NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(In thousands, except per share amounts)

NOTE 1 – BASIS OF PRESENTATION

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with generally accepted accounting principles for interim financial information and with the instructions to Form 10-Q and Rule 10-01 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements. In the opinion of management, all adjustments (which are normal and recurring in nature unless otherwise noted) considered necessary for a fair presentation have been included. The balance sheet at April 27, 2013 has been derived from School Specialty, Inc.'s ("School Specialty" or the "Company") audited financial statements for the fiscal year ended April 27, 2013. For further information, refer to the consolidated financial statements and notes thereto included in the Company's Annual Report on Form 10-K for the fiscal year ended April 27, 2013.

During the period January 28, 2013 through June 11, 2013, School Specialty, Inc. and certain of its subsidiaries operated as debtors-in-possession under bankruptcy court jurisdiction (see Note 3). In accordance with Financial Accounting Standards Board Accounting Standards Codification ("ASC") 852, Reorganizations, for periods including and subsequent to the filing of the Chapter 11 petition through the bankruptcy emergence date of June 11, 2013 (the "Effective Date"), all expenses, gains and losses that resulted from the reorganization were reported separately as reorganization items in Consolidated Statements of Operations. Net cash used for reorganization items was disclosed separately in the Consolidated Statements of Cash Flows, and liabilities subject to compromise were reported separately in the Consolidated Balance Sheets.

As discussed in Note 4 – Fresh Start Accounting, as of June 11, 2013, the Company adopted fresh start accounting in accordance with ASC 852. The adoption of fresh-start accounting resulted in the Company becoming a new entity for financial reporting purposes. Accordingly, the financial statements on or prior to June 11, 2013 are not comparable with the financial statements for periods after June 11, 2013. The consolidated financial statements as of October 26, 2013 and for the three months and twenty weeks then ended and any references to "Successor" or "Successor Company" relate to the financial position and results of operations of the reorganized Company subsequent to bankruptcy emergence on June 11, 2013. References to "Predecessor" or "Predecessor Company" refer to the financial position and results of operations of the Company prior to the bankruptcy emergence.

NOTE 2 – RESTATEMENT OF PREVIOUSLY ISSUED FINANCIAL STATEMENTS

In the six week period ended June 11, 2013, the Predecessor Company recorded an adjustment to "Reorganization items, net" on its condensed consolidated statements of operations. The adjustment was due to a correction to the accounting treatment of the cancellation of debt in connection with the issuance of certain shares of common stock.

As part of the Reorganization Plan (defined below), certain lenders received cash and common stock with a fair value in excess of the corresponding cancelled debt. This excess value of \$21,375 was incorrectly excluded from the reported reorganization items. The effect of the correction reduces the reorganization items for the six weeks ended June 11, 2013 from \$106,174 as originally reported, to \$84,799.

The effects of the restatement on the Predecessor Company's condensed consolidated statement of operations for the six weeks ended June 11, 2013 are presented below.

NOTE 3 – BANKRUPTCY PROCEEDINGS

On January 28, 2013 (the “Petition Date”), School Specialty, Inc. and certain of its subsidiaries (collectively, the “Debtors”) filed voluntary petitions for relief under Chapter 11 of the United States Code (the “Bankruptcy Code”) in the United States Bankruptcy Court for the District of Delaware (the “Bankruptcy Court”). The cases (the “Chapter 11 Cases”) were jointly administered as Case No. 13-10125 (KJC) under the caption “In re School Specialty, Inc., et al.” The Debtors continued to operate their business as “debtors-in-possession” (“DIP”) under the jurisdiction of the Bankruptcy Court and in accordance with the applicable provisions of Chapter 11 and orders of the Bankruptcy Court. The Company’s foreign subsidiaries (collectively, the “Non-Filing Entities”) were not part of the Chapter 11 Cases.

The Chapter 11 Cases were filed in response to an environment of ongoing declines in school spending and a lack of sufficient liquidity, including trade credit provided by the Debtors’ vendors, to permit the Debtors to pursue their business strategy to position the School Specialty brands successfully for the long term. As a result of the Chapter 11 filing, the Company’s common stock was delisted from the NASDAQ Stock Market, effective March 1, 2013.

On May 23, 2013, the Bankruptcy Court entered an order confirming the Debtors’ Second Amended Joint Plan of Reorganization Under Chapter 11 of the Bankruptcy Code (the “Reorganization Plan”), and a corrected copy of such order was entered by the Bankruptcy Court on June 3, 2013. The Reorganization Plan, which is described in additional detail below, became effective on the Effective Date. Pursuant to the Reorganization Plan, on the Effective Date, the Company’s existing credit agreements, outstanding convertible subordinated debentures, equity plans and certain other agreements were cancelled. In addition, all outstanding equity interests of the Company that were issued and outstanding prior to the Effective Date were cancelled on the Effective Date. Also on the Effective

Date, in accordance with and as authorized by the Reorganization Plan, the Company reincorporated in Delaware and issued a total of 1,000,004 shares of Common Stock of the reorganized Company to holders of certain allowed claims against the Debtors in exchange for such claims. As of June 12, 2013, there were 60 record holders of the new common stock of the reorganized Company issued pursuant to the Reorganization Plan.

Operation and Implication of the Bankruptcy Filing

Under Section 362 of the Bankruptcy Code, the filing of voluntary bankruptcy petitions by the Debtors automatically stayed most actions against the Debtors, including most actions to collect indebtedness incurred prior to the Petition Date or to exercise control over the Company's property. Accordingly, although the Company defaulted on certain of the Debtors' debt obligations, creditors were stayed from taking any actions as a result of such defaults. Absent an order of the Bankruptcy Court, substantially all of the Company's pre-petition liabilities were subject to settlement under a reorganization plan or in connection with a Section 363 sale.

Subsequent to the Petition Date, the Company received approval from the Bankruptcy Court to pay or otherwise honor certain pre-petition obligations generally designed to stabilize the Company's operations. These obligations related to certain employee wages, salaries and benefits, and the payment of vendors and other providers in the ordinary course for goods and services received after the Petition Date. The Company retained, pursuant to Bankruptcy Court approval, legal and financial professionals to advise the Company in connection with the bankruptcy filing and certain other professionals to provide services and advice in the ordinary course of business.

Reorganization Plan

In order for the Company to emerge successfully from Chapter 11, the Company determined that it was in the best interests of the Debtors' estates to seek Bankruptcy Court confirmation of a reorganization plan. A reorganization plan determines the rights and satisfaction of claims of various creditors and security holders, subject to the ultimate outcome of negotiations and Bankruptcy Court decisions ongoing through the date on which the reorganization plan is confirmed.

On May 23, 2013, the Bankruptcy Court entered an order confirming the Debtors' Second Amended Joint Plan of Reorganization Under Chapter 11 of the Bankruptcy Code (the "Reorganization Plan"), and a corrected copy of such order was entered by the Bankruptcy Court on June 3, 2013. The Reorganization Plan became effective on the Effective Date.

General

The Reorganization Plan generally provided for the payment in full in cash on or as soon as practicable after the Effective Date of specified claims, including:

- All claims (the "DIP Financing Claims") under the Debtor-in-Possession Credit Agreement (the "ABL DIP Agreement") by and among Wells Fargo Capital Finance, LLC (as Administrative Agent, Co-Collateral Agent, Co-Lead Arranger and Joint Book Runner) and GE Capital Markets, Inc. (as Co-Collateral Agent, Co-Lead Arranger and Joint Book Runner and Syndication Agent), General Electric Capital Corporation (as syndication agent), the lenders party to the ABL DIP Facility (as defined below), and the Company and certain of its subsidiaries;
- Certain pre-petition secured claims;
- All claims relating to the costs and expenses of administering the Chapter 11 Cases; and
- All priority claims.

In addition, the Reorganization Plan generally provides for the treatment of allowed claims against, and equity interests in, the Debtors as follows:

- The lenders under the Senior Secured Super Priority Debtor-in-Possession Credit Agreement (the “Ad Hoc DIP Agreement”) by and among the Company, certain of its subsidiaries, U.S. Bank National Association, as Administrative Agent and Collateral Agent and the lenders party thereto were entitled to receive (i) cash in an approximate amount of \$98,000, and (ii) 65% of the common stock of the reorganized Company. The fair value of the 65% ownership interest was approximately \$78,600 as of the Effective Date. Approximately \$57,000 of this value was in satisfaction of the portion of the Ad Hoc DIP not settled in cash with approximately \$21,000 representing excess value received by the Ad Hoc DIP lenders;
- Each holder of an allowed general unsecured claim is entitled to receive a deferred cash payment equal to 20% of such allowed claim, plus interest, on the terms described in the Reorganization Plan;
- Each holder of an unsecured claim arising from the provision of goods and/or services to the Debtors in the ordinary course of its pre-petition trade relationship with the Debtors, with whom the reorganized Debtors continue to do business after the Effective Date, is entitled to receive a deferred cash payment equal to 20% of such claim, plus interest, on the terms described in the Reorganization Plan. Such holders may increase their percentage recoveries to 45%, plus interest, by electing to provide the reorganized Debtors with customary trade terms for a specified period, as described in the Reorganization Plan;
- Each holder of the Company’s 3.75% Convertible Subordinated Debentures due 2026, as further described elsewhere in this report, received its pro rata share of 35% of the common stock of the reorganized Company;
- Each holder of an allowed general unsecured claim or allowed trade unsecured claim of \$3 or less, or any holder of a general unsecured claim or trade unsecured claim in excess of \$3 that agreed to voluntarily reduce the amount of its claim to \$3 under the terms described in the Reorganization Plan, was entitled to receive a cash payment equal to 20% of such allowed claim on or as soon as practicable after the Effective Date; and
- Holders of equity interests in the Company prior to the Effective Date, including claims arising out of or with respect to such equity interests, were not entitled to receive any distribution under the Reorganization Plan.

Exit Facilities

As of the Effective Date, the Debtors closed on the exit credit facilities, the proceeds of which were or will be, among other things, used to (i) pay in cash the DIP Financing Claims, to the extent provided for in the Reorganization Plan, (ii) make required distributions under the Reorganization Plan, (iii) satisfy certain Reorganization Plan-related expenses, and (iv) fund the reorganized Company’s working capital needs. The terms of the exit credit facilities are described under Note 13 of the Notes to Condensed Consolidated Financial Statements—Debt.

Equity Interests

As mentioned above, all shares of the Company’s common stock outstanding prior to the Effective Date were cancelled and extinguished as of the Effective Date. In accordance with the Reorganization Plan, on the Effective Date, the reorganized Company issued the new common stock, subject to dilution pursuant to the Management Incentive Plan (as defined and described below). The Company issued 1,000,004 shares of new common stock on the Effective Date pursuant to the Reorganization Plan, which constitutes the total number of shares of new common stock outstanding immediately following the Effective Date, subject to dilution pursuant to the Management Incentive Plan.

On the Effective Date, equity interests in the Company's U.S. subsidiaries were deemed cancelled and extinguished and of no further force and effect, and each reorganized subsidiary was deemed to issue and distribute the new subsidiary equity interests. The ownership and terms of such new subsidiary equity interests in the reorganized subsidiaries are the same as the ownership and terms of the equity interests in these subsidiaries immediately prior to the Effective Date, except as otherwise provided in the Reorganization Plan.

Reincorporation in Delaware; Amendments to Certificate of Incorporation

On the Effective Date, the Company was reincorporated as a Delaware corporation. Prior to the Effective Date, the Company caused a new wholly owned subsidiary to be formed in Delaware. On the Effective Date, the Company entered into a plan of merger with the Delaware subsidiary, providing for the Company to merge with and into the Delaware subsidiary, so that the Company's separate corporate existence as a Wisconsin corporation ceased and the Delaware subsidiary was the surviving corporation. The certificates of incorporation of the reorganized Company and its reorganized subsidiaries were amended to be consistent with the provisions of the Reorganization Plan and the Bankruptcy Code, including the prohibition of issuance of nonvoting equity securities only for so long as, and to the extent that, the issuance of nonvoting equity securities is prohibited by the Bankruptcy Code. The reorganized Company was authorized to issue the new common stock for distribution in accordance with the terms of this Reorganization Plan and the amended certificate of incorporation without the need for any further corporate or stockholder action.

Financial Statement Presentation and Going Concern

We have prepared the accompanying consolidated financial statements in accordance with FASB ASC Topic 852 "Reorganizations" ("FASB ASC 852") and on a going concern basis, which assumes continuity of operations, realization of assets and satisfaction of liabilities in the ordinary course of business. FASB ASC 852 requires that the financial statements distinguish transactions and events that are directly associated with the reorganization from the ongoing operations of the business. Accordingly, certain expenses including professional fees, realized gains and losses and provisions for losses that are realized from the reorganization and restructuring process are classified as reorganization items on the condensed consolidated statement of operations. Additionally, on the condensed consolidated balance sheet at April 27, 2013, liabilities subject to compromise are segregated. Liabilities subject to compromise are reported at their pre-petition amounts or current unimpaired values, even if they may be settled for lesser amounts.

During the Chapter 11 Cases, the Company's ability to continue as a going concern was contingent upon its ability to comply with the financial and other covenants contained in its ABL DIP Agreement and Ad Hoc DIP Agreement (see Note 13 of the Notes to Condensed Consolidated Financial Statements), the Bankruptcy Court's approval of the Company's Reorganization Plan and the Company's ability to successfully implement the Company's plan and obtain exit financing, among other factors. As a result of the Chapter 11 Cases, the realization of assets and satisfaction of liabilities were subject to uncertainty. The Company emerged from Chapter 11 in June, 2013. As a result of emergence from bankruptcy, as well as projected compliance with financial, affirmative, and negative covenants, management believes that the Company has resolved the previous substantial doubt relative to the Company's ability to continue as a going concern described above.

In connection with the Company's emergence from Chapter 11, the Company was required to adopt fresh start accounting as of June 11, 2013 in accordance with ASC 852 "Reorganizations". The Company elected to use June 8, 2013 (the "Convenience Date"), which was the week ended date nearest to the Effective Date, to avoid disruption to the Company's weekly accounting processes. The Company performed a qualitative and quantitative assessment in order to determine the appropriateness of using the Convenience Date for fresh start accounting instead of the Effective Date. The Company's assessment determined that the use of the Convenience Date did not have a material impact on either the predecessor or successor periods in the current fiscal year and there were no qualitative factors that would preclude the use of the Convenience Date for accounting and reporting purposes. The adoption of fresh-start accounting resulted in the Company becoming a new entity for financial reporting purposes. Accordingly, the financial statements on or prior to June 11, 2013 are not comparable with the financial statements for periods after June 11, 2013. The consolidated financial statements as of October 26, 2013 and for the three months and twenty weeks then ended and any references to "Successor" or "Successor Company" show the financial position and results of operations of the reorganized Company subsequent to bankruptcy.

emergence on June 11, 2013. References to “Predecessor” or “Predecessor Company” refer to the financial position and results of operations of the Company prior to the bankruptcy emergence.

