

their Customers. That same day, the Court entered the *Order Approving Commitment Letter from Transcontinental Gas Pipe Line Company, LLC* (the “**Transco Interim Order**”) [Docket No. 45], pursuant to which the Court approved a Commitment Letter that provided for a week’s funding from Transcontinental Gas Pipe Line Company, LLC (“**Transco**”) to fund the Atlantic Sunrise Pipeline project (the “**Project**”) for the period from October 22, 2018 through and including October 29, 2018. The Court later issued a second interim order (the “**Second Transco Interim Order**”) [Docket No. 111] on October 29, 2018 for the period from October 30, 2018 through and including November 4, 2018.

Over the past week, the Debtors have been involved in negotiations with Transco regarding arrangements for the timely completion of the Project. As the result of those negotiations, the Debtors and Transco have reached an agreement to continue funding the Project through December 8, 2018, and the demobilization of the Debtors from the Project, through a third interim commitment letter (the “**Commitment Letter**”), as set forth in Exhibit 1 appended to the proposed form of order (the “**Proposed Order**”), attached hereto as Exhibit A.

Although the Customer Procedures Order permits the Debtors to enter into Customer Project Completion Agreements without further order of the Court, Transco has requested such an order. Therefore, the Debtors request that the Court enter the Proposed Order approving the Commitment Letter at its earliest convenience without further notice or hearing.

Although the Debtors do not believe it to be required under the Customer Procedures Order, the Debtors have conferred with the official committee of unsecured creditors (the “**Committee**”) regarding the Commitment Letter. Counsel for the Committee has indicated to Debtors’ counsel it does not yet have a position on the Commitment Letter, and does not expect to have one before tomorrow. However, the Debtors believe this funding delay could

negatively impact their estates, and so have informed counsel to the Committee they will file this certification today and request entry of the Proposed Order at the Court's earliest convenience.

Re: Williams Atlantic Sunrise – Go Forward Work Structure with Welded (Spreads 5, 6, and 7)

On October 20, 2018, Transcontinental Gas Pipe Line Company, LLC (“Transco”) and Welded Construction, LP (“Welded”) executed, and the Bankruptcy Court approved, a Commitment Letter pursuant to which Transco prepaid \$4,600,000 for continuing the work under Transco-Welded contract 2016-0001 (the “Contract”) between October 22, 2018 and October 29, 2018 (First Commitment Letter). Thereafter, on October 28, 2018, Transco and Welded executed, and the Bankruptcy Court approved, a second Commitment Letter pursuant to which Transco prepaid \$1,800,000 for continuing work under the Contract between October 30, 2018 and November 4, 2018, and addressed the payment of accrued and unpaid pre-petition union dues and benefits that have or will become due on or prior to November 4, 2018 (Second Commitment Letter).

Transco and Welded now wish to address in a Third Commitment Letter the funding of work between November 5, 2018 and the conclusion of the remaining work set forth herein (which shall be no later than November 15, 2018 for right of way work, no later than November 21, 2018 for Spread 5 and 7 yard cleanup and no later than December 8, 2018 for Spread 6 yard cleanup).

Welded has provided Transco a reconciliation which demonstrates that at least \$1,917,476.00 of the \$4,600,000 prepayment made pursuant to the First Commitment Letter remains available for work on the project.¹ Welded has not yet provided a reconciliation for the \$1,800,000 prepayment made pursuant to the Second Commitment Letter. By November 8, 2018, Welded shall provide Transco a reconciliation of the \$1,800,000 prepayment provided pursuant to the Second Commitment letter compared to actual costs incurred for the week of October 29, 2018 – November 4, 2018, including detailed timesheet backup.

¹ Transco does not have the backup detail for this reconciliation and, thus, reserves its right to audit the actual costs of work performed pursuant to the First Commitment Letter.

By November 8, 2018, Welded shall provide Transco a revised forecast of work to be performed and costs to be incurred by Welded on the Project for the remaining work set forth herein.

