When shopping for a natural gas supplier, it may be useful to compare supplier offers with the standard service offer (SSO) rate available to eligible customers, which varies monthly based on the market price of natural gas. Price represents one feature of any offer; there may be other features which you consider of value. More information about SSO and other suppliers' offers is available at energychoice.ohio.gov or by contacting the PUCO.

Duke Energy does not maintain customers' natural gas piping after or downstream of the meter. You should maintain such piping by periodically inspecting for leaks. If the piping is metal, you should also check for signs of corrosion. You should repair such piping if leaks or corrosion are discovered. For assistance locating, inspecting or repairing buried piping, please contact a licensed heating/plumbing contractor. You should always call 811 prior to digging. Once your lines are marked, always dig by hand if digging near natural gas piping.