Prior to the Effective Date, the Predecessor Company's financial statements included in this Quarterly Report on Form 10-Q do not purport to reflect or provide for the consequences of the Chapter 11 bankruptcy proceeding. In particular, the financial statements do not purport to show (i) as to assets, their realizable value on a liquidation basis or their availability to satisfy liabilities; (ii) as to pre-petition liabilities, the amounts that may be allowed for claims or contingencies, or the status and priority thereof; (iii) as to stockholders' deficit accounts, the effects of any changes that may be made in the Predecessor Company's capitalization; or (iv) as to operations, the effects of any changes that may be made to the Predecessor Company's business.

NOTE 4 – FRESH START ACCOUNTING

On the Effective Date, the Company adopted fresh start accounting and reporting in accordance with FASB ASC 852. The Company was required to apply the provisions of fresh start reporting to its financial statements, as the holders of existing voting shares of the Predecessor Company received less than 50% of the voting shares of the emerging entity and the reorganization value of the Predecessor Company's assets immediately before the date of confirmation was less than the post-petition liabilities and allowed claims.

Fresh start reporting generally requires resetting the historical net book value of assets and liabilities to fair value as of the Effective Date by allocating the entity's enterprise value as set forth in the Reorganization Plan to its assets and liabilities pursuant to accounting guidance related to business combinations. The financial statements as of the Effective Date report the results of the Successor Company with no beginning retained earnings or accumulated deficit. Any presentation of the Successor Company represents the financial position and results of operations of a new reporting entity and is not comparable to prior periods. The consolidated financial statements for periods ended prior to the Effective Date do not include the effect of any changes in capital structure or changes in the fair value of assets and liabilities as a result of fresh start accounting.

In accordance with FASB ASC 852, the Predecessor Company's results of operations prior to the Effective Date include (i) a pre-emergence gain of \$161,943 resulting from the discharge of liabilities under the Reorganization Plan; (ii) pre-emergence charges to earnings of \$46,878 recorded as reorganization items resulting from certain costs and expenses relating to the Reorganization Plan becoming effective, including the cancellation of certain debt upon issuance of new equity and the cancellation of equity-based awards of the Predecessor; and (iii) a pre-emergence decrease in earnings of \$30,266 resulting from the aggregate changes to the net carrying value of the Predecessor Company's pre-emergence assets and liabilities to reflect their fair values under fresh start accounting, as well as the recognition of goodwill. See Note 5, "Reorganization Items, Net" for additional information.

Enterprise Value / Reorganization Value Determination

Enterprise value represents the fair value of an entity's interest-bearing debt and stockholders' equity. In the disclosure statement associated with the Reorganization Plan, which was confirmed by the Bankruptcy Court, we estimated a range of enterprise values between \$275,000 and \$325,000, with a midpoint of \$300,000. Based on current and anticipated economic conditions and the direct impact these conditions have on our business, we deemed it appropriate to use the midpoint between the low end and high end of the range to determine the final enterprise value of \$300,000, comprised of debt valued at approximately \$179,000 and equity valued at approximately \$121,000.

FASB ASC 852 provides for, among other things, a determination of the value to be assigned to the assets of the reorganized Company as of a date selected for financial reporting purposes. The Company adjusted its enterprise value of \$300,000 for certain items such as post-petition liabilities to determine a reorganization value attributable to assets of \$415,410. Under fresh start accounting, the reorganization value was allocated to the Company's assets based on their respective fair values in conformity with the purchase method of accounting for business combinations included in FASB ASC 805, *Business Combinations*. The excess reorganization value over the fair value of identified tangible and intangible assets of \$25,535 was recorded as goodwill.

The reorganization value represents the amount of resources available, or that become available, for the satisfaction of post-petition liabilities and allowed claims, as negotiated between the Company and its creditors (the “Interested Parties”). This value, along with other terms of the Reorganization Plan, was determined only after extensive arms-length negotiations between the Interested Parties. Each Interested Party developed its view of what the value should be based upon expected future cash flows of the business after emergence from Chapter 11, discounted at rates reflecting perceived business and financial risks. This value is viewed as the fair value of the entity before considering liabilities and is intended to approximate the amount a willing buyer would pay for the assets of the Successor Company immediately after restructuring. The reorganization value was determined using numerous projections and assumptions that are inherently subject to significant uncertainties and the resolution of contingencies beyond the control of the Company. Accordingly, there can be no assurance that the estimates, assumptions and amounts reflected in the valuation will be realized.

Methodology, Analysis and Assumptions

The Company’s valuation was based upon a discounted cash flow methodology, which included a calculation of the present value of expected un-levered after-tax free cash flows reflected in our long-term financial projections, including the calculation of the present value of the terminal value of cash flows, and supporting analysis that included a comparison of selected financial data of the Company with similar data of other publicly held companies comparable to ours in terms of end markets, operational characteristics, growth prospects and geographical footprint. The Company also considered precedent transaction analysis but ultimately determined there was insufficient data for a meaningful analysis. A detailed discussion of this methodology and supporting analysis is presented below.

The Company’s multi-year business plan was the foundation for developing long-term financial projections used in the valuation of our business. The business planning and forecasting process included a review of Company, industry and macroeconomic factors including, but not limited to, achievement of future financial results, projected changes associated with our reorganization initiatives, anticipated changes in general market conditions including variations in market regions, and known new business initiatives and challenges.

The following represents a detailed discussion of the methodology and supporting analysis used to value our business using the business plan and long-term financial projections developed by the Company:

Discounted Cash Flow Methodology

The Discounted Cash Flow (“DCF”) analysis is a forward-looking enterprise valuation methodology that relates the value of an asset or business to the present value of expected future cash flows to be generated by that asset or business. Under this methodology, projected future cash flows are discounted by the business’ weighted average cost of capital (“WACC”). The WACC reflects the estimated blended rate of return that debt and equity investors would require to invest in the business based on its capital structure. Our DCF analysis has two components: (1) the present value of the expected un-levered after-tax free cash flows for a determined period, and (2) the present value of the terminal value of cash flows, which represents a firm value beyond the time horizon of the long-term financial projections.

The DCF calculation was based on management’s financial projections of un-levered after-tax free cash flows for the period 2014 to 2017. The Company used a WACC of 13.3% to discount future cash flows and terminal values. This WACC was determined based upon an estimated cost of debt for similar sized companies, rather than the anticipated cost of debt of the reorganized Company upon emergence from bankruptcy, and a market cost of equity using a capital asset pricing model. Assumptions used in the DCF analysis, including the appropriate components of the WACC, were deemed to be those of “market participants” upon analysis of peer groups’ capital structures.

In conjunction with our analysis of publicly traded companies described below, the Company used a range of exit multiples of 2013 earnings before interest, taxes, depreciation and amortization (“EBITDA”) between 4.4 and 8.1, with a lower than midpoint exit multiple of 5.5 selected, to determine the present value of the terminal value of cash flows. The selected exit multiple is weighted towards those comparable companies which are more similar to the Company’s Distribution (formerly referred to as “Educational Resources”) segment which represents a higher percentage of consolidated revenues as compared to the Curriculum (formerly referred to as “Accelerated Learning”) segment.

The sum of the present value of the projected un-levered after-tax free cash flows was added to the present value of the terminal value of cash flows to determine the Company’s enterprise value.

Publicly Traded Company Analysis

As part of our valuation analysis, the Company identified publicly traded companies whose businesses are relatively similar to each of our reporting segments and have comparable operational characteristics to derive comparable revenue and EBITDA multiples for our DCF analysis. Criteria for selecting comparable companies for the analysis included, among other relevant characteristics, similar lines of businesses, business risks, growth prospects, maturity of businesses, market presence, size, and scale of operations. The analysis included a detailed multi-year financial comparison of each company’s income statement, balance sheet and statement of cash flows. In addition, each company’s performance, profitability, margins, leverage and business trends were also examined. Based on these analyses, a number of financial multiples and ratios were calculated to gauge each company’s relative performance and valuation. The ranges of ratios derived were then applied to the Company’s projected financial results to develop a range of implied values.

Enterprise Value, Accounting Policies and Reorganized Consolidated Balance Sheet

In determining the final enterprise value attributed to the Company of \$300,000, the Company blended its DCF methodology and publicly traded company analysis, with more emphasis on the DCF methodology.

Fresh start accounting and reporting permits the selection of appropriate accounting policies for Successor Company. The Predecessor Company’s significant accounting policies that were disclosed in the Annual Report on Form 10-K for the year ended April 27, 2013 were adopted by the Successor Company as of the Effective Date, though many of the account balances were affected by the reorganization and fresh start adjustments presented below.

The adjustments presented below were made to the June 11, 2013 condensed consolidated balance sheet and contain estimates of fair value. Estimates of fair value represent the Company’s best estimates, which are based on industry and data trends, and by reference to relevant market rates and discounted cash flow valuation methods, among other factors. The determination of the fair value of assets and liabilities is subject to significant estimation and assumptions. In accordance with ASC No. 805, the allocation of the reorganization value is subject to additional adjustment until the Company has completed its analysis, but not to exceed one year after emergence from bankruptcy, to provide the Company with the time to complete the valuation of its assets and liabilities. The final determination of the fair value of individual assets and liabilities and the final allocation of the reorganization value may differ from the amount included in the condensed consolidated financial statements and there is no assurance that such adjustments will not be material.

The estimates of value presented herein are preliminary and will be finalized during fiscal 2014. The condensed consolidated balance sheet, reorganization adjustments and fresh start adjustments presented below summarize the impact of the Reorganization Plan and the adoption of fresh start accounting as of the Effective Date.

Certain of the fresh start adjustments were updated in the second quarter of fiscal 2014, but are still preliminary and will be finalized during fiscal 2014.

- (6) Liabilities subject to compromise generally refer to pre-petition obligations, secured or unsecured, that may be impaired by a plan of reorganization. FASB ASC 852 requires such liabilities, including those that became known after filing the Chapter 11 petitions, be reported at the amounts expected to be allowed, even if they may be settled for lesser amounts. These liabilities represented the estimated amount expected to be resolved on known or potential claims through the Chapter 11 process. Liabilities subject to compromise also includes items that may be assumed under the Reorganization Plan, and may be subsequently reclassified to liabilities not subject to compromise. Liabilities subject to compromise also include certain pre-petition liabilities including accrued interest and accounts payable. At April 27, 2013, liabilities subject to compromise were \$228,302, of which administrative claim payments of \$4,314 were made in the Predecessor period of the current year. The table below identifies the principal categories of liabilities subject to compromise at June 11, 2013:

	June 11, 2013

The 2011 Debentures and related accrued interest within the liabilities subject to compromise at June 11, 2013 were settled by the issuance of new common stock representing 35% ownership in the Successor Company, with an estimated fair value of \$42,335. The portion of accounts payable within the liabilities subject to compromise that will be paid in accordance with the Reorganization Plan were classified between long-term and short-term liabilities. Administrative claims totaling \$8,335 were classified as short-term with any remaining recoveries under the Reorganization Plan classified as Deferred Cash Payments in long-term debt (see Footnote 12 – Debt). Since the value of Common Stock issued and the amounts to be paid in cash at a later date were less than the liabilities subject to compromise, the Predecessor Company recorded a gain on reorganization of \$161,943 for the six weeks ended June 11, 2013.

Fresh start accounting adjustments resulted in a net asset write down of \$30,266 which has partially offset the gain related to the settlement of liabilities subject to compromise. The fresh start accounting adjustments are related to the preliminary valuation done in accordance with the adoption of the fresh start accounting. See Note 4 – Fresh Start Accounting for information on these fresh start valuation adjustments.

Further offsetting a portion of the gain related to the settlement of liabilities subject to compromise is \$46,878 of other reorganizational adjustments. Equity issued to the Ad Hoc DIP lenders in excess of the debt carrying amount was \$21,375. Professional fees and financing fees associated with the Predecessor Company's debtor-in possession financings were \$13,365. The cancellation of equity awards outstanding as of the Effective Date triggered \$3,624 of unrecognized stock-based compensation expense. In addition, the rejection of certain leases pursuant to the Reorganization Plan resulted in an additional \$7,011 of expense.

NOTE 6 – INCOME TAXES

The Company files income tax returns with the U.S., various U.S. states, and foreign jurisdictions. The most significant tax return the Company files is with the U.S. The Company's tax returns are no longer subject to examination by the U.S. for fiscal years before 2011. The Company has various state tax audits and appeals in process at any given time. It is not anticipated that any adjustments resulting from tax examinations or appeals would result in a material change to the Company's financial position or results of operations.

In assessing the realizability of deferred tax assets, the Company considers whether it is more likely than not that either all, or some portion, of the deferred tax assets will not be realized. The realization is dependent upon the future generation of taxable income, reversal of deferred tax liabilities, tax planning strategies, and expiration of tax attribute carryovers. In fiscal 2012, the Company concluded that the realization of a majority of the deferred tax assets did not meet the more likely than not threshold, and recorded a tax valuation allowance of \$32,638. In fiscal 2013, the Company increased its tax valuation allowance to \$71,272. As of June 11, 2013 and October 26, 2013, valuation allowances were recorded to offset substantially all deferred tax assets. The Company is continuing to evaluate the impact of fresh-start accounting and cancellation of indebtedness income on its deferred tax assets and related valuation allowances. As of October 26, 2013, the Company had an immaterial amount of unremitted earnings from foreign investments.

The balance of the Company's liability for unrecognized income tax benefits, net of federal tax benefits, at October 26, 2013, April 27, 2013 and October 27, 2012, was \$560, \$925 and \$587, respectively, all of which would have an impact on the effective tax rate if recognized. The Company does not expect any material changes in the amount of unrecognized tax benefits within the next twelve months. The Company classifies accrued interest and penalties related to unrecognized tax benefits as income tax expense in its consolidated statements of operations. The amounts of accrued interest and penalties included in the liability for uncertain tax positions are not material.

