Docket #0031 Date Filed: 11/20/2013

Adv. Case No: 13-01350

Dear Judge Glenn,

Your honor, my case was never litigated in no court, the first case would have been heard if I could have paid the $5500.00 into the court registry. Filing Pro Se, I was unaware at the time I was eligible for Indigence. I tried desperately to stay in our home. I was working with USAA Federal Savings Bank(at the time of foreclosure) for a loan modification who was my original lender, GMAC came out of no where and foreclosed. It saddens me to this day how they just took our home and put us on the streets, now they are trying to bar me from telling how I was mistreated, they brought me into your courtroom with their story, now they are trying to keep the facts from coming out. Your honor, why would GMAC list me as a creditor if they did not wrongfully foreclose on our Home?.

I don't have a clue, although I know they wrongfully foreclosed, a court has not determine that, nor has GMAC admitted their wrong doing.

why am I listed as their creditor, when it has not been determined(I feel they are trying to win at their own game). Your honor, I came to New York on a wing and a prayer to be heard. GMAC has wrongfully taken so many homes across the country. Your honor, they've never admitted to me they

owe me money, instead they filed bankruptcy and listed me as their creditor, in order to have whatever amount discharged. Your honor if GMAC/Residential Capital had not brought me into your court, I wouldn't be here now, if GMAC had the right to foreclose, I wouldn't be listed in their bankruptcy, and I wouldn't be here now, they brought me into court, now they want to bar me from being heard for the first time. Your honor in spite of them paying out billions of dollars for their wrong doings, the Title Search shows they are still practicing fraud. USAA Federal Savings and GMAC is involved in selling the same house to Mrs. Hall the same way. Your honor, I asked the attorney(Jeff Rosenberg for two months to respond to their motion to dismiss, he later called me and said Judge Glen had his secretary call me and said you couldn't have that long(your honor that was fine, if you said that, I understood you telling the attorneys when I came to New York to give me enough time to respond, you did not give a set time, I know asking two months was long, I had to give the best I could as a lay person in reference to the response. I was able to answer by the fourth of November), if you didn't say that, that is a prime example of how they do things). I tried for three years to get to the bottom of who Hold the Original Secured Instrument, I feel because I am Pro Se, GMAC did not feel

obligated and their actions shows that. Your honor the Title Search shows they have sold the house once again without ownership.

Respectfully,

Alfredia Pruitt

Alfredia Pruitt

I filed a chapter 13 even if it was my 3rd filing, they didn't know if the stay would be granted until they filed a motion, although they did not start the foreclosure proceeding over they did not relist it for a future sale date. GMAC has been fined for their servicing practices. Your honor they open the door for my case to be heard for my (GMAC) list me as their once they Creditor in your Court.
