Buy America:

Valued Supplier, effective immediately we ask that a Buy America Certification is provided for each part provided to Proterra on an annual basis and for each new component awarded after receipt and acceptance of the purchase order. The Buy America certification is required on over 90% of Proterra contracts in order to be in full compliance with all applicable FTA requirements and Federal Legislation. The Buy America cert can be found at the following link: <https://www.proterra.com/resources/suppliers/>. We ask that you return the completed form to: [DG Sourcing Certificates@proterra.com](mailto:DG_Sourcing_Certificates@proterra.com). For any questions concerning certification requirements please contact Melissa Keeney at mkeeney@proterra.com.

Production Part Approval Process:

In addition to the physical part(s) being provided on this PO, there is also a Production Part Approval Process (PPAP) documentation requirement. Details of the Part PPAP requirements can be found in the "Proterra Partner's Guide" and "Proterra APQP_PPAP Requirements" document, both of which can be provided by Proterra Commodity Manager, Buyer, Supplier Quality Engineer, or at the Proterra Supplier Portal: <https://www.proterra.com/resources/suppliers/>. To submit PPAP's please have your quality manager visit: <https://proterra.ppapmgr.com/>.

PROTERRA INC - Terms and Conditions

1. Acceptance. This PO is an offer by Proterra Inc ("**Buyer**") for the purchase of goods ("**Products**") and/or services ("**Services**") from the party to whom the PO is addressed ("**Seller**") subject to these terms and conditions ("**Terms**"); together with the PO, the "**Agreement**". Seller shall be bound by Buyer's offer when (a) Seller returns an acknowledgment copy of a PO; (b) Seller commences work on Products or performance of Services; or (c) Seller ships Products, whichever occurs first.

2. Complete Agreement. This Agreement, and any PO entered into herewith (if any), constitute the entire agreement between Buyer and Seller. Any previous agreements or terms that are inconsistent with any of the terms and conditions set forth in this Agreement and any PO are hereby rendered null and void. No agreement to modify this Agreement or any PO shall be binding upon Buyer unless agreed to in writing.

3. Payment Terms; Delivery. Unless otherwise specified in the PO, payment shall be net sixty (60) days from the last day of the calendar month in which a correct and valid invoice is received by Buyer. Delivery shall be Ex Works (EXW). No charges against Buyer will be allowed for taxes, import duties, transportation, packaging, or other matters not expressly identified in this Agreement or a PO. Damage resulting from improper packaging will be borne by Seller. Seller agrees to supply Products at ninety-seven percent (97%) On Time Delivery (OTD) based on the delivery date(s) specified in the PO. If the OTD percentage falls below this number, more than two months sequentially and a resolution is not in place by the fifteenth (15th) day of the third month from the first occurrence, then Buyer may terminate any open remaining POs at no charge.

4. Warranty. Seller warrants for a period of the lesser of thirty six (36) months after date of receipt by Buyer or twenty four (24) months following the date Buyer's product containing the Product is delivered to, and accepted by Buyer's customer ("**Product Warranty Period**") that the Products will be (i) in full conformity with all specifications and other descriptions, (ii) fit for their particular purpose, (iii) merchantable and of good quality material and workmanship consistent with the highest industry standards, (iv) free from defects, whether latent or otherwise, and (v) adequately contained, packaged and labeled ("**Product Warranty**"). If Products fail to conform to the Product Warranty, then Supplier will, at its own expense, promptly repair or replace such Products (with such repair or replacement being subject to Buyer's approval in its sole discretion), which right shall be in addition to such other rights as Buyer may have in law or equity. Such replacement Products will be warranted for the remainder of the original warranty, but not less than one (1) year. If Supplier is not able to promptly repair or replace such Products, Supplier shall promptly refund to Buyer amounts paid for such Products. In addition, Seller warrants that the Services will (i) be performed in a prompt and workmanlike manner consistent with the highest industry standards, and by qualified persons that have the requisite knowledge, training and skills, (ii) be free of any claim of intellectual property infringement, (iii) comply with all applicable laws or regulations, and (iv) conform to the specifications and requirements as specified in the PO ("**Services Warranty**") (the Product Warranty and Services Warranty shall be collectively referred to as the "**Warranty**"). If Services fail to conform to the Services Warranty, then Supplier will, at its own expense, promptly re-perform the Services. If Seller is unable to promptly re-perform the Services, Supplier shall promptly refund to Buyer the amounts paid for such Services. Buyer has the right to charge-back to Seller or offset from amounts owed to Seller for all of Buyer's reasonable costs, expenses and liabilities incurred to remedy or repair defective Products or Services, including, but not limited to, Buyer's costs and expenses relating to diagnosing, testing, labor, travel, expedited shipping, and other costs, to remedy or repair such defective Products or Services. Buyer will issue a Non-Conformance Report ("**NCR**") and a Receiving Inspection Financial Tracker ("**RIFT**") to identify the defective Products or Services and account for Buyer's cost, expenses and liabilities. The Warranty shall be in addition to any warranties of broader scope and service warranties and guarantees given to Buyer by Seller, shall survive inspection, testing, acceptance, and payment, and shall run to Buyer, its affiliates, its successors, assigns, and Buyer's customers. No later than thirty (30) days following the issuance of the first PO hereunder, Seller shall provide a detailed warranty claims process to enable Buyer to efficiently enforce the Warranty if necessary.