NOTE 7 – STOCKHOLDERS' EQUITY

Changes in condensed consolidated stockholders' equity (deficit) during the six weeks ended June 11, 2013 (Predecessor Company), the twenty weeks ended October 26, 2013 (Successor Company) and the six months ended October 27, 2012 (Predecessor Company) were as follows:

Effect of dilutive non-vested stock and restricted shares		11	
Diluted EPS	\$ 32,502	\$ 18,926	\$ 1.72

All outstanding stock options and restricted shares of the Predecessor Company were cancelled as of the Effective Date.

The Predecessor Company had additional stock options outstanding of 2,550, 2,331 and 2,256 during the six weeks ended June 11, 2013 and the three and six months ended October 27, 2012, respectively, that were not included in the computation of Diluted EPS because they were anti-dilutive.

The \$157,500, 3.75% convertible subordinated debentures had no impact on the Predecessor Company's denominator for computing diluted EPS because conditions under which the debentures could have been converted were not satisfied.

NOTE 9 – SHARE-BASED COMPENSATION EXPENSE**Employee Stock Plans**

Prior to the Effective Date, the Company had three share-based employee compensation plans under which awards were outstanding as of April 27, 2013: the School Specialty, Inc. 1998 Stock Incentive Plan (the “1998 Plan”), the School Specialty, Inc. 2002 Stock Incentive Plan (the “2002 Plan”), and the School Specialty, Inc. 2008 Equity Incentive Plan (the “2008 Plan”). All plans were approved by the Company’s stockholders. The Successor Company does not currently have a share-based compensation plan.

In conjunction with the Reorganization Plan which became effective on June 11, 2013 (see Note 3 – Bankruptcy Proceedings), all shares, options, NSUs and restricted shares that were outstanding on the Effective Date were canceled. As a result, the Predecessor Company recognized a \$3,624 reorganization item related to the unrecognized share-based compensation expense as of April 27, 2013 which was triggered upon the cancellation of the awards.

A summary of option activity during the six weeks ended June 11, 2013 follows:

	Options Outstanding		Options Exercisable	
	Options	Weighted-Average Exercise Price	Options	Weighted-Average Exercise Price
Balance at April 27, 2013	2,550	\$ 15.27	1,207	\$ 24.76
Granted	—	—		
Exercised	—	—		
Canceled	(2,550)	15.27		
Balance at June 11, 2013	—	\$ —	—	\$ —

The Predecessor Company had used a combination of Non-Vested Stock Units (NSUs) and restricted shares. There were no time-based NSU awards granted nor restricted stock awarded in the six weeks ended June 11, 2013. The following table presents the amounts granted in the three and six months ended October 27, 2012 for these types of awards:

	For the Three Months Ended		For the Six Months Ended	
	October 27, 2012		October 27, 2012	
	# of shares awarded	Approximate fair value	# of shares awarded	Approximate fair value
Director NSUs	—	\$ —	46	\$ 131
Performance-based NSUs	—	\$ —	—	\$ —
Restricted shares	28	\$ 77	43	\$ 120

Director NSU awards vested one year from the date of grant and the Company recognized share-based compensation expense related to these time-based NSU awards on a straight-line basis over the vesting period. The restricted shares in the above table were granted to Company employees and would have vested over a three year period. The Predecessor Company recognized share-based compensation expense for performance-based NSUs on a straight line basis over the vesting period adjusted for changes in the expected level of performance.

The stock-based compensation expense is reflected in selling, general and administrative (“SG&A”) expenses in the accompanying condensed consolidated statements of operations relating to the Predecessor Company. The income tax benefit related to share-based compensation expense was \$234 and \$280 for the three and six months ended October 27, 2012, respectively. The Predecessor Company recognized share-based compensation expense ratably over the vesting period of each award along with cumulative adjustments for changes in the expected level of attainment for performance-based awards.

The total unrecognized share-based compensation expense as of October 26, 2013, April 27, 2013 and October 27, 2012 were as follows:

In the third quarter of fiscal 2013, the Company recorded a goodwill impairment charge of \$41,089 and an indefinite-lived asset impairment charge of \$4,700 as the Predecessor Company concluded that a triggering event occurred in the quarter. Refer to Footnote 8, Goodwill and Other Intangible Assets in the Company's Form 10-K for the year ended April 27, 2013 for details regarding the fiscal 2013 impairment.

On a preliminary basis, the Successor Company has recorded \$25,535 of goodwill. As discussed in Note 4 – Fresh Start Accounting, this goodwill amount may change as the Company finalizes its valuation of assets and liabilities in fiscal 2014. In addition, the Company will allocate the final goodwill amount to the above reporting units as the valuation of assets and liabilities is finalized.

NOTE 11 – INVESTMENT IN UNCONSOLIDATED AFFILIATE

Investment in unconsolidated affiliate was accounted for under the equity method through the end of the third quarter in fiscal 2013. Effective with and as a result of the commencement of the Company's Chapter 11 Cases, the Company no longer maintained a seat on the unconsolidated affiliate's board of directors. As a result, the Company no longer had significant influence over the unconsolidated affiliate and began to account for the investment in unconsolidated affiliate under the cost method effective at the beginning of the fourth quarter of fiscal 2013.

The investment in unconsolidated affiliate consisted of the following:

	Percent Owned	Successor	Predecessor	
		October 26, 2013	April 27, 2013	October 27, 2012
Carson- Dellosa Publishing, LLC	35%	\$ 715	\$ 715	\$ 9,882

The Company holds a 35% interest, accounted for under the cost method, in Carson-Dellosa Publishing.

The Company reviews Carson-Dellosa's unaudited financial statements on a quarterly basis and audited financial statements on an annual basis for indicators of triggering events or circumstances that indicate a potential impairment. During the fourth quarter of fiscal 2013, the Company evaluated its investment in Carson-Dellosa for impairment and, based on updated current forward-looking projections, concluded the Carson-Dellosa investment had an other-than-temporary impairment. As such, the Company recorded a \$7,749 impairment in fiscal 2013 in other expense in the Company's Consolidated Statements of Operations. The resulting fair value of \$715 and \$9,882 in fiscal 2014 and 2013, respectively, was estimated using a discounted cash flow model and is considered a Level 3 fair value measurement due to the use of significant unobservable inputs related to the timing and amount of future earnings based on projections of Carson-Dellosa's future financing structure, contractual and market-based revenues and operating costs.

The investment amount represents the Company's maximum exposure to loss as a result of the Company's ownership interest. Income and (losses) are reflected in "Equity in income/ (losses) of investment in unconsolidated affiliate" on the condensed consolidated statement of operations.

NOTE 12 – PROPERTY, PLANT AND EQUIPMENT

Property, plant and equipment consist of the following:

	Successor	Predecessor	
	October 26, 2013	April 27, 2013	October 27, 2012
Land	\$ 210	\$ 158	\$ 158

NOTE 13 – ASSETS HELD FOR SALE

In fiscal 2014, the company-wide Process Improvement Program was launched to better align the Company's operating groups, enhance systems and processes and drive efficiency throughout the organization to improve the customer experience. As part of this program, the Salina, Kansas facility is expected to be closed in the Company's third quarter of fiscal 2014. The Salina distribution center ceased processing customer shipments in the Company's second quarter of fiscal 2014. The facility is classified as held for sale on the October 26, 2013 consolidated balance sheet.

In fiscal 2014, the Company decided to sell certain print assets of its Premier subsidiary. Historically, Premier printed approximately 30% of all agendas sold, with the remainder being printed by vendors. The decision was made to have all agendas printed by outside sources and sell the printing assets. These assets are classified as held for sale on the October 26, 2013 consolidated balance sheet and were sold early in the third quarter of fiscal 2014.

Successor Company Debt*Credit Agreement*

On June 11, 2013, the Company entered into a Loan Agreement (the "Asset-Based Credit Agreement") by and among the Company, Bank of America, N.A, as Agent, SunTrust Bank, as Syndication Agent, Merrill Lynch, Pierce, Fenner & Smith Incorporated and SunTrust Robinson Humphrey, Inc., as Joint Lead Arrangers and Bookrunners, and the Lenders that are party to the Asset-Based Credit Agreement (the "Asset-Based Lenders").

Under the Asset-Based Credit Agreement, the Asset-Based Lenders agreed to provide a revolving senior secured asset-based credit facility (the "New ABL Facility") in an aggregate principal amount of \$175,000. Outstanding amounts under the New ABL Facility will bear interest at a rate per annum equal to, at the Company's election: (1) a base rate (equal to the greatest of (a) the prime lending rate, (b) the federal funds rate plus 0.50%, and (c) the 30-day LIBOR rate plus 1.00% per annum) (the "Base Rate") plus an applicable margin (equal to a specified margin based on the interest rate elected by the Company, the fixed charge coverage ratio under the New ABL Facility and the applicable point in the life of the New ABL Facility) (the "Applicable Margin"), or (2) a LIBOR rate plus the Applicable Margin (the "LIBOR Rate"). Interest on loans under the New

ABL Facility bearing interest based upon the Base Rate will be due monthly in arrears, and interest on loans bearing interest based upon the LIBOR Rate will be due on the last day of each relevant interest period or, if sooner, on the respective dates that fall every three months after the beginning of such interest period.

The effective interest rate under the New ABL Facility for the twenty weeks ended October 26, 2013 was 6.47%, which includes amortization of loan origination fees of \$481 and commitment fees on unborrowed funds of \$220. As of October 26, 2013, the outstanding balance on the New ABL Facility of \$3,900, which was reflected as currently maturing, long-term debt in the accompanying condensed consolidated balance sheets.

The New ABL Facility will mature on June 11, 2018. The Company may prepay advances under the New ABL Facility in whole or in part at any time without penalty or premium. The Company will be required to make specified prepayments upon the occurrence of certain events, including: (1) the amount outstanding on the New ABL Facility exceeding the Borrowing Base (as determined in accordance with the terms of the New ABL Facility), and (2) the Company's receipt of net cash proceeds of any sale or disposition of assets that are first priority collateral for the New ABL Facility.

Pursuant to a Guaranty and Collateral Agreement dated as of June 11, 2013 (the "New ABL Security Agreement"), the New ABL Facility is secured by a first priority security interest in substantially all assets of the Company and the guarantor subsidiaries. Under an intercreditor agreement between the Asset-Based Lenders and the Term Loan Lenders, as defined and described below, the Asset-Based Lenders have a first priority security interest in substantially all working capital assets of the Company and the guarantor subsidiaries, and a second priority security interest in all other assets, subordinate only to the first priority security interest of the New Term Loan Lenders in such other assets.

The Asset-Based Credit Agreement contains customary events of default and financial, affirmative and negative covenants, including but not limited to a springing financial covenant relating to the Company's fixed charge coverage ratio and restrictions on indebtedness, liens, investments, asset dispositions and dividends and other restricted payments. The Company was in compliance with the financial covenants during the twenty weeks ended October 26, 2013.

Term Loan

Also on June 11, 2013, the Company entered into a Credit Agreement (the "New Term Loan Credit Agreement") among the Company, Credit Suisse AG, as Administrative Agent and Collateral Agent, and the Lenders defined in the New Term Loan Credit Agreement (the "Term Loan Lenders").

Under the New Term Loan Credit Agreement, the Term Loan Lenders agreed to make a term loan (the "New Term Loan") to the Company in aggregate principal amount of \$145,000, including an original issue discount of \$2,900. The outstanding principal amount of the New Term Loan will bear interest at a rate per annum equal to the applicable LIBOR rate (with a 1% floor) plus 8.50%, or the base rate plus a margin of 7.50%. Interest on loans under the New Term Loan Credit Agreement bearing interest based upon the base rate will be due quarterly in arrears, and interest on loans bearing interest based upon the LIBOR Rate will be due on the last day of each relevant interest period or, if sooner, on the respective dates that fall every three months after the beginning of such interest period.

The effective interest rate under the term loan credit facility for the twenty weeks ended October 26, 2013 was 10.71%, which includes amortization of loan origination fees of \$489 and original issue discount amortization of \$185. As of October 26, 2013, the outstanding balance on the New Term Loan Credit Agreement was \$141,923, net of the unamortized original issue discount. Of this amount, \$1,434 was reflected as currently maturing, long-term debt in the accompanying condensed consolidated balance sheets. The original issue discount is being amortized as additional interest expense on a straight-line basis over the life of the New Term Loan.

The New Term Loan matures on June 11, 2019. The New Term Loan Credit Agreement requires prepayments at specified levels upon the Company's receipt of net proceeds from certain events, including: (1) certain dispositions of property, divisions, business units or business lines; and (2) other issuances of debt other than Permitted Debt (as defined in the New Term Loan Credit Agreement). The New Term Loan Credit Agreement also requires prepayments at specified levels from the Company's excess cash flow. The Company is also permitted to voluntarily prepay the New Term Loan in whole or in part. Any prepayments are to be made at par, plus an early payment fee calculated in accordance with the terms of the New Term Loan Credit Agreement if prepaid prior to the second anniversary of the Term Loan Credit Agreement.

Pursuant to a Guarantee and Collateral Agreement dated as of June 11, 2013 (the "New Term Loan Security Agreement"), the Term Loan is secured by a first priority security interest in substantially all assets of the Company and the guarantor subsidiaries. Under an intercreditor agreement between the Asset-Based Lenders and the Term Loan Lenders, the Term Loan Lenders have a second priority security interest in substantially all working capital assets of the Company and the subsidiary guarantors, subordinate only to the first priority security interest of the Asset-Based Lenders in such assets, and a first priority security interest in all other assets.

The New Term Loan Credit Agreement contains customary events of default and financial, affirmative and negative covenants, including but not limited to quarterly financial covenants commencing on the fiscal quarter ending October 26, 2013, relating to the Company's (1) minimum interest coverage ratio and (2) maximum net total leverage ratio and restrictions on indebtedness, liens, investments, asset dispositions and dividends and other restricted payments. The Company was in compliance with the financial covenants during the twenty weeks ended October 26, 2013.

