By: \_\_\_\_\_  
Deputy Clerk

As directed by the court, and pursuant to 11 U.S.C. § 333(a)(2), Fed. R. Bankr. P. 2007.2(c), the following is my eighth 60-day report for the above captioned case.

**I. Introduction**

### ***III. Summary of Visits and Interviews***

Visits were conducted by the regional (long-term care) ombudsmen who report programmatically to the State Long-Term Care Ombudsman (SLTCO) who is housed within the NC Division of Aging. Statutorily, the regional ombudsmen are housed within the Area Agencies on Aging in various counties.

All the facilities are skilled nursing facilities.

Between 9/13/25 and 11/12/25, regional ombudsmen conducted visits to the sixteen (16) facilities. At each facility, regional ombudsmen spoke with administrators, nurses, social workers, direct care staff, and residents. There was no evidence of staffing shortage. Forrest Oaks Healthcare Center underwent an ownership change effective June 1, 2025, and is now operating as Forrest Oaks Healthcare. At Hibriten Mountain Nursing and Rehabilitation, a complaint was received alleging that the administrator had been rude to several residents and staff members; however, residents did not report concerns regarding the overall quality of their care. According to the social worker at Hibriten Mountain Nursing and Rehabilitation, the facility is having issues with pests (cockroaches) but is receiving regular treatments. At Westwood Nursing and Rehabilitation, residents appeared noticeably happier following recent administrative and management changes. While no concerns were expressed about the quality of care, the regional ombudsman is assisting one resident with a complaint regarding a newly implemented visitation restriction. At Biltmore Haven Nursing and Rehabilitation, residents shared that the new administrator has been less responsive, friendly, and helpful compared to previous administrators, though the building itself appeared neat and clean.

Other visits with residents did not indicate any issues that adversely impacted quality of care. Staffing remains adequate. During their visit, ombudsmen toured the facilities so they could observe the environment, meet and greet residents, staff, families (if available), review Survey Reports, and make general observations. Ombudsman observations and meetings with residents and family members revealed satisfaction with care and cleanliness. Patient daily census in relation to patient capacity was not an issue.

Regional ombudsmen will continue to visit and meet with residents to ensure that they are receiving the highest quality of care, and that the bankruptcy reorganization does not have any adverse impact on their quality of care.

***Ombudsman Conclusion:*** All the patients, families, and staff were satisfied with the quality of care provided. They did not express any concerns that the bankruptcy was adversely impacting the quality of care provided to the residents in the 16 facilities.
