Business Update

Messrs. Shaper and Spytek provided the SRC with an update on the Company's business performance. Following discussion, the Company reported that it would revert with a recommendation for a path forward regarding the FCPA investigation. Mr. Shaper provided an update regarding the recent IT incident, including that the Company had approximately 25% of its internal systems operating, and that the incident was impacting employee morale. Ms. Flaton then asked whether the competing Proposals would impact the upcoming hearing for limited relief related to the Equity Commitment Agreement, dated August 12, 2020, with Centerbridge (the "ECA"). A discussion ensued and the SRC agreed that the Company would work with BDCM to achieve a firm Proposal before withdrawing the ECA motion.

I had a call with Ethan just now. I circled with Healy and Griffith prior to make sure that I was current. Seems like they were close last night but further apart this am. I asked Ethan to tell me what he thought the gap was. He said \$25-50mm - closer to \$50mm. So I told him that we would move forward today/tonight. He asked specifically if we would decide. I said yes - although we had already done the heavy lifting (the analysis and evaluation part) on Wednesday and nothing in the various DIPs and Plans had changed since then so that this was really more of a confirmation of our preliminary Wednesday decision. I told him that no matter which path we go - someone will be unhappy - the only way to avoid that is to have had them settle. But it is not to be. So we move forward exercising our business judgment. He agreed and said we need to get the company out of Ch 11 and move forward.

Well the competitive nature has been good for my duty to maximize value - but agree it would seem that there should be better resolution between the current suitors.

I propose that Moelis be tasked to go back to BD and get the best deal possible re the instrument/governance/ etc. obviously bringing them closer to Centerbridge reduces future litigation risk.

yup, but with the caveat that we are otherwise going to have to go with a superior CB bid (albeit that we would leave all options open, for subsequent BD improvement etc)

We had a series of calls to clarify. C has now released the term sheet to BD (actually it is the full package). And the other disconnect items (which were not described in the email - I got them via phone) - seem to be an out of sync communication. But let's continue to make sure we are putting pressure all around to encourage settlements....