Seller will be given the opportunity to remedy defective Products a maximum of two (2) times within a single thirty (30) day period. If after two (2) times, the remedy is not sufficient to provide acceptable products to Buyer, Buyer may cancel the remaining open Purchase Orders at no charge. In addition, if during the Warranty Period, more than one-half percent (0.5%) of Seller's Products delivered to Buyer are determined to be defective or non-conforming ("**Abnormal Rate of Return**"), upon written notice from Buyer to Seller that such Abnormal Rate of Return has occurred, the Warranty Period for each of the Products delivered to Buyer shall be extended day for day until such time the Abnormal Rate of Return is reduced below one-half percent (0.5%).

Buyer shall also have the right to reasonably declare a recall of, or field corrective action to, any Products manufactured by Seller for Buyer. Seller agrees to indemnify Buyer for all expenses in any such recall, provided that the recall is attributable to a breach of any of the warranties provided in this Agreement or is otherwise attributable to a defect related to Seller's manufacturing, packaging and/or labeling processes. Seller shall also credit Buyer's account for the Products recovered and/or returned to it as a result of any such recall.

5. Quality Assurance. Seller is subject to Buyer's Supplier Quality Manual, which includes Advance Product Quality Planning ("**APQP**") and Production Part Approval Process ("**PPAP**") (collectively, the "**Quality Review**") to ensure the Products are manufactured in a quality manner and aligned with Buyer's specifications. As part of the Quality Review, Buyer may audit and evaluate Seller's manufacturing process, equipment, work instructions, inspection protocol, and similar items. Seller shall make commercially reasonable efforts to promptly resolve issues identified during the Quality Review.

Upon the initial shipment of Products, Seller shall provide a Part Submission Warrant ("**PSW**") to Buyer stating that the Products were manufactured in accordance with the materials and processes agreed to during the Quality Review. In addition, Seller shall measure the initial ten (10) Product shipments and conduct a process capability study with the objective of achieving a 1.67 Cpk using the metrics agreed to during the Quality Review. The parties will collaborate to improve the processes related to Cpk's under 1.67 through enhanced inspections, process and other similar activities. Supplier shall supply a Certificate of Conformance (CoC) with each shipment.

6. Product Manufacture; Upgrades/Discontinuance. Seller shall continuously supply each Product, or an equivalent product (reasonably agreed to by Buyer), for a minimum period of five (5) years following the end of the Warranty Period for the Products purchased by Buyer pursuant to the last issued PO hereunder ("**Supply Period**"). During the Supply Period, Buyer may purchase Products (or equivalents) pursuant to this Agreement, with pricing equivalent to the pricing offered to other similarly situated customers. If Seller intends to discontinue the manufacture and sale of the Products after the end of the Supply Period, Seller shall provide at least eighteen (18) months prior written notice to Buyer. During such eighteen-month period ("**Discontinuance Period**"), Buyer may place a final PO for Products (or equivalents) pursuant to this Agreement; provided however, the last delivery date for such Products (or equivalents) shall not be more than six (6) months after the end of such Discontinuance Period. If Seller used tooling other than Buyer's Property (defined below) to manufacture the Products, Buyer shall have the right to purchase such tooling at fair market value during the Discontinuance Period. Seller shall promptly notify and provide written information on any upgrades or modifications to existing Products and new product development for products similar to any of the Products. All such modifications, regardless of whether Seller believes they will impact the Products, shall be communicated no less than forty-five (45) days prior to taking effect.

