Privacy Act Statement

28 U.S.C. § 589b authorizes the collection of this information, and provision of this information is mandatory under 11 U.S.C. §§ 704, 1106, and 1107. The United States Trustee will use this information to calculate statutory fee assessments under 28 U.S.C. § 1930(a)(6). The United States Trustee will also use this information to evaluate a chapter 11 debtor's progress through the bankruptcy system, including the likelihood of a plan of reorganization being confirmed and whether the case is being prosecuted in good faith. This information may be disclosed to a bankruptcy trustee or examiner when the information is needed to perform the trustee's or examiner's duties or to the appropriate federal, state, local, regulatory, tribal, or foreign law enforcement agency when the information indicates a violation or potential violation of law. Other disclosures may be made for routine purposes. For a discussion of the types of routine disclosures that may be made, you may consult the Executive Office for United States Trustee's systems of records notice, UST-001, "Bankruptcy Case Files and Associated Records." See 71 Fed. Reg. 59,818 et seq. (Oct. 11, 2006). A copy of the notice may be obtained at the following link: http://www.justice.gov/ust/ao/rules_regulations/index.htm. Failure to provide this information could result in the dismissal or conversion of your bankruptcy case or other action by the United States Trustee. 11 U.S.C. § 1112(b)(4)(F).

I declare under penalty of perjury that the foregoing Monthly Operating Report and its supporting documentation are true and correct and that I have been authorized to sign this report on behalf of the estate.

General Notes:

The financial information contained in this *Monthly Operating Report for the Period July 1, 2025, Through July 31, 2025* (the “MOR”)¹ is unaudited, limited in scope, covers a limited time period, and has been prepared solely for the purpose of complying with the monthly reporting requirements for chapter 11 debtors as promulgated by the Office of the United States Trustee. The general notes, statement of limitation, methodology, and disclaimers (collectively, the “General Notes”) below are intended to further describe, disclaim, and explain the presentation of information in the Debtors’ second MOR.

The information in the MOR was derived from the Debtors’ books and records available at the time of such preparation, but such information was not in all circumstances subject to certain procedures typically applied to such data for U.S. Generally Accepted Accounting Principles (“GAAP”) or for reporting purposes under the securities laws, rules and regulations of the United States.

KPMG has historically served as the Debtors’ primary external accounting advisor and without KPMG’s support the Debtors cannot prepare an accurate set of monthly financial statements for fiscal year 2025. More specifically, the Debtors’ Enterprise Resource Planning (“ERP”) system does not record revenue or cost-of-goods-sold transactions in an automated manner. As a result, critical components such as revenue recognition and the corresponding cost of goods sold require significant manual intervention. This manual process is highly complex, time-consuming, and resource intensive, making the production of a monthly financial statement challenging to complete within normal reporting timelines – especially without dedicated external support. Consequently, the Debtors previously engaged KPMG to assist with preparing the necessary manual entries for both revenue and cost of goods sold needed for financial reporting. For 2025, the manual entries to record revenue and cost of goods sold have not been produced because the Debtors are not currently working with KPMG given the financial circumstances. Notwithstanding the forgoing, the Debtors have made a good faith attempt to reconcile financial activity in 2025 through 7/31/2025 in connection with preparing the MOR.

The Debtors’ historical financial reporting processes have been shaped by a combination of ERP system limitations, manual updates and corrections, and significant dependency on external bookkeeping support from KPMG.

- ERP System: NetSuite is used as the core accounting system, but as it exists today, it lacks the complete functionality to support the Debtors’ project-based manufacturing and delivery model.
- Supplemental Workflows: Key accounting outputs—particularly around inventory, revenue recognition, and cost of goods sold—are driven by manual Excel-based models maintained by the accounting team and supported by KPMG.
- Cross-functional Gaps: Upstream data (e.g., procurement, logistics, project operations) is

¹ Capitalized terms, used but not defined herein, shall have the meanings ascribed to them in the Final DIP and Cash Collateral Orders

often incomplete or incorrect, requiring accounting to manually fill and correct entries, leading to material delays and risk of misstatement.

