfair, in all the circumstances.

200. CLOH's arguments in themselves show, once again, that any prejudice of which it is complaining is in reality prejudice to its interests as a litigating party, or as an affiliate of the Dondero group of entities, rather than as a member of HCLOF. Furthermore, its complaints about particular decisions themselves are really complaints about management decisions taken by the Directors, decisions which it is not entitled to control but with which it disagrees, in its own particular interests.

201. The fact that CLOH's complaints are made from its viewpoint as a litigating party rather than as a shareholder is illustrated by the fact that one such complaint, pursued in this Application has even been an allegation that it was reprehensible conduct by the Directors of HCLOF, against CLOH's interests, to enter into the 2023 settlement in escrow, dependent, apparently, on it being settled that CLOH was entitled to pursue this foreshadowed application. Viewed from a neutral standpoint, taking this step can be seen to be a perfectly reasonable step in the best interests of HCLOF, which the Directors were obliged to protect, when threatened with such an application.

202. This also illustrates why CLOH's approach, that the Directors were somehow "unfairly" disadvantaging CLOH in contrast with other shareholders simply cannot found a viable claim of *unfairly* prejudicial conduct by HCLOF. If the Directors refrained from taking a step which would be in the interests of HCLOF as they perceived it, because it worked independent disadvantage to a major shareholder (CLOH), they would not only be in breach of their fiduciary duty to HCLOF, but would also by the standards of CLOH's own argument, be acting unfairly prejudicially to the interests of the other part of the shareholder body.

203. CLOH's rights as a member of HCLOF were, and are, to have HCLOF's affairs conducted properly and competently by its Directors, in accordance with, and in the apparent best interests of, HCLOF's function as a closed-ended investment scheme as described in its Offering Memorandum, its Articles of Association and the Members' Agreement. CLOH had no further rights grafted on to this regime, and has no grounds for complaint under ss 349 and 350 of the Companies Law if measures lawfully taken by HCLOF in its own best interests should work to its perceived actual or relative (to other shareholders') disadvantage, because of CLOH's individual position.

204. CLOH is entitled to the benefit of the arrangements in HCLOF's constitutional documents. Insofar as CLOH might have been able and wished to avail itself of an opportunity to negotiate an arrangement which was outside the ambit of those constitutional documents, such an opportunity was merely a general commercial opportunity. It has no special

© Royal Court of Guernsey

protected significance. It was not a right enjoyed by CLOH as a member of HCLOF, and the fact that its inclination or enthusiasm to pursue such opportunities might be influenced by the fact that it is a shareholder in HCLOF can make no difference to this.

205. CLOH argues that the matters of unfair prejudice of which it complains can if necessary be regarded in combination, and would then amount to unfairly prejudicial conduct on this basis. Having considered and rejected CLOH's complaints individually for the reasons given above, the Court confirms that it rejects this argument. Taking all CLOH's complaints in combination does not increase their weight, nor, in particular, does the totality of them become prejudice to CLOH's interests as a member of HCLOF when the individual component parts are not.

Relief

206. This can be dealt with quite shortly, in view of the fact that the Court has rejected CLOH's case that it is entitled to any relief. It should, however, be dealt with for completeness.

207. Assuming that CLOH had established its case of unfairly prejudicial conduct, it sought by way of relief in its Application, an order that it should transfer its shares in HCLOF back to HCLOF, in return for HCLOF transferring to it full legal and beneficial title to the assets of HCLOF in the proportion (49.015%) of CLOH's shareholding in such assets, either by way of a redemption of shares, or a share buyback. These transactions were known as the "Exit Proposals".

208. However, as had been pointed out to CLOH, and as Advocate Dunster submitted in his argument, there were three reasons why the court could not, or should not, order such relief.

209. The first is that HCLOF is not lawfully competent to undertake the share buyback proposed in the Exit Proposals because of the provisions of s 314 of the Companies Law, which requires a buyback of a company's shares to be authorised by an ordinary resolution of the company's membership. This would therefore require the support of HCM, as the majority shareholder, and that support had been enquired about, but is not forthcoming.

210. Second, the position is actually more acute, because under s 3.2 of the Members' Agreement, it was provided (for the protection of shareholders' rights *inter se*) that HCLOF cannot take any action at any meeting requiring the sanction of an ordinary resolution of the company without that, in fact, being authorised by an extraordinary majority, namely an affirmative vote of 75% of the members. This provision expressly refers to actions such as the "*conversion or redemption of shares"* (except in particular circumstances of default, not applicable here): see Clause 3.2.3. Once again, the required majority could not be obtained without the support of HCM as majority shareholder which is not forthcoming.

211. The third reason is that making any order for an *in specie* distribution would override the contractual rights of third parties under Clause 2(iii) of the 2021 Settlement Agreement or Clause 12(a) of the 2023 Settlement Agreement, and the Court will not make orders pursuant to its statutory jurisdiction under s 350 of the Companies Law which have that effect.

212. Advocate Dunster submits that the third reason is insurmountable, because it is established that the Court will not grant discretionary relief - which is what the power pursuant to ss 349 and 350 is - which infringes the contractual rights of third parties (or requires something which the respondent cannot lawfully do): see *Warmington v Miller* [1973] QB 877 at 886. In addition, the courts are warned, in any event, about making orders for distributions *in specie*: see *Re Neath Rugby ltd (No 2)* [2007] EWHC 2999 (Ch) at [250].