The New Term Loan required the Company to enter into an interest rate hedge, within 90 days of the Effective Date, in an amount equal to at least 50% of the aggregate principal amount outstanding under the New Term Loan. The purpose of the interest rate hedge is to effectively subject a portion of the New Term Loan to a fixed or maximum interest rate. As such, the Company entered into an interest rate swap agreement on August 27, 2013 that effectively fixes the interest payments on a portion of the Company's variable-rate debt. The swap, which has a termination date of September 11, 2016, effectively fixes the LIBOR-based interest rate on the debt in the amount of the notional amount of the swap at 9.985%. The notional amount of the swap at October 26, 2013 was \$72,500. As of October 26, 2013, the fair value of the derivative declined by \$622 and a loss of \$622 was recorded in "Change in fair value of interest rate swap" on the condensed consolidated statement of operations.

Under this swap agreement, the Company will pay the counterparty interest on the notional amount at a fixed rate of 1.485% and the counterparty will pay the Company interest on the notional amount at a variable rate equal to the greater of 1-month LIBOR or 1.0%. The 1-month LIBOR rate applicable to this agreement was 0.177% at October 26, 2013. The notional amounts do not represent amounts exchanged by the parties, and thus are not a measure of exposure of the Company. The amounts exchanged are normally based on the notional amounts and other terms of the swaps. The variable rates are subject to change over time as 1-month LIBOR fluctuates.

Deferred Cash Payment Obligations

In connection with the Reorganization Plan, general unsecured creditors are entitled to receive a deferred cash payment obligation of 20% of the allowed claim in full settlement of the allowed unsecured claims. Such payment shall accrue quarterly paid-in-kind interest of 5% per annum beginning on the Effective Date. Trade unsecured creditors had the ability to make a trade election to provide agreed upon customary trade terms. If the election was made, those unsecured trade creditors received a deferred cash payment obligation of 45% of the allowed claim in full settlement of those claims. As of the Effective Date, the deferred payment obligations under the trade elections shall accrue quarterly paid-in-kind interest of 10% per annum. All deferred cash payment obligations, along with interest paid-in-kind, are payable in December 2019.

The Company's reconciliation of general unsecured claims is still in process. The Company currently estimates the deferred payment obligations are \$11,738, of which \$4,124 represents a 20% recovery for the creditor and \$7,614 represents a 45% recovery for the creditor. The Company expects to complete the reconciliation of general unsecured claims in the third quarter of fiscal 2014 and these estimated obligation amounts are subject to change.

Predecessor Company Debt***Bankruptcy-Related Debt***

In connection with the filing the Chapter 11 Cases, on January 31, 2013, the Company entered into a Senior Secured Super Priority Debtor-in-Possession Credit Agreement (the "Bayside DIP Agreement") by and among the Company, certain of its subsidiaries, Bayside Finance, LLC ("Bayside") (as Administrative Agent and Collateral Agent), and the lenders party to the Bayside Credit Agreement and a Debtor-in-Possession Credit Agreement (the "ABL DIP Agreement") by and among Wells Fargo Capital Finance, LLC (as Administrative Agent, Co-Collateral Agent, Co-Lead Arranger and Joint Book Runner) and GE Capital Markets, Inc. (as Co-Collateral Agent, Co-Lead Arranger and Joint Book Runner and Syndication Agent), General Electric Capital Corporation (as Syndication Agent), and the lenders that are party to the Asset-Based Credit Agreement (the "Asset-Based Lenders") and the Company and certain of its subsidiaries.

The Bayside DIP Agreement provided for a senior secured, super-priority revolving credit facility of up to \$50,000 (the "Bayside DIP Facility"), with an initial borrowing upon closing of \$15,000, and subsequent borrowings of \$8,000.

Borrowings by the Company under the Bayside DIP Facility were subject to borrowing limitations based on the exhaustion of availability of credit under the ABL DIP Facility (as defined below) and certain other conditions. The principal amounts outstanding under the Bayside DIP Facility bore interest based on applicable LIBOR or base rates plus margins as set forth in the Bayside DIP Agreement. Upon the occurrence of an event of default in the Bayside DIP Agreement, an additional default interest rate of 3.0% per annum applied. The Bayside DIP Agreement also provided for certain additional fees payable to the agents and lenders.

All borrowings under the Bayside DIP Agreement were required to be repaid on the earliest of (i) June 30, 2013, (ii) the date of termination of the Bayside DIP Agreement, whether pursuant to the consummation of a sale of substantially all of the assets of the Debtors under section 363 of the Bankruptcy Code, or (iii) certain other termination events.

Pursuant to a Security and Pledge Agreement, the Bayside DIP Facility was secured by a first priority security interest in substantially all assets of the Company and the guarantor subsidiaries. Under an intercreditor agreement between the Asset-Based Lenders and the Bayside Lenders (the "Intercreditor Agreement"), the Bayside Lenders had a first priority security interest in all interests in real property, all intellectual property, all equipment and fixtures, and certain other assets of the Company and its subsidiaries, and had a second priority security interest in accounts receivable, inventory and certain other assets of the Company and the subsidiary guarantors, subordinate only to the first priority security interest of the Asset-Based Lenders in such assets. The obligations under the Bayside DIP Facility were extinguished with proceeds from the Ad Hoc DIP Agreement discussed below.

The ABL DIP Agreement provided a revolving senior secured asset-based credit facility (the "ABL DIP Facility") in an aggregate principal amount of \$175,000. The amount of revolving loans made during any one week was based on certain conditions, including the budget supplied by the Company. Outstanding amounts under the ABL DIP Facility bore interest at a rate per annum equal to either: (1) a base rate (equal to the greatest of (a) the prime lending rate, (b) the federal funds rate plus 0.50%, and (c) the 30-day LIBOR rate plus 1.00% per annum) plus 2.75%, or (2) a LIBOR rate plus 3.75%. The default interest rate was three percentage points above the otherwise applicable rate.

Pursuant to a Security and Pledge Agreement, the ABL Facility was secured by substantially all assets of the Company and the guarantor subsidiaries. Under the Intercreditor Agreement, the Asset-Based Lenders had a first priority security interest in accounts receivable, inventory and certain other assets of the Company and the subsidiary guarantors, and had a second priority security interest in all interests in real property, all intellectual property, all equipment and fixtures, and certain other assets of the Company and its subsidiaries, subordinate only to the first priority security interest of the Bayside Lenders in

such assets.

The ABL DIP Agreement contained customary events of default and affirmative and negative covenants, including (but not limited to) affirmative covenants relating to reporting, appointment of a chief restructuring officer, and bankruptcy transaction milestones, and negative covenants related to the financing order of the Bankruptcy Court, additional indebtedness, liens, assets, fundamental changes, and use of proceeds.

On February 27, 2013, the Company entered into a Senior Secured Super Priority Debtor-in-Possession Credit Agreement (the "Ad Hoc DIP Agreement") by and among the Company, certain of its subsidiaries, U.S. Bank National Association, as Administrative Agent and Collateral Agent and the lenders party to the Ad Hoc DIP Agreement, which replaced the Bayside DIP Agreement, the related Bayside Facility and the Term Loan Credit Agreement.

The Ad Hoc DIP Agreement provided for a senior secured, super-priority revolving credit facility of up to \$155,000 (the "Ad Hoc DIP Facility"), with an initial borrowing upon closing of \$130,000, and subsequent borrowings of \$15,000 following the entry of the final order of the Bankruptcy Court and upon the satisfaction of certain conditions.

The principal amounts outstanding under the Ad Hoc DIP Facility bore interest based on applicable LIBOR or base rates plus margins as set forth in the Ad Hoc DIP Agreement. Upon the occurrence of an event of default in the Ad Hoc DIP Agreement, an additional default interest rate of 2.0% per annum applied. The Ad Hoc DIP Agreement also provided for certain additional fees payable to the agents and lenders.

All borrowings under the Ad Hoc DIP Agreement were required to be repaid on the earliest of (i) June 30, 2013, (ii) the date of termination of the Ad Hoc DIP Agreement, whether pursuant to the consummation of a sale of substantially all of the assets of the Debtors under section 363 of the Bankruptcy Code, or (iii) certain other termination events.

Pursuant to a Security and Pledge Agreement, the Ad Hoc DIP Facility was secured by a first priority security interest in substantially all of the assets of the Company and the guarantor subsidiaries.

Pre-Bankruptcy Filing Debt

On May 22, 2012, the Company entered into an Asset-Based Credit Agreement (the "Asset-Based Credit Agreement"). Under the Asset-Based Credit Agreement, the Asset-Based Lenders agreed to provide a revolving senior secured asset-based credit facility (the "2012 ABL Facility") in an aggregate principal amount of \$200,000.

The 2012 ABL Facility was secured by a first priority security interest in substantially all assets of the Company and the guarantor subsidiaries. Under an intercreditor agreement between the lenders under the 2012 ABL Facility and the Term Loan lenders, as described below, the Asset-Based Lenders had a first priority security interest in substantially all working capital assets of the Company and the guarantor subsidiaries, and a second priority security interest in all other assets, subordinate only to the first priority security interest of the Term Loan lenders in such other assets.

The Asset-Based Credit Agreement contained customary events of default and financial, affirmative and negative covenants, including financial covenants relating to the Company's (1) minimum fixed charge coverage ratio, (2) maximum secured leverage ratio, (3) maximum total leverage ratio, (4) maximum term loan ratio and (5) minimum interest coverage ratio. In addition, the Asset-Based Credit Agreement contained a minimum liquidity covenant requiring the Company to maintain minimum liquidity levels at the end of each month during the life of the Term Loan (consisting of Qualified Cash, subject to a \$2,000 cap, plus availability under the 2012 ABL Facility). The Company was not in compliance with the minimum liquidity covenant as of the end of December, 2012. As a result, the Company entered into a Forbearance Agreement with its 2012 ABL Facility lenders and Bayside Finance, LLC on January 4, 2013 and subsequently filed for protection under Chapter 11 of the U.S. Bankruptcy Code.

Outstanding amounts under the 2012 ABL Facility bore interest at a rate per annum equal to, at the Company's election: (1) a base rate (equal to the greatest of (a) the prime lending rate, (b) the federal funds rate plus 0.50%, and (c) the 30-day LIBOR rate plus 1.00% per annum) (the "Base Rate") plus an applicable margin (equal to a specified margin based on the interest rate elected by the Company, the excess availability under the 2012 ABL Facility and the applicable point in the life of the 2012 ABL Facility) (the "Applicable Margin"), or (2) a LIBOR rate plus the Applicable Margin (the "LIBOR Rate"). Interest on loans under the 2012 ABL Facility that bore interest based upon the Base Rate were due monthly in arrears, and interest on loans that bore interest based upon the LIBOR Rate were due on the last day of each relevant interest period. The effective interest rate under the ABL Facility for the first six months of fiscal 2013 was 4.65%, which includes amortization of loan origination fees of \$544 and commitment fees on unborrowed funds of \$182. As of October 27, 2012, the outstanding balance on the ABL Facility was \$54,809, of which \$9,809 was reflected as currently maturing, short-term debt in the accompanying consolidated balance sheets while the remainder was reflected as long-term debt. The balances under this Credit Agreement on the date of the filing of the Chapter 11 Cases were repaid during the fourth quarter of fiscal 2013 using cash collections from accounts receivable securing the obligations under this facility.

Term Loan

On May 22, 2012, the Company entered into a term loan credit agreement (the "Term Loan Credit Agreement"). Under the Term Loan Credit Agreement, the Term Loan lender agreed to make a term loan (the "Term Loan") to the Company in aggregate principal amount of \$70,000.

The Term Loan was secured by a first priority security interest in substantially all assets of the Company and the guarantor subsidiaries. Under an intercreditor agreement between the lenders under the 2012 ABL Facility and the Term Loan lender, the Term Loan lender had a second priority security interest in substantially all working capital assets of the Company and the subsidiary guarantors, subordinate only to the first priority security interest of the lenders under the 2012 ABL Facility in such assets, and a first priority security interest in all other assets.

The Term Loan Credit Agreement contained customary events of default and financial, affirmative and negative covenants, including quarterly financial covenants relating to the Company's (1) maximum secured leverage ratio, (2) maximum total leverage ratio, (3) maximum term loan ratio, (4) minimum fixed charge coverage ratio and (5) minimum interest coverage ratio. In addition, the Term Loan Credit Agreement contained a minimum liquidity covenant requiring the Company to maintain minimum liquidity levels at the end of each month during the life of the Term Loan (consisting of Unrestricted Cash plus availability under the 2012 ABL Facility). The Company was not in compliance with the minimum liquidity covenant as of the end of December, 2012. As a result, the Company entered into a Forbearance Agreement with its ABL lenders and Bayside Finance, LLC on January 4, 2013 and subsequently filed for protection under Chapter 11 of the U.S. Bankruptcy Code.

The outstanding principal amount of the Term Loan bore interest at a rate per annum equal to the applicable LIBOR rate (calculated as the greater of (1) the current three-month LIBOR rate and (2) 1.5%) plus 11.0%, accruing and paid on a quarterly basis in arrears. The term loan was prepaid by \$3,000 in the second quarter of fiscal 2013. In the fourth quarter of fiscal 2013 the remaining term loan of \$67,000 was retired using the proceeds from the Ad Hoc DIP Agreement. Interest expense on the Term Loan was not accrued subsequent to the Chapter 11 filing.

The effective interest rate under the term loan credit facility for the first six months of fiscal 2013 was 14.5%, which includes amortization of loan origination fees of \$622. During the second quarter of fiscal 2013, the term loan was reduced by \$3,000 and as of October 27, 2012, the outstanding balance on the term loan credit agreement of \$67,000 was reflected as non-currently maturing, long-term debt in the accompanying consolidated balance sheets.

The Company recorded a \$25,054 charge in the third quarter of fiscal 2013 related to the acceleration of the obligations under the Term Loan Credit Agreement, including the early payment fee. The charge was triggered by the Company's non-compliance with the minimum liquidity covenant. The early payment fee represented the present value of all interest payments due to Bayside during the term of the Term Loan Credit Agreement. The Company had incurred and paid \$1,295 of interest expense in fiscal 2013.

related to the \$25,054 early payment fee. The Ad Hoc DIP Agreement required \$25,000 to be placed in an escrow account as a deposit for an early termination fee payable to Bayside that was provided under the Term Loan Credit Agreement. The official Committee of Unsecured Creditors contested that Bayside was entitled to receive the funds. The Bankruptcy Court ruled that Bayside was entitled to the funds, but the Official Committee of Unsecured Creditors contested the ruling and filed an appeal in the Federal District Court of Delaware.