As set forth above, KPMG has historically served as the Debtors' primary external accounting advisor, engaged to fill major process and systems gaps. Their support included: (i) Manual preparation of revenue and cost of goods sold (COGS) journal entries due to NetSuite's inability to automate these areas; (ii) development and maintenance of complex Excel workbooks—over 50 per quarter—to handle project-based revenue recognition under ASC 606; (iii) compilation of financial statements and reporting packages to support U.S. and international tax filings; (iv) work performed on a quarterly basis, effectively acting as a de facto close process for the Debtors.

Revenue and COGS Recognition: (i) Revenue is tracked manually at the project and customer level using complex Excel models; and (ii) COGS must be manually layered into each revenue workbook due to lack of automated inventory flow or assembly logic.

Inventory Tracking and Valuation: Inventory listed in the Debtors' NetSuite software is not tied to specific projects. Movements of inventory are recorded in NetSuite, but not between projects, which leads to a risk of misstatement unless manually corrected. NetSuite lacks capabilities for project-specific tracking, finished goods assembly, or bill of materials (BOM) logic. Instead, documentation of the Debtors' inventory is fragmented across SharePoint, email, and Slack, making manual validation of inventory highly inefficient. Accordingly, the location and existence of Debtors' inventory may not have been manually validated, leaving a risk of misstated inventory in the MOR.

Although the Debtors used reasonable efforts to ensure the accuracy and completeness of the MOR, inadvertent errors or omissions may exist.² Considering the above-mentioned limitations, the MOR for any given month may not be comparable to any past or future MOR or any other report and ending and closing balances for all or certain accounts may not agree.

Each signatory to the MOR has necessarily relied upon the efforts, statements, advice, and representations of personnel of the Debtors and their agents, advisors, attorneys, and other professionals. Each signatory has not (and could not have) personally verified the accuracy of each such statement, representation, and answer contained in the MOR.

Employees:

As of the Petition Date, Powin Energy Operating LLC had 84 employees and as of the close of the Monthly Operating Report (MOR) reporting period, specifically July 31, 2025, there were a total number of 73 employees. These employees are paid from its parent company, Powin LLC. Accordingly, all employee-related disbursements are reported in the Monthly Operating Report (MOR) of Powin LLC.

² The Debtors and their agents, advisors, attorneys, and other professionals, as applicable, do not guarantee or warrant the accuracy or completeness of the data or other information that is provided in the MOR.

Attachment “MOR-1”:

Cash was received and disbursed by the Debtors as described in the *Debtors’ Emergency Motion for Entry of Interim and Final Orders (I) Authorizing Use of Cash Management Procedures, Bank Accounts, and Existing Business Forms; (II) Prohibiting Setoffs and Freezing of Bank Accounts; (III) Modifying Requirements of Section 345(b) of the Bankruptcy Code; and (IV) For Related Relief* [Docket No. 12], which was granted on an interim basis, pursuant to an order entered by the Court on June 13, 2025 [Docket No. 60].

Part 1 of the MOR, “Cash Receipts, and Disbursements,” reported cash and receipts and disbursements exclude intercompany and interbank transactions between Debtors (if any).

Attachments “MOR-2” and “MOR-3”:

The “MOR-2” attachment includes the Debtors’ balance sheet as of July 31, 2025. In preparing this MOR, the Debtors were required to make certain estimates and assumptions that affect the amounts of assets and liabilities and reported revenue and expenses. Furthermore, the Debtors’ balance sheet is recorded on a book value basis and may not reflect current or actual value. As a result, the balance sheet, attached as “MOR-2,” should not be relied upon as a GAAP compliant balance sheet or for any purpose.

The attachment “MOR-3,” titled “Statement of Operations,” includes activity for the calendar month of July 2025. As previously noted, the MOR was not prepared in accordance with GAAP and does not include all the information and disclosures required by GAAP or U.S. federal securities laws.

Assets and Liabilities: Since the Debtors maintain their books and records and prepare consolidated financial statements for GAAP reporting purposes, rather than by legal entity and for bankruptcy reporting purposes, certain assets and liabilities may be presented and reported in credit and debit balances, respectively. As a result of the commencement of the chapter 11 cases, payment of prepetition liabilities is subject to orders entered by the Court and otherwise is subject to compromise or other treatment under any chapter 11 plan. Prepetition liabilities that are subject to compromise under ASC 852 are preliminary and may be subject to future adjustments.