7. Spare Parts. Seller shall stock spare parts ("**Spare Parts**") of sufficient type and quantity to replace or repair any reasonably foreseeable failures related to the Products. Spare Parts shall be made available for twelve (12) years from the start of the Warranty Period of each Product. Spare Parts shall ship within forty-eight (48) hours of the receipt of a PO for such Spare Parts or a Warranty claim.

8. Technical Documentation, Software, Support & Training. Seller shall provide the following technical documentation ("**Technical Documentation**") at the time of initial delivery of the Product: (i) complete parts manual(s) including field replacement units, (ii) electrical or pneumatic schematics (if applicable), (iii) maintenance and repair manual(s), and (iv) operation manual(s). Technical Documentation shall contain adequate detail to enable users to reasonably maintain and repair the Products. Buyer shall have access to any Seller software required to support and operate the Products ("**Seller Software**"). Seller shall maintain the compatibility of Seller Software with the current version of the commonly used computer operating system (e.g., Windows 10) as well as the previous two versions of such operating systems. Seller shall provide competent personnel as technical support for all Products ("**Technical Support**"). Technical Support shall assist with field problem resolution, root cause failure analysis, and other support required to maintain operation of the Products. Technical Support shall be made available within four (4) hours of the Buyer's request. Technical Documentation, Seller Software and Technical Support shall be maintained as stated herein for twelve (12) years from the start of the Warranty Period of each Product. Seller shall provide product training to Buyer or Buyer's designated third parties ("**Training**"). Training shall enable Buyer or its third parties to perform preventative maintenance, scheduled component replacements, and diagnose and repair field issues related to the Products. Seller shall perform any commissioning or activation checks required to ensure the correct installation and warranty coverage of the Products. There shall be no additional cost to Buyer for such checks. The parties shall meet quarterly, or as needed in Buyer's sole discretion, to review issues related to spare parts, product changes, warranty administration, and other such aftermarket issues.

9. Value Add and Value Engineering. Seller and Buyer will participate in value add and value engineering with the target of annual cost reductions of at least twelve percent (12%) achieved by process change, material change or other cost improvements.

10. Confidentiality. All information and specifications directly or indirectly shared or disclosed by Buyer to Seller, its affiliates, its agents and its representatives shall be held by Seller, its affiliates, its agents and its representatives in confidence, and Seller shall take all reasonable precautions to prevent any such confidential information from being divulged to any entity or person for any purpose other than as reasonably necessary to perform this Agreement and any PO hereunder. Seller, its affiliates, its agents and its representatives shall only use such confidential information strictly in connection with the performance of this Agreement. This obligation of confidence shall continue for five (5) years after the termination of the last PO hereunder; provided, however, any information that constitutes a trade secret shall remain subject to all confidentiality obligations herein until such time as the information is no longer a trade secret.

11. Intellectual Property. All intellectual property of Buyer shall remain the sole property of Buyer, and Buyer grants Seller a non-exclusive, non-transferable, royalty-free license to use unique specifications and any other confidential information provided by Buyer to Seller, but solely for the purpose of manufacturing the Products, or performing the Services, for Buyer, in connection with this Agreement. Seller, its affiliates and their employees shall disclose and assign on demand, and it they do hereby assign, to Buyer all inventions, improvements, or developments, each whether patentable or not, that it and/or they may make or assist in making in the course of development of any Products or specifications for any Products, or use in the performance of any Services, provided that such design or development is paid for by Buyer or is otherwise based on unique specifications or other confidential information provided by Buyer. In addition, Seller, its affiliates and their employees agree that all information, ideas, results, and data developed by Seller, its affiliates and their employees as a result of developmental work paid for by Buyer shall be the exclusive property of Buyer. Seller, its affiliates and their employees will defend or settle, at its and/or their own expense, any claim, suit or proceeding brought against Buyer to the extent it is based upon a claim that any Product or Service infringes any intellectual property, patent or copyright, or misappropriates any trade secret, of their third party.

