ATTENTION!

We know bills are high and that matters to us.

MARYLAND'S ENERGY PROBLEM — AND WHAT IT MEANS FOR YOUR BILL.

Blackout Risk

When demand is high ↗ and power supply is low ↘ the system becomes less stable, extreme heat and cold increase outage risk and blackouts become more likely.

Not enough power means higher bills and higher risk for customers.

If Nothing Changes...

- ↗ Blackout risk increases
- ↗ Energy prices keep rising
- ↗ Private power plant company profits grow

Why your electric bill is going up ↗

The biggest part of your bill is the cost of PJM Supply which is generated by private power plant owners like Calpine, NRG, Talen Energy, Vistra and Constellation.

Customers are seeing the impact of multiple forces at once. These factors together are driving upward pressure on bills.

PJM Supply costs

A charge for the electricity provided to you during the billing period. BGE does not control or profit from PJM Supply costs.

Delivery costs

The cost of wires, poles and equipment that deliver electricity safely and reliably to your home or business.

Fees

State and local taxes, fees, and credits including EmPOWER Maryland charges that fund energy-efficiency programs that are paid directly to the state or support state programs.

What BGE is doing for customers

Connecting customers to available assistance, including through our Customer Relief Fund.

Expanding programs that help reduce energy use and lower bills.

Protecting customers from cost impacts tied to large energy users like data centers.

Investing in technology to reduce outages and keep costs lower over time.

Advocating for utility generated energy to increase supply.