In the second quarter of fiscal 2014, this escrow amount, including interest, was released to Bayside, and additional interest accruals ceased as of the release date. On October 24, 2013, the Bankruptcy Court approved a stipulation which reflected the settlement of this matter. In connection with this settlement, the parties agreed that the amount of the early termination fee was \$21,000. As a result, Bayside refunded to the Company \$5,399 which represented the amount of restricted account funds that had been released to Bayside in excess of the \$21,000 settlement. The \$5,399 consisted of a reduction of the early termination fee of \$4,054 and a recovery of interest expense previously paid in fiscal 2014 of \$1,345.

Convertible Notes

FASB ASC TOPIC 470-20, “*Debt with Conversion and Other Options*,” requires the issuer of certain convertible debt instruments that may be settled in cash (or other assets) on conversion to separately account for the liability (debt) and equity (conversion option) components of the instrument in a manner that reflects the market interest rate at debt issuance without the conversion feature. The Company had two convertible debt instruments outstanding during fiscal 2013. A fair value must be assigned to the equity conversion options of (1) the Company’s \$100,000 convertible subordinated debentures (the “2011 Debentures”), which were issued on March 1, 2011 of which \$0 and \$100,000 in aggregate original principal amount was outstanding as of October 26, 2013 and October 27, 2012, respectively; and (2) the additional \$57,500 of the 2011 Debentures, which were issued on July 7, 2011, of which \$0 and \$57,500 in aggregate original principal amount was outstanding as of October 26, 2013 and October 27, 2012, respectively (collectively, the “Convertible Notes”). The value assigned to the equity conversion option results in a corresponding decrease in the value assigned to the carrying value of the debt portion of the instruments.

The values assigned to the debt portions of the Convertible Notes were determined based on market interest rates for similar debt instruments without the conversion feature as of the respective March 1, 2011 and July 7, 2011 issuance dates of the Convertible Notes. The difference in market interest rates versus the coupon rates on the Convertible Notes results in non-cash interest that was amortized into interest expense over the expected terms of the Convertible Notes. For purposes of the valuation, the Company used an expected term of approximately four years for both the Convertible Notes issued March 1, 2011 and July 7, 2011, which corresponds with the first date the holders of the respective Convertible Notes could put their Convertible Notes back to the Company.

The 2011 Debentures bore interest semi-annually at a rate of 3.75% per year in respect of each \$1 original principal amount of 2011 Debentures (the “Original Principal Amount”) on each May 30th and November 30th, and the principal accreted on the principal amount of the 2011 Debentures (including the Original Principal Amount) at a rate of 3.9755% per year, compounding on a semi-annual basis (such principal amount, including any accretions thereon, the “Accreted Principal Amount”). The events of default under the 2012 ABL Facility and Term Loan and the acceleration of the obligations thereunder, which are described above, were events of default under the 2011 Debentures. In conjunction with the filing of the Chapter 11 Cases, the trustee or the holders of at least 25% in aggregate accreted principal amount declared the accreted principal amount of the 2011 Debentures and any accrued and unpaid interest on the 2011 Debentures to be immediately due and payable, subject to the subordination provisions of the 2011 Debentures.

The estimated fair value of the Company’s \$100,000 and \$57,500 convertible subordinated debentures at October 27, 2012 was approximately \$53,616 and \$30,829, respectively and the carrying value was \$102,324 and \$59,034, respectively. The estimated fair value was determined using Level 2 inputs as described in FASB ASC Topic 820, “*Fair Value Measurements and Disclosures*”.

NOTE 17 – SEGMENT INFORMATION

The Company determines its operating segments based on the information utilized by the chief operating decision maker, the Company's Chief Executive Officer, to allocate resources and assess performance. Based on this information, the Company has determined that it operates in two operating segments, Distribution (formerly referred to as "Educational Resources") and Curriculum (formerly referred to as "Accelerated Learning"), which also constitute its reportable segments. The Company operates principally in the United States, with limited operations in Canada. The Distribution segment offers products that include basic classroom supplies and office products, supplemental learning materials, physical education equipment, classroom technology, and furniture. The Curriculum segment is a PreK-12 curriculum-based publisher of proprietary and non-proprietary products in the categories of science, reading and literacy, coordinated school health, and planning and student development. The accounting policies of the segments are the same as those described in the Summary of Significant Accounting Policies as included in the Company's Form 10-K for the fiscal year ended April 27, 2013. Intercompany eliminations represent intercompany sales primarily from our Curriculum segment to our Distribution segment, and the resulting profit recognized on such intercompany sales.

NOTE 18 – RESTRICTED CASH

During the fourth quarter of fiscal 2013, the Company placed \$25,000 of cash into a restricted account. The Ad Hoc DIP Agreement required the funds to be placed in an escrow account as a deposit for an early termination fee payable to Bayside that was provided under the Term Loan Credit Agreement. The Bankruptcy Court ruled that the funds were owed, but the Official Committee of Unsecured Creditors contested the ruling and filed an appeal in the Federal District Court of Delaware. On the Effective Date, an additional \$119, representing interest earned, was transferred into the restricted account. After the Effective Date, the Company deposited an additional \$1,280 into the restricted account related to potential interest expense on the unpaid early termination fees for the pre-bankruptcy term loan with Bayside. In the second quarter of fiscal 2014, this escrow amount, including interest, was released to Bayside. On October 24, 2013, the Bankruptcy Court approved a stipulation which reflected the settlement of this matter. In connection with this settlement, the parties agreed that the amount of the early termination fee was \$21,000. As a result, Bayside refunded to the Company \$5,399 which represented the amount of restricted account funds that had been released to Bayside in excess of the \$21,000 settlement. The \$5,399 consisted of a reduction of the early termination fee of \$4,054 and a recovery of interest expense previously paid in fiscal 2014 of \$1,345.

During the first quarter of fiscal 2013, the Company transferred \$2,708 of cash into an additional restricted account. The funds in the restricted account serve as collateral primarily for the Company's workmen's compensation insurance and other lease obligations, secured by letters of credit. During the third and fourth quarters of fiscal 2013 and the first and second quarters of fiscal 2014, \$972, \$434, \$601 and \$701, respectively, was transferred from the restricted cash account as the letters of credit secured by these amounts were canceled. The Company currently has no restrictions on its cash balance. The restricted cash balances of \$26,302 and \$2,708 on April 27, 2013 and October 27, 2012, respectively approximated fair value.

NOTE 19 – COMMITMENTS AND CONTINGENCIES

Various claims and proceedings arising in the normal course of business are pending against the Company. The results of these matters are not expected to have a material adverse effect on the Company's consolidated financial position, results of operations or cash flows.

ITEM 2. Management's Discussion and Analysis of Financial Condition and Results of Operation

Quarterly Overview

School Specialty, Inc. (the "Company"), is an education company that provides innovative and proprietary products, programs, and services to help educators engage and inspire students of all ages and abilities to learn. Through each of our leading brands, we design, develop, and provide pre K-12 educators with the latest and very best curriculum, supplemental learning resources and classroom basics. Working in collaboration with educators, we reach beyond the scope of textbooks to help teachers, guidance counselors, and school administrators ensure that every student reaches his or her full potential.

Based on current surveys and recently reported results by education companies in the textbook and curriculum markets, school spending trends in 2013 have continued to be challenging across the industry this school season. While overall state budgets appear to be improving, pressure on educational budgets at the state and municipal level has continued in a significant number of states.

Bankruptcy Filing

On January 28, 2013 (the "Petition Date"), School Specialty, Inc. and certain of its subsidiaries (collectively, the "Debtors") filed voluntary petitions for relief under Chapter 11 of the United States Code (the "Bankruptcy Code") in the United States Bankruptcy Court for the District of Delaware (the "Bankruptcy Court"). The cases (the "Chapter 11 Cases") were jointly administered as Case No. 13-10125 (KJC) under the caption "In re School Specialty, Inc., et al." The Debtors continued to operate their business as "debtors-in-possession" ("DIP") under the jurisdiction of the Bankruptcy Court and in accordance with the applicable provisions of Chapter 11 and orders of the Bankruptcy Court. The Company's foreign subsidiaries (collectively, the "Non-Filing Entities") were not part of the Chapter 11 Cases.

The Chapter 11 Cases were filed in response to an environment of ongoing declines in school spending and a lack of sufficient liquidity, including trade credit provided by the Debtors' vendors, to permit the Debtors to pursue their business strategy to position the School Specialty brands successfully for the long term.

On May 23, 2013, the Bankruptcy Court entered an order confirming the Debtors' Second Amended Joint Plan of Reorganization Under Chapter 11 of the Bankruptcy Code (the "Reorganization Plan"), and a corrected copy of such order was entered by the Bankruptcy Court on June 3, 2013. The Reorganization Plan, which is described in additional detail below, became effective on June 11, 2013 (the "Effective Date"). Pursuant to the Reorganization Plan, on the Effective Date, the Company's existing credit agreements, outstanding convertible subordinated debentures, equity plans and certain other agreements were cancelled. In addition, all outstanding equity interests of the Company that were issued and outstanding prior to the Effective Date were cancelled on the Effective Date. Also on the Effective Date, in accordance with and as authorized by the Reorganization Plan, the Company reincorporated in Delaware and issued a total of 1,000,004 shares of Common Stock of the reorganized Company to holders of certain allowed claims against the Debtors in exchange for such claims. As of June 12, 2013, there were 60 record holders of the new common stock of the reorganized Company issued pursuant to the Reorganization Plan.

Operation and Implication of the Bankruptcy Filing

Under Section 362 of the Bankruptcy Code, the filing of voluntary bankruptcy petitions by the Debtors automatically stayed most actions against the Debtors, including most actions to collect indebtedness incurred prior to the Petition Date or to exercise control over the Company's property. Accordingly, although the Company defaulted on certain of the Debtors' debt obligations, creditors were stayed from taking any actions as a result of such defaults. Absent an order of the Bankruptcy Court, substantially all of the Company's pre-petition liabilities were subject to settlement under a reorganization plan or in connection with a Section 363 sale.

Subsequent to the Petition Date, the Company received approval from the Bankruptcy Court to pay or otherwise honor certain pre-petition obligations generally designed to stabilize the Company's operations. These obligations related to certain employee wages, salaries and benefits, and the payment of vendors and other providers in the

Table of Contents

ordinary course for goods and services received after the Petition Date. The Company retained, pursuant to Bankruptcy Court approval, legal and financial professionals to advise the Company in connection with the bankruptcy filing and certain other professionals to provide services and advice in the ordinary course of business.

Reorganization Plan

In order for the Company to emerge successfully from Chapter 11, the Company determined that it was in the best interests of the Debtors' estates to seek Bankruptcy Court confirmation of a reorganization plan. A reorganization plan determines the rights and satisfaction of claims of various creditors and security holders, subject to the ultimate outcome of negotiations and Bankruptcy Court decisions ongoing through the date on which the reorganization plan is confirmed.

On May 23, 2013, the Bankruptcy Court entered an order confirming the Debtors' Reorganization Plan, and a corrected copy of such order was entered by the Bankruptcy Court on June 3, 2013. The Reorganization Plan became effective on the Effective Date.

General

The Reorganization Plan generally provided for the payment in full in cash on, or as soon as practicable after, the Effective Date of specified claims, including:

- All claims (the "DIP Financing Claims") under the Debtor-in-Possession Credit Agreement (the "ABL DIP Agreement") by and among Wells Fargo Capital Finance, LLC (as Administrative Agent, Co-Collateral Agent, Co-Lead Arranger and Joint Book Runner) and GE Capital Markets, Inc. (as Co-Collateral Agent, Co-Lead Arranger and Joint Book Runner and Syndication Agent), General Electric Capital Corporation (as syndication agent), the lenders party to the ABL DIP Facility (as defined below), and the Company and certain of its subsidiaries;
- Certain pre-petition secured claims;
- All claims relating to the costs and expenses of administering the Chapter 11 Cases; and
- All priority claims.

In addition, the Reorganization Plan generally provides for the treatment of allowed claims against, and equity interests in, the Debtors as follows:

- The lenders under the Senior Secured Super Priority Debtor-in-Possession Credit Agreement (the "Ad Hoc DIP Agreement") by and among the Company, certain of its subsidiaries, U.S. Bank National Association, as Administrative Agent and Collateral Agent and the lenders party thereto were entitled to receive (i) cash in an approximate amount of \$98.3 million, and (ii) 65% of the common stock of the reorganized Company;
- Each holder of an allowed general unsecured claim is entitled to receive a deferred cash payment equal to 20% of such allowed claim, plus interest, on the terms described in the Reorganization Plan;
- Each holder of an unsecured claim arising from the provision of goods and/or services to the Debtors in the ordinary course of its pre-petition trade relationship with the Debtors, with whom the reorganized Debtors continue to do business after the Effective Date, is entitled to receive a deferred cash payment equal to 20% of such claim, plus interest, on the terms described in the Reorganization Plan. Such holders may increase their percentage recoveries to 45%, plus interest, by electing to provide the reorganized Debtors with customary trade terms for a specified period, as described in the Reorganization Plan;
- Each holder of the Company's 3.75% Convertible Subordinated Debentures due 2026, as further described elsewhere in this report, received its pro rata share of 35% of the common stock of the reorganized Company;

Table of Contents

- Each holder of an allowed general unsecured claim or allowed trade unsecured claim of \$3,000 or less, or any holder of a general unsecured claim or trade unsecured claim in excess of \$3,000 that agreed to voluntarily reduce the amount of its claim to \$3,000 under the terms described in the Reorganization Plan, was entitled to receive a cash payment equal to 20% of such allowed claim on or as soon as practicable after the Effective Date; and
- Holders of equity interests in the Company prior to the Effective Date, including claims arising out of or with respect to such equity interests, were not entitled to receive any distribution under the Reorganization Plan.

Exit Facilities

As of the Effective Date, the Debtors closed on the exit credit facilities, the proceeds of which were or will be, among other things, used to (i) pay in cash the DIP Financing Claims, to the extent provided for in the Reorganization Plan, (ii) make required distributions under the Reorganization Plan, (iii) satisfy certain Reorganization Plan-related expenses, and (iv) fund the reorganized Company's working capital needs. The terms of the exit credit facilities are described under Note 14 of the Notes to Condensed Consolidated Financial Statements – Debt.

Equity Interests

As mentioned above, all shares of the Company's common stock outstanding prior to the Effective Date were cancelled and extinguished as of the Effective Date. In accordance with the Reorganization Plan, on the Effective Date, the reorganized Company issued 1,000,004 shares of new common stock, which constitutes the total number of shares of new common stock outstanding immediately following the Effective Date.