12. Tooling. Seller agrees that, unless otherwise agreed to by the parties, all tooling, intellectual property, drawings, plans, specifications, materials, samples and equipment furnished by Buyer either directly or indirectly to Seller, along with any and all tooling, intellectual property, drawings, plans, specifications, materials, samples and equipment for which Buyer has agreed to reimburse Seller, shall be and remain the sole and exclusive property of Buyer (collectively, "**Buyer's Property**"). Seller shall treat all Buyer's Property with due care and diligence, constantly keeping it ready for operation. Seller bears the risk of loss of and damage to Buyer's Property while under Seller's direct or indirect care, custody or control. Seller shall not directly or indirectly grant or allow any security interest, mortgage, charge, lien or any other encumbrance, claim or right on any of Buyer's Property. Buyer and its affiliates have the right to take immediate possession of Buyer's Property at any time without payment of any kind. If Buyer purchases tooling through Seller to manufacture Products, Seller agrees to apply a Buyer's asset tag indicating the equipment is Buyer's property and allow Buyer to audit the facility from time to time to review the condition of the tooling.

13. Indemnification; Liability. Seller shall indemnify, defend, and hold harmless Buyer and its subsidiaries, affiliates, directors, officers, employees, representatives and agents, and their successors and assigns, against all damages, claims, allegations, suits, actions, or proceedings arising from or in connection with: (a) any failure by Seller to comply with any term of this Agreement or any PO issued hereunder; (b) any infringement, claimed infringement, or unauthorized or unlawful use of any patent, copyright, or trademark, trade secret or proprietary data; (c) any negligence, gross negligence or intentional or willful conduct, omissions or fraud of Seller, its affiliates and their employees; or (d) any personal injury, death, or property damage sustained by any person or entity from use of any Product, or receipt of Services, under this Agreement or any PO, unless such injury, death, or damage results solely from intentional or grossly negligent acts or omissions of Buyer. In no event will Buyer be liable to Seller for any indirect, incidental, consequential, or punitive damages, or for loss of profits or revenue, whether in an action in contract, tort, strict liability, or otherwise. Buyer's cumulative liability under this Agreement and all PO's will not exceed the aggregate amount paid by Buyer under this Agreement and all PO's, even if a term of this Agreement or any PO fails of its essential purpose.

14. Forecasts. Any forecasts provided by Buyer shall be for informational and capacity planning purposes only and are not binding on Buyer to purchase Products or Services.

15. Liability. During the term of this Agreement and for a period of two (2) years thereafter, Seller shall, at its own expense, maintain and carry insurance in full force and effect, which includes, but is not limited to, commercial general liability in a sum no less than \$3,000,000. Upon Buyer's request, (a) Seller will furnish certificates of insurance and any renewals, evidencing that satisfactory policies are in full force and effect, and (b) Seller shall cause Buyer and its affiliates to be named as additional insured on all such policies, as applicable.

16. Termination. Buyer may terminate all or any part of a PO for Buyer's convenience not less than forty-five (45) days prior to the scheduled delivery date, in which event, Seller agrees to stop work immediately as to the terminated portion of the PO and to notify subcontractors, if any, to stop work, and protect and preserve property in its possession in which Buyer has an interest. If Seller has incurred costs for commercially reasonable purchases of raw materials or components to support deliveries beyond the forty-five day noncancelable period under the PO, Buyer shall reimburse such costs to the extent Seller is able to establish that the raw materials or components are unusable in connection with Seller's other business. Seller may not recover such costs for raw materials or components purchased in connection with Products scheduled to be delivered beyond ninety (90) days of the termination date. In no event shall the termination costs and all previous payments made under the PO exceed the total PO value shown on the face of the PO, or include any anticipatory profits related to work under the PO not yet performed or costs incurred due to Supplier's failure to terminate work as of the termination date. In the event that either party commits a material breach of its obligations under this Agreement and fails to cure that breach within thirty (30) days after receiving written notice thereof, the other party may terminate this Agreement immediately upon written notice to the party in breach.