Part 1: Cash Receipts and Disbursements

The MOR presents the Debtor’s receipts and disbursements, and disbursements made by third parties on the Debtors’ behalf for the period from July 1, 2025, through and including July 31, 2025.

Debtor Powin LLC received additional DIP funding in the month of July 2025, pursuant to the terms and conditions of that certain *Final Order (I) Authorizing the Debtors to Obtain Postpetition Operational Cash Flow Financing; (II) Granting Liens and Providing Superpriority Administrative Expense Claims; (III) Modifying the Automatic Stay; and (IV) Granting Related Relief* (the “Final DIP Order”).

Certain bank accounts of the Debtors are denominated in foreign currencies. As a result, fluctuations in exchange rates may cause minor differences between the bank balances shown in Part 1 and those reported in the Balance Sheet.

Part 2: Asset and Liability Status

The amounts are generally presented in the same manner as set forth in greater detail in the *Schedules of Assets and Liabilities* and *Statements of Financial Affairs* (together, with the general notes thereto, the “Schedules and Statements”) of each Debtor.

Inventory: Inventory balances are presented based on information from the Debtors’ stock ledger and third-party reports (collectively, the “Stock Ledger”), where available, with certain adjustments made based on updated information that management believes presents a more accurate representation of the Debtor’s inventory as of the Petition Date. The Debtors did not complete a physical audit or a formal financial close process for 2025 prior to the Petition Date. Accordingly, inventory values are reported at net book value, based on the Debtors’ books and records. Additionally, certain of the Debtors’ inventory is in the possession of third parties who may assert rights with respect to such inventory.

Inventory that has been delivered to customers this year (totaling \$10,221,878 on the Debtors’ Stock Ledger) are not included in the Balance Sheet because this inventory did not yet have a journal entry to recognize the cost of the sales as the 2025 financials did not close prior to the Petition Date.

Also, the following off-premise inventory is not included in the Balance Sheet because the value of this inventory is unknown:

- Mobile Mini Inventory – As a normal course of business, the Debtors stored inventory to be used in the commissioning process in containers rented from a vendor (Mobile Mini) at several customer sites. It is unclear if the containers are still at these sites as the Debtors received repossession notices prior to the Petition Date. The quantities and value of these items are not known, so no value has been reported on the Balance Sheet.
- Field Service Storage – As a normal course of business, the Debtors stored parts to be used by its service teams. These parts were stored in various rented containers/ storage units not tracked on the Stock Ledger. The Debtors consider these parts as expenses incurred. However, the Debtors may still have claims to these items.

Receivables: The Debtors’ total receivables reflect the Debtors’ books and records based upon the Debtors’ prepetition methodology for determining when to deliver invoices to customers. The Debtors’ receivables, including unbilled receivables discussed below, remain subject to several contingencies that may impact enforceability and collectability as set forth in the *General Global Notes and Statement of Limitations, Methodology and Disclaimers Regarding the Debtors’ Schedules of Assets and Liabilities and Statement of Financial Affairs* [Docket No. 414]. Specifically: (a) certain customers have asserted disputes regarding the Debtors’ receivables and underlying contracts, including due to alleged liquidated damages; (b) certain customers have purported to terminate their existing contracts; (c) the Debtors have ceased performing certain customer contracts; (d) the Debtors have sought court approval to reject customer contracts, which,

under the Bankruptcy Code, gives rise to a material breach by the Debtors of the underlying customer contracts [see Docket No. 88]; (e) the Debtors have reached settlements with certain customers which compromise certain receivables, which settlements have been approved by the Bankruptcy Court or are pending approval [see Docket Nos. 191, 355]; (f) certain ordinary course adjustments could change the amount of the Debtors' billed and unbilled receivables; and (g) certain receivables may not reflect recent and long-standing realized offsets and deductions. There may also be other barriers to collection of the Debtors' customer receivables. Some of the Debtors' receivables have not been adjusted for these contingencies or barriers, not all adjustments have been completed.