Given the limited remaining work on the Project, regulatory restrictions on the time in which work must be completed and upcoming winter weather, Transco is agreeable to allow the \$1,917,476.00 held by Welded in connection with the First Commitment Letter, and an additional \$1,650,000² to be funded pursuant to this Third Commitment Letter within twenty-four (24) hours of Court approval of this Third Commitment Letter, subject to the reconciliation procedures set forth below, to be used for remaining scope of work on the Project for Welded labor and equipment costs (for Included Equipment), subject to court approval, as follows:

Contractor Yards

- Welded shall continue the demobilization efforts on the three main contractor yards at Rausch Creek (Spread 5), Lebanon (Spread 6) and Marietta (Spread 7). Work shall include removal of all temporary trailers, construction mats, fuel storage tanks and associated secondary containment, equipment and tools, and trash.
- Welded shall furnish all trucking, fuel, and permits necessary to fulfil above mentioned scope of work.
- Above scope of work shall be completed no later than November 21, 2018 for Spreads 5 and 7 yards and no later than December 8, 2018 for Spread 6 yard.

Spread 5

- Welded shall continue the clean-up and restoration efforts on Spread 5 for as long as the parties agree is practicable without requiring the use or transport of heavy equipment past November 15, 2018. Due to the U.S. Fish and Wildlife regulatory restriction near the established bat portal area, all heavy equipment must be removed from the pipeline right-of-way no later than November 15, 2018.
- All heavy equipment in other areas of the pipeline right-of-way shall be removed no later than November 15, 2018. Welded shall furnish all trucking, fuel, and permits necessary to remove all equipment. Transco will directly pay all subcontractor, service providers and vendors attributable to the remaining work set forth herein (but only to the extent not otherwise included in "Included Equipment").
- Clean-up and restoration of the Bethel Road staging areas shall cease as of November 7, 2018.

Spread 6

- Welded shall remove all equipment from the pipeline right-way no later than November 15, 2018. Welded shall furnish all trucking, fuel, and permits necessary to remove all equipment. Transco will directly pay all subcontractor, service providers and vendors attributable to the remaining work set forth herein (but only to the extent not otherwise included in "Included Equipment").

² Such amount is inclusive of fixed overhead costs of \$25,000 per week from the Petition Date through December 8, 2018, which amount shall be available to the Debtors for general use, not subject to reconciliation, to offset the significant overhead costs not captured in the project cost estimate.

Spread 7

- All clean-up and restoration efforts on the pipeline right-of-way shall cease as of November 7, 2018.
- All remaining work on mainline block valves (MLVs) shall cease as of November 7, 2018.
- Welded shall remove all equipment from the pipeline right-way no later than November 15, 2018. Welded shall furnish all trucking, fuel, and permits necessary to remove all equipment. Transco will directly pay all subcontractor, service providers and vendors attributable to the remaining work set forth herein (but only to the extent not otherwise included in "Included Equipment").

Transco will directly pay all subcontractors, service providers and vendors attributable to the remaining work set forth herein (but only to the extent not otherwise included in "Included Equipment"). Welded and Transco will cooperate to identify the subcontractors, service providers and vendors necessary for the remaining work set forth herein. To the extent of a dispute regarding costs of subcontractors, service providers or vendors in connection with the remaining work set forth herein or whether such costs were necessary for the remaining work set forth herein, the Bankruptcy Court will resolve the dispute.

All funds contemplated herein shall be used for the benefit of the Project only and to be applied only to costs incurred during the time periods stated above. Said amounts are not to be construed as payment for, or payment which can be used for, payment of past due amounts owed by Welded in arrears, or payment of amounts Welded owes in connection with work performed for Welded's other clients. Within ten (10) business days after December 8, 2018, Welded shall provide Transco a reconciliation of all remaining amounts for obligations that accrued or were incurred for forecasted work versus actual cost of work which shall be subject to Transco review and audit. In the event there is a remainder, that amount shall be refunded to Transco within one business day and shall not be withheld for any reason.

If Welded uses any portion of payments made herein to pay past due amounts owed to its subcontractors, vendors, or suppliers, or debts or work associated with projects for other clients and, as a result, short pay invoices due on the Project, such short paid subcontractors, vendors, or suppliers would be protected under the payment bond provided in connection with the Project. Further, Transco is not compromising its ability to enforce the Project bond with respect to amounts Welded subcontractors, vendors, or suppliers may claim in relation to work previously performed or materials or equipment previously provided.