17. Miscellaneous. Seller shall not assign this Agreement or any of Seller's rights under this Agreement, without the prior written consent of Buyer. Buyer may assign this Agreement without the consent of Seller to an affiliate or to a successor-in-interest in the event of a merger, reorganization or sale of all or substantially all of the stock, assets or business of Buyer. At all times Seller shall comply with all applicable laws, regulations, rules, and orders. **Seller represents and warrants that the Products satisfy the Buy America requirements of 49 CFR 661, and Seller shall provide certification of compliance with Buy America with each Product shipment in a form reasonably acceptable to Buyer.** A waiver of a breach of any term of this Agreement or any PO hereunder will not be construed as a waiver of any succeeding breach of that term or as a waiver of the term itself. The Agreement and any PO issued hereunder have been made and delivered in the United States, and California law (excluding any choice of law rules) will govern their interpretation and enforcement. Seller agrees to subject itself to the jurisdiction and process of the courts of the State of California or federal courts located in the Northern District of California as to all matters and disputes arising or to arise under this Agreement or any PO hereunder. Unless Buyer's prior written consent is obtained, Seller shall not make any announcement or release any information concerning this Agreement to any public market or any third party except as required for performance hereunder or by applicable law. Buyer and Seller are contractors independent of one another. The invalidity in whole or in part of any provision hereof shall not affect the validity of any other provision.

Seller and any of its subcontractors shall abide by the requirements of 41 CFR §§ 60-300.5(a) and 60-741.5(a). These regulations prohibit discrimination against qualified individuals on the basis of protected veteran status or disability, and require affirmative action by covered prime contractors and subcontractors to employ and advance in employment qualified protected veterans and individuals with disabilities.

18. Minerals Sourcing. Seller agrees to (i) comply with Buyer's Conflict Minerals Policy, which has been provided to Seller, (ii) provide such information as requested by Buyer evidencing Seller's compliance therewith and (iii) take such action and provide such information as reasonably requested by Buyer pertaining to the responsible sourcing of minerals.

19. Combatting Trafficking: Seller acknowledges that Buyer strictly prohibits human trafficking in all of Buyer's operations and in those of all subcontractors, suppliers and agents in its global supply chain.

We have received your Request for Quote/Purchase Order for which we thank you. Arrow can accept your Purchase Orders only if you accept the NCNR conditions herein. The items listed above and on Exhibit A are designated as non-cancelable, non-returnable products ("NC/NR products") and may not be cancelled, rescheduled or modified without our prior written consent, and none of the items may be returned to us for any reason except in accordance with any applicable warranty. Any warranty that would ordinarily apply to the NC/NR Products will not be affected by this Agreement. If your order does not specify a delivery date you agree to accept delivery of the items within 30 days of Arrow having acquired them to fill your order. If a final delivery date is specified above and/or on Exhibit A, you agree to accept delivery of the entire quantity of products on or before that date or as soon thereafter as we are able to delivery such products.

Customer agrees that Arrow will not be required to hold NC/NR products in inventory longer the Final Delivery date specified on this NC/NR Parts Agreement. If Arrow, in its sole discretion, agrees to hold inventory past that date, Arrow will; (i) charge an inventory carrying charge of 1.5% per month of the resale value of such NC/NR Products; or (ii) upon Arrow's request Customer agrees to immediately issue Arrow a PO with a quantity sufficient to consume any such NC/NR Products. Final delivery date is not to be construed as an expiration date for this Agreement or cancellation of your obligation to accept NC/NR Products.

Please indicate your acceptance or denial of the above by signing and returning this document to your Sales Contact by either Fax or Scan/email. Your Purchase Order will not be processed until this accepted Agreement is received by Arrow.

Thank you for giving us the opportunity to serve you.