Unbilled receivables of \$10,751,957.80 have been included in the total amount of Powin, LLC's receivables. These unbilled receivables represent a contractual right to bill a customer for which Powin, LLC has not formally billed the customer. The Debtors calculated these balances by taking the work performed as of December 31, 2024, to identify these cases, and removing any instance in which Powin, LLC had formally invoiced the customer in 2025. There may have been more instances of unbilled receivables incurred in 2025, but due to the expertise, information, and man hours required, the Debtors are unable to determine that value. Accordingly, the Debtors are only including a value for those unbilled receivables that have been rolled forward from December 31, 2024.

Contract Assets (Earned Revenue before Billing Milestone) represent inventory deliveries, or commissioning work completed, in advance of contractual billing milestones. Due to the expertise, information, and man hours required, the Debtors' have provided the current value as of their latest reporting period December 31, 2024.

Deferred revenue represents invoices the Company has issued for goods and services that have not been delivered. Due to the expertise, information, and man hours required, the Debtors' have provided the current value as of their latest reporting period December 31, 2024.

Part 3: Assets Sold or Transferred

Other than as described herein, during the period covered by this MOR, the Debtors did not, other than in accordance with an order of the Bankruptcy Court, sell or otherwise transfer any of their assets, other than in the ordinary course of their business.

Part 4: Income Statement (Statement of Operations)

The MOR presents the Debtors' best estimates of their Statements of Operations for the reporting period from July 1, 2025 through and including July 31, 2025. The Statement of Operations has been prepared on a cash basis for each Debtor entity, based solely on recorded cash transactions during the reporting period. Please refer to the notes above for information about presentation and limitations that may exist in the MOR.

Part 5: Professional Fees and Expenses

For purposes of the Monthly Operating Report and the accurate calculation of U.S. Trustee fees, bankruptcy professional fees shall be deemed incurred upon the disbursement of funds to the Professional Escrow Account, as more fully defined and described in the Final DIP Order. During

the period from July 1, 2025, through and including July 31, 2025, the Debtors funded the Professional Escrow account with \$6,323,922.

Part 6: Postpetition Taxes

The Debtors believe that they are current with respect to any postpetition Taxes and Fees that have come due. With respect to taxes accrued, certain accrued taxes such as income taxes and property taxes are reconciled as part of the Debtors' year-end process and therefore, the balances in the MOR may not reflect year-end accrual true-ups. These amounts are unaudited, and subject to material change.

Part 7(a): Payments Made on Prepetition Debt

Powin, LLC, made payments on prepetition obligations of \$8,925 to Intertek and \$245,200 to TUV Rheinland, which were authorized pursuant to the *Order (i) Authorizing and Approving Settlement and Release Agreement; and (ii) Granting Related Relief* [Docket No. 283].

The Company inadvertently made the following de minimis payments to (i) Copytronix – An invoice of \$200 was paid, \$67 of which was related to the prepetition period; and (ii) AWS – An invoice of \$3,394 was paid, \$2,813 of which was related to the prepetition period.

No payments were made to the Prepetition Agent during the month of July.

Part 7(f): Trust Fund Taxes Remitted on a Current Basis

The Company is currently conducting a comprehensive review of its trust fund tax liabilities to determine the precise amounts owed. According to the Company's books and records, there are no outstanding trust fund taxes for this MOR reporting period.

Part 7(g): Postpetition Borrowing, Other than Trade Credit

The following Debtors are borrowers under the DIP Credit Agreement: (i) Powin Project LLC; (ii) Powin, LLC; (iii) PEOS Holdings, LLC; (iv) Powin China Holdings 1, LLC; (v) Powin China Holdings 2, LLC; (vi) Charger Holdings, LLC; (vii) Powin Energy Ontario Storage, LLC; (viii) Powin Energy Operating Holdings, LLC; and (ix) Powin Energy Operating, LLC.

Pursuant to the terms of the Final DIP Order, on July 28, 2025, Powin LLC received \$5,000,000 in cash proceeds from the DIP Financing.