Union Dues:

Welded has requested that Transco make additional payment of all accrued and unpaid pre-petition union dues and benefits that have or will become due in November, 2018 in connection with the Project ("Additional Union Dues"). Transco agrees to make payment of such Additional Union Dues in an amount not to exceed \$1.75 million, subject only to Transco's right to perform due diligence to reasonably affirm that the amounts that have been incurred in connection with and only for the benefit of the Project and in the proper amount. Such payment must also be subject to a reservation of rights agreement with the Surety and subject to Welded's commitment to advance the work on the Project as set forth herein. To that end, Transco and the surety Chubb may speak directly with the Unions to diligence the Additional Union Dues and

to assure the unions that such amounts will be satisfied to help assure that workers will continue to work on the Project, but subject to the agreement that a representative of Welded will participate in any such communications. Finally, Transco shall have the right to make any payment of Additional Union Dues directly to the unions.

Payment of Additional Union Dues payment would be without prejudice to the rights, remedies and defenses of Transco to assert that such payments were already paid based on an earlier Project invoice from Welded. To the extent there is a dispute as to whether the Union Dues are on account of the Project, the Bankruptcy Court would resolve the dispute.

Completion of Scope of Work:

At 12:01 a.m. EST on November 7, 2018, unless otherwise agreed in writing by Welded and Transco, the Scope of Work set forth in the Contract shall be deemed reduced such that any remaining clean-up, restoration and mainline valve work on the pipeline right of way for Spread 7 shall not be required under the Contract. From that point, Welded shall not be obligated to complete any such remaining clean-up, restoration and mainline valve work on the project. In addition, from that point, Transco shall not be obligated to use Welded to complete any such remaining clean-up, restoration and mainline valve work on the project. At 12:01 a.m. EST on November 16, 2018, unless otherwise agreed in writing by Welded and Transco, the Scope of Work set forth in the Contract shall be deemed reduced such that any remaining restoration work shall not be required under the Contract. From that point, Welded shall not be obligated to complete any remaining restoration work on the project. In addition, from that point, Transco shall not be obligated to use Welded to complete any remaining restoration work on the project. At 12:01 a.m. EST on November 22, 2018, unless otherwise agreed in writing by Welded and Transco, the Scope of Work set forth in the Contract shall be deemed reduced such that any remaining cleanup work on Spreads 5 and 7 yards shall not be required under the Contract. From that point, Welded shall not be obligated to complete any remaining cleanup work on Spreads 5 and 7 yards on the project. In addition, from that point, Transco shall not be obligated to use Welded to complete any remaining cleanup work on Spreads 5 and 7 yards on the project. At 12:01 a.m. EST on December 9, 2018, unless otherwise agreed in writing by Welded and Transco, the Scope of Work set forth in the Contract shall be deemed reduced such that any remaining cleanup work on Spread 6 yard shall not be required under the Contract. From that point, Welded shall not be obligated to complete any remaining cleanup work on Spread 6 yard on the project. In addition, from that point, Transco shall not be obligated to use Welded to complete any remaining cleanup work on Spread 6 yard on the project. Transco shall use its commercially reasonable best efforts to remove Welded from all permits associated with the Project as of December 9, 2018, including, but not limited to those certain permits that Welded and Transco are co-permittees on PADEP Permit No. ESG03000150001 and all related local government permits, consistent with the applicable rules, guidelines and regulations of PADEP and other applicable governmental authorities, and from the date of the conclusion of Welded's work on each Spread as set forth herein, shall indemnify and hold harmless Welded (including any officers and directors of Welded) for any permit responsibilities or liabilities arising under the project from any acts and/or omissions occurring after the completion of the work on such Spread contemplated by this Third Commitment Letter. Transco shall not indemnify and hold harmless Welded (including any officers and directors of Welded) for any permit responsibilities or liabilities arising under the project from any acts and/or omissions occurring on or before the completion of the work contemplated by this Third Commitment Letter. Transco and Welded otherwise reserve all rights against each other as provided in the Contract and the Surety Bond shall remain in full force and effect.
