**Patient Care Ombudsman's Third and Final Report in re: Hospital for Special Surgery, LLC d/b/a ONECORE HEALTH**

**Case 24-12862**

COMES NOW, Deborah Burian, Patient Care Ombudsman ("Ombudsman") and pursuant to 11 U.S.C. 333, submits her third and final report.

**Factual Background**

On the 8th day of November 2024, the United States Trustee for the Western District of Oklahoma appointed Deborah Burian as Patient Care Ombudsman in the case of Hospital for Specialty Surgery, LLC, d/b/a/ Onecare Health.

This is Ombudsman's third and final report and includes the reporting period from March 7<sup>th</sup> through May 13, 2025.

**Report of Activity**

- 1) Onecore Health operates two physical locations in Oklahoma City, an inpatient surgical hospital located at 100 NE 85<sup>th</sup> St. and Comprehensive Diagnostic Imaging (CDI), an outpatient diagnostic radiology center located at 5800 N. Portland Ave.
- 2) As a condition of participation in Medicare, facilities must be surveyed by an approved body and ensured to be in compliance with the Centers for Medicare and Medicaid Services (CMS) Conditions of Participation (42 CFR Part 485 Subpart F.) Onecore Health is licensed and surveyed by the Oklahoma State Department of Health and at the time of the bankruptcy filing, had been deemed to meet the Conditions of Participation.

**In re: Hospital for Specialty Surgery**

- 3) On March 27, 2025, Ombudsman conducted a site visit at Onecore. During the site visit Ombudsman interviewed staff, conducted rounds and received quality assurance and compliance documents. Ombudsman observed hospital operations, reviewed emergency room processes and regulations, and discussed observations with hospital management. It was reported that facility had received a state survey and that no significant areas of concern were noted. Ombudsman reviewed survey and related follow-up plans. The Oklahoma State Department of Health will re-survey to ensure future compliance. Patient Care Ombudsman notice has been provided and was posted within the facility.
- 4) Prior to and after the site visit, Ombudsman communicated with hospital staff via telephone and email to receive and exchange information as needed to answer questions regarding functioning of the hospital. The facility continues to take active steps to minimize the impact of the bankruptcy filing on the operations of the hospital. Vendor relationships are in place to ensure that goods and services are available as needed. Staff report and direct observation indicate no shortages of supplies.

**5) In re: Comprehensive Diagnostic Imaging**

- 6) Comprehensive Diagnostic Imaging (CDI) is licensed through the Hospital for Special Surgery and is approved by the State of Oklahoma Department of Health in accordance with CMS guidelines. Additionally, CDI is subject to certification by the American College of Radiology (ACR.) ACR certification is current; the facility reports they are due for recertification in 2025.
- 7) There was a prior issue with a General Electric Bright Speed 16 CT scanner, specifically that the unit was due for preventative maintenance. On March 12<sup>th</sup>, 2025, Ombudsman conducted a site visit at CDI for purposes of monitoring and to confirm that preventative maintenance had been completed as scheduled. Ombudsman met with personnel and reviewed records. From the information provided, maintenance is current with no further issues identified.
- 8) Wherefore, Ombudsman, Deborah Burian prays the Court accepts and approves this first report of Deborah Burian and for such other relief as the Court deems just and appropriate.

Respectfully submitted,

/s/ Deborah Burian
