Important Information

Account Information

The Infrastructure Recovery Mechanism (IRM) Surcharge, which may be included in Other Delivery Volumetric Surcharges on your bill, has been updated. The IRM allows DTE to improve your reliability by modernizing the electric grid - replacing poles and wires, rebuilding aging portions of the grid and adding smart technology that helps DTE reduce outages and outage duration.

The Michigan Public Service Commission approved changes to charges on your bill, starting March 5, 2026, that support improvements to reliability and clean energy advancements. Your power supply and distribution charges will change, depending on your monthly usage. The Nuclear Surcharge has also been updated.

The Power Supply Cost Recovery (PSCR) line item on your bill recovers the cost of fuel, purchased power, renewable resources and transmission used to provide electricity. Because these costs can fluctuate based on market conditions, this charge is adjusted periodically.

To assure billing accuracy, your prior charges have been recalculated based on actual meter readings.

This is your final bill. DTE will review your account to determine if the balance belongs to an Agency, State Fund or you. If the balance is determined to belong to you, any credit balance greater than $2.00 will be transferred to your active account within 60 days. If no active account exists after 60 days, any credit balance greater than $2.00 will be refunded to you. Thank you for allowing us to serve you.

DTE

Please return your check or money order, payable to DTE Energy, five business days prior to the due date. Do not send cash or attach notes.

Be sure to write your account number(s) on your check or money order.