On the Effective Date, equity interests in the Company's U.S. subsidiaries were deemed cancelled and extinguished and of no further force and effect, and each reorganized subsidiary was deemed to issue and distribute the new subsidiary equity interests. The ownership and terms of such new subsidiary equity interests in the reorganized subsidiaries are the same as the ownership and terms of the equity interests in these subsidiaries immediately prior to the Effective Date, except as otherwise provided in the Reorganization Plan.

Process Improvement Programs

In the Company's second quarter of fiscal 2014, the company-wide Process Improvement Program was launched to better align the Company's operating groups, enhance systems and processes and drive efficiency throughout the organization to improve the customer experience. The key elements of the Process Improvement Program include:

- **Distribution Center and Warehouse Consolidation/Reconfiguration.** The Company is in the process of consolidating its Distribution business from four distribution centers to two. The Fresno, California and Salina, Kansas facilities are expected to be closed in the Company's third quarter. The Company intends to build out its Mansfield, Ohio distribution center and make that its core hub center to better service nationwide customers. The Company plans to have the distribution center in Greenville, Wisconsin continue to serve as a distribution hub, and to leverage that distribution center during the peak-selling season. The Fresno and Salina distribution centers ceased processing customer shipments in the Company's second quarter of fiscal 2014. The Company is in the process of transitioning the inventory from these facilities to both its Mansfield and Greenville facilities.
- **Sales and Operation Planning.** The Company plans to implement lean processes and align its supply chain teams behind product groups and dedicated planning/forecasting teams in order to provide greater efficiencies in sourcing, purchasing and procurement. The Company expects these areas will be integrated directly with the sales teams to ensure better control over pricing, product development and inventory management, as well as leveraging global sourcing. This program also is expected to reduce freight and warehousing costs.

Table of Contents

- **Product Management / SKU Rationalization.** The Company is identifying and removing many of the lower-performing SKU's which is anticipated to result in cost savings in procurement and marketing, particularly associated with catalog and distribution functions. Through the second quarter of fiscal 2014, approximately 11,000 SKU's have been identified for removal.
- **Customer Care and Service Functions.** The Company plans to streamline administrative functions and seek to improve its data-capture capabilities as there is significant expertise in this area that needs to be integrated into other areas of our operations. The Greenville, WI facility is intended to become our consolidated Customer Care Center of Excellence.
- **Expanding the Digital Platform.** The Company intends to transition its marketing spend to enhance its digital capabilities. This includes a robust e-commerce platform, various branded web redesigns to drive traffic and online sales, search engine optimization and social media. All of the investments for the information technology spend were part of the fiscal 2014 budget and new investments are anticipated to be offset by lower costs in other marketing areas.
- **Continuous Improvement and Project Management Alignment.** The Company has established a Project Management Office and a Steering Committee that is comprised of team leaders to establish greater accountability. The Company's Chief Executive Officer will serve on the Steering Committee as Chairman.

The Company anticipates these Process Improvement Programs will reduce SG&A costs by between \$3 million and \$5 million in Fiscal 2014, with the majority of these savings expected in the fourth quarter. The annualized recurring savings from these programs are estimated to be approximately \$12 million to \$15 million. The Company expects to incur approximately \$12 million of non-recurring or restructuring costs in fiscal 2014 associated with these initiatives and other bankruptcy-related activities.

Results of Operations

Factors Affecting Comparability

Fresh Start Accounting Adjustments

The Company adopted fresh start accounting and reporting effective June 11, 2013, the Fresh Start Reporting Date. The financial statements as of the Fresh Start Reporting Date report the results of the Successor Company with no beginning retained earnings or accumulated deficit. Any financial statement presentation of the Successor Company represents the financial position and results of operations of a new reporting entity and is not comparable to prior periods presented by the Predecessor Company. The financial statements for periods ended prior to the Fresh Start Reporting Date do not include the effect of any changes in the Predecessor Company's capital structure or changes in the fair value of assets and liabilities as a result of fresh start accounting.

Accordingly, in addition to providing the GAAP analysis for the second fiscal quarter below, management has provided a non-GAAP analysis entitled "Non-GAAP Financial Information – Combined Results" for the 26 weeks ended October 26, 2013. Non-GAAP Financial Information – Combined Results combines GAAP results of the Successor Company for the twenty weeks ended October 26, 2013 and GAAP results of the Predecessor Company for the six weeks ended June 11, 2013. Management's non-GAAP analysis compares the Non-GAAP Financial Information – Combined Results for certain financial statement items to the Predecessor Company's GAAP results for the six months ended October 27, 2012.

Successor Company GAAP Results for the Three Months Ended October 26, 2013 Compared to Predecessor Company GAAP Results for the Three Months Ended October 27, 2012

Table of Contents

Revenues

Revenues for the three months ended October 26, 2013 increased 3.7%, or \$8.7 million from the Predecessor Company three months ended October 27, 2012.

Distribution (formerly referred to as “Educational Resources”) segment revenues increased 6.8%, or \$11.6 million, from the Predecessor Company three months ended October 27, 2012. Approximately \$10 million of the increase was related to the supplies product lines, while the furniture product lines increased approximately \$2 million. The increase in second quarter segment revenue is largely due to timing differences between the first and second quarters in the current year as compared to the previous year. In the current year’s first quarter, the Company had increased backorders associated with the disruption caused in our procurement processes by the bankruptcy. These backorders were shipped in the second quarter of fiscal 2014. In addition, the shutdown of the Company’s Mt. Joy, Pennsylvania distribution center and the transfer of the order processing volume to remaining distribution centers resulted in some customer order shipments shifting into the Company’s second fiscal quarter.

Curriculum (formerly referred to as “Accelerated Learning”) segment revenues decreased 4.3%, or \$2.8 million, from the Predecessor Company three months ended October 27, 2012. The decline is made up of an approximately \$6 million decline related to decreased school spending for agenda products offset by a \$3 million increase in purchases related to the Company’s science business unit as a result of a shifting of orders from the first quarter into the second quarter.

Gross Profit

Gross margin for the three months ended October 26, 2013 was 37.9% as compared to 39.1% for the Predecessor Company’s three months ended October 27, 2012.

Distribution segment gross margin was 32.9% for the three months ended October 26, 2013 as compared to 33.4% for the Predecessor Company three months ended October 27, 2012. The decrease in gross margin is related to a reduction in vendor rebates earned. Until normal terms are established with all vendors, rebate programs will be negatively impacted.

Curriculum segment gross margin was 52.7% for the three months ended October 26, 2013 as compared to 54.0% for the Predecessor Company three months ended October 27, 2012. The decline is primarily related to higher product development amortization spread over a lower revenue base. The increased product development amortization resulted in a 70 basis point reduction in segment gross margin. Product mix within the segment contributed to the remaining difference.

Selling, General and Administrative Expenses

SG&A includes selling expenses, the most significant of which are sales wages and commissions; operations expenses, which includes customer service, warehouse and out-bound freight costs; catalog costs; general administrative overhead, which includes information systems, accounting, legal and human resources; and depreciation and intangible asset amortization expense.

SG&A for the three months ended October 26, 2013 increased \$4.3 million from \$67.4 million in the second quarter of fiscal 2013 to \$71.7 million in the second quarter of fiscal 2014. As a percent of revenue, SG&A increased from 28.4% for the three months ended October 27, 2012 to 29.2% for the three months ended October 26, 2013.

SG&A attributable to the Distribution and Curriculum segments increased \$1.4 million and Corporate SG&A increased \$2.9 million in the second quarter as compared to last year’s second quarter.

Distribution segment SG&A increased \$0.3 million, or 0.8%, from \$35.8 million in the second quarter of fiscal 2013 to \$36.1 million in the second quarter of fiscal 2014. Variable based transportation and warehouse expenses increased by \$0.8 million the second quarter of fiscal 2014 related to the increased revenue. This was partially offset by decreases in depreciation and amortization expense associated with the fresh start valuation adjustments recorded as of the Effective Date.

Curriculum segment SG&A increased \$1.1 million, or 5.4%, from \$20.2 million for the three months ended October 27, 2012 to \$21.3 million for the three months ended October 26, 2013. Curriculum segment SG&A increased as a percent of revenues from 30.8% for the three months ended October 27, 2012 to 33.9% for the three months ended

Table of Contents

October 26, 2013. This increase was related to incremental depreciation associated with the fresh start valuation adjustments recorded as of the Effective Date. Additionally, in the second quarter of fiscal 2014, the Company decided to sell the printing-related assets used in its agenda business as it will use outside print vendors to produce all agendas in future years. Approximately 30% of agendas were historically produced using the Company's printing facilities. With the decision to shut down the printing facilities, the Company recorded accelerated depreciation in the second quarter.

The Corporate SG&A increase was primarily the result of \$2.6 million of bankruptcy related costs incurred during the 3 months ended October 26, 2013. Approximately \$1.1 million of this amount was related to incremental freight and warehousing costs incurred due to the incremental backorders that resulted from supply chain interruptions related to the Company's bankruptcy. The bankruptcy created uncertainty in the vendor base which contributed to an increase in backorders of approximately 90%. A majority of the backorders shipped in the Company's second quarter. Early third quarter backorder levels are at historical norms. The Company also incurred approximately \$1.4 million of consulting costs associated with the Company's Process Improvement Programs. These increases were partially offset by reduced compensation and benefit costs associated with reductions in headcount

Restructuring Charges

In the second quarter of fiscal 2014 the Successor Company recorded \$2.2 million of restructuring charges which consisted of \$1.7 million of severance and the remainder associated with the shutdown of distribution centers and professional fees related to the Company's restructuring.

Impairment of Long-Term Asset

For the three months ended October 27, 2012, the Company recorded a \$1.4 million impairment charge related to the note receivable it had recorded on its balance sheet from the divestiture of the Visual Media business in fiscal 2008. The Company received proceeds of \$3.0 million that was used to pay down the Term Loan and recorded an impairment charge of \$1.4 million.

Interest Expense

Interest expense decreased \$4.7 million, from \$9.3 million in the second quarter of fiscal 2013 to \$4.6 million in the second quarter of fiscal 2014.

The Predecessor Company recorded \$3.8 million of interest expense on its convertible debt in the second quarter of fiscal 2013, of which \$2.3 million was non-cash interest expense. There was no interest expense on the convertible debt in the second quarter of fiscal 2014 as the convertible debt was canceled on the Effective Date in accordance with the Reorganization Plan with those debt holders receiving 35% of the equity of the Successor Company.

Second quarter fiscal 2014 interest expense associated with the Successor Company's term loan was approximately \$1.3 million greater than the Predecessor Company's term loan interest expense in the second quarter of fiscal 2013 due to an increase in average borrowings in the term loan as compared to the pre-bankruptcy term loan, partially offset by a decrease in the borrowing rate.

In the first quarter of fiscal 2014, the Company recorded approximately \$0.6 million of interest related to the unpaid early termination fees for the pre-bankruptcy term loan with Bayside. During the second quarter of fiscal 2014, the parties settled the disputed early termination fee at a fixed dollar amount and Bayside refunded a portion of the fee and all interest previously paid. As such, the interest expense recorded was reversed in the second quarter of fiscal 2014.

Change in Fair Value of Interest Rate Swap

In the second quarter of fiscal 2014, the Company entered into an interest rate swap agreement that effectively fixes the interest payments on a portion of the Company's variable-rate debt. The swap, which has a termination date of September 11, 2016, effectively fixes the LIBOR-based interest rate on the debt in the amount of the notional amount of the swap at 9.985%. The notional amount of the swap at October 26, 2013 was \$72,500. As of October 26, 2013, the fair value of the derivative declined by \$622 and a loss of \$622 was recorded.

Table of Contents

Partial Refund of Early Termination Fee

During the third quarter of fiscal 2013, the Company recorded a \$25.1 million prepayment charge related to the acceleration of the obligations under the Bayside term loan credit agreement. The charge was triggered by the Company's non-compliance with the minimum liquidity covenant. The early prepayment fee represented the present value of interest payments due to Bayside Finance, LLC ("Bayside") during the term of the term loan credit agreement. The \$25.1 million early termination fee plus approximately \$1.3 million of potential interest expense was placed in an escrow account. These escrow funds, totaling \$26.4 million were released to Bayside early in the second quarter of fiscal 2014.

During the second quarter of fiscal 2014, the parties reached an agreement whereby the early termination fee was fixed at \$21.0 million. As such, Bayside retained \$21.0 million, and refunded to the Company the \$5.4 million excess. The refund was received by the Company in the second quarter of fiscal 2014, of which \$4.1 million was a partial refund of the early termination fee and the remainder was a refund of interest expense.

Reorganization Items, Net

In the second quarter of fiscal 2014, the Successor Company recorded \$3.4 million of reorganization items. This consisted primarily of professional fees associated with activities attributable to the implementation of the Company's Reorganization Plan.

Non-GAAP Financial Information — Combined Results

Management believes that the presentation of Non-GAAP Financial Information — Combined Results offers a useful non-GAAP normalized comparison to GAAP results of the Predecessor Company for the six months ended October 26, 2013. The Non-GAAP Financial Information — Combined Results presented below are reconciled to the most comparable GAAP measures.

Non-GAAP Combined Results for the Six Months Ended October 26, 2013 Compared to Predecessor Company GAAP Results for the Six Months Ended October 27, 2012

Revenues

	<u>Successor Company</u>	<u>Predecessor Company</u>	<u>Non-GAAP Combined</u>	<u>Predecessor Company</u>
	<u>Twenty Weeks Ended October 26, 2013</u>	<u>Six Weeks Ended June 11, 2013</u>	<u>Six Months Ended October 26, 2013</u>	<u>Six Months Ended October 27, 2012</u>
Revenues	\$ 389,128	\$ 58,697	\$ 447,825	\$ 489,005

Combined revenues for the six months ended October 26, 2013 decreased 8.4%, or \$41.2 million from the Predecessor Company six months ended October 27, 2012.

Distribution segment combined revenues decreased 7.8%, or \$27.0 million, from the Predecessor Company six months ended October 27, 2012. Approximately \$13 million of the decline was related to the supplies product lines, while the furniture product lines declined approximately \$14 million. This decline is primarily due to the fact that revenue in the first quarter was negatively impacted by factors related to the Chapter 11 Cases. These factors included continued customer uncertainty during the Chapter 11 Cases which we believe was a contributing factor to the decline in incoming orders. The segment did have an increase in order tempo, though, in the second quarter and we believe this may indicate a stabilization of the revenue for the remainder of fiscal 2014.

