EAI & EY ***Estimated Annual Income (EAI) & Estimated Yield (EY)*** *- EAI is an estimate of annual income for a specific security position over the next rolling 12 months. EAI may be negative on short positions. EY is calculated by dividing the current EAI for a security position by its statement closing date market value. EAI and EY are estimates only and may include return of principal and/or capital gains, which would render them overstated. Actual income and yield might be lower or higher than the estimated amounts.* ***For calculation details, refer to the "Additional Information and Endnotes" section.***