© Royal Court of Guernsey

213. The two former reasons are also insurmountable at present, because HCM is not a party to the Application, so that it cannot be bound by any order which might be made by the Court under which, possibly, its refusal of consent might be overridden, (without conceding that the Court could, should or would do so). This difficulty, moreover, would not be surmountable either, at present, because HCM cannot be convened as a party to this Application without the permission of the Texas Court, because doing so would fall foul of the gatekeeper provisions in the HCM Bankruptcy proceedings.

214. Because of those difficulties and other practical difficulties which it perceived about the grant of relief in any other form which might normally be contemplated in an application of this type, immediately before closing speeches in the hearing, CLOH notified HCLOF that it would be seeking a different form of relief. This was an order that HCLOF should effect a buy out of CLOH's shares, apparently for cash, at a full price proportionate to their relative share of HCLOF's NAV, in two parts, namely an immediate purchase within 14 days of 85% of such holding, with the remaining 15% being purchased once the US proceedings (presumably the Declaratory Action) had been concluded.

215. The background to this was no doubt the offer of 28th June 2022 by which HCLOF had revealed that they had sufficient cash in hand to re-purchase all the shares of all the minority shareholders at 85% of their relative NAV value. At that time CLOH had refused to accept that there should be a minority discount applied to the NAV figure, and so the offer had lapsed, but the making of it suggested that HCLOF would have enough funds to implement the first part of CLOH's proposed buy out.

216. Advocate Dunster's response was that this form of relief was not only not justified on the facts, nor supported by legal principle, but was in fact impossible for the court to grant. Apart from his general submissions that CLOH's claim failed on its merits, and laying aside any argument about whether or not any valuation of the shares would properly require a minority shareholding discount to be applied, (which he submitted, it did: citing *Shanda Games Ltd v Maso Capital Investements Ltd* (Cayman Islands) [2020] UKPC 2 at [38] and [42]) he submitted that it was impossible to calculate NAV properly without taking into account the wholly unquantifiable contingent liabilities of HCLOF which were contingent on the outcome of several sets of contentious US proceedings. Equally, there were contingent in-flows of cash, in the shape of possible litigation costs recoveries, which might replenish the sums taken from the retention reserves by US Bank to fund its own defence costs. No relief dependent on a valuation of HCLOF's undertaking was therefore capable of accurate or fair quantification.

217. Perhaps most significantly, the relief suggested by CLOH would still infringe the first two objections noted above, namely that, without HCM's consent, it would infringe both s 314 of the Companies Law and would "ride roughshod" over the terms of Clause 3 of the Members' Agreement.

218. Since the Court has already concluded that CLOH's application fails on the merits, it is not necessary for the Court to decide the above points. It records, however, and admittedly without having heard extensive argument in all the circumstances of this case, that it would be inclined to accept the objections raised by Advocate Dunster on behalf of HCLOF. Where that would have left the matter, if it had been necessary to consider the question of appropriate relief, is therefore unclear and any decisions of principle upon such questions will have to await their arising in another case.

Summary of conclusions and disposal

219. The Court therefore summarises its conclusions as follows:

220. The Applicant's Application fails for the following reasons, alone or in combination:

(i) The Applicant has established no breach towards it of any term of the contractual documents defining the legal rights of the parties.

(ii) This case is one of a detailed and sophisticated commercial contractual relationship. There is nothing in the circumstances of this case which can be cited as an "equitable consideration" importing any restraint on HCLOF's right to exercise its own rights under that relationship.

(iii) There is no evidence that the Directors of HCLOF have taken steps other than in what they honestly and reasonably believed to be the best interests of the company, HCLOF, itself. CLOH's complaints are largely simply that it disagrees with what have been, on the face of it, valid and appropriate management decisions made by HCLOF's admittedly independent Directors.

(iv) Even if there were grounds for invoking "equitable constraints", the matters of complaint ultimately relied upon by CLOH do not disclose (except possibly in one minor respect) any prejudice arguably being suffered to the interests of CLOH *as a member of HCLOF*. The substance of CLOH's complaints relate to perceived disadvantage to it as a party engaged in litigation, whether with HCLOF or other third parties.

(iv) The minor respect (a possibly discernible consequence of Clause 2(iii) of the 2021 Settlement Agreement discussed at [155] – [159] above) was not argued by CLOH, appears to be theoretical only rather than real, and is so minor and incidental that in the judgment of the Court it would not, in any event, justify the court's intervention.

(v) Even if CLOH could be said to have suffered prejudice in its position as a member of HCLOF as a result of any of the matters complained of, the Court is not satisfied that this could be characterised as "unfair" prejudice in all the circumstances of the case.

(vi) In any event, viewing the case as a whole, the Court would not consider it appropriate to exercise its discretion to intervene.

(vii) Furthermore, the Court considers that it would not be open to it to grant any form of relief which CLOH has sought or now seeks.

221. The Application will therefore be dismissed. As regards costs, the Court will make an order dismissing the Application with the Respondent's costs to be paid by the Applicant on the recoverable basis unless either party wishes to contend that some other costs order is appropriate. If so, that party should notify the court and the other party within 7 days of the handing down of this judgment and further directions will be given by the Lt-Bailiff.

Her Hon Hazel Marshall KC, Lt-Bailiff
1 December 2023