Curriculum segment combined revenues decreased 9.7%, or \$13.9 million, from the Predecessor Company six months ended October 27, 2012. Approximately \$5 million of the decline was related to the large curriculum orders in Florida and Mississippi in the prior year period, which were not expected to recur in the current year. Approximately \$8.5 million of the decline is related to our student planner and agenda products. We believe schools consider agenda products more discretionary in nature and some schools are de-emphasizing paper-based agendas in favor of digital products. The Company is in the process of transitioning its agenda offerings to more of a digital format versus print format.

Gross profit	\$ 152,963	\$ 23,618	\$ 176,581	\$ 196,297

Combined gross margin for the six months ended October 26, 2013 was 39.4% as compared to 40.1% for the Predecessor Company's six months ended October 27, 2012.

Distribution segment combined gross margin was 33.8% for the six months ended October 26, 2013 as compared to 34.1% for the Predecessor Company six months ended October 27, 2012. The decrease in gross margin is related to a reduction in vendor rebates earned. Until normal terms are established with all vendors, rebate programs will be negatively impacted.

Curriculum segment combined gross margin was 53.1% for the six months ended October 26, 2013 as compared to 54.4% for the Predecessor Company six months ended October 27, 2012. Approximately 80 basis points of the decline is related to an increase of \$0.7 million of product development amortization spread over lower revenue in the first six months of fiscal 2014. The remaining decline is primarily related to product mix as sales of curriculum-related products, particularly non-print reading-based products, declined during the current year's first half.

Selling, General and Administrative Expenses

	<u>Successor Company</u>	<u>Predecessor Company</u>	<u>Non-GAAP Combined</u>	<u>Predecessor Company</u>
	<u>Twenty Weeks Ended October 26, 2013</u>	<u>Six Weeks Ended June 11, 2013</u>	<u>Six Months Ended October 26, 2013</u>	<u>Six Months Ended October 27, 2012</u>
Selling, general and administrative expenses	\$ 108,819	\$ 27,473	\$ 136,292	\$ 142,480

SG&A includes selling expenses, the most significant of which are sales wages and commissions; operations expenses, which includes customer service, warehouse and out-bound freight costs; catalog costs; general administrative overhead, which includes information systems, accounting, legal and human resources; and depreciation and intangible asset amortization expense.

Combined SG&A decreased \$6.2 million from \$142.5 million for the six months ended October 27, 2012 to \$136.3 million for the six months ended October 26, 2013. As a percent of revenue, SG&A increased from 29.1% for the six months ended October 27, 2012 to 30.4% for the six months ended October 26, 2013.

Combined SG&A attributable to the Distribution and Curriculum segments decreased \$9.4 million and Corporate combined SG&A increased \$3.2 million in the first six months as compared to last year's first six months.

Distribution segment combined SG&A decreased \$7.2 million, or 9.6%, from \$74.8 million for the six months ended October 27, 2012 to \$67.6 million for the six months ended October 26, 2013. Approximately \$1.6 million of the decrease was due to variable costs such as transportation, warehousing, and selling expenses associated with decreased revenues. In addition, the segment had a decrease of \$2.1 million in its marketing costs primarily associated with a decrease in catalog costs as the Company reduced the number of seasonal catalog mailings and reduced circulation of other catalogs. Compensation and benefits costs for the Distribution segment decreased \$0.8 million. Headcount for the Distribution segment has been reduced 8% compared to fiscal 2013. The reduced compensation costs in fiscal 2014 were offset by reduced compensation costs in fiscal 2013 as a result of furloughs taken in the six months ended October 27, 2012. Distribution segment combined SG&A decreased as a percent of revenues from 21.7% for the six months ended October 27, 2012 to 21.3% for the six months ended October 26, 2013.

Table of Contents

Curriculum segment combined SG&A decreased \$2.2 million, or 5.1%, from \$43.4 million for the six months ended October 27, 2012 to \$41.2 million for the six months ended October 26, 2013. Approximately \$1.3 million of the decrease was due to variable selling costs associated with decreased revenues. Headcount for the Curriculum segment has been reduced 12% compared to fiscal 2013. The reduced compensation costs in fiscal 2014 were offset by reduced compensation costs in fiscal 2013 as a result of furloughs taken in the six months ended October 27, 2012. Curriculum segment combined SG&A increased as a percent of revenues from 30.2% for the six months ended October 27, 2012 to 31.7% for the six months ended October 26, 2013.

The Corporate combined SG&A increase was primarily the result of \$3.8 million of bankruptcy related and other costs associated with the Company's Process Improvement Programs which were incurred during the six months ended October 26, 2013. Approximately \$1.9 million of this amount was related to incremental freight and warehousing costs incurred due to the incremental backorders that resulted from supply chain interruptions related to the Company's bankruptcy. The bankruptcy created uncertainty in the vendor base which contributed to an increase in backorders of approximately 90%. A majority of the backorders shipped in the Company's second quarter. Early third quarter backorder levels are at historical norms. The Company also incurred approximately \$1.5 million of consulting costs associated with the Company's Process Improvement Programs. These increases were partially offset by reduced compensation and benefit costs associated with reductions in headcount.

Restructuring Charges

In six months ended October 26, 2013, the Successor Company recorded \$3.6 million of bankruptcy related restructuring charges. The closure of the Company's distribution centers and printing plants resulted in charges of \$1.7 million which included lease termination costs and other shutdown related expenditures. Severance in the first six months of fiscal 2014 was \$1.9 million.

Impairment of Long-Term Asset

For the three months ended October 27, 2012, the Company recorded a \$1.4 million impairment charge related to the note receivable it had recorded on its balance sheet from the divestiture of the Visual Media business in fiscal 2008. The Company received proceeds of \$3.0 million that were used to pay down the Term Loan and recorded an impairment charge of \$1.4 million.

Interest Expense

Combined interest expense decreased \$8.6 million, from \$19.3 million for the six months ended October 27, 2012 to \$10.7 million for the six months ended October 26, 2013.

The Predecessor Company recorded \$7.4 million of interest expense on its convertible debt for the six months ended October 27, 2012, of which \$4.5 million was non-cash interest expense. Interest expense on the convertible debt was not accrued subsequent to the Chapter 11 filing. In the first quarter of fiscal 2014, the Predecessor Company would have recorded \$1.6 million of convertible debt interest expense, absent the Chapter 11 Cases for the period up to the Effective Date. However, the convertible debt was canceled in accordance with the Reorganization Plan with those debt holders receiving 35% of the equity of the Successor Company.

For the six months ended October 26, 2013, interest expense associated with the Successor Company's term loan was approximately \$1.3 million greater than the Predecessor Company's term loan interest expense for the six months ended October 27, 2012 due to an increase in average borrowings in the exit financing term loan as compared to the pre-bankruptcy term loan, partially offset by a decrease in the borrowing rate. Interest expense for the six months ended October 27, 2012 included \$2.5 million of debt issuance costs write-offs, as compared to zero in the current year, associated with the debt refinancing completed in May, 2012.

Change in Fair Value of Interest Rate Swap

In the second quarter of fiscal 2014, the Company entered into an interest rate swap agreement that effectively fixes the interest payments on a portion of the Company's variable-rate debt. The swap, which has a termination date of September 11, 2016, effectively fixes the LIBOR-based interest rate on the debt in the amount of the notional amount of the swap at

9.985%. The notional amount of the swap at October 26, 2013 was \$72,500. As of October 26, 2013, the fair value of the derivative declined by \$622 and a loss of \$622 was recorded.

Partial Refund of Early Termination Fee

During the third quarter of fiscal 2013, the Company recorded a \$25.1 million prepayment charge related to the acceleration of the obligations under the Bayside term loan credit agreement. The charge was triggered by the Company's non-compliance with the minimum liquidity covenant. The early prepayment fee represented the present value of interest payments due to Bayside Finance, LLC ("Bayside") during the term of the term loan credit agreement. The \$25.1 million early termination fee plus approximately \$1.3 million of potential interest expense was placed in an escrow account. These escrow funds, totaling \$26.4 million were released to Bayside early in the second quarter of fiscal 2014.

Table of Contents

During the second quarter of fiscal 2014, the parties reached an agreement whereby the early termination fee was fixed at \$21.0 million. As such, Bayside retained \$21.0 million, and refunded to the Company the \$5.4 million excess. The refund was received by the Company in the second quarter of fiscal 2014, of which \$4.1 million was a partial refund of the early termination fee and the remainder was a refund of interest expense.

Reorganization Items, Net

In the six months ended October 26, 2014, the Company recorded a \$80.2 million net reorganization gain. This consists of \$162.4 million of cancellation of indebtedness income related to the settlement of prepetition liabilities and changes in the Predecessor's capital structure arising from implementation of the Reorganization Plan, offset by \$30.2 million of fresh start adjustments, \$21.4 million of cancellation of debt upon the issuance of equity, \$18.5 million of professional, financing and other fees, \$7.0 million of contract rejections and \$5.1 million of other reorganization adjustments.

Included in the \$18.5 million of professional and other financing fees are \$4.6 million of professional fees incurred after the Effective Date which pertained to post-emergence activities related to the implementation of the Reorganization Plan and other transition costs attributable to the reorganization. The Company expects to continue to incur certain expenses pertaining to the Chapter 11 proceedings throughout fiscal 2014 and potentially in future periods. These expenses will include primarily professional advisory fees and other costs related to the implementation of the Reorganization Plan and the resolution of unresolved claims.

Liquidity and Capital Resources

At October 26, 2013, the Company had working capital of \$159.4 million. Our capitalization at October 26, 2013 was \$310.1 million and consisted of total debt of \$157.6 million and stockholders' equity of \$152.5 million.

On May 22, 2012, the Company entered into an Asset-Based Credit Agreement (the "2012 ABL Facility") and Term Loan Credit Agreement (the "Term Loan"), which replaced the Company's then-existing credit facility. The lenders under the 2012 ABL Facility agreed to provide a revolving senior secured asset-based credit facility in an aggregate principal amount of \$200 million. Under the Term Loan, the lenders agreed to make a term loan to the Company in aggregate principal amount of \$70 million. The Company used the proceeds of the 2012 ABL Facility and the Term Loan to repay outstanding indebtedness under the Company's previous credit facility. Both the 2012 ABL Facility and the Term Loan contained customary events of default and certain financial, affirmative and negative covenants. The Company was not in compliance with the minimum liquidity covenant under the term loan as of the end of December, 2012. As a result, the Company entered into a forbearance agreement with the 2012 ABL Facility and Term Loan lenders on January 4, 2013.

On January 28, 2013 the Debtors filed voluntary petitions for relief under Chapter 11 of the United States Code (the "Bankruptcy Code") in the United States Bankruptcy Court for the District of Delaware (the "Bankruptcy Court"). The cases (the "Chapter 11 Cases") were being jointly administered as Case No. 13-10125 (KJC) under the caption "In re School Specialty, Inc., et al." The Debtors continued to operate their business as "debtors-in-possession" under the jurisdiction of the Bankruptcy Court and in accordance with the applicable provisions of Chapter 11 and orders of the Bankruptcy Court. The Company's foreign subsidiaries were not part of the Chapter 11 Cases.

The Chapter 11 Cases were filed in response to an environment of ongoing declines in school spending and a lack of sufficient liquidity, including trade credit provided by the Debtors' vendors, to permit the Debtors to pursue their business strategy to position the School Specialty brands successfully for the long term.

Subsequent to filing the Chapter 11 Cases, on January 31, 2013, the Company entered into a Senior Secured Super Priority Debtor-in-Possession Credit Agreement (the "Bayside DIP Agreement") by and among the Company, certain of its subsidiaries, Bayside Finance, LLC ("Bayside") (as Administrative Agent and Collateral Agent), and the lenders party to the Bayside Credit Agreement and a Debtor-in-Possession Credit Agreement (the "ABL DIP Agreement") by and among Wells Fargo Capital Finance, LLC (as Administrative Agent, Co-Collateral Agent, Co-Lead Arranger and Joint Book Runner) and GE Capital Markets, Inc. (as Co-Collateral Agent, Co-Lead Arranger and Joint Book Runner and Syndication Agent), General Electric Capital Corporation (as Syndication Agent), and the lenders that are party to the Asset-Based Credit Agreement (the "Asset-Based Lenders") and the Company and certain of its subsidiaries.

Table of Contents

The Bayside DIP Agreement provided for a senior secured, super-priority revolving credit facility of up to \$50 million (the “Bayside DIP Facility”), with an initial borrowing upon closing of \$15 million, and subsequent borrowings of \$8.0 million.

Borrowings by the Company under the Bayside DIP Facility were subject to borrowing limitations based on the exhaustion of availability of credit under the ABL DIP Facility (as defined below) and certain other conditions. The principal amounts outstanding under the Bayside DIP Facility bore interest based on applicable LIBOR or base rates plus margins as set forth in the Bayside DIP Agreement. Upon the occurrence of an event of default in the Bayside DIP Agreement, an additional default interest rate of 3.0% per annum applied. The Bayside DIP Agreement also provided for certain additional fees payable to the agents and lenders.

All borrowings under the Bayside DIP Agreement were required to be repaid on the earliest of (i) June 30, 2013, and (ii) the date of termination of the Bayside DIP Agreement, whether pursuant to the consummation of a sale of substantially all of the assets of the Debtors under section 363 of the Bankruptcy Code, or (iii) certain other termination events.

Pursuant to a Security and Pledge Agreement, the Bayside DIP Facility was secured by a substantially all assets of the Company and the guarantor subsidiaries. Under an intercreditor agreement between the Asset-Based Lenders and the Bayside Lenders (the “Intercreditor Agreement”), the Bayside Lenders had a first priority security interest in all interests in real property, all intellectual property, all equipment and fixtures, and certain other assets of the Company and its subsidiaries, and had a second priority security interest in accounts receivable, inventory and certain other assets of the Company and the subsidiary guarantors, subordinate only to the first priority security interest of the Asset-Based Lenders in such assets. The obligations under the Bayside DIP Facility were extinguished with proceeds from the Ad Hoc DIP Agreement discussed below.

