Project No./Name _____
Contract Date 05-29-22
Period: From _____ To _____

This provision applies to GPR services and supersedes anything to the contrary elsewhere in the agreement between Brookbank Core Drilling & Sawing, Inc. and Client. Client acknowledges that it has been informed by Brookbank Core Drilling & Sawing, Inc. that the use of GPR technology is not error free. There are limitations on the use of GPR to locate buried or embedded objects in the ground or in structures. These include, for example, field conditions, soil moisture, content, material type, masking of deeper embedment by shallow embedments and thickness of the material to which the GPR services are to be applied. Only centerlines of embedded objects can be located which may make GPR less precise than other embedded object location technologies such as X-ray. Notwithstanding such information, Client desires to engage Brookbank Core Drilling & Sawing, Inc. for GPR services. Additionally, Brookbank Core Drilling & Sawing, Inc. may rely on statements and plans of Client's representatives (including on-site employees or employees or representatives of contractors or subcontractors working for Client) as to the characteristics of the structure or location to be tested using GPR services. Client agrees that it shall have the sole responsibility for the use of any information obtained as a result of the GPR services, including reliance on any data therefrom in order to determine the location of drilling operations or other penetration of the location, area or structure to which the GPR services are applied. Brookbank Core Drilling & Sawing, Inc. has no responsibility or obligation other than to deliver the GPR services and the results obtained from application of GPR. How and when the work product from the GPR services shall be used (or not used) shall be in the sole and executive discretion of the Client; and Brookbank Core Drilling & Sawing, Inc. shall have no obligation or responsibility to Client after the required GPR services are completed and the work product delivered.

Brookbank Core Drilling & Sawing, Inc. makes no, and hereby expressly disclaims all, warranties, expressed or implied, with respect to the nature, quantity or quality of the services to be performed hereunder. Except to the extent of its gross negligence or willful misconduct, Brookbank Core Drilling & Sawing, Inc. shall not be liable to the customer for any damages as a result of its performance or failure to perform the services. The structural survey report is based upon the interpretation of the data collected by Brookbank Core Drilling & Sawing, Inc. and is provided solely for illustration and informational purposes. Brookbank Core Drilling & Sawing, Inc. is not responsible for any loss or damage caused, arising out of the use of, or reliance upon the data collected or report generated.