The ABL DIP Agreement provided a revolving senior secured asset-based credit facility (the “ABL DIP Facility”) in an aggregate principal amount of \$175 million. Outstanding amounts under the ABL DIP Facility bore interest at a rate per annum equal to either: (1) a base rate (equal to the greatest of (a) the prime lending rate, (b) the federal funds rate plus 0.50%, and (c) the 30-day LIBOR rate plus 1.00% per annum) plus 2.75%, or (2) a LIBOR rate plus 3.75%. The default interest rate was three percentage points above the otherwise applicable rate.

Pursuant to a Guaranty and Security Agreement, the ABL DIP Facility was secured by substantially all assets of the Company and the guarantor subsidiaries. Under the Intercreditor Agreement, the Asset-Based Lenders had a first priority security interest in accounts receivable, inventory and certain other assets of the Company and the subsidiary guarantors, and had a second priority security interest in all interests in real property, all intellectual property, all equipment and fixtures, and certain other assets of the Company and its subsidiaries, subordinate only to the first priority security interest of the Bayside Lenders in such assets.

The ABL DIP Agreement contained customary events of default and affirmative and negative covenants, including (but not limited to) affirmative covenants relating to reporting, appointment of a chief restructuring officer, and bankruptcy transaction milestones, and negative covenants related to the financing order of the Bankruptcy Court, additional indebtedness, liens, assets, fundamental changes, and use of proceeds.

On February 27, 2013, the Company entered into a Senior Secured Super Priority Debtor-in-Possession Credit Agreement (the “Ad Hoc DIP Agreement”) by and among the Company, certain of its subsidiaries, U.S. Bank National Association, as Administrative Agent and Collateral Agent and the lenders party to the Ad Hoc DIP Agreement, which replaced the Bayside DIP Agreement, the related Bayside DIP Facility and the Term Loan Credit Agreement.

Table of Contents

The Ad Hoc DIP Agreement provided for a senior secured, super-priority revolving credit facility of up to \$155 million (the “Ad Hoc DIP Facility”), with an initial borrowing upon closing of \$130 million, and subsequent borrowings of \$15 million following the entry of the final order of the Bankruptcy Court and upon the satisfaction of certain conditions.

The principal amounts outstanding under the Ad Hoc DIP Facility bore interest based on applicable LIBOR or base rates plus margins as set forth in the Ad Hoc DIP Agreement. Upon the occurrence of an event of default in the Ad Hoc DIP Agreement, an additional default interest rate of 2.0% per annum applies. The Ad Hoc DIP Agreement also provides for certain additional fees payable to the agents and lenders.

All borrowings under the Ad Hoc DIP Agreement were required to be repaid on the earliest of (i) June 30, 2013, and (ii) the date of termination of the Ad Hoc DIP Agreement, whether pursuant to the consummation of a sale of substantially all of the assets of the Debtors under section 363 of the Bankruptcy Code, or (iii) certain other termination events.

Pursuant to a Security and Pledge Agreement, the Ad Hoc DIP Facility was secured by a first priority security interest in substantially all of the assets of the Company and the guarantor subsidiaries.

Under Section 362 of the Bankruptcy Code, the filing of voluntary bankruptcy petitions by the Debtors automatically stayed most actions against the Debtors, including most actions to collect indebtedness incurred prior to the Petition Date or to exercise control over the Company’s property. Accordingly, although the Company defaulted on certain of the Debtors’ debt obligations, creditors were stayed from taking any actions as a result of such defaults.

On May 23, 2013, the Bankruptcy Court approved the Reorganization Plan pursuant to a Confirmation Order dated May 23, 2013, as corrected June 3, 2013 (the “Confirmation Order”). On the Effective Date of the Reorganization Plan, the Ad Hoc DIP Facility and the ABL DIP Facility and the related security agreements were terminated in accordance with the terms of the Reorganization Plan.

On June 11, 2013, in accordance with the Reorganization Plan, the Company entered into a Loan Agreement (the “Asset-Based Credit Agreement”) among the Company, Bank of America, N.A, as Agent, SunTrust Bank, as Syndication Agent, Merrill Lynch, Pierce, Fenner & Smith Incorporated and SunTrust Robinson Humphrey, Inc., as Joint Lead Arrangers and Bookrunners, and the Lenders that are party to the Asset-Based Credit Agreement (the “Asset-Based Lenders”).

Under the Asset-Based Credit Agreement, the Asset-Based Lenders agreed to provide a revolving senior secured asset-based credit facility (the “New ABL Facility”) in an aggregate principal amount of \$175 million. Outstanding amounts under the New ABL Facility will bear interest at a rate per annum equal to, at the Company’s election: (1) a base rate (equal to the greatest of (a) the prime lending rate, (b) the federal funds rate plus 0.50%, and (c) the 30-day LIBOR rate plus 1.00% per annum) (the “Base Rate”) plus an applicable margin (equal to a specified margin based on the interest rate elected by the Company, the fixed charge coverage ratio under the New ABL Facility and the applicable point in the life of the New ABL Facility) (the “Applicable Margin”), or (2) a LIBOR rate plus the Applicable Margin (the “LIBOR Rate”). Interest on loans under the New ABL Facility bearing interest based upon the Base Rate will be due monthly in arrears, and interest on loans bearing interest based upon the LIBOR Rate will be due on the last day of each relevant interest period or, if sooner, on the respective dates that fall every three months after the beginning of such interest period.

The New ABL Facility will mature on June 11, 2018. The Company may prepay advances under the New ABL Facility in whole or in part at any time without penalty or premium. The Company will be required to make specified prepayments upon the occurrence of certain events, including: (1) the amount outstanding on the New ABL Facility exceeding the Borrowing Base, and (2) the Company’s receipt of net cash proceeds of any sale or disposition of assets that are first priority collateral for the New ABL Facility.

Pursuant to a Guaranty and Collateral Agreement dated as of June 11, 2013 (the “New ABL Security Agreement”), the New ABL Facility is secured by a first priority security interest in substantially all assets of the Company and the guarantor subsidiaries. Under an intercreditor agreement between the Asset-Based Lenders and the Term Loan Lenders, as defined and described below, the Asset-Based Lenders have a first priority security interest in substantially all working capital assets of the Company and the guarantor subsidiaries, and a second priority security interest in all other assets, subordinate only to the first priority security interest of the Term Loan Lenders in such other assets.

Table of Contents

The Asset-Based Credit Agreement contains customary events of default and financial, affirmative and negative covenants, including but not limited to a springing financial covenant relating to the Company's fixed charge coverage ratio and restrictions on indebtedness, liens, investments, asset dispositions and dividends and other restricted payments.

Also on June 11, 2013, the Company entered into a credit agreement (the "New Term Loan Credit Agreement") among the Company, Credit Suisse AG, as Administrative Agent and Collateral Agent, and the lenders party to the New Term Loan Credit Agreement (the "Term Loan Lenders").

Under the New Term Loan Credit Agreement, the Term Loan Lenders agreed to make a term loan (the "New Term Loan") to the Company in aggregate principal amount of \$145 million. The outstanding principal amount of the New Term Loan will bear interest at a rate per annum equal to the applicable LIBOR rate (with a 1% floor) plus 8.50%, or the base rate plus a margin of 7.50%. Interest on loans under the New Term Loan Credit Agreement bearing interest based upon the base rate will be due quarterly in arrears, and interest on loans bearing interest based upon the LIBOR rate will be due on the last day of each relevant interest period or, if sooner, on the respective dates that fall every three months after the beginning of such interest period.

The New Term Loan matures on June 11, 2019. The New Term Loan Credit Agreement requires prepayments at specified levels upon the Company's receipt of net proceeds from certain events, including: (1) certain dispositions of property, divisions, business units or business lines; and (2) other issuances of debt other than Permitted Debt, as defined in the New Term Loan Credit Agreement. The Post-Emergence Term Loan Credit Agreement also requires prepayments at specified levels from the Company's excess cash flow. The Company is also permitted to voluntarily prepay the New Term Loan in whole or in part. Any prepayments are to be made at par, plus an early payment fee calculated in accordance with the terms of the New Term Loan Credit Agreement if prepaid prior to the second anniversary of the New Term Loan Credit Agreement.

Pursuant to a Guarantee and Collateral Agreement dated as of June 11, 2013 (the "New Term Loan Security Agreement"), the New Term Loan is secured by a first priority security interest in substantially all assets of the Company and the guarantor subsidiaries. Under an intercreditor agreement between the Asset-Based Lenders and the Term Loan Lenders, the Term Loan Lenders have a second priority security interest in substantially all working capital assets of the Company and the subsidiary guarantors, subordinate only to the first priority security interest of the Asset-Based Lenders in such assets, and a first priority security interest in all other assets.

The New Term Loan Credit Agreement contains customary events of default and financial, affirmative and negative covenants, including but not limited to quarterly financial covenants commencing on the fiscal quarter ending October 26, 2013, relating to the Company's (1) minimum interest coverage ratio and (2) maximum net total leverage ratio and restrictions on indebtedness, liens, investments, asset dispositions and dividends and other restricted payments.

The Company was in compliance with these covenants as of the end of the first six months of fiscal 2014 and was in compliance with the minimum liquidity covenant as of the end of each fiscal month in the first six months of fiscal 2014. The Company closely evaluates its expected ability to remain in compliance with the financial covenants under our New ABL Security Agreement and New Term Loan Credit Agreement. Based on current projections, the Company believes it will maintain compliance with these financial covenants through the remainder of fiscal 2014.

Net cash provided by operating activities for the Successor Company was \$14.3 million and net cash used in operating activities for the Predecessor Company was \$20.0 million for the six months ended October 26, 2013. This compares with cash provided by operations of \$19.5 million for the six months ended October 27, 2012, or a combined decrease of \$25.2 million. The decrease is primarily due to decreased net income of approximately \$26 million, after adjusting for non-cash items in net income. Approximately \$18.3 million of the decreased net income was attributable to bankruptcy-related cost for professionals or other financing related fees which were paid in the first six months of fiscal 2014.

Table of Contents

In addition, the Company's had accrued approximately \$6.2 million of bankruptcy-related professional fees in fiscal 2013 which were paid in fiscal 2014. Partially offsetting the decline in cash from operations was approximately \$16.0 million of working capital improvements, specifically for prepaid expenses. This improvement in the current year was due to the impact of the bankruptcy as the Company had to prepay, in fiscal 2013, for inventory purchases needed for the fiscal 2014 season as some vendors would not extend credit terms during the bankruptcy. The Company has been working closely with its vendor base to re-establish credit terms and expects that most vendors will provide historic credit terms for prospective purchases.

Net cash provided by investing activities was \$22.7 million for the Successor Company and net cash used in investing activities was \$0.7 million for the Predecessor Company, which on a combined basis was up \$27.4 million from last year's six month period. Approximately \$29.0 million of the increase was related to changes in restricted cash account balances. Approximately, \$25.0 million of this reduction in the restricted cash account related to the early termination fee associated with the Bayside term loan (see Note 17 – Restricted Cash).

Cash flow from financing activities for the Predecessor Company reflects cash payments of \$148.6 million to retire debtor-in-possession financing. The proceeds of the exit financing were \$165.9 million for the Predecessor Company. The Predecessor Company incurred \$9.4 million of debt issuance costs. Net borrowings on the debtor-in-possession ABL were \$7.6 million for the period ended June 11, 2013. Net cash used in financing activities for the twenty weeks ended October 26, 2013 was \$41.9 million. Approximately \$21.0 million relates to the payment of the early termination fee for the Bayside term loan, which was accrued in fiscal 2013. The payment was funded from the Company's restricted cash account (see Note 17 – Restricted Cash). Net repayments on the New ABL Facility were \$20.3 million for the twenty weeks ended October 26, 2013.

We anticipate that our cash flow from operations, borrowings available from our existing credit facility and other sources of capital will be sufficient to meet our liquidity requirements for operations, including anticipated capital expenditures and our contractual obligations for the foreseeable future.

Fluctuations in Quarterly Results of Operations

Our business is subject to seasonal influences. Our historical revenues and profitability have been dramatically higher in the first two quarters of our fiscal year, primarily due to increased shipments to customers coinciding with the start of each school year. Quarterly results also may be materially affected by the variations in our costs for the products sold, the mix of products sold and general economic conditions. Therefore, results for any fiscal quarter are not indicative of the results that we may achieve for any subsequent fiscal quarter or for a full fiscal year.

Inflation

Inflation, particularly in energy costs, has had and is expected to have an effect on our results of operations and our internal and external sources of liquidity.

Forward-Looking Statements

Statements in this Quarterly Report which are not historical are "forward-looking" statements within the meaning of the Private Securities Litigation Reform Act of 1995. The forward-looking statements include: (1) statements made under Item 2, Management's Discussion and Analysis of Financial Condition and Results of Operation, including, without limitation, statements with respect to internal growth plans, projected revenues, margin improvement, capital expenditures, adequacy of capital resources and ability to comply with financial covenants; and (2) statements included or incorporated by reference in our future filings with the Securities and Exchange Commission. Forward-looking statements also include statements regarding the intent, belief or current expectation of School Specialty or its officers. Forward-looking statements include statements preceded by, followed by or that include forward-looking terminology such as "may," "should," "believes," "expects," "anticipates," "estimates," "continues" or similar expressions.

All forward-looking statements included in this Quarterly Report are based on information available to us as of the date hereof. We do not undertake to update any forward-looking statements that may be made by us or on our behalf, in this Quarterly Report or otherwise. Our actual results may differ materially from those contained in the forward-looking statements identified above. Factors which may cause such a difference to occur include, but are not limited to, the risk factors set forth in Item 1A, "Risk Factors" of our Annual Report on Form 10-K for the fiscal year ended April 27, 2013.

[Table of Contents](#)**ITEM 3. Quantitative and Qualitative Disclosures About Market Risk**

There have been no material changes in qualitative and quantitative disclosures about market risk from what was reported in our Annual Report on Form 10-K for the fiscal year ended April 27, 2013.

ITEM 4. Controls and Procedures**Evaluation of Disclosure Controls and Procedures**

Based on an evaluation as of the end of the period covered by this quarterly report, the Company's principal executive officer and principal financial officer have concluded that the Company's disclosure controls and procedures (as defined in Rule 13a-15(e) under the Securities Exchange Act of 1934 (the "Exchange Act")) were not effective for the purposes set forth in the definition of the Exchange Act rules due to a material weakness in internal control over financial reporting related to accounting for non-routine transactions.

Changes in Internal Control Over Financial Reporting

There were no changes in our internal control over financial reporting (as defined in Rule 13a-15(f) under the Exchange Act) during the fiscal quarter ended October 26, 2013 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.
